Neighbors Stop Farm Home Fire

Two-year-old Steven Anderson's birthday might not have been very happy without the help of neighbors and the Hereford Volunteer Fire Department late Friday morning. Neighbors and the volunteer firemen combined forces to save most of the belongings and the frame dwelling of Mr. and Mrs. Ken Anderson on the Dan Larson farm, eight miles south of Hereford, from extensive damage.

NEIGHBORS STACK HOUSEHOLD belongings of the Ken Anderson family in the front yard as a blazing closet threatened the home late Friday morning. Clothes, furniture, books and bedding were hauled from the home through open windows and doors while others fought the fire with a garden hose. Help was summoned and a truck from Hereford arrived to extinguish the smoldering fire. (Staff Photo)

Sorghum Producers Approve New Legislative Proposal

Announce Cotton Marketing Quota Referendum Poll

Polling places where Deaf Smith County farmers may cast ballots in the Dec. 12 marketing quota referendum for the 1962 upland cotton crop were announced today by the local Agricultural Stabilization and Conservation office following the mailing of cotton allotments. Allotment notices for the county showed that 11,354 acres were available to area farmers. Notices were mailed early in order that farmers would know in advance of the Dec. 12 vote how their farms would be affected.

Eicke, president; and Tommy Carnahan, vice president, discuss the feed grain outlook for 1962-63. The officers were elected during the meeting of the producers association here Wednesday. At the meeting, growers went on record favoring fair price supports and a mandatory 20 percent acreage cut with no pay for diverted acreage. (Staff Photo)

Deaf Smith County Grain Sorghum Producers Association went on record at a meeting held here Wednesday night in the Community Center in favor of legislation setting fair price supports on grain and mandatory 20 percent cut in acreage. Producers at the meeting expressed a desire to be paid for what they produce rather than for acreage diverted to other crops or conservation. The group, after discussing legislative proposals, also favored quotas based on acreage allotments rather than a national tons-bushels production quota.

Fire Alert System Channel Gets Okay; Sets Due Soon

Announcement of the Federal Communication Commission that a frequency had been designated for the radio fire alarm alerting system for the Hereford Volunteer Fire Department was received recently by the city, according to Dudley Bayne, city manager.

Construction of the base station, installation of the transmitter and tone generator in the Fire Station will begin within the next two weeks, he continued. The system should be in operation within the next 30 days.

Shipment of the 35 receiving sets to be installed in the homes of the volunteer firemen has been held up pending announcement of the frequency. The sets will be shipped by Plecton Corporation as soon as crystals have been installed.

Western Sugar Beet Group To Back New Areas

Officials of the long-established Western Sugar Beet Growers Association have thrown their weight behind a move to encourage more widespread production of beets. Lee Benefield, president of the Texas Sugar Beet Growers Association, and James W. Witherspoon, chairman of the group's legislative committee, both of Hereford, and John Harper of Peecos met with officials of the WSBGA in Kansas City Thursday.

WHIP CLOVIS 83-59

Hereford finally evened its record Friday night with a wild 83-59 victory over Clovis. The win gave the Herd its third straight victory after opening with a trio of losses to AAAA class schools. The Whitefaces were slated to face Palo Duro in Amarillo at 7:30 p.m. Friday night in a return game. The Dons beat Hereford 52-50 in overtime earlier.

Whitefaces Even Record; Take On Dimmitt, Pampa

On Monday the Herd will face the Dimmitt Bobcats in Dimmitt and then will travel to Pampa Tuesday for its second game with the Harvesters. Dimmitt opened the season under new coach Kenneth Cleveland with a 58-28 win over Lockney and a victory over Muleshoe 61-35. Then the Bobcats ran into tough competition, losing to Borger 52-69, to Plainview 53-60, to Borger 45-65 and to Tulla 57-77. The Bobcats had at least one more game in the Plainview tournament Saturday.

Three Hurt In Grinding Crash Here Thursday

Failure to heed a yield right of way sign resulted in a grinding crash about 5 p.m. Thursday, which sent three people to the hospital and totally demolished a late model car. George Wheat, 57, of Pasadena, was hospitalized after the car which he was driving was hit broadside by a station wagon driven by Mrs. Hazel Bruner, of 513 Star in Hereford. Both Mrs. Bruner and Mrs. Gwyneth Wheat were treated for lacerations and released from Deaf Smith County Hospital, following the accident which occurred at the intersection of Star Street and 13th Avenue. Wheat was cited for failure to heed a yield right of way sign as he was travelling west on 13th, according to investigating patrolman Acie Austin. The late-model Wheat auto moved into the path of the station wagon driven by Mrs. Bruner, which was headed north on Star Street. Following the impact, the two cars smashed into a light pole located on the corner of the intersection, bringing the overhead streetlight falling to the ground. Damage on the Bruner station wagon was estimated at \$1000, while the Wheat auto, a 1960 model, was termed a total loss. Wheat was listed in satisfactory condition Saturday morning, after treatment for severe lacerations.

Around Town

Stop and start snowfall in this area has everyone confused — particularly the weather forecasters. It snowed some Friday, but soon gave it up as a bad job. Then it snowed early Saturday morning, quit and the sun came out brightly as clouds scurried south. Then, wham, back came the snow. This time it is more determined and producing larger flakes. Who knows what it will be like by Sunday? Jim McAndrews said when the sun came out he started his hands on a day of branding. By noon he didn't know what to do.

Republican Club Formed; Three Candidates Set

The Deaf Smith County Republican Club was formed here Wednesday night and a Young Republicans Club is in the formative stage. Meeting at the Hereford Community Center, about 25 local persons elected officers for the county Republican Club and announced that the group would have at least persons seeking public office during elections next year. Named as president of the Club was Robert Betzen. Mrs. Earl Plank was elected vice president and E. K. Duderstadt will serve as secretary-treasurer. A steering committee was appointed.

The alerting system will consist of a base station with a tone generator to activate the receiving sets. When a fire is reported, a tone alarm will be broadcast to alert firemen followed by information on the location of the fire. These units will be portable and run by household current. When the electronic alerting system goes into operation, the fire siren will not be used during the evening and night hours between 6 p.m. and 6 a.m., Bayne stated. The units are not affected by weather conditions and have a range of 10 to 15 miles. Installation of the base station will be completed by the end of the month.

One Small Idea Grows Into A Major Improvement Program At Labor Camp

BY H. A. TUCK BRAND NEWS EDITOR A casual remark has snowballed into a major effort toward improving sanitation and drainage problems at the Hereford Labor Camp. Materiel, labor and money have come from many sources

within the last month to make a major step toward the goal. Monday, Tuesday and Wednesday, all streets and other areas in the sprawling camp were graded and caliche was laid around 15 of the barracks buildings. Ralph Owens of Hereford, an energetic young man who had dealt with army of the camp residents through Gilliland Funeral Home's insurance program, was instrumental in getting the project started.

It all started when Brother Chris, a priest at the Camp, talked with the head of San Jose Mission, Father Raymond Gillis, about building a few wooden sidewalks around the camp. Father Raymond mentioned the project to Owens, who took over. They decided that wooden sidewalks wouldn't be too good, since they were apt to be ripped up for firewood during the winter. Owens contacted some Latin-Americans who live in the Hereford and was amazed with the response. So far, \$515 has been donated to improve the camp area and only \$100 of that came from other than Latins. With funds to buy caliche and cement, Owens was just getting

'Diary Of Anne Frank' Is Drama Of Courage, Faith

Anne Frank died at the age of 15, but she left behind her a memory which has grown into a legend of a girl whose courage and faith are beyond comparison. Anne's brief life is only a beginning. Her story carries a message of courage and tolerance which is told in "The Diary of Anne Frank," to be presented by Hereford High School Thespian Troupe 896. Coming on the heels of the high school music department's presentation of "South Pacific," the all-school play promises to be another outstanding presentation by Hereford dramatists. "The Diary of Anne Frank" staged Dec. 18-19 at 8 p.m. in the Hereford High School auditorium, under the direction of James Hinkle, high school Thespian sponsor. Tickets for the Thespian-sponsored all-school play go on sale here Monday, with members of the local Thespian troupe in charge of sales. Kay Seamands, a junior, appears in the lead role of young Anne Frank, whose story has thrilled millions, with John Pavlicek appearing opposite her as 17-year-old Peter Van Daan. Based on the young girl's diary, the play opens as two Jewish families go into hiding from the Nazis during World War II. Anne Frank's diary describes not only the day-to-day events that occur during the nearly two years of hidden seclusion endured by the two German families, but also discloses the soul of a teenage girl — her feelings, her troubles, her loves, and most of all, her belief that there is good in all humans. Through her diary, millions have realized the meaning of faith. When Hitler rose to power in Germany, there began one of the world's greatest tragedies — the attempted annihilation of over 6,000,000 Jews. Anne (Continued on page 3)

Pickup Reported Stolen Thursday

A 1954 model pickup truck belonging to Dentura Coronado, 310 Ave. I, was reported stolen to the Hereford Police Department Thursday. The truck was reportedly taken about 7 p.m. Thursday. The pickup was parked in the alley in the 100 block of Main St. Coronado is said to have left his keys in the ignition, according to the police department. Investigating the theft was patrolman Marshall Padgett.

Chamber Elects Four Directors

Clint Formby, J. D. Kirkland, D. C. McWhorter and Austin Rose Jr. were announced as new directors of the Deaf Smith County Chamber of Commerce Saturday morning. They were chosen from a slate of eight nominees in mail balloting which closed Friday afternoon. Nearly 400 ballots were counted. Other nominees were Frank Beznar, Jim Lipscomb, Jim Roberts and George Warner. The new directors, not officially elected, will meet next week.

THREE PERSONS WERE HOSPITALIZED as these two automobiles collided and skidded into a telephone pole at the intersection of 13th and Star about 5 p.m. Thursday. The 1960 sedan, belonging to George Wheat, 57, Pasadena, Tex., was estimated as a total loss. Damage to the station wagon belonging to Mrs. Hazel Bruner, 58, 514 Star, was placed at \$1,000 by investigating officers. Both drivers and Mrs. Wheat were taken to the Deaf Smith County Hospital for treatment. (Staff Photo)

BEFORE AND AFTER are dramatically illustrated in these two photos from the Labor Camp. Picture at left shows problems residents face with mud and drainage. At right, conditions are improved by grading ditches and putting caliche in around the barracks. This is just part of an independent project to improve general conditions at the camp.

toward seeing that new areas are given more beet production.

Witherspoon reported that the Western group, which includes the large beet-growing areas of Iowa, Minnesota, Montana, North Dakota and Washington, will send representatives to Washington, D. C., next week to work on behalf of a new Sugar Act that would provide additional production for new domestic areas.

Both groups are expected to be on hand when the administration holds an information meeting later this month in order to get more facts about domestic sugar production.

"For the first time, we have a real friend in the old, growing areas," Witherspoon commented Friday. He explained that the attitude of the administration toward domestic sugar production is expected to be the controlling factor on how the Sugar Act is adopted. "Any possible way that we can present our story to influence favorable legislation should be done, and undertaken immediately."

Witherspoon urged all persons to write letters to President Kennedy and other government officials, asking that they consider the favorable effects which would result from increased domestic sugar production.

started. It seemed that everyone who heard about the project wanted to take part. Otto Massie sent out road equipment from Precinct Two to grade the streets and other dirt areas. R. D. Lance was foreman of this equipment.

Jack Messer also provided his heavy equipment while Howard Gault donated some of the caliche. Farmers who use Camp residents as laborers sent dump trucks and drivers.

But this wasn't a hand-out. Camp residents provided much of the labor and are enthused about helping with future work.

Santa Fe Railway donated 400 large crossties to the project. These will be cut and erected near the barracks to prevent cars and trucks from parking near the buildings.

Leron Satterwhite was to survey the camp Saturday to determine how water drainage pro-

blems could be alleviated. Some drainage ditches already have been cleaned out and some underground drainage is being considered for the worst spots.

After the barriers are in place, concrete walks will be poured around the barracks, so long as funds hold out. At present, most camp residents don't even have a place to scrape the mud from their feet before going inside.

One parking area is being fixed for large trucks, so the vehicles won't take up space where cars will be parked.

Exactly \$202.50 has been spent for caliche so far, with another \$400 needed for additional caliche and at least that much more for the sidewalks.

So far, Owens has not asked anyone except those from the camp and other Latin-Americans living in town to contribute. "I wanted to find out first if they were really interested in improving conditions out there," he said. He admits now that he is convinced and is seeking donations for the project from all sources.

Donations should be brought or mailed to Ralph Owens, care of Gilliland Funeral Home, 411 East Sixth. Checks should be made payable to Father Raymond Gillis and marked "Camp Improvement." Many Hereford residents were

dubious about the improvement program. Owens admits that he was when he got started. But not so now.

What started as a simple idea

about a few wooden sidewalks has mushroomed into a major improvement program in which the entire community can take part.

duction quota would be set, he said, and apportioned to farms. A farmer could plant crops of his own choice, including wheat for feed.

Farmers would be in compliance with the program, Nelson said, "as long as acres, times anticipated yields, did not exceed the farm's tonnage quotas."

He pointed out that those "shifting to lower yielding crops might use all their cropland."

Price supports, Nelson stated, would be on production rather than diverted acreage to permit a choice of crops.

"If the national quota failed to get approval in a referendum," he cautioned, "feed price supports would be dropped to 50 percent of parity to permit CCC disposal of part of its stocks despite the unrestricted crop."

The second proposal under study by the USDA, he told the grain sorghum producers, is the cropland conservation program, similar to the soil bank.

Among the drawbacks of this type of program is the necessity of large acreage cuts to offset the shift to higher yielding crops, use of more fertilizer and other technological advances.

Payments, lower than presently, would be on acreage diverted, he said. The program would require a referendum and would be compulsory.

A third alternative is the continuation of the 1961-62 emergency feed grain program which the USDA considers successful.

The aim of the program was to raise farm income, cut surpluses, reduce government costs and not increase retail prices of meat poultry and dairy products, stated Nelson.

"In considering an extension of this program, USDA is thinking of making it mandatory through a referendum and further reduction in program costs by reduced or discontinued payment on diverted acres and more government sales of grain at home and abroad, Nelson noted. It is said, he commented, that

future proposals have to meet three chief aims. These are to cut treasury outlays, cut CCC stocks and maintain farm income.

A discussion on the type of program desired by Deaf Smith County grain sorghum growers was headed by R. G. Peeler, a member of the Feed Grain Advisory Committee. Growers voiced their opinion of the programs voting against a land bank type of program and ton - bushels controls on quotas.

They directed Peeler to represent them at the upcoming meeting of the advisory committee meeting Dec. 13-14 as favoring a program paying fair price supports, a mandatory 20 percent acreage cut and no payment for diverted land.

In discussing the grain sorghum situation and outlook for 1962, Nelson pointed out that the 1961 crop of 482 million bushels is 21 percent below the near - record output in 1960.

As farmers cut harvested acreage 29 percent, record yields averaging 43.9 bushels per acre offset the cut, he noted.

While the grain sorghum crop was smaller than in 1960, Nelson said, carryover increased to 701 million bushels. This gave a total supply of 1,179,000 bushels, about 10 million bushels less than the 1,189,000 bushel record a year ago.

Total utilization of the 1961 crop is expected to about equal production, he stated, and the carryover "at the end of the 1961-62 period may be close to the 701 million bushel carryover on Oct. 1 this year."

"This will depend on the level of price supports yet to be announced and the degree of farmer compliance with the 1962 program," he explained.

In discussing the 1962 program, Nelson pointed out that the "basic provisions are essentially the same" with the "major exception being the expansion to include barley."

Payments to farmers on diverted acreages of corn, grain sorghum, and barley will be essentially on the same basis, he commented. Price supports will be on normal production based on the 1959 and 1960 yield.

dropped Fort Worth Halton 67-50. Randy Matson, 6-5 Pampa center, continues to pace their scoring attack.

In Friday night's game, the Whitefaces jumped into the game like they had been charged with electricity. Four different starters hit for points as the Herd raced to an 11-0 lead in the first 1:45 of the game.

Clovis finally hit a free throw and then got a field goal to break the ice. Jimmy Price, who played all of the B team game, came in and kept Clovis in the contest as he swished in seven points.

Hereford had a comfortable 21-12 lead at the end of the period, as it worried Clovis with a determined full - court press and an aggressive fast-break attack.

Clovis started the second period field goal to pull within seven points, its closest of the game.

Then Jerry Curtisinger, Mack Canaler, Jim Haney, Randy Dowell and Dennis Hodges started ripping in shots from all parts of the court. Jerry Wheeler and Jimmy Shaw carried the Clovis attack, but it wasn't enough as the Herd jumped into a 38-26 lead at the half.

Early in the third quarter, Hereford opened the gap to 49-30. It was the first high - scoring third quarter of the season for Hereford and it made a world of difference.

Clovis picked up 16 points in the quarter, half of them on free throws as play got rougher. But that wasn't enough to stay abreast of Hereford, which picked up 19 points.

The Wildcats got eight points at the start of the final period, while Hereford was held to a field goal. But 5-7 Dennis Hodges found the wide open play to his liking as he ran and shot for ten quick points in the period.

Three Hereford players, Curtisinger, Haney, and Canaler, fouled

Frank's father, played by John Fowlkes, realized that his family faced death in a concentration camp if something were not done.

Before Nazi persecution of Jews reached a peak in Amsterdam, along with one Clovis player. But that seemed to make little difference. Reserves finished out the game for Hereford and gained a few more points for the Whitefaces.

For the third time in as many games, Dennis Hodges paced the Herd with 20-plus points. Against Clovis he whipped in 25 points. The scoring was spread nicely, however, as Curtisinger added 13, Canaler got 12 and Dowell tossed in 10.

Price got 16 for Clovis. Jerry Wheeler and Pascal Pollard got 12 each and Jimmy Shaw added 11.

It was a rugged game with frequent penalties. Hereford was charged with 24 personal fouls and had three players go out. Clovis was charged with 25 fouls and lost two players.

Hereford also was charged with a technical foul late in the fourth quarter. Mickey Stevens picked up a loose ball, failed to hear a whistle and started dribbling toward the basket. Someone yelled "Shoot" and he did, from behind the midcourt line. The ball sailed high and far, slammed against the backboard and dropped neatly through the net while an official frantically signaled "no basket."

Her slightly hen - pecked husband is characterized by Don Sheppard.

Quiet and sensitive, Mrs. Frank, Anne's mother, is portrayed by Kay Neil. Anne's older sister, Margot, is played by Janis Higgins.

Theatrical troupe 896 of Hereford High School is a member of the National Thespian Society, a club comprised of high school students devoted to the presentation of highly rated dramatic productions.

In the past, Hereford Thespians have been noted for their productions of such hits as "Our Town," "Brigadoon," and many others. Hereford Thespians have consistently ranked high in one-act play contests sponsored by the University Interscholastic League.

Last year's productions of "Our Town," "The Lady Shows Her Medals," and "Trojan Women" set a new high for dramatic achievement in Hereford. "The Diary of Anne Frank" is an even more difficult, and rewarding, stage drama.

to exceed the normal supply by 2.5 million bales.

Issues to be decided in the upcoming referendum are quotas or no quotas and the level of price support to be available for the upland cotton crop in 1962.

If at least two - thirds of the growers approve the quota s, price support will be available to those who comply with their farm allotments. Marketing penalties will be given on any "excess" cotton produced.

If the vote, however, is unfavorable, there will be no quotas or penalties applicable to the 1962 cotton crop. Price supports to cooperators will be at 50 per cent of parity as directed by law.

Cotton quotas have been approved since 1954. In the vote last year, 96.6 per cent of the growers voting approved the quota.

HIGHERS IN LECTURESHIP
Earnest Highers, minister of the Central Church of Christ of Hereford, was one of the speakers for a lectureship held at the Central Church of Christ in Tulsa, Dec. 4-7.
Bob Wear, former minister of the Hereford church, was a featured speaker in the series.

The Swiss government recently chose "Schweizersalm," and "Swiss Psalm," as the nation's national anthem. The unofficial national song had been "Rufst du, mein Vaterland," "Callst thou, Fatherland," sung to the tune of "God-Save the Queen."

JESSE STILL WINS
Hartford, Conn. — When Trinity College defeated Colby 23-16 this season, it was the 130th football victory for coach Dan Jessee since fielding his first Bantam eleven 29 years ago.

During that period, Trinity has lost only 53 and tied six under Jessee who holds the nation's longest unbroken head-coaching tenure at one college.

BY JIMMIE GILLENTE
A current sign of the changing times is the number of raincoats you see men wearing these days. Most of them have good excuses, but they still wear them. Homer Henslee, for instance, says he latched onto his new model while in Florida. Cliff Estes was also sporting a raincoat this week, and I noticed Owen Seamands sensibly attired with rubbers. A few years back you never saw these things on the Plains. Dave Alexander is a good example. He seldom wears an overcoat, and summed up his case by declaring: "If you work, you will keep warm without an overcoat. If you don't have to work, you should have sense enough to stay inside."

Meanwhile, the few days of pretty weather did much for the milo boys, but cotton growers still have a long way to go. Even a shrewd operator like Herb Bippus tells me that he has not even scratched the surface on his cotton. Bob McLean, the Dimmitt banker, said Friday that Castro County has in only 17,000 bales — which he estimates at perhaps a little bit more than 20 percent of the 1961 crop.

I guess Central Texas is in better shape, however, because I got a check from Howard E. Scott, former Baptist pastor here, from Cleburne. His statement was for 50 cents, but Rev. Scott sent \$1 with the following remarks: "The statement is 50 cents, yet you are out, in addition to this small charge, stationery and postage in the amount of 13 cents. This would reduce the balance to something like 37 cents. So, rather than return this amount, please keep same and use in the following manner: "Find three deserving citizens of the ilk of Jim Lipscomb, Delbert Kinsey, Clint Formby, et al, those would fall in the general classification of "characters," and have these join you for a cup of coffee. I recognize that the check would be 3 cents short, so let me suggest that you go to the City Drug, letting Kenneth Coker absorb the deficit. He can either cry or sue me."

So far, I still have the 37 cents! Even if Coker would go along for the 3 cent shortage, who would pay the tax? Besides, I sort of resent a preacher classifying me with such a group of non-workers.

I hear by the grapevine that George McLean is planning to attend college and Buddy Hutson is going to take a district job with an insurance company. They are a couple of old boys we will miss.

Mrs. Seth B. Holman, former Brand publisher and long-time resident of this community, has been visiting her sister, Mrs. Mike Baird, for several days — and she is looking fine. No one is ever so critical of a newspaper as someone who used to operate it, but Mrs. Holman was real nice and says she thinks

we are getting a better print on the offset method than any paper she ever saw.

If you don't think it has been chilly, take a look at the fact that the Tower Drive-In closed Friday. The opening date, according to Francis and Bill Hardwick, is March 2.

R. L. Laymon and Oliver Streu are two guys who seem to recognize the menace of winter. They are hunting high and low for fireplace wood. They say that they were quoted \$60 a cord — and they will freeze before they pay that much. I just mention this so, in case someone loses his favorite tree, he will know where to look. They talked as if they would do the work, provided they could locate some free wood, but I have my doubts.

Troy Moore was telling me the other day that he will not be a candidate for re-election to the city commission. He says he has had seven years, and that is enough.

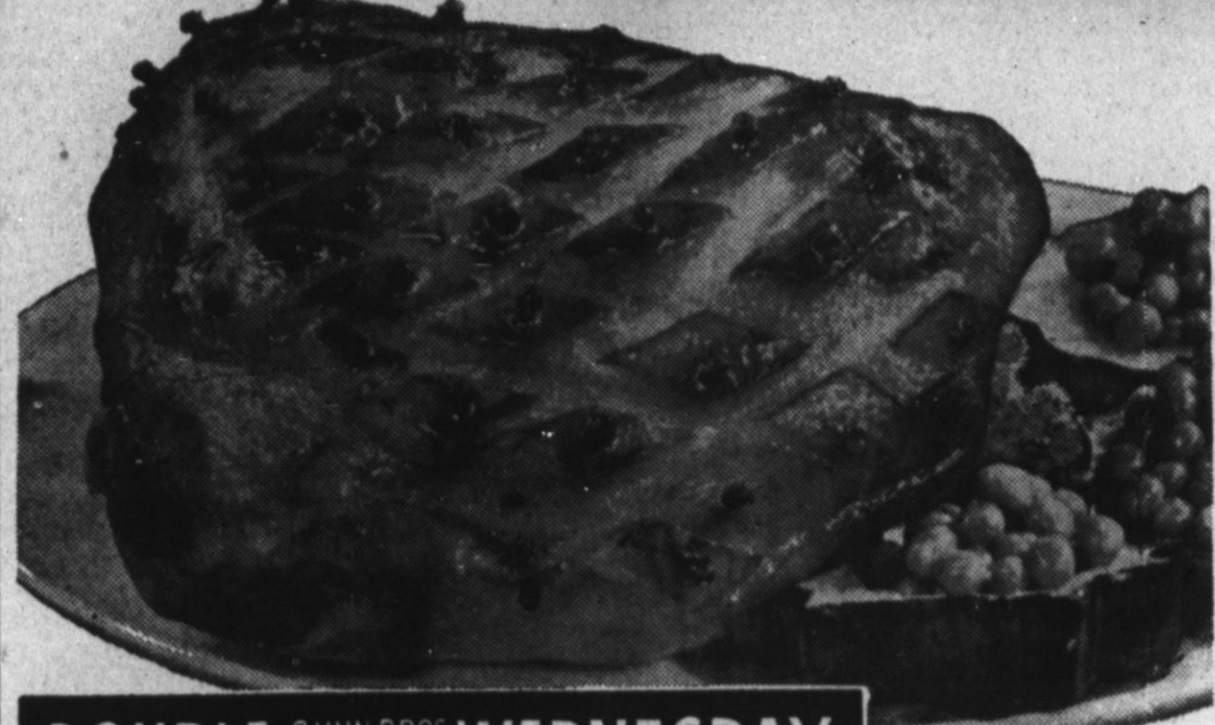

Quite often I am surprised at the number of people of German descent who do not speak the language, including many from Nazareth. Parents, for the most part, discourage teaching their children German, pointing out that they want them to learn English. Most of the youngsters who do speak German seem to get the language from grandparents. Another generation or two, and the great majority will be completely on English. I can see their point but, on the other hand, it would be wonderful to grow up knowing how to speak two languages instead of one. This happens with Latin American youngsters, and I always thought they had a definite edge over most American kids. There are good arguments on both sides of the question.

Annie Brashear, who came to this country as a war bride, has been invited once again to do a Christmas article for the newspaper back in her hometown. She has been working on it for some time and, as usual, she will turn out a creditable result.

I guess Mayor Ray Cowser is more careful about feeding the parking meters than anyone else in town. In the first place, he is not the type fellow who would rather spend a dollar, when he can get by on a nickel; he probably also figures it might in some manner reflect on his office tenure if he gets too many tickets.

Annual Christmas parties are getting under full power, and will likely dominate the coming week, which means it is truly later than you thought. Only 12 more shopping days until Christmas — and that includes Christmas Eve. I do miss the home decorations this year. If they are as numerous as I the past, I haven't seen them. On the other hand, maybe I don't get around so much as usual.

(Continued from page 1) pointed to draw up the constitution and by-laws for presentation at the next meeting. "You should embody the conservative youth of Barry Goldwater and John Tower," the committee was instructed.

Betzen, who also is serving as temporary head of the Young Republicans, said that a charter should be on hand within the next two weeks with 13 charter members.

He explained that the county Republican Club would be concerned primarily with political matters while the Young Republicans will be mostly doing legwork on political campaigns and developing Republican leadership for the future.

It was announced during the meeting that Mrs. Earl Plank will be a candidate for State Representative. Betzen said he intends to announce his candidacy for County Commissioner, Precinct Two, and Dr. C. E. Hicks said he planned to run for the Hereford Rural High School District board of trustees.

All three are expected to make formal announcements this week.

Local Cattlemen Attend Feeders Meet Wednesday

Seven local men attended the first annual Southwestern Cattle Feeding Conference held in Lubbock Wednesday. Approximately 750 prominent cattle feeders, financiers, and others concerned with the industry met to learn of improved techniques.

Paul Engler, general manager of Hereford Feed Yards, was a member of a panel discussion held during the day-long program. Others attending from Hereford included James McAndrews, Mike Betzen, C. Palmer Norton, Joe Reinauer, Owen Seamonds, and Walter Paetzold.

Sponsored by the Feeder's Division of the Southwest Cattleman's Association, the meeting is the first of its kind in Texas, and was termed a huge success.

Representatives from many states were present, with Byron Greiman from California describing cattle operations in California and Arizona. Other speakers included Dean W. L. Stangel, chairman of the livestock committee of the West Texas Chamber of Commerce; Jim Mitchell, noted cattle financier; as well as representatives from the state Extension Service.

Both a special dinner and breakfast were held in honor of those attending the first annual meet.

Prevention Best Cure For Thefts During Holidays

An ounce of prevention is worth a pound of cure when Christmas shopping.

Christmas packages or clothing in an unlocked car or a purse or package left unattended at a department store counter is nothing more than a tempting invitation.

Many theft reports concerning the loss of these articles are handled by the Hereford Police Department during the shopping season. But a few precautions by shoppers could minimize these.

Shoppers are urged not to leave packages or clothing in unlocked vehicles. If they do leave packages in cars, locking the door of the vehicle after placing the package on the seat may prevent a theft. But this is not always true.

It would be better still if the shopper placed the article in the trunk of the car since no one can see what is inside.

The disappearance of packages and purses left unattended at store counters can be stopped by shoppers. Only a few precautions need to be taken. Of course, the main one is not to leave the articles while looking at other gifts.

By using these as precautions as guides, shoppers can save their time and money and minimize the petty thefts during the Christmas shopping season.

My boys are wondering: If snow falls Until Christmas without a single stop, The drifts would be about how tall? Such mathematics for me just appalls, But, for sure, it would be above my bald top!

Red Sock Luncheon

Approximately 60 members of the Women's Society of Christian Service of the First Methodist Church gathered in Fellowship Hall Dec. 6 for a "Red Sock" Christmas luncheon. And yet again, Hereford cattle breeders from Hereford scored high in shows and sales. Howard Gault and Son of Hereford showed first, second and third place winners in the senior yearling bull class of the Rolling Plains Registered Beef Cattle Association at Clarendon. L. E. Minor of Hereford was third in junior yearling bulls and in junior calves. Gault also showed fourth in senior calves, third and fourth in winter calves and second in junior calves.

Hereford High cagers will be on the road Monday and Tuesday. They will be in Dimmitt on Monday night for a battle with the Bobcats and tangle with the Pampa Harvesters again on Tuesday evening. On Friday they will be in Amarillo to take on the Sandies.

You farmers should remember that the cotton referendum vote is scheduled for Tuesday, Dec. 12.

This is the time of year when almost everyone needs a social secretary, just to keep track of Christmas parties and guest events that are scheduled. It would be just my luck, though, that the secretary would be off attending a social when I needed to find out what was going on next.

We finally had a chance to visit with Lefty Thomas about his experiences while attending the annual 4-H Club Congress in Chicago recently. First and foremost a county agent, Lefty typically described the vast Museum of Natural History as "covering 13 acres" instead of so many square feet, or floors or blocks. It's like the old saying that you can take the boy out of the country but you can't take the country out of the boy. But I'd bet a new Stetson that those city folks in Chicago could take lessons from Lefty on how to get the most out of their youngsters.

Club Topic, Pride And Its Relation To Others

Members of the La Plata Study Club met in the Elmer Kimball home on Dec. 5 for the regularly scheduled meeting.

Mrs. Raymond White, president, was the presiding officer for the business session. Mrs. Elmer Patterson reviewed the Federation luncheon. Mrs. Jay Boston reported on the educational committee which is studying the Hereford schools. Plans were made for the club Christmas party to be held on Dec. 19 at the home of Mrs. Viola Chisholm. The group will bring canned food and clothes to be given to the patients in the mental hospital in Wichita Falls.

The program chairman, Mrs. Viola Chisholm, introduced the guest speaker, Mrs. Joe Smith, who talked on "Pride." She defined pride as the quality that everyone loathes in others but do not admit having themselves. Her statements included, "The greatest of human characteristics is pride. Pride leads to every vice. Our pride competes with meaning that comparisons make us proud. We want to be above others in everything. Pride makes enmity. Pride is a spiritual cancer. Vanity is not as evil as pride. Pride says 'look at me.'"

Those present were Mesdames Clint Formby, J. M. Madison, Raymond White, Louis Woodford, T. E. Seliger, Elmer Patterson, Jay Boston, Jack Brown, Frank Powell, A. J. Schroeter, Joe Smith, Ullin Streu, Bill Thompson, Budd y

On successive Saturdays, the Bantams defeated Williams 8-6, on a touchdown with 1:40 left; tied St. Lawrence 14-14, with seven minutes to go; upset Tufts 14-6, with four minutes left and edged Colby 23-16, with 59 seconds remaining.

REMEMBER WHEN?

BY CHARLIE SEEDS She shared a famous nickname... "Babe." And she was to women in sports what that other famous Babe was to baseball. She stood head and shoulders above them all, the greatest all-around woman athlete of modern times.

Her name was Babe Didrikson Zaharias. She became the world's greatest woman golfer... and her courageous fight against death won the hearts of millions who had never known of her earlier moments of sports fame.

The Babe's first great triumph was at the Olympic Games held at Los Angeles. She wanted to enter more events, but the officials limited her to three. She had a world's record disqualified in the high jump, and finished second. In her other two events, the javelin throw and the 80-meter low hurdles, she scored record smashing wins. That year, she was just 17 years old.

Remember the year? It was a year when a man who could afford to buy a car at all couldn't afford to take just any deal. He looked around... compared cars and prices... and he took the deal that meant cash savings.

The year was 1932. If you're looking for that kind of deal today... then just compare the beauty and power of a new 1962 Ford with any other car. Compare its price... and then compare our deal! You'll get real savings on a new Ford from CHARLIE SEEDS MOTOR CO. Inc., W. Hwy. 60 at Miles. Phone EM 4-2727.

COMBINES CONTINUE ROLLING across Deaf Smith County farmland as piles of cut milk continue to grow at most area grain elevators. The weatherman is even cooperating with the farmers as they attempt to finish up a much delayed grain harvest. Threatening skies during the weekend caused some anxious moments, but the sun finally broke through. Cutting of the grain should continue for at least another week. (Staff Photo)

Slaton Integration Furore Points Up Need For Community Planning

Citizens of Slaton, South Plains cotton center east of Lubbock, are in serious trouble these days as they do battle with the federal government over the question of integration. The problem concerns not Negroes, but Mexican nationals and centers around use of the city swimming pool.

Oddly enough, the trouble stems from the Department of Labor, rather than the Justice Department, which would be expected to handle integration questions. Slatonites call the government intervention "blackmail," chiefly because 21 individual farmers have been told they will be blacklisted with the department unless integration steps are taken by the city. The federal department on the other hand, adamantly insists that all public facilities shall be available to the public at large.

Needless to say, the situation carries aspects familiar to many residents of Hereford. Not many years ago, the same furor arose here concerning eating places, barber shops and public recreation spots. The Hereford swimming pool has been integrated to the point that admission is based upon cleanliness and health restrictions covering all races. Likewise, our schools are fully integrated, despite problems which the situation creates.

Therefore, our sympathy with the Slaton residents is heartfelt, because we know first-

hand their problems. We, too, built and paid for a community swimming pool, and it would not seem fair to have our children crowded out by strangers. The pill is all the more bitter, because we are forced to do these things under duress of threat and financial loss. Dameron Park in Hereford today near 100 percent used by Latin Americans, and provides a parallel to what can happen in Slaton.

While we resent federal intervention and Washington dictatorship, at the same time, we must recognize the importance on international relations. Certainly, we do not want Mexico to follow in the footsteps of Cuba under leadership of some upstart "Mexican Castro." Labor Department methods may be high-handed, but the overall intent should be carefully studied and analyzed.

Perhaps a portion of our troubles can be traced back to ourselves, to our own thinking and policies. We are growing up and, as we grow, we are bound to change. There is no large city in the world which does not face far graver problems in slum districts and in public schools. Growth and progress cannot be restricted to population of "pioneers" who came to settle in the West in covered wagons; unfortunately there just are not enough of those fine people to go around. Besides they do not like to pick up potatoes, gather onions, weed sugar beets or pack carrots. Much the same condition exists in Detroit, where immigrant foreigners build our automobiles, and in Philadelphia, where thousands of Poles and immigrant Slavs stake our steel furnaces. These areas, too, have been forced to meet problems resulting from growth and progress.

In those instances where officials and leaders have looked into the future and planned carefully, no the problems are always less acute. The Hereford swimming pool is a good example. Many of our school troubles might perhaps not exist had our trustees located schools in Spanish population districts a few years back, and made them attractive to Latin American attendance. Such a plan has at least done much to solve the same problem in San Antonio, where voluntary segregation seems to help both races of people.

At this point, all citizens must accept the fact that we need and want our Mexican population, which is highly important in every phase of community life. We must also recognize the fact that the United States was created and tremendously strengthened through immigration of peoples from around the world, and that we are still the international melting pot of the universe.

At the same time, we should not overlook the factor of federal intervention. The Slaton incident stresses the importance of declining federal aid to our schools and points up a tremendous danger on all fronts, including agriculture. In a nutshell, when we fail to take care of any questionable situation on the home front, we are inviting the federal government to step in — and we can rest assured that there are numerous bureaucrats in all departments who stand ready and willing to do the job for us.

Joint Collection Point For Taxes

For some time in this area, there has been at least a strong minority demand for consolidation of tax assessing and collection facilities on the state, county, school and city levels. Always the proposal has been shrugged away on grounds that it "would take an act of Congress" to change the state laws.

News reports recently announced, however, that such a plan has been approved by voters, and is being enacted in the Carson County-Borger area.

Those who are interested in such a consolidation might well investigate the procedure and methods used, or even better, they might observe the operation for a brief period, then check with officials on merits and demerits of the collection plan. At least it could provide a yardstick of experience on a completely new procedure.

License Check

Perhaps there are constitutional reasons why the legislature does not put statutes on the books that would collect the ad valorem tax on automobiles, and require a drivers license when an automobile is registered, and also to have the machine approved for operating on highways.

But we can't think of any constitutional right that would be abridged by such a procedure. It could be made to apply to all. So far as we know no effort has been made to get such a law passed. It would be helpful as to safety, and to helping pay the bill to maintain roads, and the public institutions.

"Running" in a legislative session with such a law wouldn't likely get a man elected to the senate, or improve his chances for the attorney general's office, but it would be a good thing for the state.

World Rushes Madly... But Might Not Arrive

BY MRS. R. L. CRISWELL

Rush, rush, rush. We begin the year rushing to get our income tax out, and the business men rush for the Spring rush in sales, and all the other folks rush to this and that, occasionally wondering just what all the rush is about.

This is the decade of rushing. Perhaps the 20th Century will go down in history as the rushing century in which the word rushed blindly from the first atomic bomb that ended World War II to the rush to build fallout shelters in the fear of an atomic war, which may or may not come.

Even the little folk wonder about rushing the Christmas season so fast that we could not be properly thankful in the observance of Thanksgiving.

One little tyke under school age turned on the TV before Thanksgiving day and there was a commercial for Christmas. He asked his mother this question: "Mother, where are the Pilgrims of the first Thanksgiving?" We should wonder where are the Pilgrims indeed. Where

would America be without the Pilgrims of long ago who set aside a day in which to thank the Lord for the bountiful blessings He had bestowed on them in the new world? They came to a new country that they might have the freedom to worship as each individual chose.

This is a world that blacks out pages in the old McGuffey's Reader because it has a few scriptures from the Bible in it; a world that teaches in its schools that in the black turmoil of the world's beginning there was a "thing-a-ma-jig" that separated its self into two, but clung together and kept separating and clinging until it became a human being. No wonder the youngsters of today are confused, but this began a rushing.

A little boy of nine came into my home Dec. 2 and was disappointed that there was no Christmas tree in its accustomed place. Naturally children look forward to a day of many gifts, but when the tree is there so long, half of the fun of anticipation is gone by the time the

great day arrives. The meaning of the Christ-child and the first Christmas is forgotten.

Too long a wait destroys the wonder and the miracle of Christmas. It's sort of like holding an ice cream cone just out of reach, until it begins to melt, lose its freshness and gets sticky and messy before the child can taste it.

We are bringing our children up to rush through life without taking the time to savor the beauty of living one day at a time, and enjoying that day without being in a rush to see what the morrow will bring. The Bible tells us "To everything there is a season and a time to every purpose under heaven." Perhaps you haven't read the third chapter of Ecclesiastes in sometime, let me quote the next seven verses.

- 1 A time to be born, and a time to die; a time to plant, and a time to pluck up that which is planted;
- 2 A time to die; a time to plant, and a time to pluck up that which is planted;
- 3 A time to kill, and a time to heal; a time to break down, and a time to build up;
- 4 A time to weep, and a time to laugh; a time to mourn and a time to dance;
- 5 A time to cast away stones, and a time to gather stones together, a time to embrace, and a time to refrain from embracing;
- 6 A time to get, and a time to lose; a time to keep and a time to cast away;
- 7 A time to rend, and a time to sew; a time to keep silence, and a time to speak.
- 8 A time to love, and a time to hate; a time of war, and a time of peace."

Why rush? Take time to live each day as it comes. God made and put the human race in a very beautiful world and expects us to live, and be aware of the beauties surrounding us. Enjoy the life He has given us, not by rushing, but by being serene. I do not know the author of this short prayer, but if all of us would utter it in all faith, the world will be a brighter place tomorrow. "God, grant me the serenity to accept the things I cannot change, the courage to change the things I can, and the wisdom to know the difference."

ODD THEFT REPORTED

Weird thefts have been reported to Littlefield City Police but Jerry Potts of Littlefield reported that someone stole the back seat out of his car while it was parked on a city street. To add to the insult, when the back seat was taken, the thieves also took a blue leather pillow which had his first name in white letters on it. Why anyone would want the back seat of an auto has the Police stumped.

RURAL AID DEVELOPMENT PROGRAM CONSIDERED

The feasibility of organizing in order to obtain assistance under the Rural Area Development program was discussed at a county wide meeting held at 2 p.m. Monday, Nov. 20, in the district courtroom in Wheeler. Representatives from practically every community in Wheeler County were in attendance and voted to check further into the RAD program and learn how a county can qualify for assistance under the program. A leader was selected from each community to determine the needs in his community and to present these facts at the next meeting which will be called when information is obtained on the overall economic development program of the county.

CONSTRUCTION FIGURES JUMP

Construction for which building permits are issued took a sharp surge to \$140,450 in November after an October slump which showed only \$51,150 in permits issued. The figure boosted construction for the year to \$2,218,819—an all time record, which will be bettered again next month. The Chamber of Commerce estimates overall electric, water and paving extensions at more than \$3 million. A total of 23 permits were issued during the past month, eleven for new residences, according to city building inspector, T. J. Bell.

COTTON MAY SET RECORD

On and on she goes, and the 1961 cotton harvest in Terry might not stop until 160,000 bales are tallied. The foregoing is the estimate of several longtime observers on the local scene. Texas Employment Commission in Austin learned last week that its man in Brownfield had raised his estimate of the Terry yield from 140,000 to 150,000 bales. And, the estimates do run from 145,000 to 160,000 bales. Now in danger of losing its front page value is the fact that Terry farmers once again have produced more than 100,000 bales. This bright and magic number was passed Thursday — for the fourth year in a row.

FARM ROAD PROJECT TOLD

Four Farm-to-Market road projects have been scheduled for Lamb County by the Texas Highway department, according to word received here this week. The four projects will amount to \$309,300 and represent work done on 44.3 miles of roadway. Largest of the four scheduled projects will be the reconstruction, grading and surfacing of a 14 mile strip on FM 168, from Hart Camp to the Hockley County line. Estimated cost of this project is \$280,000.

HOME BUILDING REMAINS HIGH

In the past year, when nearly every section of the county was experiencing a sharp decline in home building, Floydada stood up comparatively well. The amount of new residential construction locally came to an estimated \$448,000 in value. The facts and figures on the year's housing are contained in building permit data issued by the Census Bureau and in reports from various industry sources.

THE BOOTLEG Philosopher

Editor's note: The Bootleg Philosopher on his bindweed farm discusses loafing this week, a field he is very familiar with.

Dear editor:

I was in my house last night sitting in my rocking chair reading a newspaper, there's one thing you can say for my rocking chair, I can sit in it without a fraction of the responsibility Mr. Kennedy has when he sits in his, and over on an inside page I found an article that almost floored me.

According to it, a lot of people in big cities are complaining about their set-up, they think there are too many ugly places in cities, too much hurry, and not enough places to loaf. They want the federal government to do something about it.

It was that latter complaint that got me—wanting the government to furnish a place to loaf in.

I'll tell you, it's a sad day for American enterprise when people have to ask Washington to furnish them a place to loaf. A man who hasn't got enough get-up about him to figure out a place on his own to loaf in, is in pretty bad shape. I don't want to brag, but I've never seen a place yet I couldn't loaf in.

Why, I wouldn't be surprised if these city people not only want the government to furnish a place to loaf in, before long would be asking the government to provide supervised loafing.

I am worried about this situation, and had no idea enterprise and self-reliance were disappearing so fast in this country.

But I was just thinking. Now I'm an expert in finding a place to loaf, and if Washington can keep a straight face—which won't be hard, it's had a lot of practice—and seriously goes about undertaking to teach city people how to find a place to loaf in, I will be glad to head up this department, at a reasonable salary. A specialist is entitled to adequate pay.

It takes years of practice to learn how to loaf, all the parks in the world won't accomplish it if a man hasn't got the inner resources to swing it by himself. I never figured there'd be an opportunity to get paid for this accomplishment, but I'm willing to give it a try. A man should never get so busy at his job that he refuses to share his achievements with others.

Yours faithfully,
J. A.

"LET'S SEE NOW, I believe the best thing for me to do is to turn this here basketball over, give it a great big bounce, and get outta here, 'cause that big guy is gonna have a sore toe and I don't want to be here when he figures out why," might be the thoughts running through Whiteface Dennis Hodges' head as this series was taken.

Wayne Rutherford of the Canyon Eagles (41) appears, and is, somewhat larger than Hodges (14). Harry Lisle (21) tries to help in curtailing the fleeing Whitefaces. Hereford won the game 58-38, as Hodges racked up 22 points here Tuesday night. (Staff Photos by Gardner Collins)

DOCTOR-- IS THERE ANYTHING TO THIS HYPNOTISM STUFF? DO DENTISTS USE IT?

PERSONALLY, I THINK IT'S A LOT OF BALONEY!

I SAW A MOVIE WHERE A HYPNOTIST TOOK A SHINY OBJECT LIKE YOUR LITTLE MIRROR...

YEAH?

AND HE SWUNG IT BACK AND FORTH AND SAID, "JUST RELAX..."

YES...

AND THE HYPNOTIST SAID, "YOU WILL OBEY!"

YES...YES... RELAX... OBEY...

AND THE HYPNOTIST SAID, "MY WILL IS YOUR WILL!"

YOUR WILL IS MY WILL...

THEN HE SAID, "YOU WILL CARRY OUT MY EVERY COMMAND!"

YOU ARE MY FAITHFUL DOG BALTO!

GOSH! HOW DID THE MOVIE GUY SNAP THEM OUT OF IT?

WOOF! WOOF!

ARE ARE! ARE ARE!

NO CLOWN LIKE THAT IS GONNA WORK ON OUR TEETH!
