Hereford High's Distributive Education banquet, which was scheduled for Friday night, has been postponed until March 18.

If there's anything else scheduled for Friday, it probably will either be called off or postponed because of the amazing youngsters of the Hereford basketball squad.

We are sure, after looking over the huge contingent Dumas brought down Tuesday, that WT fieldhouse will be packed to the rafters with Demon and Whiteface rooters.

Pleads Guilty To DWI Charge

Juan Jose Urtega, 47, of the Labor Camp was sentenced to five days in Deaf Smith County Jail and fined \$100 and court costs after pleading guilty to driving while intoxicated, first offense, in County Court Tuesday morning.

Civic Center Opens Friday

Hereford Community Center's recreational facilities will be open to the youth Friday afternoon, according to an announcement made by Hereford City Manager Dudley Bayne Wednesday noon.

School Sets Open House Dedication For Sunday

Formal open house and dedication of \$685,000 worth of new buildings have been scheduled by the Hereford Rural High School district for Sunday, Feb. 21.

FAIRLY NEAT PARKING... at least for a three-year-old David Henry Clark, right, holds the keys to the family car after backing it across the street and onto the Billy Miller porch.

3-Year-Old Drives Car-Onto Neighbor's Porch

By H. A. TUCK BRAND NEWS EDITOR "It was quite a shock," admitted Miller, 418 Star, after coming home to find a strange car parked neatly upon his front porch Tuesday afternoon.

It was even more shocking to discover the heavy 1952 Buick sedan had been placed there by a three-year-old child.

David Henry Clark, son of Mr. and Mrs. Bob E. Clark of 417 Star, accidentally started the car, which backed out of the Clark driveway, across drive and onto the porch, with the left wheels hanging off and above the flower bed.

Mrs. Clark, with David and her 18-month-old son, had just returned from a trip to town

when the incident occurred. "I got out and helped the baby," she said, "I thought David was getting out behind me."

But as Mrs. Clark and the baby walked in front of the started to move. "I started to chase it, but couldn't catch up," Mrs. Clark related.

A crowd of neighbors gathered to watch a large wrecker remove the badly damaged car. It took considerably longer to remove the vehicle than it had for David to put it there.

Most of the car's damage was sustained to the drive units, oil pan, frame and automatic drive transmission. Miller's house came out with some cracked bricks, oil spots on the porch, broken shrubs, broken wrought iron post and a tire track across one corner of the front lawn.

Herd Becomes Co-Champs, Faces Dumas In Play-Off

Hereford now has won six straight games and has an 11-17 record, including a 6-2 mark in conference play. With a slightly better season record, Dumas also ended up 6-2 in district play.

Winner of Friday's contest will advance into the regional competition, probably in a four-team tourney at Lubbock next week.

For Coach Cuby Kitchens, Tuesday's game marked the third time in succession that the Whitefaces have been district champs. In 1957-58, Hereford took fourth in the state finals, while the Herd won runner-up in the state last March.

With the exception of a few tense moments late in the game, Hereford never was in serious trouble Tuesday night. Whiteface gym was packed with rooting spectators from Hereford and Dumas.

In the first meeting between the Whitefaces and Demons this year, Dumas came from behind in the last three minutes to get a 51-49 decision. This is Dumas' first cage title since the district was formed four years ago.

Tuesday, Fox started five seniors while Kitchens, without any seniors, opened up with four juniors and a sophomore.

In the B game it was a different story, as the Little Demons hit 50 per cent of their shots in the first half and 60 per cent in the second for a 74-58 victory.

Dumas led almost all the way, holding quarter margins of 16-11, 34-32 and 54-46. Dick Rector got 24 points for Dumas. Also hitting in double figures were Tommy Boulware with 14, Dell Cothren with 12 and Ernie Stephens with 10.

John Bryant of Hereford, a sophomore at West Texas State College in Canyon, recently was listed on the fall semester honor roll, according to Dr. Walter H. Juniper, college dean.

County Arrests Man, Recovers Loot From Farm

Deaf Smith County Sheriff's Department Tuesday charged an Andrews man in the Christmas burglary of a barn northwest of Hereford, in which an assortment of farm equipment and tools were taken.

Fermin Garza Salcedo, 24, of Andrews, is in Deaf Smith County Jail charged with burglary following his arrest in Muleshoe Tuesday morning.

Salcedo was charged in the Dec. 24 burglary of barn on the farm owned by C.E. Johnson, one mile north and two miles west of the city.

Arresting Deputy Sheriff L. R. Cherryhomes recovered most of the items shortly after he arrested Salcedo, a former employee on the Johnson farm.

Salcedo was arrested by Highway Patrol officers in Muleshoe for having no driver's license and for having no valid vehicle inspection sticker on his car.

Highlights of the meeting will be reports from the ways and means committee of the association, which went to Washington last week to determine what can be done in accomplishing more sugar beet acreage in this area.

Call Special Meet For Beet Growers

A special called meeting of the Beet Grower's Association and all other interested persons will be held in the ballroom of the Jim Hill Hotel Saturday afternoon.

Representing the committee were J. H. Sears, James W. Witherspoon, H. L. Benefield and Hank Williams, all of Hereford.

Disbursements in various departments include: administrative, \$39,993; over \$38,458 for last year; fire department, \$11,456; over \$10,108; health department, \$49,244; under \$55,582; park department, \$40,170; under \$42,155; police department, \$71,101; over \$66,886; street department, \$54,040; under \$56,290; water and sewer, \$146,036; under \$168,046; and airport, \$3,600; under \$4,420.

WHITEFACE THOMAS COFFMAN dumps one of his nine field goals in the Hereford-Dumas game here Tuesday night to share top scoring honors with his teammate Carl Miller, who also scored 18 points in Hereford's 56-48 win over the Demons.

Perryton Firm Gets Sewer Job

Advance notices regarding the public hearing for the 1960-61 city operating budget failed to stir up much interest among local citizens as Hereford City Commission adopted a \$455,440 general budget in regular meeting Monday night.

Before unoccupied chairs reserved for interested Hereford citizens, the proposed budget for the coming fiscal year passed by unanimous vote of the commissioners.

The adopted budget features a \$9,363 cut in estimated expenses. Last year's budget was estimated at \$463,805 at the time of its approval.

In other action, the commissioners awarded a contract to the Bill Wilson Company of Perryton, which submitted low bid for a proposed sewer line to be installed along Highway 60, from Benefield's Corner to the location of Deaf Smith County Electric Cooperative.

The Perryton company bid \$9,792 for the job, edging the three Amarillo construction firms submitting sealed quotations.

Changes in the budget for the fiscal year beginning May 1, 1960, and ending April 30, 1961, include a \$17,800 increase in operating reserves. Reserves were set at \$38,800, compared to the \$21,000 amount stipulated last year.

The sewer line bid submitted by the Wilson Company will include costs of sewer pipe and installation.

A "rock clause" was included in the bid, which stipulates that the contractor will be paid \$7.50 per cubic yard for installation of pipe along sections containing rock.

The installation will include more than 4,700 feet of pipe and seven manholes. The line will end at the east city limits.

The company estimated that the job will require about 30 days for completion. The water line, to be installed by city employees, will probably start upon completion of the sewer line, Bayne said.

Sealed bids for the project were opened in an open meeting at 2:30 p.m. Monday. Others submitting bids were H. B. Jordan Company of Amarillo, Stockton Construction Company of Amarillo and Brodie Construction Company of Amarillo.

Other business taken up by the commissioners Monday night concerned the purchase of a portable compressor, and the city manager was authorized to purchase a new compressor at \$3,334 from Plains Machinery Company of Amarillo.

The compressor is needed for relocation of utilities along the Highway 60 widening site within the city limits, Bayne said.

The compressor purchase includes a clay spade, hammer and pavement breaker. The compressor uses a rotary-type blade and chains for edging.

The last of three major structures included in the construction contract was finished this

The largest basketball crowd in history gathered Friday night in the newly remodeled gymnasium to see the Adrian Matadors defeat the Vega Longhorns in the last "at home" district game of the season.

The district tournament started Tuesday night at Texline. Adrian's teams both placed second in the round-robin play and will meet competition on Thursday night at 7:30 and 9 p. m. The girls will play the winner of the Hartley-Channing tilt and the boys take on the winner of Texline-Vega. Finals will be played at 7:30 and 9 p. m. on Friday.

Jones was rehired for the coming school year and further elections will take place next month.

Adrian Lions Club met Thursday night in Fellowship Hall of the Methodist Church. Ross Blassegame talked to the group. In the business session, many plans were made. A fund-raising campaign was voted to enable the organization to purchase remaining lots for the Community Park. The club is to "pair off" with the Wildorado Men's Club for a men's basketball game at the Adrian gym on Friday, March 11.

A drawing will be held among the ticket buyers, with the winner receiving a frozen half beef,

ready for the locker. On March 18 the same group will play in Wildorado and will give away a TV set. The club hopes to raise \$300 with this project.

A second project voted was concerning the "Lighthouse for the Blind". A broom sale made by blind patients of a south Texas hospital will be held on a Saturday in late March. The club will get 25 per cent of the proceeds.

Cakes for the meeting were Mesdames Leland Burns, P. H. Gruhlkey, Fred Harwood, Chock Garrison, Ed Olmon and Bill Leslie.

Attending were Boss Lion John Horton, Taltwister Grady Pridmore, John Skaggs, Jim Sessions, Ray Brown, Bill James, Jess Fincher, Jim Perrin, Jimmy Briggs, Lorin Creitz, V. E. Lemke, Bob Caldwell, Skeet Fincher, Lester Houston and Ross Blassegame.

Tolbert then called us to see that we had been notified of the plug. It happened two copies came in first thing Monday. A lot of interest is developing in the new Pan American oil test in this area. The well, located approximately 17 miles southeast of Hereford, just across the Deaf Smith line in Castro County, joins the Lee Cocanougher place. Mike Baird says they already have the water well underway, and I hear that the deal calls for "9,000 feet or granite". Even if it comes in, however, Deaf Smith will still be one of the few countries in Texas which has no producing oil or gas wells.

I also hear that Jess Carter just finished promoting a Hemphill County well, which is scheduled to go down to 14,250 feet. This is the third or fourth deal he has wrapped up down in that direction, and Jess has his fingers crossed.

Alton Fraser gave me a clipping of Frank Tolbert's column in the Dallas News for Sunday. The item points out that H. L. Hunt is probably the second richest millionaire in the world (Paul Getty nosed Hunt out a few years back), then states: "Mr. Hunt will eat no bread unless it is made of flour from wheat grown in the 1,507-square-mile area of Deaf Smith County, which sits at an average altitude of 4,000 feet in the Panhandle."

Alton thinks this should tie in closely with the proposal for a rest home for elderly people. He wants to know why we cannot organize a corporation to handle foods from this area, copyright trade labels - and use proceeds from the enterprise to operate and maintain a home for the old people? This is a good ques-

tion. The only thing we need to make the dream come true is an enterprising promoter to handle the deal. Mr. Hunt, no doubt, would be interested in helping establish such a project.

Jay Boston is just back from Washington, where he spent the past week as a member of the Farmer's Union tour group, and he was telling me that Jeff Minton, son of Mrs. Forrest Minton, is now employed in the Lyndon Johnson offices in Washington. He says that Jeff was most helpful to the Hereford visitors - and Jay predicts that the youngster will go a long way. He reports that Jeff says they never saw so many letters as folks from this country have written concerning the sugar beet acreage; the office is literally snow-

Jay was interested in cotton supports and found out from Lindley Beckworth that 900 to 1,000 growers receive support funds of more than \$50,000 each. A few go as high as \$1 million, and many are \$300,000 to \$400,000 and more, around 40 per cent of this big money goes into California; another big bundle goes into Arizona.

Troy Moore is learning a lot about golf these days. A few weeks back Troy played on one of those fancy courses at Las Vegas, Nev., and he is still complaining. "It costs you around \$17.50

to play the course," said Troy. "The green fee is \$10, and the other \$7.50 goes for caddies and required expenses. Besides, I honestly don't think they have as good a course as the one we boast right here in Hereford."

Glenn Williams ran across the following item in a trade magazine: "The parliament of a very small country was in session to devise means of floating another loan from the U. S. Prospects, because of troubled international relations, were not so good.

"Finally one bright man in the parliament asked: 'Why not have us declare war on the United States. There is no country more generous to its vanquished

foes than America.' As soon as they beat us, we'll not only get the money we need, but they'll build us new dams and roads, and put our economy on a sounder basis than ever before." "This suggestion was met with enthusiasm and shouts of 'yea' rang out amidst cheers. Finally, the hubbub died down a bit, and a quavering voice from the rear asked, "That's fine . . . but what happens if we win the war?"

Did you ever notice how many cars are packed around the courthouse square during the present remodeling? It proves one thing, namely that all people who park on the square do not go to the courthouse . . . which everyone already knew, anyway.

Guy Lawrence, president of Texas' Highway 60 Association, goes to Pampa today with a local delegation. Rumor has it that Guy may be drafted into another term. Anyhow, that's what a lot of local people are hearing.

Maurice Tannahill, who quit farming to enter the retail business field, says he used to go home tired after driving a tractor all day - but he believes that riding was better than standing on his feet 12 hours. Any way, he still goes home tired.

I notice Curtis Traweck wearing one of those Lyndon Johnson style hats these days, but I feel sure that it must be plain coincidence.

Robert Veigel is upset because he got a gas bill for some \$372 and did not even turn on his irrigation well during the month of rain and snow. He is considering a suggestion to get a Meter Maid to keep an eye on the gas meter during wet weather.

RABBI AND MRS. ARTHUR BLUHM of Temple B'Nai Israel in Amarillo presented the Hereford Rotary Club program in the ballroom of the Jim Hill Hotel Monday noon. Rabbi Bluhm spoke on brotherhood and Mrs. Bluhm sang "America" and "Give Us This Day." (Staff Photo)

**Program Given On Brotherhood**

Rabbi Arthur Bluhm of Temple B'Nai Israel in Amarillo was guest speaker at the noon meeting of Hereford Rotary Club Monday in the ballroom of Jim Hill Hotel. Rabbi Bluhm spoke on brother-

hood in connection with Brotherhood Week. He was introduced by Irving Alexander of Hereford, and program chairman was the Rev. Gilbert Davis, a Rotarian.

Mrs. Bluhm sang "America" and "Give Us This Day" in connection with her husband's program.

"Here, under God," Rabbi Bluhm said, "we can all work together. If we were not our brother's keeper, we would have no God."

"If a person says he loves his God, but hates his brother, he is not telling the truth," Rabbi Bluhm said. "The plea of brotherhood week is to unite people of different races, religions and creeds."

Guests at the meeting included Buddy Taylor of Canyon, a visiting Rotarian, John Barbee of Amarillo, Father Sullivan of Jamaica and Dyalhia Bens on of Hereford.

# Aerospace Power Is For Peace Of U. S.

What is Aerospace? An Air Force pamphlet defines it as an "operationally indivisible medium consisting of the total expanse beyond the Earth's surface," according to Sgt. Glen Ryan, local air force recruiting representative.

## Landscaping Meeting Topic At Westway HD

"New Shrubs and Landscaping" was the program topic when the Westway Home Demonstration Club met in the community room of the First National Bank Thursday afternoon.

Mrs. R. L. Wilson presented the program, stating there was no set rule for landscaping. She suggested that a yard should be landscaped to please the family.

Basic landscaping ideas are for flowers around the foundation, with evergreens framing door and large trees to frame the corners of the house. Corner plants also are used to soften the house lines.

Pyraecanthus may be used for corner accents while nandina can serve as a background for flower beds.

Screening at the back of the house also is important, Mrs. Wilson pointed out, since it can shut out unsightly areas, provide background for recreation areas and for flower beds. Kitchen door accents also are desirable, preferably with plants that are attractive all year long.

Mrs. Wilson also discussed the newest flowers and shrubs and their adaptability to this area. Mrs. Kenneth Rudd presided as president pro tem in the absence of Mrs. J. C. Morrison. Roll call was answered with shrubbery problems, desirable plants or reasons for wanting to change landscaping.

Mrs. T. B. Thomas read a poem, "If We Ask", as a prayer.

Refreshments were served to Mrs. Bud Rayburn of Westway, a guest, and the following members: Mesdames T. B. Thomas, Joe Landers, Marion Owen, Paul Rudd, Kenneth Rudd, Homer Rudd, R. L. Wilson, H. E. Owens and the hostess, Mrs. C. A. Saulcy.

thing from the ground up, he said. There is no dividing line within Aerospace that separates "air" from "space", he pointed out. As a field of operations, Aerospace is indivisible. It is a continuum. "We are in the age of Aerospace now," Sgt. Ryan explained. "There are no limits as to how far we can go. The present-day X-15 and Dyna-Soar are forerunners of manned spacecraft . . . spacecraft that will operate in that limitless expanse high over our heads." Aerospace vehicles are only as good as the people operating and maintaining them . . . qualified people, trained in the various skills required by the hardware of today and tomorrow.

"The USAF Aerospace Force, with its skilled men and blend of missiles, aircraft and eventual spacecraft, provides our nation with the greatest deterrent force in the world."

"With missiles and aircraft in combination, we can take advantage of the performance and characteristics of each, creating an instrument of Aerospace Power considerably greater and more potent than the use of missiles or aircraft alone."

"Such power, born from an Aerospace Force, is the key to peace and freedom for our world," he concluded.

## Leap Year Is Here, Fellows

Watch out Little Abner, better hop, skip, and run. Daisy Mae is on the prowl again! Boys, if the girls seem to be a little more romantic and charming, it's 'cause leap year has rolled around again. This is the girls' year to rule and the boys' year of caution.

Girls, latch onto the one you want. If you don't have the one you want picked out, you had better hurry. Forty-three days have already gone by, but fast, and there are only 322 short days left in this "Woman Rules" year.

This age-old occurrence has been happening for hundreds of years. Every year that is divisible by four is a leap year, except that only every fourth ending a century is a leap year.

The exception of one day in four years making the year have 366 days. The extra day is added to the month of February. Thus, 1800 and 1900 were not leap years, but 1200 and 1600 were and 2000 will be. For a considerable time to come, centuries divisible by 400 will be leap year.

Hereford High girls have taken two trips down south to play basketball against Stanton Junior High and have been defeated both times.

Let's go, girls! Remember, you're representing HHS and can't let Stanton put us in second place.

## Question Of The Week

What do you think is on the moon?

Judy Bradley: "Moon Men" I guess.

Mar-Gwen Lackey: If Russia keeps shooting rockets to the moon, and we keep shooting rockets to the moon, there will be monkeys there someday.

Bernadette Erdman: "Rock"

Ann Sheppard: I don't know but I wish M. H. was.

Jan Reese: Little red men with green eyes.

Richard Wilye Ward: Nothin'

Coach Williams: I just think there are crazy people on the moon!

Herman Harrison: Green Cheesel

Nicky Nan Newton: Some kind of boy that we never have seen before!

Miss Gray: I can't think of anything that would be on the moon, so I guess that there isn't anything up there.

Mr. Stanford: When I was a little boy they always told me that the moon was made of cheese and where there's cheese there's usually mice.

Mr. Hudson: One woman!

Mrs. Calvert: One man!

Anna-Blocker: Green cheese.

Miss Wall: Little green men with atomic personalities.

Mr. Garner: Hills, valleys, and "rock"

## Non-Thinkers' Philosophy

Hermann Harrison was hauled into court for fighting. "Tell your side of the story," said the judge.

"Well you see, I was in a phone booth talking to my girl friend when this guy wants to use the phone. He opened the door, grabs me by the neck and tosses me out of the booth." "Then you got angry?" asked the judge.

"No," he replied, "I really didn't get mad 'til he grabbed Patsy and threw her out too!"

## Let's Keep Our Lockers Clean

Have you ever actually noticed how messy some students lockers are? We have four minutes between each class and this provides time enough for some students to keep their locker neat - why not everyone?

I can judge by the way that my locker looks at times that I would probably be ashamed for my mother to see it. Would you? So let's try keeping our lockers neat!

The lockers around here hold various articles such as headscarves; dirty aprons (from homemaking); coats; gloves; magazines; all sorts of school books; purses; workbooks; and student handbooks. But if you will put these in your locker in an organized way, there would be plenty of room.

### Guess Who?

By Whiteface Staff  
Pretty, cute, industrious, intelligent, and a long list of other things couldn't fully describe this week's "MISS GUESS WHO," she was selected from Coach Thompson's homeroom and is a sophomore.

The students would like her recognized for the smile she always has for everyone and because of the cheerfulness that she displays in the halls of Hereford High School, she is a very outstanding student and maintains an average of B.

This girl has blondish-brown hair; stands 5' 5"; has brown eyes; her favorite food is steak; favorite subject is all of them; and her ambition is to go to college at L.C.C. She belongs to FFA, National Honor Society, and has recently been a member of the student council. Her favorite pastime is being with Lisle and some of her hobbies are music, listening to the radio, and sports.

MARGARET BOOMER is the 18-year-old daughter of Mr. and Mrs. Bert Boomer. She was born on September 10, 1941. Her pet peeve is irresponsible people. Some of her favorites are: Book, Elizabeth, The Queen; Subject, homemaking; Song, "Endlessly;" Movie, "Third Man on the Mountain"; Color, Orchid; Food, Onion rings; Activity, Future Homemakers of America. Her ambition is to teach handicapped children.

### Wind Blows Over Trailer House In Friona Tuesday

A trailer house belonging to Mr. and Mrs. Steven Stubbs of Friona blew over Tuesday during the sand storm. Mrs. Stubbs is the sister of Mrs. J. F. Messer and Mrs. Jack Craig of Hereford.

Mrs. Stubbs was in the trailer at the time of the accident, and was later hospitalized for shock. She escaped by breaking a window and climbing out.

Almost all the family's personal belongings were destroyed. Their two children, Randy and Donald, were in school at the time.

## It Is Up To You, Mister Whiteface

By Whiteface Staff

What does a district basketball championship mean? That we have a better team than any other in our conference? Maybe, but only partly.

It would mean that we have a group of boys who are willing to sacrifice countless hours on their time, who are willing to go by discipline rules and to attain a goal which they consider worth the effort. They can do their part, and will.

It also means that we have coaches capable of bringing out the best in their boys through training to make them want to produce a little more than is expected of them. They, too, can do their part.

It means that our school has a group of cheerleaders who can work, cheer, laugh, and sometimes cry in their efforts to do their part for that special something called "SCHOOL SPIRIT," without which no team can grind that one last inch that may mean the differ-

ence between and victory. They do their part, and more.

Even more than all these, there is another group which will play its part in the drama of winning an important victory. You, as a student, are a part of this group, whether you realize it or not. Chances are if they will never think of yourself as playing a vital part in this struggle that is ahead of all of us.

The lowest sophomore who will stand up and cheer for HHS when the chips are down is a part of this group, as is the hardened and disillusioned junior who will walk from the Whiteface Gym and sometimes find things looking a little blur-

red and his eyes strangely damp after a Whiteface defeat.

Another part of this group is the senior who will finally come to realize that these are perhaps the most wonderful days he'll ever know. He will go all out because it is all he can help but do.

All of these people will do their part, small as it may seem. While they will never lay their hands on a basketball, they are every bit as much on the playing in every game as if they had been the sixth man on the team. They represent the spirit, and for these reasons.

IT'S UP TO YOU, ALL LOYAL WHITEFACES, THE SIXTH MAN.

Mrs. Joe Lyons was hostess to members of L'Allegra Study Club in the home of her mother, Mrs. Evalie Potter Thursday afternoon.

Mrs. Stanley Slagle, program leader, introduced Mrs. Leroy Aven a guest, who presented a program on "Good Books For Children."

She mentioned "Reading With Children", "The Reluctant Years", and "The Critical History of Children's Literature", and stressed the importance of teaching children while little about the value of books, and the need for keeping their own books within easy reach of the child. She also gave a comparison of children's books today with those of 20 years ago. Members of the club present

were Mesdames Bill Dameron, James E. Higgins, Terry Kirby, Charles Skelton, Stanley Slagle, Oliver Streu, Dwaine Walker, Joe Easley and the hostess.

By MRS. HAROLD RUDD  
Severe winds blew all day Tuesday causing some damage to fences and slight damage to some of the out-buildings on the farms. Wednesday was a more pleasant day with sun-

shine and very little wind. Tuesday's winds dried the ground a lot and melted most of the snow left by the last snow storm. Everyone is ready for some dry, sunny days for a change.

our city neighbors to join us this year, as we celebrate the 25th birthday of rural electrification.

THERE'S A GOOD REASON. City jobs are more secure, paychecks fatter, and business is better, since rural Americans banded together to serve themselves with electric light and power.

THIS YEAR THEY WILL BUY over a billion dollars worth of electric appliances and equipment—made and sold in cities and towns. And this market didn't exist until rural America was electrified by member-owned, private enterprises, such as ours.

THOUSANDS OF MEN, WOMEN, CHILDREN—our city neighbors—live happier, safer lives today, because of this great surge of buying power provided by the growing needs of rural America.

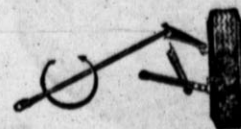

That's why we're proud to say...

## WORTH MORE BECAUSE THEY WORK MORE!

Compare this list of Chevy advances with the features ordinary trucks are still talking about. You'll see why Chevy trucks get more work done in a day... why they go extra thousands of miles before trade-in time. These Sturdi-Bilt Sixties aren't just new, they're a full scale revolution!

#### TORSION-SPRING RIDE

Each front wheel, suspended independently of the other, is free to step individually over bumps. And shockproof torsion springs up front soak up the jars and jolts before they reach the body. With three rugged new tailored-to-the-truck rear suspensions to further reduce road shocks, Chevy gives you the smoothest truck ride you've ever felt.

#### NO SHIMMY, NO WHEEL FIGHT

Drive a '60 Chevy. Just once. Right away you'll notice the absence of I-beam shimmy and wheel fight common on ordinary trucks.

With independent front suspension there's a brand-new, smoother, easier handling feel behind the wheel.

#### CABS FOR BIG GUYS

Big guys get a bigger break in a Chevy cab. There's plenty of space inside to stretch out and relax; more room for hats and hips, more room for wide shoulders and long legs. There's horizon-wide visibility through a windshield with 26% more glass area; a new see-at-a-glance instrument panel. Cabs are safer, too, up to 67% more rigid.

#### 6'S SWORN TO SAVE

Chevy's 6-cylinder engines are set to squeeze extra miles out of every drop of fuel. They're long famous for low fuel consumption, high performance.

#### SHORT STROKE V8'S

Power-packed for peak performance, Chevy's husky V8's make child's play out of the toughest hauls. They have a mind tuned to economy, too, that keeps costs down, profits up.

#### SLICK NEW SUBURBAN CARRYALLS

These handsome new haulers "double in brass"—can transport eight passengers or up to 950 lbs. of payload. Rear and center seats are easy to remove and replace when necessary. For work or for pleasure, these double-duty beauties are best for both!

## Importance Of Kindergarten Is Club Topic

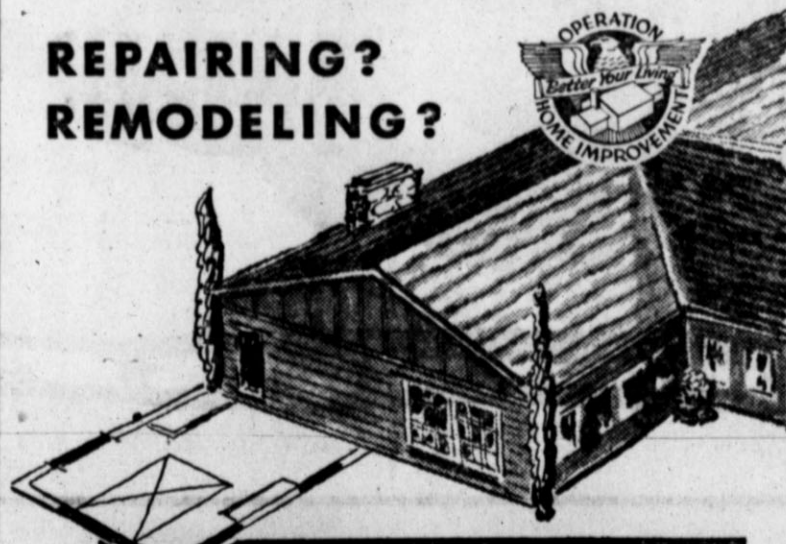

"The Kindergarten School" and its importance was discussed by Mrs. Dennis Lomas at the Thursday evening meeting of La Madre Mia Study Club. The meeting was held in the Friendship Room of the Hereford State Bank with Mrs. Harold Morton acting as hostess. Members answered roll call by naming reasons for helping a child to be creative.

Mrs. Lomas answered the question "Should We Send Our Children to Kindergarten" by quoting from child psychologists who have studied the question, who point out the need of most psychologists who have studied the question, who point out the need of most children for pre-school training. "In most instances a nursery school is of great benefit to a child, but in some instances inadvisable. Sending a child to nursery school helps to develop self-reliance and independence which he can at once put into use when he starts to school. Adjustments are easier, and contacts with other children made easier. The nursery school is a supplement to the home, never a substitute and a good school helps the child become stable, content and happy away from home," she quoted.

"Those in attendance were Mesdames Joe Hacker, Ted Hardwick, Joe Henry, Dennis Lomas, Harold Morton, Buddy Pickens, Paul Schroeter, Eugene Sparks, Bobby Williams, G. C. Merritt Jr., Charles Frye, John Smith, N. D. Bartlett Jr. and Joe Locke.

If we made Gladiola Flour for Zigzag, Ore...

Gladiola Land is just a little bigger than Texas. What's it famous for? Biscuits, cakes and pies turned out by the best home bakers in America.

When it comes to flour, these ladies are as choosy as a princess picking a husband. Only snow-white Gladiola Flour is good enough. So, naturally, it outsells every other brand.

If you're from Zigzag, Ore., we hope we haven't hurt your feelings. We just wanted to make sure you realize that Gladiola Flour is different. It has to be. And by the way, it costs only about 1/4¢ a day more than the cheapest flour.

In all the world no monument is more famous than Bartholdi's Statue of Liberty. Standing on an isle in New York harbor, it is the symbol of a nation that enjoys the ultimate in political and religious freedom. It is our Americanism landmark.

Since 1886, the towering statue has been the first welcoming beacon for countless thousands coming to these shores to find a better life... *The life of Liberty, of Freedom, the American way.* The inscription on its base carries a potent message of promise as significant as the monument itself:

"Give me your tired, your poor,  
Your huddled masses yearning to breathe free,  
The wretched refuse of your teeming shore.  
Send these, the homeless, the tempest-tost, to me:  
I lift my lamp beside the golden door."  
Then, if we have in the past, may we never again take Liberty for granted... it wears a price tag.

 Lest We Forget: The divine truths of the Scriptures are of infinite importance to us all. And in comparison of them, the concerns of time and sense are lighter than the dust upon the balance. Earthly things indeed appear of greater magnitude, because they are nearer to us, but if spiritual truths are brought nigh to us by faith, they eclipse every other object, as the meridian sun hides by its splendor the feeble radiance of the stars.  
 A most cordial welcome to you.

## Two-Day Tractor School Held Here

Two-day 4-H Club Tractor Schools for adult leaders and county agricultural agents in Texas. Agricultural Extension Service District I was held in Hereford Feb. 16 and 17.

4-H Leaders attending the school from Deaf Smith County were Earl Plank, A. V. Bezner, Claude McGowan, Bob. Thuet and Carl Kropff.  
 "This is a program to provide information to 4-H Club members and adults in the value of keeping their tractors and other farm machinery in good working order and how to care for and operate them skillfully, safely and efficiently," Mr. Grisham said.

After the training school, the adult leaders and county agents will conduct the 4-H Tractor program in their home counties. The program includes awards from silver medals to college scholarships.

It is a "Care and not Repair" program sponsored by the Humble Oil and Refining Company, the National Committees on 4-H boys and girls work, Inc. and the Texas Agricultural Extension Service in cooperation with farm equipment manufacturers and local dealers, he added. The following counties in District I will be represented: Armstrong, Hutchinson, Gray, Deaf Smith, Carson, Potter, Castro, and Moore.

Included in the instruction will be safety, operation, preventative maintenance, fuels, oils and greases, ignition and cooling systems. This type training is vital to keep Texas' more than 300,000 tractors and more than 2.5 million pieces of other farm machinery at top performance.

In Texas last year, more than 7,223 4-H club members, 800 volunteer adult leaders and 2,500 adult farmers participated in the 4-H Tractor Program active in 203 counties.

# Wedding Read In Houston Ceremony

Marriage vows were exchanged Saturday, Feb. 6, in a 10 o'clock nuptial mass by Miss Leona Kowalczyk, daughter of Mr. and Mrs. Nick Kowalczyk of Schoolcraft, Mich., and Wilfred Charles Herr, son of E. A. Herr and the late Mrs. Herr of Hereford.

The wedding took place at St. Anne's Catholic Church in Houston, where both are employed. Miss Margaret Augustine was maid of honor, and bridesmaids were Beatrice Meuhr and Clara Willins, all of Houston.

They wore afternoon street-length dresses of poi de sole in a deep gold with matching headbands attached to gold veiling. The two flower girls were dressed in white dotted Swiss dresses with matching headbands. They were Patricia Herr of Hereford and Nancy Tesar of Bridgman, Mich.

The bridegroom's attendants were his two brothers, Raymond Herr of Hereford, Edwin Herr of Syracuse, N. Y., and the bride's brother, Raymond Kowalczyk of Kalamazoo, Mich.

Ushers were John Pepe and Adrian Becker of Houston.

Given in marriage by her father, the bride chose a formal

gown of Chantilly lace and bombazine. The lace bodice featured a scoop neckline and long tapering sleeves. A wide, full-length panel of lace accented the front of the bouffant skirt and the back swept into a graceful chapel train. Her waist-length veil of illusion was caught to a lace cap.

Following the wedding a reception was held at the Briar Club in Houston. Members of the house party included Marge Kozlowski of Grand Rapids, Mich., Loyce Sobitk, Mary Peaces and Henrietta Fabian of Houston, and Jackie Lamson of Los Angeles, Calif.

Among the out of town guests attending the wedding were the bride's mother, Mrs. Nick Kowalczyk and a sister Mrs. Joseph Tesar Jr. of Bridgman, Mich., A. Herr of Hereford the bridegroom's father, Mrs. Jas. Luke of Muenster and Mr. and Mrs. Norman Luke of Shreveport, La.

Herr is a graduate of Hereford High School and a graduate of Texas Technological College, Lubbock. He is now a geophysicist with the Continental Oil Company in Houston.

Joe Kerbel new WT coach

## Kerbel Speaker At Lions' Meet

Joe Kerbel, new head football coach at West Texas State College, was guest speaker at the regular noon meeting of Hereford Lions Club Wednesday in the ballroom of the Jim Hill Hotel.

Guests at the meeting included Harry Schultz of Dalhart and Coby Kitchens and Ed Wilson of Hereford. Special guests were Boy Scouts in Hereford.

Kerbel pointed out that a football player's classwork is first and football is secondary at WT as the coaching staff feels that an athlete is a direct representative of his school and his team, and the impression he makes will be the impression people have of the Buffalo squad.

He made no prediction for the coming season, but he promised that "the boys will put all they have into each game." He asked the support of Hereford football fans.

For the past two years, Kerbel has served as assistant coach in charge of offense at Texas Tech in Lubbock. Prior to that, he was head coach at Breckenridge and Amarillo high schools.
