

City Commission To Ponder Bids

City commissioners meet at 7:30 p.m. Monday night at city hall.

On the agenda will be the acceptance of bids on several items - including a six-plane "T" hanger at the municipal airport, four new police cars and a tractor for use at the incinerator under construction at the dump ground.

To Examine Labor Camp

A delegation of public health officials will be here Monday and Tuesday to view the labor camp and to talk with Dr. Lena Edwards and other St. Joseph's health grant application.

One of the group, Willard G. Olsen, regional migrant health representative of the U.S. Public Health Service, Dallas, was here March 8 with a number of other federal officials to explain possible government aid programs for the camp.

OLSEN'S OFFICE said Friday that two of the three men he named at that time would be here Monday and Tuesday morning. A third cannot come but will be represented.

Making the trip will be Dr. J. Robert Lindsay, chief, migrant health branch of the PHS, Washington, D. C.; Dr. Clarence Brumback, director, West Palm Beach County Health Departtino of the Texas Department of ish the bottom deck of pre-fab-Health, migrant health project.

Stiff breezes, including Wednesday afternoon's powerful gusts, played havoc with the city's attempt to erect its Hospital officials about a \$30,000 60-foot-high, \$50,000 incinerator at the dump ground east of Hereford.

Burner Delayed

Work was halted for more than 24 hours starting Wednesday afternoon when the turbulent winds struck. Crews were again grounded Friday. ABOUT ONE-THIRD of the burner's conical steel skin was

precariously in place when workers stopped Wednesday. The city crew, being directed by Jimmy Creasy of the Industrial Blow Pipe Co., Memphis, Tenn., manufacturers of the incinerator, lashed the outer skin to "everything in sight," according to City

Manager Dudley Bayne. The rigging held the steel shell row of steel panels atop the in place until late Thursday af- curved, inward sloping lower ternoon when the crew took ad- structure. vantage of calm weather to fin-

the call_at 3:20 p.m. Officers could find no witnes-

ses to the shooting. Neighbors questioned said they heard no shots fired.

A 12-year-old neighbor, Henry Drerup, son of Mr. and Mrs. C. H. Drerup, 121 Ave. B, gave the alarm when he noticed Mrs. Creasy, who brought another Petree collapsed on the porch. His mother called police after seeing the porch scene herself.

BAYNE SAID the rush of municipalities to remove parking meters has eliminated any market for used meters. The only outlet for the used devices pre-

sently is as trade-ins. Even so, some of the city's meters are worth no more than \$1 each for that purpose, Bayne said. The city actually has about 300 meters on hand. It will also See CITY Page 3

Registration will start Friday afternoon, and the convention ends Saturday night. Hotel Jim Hill will be the headquarters.

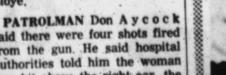

MOST OF THE commun to be represented lie along U.S. Hwy: 385, which runs through Hereford. The extension of this federal highway number over a network of state roads that formed a well-defined route from Texas to Canada was one of the primary reasons for the association's formation in the 1940s. Much of this goal has been realized, says Bill Thompson, Deaf Smith County Chamber of Commerce manager who has See WEEKEND Page 2

"Father, the hour has come. Glorify thy Son, that thy Son may glorify thee. For thou hast made him sovereign over all mankind, to give eternal life to all whom thou hast given him. This is eternal life: to know thee who alone art truly God, and Jesus Christ whom thou hast sent."

property of value. which are now proposed to be abolished by 1971-but sales tax, cigarette tax, liquor tax and a host of other special levies. In fact the sales tax was originally sold to the public as for the support of education but, in fact and practice, nearly 50 per cent of the sales tax has been diverted to other uses.

THUS THE MERIT of the TSTA proposal and its appeal to local property owning voter is in fact that all of the states residents, the renters, as well as the property owners, will share in the cost of education. It is an evident fact in Deaf Smith County that a very large portion of the children in our school system are of families who have no real property and who, under the Governor's proposal, would pay no share of the teacher pay increases.

"This point of view has won the endorsement of the Chamber of Commerce Government Affairs Committee and the Board of Directors. A further strong argument in favor of teacher pay increases and favoring the TSTA bill over the Governor's is the competitive position that Texas schools systems face in attracting and holding top qualified teachers. Texas ranks 32nd in average salary paid and are now \$774 below the national average. The TSTA would go further towards narrowing that gap than would the alternate proposal.

"I hope that the parent of every school child, the owner of all real property in Hereford and in the Hereford Independent gressman Bill Clayton and to Senator Andy Rogers at Austin and express your views on this very important legislation" Pete declared.

CLOSED SUNDAY

By MELVIN YOUNG for the city of Hereford. The vate it. parking meters are coming out.

To hail the event downtown merchants are throwing an appreciation sale to commemorate release from 18 years of bondage . . . as their ad on pages 6 and 7 of the second section proclaims.

But the parking will still be on a controled basis, although it's are better than ever," we couldfrdd.

The parking now will be available free for 2 hours, with the meter maid still on the job, but this time she'll be marking tires every two hours and issuing citations to those who choose to violate the free parking privilege:

This of course, must be done to prevent all day parking on main and on side streets where meters now stand.

Actually the new set-up should work even better than the parking meters although the only revenue to the city will be from the citations issued. The parking itself is free provided you do not stay over the two-hour period.

-HB It is with a little regret that we watch the meters "bite the dust." They arrived on the scene just a short time before we moved to this fine city in 1948. As a matter of fact, the meters were installed in August, 1947, and we first started to work for the Brand in October the following year.

We will never forget an old printer who was working for the Brand back then. Always fast to brag about this fine city, he would say: "They have really made progress here since I came. They have added parking meters on the streets and mattresses in the jail."

His information came first hand too. He didn't own an automobile, but his weakness

for strong spirits landed him in the county's crossbar hotel at regular intervals. -HR But be sure to read the parking meter removal ads in today's paper - then come to town tomorrow and watch them start taking out the meters. And while you're here, pick up a few bargains. -HB And speaking of bargains and Aroma? promotions, this is also the beginning of Paint-up, Fix-up, Clean-up week, an annual promotion by the local merchants to get you started to thinking about remodeling, fixing up the lawn and garden, putting out some shrubs and trees and in general, just cleaning up the old homestead. Green Thumbers will want to get the trees and shrubs trimmed in the next few weeks and get the garden spot prepared. Don't forget the dandelions and crab grass - better get af-

ter it now. Don't believe you can Monday will be a historic day kill it so might as well culti--HB

Air conditioners, too, will need to be repacked and cleaned for the coming summer months. Spring is here and the the hot days of summer can't be far, behind. -HB

For those who say "movies n't be more in agreement. Especially when the movie is Walt

fun-filled musical Disney's 'Mary Poppins." Disney, by the way, seems to be one of the few remaining movie moguls still producing movies fit for family consump-

tion - and his obvious success proves to us at least, that there is still a market for the better fims.

Meanwhile, when "Mary Poppins" comes to the local theatre, be sure to see it. It's great.

-HB-Gerald and Anna Jo Wilson will soon be opening their new mexican food pizza restaurant at 239 Avenue D.

The Wilson's recently purchased "The Gas Light" and have been redecorating with a south of the border motif. Opening date for the new restaurant

will be Monday, May 3. Meanwhile, they will continue to operate the Corral, and after May 3 will continue to operate it during the noon hour only-to serve the students at Hereford High and Junior High.

The new cafe will be known as La Cafe Hacienda.

And for an old boy who likes pizza as well as we do, this should be a real treat. -HB-

And speaking of a treat, the folks over at the courthouse had one Friday. Some "cajun" coffee prepared

by County Judge H: C. (Hank) Williams. The judge kept complaining

PIGGLY

WIGGLY

FLANTING UNDER WRAPS - Above are pictures showing the application of a plastic mulch and precision planting on the Melvin Barton farm, located 10 miles south of Hereford near the Easter Community. The experiment in plasticulture is the first such test in the Panhandle, although the farming practice is popular in Arizona, where it was pioneered four years ago. Shown are, from left to right: (1) A special apparatus lays down 20-inch wide strips of polyethylene plastic on

soil which has been prepared for cotton planting. (2) An overall view of the operation shows how the plastic is applied atop row-crop beds. Disks throw dirt over the edges of the paper-thin plastic, holding it down. The plastic was applied March 30-31. It served to insulate the soil, causing soil temperature to reach temperatures suitable for planting two weeks earlier than would have otherwise been possible. (3) On April 6-7, cotton was planted with a specially equipped

planter. Hollow spikes punch holes in the plastic, then insert cotton seed and an assortment of substances which cuddle the seed to early germination. (See story.) At far right (4) is a row of onions planted under the protective plastic mulch on the Charles and Harland Frye farm, also located near Easter. (Photos by the Brand Staff and Louise Stone of Dimmitt)

Six Injured County's Winter Wheat Seedings In Two Car Set At 174,000 Acres By Report

Accidents

dent Friday night on a country

The mishap was the second four per cent above last year since Thursday which caused and six per cent above the 1959njuries.

Injured Friday night when the auto he was driving edged off a graded road and overturned in a bar ditch was William Joshia Walker Sr., 40, who lives eight miles north of Westway.

THREE OF HIS children were also hospitalized: William Jr., age 11; Thomas, age 10; and Helen, age 12 Thomas and his father were

listed in good condition at Deaf Smith County Hospital Saturday morning, suffering from abrasions.

Remaining in fair condition were Helen, who suffered a broken jaw and abrasions; and William Jr., who was being checked for possible neck injur-

HIGHWAY PATROLMAN Ed Richards investigated the mis-

Two young girls were treated for minor injuries received when two autos collided about 3:20 p.m. Thursday at the intersection of E. Fifth St. and Schley. Treated at Deaf Smith County Hospital were Doris Sessums, 2, daughter of Mr. and Mrs. Bobby Sessums of 310 W. 5th; and Carol Lee Elliott, 3, daughter of Mr. and Mrs. Terrell Eliott, 207 W. 6th

The girls were injured when autos driven by Mrs. Bobby Sessums of 310 W. 5th and Mrs. Myron Morgan of 420 Sunset Dr. collided broadside.

FORCE OF THE impact knocked the Sessums auto over a curb, tumbling a street mark-

The mishap occurred as the Sessums auto, headed west on 5th St., was struck in the side by the Morgan car, which had been going north on Schley.

Whiteface Band More Emphasis Does It Again **On Conventions**

A year or two ago, we did an article complimenting the Whiteface Band on winning the sweepstakes award in Interscholastic League competition — and it made some of the athletic fans unhappy. At risk of again meeting the same fate, it seems to us that the Whiteface Band in bringing home its third consecutive sweepstakes award, has once again brought recognition and fame to the entire community - and regardless of who likes or dislikes it, we are proud of them.

Untold hours of diligent practice, along with sacrifice and effort beyond the call of duty, are required to achieve such recognition. Furthermore, as any mother or father who listens through these practice sessions will attest, the sacrifice is not totally confined to members. Our instruction staff, for instance, is to be commended for a job well done.

Of equal importance is the fact that school administrators and trustees have seen fit to expand the band and music programs into junior high and grade school levels. This, in the long run, creates interest and provides additional training for more boys and girls.

Certainly no school group in the district is more active, or gets more support from parents than does the band. It is a fine program, well managed and administered and, when they "bring home the bacon", it finds all of us proud and delighted.

Light Ballot Can **Create Troubles**

Hereford's extremely light voter turnouts recalled to the minds of many citizens a similiar election in Crystal City, Texas, just a year ago, when an organized Latin American group literally moved in and "took over" city government in the Valley planes and sonic booms have been added community by naming a mayor and four

Congratulations to the Hereford Lions Club, and to J. W. Robinson, new district governor of 2-T-1, and let us add that we are all looking forward to 1966, when some 800 to 1,000 roaring Lions will descend upon this community for the annual Spring convention,

These things do speak well for Hereford, because through conduct of the local club our community has gained the respect and admiration of some 10,000 Lions and their wives who have come to know Hereford as a progressive town, which always gets things done in a big way. Certainly, no two greater honors have ever been shown any community than District 2-T-1 has seen fit to bestow upon Hereford.

And, while Lions members will carry the ball, it will require general support and cooperation throughout the community to retain the esteem which the area now enjoys. This, of course, is true of all other gatherings and conventions which are held here — and it is possibly an item with which many of us have not too often been sufficiently concerned. General reaction of local people invariably determines the status in which visitors will regard and hold us in the future and, needless to say, the good opinion of our neighbors can be a most valuable and profitable asset.

Utopian Climate Still Elusive

Since the "apple incident" in the Garden of Eden, it is doubtful if man has discovered an ideal place in which to live. Always, regardless of where it is, the weather sometimes gets too hot, too cold, too humid or too dry. There are things like dust storms, floods, tornadoes, hurricanes, insects, unwelcome birds, animals, and more recently the drone of huge transport to human complaints. Currently, we are appalled to read

'No Medical Schools -Just Tax Bites'

EXAS PANHANDL MEDICAL SCHOO TECH

Panhandle Paragraphs

The Levelland Merchants Division has adopted a pipeline to further control the flow of hot checks which has plagued Hockley County mercantile circles for the past year. The merchants at the same time praised the reduction in the number of hot checks passed since their last meeting when they discussed signs, stamps for identification and stiffer prosecution with county attorney Harold Phelan. The drop was as much as 60 per cent at one supermarket. The group credited widespread publicity which not only described the merchants' activities, but also listed offenders and their sentencing as helping to reduce the problem. The "Pipeline" established by merchants works in the following manner: any merchant receiving a hot check notifies the head of a local supermarket, who in turn calls three other merchants, and these call three others, etc., until all businesses are notified.

__PP__

If it's true that we can't take it with us, how come the government is so all-fired anxious to make sure we don't? -Harold Hudson in The Sunday Herald (Perryton)

PP

The most elaborate and spectacular celebration ever staged in this area has been contracted for by Swisher County Activities Association in connection with the 75th anniversary of Swisher County, which occurs July 17. Nine days of special events preceding the observance will be directed by John B. Rogers Co. of Fostoria, Ohio, specialists in this field. One feature of the celebration will be a threenight run of an Historama depicting the history of the county since its establishment in 1890. The historama will feature a cast of 300 or more persons performing on a 250-foot stage. Other events include style shows in which styles of 1890 and 1965 will be contrasted, dinners and teas, sidewalk sales, several giant rodeo performances, barbecue, carnival, youth activities, perhaps a city-wide religious service, boat and water carnivals, antique automobile show, several parades, and scores of other events. -The Tulia Herald

A weekly newspaper editor up in Montana, with a little time on his hands between calls from readers, placed his tongue in cheek and listed these among things constituting a good newspaper in the eye of the average reader: 1. My name; 2. My Wife's name; 3. My kid's name; 4. A classified ad offering a new home for \$4,000; 5. A sports picture of me when I bowled 163. 6. More advertisements on things that merchants are giving away.

-James Roberts in Andrews County News

PP_

This is the time of the year when optimism buds and begins to flower in the spirit of man and bird and beast. It is also the time of the year when business picks up at an

councilmen on a write-in campaign.

This same Crystal City group ran into an extremely heavy vote this time in Crystal City, and the minority was swept aside. The important lesson to be learned, of course, is one we already knew: "Be sure to cast your ballot".

Regardless of whether the group be Latin American or Anglo American, the primary object is that those elected actually represent the majority of the people in the community. Crystal City is a good example of a community which has been governed for the past 12 months by a minority group - and there wasn't anything anyone could do about it. All of us have seen the time when Hereford could easily have faced the same consequences — and our city election was no exception.

Liberty, which is closely allied with voting, is one of those freedoms which too many of us are prone to accept without fully appreciating its values. Because there is no strong opposition, we eften let things slide in city and school elections --- despite the fact that these two offices are closerto us than any other in the nation. If we are satisfied, we are also obligated to take the time to drop in and vote as a matter of public endorsement.

Up to now, we have been fortunate in that we believe our city and school officials do honestly represent the wishes to the people, but things are changing all over the country, and Deaf Smith County is no exception. The time has come when all of us should vote in every election for. only through this means, can we expect to continue with a government which represents the people and their desires.

the loss of 235 lives in Mid-Western states swept by tornadoes, while houses and entire communities in Minnesota are being ravaged by impossible floods. And, as we count our blessings, the too often overpublicized Panhandle weather does not seem anything like so bad as it appeared a few weeks ago when the Eastern and Mid-Western press was raising so much hullabaloo over Panhandle transition back to a "dust bowl" status. Bad as our conditions may be at times, most people would rather spread their woes out a bit than have them come in one big swoop.

Mostly, though, it seems that each particular area affords its own advantages - and disadvantages. When you sum it all up, we would say that a lot depends upon to what one has become accustomed. While things we have learned to accept and live with may well run people from some other area crazy, the same holds true for local residents who seek to live in other portions of these SO states.

Meanwhile, to our knowledge, no one in the twentieth century has yet discovered a modern utopia.

While we fully see and appreciate

Venerable Rep. Patman Has Aided Big Causes

now in his 37th year in the every day. He is Judge Eugene By TEX EASLEY House.

WASHINGTON (A - Rep. He entered the House March Wright Patman, D. Texarkana, 4, 1929, as the representative the last Texan in Congress who from Texas' 1st district. The took his first oath of office when man he succeeded guit to take a member's term began March an appointment to the U. S. Tax Banking and Currency Commit-4 instead of early in January, is Court and is still on the job tee he frequently summons

Hereford Bank Assets Pass \$700 Thousand

50 YEARS AGO

In talking with the committee on street grading this week, we were informed that terms had been spoken for and that the work of improving the streets would begin at an early date. In this connection, it should be stated that some one will call on those who subscribed to the street fund but have not yet paid to collect the amount subscribed. Let all be ready to pay their subscriptions, promptly when called upon so that the committees who have the work in hand will be in no wise delayed.

Ads listing bank assets in Hereford as of April 13, 1906 showed total assets of the First National Bank of \$300,000, while the Western National Bank boasted \$402,000.

10 YEARS AGO

Deaf Smith County is one of the 16 counties in a five state area which has been dropped from the 1956 Federal Crop Insurance program. Reason given for dropping Deaf in seniority among Texans is Rep. George Mahon of Lubbock, Smith and the other 15 counties from the FCIC rolls was the heavy losses suffered by the counties during the last six years. Sixteen million dollars reportable was lost in 16 counties above the premiums paid.

A committee headed by Paul Harvey was instructed to meet with the city council and get a "workable city ordinance" passed to control "itenerant peddlers" at a regular weekly meeting Friday. The group instructed the committee to seek an ordinance with "some teeth in it."

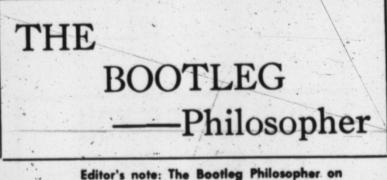

There was much optimism among a group of Hereford Lions when they left Friday for Lubbock by, to say the least, unusual means to attend the District 2T-1 Lions Club convention. Least optimistic of the travelers was probably the two mules who propelled a wagon carrying Homer Brumley, Cecil Massey, Harold Close, Ray Cowsert and Neil Cooper. The local Lions — who proudly displayed a sign proclaiming "Lubbock or Bust" - are in hopes of arriving in Lubbock in time for at least a portion of the convention, which begins Sunday.

ments is past; so it is only natural that everyone feels better and that business picks up. -Deskin Wells in Wellington Leader

PP

Two pieces of legislation, both of prime importance to Borger and to the North Plains area of the Texas Panhandle breezed through the House of Representatives and were sent to the Senate Monday. Both bills, one creating the Alibates Flint Quarries and Pueblo Culture National Monument and the other giving the Canadian River Dam lake the official name of Lake Meredith passed the house without dissent.

-The Borger News-Herald

his Bindweed form discusses orderliness this week, a topic rather far afield for him.

Dear editar:

Black, who will be 87 July 2.

PATMAN, AT 71, is a man of

vigor in legislative battle and

ever the one to tackle king-size

jobs. As chairman of the House

members of the Federal Re-

serve Board some of the na-

tion's top financiers to help him

find ways to ease the money

Just now he's sponsoring a

bill to prohibit bankers from

serving on positions in the Fed-

eral Reserve system where they have a role in fixing interest

rates. The Board members are

Over the years he has pushed

big causes, winning some, los-

ing some. He gained a national

reputation not long after he

came to Congress when he suc-

cessfully led the fight for a

bonus for World War I veterans.

He co-sponsored the Patman-

Robinson act that forbids certain

unfair trade practices, but he

fought in vain for years to get

through a tax on chain stores.

The measure, he said, would

have helped the independent

merchants by levying a tax on

the individual units in chain

PATMAN IS NOW the fourth-

ranking member of the House

in seniority. No. 1 is Rep.

Emanuel Celler, D-N.Y., a mem-

ber since March 4, 1923. The next

who took oath of office Jan. 3,

systems.

War L

worries of the little man.

against the measure.

In his speech on television the other night, President Johnson said sort of in passing that this will be a disorderly planet for some time to come, though it doesn't have to be that way forever.

What I want to know is, who told him about the Bindweed farm?

To an outsider, this place may seem disorderly, and it was located in some other country I'll admit it probably would be recommended for foreign aid to bring it up to 20th century standards, but one trouble with me and some foreign countries is that we're satisfied, in a backward sort of way, with the out-moded system we're using.

For example, say I need my pipe wrench. I don't have to go hunting all over the place for it. All I have to do is remember where the last pipe busted, and that's where the wrench is.

Or why walk yourself to death putting your hoe in the tool house when you know the place you're going to need it again is in the garden? If I pass by the garden and notice a weed, chances are it'll stay there if I have to walk back to the tool house to get a hoe. When the weeds get so tall you can't find your hoe in them, you don't need it anyway. It's too late. Let it stay there and try for a garden again next year. This doesn't feed a hungry world but it doesn't depress the price of vegetables either.

I don't know anything about this phase, but I've been told that sometimes the business man with the cleanest desk has the emptiest mind, but that's out of my territory and I have no way of knowing: I've never seen your desk.

But speaking of disorderliness on this planet, people may come first in this line, but I'll put the weather second. Some weather experts think it follows a pattern, but up to now they haven't been very successful in telling us longer than 10 hours ahead of time what the pattern is.

As a result, they're a lot better at telling you what the weather was yesterday than what it'll be tomorrow. The next time you listen to a weather forecast on television, see if the forecaster doesn't spend nine-tenths of his time telling you what happened yesterday, and then hastily just before he ducks out of sight tell you what to expect tomorrow.

Yours faithfully, J. A.

Southwestern Bell (

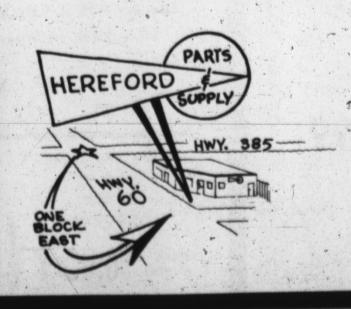

Rotary mowers have exclusive "Wind-Tunnel"® action that stands your grass up for a more even cut.

The spiral shape of the "Wind-Tunnel" has no corners to catch grass. It discharges clippings swiftly, smoothly. That's why a Toro rotary bags better than any mower you've ever seen. In addition, Toro's unique "S-Blade" shears the grass . . . doesn't whip it off as straight blades do. The exhaust's under the housing, deflecting that irritating noise into the grass. The "Anti-Scalp Dish" eliminates scalping and unsightly bald spots. Choose from 6 great models.

Whirlwinds: 21" with or without "Pow-R-Drive" ... 19" with "Safety-Spin Start" or recoil starting. Hevy Duty Whirlwinds: 21", hand or power propelled for the tough mowing jobs.

19" Whirlwind * with Recoil starting is ideal for average lawns and solving 8995

Revolutionary new mower **FLYMO**

You've never seen anything like it. The 19" Flymo rides on a cushion of air, just like the famous military hovercraft. Flymo is exceptionally maneuverable. It weighs just 30 lbs. and fingertip pressure is all that's needed to move it in any direction. It handles as well on hills and terraces as it does on flat lawns. With its ground-hugging design, it even trims under low-hanging trees, shrubs and bushes.

James Head, Bill New Books In **Cole Honored By Stanton Library:** By MARTHA BAKER **Stanton Students** Dogie Staff Writer By MIKE STONE

Dogie Staff Writer

The students at Stanton Junior High selected Bill Cole and James Head to represent them as students of the six weeks. They were honored at a Lions Club luncheon for this award. James Head, son of Mr. and Mrs. Harold L. Head, was chosen as the seventh grade student of the six weeks. His favorite sport is football in which he plays tackle and guard. During elementary school he went to Central, Northwest and Shirley.

Bill Cole, the eighth grade student of the six weeks, is the son of Mr. and Mrs. Floyd Cole. He enjoys sports and especially football. His favorite subject is English, Bill was in the allschool play this spring. His partin the play was that of the young brother Randolph. Bill attended Central elementary school before coming to Stanton.

Members of the bird-watching team at Cape Kennedy, Fla., strap aluminum snake guards on their legs and wade through mosquito infested swamps to defend their record of 200 species seen in one day.

HE IS RISEN

O God, who for our redemption didst give thine only-begotten Son to the death of the Cross, and by His glorious resurrection hast delivered us from the power of our enemy; Grant us so to die daily from sin, that we may evermore live with him in the joy of his resurrection; through the same thy Son Christ our Lord. Amen.
