County 4-H Girls Appear In Friday's Dress Revue

Our Slogan: "More People - More Farms"

Around Town

If you think a horse race makes for a difference of opinion, just turn to Page One of Section Two and try to get someone to agree with you on which of 23 girls will be the winner of the Harvest Festival Queen contest, That is guaranteed to bring up good discussions. This is an outstanding group of girls and the judges, from another town, will have their work in picking a winner.

Take a deep breath the rest of this week and then plunge headlong into a fast, furious, fun-filled week during the Harvest Festival. One of the fine attractions will be aerobatic flying and sky-diving during Sunday's Air Show at Hereford Municipal Airport. The carnival opens Monday, same night as the Queen Contest. Tuesday evening is set aside for the cotton industry appreciation dinner. Later in the week will be the Farm and Home Show, rodeos, parade and barbecue. The decorations have been put up the last few nights, along with street banners, to aid the necessary touch of color and ex-

week. Thursday night, the Hereford All-Stars take on the Castro County All-Stars, made up of players from Dimmitt, Nazareth and Hart. The winner will play Canyon here Friday night, Both games are set for 8 p. m. in Hereford's AT SCHOOL MEETING Little League Park.

Hereford's school board is still wrestling with its budget for 1962-63. Final draft probably will be approved in a week or two. But one of the main puzziers right now is centered around the likely prospect of a sugar beet refinery. They are (Continued on page 6)

Littlefield Over Hereford 16-14 In Pony Action

Littlefield evened up a twogame practice series with the Hereford Pony League All-Stars here Tuesday night. Hereford beat Littlefield 5-1 at Amherst Sunday afternoon, but couldn't control the visitors here Tuesday, as Littlefield won 16-14 in a loosely-played contest.

In contrast to Sunday's game, compared with nine in the first game.

HIGHEST HONOR IN STATE

Vasek Nominated For Top National Honors In FFA

BY WAIN MILLER **Brand Staff Keporter**

Hereford's prestige in agricultural circles received another shot in the arm this week as a young farmer claimed honors.

Charles Vasek worked his way into the top bracket of America's young farmers as he received the highest award given in state-wide Future Farmers of America competition. He now competes for the national Star American Farm-

Fort Worth to accept the honor, repair and overhaul of tractors, farmer in the area to receive thereby keeping the overhead to the honor, Vasek worked five a minimum.' years to complete his entry.

Mrs. Cecilia Vasek, farms over

Selection of the Star Ameristate of Texas is based upon management. Vasek admits that he was at

first reluctant to submit his entry for the award, but was encouraged by his mother and Hereford vocational agriculture instructor Jess Robinson.

After taking the top spot in Area I competition with his record book, Vasek entered state competition against Future Farmers from throughout the entire state. Entries are submitted in the form of record books showing high school activities and farming achievements. All applicants for the award must have been out of high school for at least one year in order to qualify.

In announcing the award, the

Commission Gets Auditor's Report In Brief Session

The auditor's report for the fiscal year ending on April 30 was submitted to City Commissioners for study during a brief meeting of the city's governing body here Monday.

Preparing the annual audit was Curtis Crofford of Amarillo, a certified public accountant. It was submitted to the com-mission for study by Dudley

Bayne, city manager.

The brief session ended following the presentation of the audit. No other business was conducted during the meeting.

Announcement of the selection ca Association complemented came last week. Vasek appears the young farmer for employing before the state F. F. A. Con- "good soil and water conservavention Thursday evening in tion practices. He does all the Becoming the first young motors and farm machinery,

A "farm boy" all of his life, Vasek, the 20-year-old son of Charles says he hopes to remain that way. "I started out seven hundred acres of irrigated driving the tractor, and I still land in the Hereford and Frio- am," Vasek admits with a grin.

But his entry for the degree shows he does much more than can Farmer candidate from the "drive the tractor." Vasek has been a consistent winner in area high school leadership and farm farm expositions with his livestock and grain entries.

From the time that his father died in January of this year until some two months ago, Vasek had complete charge of a 770-acre farming operation in Hereford and Fri-

Sims Hits Third Not-So-Rare Ace On Pitman Links

Golfing just ain't what It used to be at the John Pitman Municipal Golf Course since hole-in-one-itis has set in. It seems to be the new fad as the third ace-hole in less than a week was recorded Saturday.

John Sims of Hereford, golfer for 15 years, decided he'd better join the trend and then pocketed the ball from 135 yards away from the num-ber 8 tee. Driving with a number seven iron, Sims chalked up the now-not-so-rare hole-in-one Saturday after-

"It's getting where holes-in one are as plentiful as flies," course host pro Bud Posey re-marked after Sims announced his feat.

the squash is tender. Do not add water. Just before serving, add cubed cheese. Cover, turn off fire; cheese will melt. (ZANAHORIAS SABROSAS) Marinate cooked, sliced carrots in 1 tablespoon melted butter, seasoned with oregano and onion salt. Pan-fry with a little fat in a skillet. Garnish with sifted toasted crumbs. Since many Mexican foods are hot and heavy, the best complement for them is a light, cooling dessert. Gelatin desserts are very popular in Mexico and were introduced there by the Spaniards. The most unusual use of gelatin by the Mexicans is in Almendrado, in the Mexican national colors of red, white and green. It gives a perfect finish to any meal.

> Furthermore, we are still a long way from being in accord over the valuations change. Recently the Eskimo Ranch, which falls pretty well into the grass categories which were lowered, sold for an average of well over \$100 an acre, and several fair sized grass tracts in the grass zones have brought up to \$150 an acre. I cannot believe that we are getting any nearer to equalizing values so long as we reduce some classes and continue to evaluate other property on a basis of legitimate purchase price.

Certainly, based on 17 per cent of actual value, our county Mr. and Mrs. Moran Pounds and taxes are reasonable enough. Without doubt, the county is in Mr. and Mrs. Ray Ashford good financial condition. (Continued from page 1) returned from the Army, the two have jointly operated the 160-acre farm two miles north of Hereford, while his brother handles the Friona operation.

He began his career in agriculture at the age of seven, showing hogs and calves in 4-H livestock shows. He graduated to "tractor driver" at the age but all was not bliss. After the of 10, shortly after his family Stallman's first child was born moved here from Stanford.

Vasek's name/began to appear in the winner's circles at Panhandle farm shows when Charles was only 13. By the divorce proceedings. Neutral had shown a reserve champion hog here and was crowned 'Wheat /King of Texas' in Amarillo.

"It took me a long time to do it," Vasek sighed. He was sixth tal Messenger. His job was to in 4-H wheat competition at the Tri-State Fair when he was 13, later took fourth places twice, in F. F. A. and second three times.

This year Vasek copped first place in the Deaf Smith County DeKalb Corn Seed contest by growing 162 bushels of corn on a five-acre irrigated patch.

"I did all the work on the crops this year," Vasek explained. "I'm not sure how they turned out because we store all of our hay and wheat in the barns. I don't think they were as good as usual, but nobody's were.

"We figure we averaged about 40 bushels per acre on our 262 acres of wheat land here and

"We have 243 acres of milo planted, with about 30 per cent laid out for Kennedy's Feed Grain program.'

"We are now cutting 92 acres of alfalfa hay, and our 35 acres of cotton looks pretty good," he continued. "We do all of our work ourselves except hauling the hay. Most of our crops are stored in the barn.

"My brother and I do most of the mechanical work in our shop. We have a lot of that to do," he pointed out, "since a lot of our equipment is old. "Our biggest conservation

project is our underground irrigation pipe. I sure think a lot of it. At Friona we also have a tailwater return system. firms, a large field of contest. I also try to take good care of In order to be elegible for the

Click said that the County Commission conferred Monday of the guns were sold as surafternoon with the school equa- plus, changing hands many lization board on the changes, times. Others were stolen or but the groups apparently reache swiped from government ofed no agreement.

Trustees passed a motion expressing confidence in the school board of equalization for its decisions on property valuations.

After some discussion, trustees voted to set the tax rate at \$1.62 per \$100 of assessed valuation for the 1963 tax year. This is an increase of seven cents from the current rate of \$1.55, but lower than the rate of \$1.73 which had been estimated at the time the board was planning for a school construction bond issue. The school currently is assessing property at 40 per cent of its actual value for tax purposes.

School board members accepted the low bid of \$14,495 from the Vibra-Whirl Company of Panhandle for new lights, poles and wiring at the high school

The successful bidder will sup-"wide lite" installations, underground cable and installation. The job is estimated for completion about Sept. 15. First home game is slated for Sept,

Trustees discussed a salary adjustment for Click, who will become school tax collector-assessor on Sept. 1, but deferred action pending further study.

Johnny Green, son of Mr. and

Mrs. John Green of Hereford, is visiting in Hereford with his parents and friends before transferring to his new army base in Dover, Mass. He has been stationed in the army air noon in Friona visiting with corps near Sioux City, Iowa, for the past year.

The Hereford Brand, Hereford, Texas, Thursday, July 19, 1962 called his mother-in-law, a

Mrs. Glutz, and told her that if the suit wasn't called off, he would kill himself. Mrs. Glutz apparently, didn't

take him seriously. Some of his fellow employees did, however for they notified police, who also tended to dismiss the idea.

George last was seen about dusk. But when the 11 p.m. train arrived, there wasn't a messenger to meet it. The depot called the postmaster, who assigned another messenger. Some of his friends became alarmed and started making

some rather casual searches that night and again the next morning. But it wasn't until about 4 p. m. Sunday, Jan. 4, 1924, that three little girls came running out of the woodyard, which then

occupied the south bank of the Manitowoc River, just off Franklin Street and between 12th and 13th Streets. The girls told a passerby that there was a man lying on the ground next to a pile of cordwood.

Police found George Stallman, dead from a single gunshot. The Manitowoc Harold-News carried this account of the death on page two of its next issue, under a banner headline; "A 45 calibre Colt revolver of the type used by the government, alongside of the body and a hole over the heart told the story . . . The revolver, one furecres of such classified land in nished by the post office for mail Castro and Parmer Counties messengers, was lying nearby. which are included in the Here- The bullet had passed through ford school boundaries. The the heart and come out of the county also changed a zone back, passing entirely through

How the gun got out of government hands and as far away as Texas remains a mystery. Some fices and sold or traded away.

Skelton, with a string of about a dozen magazine articles behind him, has handled a lot of guns in the past few years. Although he doesn't handle them now as often as when he was a Border Patrolman, a deputy and then a Sheriff, he still finds time for guns and shooting after working each day as manager to of a feed lot.

Typically, Skelton no long er has the Navy Colt which furnished him a sidelight for one of his stories. He has sold it. But it likely will remain bright in his memory as one of the most unusual guns he ever handled.

Reapportionment' Creates ment slump, offer remedies and either find job opportunities elsewhere or assist local civic Uproar Among The States Limestone and Falls coun'y officials already have asked for the teams' services. Clifford re-

By Vern Sanford U. S. Supreme Court's decision that federal courts have power to review acts of state legislatures in reapportioning representation was met with an uproar from many states.

"Reapportionment" is the business of redistricting a state to determine the number of legislators according to an area's population. National and state constitutions both

provide for re-examination of representation in legislative assemblies every 10 years.

An area frequently gains or loses representatives to the state house. This happened in Texas recently, when a 1961 redistricting act by the legislature took effect.

Working under a constitutional amendment adopted in 1936, limiting cities to one representative for every 700,000 inhabitants, Texas' representative districts got a pretty thorough go-

ing over. The 31-member senate body was not greatly effected by the reapportionment, however, since the law states that the senate "shall never be increased and no single county shall be entitled to more than one senator."

What the U.S. Supreme Court would hold about such a condition, in view of a congressional provision for two U.S. senators from each state regardless of population, won't be known unless the question is put to its nine justices.

There is some reason to be lieve, however, that the higher court would look with disfavor on this State's constitutional provision limiting House representation to one member for every 100,000 inhabitants after a county attains a population of more than 700,000.

In the event citizens dissatisfied with the situation in Texas ever go to court for a reshuffling, they'll be armed with the information that 11 urban counties have a little more than half of Texas' 9,579,677 inhabitants and more than a third of the 150 members of the House of Representatives.

HOPE FOR TRAPPED FISH An "escape route" for thousands of fish which risk death daily in a shallow pool of Padre Island is planned by the State Game and Fish Commission, which estimates that tons of game fish have died in a ninemile hole north of Port Mansfield over the last 10 years.

Howard Lee, the commission's director of field operations, said red fish and trout swim into the shallow pool in the course of their north-to-south migration, and don't recognize that there's only one way out."

As the temperature increases in late spring and summer, the water level drops. Fish then are caught in a dry water pool created by drifting sands and are trapped there until death releases them as food for birls and other scavengers in the

Its name: Telstar. It was launched from Cape

ground station, amplifies them and transmits them to another station on the ground belowperhaps an ocean away from the first one. The new satellite thus acts as a microwave relay station in the sky, enabling voices, TV pictures and data messages to leap thousands of miles in a new and exciting way. The ground stations in the U.S. now being

used for Telstar were built by the Bell System at Andover, Maine, and Holmdel, New Jersey. Telstar is a first major experimental step

toward a worldwide satellite communications system that was first proposed as a practical venture at Bell Telephone Laboratories. Progress toward such a system would not have reached its present state without continuing research and development by the private communications industry. Above all else, Telstar is the latest achieve-

ment in an unending Bell System quest-the search for ways to make your telephone service still better, more economical, and more useful.

Why Compromise -when the road to happiness offers so much? There are only two marked ways...one leads to happiness-the other to oblivion. One might lead to Heaven - the other to hell. But why despair when the going gets rough, when you have a decision to make? This may be the true measure God uses to separate the good from the bad; the chaff from the wheat; men of strength and character from those with none. Why compromise with oblivion staring you in the face? It is an unexaggerated testimonial of weakness. One may loose the bird in the hand; lose all the God-given opportunities for service and most of all, your own soul. Maybe you still have time to come to church and let it help you decide the direction to go. OBLIVION You In The Church The Church In You form a combination for good. Every man, woman and child needs church. So, come let us go into the house of the Lord. Let us support her program of service to human ity, be a faithful work er, a daily bible read and attend service

Hereford's Pony League All-Stars used tight pitching and some timely hits to defeat the Littlefield Stars in a practice game Sunday afternoon. Since the Littlefield diamond

was being watered, the game was moved to Amherst. Hereford picked up three runs in the first and won 5-1 in the

Wynn Buck opened for Hereford with a single. Robby Lemons' sacrifice bunt failed to get either runner and an error moved Buck to third and a stolen base put Lemons on second. Steve Hodges doubled to score both runners. Another double by Kenny Justice drove in the

third run.

Larry Schovajsa got a single in the first for Littlefield, one of the team's three singles in the game, but was left on first. Both teams were scoreless until the last of the third, when Littlefield got its only run. Steve Lewis singled with all hands safe on Lindy Stancil's

fielder's choice. Billy Henderson singled to drive in the run. Hereford got a run in the fifth as Hodges singled went to second on a ground ball and came in as Alex Guerrero was safe on an error.

Last run for Hereford came in the sixth inning as Gene Duvall walked. Felix Albiar sacrificed him to second on a bunt. Duvall took third on a passed ball and Bill Watts bunted to score the runner.

Kenny Justice got a double and two singles in four times up, while Steve Hodges hit a double and a single in three times at bat, Buck got the only other hit for the Hereford team. Littlefield's three singles were spread among a trio of players.

Ed Mims pitched five innings and took credit for the victory. He gave up three hits, walked just two, allowed one run and struck out seven. Felix Albiar faced just six men in two innings of relief

Sister Of Mrs. Mrs. Cumie Hinton, 60, died

at her home in McLean on July 7 at 12:20 p.m. She had been ill for a long time. She was sister of Mrs. Clyde Towell of Hereford.

Funeral services were held at 3 p.m. Monday, July 9, at the McLean Methodist Church with the Rev. J. B. Stewart, pstor, officiating. He was assisted by the Rev. Raymond Smith of Key, Tex.

Burial followed in the Hillcrest Cemetery under the direction of Lamb Funeral Home. Mrs. Hinton was born March

2, 1902, in Foard County, Tex. She came to McLean in 1918 from Quanah, She married Claude Hinton in Clarendon on April 3, 1920.

Survivors, besides the husband, are a son, James E. (Jiggs) Hinton of McLean; a daughter, Mrs. Pat Langford of San Antonio; her mother, Mrs. Ada Cates of Amarillo; a brother, Lee Cates of Lancaster, Calif.; three sisters, Mrs. Pete Chilton of Amarillo, Mrs. Clyde Towell of Hereford, and Mrs. Alvin Hiltbrunner of Big Spring; and three grandchildren.

VISIT IN ABILENE Mrs. H. H. Rowland of Hereford and Mrs. John Rowland and young daughter of Tulia have returned to their homes after several days visit with relatives in Abilene.

Air Conditioning experts agree ...

WATER cooling is BEST!

Youngsters learn mighty early about the cooling effect of water when the weather's hot. And air conditioning engineers know that water cooling is far more efficient than air cooling. The reason is simple . . . 85° water can absorb more heat from your home than 100° air.

That's why ARKLA-SERVEL Sun Valley's GAS air conditioners are WATER cooled! Water cooling, plus Sun Valley's "no moving parts" principle, gives you two big advantages unavailable with other air conditioners. One, a Sun Valley gives you CONSTANT EFFICIENCY, while air cooled units lose as much as 15% efficiency. Two, Sun Valley operating COSTS REMAIN CONSTANT, while air cooled equipment operating costs rise as much as 23%.

KING-SIZED FILTER

admitted Communist Satellite.

In the first place, all of us are against Communism, or any other ideology that would destroy our way of life. In the second place, the people who are paying these bills are entitled to specific instances of effectiveness instead of trite generalities. I think the record will reflect clearly that our effective blows against Communism have been through our Defense Department (a départment which the American taxpayer has spent \$555 billion in the past 15 years), and not through the foreign aid program:

Another question seems to be as to why foreign aid is continued, even though it is admitted that if the matter was submitted to a referendum of the people in the United States, it would undoubtedly be defeated substantially. Many have asked me where this program gets its major support. They are usually tries. astounded when I give them foreign aid program from an economic standpoint amounts to a giant subsidy to both business and labor. It is generally conceded that four of every five dollars spent in the foreign aid program remains in this coun-

ly doubt there is any one or any group who could provide an accurate accounting of how much has been spent or how it has been spent. The debate produced a number of calculations as to the number of countries that have been recipients, the severceived by those countries, and the overall totals that have been

One particular total reflected since World War II the American taxpayer has been called upon to furnish to foreign countries the sum of \$84,090,800,000. Of this amount, it is estimated that more than \$2 billion went extent these purposes had been to Yugoslavia, an admitted Comaccomplished, or if they were munist country, although of a different hue of red. Another \$509 million went to Poland, an

> Many people have asked "Why foreign aid?" Without exception, the general answer has always been: "To fight Communism". Many have asked: "If it is for the purpose of fighting Communism, why give it to Communist countries?" The general answer to this question has been: "It is one of the means of fighting Communism". These answers do not satisfy me, and I don't believe they satisfy many others.

This means that the taxpayers are picking up the tab for goods,

Nine Hurt In **County Wrecks During June**

The Highway Patrol investigated ten rural accidents in Deaf Smith County during the month of June according to Ser- of speed and the ever-present geant W. E. Wells, Patrol Su- hazands of the highways during pervisor of this area.

These wrecks accounted for nine persons injured and an estimated property damage, of first time this summer. Some

summary of Deaf Smith County from January through June of 1962 shows a total of 38 crash- their own state, and little or no es. As a result of these crashes there were no persons killed and 24 persons injured. The estimated property damage amounted to \$23,767. This compares with the first six months of 1961's total of 22 rural crashes killing three persons, injuring 12 persons and causing an estimated property damage of \$16,870. In

wares, and merchandise manufactured in this country, sold to the Government under the foreign aid program, and delivered free of charge to foreign coun-

It explains why the aid program has been the support of most of the big business organizations, as well as the big labor unions. It has provided the means by which the countries of Western Europe have been able not only to stabilize their economy, but to expand it to the point that they are presently in serious competition with this country and can, by the implementation of the Common Market, create a much more serious competitive force with reference to our world markets. It can also serve as the explanation of why we can do such a big export business, yet cannot seem to stop the outflow of gold. The reason is that we are giving the money to foreign nations with which to buy their products, a case of trying to lift yourself by your own bootstrap.

In opposing this program, I have been completely out of ers. step with both political parties. But unless information which has not yet been made available can be produced to justify this program, my opposition to both the authorization and the appropriation will be continued. WALTER ROGERS

MEMBER OF CONGRESS

ORTHO

a statewide comparison the total dent statistics prove that more number of traffic fatalities are accidents occur in the last six practically the same as they were this time last year. months of the year than in the first six months. With this

The current SLOW DOWN AND LIVE summer campaign has played an important role during the last several years in acquainting motorists, especially vacationists, with the danger the crowded summer months. Many vacationists from other states will be in Texas for the of them will be unfamiliar with The rural traffic accident the roads and road signs, Many of them have only a smattering of knowledge of traffic laws of information about those of other states where they will travel.

> Commercial drivers and motorists who travel the highways day after day have little difficulty in distinguishing the stranger, even before seeing his. license tag. Unless motorists show courtesy and consideration to the vacationing driver and try to help him, they may discover that their own speed will cause an accident involving the tourist who may suddenly slow down to make an unexpected turn or to get his bearings. Those who live and drive in Texas must remember that would be just as bewildered nother state as this motorist Hereford. in another state as this motorist is in our own state. It is under such circumstances that we must do some thinking for him,

we must drive defensively. The Sergeant stated the outof-state traveler, however, is not so much a threat to our safety as the native selfish motorist who drives dangerously and discourteously with no regard for traffic laws, signs or signals.

Irrigated Grass Gains Popularity

Interest in the establishment of irrigated grasses in the Tierra Blanca Soil Conservation District continues to increase, a recent survey shows.

Carrol Forrester recently planted 40 acres to switchgrass, which brings his total irrigated grass acreage up to 90 acres. Clois Kemp has planted 65 acres of irrigated switchgrass on his farm. Howard and Cameron Gault have planted about 30 acres to irrigated sideoats grama and big bluestem.

A number of farmers in Deaf Smith County are planning to plant Midland Bermuda grass this summer.

Luther Lesiy's farm, about 11 miles north of Hereford, has a large pasture of irrigated switchgrass which was first planted in 1957. This field still has an excellent stand of grass, although many tons of beef have District. been harvested from it. This field-is one of the county's fine examples of proper irrigated pasture management.

And management is the key word to the farmers in the District who are in the process of planting irrigated pastures or already have such established pastures. Best results are obtained by waiting until the taller grasses reach a height of 18-20 inches before turning cattle into the pastures.

A few have stocked too many cattle on their pastures too soon, which destroys the grass. Best results come by stocking fewer numbers and gradually increas-

ing them to full capacity. SCS technicians point out that 'it takes grass to grow grass." The leaves, supplied by moisture from the soil, absorb sunlight and manufacture food right in the leaves. Therefore, it is just as important not to overgraze as it is to irrigate, fertilize and control weeds.

Farmers wishing to establish irrigated grasses may obtain information from the Soil Conservation Service, assisting the Tierra Blanca Soil Conservation
