Rotarians Outline Plans For 16th Junior Livestock Show

The Junior Livestock Show sponsored by the Hereford Rotary Club promises to be the second biggest ever held as advance entries were totaled Thursday.

Scouting Honors Presentation Is Slated Tuesday

More than 300 people are expected to be on hand for an awards banquet for Hereford Cub Scouts, Boy Scouts, and Explorers to be held Tuesday at 7 p.m. in the Bull Barn.

Around Town

This was supposed to have been an "off-year" for politics. But it is now shaping up as one of the most interesting in years.

We were surprised to find out that the poll tax is actually a requirement for each resident of the state who is of voting age.

Testimony was wrapped up Friday afternoon on the water depletion suit in Lubbock after two weeks of intensive, specialized testimony.

Deaf Smith County and the Floyd Cole family have been getting their shares of praise lately. First, Floyd is recognized for grain sorghum production.

We also expect some good news from the Western National Livestock Show in Denver within a few days.

District Court Set To Convene Here On Monday

The 69th District Court, Judge Harry Schultz presiding, is slated to convene here for the first time in 1962 on Monday to hear pleas of guilty.

Brother, Sister Narrowly Miss Asphyxiation

Two Hereford residents almost joined the long list of those killed across the area by asphyxiation during recent sub-zero weather.

The couple was taken to the hospital, where they spent the night recuperating under an oxygen tent.

Mrs. Jenkins stated that her house had been properly ventilated, but that fumes from a stove in a room that had not been used had accumulated, causing the asphyxiation.

In the three divisions of the show, calves are divided into three classes - light, middle and heavy weight - and will consist of one-third of the animals.

Both became unconscious while watching the late newscast. Some 20 minutes later, Dobbins somehow awakened and woke his sister, whom he thought to be asleep.

Mrs. Jenkins noticed that her brother was pale and thought that he was sick. Both pointed out that they could not smell the fumes that were escaping from a heater in an unused room in the apartment.

Dobbins went to his bedroom, where he passed out on the bed. Mrs. Jenkins called for help and Mrs. C. L. James, who lived in another apartment in the building at 238 West Third, came and summoned an ambulance.

The jurors for the District Court have been notified that they are to report for jury duty on Tuesday, Jan. 16, at 9 a.m. Some 60 persons have been called.

Friday lacked one day being the 13th, but it was close enough for District 1-AAA two top-ranked teams. Hereford was knocked off by Phillips 60-62 in Whiteface gym while the Levelland Lobos were surprising the visiting Dumas Demons 50-45.

CHAMPION HYBRID GRAIN sorghum producer of the state, Bill Cole, feeds one of the calves, Joe, which he is entering in the annual livestock show to be held here.

By GARDNER COLLINS BRAND STAFF REPORTER An 11-year old Hereford Youth is credited with doing a man-sized job as he won top state honors for the highest yield in the 1961 Hybrid Grain Sorghum Program.

Named as the champ this year after placing third in the 1960 contest is Bill Cole, son of Mr. and Mrs. Floyd Cole. With the winning title, Deaf Smith County ranked as the top production area for the second straight year.

Jim Shearhart was the winner from Deaf Smith County a year ago when Bill placed third in the contest. However, Cole's production of 9,383.9 pounds per acre on irrigated land bettered Shearhart's top production by almost 1500 pounds.

In his two years of entering the statewide competition, the 4-H club member jumped his production from a third - ranked 7,103 pounds per acre 2000 pounds to the winning yield.

He planted his grain sorghum hybrid, RS 610, on June 19 after a preplant irrigation at the rate of 10 pounds per acre in 27 - inch rows. It followed a cover crop of barley and received an application of 131-0-0 fertilizer as a side dressing.

The crops was irrigated four times during the growing season. As overall state champion, Bill will be awarded \$50 and a plaque, in addition to the \$50 he won for taking top honors in the irrigated division for West and Northwest Texas.

Bill is the second member of the Cole family to be acclaimed in statewide and national grain sorghum production contests. Recently the boy's father, Floyd Cole, received the Ford Almanac Award for efficiency in grain sorghum production.

Bill has been an active member of the Happy Hikers 4-H club for the past two years. Not only has he entered the grain sorghum contest but also the cotton production contest. Coincidentally, Bill Cole and Jim Shearhart are cousins.

Among his other projects for the year, he lists the feeding of two calves for the livestock show to be held here Jan. 18-20 which is sponsored by the Hereford Rotary Club.

Next year, Bill says that he (Continued on page 2)

Farm Delegates In Austin For Gas Rate Talks

A delegation from Deaf Smith County was to leave early Sunday for a hearing on irrigation gas rates in Austin Monday.

Among those slated to attend the special hearing of the senate agricultural committee were Jay Boston, Bill Gentry, Tom Robinson, Melvin May, S. A. McCathern and Gerald McCathern. Others from the county were expected to attend.

The hearing is in connection with Senate Bill 39, introduced by Andy Rogers and co-sponsored by Grady Hazlewood. It will start at 10 a.m. Monday.

The bill seeks to put utility sales to farmers under Railroad Commission regulations, if the company is already regulated by the Commission in other fields.

Its advocates say that utility companies now may charge any rate for non-urban services, while its urban rates are limited by law.

This bill would give farmers the same protection now afforded those in town in regard to rates," a spokesman said.

If approved, the Railroad Commission would hear evidence in cases of dispute and would fix a "fair rate."

The bill is being pushed by (Continued on page 6)

Postal Receipts Show Increase Over '60 Totals

Postmaster Noland Grady announced this week that postal receipts showed a strong increase during 1961 over the 1960 mark.

A rise of more than five thousand dollars was shown in receipts at the local post office, with the majority of the mark coming in the last quarter of 1961.

Mail receipts gained some \$3,484 during the last three months of 1961 over sales in the same period of 1960. The post office reported that over 6000 parcels were delivered during the period of Dec. 4-27.

Meter sales for local businesses showed a rise of over five thousand dollars during the 12-month period, with other strong gains reported in stamp sales and box rentals.

The Hereford Post Office recorded sales of postal receipts and services totalling \$119,218.41 during the 1961 period, a sizable increase over the 1960 mark of \$114,051.83. This is a rise of \$5,166.58.

Increased efficiency has enabled the local post office to cut down on man-hours, while handling a greater volume of mail. Grady pointed out that rural carriers are now traveling over 500 miles per day, and that some 14 route extensions were either approved or were pending approval during 1961.

C of C Directors Name Two to Fill Unexpired Terms

Mrs. Dyalitha Benson and Dr. H. A. Cavness were elected to fill the unexpired terms of Sam Bell and Ray Cowsert at a called meeting of the Directors of the Deaf Smith County Chamber of Commerce Friday morning.

Sam Bell resigned because he had moved to Amarillo and Ray Cowsert, because of the press of other business. The new directors will serve the unexpired two-year terms of the men replaced.

In other business, the operating budget for the year was approved. In accordance with a provision of the by-laws, the immediate past president, C. Palmer Norton, was elected to serve as full member on the Board during the next year.

Some matters of policy were discussed in relation to the banquet. It was agreed that no presentations, awards or other recognitions other than the Man of the Year Award and those awards directly related to Chamber activities would be permitted at any Chamber of Commerce annual banquet.

This policy was adopted because of requests from several groups and the feeling that such presentations would make too lengthy.

Committee chairmen for the year beginning February 1 were (Continued on page 6)

Baird In Good Condition After Auto Accident

Fred W. Baird, 72, 134 Ave. B, was listed in good condition following an automobile accident here, according to the Deaf Smith County Hospital early Saturday morning.

In the accident which occurred Wednesday night, Baird had his nose broken and right leg fractured below the knee as the 1951 model automobile he was driving collided with a two-ton truck.

The truck, belonging to James Hudson, Rt. 4, was parked on Ave. B facing north. Baird, who was headed north on the street, said that he saw the truck but was unable to stop due to ice on the street, according to the police report.

The 1951 sedan he was driving was listed as a total loss, according to investigating officer Pete Cole. Damages to the truck were estimated at \$100.

AT INSTALLATION Shriners Honor Barnett, Sears

Two Hereford men were honored at the annual election and installation of officers of the Khiva Shrine Temple held in Amarillo on Wednesday night.

Named as Shriner of the Year was Dr. L. B. Barnett and elected as the junior officer of the Divan, which includes elective officers of the Temple, was J. H. Sears.

The Temple is composed of some 4,000 members from 38 South Plains and Panhandle counties.

Dr. Barnett, who has been a Shriner at the Khiva Temple for the past seven years, has been an area resident for 32 years. The Master Mason has served as president of the Oasis Shrine Club here for three terms.

He has also been president of the Scottish Rite Club and served as chairman of the Khiva Temple Hospital Committee as well as being chairman and co-chairman of the Oasis Shrine Club Children's Clinic for six years.

Dr. Barnett was named Shriner of the Month in June, 1961, before being named Shriner of the Year at the Wednesday meeting.

Among his activities in the medical profession, Dr. Barnett served as a surgeon in the Marine Corps during World War II. He has served two terms as president of the county medical association.

In the state organization, he has been a member of the Advisory Committee on Public Relations. Dr. Barnett is a fellow of the American College of Surgeons. He also is a member of the Hereford school board, an organizer of the Jim Hill Hotel and was "citizen of the year" for Hereford in 1948.

The post that J. H. Sears was elected to fill, Oriental Guide, will eventually lead to the office of Illustrious Potentate.

ed well on it, but Phillips shifted defenses and forged ahead. Phillips finally pulled into a 36-36 tie and went ahead by a single point with 4:30 left in the third stanza. Hereford swapped field goals from that moment. Just before the end of the quarter, however, Hunt poured in three quick points that gave Phillips a 49-45 lead as the third period ended.

Dennis Hodges and Randy Dowell led a Whiteface scoring attack that got Hereford within a single point, 60-61.

Hunt made a free throw with nine seconds left, but missed his second try to give Hereford a chance.

The Whitefaces called timeout with five seconds left. As the ball went into play, Jerry Curtisinger was fouled, with a one-and-one opportunity. But his first shot rolled off the rim and two rebound shots by Hereford missed as the buzzer sounded.

Kenny Hunt lived up to his scoring reputation with 26 points, while Robert Richardson added 14 for the winners.

Dennis Hodges headed three Whitefaces in double figures with 26 points of his own. Randy Dowell got 13 and Jerry Curtisinger 12.

Littlefield's Wildcats are by far the most inexperienced team in the district, with no returning starters on the club. Coach Harold Green is building for the future, since his varsity roster includes just three seniors, five juniors and four sophomores.

Model T's Belt 85-38 Win Over Bovina Thursday

Hereford's Charlie Seeds Model T's racked up an uncontested 85-38 win at Bovina in Independent League action Thursday night. After jumping to a 20-9 first quarter lead, the Model T's substituted freely the remainder of the game.

With Mike Pugh sparking the Hereford squad with 19 points, the Charlie Seeds team built up a 39-20 lead in the first half. Others rating in the double figures were Bobby Shelton with 15, C. E. Hicks with 11, and Dave Hopper at 10.

The Model T's travel to Muleshoe Jan. 22 to tangle with the league leaders in their next tilt. Hereford is tentatively rated number two in the Independent League, but one game is being contested because of a substitution technicality.

Hereford has lost three games, with all going into overtime. The Model T's have averaged better than 60 points per game thus far in the season.

Teenagers Only Slightly Injured In Minor Crash

Two teenage Hereford girls escaped serious injury about 1:35 p.m. Thursday as the car they were riding in skidded while turning a corner at the intersection of Miles and Third St., and collided with a parked pick-up truck.

The pair, Marie Roberson, 15, Rt. 3, Friona, and Donna Elliott, 16, 138 Ave. A, were thrown out of the car as the rear door of the four-door sedan flew open, according to the investigating officer.

Both girls are said to have slid across the pavement. They received only minor injuries consisting of skinned places and bruises, it is reported. Neither was hospitalized.

The 1954 model sedan the girls were riding in was driven by Janet Hargett, 15, Rt. 3, Hereford. Damage was estimated at \$70.

The pickup truck, parked in front of the City Hall at the time of the collision was driven by Pete Encinas, 602 Blevins. It is owned by Hereford Butane Co.

According to the police report, the accident occurred as the automobile, headed west on Miles, turned at the intersection and on to Third St.

A hard coating of snow and ice caused the vehicle to go out of control even though the speed was estimated at between 5 and 10 miles an hour.

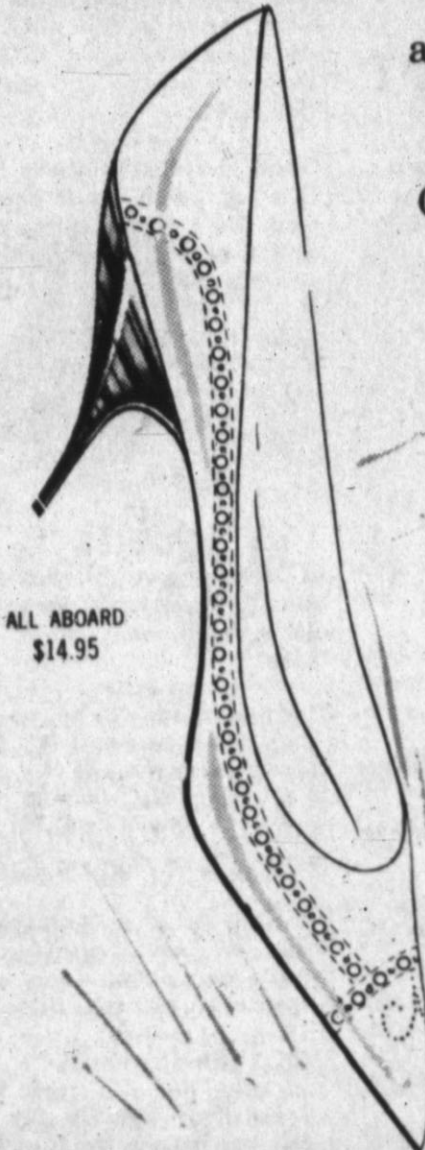

The car skidded into the pickup and the force of the impact caused the rear door to fly open. Both of the teenagers were then thrown from the back seat to the pavement.

In 1829 Sir Charles Wheatstone, an English physicist whose family made musical instruments in London, invented the bass system used in modern-day piano-accordions.

BY JIMMIE GILLETINE
 Things are shaping up for the calf show next week - end, and the Rotarians say it will be another big one. This project is a major undertaking for any club. It entails a lot of hard work for every member and, if you don't believe it, just ask Dick Barnard, who inherits the job of general superintendent as a result of being club president.

It's been a good thing for some of the members, however. The club originated the calf show and has sponsored it for the past 15 years so, naturally, many of the old boys have learned a little bit about cattle. Even Ben Childers is getting so he can tell a cow from a calf. Others have learned a little bit, too. I never will forget the time I waved at J. C. McCracken across the ring - and bought the reserve champion calf. I still think it was a frame - up, but Homer Brumley insisted that a wave of the hand is tantamount to a bid and Virgil Hennen backed him with a most realistic statement from the club. They said this is an old Texas custom, but it sounds more like Oklahoma to me. Anyway, the best thing you can do is sit there and listen, and not even blink an eye.

I hear that the Carl Perrins and the Ira Scotts are moving into town as soon as their new homes are completed. It is a pleasure to join the City Commission in welcoming them to the city tax rolls.

Lee Kent tells me that he still has some cotton to be gathered. He says the big trouble with a year like this centers around trailers, which are used a month or two out of the year then stand around and depreciate. Every cotton farmer seems to have too many trailers, except when he needs them.

Things can get rough in

town as well. The rural telephone offices had a pipe burst in the ceiling, resulting in a sordid mess all over the offices. George Stambaugh had a couple of desk drawers full of water, but decided not to apply for flood relief.

Bartley Dowell came along the other day and shattered some illusions for me. Bart figures that very few people really take any interest in voting or in politics, and all the while I thought this interest was picking up. After visiting with Bart, I decided perhaps it was all a matter of age. Older citizens, it seems, do show more interest in paying their poll tax and in casting their votes. I can remember for many years when no more than two people ever attended a county convention; these days it is not unusual to have more than a hundred, along with some occasional fireworks and chair-wielding. Louis Woodford, the Demo chairman, says he thinks there is more political interest than in the past - but I am sure that many of the younger married couples do find other things far more interesting.

Beer cans along public highways are among the most costly items in the state. I was talking to a fellow a while back who had a job picking them up and figured it was a pretty good deal. He said he threw a lot of them out every night and got paid for picking them up the next day. If they charged a deposit there would be no problem.

Woodford had another money-saving thought, which centers around the funsters who write in screwball names on ballots - mostly just for fun. Louis says this costs a lot in the tabulation of votes and no one ever sees the ballots, except the vote counters, who don't think they are very funny. The candidates

also frown, since the election costs of primaries come out of their pockets in the form of filing fees. An organized, "write-in" campaign is a different thing, but when a funster writes in someone, he upsets the entire counting process - most of which is done on over-time in part of the tabulators at wee hours of the morning, and at extra expense.

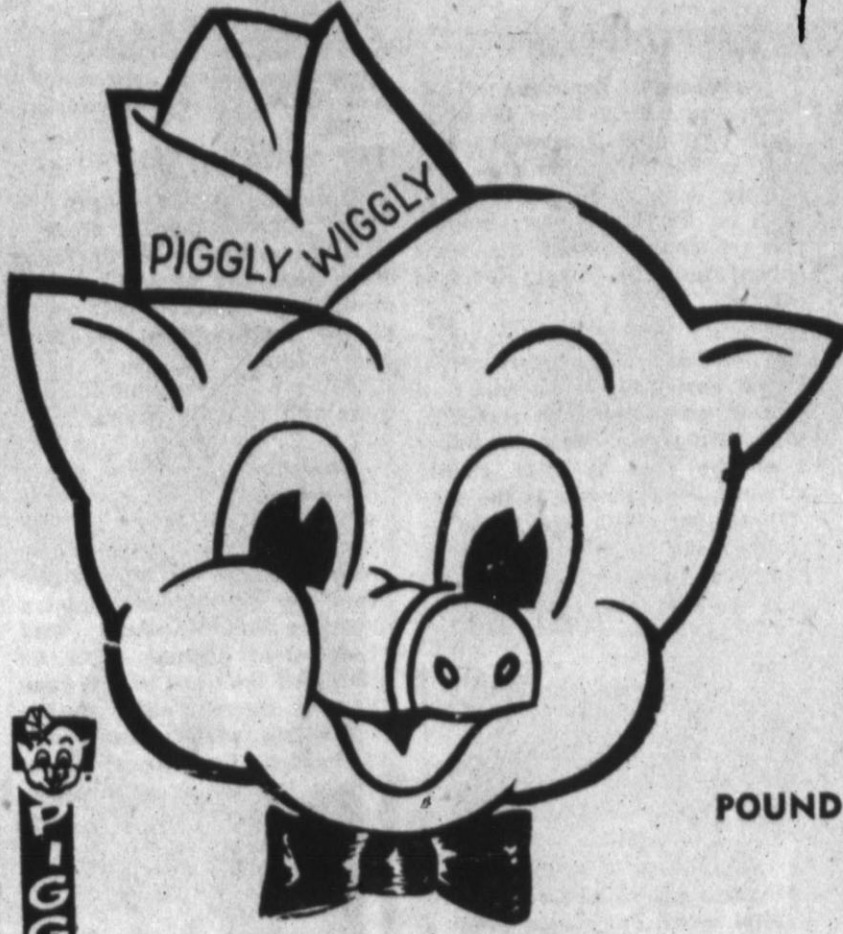

Quite an honor came to Hereford recently when Amarillo Shrine members selected Dr. L. B. Barnett as "Shriner of the Year." Hereford chose him as "Citizen of the Year" some time back, and we are happy to see other groups display the same good judgement. The Shrine selection was based in part, at least, on the outstanding clinic for children which the local club sponsors each year. Understand Hereford turned up with around 100 members at the meeting.

THREE JOKES
 A man took his daughter on a trip to New York. They went to one of those plays that made father blush a bit.
 "I'm sorry, Dorothy, that I brought you here," he said. "This is hardly a play for a girl of your age."
 "Oh, that's all right, D. D. It'll probably liven up a bit before the end."

"I suppose this new pen is a surprise?" the clerk asked.
 "It certainly is," the customer answered. "It's for my son who just started college. He's expecting a convertible."

Freshman, in a barber shop:
 "How long will I have to wait for a shave?"
 Barber, after close inspection:
 "Oh, about a year - maybe two."

Cold Weather Brings Many Cancellations And Miseries

BY MRS. OWEN ANDREWS
The cold weather during this week has slowed social life and work, in fact it has about stopped everything except just keeping the most necessary things done. Simple things, such as thawing water pipes, doing the family wash, feeding and watering cattle and getting the children to school became the necessary things to be done under difficulty.
Church at Frio on Wednesday evening was cancelled, and the meeting of the Frio Homemakers club, scheduled for Tuesday afternoon, was not held. Place for the next regular meeting Jan. 23, will be announced later.
Arthur Betts and Jimmy moved to the tenant house on the H. F. Benson farm. Last week Mr. and Mrs. Joe Andrews and Elizabeth moved from Hereford into the house on the Andrews place, which the Betts had been occupying. It is four miles south of Hereford, on U. S. 385.

eron and Renfro stole the show last year and Dameron's bull calves were winners the year before. A lot of Hereford people are at the show now, helping the ranchers spread the word about Hereford, Texas, Hereford cattle.

Just as others before them, the agricultural economics club at Texas Tech recognizes leadership. New president of the club is Pete Plank, while Jody Benzer is the vice president. Both are former 4-H Club members and winners of Santa Fe scholarships. And both were county Gold Star winners.

We got information this week about a large collection of 78 rpm records, mostly classical, in excellent condition to be given away. Anyone interested may contact Earnest Langley.

All officers were re-elected to the Deaf Smith County Hospital board during the group's monthly meeting last week. Officers include Carl Perrin, president; J. T. Gilbreath Jr., vice president; and Ed Loerwald, secretary and treasurer. Other board members are Wayne Thomas, Dr. A. T. Mims and Ira Scott.

Anyone interested in joining a square dance club is invited to attend an organizational meeting, which will be held in Community Center at 8 p.m. Thursday, Jan. 18.

Students in Hereford Public Schools will have a holiday Monday as mid-term grades get added up and recorded.

Mr. and Mrs. Will Adkisson, former Hereford residents, will celebrate their 50th wedding anniversary on Sunday, Jan. 14, in the home of their daughter Mrs. Ralph Cortese, in Fort Sumner, N. M. Reception hours are 2-5 p.m.

A special meeting of the American Legion will be held in the Legion Hall Tuesday,

Jan. 16, at 7:30 p.m. The public is invited to hear a tape recording about communism in American educational circles.

Hereford's big 1961 basketball center, Carl Miller, is doing a good job with the North Texas State freshman squad. The other night, Carl showed in 42 points as the Eaglets beat Weatherford Junior College, 80-69. Miller, a 6-7 center, hit 15 field goals and 12 free throws.

Basketball fans here were disappointed Friday night when the Herd bowed to Phillips, 62-60, in the opening conference game. But they brightened up considerably upon learning that Levelland had knocked off Dumas, 50-45. So Hereford isn't out of the race by any means, although the remaining seven games will be rugged. Fans aren't likely to see two better small players than they did Friday when Phillips' Kenny Hunt and Hereford's Dennis Hodges each netted 26 points.

We heard that Mrs. George Bumpas, 1013 Grand, won a set of Syracuse china in a national contest that she entered through Cowan Jewelry.

For just a dollar and six-bits you can give a politician fits. At that price, a poll tax is a bargain. Not available to Russia's Ivan, who might criticize once... but not again!

Committee Told Of CAP Program At Meeting Here

Twenty-five pilots and Deaf Smith County citizens interested in aviation heard a discussion of the purpose and organization of the Civil Air Patrol at a meeting Thursday night in the Community Room of the First National Bank.

Explaining the program to the group were Pete Minden, commander of the Amarillo Composite Squadron; Captain Clifford and Rolla Hill with the Federal Aviation Agency's flight control station in Amarillo.

A primary service function of the unit, the group was told, is to conduct air search and rescue operations not only for downed pilots, but for any missing persons.

During the discussion of CAP activities, it was pointed out that the organization was founded during the early days of World War II.

Even though its members wear the Air Force uniform and are in an auxiliary of the Armed Service, the CAP is made up of civilians. The unit, however, is not subject to a call-up as reserve units are.

It was pointed out that the CAP also has a cadet division open to students from 14½ years old to 21 years old. Cadets are taught all phases of aviation through the organization's training program.

Following the discussion, members of the Aviation Committee expressed an interest and intent to form a flight of the Amarillo Squadron that would later become an independent squadron.

In other business, the pilots present voted to sponsor a pro-

ject called "Fly For the March of Dimes." The pilots and plane owners would donate their time and equipment giving rides to citizens at \$2 per person. The proceeds would be given to the Deaf Smith County March of Dimes.

Date for the flights has been set for Sunday, Jan. 21 with Jan. 28 set as an alternate date in case of bad weather.

Reeves Remains As Fire Chief

By unanimous action, Dub Reeves was re-elected chief of the Hereford Volunteer Fire Department during an election of officers Thursday night.

Reeves will be serving as chief for the third year. Other officers named include: Jap Dickerson, assistant chief; Max Stipe, secretary; Albert Maxwell, treasurer; and Joel Treadwell, pension board member.

Stipe is the only hold-over officer except for Reeves. Gerald Hale had been serving as assistant chief, and Bill Howard as treasurer.

All officers are for one year except the pension board term, which is for three years. Other pension board members are Maxwell and Bill Patton.

Reeves reported on the operational budget for 1962 during the meeting and told the 28 members present that the new alert radios had been shipped and would be put into operation when final channel approval was given by the Federal Communications Commission.

Club Studies Safety Belts

Members of the North Hereford Home Demonstration Club met in the home of Mrs. W. C. Davis for the regularly scheduled meeting.

Mrs. Clinton Ward, president, presided at the business session. New yearbooks were distributed and completed. The club members voted to adopt a non-club family as the project for helping others. The vice president, Mrs. Zaida Kendricka, resigned, and Mrs. Wilma Bryan was elected to replace her in that office.

The program on safety belts was presented by Mrs. Clinton Ward. Reasons for installing safety belts were named as adding to safety and reducing accidents by one-third. Belts keep all riders in their places during driving periods, even if sudden stops are made, chug holes hit, or during an accident; thus keeping riders from being thrown from automobiles. Opposing views were discussed; but according to surveys made, no instance was reported where the use of safety belts had added to or caused injury or hardships while driving.

Members present for the meeting were Mesdames Otto Olson, Martin Wagner, Clinton Ward, O. C. Williams, Bob Fullwood, Otto Masie, O. L. Williams, A. A. Hare, Doioe Nivens, C. L. Whitehead, J. R. Watson, W. C. Davis and Miss Robert a Campbell. One visitor was present, Mrs. Doris Seward, sister of Mrs. O. L. Williams.

MEET SCHEDULED TONIGHT

Sunday, Jan. 14, Dr. Lena Edwards of Hereford will be the speaker for the first scheduled event in the School of Missions, sponsored by the First Christian Church of Hereford, to be held in the fellowship hall of the church. A covered dish Mexican supper will be held at 6 o'clock in conjunction with the program concerning the local work with the Latin American people. The public is cordially invited to attend.

REMEMBER WHEN?

BY CHARLIE SEEDS

It was a game between Notre Dame and Army, and it made football history... for this was the first major football game credited with being won by the forward pass. It changed the whole strategy of the pigskin sport.

Coach Jess Harper of Notre Dame had two men on his team who later won fame as coaches... Gus Dorais at the University of Detroit, and famed Knute Rockne, who returned to become Notre Dame's most successful coach. As players, these two had worked on a new ground gaining technique... the pass.

Dorais was the quarterback that day, Rockne an end. The game was hardly under way before the first pass caught Army by surprise... Dorais to Rockne for a touchdown. The rest of the game was a slaughter. Army never recovered, and Notre Dame's passes won, 35-13.

Remember the year? That was a long time ago... in a day when dollars went a long way. A man buying a car, new or used, made sure he got the best value for the money he had to spend.

The year was 1913. Whether you're in the market for a good used car or for a new 1962 Ford, you'll find your dollar buys more when you see us. Right now we have a big selection of late model reconconditioned used cars, terrific values with plenty of trouble-free driving in them, at CHARLIE SEEDS MOTOR Co. Inc., W. Hwy. 60 at Miles. Gardeners Study Growing Peonies

The Garden Beautiful Club met on Jan. 5 in the home of Mrs. Charlie Noland with Mrs. G. P. Owen serving as co-hostess.

Mrs. Tom Carter presented the program on "growing peonies," stating that the greatest problem that gardeners have in growing the peony is getting the tuber planted too deeply in the ground, causing failure to produce blossoms. To correct this problem, Mrs. Carter said, "Some of the soil should be washed off the plants, with the water hose, as soon as the shoots appear in the spring, or one may insert a spading fork underneath the tubers and force them up, and putting more soil underneath the clump."

Those present for the meeting were Mesdames Wayne Edwards, Ansel McDowell, G. P. Owen, Jess Robinson, T. E. Seigler Sr., B. E. Roberson, Gwynne Owen, Ray Cowsert, F. P. Lyons, Roy Smith, Tom Carter, Charlie Noland, E. W. Young, Weslie Owen, Lloyd Pool, Charles Hood, Bob Walker and Mrs. Bruce Burney, a guest.

An Industry Without Smokestacks

Undoubtedly the tourist business is one of San Marcos' most important and lucrative sources of income, and the local Vacation Association is telling the story of its importance this week in a full page advertisement in the Record.

The association is made up of several business segments, but its most active members are, quite naturally, the motel and restaurant owners and the owners of Aquarena and Wonder Cave.

It is estimated that Texas will receive \$457 million from the 8.6 million out-of-state visitors who will have visited Texas during 1961.

Almost everybody benefits from tourists travel with the sellers of food taking the largest bite out of the tourist dollar—about 36 cents.

However, do not let the seven cents fool you, if you do not get something directly from the tourist. The dollars he spends for lodging, food, car expenses all find their way to some degree into every cash register in the community.

San Marcos stands, probably, at the top of the list in the number of tourist it attracts in proportion to its population.

Therefore our community should be acutely conscious of what this program means in terms of dollar income.

The Vacation Association here has joined with like groups in every corner of Texas to promote a realistic advertising program for the state.

What we need to do is to urge the members of the Texas Legislature to appropriate \$300,000 of public funds which will be matched by \$200,000 from private sources to give Texas enough money to get an advertising program off the ground.

One reason for increased activity in support of an advertising program at this time is the realization of the fact that Texas has had a decline in income from tourism during the past three or four years.

It's embarrassing to any Texan to have to admit that anything in this great state is losing ground—and it's mighty inconvenient to have \$74 million less to spend this year than in 1957.

It's up to the people of Texas to instruct their representatives in Austin to do what they authorized when they passed the constitutional amendment to permit appropriation of state funds to advertise the state.

The POWER of FAITH by Howard Brodie

It was the conviction of St. John Baptist de la Salle that each youth is a prince and must be taught to realize God has "crowned him with honor and glory and set him above all the works of His hands."

The warm spirit of the saint, who gave all his wealth to the poor, manifested itself in the establishment of schools for the sons of working men in the 17th Century.

Will Texas Be A Two Party State?

Growing strength of the Republican party in Texas has been a point of national interest for some time, and the election of Tower to the U.S. Senate came as a climax to several Presidential elections of recent years.

Meanwhile, the Panhandle area which is a G.O.P. stronghold will list candidate rosters in many counties, along with announced candidates for state offices and for the House of Representatives.

Without doubt, the Democrats still have things well in hand, and we doubt if there will be much change on a statewide level. Industrialization of the state has brought thousands of new people into Texas, however, and many of the people are Republicans.

Many Texans are finding it difficult to go along wholeheartedly with either party. The ultra-conservatives say the G.O.P. is too liberal — and the Democrats have turned completely socialist.

Frankly, we doubt if most Texans actually know what they are. Many of them are voting for the man, rather than the party, while thousands of others pursue the choice of voting for what they consider the lesser of two evils.

First Month Of The Year

January is a cold month, and no doubt about that. It is also the first month in the new year, and should be one of the best.

We mention this after hearing numerous merchants complain about the lack of business, when the biggest obstacle seems to be the merchants themselves.

People, in fact, have more time on their hands than usual and, consequently, have more time to shop. Weather of course is a factor, but we notice that just about as many people get to town as during other months of the year.

So long as department stores can sell more than 50 percent of their blankets in July through intense promotion, it seems to us that some of the same spirit would go a long way toward making January one of the top months of the year.

After all, most of us are prone to believe what we read and hear, and if enough people tell us that January is a slow month, you can bet your bottom dollar that it will be slow.

Industry Outlook

Last week in Clovis, New Mexico, officials of Swift Packing Co., and Safeway Stores, joined local dignitaries of Clovis and state government for the ground-breaking ceremonies of two major industrial additions to the economy of Clovis.

Muleshoe residents have frequently voiced the wonder that Muleshoe was not an active participant in the struggle for new industry, particularly with regard to the Swift packing plant.

New Mexico legislation provides that any community in New Mexico may sell bonds for the purpose of aiding industry, and helping industrial concerns locate in this area.

It would seem from the above that Texas would adopt similar laws, allowing Texas communities to compete on an equal basis with those in New Mexico.

The situation, simply put is this: any industrial prospects which might be considering Muleshoe as a plant location, could quite easily be lured into New Mexico towns by New Mexico legislation.

In view of the above facts, Muleshoe cannot reasonably expect to land any industrial plants, unless they are those not wanted by our neighbors to the west.

—MULESHOE JOURNAL

Only 13 Days

There are many reasons why you should pay your poll tax, but the chief reason you may not is that you will likely forget, and the best way to overcome this reason is to take care of the matter tomorrow.

Texans will do a lot of voting this year, ranging all the way from governor right on down through city and school district elections.

Look at it anyway you will, but there are only 13 days left in which to pay your poll tax and, as we said, there is no better time than tomorrow.

Cold Weather, Churches, Choral Groups Appraised

BY MRS. R. L. CRISWELL. Cold weather, churches and cars all come to mind this week.

Of course, cold weather has to come first, since it has been the main item of conversation for the past week. This is one of those spells that the "old timers" can talk about for a long time.

Speaking of cold, we've been wondering about all the "hot" batteries that have been advertised on TV.

There are always silver linings, if they can be seen, and we supposed the gas company is doing well with these sub-zero nights, along with the power companies.

Hereford is still my favorite town, however, even if it does get cold. It doesn't stay cold all winter long; just a few days ago the weather was real pleasant, up into the 60's as we recall.

All of us should take some time and visit other churches to find out what they are doing. A number of visitors toured the Central Church of Christ Sunday.

Someone once said, "There is no musical instrument as beautiful and versatile as the human voice."

After listening to this group of young people, I know this is true. Man has invented many musical instruments through the years. Properly played they can inspire listeners in many ways, provoking many and varied moods.

But when you hear 60 young, trained voices joined as one in singing, "God be with you, 'til we meet again," a realization sweeps through the audience of the greatness of God.

This group of young people just mentioned is not unique. There is such a choir in almost every college in our land. But, too often, we don't hear them and hear of them enough.

It seems that our youngsters need our backing when they tackle the higher arts, as much as when they participate in athletics. Athletics builds the body. But singing builds the soul; it inspires and brings joy to the singer and to the listener as well.

Such performances require endless practice, and then more practice, to prepare concert programs. A good choir demands cooperation with many of the people, subordinating individual wishes for the common goal.

Preparation for such performances can start almost at the cradle. Some children have a natural love of singing, others have to be taught and some have to work quite hard to learn music appreciation.

Singing, not operative of course, can be enjoyed by almost everyone with a little practice and determination.

Where does Hereford fit into this picture? Well, Hereford was represented by two of three of its high school graduates who were singing in that choir.

Altogether, there are probably more young Herefordites singing with college choirs than participating in varsity college athletics. They deserve our support in their efforts.

Within a few years, these young people will be leaders in our government, heads of our businesses, forging our future as teachers, doctors, lawyers.

In choir work, as in many other endeavors, they learn cooperation and individual effort that will be valuable to them in years to come. We are proud of them; to them, we sing an anthem of praise... sung loudly, if slightly off-key.

Conservation Plan Shows Gain In '61

There has been a great deal of progress made in the Great Plains Conservation Program in Deaf Smith County during the preceding year, according to a report recently issued by the office.

The plan, which is designed to help farmers and ranchers solve the difficulties in long-time land use and conservation problems, enables the cooperators to establish needed soil and water conservation measures with the help of Federal cost sharing. These aids may run up to 80 per cent in some cases.

In 1961, 26 Deaf Smith County farmers and ranchers entered the program, bringing the total to 70 participants in the county. The 70 members now cover 139,809 acres in the county. There has been particular interest the past year in grassed waterways, and six farmers have either started or completed the grass projects.

Other practices that have been completed since January, 1961, are as follows: 86,653 acres of proper range use, 11,234 acres of conservation cropping systems, 6,596 acres of crop residue use and stubble mulching, 82 acres of range seeding, 5,156 acres of range pitting and chiseling.

Seventeen wells have been drilled, four pipelines for livestock water and nine water storage tanks have been installed. In addition, five pit-type ponds, five miles of diversion terraces, and two and one-half miles of fences have been constructed.

The purpose of the Great Plains Conservation Program is to help farmers and ranchers carry out a plan of operation that will minimize climatic hazards and protect the individual's land from erosion and deterioration by natural causes.

Cost shares may be earned for establishing such conservation practices as drilling and casing livestock wells, installing water storage tanks and pipelines for livestock water, constructing earthen dams or pits, fences, terraces, diversions, waterways, range pitting and chiseling, range seeding, and tree planting for windbreaks.

Applications can be made at the local Soil Conservation Service office, where further details of the program can also be obtained.

March Of Dimes Tourney Slated At Local Course

A one-day March of Dimes Golf Tournament has been slated at the John Pitman Municipal Golf Course for Sunday, Jan. 21, with all proceeds from the meet to be donated to the March of Dimes.

Each golfer participating will contribute at least one dollar to the March of Dimes, according to Bud Posey, local golf pro. The winning foursome will receive prizes, he added.

Registrations will close at 11

a.m. Sunday, Jan. 21, with tee-off time slated at 1 p.m. Drawings for pairings and starting tees will be held at 11 a.m. also.

The tourney will be played "shotgun" style with all golfers teeing off at 1 p.m. on the separate greens. The pro-am type meet will be played on the low ball system with four golfers to each group.

Foursomes will consist of an "A" player with 0-7 handicap, "B" player with 8-12 handicap, "C" player with 13-17 handicap, and "D" player with 18 or over handicap, or a lady may enter.

All men players will receive one-half of their handicap, while the ladies may count the full handicap.

Pot Luck Speeches Topics At Meeting

Members of the Hereford Child Study Club met on Jan. 4 in the home of Mrs. George Springer for the regularly scheduled meeting.

Mrs. Garland Solomon, program chairman, passed out subjects of pot luck choosing to each member. Each member then gave a two minute speech on the subject she had received. The program was unusual and enjoyable.

Refreshments were served to Mesdames Thomas E. Brady, Marvin Knox, Reuben Knox, Garland Solomon, George Springer, Art Stoy, Maurice Tannahill, Ed Wilson, J. W. Witherpoon, Miss Gladys Setliff and the hostess, Mrs. George Springer.

FIGHTING DISEASE

KUALA LUMPUR, Malaya (AP) — A four-man Army medical team is helping Malaya tackle the twin scourges of scrub typhus and leptospirosis.

In 1953 the first U. S. Army medical unit came out to work alongside Malayan scientists at the Malayan Institute of Medical Research. Today the institute has a staff of 45 Malaysians employed as laboratory assistants and field workers. Their payroll is borne by the U. S. government.

Can scientists do anything to eradicate these two infectious diseases?

"There is no concept of eradication," says Col. Hinton J. Baker of Mandarin, Fla., leader of the four-man team. "We have hopes we may find the means to control them."

HAS REASON TO LIMP
LOCKPORT, N. Y. — Out-fielder Joe Stranges limped a little when he ran bases in the Niagara - Orleans County semi-pro baseball league.

He tells inquiring out-of-town-ers he has a slight sprain. But home town fans don't ask; they know Joe lost a leg in an industrial accident nine years ago. He plays with a fiberglass artificial limb.

Electric and telephone lines were down, but the electricity was back on by noon Friday. It was Saturday afternoon before telephones were back in operation.
