## Old Folks Home Drive Falters

"We only have ten more days and we need the help of every person to assure a golden age home Hereford," Henry Sears stated Saturday. As chairman of the Hereford Area Foundation fund drive, Sears expressed a need for every person to take part in the good - will gift needed to get a million - dollar home for the aged.

Deadline for raising \$100,000 is Sept. 14, since final decision on the home's location is to be made the following day.

### See pledge agreement on Page 7, Section 1

By Saturday morning, Sears tallied \$35,290 in gifts and firm pledges although more was expected soon. The Hereford Area Foundation is accepting pledges and/or donations toward the needed good - will gift. The donations need not be paid for some time, Sears pointed out. Foundation president C. Palmer Norton joined in urging the public to contribute to the drive. "The home that is planned here is far larger and more expensive than anything we could have done on our own," he emphasized. "We have a chance to get this home for only a small part of the actual cost, so far as we are concerned."

Sears has called a meeting of the 30 directors of the Hereford Area Foundation, and others interested, for 5 p. m. Tuesday, Sept. 6. "We have to get ready for an intensive drive and will need all the help we can get," he said. How does it happen that Hereford needs \$100,000 for a golden age home that will cost more than a million dollars?

Seeing the need for a home for the aged in Hereford, the Business and Professional Women's Club called together a group to plan for such a home. They started meeting last fall.

In January the group, which later became the Hereford Area Foundation, heard the

Methodist Church was interested in locating such a home in this area. After a meeting with the Rev. Don Davidson, former pastor here, the group voted to ask that such a home be located here.

At the annual Methodist conference for the Northwest Texas District, a separate corporation was formed to locate four such homes in the conference area. Members of the "Northwest Texas Methodist Homes for older Adults, Inc." voted to build the first home in Hereford if two stipulations were met.

## City Invitational Entries Coming In

Deadline for entering the Ninth Annual Hereford Invitational Golf Tournament is 6 p. m. Thursday, Sept. 8. First round matches of the three - day journey will begin Friday, according to Hereford pro Bud Posey.

Some 100 area golfers are expected to enter the tourney, which is the biggest event of the year on the local links. There will be no qualifying rounds, as golfers will be placed in flights according to their handicaps. Sixteen golfers will make up a flight.

Ben Lane Jr. of Amarillo is defending champion, having defeated Roland Adams of Lubbock by one stroke in the final 27 holes of medal play in 1959.

Local golfers expected to enter are Charles Seed, John Eldridge, Bob Lindsey, Frank Cogdell, Joe Butler, Glen Renter and Punk Gilbreath. Strong area golfers expected are Arthur Payton and Paul Jones of Clovis, N. M.; Russell

Haberer and Bill St. Clair of Muleshoe; Bob Giese, Charles Douglas, Bill Garrett, C.L. Duniven, Bill Ford and others of Amarillo; Dick Truitt of Quanah; Jimmie and Al Craig of Canyon; and Al Holton, Dave Lawson and Murrell Tripp of Lubbock.

All day Thursday, through 7 p. m., registration will be conducted for amateurs. At 7 p. m., a buffet dinner will be served to all contestants and their wives.

First round matches in all flights will be played Friday. On (Continued on Page 3)

ADVANCE GUARD for the 1960 maize harvest arrived in Hereford on Thursday morning. Billy Trotter, who farms in the Jumbo Community, brought in a load to Pitman Grain at 9:30 a.m. The grain was dryland and tested well above 15 per cent moisture. Friday afternoon at 2:30 George O'Brien brought in a load cut at Jumbo. It went to Community Grain and tested about the same on moisture. It was cut on the H. A. Cavness farm. (Staff Photo)

## First Maize In Elevators

Maize made its first appearance in area elevators this week, and many farmers in Deaf Smith County predict a bumper crop of the small grain this fall. Wheat farmers continue to

seed their 1961 crops in moist soil. Some wheat has already broken through the ground.

Harvesting of carrots has been under way for the past month, but only light shipments have left Hereford. Carrot processing is expected to be in full swing by the end of this month. Harvesting of lettuce, a quick crop in this county, will get under way in about three weeks, shed operators predicted Friday. An exceptional crop of cabbage is selling at about \$35 a ton.

George O'Brien took a load of Rocket Asgrow variety maize grown of dryland to Community Grain Co. at 2:30 p. m. Friday. The load, grown on the H. A. Cavness farm, had a 19 per cent moisture content.

Generally, maize will be too green to harvest until the middle of this month or later, elevator managers said Saturday. Harvesting operations should be in full swing by the first of October.

Most maize farmers in this area feel that the crop this year should be excellent. From 150,000 to 165,000 acres will be harvested, one elevator manager predicted.

Demand on a quality crop of carrots grown in this area is slow. Harvesting should pick up within the coming week, a shed operator said Friday. Presently, only light shipments

of the crop are leaving Hereford. About 25 per cent of the crop has been harvested, one processor said Friday evening.

For the past two weeks, farmers have been seeding wheat for the 1961 crop. More than 200,000 acres of wheat should be grown this year. Most of the crop seeded to date has been on irrigated farms.

Before the end of this month, harvest of cotton should be started. About 10,000 acres should be harvested, a cotton grower said.

Harvest on potatoes and onions, generally speaking, has been completed. Most of the potatoes were dug up by the end of August.

Less than an inch of scattered rain fell in the county last Monday. The run - off rain, however, did little in hampering planting and harvesting operations on local farms.

## Around Town

It took the removal of 21 trees, but many Hereford residents were surprised to find that there isn't a name anywhere on the outside of the courthouse. The square now looks as bare as Mother Hubbard's cupboard, but it should look a lot different with the addition of shrubs, grass and some ornamental trees.

A meeting of all committee chairmen for the 1960 Harvest Festival has been called for 7 a. m. Wednesday, Sept. 7, at the Western Wheel Inn. Agenda includes recommendations for the 1961 Festival, election of a chairman for next year's events, and selection of dates for the Festival.

## Scrimmage Film Slated At Club Meeting Monday

Films of Hereford's football scrimmage session against the Amarillo Sandies will be shown during the Whiteface Booster Club meeting Monday, Sept. 5.

The public is invited to attend the meeting, which will be held at 8 p. m. in the Hereford community center.

Varsity and junior high school also are expected to report on prospects for their first games. The varsity and B teams swing (Continued on page 2)

## Mr. Penney Trots Into First Place

By H. A. TUCK  
BRAND NEWS EDITOR

A tall chestnut stallion from Hereford last week end won first place in the open class and then was named first in the stakes, which included all winners, in a large horse show.

His owner, Lloyd Widdfield, was delighted and so were his own particular band of supporters who form a rooting section

when he performs. Object of all this enthusiasm is Mister Penney, a beautiful red show horse.

Mister Penney won two large blue ribbons and two silver bowls for his feats during the Santa Fe Horse Show, performing in the five - gaited class to become named the best American saddle horse in the competition.

The honors meant a lot to the owner, too, for it was the justification of faith that Mister Penney could be a winner in the riding class.

And the free - form silver bowls, made by Indian craftsmen, proved it beyond a doubt for a horse that seemed to be permanently assigned to second place.

Nicknamed "Red," the horse was purchased by Widdfield in Lexington, Ky., as a colt. Now a coming ten - year - old, Red was entered in shows when he was two . . . and he won the very first time in the harness class. Too young to ride, he pulled Widdfield in a light sulky and proved his generations of fine breeding.

As he got older, Widdfield started training him as a saddle horse. And Red performed well . . . but not quite well enough. He usually won second place.

"I think he likes the other horses too well," Widdfield grinned as he brushed Red's gleaming auburn coat. "He wants to stop and visit them instead of passing them in the ring."

Widdfield, who doesn't ever have to explain his horse's name (Continued on page 2)

### For Labor Day

### Stores Close, Classes Open; \$ Day Tuesday

Tuesday, Sept. 6, will be observed as Dollar Day in Hereford due to the Labor Day holiday. All Dollar Day bargains are advertised in this issue of the Brand.

Hereford stores and service establishments will be closed Monday, Sept. 5, for Labor Day. However, most residents will remain in the city since the Hereford School System will conduct classes during the day.

Banks, city and county offices and virtually all business will be closed, as this holiday is an official Chamber of Commerce holiday.

Several meetings will be held Monday night as planned. The City Commission will hold its regular meeting at 7:30 p. m. The Whiteface Booster Club will meet in the Hereford Community Center at 8 p. m.

## Issue Warning On Too Much Wheat

With seeding of the 1961 winter wheat crop now under way, growers are reminded by the Deaf Smith County Agricultural Stabilization and Conservation office in Hereford that overplanting a farm's wheat allotment will usually have indirect as well as direct effects upon the farm's crop or operation.

Farmers generally understand very well that wheat from a farm where the wheat allotment has been exceeded is not eligible for price support, said Faust Collier, manager of the ASC office in Hereford.

With a few exceptions, such as the 15 - acre exemption provision and the feed wheat exemption, it will also be subject to marketing quota penalties. What is not so well understood, however, Collier said, is that such overproduction can also reduce the farm's wheat allotments under a ruling provided by legislation enacted within recent years.

"If a farmer complies with his 1961 allotment," Collier pointed out, "the base acreage - which is the farm wheat acreage allotment plus the acreage diverted from wheat for the current year - will be considered as the farm's wheat acreage history for 1961 in establishing future wheat allotments."

If the farmer does not comply with his 1961 farm wheat allotment, the general rule is that only the 1961 allotment will be considered as the farm's (Continued on page 2)

## Scout Executive Named For Two Local Districts

An El Paso man has been named new Scout Executive for the Tierra Blanca and Randall County districts of the Boy Scouts of America.

He is Luis Machuca, who will report to the new post headquarters in Hereford about Nov. 1. He was selected from a number of applicants during a district meeting Thursday night.

Machuca will attend the national Scouters training school before coming to Hereford. He is a native of El Paso, a graduate of Texas Western University there and has been in Scout work for many years. He has been a Scoutmaster and has served five years on the El Paso Scout Council as a director. He is 28 years old and single.

Machuca's appointment was announced by District Chairman Orpha Click. Machuca will replace Raymond Fletcher, who resigned Aug. 1 to enter private business.

NEW QUARTERS for the Deaf Smith County Chamber of Commerce were occupied at 126 East Third on Thursday. The same day Mrs. Casie Thomas (Mrs. J. W. Thomas) took over as secretary at the Chamber. The new office space includes a large lobby area, work and storage room, kitchenette, restroom and conference room. (Staff Photo)

## 28 Unexpected Guests?

## Adrian Puts Out Welcome Mat

By MRS. R. L. FINNELL  
Brand Staff Correspondent

Adrian is one name on the Texas map which will not be forgotten soon by 28 Boy Scouts and their leaders. The group was enroute to the National Scout Jamboree near Colorado Spring when their bus engine started acting up.

They pulled into Adrian for repairs. This proved fairly simple when the Fred Harwood and Dick Rich garages joined forces to install a new motor.

But the real problem was what to do with 28 active boys in a town as small as Adrian for 12 hours. As usual in a small community, it didn't take long for the word to get around and

forces began to take action. Mrs. Bob Gruhlkey, local cafe operator, called home to her daughter Linda. The girl, who is a senior in Adrian High, readied the house as the visitors began to arrive.

The boys were fed cookies and soft drinks throughout the day while they watched TV and listened to the record player.

Several of the smaller Scouts wandered off in the afternoon to hunt horned toads and lizards which, they commented, "would find a ready market at home in Memphis, Tenn., for fifty cents each."

Others went with Linda and her friend, Ninette Pounds, north of town to the Matador

Ranch for a look at "some real Texas cowboys."

Grady Fridmore broke out the equipment of the Little League baseball team and a baseball game in the new city park drew quite an audience.

In the evening, the Scouts and their leaders enjoyed a "cook - out" near the Gruhlkey residence, after which school superintendent A. F. Jones opened the school gym and gave the boys free access to the showers.

About 8 p. m. the boys got their bus again to continue their journey to Colorado . . . a little happier for the expressions of "good of Texas hospitality."

Last Thursday Mrs. Gruhlkey

was surprised when a car with Tennessee license plates stopped at her home and a small woman got out to knock at the door.

When the door opened, she announced: "I'm Mrs. E.L. Cowan of Memphis and we're enroute to the Grand Canyon but we just had to drop by to tell you that 28 homes in Tennessee will be open to you at any hour."

And, sure enough, right behind Mrs. Cowan was her son, Calvin, one of the 28 Scouts who had been accepted into the home only three weeks ago when he couldn't have even found Adrian on a Texas map.

## Mr....

(Continued from page 1)  
since he is manager of the J.C. Penney Store in Hereford, has been entering a few horse shows each year since buying Mister Penney.

"Yes, I ride him myself, but he knows what to do and performs just as well without anyone riding him," Widdfield said.

"Oh Red really likes these shows. He starts getting excited when he gets in the trailer to leave Hereford and he can hardly wait to get in the ring when the band starts to play."

"And the strangest thing... he has his own rooting section. That's right! Seems like everywhere I take him there are a bunch of people who like him and cheer every time he comes in the ring."

The feeling is mutual for the big red horse who is 15 hands-three (about five feet three inches) at the shoulder. In his box stall he nuzzles visitors and lets them stroke his head.

But with his blanket off and his mane and tail plaited, he

is an aristocrat who likes to show off. His tail is lifted high, his hooves dance up and down in the intricate steps of one of the five gait. He is a winner and a champion who will perform as well for one as he will for an arena of shouting people.

wheat history for 1961 in determining future allotments.

"If the 'excess' wheat were stored or delivered to the Secretary of Agriculture as provided by regulation," he commented, "the farm could then be credited with its base wheat acreage, instead of the allotment, in determining future allotments. But if the stored wheat were later used or marketed and a marketing quota penalty became due, then the farm would be considered as a non-complying farm for such year when future wheat allotments for the farm were determined."

Collier pointed out that the rule governing wheat history applies in all cases where the farm allotment is exceeded regardless of the size of the allotment. If the farm allotment is exceeded, a farm not subject to marketing quotas, such as a farm with 15 or less acres of wheat or a feed wheat farm with 30 or less acres of wheat, still would be credited only with the wheat allotment, not the base acreage, when future allotments were established.

None of the wheat produced on a farm where the allotment is exceeded is eligible for price support.

and prospective members are urged to attend.

Deaf Smith County Library won't be open for business until Monday, Sept. 12, which is sad news for the dedicated bibliophiles.

City Manager Dudley Bayne has reminded residents to put leaves and trash in barrels or other containers in the alley for pick up. "Don't rake leaves into the gutters," he asked, since it makes operation of street cleaning equipment very difficult. And it is against city ordinance to burn leaves or trash anywhere in town.

Disabled American Veterans will be in Hereford Sept. 7, 8 and 9 collecting articles for the DAV store in Amarillo. They are provided with credentials, do not solicit cash and are approved for solicitation in Hereford.

Two meetings are on tap Monday despite Labor Day. The City Commission is to meet at 7:30 p. m. and the Whiteface Booster Club at 8 p. m., the first in the City Hall, the other in the Community Center.

We surprised our wife, and others, by deciding either to cut down or stop smoking. There was no particular reason for the decision... and we have moments when we regret our rashness. Contrary to some advice, we think tapering off is the best method. So we smoked five cigarettes Thursday and the same number Friday. About all we have concluded is that we don't figure to save any money, what with buying vast quantities of chewing gum, candy and mints and that, if successful, we should have the best-developed jaw muscles in town.

By JIMMIE GILLETTE  
Housing in this area is really tough. If you don't believe it, just get out and try to locate a two or three bedroom rent

don't find a place to live.  
I knew housing was tight, but did not realize how tight until I took off Wednesday afternoon and tried to help Guy Williams, new advertising manager for the Brand, locate a place. Guy comes from Pecos, and will be on the job next week. He has had 15 years experience in the business and, I think, originally hails from North Carolina. He has been in Pecos the past five years, and we think he is a fellow everyone will like.

Don Zimmerman was telling me that Grady Rogers is a undoubtedly the champion peach grower in this part of

the country. Don came by some of Grady's crop, and says the size of the peaches are unbelievable. He says they don't grow peaches that big, even in Oklahoma. I told him that a Democratic nominee for County Judge should never mention Oklahoma, but Don insists that should all of the former Oklahomans move away, the rest of the people could hold a county-wide convention in a telephone booth.

John Pool was telling me about one of his friends who was doing around 90 - miles - per the other day and, Whain!, he sailed right past a Highway Patrol car. The fellow, undaunted, pulled off the road and started blowing his horn and waving down the patrolman. When the policeman stopped, the man jumped out, ran over to the patrol car and said:

"Boy, you fellows sure drive fast. I had a terrible time catching you. There's a drunk back down the way, who is weaving all over the road. You'd better make it back and pick him up before he hits somebody." Further more, John adds, his friend got by without a ticket, but I figure if he ever meets that cop again, he had better dodge.

"People are still yaking about the courthouse trees, or maybe I should say the lack of courthouse trees. I hear a lot of folks say that the trees were 50 years old, but I ran into George Stambaugh - who says not quote him in the paper - and found out that both cottonwoods and locusts preceded the elms. Worms got the cottonwoods, borers got the locusts, and the Commissioners got the elms. The best I can figure, and this is strictly a personal guess, they must have been planted between 1929 and 1931. I arrived at this figure by sawing one of the trunks, and counting the rings, so it should be fairly accurate. Back in the early days they had a well house on the northeast corner of the courthouse lawn, and a band stand on the southwest corner.

Now that folks can actually see the Deaf Smith County courthouse, a bit of curb stone history might be in order. The story I have always heard is that a lot of people wanted a new courthouse, but the commissioners were just a bit on the conservative side when it came to spending money. Finally the pressure became so

great that the commissioners agreed to call a bond election to build a courthouse. To carry their point, the commissioners used strategy and asked for a bond issue of about twice the \$65,000 folks were expecting, figuring that everyone would vote against such a large issue.

Folks came in from the forks of the creek and fooled them. When the smoke had cleared away, the issue carried and Deaf Smith County had \$123,650 to spend on a courthouse. They went clear to Georgia after marble in order to use all the money. The building was completed in 1911, and has outlasted just

about every other building in the Panhandle. What's more, it still looks nice and, since the remodeling act, is modern and practical.

And just to prove that a little quirk of fate can be more sensible than human foresight and ability, the Deaf Smith County courthouse is unquestionably the best business deal any set of officials in this county ever made. The \$123,650 investment back in 1911

was evaluated during the recent remodeling - and today is estimated at \$3 million. Besides, we have been using it all that time. Very few people use a building 35 years and find it worth \$2,876,350 more than when they started.

There is also another story going around that our present commissioners court planned to leave one big tree on the lawn, but so many complaints came so fast that they decided to go

ahead and cut them all. One tree, they figured, might become known as a hanging tree for commissioners.

The TV series, based on Bourbon Street in New Orleans, has nothing on Hereford. Mrs. Roy Sheppard was talking about Bourbon Avenue the other day, and I couldn't figure out where she meant. "Oh," she said, "that's what I call the road going south to Dimmitt."

## Couple Fined After Affray

They were arrested at about 2 a. m. Saturday at the Yellow Hammer Cafe in Hereford, police said. They were the only persons involved in an affray reported to Hereford police, and neither was injured, according to arresting Hereford patrolman Don Metcalf.

Approximately 75 Hereford women were among those attending the coffee held in the Federated Clubrooms at 10:30 a. m. Of the approximate 60 hostesses for the occasion, three Hereford women, Mrs. J. D. Pitman, Mrs. Louis Woodford and Mrs. O. E. Sherman Jr. assisted as hostesses.

A staff conference was conducted preceding the coffee, at which time the women were interviewed by various reporters

from area towns. The honorees stood at the front of the room for two hours and personally greeted individuals who had turned out for the occasion.

The women were simply dressed, Mrs. Shriver and Mrs. Kennedy wearing summer cottons, and Mrs. Johnson wearing a cotton linen suit. Each wore an orchid corsage.

A half - dozen serving tables, holding cheese sticks, small

rolls, fruit and coffee, were staffed by Democratic women from Amarillo and Panhandle towns.

Teenage hostesses from Amarillo, working their way through the crowd, scurried to and from the serving tables, carrying re-fill trays and collecting cups and plates.

The clubrooms were decorated throughout with summer flowers. Guest registers were placed in three rooms where

guests were entering.

Miss Lula Beth Rouse spent more than three hours at the piano, providing a musical background for the fete.

Mrs. J. T. Musiek of Amarillo and Mrs. George S. Oliver of Canyon were co - chairmen of the preparations.

"The New Frontier," a song written especially for the occasion, was led by Mrs. Johnson.

## Styles For School

Staff Photos

As September rolls around each year and various groups prepare for school, uppermost in their minds and conversation are fads and fashions for the coming school term. Fall brings new fabrics, new colors and ideas which may be seen in the grandstands at Hereford's coming football games, in the halls or on the playground of elementary schools, and on the college campus.

What are the new fads? Which styles will remain in good taste this year?

As always, many of the traditional fabrics and colors will remain in favor. But many of last year's fashions will be replaced by the new color combination trend, the short, short skirt, and the new weaves and surfaces of fall and winter fabrics.

Colors this year will be bright and bold, and conform to the new idea that "anything goes." Such colors as purple, yellow and red will brighten the campus of Hereford High and will add sparkle to the college lawns.

A typical scene around HHS and Stanton Junior High will be the bright plaid skirts, topped by a matching bulky-knit or shaggy long-torso sweater.

Loafers and "bobbie" socks will complete the skirt-sweater ensemble.

The cotton shirtwaist dress still remains in good taste, as it has been in the past several years.

For Aikman, Shirley, Northwest and Central Elementary schools, the cotton cameo dress accented by wide rick-rack, ruffles and frills, will be prevalent.

Can-can petticoats are still popular with the younger set, while slim lines predominate in the high school and college group.

Boys fashions, while not changing so rapidly as girls', are also taking on the trend of the slender look.

Levis, at the high school and college level, are being replaced by the cotton cord trousers, styled either in ivy-league or continental.

Bulky sweaters and the traditional T-shirts are also a favorite of the older age group. Because of the "sand-lot" activities of grade school boys, jeans prove to be the most popular for their durability.

UPPER LEFT: SUZANNE RULE, left, points out features of her new school dress to TERRI CARTER, center, as they play on the merry-go-round at Shirley Elementary School. Suzanne, the daughter of Mr. and Mrs. Ben Rule, wears a green cotton cameo dress accented by puffy sleeves, bouffant skirt and back sash. Terri, the daughter of Mr. and Mrs. Doc Carter, chooses as her favorite school dress an aqua "squaw dress" emphasized by large silver rick-rack and three-tiered full skirt. For durability, TONY CARTER, Terri's brother, wears jeans and a red T-shirt, carrying out the trend of bright colors for fall. Terri and Suzanne are first-graders and Toni is a second-grader.

CENTER: Fashions for fall are being discussed by four Hereford High School juniors after the first few days of school. KAY LEMONS, left, is attired in a red simply-styled slim wool skirt and white cotton blouse. BUTCH McCASLIN, second from left, is attired in a thick-ribbed black sweater, conforming to the new idea, "the bulky look." LYNTON ALLRED, seated, is dressed in slim trousers of tan cotton and matching cotton shirt. JUDY FOWLKES wears a blue 100 per cent wool skirt with a long torso matching sweater.

LOWER LEFT: Four Hereford High School graduates enjoy a record party before attending the college of their choice. All are wearing clothes they will don for campus casual wear. JUDY McGEE, left, wears a large plaid skirt, accented by pleats, and a black cotton blouse with three-quarter-length sleeves. MARILYN NEWELL, seated, is attired in a blue cotton shirtwaist dress, highlighted by a bouffant skirt and self-belt. ED SCHROETER, standing, wears a pastel T-shirt and continental trousers, which will be popular at the University of Texas, where he will be a junior. JAMES BROGDEN, who will be a sophomore at Oklahoma State University, is dressed casually in lightweight woolen trousers and a white shirt. Miss Newell will be a freshman at OSU and Miss McGee will be a freshman at the University of Texas.

# Christian - Shaw Vows Solemnized In Canyon

Marlyn Louise Christian became the bride of Jay Lynn Shaw at 7 p. m., Aug. 20, in Joseph A. Hill Memorial Chapel in Canyon. She is the daughter of Mr. and Mrs. Robert S. Christian of Stinnett and he is the son of Mr. and Mrs. Jay C. Shaw of Hereford.

The Rev. James Todd of Claude, minister of the First Christian Church there, officiated at the double-ring ceremony.

The church was decorated with white gladioli, blue daisies and a white aisle cloth. Seven branched candelabra holding white wedding tapers marked the altar area.

Nuptial music was provided by Mrs. Lesley Hamilton of Stinnett, soloist, and Phyllis Wimberley of Hereford, pianist. Mrs. Hamilton sang "Because," and the traditional wedding marches were played.

Mrs. G. L. Gibson of Stinnett served as matron of honor, and Faye Musser of Lockney was bridesmaid.

Feminine attendants were dressed identically in pastel blue silk organza over cotton satin. White jeweled gloves and a headpiece of blue daisies emphasized the ensemble.

Jay Shaw served his son as best man. Groomsman was Frank Springer.

Ushers were James Slay, Amarillo, and Bobbie Allen, Amarillo.

The bride, given in marriage by her father, wore a ballerina-length white gown of French lace over white bridal satin. The full-scaled skirt was highlighted by a fitted bodice with V-neckline.

Short fitted sleeves were accented by matching mitts.

Cultured pearls, a gift of the bridegroom, was the bride's only jewelry.

Her shoulder-length veil of silk illusion was attached to a crown of lace and seed pearls.

Her bouquet consisted of a cascade of white gardenias and Stephanotis.

A reception followed the wedding ceremony in the Christian-Presbyterian Center. The bride's table was decorated with white carnations and daisies, candles

and a satin table cloth. Phyllis Goetsch, Charlotte McElroy and Jackie Fisher assisted at the table and Barbara Stover presided at the guest book.

When the couple left for a wedding trip to points in Colorado, the bride was wearing a blue dress accented by black accessories.

The couple will be at home in Toadlena, N. M., where he is employed as a teacher - advisor.

The bride is a graduate of Stinnett High School and is a junior at West Texas State College. She is a member of the Delta Zeta sorority, and her major is in elementary education.

The bridegroom is a graduate of Hereford High School and WT. While in college he was an Industrial Arts major.

## Merchants Seek School Closing For '61 Holiday

Meeting for the first time in the new Deaf Smith County Chamber of Commerce offices, Hereford merchants voted to ask local schools to consider closing on Labor Day next year.

For the past two years, public schools have started before Labor Day and have not observed the day as a holiday. Merchants asked that Chamber manager Bill Thompson discuss the situation with the school superintendent and the board of trustees.

General feeling at the meeting was that retail employees would like to be able to enjoy the holiday with their children.

The Fall Mall, which is slated for Hereford in late October, will include a Rotary Club barbecue downtown at noon. Other plans for the Mall will be announced later.

Thompson reminded the group that a delegation from Hereford will attend the Maize Days celebration in Friona on Saturday, Sept. 10.

## Kiwanians Hear Vocal Program

Gwin Morris of Hereford presented several Negro Spirituals as his program of vocal selections at the noon meeting of Hereford Kiwanis Club Tuesday in I. O. O. F. Hall.

Morris was introduced to the Kiwanians by Bob Philpot, program chairman. Sandra Roberson accompanied Morris at the piano.

Miss Roberson, former sweetheart of the Kiwanis Club here, was given a gift of appreciation by Lowell Sharp, president of the club. She will attend Baylor University this fall.

New Junior Kiwanian is Ken Waiser, a student at Hereford High School.

Guests at the meeting were the Rev. Gilbert Davis and Jan Tucker.

**OFF THE MAP**  
RICHMOND, R. I. (AP) — Although there are five post offices in the township of Richmond, you can't find the dot 'or Richmond on the map because there is no village or town by that name.

The post office are in the villages of Alton, Wood River Junction, Shannock, Kenyon and Wyoming. But perhaps this town of 1772 inhabitants is more famous for streets, ponds and locations.

Among the more colorful names are Smallpox Lane, Quarrelsome Corners, Skunk Hill Road, Moonshine Swamp, Coward's Hole, and Frying Pan Pond.

**WIDE AWAKE**  
LOCKPORT, N. Y. (AP) — Police located an alarm clock that really deserved the name. It was the flasher type that blinks a light on and off, and it went off while residents of the house were away.

Seeing flashes of light in the unoccupied house, neighbors summoned the law. Officers found an unlocked door and, eventually, the blinking clock.

## Movies versus medicine

Three dollars a week doesn't take many people to the movies very often... but that's a fair guess of what families spend.

It adds up to \$156 a year. And that's quite a bit more than the average family spends on doctor bills and medicines combined.

## Wyche HD Club Holds Meeting

The Wyche Home Demonstration Club met Thursday, Sept. 1, in the home of Mrs. H. L. Ward. Mrs. Ira Ott, president, called the meeting to order and presented the open exercises.

Mrs. Charles Packard, food leader, introduced the speaker, Mrs. Tom Draper, HD agent, who brought the program on "Quick Meals."

She said in part, "Planning is the most important factor in the quick meal preparation. One's planning should begin with the grocery list, with items listed to conform to the order of food displays in the grocery store as a time saver."

She prepared and cooked an oven meal for a family of four, demonstrating planning ahead saves steps.

President welcomed new members, Mrs. Bill Paetzold and Mrs. Ross White. The club voted to have an all-neighborhood visitation, on Tuesday, Sept. 13.

The nominating committee presented a slate of new officers for the coming year, which was approved by the club members. ## Sorghum Show Slated At Fair

The 1960 DeKalb National Sorghum Show will be held at the Tri-State Fair in Amarillo Sept. 19-25. Local farmers interested in entering sorghum in the show should contact Steve Clements of Hereford.

The competition is on a 10-head basis, with special classes for heavy heads, open heads, special baskets, etc. Judging takes place on Sept. 18. Judges will be Cecil Ayers of Texas Tech and Dave Sander of Oklahoma State.

Last year, 6,000 heads of sorghum were on display in Amarillo. This year, it is hoped that 7,500 heads will be on display.

### ENGLISH TEACHER

Miss Joy Morton, daughter of Mr. and Mrs. Grady Morton of Hereford, left Monday for Merkel, Tex., where she will teach senior and sophomore English in high school there. She is a 1960 graduate of Texas Women's University in Denton, and a 1956 graduate of Hereford High School. While in college she was a member of Delta Club, a social sorority, and Alpha Omega, a national honor society.

### VISITS AUNT

Janet Cole from Colby, Kans. has been visiting the past week in the home of her aunt and uncle, Mr. and Mrs. Joe Smith. Miss Cole planned to leave Friday.

### VISITS PARENTS

Mrs. Gordon Todd of Amarillo visited this week with her parents, Mr. and Mrs. Cecil Hart, 506 Star St. Mrs. Todd returned home Thursday.

## Mrs. Miller Reveals Recipe

Aware of the fact that Hereford residents are attempting to locate a sugar beet factory here, Mrs. Gladys Miller has come up with a sugar beet pickle recipe — one which she tested and proved in her own home.

With the plentiful supply of sugar beets, and harvesting time in the near future, there should be enough sugar beets for each homemaker in Hereford to give Mrs. Miller's recipe a try.

The recipe is as follows:

### SUGAR BEET PICKLES

Scrub and wash beets thoroughly. Cover with water and cook in a pressure cooker at five - pound pressure from one and one - half hours to two hours, depending on tenderness of the beets. After cooking, cool and peel. For pickling, slice, mix the following ingredients:

Two cups water, two cups vinegar, juice from one lemon. Salt to taste and add red cake coloring to please the eye. NO SUGAR NEEDED!

Pack beets in sterilized jar and pour boiling vinegar over them. Seal and store for at least three weeks before using.

Mrs. Miller also has a recipe for pickled beets. It is as follows:

### PICKLED BEETS

Two cups sugar, two cups water, two cups vinegar and juice of one lemon. Salt to taste.

For those who like the spicier pickles use the same mixture as above and add a teaspoon cloves, a teaspoon allspice or a teaspoon cinnamon.

### TIME TO THINK

MILWAUKEE (AP) — The exclamation, "Oh, for heaven's sake," meant a sentence of 30 days in jail for Harold Harris, an attorney.

The contempt of court sentence was ordered by District Judge Frank Gregorski when Harris blurted out the comment as one of his clients was fined \$150 for drunken driving.

### CALL THE POLICE!

SAVANNAH, Ga. (AP) — Members of a male chorus in a minstrel show returned to their dressing room to find that the pockets of their street clothes had been rifled.

That was bad enough, but even worse considering who sponsored the show — the Police Athletic League.

### SHE WINS GI BILL DEGREE

NORFOLK, Va. (AP) — Nancy Anne Colby is back at her housework with a degree from American University in Washington — one of the few women to win a degree under the GI Bill of Rights.

She is the wife of Robert T. S. Colby, assistant U. S. Attorney here. She joined the Army after graduating from Penn State College, served in Korea and met her husband, then a private. Returning she went to American for a masters of arts degree.

## OFF THE Shelf

By H. A. TUCK

With the library still closed, most readers are becoming a little desperate. We picked up a fat Signet pocket edition of *We The Living* by Ayn Rand and finished it in two nights.

Author of *The Fountainhead* and *Atlas Shrugged*, Mrs. Rand says the book is as close to an autobiography as she will ever write.

She invented the plot but not the background. The novel is built upon the events in the lives of three people immediately after the Russian Revolution. Mrs. Rand was born in Russia and educated under the Soviets.

This is probably one of the best books which has ever been written about the dark and bloody days that followed the overthrow of the Czarists by the Reds, as the curtain began to descend before the free world.

Kira Argounova came back to

Petrograd with her family after a period of wandering that saw their factory taken over by the Communists, their former life destroyed and their fortune gone.

A beautiful young woman, Kira cared little as she lived in her own dream world. As her family settled in a tiny apartment, she entered the Technological Institute mostly so she could draw a bread ration for her family.

But her eyes were opened by the strong conviction and arrogance of the leather-jacketed young revolutionists who felt Communism was the salvation of Russia.

Kira's entire life was changed after a chance encounter one night with the tall, handsome Leo Kovalensky, son of an executed Admiral from the Czar's navy. Their passions and love exploded into a dream of escape into Europe.

They are apprehended and Leo is arrested, but soon freed. Both return to their studies, but live together. When Leo develops tuberculosis, he becomes fatalistic but Kira becomes desperate.

After fruitless appeals to almost endless government agencies, she approaches Andrei Ta-

ganov, whom she had dated casually after entering the Institute. This was difficult, for Andrei represented everything she hated. He was a revolutionary hero, the shining young hope of the party. He headed a unit of the dreaded G. P. U., the secret police.

But Kira made a deal with Andrei, who didn't know of the close relationship she had with Leo. And Andrei unknowingly financed Leo's rest and ultimate recovery.

When Leo returned, he had made friends with an older woman, whose husband was a wealthy official.

And soon Leo was involved in some illegal schemes and was making rubles in vast bundles. Kira was stretched between her two loves, Andrei and Leo.

Both her worlds crumbled when Leo was arrested and sentenced to die for blackmarket activities. Andrei used his last bit of influence to get Leo freed, although it cost him his status and his beloved Party membership. And Leo found a more attractive deal.

Only Kira was left and soon she departed for her dream world outside communism.

*We The Living* is frightening in its portrayal of the poverty,

## Larry Slaughter In Field Exercise

Army 1st Lt. Larry D. Slaughter, son of Mr. and Mrs. Gordon T. Slaughter, 818 Avenue K, is participating with other personnel from the 3rd Armored Division in a field training exercise in Grafenwohr, Germany. The six - weeks exercise is scheduled to be concluded Oct. 1.

Some 15,000 troops and more than 1,000 tanks and armored personnel carriers will maneuver over the rough and hilly terrain of the training area. This exercise is typical of the constant training conducted to assure that all units of the NATO shield of defense in Europe maintain a high state of combat efficiency.

Lieutenant Slaughter entered

treachery and abject misery felt by millions under the new Red banner. It explains how Soviet Russia has educated its masses into obedience and submission, eliminating those who don't conform.

Its story is of love, and fear, and hate. Its background is of terror and the new order.

SALEM, Ore. (AP) — When the official tally was made on votes for Republican Party chairman in Oregon, it was found that 757 candidates got votes.

It was strictly a write - in contest, no names being on the ballot.

Three men made a race for the office and divided some 29,000 ballots. But 2,406 voters divided their support among 754 others.

## Beauty At Home

Q. How can I avoid the appearance of obviously rouged cheeks?

A. Put one dot of rouge on the widest part of your rouge areas, grin or smile, and then blend the color up and out, according to the natural smiling

contour. Under no circumstances should you apply your rouge in a circle.

Q. How can I minimize a vaccination mark and other spots which seem to grow whiter the darker my skin tans?

A. Try using a pastel cream rouge over these spots. Rouge brings up the red pigment that's been lost, blends scar tissue to a pale pink. But practice to get the exact amount of rouge over the scar, since this trick of can-

celling out whiteness. Now apply a cake makeup of a shade that matches your tan and blend around the scar. If your patchwork is not perfect, dust some of your tan face powder over the mark in a still wider area.

Q. How can I exercise to help reduce my knees, which are too fat?

A. Lie flat on back. Draw one knee up sharply as far back to your chest as you can, then

kick your leg straight up in the air. Repeat with other leg. Work up to 25 kicks each.

Q. What hairdressing hints are good for the girl with a squarish-looking face, wide forehead and wide jaws?

A. She should be sure to leave her hair long enough to soften the contour of her face into the perfect oval. She should never crop her hair so short that her forehead and jaws are left standing alone.

Q. How can I quickly and easily prepare a good facial beauty mask?

A. Just the painting of the white of an egg over face and throat, allowing to remain for 10 minutes, then washing off with warm water is stimulating and beneficial to the skin.

Q. A stubborn cowlick presents a real problem when I dress my hair. Can you suggest how I can cope with this?

A. Particular attention should

be paid to parting and styling. If the cowlick constitutes a troublesome break at the front hairline, it is often eliminated by parting the hair well over to one side, either diagonally or straight, depending upon which is the more flattering to the face. If the cowlick is on the crown of the head, a semi-circular parting disguises it.

### Passing Of Courthouse Elm Trees Marks Transition Into A New Age

Workmen have been busy this week clearing away trees around the courthouse lawn, and the effort has met with heated discussion in many circles.

One group of people laments the fact that it took 50 years to produce the trees and says that they should never have been removed. Another feels that the step was long overdue. In addition to the two minority groups concerned with removal of the trees, there is a third group which includes around 75 per cent of the people, who just plain don't care, one way or the other, if the trees go or stay.

We do not know what the commissioners have in mind, but the clearance pretty well marks transition from the old to the new; an era we might call the rocket age.

During the past decade scores of indi-

dual citizens in the east part of town have systematically removed elm trees from their private yards and grounds. Chiefly, these people preferred lawns to trees. Birds have presented a tremendous problem in the courthouse area. The trees, too, had a tendency to block the structure from view.

The elm trees were planted many years ago when people seemed to have an idea that if one tree was good, 25 trees were much better. This type of thinking predominated throughout the era and left its mark in the form of elm roots all over town. It was the same period in which Hereford was known far and wide as the "City of Windmills," and water was not a problem; in fact, not even an added expense. People just wanted trees. They chose the Chinese elm because it grew rapidly and because it was available. The trees were always planted on the basis of quantity, rather than quality.

Newer plantings in the present days feature selected varieties, carefully placed and spaced to combine utility and beauty. This same trend found in private yards of new residences, new schools and other public places, no doubt, is what the county fathers have in mind, and to the family which has personally battled with the elm tree seedlings, it will find a warm welcome.

Parks, where shade is important, are another thing, but we never could see why every household or public building should go in direct competition with the national Forestry Service.

Trees are wonderful and beautiful, even elm trees in their place. The same thing can be said of ice cream and cake, but any youngster will tell you that too much of it is sure to produce a first class bellyache.

### Good Schools Vs. Federal Controls

Many Deaf Smith residents have heard Supt. Paul Stevens speak at various meetings during recent weeks, and equally as many people have been impressed with his stated opinion that federal control of public education would be a grave infringement upon the efficiency and operation of our public schools.

Mr. Stevens, having lived with federal control in an industrial boom area, speaks on the subject from actual experience, pointing out that different schools must have different objectives and different goals. These things, he feels, would be lost in a mass of red tape should the federal government take over our schools.

His answer is simple and direct to the point: "Maintain good schools on the local level, and Washington will be less likely to move in!" He further points out that our public schools are the last stronghold which the American people have on their democracy.

These things are true and many of them have been said before, but seldom are they heard from the teaching profession, at least in these parts. Many teachers, administrators and trustees appear to favor federal control of our schools, probably with an eye toward equalized pay rates which would ultimately be parallel with post office operations on a Civil Service program.

Needless to say, we are 100 per cent with Supt. Stevens on his thinking in regard to continuation of public school operation on the local level. In addition, we are happy to see a superintendent who is equally as interested in maintaining American freedom as in keeping our schools on a high level. In our opinion, these two factors should go hand in hand. Certainly, the fact that he has worked under both conditions gives him a unique background on the subject.

It behooves all of us to strive in helping to keep our schools strong, efficient and thorough. Maintenance of this type system is the best and probably the only possible way to avert federal intervention.

### MEMO TO ALL CANDIDATES

To any and all candidates who this year are seeking election to public office, I hereby serve the following notice:

I will cast my vote, possibly pledge it, for whichever candidate does not promise me a single solitary "benefit," conversely, I will vote against any who promise to improve my lot.

I've been improved all I want to be, and, by golly, my lot can't afford any further improvement.—Donald I. Rogers in New York Herald-Tribune.

### The POWER of FAITH by Howard Brodie

Labor has been honored by men of faith: Christ honored labor as a carpenter, and said, "the labourer is worthy of his hire." An ancient Benedictine motto reads, "Who labors, prays." St. Bernard said, "Who prays and works lifts up to God his heart with his hands." Creative men have related labor to faith: "Even in the meanest sorts of labor, the whole soul of a man is composed into a kind of real harmony . . ." wrote Carlyle. "Ah, little reck the laborer, how near his work is holding him to God," said Whitman. "Thou, O God," declared Leonardo da Vinci, "dost sell unto us all good things at the price of labor."

## Putting Child Through School A Big Struggle

By MRS. R. L. CRISWELL Monday was "The Day." Some of the children greeted it with joy, but others were not so happy to begin the battle with the "Three R's."

The kids have their daily grind trying to learn Readin', Ritin', and Rithmetic, and it is as much work and frustrating to them as the daily making - a - living is to adults.

They must struggle through the school term trying to learn enough of the things they will need to know in later

life, and learning can be a frustrating thing over the "long" days of youth. Their parents, too, have a struggle, but not with the Three R's of the student.

Mothers probably have not thought of another "Three R's," but appreciate them very much. After they have gotten their breath from all the hectic rush of getting Bobby, Mary and Jack to different rooms, and in many cases different schools, in getting their children registered, they can think of the Three R's of mothers — Relief in getting them registered and a moment of Relaxation as they turn their car homeward, and after reaching home perhaps they can take a little time for a short Rest before beginning the rush to get all the things about the house in order and the schedule planned to get them all out of bed and to school on time.

With any luck at all they have time to rush to P-TA, Study Club, Garden Club or local clubs of different names, but all organized to boost their moral and the community in which they live.

It's a great life if you can stand the pace. Then before realization comes that their family is in college, or will be on their way in a very short time, they begin to wonder how they managed. The house seems rather empty without them, and mothers look back with nostalgia, sort of wishing the kids were all at home and in high school instead of college. Then it begins to get personal; one will begin to wonder if they have been consistent in their training as they should have been, and if they are mature enough to fend for themselves and the temptations that you know will surround them.

Then you think proudly, they are my kids, and they will not go too far wrong. I appreciated Beryl Jean Ward's youth essay where she says, "It bothers me to have people put all teen - agers in the same category of the juvenile delinquent." More power to those young people who resent the fact that, in public opinion, if you are a teen - ager, you are naturally a delinquent. Perhaps the public needs to be educated.

### LANDMARK DISAPPEARS

Dalhart is losing another of its landmarks. The old building at the south end of Denver Avenue that some 45 to 50 years ago was a fair exhibit building, and that later for many years was the home for the Roy Rhodes Post of the American Legion, is being torn down. The 20 acres surrounding the building are being broken up into 50 home plots for the Lake Drive Addition, being developed by John Colquitt Jr.

### BUY BUILDING SITE

Members of the Board of Directors of Plainview Production Credit Association were in Silverton recently for the purpose of purchasing a building site in the city of Silverton. After looking over several sites a building site was purchased across the street north of the park which is a corner lot facing south at the corner of Braidfoot and Lane Star Streets. Building plans are not complete at this time, however, it is assumed that construction will start in the future on a modern office building similar to those in the other field offices.

### RADIO ALERT NABS BURGLARS

Two Oklahoma youths who had burglarized a service station in Fargo Tuesday night and cashed nine stolen checks at Woodward and Higgins on Wednesday came to the end of the line in Canadian Wednesday afternoon. Hemphill County Sheriff Harry Rathjen, alerted by an all-points police radio bulletin from the Arnett, Okla., sheriff's office, spotted the suspect's car at a drive-in in Canadian just as the two men were preparing to leave. He arrested the pair.

## The BOOTLEG —Philosopher

Editor's note: The Bootleg Philosopher on his bindweed farm tries to prove a point about foreign affairs this week, and he may have succeeded.

Dear editor:

More and more, it's getting clear that an ignorant man hasn't got a chance to keep up with what's going on in the world, and sometimes I have my doubts about the educated ones.

For example, day after day lately there's been a flood of news out of the Congo, but my opinion is that the news is being received in newspaper offices by men who don't know what it is, dressed up with headlines by other men who don't know what it is, and printed and passed on to readers who don't know what it is.

Take this headline I read in a newspaper last night: "UN Entry Okayed By Tschombe. Lumumba Move Is Opposed By Kintanga Chief." The article underneath went on to talk about Premier Moise Tschombe, Premier Patrice Lumumba, Prime Minister Gaston Eyskens, the mid-African Ruanda Urundi trusteeship, Kamina military base, the fighting in Kasai and on the western shore of Lake Tanganyika.

It also mentioned dissatisfaction among the Kynacke tribes, an appeal to the U.N. by Premier Jynkasi in the Congolese province of Tonienus, etc.

All right, you get the idea. Now I'd like to make a test. I'll bet a subscription to The Brand against a subscription to the New York Times, a fairly even bet, that if you take this letter to any high school or college teacher you can find, he can't correctly identify all these names and places listed above in connection with the Congo.

If he can't, how's an ordinary newspaper reader like me going to get to first base with it? What base did you get to?

And also, if you want to stretch the fun out, after this educated person has rattled with these names awhile, let him in on the fact all the names mentioned in the fourth paragraph of this letter are made up out of thin air. There ain't no such names or places. The names in the other paragraphs are genuine, taken right out of a news article. But I just made the others up. Yet I still bet some perverse editor could insert them in a news dispatch out of the Congo and not over fifteen people in the world, outside of the Congo, would ever catch on. This includes Congressmen, Senators, Cabinet members, and probably some Presidential candidates.

Yours faithfully,  
J. A.

uated on that phase of our times as well as knowing that we not only have the Three R's of learning but that our teachers do not have all the responsibility of teaching. Sometimes the teacher must do a job of "un-learning" the things the young folk have learned from movies, magazines and television.

The students of today have so much more to learn, including the Three R's, to keep up with atomic age. There are so many new skills to learn and they must be learned by a great many skills that are imperative to keeping our country abreast of the times. Yet, our so-called teen-agers are on, shall I say, the beam, for they are doing their part. More power to our teen-agers.

Congratulations to our new society editor, Ruby Brewton. Weren't you proud of our Women's Section in last Sunday's issue?

There are so many attractive community builders, and it takes a lot of doing to keep any civic club going. We have an outstanding group of presidents, and they are all interested in making Hereford a better place in which to live. Beautification of Mother's Park was one of the first civic projects to be done by a club, and that was The Pioneer Study Club. After its improvement, the name was changed to Dameron Park. Later, the Mother's Club had a name change also — it is now Pioneer Study Club. The club has celebrated its golden anniversary. It was 51 years ago that it was organized.

The old saying that "the hand that rocks the cradle rules the world" needs a change. Mothers do not rock the cradle very often nowadays, but they are busy doing other things that keep the world moving.

# Junior High Teams Eye Opening Games

By BERK KAUFHOLD  
Brand Staff Correspondent

"Our 7th grade team has more speed than the other two grades, but they are much smaller," states Alex Glass, assistant principal and athletic director for Stanton Junior High School.

The 9th grade football team will open its season here Sept. 8 against Tulla. The 7th and 8th grades will open Sept. 13 in Dimmitt against respective football teams of that city.

Coach Glass explained that there are three coaches working with the three teams. The coaches work together but will concentrate on certain grades. Archie Souter, an ex-West Texas State grid player for four years, will tutor the 7th grade. This will be Souter's third year of coaching in the junior high system.

Jerry George, an athlete from Texas Tech, will guide the 8th grade. He has also coached here for the past two seasons. Glass played football for Southwestern State in Weatherford, Okla., for four years. He has served as coach here for the past four years.

In explaining his opening remarks, Glass pointed out that the 7th graders were extremely small and inexperienced but were very fast on the field. There are 38 players fighting for positions on this team. The "T" formation will be used with an occasional flanker.

There are 42 players on the 8th grade team, which, according to Coach Glass, will have to use a good defense as its major weapon. The junior high athletic director said that these players who were 7th graders last year had a 2-7 record, but is quickly added that there is much improvement in the team as a whole. "We have larger boys this year, and concentration will be on defense," Glass said. The regular T formation will be used.

The coaches agree that prospects for a good 9th grade team are excellent. As 8th graders last year, the team had a 7-2 record. Thirty-seven players will be ready for opening play next week. The formation will be the "T" but flankers will be used often.

Coach Glass related that the faster players with passing ability will be stationed at halfback this year. Therefore, local fans will see the running pass from the freshmen this year. With this kind of offense, Glass and his assistants have stressed ball - handling to their quarterbacks.

Glass is well-pleased with the play of all the boys, but remarked that two freshmen have been outstanding. Neil Lueb, who plays guard on defense and tackle on offense, didn't play last year but has wasted no time as one man to watch on the freshman team. Quarter-

back Jimmy Higgins has been a steady player in practice this year, and with two years experience will be a major cog in the 9th grade offense.

When asked if Junior high football is important to a future high school and college player, the likeable athletic director made this statement: "The good high school football teams always have good junior high school teams, which is a credit in itself." He added that junior high school lays a good foundation for the player after high school.

The 9th graders will play a 10-game schedule this year, with games falling on Thursday nights to be followed by a Hereford High School "B" games. The 7th and 8th graders will play on Tuesday nights, starting at 6 p. m.

**SPEEDY ACTION**

### 'Deaf' Smith Says

TO: THE SPIRIT OF GENERAL SAM HOUSTON  
FROM: THE SPIRIT OF ERASTUS 'DEAF' SMITH

SUBJECT: SCOUTING REPORT ON THE CHAMBER OF COMMERCE NEW OFFICE

Sam, I've just been watching the Chamber of Commerce staff, assisted by a crew from Hereford Grain, move from their offices in the Hotel Jim

Hill. They are now located at 126 East 3rd in space nearly twice the size they had before.

In making the move the Board of Directors considered many things and many possible locations and determined that the space formerly occupied by A. O. Thompson Abstract most nearly met the requirements of the Chamber of Commerce operation. The new location features a

very spacious front office with a book case filled with city directories from other cities as well as many telephone directories. The library also contains Thomas Register, a listing of most all manufacturers in the United States by trade name with cross indexing by product classifications. This is used by businessmen quite frequently in attempting to locate the manufacturer of special items requested by their customers.

A new display rack, to be built by Alvin Smith, will have shelves to display maps of all the states and other tourist and vacation brochures as well as the promotional material published by my Chamber of Commerce. A large display window will present the opportunity for exhibits of local interest.

The conference room is a little larger than the one in the previous office. Off of the conference room is a small "kitchen" where coffee will be prepared to serve visitors and com-

mittee members. Particularly welcomed by the staff is a separate work room providing much needed storage space and work area for preparing mimeograph work and other mailings. With the improved facilities the Chamber of Commerce will be able to offer many services to the community which it has had to restrict in the past. A new mimeograph and folding machine will permit the Chamber to prepare mailings for community projects such as the United Fund and for service clubs. The conference room will be available for community meetings and will seat up to twenty persons.

At this stage of planning, no formal opening is planned but the membership will be invited in in small groups both to view the new offices and to discuss the activities of the Chamber of Commerce. Another new addition to the Chamber of Commerce is Mrs. J. W. Thomas, better known as

"Casie." She replaces Mrs. Lisa McClurkin who resigned in able to spend more time with her young family. Mrs. Thomas served as Secretary - Manager of the Wellington, Tex. Chamber of Commerce before moving to Hereford with her husband, County Agricultural Agent, Lefty Thomas.

Sam, the next time you come up this way, stop in and see my new offices. Even an old ghost like you will be welcome.

# Noland-Higgins Nuptial Vows Read Thursday

In a double-ring ceremony performed in the Summerfield Baptist Church Thursday, Sept. 1, at 7:15 in the evening, Miss Linda Noland became the bride of Paul Higgins. The ceremony was read by the Rev. E. M. Weathers of Clovis, N. M., former pastor of the church.

She is the daughter of Mr. and Mrs. J. B. Noland, Summerfield, and he is the son of Mr. and Mrs. Wayne Higgins of Wildorado.

Vows were solemnized before an arch decorated with palms, baskets of gladioli, two spiral candelabra and two branched candelabra. The church was decorated throughout with candles and pink roses.

A medley of nuptial musical selections was presented before the ceremony by Mrs. Jamie Clearman, organist. As the bride party entered, and left the church, traditional wedding music was played.

During the ceremony Mrs. Clearman accompanied Gwin Morris, who sang "Oh, Promise Me," and "I Love Thee."

Other nuptial music selections were "Because," "Wedding Prayer," and "Whither Thou Goest."

Jerre Bea Noland served her sister as maid of honor. Bridesmaids were Miss Dixie Doughty, Tucumcari, N. M., and Janet

Higgins, sister of the bridegroom.

Miss Noland was attired in a cinnamon silk organza dress over a beige taffeta strapless slip. The ensemble was accented by a bouffant, pleated skirt, scoop neck and short sleeves. A pink head band, and shoes dyed to match completed her outfit.

Other feminine attendants' dresses were identically designed, and were cloud pink. Each carried a white candle with pink tulle skirts applied in pearls and ribbon accents.

Kyla Higgins and Mary Jo Clearman assisted as flower girls, scattering pink rose petals. They were dressed in the same style costume as the bridesmaids.

Candlelighters were Linda Higgins and Larry Noland. Pink satin roses entwined the lighted candles.

David Wiggins served as ring bearer and carried the rings on a white satin pillow which belonged to the bride's paternal grandmother.

Eddie N. Jones Jr. of Beeville, Tex., served as best man. Ushers were Terry Higgins of Wildorado, Ken Clearman of Summerfield, Steve Slagle, Milner Duvall, Donnie Renfro and Bobby Shelton, all of Hereford.

The bride was escorted to the altar and given in marriage by her father. She wore a white

floor-length gown of imported lace and tulle. The bouffant skirt was gathered on a basque bodice and was emphasized by a Sabrina neckline sprinkled with butterfly sequins and seed pearls. The bodice was accented by long tapered sleeves.

She wore a veil of elegant lattice work highlighting an Irresistible Coronet of lustrous pearls and crystal beads with imported lace inserts.

She also wore her maternal great grandmother's wedding band. The custom of something old, new, borrowed and blue was carried out.

She carried a bridal bouquet of white orchids over a white Rainbow Bible.

Immediately following the ceremony a reception was held in the church fellowship hall. The table was laid in white net cloth over white satin, detailed with wedding bells and bows. Appointments were in crystal and silver.

Confection was white with pink roses. The center decoration was a white anniversary candle skirted with pink tulle and accented with pearls. The attendants' candles served as a centerpiece for the bride's table.

Mrs. Bobby Shelton and Miss Treva Brown presided at the table and guests were registered by Mrs. Terry Higgins.

When the couple left for a wedding trip to Austin the bride was wearing a navy blue suit with bon-bon blue accessories. Her corsage consisted of orchids lifted from the bridal bouquet.

They will be at home in Austin where both will continue their education at the University of Texas.

## Household Scrapbook

### Upholstery Tacks

To complete the driving of brass-headed upholstery tacks without crushing them, use a short dowell in one end of which a shallow hole has been drilled. Hold this drilled end on the tack and tap the other end with your hammer.

### Pins and Needles

You can keep your pins and needles conveniently at hand at your sewing machine if they are pushed into a piece of beeswax that is stuck to your machine at a handy spot.

### Window Screens

It is a good idea to stain and varnish window-screen frames that are to be covered with copper wire mesh. Instead of painting them. Most paints contain zinc, which acts on the copper and often causes it to deteriorate and break away from the frame.

### Improvised Rack

The "deep" kind of discarded bicycle saddle basket makes a neat magazine rack for your porch or patio, holding up to a dozen magazines. Fasten one of these to a porch wall, or to the side of a glider or chair.

### When Mending

It is smart to mend your clothes immediately after laundering and before ironing. The appearance of your repair job will be much better.

### Waterproof Matches

Matches can be made waterproof by dipping them into lacquer and then sticking them heads-up in a brush to dry.

### Kitchen Drain

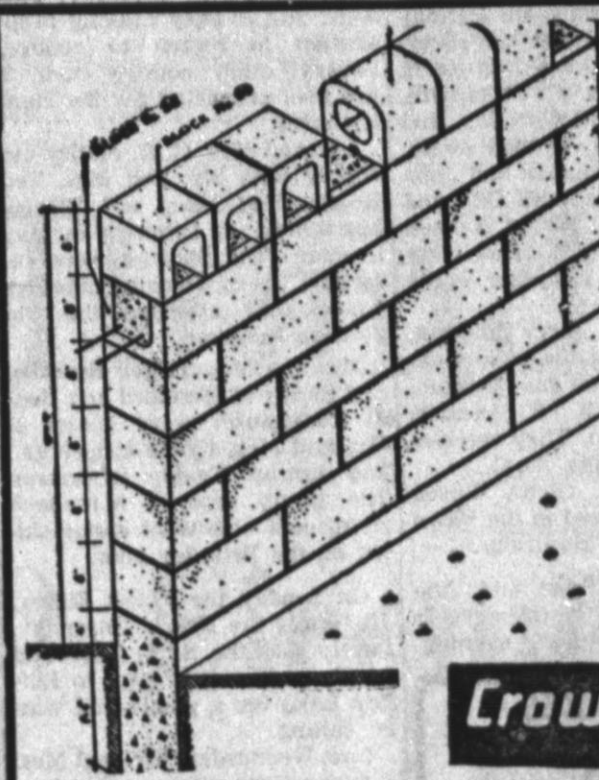

A little washing soda slipped into the drain of your kitchen sink about once a month and washed down with a jet of hot water will do much to prevent sluggishness in the drain and to keep it sweet-smelling.

No census has ever been taken in Afghanistan. Estimated population is 13 million people.

## Paul Stevens Speaks At Meet

Hereford schools superintendent Paul Stevens spoke on operation of schools in this county at the noon meeting of Hereford Lions Club Wednesday in the ballroom of the Jim Hill Hotel.

"The interest residents have in their schools in Hereford has impressed me very much," Stevens said. "The school is one of the last strongholds of local control." Stevens pointed out "we need local control to teach our children what we want them to know. The school belongs to you - you elect the school trustees and they hire the personnel."

He commented that the schools in Hereford have had about a ten per cent growth pattern per year.

"You have control of your schools," Stevens said. "Be ready to criticize them, constructively or otherwise." He invited them to visit the schools at any time.

Program chairman was John D. Aikin. Special guests included Mrs. J. J. Durham; Mr. and Mrs. Earl Plank; and Erik Oksater, an exchange student from Norway.

Unlimited funds may be taken into or out of Belgium. Its currency is stable.

## Beauty At Home

Q. What is a safe, easy, and economical bleach I can prepare at home for my hair?

A. You can manufacture a mild bleach with a cup of 15 per cent alcohol, a drop or two of glycerin, and the juice of a lemon.

Q. What can I do about the skin on my shoulders and back, which seems recently to have developed a nice crop of blackheads?

A. It seems evident that you haven't been doing an efficient job of cleansing those important areas! This has to be done with a brush. Soak the skin in these places in cream or oil for

a half-hour or so, then give it a good, brisk brushing with a stiff brush and soapy water. Make this a regular part of your beauty ritual!

Q. What is an easy way to remove ink stains from the fingers?

A. Dip an old toothbrush or nailbrush into vinegar and then into salt, and scrub over the stains until they disappear.

**REMEMBER WHEN?**

BY CHARLIE SEEDS

This was the year of the Chicago World's Fair. Oh, the Windy City had had a previous Fair, back in 1893, but this was bigger and better than ever. And the country needed a pageant that helped people to look ahead to a better future.

The fair had a lot of features... from striking modern architecture to rickshaw boys pulling the tourists around the Fair grounds... But visitors to the Fair that year probably saw as much of one showgirl as they did of anything else.

Her real name was Helen Gould Beck, and she did a dance in which she wore a collection of fans... but not much else. She was an unknown up to that year... but not afterwards. Her stage name was Sally Rand... and she was the hit of the Fair!

Remember the year?

When a new car made a big hit with a buyer that year, he still made sure he scored a good deal... one that meant real savings. He shopped for the best deal he could find on the car of his choice.

The year was 1934.

America's choice in a new car this year is the beautiful new '60 FORD. And we can offer you the best deal on the model of your choice in this brilliant new line. Stop in... check our higher trade... our lower terms, at CHARLIE SEEDS MOTOR CO., INC., W. Hwy 60 at Miles, EM 4-2222.
