BY JIMMIE GILLENTEINE About all I hear these days is complaints because it hasn't rained, and, as usual, most of the characters are prone to blame me. Jack Brown is most unhappy, also Bill Hutson. I haven't seen Lee Kent but, when I do, I am sure that he will be giving me a fit because his cotton needs moisture. Jane Dameron left this week for Austin, and the last thing she said was for me to get on the ball and predict some rain while she was away. It is a losing game, though; if I did come up with a couple of inches of rain, there would be no end of gripes because the dandelions were flourishing. Besides, I am already committed. If it doesn't rain by May 21, you can figure that it is going to be a long dry spell before it does — and I predicted last fall that we were going into a semi-dry cycle this year. Even in 1961, I pointed out that we were drawing near the close of a wet cycle.

I learned about this cycle business from Jim Lipscomb back when he was postmaster and didn't have so much work to do. Now that he is retired, he has little time for weather activities, but he is the old boy who taught me how to make these accurate predictions, so why not give him some of the blame? Here is a clipping someone left on my typewriter: 'WHEAT IS AN AMERICAN? What is an American? I don't know a definition on this topic, but here's a "definition" that tops them all. "An American is a fellow who sips Brazilian coffee from an English cup while sitting on Danish furniture after coming home in a German car from an Italian movie ... and writes his Congressman with a Japanese ballpoint pen demanding that he do something about all the gold that's leaving the country." Bill Elliott says he was in Mangum, Okla., visiting recently and asked a car dealer about a cash trade. The dealer gave him a good price, but the Oklahoma sales tax and license ran the price up a flat \$185, so he decided to come back to Texas. Mrs. J. F. Ward, who comes nearer to living by the pioneer principles of honesty and integrity than anyone I know, is putting Hereford on the map in a big way. Following the Lions Club pancake feed a couple of months back, the boys delivered her 15 gallons of grease from the sausage — and she started making old-fashion lye soap. She took some of it to a Northwest Texas Conference Methodist meeting in Amarillo, passed out samples, and word of the "amazing" product has spread all over the Southwest. She also sent some samples with relief

packages into Chicago — and this new "Hereford soap" is gaining recognition in that part of the country, too. The collection center, in turn, shipped some of it overseas, and the word has now gone international.

Literally thousands of people, it seems, never heard of lye soap. Mrs. Ward says the only cost, besides the free grease, was 25 cents worth of lye, and a bit of work.

This also gives me a good the up-coming Pioneer Day, May 31. Things are getting in shape and I understand that a bunch of the Old Timers, spearheaded by Will Harris, took up a collection and bought a piano for the Community Center. Think Bill really wanted to "cut a few rugs" at the annual gathering May 31, but the excuse was they wanted the teenagers to enjoy the piano. Anyway, all of these folks will know about lye soap. Back in their day, it went hand in hand with "hog-killing" and, for many years, was about the only kind of soap folks knew in these parts. More than one generation grew up with a healthy respect for the stuff — and I notice that they never did come out with nylon and other synthetic fabrics until lye soap had completely disappeared from the wash house shelf.

I won't guarantee what lye soap will do for the complexion, but if you ever have your mouth washed out with the stuff for using naughty words, I will guarantee that you'll turn around and look twice to see who is listening before you use the same words again.

Hereford had around 25 in the Shrine Pageant at Amarillo Friday, but J. W. Robinson in leotards was the boy who gets my vote as the most "outstanding." In his particular case, I hear that they finally had to buy some large size underwear and dye it to get a proper fit.

Uris Streu was piddling around in his building next to The Brand Thursday, and I rushed in to find out if he was it rented, but he was a tight-mouthed as usual. "Maybe," said Streu. "I am working on a deal and when I find out, I'll let you know." He also said that he tried to get to his cabins up in Colorado, but they were still snowed in — and two miles was the nearest he could get.

Bill Dufur called in to complain because "Litter Maids of America" has had no publicity in the paper. He says they are the little boxes you see on parking meter posts, where we are supposed to deposit trash. He also says they are being made in Hereford — and that they offer a new industry for the community. The company plans to put

in a small factory here, and sell the gadgets, financed by advertising, all over the country. They have hopes of getting bigger and bigger as time passes. This is how industries are born.

Personally, I don't care for the name, but the organization has my best wishes. When Bill first said "Litter Maids", I thought it was some new organization for high school girls — but then not everyone has a teenage daughter, so maybe it won't be too confusing.

And the Billie Sol Estes scandal continues to get bigger and bigger, jumping from the small fry into executive echelons this week. Many are afraid it may well include some of the elected officials before all is said and done. President Kennedy recently said all business men are SOB's, but it begins to look as if we might have a few others in our government ranks as well.

Roses Donated To Boys Ranch

Nine members of the Hereford Garden Club made a trip to Boys Ranch on Tuesday morning, May 1, to take four "Peace Climber" roses to use in the landscaping of Carter Home, one of the new dormitories recently built at the ranch, that is to be landscaped entirely with roses. More roses will be given at later planting dates.

Four of the ranch boys did the actual planting of the climbers under the supervision of a former contractor and landscape designer from Clayton, N. M., who is giving personal instruction to boys interested in the art.

The club members had lunch with the boys and in the afternoon visited the old and new facilities at the ranch.

Making the trip were Mrs. R. L. Wilcox, president of the Hereford Garden Club, and Mrs. Jo Jacobsen Jr., chairman of the projects committee under whose supervision the trip was made, and Mesdames S. S. Williams, Arthur Manjoet, O. G. Hill Sr., C. D. Kelton, Jennie Clark, A. O. Thompson and J. V. Pickets. The ladies left Hereford at 10 a.m. in the morning and re-

turned in the late afternoon. The visitors stated, "We wish we could spend more hours with the young boys who were so gracious to us in showing their home and telling of the fine help and instruction they receive from the leaders of Boys Ranch. They were an inspiration to us."

Suggs-Havens Pledge Vows

Miss Mary Sue Suggs of El Campo, daughter of Mr. and Mrs. George Suggs, 113 Avenue G, Hereford, and Ira Havens Jr. of El Campo, son of Mrs. Ira Havens and the late Ira Havens Sr. of Van Cleave, Miss., exchanged wedding vows on Thursday afternoon, May 10, at 3 o'clock in the sanctuary of the First Baptist Church of Hereford.

The Rev. Dan Havens of Van Cleave, Miss., brother of the groom, read the double ring ceremony before an archway of greenery, flanked by baskets of pink and white gladioli.

"Meditation" by Morrison, "Serenade" by Braga, "Liebestraum" by Liszt, "Song to Evening Sky" by Wagner, "My Heart At Thy Sweet Voice" by Camille-Saens, and "I Love You Truly" were played before the ceremony by the organist, Mrs. Lowell Sharp. "Bridal Chorus" by Lohengrin was used as the bridal party entered the church. Mrs. Sharp accompanied Miss Donna Rogers as she sang "O Promise Me", "Bless This House", and "The Lord's Prayer". At the conclusion of the ceremony, the organist played Mendelssohn's "Wedding March".

Miss Marlene Gilliland attended the bride as maid of honor and Mrs. G. W. Suggs of Lockney was bridesmatron. Miss Carla Lawton was flower girl. All the attendants wore pink shantung dresses accented with white mum corsages.

G. W. Suggs of Lockney, brother of the bride, served the groom as best man. Ushers were Wayne Williams and James Hutson of Hereford and ring bearer was Lyle Lawton.

The bride, given in marriage by her father, was attired in a full length formal bridal gown of nylon and silk lace. Leaves of lace accented the neckline and the long sleeves of lace tapered to petal points at the wrists. A panel of lace at the center front and sides were nylon with

lace floral design appliques. The back of the gown swept into a long lace train. Her veil was fashioned in three tiers of silk net, fastened to a tiara of miniature white roses. The bridal bouquet was white rosebuds carried atop a white Bible. Her only jewelry was her mother's pearls.

Mrs. Suggs, mother of the bride, wore a bone white embroidered sheath dress, accented with pink accessories, and a

corsage of pink roses. Mrs. Havens, mother of the groom, wore a blue dress trimmed with chantilly lace. Blue jewelry and white accessories completed her costume. Pink roses formed her corsage.

Immediately following the ceremony, the bride's parents hosted a reception in their home. The bride's table was laid with a white lace cloth over pink. The large wedding cake was decorated in pink and white, the

bride's chosen colors. The attendants' bouquets formed the centerpiece.

When the couple left for the wedding trip, the bride was dressed in a beige linen sheath dress with matching jacket, brown accessories and a corsage of white roses. The couple flew to New York City from Amarillo where they boarded the S. S. France. They will make a 27-day tour of Western Europe, via car, visiting England, the Nether-

lands, Germany, Switzerland, Italy and France. They will return June 12 to their home at 621 Avenue A, El Campo, Tex. The bride is a 1956 graduate of Hereford High School and a 1959 graduate of Hendrick Memorial Hospital Nursing School in Abilene. She has been employed as a nurse at Nightengale Hospital in El Campo since 1960.

The groom is a 1955 graduate of Mississippi State University. He served as 1st Lt. in the Army, 1953-1957. He is employed by Halliburton Oil Company.

Out-of-town guests attending the wedding were Mrs. Ira T.

Havens of Van Cleave, Miss., mother of the groom; the Rev. Dan E. Havens of Van Cleave, Miss., brother of the groom; Mrs. E. C. Dodson of Perryton, aunt of the bride; Mrs. Bob Stone and Mrs. John Comer of Clovis, N. M.; Miss Gail Trew of Perryton; and Mr. and Mrs. G. W. Suggs of Lockney, brother of the bride.

WEEKEND GUESTS
Miss Betty Knox and John David Bryant, students at West Texas State College in Canyon, were weekend guests in the home of his parents, Mr. and Mrs. Cawthon Bryant of Hereford.

Army 2d Lt. Donald L. Curry, son of Mr. and Mrs. Cecil L. Curry, 511 W. Jones, Dimmitt, completed the officer orientation course at The Quartermaster School, Fort Lee, Va., April 27.

During the course, which is designed for newly commissioned officers, Lieutenant Curry was trained in the mission and function of the Quartermaster Corps. The course included classes in chemical, biological and nuclear warfare, signal communications, map and aerial photo reading, methods of inspection and physical training.

The 22-year-old officer is a 1957 graduate of Dimmitt High School and a 1962 graduate of Texas Technological College in Lubbock.

LITTLE ANNIE ROONEY

By DARRELL McCLURE

YEAH-- THAT'S MISS PENNY DOWNSTAIRS SURE ENOUGH! GEE, IT'LL BE SWELL TO SEE HER!

DID YOU COME TO CASTIGATE ME AGAIN FOR MY SINS, PENNY? IF SO, GO AHEAD! I HAVE GAINED A CERTAIN AMOUNT OF HUMILITY SINCE YOUR LAST VISIT!

OH-- MAYBE THIS IS PRIVATE STUFF!

I APOLOGIZE FOR THAT OUTBURST! FORGIVE ME!

Y'SEE, I'M TAKING MY BOAT DOWN THE COAST! I HAD INVITED ANNIE TO GO ALONG IF YOU WOULD PERMIT IT, BUT I HAVEN'T SEEN HER LATELY--AND--

I'M SURE SHE WOULD ENJOY IT!

BUT THAT IS NOT FOR ME TO DECIDE! AT THE MOMENT ANNIE IS VIRTUALLY A PRISONER OF THE COURT, AND I AM HER TEMPORARY JAILER!

BUT, WHAT--??

THE COURT HAS NOT MADE A FINAL DECISION! SHE COULD EVEN BE SENT TO THE COUNTY ORPHANAGE IF THEY DECIDE AGAINST ME! THEY QUESTION THE MOTIVE BEHIND MY WISH TO ADOPT ANNIE!

WHAT IS WORSE, I AM BEGINNING TO DOUBT MYSELF-- PERHAPS I REALLY AM THE ARROGANT, SELFISH PERSON THE OPPOSITION SAYS I AM!

AND IT IS PUTTING A MARK UPON THE CHILD! BY NOW THE WHOLE COUNTY IS TAKING SIDES-- AND VERY FEW ARE ON MY SIDE! SHE'LL FOREVER BE A "CAUSE CELEBRE."

ZERO-- IF THERE WAS ONLY SOME-PLACE TO HIDE ON MISS PENNY'S BOAT! WE'D GO AWAY AN' NEVER, NEVER COME BACK!

YEAH-- THAT'S MISS PENNY DOWNSTAIRS SURE ENOUGH! GEE, IT'LL BE SWELL TO SEE HER!

DID YOU COME TO CASTIGATE ME AGAIN FOR MY SINS, PENNY? IF SO, GO AHEAD! I HAVE GAINED A CERTAIN AMOUNT OF HUMILITY SINCE YOUR LAST VISIT!

OH-- MAYBE THIS IS PRIVATE STUFF!

I APOLOGIZE FOR THAT OUTBURST! FORGIVE ME!

Y'SEE, I'M TAKING MY BOAT DOWN THE COAST! I HAD INVITED ANNIE TO GO ALONG IF YOU WOULD PERMIT IT, BUT I HAVEN'T SEEN HER LATELY--AND--

I'M SURE SHE WOULD ENJOY IT!

BUT THAT IS NOT FOR ME TO DECIDE! AT THE MOMENT ANNIE IS VIRTUALLY A PRISONER OF THE COURT, AND I AM HER TEMPORARY JAILER!

BUT, WHAT??

THE COURT HAS NOT MADE A FINAL DECISION! SHE COULD EVEN BE SENT TO THE COUNTY ORPHANAGE IF THEY DECIDE AGAINST ME! THEY QUESTION THE MOTIVE BEHIND MY WISH TO ADOPT ANNIE!

WHAT IS WORSE, I AM BEGINNING TO DOUBT MYSELF-- PERHAPS I REALLY AM THE ARROGANT, SELFISH PERSON THE OPPOSITION SAYS I AM!

AND IT IS PUTTING A MARK UPON THE CHILD! BY NOW THE WHOLE COUNTY IS TAKING SIDES-- AND VERY FEW ARE ON MY SIDE! SHE'LL FOREVER BE A "CAUSE CELEBRE."

Visit To United Nations Told By Mrs. Leroy Aven

The Hereford Xi Epsilon Alpha Chapter of Beta Sigma Phi sorority met Tuesday evening, May 1, in the Community Room of the Hereford State Bank. The vice president called the meeting to order with all members repeating the opening ritual in unison.

The business meeting was followed with a discussion of the coming installation of officers which will be held in the home of Mrs. Aubyn E. Hodges in conjunction with a salad supper.

Sorority members voted to support the State Project: the East Texas Treatment Center at Kilgore. A letter was read from state headquarters, inviting all members to attend the State Beta Sigma Phi convention in Brownsville.

Following the business meeting Mrs. Ernest Wade and Mrs. R. J. Cramer, program co-chairman, presented the guest speaker, Mrs. Leroy Aven. She showed slide pictures of the United Nations Building in New York

City and gave a short talk of her visit to the building.

Mrs. Betty Walker and Mrs. Clyde Russell, hostesses, served refreshments to Mesdames Ernest Wade, Carl Hollingsworth, Ronald Babione, Harold Beau-

NEW YORK (AP) — Madeleine Sherwood doesn't worry about the possibility that she might have to appear in two Broadway shows the same evening.

Miss Sherwood is in the musical "Camelot," and is also a standby for Shelley Winters in the drama, "The Night of the Iguana."

The productions happen to be playing in adjacent theaters. The "Camelot" assignment keeps Miss Sherwood on stage for only 10 minutes, and she would be able to slip next door without complications if double work became necessary.

Bothered by "Roll Togetherness"?

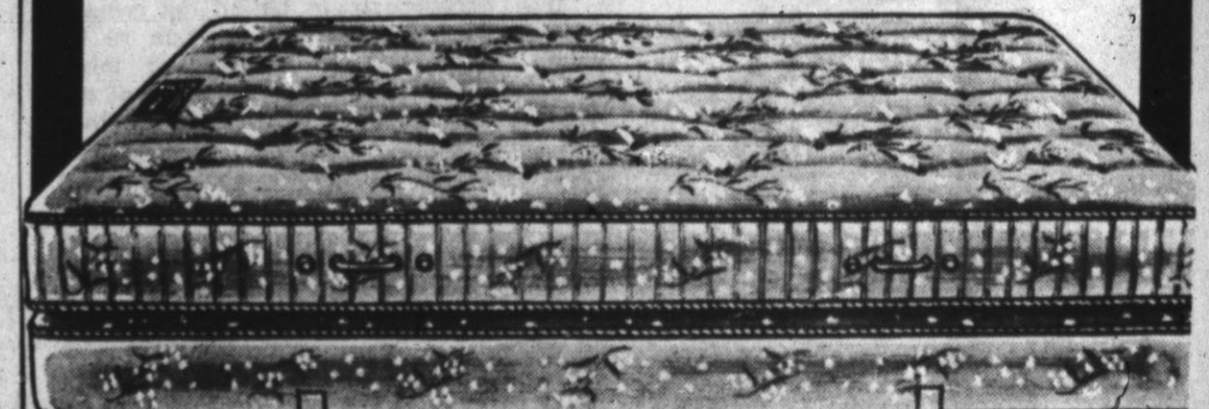

It's a common complaint. Take an ordinary mattress. Put a 190 lb. man on one side and a 130 lb. woman on the other. What happens? You guessed it. The mattress sags towards the heavier weight. He sleeps in a hollow. She sleeps on a slope. Uncomfortable? You bet.

That's one sleep problem we've solved many times because we know there's one mattress—the Beautyrest—that gives single bed comfort in a double bed.

Maybe you have another sleep problem. Is your mattress too hard? Too soft? Is it too small for you? Do you like a tufted mattress or one with a quilted top? Whatever your problem, chances are there's a Beautyrest model that is just the answer. We have it and we just love to help people solve their sleep problems.

Another School Bond Issue, And Up Pops Pesky Football Field...

Even before news of the school district's \$775,000 bond issue was officially announced, many people were discussing the expansion program and the background for a heated election was in progress.

Chief objection voiced about the program centers around a proposed field house, approximately \$50,000, included in the issue. The field house would be located north of Northwest Elementary school and would contain dressing rooms, public rest rooms and physical education classes. This naturally involves moving the football field, which we understand will be accomplished through operating funds and outside of the bond issue.

We base this opinion on past elections dating back before the high school was built in 1954. If the election is successful, it will definitely close the books on what has been the district's most controversial issue over a 25-year period. It will also get the football field out of town, provide ample parking space and remove a residential nuisance.

Much of the conflict centering around the football field, it seems to us, stems from presentation method of the bond issues. Most school bond issues are placed before the people on a basis of "We must educate our children," and they acquire a tremendous sentimental appeal as they roll along.

Those who favor the issue will point to physical education as a definite part of modern education, especially in view of the 40-hour week. Those opposed will point to the small number of participants in most team games, and frequently come up with some interesting figures. As a result, the primary issues involved in the election often become secondary.

New Fire Truck For Boys Ranch

When volunteer firemen from over the Panhandle gathered at Boys Ranch Saturday to present fire fighting equipment to the organization, Hereford was well represented, along with a bonus over-subscription from this community.

The equipment, representing some \$40,000 in costs, has been gathered and financed by volunteer departments all over the area in a drive spearheaded by Earl Phillips, former Hereford chief and former Panhandle Association president, who served as chairman for the project. The local money was raised through sale of small fire extinguishers by members of the Hereford department, who earmarked proceeds for the express purpose.

The equipment will fill a tremendous need at Boys Ranch, where serious fires have several times threatened facilities, most of which were donated by public spirited citizens. The efforts of Panhandle firemen, in fact, can easily preserve and protect several millions of dollars worth of assets which were designed primarily for the rehabilitation of boys and young men.

Volunteer firemen are good citizens and fine people, a fact which their position already attests, and in this movement they have increased an already steadfast respect over the entire Panhandle. Furthermore, they have turned tables on Cal Farley and the other ranch hands for:

In case of fire, they have given Boys Ranch at least "A Shirt Tail To Hang Onto".

The POWER of FAITH

The Apostles—IV PAUL

"... we walk by faith, not by sight." Paul, the great missionary of Christ, lived his faith. This philosophy carried him over parched lands and stormy seas, preaching and teaching. His zeal sustained him during his years of imprisonment by the Romans, during which time he wrote a number of his Epistles. He wrote over half the books in the New Testament, and always the core of his letters was the power and glory of God. When Paul felt the end of his life was near, he wrote in his second letter to Timothy, "I have fought a good fight, I have finished my course, I have kept the faith."

Mother Is So Many Things To Children

By Mrs. R. L. Criswell Today is 'Mother's Day', the day to honor mother and shower her with love and then gifts. The loveliest is not too good for mother, and yet the simple gift is loved and valued just as much as those more costly. It is a day to let her know how much you appreciate the years

of love and training she has given you, the heartaches you gave her, when 'YOU' knew more than anyone, even the sages of old. What does it take to be a mother, a real mother? Not one of those women that shirk their duty in every way possible and leave the loving and train-

ing to any one who has a heart large enough to try to take her place in her child's life. The real mother the kind that you and I have, or have had. Just what does it take. First, she must have the gentleness of the Savior, the wisdom of Solomon and a heart so loving that nothing her child could ever do would destroy her love for him. She must have the giving spirit that expects nothing in return for her time, work, lack of sleep or the many other things which mothers do have. She must be so much and so many. She must be a peacemaker to keep the peace of her family and friends of the family. She must be so mentally mature that nothing ever fazes her, she must have the presence of mind of most wise and be a disciplinarian of great firmness, knowing just the proper time to be lenient without losing the respect of her children.

50 YEARS AGO Railroad Survey Points Toward Hereford Area

Last Friday the surveyors completed the survey of a new railroad line from Benjamin to Crosbyton. This preliminary survey was made at the instance of the Crosbyton South Plains Ry. Company and the work was under the supervision of A. E. Lichty, chief construction engineer for that company. A point that may be of interest to Castro and Deaf Smith county is the fact that the survey was run from Crosbyton northwest to the county line of Crosby county and was headed towards Plainview. With a map before you, study out the several possible routes from Castro and Parmer and then northwest, but it appears that the logical route is from Plainview to Dimmitt, to Hereford and on to Adrian, thus placing the line in easy touch with the north New Mexico coal fields. This would be regular middle buster between the Lubbock-Texico cutoff on the south and the Denver on the north, and would intersect the Santa Fe at Plainview and Hereford at almost right angles. Of course, Hereford should not prevent the line from coming up the Castro way if it wants to. Olton in Lamb and Dimmitt in Castro would be in direct line. Mr. Julian Bassett, the Texas head of this enterprise, is a practical businessman and he is going to place the road down where it will pay. Come to Hereford!

25 YEARS AGO Alex R. Bateman, county agent, today explained new points in the 1937 Soil Conservation Program. The additional points to the program are strictly for the purpose of caring for land which is badly eroded. Producers may secure payments of 75 cents an acre for cooperation with the program. Bateman's explanation follows: "If the producer wants to take advantage of the 75 cents per acre, he must state immediately that he is going to take advantage of it. After the soil conserving and diverted acres are deducted, the 75 cents per acre may be earned by contour listing and planting grain sorghum or sudan on the land, but these stalks must not be disturbed until May 1." It was pointed out that wheat could not be planted on the acreage set aside. Other crops planted can not be harvested, according to the regulations. Only the sudan planted on the conserving and diverted acreage could be grazed according to Bateman. Contour listing must be completed by July 1, and all planting of crops must have been completed by July 15. The county committee is insisting that producers are requested and urged to follow the program aid administration rulings closely. Unless this is done no certification will be made.

CROPS DAMAGED BY HAIL

'Ole man weather both smiled and frowned on Hardeman County the past week when he brought welcoming moisture to all areas of the county but dumped a calling card of devastating hail on thirsty wheat fields in the northwest part of Hardeman. Extensive damage in the east part of Childress County was surveyed as a result of the same hail storm Thursday. The northwest part of the county received the brunt of the hail storm with stones that measured as big as golf balls in some places. The hail lasted about five miles north of Goodlett and cut a swath of about five to six miles wide in the northwest area of the county.

NICARAGUAN VIEWS PLAINS AGRICULTURE

The study of English occupies most of the spare time of Henry Arcaica Landero, 26-year-old soil scientist of Managua, Nicaragua, who is in Tulsa observing methods of agriculture that he can apply in his own country. An intelligent, serious young man, Landero came to the United States on a fellowship from the Agency for International Development. He was sent to this area because of the irrigation. He is studying soil mapping and land-use of irrigated fields in Swisher, Oldham, and Potter counties. Landero will stay in Tulsa five or six more weeks and then go to Stillwater, Okla., where he will complete requirements in advanced study of soil chemistry at Oklahoma State University.

CRASH KILLS NAVY FLIERS

Two Navy fliers parachuted to their deaths near here last Thursday after their supersonic aircraft apparently became disabled while flying through a thunderstorm. The F4H Phantom II, fastest operational manned aircraft in the free world, crashed about two miles from where the bodies of the two victims were found. Wheeler County Sheriff Bus Dorman and others from this area located the plane's wreckage after the body of one of the fliers had been found late Thursday afternoon. The other victim was found later after papers in the aircraft indicated two men were aboard. A crater some 20 feet across and 14 feet deep was dug into the ground by the big airplane.

LARGE PERMITS UP APRIL TOTAL

With three large commercial permits issued during the month Perryton's building permit total during April reached almost one million dollars. Largest of the permits went to the First National Bank for construction of a \$441,000 building. This along with a \$22,000 permit for construction of another business made the new business total of \$463,000 to lead all other categories. Two rather extensive additions pushed the additions and alterations divisions up to \$351,400. Residential construction permits taken out during the month totaled \$142,350 and pushed total permits to a high of \$983,250.

THE BOOTLEG Philosopher

Editor's note: The Bootleg Philosopher on his hindweed farm tries to tell where he gets his ideas for letters. We're still not sure.

Dear Editor: A man came up to me the other day and said, "Say, where do you get your ideas for writing all these letters to the Brand?"

Well, for one thing, you've got to think. Say you come out of your house on a bright sunny morning and see a hoe leaning against a shed and weeds in your crops. This makes a man think, and since anybody knows it's impossible to swing a hoe and write a letter at the same time, I put first things first and leave the hoe alone. Anybody ought to know a lack of thinking has done the world more harm than a lack of weed-chopping, and I don't want anybody accusing me of falling down on my job.

The trouble with too many people is that they don't see things large enough. This is an intercontinental guided missile age we're living in, and a man can't afford to get too limited in his concern, he's got to widen his horizons.

For instance, with the United States' national debt approaching 300 billion dollars, a man has to be mighty limited in his outlook to be spending any time worrying about the \$100 note he owes at the bank. It seems wasteful to me to be worrying over a hundred dollars when for the same amount of effort you can be worrying over three hundred billion.

When the roof of the world may be about to cave in it seems to me I'd be derelict in my duties if I was up on top of my house patching mine.

With the wall in Berlin causing so much trouble, it seems sort of unstatesmanlike for me to be out fixing my fence. Why risk offending world opinion?

I know everybody is supposed to get ahead in life, but if somebody didn't get behind, how could anybody get ahead? Weeds ought to be chopped, all right, but a man should reserve some time for thinking, after he has provided his family with the four basic necessities for life: food, clothing, shelter and television.

Yours faithfully

J. A.

 real marriage of love and common sense and one of mere physical attraction and passion; to choose a real mate, a fit person to share the joys and sorrows of parenthood, one that will strive with all love and kindness to make their marriage a small heaven on earth.

Yes, she must have all of these and more, for the business of motherhood is woman's great mission and if she masters all of these she is a wonderful mother indeed, but if she should be a little shy of one or more than one, forget it and let her know that to you, SHE is the greatest of all mothers and that you know she would say with Kipling—
 If I were hanged on the highest hill, Mother o'mine, O

mother o'mine!
 I know whose love would follow me still, other o'mine, O mother o'mine!
 If I were drowned in the deepest sea, Mother o'mine, O mother o'mine!
 I know whose tears would come down to me, Mother o'mine, O mother o'mine!
 If I were damned by body and soul, I know whose prayers would make me whole, Mother o'mine, O mother o'mine.

ISOLATION OF SEED FIELDS ENSURES PRODUCTION OF TOP QUALITY CROPS

Robert Wood, Agraw Seed Company of Texas production manager and Henry Harris, field supervisor inspecting grow-out tests of sorghum hybrids.

Situated about 100 miles south of San Antonio, the seed-production fields of the Agraw Seed Company of Texas ensure maximum isolation from undesirable pollen sources.

This area was chosen as ideal for seed production for the following reasons: isolation prevents undesirable outcrosses, irrigation and soil assure perfect moisture control and high yield, favorable weather conditions at harvest time minimize damage to seed from the standpoint of both quality and discoloration. Agraw is the only large commercial seed company producing seed in this select southwest Texas area.

CONTINUOUS FIELD INSPECTION
Under the supervision of Agraw agronomists, skilled crews run continuous quality control checks. Off-type plants are identified and discarded prior to blooming time. Irrigation is carefully watched during the season and soil moisture content is controlled to ensure maximum germination and vigor of seed.

TEST PLANTINGS OF EACH SEED CROP

Because of this ideal seed production location in southwest Texas, Agraw sorghum hybrids are harvested in July. This enables Agraw agronomists to plant grow-out tests in the same season, early in August. This in turn, permits specialists to determine the quality of sorghum hybrids in September. Thus, farmers can be assured of proven high quality seed far in advance of distribution.

QUALITY-CONTROLLED PROCESSING

All seed is milled and cleaned by modern machinery in Agraw's fully automatic processing plant at San Antonio. The seed is accurately size-graded for precision planting, treated with fungicide and insecticide for maximum protection at planting time. It is then conveniently packed in water-repellent and pest-repellent containers, further ensuring high yields and consistent quality for growers in the Southwest.

'Deaf' Smith Says

TO: The Spirit of General Sam Houston
 FROM: The Spirit of Erastus "Deaf" Smith
 SUBJECT: My Chamber of Commerce in Action

The Aviation Committee of my Chamber of Commerce met with the members of the City Commission last Thursday night for an informal discussion of the problems of a growing transportation means. Members of the committee presented certain recommendations to the Commissioners, and in turn were given many facts and figures that they had not known before. Commissioners and committee members alike joined in a general discussion which attempted to explore solutions to the airport problem which would provide the services that modern aviation requires and at the same time would not place an undue burden upon the city and the taxpayers. It is my feeling, Sam, that meetings such as these are a very good thing for they help to erase misinformation and misunderstandings and lead to a mutual understanding of the needs and problems of both groups.

The regular monthly meeting of the Chamber of Commerce Board of Directors has had to be postponed one week because of the emergency situation resulting from the serious accident to Mrs. Marshall Formby. Clint is helping Marshall to wind up his affairs following his campaign, and will be out of the city at the time of the regular meeting.

The agenda for the meeting includes a proposal for a new sign for the Chamber office building, a proposal for a special presentation item to be used for visiting dignitaries, a discussion of some office problems created by the election of the Manager to the position of Secretary-Treasurer of the National U.S. Highway 60 Association, a report from Aviation Committee Chairman Curtis Traweck on the recent discussions concerning the Airport, and an Industrial Committee report involving a matter of policy. The meeting will be held at 6:30 a. m. at the Western Wheel Inn

on Wednesday, May 16. The Membership Relations and Information Committee, headed by Curt Roach, is preparing a series of meetings to which every member of the Chamber of Commerce will be invited. It is planned to have the meetings weekly inviting 15 members at a time for an informal discussion of the Chamber's Program of Work. Sam, the only way that a Chamber of Commerce can successfully operate is with the full support of its members. Unless the Chamber membership knows what the organization's objectives and goals are, and unless they approve of those goals the Chamber of Commerce cannot serve its purpose.

The meetings are designed to give every member the opportunity to freely discuss the objectives and operations of the Chamber of Commerce. Each member will be asked to express his opinion on the Program of Work, to tell the members of Curt's committee what projects should be receiving more attention, which are receiving too little attention and to help re-write that program if it needs re-writing. As now planned the meetings will be held each Tuesday morning at 10 a. m. in the Chamber office.

Some other activities coming up in the near future will be a trip to Childress on Sunday, May 13, to see the Childress Air Show by members of the Aviation Committee. Purpose will be to determine whether the feature attraction offered there would be desirable for the Harvest Festival Air Show here. On Monday, May 14, the Tourist and Convention Committee will meet in the Chamber office to make plans for its annual membership drive for the Highway Development Association. On Friday, May 18, a number of Highway boosters will travel to Odessa for the state meeting of the U. S. 385 Association. The Harvest Festival Committee will meet again early next week to further examine the progress on the various activities of that annual event.

Sam, that's my report for this week.
