Livestock Show Kick-Off Set; Membership Cards On Sale

Golden Spread Western Junior Livestock Show, promising to be one of the biggest ever held here, kicks off Thursday for a three-day showing of 4-H and FFA cattle, sheep and hogs. Between 350 and 400 animals are expected to be shown, a check made Saturday revealed.

A new method of financing the event is being used this year for the first time: Sponsors are selling memberships in the organization at the nominal fee of \$1 per member. Colby Conkwright, president of the organization said. He urged all persons interested in furthering the show to buy membership cards which can be secured from any member of the committee or from Chamber of Commerce headquarters here.

A coupon for membership appears on page 8 of this issue. Money can be sent to the Deaf Smith County Chamber of Commerce. For the present, the Chamber is acting as headquarters for the new organization, a non-profit setup. Committee chairman also were announced Saturday. They include:

Deadline for payment of fees

was Friday. Officials had not completed checking up the list Saturday, but they estimated 80 steers had been entered, 100 or more lambs and 200 barrows. Total number of animals entered may run as high as 400. Thomas said.

As in the past, one of the big events of the show will be the annual sale of livestock (Continued on Page 3)

Area Wheat Men To Launch Campaign For '64 Program

Deaf Smith County wheat growers have returned from the National Wheat Growers convention in Amarillo to launch a drive to impress Congressmen with the need for wheat legislation, Andrew Kershen said Saturday. Twenty-four farmers in this area attended the convention, including Leo Witkowski,

state president. Kershen said the growers agreed that "congress must be told that the farmers want a wheat program; otherwise they are likely to take the negative vote on last year's referendum

as an indication that we want no program." "For this reason," he added, "we are urging a letter-writing program to tell the congressmen what we want."

He said the policy of the national wheat growers can be summed up as follows: "Assure wheat producer of a fair price; stimulate the use of wheat; encourage production of a good milling and baking wheat; encourage sound soil and water (Continued on Page 3)

Last Second Shot Defeats Rangers

With two seconds left on the clock, Earl Jackson shooting from 25 feet out ripped the cords for a two-pointer as the Whitefaces beat out the Rangers at Perryton for their first district win Friday.

The final score of the closely fought game ended up 57-55 as Jackson's shot arched through the net. The Herd had stalled until the last seconds of the game.

In the B game, the Whitefaces squad romped on the Rangers B team for an 84-47 win as five members of the squad scored in the double figures. High point man was Roger Owen with a total of 17 points.

Following him were Steve Hodges with 16, Gary Richards and Joe Childers with 13 each, and Mike Moore with 12. All players on the roster were in the game.

High point man for the Herd in the varsity game was Jim Haney who netted 19 points followed by Danny Cates with 17.

Two of the Herd's top scorers during the pre-season games, Mike Ferguson and Robert Strange, were missing from the action Friday and are out for the season due to illness, according to Cuby Kitchens, basketball coach.

In the first quarter of the game the Herd jumped off to an early lead, but as the period ended the Whitefaces and Rangers were tied at 14-14. Scoring for the Herd were Cates, Billy Hill, Earl Jackson and Neal Laeb. Haney had yet to find the range on the bucket.

In the second stanza, the Whitefaces gained a slight two-point advantage with Haney, Cates and Hill doing the scoring.

As the third period closed, the margin had been widened by three points. But, the Rangers came back in the final stanza tying the game at 55-all with

only minutes left on the clock. Going into a stall, the Herd controlled the ball with Jackson sinking the two-pointer to put the Whitefaces out in front as the clock ran out.

The Whitefaces now own a nine and seven won-loss record with eight of the wins coming in pre-district play.

The Herd's last non-conference opponent, White Deer, fell to the Whitefaces 55-39.

Next district clash for the Hereford squad comes Friday, Jan. 17, as the Herd takes on the Littlefield Wildcats. Game time is 6:15 p.m. for the B team game and 8 p.m. for the varsity.

Cent-A-Pound Air Rides Slated Today

Weather permitting, scores of persons will buzz around over Hereford today to put money in the coffers of the March of Dimes program.

It's the kick-off of the March of Dimes program, first in a series of events planned for the balance of January. Whiteface Aviation will provide the rides as their contribution to the drive, and passengers will pay 1 cent per pound for the rides. Flights over Hereford will be staged with Civil Air Patrol assisting.

Scales were moved in Saturday for the weighing-in process. Pat Ferguson is county chairman of the 1964 drive.

Second money-raising event will come next Thursday night when Hereford Jaycees and Hereford Optimists will meet for a basketball game at Whiteface gymnasium. Spectators will

contribute to the March of Dimes as admission fees.

Third event will come next Sunday, Jan. 19, when the Jaycees will set up road blocks at two Hereford points to ask for donations for the Dimes program. The stops will be made on Park Ave. in front of the Community Center, and at the intersection of U. S. 60 and U. S. 385.

A number of other events also is planned, including the annual coffee-day when drugstores and cafes will contribute coffee receipts to the program.

Schools also are planning March of Dimes events.

The month for the Dimes program will also include a Country Club dance Saturday night, Jan. 25, when Charlie Bell's orchestra will play for a benefit affair.

FOR 31 CENTS, three-year-old Jay Ferguson, son of Mr. and Mrs. Pat Ferguson, will make his donation and get an airplane ride over the Hereford area as the 1964 March of Dimes campaign starts today. The activity which heads the lists of drive events gets

underway today at Hereford Municipal Airport with rides furnished by Whiteface Aviation assisted by the local unit of the Civil Air Patrol. The scenic rides will cost a cent a pound with all proceeds going to the March of Dimes. (Staff Photo)

Why 21-Gun Salute?

Curious Pupils Write President; He Replies

Pupils in Mrs. Cavthon Bryant's sixth grade at Aikman Elementary School were curious. They wanted to know the whys and wherefores of the 21-gun salute, used at state occasions and most recently at President Kennedy's funeral.

So, they simply wrote letters to President Johnson—all 29 of them wrote letters. They also expressed their sorrow over the unfortunate death of President Kennedy.

Back came this reply from the President:

"Mrs. Johnson and I acknowledge with deep appreciation your thoughtful expression of personal interest and confidence and sorrow after the death of President John

Fitzgerald Kennedy. We will cherish your prayers and support in the days ahead."

Then their 29 letters were turned over to Col. Glenn E. Fant, information officer of the Military District of Washington, who took it from there.

He wrote to Mrs. Bryant's sixth-grade room like this: "Twenty-nine letters from your sixth grade class have been forwarded to this office from The White House for action. Rather than give the same answer directly to 29 different students, it is more economical to send one answer to you and let you read it to the class, or post it on your bulletin board.

The enclosed fact sheet will give you the history of the 21-gun salute. I hope this answer will satisfy every member of your class."

Following is "fact sheet," referred to:

All personal salutes may be traced to the prevailing usage of earlier days to insure that the saluter placed himself in an unarmed position and virtually in

Games of "42" were played, and refreshments of coffee, pop, cookies and doughnuts were served at midnight.

New Year's Day was a real spring day, but the weather since has been cold, windy, and dry. Moisture is the talk of most everyone. It is needed badly.

Guests of Mr. and Mrs. W. L. McCullar Christmas Day were Mr. and Mrs. J. S. McCullar of Lubbock and a son, James, of Ft. Pote, La.

Mr. and Mrs. Floyd Brown were host to the Brown families for a ham and eggs breakfast Christmas morning in their

home. The grandchildren of Mr. and Mrs. N. A. Brown received two ponies from Mr. and Mrs. Brown. Those attending the breakfast were Mr. and Mrs. Ernest Brown and family, Mr. and Mrs. Eldred Brown and son, Mr. and Mrs. N. A. Brown, and the Floyd Browns.

Mr. and Mrs. S. N. Thweatt spent the holidays during Christmas in Carlsbad visiting Mrs. Thweatt's sister and husband, Mr. and Mrs. James Lewis.

Mr. and Mrs. Thomas L. Collins had with them for Christmas their son Bruce and wife of Ft. Collins, Colo. Others visiting in the Collins home were Mr. and Mrs. Ray Pruitt and daughter Royce Lee, and also her husband and two children.

Mr. and Mrs. Elton Sorrells and daughters Linda and Debbie visited Mrs. Sorrells' sister and other relatives in Sulphur Springs, the week after Christmas.

Mr. and Mrs. B. B. Hudson and Mr. and Mrs. Charles Wright and family were dinner

guests of Mr. and Mrs. Bill White on Christmas Day. Other guests during the afternoon were the Guy Hudson and Jim Hudson families.

Thursday Cecil Payne and Billie Dean Payne of Oklahoma City, Okla., and Albert Edwards of Hereford were guests of the Bill Whites. They all went rabbit hunting. Shelton got a 22 for Christmas. He says it's just OK. He killed two rabbits during the day.

Mr. and Mrs. W. L. McCullar and family had an early Christmas dinner with Mr. and Mrs. McCullar Dec. 22, when all the Smith family were gathered. Cecil McCullar from Ft. Pote, La., and James McCullar from Ft. Bragg were home on leave.

Mr. and Mrs. T. J. Broxson of White Deer visited in the home of Mr. and Mrs. Ernest Brown recently.

Mr. and Mrs. Doc Thweatt of Amarillo were guests of Mr. and Mrs. S. N. Thweatt Sunday.

Mr. and Mrs. James Ray Coleman and family and Mrs. Georgia Coldiron visited Mrs. Ruth Coleman Christmas.

Mrs. James Ray Coleman and sons spent some of the holidays in Okla. visiting Mr. and Mrs. Walker and other relatives.

Mr. and Mrs. Bruce Coleman and children were in Lubbock recently.

Mr. and Mrs. DeShoza and Mr. and Mrs. S. N. Thweatt visited in the home of Mr. and Mrs. Eldred Brown where "84" was played.

Mr. and Mrs. George Bumpass and son Danny were guests of the Jack Buse family Wednesday.

Mr. and Mrs. McCullar and family, Mr. and Mrs. S. N. Thweatt, and Mr. and Mrs. Jack Buse visited in the home of Mr. and Mrs. Elton Sorrells on New Year's Day.

Mrs. S. N. Thweatt received a New Year's card from the Prestons, formerly of Walcott. The Prestons are teaching at Davenport, Okla., and they plan on retiring in a few years.

Walcott school resumed classes Jan. 6. Assembly was held in the new auditorium the first time this school term and the first time in 1964. There were two new pupils, and there will be a lot of moving in and out of the school, but it is hoped that all changes will be over by mid-term.

 tional Salute. Here again we see that the number 7 had a mystical significance, for the eastern civilization 7 was a sacred number. Hence, astronomy listed the 7 planets, the moon changed every 7 days, the earth was created in 7 days, every 7th year was a sabbatical year, and the 7th year was a jubilee year.
 Those early regulations stated that, although a ship could fire only 7 guns, the forts could fire for honors 3 shots (the mystical 3) to be shot afloat. In that day powder of sodium nitrate was easier to keep on shore than saltpeter. In time, when the quality of gun powder improved, the use of potassium nitrate in the sea salute was made equal to the shore salute—21 guns as the highest national

honor. Although for a period of time, monarchies received more guns than republics, eventually republics claimed equality.
 There was much confusion due to the varying customs of Maritime states, but finally the British Government proposed to the United States a regulation that provided for "Salute to be Returned Gun for Gun." The British at that time officially considered the international salute to be 21 guns and the United States adopted the 21 gun and "Gun for Gun Return" 18 August 1875. Previous to this time, our national salute was 1 gun for each state. The practice was also a result of usage, for John Paul Jones saluted France with 13 guns (one for each state) at Quiberon Bay when the Stars and Stripes received its first salute. This practice was not authorized until 1810.
 By the admission of states to the Union, the salute reached 21 guns by 1818. In 1841, the national salute was reduced to 21 guns. In fact, the 1875 adoption of the British suggestion was a formal announcement that the United States recognized 21 guns as an International "Salute."

 Meantime, throughout the area, boys and girls Saturday were grooming their animals, getting them in shape for the show, to be held in both barns at the Bull Barn at the southeastern edge of Hereford.
 "We want to urge everyone interested in our show to buy a \$1 membership card," Konkwright said Saturday. "This is a new venture, and we know that the people will rally to the support of the show. \$205 Million In '64 Water Projects Set For Southwest

DALLAS, (AP)—The Army Corps of Engineers expects to spend \$205 million on Southwestern water projects this year. It will be a record amount, the engineers say.

One of the main projects will be navigation locks and dams for the \$12 million comprehensive development of the Arkansas River.

Of the 19 dams under construction in the Southwest, seven are in Texas—the Sam Rayburn Dam, formerly called McGee Bend; Somerville, Stillhouse Hollow, Waco, Proctor, Canyon and Bardwell.

The engineers gave these reports on Texas projects:

Canyon Dam and Reservoir on the Guadalupe near New Braunfels is 85 per cent completed. It is a \$18.9 million project. Completion is scheduled for May 1965. Work continuing or planned this year is on the embankment and service bridge, relocation of roads and recreation construction.

Sam Rayburn Dam and Reservoir, a \$61 million project, is 66 per cent complete. Located on the Angelina River near Jasper, impoundment of water is scheduled for December 1964. As 1963 ended, there were 29 contracts in force. Contracts scheduled for award in 1964 include relocations of power lines, construction of recreation facilities, and landscaping. The project is due for the completion in 1965.

Navarro Mills Dam and Reservoir in the Trinity River basin near Corsicana, is virtually complete. Cost is approximately \$10 million.

Proctor Dam and Reservoir on the Leon River near Dublin and Comanche, was 80 per cent complete in 1963. Impoundment of water began during the fall. Estimated total cost is \$14.7 million. Tentative contract awards for this year include four for relocation of utilities and erosion control.

Waco Dam and Reservoir on the Bosque River at Waco was 74 per cent complete on Jan. 1. Water will be impounded this December. Relocation of roads and utilities are main projects this year.

Somerville Dam and Reservoir was placed under contract last year. It is on Yegua Creek in the Brazos Basin near Somerville, and was 16 per cent complete Jan. 1. It will cost \$18.8 million and will impound water in mid-1966. Major contracts this year will include a portion of the embankment and spillway and utility-road relocation.

Stillhouse Hollow Dam and Reservoir: A \$20.6 million project, is on the Lampasas River near Lampasas. It was 14 per cent complete in 1963. Impoundment of water is scheduled for 1967. In 1964, a \$10 million embankment and spillway contract is scheduled.

Bardwell Dam and Reservoir in the Trinity River basin near Ennis, was started last year. Awarded during 1964 will be con-

tracts for relocation of utilities and construction of outlet works, earth embankment and spillway.

Fort Worth Floodway Extension is to protect an area downstream from Fort Worth's Lake Worth Dam. It is scheduled to get under way in February with a contract for channel rectification and levee construction. Estimated cost of the project is \$5.5 million.

San Antonio Floodway, including widening, deepening, and straightening the San Antonio River to provide flood protection is 29 per cent complete. A contract for channel alignment and rectification on Alazan Creek is scheduled for award in March. Cost of the project is \$32 million.

Big Fossil Creek work is scheduled to get under construction in February. This project is for flood protection in the Richland Hills, east of Fort Worth. Most of the project will be covered by a single contract in February. Cost is \$2.3 million.

Houston ship channel from Galveston harbor to a turning basin at Houston is 48 per cent complete. Total cost is \$19 million. Dredging contracts this year will be from Carpenters to Greens Bayous and from Greens Bayou to Brady Island. This year's contracts will amount to about \$6.3 million.

Matagorda Ship Channel. Dredging to Point Comfort and Lavaca Bay was completed in 1963 at a cost of \$5.4 million. Construction of jetties at the entrance to the channel, under a \$3.8 million contract, and hopper dredging of the entrance channel is under way. The \$24.2 million project is due for completion in September.

Port Aransas-Corpus Christi Waterway from the Gulf through Corpus Christi Bay via Corpus Christi and in the Tule Lake Channel to a turning basin at Viola is expected to cost \$5.8 million. It is scheduled for completion in 1966. It is 10 per cent completed. A multi-component contract to deepen to 40 feet the inner basin at Harbor Island and the main channel from Beacon 19 to the realigned entrance to the turning basin at Corpus Christi was scheduled to be awarded for about \$2.5 million.

Sabine-Neches Waterway from Sabine Pass over bar via Port Arthur to Beaumont and Orange is 83 per cent complete and should be finished in June. **Westway channel to Victoria**, costing \$8.5 million, is 48 per cent complete and should be finished in March 1965. Contracts of \$2.5 million will be let this year.

Buffalo Bayou—The Brays Bayou portion to protect Houston from floods is under construction. Construction will start this year for rectification in White Oak Bayou. Total cost is \$55.3 million. The project is 57 per cent complete. Completion is scheduled for June 1969.

Texas City Hurricane-Flood Protection project is for hurricane flood protection for Texas City and LaMarque. It provides for a new wall and levees, a tidal structure with a navigation opening, two pumping plants and drainage structures. Total cost will be \$22.6 million. Contracts covering 4.7 miles of levee, a tidal control struc-

ture and pumps are to be awarded this year at a cost of \$5.7 million.

Schroeter Gets Promotion In Produce Firm

Reorganization of the Salt River Valley Produce Co. of Texas has put Alex J. Schroeter of Hereford in the position of secretary and manager. It was announced this past week. The company grows, packs and markets produce here and in Laredo and McAllen.

Death of Kenneth Hagin, Phoenix, late in 1963, resulted in changes in the far-flung operations, Schroeter said. The Texas firm is one of two identical corporations, one operating in far western areas and the other in Texas. The western organization carries the name of Salt River Valley Produce Co.

Sam Drey, Phoenix, is the new president of the Texas organization; Bud Antle, Salinas, Calif., is first vice-president, and J. G. Hornberger, Laredo, is second vice-president. Dale Tackett, Hereford, is field manager of the Texas firm, handling growing and production phases of the produce firm.

Salt River grows much of its produce on its own farms in Texas, Schroeter explained, but the company also contracts crops grown by area farmers. Among their company operations are 650 acres of melons grown at Laredo; 150 acres of onions also grown in Laredo area, and 175 acres of cantaloupes grown in the McAllen region.

In this area, Salt River grows potatoes, onions, lettuce and carrots on its own land, in addition to additional produce grown on contract basis, he said.

meeting of the group, when she will present it to the winning speaker of the day.

Topic mistress for the day was Joyce Bezner, who called for extemporaneous speeches by Nancy Smith and Lou Ann Witkowski. Nancy Smith was selected as the best topic speaker with her talk "What I Did During Christmas Vacation."

Engler To Head New T-Bone Club For High Plains

The High Plains T-Bone Club was officially organized at Hereford Thursday night, when Paul Engler, manager of the Hereford Feed Yard, was elected president; Joe Easley of the Easley Feed Lot, vice president

and Foster Parker of Happy, secretary treasurer.

The feeders of an eight-county area were invited to attend the organizational meeting. Purpose of the club was announced as both social and educational. "With the growth of the feeding industry in the Plains area, a need for an organization where feeders may get together to discuss mutual problems and hear programs of interest was recognized," Engler stated.

The High Plains club is one of three contemplated for the area. One is planned for Dumas and the organizational meeting of the Plainview Club has already been pegged for the 23rd of this month. Each club will serve feeders in a group of counties in the Plains area. Proposed is that all three clubs will meet in joint session Amarillo periodically.

Vehicle Owners Urged To Get Inspections Now

The director of the Texas Department of Public Safety, Col. Homer Garrison Jr., today reminded Texas vehicle owners that the 1964 vehicle inspection deadline will soon be upon them.

He reported that some 60 per cent of the allotted inspection period has elapsed and only 20 per cent of the vehicles have been inspected.

"If this trend continues, vehicle owners can expect to have to wait in line in order to get their vehicles inspected by the April 15 deadline," he said.

Garrison pointed out that Tex-

as experienced its worst traffic fatality record in 1963 and vehicle defects were involved in some of these fatal accidents. He urged all Texans to begin the new year with safe vehicles and to keep them safe throughout the year.

He added that vehicles involved in traffic accidents should be re-inspected after repairs have been made.

"Some 5000 official inspection stations over the state are waiting to inspect the four million vehicles which will have to be inspected by April 15," the DPS director said.

"There can be no extension of time, and after the deadline date of April 15, vehicles which come under the provisions of the Inspection Act which do not display the 1964 inspection sticker will be operating in violation of the law," Garrison concluded.

Mrs. Hallows Discusses Filing Papers For Club

Methods of filing papers were discussed by Mrs. Dale Hallows for members of Progressive Home Demonstration Club during their meeting Jan. 7.

Among the procedures recommended by Mrs. Hallows were the use of safety boxes and labels to indicate their contents in order to save time and temper when papers are needed. Plans were made to tour the underground home in Plainview Jan. 14 during the business meeting. Other business included selection of Mrs. Hallows as club nominee for the district meeting April 9 in Perryton. Mrs. H. J. Hershey was selected as club nominee for county THDA chairman. Mrs. J. D. Gilbert Jr. was presiding officer. Hostess for the meeting was Mrs. Alvis Jolly. Other members present were Mrs. Fred Autry, Mrs. Gilbert, Mrs. Hallows, Mrs. E. C. Hammett, Mrs. Hershey, and Mrs. Taft McGee.

Like all US Citizens, Texans enjoy self government by virtue of their right to vote for and elect the officials who will best represent them.

To refuse or neglect to exercise your voting privilege is to put yourself at the mercy of the political opinions of others. If you fail to cast your vote and the outcome of an election dissatisfies you, the blame is yours.

I urge you to pay your poll tax before the deadline of January 31, 1964, and then fulfill your responsibility as a citizen by going to the polls and electing the candidate of your choice.

Respectfully,
Charles Skinner
Candidate for Sheriff, Deaf Smith County, Texas.

1963 Marketing Year Payment Deadline Set

Farmers have until the end of January to file applications for 1963 marketing year payments under the National Wool Act, Faust Collier, office manager of the Deaf Smith County ASCS Office, reminded producers.

He emphasized that Jan. 31, 1964, is the last day for accepting payment applications in connection with marketings of either wool or lambs during 1963.

Since this is several months earlier than under previous wool programs, the ASCS manager urged producers to avoid possible confusion by filing their applications on completed sales as soon as possible.

Collier pointed out that the 1963 marketing year under the wool program ended the last day of December, 1963. Future wool marketing years will be for 12 months and will coincide with the calendar year. The Jan. 31, 1964, deadline for filing 1963 applications is in line with normal program procedure of continuing to accept such applications for a month following the end of the marketing year.

It is believed that the break-in occurred about 10 p.m. since an electric clock which had been lifted off its peg stopped at 9:57 p.m.

By Mrs. Merlin Kaul
An invitation received here before Christmas announced a reception and open house to be held Sunday, Dec. 22 in honor of the 50th wedding anniversary of Mr. and Mrs. Tom Vaughn at their home at 2206 N. Cedar Street in Tacoma, Wash. Sons and daughters of the couple acted as hosts, and included Leslie and wife, Alma, of Anchorage, Alaska; Mrs. Lee Robertson (Sue) and her husband, Vancouver, Wash.; Duane (Tex) Vaughn of Tacoma, and Lt. Comdr. Glen Case and Kathryn of Santa Monica, Calif. Also present were seven of their eight grandchildren and two great-grandchildren. They are Mr. and Mrs. Allen Dawson and Kyle of Vancouver, Wash.; Thomas N. and Billy Vaughn of Tacoma and Lana and Edward Case of Santa Monica, Calif. Jerry Robertson, a grandson with the U. S. Navy, was unable to attend. Also present were Mrs. Vaughn's sisters—Mrs. Karl Hurd (Edna) and Mr. Hurd of Sumner; Mrs. Powell Clay (Ida) of Tacoma; Mrs. Ronald Matthews (Leona) and Mr. Matthews of Hereford; and her brother Walter Schulz and Mrs. Schulz of Concord, Calif. Anna Schulz and Thomas L. Vaughn were married in the Henry Cloyd home in Hereford Dec. 22, 1913. The weather was

cold and the snow was deep, so they began their honeymoon in a horse-drawn sleigh. They lived in Hereford until 1925 when they moved to a farm in the Westway community. Their four children were born here and attended Westway and Hereford schools. In 1936 the family moved to Tacoma, Wash. where they have since resided.

Nearly 100 guests signed the guest register during the reception, and the couple received 148 cards from 12 states. They received many beautiful gifts including two money trees bearing more than \$50 each.

The Vaughn family was well known here as well as the Schulz family, and were among the early pioneer families of the area. The congratulations of this vicinity are extended to this fine family on their "golden" day.

About 50 friends and neighbors of the T. J. Parsons family gathered at their home on New Year's Eve for a housewarming. The family has moved recently to the new home on their farm about 9 miles northeast of Hereford. The guests presented the Parsons with a money tree made of okra pods in which the money had been hidden. Mrs. Joe Wagoner of Westway was the creator of the unique "tree". Games of "42" provided entertainment for the guests after which refreshments of coffee and cake were served.

Holiday visitors of Mrs. Caudi Ola Brown included Mr. and Mrs. Al Kinsey of Elk City, Okla.; Mr. and Mrs. Jack Burrus, Sabrina, and Shelley of Childress; and Mr. and Mrs. An-

gus Roberts and Lyle of Lamesa, and Emmett Brown.

Sandra Moore, student at Baylor University, spent the holidays here with her parents, Mr. and Mrs. Don Moore and other relatives and friends.

Spending Christmas here with Mr. and Mrs. J. C. Reese were Mr. and Mrs. Jim Wood of Happy, Mr. and Mrs. Jerry Reese, Scotty and Kimberly of Brownfield, Mrs. Wilburn Scott of Rising Star, Rex Scott of Oklahoma City, and Mr. and Mrs. Bob Hicks, Britt, and Kent of Hereford.

Mr. and Mrs. Don Heddins, Donna, Rhonda, and Jim my spent the holidays with relatives at Shelbyville, Ill. They found the weather damp and cold there. En route home they were over-night guests in the Ronald Baillone home near Altus, Okla.

Mr. and Mrs. Fred Mulkey drove to Ogden, Utah, during vacation to spend a few days with their son Fred, who is still stationed at Hill Air Force Base. They report good roads and good weather for the 2000-mile drive.

Early in Christmas week, John David Bryant arrived home to spend the holidays with relatives in this area. He and his parents, Mr. and Mrs. Cawthon Bryant, went to Tulsa Monday night to attend a family gathering at the home of Cawthon's sister, Mrs. L. B. Taylor.

Others attending were the Rev. and Mrs. Noel Bryant and family of Denton; Mrs. Orion Carter of Plainview, and Mrs. D. H. Bryant of Hereford.

During Christmas the Bryants and John David were guests in the home of her mother, Mrs. J. D. Smith, at Ralls. Other members of the family attending included Juanita Smith, Mr. and Mrs. M. P. West and Gary of Clarendon; Mr. and Mrs. R. H. Smith of McCoy; Mr. and Mrs. James Moore and Linda of Lubbock; Mr. and Mrs. Vernie Smith and Mr. and Mrs. Jean D. Smith, Schyler and Bradley of Ralls.

December 29 Mr. and Mrs. Bryant and John David went to Denton where they were guests in the home of the Rev. and Mrs. Noel Bryant. From there they went to Fort Polk, La. where John David is stationed and spent a week there with him before returning home.

Judy McGee, student at Texas University, spent several days here with her parents, Mr. and Mrs. Taft McGee, during the holidays. She then went to Bowie to attend the wedding of a former roommate before returning to school.

Mr. and Mrs. Richard Smith of Texas A&M University were guests for several days here last week in the home of his parents, Mr. and Mrs. Frank Smith.

Miss Maurita Taylor has returned to her duties as sixth-grade teacher at Alkman School after spending the holidays with her mother, Mrs. Elizabeth Taylor in Pampa.

Mr. and Mrs. Ira Scott were convention guests in Dallas last week.

Mr. and Mrs. Virgil Dodson attended a reunion at the former Jowell School last week. They formerly taught there and many of their students and friends and patrons attended the event.

A post Christmas dinner was held at the Irving Willoughby home Sunday with their children present. They included Doris Willoughby of Methodist Memorial Hospital in Lubbock; Carroll Willoughby; and John Willoughby of Amarillo. Miss Carol Skypala was a guest.

Christmas Card reports from former residents include: From the Chris Clarks at An-

Chapel Of The Angels, Denver, Is Scene Of Ring Ceremony

Chapel of the Angels, Denver, Colo., was the scene of the wedding of Miss Judith Jane Cunningham and Jan David Wallace on Dec. 21. The double ring ceremony was read by the Rev. R. B. Cunningham.

Parents of the bride are Mr. and Mrs. M. B. Cunningham, Arvada, Colo. The bridegroom is the son of Mrs. Alma Cox Wallace, Hereford, and Bill Wallace, Pecos.

For the ceremony large baskets of white gladioli, carnations, and chrysanthemums were placed beside the candelabra. Robert Cunningham, soloist, and Mrs. Jerry Luthie, organist, presented traditional selections. Maid of honor was Miss Pat

Cunningham, and John O. Helnze was best man. Ushers were David McDonald, Tyler, and Thomas L. Thomas, Odessa.

The bride, who was given in marriage by her father, wore a formal gown of white satin with a beaded bodice and long sleeves. Her veil descended from a jeweled crown, and she carried a bouquet of white carnations.

After the reception at the chapel, Mr. and Mrs. Wallace left on a wedding trip to Estes Park, Colo. They will make their home at the Berkley Apartments, 503 West Sixth, Irving, Texas.

Mrs. Wallace has attended the University of Corpus Christi, Indiana University, and the University of Colorado, and will transfer to Arlington State College for the next semester. Mr. Wallace, a graduate of Hereford High School, attended the University of Colorado and is now a student at the University of Texas Southwestern Medical School, Dallas. He is a member of Phi Beta Pi medical fraternity.

"All valuable papers, such as wills, deeds, bonds, insurance policies, and marriage and birth certificates, should be kept in safety vaults, if possible, or at least in metal safety boxes," advised Argen Draper as she discussed methods of filing papers for members of Wyche Home Demonstration Club during their meeting Thursday morning.

Mayor Cowsert Is Guest Speaker

Mayor Ray Cowsert was guest speaker for the combined meetings of the American Legion and Auxiliary Jan. 7 at the Rock Clubhouse. His topic was "Legislation Is up to You."

During his presentation of the history of the United States Congress, Mayor Cowsert cited several outstanding congressmen who risked the criticism of their friends by voting for legislation they felt was right for the nation.

The speaker, referring to these men as "true Americans," concluded, "If we would live by the same high principles, if we would live by the aims and purposes of the Constitution of the United States of America, we would have a more united people, with justice, freedom, and democracy for all."

During the business meeting of the Auxiliary, which preceded the speech, Mrs. Ira Ott, presiding officer and representative for the Veterans' Hospital in Amarillo, reported that 18 area units and five other groups contributed to the hospital gift shop in December, with a total of 34 volunteer workers. Thirteen of these volunteers were from the Hereford post.

The gift shop, she continued, had a total valuation of \$1890, with \$110 of that amount from the Hereford post. Each patient, she explained, is allowed to choose gifts for his family at no charge, and the gifts are then wrapped and mailed for him by the volunteers.

Mrs. Cecil Wilkins presented a report on the party Dec. 18 for eight patients at the hospital who had birthdays in December. They were served Christmas cookies and ice cream and presented silver dollars as gifts, she reported, and added that there were thirty guests. Two church groups entertained the patients with songs.

After the close of the business meeting, members of the American Legion joined the Auxiliary for the speech by Mayor Cowsert, and refreshments were served to the entire group by the hostesses, Mrs. Tom Draper and Mrs. LeRoy Williamson. Mrs. Draper was also program chairman.

Auxiliary members present were Mrs. Grant Hanna, Mrs. (Continued on page 3)

How To Prepare Club Reports, Society News

Editor's Note: We continue to receive requests for assistance with preparation of various types of news releases. For those of you who missed this item when it was printed earlier, we are repeating it. We suggest that you clip this article for future reference.

General information concerning the reporting of any event:

1. Be sure that you have included the WHO, WHAT, WHEN, WHERE, and WHY so important in a good news release.
2. Be brief. Forget all about adjectives. It is to be assumed that the decorations are beautiful, the food delicious, and the speaker informative. You may describe the decorations or give highlights of the speech.
3. Always give exact dates and times.
4. Check every point of your story for accuracy, be very sure names and places are correctly spelled.
5. Always say "Mrs. James M. Jones," never "Mrs. Mary Jones." Remember that a widow remains "Mrs. James M. Jones" until she remarries. A divorcee drops her ex-husband's Christian name and replaces it with her maiden name, as "Mrs. Smith Jones." Women in public life may use their professional or maiden names. Use neither Miss nor Mrs. in first mention, as "Bette Davis."

For showers and other parties: A person should be selected as reporter at the time the party is being planned. It should be her duty to report the occasion, the time, the place, the receiving line, the person who registers guests, the decorations, those who serve, and the names of the hostess or hostesses as soon as possible after the event. If a picture is desired, she should call the newspaper about 24 hours before the time desired. No effort need be made to write the complete story.

For engagement announcements: The bride-to-be or her mother should report the names of the engaged couple, their parents and their addresses, any definite information about the wedding plans, and some background information about the engaged couple. This information should be turned in with a picture of the bride-to-be.

For brides: The Brand provides wedding information blanks to assist the bride and her mother in turning in the wedding information. The florist, the musicians, and the stores will assist with descriptions of the engaged couple. This information should be turned in with a picture of the bride-to-be.

For club reporters and publicity chairmen

The Brand will be happy to provide you with forms to make your reporting easier and with envelopes if you wish to mail your reports. Remember that regular meetings should be reported in a routine way. Minutes and committee reports need not be mentioned unless they are unusual in some newsworthy way.

Some notes on the program improve the report, but they should not be too detailed. One or two direct quotations and/or one or two points made by the speaker are excellent, or a program may be summarized in two or three sentences.

We are often reminded of the convict who was awaiting the hangman's noose and in making a final appeal to the Governor for a stay of execution, he wrote, "Dear Guvner. They are goin' to hang me Saturday and here it is Wednesday already."

So be it, for here it is Friday already and we have done very little towards grinding out the semi-weekly column.

Writing can be fun, but one should spend many hours visiting with the people in order to keep tab with what's goin' on. Unfortunately, the pressing affairs of business many times keeps the nose to the stone and away from things more pleasant.

This week however, we managed to make a sashay through the courthouse, dropping by the tax office to leave our annual contribution of \$1.75.

It's time to pay the piper if you're going to vote.

Next we stopped at B. F. Cain's domicile, grazing awhile from a box of candy... probably belonging to the girls in the office, and lastly we stopped in to visit with Judge H. C. Williams.

Of course, the Judge was giving us a bad time again, wanting to know how we could manage a trip to Arizona after the expense of Christmas. We had an answer however. Like the rest of "motorized America" we have a pocketful of credit cards.

There is nothing like a credit card... that is, until it comes time to pay. At which time we may resort to the tactics of the afore mentioned convict. Dear Sir: Our "credit card account is due Monday and here it is Friday already!"

We made the statement in Thursday's paper that we would be glad to help in any way we could on the annual call show, and we doubt seriously if the ink was dry on the old sheet before Palmer and Colby were beating on the front door. But, we'll stick by our guns. The annual call show has always been one of our pet projects, and we want this year's event to be bigger and better than ever before.

The show is shaping up nicely they tell me, however, it's the financial end that has them worried. The plan is to sell memberships to everyone in Hereford and surrounding area interested in the call show.

The memberships will sell for \$1.00 each. An application blank will be found elsewhere in this paper, and if you will send the blank and your dollar to the address listed, a membership card will be returned to you via the next mail.

The association hopes to raise somewhere in the neighborhood of \$1,000.00 through this method. The cost of the show varies, but usually does not exceed the \$1,000 mark.

Anyway, lets all send our dollars in. The folks who are doing the work have plenty to do without having to get out and dig up money to pay the bills. Lets give them our support... and our dollar.

The local political picture is beginning to come in focus. Or maybe that's not the word for it. Anyway, there is going to be opposition in, almost all the races.

Jim Monroe, local rancher, has filed for Commissioner, Precinct

3 running against incumbent J. T. Guinn. Guinn filed for the post last month.

H. A. (Hap) Cavness has filed for a spot on the school board. The local dentist has lived in Hereford approximately 11 years and has been quite active in community affairs since that time.

But the race that is drawing the most aspirants seems to be that of Commissioner, Precinct 1. J. F. Martin, 700 South Main is the latest to toss his hat in the ring. Martin, now serving as president of the Hereford Lions Club, has farmed in the area for a number of years.

Others running for the commission spot include Charlie Sowell, incumbent commissioner and Earl Holt.

Incumbent sheriff Lowell Sharp will be opposed by a former Department of Public Safety

patrolman, Charles Skinner.

The city commission race, on the other hand, has not been overrun with candidates yet. To date, Mike Justice, filing for place 4, is the only announced candidate.

Don't forget the call show. Dates for the event will be January 16th, 17th and 18th... and above all, don't forget to pay your poll tax. Deadline for payment of the poll tax is January 31. This is a national election year.

Here's French I can live with!

THE Chateau COLLECTION

by Thomasville

No longer need you stifle your yearning for French styling because your husband thinks it's too delicate. Thomasville's Chateau hints just enough at Louis XV intrigue to make it romantic, then laces it with the lusty country atmosphere of the provinces. Result: you're both happy.

Throughout the Chateau Collection, there's softspoken but authoritative elegance in the adroit blending of three lovely fruitwoods... in the sometimes surprising use of cane, in the gracefully curved legs, in the lavish use of marquetry. Bring your husband when you come to see Chateau... in over seventy living, dining and bedroom pieces, there are treasures to please you both!

SOFA
Three cushion sofa, eighty-six inches long and luxurious! Unusual Chantelle finish peep sides in an open basketweave design. If possible, use it as a free-standing piece... It would be a shame to turn its beautiful peep-and-upholstery back to a wall.

WING CHAIR
Want a conversation piece for your living room? You'll look far and wide to find a more unusual wing chair. The new here; cane on winged sides and arms. Wood frame is solid pecan in Chantelle finish. Bring your husband in to test its seating comfort.

BOOKCASE CABINET
Used solo, it's imposing... two or three lined up together against a wall are breathtaking. See through metal grille dress up the door without hiding the beauty of fine books or art objects. High drama in living room, dining room or entrance hall.

LIBRARY TABLE
The library has all but vanished today, but this handsome table with geometric marquetry top rises gloriously to many occasions. A perfect writing table, ideal for apartment dining, or as a second table in a stately dining room.

We Need Our 'First Team' In Local Offices Next Few Years

During the next 12 months the people of Hereford and Deaf Smith county will be called upon to elect a sizeable slate of city, school, county, state and federal officials. Selecting the best officials for the job is always a duty and obligation of U.S. citizens and this year, in our particular community, it becomes more important than ever before in our history.

While we are on a parallel with other citizens in choosing officials of the state and nation, we are faced on the local level with growth and expansion for greater than most of us realize. Planning this growth and providing the various governmental services is a monumental task which calls for the best we have to offer in ability, foresight and down-to-earth operation.

The City of Hereford, for instance, recently proposed and passed bond issues to cope with growing expansion in the water and sewer departments—and before these facilities are installed they may even be again taxed provided present trends con-

tinue. We will face additional problems in the form of fire protection, police enforcement, taxation, zoning and scores of other phases of community life.

Our schools, also just completing additional buildings, report that we can expect more expansion in the near future and, naturally, their problems are manifold.

The county will find itself in pretty much the same shape, though perhaps not to such extreme degree. During the past decade we have already noted a great difference in the duties of our commissioners and the methods through which they operate and, we predict, this trend will continue to flourish and that the duties of this governing body will become more demanding and more complicated as the years pass.

This year residents of the community will name two city commissioners, two school trustees and two county commissioners. Filling these posts should be the most capable people we can find. We should encourage this type of people to seek election to our offices, and we should help them to get elected, for our future will in a large measure be determined through their capable planning and foresight.

In the past we have been fortunate in the presence of able, energetic and interested officials, and this need is fast becoming more important than ever before. If we ever needed the "first team", now is the time.

Freight Service Due To Improve

History repeats itself, they say, and sometimes we wonder if the truck lines might not study the adage carefully.

To be specific, we have in mind a Hereford shipper who entered some freight with a major line on Tuesday, Dec. 31, destination Waco, Texas. On Tuesday, Jan. 7—a full week later—the shipment had not been delivered. Questioned, the local agent reported that the service was normal, pointing out that it should arrive Jan. 8.

"It did not leave here until Thursday, Jan. 2, because of New Years," he pointed out; "and since they do not work in the Dallas Terminal on Saturday or Sunday, this would put the shipment in Waco Tuesday or Wednesday."

The pitiful part is that the service would have been about the same on any of the lines, all of which causes some of the old timers to remember when the truck lines came into success and prosperity for the sole reason that our railroads had ceased to give service in keeping with the modern tradition. It also causes us to wonder if the truck lines are not falling into the same trap which established their original success.

Government wage-hour regulations and union restrictions have contributed more to this situation than probably any other two factors. At the same time, the customer is faced with tremendous upsurge in freight costs—and still gets very poor service.

What the solution will be, we do not know. We do feel, however, that unless the truck lines are able to come up with better service that some new medium of transportation will come along and find the same warm welcome as did the truck lines a few years back.

Today, in the "jet age", we can hardly expect people to be happy and contented with "pony express" service—and we do believe a stage coach would have compared favorably with the recent "run" from Hereford to Waco.

Rolling Up The Carpet

Whether it be good or bad, we will not say, but we do go along with the teenagers when they declare that Hereford "rolls up the carpet" at sundown. In fact, Main Street is almost dismal to behold once dark has descended.

During the past year we have gained one all-night cafe; this along with the theatres, bowling alley, skating rink and two or three service stations just about covers the list of community attractions once nightfall arrives.

Probably all smaller cities are the same, but it does bring up the queer quirk of how everyone used to stay open back during the "depression" when there was no business and, now that times are lush, everyone locks up early and heads for home.

Calf Show Is Area Project

While we have heard very little about the Junior Livestock Show for 1964, we are glad to note that 350 animals have been entered, and that plans are complete for the event, scheduled January 16-17-18.

Cattle, always an important factor in area economy, are becoming more pronounced in recent years with the advent of feeder lots, packing plants and new markets. Naturally, these things emphasize the importance of our livestock show. Tremendously.

This year also marks a new era for the show in that it is the first presentation through a community steering committee, which replaces the Rotary Club as sponsors. These people need and deserve general support perhaps more than ever before.

Hereford got its name from a breed of cattle and, in addition to recent developments mentioned, the community boasts probably more quality herds of finebred cattle than any other like area in the nation. Our local show and the success of our entrants in other shows contribute much to the entire area. For these reasons, let's pitch in and do our best to make the 1964 show one of the best in the entire nation.

Nuggets

Eastern sports writers are quite lavish in their praise of the University of Texas football team which crushed Navy in the Cotton Bowl and brought to this state college's top ranking for the first time since the late '30s. Coach Darrell Royal gave the State of Texas—and Dallas—a life when it badly needed it, and the clean, but convincing way his team did it solidified the Southwest Conference's eminent reputation in the football world. This newspaper extends its belated congratulations.

TEXAN IN WASHINGTON

Naming A Child? Lyndon Is Popular These Days

By Tex Easley
WASHINGTON, (AP)—A recent count shows 52 children have been named after President Lyndon B. Johnson.

That's the number he knows about. There probably have been others. Of the known total, 48 are boys, four are girls. Thirty-seven are Texas youngsters.

Four of the President's namesakes are children of members of the White House staff. One is 8-year old Lyndon A. Jenkins. His daddy, Walter Jenkins (Wichita Falls), long has been Johnson's top administrative assistant.

Other aides who have named children after their boss are Cliff Garter, Bess Ables and Jack Valenti.

All 52 of the Lyndons and Lyndas who now can boast of being named for a president of the United States, actually were so christened before the Texan became the nation's chief executive last Nov. 22 after the assassination of John F. Kennedy.

The youngest of the lot, about two months old now, is Lynda Valenti. Her father, a former

Houston public relations man, is an advisor to the President. Her mother, the former Mary Margaret Wiley, was secretary to Johnson for years.

Now that the boss of the LBJ ranch is also boss at 1600 Pennsylvania Avenue in Washington, it's likely many more babies will bear the names of Lyndon or Lynda.

A few, whose parents have been close to the Johnsons, were given prized calves out of the LBJ herd.

The first in the list of 52 is now 35 years old. He's Lyndon Keele, born Nov. 3, 1928, the son of Mr. and Mrs. Ted Keele of Clyde, Texas, that was before Johnson had come to Washington as a secretary to the late Rep. Richard Kleberg, a part owner of the famed King Ranch.

One of the earlier namesakes is now in the Marine Corps, Lance Cpl. Lyndon O. Hare, son of Mrs. Edward W. Hare of Cave Junction, Ore. A few months ago, while stationed at Camp LeJeune, N. C., he came to Washington and called at the then Vice-President Johnson's office. He found a baby picture of himself on the wall, along with pictures of other Johnson namesakes.

For the last three years the pictures decorated one wall in the fifth floor reception room of the vice presidential suite in the New Senate Office Building. On New Year's Day, as a part of the process of moving Johnson's files and belongings to the White House and the nearby Executive Office (Old State) Building, the photographs were taken down and boxed. The movers apparently saved the pictures for the last truck load.

In the abruptness of the change in the White House there were a lot of other matters with priority. The decision as to where the pictures now will hang didn't have to be reached immediately.

"After all," a White House aide said, hopefully prophetic, "in selecting a room and wall, we may consider the possibility of a lot of additional photographs in the years ahead."

BUILDING SETS NEW RECORD

With a big boost from a new high school plant started in December, Littlefield's building permit total topped the \$2 million mark at the close of the year—establishing an all-time high in construction for the city. The estimated value of new construction during the year was \$2,090,190, according to a tabulation at city hall. The previous high was in 1962 when permits were estimated for a total of \$1,320,381. That total was surpassed in September this past year. The boom construction year was paced by a homebuilding spree which produced 71 new houses in the city. The total value of new dwellings was pegged at \$1,283,350—indicating an average cost of \$18,075 for each new home.

DEPOSITS HIT NEW HIGH

Deposits in Perryton's two banks and savings and loan association hit a record high at the end of 1963, climbing more than \$1.6 million from the previous high set a year ago. Total bank deposits in the three institutions as of Dec. 31, 1963 were \$20,971,831.69 as compared with a total of \$19,350,183.86 a year ago. This represents an increase of \$1,621,647.83 and gives an indication of the strong economy of the Perryton area which could show such financial strength in the face of a dry year, wheat crop failure, drop in the cattle market, and a slow down in the oil industry.

BEEF GROWING PLAN APPROVED

North Plains area farmers will get a chance at "commercial sugar beet production" during 1964 it was announced Tuesday afternoon by Don Anthony, president; North Plains Sugar Beet Growers Association. Anthony informed Dickie Buckles, Sherman County vice president of the growers' organization, of the new announcement Tuesday afternoon. In addition, Buckles stated that the growers group had pledged of \$15 million toward construction of a \$20 million sugar beet refinery and now the group plans to use a \$1 per ton checkoff for the remainder of the money. Developments on the sugar beet situation came thick and fast this past week after Anthony and several other officers of the Association met with financiers in Amarillo last week. At the present time the Association is attempting to get area farmers to indicate their preference for acreage in the form of a request to be filled out and turned in by Saturday noon.

DISTRICT TO VOTE ON SWISHER COUNTY

The annual election for the High Plains Underground Water Conservation District will decide on the annexation of most of Swisher County to the district along with naming new officers on Tuesday, Jan. 14. To be elected are two district directors and county committeemen from each of the counties in the district. The board of directors of the water district recently received a petition from Swisher County residents asking that the county be annexed by the water district. The board approved the annexation but the act must now be validated and confirmed by voters in Swisher County and separately by voters within the present district. In other words, both groups must approve the action. In Swisher County, voters must also vote on the levy of a tax not to exceed five cents per \$100 valuation. The territory to be added to the district includes all of Swisher County except a small part in Palo Duro Canyon and breaks in the eastern part of the county which are not tillable.

SNOW DENTS LONG, DRY FALL

Snow finally fell in the Perryton area this week bringing some measurable moisture for the first time in several weeks and at least promising more for the wheat crop than the weather has since September. The snow which fell amid 16 degree temperatures visited the area Saturday and Sunday leaving about two inches of snow on the ground. Moisture in this snowfall was recorded at .13 of an inch officially.

THE BOOTLEG —Philosopher

(Editor's note: The Bootleg Philosopher on his Bindweed farm has encountered some statistics, his letter this week indicates.)

Dear editor:

If you can believe statistics, the farm population of the United States finally will get about to zero, and my theory will be borne out that the government will set up a preserve to protect the few last remaining farmers like it does the disappearing whooping cranes.

I thought it was bad enough when the percentage of farmers in this country dropped to 20 percent, but then it fell to 15, then to 12, and according to the latest estimate only 10 percent of the people of this country are now farmers.

Furthermore, I heard an expert on television last night predict that the figure will drop to 6 percent in a few years, and that whereas each farmer now feeds 27 people in town, it won't be long before he's feeding 35.

I am not prepared to say that the farmers who have been moving to town are culls, as a friend of mine contends, because it's been my observation that most towns and cities had problems they couldn't handle long before farmers moved in. Town problems can't be blamed on ex-farmers anymore than Washington can be blamed for Congress. I have no figures on what percentage of Congressmen are ex-farmers.

But what this whole thing got me to thinking about was, I wonder how those 27 people in town depending on me are getting along? If there are 27 people in Hereford expecting me to grow enough to feed them in 1964, my advice to them is to start a garden quick.

I have joined President Johnson's economy drive and will have to reduce my 27 to say 2, and they may have slim pickings.

Yours faithfully,
J. A.

AUSTIN HIGHLIGHTS

Capital Settles Back After Being Vacation White House

By Vern Sanford
Austin has settled back to being just the capital of Texas after nearly two hectic weeks news-wise as the vacation White House.

Dozens of top cabinet officers, military leaders and federal agency heads followed German Chancellor Ludwig Erhard and his advisors to the LBJ Ranch for conferences with President Lyndon Johnson.

Encouraging predictions of progress toward world peace

emerged from the President's international discussion. The federal budget and economy were spotlighted in the domestic talks.

Before he departed, White House sources gave these insights into the President's thinking:

He does not feel the U. S. can drag its feet until after elections this year before pressing for new peace breakthroughs.

He regards civil rights and the \$11,000,000 tax cut as legislative "musts." Also, he has expressed support for the medicare program of aid to the aged.

Reducing the budget to save money for essential human need, including education, is regarded by the President as concern to all Americans. He hopes cost cutting will serve as a pattern for future years. Slum clearance and "a home for every American" are seen as goals of his administration. Some newsmen interpreted this as a likely 1964 campaign slogan.

Johnson hopes to steadily improve American preparedness. But he is strong for elimination of obsolete, particularly old bases and installations retained in the budget for political reasons.

Congressional leaders will run their own legislative show. But the new President won't hesitate to ask old congressional friends for what he thinks is needed.

Johnson hopes to draw on the talents of both business and labor to render public service.

He is concerned about unemployment and is calling for new solutions.

PRISON POPULATION REDUCED
For the first time in 18 years, the number of prisoners in the Texas Department of Corrections shows a decrease.

Department Director Dr. George Beto reports that the Dec. 31 count was 12,150, compared with 12,303 the year before. Since 1945, there has been a steady climb in number of prison inmates. Beto cited these reasons for leveling off: more adequate parole supervision; opening of a new first-offender unit; a pre-release program of preparing prisoners for freedom; an expanded trusty program; and overall improvement in the prison treatment program.

Prison chief said the reduction not only will save money on prison care, but also in welfare funds spent on families of inmates, not to mention restoring prisoners to productive lives as citizens and taxpayers.

FARM SYSTEM INCOME
Farm products and livestock produced more than \$6,500,000 of the prison system's 1962 income, according to the auditor's report just released. Other sources were manufactured products, \$3,704,616; oil and gas leases, \$39,237; miscellaneous, \$3,287,167.

Report placed total income from farms and farm industries at \$10,144,773, with expenses of \$14,304,734 for a deficit of \$4,159,961.

Manufacturing operations include license plates, shoes, textiles, clothing and other products.

SCHOOL INCOME THREAT
Texas school income will be drastically reduced unless the Federal Power Commission sets an adequate price for gas in the Texas Gulf Coast area and the Hugoton-Anadarko area of the Texas Panhandle, Attorney General Carr contends.

Carr has filed a petition to intervene in price hearings ordered by FPC to determine reasonable rates for sale of natural gas in the area.

Earlier he filed briefs requesting FPC to set the price of all gas in the Permian Basin area at 21 cents MCF. The FPC staff sought a nine cents MCF rate for casinghead gas and 13.7 cents MCF for gas well gas.

Attorney General noted in his brief that Texas levies a 7 per cent occupation tax based on market value of the gas at the well head to help support state government.

He also pointed out that the University of Texas system owns more than 4,700,000 acres of land in the Permian Basin area. Bonus money and royalty income from this acreage goes to the permanent school fund for Texas education. More than 18,000,000 acres of state land are involved in the Gulf Coast hearing.

IMPORT PROGRAM "INEFFECTIVE"
Basic structural deficiencies in the mandatory oil import program have rendered it "both ineffective and politically inappropriate," according to a Texas representative to the Sixth World Petroleum Congress.

Sen. Charles Herring of Austin so concluded in his report to Gov. John Connally.

The time has arrived, Herring stated, "for a comprehensive review of the program, leading toward the evolving of a whole new approach."

BOYS AND GIRLS Friday were paying their vocational agriculture instructor here. Left to entry fees; getting ready for this week's Golden Spread Western Junior Livestock Show which opens Thursday. Here FFA entries are being accepted by Jess Robinson, right are Ronnie Lance, Ronny Houston, Ronnie Ballard, Billy Wall, Larry Brown and Ronnie Nunley. (Staff Photo)

The Senator found "evidence of a serious monopoly trend within the petroleum industry" and no basis for assuming that corrective forces "will emerge from within the industry itself."

Herring said Texas is suffering "grave economic damage" from its attempts to balance supply with effective demand and to "serve as a balance wheel to world oversupply."

HAY FREIGHT HIKE SOUGHT
Although the hay shortage has shoved prices up to double the normal, hard-pressed Texas ranchers and dairymen may have another cost increase in sight.

Railroad Commission already has been asked by the Livestock Carriers Association of Texas to increase truck freight rates on hay and cottonseed hulls.

A hearing on the application has been set by the Commission's rate division for Jan. 20. In some cases this would mean a rate increase of more than 100 per cent.

HIGHER EDUCATION
Governor Connally is expected to decide soon whether to designate an existing state agency to administer an estimated \$11,600,000 worth of Federal grants for college construction facilities in fiscal 1964 or create a new state commission on higher education.

Although the Texas Commission on Higher Education is responsible for the administration of state senior colleges and universities, junior colleges — which would get some \$2,700,000 of the grant money — come under the jurisdiction of the State Board of Education. There is no state agency for private colleges.

The construction-aid program is designed for both public and private colleges. Connally's decision must meet with the approval of the U. S. Commissioner on Education and be confirmed by Attorney General Carr.

A viewpoint on public education, recently advanced by a subcommittee of the Governor's Committee on Education Beyond the High School, was expressed by the Education Policies Commission of the National Education Association and American Association of School Administrators. Commission recommended that American youths receive two more years of free education after high school.

System proposed is much like that in operation in California. There any high school graduate may pursue his tuition-free education in a public junior or two-year college.

RAIN-MAKING
John Carr, hydrologist for the Texas Water Commission, has been making local talks on what other states have done about legislation on rain-making.

A major in the Air Force Weather Service, Carr has been gathering information on rain-making and hurricane breaking as it applies to the Texas climate.

STATE SCHOOL MEETING SET
Board for State Hospitals and Special Schools' Site elections Committee will meet Jan. 13 to discuss site proposals for locating a newly-authorized West Texas State School for the mentally-retarded.

The school, to be located somewhere "West of the 100th Meridian", has been offered a "home" by many West Texas communities, including El Paso, Lubbock, Plainview and others. All the cities are involved in ardent community campaigns for the industrial stimulation brought about by such an institution.

ARBOR DAY SET
Governor Connally has proclaimed Jan. 17 as Arbor Day in Texas. In a special observance, the Texas Forestry Association will plant several pecan seedlings on the Capitol grounds.

belief business may be leveling off and approaching the end of the current upswing which began in February, 1961, UT Bureau of Business Research concludes.

Texas Water Commission will hold a hearing on Jan. 28 on proposals to rebuild Tyler State Park Dam. It broke last summer, draining the 1,090-acre foot reservoir. . . . Howard Dodgen, former executive secretary of the Oil Game and Fish Commission, will join the National Wildlife Management Institute in Texas to do research and development work. The organization is supported by sportsmen's endowment contributions.

CHEVY-VAN!

Chevrolet's new low-cost quality delivery truck!

This introduces you to Chevy-Van—our new economy delivery truck.

It has a low price tag, over 40 sq. ft. of completely usable flat floor 7½ ft. long, the engine up front, and a lot of quality features which make it a better buy. The body and frame-floor are welded together. The truck is strong, rigid, stable. Doors are double-wall construction.

Chevy-Van has unusual resistance to rust and corrosion. Especially vulnerable areas such as front stepwells are galvanized. Sealers are used at all critical joints inside and out. Certain sections are treated with high-zinc-content primers; others with an aluminum-wax preservative.

The windshield is a big flat practical one-piece unit. The big 90-hp 4-cylinder standard engine is more powerful than some 6s, yet is remarkably economical. If you need more power, Chevy-Van offers a 120-hp six at extra cost. Side doors and rear windows also cost extra.

Last but not least, it's a Chevrolet. Which means that it is built to work for you a long time at minimum cost.

Ministers Told Of Fraudulent Claims Of Need

Hereford Ministerial Association at its meeting Tuesday heard Jewel Smith and Lowell Sharp discuss welfare cases in Hereford and Deaf Smith county. Mrs. Smith is Deaf Smith County Welfare Administrator, and Sharp is chairman of the Salvation Army Service Unit. Other members of the unit are Neil Cooper, Don Zimmerman, Bartley Dowell, Jimmie Gillette and Mrs. Smith.

Unusual cases were cited by Mrs. Smith who explained the need for careful checking before aid is granted. She told of one case when a father, mother and several children went to three churches here with "hard luck" stories that helped them collect \$100. She told of several such cases where families are not in need but use this method "as a way of life."

Both emphasized that "no person in need is denied food and lodging." They explained to the ministers how the two agencies work hand-in-hand to see that the needy are served.

The Association adopted the following resolution: "The Hereford Ministerial Association commend Mrs. Smith and the Deaf Smith County Welfare Administration, and Mr. Sharp and The Salvation Army Service Unit for their fine work; and that the Association wishes to offer full cooperation with these agencies; and that the \$117.50 Thanksgiving offering be placed at their disposal to be used as they see the need."

The treasurer reported \$49.47 in the general fund and \$117.50 in the Thanksgiving offering. The Rev. Burt DeBord, vice-president, served as chairman in the absence of the president. The Rev. Chesby Patterson is secretary.

RAIN OF INSECTS
MADISON, Wis. (AP) - It may not rain cats and dogs very often, but there's a good chance that potato leafhoppers really are rained on the countryside. University of Wisconsin entomologists say that warm south winds moving up the Mississippi valley carry the leafhoppers aloft, and that they may get back to earth in rains or downdrafts.
