**HELP! HELP!**  
Pity, O pity the fat man, when the sun beats down from above; my heart goes out that man, which nobodys seems to love. I feel for the lumbering lubber, as he waddles the red-hot street. Excuse me while I blubber a wall that is hard to beat.

Once he was trim as you are, he followed the dear old plow; but he found a digestion somewhere, and Jeeminy, look at him now! Moppin' his brow unceasing, his visage is fiery red—his ponderous left increas' he's big as a feather bed! Then drop a tear for the fat man, as he wallers along through life; there's nothin' so sad as a fat man, unless it's a fat man's wife. With the price of shippin' makin' an' fool a raisin' by urts, these ain't much hope for the fat man when you think of the size of shorts.

### Catholics Appreciate Attendance By Protestants

Thursday was the Feast of Corpus Christi. It was celebrated at St. Anthony's Church by a sung Mass in the morning with Procession of the Blessed Sacrament around the inside of the Church. The Parishoners, most of whom came from the outskirts of Hereford, remained for lunch served in the little Settlement House opposite the Church, and then the Missionary at 3:00 o'clock told them a wonderful story of how the now famous Missionary Society, the Union-That-Nothing-Be-Lost, had its origin at Graymoor, New York, ten years ago, and how last year its income was \$200,000, helping Catholic Missionaries in all parts of the Missionary World.

The name "Union-That-Nothing-Be-Lost" he explained, was derived from the command of Christ to His disciples after he had fed five thousand men, besides women and children in the wilderness with five barley loaves and two small fishes to "gather up the fragments that remained, that nothing be lost."

Father Paul, at the conclusion of his sermon on Thursday night, expressed his great satisfaction at the way the non-Catholics of Hereford were attending the evening service. He stated that one of the prominent members of the Congregation had been asked by certain of his Protestant neighbors whether they would be welcome at the Mission, and he declared that if it was a question whether the Catholics or the non-Catholics would be the more welcome during the Mission, the answer would be in favor of the non-Catholics.

The hours of service on Sunday will be 10:00 o'clock in the morning, 3:00 o'clock in the afternoon, and 8:00 o'clock on Sunday night. Sunday evening Father Paul will explain why he became a Catholic. The Mission will continue through next week ending Friday, June 23.

**A LITTLE ADJUSTMENT**  
Wouldn't it be a great thing if everyone of us was his own Chiropractor—not worryin' so much about our spines, except to straighten the corkscrew spine brigade—but generally goin' in for adjustment. Here we've got this great and glorious world handed over to us an' we're makin' a whole lot of rumpus because we haven't got the furniture in the right place an' the house is upset. Instead of settin' to work to straighten up, we sit down in the confusion an' despair. When the good wife empties the dust pan in to the yard she puts the little particles of dirt where they belong. Every grain of sand fits in. It's dirt only when it's put where it doesn't belong. Let's get down to tryin' a little adjustment. There's lots of crooks that would be gen-

It was decided if he had no other time he could give us other than the date set, he would have the date extended and begin here Monday after the fourth Sunday and teach a ten day school in the afternoon. If we mistake not, he was to be paid \$65.00 for the ten days and everybody who could would come and get the benefit.

#### FRIONA

The meeting of the Panhandle Association of the Congregational churches, which was held here during the latter part of last week, was one of the most instructive, interesting and progressive in the history of the association.

The meetings began on Thursday night with Rev. H. S. McKenzie of Springlake, as moderator. Rev. McKenzie preached one of his most helpful and scholarly sermons at that session and outlined the program as arranged for the following sessions. Other qualified workers from a distance who were present and took prominent parts in the program were Rev. Malcom Dana, D. D., of New York City, Rev. F. J. Estabrook, D. D., of Denver, and Rev. E. A. Ricker, D. D., of Dallas. Dr. Dana is superintendent of rural community church work and gave two splendid lectures on the work being done by his department. He went into detail in his explanation of what is known as the "Larger Parish" movement. He held the rapt attention of his audience in his recital of what has been accomplished along this line and the manner of accomplishing the work in other localities. An effort will be made to organize a Larger Parish in the Panhandle in the near future. This work is something which a number of

our people are already deeply interested in. Dr. Estabrook is secretary of religious education for a number of the mountain and southwestern states and came fully prepared to enrich the minds of his hearers in regard to the work under his supervision. He is an able speaker and the energy with which he takes hold of his work is remarkable. Dr. Ricker, who is superintendent of the churches in the southwest, and who has been with us often, is no stranger among us and we were greatly encouraged by his words of advice and encouragement. He delivered another of his good sermons at the schoolhouse on Sunday night. Dr. Henry W. Tuttle, president of Kingfisher College, was expected to be here and present the value of college education for fitting

young men and young women for the ministry and other lines of religious work, but he was unable to be with us. Rev. Peyton was called away from the Sunday School Sunday morning to perform the marriage ceremony for two young people of this part of the Panhandle. The groom is an employee of the Hines and O'Brien cattle ranch a

few miles from town. Judge J. D. Hamlin, of Farwell, was here Monday posting notices of an election to be held here on July 8, on the question of issuing bonds for the purpose of securing funds with which to build our new school-house. The election calls for a \$70,000 bond issue. (Continued on Page Five)

# COAL Storage Coal

## Same Price Now as in July

We have reduced prices for June Storage to offset the freight reduction July 1st. Come around and talk this coal problem over.

Doubtless you have read press reports announcing a reduction in freight rates effective July 1st, which amounts to approximately 10 percent. It is likely the general tendency will be to defer the placing of orders for summer coal until this reduction in freight rate applies. If this proves to be the case it means that by next fall the demand for domestic coal will exceed production to such an extent that all mines will be hopelessly behind on orders, as there will be no way later on to increase production and get out enough coal to offset what might have been produced during the months of April, May and June.

In normal times a considerable amount of coal is stored during the months of April and May. This year no coal was placed in stock during those months. In view of this we feel that customers generally should arrange to put in coal during June, and thus do their part to relieve a situation that will become far more serious as cold weather approaches. The Railroads, and other big consumers of fuel are using considerably more coal this year than was the case in 1921. This increase in demand has to be met with a reduced output, brought about by the coal miners strike. One can readily see it stands to reason that if the domestic trade wait until July and August before stocking coal it will be impossible to anywhere near take care of their requirements, and meet the demand from other sources, which will have to be taken care of.

STORE IT NOW!—You probably will not be able to get it at all next fall and winter.

**GET TARIFF OUT OF POLITICS**

Elbert H. Gary, head of the U. S. Steel Corporation, and president of the American Iron and Steel Institute, puts much thought into few words when he states that revision of the tariff is an intermittent disease—that it appears if not with every session of Congress, certainly with every change in the administration.

The tariff seems to be an important political question, but it ought not to be a political question at all. It should, as the steel man points out, be decided strictly upon scientific principles and from the standpoint of fairness to every part of the country, to every department of human industry, to every line of employment and to public welfare.

There is nothing novel in this thought. The National Tariff Commission, at great expense to the country, studied the problem, gathered data enough to sink a ship, prepared reports, made recommendations and went through the usual multitude of inquisitorial gymnastics that mark practically every official "probe," and when it was

all over, everyone said it was splendid and then promptly went to sleep. The tariff being no longer needed as a pressing political issue, was set aside and forgotten. Now we have it bobbing up again, with the forces all set and primed to upset the business conditions of the country. Surely, it is time the public took the matter in hand to put an end, once and for all, to this perpetual economic nuisance. Regardless of whether men believe in high tariff, low tariff, tariff for revenue only, or no tariff at all, certainly they must unite in the conviction that mingling tariff with politics is as vicious as it is disastrous. When all is said and done, tariff schedule advocates always are selfish. They fight for their own interest. There may not be much amiss with this because in the last analysis obedience to intelligent selfishness means service to the majority. The danger comes when selfishness is armed with a political black jack. By all means get the tariff question out of politics.

**THE SEVEN NATURAL CRAVINGS**

Dr. Daniel Russell Hodgdon, authority on the science of dietetics, believes every housewife should examine the menu she prepared for friend and foe, and see if it contains the seven natural cravings of a healthy appetite. These are summed up as a bulky food, a muscle building food, a fat food, an acid food, a salt food, a sweet food, and finally a live food. The seven cravings, says the doctor, should be satisfied every day.

For guidance of our queens of the kitchen, bulk comes in bread, potatoes, cabbage, and other vegetables. Fish, eggs and cheese are muscle builders, olive and other oils are fats, while vinegar covers the acid requirement. Salts are salts and sweets are sweets, so that no explanation is needed, and thus we reach the seventh requirement, the live food, which means raw food such as oysters or clams or rare meats. All of which is interesting and doubtless enlightening. The doctor of medicine has provided his bit to the sum total of useful knowledge. May we now look for some doctor of economics to come forward with the seven requirements to enable the people to satisfy the natural appetite and yet remain out of the bankruptcy court. Perhaps it will require the seventh son

of a seventh son to provide the answer. It will be interesting to the poor devils who are sweating in the coal mines at top speed when coal is needed and then thrown out of work when the supply is thought sufficient, to read during their idle moments, and so improve their minds, just what their overworked wives ought to put on the table to keep the family in proper trim. "Surely humans had a glimpse of life, when, in *Les Miserables*, he caused that rich and noble lady, stirred by the sight of object poverty and suffering, to give in her generosity to the great French dervillet, a golden, magic set.

It has been estimated that a bushel of corn will produce 10 1/2 pounds of pork, gross. Then when corn is worth 25c a bushel pork should be worth 3c a pound gross; corn 35 cents a bushel, pork 4 cents a pound; corn 42 cents a bushel, pork 5 cents a pound; corn 50 cents a bushel, pork 6 cents a pound.

**36 Head Registered Duroc Jerseys**

I have got to raise some money and will sell at Public Auction, at my farm two miles west of Hereford, on the Tierra Blanco road, on

**Monday, June 26, '22**

my herd of Registered Duroc Jersey hogs, consisting of

9 Bred Sows and Gilts  
5 Open Gilts

2 Young Boars  
20 Pigs

This stuff is most all out of Texas Queen, a Pathfinder sow, bred by J. K. Burke of Crosbyton, Texas. She was farrowed March 20, 1919. She has farrowed five litters of pigs, with an average of fifteen pigs to the litter. They are sired by Select Orion, an Orion Cherry King boar, bred by Fred W. Boerner of Lubbock, president of the Panhandle Swine Breeders Association, and are bred to Cherry Sensation, a line bred son of Sensation Type, three times Grand Champion boar, owned by Alexander, Michie & Jones of Childress, Texas. Part of the pigs offered are out of this boar.

I have put in a lot of time with these hogs, expecting to make them the foundation for a large herd, but am bound to raise some money and they are going to sell regardless of price. My loss will be your gain. So don't fail to take advantage of this opportunity to get a start of real hogs at a time when you are sure to get them worth the money.

Boys! Here is your chance to buy a pig, and they are the right kind to buy. I promise any boy that buys one of these pigs to help him every way I can to make a success of it. It is a real pleasure to care for a pig of this class. Watch them grow into a big, fine sow, and you will be surprised how soon you will have a herd of your own.

Mr. Farmer! If you are going to need a boar this winter, why not buy one of these choice pigs, grow your own boar, and save the difference?

TERMS: Cash.

**DAWN**  
 The baseball fans who witnessed the ball game last Sunday afternoon on the Dawn diamond between Dimmitt and Dawn, had a real treat, as both teams played the game. Everyone went away well satisfied with the ball game as a whole, but the Dawn boys didn't like the results. As one of the Dimmitt boys remarked, "Our pitcher hasn't got anything but a horseshoe in his pocket." The Dawn boys agreed with him, because every ball hit was right in some fielder's hands, and you'll have to hand it to those fielders, because they were "there," only making one error during the game.

The Dawn boys get credit for two errors.

Here is the way it all happened, by innings: May, just up for Dawn, is thrown out at first; Mac up strikes out; Perkins, ditto; retiring side. Robinson, first up for Dimmitt, hit to second, thrown out; A. Patton strikes out; M. Patton, short to first. Dawn, Walker strikes out. Young singles, advances on Bodine's strikeout and scores when Hodges is thrown out stealing second. Dimmitt; Webb, short stop to first. Dimmitt; 2 to 1, Duree strikes out. Dawn, Greer, third to first; May strikes out; Hancock gets a two bagger; Mac 2 to first. Dimmitt; Woodburn singles but Knox Smith and Robinson strike out in succession. 1st of 4th; Perkins 2nd to 1st; Walker 2nd to 1st; Young hits to S. F. Dimhalf; Robinson hit by pitched ball; A. Patton walks; Alban singles, filling the bases; Woodburn singles, scoring Robinson and Patton; Perkins strikes out the next three up. Dawn, 5th; Bodine up, hit by pitched to 1st; Greer strikes out. Dimmitt ball, thrown out at 2nd; Hodges 2nd; Webb hit to ss, Alban 2 to 1; Duree

strikes out. Dawn, 6th; May ss to 1st; Hancock hit by pitched ball, is thrown out at 2nd; Mac pops up to it. Dimmitt; A. Patton, M. Patton and Webb strike out. Dawn, 7th; Perkins hit a line drive for two bases but is caught between 2nd and 3rd; Walker fills and Young is thrown out at 1st. Dimmitt; Alban strikes out; Duree, ditto; Woodburn hits a long drive to lf and scores on May's error in handling Knox's hit to 2nd; Knox thrown out at second. Dawn, 8th; Curtzinger substitutes for Bodine who sprains his ankle, 2nd to 1st; Hodges 3rd to 1st; Greer strikes out. Dimmitt; Smith fans; Robinson, 2nd to 1st; A. Patton pops to cf. Dawn, 9th; May singles; Hancock fans, Mac pops up to rf, and Perkins strikes out. Batteries: Dawn, Perkins and Mac; Dimmitt, Duree and Patton. Strike outs: Perkins, 17; Duree 7. Left on bases: Dawn, 2; Dimmitt, 2.

### DAILY MARATHON FOR WIFE FROM STOVE TO PANTRY

MONTGOMERY, ALA., Jan. 5.—Preparation of meals for an average family means a two-mile daily marathon for the housewife, statistics compiled for the conference of vocational workers of the South, in session here, disclosed. A pedometer attached to students in the kitchen of the model home at Livingston school showed this measurement for the stove-sink-and-pantry route covered during the period from bacon and eggs to dinner and dessert.

## Cut Out These Needless Steps With a HOOSIER

You will notice by the above clipping that the average woman walks at least two miles a day in her kitchen. But most of these steps are useless. Two million women, the ones who own HOOSIER Kitchen Cabinets, sit down at their work. They have practically no walking to do. They come out of their kitchen feeling as refreshed as when they entered.

You, too, will know this freedom from kitchen drudgery when you buy a HOOSIER. Be wise. Investigate.
