City Absentee Voting Starts On March 18

Absentee voting for three posts slated in the April 7 general city election will begin March 18, according to City Attorney Earnest Langley.

Persons who will be unable to vote on April 7 should cast votes in the City Clerk's office by April 3, Langley said.

Voting for post of mayor and two commissionerships will begin at 8 a.m. and end at 7 p.m. April 7 in the City Manager's office.

There is only one contested post in the election. Candidates for the mayor's post are Dr. R. R. Wills and Woodrow "Woody" Wilson.

In the two commissionerships, Don Little is seeking re-election to Place One and Gid E. Brown is candidate for Place Two.

Around Town

Without exception, all the folks who went to Austin last week came back with nothing but the highest praise for the Whiteface cagers. And it was generally agreed that the Herd had really put on a show with their speed, full-court defense and ball-hawking tactics.

But of all the words that were written and spoken about the Hereford team, this letter from a trio of University of Texas boys probably meant the most to the team:

"To the Hereford team — and especially center Steve Slagle, "We couldn't resist writing you fellows. We don't know for sure what you'll think of this, but it's our hope it will help compensate in its small way for your loss in the state tournament!"

"As ex-basketball players ourselves, we know how it feels to lose something when you've worked so hard and come so far and so close to getting it. We just wanted you all to know that we thought you put on the best show to come to Gregory Gym in our 3 years at UT. Also — we feel that you would have won going away except for certain supernatural forces — It's kind of hard to fight a mountain."

"Slagle did a good job and we are really hoping to see you (Continued on Page 2)"

County Discusses Building Projects, Old Folks Home

Wasting no time after being given voters' approval, Deaf Smith County Commissioners Monday started conferences to get three projects underway.

Meeting with architect John P. Work, the group discussed various aspects of the new jail and courthouse renovation which were approved for bond issue last Saturday.

County Judge H. E. Henslee said contracts probably would be let for the jail and courthouse repair about June 1. Time between now and then will be used to draw up detailed plans and specifications, advertise for bids and allow contractors to figure estimates.

Commissioners hope to get bids which would allow them to name one contracting firm to do both jobs, since this would

be a saving on inspections, supervision and labor.

Commissioners agreed to hold a special meeting Thursday to discuss final financing plans with Bob Davis, who has been retained as their financial advisor for the projects. Davis represents Municipal Securities Company.

Knox Parr, Texas Highway Department, met with the Commission to discuss a revised contract with the county in connection with the purchase of right-of-way from Hereford east on U. S. Highway 60 to the Randall County line. Voters approved the issuance of \$260,000 in warrants for this matter in the Saturday balloting.

Commissioners approved the revised contract, under which the state will participate in the cost of paying for fencing and

movement of utility poles and lines. They also gave Judge Henslee permission to act on their behalf in signing all necessary papers in regard to the right-of-way.

Parr explained that one small parcel of right-of-way along the

Fred Saltzman Rites Scheduled

Fred Louis Saltzman, 64, of Rt. 4 Hereford, was pronounced dead on arrival at Deaf Smith County Hospital at 7 p.m. Tuesday. Saltzman suffered a heart attack Tuesday afternoon while irrigating on his farm seven miles north and one half mile west of Hereford.

Funeral services were slated to be held this afternoon at 4 p.m. in the First Methodist Church with the Rev. Alby Cockrell, pastor, officiating. Burial will be in Rest Lawn Memorial Cemetery under direction of Kreig-Marcum Funeral Home.

Saltzman was born Sept. 11, 1894, in Lenexa, Kan. and came to Texas in 1905 when he farmed near Umbarger. He moved to Hereford in 1909.

He was married to Iva Biggs on Nov. 7, 1913, in Hereford. He was occupied in farming and ranching and was a member of the First Methodist Church of Hereford.

School To Add Five More Days Teaching

A school term of 180 teaching days was unanimously approved by the Hereford Rural High School District trustees during a regular meeting Tuesday night.

This is an increase of five over the minimum number of days now required by the state and four over the instructional days which will be taught this year. The school year will be included between Sept. 2 and May 29 of next year with provisions for five holidays.

Supt. Fred Cunningham pre-

sented the recommendation, which is in line with suggestions made by the local and state Hale-Aiken education study commission. Legislation now pending in Austin would raise the minimum to 180 days.

Under the new plan, teachers will have five days of in-service education prior to the start of the school term. This will be held this year from Aug. 25 until Aug. 30. Already in use, the in-service program allows time for officials to outline duties and explain teaching procedures prior to enrollment.

School will begin on Sept. 2. Number of instructional days and tentative holidays in each month, as outlined by Cunningham, includes:

Table listing months from September to May with corresponding instructional days and holidays.

Holidays will include two school days for Thanksgiving, about two weeks vacation for

Christmas and New Year's, one day in March for a teachers' meeting and two school days in April for Easter.

There will be 176 days of instruction this year, while there were 176 in 1958, 176 in 1957 and 174 in 1956. Number of days was below minimum in 1956 with special permission because of extremely bad weather.

All teachers with certificates were approved for new contracts by the board, after review of individuals in each school by the board.

Three special education teachers were approved, as were two teachers at Parkview Elementary Negro School. Dawn Elementary had 16 approved, Central Elementary had 18, Shirley Elementary had 20, Stanton Junior High had 15, and Hereford High had 36.

Six other teachers, who do not have permanent teaching certificates, were recommended.

Hereford State Bank Stock Sold, Carver To Head Firm

Resulting from a transaction Wednesday morning in which "substantial interests" in stock of the Hereford State Bank changed hands, Russell E. Carver of Austin was named president of the Hereford State, succeeding Townsend Douglas in the post.

Simultaneous with this release was the announcement that H. S. Wilbur, Sr., president of the First National Bank, Canadian, and Earl L. Wilbur, president of the First National Bank, Dalhart, have been added to the board of directors of the local bank.

No sale figures were announced in connection with the transaction.

"No change is contemplated at this time in any of the personnel or directors of the Hereford State Bank," said Carver, the new president. He said that the family, including Mrs. Carver (Virginia) and a son, Randy, age 12, plan to become residents of Hereford about April

1, when they expect to purchase a home and establish residence. Douglas, who has been head of the bank for the past four and one-half years, said that his long-range plans are indefinite at this time, adding:

"I feel a personal obligation in seeing that control of the bank went into the right hands, and I heartily endorse these new stockholders as the type of people you will like and with whom you will want to do business. I expect to be around for some time in order to introduce them to our present customers, and I feel confident that you will like them, and the way they do business."

Carver is now cashier of the Texas State Bank in Austin, a position he has held for the past two years. Previously, he was associated with the First National Bank in Canadian for 11 years, and operated the International Harvester agency in Canadian for five years. He is a graduate of the Wisconsin

School of Banking; Madison, Wis., and served three years in the armed forces during World War II.

Carver is a member of the Baptist Church in Austin, serves currently on the Capital City Boy Scout council area, is a United Fund director, and is president of NABAC, an Austin banking organization.

Both Mr. Wilbur of Canadian, and Mr. Wilbur of Dalhart are widely known in Panhandle banking and financial circles.

DWI Bond Set

Bond for Hampton Monroe Kennedy, 58, 128 N. Texas, was set at \$500 after charge of driving while intoxicated, first offense, was filed against him by Hereford police Tuesday.

Kennedy was arrested after the car which he was driving was involved in an accident with a car driven by William J. Messick, 41, 119 N. Texas, at about 8:20 p.m. Monday at the intersection of Park Ave. and 25 Mile Ave., according to Patrolman W. G. Davis, investigating officer.

Damage to each car was estimated at about \$150 by Davis. No injuries were reported.

Civic Center Is Still Below Goal

With bid-opening time just four days off, the drive for funds to build a Community Center still is about 25 per cent short of its goal.

Campaign leaders Wednesday said they could count on about \$31,000 to \$32,000 right now in donations and pledges, which leaves slightly less than \$10,000 still needed to assure success of the endeavor.

Quite a large number of volunteer workers still have not reported from their canvass. This includes both urban and rural areas. Business and commercial solicitation is almost totally finished and only residential areas remain to donate the remainder of the money.

City Commissioners have set Monday, March 16, as the time to open bids on the proposed \$100,000 structure. The Jim Hill Estate has granted \$60,000 toward the project, provided the remainder is raised by the public.

About ten bidders are expected to submit offers for the job, according to city manager Dudley Bayne.

The Hereford High School baseball team hits the diamond for the first time since the 1954 season Saturday when it meets Amarillo High School there at 2 p.m.

Coached by Jerry Don George, the 3-AAA squad will be comprised mostly of underclassmen with Little League and Pony League experience.

About 40 prospects have been working out about three weeks in preparation for a tough schedule, which includes seven games with 3-AAAA teams.

Hurling for the Whitefaces Saturday probably will be Nokey Northcutt, who will probably be teamed with Bill Baker in the catcher's slot.

Other top prospects for the Whitefaces are Dale Carter and

Dean Hudson, first base; Charles Thomas and Joe Mac Hale, second base; Ken Clearman and Ronnie Botkins in short stop positions and Donnie Renfro in the outfield.

The Whitefaces will journey to Amarillo again Tuesday to meet the Tascosa Rebels. The first six games of the Hereford schedule match the Whitefaces against 3-AAA squads.

In conference play, which begins April 21, Hereford meets LeVeland and Dumas twice each. LeVeland is the defending conference champion team as Hereford and Dumas did not field teams last year.

Activities, Programs Highlight 4-H Week

About 225 members of Deaf Smith County 4-H Clubs this week are participating in the celebration of National 4-H Club Week.

National 4-H Club Week was scheduled to be held last week, but at Texas Public Schools Week was observed at that time, local members decided to postpone celebration until this week.

Events this week started with a service at the First Methodist Church Sunday. All 4-H Club members are invited to attend services at a district church each year when

the week is observed. 4-H members are presenting programs at various civic club meetings throughout the week.

Also, members are presenting programs on the radio. Joe Reinauer, James Baurus, Linda Lemons and Sandra Townsend presented a 4-H program at the noon meeting of the Rotary Club Monday. Presenting the program at the Optimist Club meeting Tuesday were Barbara Fulham, Joyce Beznar and John David Miller.

Looking over the itemized list of expenditures that accompanied a check from the regional basketball tourney, one Hereford trustee pointed out it cost \$48 for a union electrician to run the spotlight. Shaking his head over the amount, he said, "I think next year we ought to take a kerosene lantern and shine it on the players and save that money."

Word was received this week that A. D. (Red) Burns, a former deputy sheriff in Deaf Smith County, died Friday. He suffered a heart attack. He was living in Lakin, Kan., at the time of his death.

County Commissioners will have a special meeting Thursday to discuss financial details in connection with right-of-way purchases, jail building and courthouse renovation.

Area grain sorghum raisers will be watching eagerly for reports from Friday's scheduled house sub-committee hearing on grain prices.

This will be temporary measure until the Deaf Smith County portion is expanded on another contract.  
 In other action, the Commission approved the pledge contracts submitted by the First National Bank of Hereford, to secure its recent selection as county depository for the next two years.

 Plank and Larry Minks presented the noon program of the Hereford Lions Club.  
 Scheduled to present the program at the Kiwanis Club meeting Thursday noon are Linda Tooley, Sharon Hoffman, Dick Plank and Don Perrin.  
 About 225 members comprise membership in the county's 16 4-H Clubs.

There are 103 members in the five boys' clubs and the 11 girls' clubs have a total membership of 120 members. Clubs have been organized in each county community and town.  
 Clubs hold meetings twice a month, in general. Age group of 4-H members is nine to 21. There are 30 active adult leaders in the county.

4-H Club activity started in the county in the late 1920's, according to County Agent J. W. "Lefty" Thomas. It was organized as a voluntary project.  
 Every member participates in 4-H Club work. Adults and youth meet together in their own communities to determine needs and participate in projects to reach goals.  
 Junior leaders are club members with 4-H experience and are trained to serve as demonstration and special activity leaders to younger members. Thomas said.

County clubs are promoted by businesses, groups and individuals. County extension agents attend meeting and evaluate work done by various clubs.  
 A goal of all clubs is teaching members to be independent, yet cooperative. Cooperation with and membership in other organizations is encouraged among 4-H members.  
 Opportunities available to members include county and district 4-H camps, 4-H Round-up, Texas 4-H Junior Leadership Training Laboratory, National 4-H Club Camp, National 4-H Congress, Rural Life Sunday, International Farm Youth Exchange, Danforth Leadership Camp and scholarships and awards.

Nationally, 400 industries support 4-H Club work through scholarships and fellowships ament of such a place, but took no formal action.

 Setting of the production is in a small New England Village between the years 1873-88. A barker of a carousel marries a local girl. The barker is fired from his job, and the penniless newlyweds are told that they soon will be parents.  
 Desperate for money, the prospective father meets a shady character at a clambake and the two attempt a robbery. The robbery fails, and escaping the possibility of a prison sentence, the barker stabs himself.  
 After a 15-year-period, the barker discovers that his daughter faces embarrassment as result of his actions on earth. He is given a chance to return to earth to redeem himself.  
 "Carousel" will be the last production in the concert series. Previous performances in the series were "Swanee", presented by the music department of Eastern New Mexico University; a joint concert by the Amarillo Symphony Orchestra and Hereford High School choirs, and the Annual Coronation Concert by the Hereford High School symphonic band and Stanton Junior High band.

By JIMMIE GILLENTE  
Things are looking up for the crooks and law violators, according to those who opposed the new county jail. However, they add better take it easy, because it will take several months to complete the new jail.

I figured that all of those folks in Austin for the ball games might hurt the three bond issues, but the almost 2-to-1 vote indicates just the opposite. Next time we want to pass a bond issue, maybe we should get the sports fans out of town. Only 16 absentee ballots were cast in the election — and they estimate that 3,500 people went from here to Austin to attend

the games.  
Everyone I have seen is mighty proud of our 1959 basketball team. Going to Austin was a great honor, and playing right into the finals was an even greater achievement. The boys did a wonderful job. Kent Snare and I have been talking this deal over, and we are going to write our congressman a letter asking for a bill making it illegal for anyone over 6-ft., four inches to play. If we happen to get someone who is 6-ft., four, we can ask for an amendment to change the law. In all of the pictures, Houston Smiley's 7-ft., 1 1/2-inch Qualls looks a lot taller than I had imagined. Richard Leggett, who covered the game

for The Brand, was telling me that 'Falls' girl friend, also of Smiley, is 5-ft., 9, and looks like a dwarf beside the big boy.

Luther Lesly is one of several customers who were complaining Sunday about the brand special edition to cover the ball game and the election returns: "Going to 15 cents was bad enough," said Luther, "but this week I had to buy two editions — which made a total of 30 cents instead of the former 10 cents."

Luther further informs me that there are no more stayings in the trees around the courthouse. He says that Sheriff Charles Skeiton and the boys did some snooting around there recently, and that all of the birds departed. If this is right, would they please do some shooting around my house.

If a fellow wants to work his way through school, there is no substitute for a good trade. Carroll Kreig is now attending a mortuary school in Dallas and, right out, got a top notch job barbering in a shop near Baylor hospital. The shop remains open until 8 p.m., which is a real help; this, with all day Saturdays, will put Carroll in good snape. I know several boys who learned printing and linotype operating, and went through college to graduate with money in the bank. The best part of a trade is that the number of working hours can be cut down in order to allow plenty of time for studies. Salary scales, especially in the cities, are high enough to go through school on a three or four hour work day.

Any youngster who expects to work his way through college would do well to spend his spare time and summers learning a good trade while he is still in high school. It sure does pay off in the years to come. He also has something to fall back on in cases of emergency.

Francis Hardwick says I am all wet about the heart fund. It did come under the United Fund drive this year, although headquarters did not give enthusiastic endorsement. This is good. We need to get all of the drives together if we expect United Fund to continue successful. As I said, several people are complaining because of the special solicitations — in addition to United Fund.

Baseball fans will be happy to know that Hereford will field a high school team this year, including several of those original "Little Leaguers" who started back a couple of years ago. The only trouble with the deal seems to be the fact that there is no baseball field on which to play. Understand they plan, sooner or later, to put the field in the vicinity of the new school west of town.

Quite definite, on the other hand, is the fact that we will

Youth Day Is Observed At Methodist Church Sunday

By MRS. R. L. PINNELL  
"Youth Day" was held at the Methodist Church Sunday. Special guests were members of the Caprock 4-H Club and their sponsors, Mrs. John Horton and Mrs. Clint Formby. The church young people took over all the church offices in the morning service.

Terry Creitz served as Sunday School Superintendent. The morning message was brought by Missy Morgan, Alma Mosteller and Twina Story. Marlene Williams was pianist. The 4-H Club sat in one group through the service and were introduced by the Rev. Johnnie Williams, pastor.

A pickup truck owned by the Curry Cattle company was involved in a car wreck Saturday night, but Howard Engle, driver, and Davy Gruhlikey, a passenger, were not seriously injured.

Earlier Saturday evening a passing tourist stopped in town to report a grass fire seven miles west of town. P. N. Johnson, Rock Island employee, went to check on the fire and found the draw west of Grapevine in flames. The first report was near 6:15 p.m. Johnson started fighting the fire, assisted by his family. A daughter returned to town for help and many people assisted in the fighting. The wind kept the original blaze in the draw and only about 50 acres were destroyed. The land is leased by the Brown brothers.

Engle and Davy went out later to see the fire and were returning home when the right front tire blew out. He lost control of the automobile and it went through a large highway sign, throwing both passengers out of the car.

Manuel Loveless trailed the remains to town Sunday afternoon and the pickup is considered a complete loss.

D. S. Evans, father of Mrs. B. L. Kinsey, suffered a stroke Sunday afternoon and was taken to Deaf Smith County Hospital.

have the annual Musical Festival here Saturday, March 14, at the Methodist Church. Mrs. A. J. Schroeter has been buzzing around making preparations and was telling me that they have 178 entries, including many from Pampa, Borger, Amarillo, Phillips, Friona, Dimmitt, and other towns and cities. The festival has become a huge endeavor during recent years, and is one for which our club members and music lovers deserve a lot of credit.

Mexico bound are Mr. and Mrs. Neil Cooper, Mr. and Mrs. Clint Formby. They left Wednesday afternoon to drive to the border, and will fly from there to Acapulco for a 10-day or two-week vacation. Since Clint is president of the Kiwanis Club, and Neil is president of the Lions Club (and these are the two clubs which sponsor pancake suppers), don't be surprised if you pick up the paper and read where Mexico has denounced the hot tamale in favor of pan cakes. No kidding, though, there has been a lot of traffic to the South this fall and winter.

Also, as I mentioned before, don't feel bad if you cannot make it yourself. Another three or four months, and they will bring Mexico to you.

Occasionally, things seem to get completely out of kilter. Now days, for instance, they have packaged mixes for just about every sort of cake you can imagine, including that good old Angel Food. You can also get another box with the icing or topping. At the same time, our schools have developed their home economics departments into their finest in years. Our kids can cook cakes like you never saw before. But why should they when you can get the same thing out of a box? Back when we never dreamed of a package mix, the kids went to school in a little red building and wouldn't have known what you were babbling about if you had mentioned "home ec."

But why complain? It's a lot cheaper to buy a package of cake mix than to raise and educate a daughter who can cook. Besides, a box of cake mix has never yet tied up the telephone for an hour and 15 minutes, asked for the car, or got married.

There's an old saying to the effect that you can't have your cake and eat it, too. However, it is beginning to look as if the women are going to make this one obsolete. At least, I am beginning to understand why folks call these sayings "old wives tales."

# H. D. CHATTER Activities Speeding Up During 4-H Club Week

By ARGEN DRAPER  
Things are buzzing even faster at the office, with 4-H'ers and leaders celebrating "National 4-H Club Week."

The attendance at church Sunday at the morning services of the First Methodist Church pleased the leaders and Agent. There will be radio programs and appearances before the service clubs every day this week. This is the leaders' method of letting 4-H supporters know the work that is being done.

The 4-H club program is dependent on 4-H leaders and interested citizens. The national contests which we talk about so much are sponsored by 400 different businesses in the United States. You can see that it is quite a big business, furnishing medals and other prizes to every county in the United States.

The merchants and other citizens in and around Hereford have always been very cooperative and have helped make 4-H work in Deaf Smith County as popular and successful as it is.

Have you ever seen as many pretty fabrics on the markets? The shelves and counters in Hereford are simply bulging with new materials and in the most gorgeous colors. There are so many new materials and new combinations that you should be more careful than ever in reading labels and remembering what is on them.

# REP. WALTER ROGERS WRITES: Each Newborn Child Owes \$1,624 For Share Of Debt

To the people of the 18th District:  
I am deeply appreciative of the many letters that I have received recently expressing concern about the fiscal condition of this country. I realize that some of this mail was prompted by organizations here in Washington advising their members to write to their Congressmen and demand cutbacks in spending and cooperation with the President in obtaining a balanced budget.

I point out again, as I did in a previous newsletter, that cooperation with the President does not necessarily mean a balanced budget. If we have a balanced budget this year without raising taxes, it will result from some conflicts with the President rather than cooperation.

It is always good to hear from the people at home, and I only wish that they would write more, even when they're not asked to by some organization here in Washington. Some of these organizations, upon close

scrutiny, would appear to be riding the same horse in several directions at the same time.

They are saying, "cut expenditures," but what they mean is, "cut expenditures on all projects except those that affect our members." It is this last philosophy and the real one that many of them espouse which has caused an increase in the public debt in the past six years of more than 19 billions of dollars, and the expenditure of many more billions in increased taxes that should have been paid on the public debt.

A great many government expenditures—especially in the Defense Department—are tied in directly with the interests of certain industrial and business facets of our economy. Human nature being what it is, this accounts for the "cut everybody" but us philosophy, which accounts for the figures that I have gathered together on a few of the subjects involved and pass on to you.

# AUSTIN HIGHLIGHTS

## Tax Critics Sharply Challenged In Austin

By VERN SANFORD  
AUSTIN — If you can't beat it, don't knock it.

That sentiment, in varying forms, is being often expressed by legislators struggling to write tax bills to fill the yawning holes in the state's money supply.

People who come before the Legislature to oppose a money-raising proposal usually get a tart invitation to come up with a better one.

Opponents of a tobacco tax plan got short shrift before the House Committee. "If you come criticizing, don't you think you should come up with some solution to the tax problem?" asked Rep. H. J. Blanchard of Lubbock.

Similarly, anyone who comes to push a money-spending bill is challenged to produce a money-making bill to match it.

Rep. Don Gladden of Fort Worth drew cheers from fellow House members when he criticized the approach of a teachers' letter writing campaign. Gladden said the teachers had been instructed to ask for higher pay but make no statement on what taxes they would favor.

Overall, the tax picture is still "all shook up."

Rep. Jamie Clements' bill to remove the tax exemption on cigarettes sold on military bases was sent by the House Taxation Committee to Atty. Gen. Will Wilson. Question to Wilson is whether the state can collect a tax from a federal agency.

A proposed liquor tax hike suddenly gained redoubled potency when the sponsor, Rep. Pete LaValle tacked on an amendment that would legalize

liquor-by-the-drink sales. Gov. Daniel, who had urged the original bill, promptly protested. Bill was sent to subcommittee for study.

House Appropriations Committee apparently is taking note of the Tax Committee's rocky road. It is reportedly doing some painful paring of spending requests.

Meanwhile, many more "little tax" ideas are swirling about. Most apparently are aimed at avoiding a bitter deadlock over a new "big tax."

Rep. Rufus Kilpatrick of Beaumont introduced a bill to tax gross receipts of scrap metal sales, and Rep. W. T. Oliver, Fort Neches, a five per cent gross receipts tax on advertising sold by newspapers, radio and TV stations and billboards. Oliver also is said to be considering taxes on phonograph records and parking lots.

Other possibilities being discussed are (1) a 1.5 per cent general sales tax, exempting food, feed and fertilizer, by Rep. Frates Seeligen of San Antonio, (2) an across-the-board increase in the omnibus tax system which includes almost all present levies, (3) a registration fee for airplanes, similar to auto licensing.

Rep. Homer Koliba of Columbus said he would prefer to raise money through legalized liquor-by-the-drink and horse racing, heavily taxed, than by a general sales tax.

House State Affairs Committee will take on a super-charged issue March 16 — the long struggle between private utilities and REA to open REAs are seeking a law that

# Elliott Takes Part In Naval Exercise

Carroll L. Elliott, son of Mrs. Henry A. Jurner, 606 25 Mile Ave., took part in an amphibious landing exercise Feb. 4-12 on the beaches of Camp Pendleton, Calif. Elliott is a fireman aboard the attack cargo ship USS Skagit in the U. S. Navy.

The exercise was designed to improve the skills of Navy personnel in the conduct of amphibious warfare. Close support of helicopter operations, air support and naval gunfire were emphasized during the operation.

The fourth six weeks closed at Walcott School last Friday. (Continued on Page 2)

### Rep. Walter Austin...

(Continued from Page 1) had to cough up the sum of \$43.32 in interest charges for the use of the \$1.624 they didn't realize they owed in the first place.

In addition, it might also be well to point out that they are going to have to cough up an additional \$439 to pay for the 1960 budget that the President submitted to Congress in the sum of 77 billion 30 million dollars.

According to the Civil Service Commission, as of December, 1958, there were 2 million 683 thousand 875 civilian employees in the federal government who received for the calendar year 1958 the sum of 11 billion 888 million 169 thousand dollars.

It is reported that as of June 30, 1958, the federal government owned 769 million 717 thousand 114.3 acres of real property, not including the properties managed by the Architect of the Capitol and those held in trust by the U. S. government — 408 million 190 thousand 737.7 of these acres were in the United States. 361 million 526 thousand 376.6 acres were outside the United States.

The acres owned inside the United States would appear to most people to be far too much land to be in the hands of the federal government, but I hasten to explain that this land includes all of the public parks, as well as the mountain tops, swamps and desert lands that individuals would not care to own because they would be of no earthly use. It is simply a case of the government owning a great many acres of land because there is no one else to hold title to it.

A far more disturbing situation is presented by the figures revealing the rental paid by the government for property during the fiscal year 1957. This amounted to 109 million 100 thousand dollars for property rented in the U. S.; 1 million 600 thousand dollars for property rented in the territories and possessions of the U. S.; and 19 million 500 thousand for property in foreign countries.

This makes a grand total of 130 million 200 thousand dollars that the government paid in rent during that fiscal year for the use of property, in addition to government-owned property.

Another item that disturbs me somewhat is the report on the number of automobiles owned by the federal government, not including trailers and semi-trailers or vehicles used for tactical or construction jobs. As of June 30, 1958, civilian agencies of the government owned 116 million 213 thousand automobiles. The military agencies owned 108 million 743 thousand. This makes a grand total of 224 million 956 thousand.

VISITORS: Several folks from the Panhandle were in Washington last week, and it was certainly good to see all of them.

Captain and Mrs. Bob Haynes and their children, Rob, Kathy and John, of Amarillo, stopped in the Nation's Capital en route to their new duty station with the Air Force at Skullthorpe, England. Also from Amarillo we had Mr. Wilbur Chappel and Mr. Charlie Garner. Jim Ryan, of Route 4, Amarillo, is a student at Cornell Medical School and was in Washington doing some research work.

Our good friend, Bill Boyce, from Amarillo, came by for a visit during his trip here for a national conference on oil and natural gas.

From Pampa were Mrs. A. C. Wilkinson and Mrs. H. E. Schwartz, who were here last weekend to attend the Democratic Dinner honoring our Speaker of the House, Sam Rayburn. Asa Willis and Mrs. Willis from Texline were in town,

A bill has been introduced to reorganize the State Insurance Department, which was reorganized by the Legislature two years ago.

Rep. George Cook's measure would set up a part-time board of nine members "familiar with the insurance field."

Cook indicated the proposal was in answer to complaints that the present three-member board (1) does not represent industry and (2) serves full-time, contrary to "legislative intent."

Sunday beer buying seems likely to continue, but not Sunday auto buying.

A bill to ban beer sales on Sunday and after 10 p.m. on weekdays has been sent to an unfriendly House subcommittee. A spokesman for "drys" irritated committee members from beer-drinking areas by implying use of beer "separated the saved from the unsaved."

Senate Transportation Committee approved the ban of Sunday auto sales, after dealers presented a solid front of support. Only opponents were representatives of Seventh Day Adventists, who observe Saturday as their day of worship.

Elevation of two junior colleges — Arlington State and John Tarleton — to full four-year status has been approved by the House.

Economy advocates protested that "we have 16 fully supported state four-year colleges now — more than any other state."

But supporters replied that no additional appropriation would be needed immediately.

Creation of a state commission to conduct an efficiency

study — similar to the Hoover Commission for federal government — has gained House approval.

Rep. Dick Cory of Victoria, sponsor, pointed out that the Hoover Commission resulted in a seven billion-dollar savings in its first year.

Opponents protested the Cory commission would be just another money-spending state agency. Cory contended the \$100,000 it would cost would be regained many times.

Commission would be made up of one senator, one representative and ten persons from private life.

## FAMILY PROJECT

NEW YORK (AP)—The presentation of a new play, "Many Loves," turned out to be a project for the entire Julian Beck family.

Beck himself directed and designed the setting of the comedy by William Carlos Williams. His wife, Judith Malina, took a major role, and their 9-year-old son, Garrick, was another member of the cast.

## "THE MERRY PARTNERS" EYED

NEW YORK (AP)—The saga of a famous song-and-dance team of another Broadway era is being eyed as the subject of a new musical comedy.

Cy Feuer and Ernie Martin, producers of "Whoop-Up," have expressed interest in "The Merry Partners," a book about Ned Harrigan and Tony Hart who performed between 1871 and 1885.

## HUMOR IS EASIER

NEW YORK (AP)—Sir John Gielgud regards Macbeth as the toughest Shakespearean role he has ever performed.

"The most difficult roles of all to play are ones in which the character has no sense of humor," the English star declares. "That is why Lear and Macbeth are difficult—but to me Macbeth is the most difficult."

By Jean

Hi there!  
First of all I would like to take this opportunity to congratulate the basketball team on their fine showing in Austin this past weekend.

Spring will soon be here with all its beauty. Grass will be turning green, flowers blooming, and a new fresh change will take place in old mother nature. Not only in mother nature, but in fashion. It will offer a new, fresh, and delightful change from sweaters and woolen skirts. Also along with spring, Easter brings its colorful new frocks. Stripes, plaids, dots, and solids should be very popular in this soon approaching season.

In fact, just about every type of print is considered top fashion. Skirts and blouses to match

seem to be near the top of the list for new spring fashion.

Hair styles are changing for the season too. For the person with long hair who wants to keep it long, twice as good as the classic ponytail is really two ponytails — one above the other. Straight hair comes into its own. Large pin curls and rollers give a shadowy wave to hair carried from the center-back in two upswept wings. Bangs come to a point between the brows, fluffy on one side and sleek on the other, with a smooth look across the top and a wide sweep at the back.

By now most of the seniors should have decided what they plan to do after graduation, which is quickly approaching. If you have not completed your plans, you may find yourself still undecided while everyone else is on the road to fulfilling their plans for the future. Education above the high school level is very essential in finding a job that pays more than just the high school standard of pay. In fact, it has been said that without a college education, your job will probably be given to a more qualified person. Education certainly can't harm anyone, and you know, it just might be one of the best things to have.

## Air Force Offers Cadet Program

High school graduates are now eligible for the Air Force Aviation Cadet Program.

"Here is a challenge to high school grads, a challenge that offers a rewarding future for those who can qualify", according to T/Sgt. Glen Ryan, recruiting officer.

Qualifications are: age, 19 to 26½ years; single; height 64 to 76 inches; eyesight for pilot 20/20, for navigator 20/50.

The cadet graduate receives a commission as a second lieutenant with an aeronautical rating of pilot or navigator. A second lieutenant on flying status, single and living off base receives \$438.58 a month and has excellent advancement opportunities, according to Sgt. Ryan.

Interested persons should write: T/Sgt. Glen Ryan, Box 601, Clovis, N. M., or leave word with Mrs. Peterson at the Hereford Selective Service Office that they are interested in the program.

## Former Resident Dies Recently

Funeral services for Mrs. Amanda Griffin Steuart, 71, former resident of Hereford, were held Sunday, March 1, at the Lone Pine Church in Clarksville, Ark., with the Rev. Hugh Yandell and the Rev. Francis King officiating.

Mrs. Steuart died Feb. 26 at the Clarksville Hospital. She was a native of Sparta, Tenn., and was a resident of Hereford for 10 years before moving to the Lone Pine community near Clarksville where she lived for the past 23 years.

She was a member of the Cumberland Presbyterian Church.

Survivors include her husband, Davis Steuart of the home; two sons, Martin Ross and Clarence, both of Clarksville; three daughters, Mrs. Irene White of Fayetteville, Mrs. Ruby Reynolds of Clarksville and Mrs. Ruth Young of Little Rock; six grandchildren and two great-grandchildren.

Burial was in the Lone Pine Cemetery under direction of the Cox Funeral Home of Clarksville.

Mrs. James K. Parker

## Mrs. Parker To Go To Germany

Mrs. James K. Parker will leave Hereford Saturday for New York City, en route to Germany, where she will join her husband who is stationed with the Second Infantry at Augsburg.

# County Celebrates National 4-H Week

Deaf Smith County's 16 4-H Clubs this week are celebrating "National 4-H Club Week." Since its beginning in the late 1920's county clubs have grown to a present membership of about 225 young people.

A total of 103 boys comprise membership in five boys' clubs, and the 11 girls' clubs have a total of 120 members. Clubs have been organized in each county community and town. There are 30 active adult leaders in the county.

The clubs are promoted by various businesses. On the farm and in the home, 4-H Club members "learn to do by doing."

4-H Club work is voluntary. There are no dues and it is not a school subject. A demonstration is a tool through which 4-H members learn improved practices in agriculture, home economics and related fields.

Every member participates in 4-H Club work. Adults and youth meet together in their own community to determine their needs and to work together to meet them.

Junior leaders are club members with 4-H experience and training who may serve as demonstration and special activity leaders for the younger members.

County extension agents confer with 4-H leaders to take a look at their job, to prepare for guiding 4-H Club members and to evaluate work done and to plan for the future.

4-H Club members learn to be independent, yet cooperative. Cooperation with and membership in other organizations is encouraged among 4-H Club members.

Opportunities available include county and district 4-H camps, 4-H Roundup, Texas 4-H Junior Leadership Training Laboratory, National 4-H Club Camp, National 4-H Club Congress, Rural Life Sunday, International Farm Youth Exchange, Danforth Leadership Camp and scholarships and awards.

GETTING PLENTY of practice for the demonstration contest to be held April 18 are Janise and Lu Anne Higgins, members of the Willing Workers' 4-H Club. 4-H members learn the importance of putting an idea across to a group by the use of clear, well-planned demonstrations. (Staff Photo)

STRESSING LEADERSHIP in all activities, 4-H programs give young leaders an opportunity to share in the training of young members. Pointing out phases of 4-H Club leadership programs are Lewis Barnett, 11, son of Dr. and Mrs. L. B. Barnett, and Bob Reinauer, 12, son of Mr. and Mrs. Joe Reinauer. (Staff Photo)

SHARON BEZNER, daughter of Mr. and Mrs. A. J. Bezner, was recently chosen 1959 4-H Queen. 4-H King and Queen are chosen on the basis of good works and achievements during their 4-H activities. Joe Reinauer, son of Mr. and Mrs. Joe Reinauer Sr., was honored as 4-H King. (Staff Photo)

DISTRICT champions of the Livestock Judging division are, left to right, Pete Plank, Dick Plank (seated), Joe Reinauer, Jody Bezner and county agent J. W. (left) Thomas. # OFF THE Shelf

**By Verita Sanders**  
Historical novels are written about almost any and everything. Janet Taylor Caldwell wrote a very good one on a business which made guns. But Marcia Davenport came out with a book about 17 years ago with the steel mills as the main theme.

The Valley Of Decision, covering the years between 1873 and 1941 with great clarity, is the story of the beginning of the steel industry. It covers the first inventions, the first labor unions, the first great improvements of the industry and the first realization that steel would be the making of the nation.

In the whole book there is not one character who does not exist with great reality between the pages, for this is the story of the people who made the industry what it is today. The book does not delve on the

great names of the steel industry's history. It is the story of a family who tried to run their mill as they felt it should be run. It is the story of the people who tended the fires of this great industry - The laborers, the Hunkies, the poverty-ridden classes, the thinkers and the doers.

The setting, naturally, is Pittsburgh. The opening time of the story is 1873. The first character is Mary Rafferty, a second generation Irish immigrant, who walks up the steps of William Scott's home to become a maid. The Scott family, are the owners of the Scott Iron Works, the young but growing steel mill of Pittsburgh.

From the moment on Mary entwines herself into the lives of the Scott people with a purpose she herself does not realize.

With her great love and respect for the Scott name she makes the family into what her mind feels it should be. Mary, the little Irish maid, is the force behind the Scott family - the American spirit behind the Scott Iron Works.

In her 68 years in the Scott household she nurses them through great emotional trials, she raises the children, she sacri-

fices her own happiness with Paul Scott so that the Scott name and the Scott Mill should keep its place in American history as she felt it so deserved.

**There is flood, terrible and devastating; hate, lasting and destroying; war, which is the making of the steel industry; and love of all kinds and types, all centered around and deriving from Mary:**

Each of the members of the Scott family live out their lives and pass into history under the great influence of Mary.

There is William Scott; dynamic with just a trace of gentleness, and his wife Clarissa, the fitting wife for the man who is building a heritage for his sons. There are William and Clarissa's children - William Jr., who did not love the mill and lived always with his burning hatred for his brother; Paul, the son who inherits the mill's future and who is so much like his father; the twins, Constance and Edgar, who both lived out their tragic beginnings to find the direction of Mary.

And all about the Scott family, William Sr.'s children, Constance's granddaughter, the many nephews and nieces, the wives, the sisters-in-law and the many people who exist because of the Scott family, there is Mary, quietly guiding, leading, leaving no choice but the right one.

A lesser woman than Mary would have crumbled and broken as she saw her family of Scotts become scattered remnants and the mill become only a whisper of what it once was.

But Mary only waited and prayed, and finally her prayers were answered, oddly enough in the form of the tragic Clair granddaughter of Constance. In Clair, Mary now gray and bent and living alone in the Scott house, discovers just the right amount of personal sacrifice, just the right amount of dedication and love for the mill as it should be.

And now, with Clair, Mary begins again at the outbreak of World War II to breath back into what is now Scott Steel Company, Limited, a Pennsylvania Corporation, some of the spirit and American pride she had worked for all her life. Read the Valley Of Decision

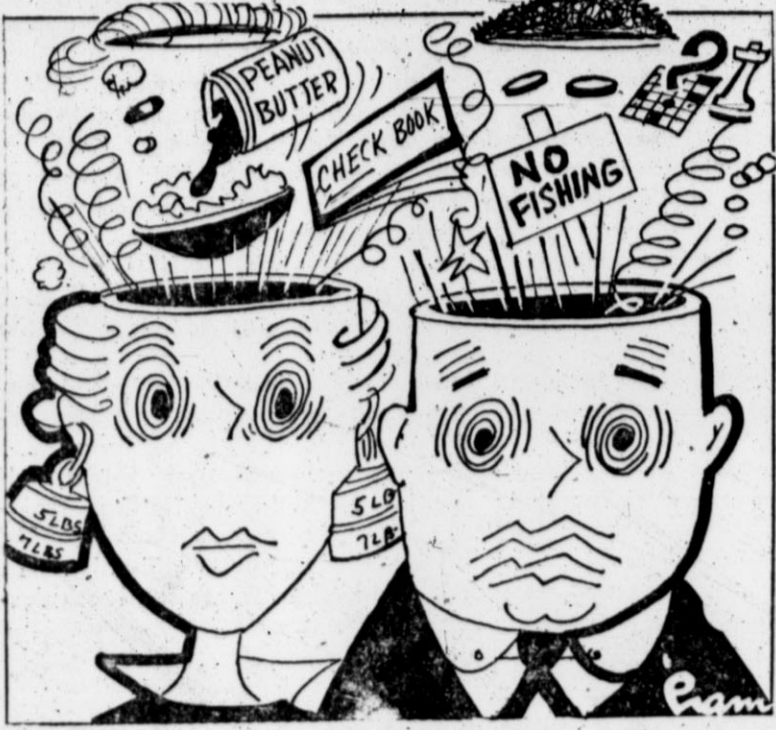

## Wanted: A Miracle Pill For Winter Doldrums

**By VIVIAN BROWN**  
What's your winter brain quotient? If you don't have the usual lame-brain symptoms - vagueness, absent-mindedness, dejection and assorted jet-studded doldrums - chances are you hid in a telephone booth or were out to sea during the holiday season.

At this point of no return most Yuletide survivors are struggling to keep their heads above desk and dishwasher. Worse than that, the mood may prevail for months. They feel older, poorer, more argumentative. They have forgotten their crossword puzzle cliches, their

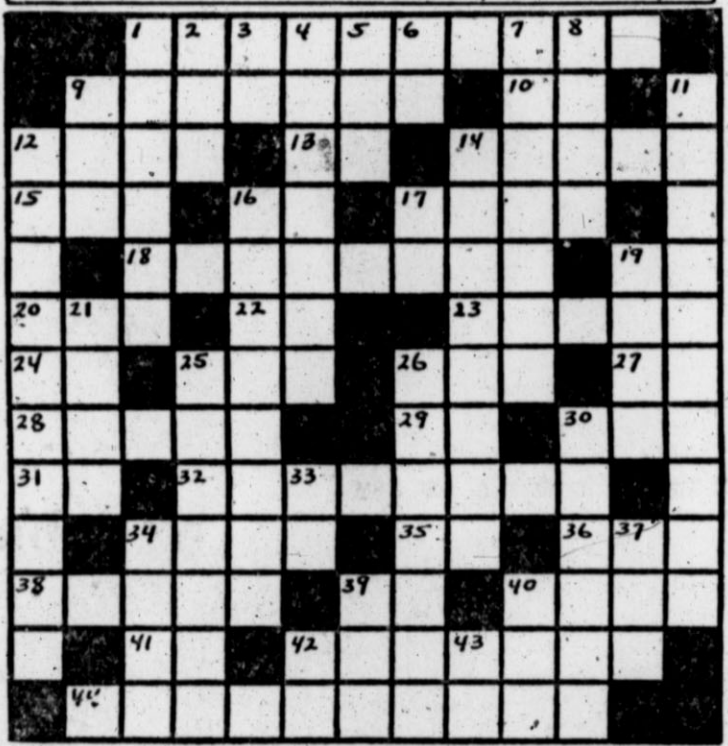

checker and chess strategy. Symptoms are common. The housewife cooks the potato peelings, throws away the potatoes, puts peanut butter in the salad dressing. The typist shuffles and reshuffles the papers on her desk. The Madison Avenue brain wears wide ties instead of the narrow deal clinchers, egg heads are staggered by simple equations.

They all suffer from the same ailment: the American brain is on vacation. The cranium has been fatigued by too many problems, from checkbook squeaking to mailing oversized packages. So when things let up, the

by Marcia Davenport. It will Ontario mines produced \$660 million dollars worth of minerals in 1956.

**STAR THEATRE**  
**No Name On The Bullet:** Western story of a paid killer whose method is to provoke his victim to the offensive so that he can shoot in self-defense. His mere appearance in a town creates panic for he never announces who his target is to be. Booked for Thursday, Friday and Saturday.

Equity ruled that both men could use the name, but that the local man would have "U. S. A." printed after his name on the payroll.

Let the wash and office work pile up. One-day holidays are costly to American business and do not stave off inertia. Maybe the great American billousness could be solved with a national headache powder - a full week's vacation between Christmas and New Year's. ## Are You WANDERING

We have a goal to make, a peace to seek, a life to live and Heaven to reach. But without **DIRECTION** you won't attain any of them. You won't get many places **WANDERING** around.  
*A plan, a program, a blueprint is absolutely necessary.* Have you lost the influence of hour of worship in your church each week? Have you lost interest in people and the Christian pleasure you derive from helping others? If so, you are without direction. You are a wanderer. You are headed for the ditch. Your destiny is a miserable failure and your life will be futile. *You need to open The Old Book and read a few of those signboards printed in red.*  
Stop wandering! Let God have a talk with you.

**You In The Church**  
The Church In You  
— form a combination for good. Every man, woman and child needs the influence of the church. So, come let us go into the house of the Lord. Let us support her program of service to humanity, be a faithful worker, a daily bible reader and attend services regularly.

Lest We Forget: What an astonishing thought it is that our adorable Emmanuel, now seated at the right hand of God, is living, as it were, only for us, His believers, to transact our business there, as once He transacted it here on earth. From heaven He came to offer a sacrifice for us; and to heaven He is gone again to plead this sacrifice on our behalf.  
A most cordial welcome to you.

## Will Power And Self Discipline Help Banish Emotional Problems

By **CONNIE COURTEAU**  
 LOUISVILLE, Ky. (AP)—A fear of dirt and germs hit Mary like a bolt out of the blue.  
 "I became obsessed with washing my hands. The next 14 years were hell in a vacuum," she said.  
 "I would spend hours washing... using up a whole cake of soap. My hands became bloody and swollen, the bones almost showing through in some places."

ed. If a member needs help at other times, he simply telephones another member and they discuss the situation.  
 Mary, a 35-year-old confidential secretary, is one of thousands who have joined Recovery. It was four months before the program succeeded with her.  
 "One day I decided to make myself do the thing I feared. I cleaned up the yard. It was fall

MRS. CLEO DIERUF

and the leaves were filthy wet. Then I cleaned up the street. My mother stood like a statue in the window."

She still fights the symptoms of her phobia but they are less severe.

"I can control them. I know cal contractors, unions, decorators and businessmen. The result was a beautiful \$20,000 remodeling job, also donated."

"All I had to do was ask for five minutes of someone's time. When they heard the story they all helped," Mrs. Dieruf said.

"It proved one of our pet theories. There is no such phrase as 'I can't' in Recovery, Inc. I have friends to help and a renewed faith in myself."

Today she is a Recovery leader, helping others follow the stringent rules laid down in Dr. Low's controversial book, "Mental Health Through Will Training."

He discards Freud in favor of will power and maintains that psychoanalysis is an ineffective treatment.

## Household Scrapbook

### The Oil Mop

An oil mop can be cleaned like new in hot soapsuds to which a little ammonia has been added. Or, soak the oil mop in soda water, then wash in hot soapsuds; rinse well and shake occasionally while drying. To apply fresh oil, pour some polish in a shallow pan and allow the mop to stand in it until it is absorbed.

### Rusty Screws

Rusty screws can usually be easily removed by first applying a red hot iron to the head for a short time, then removing with a screwdriver while the screw is still hot.

### Cocktail

Chill equal portions of tomato juice and pineapple juice almost to the freezing point, and this will make a delicious cocktail for the luncheon, dinner, or supper.

### Leftover Paint

Melted paraffin is good for covering the paint left over in the paint can. By placing two cords crosswise through the wax, leaving the ends projecting over the edge of the can, it will be a simple matter to remove the paraffin when necessary. The paraffin can be re-melted and used again.

### Dry Shampoo

If one wishes to make a dry shampoo, mix 2 ounces of corn-

### Little Professional Support

Only one of five psychiatrists questioned here was favorable toward the book. Nor did they go along with Mrs. Dieruf's theory:

"You have to be sick and tired of being sick and tired before you can really practice Recovery. Those who really practice the program stay out of mental hospitals."

Said one psychiatrist: "There are many kinds of mental ills, and you must pick the treatment to fit the illness as physicians pick the treatment to fit the physical ill." Recovery has 900 members in Louisville alone.

The clubhouse, a two-story remodelled residence, was donated. The \$13,750 needed to buy the property was provided by The Courier-Journal and The Louisville Times Foundation. Mrs. Dieruf then talked to lo-

méal with 1 ounce of powdered orris root and sprinkle this into the hair. Brush out thoroughly. Chocolate and Cocoa

To prevent that unpleasant scum from appearing on hot chocolate and cocoa, stir thoroughly with the rotary egg beater before serving.

### Cleaning Upholstery

Vacuum cleaning is without doubt the best and most efficient way to clean upholstery. But, of course, this will not remove spots. For removing these, try using some fuller's earth, Carbona, or like preparation, is also good for removing spots and brightening upholstery.

### Woolens

When ironing woolens after washing, they should be nearly dry. Turn wrong side out and cover with a piece of muslin, which may be dry or damp, according to the amount of moisture left in the goods to be ironed.

## "Ammonia Makes a Real Difference in Our Cotton and Maize!"

Arvel (left) and Norman Brown, operators of 880 acres near Lamesa, say: "When we started to use Phillips 66 Ammonia, we would occasionally skip a row for test purposes. We didn't have to measure the difference in yields. Where we'd skipped, you could see how much smaller and less thrifty the unfertilized plants were. On actual measurements, we've found that ammonia gives us on an average of 2,000 to 2,500 more pounds of maize grain.  
 "We apply our Phillips 66 Ammonia plant—about 100 pounds to the acre—in order to get it down ahead of the heavy work season."  
 Other successful Southwestern farmers have

discovered that they make more profit per acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin... yields of sorghum grain or ensilage are increased... profits on wheat and small grains are increased through higher grain yields and improved forage... more marketable vegetables are harvested.

Phillips 66 Ammonia can be applied pre-plant or as a side dressing. It can be easily applied either by you or your distributor. See us today about Phillips 66 Agricultural Ammonia... it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

Coal—by the ton

There are standards

Lumber—by the foot

Wheat—by the bushel

Gasoline—by the gallon

# for advertising, too!

What a fix we'd all be in without those standards of measurement for the goods you buy and sell. Imagine the confusion, waste and doubt in business transactions if we didn't have accepted standards of weights and measures—known values.

We believe it is just as necessary for us to tell you what you get for your advertising dollars, in terms of known circulation value, as it is for you to do business with your customers on the basis of recognized standards. That's why this newspaper is a member of the Audit Bureau of Circulations.

WHAT IS THE A.B.C.? The Bureau is a cooperative and nonprofit association of 3450 publishers, advertising agencies and advertisers in the United States and Canada. Organized in 1914, A.B.C. brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.

WHAT A.B.C. DOES FOR YOU. At regular intervals one of the Bureau's large staff of experienced circulation auditors comes to our office and makes a thorough audit of our circulation records. He has access to all of our books and records to obtain the FACTS that tell you what you get for your money when you advertise in this newspaper.

WHAT A.B.C. REPORTS TELL YOU. The circulation FACTS obtained by the A.B.C. auditor are condensed in easy to read A.B.C. reports which tell you: How much circulation we have; where the circulation goes; how it was sold and many other FACTS about the audience we provide for your sales messages. Make your advertising investments on the basis of this audited information. Ask for a copy of our A.B.C. report.

# Tea Party For Cat Named Rufus Raises March Of Dimes Funds

SANTA FE, N. M. — A jet-age Mad Hatter party. But it's only the annual Animal Tea Party given by a 12-year-old yellow cat named Rufus. The billygoat that ate his hat. It sounds like something out of "Alice in Wonderland" — a

party for fun. In the last five years, Rufus' animal parties for the March of Dimes have produced \$3,000 and an iron lung.

Miss Carr is a columnist for the Santa Fe New Mexican. Rufus, a purebred, 16-pound Persian who hates fish, belonged to an artist who gave the animal away. Rufus finally wound up at Miss Carr's door.

"I took him in to feed him, five years ago and just 10 days after I buried my husband. The cat and I were both lonely."

She didn't mean to keep him "but after he ate, he came to the fireplace where I sat and put his paws around my neck and purred as if he might break. His paws have been around my neck ever since."

Miss Carr had a special reason to be interested in the March of Dimes.

"I lost my little boy and only child with polio many years and many tears ago."

Rufus' mistress always wanted to fight polio. "But I was a poor gal and only could do publicity for the drive."

Then, someone sent Rufus a Christmas card with a \$1 bill inside. Miss Carr was sitting with friends when she opened it. She announced that Rufus' dollar would go to the polio drive.

The friends started a collection — from their pets to Rufus — right there and collected \$30. Miss Carr started listing the names of pets who donated to the drive in her column. That year, she collected \$279.

"The next year, the Animal Tea Party began. "It was a snowy day, but here came school kids with dogs dressed in blue jeans like ball players, or like clowns."

"There was a pet rooster; a goldfish in a bowl that brought \$10; a donkey tied outside with another \$10; cats, dogs and pet turtles."

The following year, the tea party was moved to the big La Fonda Hotel, when the hotel management sighed, "O. K., Lorraine, you can have the Santa Fe Room and we'll send a mopping crew in behind you."

Miss Carr proudly reports no mishaps at all so far "and not a single fight."

A guest of honor that year was Little Folk, a French poodle flown in from Dallas with a

**LIGHTS, ACTION, CAMERA**—Efforts of a drunk driving suspect to walk a straight line are recorded in sound on film by the Tucson Police Department. Camera is mounted in wall.

## Tucson Police Use Movie Camera To Help Convict Drunken Driver

TUCSON, Ariz. — The Tucson Police Department is in the movie business, but the department's "film stars" don't get paid. Usually they wind up paying.

The department began making movies of persons arrested for drunk driving last summer. So far 36 films have been made.

The films have helped obtain 32 convictions for drunken driving. The remaining cases are awaiting final action.

The "movie set" used by the police is a narrow passageway in the police station.

Police Lt. Kenneth C. Yeazel is director, cameraman and

\$160 check from her owners, Mr. and Mrs. Winfield Morten.

Santa Fe service clubs presented Rufus with a portable iron lung, which Rufus donated to the county.

Other guests on Rufus list of friends have included squirrels, monkeys, rabbits — and the billygoat that ate his straw hat and ruined his appetite for the refreshments.

Refreshments usually consist of dog biscuits for the pups, catnip for the feline guests, and to the others according to their tastes.

For the chaperones, only one dish is in style. Coffee and — what else? — animal crackers.

sound engineer. The camera is focused on the hallway, sound equipment is adjusted, floodlights turned on and the film is rolled as the suspected drunken driver comes "onstage."

The cast is small — usually the motorist and a questioning officer. The script seldom varies. The driver is asked to pronounce: Methodist, Episcopal and electricity.

If he gets by those tongue-twisters, he is given a run-through on: "Around the rugged rock the ragged rascal ran."

Usually, police note, the suspect does a little ad libbing.

To spice things a bit, the suspect is asked to walk a straight line, close his eyes and touch the tip of his nose with his finger and pick a few coins off the floor.

Each film costs the city about \$12.

Although the films are admissible as courtroom evidence, none has been shown in court. "The need hasn't arisen," said Yeazel.

He explained that attorneys for the 36 drivers filmed by police were given "sneak previews." In each case, he said, none of the attorneys pleaded innocent for their clients.
