

### The Turning Point

This view of County (and Juvenile) Judge H. C. (Hank) Williams is a composure-shaking ordeal for juveniles in Deaf Smith County who consistently break the law. Williams, widely-known and well-respected, follows the strong discipline (Staff Photo by Phil Duncan) method of juvenile correction.

## Starts March 1st

# City Trash Fees Raised 50 Cents

Commission

Ist In Years

By DUDLEY LYNCH News Editor Residents will begin paying 50 cents more per month for trash collection, effective with the March 1st billings, after city commission decision Monday night to raise — for the first time in years — the

Trash fees will be upped from 75 cents to \$1.25 monthly. The action, approved unani-mously after what Mayor Ray Cowsert only half-jokingly remarked was "over four years" of discussion, was taken to put residential trash and garbage services on a paying basis. Pickup of trash on a once-aweek schedule from the city's

### JUDGE WILLIAMS ON DELINQUENCY:

# Backs 'Seat Of Pants' Therapy

Staff Writer

"The largest problem in the world could have been solved when it was small."

With these words, County Judge H. C. (Hank) Williams characterizes the juvenile situation and possible solutions in Deaf Smith County and indeed every city and county in the United States

"I suggest parents read every book they can lay their hands on concerning children, study all the works of the great child them out the window and raise their children by the seat of the pants," Judge Williams said firmly as he sat in his small office, where he faces hundreds of so-called "juvenile delinquents" every year.

## Cites Court Record

Williams, upon being elected judge of this county, automati-cally inherited the job of Juven-

ile Judge. "Our juvenile court in Deaf Smith County has a very suc-

cessful record. I honestly feel the reason for this is the 'gettough policy' which is applied by the court," he interposed.

"There has been a growing concern in recent years that juveniles were getting out of their crimes with a mere slap on the wrist. This is not true," Williams stated emphatically, pounding his desk.

Many times when a youth appears before Judge Williams, he is given a severe tongue-lash-ing, explaining what the crime could possibly bring them in reprisal for their wrong doing.

blished with a juvenile upon entering the courtroom is that he or she will address the court with 'yes sir' or 'no sir.' A good 60 percent of these juveniles will prop their feet up in a cocky manner and say 'with' and cocky manner and say 'huh' and

This is not allowed. It is a good indication of the poor training they have had at home, which is probably the reason they are in the juvenile court in the first place," Williams

## JANUARY CLEARANCE

### Trash

(Continued from page 1) marked: "I don't know of anyone who has trash fees lower than we do." He said most cities of comparable size have rates starting at \$1.25 and higher.

Commissioner Lloyd Sharp suggested that the city might want to raise the rate to \$1.50 "and then, if later on, we have to give a little more service, we could do so without raising the rates.'

Both Bayne and commissioner Albert Maxwell felt a rate of \$1.50 would bring on strong criticism from the customers, and Maxwell added he didn't feel the city's finances "are in that bad of shape."

Strict Enforcement (Bayne said the raise in rates still would provide no revenue for retiring the debt to be incurred by the planned purchase of an incinerator for the city dump grounds. He said the incinerator, which will cost an estimated \$70,000, will be paid for by surplus funds from the city's operating revenues over a period of two years.)

While discussing the trash tees, commissioners indicated they favor stricter enforcement of the city's trash ordinance which requires home owners to "police" their trash disposal areas and, among other require-ments, have lids on their trash barrels.

Thinks Drive Wanted
"I think 80 per cent of your people are going to want it (stricter enforcement)," suggested Bayne, and he added the others will probably have to be dealt with by legal process.

Of particular concern to the commission was a low-cost housing project in west Hereford, occupied largely by migrants growing problem to residents of the area.

The commission wholeheartedly supported legal action, and day through Thursday. Bayne - who said there have been some difficulties determining who should be filed on, ence and will be host to the because of the transitory nature of the housing occupants - as- day stay. sured them that action will be taken shortly.

### What Lutherans Teach

By Fred Beversdorf, Pastor "By grace are ye saved thru faith, and that not of yourselves; it is a gift of God; not of works, lest any man should boast." Ephesians 2,

There sure are lots of churches in the world, aren't there? The average person sort of feels that they are all pretty much alike. In many ways they are. They speak of God, of an afterlife, and give rules of conduct to live our present life. Yes; the churches perform a valuable function.

Why a Lutheran Church? Couldn't we get along without it? Aren't there enough now? Couldn't it just be submerged into all the rest?

Of course we could get along without the Lutheran Church, as such, that is, as an organization. The Church of Jesus Christ is not an organization, but an organism. There's quite a difference.

The simplest way to think of the contribution the Lutheran Church is to think of three concepts on which it is built. They are: 1) Man is saved by grace alone, 2) Man is saved by faith alone, and 3) The Scriptures alone are the final authority on all matters of our relationships to God and our fellow-man. We shall take each of these thoughts separately in the following weeks.

Thus you see the Lutheran Church does not claim to save you. God saves you in Christ Jesus. Nor is it merely called the Lutheran Church to say that is following Luther. Those followed teachings were called Lutherans by those who opposed them. They preferred to be called Protestants or Evangelicals. But the name has struck. And it stands for: 1) Grace Only 2) Faith Only 3) The Bible only.

What about those Herd cagers? I would be willing to bet there are some mighty unhappy Rangers at Perryton this week. It just was not supposed to happen, but it did tereford Whitefaces beat the Perryton Rangers 56-47 at

And the Herd would not be cought off guard as they eturned here Tuesday evening and put down the Canyon ples in the Hereford High Gymnasium, 87 to 64.

Things are looking a little better on the basketball front ow that the Herd has sacked up two wins.

The Perryton Rangers issued the Dumas Demons another loss, doesn't seem there is going to to stay tied with the Herd for be much that can stop them. the second place and Tulia de-feated Muleshoe to retain a perect record for both teams hree wins for Tulia and three Friday evening. The Harlem es for Muleshoe.

Might as well make a few tum Jr., amazed some 1,500 peruesses for Friday evening's sons in Hereford High School age schedule, which sees Can-Gymnasium with their antics. yon at Dumas, Perryton at Tulia and Muleshoe at Hereford. Hereford should have a com-

paratively easy time taking his leg in a game at Houston, from the Mules, but they are not a few days before he was scheda group to be taken lightly. They uled to play here. have improved with almost every game this season and are a things that happens before a young team just now gaining special event and the Jaycees their needed experience.

However, if the Herd is will- the matter. Everyone seemed to ing to work for a win Friday enjoy the game and the show evening, they should find one was well worth the money. in the Muleshoe Mules.

Canyon travels to Dumas for ed here in February, sponsored by the Hereford Optimist Club. have only been defeated by the It will feature the Harlem Stars Tulia Hornets. The Eagles are vs. a local amateur team called 1-2 at present and the Demons the Hereford All-Stars,

I will take the Demons over for the March of Dimes, with Canyon, but this is not a team all proceeds, except that conto take lightly. Roy Keival, head tracted to the Harlem Stars, go mentor for the Eagles, is one of ing to the March of Dimes. the best. He was assistant coach This is a very worthwhile cause under Terry Cully at Pampa, and should provide quite a bit when the Harvesters were noted of entertainment at the same for the state championship time.

In the final game, which pits of the newly formed Hereford Perryton at Tulia, I am going Gun Club this week. They are a to cross my fingers and hope very new organization, but are

These are very often shots in way. the dark but I think Perryton It looks like they are going to can beat Tulia. The game is at be really successful as they al-Tulia, but the Rangers are ready have 21 members and mafired of this losing. They are ny more inquiring about memnow 1-2 in district play and will bership

be out to unseat Tolia. It could very well stop the tide of wins, which seems to be traveling with Tulia. The Hornets apparently hope to post a district win their first season also sponsor a Turkey Shoot in District 1-AAA.

If they play as good away official programs of the club and from home as they do there, it

COMPILED BY BILL PHILLIPS

CARL MILLER

## Former HHS Cager Standout For NTSU

Carl Miller, former Hereford High School basketball great, has been a starter for the North Texas Eagles during their entire season of 15 games thus far, with the Eagles having a 6-9 record.

Miller, a junior, is averaging eight points per game for the Eagles, after scoring a total of 120 points during the 15 games played thus far.

Miller has hit 45 field goals after 113 attempts for a percentage completion of .398 percent. He has hit 30 free throws out of 44 for a percent-

age completion of .682 percent. Miller is fifth in total scoring for the Eagles and is second tallest Eagle as he stands at 6.7.

He is the son of Mr. and Mrs. Darwin C. Miller of 110 Fuller and a 1961 graduate of Hereford High

Paced by 7-Footer

The Eagles are paced this season by Willie Davis, a Sophomore who stands exactly 7-feet tall, and is averaging 17.2 points per game and has a total of 258 points scoring.

Miller has 90 rebounds this season and has been charged with 30 fouls.

Miller lettered at Hereford High School three years and was on one of the better squads ever to come out of Hereford High School.

## Tied With Rangers For Second Place

By PHIL DUNCAN **Brand Sports Editor** 

A hustling bunch of Hereford Whitefaces, hitting nearly 56 percent of their field goals, the best percentage of the season, came on the Hereford High School Gymnasium floor Tuesday evening and thoroughly trounced the hapless Canyon Eagles 87-64 in a hard fought match.

time lead.

game of the season,

low 18 points.

Tom Lair was leading scorer

A combination of Strange and

to the lockers with a 39-27 half

Strange hit 67 percent of his

See EAGLES Page 5

The game threw the Herd into tie for second place with the for the Eagles with 17 points. Perryton Rangers who defeated the Dumas Demons 65-45 at Du-Hodges, quickly disrupted the Eagle defense and the Herd went

Robert Strange led the Herd all the way as he set the scoring pace with a total of 19

Start Slow

The Herd started off slow in the first quarter, registering only 20 points while the Eagles

Coach Cuby Kitchens started his full court press at the end of the first quarter and finally pulled the guards back to about mid-court, where they succeeded in stealing the ball time and time again and fast breaking to the goal for an easy lay-up.

The Eagles managed to tie the game at 20-all at the start of ball from the alert Whitefaces. the second quarter and that was Strange carried the ball the

as close as the Eagles came to the Herd in the entire game. distance of the court after taking rebound and popped the net with a beautiful set shot, which gave the Herd a 24-20 lead.

Play Tall Eagles

The Herd gave up more than slx inches per man in height, still managed to defeat the Eagles on rebounds and tie

Strange continuously stole the court in the first half and drove all the way to the basket, easily sinking the layups.

On several occasions, when Strange was covered up by two he would feed the ball to Steve Hodges under the basket, and Hodges would execute nearperfect hook-shots for two more

The starting five for the Herd hit in the double figures for the first time this season.

Kenny Justice had his best night of the season, as he scor-ed 13 points, hitting seven of them in the final two minutes of

Steve Hodges had one of his better nights as he chalked up 12 points, while Joe Childers had 11 and Gene Duvall had 10.

Robbie Leffions neared 'the double figure mark as he had

## Hereford Gun Club HHS Releases 23-Page Book Is Formed

the Hereford Gun Club was held last week at the Hereford State Bank and Delbert Bainum was elected president of the newly formed organization,

Larry Summers 'was named president of the organization and Ralph Owens was elected to the position of Secretary-treasurer. The club has been in the formation stages for over three months, but this was the first official meeting and election of officers for the group.

21 Members

They have 21 members at pre-sent and membership is open to the public, Bainum said. Duesare \$10 annually for members. We will mostly have competition among ourselves and practice, but we have several trap shoot events in the planning

stages and hope to enter olub competition with area clubs," Bainum said. 'The first official event of our club will be a benefit turkey shoot for the March of Dimes, which will be held at the local

trap shoot on the south end of Lawton St. in Veterans Park. "We plan trophy shoots in the following months and plan to attend area shoots."

Meet On Sunday

The club will shoot every Sunday afternoon beginning at 2 p.m. and Bainum said anyone

### ON FT. SILL TEAM

## Jim Curtsinger Is Army Coach

Former Hereford High School basketball great, Jim Curtsinger, is coach this year for the basketball team at Fort Sill, Oklahoma, where he is stationed

Curtsinger is a 1959 graduate of Hereford High School and attended West Texas State University and earned three letters while there.

He was leading scorer on the Fort Sill Team last year and is player-coach this year averaging 20.5 points per game.

2 Little All-Americans

Curtsinger has two little All-Americans, Jackie Jackson and Lindbergh Moody on his roster. Jackson and Moody are the top two scorers in group league

play this year.

The 6-4 Jackson can do everything and do it well. The former Harlem Globetrotter is a phenonenal jumper, and dunks the ball and blocks shots in true style of Bill Russell and Wilt-Chamberlain.

When blocked out of the mid dle he tears opposing defenses to shreds with jump shots from

the corner. Moody is a tremendous playmaker and outside shooter, and almost impossible to stop in a one-on-one situation. His pinpoint passing twisting jump shots and uncanny drives have made him a big favorite with

### Goose

(Continued from Page 4) end of the court just as the referee approached it.

On one occasion, Tatum bounced the ball off the top of He had tried unsuccessfully to revive one of his teammates who had passed out in the middle of the court and ran to the edge of the court, jerking the shoe off of a young girl and holding it near the player's face. He jumped up hastily and provided the audience with endless laughter:

"We had a real good turnout and appreciate the reception the Harlem Road Kings received by the TRA as champion among here," Ralph Owens, co-chairman of the event for the Jaycees

"It is certainly regrettable scored in the Delaware Handi- that Goose, Senior could not apcap, Keeneland's Spinster and pear here, but this was just one Dub Curtsinger of Hereford. the Falls City at Churchill of those unavoidable events," Or They attended a game in Law. wens said,

JIM CURTSINGER . . named coach

the crowds, all year. These comments were by Sports Editor Paul Canino of the Lawton Constitution Press.

Editor Praises Curtainger Canino praises Curtsinger in his column in the Constitution Press saying, "The 1964-65 edition of basketball at Fort Sill will feature one rookie coach and several veteran cagers.

"Mentor Jim Curtsinger will take charge of the Sill entry in Army basketball competition for the first time. Curtsinger played on last year's team, but is moving into the driver's seat this

"Jim isn't going into it cold, though. He earned three letters in basketball at West Texas course his head and scored two points. State University and has a degree in physical education, He plans to coach high school ball when he leaves the Army. Predicts Good Team

"As for the team, Curtsinger feels this team has a higher potential than last season's club. He'll be looking to Terry Easter, holder of the high scoring average in group bails to be the big gun," Canino concluded. "There's no reason why we

## Several Solons Attending D. C. Inauguration

Texas Press Association

AUSTIN - The 59th Legislature, faced with the heaviest work load in state lawmaking history, eased into its second week with some top Senators and Representatives on the absent list. A good many legislators took off for Washington to attend the inauguration of President Johnson.

These events highlighted the Legislature's opening week: Rep. Ben Barnes of DeLeon was elected Speaker of the House by acclamation. He is the youngest speaker named

since reconstruction days. Sen, Tom Creighton of Mineral Wells was named president pro tempore of the Senate, to preside when Lt. Gov. Preston FOR RENT Nice Trailer Space show that there is a constant Smith is not present. In choosat Danforth Trailer Court. EM and growing demand for adult ing Creighton, the Senators went against tradition when they passed over Sen. A. R. Schwartz of Galveston, who was next on the seniority list. Schwartz has opposed closed door sessions.

A record \$3,500,000,000 budget bill, calling for an increase of \$97,300,000 in general revenue spending, was introduced in the Senate. Proposal calls for \$567. 300,000 general revenue spending, compared to \$599,500,000 recommended by Gov. John Connally.

Lieutenant Governor Smith named full membership on 24 Senate standing committees. The Senate was thus organized and ready for business on the second day of the session.

In the House, Barnes - whose speakership campaign had to be the advantage of lease-pur- conducted in a few days due to unexpected appointment of ex-Speaker Byron Tunnell to the Railroad Commission - conferred with members day and night

### HIGHLIGHTS AT AUSTIN

appointments there. Representatives drew priority

numbers for bills. Both houses complete appoint ments of employes, other necessary routine and marked time before the big battles ahead. Despite controversial decisions to be made on congressional and legislative redistricting, big fi-nance and other matters, Smith To Position In

and Barnes expressed confidence the Legislature can complete its work within 140 days. But some lawmakers weren't so BETTING BILL SHOWN

The battle over whether Texans are going to bet on horse racing has begun again. This time Rep. Maurice Pipkin of Brownsville is introducing the race track betting bill. Last session Rep. V. E. (Red) Berry of San tion earlier in the year, Four Antonio couldn't get it through the Legislature. Pipkin's bill would allow both

Thoroughbred and Quarter Horse as first in tryouts held earlier racing on licensed tracks. Also, this month, collect taxes from the track op-erators. Before a track could tors Meeting to be in Dallas Annual March of Dimes Drive be licensed in a county, voters Feb. 11-13. The 250-member choir in that county would have to call and approve a referendum.

The bill is backed by Texas All-State Band, Choir, and Or-Racing Association, which has chestra, under the direction raised more than \$150,000 from some of the most prominent men in Texas ranching and business. Opposing the association will be a group of businessmen being organized by the Texas Council highest honer available to a high of Churches and the Texas Bap-school choral member in Texas," tist General Convention.

Pipkin said the state would son. "This is even more of an get \$20,000,000 a year from a achievement when you consider sliding tax of from four to six that this region is about the per cent on all bets and that hardest region in the state to the state would get millions more make All-Sate Choir." from increased tourism. One of the first men to speak in oppo- compliance," said the commissition, Rep. J. C. Whitfield of sioner. Houston, said "The plain facts GOVERNOR'S APPOINT. are that legalized racing and MENTS - William E. Berger gambling not only damage the of Hondo was appointed by Govmoral fabric of our people, but that the revenues they bring in term on the Texas Water Comare more than offset by losses mission. Judge

Williams explained the law has no provisions for raising children, and does not see it as a government responsibility. The ge explained that "98 percent" of the delinquency could have been prevented by disci-

pline applied in the right places. "What some of these parents do not realize is that once a youngster appears in juvenile court, the court may place the parents on a \$700 cash bond for each juvenile in their custody, and the bond will be immediately forfeited if the child does not behave," he revealed.

### Judge Calls Hand

"This has not been the policy of the court in past years, but in some cases it may well be the answer and probably will be from the courtroom," Williams applied if the present situation

three youths who had been in-One youth, in his first appearance before the judge, was obviously frightened at the prospects of tacing the court. The second youth was more arrogant, managing a smile and a few outbursts of uneasy laughter as the trio and their parents a- quor at the time of their arrest. waited the judge's appearance in his courtroom on the second floor of the courthouse.

No. 3 - a "regular" before the judge - was cocky and overtly arrogrant.

Judge Williams solemnly lectured the first youth, then after a stern warning - gave him another chance.

The second youngster, who quickly lost his outward facade of confidence under the judge's business-like stance, received in turn an even more stringent rebuke from Williams and placed on probation.

And the last boy, standing in contempt of the court and smirking at the judge's remarks, was ordered to jail and his parents sent packing off for a birth certificate, the first step in processing papers for the trip to the reformatory.

"All of those boys were ordered to get haircuts immediately and keep it short as long as they appeared before me. Their hair was long, dirty and for sanitary reasons, I felt it advisable to instruct them to cut their hair," Williams said.

"It is a hard thing," Williams said in his chambers that after- ruled by youngsters. It is surnoon, upon sentencing the boy, prising how many policies are

results that are derived from spectators in their own homes, this stay down there. It teaches the youth some respect for law and order, which he has never grief. had before.

"Each month, a report on the youth is sent to the judge telling of the progress of the youth. A complete resume of his behavior, attitude and training is reported to the court.

During his more than four years in the juvenile court, Judge Williams has seen only seven youths return from the reformatory and be sentenced to the penitentiary.

"These youths were destined for the pen from the beginning. They would be picked up for stealing almost the day after they left the courtroom. These boys and girls were beyond any help that could come

Juvenile delinquency is not The judge recently dealt with something that can be swept under the rug and forgotten, nor volved in a fight at a dance. is it a factor that should be exploited and smeared every-

> "It is something that can be controlled, if it is caught at the beginning. There is a growing concern over how many of the youths were consuming hard li-"Where are they getting this?

Why are they allowed to consume this almost at will? The court has no jurisdiction over a youngster until he is brought before the court for action.

"Often times it is too late to stop this youth from drinking after he has already developed a taste at 14 or 15 years of age. This is one problem which could and should be nipped in the bud.

"Any parent who has the misinformed idea that they should raise their children to hold their liquor are sadly misinformed and will ultimately pay for their stupid deed.

In wrapping up the juvenile problem, Williams said that youngsters never had it so good, but by the same token, there are millions who warrant every bit of goodness that we can possibly extend to them."

### Rule By Youngsters

"There are millions of industrious, studious, courteous youngsters who are our scientists, instructors and businessmen of tomorrow. Frankly, they are ashamed of the crime figures of their age group as are the parents, or their elders.

"Today American homes are

"to send a boy this age to the dictated by the youngster. The community does not owe recreation facilities and the world does parents, who years ago, were "It is surprising, however, the both judge and jury are now not owe them a living. "They owe the world something; they owe it their time

### **Program of Sewing Tips** For Dawn H.D. Club

Dawn Home Demonstration Club met Friday in the Dawn Community house for a program by Mrs. Argen Draper and Mrs. Jim McCabe presiding over the

business meeting. Mrs. Draper's program included instructions for the home seamstress and finishing a skirt, with particular attention to the new method of making skirt bands.

Club books were filled in and committees were appointed by the president.

Refreshments were served to Mrs. Jim McCabe, Mrs. Orval Galley, Mrs. H. D. Fowler, Mrs. Ray Stewart, Mrs. J. B. Caraway, Mrs. Roe Cox, Mrs. Carl Catby and guests Mrs. H. V. McCabe and Mrs. Argen Draper.

Mrs. Palmer Norton will bring the program for the next meeting Jan. 29.

Officers said Briones fled the scene of the accident, but police were furnished with a description of the vehicle and arrested Briones a short time later. He was cited by officers for

leaving the scene of an accident and negligent collision. Damage to the cars was estimated at \$25 each.

### Local 4-H Club Members Do Well At Show

The local 4-H club members took several honors in last week's Golden Spread Western Junior Livestock Show in Here-

The senior livestock judging team composed of Steve Jesko, Joel Williamson, Larry Minks, Joyce Bezner and Toni Beauchamp (alternate), won third place honors in the 4-H division. The junior team: Tommy Bezner, Steve Olson, Bruce Battey, Hal Easley, and Rodney Brooks, (alternate) placed 6th in the same contest. Both teams will enter the Amarillo Livestock Show judging contest Monday.

Steve Olson showed two steers and won the Reserve Grand O. Walker, 1963 Chevrolet pickmpion steer and the 2nd place middle weight. Nancy Minks placed 2nd. This steer was actually owned by Nancy and Margaret Minks. Gerald Witkowski placed 4th; Donna Olson placed 7th and 10th; Rodney Brooks showed two steers, one placing 6th in heavy-weight and the other 6th in the middle weight, and Mike McCathern placed 13th. All nine steers made

the sale and sold for good prices, Roger Sanders, Marvin Smith, Tommy Bezner, Mark Busby, and Ron Vasek all competed in the swine division, but Mark had the only barrow to make

NEW CONCEPTION IN FERTILIZER . . . Tide's Prescription-Mix fertilizer is blended from materials to fit your exact plant and soil requirements

HOW TIDE'S TILT BOX SERVES YOU . . . Tide's Tilt Box pictured below is a water proof, all weather container It keeps your fertilizer dry, fresh and free flowing. This Tilt Box puts 14,000 pounds of fertilizer where you want it . . . at the most convenient location to the field and high enough off the ground to make loading any type of application equipment easy.

TIDE SERVICES . . . Tide grower services and products are planned to save time and labor . . . help take the guesswork out of farming. Agricultural consultants, Free Soil Tests, Tissue Tests, Tide's custom-designed, weather-

proof, delivery and storage equipment, and modern application equipment cut your production cost.

ECONOMICAL . . . Ease of handling fertilizer in Tide Equipment reduces cost . . . saves time and labor. One man can fill an applicator or a spreader in 2 to 3 minutes with Tide Fertilizer, simply by opening a gate. With "Prescription Mix", you buy only the Nitrogen, Phosphate and Potash and or the trace elements your soil tests indicate you need. High analysis fertilizer cuts material handling costs. No bags to handle (unless you want it bagged), and no storage porblem, as Tide's Tilt Box, holding 14,000 plus pounds provides moisture tight delivery and storage on the turnrow.

### Health (Continued from page 1-Sec. 2)

Texas migrant goes to work.

4. To provide field nursing and sanitarian activities in the form of home and camp inspections, with follow-ups and education in sanitation, general health, nutrition and hy-

5. To promote education for community leaders and influential groups on the plight of the migrant.

6. To encourage special health education for the children of migratory farm laborers by supplying the teachers of the ten special migratory schools with enrichment materials and films. This will involve about 5,000 children.

The need of the migrant is great while at home, but his problems and needs are multiplied while on the road. These people who harvest the nation's crops and add to our total economy, realize very little for themselves. The average wage of the migrant laborer is about \$1,000 per year

Society Must Help we are to maintain this needed labor force in sufficient numbers, we must encourage communities to accept the migrant as contributing members of society. Moreover, we must help migrants, to see themselves in a more favorable light and challenge them to improve their

Finally, for the time at hand, we must consider their plight and try to provide: (a) child care and education for the children while on the road, (b) child labor protection in the form of laws, which will foster school attendance, (c) emergency help to be provided when serious accidents or illness exhaust their financial resources, (d) teaching of homemaking skills to enable the migrant homemaker to learn home economics and rudimentary nutrition, (e) provide safe and a dequate transportation The women of the islands off through laws, (f) insure respon- the shore of this Dalmatian city sible crew leaders by law en- still wear dresses made from a forcement and (g) to provide fiber which they obtain from

### The Tiger of the year was just named Car of the Year by Motor Trend.

If that isn't enough of a hint, try Quick Wide-Track. (This is their year.) Or Turbo Hydra-Matic, the new transmission you can order that does away with roaring between shifts. Coupled with any of the quicker engines for the '65 Pontiac, it saves the roaring for whenever you need it. When you don't need it, the extra-potent engines let you just loaf along. This loafing gives you the kind of economy you wouldn't expect from a looker like the '65 Pontiac. See your Pontiac dealer. He'll show you all 32 Pontiacs that are the "Car of the Year." They're the buy of the year, too.

## \$168 Million New Telephone Construction for Texas in 1965

Continuing improvements in telephone system will make your service even more dependable and valuable

Telephone service in Texas ranks with the world's best. It always has. Even so, in 1965 Southwestern Bell will spend another \$168 million to make it better still. This construction program is the biggest in history. It is necessary to provide

for the growing telephone needs of Texas-But it's more than that.

It also is an intensified effort to make even better the service you already have, whether you live in a big city, a small town, or on a farm or ranch.

Our objective is to make your telephone service-more useful, dependable, convenient and valuable than ever before.

Texans will also benefit economically from this telephone construction program. Because hundreds of individual projects reach into virtually every community served by Southwestern Bell, the economic impact will be significant and widespread.

New jobs will be created. We expect to add 500 new telephone jobs in Texas in 1965 - bringing to 25,000 the number of people on our payroll in Texas.

But more important will be the economic boost for the hundreds of Texas firms which sell supplies, services and materials to the telephone company.

## Here are some of the things we'll do in 1965 to make your telephone service better

**NEW STORMPROOFING** 

In 1965, we'll put more than 500 additional miles of telephone cable underground, because that's the safest place for it. Safe from wind, rain, hot weather, cold weather, stormy weather. This will add to the dependability of your long distance service.

### DDD IMPROVEMENTS

For those customers who have Direct Distance Dialing, service will be faster and easier than ever before. Complex new testing and trouble-reporting equipment is being built into the system to help maintain the quality of transmission and quickly trace and remedy problems that might affect your service.

### NEW BUILDINGS, WORK CENTERS

Southwestern Bell will erect 15 new buildings in Texas in 1965. The largest will be the new \$13 million South Texas headquarters building in Houston. Other new telephone buildings will be erected in Amarillo, Midland, Dallas (two buildings), San Antonio, Beaumont, Rosenberg, Cleveland, Waco, Pasadena, and a three-building complex in northwest Houston.

Additions are planned for telephone buildings at Fort Worth, Dallas, Amarillo, Forney, Monahans and

Also, 16 new installation, repair and construction centers will be built across the state.

### **NEW MICROWAVE MAGIC**

The magic of microwave will provide thousands of new voice ways for long distance calling in Texas this year. For example, new systems will link Sweetwater and San

Angelo, Fort Worth and Waco, Houston and Beaumont. Via a network of such microwave antenna towers and transmitting stations, your phone calls are relayed from point to point with the speed of light. WE are looking ahead to another year of telephone progress in Texas in 1965: · Your telephone service will be a better buy, dollar for Texans everywhere will benefit from the surge of new dollars, created by our expansion program, into the state's economy.

Southwestern Bel

### Livestock Pests **Eradication Cited**

MISSION (Special) — Screw-worm eradication officials are looking forward to another successful year for the program, although many stockmen feel last year's results leave little room for improvement,

Only 65 Texas counties were reported to be infested by the livestock pest in 1964, and only 223 cases were discovered. In contrast, during 1963, a total of 4,916 infestations was detected in 182 counties, while 49,484 cases occurred in 242 counties in 1962.

Fourteen Next Door New Mexico had only 14 outbreaks last year compared to nearly 1,500 the previous year. Oklahoma, Arkansas and Louisiana had no infestations during

Eradication program pilots flew nearly 2.7 million miles in dispersing approximately 4.7 billion sterile screwworm flies in Texas, New Mexico, southeastern Arizona and along the border in Mexico, Sterile flies, reared in a huge plant near Mission, mate with native flies and prevent production of offspring.

Eradication activities have reduced annual losses to Southwestern livestockmen from \$100 million to less than \$1 million since the program began in February 1962.

Eye Further Reduction Officials think they can reduce losses even more in 1965 by strengthening the barrier zone between the United States and Mexico where screwworms can exist year-round. In this barrier, which is several hundred miles wide and runs from the Gulf of Mexico to the Gulf of California, sterile flies are dispersed routinely to prevent fertile screwworms from migrating into "clean" areas and causing new outbreaks.

Stockmen can also help by frequently examining their animals and promptly reporting all infestations. No screwworm's have been reported in the Southwest since early in December, so outbreaks can be brought under control quickly if they are detected during early stages of development.

### **Indian Bug Helps** Shellac Industry

By ANDY LANG AP News features

The next time you apply shellac, remember you couldn't have done it without the help of a little bug from India. For this insect, called the Lac, converts the sap off trees into a gum-like material which is dissolved in alcohol and becomes shellac as we know it. In its unbleached form, it is called orange shellac; bleached, it is called white or clear shellac.

If I were asked to give you a single tip that would help you to get a good result when using shellac, it would be this: Apply it in several thin coats rather than one or two thick coats. Although, as I said, shellac al-ready has been commercially mixed with alcohol, it should be further thinned by you - also with alcohol, of the denatured variety. Every wood finisher has his own ideas about how to thin shellace. And there is a professional table which tells you how to make a mixture depending on how much gum has been dissolved by the manufacturer in a gallon of pure alcohol. My own theory is that the beginner should use a 50-50 mixture and then, after he has used it a few times, make a percentage change only if he feels it necessary. More often than not, he will discover that mixing equal amounts of shellac and denatured alcohol will handle all jobs.

One of the great virtues of shellac is that it can be used as a sealer, a primer or a final finish. It should be sanded between coats where an extra good finish is desired, although the sanding can be skipped where the shellac is intended primarily as a protecting coat-

Shellac can be applied with a brush or a clean, lintless cloth.
It should not be applied during periods of high humidity or to a' damp surface. When this is done, the finish may develop a slight whitish appearance.

One other small but important point. Shellac deteriorates with age. Try to buy the smallest amount you need for the particular job you are doing, unless you expect to use it again in a few weeks. No matter how tightly you seal the container after using shellac, it will begin to lose its good characteristics after six months or so. Once applied, it has a long life.

other, the blessed greatness of our governmental form is sym-As the Constitution prescribes, the President will say, "I do solemnly swear that I will faithfully execute the office of President of the United States, and will do to the best of my ability, preserve, protect and defend the Constitution of the United States." Let no enemy of our system believe that these words and radio in homes and busiare mere formality; they are sanctified for the people as for, the root strength of the Repubthe Presidents who say them.

The armor of the United States is its Constitution, binding its people in unity and liberty, and the words of the oath are part of the Constitution. The armor is welded by its guarantee that free men shall freely choose their leaders. For this reason, Inauguration Day is as much a day on which the American people honor themselves and their forefathers, as it is a day on which we honor a President.

Jefferson's Address

Not a minute's walk from my office here is the intersection of New Jersey Avenue and C Street S. E. From a house at this intersection, on March 4: 1801. Thomas Jefferson walked the 2 blocks to the new Capitol building to be administered the oath. Jefferson's 1801 inaugural was the first held in Washington, His and the crowded House gallery,

Jefferson said: honest men fear that a republi- Smith County, Texas, as shown "I know, indeed, that some strong, that this Government is not strong enough; but would the honest patriot in the full tide of successful experiment, abandon a government which has so far kept us free and firm on the theoretic and visionary fear that this Government, the world's best hope, may by possibility want energy to preserve itself? I trust not. I believe this, on the contrary, the strongest Government on earth, I believe it is the only one where every man, at the call of the law, would fly to the standard of the law, and would meet invasions of the public order as his own personal concern. Sometimes it is said that man can not be trusted with the government of himself. Can he, then, be trusted with the government of others? Or have we found angels in the forms of kings to govern him? Let history answer this question."

History has answered Thomas Jefferson's question.

### DISTRICT SAYS Deaf Smith Is Tops In New Well Drilling

Deaf Smith County had more ew irrigation wells drilled in 1964 than any of the other 12 counties in the High Plains Water District, a report prepared by the district said.

The county's total was listed as 290 new wells drilled out of a total of 414 permits issued. The report also noted that 10 replacement wells were drilled and that three of the new well

attempts were dry holes.

It was the most active year since 1957 for drilling irrigation wells in the district, the report added. A total of 1,985 new wells were drilled in the 13-county area as compared to 2,137 in

Only Lubbock County exceedwith 414 but Deaf Smith residents drilled 42 more new wells. The water district noted that with the large number of new

county offices during January, 1965 may set a record for well

wells recorded in its offices. York (including New York City), mountains, desert, vibrant cities

### Yes, there is a difference in milk

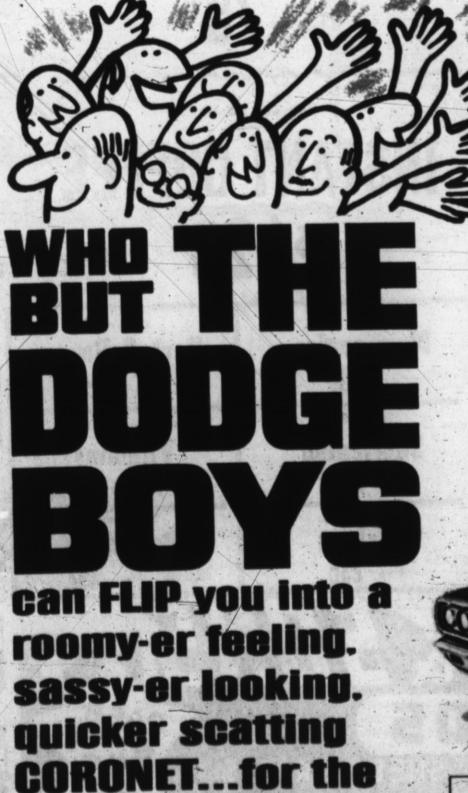

Borden's Milk is checked for quality 23 times to guarantee good taste

You get milk that is richer, better than required by law.

Because milk is produced, bottled and sold under governmental regulation, some people think all milk is alike. Federal, state and city regulations do assure certain standards of quality. But Borden's Milk is produced to a standard of excellence in excess of legal requirements. We take the extra steps to make Borden's Milk better. Twenty-three specific checks are made between farm and final bottling to assure you milk that stays sweet and tastes good.
