Hereford's Seniors Paint Well-Planned Picture For The Future

By WAIN MILLER
Staff Writer

Twelve years ago — when members of Hereford High School's graduating class of 1953 took their first hesitating step into a classroom — few had begun to ponder what the future would hold.

But the 185 students who receive their high school diploma Friday night have established their goals, for the most part.

In the years to come, a few will be known as "Doctor," some will be "Teacher," and perhaps most will be "Mr. and Mrs. . . ."

THE FUTURES which the 1965 graduates painted for themselves

in a study made by The Brand is a rosy one.

More than 70 percent will enroll in colleges, universities and business and vocational schools.

The 1965 graduating class — the largest in the history of Hereford High School — will leave as one with bright ambitions.

Their prospects for attaining their goals?

"Excellent," according to high school counselor Robert Thompson.

THOMPSON pointed out that the class as a whole apparently possesses the sharpest and best-informed minds to come out of Hereford schools, relying on na-

tionally standardized test scores as a measure.

Hereford High's 1965 seniors were among pace-setters in nationally administered tests of educational development and learning potential, Thompson said.

Other findings in the Brand's study include:

— A large majority of boys in the graduating class plan careers in agriculture or business after attaining college degrees, while more than 20 of the almost 100 graduating girls anticipate careers in teaching.

— LESS THAN HALF of the 1965 grads foresee returning to Hereford or Deaf Smith County to live after completion of col-

lege or service in the armed forces.

— Almost half of the students planning to seek higher education say they will probably work to help pay their way through school.

— Texas Technological College leads the list of institutions Hereford graduates plan to enter, while West Texas State University is a close second. The two schools together will enroll about half of the 1965 Hereford graduates who seek higher education.

— LESS THAN 10 percent of the 1965 grads said they expect to be married within a year.

— About one-third of the 50

boys who completed the Brand's questionnaires plan to enlist in military service after completion of high school or — if they're going — college. Some 25 said they would wait on the draft, and the remainder were undecided.

This year's Hereford graduates plan to attend colleges in scattered sectors across the western half of the United States. About one out of every seven grads who go to college will enroll in out-of-state schools.

BUT TEXAS TECH and West Texas State will probably enroll about half of the 150 or so graduates who attend college. In 1964, 24 of the 88 grads

who enrolled in college went to Tech, while 25 enrolled at West Texas.

This year, 39 students have said they definitely plan to attend Texas Tech and 36 have said they will enroll at West Texas, according to Thompson.

A total of 93 students listed Tech as first, second, or third choice of colleges to attend, while 83 mentioned West Texas as one of their first three choices, the counselor added.

WHAT WILL THEY STUDY?

A complete tabulation is not available, but the Brand's poll of some 70 students who plan to enroll in college showed the following:

Twenty girls said they would study for a teaching career. A total of 12 students said they plan degrees in business (eight boys and four girls).

Six boys hope for degrees in agriculture.

Three boys each plan college majors in industrial arts and engineering, two in architecture, two in accounting, one in music education and one plans to become a game biologist.

FROM THE 1965 graduating class may come two doctors, two pharmacists, a psychiatrist, a psychiatric social worker, a speech therapist, a physicist, and an interior designer, if the See AREA Page 2

Class Of '65: One Group That is Looking Ahead

9th Crippled Child Clinic Is Saturday

When he was 2½-years-old, the youngster fell on a stove and came away with a "horseshoe-shaped" scar on his face that he had prospects of carrying for life.

It was a gruesome, tragic occurrence.

But the child is 5½-years-old now and will return Saturday to Hereford for the third year to the Crippled Children's Clinic of the Oasis Shrine Club.

The scar — attacked in three Dallas operations by a plastic surgeon — is receding, and his doctor feels that two more operations will remove any sign of the marring accident by the time he is of school age.

THIS UNNAMED youth, and a thousand others with various crippling defects, have benefited from the clinic staged here annually by the local Shrine Club. The Saturday affair — to be staffed by 12 visiting specialists and medical doctors and optometrists from Hereford, Friona and Dimmitt — will be No. 9.

Infants to teen-agers, children from at least two states and possibly more will be brought here for examination during the all-day event at the Community Center. The children have been recommended by their family doctors and are indigent as far as medical correction is concerned.

Co-chairman of the clinic are Dub Reeves and Palmer Norton. They will be aided by about 300 local and incoming Shriners from the 38-county Khiva Temple jurisdiction. The Hereford Lions Club is providing the noon meal for the children, parents and clinic staff.

REEVES, FORMER president of the Shrine Club, says that the local group has spent nearly \$100,000 on the clinic and follow-up medical treatment for children whose local Shrine Club was unable to provide it.

The original thought of the club, organized in early 1957, was to secure a burn center for Hereford.

"We made trips from New York City to Toronto, Canada, Chicago and Denver pertaining to this unit," explained Reeves, a clothier here. "But when the site selection committee did meet, Texas did get a burn institute but it went to Galveston because of the medical facilities."

(The facility, the Shrine Burn Institute, was dedicated last week, he points out, and will be a \$2.5 million center that can accommodate 30 patients at a time.)

IN LIEU of the burn center, the Shriners then organized the clinic.

A breakfast at 7:30 a. m. will start the activity Saturday for Shriners at the Jim Hill Hotel. The clinic will get under way at 8:30 a. m. and continue through the day. Lunch is scheduled from 11:30 a. m. to 1:30 p. m. at the high school cafeteria.

A round table discussion at the hotel for doctors and Shriners is scheduled from 4:30 p. m. to 6 p. m. A social hour from 8 p. m. to 9 p. m. is slated at the Hereford Country Club for Shriners and wives, doctors, nurses and guests. A dance will follow, and breakfast will be served from 11:30 p. m. to 1 a. m.

Out-of-town doctors who will participate include Dr. Maurice Dyer, pediatrician, Amarillo; Dr. James E. Bertz, oral surgeon, Dallas; Dr. Morris Sanders, See SPECIALISTS Page 2

Speakers To Be Installed 'Piped-In' Music Approved For Downtown Main Street

George Harris thinks the incinerator is 'the best deal' yet.

GETS 'BANG' OUT OF IT

Here's One Fellow 'Sold' On Burner

To the man who makes a vocation of burying what other people throw away, the hollow metal shell now operating as an incinerator at the city dump draws somewhat the admiration of a Taj Mahal.

George Harris, 37-year-old Arkansan, scurries about the smoke-emitting burner and its companion unloading garage with obvious relish.

It would not be inaccurate to say that the sanitation employe has gotten a real bang out of it. The first two days especially, he says. "Some of them sound just like a cannon. That taught me to stay out of the burner when it's lit."

HE IS NOT certain what cause. See EMPLOYE Page 2

NO WORRIES WHEN IT SWAYS'

Intrepid Erectors Put 300-Foot Radio Antenna At City Outskirts

How do you build a 300-foot tall steel tower? "You just start from the ground and go up . . . and be extra careful."

This was the reply from a workman for an Amarillo firm which was constructing a 300-foot two-way radio antenna in Hereford this week.

Workmen stacked one ten-foot section at a time on top of others, bolted them together and climbed upward to attach another.

A perceptible sway in the tower was noticeable as men worked 200 feet above the ground. A 20 to 30 mile per hour wind seemed to make things worse.

"Oh, we don't worry when the thing is swaying . . . as long as it's doing that everything's OK — it's when you feel it move a little and then not move back that you start praying," explained J. M. Duncan of Tri-State Tower Co. of Amarillo.

If you see something going wrong, what do you do?

"IF THERE'S TIME, you climb down the tower (one step at a time) and if there's not, well . . . you don't have to worry about paying any more bills," he said matter-of-factly.

Do those men wear a safety harness? "They wear a belt to keep from falling off the tower but See ANTENNA Page 2

The Case Of Missing Lids

City Commissioner Lloyd Sharp and Joe Easley explained to an unsympathetic remainder of the city council Monday night why they still had lidless trash cans last Friday.

They also had some choice but good-natured remarks directed at The Hereford Brand, which made the survey to see if commissioners were following their own dictum to enclose trash containers.

Both Sharp and Easley had one container each that was still uncapped.

Sharp said his lidless container was not a trash barrel but a grease can. But he admitted he has used it to dispose of trash. "I meant to have the city haul it off," he asserted, "but the Shriners came along painting barrels and I let them paint it . . . It is not there now."

Easley said he had a lid on his barrel, but it had been misplaced.

Commissioners Albert Maxwell and R. P. (Dick) Barnard, grinning broadly, commended The Brand for its efforts.

SIGHT IMPAIRED Youngster Hit At Ball Game

The 12-year-old son of a Hereford dentist, struck in the right eye Monday night at a Little League baseball game, will have impaired vision, his father said Wednesday.

Stephen Cavness, sixth grader at Central Elementary School, was struck by a foul ball as he sat in the bleachers at North Field on Ave. H.

DR. H. A. CAVNESS said the youth, transferred to St. Anthony's Hospital, Amarillo, after treatment here, will have some vision loss but a more complete diagnosis will not be possible until Friday or Saturday.

He said Steve also sustained deep cuts, above and below the eye which required more than an hour of surgery to close.

THE BOY was seated in stands to the right of home plate. A 18-foot screen is in place to protect spectators from wrong-way balls, but the blow which struck young Cavness just skimmed over the protective fence, a Little League spokesman said.

The spokesman said a project to raise the fence before the season opened was abandoned because of a lack of volunteer help.

The injured youth also was the victim of a Jan., 1963, accident in which a B-B pellet was fired into his left eye. He lost the lens and about 30 per cent of the vision in that eye.

Innovation Costs \$200

The last word in converting the downtown area into a shopper-luring avenue — piped-in music — was speedily approved by the City Commission Monday night.

All it will cost the city to put melodies on Main St. will be about \$200, the commission was told.

A Hereford juke box vendor and taped music distributor will provide the tapes free, and the city will install speakers and wiring.

CITY MANAGER Dudley Bayne said the music outlets will be placed under each canopy

along the four-block route now torn asunder by Variety Park construction crews.

Reaction of the commission was enthusiastic. "I think it is a very novel idea myself," opined Mayor Ray Cowser. "It would just be shame not to do it now that we've got the opportunity," noted Commissioner R. P. (Dick) Barnard.

The vote was unanimous. In other action at the short meeting:

— One person, Aldene Hudson, a Hereford High School typing and driver education teacher, appeared at a public hearing on the proposed annexation of 59.4 acres in north Hereford. He had a question on refunding of utility installation costs.

— A SPECIAL meeting was called for May 31 for the first reading of the annexation ordinance. The commission is speeding the annexation program through so paving on 15th St. can be completed before winter weather shuts down asphalt application.

— It was decided that two blocks of Ave. H immediately north of Grand Ave. will be included in the 15th St. paving project and a new paving bid called for.

— A new addressograph machine, costing \$3,248, was approved for water bill and tax statement mailing. But the Amarillo company offering the machine later noticed that the apparatus they priced to the city was a \$3,900 machine. The firm, however, agreed to stand by their first quotation.

Girl Tells Police Story Concocted

A 18-year-old Hereford girl has admitted to police that her story of grappling with a burglar at her parents' home last week was made up.

Police Chief Marshall Padgett said that the girl repudiated the story as police questioned her early this week concerning details of the alleged incident.

She had told police that someone had entered her home on Star St. on May 12 and surprised her when she went to investigate a noise. She was hospitalized for treatment of a cut on her side following the incident.

ASSISTANT SUPERINTENDENT Brownfield School Official Is Hired

(Special To The Brand)

BROWNFIELD — Dillie M. Kelley, 43, former Friona superintendent of schools and business director of Brownfield schools for six years, will become assistant superintendent of schools here on July 1, he told the Brand Wednesday.

Kelley said he reached agreement with the Hereford board of education last Friday and resigned at Brownfield Monday night. He said he assumed he will receive a one-year contract with a \$10,500 salary annually.

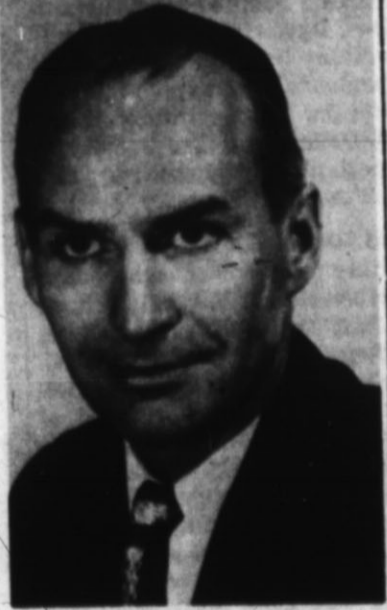

KELLY, WHO will serve primarily as a business manager of the school system here, will replace Kendall Williams, who has resigned.

THE NEW ASSISTANT superintendent is a native of Palestine and took both degrees — a B.S. and a masters degree in business administration — from North Texas State University, the latter in 1950.

He began his career as principal of Imperial High School, a small community southeast of Monahans in West Texas, for two years starting in 1947. He was principal of Friona High School for six years and superintendent there from 1953 to June of 1959. He came to Brownfield on July 1, 1959, as business director.

HIS WIFE, Cornelia, and he have three children, Neal, 14; Marybeth, 11, and Marily, 2. They are members of the First Baptist Church.

Kelley is a 32nd degree Mason, a member of numerous professional organizations and secretary-treasurer of the West Texas School Business Officials' Association.

DILLIE M. KELLEY

Wheat Loss Amounts To 'One-Third'

About one-third of the dryland wheat acreage in a tri-county area has been abandoned, the manager of the Texas Employment Commission says.

Joe W. Bradley, who regularly files reports to TEC's harvest control office at Amarillo, said most of the written-off wheat, stunted from lack of moisture, was given up before the recent rains.

He covers the Hereford, Dimmitt and Farwell region.

THE OFFICE manager, who directs three other TEC employes. See SUPPLY Page 5

UF MEETING SET

Clint Forby, president of the United Fund, said Wednesday a budget hearing will be held at 2 p. m. June 25 at the First National Bank Agencies wishing to participate in the fund's proceeds will be heard by the board then.

Area Colleges Top List Of Graduates' Choices

(Continued from Page 1) students achieve the goals listed. In addition, seven girls in the poll said they plan to become nurses. And ten student completing the survey plan further education in junior colleges and other schools. Four will attend Lubbock Christian College, three

will enroll at Amarillo College and three plan courses at Western Republic Business College in Amarillo. ONE PORTION of the Brand's questionnaire asked students to list activities in which they had participated during high school, then asked students to tell which ones, if any, had been significantly influential in their

choice of careers. Seven students replied that Future Teachers of America had been influential, four mentioned vocational agriculture, four listed distributive education, three named Future Nurses, two said athletics, two mentioned industrial arts and one each for choir, band and speech and drama.

CITES SAVINGS TO ACCRUE

Employee Thinks Incinerator Is 'Best Deal' City Has Made Yet

(Continued from Page 1) es the pandemonium but surmises — and probably correctly — that pressurized objects like aerosol spray cans and capped bottles are exploding. Heat is so fierce that glass melts and metal fuses. Thus his ardent for inspection while incineration is in progress has cooled. But his conviction that "it's the best deal I think the city has ever made" grows stronger.

He corroborates the view that "it will save the city on burying ground" and "will result in a neater appearance at the dump, northeast of town. "I just couldn't get that paper covered up so fast that it wouldn't blow," he says.

HE THINKS THAT his time spent on the bulldozer, making excavations and later covering refuse, will be halved. But Harris, a six-year city employee, is worried about being able to do dual duty as dozer operator and incinerator supervisor.

He plans to get with City Manager Dudley Bayne shortly and review his new procedures.

The routine actually is not difficult, the begrimed, straw-hatted Harris said as he peered suspiciously into the blazing burner "You just walk in there and stick a match to it. Then I turn my blowers on and start running the conveyor."

But the sticky part has to do with what "travels up that conveyor. Like tires, Harris says he has burned some tires in the \$50,000 incinerator's first days of operation. But he thinks they

probably should be taken out by employees manning the trucks.

THE TIRES make a real difference "as far as the smoke is concerned," he concedes.

The garrulous Harris does not think flies will be too bothersome in the unloading area. A water well has been completed, and only piping to the structure and a pump to keep the conveyor pit from filling are yet to be installed.

"I imagine if we keep the garage cleaned out, the flies won't be too bad," he says. "We may have to spray it occasionally."

Harris proudly points out that the incinerator is to be fenced off and its interior grounds planted in grass. And who is to run the lawn mower?

"I got a sneaking suspicion I will be," he grins.

But he allows it will be worth it. Who would ever have thought a lawn mower would be useful at the city dump?

Miss Watson Named VFW Sweetheart

Miss Connie Watson was named Sweetheart of District 9 of the Veterans of Foreign Wars during the district convention held at the VFW Hall in Amarillo Sunday.

Woody Ferguson, contest chairman, presented the sweetheart trophy to Miss Watson.

Miss Watson will represent the local district in the state sweetheart contest to be held at the state convention in El Paso during June.

Approximately 150 persons from the 12 Panhandle posts attended the two-day meeting. Miss Watson was selected from 12 contestants, one from each district post. Judging of the contests was on the basis of personality, poise and attractiveness.

She is the daughter of Mr. and Mrs. Ray W. Watson, Country Club Road, and is a junior student at Hereford High school.

Wild chimpanzee mothers suckle their young and keep them in the nest at night until they are about three years old.

Antenna Erected On US Hwy. 385

(Continued from Page 1) our biggest worry is the tower itself," he said.

He explained that guy wires are placed at 60-foot intervals up the tower. "When you get to that last section before you put on more wires, it gets kinda shaky if there's a wind."

AT THAT PARTICULAR moment there was a wind. One of the workmen 280 feet above shouted "Help me Mamma!" Everybody laughed.

Insurance comes pretty high? "Well, it's pretty high all right, especially if you're on the ground."

What? "When you're on the tower, you're just naturally careful. . . you don't see many people injured when they're working up there."

"On the ground is where most people get hurt . . . by falling objects," Duncan said.

"I'D RATHER BE working on the tower, myself," he added, explaining that he worked above the ground until a few weeks ago when he was made crew chief. "The work's easier up there," he said.

He explained that tower-building is a year-round business for the Amarillo firm. "Last week we were working on one in Kermit . . . next week we'll be in Wyoming."

Tri-State Tower Co. builds towers ranging up to 1,000 feet high. "This one is a little one (300 feet) compared to some." Duncan said he believed Tri-State Tower is the only such business in a 300-mile radius of Amarillo.

HE SAID IT takes only about one full day's work to erect a tower such as the one built here, which is located near the north Hereford city limits on U.S. Hwy. 385. The actual radio antennae, wiring and blinker lights require another half day if everything goes right.

Four men comprise the field crew for the Amarillo firm. "Two on the tower and two on the ground are about all we need unless it's a big one," Duncan said.

He said a winch truck is used on larger units. On the one built here, a small gasoline-powered winch carried tools and supplies up and down the tower.

"The men have to climb up and down when we don't have the truck. If we use it, they can ride," Duncan said.

A concrete base about five feet deep forms the base for the tower. Three-eighths inch steel cables keep the tower from falling.

FROM THE GROUND UP — Workmen for the Tri-State Tower Co. of Amarillo start at the bottom and work their way up to the top of their job. That's the way they build towering communications towers, like the one erected here earlier this week. Above, a workman climbs 280 feet above the ground as the 300-foot tower nears completion. Note the bow caused by a stiff breeze against the inch-thick rope used to guide a winch line which runs up through the tower and back down the outside to hoist materials. Workmen say they're "used to" working at such heights amid heavy winds. In the bottom picture, J. M. Duncan operates a small winch — the only mechanization needed by the workmen to erect the skyscraping tower. See story on page 1. (Staff Photos)

Play Ball...

Little Leaguers got into action Monday night after several false starts last week when rains washed out the full schedule. Little Leaguers are back on schedule now. Makeup games for last week's scheduled fits will be played on Saturdays. League action is normally scheduled on Mondays, Tuesdays, Thursdays and Fridays.

SAFE AT THIRD — Hereford's Steve Hodges dives back to third base in the fourth inning here Tuesday after starting to steal home against the Dumas Demons in conference play. Hodges was the only Hereford runner to get past second base during the game as Hereford lost 2-0. (Staff Photo)

District Baseball Race Will End Saturday

Life Begins At 40 Tournery Set Here

One of the top non-pro tournerys of the year at John Pitman Municipal Golf Course comes off this weekend.

Little League Yankees Fall To Braves, 12-10

In their first game of the season, the Little League Yankees were defeated by the Braves on the south field at the Little League park Monday evening. Final score was 12-10.

Crossing home plate for the Yankees were Kevin Young, Otis Robinson, Paul Loerwald, Jeff Loerwald and Dana Rush. Robinson and Loerwald each had three runs. Braves who added to the score were Bobby Bogard, Eddie Wiggins, Joe Wiggins, John Gooch, Dan Elliott, Randy Laing and Kenneth Bullard. Joe Wiggins had three runs. Winning pitchers were John Gooch and Kenneth Bullard. Losing were Steve Ravizza and Steve Loerwald.

Giants Outplay Angels, 7-0

Little League Giants racked up 7 scores to the Angels' zero in their competition match Monday evening on the north Little League field. Winning pitcher was Donnie McDermitt.

Turning in runs for the Giants were Rick Lee, Donnie McDermitt, Gary Lemons, Jay Robinson and James Massie. Allen Wagoner pitched for the Angels.

Braves, Cubs Rained Out In First Game

The Braves and the Cubs, major league Little League teams, were rained out again Saturday as they attempted to start their season. They also had been rained out May 10. After one inning of play the score was 5-5. The second inning was not started.

The District 1-AAA baseball race goes neck and neck to the wire Saturday in a doubleheader at Dumas which will tell the story.

Dumas edged the Whitefaces 2-0 here Tuesday to tie the district standings at three wins for both Hereford and Dumas.

HEREFORD'S Mike Ranspot pitched a three hitter, but the Demons managed to score the two tallies in the seventh inning on an error, a walk, and then a "perfectly placed" hit.

The Whitefaces had four errors in the game. Demon sophomore Wayne Harkrider had an unusual day on the mound as he allowed the Whitefaces only two hits, but struck out only two.

The visiting Demons allowed only three Whitefaces on base during the game, these on two hits and the Demons' only error.

DUMAS HAD picked up a two-game lead in the first two district contests, then Hereford had rallied to win three games in a row prior to Tuesday's heartbreaker here.

It was not until the fourth inning that a Hereford batter reached base. Steve Hodges got on with a single and advanced to third on a sacrifice and an error, but was left stranded.

Frank Cain singled in the fifth inning, but was stranded at first.

RANSPOP STRUCK out 10 of the 27 batters he faced during the game, and gave up only three walks. Harkrider granted 2 hits, no walks, and fanned only two.

The Demons possessed an uncanny knack for fielding during the game Tuesday, as Hereford batters connected with the ball to send it into fair territory 21 times but reached base only three times.

HEREFORD SAW no serious threat from the Demons until the seventh, when it had begun to look as if the game would go into extra innings. Then John Wylie reached first on an error with one away. Ranspot fanned his

second Demon of the inning, then Wayne Harkrider drew a walk on the 3-2 pitch.

RONNIE ROBBINS stepped to the plate, and — after two called strikes — tagged a line drive down the left field line.

Leftfielder Danny Loerwald was off at the crack of the bat, but couldn't reach the ball, which hit about two feet inside fair territory a few feet short of the fence.

By this time, the two runs had scored.

In their last try at bat, Hereford batters were out on line drives to shortstop twice and one was out on a grounder to the second baseman.

Saturday's doubleheader will get underway at 1 p.m. in the Dumas diamond.

Dodgers Pass Colts, 11-2

Kitchens was winning pitcher on the north Little League field Tuesday night when the Dodgers passed by the Colts, 11-2. Pitching for the Colts was Suttle.

Runs for Dodgers came in the third, fourth and fifth innings and were made by Chisholm, Pool, Champ, Barrett, Campos, Herring and Clike.

Leasure and Tuck made the two runs for the Colts in the fourth and fifth innings.

Herd's Pitchers Shine In Double District Win

Hereford Whitefaces put themselves back in the driver's seat of the District 1-AAA loop baseball race with two wins here Saturday.

Ed Mims pitched 11 innings in the doubleheader, giving up only five hits. Mike Ranspot took over the mound in the fourth inning of the nightcap and shut out the Demons the remainder of the afternoon.

The 'Faces won by scores of 2-1 and 6-1, giving Hereford a 3-2 edge over Dumas in district standings.

It was the eleventh win against 10 losses and one tie for the Whitefaces this season.

Saturday's first game saw Mims square off against Demon

Billy McVicker's in a pitchers' duel. Mims gave up four hits while Hereford collected three.

Dumas took a 1-0 lead in the second inning, then Hereford capitalized on hits by Bill Watts and Charlie Moreno in the fifth inning to tie things up.

In the seventh, Gary Victor singled to score the winning run for Hereford.

The second game saw Hereford going to bat for a total of eight hits while Ranspot and Mims granted Dumas only two hits. Ronnie Robbins, Wayne Harkrider and Johnny Sober hurried for the Demons.

Hereford managed a 2-1 lead in the second inning and held Dumas scoreless the remainder

of the game.

Frank Cain and Gary Stagner paced the Whitefaces at bat in the second game. Stagner collected three hits, including a double. Cain tagged two doubles.

In the first game, Mims faced 24, striking out nine, and allowing four hits. He walked only two. Seven Demons were stranded on base.

He started the second game, facing 11 in three innings. He allowed one hit, one run, and one walk, striking out four.

Ranspot took over in the top of the fourth, with Hereford leading 2-1. He faced 14 as the Whitefaces allowed only two Demons to reach base. Those were on an error and a batter hit by a pitch.

The Hereford southpaw fanned four and allowed no walks and no hits. Eight Dumas runners were left on base in the second game.

Jim Haney Gets 14 Tackles In Tech Skirmish

Texas Tech linebacker Jim Haney, 1964 Hereford High School graduate, racked up 14 tackles in Tech's final scrimmage, held recently.

The former Hereford all-sports fenders in the game which climaxed the Red Raiders' spring training.

With only 44 seconds remaining in the game, the Red's field goal attempt went astray and the Whites won by 22-21.

Colts, Giants Miss First Game

Little League Colts and Giants were rained out in their first game of the season Saturday night.

After 2½ innings of play, the score was 5-0 in favor of the Giants.

New Astounding Sorghum

Breakthru Yielder — If you're an irrigation farmer in Oklahoma or Texas and you want a sorghum that stands and yields like you've never seen before — try F-61, a new DeKalb Breakthru Hybrid. Produces large bronze seed in big semi-open heads. Similar to DeKalb F-63 in maturity. Try this fine big yielder.

Supply Of Labor Is 'Adequate'

(Continued from Page 1)
es from a headquarters at 138 West 3rd St., also says that the labor supply is on a reasonably level basis.

Irrigated wheat, bolstered by rains as high as four inches in Bradley's three-county jurisdiction, "continues to look good," he said. "Hail damage from the recent storms was slight."

Bradley says his office has registered 3,000 to 4,000 farm laborers from outside Deaf Smith, Farmer and Castro counties in the last month and has verified placement of about 1,600 of them.

HE NOW HAS a surplus of hoe hands, but expects sugar beet thinning to cut into the supply as activity steps up. Beet thinning is lagging somewhat this year, he says.

"This time last year we were just about at a peak on beet thinning," he says, but adds: "It's not going too slow. There aren't many crews in here this morning (Tuesday) which indicates most of them are working."

Figures show that the TEC's busiest month is March when demands for big crews come from onion producers. But Bradley says that the biggest supply of labor arrives in this area in May and June for beet thinning.

"It takes a lot of hands to thin 30,000 acres of sugar beets," he adds.

Bradley claims he has received only moderate complaints from farmers over loss of Mexican nationals, of which he says no more than 600 were present in the area he serves "at any one time last year." Expiration of the bracero act ended the supply in December.

El Paso, Amarillo Meets For Thompson

Bill Thompson, manager of the Deaf Smith County Chamber of Commerce, will be in El Paso Thursday and Amarillo Friday for chamber-related conferences.

He is immediate past president of the association of West Texas chamber managers, and will help plan that organization's August meeting in El Paso. The Thursday conference of the Planning committee will be at the El Paso Chamber of Commerce offices.

On Friday, Thompson will attend a meeting of Panhandle chamber managers beginning at noon at the Amarillo Chamber of Commerce offices. He said the sessions, held irregularly, are merely "exchange of ideas" meetings.

Formby To Participate In Two Radio Meets

Clint Formby, managing director of Radio Station KPAN, will be in San Antonio Friday for a one-day meeting of the board of the Texas Association of Broadcasters.

He is one of 12 board members.

Formby also will be in Chicago next Tuesday through Thursday for a meeting of the National Radio Code Board.

Dieter Finds People As His Major Enemy

By BOB M. GASSAWAY
Associated Press Writer

McALLEN, Tex. (AP) — Fat people have four major enemies: food, scales, clothing manufacturers and people who don't have a weight problem.

Of these, the people are the worst. For instance: you've really been working on a diet and the scales show you've lost 15 pounds. Then you meet an old friend who says: "Say, you're putting on a little more weight, aren't you?" Surely homicide would be justified.

If you happen to be tall and fat, at least once a week you're told:

"If I were as big as you are, I'd go huntin' bears with a switch." One squelch is: "You know, there are some little bears too." Somehow that seems inadequate.

A favorite line for a party host or hostess who never missed a meal and stays thin is "Oh, go ahead and eat. You can do without tomorrow."

People who can eat like a horse and never gain an ounce are the ones who always tell chubby acquaintances: "All it takes to lose weight is will power."

All sorts of allegedly funny remarks are built around fat people and automobiles, such as: "Did you have your car lowered on the left side?"

The driver who tells a fat person to "get in the back and hold us on the road," would have his license revoked.

Every skin-and-bones type seems to know about the liquid diets.

"I understand you had a problem with the liquid diets. You didn't know whether to drink the stuff before or after your meals." That's supposed to be hilarious.

Every character whose waist measures 34 inches or less seems to be a frustrated comedian. Some of the favorite jokes (each followed by raucous laughter by one party) are:

"When you played football, which side of the line were you?"

"Who makes your clothes? Omar the Tent Maker?" (That one must have been old before Benjamin Franklin needed glasses.)

Fire Emergency Unit Is Outfitted

The Hereford Fire Department's new 3/4-ton pickup truck is being outfitted this week to replace a 1963 model which has been used as an emergency vehicle.

Fire Marshall Terry Hale said the truck, authorized by the city commission several weeks ago, was in the shop Monday for installation of a red signal light.

The department will carry its resuscitator, smoke ejectors, air packs and other emergency equipment on the pickup, the only department vehicle equipped with an automatic transmission.

Hale said the old pickup — which he says is in good condition — will be used by the parks department.

SKILLET FLAMES AT HOME

Firemen quickly doused a fire Wednesday morning resulting from an overheated skillet at the D. T. Stewart residence, 423 Ave. J. Fire Chief J. W. Dickerson Jr. said damage would probably total \$800 from smoke and burned cabinets.

ALL FOUR RESIGN

Walcott Teaching Staff To Change Completely

An entirely new teaching staff has been hired for the next school year at Walcott Grade School, 40 miles west of Hereford, a county official revealed Wednesday.

Mrs. Lola Rose, assistant county school superintendent, said that two husband-wife teaching teams — one from Rusk and

one from Canyon — were signed to contracts Friday by Walcott trustees.

Tom L. Collins, who has been principal at Walcott for 11 years, told The Hereford Brand that he and his wife, who has taught the third and fourth grades, will move to Canyon.

COLLINS, 60, said they are contemplating "semi-retirement." He denied that there has been any dissension between the teaching staff and the school board.

(A former school board member, J. V. Perrin, was elected to the three-man board last April in a write-in campaign. He also was re-elected to the county school board and resigned that post recently at the advice of the Texas attorney general's office.)

Replacing Collins will be J. G. Hobson, about 50, who has taught math for five years at Rusk Junior High School. His wife, who has been teaching at New Summerfield, a small community about 15 miles northeast of the east Texas town, also will teach at Walcott.

THE OTHER teaching couple was listed as Mr. and Mrs. Oleson Lyng of Canyon. The Canyon superintendent's office said Wednesday afternoon that they were not employed by Canyon schools but possibly were graduating university students.

They will replace two young teachers who came to Walcott

five years ago from Oklahoma. Miss Shirley Bourquin and Miss Paula Green will return to summer school to finish their degrees this summer, Collins said. Miss Bourquin plans a tour of Korea in November. Miss Green will return to Southwestern Oklahoma State College, Weatherford, to study for her masters degree.

COLLINS SAID he and his wife plan to do research in the West Texas State University library and that Mrs. Collins hopes to begin work on an autobiography of her teaching experiences.

All of the resignations were voluntary he said. "There comes a time when you feel that you have served a community as long as you can for the best interests of both the community and for yourself," he said.

Collins has been teaching for 32 years.

Hobson was not available for comment Wednesday afternoon.

FOR SUMMER

Library Slates Saturday Close

Mrs. J. J. Boydston, Deaf Smith County librarian, says that the library, located in the county courthouse, will again be closed on Saturday this summer.

Most county offices are normally closed on that day, she pointed out. The library has remained open during the school year on Saturdays so that rural youngsters could have access to it, she said.

Hours for Monday through Friday, 9 a.m. to noon and 1 p.m. to 5 p.m., will remain the same.

The policy of Saturday closings, which has been standard summer practise in recent years, is now in effect.

Quechua, language of the Indians of western South America, is being taught to students planning social service careers in that part of the world.

New Yield Breakthru
DEKALB E-57 Hybrid Sorghum
Here's a fine "world beating" Yield Breakthru Sorghum that really fills the bill. E-57 is one of DeKalb's NEW Bronze colored numbers that has superior yielding, standing and drought resistance power. Recommended for either dryland or irrigation farming and in 8 DeKalb research trials, it outyielded E-56a by an average of 13.9 percent. A top all-around hybrid.
"DEKALB" is a Registered Brand Name. Numbers are Variety Designations.
Planted by More Farmers Than Any Other Brand
DAWN CO-OP — Dawn, Texas

PLAN FOR CAMPING — Members of Troop 54, Boy Scouts of America, will go to summer camp at Camp Don Harrington, near Canyon, this summer. The Scouts have saved money for two years to attend the week-long Scout camp in June. Above, they planned for the outing. Shown from the left are Assistant Patrol Leader Rudy Padilla, Scoutmaster Paul Abalos, Luis Pacheco, Assistant Scoutmaster, Bubb Abalos, Richard Gonzales, Frank Bravo, Assistant Scoutmaster Abel Losoye, Luis Garcia and Patrol Leader Benny Pacheco. (Staff Photo)

Scouts Saved Money For Camp For Two Years
Members of Boy Scout Troop 54 of Hereford will be among the hundreds of Scouters who "rough it" at Camp Don D. Harrington, near Canyon, this summer.
The boys, who have been saving money for two years for the trip, now have enough in the kitty to camp out for a week at the Boy Scout camp.
It will be the first such outing for the seven Scouts, who have been with the troop throughout its three-year history.
Scoutmaster Paul Abalos said the boys had saved the money over the period by contributing at each meeting a small amount to a camp fund.
"I'm sure they had to earn it all themselves," he pointed out. In addition, a tamale supper was held recently to raise funds. The boys range in ages from 11 to 14 years old.
The troop is sponsored by St. Paul's Methodist Church.

THE GRADS ARE ON THEIR WAY
UP

The sky's the limit, and a brand-new, grand new group of Graduates are on their way to even bigger, better and brighter days.
We extend sincere good wishes to the Grads as they start this exciting new phase of their lives.

NOTICE
PERSONS DESIRING APPOINTMENT AS NOTARIES PUBLIC FOR THE NEW TERM WHICH BEGINS JUNE 1, 1965 SHOULD MAKE APPLICATION TO THE COUNTY CLERK ON OR BEFORE MAY 20, 1965. (TODAY) IF THEY DESIRE TO QUALIFY ON JUNE 1, 1965.
SUCH APPLICATION SHOULD BE MADE AT THE COUNTY CLERK OFFICE.

LET'S COOK SOMETHING

Unique Way To Prepare Polenta

By CECILY BROWNSTONE
Associated Press Food Editor

HERE'S A great recipe — one that went over with a bang at our house. It's Polenta with Italian Sausage Sauce, and it may be served as a main course for lunch or supper or with other maincourse dishes for a buffet party.

We had a bright idea for the polenta. Usually the cornmeal mush is turned into a shallow pan to chill; then it is cut into small rounds with a cookie cutter. We omit this tedious step by turning the polenta into empty cans from fruit-juice concentrate before chilling. When the rolls of mush are removed from the cans, they are cut into neat rounds.

We can't claim credit for the savory sauce that accompanies the polenta. Another cook supplied the recipe for this inspired creation. Just one hint from our kitchen: unless you want an ex-

tremely hot-and-spicy sauce to accompany the polenta, use the sweet Italian sausage suggested in the recipe.

If you serve the polenta and sauce as a main course for lunch or supper, only a salad and French bread need accompany them. For dessert you might offer a refreshing fresh fruit compote and cookies.

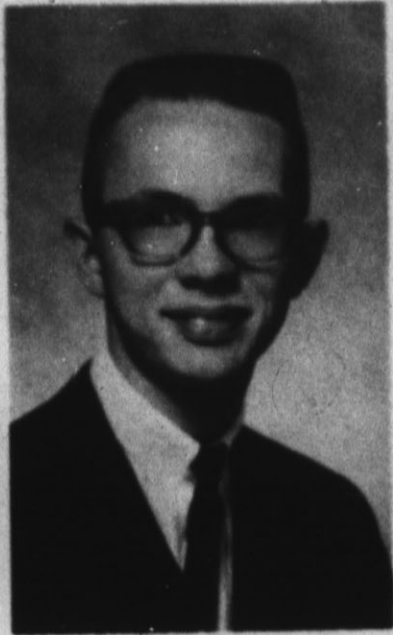

POLENTA WITH ITALIAN SAUSAGE SAUCE

- 1 cup enriched yellow cornmeal
- 1 teaspoon salt
- 1 cup cold water
- 3 cups boiling water
- 1 cup cold water
- Italian Sausage Sauce
- Grated Parmesan cheese

In a small bowl, stir together the cornmeal, salt and cold water. Pour the boiling water into a saucepan over low heat; gradually stir in the cornmeal mixture; cook and stir constantly until thickened. Continue cook-

Gearn, Tim

Gilliland, Bill Jack

ITALIAN CUISINE — Cornmeal mush, molded in small cans, is cut into rounds to be served with a sauce made savory with Italian sausage. (AP Photo)

ing, covered and stirring occasionally, for about 10 minutes. Pour into 4 empty ungreased 6-ounce cans from frozen fruit-juice concentrate; cool. Cover and refrigerate for several hours (or overnight) until set. Remove from cans; slice each roll into 6 rounds. Pour the hot Italian Sausage Sauce into a 3-quart glass baking dish (13½ by 8½ by 1½ inches). Arrange cornmeal rounds over sauce. Bake in a hot (400 degrees) oven until cornmeal rounds are hot through and sauce bubbles — about 15 minutes. Serve with grated Parmesan cheese. Makes 6 servings as a main course. If you prepare the Italian Sausage Sauce ahead and refrigerate or freeze it, heat it in a saucepan before using as directed above.

Note: To aid in the congealing process and for easy removal, rinse each can in cold water before filling the cans with mush. After filling the cans with mush, allow them to set, uncovered, on a rack for about 20 minutes. For chilling, cover the cans with plastic wrap or aluminum foil and refrigerate for several

hours or overnight. Removing the chilled mush is a snap if you loosen the edges with a spatula, invert and gently shake. The mush will slide from the can easily.

ITALIAN SAUSAGE SAUCE

- 1 pound sweet Italian sausage
- ½ pound mushrooms, sliced
- 1 clove garlic, minced
- ½ cup chopped onion
- 1 can (1 pound) tomatoes, undrained
- 1 can (6 ounces) tomato paste
- ½ teaspoon salt

Cut casing and remove sausage; with a fork, crumble sausage. In a large skillet lightly brown the sausage, stirring several times; drain. Add mushrooms, garlic and onion; cook and stir occasionally over moderately low heat until onion is lightly browned. Add undrained tomatoes, tomato paste and salt; simmer for 30 minutes. Sauce will be thick. Use at once while sauce is hot, or reheat, as directed in Polenta with Italian Sausage Sauce recipe.

FRIDAY COMPANY LUNCH

We've been asked for this three-layer version of our favorite light and fluffy cake. Shrimp Salad Homemade Rolls Favorite Three-Layer Cake

FAVORITE THREE-LAYER CAKE

- 1 cup plus 2 tablespoons sifted cake flour
- 1 teaspoon baking powder
- 6 large egg yolks
- 1 cup sugar
- ½ cup milk, scalded and slightly cooled
- ¾ teaspoon vanilla
- ¼ cup butter or margarine, melted

Sifted together the flour and baking powder. Beat egg yolks and sugar with high speed of electric mixer until ivory color and thick. Add milk and vanilla. With low speed of mixer, gradually beat in flour mixture; make sure all flour particles are moistened. Fold in melted butter. Turn into 3 greased and floured 8-inch layer-cake pans. Bake in a moderate (350 degrees) oven for 15 minutes or until cake tester inserted in center comes out clean. Place pans on wire racks to cool for 10 minutes; turn out; cool completely. Fill and frost as desired.

FAMILY DINNER

A luscious combination of meat and fruit. Pork Chops with Dried Fruit Rice Panned Green Cabbage Frosted Sponge Cake Beverage

PORK CHOPS WITH DRIED FRUIT

- 6 shoulder pork chops, ½-inch thick
- 1½ cups orange juice
- 1¼ teaspoons salt
- 3 tablespoons sugar
- ¾ teaspoon curry powder
- 1¼ cups (about 24) prunes
- 1¼ cups (about 30) dried apricots

Cut away any excess fat from around chops. In a large skillet, heat a few scraps of the fat and in it brown the chops on both sides; remove chops and pour off fat. Into drippings in skillet stir together the orange juice, salt, sugar and curry powder; add rinsed prunes and apricots; turn into a 3-quart baking dish (13½ by 8½ by 1½ inches). Place chops over fruit, covering it as much as possible. Cover baking dish tightly with foil. Bake in a moderate (375 degrees) oven for 30 minutes; re-

move foil; continue baking for 15 minutes or until chops are cooked through. If necessary, add a little water to baking dish during last cooking period. There should be just enough sauce to glaze fruit. Makes 6 servings.

SATURDAY SUPPER

If you like lots of tomato in chile, this recipe may please. Skillet Chile Con Carne Rice Salad Bowl French Bread Lemon Sherbet Beverage

SKILLET CHILE CON CARNE

- ¼ cup butter or margarine
- 1 cup lightly packed finely chopped onion (2 medium)
- 1 pound ground chuck beef
- 1 can (1 pound) red kidney beans packed in a seasoned sauce
- 1 can (8 ounces) tomato sauce
- 1 large garlic clove, crushed
- 3 tablespoons chili powder (or adjust amount to taste)
- ¼ teaspoon ground cumin
- ½ teaspoon vegetable bouquet sauce
- 1 can (1 pound) tomatoes, undrained

In a large skillet, over low heat, melt the hot butter; add the onion and cook, stirring often, until wilted. Add beef; mash with a fork over moderate heat until meat crumbles and loses its red color. Add beans with their sauce, tomato sauce, garlic, chili powder and cumin. Cover and cook gently, stirring several times, for about ½ hour. Cool; turn into a container, cover tightly and refrigerate overnight to develop flavor. Before serving, return to skillet. Add vegetable bouquet sauce and tomatoes; over low heat mix lightly but well to break up tomatoes; reheat until piping hot. Makes 4 to 6 servings.

HEREFORD STATE BANK
FOR YOUR
AUTO FINANCING

The thing that makes our sales success so sweet this year

is watching a man who thought he couldn't afford a Chrysler drive one home.

Got the idea you can't afford a Chrysler? Listen: nearly half this year's models are actually priced just a few dollars a month more than the most popular smaller cars, comparably equipped. Now, another shock: V-8 engine, automatic transmission, power steering, power brakes, radio and heater are included. So, look friend—come in and see how easy it is to drive home a new Chrysler.

V.F.W. Auxiliary Installs Officers

Ada Hollabaugh was installed to another term as president at the Ladies Auxiliary of the V.F.W. Club when they met in the Rock Club House in V. A. Park recently.

Alta Davis was the installing officer and other officers installed were Nola Ralston, sr. vice; Naomi Murrell, jr. vice; Karrol Rettman, treasurer; chaplain, Bertha Herzog, conductress, Ethel Pinckert; and trustees, Wilma Clark, Jackie Crisp and Kee Rutland.

Appointed officers are secretary, Wilma Clark; parliamentarian, Alta Davis; patriotic instructor, Orpha Nickerson; hospital chairman, Nola Ralston; historian, Ada Hollabaugh; hospital chairman, Nola Ralston; historian Ada Hollabaugh; poppy chairman, Gladys Graham; and community project chairman, Gladys Graham. Officers will take office after the State meeting in El Paso which is June 24 through the 27th.

Winnie Crow was initiated into the club as a new member and hostesses were Alta Davis and Ada Hollabaugh.

Ada Hollabaugh was presented with the past president's pin and the auxiliary elected two representatives to the State Meeting. To attend are Ada Hollabaugh and Alta Davis.

It was announced the No. 13 District Meeting would be May 22nd and 23rd in Littlefield. It was noted also the auxiliary sold 12 Favorite Recipes of Texas Cook Books and has ordered 12 more for sale.

Attending the meeting were Wilma Clark, Ethel Pinckert, Orpha Nickerson, Karrol Rettman, Gladys Graham, Winnie Crow, Alta Davis, Nola Ralston, Naomi Murrell, Bertha Herzog and Ada Hollabaugh.

TO CAMP

Chip Guseman, son of Mrs. Genevieve E. Guseman, will be leaving for Silver Spruce camp for boys at Durango, Colorado this summer.

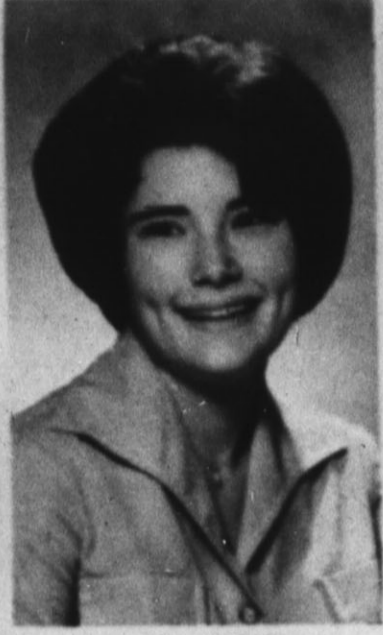

To attend Silver Saddle camp for girls, also at Durango, is Brenda Formby, daughter of Mr. and Mrs. Clint Formby.

VISITING HERE

Mrs. Harvey Cash of Canyon has been visiting since Sunday in the home of her sister-in-law, Mrs. H. E. Bell, 604 West 3rd. She returned to her home on Wednesday.

Program On Poisons For H. D. Meeting

Mrs. J. C. Morrison was the speaker for the Westway Home Demonstration Club when they met last Thursday in the Community Room of the First National Bank.

Her program, "Harmless poisons that kill" included reading an article from the Sunday Brand entitled "Dallas Health Director Issues Plant Warning." Mrs. Morrison commented that children should be taught not to put any type of plant into their mouth.

Mrs. Donald Douglas was the program chairman and a skit was presented by several club members. The skit, "Foolish Kate at the Pearlite Gates" pointed out that chlorine bleach should not be mixed with such cleaners as toilet bowl cleaners, lye, ammonia, oven cleaners, vinegar and most removers.

Reasons given for not mixing these agents is that a toxicant gas is formed which is harmful when inhaled. The members were also reminded to read all labels on cleaning agents before using them.

Mrs. Donald Douglas was the hostess for this meeting and it was announced the May 27th

meeting would be in the home of Mrs. Fred Sherman.

Attending this meeting were Mrs. W. W. Thomas, Mrs. Donald Douglas, Mrs. Kenneth Rudd, Mrs. Paul Rudd, Mrs. Bess Werner, Mrs. Albert Lamb, Mrs. J. C. Morrison, Mrs. Fred Sherman, Mrs. Lou Sherman and Mrs. Bill Drake.

WESTWAY MEET

Plans for a reunion to be during July were made at the Westway Community Meeting Friday evening. Also the reports were given for the work which had been done at the Community House the past 10 days. Commit-

tees for the reunion were named and following the business session games of cards and forty-two were played.

Attending were Mr. and Mrs. E. Johnson, Mrs. and Mrs. M. Kaul, Mr. and Mrs. H. E. Owens, Mr. and Mrs. W. W. Thomas, Mr. and Mrs. Roland Hairgrove, Mr. and Mrs. Paul Rudd, Mr. and Mrs. Harold Rudd, Mr. and Mrs. Joe Landers, Mrs. Birk Green and Jamie, Mrs. Bess Werner, Clarence Morrison, Homer Rudd and girls, Larry Kaul and Susan and Paul D. Rudd.

REP. ROGERS REPORTS

Corrective Action Seen On Flood Of Paperwork

By WALTER ROGERS
U. S. Representative

Federal agencies require and request more than one billion reports a year from business, industry, and the public. We Americans each year fill out the equivalent of more than five Government forms for every man, woman, and child in the country. One estimate of total cost — including the time required to make the reports — is \$20 billion.

Recently a House subcommittee issued a summary of its investigation into the problem, and it is expected that corrective action will result.

SOME REPORTS ARE mandatory. The income tax returns to the Internal Revenue Service are perhaps the best-known examples of mandatory returns. Many reports to the Government are voluntary, however, and a large segment of the public apparently is unaware that a substantial volume of Federal reports and paperwork is neither specifically authorized by statute nor specifically funded in any appropriation act of the Congress. The fact is that aside from the tax-collecting and regulatory agency programs there are relatively few mandatory reporting systems.

Bureaucrats in the departments and agencies have taken few positive steps to clarify the voluntary status of their reports. In some cases, the subcommittee found, administrators have used deceptive language in the wording of questionnaires with the apparent intention of misleading the public into believing that a voluntary report is required by law. A statement such as this may appear on a form:

"UNDER AUTHORITY of Public Law —, Section —, we are requesting you to supply the following information." Most persons, I'd think, would interpret that statement to mean that Congress specifically authorized the survey. However, the citation of law may refer an agency to inquire into, for example, "the extent of illness and disability" of the U. S. population.

The public has a two-fold stake in Government paperwork — as taxpayers, whose tax dollars go to support agency programs which generate the need, real or imagined, for data called for in the reports; and, second, as respondents furnishing the information to the Government. While the costs to the Government, and thus to the taxpayers, can be estimated with some accuracy, it is difficult to assess the total impact through unnecessary man-hours of work and worry imposed upon our people. Some Federal administrators seem to have little regard for the costs, direct and indirect, to the public.

THE INTERNAL Revenue Service told the subcommittee that the average time necessary for completing the "Individual Income Tax" form — the long Form 1040 — was 20 minutes. The time required is more like 20 hours, as he IRS people must know. It would not be possible for an expert typist to copy Form 1040's in 20 minutes, and that time would not include the hours necessary to assemble the needed data, do the arithmetic, and read and digest the complex tax regulations in an effort to avoid overpayment.

DESPITE AGENCY claims to the contrary, it was the con-

clusion of the investigating subcommittee that the IRS Form 1040 alone costs the public over \$1 billion each year to complete, averaging man-hour costs between hired accountants and taxpayers.

One Bureau of Customs form for entry and clearance of vessels at U. S. ports requires that merchant ships record the number of guns they mount. This form has undergone little change over the years, pointing up what is true of many Government forms: They are based on outdated or outmoded laws. The requirement that merchant ships report on guns they mount dates back to 1790. No change has been made to simplify the reporting forms — and so the paperwork mounts.

The first barbed wire was introduced about 1873. The first large scale manufacturer was Joseph Glidden of DeKalb, Ill.

Duplicate Bridge Club Meets Thursday Nights

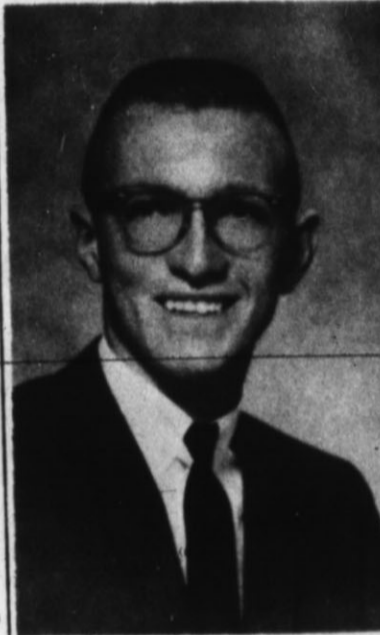

The Hereford Duplicate Bridge Club, which has been active here for about five years, is meeting at 7:30 every Thursday night at the Community Center.

Persons interested may call Mrs. Dick Gholson, EM 4-0907, or Mrs. Francis Hill, EM 4-1706, for further information or for a partner if one is needed.

Attendance at the club sessions have been varying from between three and seven tables.

CONSUMER'S FUEL ASS'N

Teachers' Pay Rest On Tax Bill

By VERN SANFORD
Texas Press Association

AUSTIN — Uppermost question in the minds of taxpayers and legislators is — will there be a new tax bill?

Answer rests with the lawmakers. And their decision depends on whether or not a teacher pay raise bill is passed.

About \$73,500,000 in new state revenue would be needed to cover the cost of Texas State Teachers Association's \$45-in-'65 program.

Alternate proposal offered by Gov. John Connally to reward experienced teachers at an accelerated rate would cost the state an estimate \$64,700,000.

BOTH PLANS ARE based on cost estimates for the next two years and would of course, call for additional local money.

Hundreds of teachers jammed into the legislative chambers for hearings on the teacher-pay-raise bills, putting all the pressure possible on the legislators.

TSTA stresses that many local districts cannot afford to pay a higher share of the salaries called for in the governor's plan and that this is a state responsibility anyway.

Governor Connally says "Texas will continue to lag far behind the national average in school teacher salaries until local support shows the same increase expected of the state government." He contends TSTA is not telling the whole story.

"They never admit that state support of our public schools is \$56 a pupil above the national average, while local support is \$93 below the national average."

Salaries of state employees, in the classified service, will be increased 3.4 per cent each year and welfare spending will go up \$16,000,000. Judges from the district court to the Supreme Court

producing more income. Considered was an additional tax of three cents a pack on cigarettes. This would raise about \$69,600,000.

Other suggestions reviewed by the five-member group include: — A two per cent sales tax on beer and liquor, \$22,000,000; — Restoral of the 50 cents per \$1,000 corporation franchise surtax, \$24,000,000.

— A one-shot inheritance tax payment date adjustment, \$6,000,000.

Senators want the House to pass a tax bill before any agreement is reached on a teacher pay raise.

A House tax committee member, active in the sub-panel deliberations, says pay raises should be determined before tax drafters decide how big a bill to write.

With the legislative session rapidly drawing to a close, and many differences still unresolved, a teacher pay raise is by no means a certainty. A breakdown in negotiations could mean no tax bill at all during the regular session.

RECORD BUDGET — Both houses passed the \$3,700,000,000 conference committee appropriations bill, which calls for expenditures of \$154,000,000 over the current level.

Education got the biggest share of increases in the biennial budget. These increases included \$80,500,000 for the 22 state colleges and universities; \$10,400,000 for public junior colleges; \$89,700,000 for public schools; and \$11,600,000 for vocational and technical education.

Salaries of state employees, in the classified service, will be increased 3.4 per cent each year and welfare spending will go up \$16,000,000. Judges from the district court to the Supreme Court

levels will get substantial raises in their annual salaries. Soil Conservation Board was given an \$89,135 increase for its operations, including \$28,000 more for watershed planning. An additional \$3,800,000 was set aside for the Water Development Board which is being reorganized. Department of Agriculture will get a \$1,400,000 increase. Animal Health Commission gets \$1,800,000 less than the current spending level since the federal government is taking over responsibility for screwworm control.

AMENDMENT PROPOSED — A house-passed resolution to repeal the poll tax, as a requirement for voting, received approval of the Senate Constitutional Amendments Committee. An election is proposed in November of 1966.

Another Amendment resolution cleared for Senate debate is HJR 38 to remove from constitution restrictions on soldier voting in state.

DESALINATION PROPOS — The U. S. Corps of Engineers recommends that the federal government spend \$46,000,000 to eliminate natural sources of salt pollution on the headwaters of the Wichita River. Uncle Sam would pay the full cost and the \$216,300 a year needed to operate and maintain it.

Proposed are three low-flow dams, one on each fork of the Wichita, to capture water with high concentration of chloride. Water would be pumped to brine reservoirs for evaporation. Project would reduce chloride concentration in Lake Kemp near Wichita Falls to a safe level and would help alleviate salt pollution at Lake Texoma on the Red River.

BOARD BILL VETOED — Governor Connally vetoed a bill that would transfer East Texas State University and West Texas State University from the Board of Regents for Texas State Teachers Colleges to a separate board of regents for each.

Governor noted that he repeatedly had emphasized his opposition to creating more boards of regents. He also said language of the bill might "inadvertently exempt" the two institutions from coordination by the Coordinating Board, Texas College and University System.

SHORT SNORTS — Senate passed a bill exempting many from laws prohibiting carrying of firearms... Senate approved a bill by Sen. Tom Creighton putting independent crude oil gathering systems under the common purchaser law and regulation by the Texas Railroad Commission... House tentatively approved "freedom of information" bill to require governmental agencies (with several exceptions) to conduct their business in open meetings... House passed a bill to abolish common law marriages... Parks and Wildlife Commission will hold statutory quarterly meeting here May 31... Fifty-third District Judge Herman Jones entered judgments of \$365,519 against 11 defendants for alleged slant well activities in East Texas, involv-

ing five lawsuits and 26 wells in Gregg, Rock and Upshur counties.

Lithography — Letter Press Printing THE INE SPOT

A. O. THOMPSON ABSTRACT CO.

Mr. & Mrs. A. J. Schroeter, Mgrs.

Courthouse P. O. Box 73 Phone EM 4-1504

NO MORE ROAD GANGS — Rep. Vernon Beckham of Denton got easy approval in the House of a bill to repeal a series of 1876 laws, including one which still requires all men 21 to 45 to spend five days a year on a road gang.

Laws are not enforced, but still are on the books, and Beckham thought it a good idea to eliminate them.

REDISTRICTING WOES — As if legislators did not have enough problems with teacher pay raises, the even thornier problem of redistricting is upon them.

Senate is in-fighting over proposed plans for Senate redistricting, which necessarily will remove some of the present members.

On the other hand, the Senators are not likely to agree with the House version of congressional redistricting.

Governor Connally, meanwhile, hinted he may not call a special session if there is no agreement on redistricting, leaving the matter up to the federal courts.

AG OPINIONS — Atty. Gen. Waggoner Carr holds that: — A county depository-bank cannot be selected which has among its directors or stockholders the county judge, county attorney, county clerk or county treasurer;

— Law officers may use force in handling mentally ill persons to protect themselves, the persons and public;

— Attoyac Bayou Watershed Authority has legal authority to develop a multipurpose reservoir, including recreational use, and may use tax funds to finance and maintain it;

— Highway Commission can sell surplus land and improvements directly to the City of Lamesa for established value without advertising and taking sealed bids;

— U-Haul trailers are taxable in individual counties which are their business sites;

— Hillsboro Junior College District can levy 30 cents tax for maintenance and 50 cents tax for servicing bonds.

HOUSE PROPOSED — House Constitutional Amendments Committee approved for floor debate a proposed amendment to create a 100-member unicameral (one house) legislature for Texas.

Proponents said measure strikes at inherent evils of the conference committee where so much major legislation is written behind closed doors and hastily voted on in closing hours of a session.

HUNT GEMS FOR \$1.50

Only U.S. Diamond Mines Attract Arkansas Tourists

By BILL SIMMONS
Associated Press Writer
MURFREESBORO, Ark. (AP) — Diamonds are a girl's best friend, the saying goes, but diamonds have also done a lot for all of Arkansas — men included. North America's only diamond mines, located about two miles southwest of here, are thriving tourist attractions. The "diamond-hunting" season gets warm with the weather.

The mines aren't actually mines anymore. They once were, briefly, but now they're operated purely as tourist attractions, where the traveler — for a \$1.50 fee — can scuffle through acres of plowed kimberlite in search of diamonds.

HE CAN ALSO picnic or just rest, knowing that the soil beneath him — the kimberlite — bears diamonds for the determined and lucky plucker.

Diamonds have been found in isolated instances elsewhere in North America, but only near here have they been found in such quantities as to be considered a mine.

Last year about 100,000 visitors came into the area to seek the gems.

Undoubtedly, they were hoping to find stones like the Uncle Sam Diamond or the Star of Arkansas.

In 1925, the Uncle Sam Diamond was found at the Arkansas Diamond Mine Inc., and weighed 42 carats and 23 points in the rough. The emerald-cut

stone was trimmed to about 15 carats. It recently sold for \$100,000.

THE STAR OF ARKANSAS was found in 1956 at the Crater of Diamonds. In the rough it weighed 15.31 carats.

Mrs. Arthur Lee Parker of Dallas, who found it, recently had it appraised again. Value: \$100,000.

But there is one difference between the finds — the Uncle Sam was discovered in a mining operation. The Star of Arkansas was picked up off the ground by a tourist.

The Arkansas Diamond Mine, now operated by James R. Johnston, occupies 828 acres, of which Johnston said 49 acres are diamond-bearing soil.

The Crater is operated by Mr. and Mrs. Howard Millar, who have handled it since it was founded in 1914. The Crater has 40 acres, with about 18 bearing diamonds, Millar said.

THE CRATER HAS been solely a tourist attraction for the past 12 years. The Arkansas Diamond Mine has been a tourist attraction only for the past three years.

Commercial mining ventures failed.

"It takes about \$15 million to get a diamond mining operation going right," Johnston said.

A mining operation attempted at the Crater met with failure after two mining plants mysteriously burned to the ground and a number of suits were filed against the group attempting the

LUCKY TOURIST — Mrs. A. L. Parker of Dallas scabbles around in the plowed kimberlite at an Arkansas diamond mine, open for tourists. In 1956, in this way, she found a 15.31 carat diamond which now is worth \$100,000. (AP Photo)

operation, Millar said.

But both sites flourish as tourist attractions.

And there's not much chance that they'll exhaust their supply of diamonds anytime soon.

In 1944, the federal government made four core drillings in the area. The kimberlite belt extended downward 1,000 feet. At the 600-foot level the drillers found a diamond.

Two Sentenced In Court Here

A Hereford woman was fined for liquor law violations and an Adrian woman sentenced to jail on a charge of contributing to the delinquency of minors in county court last week.

PRESIDING WAS County Judge

American Field Service Elects

Members of the American Field Service Committee named Mrs. H. H. Miller to head the slate of officers elected for the coming year to highlight last week's meeting of the local group.

MRS. MILLER replaces Ed Skypala, who completed his term as chairman of the AFS committee with Wednesday's session.

Other officers selected were Robert Thompson, vice chairman; Mrs. Gid Brown, secretary; Mrs. Elmer Kimball, AFS student-family adjustments; Albert Maxwell, re-elected finance chairman; Mrs. Frank Prowell, school advisor; H. A. Tuck, re-elected publicity chairman; and Richard Brown, student member-at-large.

NAMED TO HEAD THE Americans Abroad committee was Mrs. A. T. Mims. She will be assisted by Mrs. J. J. Durham, Robert Thompson, and Ed Skypala.

On the projects committee are Mrs. Elmer Patterson, Mrs. D. T. Martin, and Mrs. T. J. Parsons.

ATTACKS TEXAS 'MYTHS'

Trip Floating On Rio Grande Is Subject of Television Promotion

AUSTIN (Special) — A float trip down the Rio Grande in the Big Bend National Park is the subject of Texas' first television film designed to help increase travel to and within the state.

The minute and one-quarter public service short has been sent 350 tv stations in Texas and its 22-state travel market area by the Texas Tourist Development Agency.

If the clip receives the reception TTDA believes it will, a series on other equally scenic areas of the state will be developed.

THE INITIAL film is built around the raft trip through Mariscal Canyon, most southerly point in the park. Highlighted are innumerable rapids encountered on the trip and the majestic walls of the canyon that rise vertically as much as 1,400 feet from the river. Included too are glimpses of the mountain grandeur that characterizes the Big Bend country.

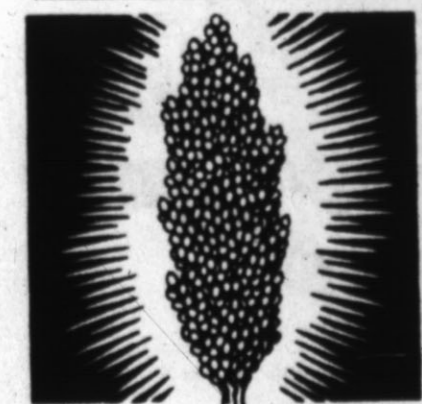

Frank Hildebrand, executive director of TTDA, said the clip was prepared as still another

tool to help dispel the general public concept of Texas as a "big, flat, hot state."

"Our national research indicates that mountains and inland water are two commodities most visitors least associate with Texas," Hildebrand said. "And yet they are among the most sought-after aspects of a prime vacation land."

"BY GRAPHICALLY depicting the presence of these things, we think we will do much to help correct the badly warped image too many have of Texas."

The film was arranged, shot and edited at no cost to the state. Sole expense was production of the duplicate tapes. Co-operating with TTDA in the project were Perry E. Brown, superintendent of the Big Bend National Park; Peter Kock, manager of the Alpine Chamber of Commerce and Claude Cox, manager of television relations, Six Flags Over Texas.

PLANT LINDSEY

788

HIGHEST YIELDING HYBRID IN 5 YEAR AVERAGE AT HIGH PLAINS RESEARCH FOUNDATION, PLAINVIEW, TEXAS

Lindsey 788 frequently yields in the 7,000 to 10,000 pounds per acre range in this area. Used by many sorghum growers who want absolute top yield potential in the hybrid they plant. Use where you plant early and can go all out for yield. 788 can also wait out dry conditions and still produce surprisingly high yields. Near full season maturity.

ALSO PLANT

LINDSEY 744 — Earliest Grain Hybrid. Widely used on dryland and under limited irrigation.

LINDSEY 755 — Medium Maturing Grain.

Revised Grading Standards For Beef Effective June 1

COLLEGE STATION (Special) — Revised U. S. Department of Agriculture beef grading standards will go into effect June 1.

The new standards will leave the Prime, Choice, Good and Standard classifications unchanged, but will reduce marbling requirements for beef in those grades, depending on grade and degree of maturity. The marbling reduction angle will not materially affect the requirement for young cattle.

Frank Orts, Texas Agricultural Extension Service meats specialist at A & M University, says research has shown that too great an increase in marbling has been required to offset increased maturity in cattle 18-30 months of age.

UNDER THE REVISED standards, marbling requirements have been reduced almost one full degree from "Moderate" to "Modest" for carcasses from animals about 28-30 months old. Progressively smaller reductions have been made for carcasses from younger cattle.

"The revised standards will also reduce the number of maturity groups from three to two in the above-mentioned grades and eliminate the consideration of the two degrees of marbling in excess of abundant," the specialist said.

He added that the revision also requires that all beef carcasses offered for grading be "ribbed" to expose the ribeye muscle for marbling determination. A carcass is ribbed by separating the fore and hindquarter between the 12th and 13th rib.

THE NEW CUTABILITY standards, which are included in the revised standards, are available on an optional basis for the first time. Packers are not compelled to use this system.

"This innovation will reduce the amount of fat deposited on the carcass and increase the size of ribeye, which should entice producers to produce cattle with a more desirable carcass from a merchandising standpoint," Orts said.

Degree of finish on fat covering has the greatest influence on estimated yield of these carcasses, he said. Amount of fat which must be trimmed varies

Carriers Taking Livestock Survey

Rural mail carriers will leave livestock survey cards in boxes next week, says Postmaster Nolan Grady. Results of this survey will be used by the USDA for livestock and poultry estimates.

Carriers assisting with the survey are Coleman Wright, Route 1; LeRoy Price, Route 2; Howard Armstrong, Route 3; Owen Stanger, Route 4, and E. W. Young, Route 5.

Broom corn is a grass from which brooms and clothes brushes are made.

The breastbone of the bat has a keel on which is attached strong muscles used in flying.

widely within the same weight and grade of beef carcasses. The difference can mean as much as \$8 to \$10 per hundred-weight, or on a 600-pound carcass, \$48 to \$60 per carcass.

"These cutability standards if employed on a wide scale in the industry, can contribute significantly to improving meatiness of beef cattle and provide the retail outlet with the type of beef consumers prefer," Orts emphasized.

CUTABILITY standards establish five classifications ranging from 1 to 5. They are based on fat thickness over the ribeye, size of ribeye, quantity of internal carcass fat, and carcass weight.

The cutability Grade 1 classification will identify carcasses yielding the highest percentage of boneless, closely trimmed steak and roast, and Number 5 will identify those having the lowest percentage.

Carcasses falling into cutability Grade 1 are estimated to yield 53.55 per cent of their weight in boneless, closely trimmed steak and roast; cutability Grade 2, 50.8-53 per cent; Grade 3, 48.5-50.7 per cent; Grade 4, 46.2-48.4 per cent; and Grade 5, 46 per cent and under.

The USDA reports accuracy of their graders' estimation and the actual cutout to be about 80 per cent. But tests at Texas A & M have shown an accuracy of about 60 per cent.

"This is probably due to internal fat estimation," Orts said. "Even though the accuracy of this estimation is not 100 per cent, it's still a good indication of the actual cutout of the carcass."

In the past, grading standards have not considered the amount of waste fat on carcass beef, Orts added.

You can buy SYNACLEAR at your favorite drug counter, without need for a prescription. Satisfaction guaranteed by maker. Try it today.

McDOWELL DRUG

After sorghum has emerged, spray Atrazine to control weeds and grasses.

The idea is to spray Atrazine 80W herbicide right after sorghum has emerged, but before weeds are 1 1/2 inches high. This one application, moved to the weed root zone by rainfall, will control most annual broad-leaf weeds and grasses in sorghum for the entire season.

Control of weeds and grasses in sorghum with Atrazine can greatly reduce the need for cultivating. And so your crop goes through the entire season without weed competition for moisture and soil nutrients.

The results of weed control in sorghum are higher yields and lower production costs. And you can now graze or feed forage to livestock from treated sorghum fields 60 days after Atrazine application.

Contact your local supplier now for Atrazine 80W herbicide.

Chamber Warns Against 'Bargain' Advertising Of Carpeting Offers

The Deaf Smith County Chamber of Commerce has warned homeowners to be wary of advertisements offering bargain-priced wall-to-wall carpeting by the room.

Bill Thompson, manager of the Chamber, said such advertisements are commonly used as "bait" to lure customers into the store for the purpose of selling them much high-priced carpeting.

According to the National Better Business Bureau, with which the local chamber of commerce is affiliated through membership, this version of the classic been 'cropping up throughout the country with increasing frequency over the past few years.

A TYPICAL advertisement reads:

"3 rooms - Wall - To - Wall Broadloom - Living Room, Dining Room, Bedroom - Completely led to believe that they can have up to \$1,000.

NBBB said hopeful readers are led to believe that they can have their living room, dining room and a bedroom recarpeted for \$199, but Better Business Bureau shoppings revealed that salesmen attempt to high-pressure people responding to the ads into buying carpeting costing up to 1,000.

The National Bureau said salesmen depreciate the advertised carpeting with such statements as:

"DON'T BUY IT. You are just dropping money down the drain." "Be careful how you clean it. It will mildew unless cleaned with a special cleaning agent."

If the person persists in ordering the carpeting offered in the ad there may be long delays in delivery. Complaints are met with a variety of excuses.

NBBB said advertisers, when challenged, have sometimes been willing to include the dimensions of the rooms in ads, or the total square footage, but noted that this would be meaningful only to those who had rooms which happened to be of the dimensions advertised.

TRADITIONALLY, said NBBB, carpeting is priced to the public by the square yard. Simple arithmetic enables the consumer to calculate the approximate cost of carpeting any particular room or area at the ad-

vertised price per square yard. It is not possible to ascertain the total price, the Bureau pointed out, until accurate dimensions, type of padding and locations of seams are ascertained.

Thompson said that the purchase of carpeting for the home represents a substantial investment from which years of service are expected. Consumers best safeguard in making this important investment is in dealing with a well established firm of known reliability.

CLASS OF 1891 Texas U. To Recognize Oldest Grad—Now 103

AUSTIN (Special) — Edward Everett Cauthorne, who is the oldest living alumnus of both The University of Texas and Harvard University, will celebrate his 103rd birthday today. He graduated from UT with a Bachelor of Science degree in 1891.

Jack R. Maguire, Executive Director of the UT Ex-Students' Association said that a festive party is planned at Cauthorne's residence, the Neponit Home for the Aged, operated by the New York Department of Welfare.

THE LUNCHEON will be attended by New York Texas Exes Club representatives, who will present Cauthorne with gifts from The Ex-Students' Association, and salutations from Governor John B. Connally and Chancellor Harry Ransom.

Cauthorne, who came to the University from Belton (Bell County), was on the Forty Acres at the same time as many people who went on to become legends in Texas education, government, and business. Several of The University's facilities bear their names.

H. Y. Benedict, destined to

become one of the great University professors and presidents, was an undergraduate with Cauthorne. So were Goodall Wooten, later a prominent physician, and Miss Lila Belle Waggener (Mrs. Joe Etter), daughter of the first UT president. It is for Mrs. Etter that the U.T. Alumni Center is named, and from her estate that some of the building funds were obtained.*

ANOTHER CLASSMATE who left his mark on The University of Texas was Dr. Daniel Penick, distinguished educator in Hebrew and Greek, and equally notable tennis instructor, who died only last December.

Two prominent members of the Board of Regents, who contributed so greatly to molding

UT, were Will C. Hogg and Major George W. Littlefield. Cauthorne probably had classes under some other legends, too, including Dr. William James Battle, revered Classics professor, and T. U. Taylor, "Father of Engineering" at The University. During those days, less than 1,000 students trod the Forty Acres. Now more than 24,000 crowd the growing campus.

The New York World's Fair continues a tradition that began with the Great Exhibition in Hyde Park, London, in 1851. The first huge international exposition attracted 14,000 exhibitors and six million visitors. The event was staged in an architectural wonder — the Crystal Palace — a gigantic glass, iron and wood building that sheltered 20 acres.

Dear Senior:
Congratulations! Graduation marks a giant step in your life. Your own application and industry are responsible for the honor that is yours. The achievements that are to come will be gained the same way.
We are sincerely proud of you, because Commencement signifies accomplishment to us...it is a symbol of a better tomorrow because you are better prepared to make it so.
Our best wishes to you today and all days to come.

Congratulations Graduates....

and best wishes for continued success in whatever field of endeavor you choose.

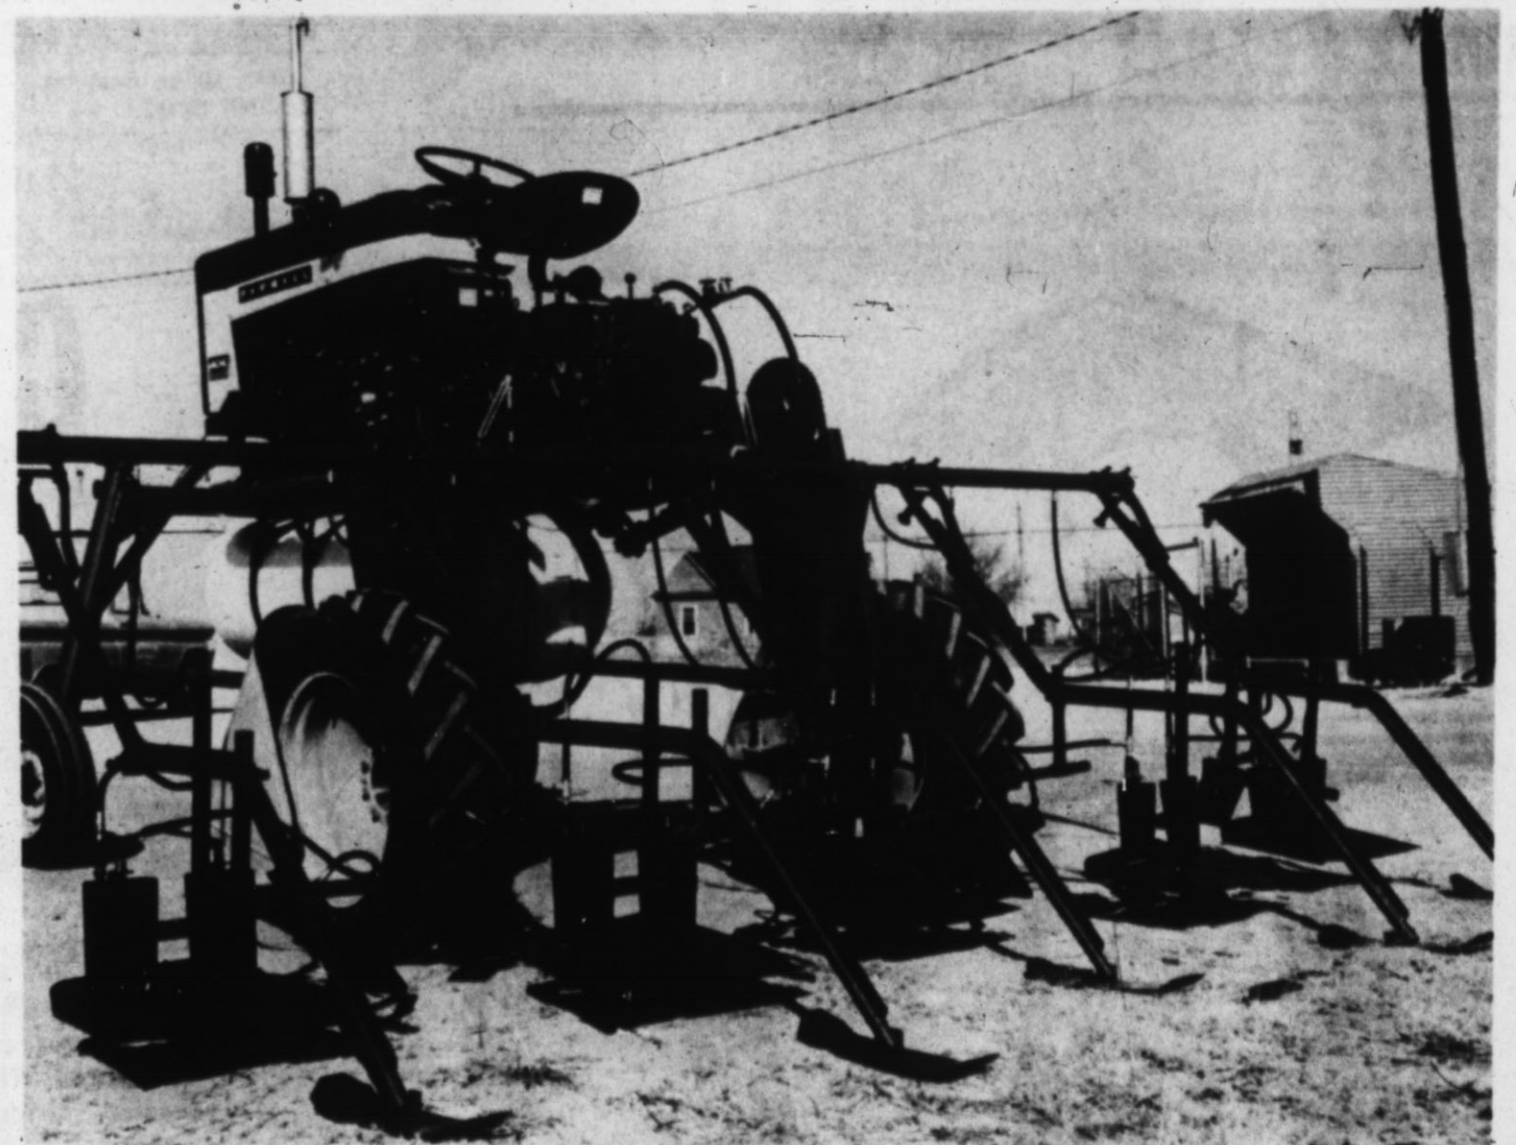

If you enter the farming line, may we remind you that

farming has changed since your parents were graduates!

Certainly, farming has mechanized greatly. Now, one flame cultivator will replace as many as 40 hoe hands and do a better job.

Probably no other industry has changed as much as farming in the past 10 years, with the introduction of hybrids, better power tools and flame cultivation.

If you decide to follow farming for a livelihood, we would suggest that you check with us and discover the advantages of using flame for cultivation.

EXPENSIVE WATER
CAPE KENNEDY, Fla. (AP) — Boeing Co. scientists estimate that astronauts on extended space flights will require about a gallon of water a day. The price tag on putting a gallon in to orbit under current rocket

launching costs is about \$2,000. With the high price, plus the fact there is a limitation to what can be orbited regardless of cost, Boeing is studying ways of recovering, processing and recycling water used in a space capsule.

Even so, it won't be like home. It is estimated that every man, woman and child in the United States uses an average 50 gallons of water a day for drinking, washing, cooking and watering the lawn.

Members of the ancient English cult of Druids gather near the Tower of London dressed in white robes and hoods to celebrate the arrival of spring. They join hands and scatter seeds, forsythia blooms, and cider on the ground to honor the sun.

John Stagner Named Outstanding Citizen At Stanton Jr. High

The annual Stanton Junior High Awards assembly was held Friday, May 14, 1965. During the assembly many of the students received Letter "S" awards. Mr. Grant Hanna also presented trophies to Anna Johnson and Alan Clark; these awards are made possible each year by the Local American Legion. The students are selected by the teachers according to certain qualifications which are listed by the American Legion.

Mrs. Corine Neely from the Red Cross office presented a certificate to Mr. Quattlebaum for outstanding work which has been done during the year by the Stanton Junior Red Cross Chapter. Mrs. Neely also presented a certificate to Elvis Hudson for his work in the local chapter.

This year for the first time the Davis Award metal was presented to the student scoring the highest on a current events test. The student must take the current events test, write essays on five questions and also have good citizenship. The Current events company sponsors the event which is named for a newspaper editor. The winner of the Davis Award for this year is Pam Miller.

The outstanding student chosen by the eighth grade class was Johnson Stagner.

Other awards given were:

OFFICE: Patricia Hill, Billie Goetsch, Patsy Daniels, Rosie Rogers, Debra Bailey, Cindy Cavness, Julia London, Jan West, Martha Richardson, Sharon Cash, Ann Priddy, Luann Kendall, Gayle Brothers, Judy Hollingsworth, Suzanne Oglesby, and Virginia Gholson.

BAND: Carolyn Hernandez, Jimmy Haile, Phoebe Allender, David Alvarado, Ellen Bridges, David Vines, Paul Ware, Dennis Downey, Juan Gutierrez, Patsy McCutchen, Wayne Poarch, Danny Boyer.

Joy McCathern, Pat Cooper, Jana Denton, Debra Wilson, Dennis Hicks, Paul Hendon, Ronnie Matthews, Daniel Beversdorf, Glenda Champ, Percy Mays, Keith Anderson, Mike Higgins, Martha Aikin, Doug Gresson and Carolyn Hernandez.

2nd DEAF SMITH SPELLING BEE: Renette Hubble.

CHEERLEADERS: Suzanne Oglesby, Lanny Buck, Luann Kendall, Deborah Huddleston, Deborah Hodges, Peggy Summers.

SHUFFLEBOARD: Mary Moreno, Olga Arsiaga.

BADMINTON: Mary Rogers.

TAKES TOP AWARD — John Stagner, son of Mr. and Mrs. Earl Stagner of 210 Ave. J, was named outstanding citizen of Stanton Junior High School at awards assembly this week. John is an eighth grade student. (Brand Photo)

Stanton Choirs Presented In Annual Spring Concert May 11

By MARTHA BAKER

One hundred ninety one students participated in the Stanton Junior High spring choir concert. It was held on Tuesday, May 11, in the Stanton Junior High auditorium. No admission was charged. The choir was directed by Mr. Joe Godfrey. Mr. Godfrey has been working with the choir and has been preparing them for the concert all semester. The choir participating in the concert were the seventh grade boys choir, the seventh grade girls choir, the eighth grade mixed choir and the eighth grade girls choir and all the region choir.

The selections sung by the eighth grade mixed choir were "I see his Blood upon the Rose", "Psallite", "Ah, Thou Wouldst Rather See", "South Pacific Selection", "I wonder as I Wander" and several versions of "Mary Had A Little Lamb"; Judy Hollingsworth sang the solo part with the choir in "I Wonder as I Wander". "Mary Had A Little Lamb" was directed by Russell Phillips and narrated by Kathy Fooks.

The seventh grade boys sang "Praise to Thee", "All Thru the Night" and "Shenandoah". The accompanist for the boys choir was Janet Frye.

The seventh grade girls sang "Darkness O'er the Earth is Stealing", "Morning Song" and "Titania" (queen of the fairies). They were accompanied by Jamie Edmonson and Martha Baker.

The songs sung by the eighth grade girls choir were "Easter Alleluiah", "Golden Slumbers", and "Lord Bide with Us".

The all region choir consists

of the five best baronates, tenors, altos and sopranos in the school. They represented Stanton when they sang in the all region choir in Dumas this month. They sang two selections which they had learned with the all region choir in Dumas.

All the girl choir members in the seventh and eighth grades sang "Let There Be Music" and all the boys sang "God Ever Glorias." All the choirs together sang "No Man is an Island", "The Star Spangled Banner" and the Stanton Alma Mater.

The eighth grade girls quartet and the seventh grade girls sextet sang selections which they had sung at contest.

Band Raises \$400 For Music Scholarships

By JANA DENTON

The annual spring concert presented by the Stanton Junior High band department took place May 6, at 7:30 p.m. It was attended by nearly 500 persons. Over \$400 was raised. The proceeds are to go toward scholarships that will allow band students to attend the West Texas State University Music camp this summer.

The program was opened by the seventh grade band playing "Gallant Marines". Other selections were "To A Wild Rose", "Norwegian Folk Song Suite", "La Nuit", and "Greensleeves". Joy McCathern and Dennis Hicks were recognized as being outstanding in the beginner band.

The eighth and ninth grade bands began by playing "Amorito Roca", a Spanish march. Other selections were "Colonel Bogey", better known as "Bridge on the River Kwai" and First Suite in E Flat for Military Band.

A trombone trio composed of Don Bill Hair, Dan Anderson and

Frank Nobles played "Whirligigs". A saxophone quartet, Lupe Alvarado, Lowell Wiggins, David Alvarado and Steve Hendon played "Prelude and Beguine". Chris Hutcherson and Wanda Fuhrmann were recognized as outstanding band members and were presented desk sets.

Mr. Wilson said "This concert is a climax to the entire year. A behind the scene element which most certainly should be recognized is our fine administrative staff who gives us all the support and help needed for a successful organization."

In addition to this program the seventh grade presented the regular Wednesday morning home-room assembly program for the student body at Stanton Junior High.

The money which was taken in at the spring concert will pay for scholarships to the West Texas State University Music Camp. These scholarships will amount to \$25 apiece. The scholarships are to be awarded on an audition bases to deserving students. It is expected that about 18 scholarships will be awarded. This music camp is one of the finest in the southwest. It employs some of the best teachers in the United States. Some students come as far as 1,000 miles to attend. The two week session starts July 18, and will end July 30.

Red Cross Gives \$25 For Flood Disaster Relief

By EVELYN KUPER

The Junior Red Cross activities for the year are near completion. The scrapbook has been assembled and was presented to Mrs. Neely, secretary of the Red Cross office. This presentation was made at the awards assembly May 14th by Betty Hodges, chairman of the scrapbook committee.

The executive committee voted to authorize a payment from our enrollment fund in the amount of \$25 to be sent to the Mississippi Valley to aid in the flood disaster.

Awards and pins were given to special workers and the executive committee of the Red Cross. Those qualifying for the awards were those who have attended all the meetings or not missed more than two.

We would like to have all comic books, crossword puzzles and games brought to Mrs. Wertemberger's homeroom the last week of school for out final projects.

We wish to thank all the students and teachers of Stanton Junior High for their cooperation making this a successful year in junior red cross work.

Students Hear Talk On Alcohol

By MARY SUE NEFF

There are many students who are only fifteen years old when they first start taking drinks of alcoholic beverages. May 13, Mr. Denny Richardson came to Stanton Junior High to talk to the seventh grade students about alcohol. Mr. Richardson is a teacher in the Hereford High School and recently attended a meeting on alcoholics in Waco. On the program at the Waco meeting were men from insurance companies, the state highway departments and a brain specialist from California.

The specialist which spoke at the meeting said alcohol is the third most important disease in the United States. He also said that alcohol has no food value and it breaks down the body.

Last year in Texas there were three thousand people killed by accidents. Thirty-seven per cent of these were killed after drinking alcohol beverages. When you have alcohol in your blood stream it makes your thinking one-half second slower than normal. There is three to five per cent alcohol in beer, ten to twenty-seven per cent in wine, and nearly fifty per cent in whisky.

Gymnastics Are Last Program

By DEBBIE BOARDMAN

Our last southern assembly was April 26. It was a gymnastic act which featured Wayne and Carol Wright along with their four year old son, Shane. Shane was the comedian of the show. During the act they showed some easy and helpful exercises and then performed on the trampoline and tumbled.

Mrs. David Griffin said she thought it was very interesting to know that a trampoline is not just a fun instrument but also requires skill and work. Jo Ann Coffey commented, "I think it was highly educational and showed that trampolining can be fun, but it isn't for show offs." Mr. Quattlebaum said, "I am glad they emphasized the physical fitness and showed how it can help."

8th Graders End Year With Picnic

By SHARON CASH and DEBBIE RICKMAN

Wednesday, May 5, at 11 o'clock the eighth graders and their sponsors assembled on the west parking lot to proceed to Dameron park for their annual picnic. Everyone brought a sack lunch and these were spread out for the lunch. Each person had paid twenty cents for cokes.

Among the activities planned for the afternoon were bowling, golf, community center, tennis, skating, horseback riding, the show and bicycle riding. The sponsors for these events were Mrs. Spicer Gripp, Mrs. Tandy Legg, Mr. P. M. Miller, Mrs. Charles Duvall, Mrs. Eleanor Hudspeth, Mr. Fred Mercer, Mr. James Lanier, Mrs. Claudia Ola Brown, Miss Flo Dickinson, Mr. Robert Godfrey, Mr. Rodney Laubhan, Mrs. Bob Kenner, Mr. John Murdock and Mr. Jerry Don George.

Everyone reported they had a good time and many had sunburns and stiff muscles the next day.

Patsy Daniels, Jerry Tyler Are Honor Students

By PATRICIA HILL and DEBORAH GHOLSON

The students chosen as students of the six weeks for the final six weeks of school were Patsy Daniels and Jerry Tyler.

Patsy Daniels is the daughter of Mr. and Mrs. Lindy Daniels and was chosen to represent the eighth grade. She was born in North Carolina and moved to Hereford when she was eight years old. She attended Shirley Elementary before coming to Stanton. Patsy has one brother, Robert, who is five years old, and one sister, Kathy, who is in the fifth grade. Swimming and horseback riding are some of her favorite hobbies. Other favorites are movie, Parent Trap; colors, pink and blue; food, pizza; record, Blue Velvet; and subject, English. Her most memorable moment was getting to be student of the six weeks and going to the Lions Club. She describes it as a great honor. Patsy said she has enjoyed this school year immensely.

The seventh grade student of the six weeks is Jerry Tyler. He is the son of Mr. and Mrs. Nicky E. Tyler. Jerry is in Mrs. Ray Todd's homeroom. He participated in football and track during this year. His hobbies are dancing, collecting rocks, and collecting antiques. During the summer Jerry plans to mow lawns and plow.

Valetudinarian?

By PHOEBE ALLENDER and JAN ANDERSON

Here are some of the eighth grader's replies to the question, "What is a valetudinarian?"

Debbie Rickman — A person who eats pretzels for breakfast.

Gary Crume — The opposite of veterinarian.

Bill Benefield — A big word.

Sharon Cash — A teacher with a week-end hang over.

Mr. Laubhan — A heart doctor.

Mrs. Brown — Sounds like something good to eat.

Dawn Hopson — Some sort of vegetable you eat on St. Valentine's Day.

Lanny Buck — Did you make that up?

Patricia Hill — The opposite of a valetudinarian.

Patsy Daniels — You would probably get in trouble if you hit it.

Denise Daniels — Some sort of prehistoric monster.

Terry Warlick — All the teachers mixed together.

Billie Goetsch — Is it in the dictionary.

Alan Coker — A secret weapon.

Mrs. Hudspeth — A distributor cap painted red and used as a pencil holder.

A Valetudinarian is a person of weak or sickly constitution.

IT'S UP TO YOU

As you build toward the future we wish for you continuous success and advancement.

ANNOUNCES PRE-ENROLLMENT FOR

Kindergarten

A pre-enrollment day has been scheduled for Friday, May 21, from 9:00 a.m. till 12:00 noon in the Educational Building, across the hall from the church office.

- Children who will be (5) five years old before September 1, 1965 are eligible.
- Classes are Monday — Friday, from 9:00 — 11:30.
- We observe some holidays as public schools.
- Tuition is \$12.50 per month; this is to be paid during the first week of each month. The \$12.50 deposit will insure your child of a place.

Our curriculum consists of a program of music activities, rhythm band, stories, art, puzzles, numbers, consonant sounds, and group relationships.

Carol originally meant a song accompanied by dancing. The U. S. Coast Guard was established Jan. 28, 1915. A queen bee can lay as many as 3,000 to 4,000 eggs a day. Delaware is sometimes called the Diamond State. Beaumont is French for "beautiful hill."

Legionnaires Set Division Assembly

(Special To The Brand)

ODESSA — Legionnaires and Auxiliary members from the 16th, 17th, 18th, 19th, and 21st Congressional Districts, comprising the fourth division of the American Legion, will assemble here on Saturday and Sunday for their annual convention.

The Ruffers golf tournament will commence at 8:30 a.m. Saturday at the Golden Acres Country Club.

Registration will open at 9 a.m. at the Home Post No. 430 for all Legion and Auxiliary functions.

A PRESS CONFERENCE will be held at 2:30 at the Ramada Inn with Division Commander John F. Crooks as moderator. Those to be interviewed will include Department Commander Lewis W. Emerich; Clayton Mann of Wichita Falls, candidate for Department Commander; Past Department Commanders Joe L. Matthews of Fort Worth, E. L. "Stonewall" Jackson of Cisco and Pete E. Turner of Midland; Department Service Officer Fred W. Brookman of Lubbock.

The hospitality hour for registrants will begin at 6 p.m.

The convention dinner will commence at 7:30 p.m. with Harland L. Smith, Commander of Post No. 430, presiding. Address of welcome will be by Ron. Paul McCollum, former Judge, 70th

District Court, and response by C. Roscoe Cone of Big Spring. The principal speaker will be Mrs. George Svanas of Odessa. The convention dance will follow at 9 p.m. for registered delegates.

ON SUNDAY registration will be resumed at 9 a.m. at the Post No. 430 Home.

The Legion's business session will be called to order at 9:30 a.m. by Commander Crooks. Department Sergeant at Arms Jack Whitson and the Midland Color Guard will advance colors. Invocation will be by Post Chaplain Ray Wysong. Reports will be heard from chairmen of rules, credentials, resolutions and convention city committees. Department Commander Emerich will be principal speaker. Highlight of the business session will be the election of a department vice commander for the ensuing year. Delegates and alternates to the national convention to be held in Portland, Oregon in August will be elected.

A Memorial Service at noon, under the direction of Molly Graham Post No. 522, Miss Thelma Stephens, commander, will conclude the convention.

17 Pass Course On Radioactivity

Seventeen of 18 enrollees from Deaf Smith County passed examinations administered at the end of a radiological monitoring course given here for two days last week.

Bill Thompson, Civil Defense director for the county, said he has applied for monitoring kits for the qualified personnel, but has no assurances that the equipment — distributed by the state CD organization — will be forthcoming.

Enrolled from the county for the course, taught by U. S. Army personnel from Fort Sill, Okla., were six county employees, four highway patrolmen, two Holly Sugar Co. employees, the Civil Air Patrol commander, Thompson, two U. S. Post Office personnel, a U. D. Department of Agriculture employe and a Texas Highway Department employe.

SUBMIT YOUR IDEAS IN THE "KIDDY CAPTION CONTEST"

This is No. 1 of 2 different ads, each showing photos to be used in an advertising program to be produced by this firm.

The photo at right is a sample one of 12 for which we need humorous captions.

Shown below it is a sample caption that merely suggests the general type and style of caption desired.

"YOU ENLARGED THE GARAGE DOOR!! HOW?"

"HERE'S HOW EASY IT IS TO ENTER. . ."

1. Submit as many captions as you want for any or all of the 6 photos in this advertisement. Limit each caption to twenty words or less.
2. All captions submitted will become the property of Beasley Feature Syndicate.
3. For each caption selected for use in an advertising program to be produced by this firm, we will pay \$5.00 to its writer.
4. Identify each caption with the number that corresponds to the photo for which it is intended.
5. Acceptance of all captions will be at the discretion of Beasley Feature Syndicate.

Entries may be submitted on postcards or by letter. Be sure to include your name and address with your entries.

MAIL YOUR ENTRIES PROMPTLY TO BEASLEY FEATURE SYNDICATE

BOX 414 AMARILLO, TEXAS 79105

USE YOUR IMAGINATION —HAVE FUN—WIN MONEY!

Study the 6 photos shown here and write a caption that you think expresses what each child might be thinking or saying.

You can have loads of fun, by yourself or with your family and friends. Simply express in your own words what caption seems to best fit the expression of the child in each photo.

May 31 Deadline For Homesteads

Deadline for rendering homestead and other real and personal property at the Deaf Smith County Tax Assessor-Collector's office is Monday, May 31.

STATE LAW requires that homesteads be declared each year.

Notices of property tax assessment adjustments are being

mailed to property owners. Questions regarding adjustments should be brought to the tax-assessor-collector's office prior to May 21st, according to H. A. Tuck.

COUNTY COMMISSIONERS will convene as the Board of Tax Equalization on June 16 to hear unsettled complaints.

Property taxes will be charged to owners for property held last year unless renderings showing changes have been made, Tuck said.

TOURIST ATTRACTION

CAPE KENNEDY, Fla. (AP) — One of the most popular new Florida tourist attractions is a visit to Cape Kennedy where Americans can see the rockets and launching facilities their tax dollars have bought.

In December, 1963, more than 13 years after the Cape first started firing rockets, the Air Force opened the gates to public drive-throughs from 1 to 4 p.m. each Sunday. The non-stop, 25-mile-an-hour drive lasts 65 min-

utes and takes the visitors close to most launching and rocket assembly areas.

When the National Aeronautics and Space Administration completes its sprawling moonport on adjacent Merritt Island in 1968, it plans regular bus tours of the man-to-the-moon facilities.

A dry wine is one which all the grape sugar has been fermented out.

Greek wines may be made of dried grapes or raisins.

Dallas Banker, Quanah Minister To Speak At Wayland Graduation

PLAINVIEW (Special) — Commencement speakers for the 54th annual ceremonies at Wayland Baptist College will be Ben H. Wooten, Dallas banker, and Dr. W. E. Norman, Quanah pastor and Wayland trustee, according to President Roy C. McClung.

Ceremonies are scheduled for 10 a.m., May 29, at First Baptist Church.

In the class are 88 qualifying for graduation in May and August. Of these number three are from Cuba, Nigeria and Thailand and 85 from 18 states, including Texas, Arkansas, California, Colorado, Indiana, Iowa, Kansas, Kentucky, Michigan, Mississippi, Missouri, New Mexico, New York, North Carolina, Ohio, Oklahoma, Tennessee, Washington.

WOOTEN, CHAIRMAN OF the Board of Directors of Dallas Federal Savings and Loan Association, is a director of the Baptist Foundation of Texas, and the Annuity Board of the Southern Baptist Convention and is chairman of the Board of Regents of North Texas State University.

He has also served as chairman of the Board of Trustees of Baylor University Medical Center, and was president of the Federal Home Loan Bank of Little Rock, vice president of the Republic National Bank of Dallas, president of First National Bank of Dallas. Special honors have included being named Dallas' Top Salesman, and Dallas' Headliner, and given Horatio Alger Award by American Schools and Colleges Association.

DR. NORMAN is pastor of First Baptist Church, Quanah, and has a long service as a Wayland trustee. He will deliver the baccalaureate challenge at Commencement. Wayland seniors will be honored by President and Mrs. McClung with the President's Reception from 7 to 9 p.m., May 27, in the President's Home and by the Association of Former Students with the traditional Gold Key Dinner that inducts them into the alumni group at 7:30, May 28, at the invitation of Dr. W. Neil Record, executive secretary of the association.

Shower-Tea Honors Miss Hewitt

The home of Mrs. H. L. Ward was the scene of a shower Friday afternoon for Miss Lynda Sue Hewitt, bride-elect of Phillip Charles Duncan.

Guests were received by Mrs. Ward, Mrs. E. C. Hewitt Jr.,

mother of the honoree; Mrs. Robert L. Duncan, mother of the future bridegroom; Miss Catherine Smith and Mrs. Alvin Hewitt, aunt of the bride-elect.

Calling hours were from 4:30 until 6 p. m. and guests were registered by Miss Susan Hewitt and Miss Beverly Hewitt, cousins of the bride-elect. Miss Janice Newsom played piano selections throughout the calling hours.

Guests were served by Mrs. L. C. Hewitt. The serving table was covered with a white cloth with lace insertion and featured net overlay. A flower arrangement of pink and white iris carried out the chosen colors of the bride-elect.

In addition to the members of

the receiving line and the hostesses, those signing the guest register were Mrs. C. E. Leasure, Mrs. A. L. Hewitt, Mrs. L. C. Hewitt, Miss Susan Hewitt, Miss Beverly Hewitt, Mrs. L. B. Worthan, Mrs. Don Cocanougher, Mrs. F. S. Drager, Mrs. Edwin Axe, Miss Nancy Newsom, Mrs. Ronald Rayburn, Mrs. Charles Leffel, Mrs. J. M. Dawson, Miss Phyllis Brown, Mrs. Guy W. Newsom, Mrs. Fred Henry Jr., Mrs. Charles Packard, Mrs. Richard Ward, Mrs. G. W. Dun-

can, Mrs. Gene Parsley, Miss Fran Campbell, Miss Nancy Newsom, Miss Janice Newsom, Mrs. Ira Ott, Mrs. C. F. Newsom, Mrs. Curtis Traweek, Mrs. C. A. Smith and Mrs. W. P. Axe.

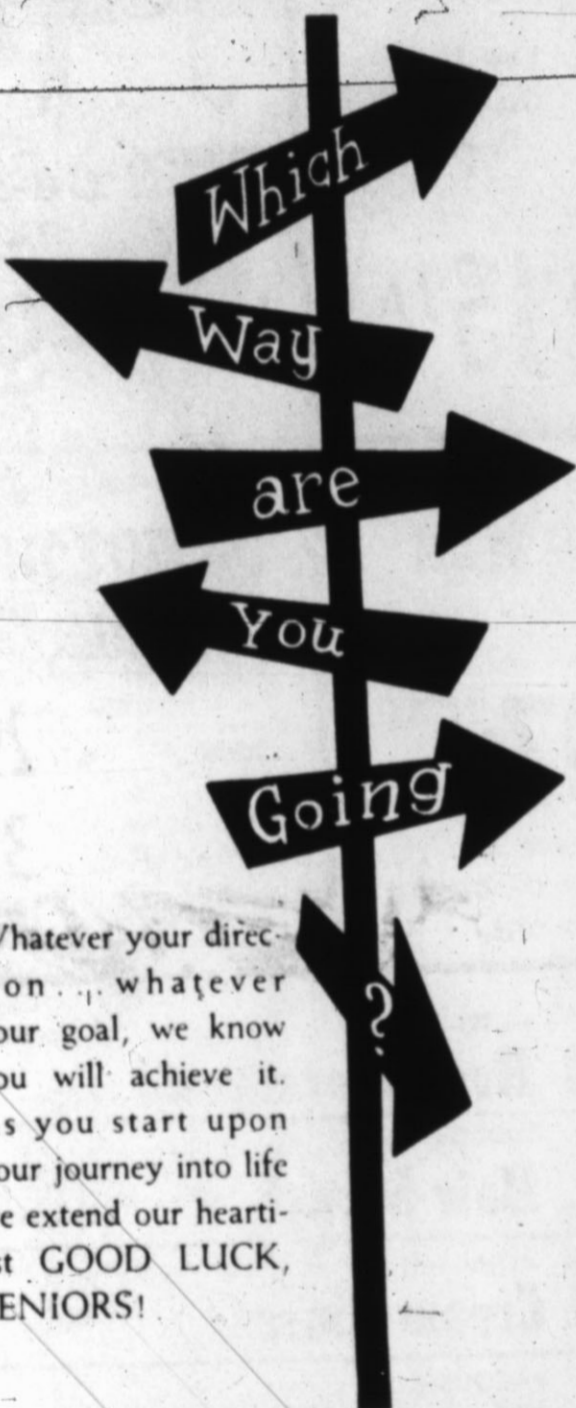

The couple will exchange marriage vows at 6 p.m., May 29th in the First Methodist Church of Hereford.

Dutch bleaching of linen was a long process, lasting six to eight months.

THE KHAPRA BEETLE

547 Men Pitted Against Stored Grain's Nemesis

By **MATT KRAMER**
Associated Press Writer

PORTLAND, Ore. (AP) — A persistent enemy is trying to invade the United States. Almost daily he tried to slip ashore from ships.

He is the khapra beetle, only an eighth of an inch long, but mighty beyond his size.

The U. S. Department of Agriculture calls him the world's worst insect threat to stored grain. He is one of the reasons why India's millions are hungry.

Against this single-minded enemy, the United States pitted 547 men — the inspectors of the Department plant quarantine division.

It is their job to crawl through the holds of ships, scraping out cracks, peering into crevices, tearing out boards in a constant search for one-eighth of an inch of brown and black back.

It is a maddening search. The beetle likes dark privacy. He hides in tiny cracks. In India khapra means brick, and the beetle gets his name from his hiding between bricks.

Several times in the last 12 years he has managed a temporary foothold in this country. Inspectors found him in the U.S. for the first time in 1953 in California. Since then, he also has appeared in Arizona, New Mexico and Texas.

Fumigation is the only weapon that works against the beetle.

Spraying of poisons is ineffective because he takes cover so well. If he is found in a warehouse, the whole building is covered with tarpaulins and gas forced into every cranny of the structure.

James I. Mason, who is in charge of the government inspectors in the Portland District, says the beetle is believed to have a foothold now only in the Tucson, Ariz., area.

When the inspectors head for the waterfront, they also keep an eye out for snails, fruit flies and other pests.

"The khapra beetle is No. 1, though," says K. R. Ross, who helps inspect the 30 ships which enter the Columbia River weekly.

With inspector S. F. Guenther he recently found the khapra beetle in the hold of a Yugoslavian ship that was carrying lumber, steel, cloth, plastic, tea and sandals — but no foodstuffs.

"The ship had picked up the beetles on a previous voyage in the Far East. They had hidden in the hold for we don't know how many weeks," said Mason.

"We were lucky on this one. It only took minutes to find them," said Ross. "I always look for skin casts — the discarded skins of the beetle — and I saw some almost at once when we reached the bottom of hold 3. Within a half-hour we found larvae."

"That was the easy part," said Guenther. "Then we had to work 35 hours more going through the other holds. Two of the holds were all right, but the other three had to be fumigated."

If the beetle ever got into a loaded granary, he would multiply quickly. His favorite place is dark, warm and full of food. A native of India and Ceylon, he has spread to much of the Near East, Europe and the Far East.

The inspectors get just two breaks in this: The beetle has no mch. While he eats any kind of stored grain, he does not eat growing crops. This limits the places that must be watched.

INVASION FIGHTER — A federal plant quarantine inspector searches painstakingly through cracks in the hold of a freighter docked in Portland, Ore., for the dreaded khapra beetle, which is threatening to get a foothold in the United States' stored grain. (AP Photo)

Adrian News

Friday was Field Day for the Adrian School. The 1st went to the Fire Station and Meads Bakery and Elwood Park after their train ride up there. The 2nd thru the 6th went to Thompson Park for the day. The rest went to Palo Duro and Elwood Park and did various things in Amarillo.

Arthur Jewett from Panhandle was up Sunday working on his house.

Mr. and Mrs. Wayne McCloud from Dundee and Mrs. Addie McCloud from Tullia visited Sunday with the Brub Beavers family.

Mrs. Calvin Peters and Troy visited Mrs. Millie Maupin this week in Adrian.

Sunday morning at 11:00 a.m. in the First Methodist Church, in Adrian, Baccalaureate Services were held. Rev. B. J. Foster, pastor of the Methodist Church, gave the Invocation. Music was provided by Mrs. Davis Brown, pianist, and special music was by Ted Hale. Brother Dave Sellers, pastors of the Baptist Church of Adrian, gave the ser-

mon. The congregation joined in a hymn and Paul Robertson, supt. of the Adrian School, gave the benediction. Commencement exercises will be held Friday evening at 8 p.m. in the high school auditorium.

Mrs. M. E. Gruhkey from Vernon and Mrs. Clyde Cooper from Amarillo visited the R. M. Gruhkey family Sunday.

Mrs. Mary Carter and son Kent from Stratford, visited the R. M. Gruhkey family 2 days last week.

Mrs. Dewitt Parker visited her son Walker F. Parker in Canyon and later visited the museum there Sunday.

New residents of Adrian are Red and Eva Turner and they are moving on Bridwell Ranch to one of the North Camps.

Mr. and Mrs. Wayne Sifford and son from Vega are moving to the South Headquarters on the Bridwell Ranch.

The Adrian Little League met and was organized Sunday afternoon. Those helping this year are Ted Hale as president, Grady Pridmore as chief umpire; Dave Sellars and Wilbur Harris as managers, and A.B. Lewis and Duane Collins as managers. Everyone hopes to have a good year.

Rev. Dave Sellers and family visited the Lorin Creitz family Sunday afternoon.

Mr. and Mrs. E. E. Allen visited last week in Winters, Texas with her mother, Mrs. P. C. Davis and they also visited her brother and sister John S. Davis and family and Mrs. Addy Johnson. Then they visited Allen's mother, Mrs. E. W. Allen in Ballinger, Texas.

Those visiting in the E. E. Allen home Sunday were Mr. and Mrs. James Sanders and baby from Amarillo, and Mr. and Mrs. Jess Russell from Vernon, Texas.

Mr. and Mrs. Neil Pounds and family from Earth, Texas and Mr. and Mrs. Butch Boydstrum and Scott all visited the E. B. Pounds family Sunday.

Mrs. Earl Brown was host last Wednesday for bridge club. The ladies present were: Nell Manley, Clare Hale, Elaine Pinnell, Barbara Bryant, Nancy Perrin, Francis Engle, Mary Lee Lane and Ninnett Boydstrum.

Mr. and Mrs. Howard Engle spent the weekend at Raton, New Mexico enjoying the horse races.

Lee Crockell from Panhandle visited the Earl Brown family Sunday as he was on his way home from a Rodeo in Las Vegas, New Mexico.

Mr. and Mrs. Robert Jacobsen and children attended a family reunion for the Baumgardner family Sunday in Palo Duro Canyon. Mrs. Jacobsen's mother from Wellington and four brothers were present.

Mrs. Meb Bolin and family from Edwards, Oklahoma visited the N. L. Jacobsen family last week.

Mr. and Mrs. Wilbur Harris were hosts at a supper in their home for the Adrian High School faculty Thursday night.

The senior class sponsored a volley ball tournament Monday and Tuesday night. This was to help raise money for their senior trip.

Mr. and Mrs. D. P. Doherty visited last week in Amarillo with Mrs. Doherty's sister, Mrs. Emma Lou Hall.

Mr. and Mrs. E. C. Gilliam, Vester, Dean and Linda from Enoch, Texas visited the Lester Gilliam family Saturday.

Mr. and Mrs. Ralph Perry, Winfred Perry and Mr. and Mrs. W. B. Betts attended the funeral of Ralph Perry's mother, Mrs. H. L. Perry in Gage, Oklahoma,

Earl A. Virden Dies Following Extended Illness

Earl A. Virden, 55, of 1905 Park Ave., died Friday in his home following an extended illness. He had been a resident of Deaf Smith County since 1964 when he came here from Los Angeles.

Virden was born Feb. 11, 1910, in Lockney. He was a member of the Avenue Baptist Church.

Surviving are three brothers, Ben and Marnard of Amarillo and Charles of Los Angeles, and two sisters, Mrs. Ruby Moore of Plainview and Mrs. Eva Gilliland of Hereford.

Funeral services were conducted by the Rev. H. V. Fields, pastor of Grace Gospel Church, Monday at 2 p.m. in Rose Chapel of Gilliland Funeral Home. Interment was in Rest Lawn Cemetery.

Hereford Resident in Abilene Hospital

Glyn Bilibrey, 604 Union, and his father, Henry Bilibrey, 94, of Goree, were both listed in fair condition Wednesday in Hendrick Memorial Hospital in Abilene after being involved in a collision about two miles north of Abilene on U. S. Hwy. 287 about 12:30 p.m. Tuesday.

Also in the vehicle were Mrs. Margie Bernard of Munday and Mr. and Mrs. J. V. Justice of Goree.

Bilibrey is a bookkeeper for Orsborn Chevrolet here.

SLATED FOR MAY 29TH

Dallas Banker, Quana Minister To Speak At Wayland Graduation

PLAINVIEW (Special) — Commencement speakers for the 54th annual ceremonies at Wayland Baptist College will be Ben H. Wooten, Dallas banker, and Dr. W. E. Norman, Quana pastor and Wayland trustee, according to President Roy C. McClung.

Ceremonies are scheduled for 10 a.m., May 29, at First Baptist Church.

In the class are 88 qualifying for graduation in May and August. Of these number three are from Cuba, Nigeria and Thailand and 85 from 18 states, including Texas, Arkansas, California, Colorado, Indiana, Iowa, Kansas, Kentucky, Michigan, Mississippi, Missouri, New Mexico, New York, North Carolina, Ohio, Oklahoma, Tennessee, Washington.

WOOTEN, CHAIRMAN OF THE Board of Directors of Dallas Federal Savings and Loan Association, is a director of the Baptist Foundation of Texas, and the Amity Board of the Southern Baptist Convention and is chairman of the Board of Regents of North Texas State University.

He has also served as chairman of the Board of Trustees of Baylor University Medical Center, and was president of the Federal Home Loan Bank of Little Rock, vice president of the Republic National Bank of Dallas, president of First National Bank of Dallas. Special honors have included being named Dallas' Top Salesman, and Dallas' Headliner, and given Horatio Alger Award by American Schools and Colleges Association.

DR. NORMAN is pastor of First Baptist Church, Quana, and has a long service as a Wayland trustee. He will deliver the baccalaureate challenge at Commencement.

Wayland seniors will be honored by President and Mrs. McClung with the President's Reception from 7 to 9 p.m., May 27, in the President's Home and by the Association of Former Students with the traditional Gold Key Dinner that inducts them into the alumni group at 7:30, May 28, at the invitation of Dr. W. REPORT

The So-An-Ge-Ta-Ha Camp Fire Group had their final ceremonial of the year at the Camp Fire Hut recently. The girls in the ceremonial explained the Camp Fire program to the guests.

Mrs. Nathan Hopson and Mrs. Roy Grubbs presented the girls with the beads they earned during the year and a certificate for passing the Wood Gather's Rank.

Refreshments were served to the following guests: Mrs. Mark Matthews, Mrs. Erwin Robinson, Mrs. Doris Coffin, Mrs. H. C. Angelo, Mrs. Spicer Gripp and Kim Gripp.

Girls present to receive their awards were Angela Grubbs, Debbie Angelo, Connie Matthews, Sandy Fields, Pam Adams, Jeannie Coffin, Grace Vargas, Lori Hopson, Vickie Keenan and Sue Robinson.

Advisors present were Mrs. Hopson and Mrs. Grubbs with their assistant, Nancy Gripp.

FINAL CEREMONIAL — Nancy Gripp, Horizon Camp Fire girl, is presenting beads earned during the year to Debbie Angelo, So-An-Ge-Ta-Ha Camp Fire girl. Nancy is an assistant advisor for the group. (Staff Photo)

Weed Control Program Heard By Hereford Cultural H. D. Club

Mrs. Mildred Lewis brought a program on "Weed Control" for the Cultural Home Demonstration Club when they met Friday in the home of Mrs. Louie Olson.

Mrs. Lewis said a vigorous turf is the best control for weeds. Weeds and weedy grasses usually are not a problem when a well adapted lawn grass is properly established, fertilized, mowed and watered.

Thorough seed bed preparation and allowing one or more crops of weeds to germinate before planting the lawn grass will help reduce weed problems according to Mrs. Lewis.

She also said that grass should be mowed often enough that not more than one inch of leaf tip is removed at any one clipping. Fertilizers are important also and she said a good fertilizer to keep the grass green but not make it grow fast would be 50 pounds of sulfa soil to five pounds of copplis.

For house plants she said to stir one teaspoon baking powder, one teaspoon epsom salts, one teaspoon salt peter and one-half teaspoon household ammonia into a gallon of tepid water. She

said not to use this mixture more often than once in six weeks as it causes leafy plants to crowd out the others and the flowering ones to overbloom.

Mrs. J. D. Love was the presiding officer and it was announced the next meeting would be at Mrs. George L. Olson's home with a program on "Mental Health" brought by Miss Della Stagner. Mrs. Earl DeHart reported that the club made a total of \$61.08 with two work days at Taylor and Sons Market, making sandwiches.

Quilt scraps were brought by the members to be used at King's Manor and Mrs. George L. Olson read the poem, "Empty Houses" during the opening exercises. The group packed 60 bath towels and 60 wash cloths which they brought to Girlstown.

Mrs. C. R. Dameron was a visitor for this meeting and others attending were Mrs. J. D. Love, Mrs. J. G. Gandy, Mrs. Earl DeHart, Mrs. George L.

Olson, Mrs. Ted Sumner, Mrs. P. M. Houser, Mrs. Grady Parsons, Mrs. Pat Robinson, Mrs. Roy Thompson, Mrs. G. W. Parker, Mrs. Viola Williams, Mrs. Mildred Lewis and the hostess, Mrs. Louie Olson.

Officers Elected By 'Band-Aids'

Melvin Young was elected president of the Band-Aids, the booster organization for the Hereford High School band Monday night.

Other officers include Mrs. Chester Wiggins, vice-president; Mrs. Albert Maxwell, secretary-treasurer; and Mrs. Ed Vinson, reporter.

The organization is open to anyone interested in band activities and helps raise money for band trips and other functions.

JACOBSENS IN NEW YORK

John N. Jacobsen Jr. of Hereford and B. O. Jacobsen Jr. of Amarillo left early Monday for New York City. B. O. will attend to business and John will go to the World's Fair.

Parish Council Elects Officers

The Parish Council of St. Anthony's Catholic Church, held meeting Thursday with Mrs. Edward Paetzold presiding.

Moderator for this meeting the Very Rev. Father Angelus Delahunt.

Games night has been set for July 4th to be in St. Anthony's auditorium. It was also announced that the parish, under the direction of Brother Denis S. A., is saving Gunn Brothers and Green stamps to be used to purchase curtains for the school auditorium.

Women of the Parish made fancy work, an afghan and a quilt which they will raffle off July 11th.

Officers were elected at this meeting with Mrs. Wern Keol-Gene Loerwald, 1st vice-president; Mrs. Leo Ohlig, 2nd vice-president; Mrs. Mark Koenig, secretary; Mrs. Raymond Schlabs, treasurer; and Mrs. John

Jesko, historian. Installation of these officers will take place in September. Hostesses for this meeting were Mrs. Cyril Diller, Mrs. Matt Jesko and Mrs. Mary Green.

TO INSTALL OFFICERS

Mrs. R. N. Yarbrow will be the installing officer for the Bud, to Blossom Garden Club when they meet at noon tomorrow in the Country Club. Mrs. Sam Long has been re-elected as president of the garden club.

La Madre Mia Elects Officers

Mrs. Gerald Martin was elected president of the La Madre Mia Study Club last Thursday when they met in the Community Room of the First National Bank.

Other officers elected were Mrs. Joe Hacker, vice-president; Mrs. Hershel Black, secretary; Mrs. Dean Paul, treasurer; Mrs. Clyde Coleman, parliamentarian; Mrs. Jesse Click, historian and Mrs. W. C. Russell, reporter.

Officers will be installed at 7:30 p.m., May 27th at the dinner meeting in the La Cafe Hacienda.

Mrs. Zack Pannell was welcomed as a new member at this salad supper meeting with the social committee in charge of the supper. Mrs. Jerry Detwiler was chairman and was assisted by Mrs. Bobby Owen and Mrs. John E. Smith.

Mrs. Dean Herring chairman of the finance committee was assisted by Mrs. Harold Morton and Mrs. Gerald Martin. They were in charge of the bingo games. Card games were also played following the installation of officers.

Mrs. W. E. Sparks was the presiding officer and others attending were Mrs. Bill Lankford, Mrs. Harold Morton, Mrs. Joe Hacker, Mrs. Clyde Coleman, Mrs. W. C. Russell, Mrs. Charles Frye, Mrs. Gerald Martin, Mrs. Dean Paul, Mrs. Dean Herring, Mrs. Jerry Detwiler, Mrs. Jerry Landers, Mrs. Ben Gollehon, Mrs. Richard Pickens, Mrs. Jesse Click, Mrs. John E. Smith and Mrs. Bobby Owen.

Shower-Tea For Miss Prowell

Miss Shari Prowell, bride-elect of Ronald Laidley, was honored for a pre-nuptial shower-tea given recently in the home of Mrs. Raymond White, 214 North Texas.

Guests were received by Mrs. White. Miss Prowell, the honoree; Mrs. Pat Parker, sister of the bride-elect; Mrs. Frank Prowell, her mother; Mrs. Clarence Laidley of Midland, mother of the future bridegroom; and Mrs. Joe Prowell, grandmother of the bride-elect.

Mrs. Jimmy Ivy and Miss Joyce West presided at the silver punch bowl, and the table appointments carried out the chosen colors of the bride-elect, green and white. An arrangement of white iris, snowballs and green floral tapers held by a silver bowl centered the table.

Miss Brenda Beasley presided at the guest register when approximately 65 guests called between the hours of 3 and 5 p.m. Mrs. Lowell Sharp and Mrs. Buford Crosthwait provided organ music during the calling hours.

Hostesses included Mrs. Luis Woodford, Mrs. Pat Neil, Mrs. Calvin Edwards, Mrs. J. J. Durham, Mrs. Jim Neil, Mrs. T. J. Parsons, Mrs. Tom Draper, Mrs. Cecil Boyer, Mrs. R. L. Layman, Mrs. Marcus Latham, Mrs. Sharp, Mrs. Crosthwait, Mrs. White and Mrs. Viola Chisum.

THANKS

You are to be congratulated for a fine record. We join in wishing you best of luck.

ORSBORN CHEVROLET-OLDS

2nd at Schley

By MELVIN YOUNG

Music, no less. That's the latest in the plans of the planners of Hereford's downtown Variety Park. Music coming from the stanchions located at the corner of the sidewalks. And it sounds like a pretty good idea. Just so they don't put on any "rock 'n roll" records. Actually, we believe the consensus of opinion around downtown Hereford is that the present "Variety Park" project is just the beginning. More, much more, must be done before the downtown area can hope to have the appeal of the massive, modern shopping centers in neighboring cities.

Off street parking is still the number one concern of most merchants. Although they believe the current project is a mighty good start in the downtown renovation, it shouldn't stop where it is.

Many feel that parking can be secured through the purchase of property facing on Miles and Sampson Streets.

This would necessitate the remodeling of rear entrances, making the backdoor about as attractive as the front.

This was one of the big assets of the downtown mall in Atchison, Kansas which we recently visited. Indeed, some of the business houses had more attractive back entrances than front entrances. There were also well lighted arch-ways leading from the parking lots to the mall area.

Then, we might suggest that a few of the store fronts could stand a face lifting. And for that matter, not only the fronts, but inside as well.

However, we have visited with a couple of property owners who intend to do just that as soon as the sidewalk project is completed. We're hoping that others will follow the lead.

A Fort Worth Department store recently solved its parking problem by the way, by buying a 14-acre parking lot just outside the downtown area and linking it with a free subway over the eight-block distance.

SALES — SERVICE

HEATING — REFRIGERATION — PLUMBING

Meanwhile, construction on the shopping center seems to be progressing nicely. Like everything else, it took a holiday during the rain, but the machinery is rolling again and we suspect that it will be completed by the deadline date.

The new Safeway building, located next to Gibson's is beginning to look like a store these days. Actual construction should be completed in about 45 days, however, it will probably take another 30 days to complete the setting of fixtures, stocking, etc.

One of Hereford's early day sheriffs, the late Ed Connell, is getting an awful lot of publicity around the state. Due primarily to the big red touring car that Sheriff Connell purchased around 1906.

The following item from the Houston Post was mailed to Bill Davis recently, and he in turn passed it on to us.

"BUT NO SIREN? — Texas got its first official police cruiser 58 years ago when Sheriff Edward F. Connell of Deaf Smith County traded his house for a red touring car.

"For years after, Big Ed (he was more than 6 feet tall) was known as 'the Automobile Sheriff of the Panhandle'."

HELP! Home plate has disappeared and as everyone knows, you just can't play ball without home plate!

That's what H. A. Tuck was telling us Tuesday while issuing an appeal to the person or persons who walked off with the white plastic home base from his team's practice field on North "J" Street.

"Just return it please," says Tuck, "and no questions asked. We need that rascal to finish the Little League season."

Finish? My gosh, it's just getting started.

One Hereford citizen is upset over the "no right turn on red" ruling in force in Hereford for a number of years. He pointed out that such cities as El Paso, and others, allow the right turn on red, but not Hereford.

In checking on the deal however, we find that the City Ordinance was passed a number of years ago for the purpose of "safety" protecting the pedestrian crossing the street. And we'll have to admit, the pedestrian needs the protection.

Among the English language's many puzzling words is "economy", which means the large size in soap flakes and the small size in automobiles.

PROGRAM STARTS AT 8 P.M.

Graduation Exercises Scheduled At Whiteface Stadium On Friday

Commencement for the 185-member 1965 graduating class of Hereford High School will be at 8 p.m. Friday at Whiteface Stadium, according to Mrs. Billye Buck, senior class coordinator. The exercises will be held in the high school auditorium in the event of inclement weather. The combined band and choir of the high school will play the processional and recessional. Ernest Flood, president of the class, will open the program with the invocation followed by "Battle Hymn of the Republic" by the band and choir.

LARRY MINKS, class secretary, will present the class gift for the school to Principal G. W. Michael. Michael then will present the class to W. H. Gentry, president of the board of trustees. He will present diplomas.

Stan Sigman, vice-president of the class, will give the benediction.

SPONSORS OF the class are

Earl Keese, Virgil Young, Don Farmer, Gerald Dingus, Don Paris, James Williams, Joe Smith, Mozelle Neill and Al Smith. Billye M. Buck is the coordinator.

"Price Plus Character Equals Principles" is the class motto and the class flower is the red rose. Blue and silver are class colors.

Following the commencement exercises seniors will have their traditional all-night party at Hereford Country Club, ending at 6 a.m. with a breakfast.

RECEIVES PROMOTION

Dan Bob McWhorter of Hereford has been promoted from Private to Private First Class at the Schreiner Institute, Kerrville. The promotion was announced by the Military Affairs Committee through Col. J. O. Younts Jr.

GRAND CHAMPION AT FAIR — Phillip Scuibato, a senior at Hereford High School, earned grand champion honors at the West Texas State University Industrial Arts Fair held Saturday in Canyon. The honor brought with a scholarship to West Texas State University. Scuibato's elaborately finished chest won first place in the senior woodworking division of the fair before being tabbed for the top award. (Staff Photo)

Industrial Arts Students Rank High At Fair

Hereford High School students earned top honors at the West Texas State University Industrial Arts Fair held Saturday in Canyon.

Phillip Scuibato, a senior at Hereford High, brought home the top honor of the competition which carries with it a scholarship to West Texas State.

Previously, the chest he exhibited had been tabbed for the top honor in the senior woodworking division.

Other division winners from Hereford were David Soto, open metals and Bob Caraway, woodworking I.

Hereford students placing in the exhibition were:

Gary Gore second and Laura Higgins third in drafting I; Jerry Don McCaslin second and Brant Knox third in drafting II; Bob Caraway first and Tommy Bullard third in woodworking II; and Scuibato first, Jim Hershey second and Richard Kuper third in woodworking III. Richard Williams and Donny Cornelius placed second in the open division.

Maura McAndrews ranked first in leatherwork, division IV; and Bobby Watts earned first in Division V plastics.

In the open metals divisions, Soto was first, Forrest Curtis was second and Joe Daniels was third.

Industrial arts instructors at Hereford High School are Pat Newell, Wallace Combest, and Al Smith.

C-C Reminds Of May 31 Holiday

The Monday following Memorial Day, May 30th, is one of six official holidays adopted by the retailers committee of the Deaf Smith County Chamber of Commerce, manager Bill Thompson notes.

Thompson said Monday he has received several calls from businessmen asking if merchants are to close.

The day-after "holiday" will also be observed for July 4th because Independence Day also falls on a Sunday this year. Stores will close on Monday, July 5th.

Thompson said the holidays — including Memorial Day — were agreed upon following a survey in 1960.

A Complete Farm Chemical Service . . . Served By Experienced Personnel

CONGRATULATIONS TO THE GRADUATE CLASS OF 1965

It's not easy to fulfill the requirements demanded in order to become a graduate. We salute each of you fine young people who have achieved this goal; we're very proud of you and we wish you all the best for the future. May the knowledge you've gained serve you well in years to come.

HOWARD GAULT

CONGRATULATIONS

GRADUATES

Class of 1965!

The world has changed since you entered school 12 years ago. Astronauts now circle the earth in less time than it takes you to drive 100 miles, and that's pretty fast.

Electricity and electronics have contributed greatly to this changing world, and Rural Electrification has made a big contribution too.

Of course, you probably take electricity for granted on your farm today, but it hasn't always been so. Your fathers can remember well when they lived on the farm . . . without the helping hand of Willie Wiredhand. He now helps on almost every farm in our three county area.

Let Willie Wiredhand help you . . .

If you're going to farm when you complete your college training, Willie Wiredhand will still be "standing by" to help you . . . to allow you to have "electric living" on the farm, to give you the many labor saving aids that would be impossible without this little gent. Truly, electricity will add many hours of pleasure to your life, and many more dollars of profit to your farm operation. Congratulations to all the graduating seniors of 1965, and particularly to Patricia Price, Glenda Fleisher and Judy McCarver.

Patricia Price

Glenda Fleisher

Judy McCarver

—OWNED BY THE PEOPLE WE SERVE—

Lubbock To Host Cotton Congress

LUBBOCK (Special) — Frank Lowenstein, a top economic advisor in the United States Department of Agriculture, will be the principal speaker at the luncheon session of the twenty-sixth annual Cotton Congress in Lubbock May 28. The acceptance by Lowenstein was announced by Burris C. Jackson of Hillsboro, Texas, Chairman of the Cotton Congress organization.

LOWENSTEIN HAS considerable experience in cotton during his career with the federal farm agency. For a number of years, he prepared Cotton Situation, the bimonthly report by the Economic Research Service of USDA on the condition of the cotton industry. He has been a member of the Staff Economists Group in Washington, D. C. in recent years.

F. Marion Rhodes, president of the New York Cotton Exchange and a former USDA administrator, will introduce Lowenstein at the luncheon in Lubbock's Koko Inn. Rhodes, who maintains a headquarters in Washington, D. C., will report on the cotton legislative situation.

THE COMPLETE program for the Cotton Congress will feature discussions and research reports on ways to reduce costs of producing cotton. Speakers will present views from cotton mills, national research facilities, state agencies and High Plains cotton farmers. Dr. Jasper Jernigan, Washington D. C. USDA agronomist, will report on the program of the Federal Extension Service to carry research technology to farmers. Such practices are designed to reduce the costs of growing cotton.

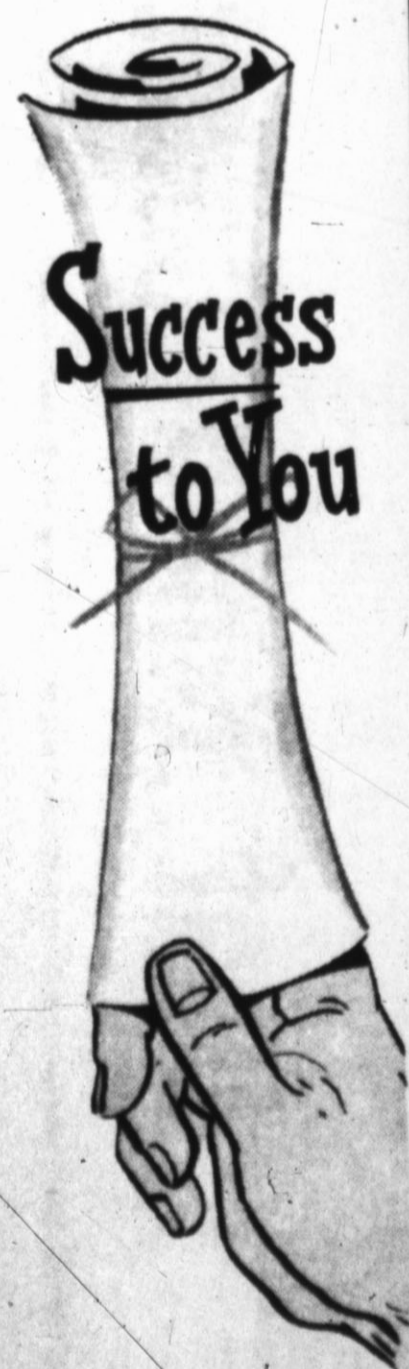

Nine Rural Accidents Killed Three In April

There were nine rural accidents in Deaf Smith County during the month of April, according to Sergeant W. E. Wells, Highway Patrol Supervisor of this area.

These crashes resulted in three deaths, 13 persons injured and an estimated property damage of \$14,123.

THE RURAL TRAFFIC accident summary for this county for the first four months of 1965 shows a total of 31 accidents resulting in three persons killed, 19 persons injured, and an estimated property damage of \$29,622.

Spirits is a general term used for drinks containing at least 40 per cent alcohol.
