

School For South Hereford Discussed

By EARL MOSELEY
Staff Writer

The pros and cons of the future construction of an elementary school building in South Hereford came into the open Monday night when a meeting called at the Pioneer Natural Gas building was attended by some 60 residents of that area of the city and school administrators and trustees.

Estimation of the amount of people in opposition to the construction site varied from "five or six" to "half the people who were present."

Hereford businessman George Masso, who lives in South Hereford now but said that he was looking for a larger house for personal needs "and it doesn't appear that I will be able to find one in South Hereford," reported that some of the people in that section of town have been concerned about a school going up in Northwest Hereford and South Hereford will again be bypassed. He said that property which is owned there by the Hereford Independent School District was purchased prior to

the time Northwest Elementary School was constructed and there was speculation that it would be bypassed again.

Masso also pointed out that the City of Hereford had spent some \$300,000 toward the development of South Hereford property in recent years and felt that it would all go to waste unless a school is located in the area.

He said that a group had gotten together "for the circulation of petitions to express their views on getting a school built there. It seems that the school board has ignored that part of the city in the past. If business is to build there, that part of the city will have to have a school."

He was of the opinion that taxes would increase if the school were to be constructed in another part of Hereford and that the insurance companies might raise their rates. (Masso reported that insurance companies are to be contacted for the "correct figures.") "It is possible that a new fire station would have to be built in North

Hereford if a school is erected in that vicinity — under the law when the population passes a certain number."

Masso said that it appeared to him that "they" were promoting the growth of Hereford toward the north end and that it should be evenly balanced by bringing it to the south.

"Very few people objected at the meeting to a school in the south part of town," he said. "Ninety-five per cent were in favor of it. The only objection to the south — I believe the schools made a survey last year which showed that 88 per cent of the Spanish-speaking students (including the Labor Camp which has almost completely closed out its school) would be enrolled in this south school."

"But the objection to that did See SCHOOL Page 2

WAY UP THERE — That's what Hereford High School featured twirler Trisha Hill hopes the HHS Whiteface football team is following Friday night's game with the powerful Plainview Bulldogs in Plainview. Game-time is 7:30 p.m., with student activity buses planning to go to the game. Tyler Vance took the photo.

Beet Harvest Set To Begin

Beet harvest will begin Monday! Robert Ginn, agricultural manager of the Holly Sugar Plant here, reported that Monday is the starting date for beets on an early harvest contract.

"There are not very many of these," Ginn said, "so we are asking that those beets on regular contract which have had problems, to get them in at this time. This will give Holly a chance to work with them."

He said that all others can be harvested at the same time, if they can.

"Our regular harvest begins Friday, Sept. 27," Ginn reported. "Then we will be having growers work on the quota system — quotas are now being mailed out to our regular contracts."

Ginn said that between Sept. 27 — Nov. 15 their regular harvest will be regulated at their quota system mill capacity. After Nov. 15, piling will be started. "We will complete the harvest then as quickly as possible."

He said that Holly had put in a new station at Wildorado this year, for two reasons: It gives the grower in that area better service and it will relieve the station here of that tonnage at the same time.

"We have one additional new piler here and will have another one by Nov. 15," he said.

He said that they expected to harvest approximately 900,000 tons here this year. Regarding sugar content, "we are running well over the past two years in this year's test at this time — due to the fact that we do not have as much leaf spot. We look for the sugar content to increase steadily."

Ginn pointed out that sugar content was also very important to the farmers. "The higher the sugar content the more he gets for his beets."

He said that Holly plans to start the factory sometime later in the day Monday, "as soon as we see we have enough beets to keep the factory going."

Factory manager Bruce Brown reported that Holly was still somewhat short of qualified help. Those who qualify should contact either a superintendent or assistant superintendent for job applications.

In a meeting of the Texas-New Mexico Sugar Beet Growers Association, Inc., Wednesday afternoon at the Community Center, it was announced that if the Government does not impose acreage restrictions for 1969, Holly Sugar Corporation intends to increase the slicing capacity of the Hereford plant by about 33 and one-third per cent. "This would mean that we could have what would amount to almost another plant and we could increase the acreage considerably," said James W. Witherspoon, executive secretary and legal representative.

"It is altogether possible that the secretary may impose acreage restrictions in 1969, but if the Secretary does not we will have at least another 10,000 acres for sugar beets in 1969, and although the increasing of the plant will amount to several million dollars, we will have this for our area also," said Witherspoon.

City Will Buy Airport Device

Hereford City Commissioners voted to purchase a homing device for the local airport and appointed a Mayor Pro-tem during their regular meeting Monday night.

The homing device, which will give pilots an instrument approach method of landing here, will cost just over \$3000 completely installed. It is expected to draw transients to Hereford instead of Amarillo.

Commissioners will advertise for bids on the device, which will have from 25-50 watts and send out a continuous signal for a radius of some 50 miles. Elected Mayor Pro-tem was D. C. Kinsey. He replaces Johnny Pool, who became Mayo, when Ray Cowser resigned last week.

City Manager Dudley Bayne reminded commissioners of a special meeting Sept. 30 when the annexation of land in South Hereford will be discussed.

Club Plans To Wash Windows

Need your windows washed? Members of the Texas Association of Careers in Health at Hereford High School will be happy to oblige for the next four Saturdays. And at a more than reasonable cost!

Judy Ward, president of the local TACH chapter, explained that members will be washing windows this Saturday, and on Sept. 28, Oct. 5, and Oct. 12 in an effort to raise funds for various activities.

Members of the organization, formerly known as Young Nurses, will be washing windows for 20 cents each and picture windows for 35 cents each.

Persons wishing to have windows washed are asked to call 364-0119 or 364-1603 and make an appointment.

Mrs. Ester Springer is school advisor for the TACH chapter, while Mrs. Clyde Rush is the representative from the Women's Medical Auxiliary. Students (male or female) interested in any type of medical career are invited to join.

Concerts Deadline Will Be Saturday

With Saturday noon as the deadline for memberships in Hereford Community Concerts for the 1968-69 season, the annual drive is considerably ahead of a similar date last year and the goal of a sellout is in sight, Mrs. Joe Reinauer, drive chairman, said late Wednesday.

She urges workers in the campaign to report memberships as they are secured, to headquarters in Deaf Smith Chamber of Commerce office. Any resident of the area desiring membership, and not called on by a worker, is invited to telephone headquarters to be

enrolled. "In view of the way membership is shaping up, there is every prospect of our engaging topnotch talent for three or four concerts," said Mrs. Wayne Thomas, president of the local Community Concert Association.

CCA board members met Tuesday evening to study the list of concert artists who will be available. Selection of those to appear here during the season will be made at the close of the drive, when the budget will be fixed according to the number of memberships sold.

Already booked is the Norman Luboff Choir, which will present a Sunday matinee program Feb. 23. Other concerts are expected to be of the same high quality. At least two others will be scheduled, with the possibility of a third if the expected sellout is achieved.

Number of members in the Association here is limited to the seating capacity of Hereford High School auditorium, where the concerts are presented. New memberships are available only during the one week in the year when the annual drive is staged, and no single admission tickets are sold during the season. Membership fee is \$10.

The drive for new members began Monday evening with a kickoff dinner at the Caisson House for workers and board members. Those enrolled last year were given an earlier opportunity to renew memberships.

Clyde C. Schmer Wins Contest

Seven persons predicted nine out of 10 football games correctly in the first Hereford Brand Football contest of the season, but Clyde C. Schmer, 224 Beach, guessed the closest tie-breaking score to win the first place prize money.

Schmer missed the tie-breaker by 31 points in picking up the \$8 first place prize money. Two persons picked nine out of 10 along with the same point difference in the tie breaker to cause the second and third place prize money to be combined and split between them. Winning \$3 each were Mrs. Ray Broman, of Adrian and Waldo Baxter, of Hereford. They both missed the tie-breaker by 35 points.

Persons are reminded that there is to be only one entry per person and that the names of the teams predicted to lose should be crossed out on the entry form. Also, persons are urged to mark the tie-breaker due to the fact that this is usually the thing that decides the winner each week.

Due to a tie in two of the 12 games listed on the contest form for last week, only 10 of the games were counted.

Program For Crops Tour Ready For Crowd Of 500

By EARL MOSELEY
Staff Writer

Program for the annual Deaf Smith County Crops Tour has been released by Juston McBride, County Agricultural Agent, and Wilton Green of the U. S. Soil Conservation Service. The crops tour is set for Friday, and they are expecting approximately 500 people to participate.

Those planning to participate will register at 9:30 a. m. at the Deaf Smith County Bull Barn, where they will board the buses.

The first stop is scheduled at 10 a. m. at the F. A. Marnell farm. Marnell is noted for his irrigation practices in a limited water area. It is described as on the fringe of the irrigation belt. McBride said this farm was selected as an example for the entire area, where there are even more unfavorable conditions, which could suffer greatly should the importation of water here not succeed.

At the Marnell farm, these problems will be illustrated and discussed by Green; Leon New, an extension service irrigation specialist from Lubbock; and Dr. Frank Peters, an agronomist from Amarillo.

Ceremonies Set Sunday At New Camp Fire Site

Camp Fire Girls of Hereford will hold open house at their new lodge Sunday afternoon, inviting residents of the area to view the recently-completed building between the hours of 2 and 5 p.m.

A brief dedication ceremony is scheduled to begin the afternoon, Mayor Jimmy Reef will present the keys to the lodge to Melvin Young, representing the building committee, who in turn will give them to Jack Allen, president of the Camp Fire Council. City Manager Dudley Bayne will speak.

The lodge, located in North Park on East 14th Street, will be the property of the City of Hereford, given into custody of the Council for use of the Camp Fire organization. It was built with funds from the Jim Hill Foundation, Hereford Rotary and Lions Clubs, with a Kiwanis Club donation for furnishings.

Girls from Camp Fire, Bluebird and Horizon Club groups, representing all ages served by the Camp Fire program, will act as hostesses Sunday afternoon with Council members and adult leaders.

They will be available to answer questions of visitors, and to serve as guides over the building, which comprises a large assembly room with fireplace, an adjoining kitchen, four meeting rooms for groups of girls, each with storage cabinets, and an office for the Camp Fire executive. More storage space is provided in the entry hall and a room behind the kitchen.

Mrs. Lewis Lea is the present executive, and Mrs. Earnest Langley is chairman of the Camp Fire Leaders Association.

At 10:40, a stop will be made at the Gerald McCathern place for the dual purpose of soybean and irrigated pasture inspections.

McBride reported that the McCathern situation was the reverse of the normal here. Part of it is being transformed from farming area to beef cattle raising. He said that he would discuss this himself. Green and Dr. Peters will discuss the soybeans. The farm itself is under intensified crop production.

Lunch will be served at the Bull Barn beginning at 11:30, sponsored by the Deaf Smith County Rural Electric Cooperative, Hereford Grain Co-op, Consumers Co-op, and the Deaf Smith County Water Association.

Afterward, Howard Boswell will speak on the subject of "Water Importation for the High Plains."

Boswell is executive secretary of the Texas Water Development Board.

At 1 p. m. people on the tour will again board the buses.

The first afternoon stop will be the Holly Research Test Plots, where Paul Scott, research agronomist for the Holly Sugar Corp., will discuss leaf spot control in sugar beets and

demonstrate a number of chemicals that have been compared and control tested in the local area. Also under discussion will be diseases of all types, insects, fertilization and weed control pertaining to sugar beets.

Green and New will then discuss soybeans and sugar beets at 1:35 on the Paul Corbett See PROGRAM Page 2

NFO Meeting Is Saturday

"Golden Dollars for the Golden Spread", a meeting sponsored by the Deaf Smith County Chapter of the National Farmers Organization, will be kicked off Saturday with an informal coffee at the Hereford State Bank for the NFO members at 4 p.m.

Oren Lee Staley, National Farmers Organization President, will be present at the coffee and will hold a press conference following the coffee at 5 p.m., also at the bank.

Staley, a resident of Rea, Missouri, a farmer and raiser of purebred shorthorn cattle, is considered one of the nation's outstanding agriculture leaders. He has spoken to numerous

groups throughout the United States and Canada and has been consulted on matters of the highest levels of the nation.

Active throughout his youth with 4-H and FFA work, Staley attended Northwest Missouri State College and served in the US Navy during World War II. He was elected first National President of the NFO and has served in that capacity since its origination.

Following the news conference, at 6 p.m., a free barbecue will be served at the Bull Barn, catered by the Hereford Rotary Club. Following the barbecue, there will be an address by Staley explaining the National Farmers Organization's program.

The Rotary Club is preparing the meal for an estimated 1000 persons and the public is invited to attend the meeting.

It was also mentioned that transportation will be available at the Amarillo Air Terminal and Hereford Municipal Airport for those wishing it.

The purpose of the National Farmers Organization is to secure fair prices for farm commodities through collective bargaining. The organization was formed in 1938 and has had a rapid growth since its origin. It now has chapters in over 40

states and is bargaining with many of the nation's largest processors and handlers of dairy, meat and grain sorghums.

Officers of the local chapter of NFO include Gerald McCathern, president; Arlis Edwards, vice president; Ron Crist, secretary and F. A. "Spec" Marnell, treasurer.

Guinn, Paetzold Are Selected As Players Of Week

Selected as the "Players of the Week" for the Pampa contest, were Larry Guinn on offense and David Paetzold on defense.

Guinn, who displayed his blocking ability throughout the entire game, cleared the way for numerous ground gains for the Whitefaces as well as aiding in other ways. Paetzold, led the defense with 2 unassisted tackles, nine assists and a pass defensive play.

Paetzold fills the end position and weighs in at 166 pounds and Guinn tips the scales at 186 pounds while also at the end position.

FB Sets Meeting

Approximately 300 persons are expected to attend the annual Farm Bureau Convention for members from Deaf Smith and Oldham counties at 7:30 p. m. next Thursday, Sept. 26, at the Hereford High School Cafeteria.

Speaker for the convention will be Craig L. Thomas, executive assistant to the Texas Farm Bureau president. In this position, Thomas heads the TFB staff and is responsible for coordinating all Farm Bureau and affiliated company staff activities in Texas.

Six new directors will be elected during the convention, joining 12 others who will continue to serve. Outgoing directors are Denzil Eulliam, Steve Clements, Bill Walden, Martin Wagner, Paul Lyons and Homer Brumley.

Resolutions concerning county, state and national issues will be presented by the Resolutions committee and voted on by members attending.

Present officers of the local FB are Walden, president; Clements, treasurer; Bill Kahlick, first vice president, and Lyons, secretary.

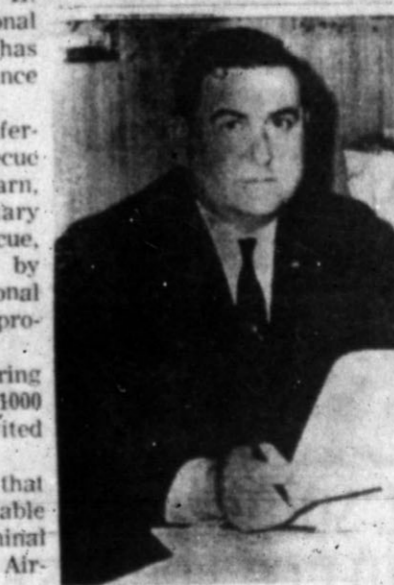

A meal will be served and entertainment provided for the convention. All Farm Bureau members are urged to be present.

Craig Thomas

GOAT IN SCHOOL — Northwest 5th grade teacher Richard Stanley explained the goat by saying his class has Show and Tell every day — and students bring in different things. Mike Cabiness (above) brought the goat. Mike said the goat had been found near Big Spring nearly starved and hurt. His family brought him home. But Mike said the Cabinesses also have a German Shepherd dog — whom the goat takes great pleasure in butting!

Oren Lee Staley, President National Farmers Organization

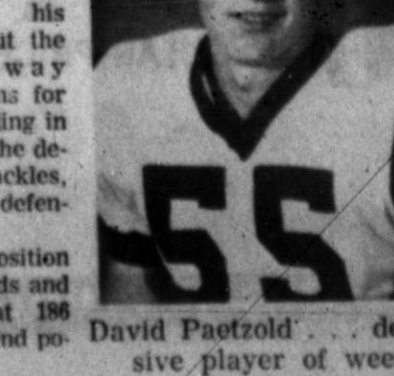

Student Buses Set For Friday

Student buses for those wishing to see the Plainview-Hereford football game Friday night will leave from the parking lot at Hereford High School at 6:15 p. m. for the trip.

Charge for the trip will be 50 cents per student.

See sports page for details on the game and the column "Shootin' The Bull at HHS" for more activities at the school.

Game-time Friday will be at 7:30 p.m. instead of 8 p.m. as previously announced.

School . . .

Continued From Page One
 not stem from any prejudice," he pointed out. "It is because, due to the language barrier, they would naturally be slower in learning, which would in effect hamper the teachers and the other students. However, this 88 per cent would be considered 'segregation' under the federal law. In my opinion, they ought to rezone the city to balance it out — to make the students more compatible with effort, not prejudice."

Masso said that the objection is worthy of consideration. "It is a point to be respected by the opposition, but it should be worked out with a balanced ratio."

Speaking of the school survey, he stated, "it's my conviction that this survey is not meaningful. Through some of the talk we have heard, the Labor Camp itself may be phased out completely soon. We are also going to have a population increase. This figure may no longer be representative — and will not be representative in the future."

SUPERINTENDENT SPEAKS
 When the Brand was notified late Monday afternoon that such a meeting was planned, the opinion of the caller was that there would be no representation at the meeting by any of the school officials. But administrators and trustees did make an appearance, with both Superintendent Johnny Clark Jr. and Trustee Chairman Olin Parris speaking informally to the group.
 Clark reported to the Brand

that he thought "it was real great that the people of South Hereford would get together on its interests. Of course, we had no official position at the meeting and the Board had not even discussed a site for the new school — only that there is a need for one."

Clark pointed out that no construction site had been brought up at any board of trustee regular or special meeting in the past, but this meeting of the people "would bring it out in the open. The board is trying to represent the wishes of all the people in Hereford and this is the best way to determine their wishes. It was a real healthy meeting."

He said that if the trustees and administrators "found it possible" to construct a school in South Hereford "we will certainly construct a school there."

But Clark estimated the opposition at the meeting represented about half of the 60 people present.

He said they were making studies of the entire project down to the minute details on the plans of a needed elementary school here.

CHAIRMAN NAMED
 Gerald Hamby was appointed spokesman for the group concerning the South Hereford school situation Monday night.

Hamby said that the petitions that are being circulated for "a survey of a school need" in the Hereford Knob Hill addition will be presented to the school board trustees.

"We feel there is a supporting factor here," Hamby said, "and feel that the wishes of the peo-

ple should be met."
 They have a large group of workers in South Hereford concerning this project, he said — "not only for a new elementary school now but for a junior high in the future. We feel that we will be a center of the population within a few years and will be requesting a junior high when this need arises."

Hamby stressed the figures on file in City Manager Dudley Bayne's office — "something like \$302,000" — that have been spent on sewer and other improvements in the section "and Mr. Bayne can give you all the other problems the city had in making these improvements possible."

Another topic of Hamby's report was that Bluebonnet Elementary School was constructed "when there was no population surrounding it."

No one could be contacted who was opposed to building a school in South Hereford.

Program . . .

Continued From Page One
 farm, pointing out the irrigation system development, graded border installation and the tail-water recovery system. The discussion will center upon the development and improvement of irrigation.

On the Dirks and Ragan farm at 2:15, Dr. Peters will appraise 18 varieties of sorghum and Dr. Robert Berry will discuss such crop diseases as dwarf mosaic virus. Also entering this discussion is Dr. Allen Weise of the Bushland Experimental Sta-

Enrollment To Start In Adult Education

Enrollment will begin Monday in the Hereford High School building between 7:30 and 9:30 p.m. for the Adult Education Classes offered by the Hereford Independent School District.

Assistant Superintendent Robert Holman reported that room numbers for these classes have not as yet been assigned but

would be some time next week.

Holman also pointed out that classes are scheduled for Monday, Tuesday and Thursday nights from 7 to 9 or 9:30 but that they could be changed to other nights if found to be more convenient to the majority of the enrollees. He explained that Wednesday and Friday nights had been omitted simply because of the church and football nights in mind by the administrators.

Also, they have worked out a system whereby it would be practical for the enrollee to sign up for more than one course.

Holman stressed the Speed Reading course for adults, which has many proven advantages for business people and those in professions which require much paper work daily. The fee for this course is \$30.

Along the same lines, the Vocational Office Education course is offered for \$10, he said. "Most people who go into this course will already know how to type, but it covers instruction in all other machines, relative to the office, such as calculators, etc."

Classes will begin Sept. 30 — one week following the beginning of enrollment. However, those who wish to pre-enroll either today or Friday will be permitted to do so by contacting Betty Priest, Hol-

man's secretary, in the School Administration Building at 700 Union.

Other courses and tuition per semester include: Beginning Spanish, \$15; Intermediate Spanish, \$15; Bookkeeping, \$10; Clerical Practices and Record Keeping (combined with business law and general practice), \$10; Typing 1, \$10; Typing 2, \$10; Shorthand, \$10; English (composition, literature, new linguistic grammar), \$15.

Courses to be paid for by the course include Arts and Crafts (persons interested in this course are asked to pre-register), \$20; New Math for Adults, \$15; Beginning Sewing, \$20; Welding and Auto Mechanics, \$10; Irrigation Motors, Pumps and Equipment, \$10; Small Electric and Gasoline Engine Repair, \$10; and Su Futro Con El Ingles (for non-English speaking people and/or non-readers.)

A variety of courses will be offered initially, with additional courses offered as they are warranted, the school administrators reported. Courses will be offered one and/or two nights per week on a two semester basis.

All classes are subject to a minimum enrollment of 10 persons.

The courses offered are designed to prepare an individual for employment or to train or

retrain a person to increase his occupational knowledge and skills in his present job.

Other courses are offered for adults who are not necessarily interested in improving knowledge and skills for employment purposes, but for adults who simply want a course for enjoyment or self-improvement, the administrators stressed. The tuition fee will be higher than for those that will be partially reimbursed by the Texas Education Agency.

County Trustees Meet Tuesday

The Deaf Smith County School Board will meet at 10 a. m. Tuesday in Commissioners Courtroom at the courthouse.

Agenda is expected to include school transfers and other business dealing with school opening.

Community Calendar

The Community Calendar, which includes major events which will be of interest to Hereford and residents of the immediate area, will run in each issue of the Brand. The calendar will include events for the coming six months, and all individuals and organizations are urged to write or mail their event for inclusion.

September
 16-21—Annual membership week for Hereford Community Concerts.
 16-17—District convention of VFW and Ladies Auxiliary in Hereford.

SEPTEMBER
 19—Monthly meeting of the Deaf Smith County Red Cross Chapter volunteers, 12 p. m. at Jones' Restaurant.

20—Deaf Smith County Crops and Conservation Committee will host all-day tour and barbecue at Bull Barn.

21—Local NFO (National Farmer Organization) Chapter will host an area-wide meeting at the Bull Barn.

22—Dedication ceremonies and open house at the new Camp Fire Girls Lodge.

October
 4—Tour of Homes sponsored by Garden Beautiful Club.

5—Hearing on proposed legislation authorizing the formation of a master water import district by the House Interim Water Study Committee of the Texas Legislature. At the Bull Barn.

9—"Howdy" stop at the Hereford Municipal Airport by the Texas Air Tour.

11—Fall Flower Show of Bud To Blossom Garden Club, at Community Center.

November
 3—Carnival sponsored by PTO at St. Anthony's Parish School.

5—General election.

7—Annual Lions Club Fish Fry.

21—Tasting luncheon to benefit scholarship fund, sponsored by L'Allegre Club at County Bull Barn.

By MELVIN YOUNG
 Jimmy Witherspoon, Executive Secretary to the Texas-New Mexico Sugar Beet Growers Association tells us that we have a good chance of getting an additional 10,000 acres of sugar beets in the area, provided the Secretary of Agriculture does not impose acreage restriction in 1969. If this happens, according to Witherspoon, Holly Sugar Corp. intends to increase the slicing capacity of the Hereford plant by about one-third. The Hereford plant is already one of the largest in the country, and without acreage restriction for the coming year, several million dollars will likely be spent to raise the capacity.

Meanwhile, Bob Ginn, agricultural manager of the plant called to say that harvesting of the sugar beets will begin Monday. Samplings have been taken in the area to determine the sugar content, which was apparently satisfactory to begin harvesting.

We now have approximately 45,000 acres in sugar beet production in the area; a sufficient amount to keep the local mill humming through January.

By the way, this relationship between the beet growers and officials of the sugar company is rather unique in the agriculture industry. When

these fellows have problems to solve, they sit down together and work it out, and apparently the large majority of the people are happy with the arrangement.

We suppose it's wishful thinking, but wouldn't it be wonderful if the same or similar arrangement could be worked out to insure the farmer a decent return on other crops. In years past, government controls and supports have maintained a profitable level on milk, wheat, etc., but the political situation has become such that the farmer can no longer depend on sufficient representation in Washington to look out after their interest, and it is becoming increasingly difficult to realize a reasonable profit from these products. Vegetables, on the other hand, seem to fluctuate with the dawning of every new day. It's either feast or famine in the vegetable industry, and that's not a very satisfactory arrangement for the farmer, particularly if he is a small operator.

Don't forget the open house and dedication scheduled this Sunday at the new Camp Fire Lodge. The dedication service will be short and the remainder of the afternoon will be kept open for anyone and everyone who wants to tour the new building.

This has been a community effort and the local Camp Fire Council would like to have everyone attend, whether you have children in the Camp Fire program or not.

The dedication will begin shortly after 2 p. m. and will last for 15 or 20 minutes, according to Jack Allen, president of the council.

"It's not just the work I enjoy," said the taxi driver. "It's the people I run into."

The Rh-factor in blood analyses is named for the rhesus monkey, a favorite animal of medical researchers.

Concerning Veterans

Private employers in Texas have been asked by Congress to give veterans preference in hiring. Jack Coker, Manager, of the Waco Veterans Administration office said today.

The request came in a resolution which, Coker explained, declared it to be the sense of Congress that agencies of the Federal Government should:

"Give preference to job-seeking veterans.
 "Seek to get private industry to voluntarily give veterans priority.

The resolution also asked private employers to "exert every effort to carry out the objectives and purposes" of the resolution.

Coker said his experience indicated that — except for the veteran who is going back to school this fall — the one overriding need of today's veteran was to get an adequate, satisfying job.

While the Government has instituted various programs to implement the Congressional request, Coker pointed out, "the importance of securing full cooperation from private employers is underscored by the fact that six of every seven Americans are employed in private industry."

In his second annual veterans message to Congress last January, President Johnson asked Congress to call upon the nation's employers in behalf of the veteran. He said:

"A man who has fought for his country deserves gratitude. But gratitude can be no substitute for the job he wants — and needs."

In responding to the President's request, Congress supported the President's position saying "one of the most immediate and acute needs of members of the Armed Forces upon discharge... is to obtain early and suitable employment in positions which will enable them to be self-reliant, which will provide meaning, purpose and fulfillment in their lives."

Coker said that employers hiring new veterans were not simply helping out because of the "great personal sacrifices" veterans have made "to defend freedom and bring justice and peace to the world."

"In return," Coker said, "employers will be getting men

CELEBRATES 97th BIRTHDAY — Ready for the small luncheon party which was the principal event marking her 97th birthday Saturday, Mrs. Rosa Speer pauses for a photograph at her home, 203 East Fifth. A resident of Hereford more than 40 years, Mrs. Speer is active and in good health as she approaches the century mark in birthdays. Her daughters, Mrs. Warner White and Mrs. B. Frank Marrs, entertained Mrs. Speer and a few close friends with the birthday luncheon at a restaurant here.

All wealth comes from the soil

... Let us never forget that the cultivation of the earth is the most important labor of man. Unstable is the future of that country which has lost its taste for agriculture. If there is one lesson in history which is unmistakable it is that national strength lies very near the soil.—Daniel Webster.

Regardless of the Business

... or occupation that we might engage in as individuals, for our day to day livelihood — in our town, our country, our area and state, we depend either directly or indirectly on what is produced from the soil and on a healthy agricultural economy.

All must be encouraged to make themselves aware of the agricultural situation, and each of us strive as best we can to reverse the present adverse trend.

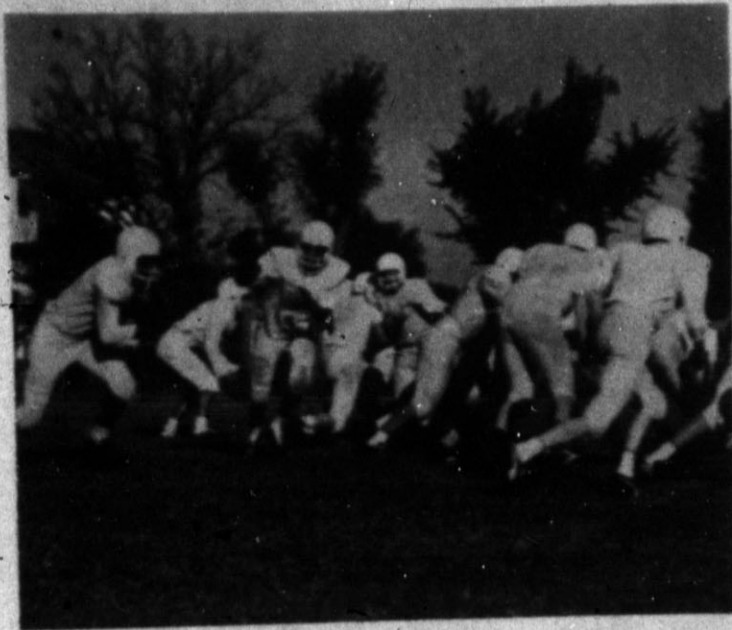

As the farmer and rancher goes, so goes the rest who are dependent upon him.

Stanton hosting Dumas today

Stanton, La Plata Set To Open Grid Seasons Tonight

By MARSHALL DAY
Staff Writer

Football gets its second start today as both Stanton and La Plata Junior High 9th grade teams open their seasons. Stanton will open against Dumas at Whiteface Stadium while La Plata ventures to Doggieland to do battle against the Plainview Blue Pups.

Walter Bryan, head coach and assistant principal at Stanton, looks forward to the coming season just about the same way any coach would, and that is, he just "doesn't know about it."

He feels that the schedule this year is a good one and he is real pleased that it is starting out on a different foot than it did last year. Last season, Stanton began the season off with two High Plains Conference games whereas this year they encounter Dumas, a non-conference team.

The High Plains Conference is made up of Tullia, Canyon, Dimmitt, Friona and the two Hereford Junior High schools. Dimmitt is the defending champion and Stanton will try their hands at unseating them when they see action in their second league contest.

Stanton is the only school here that did not undergo a coaching change with the beginning of the new season and coaches Jeff Smart and Ray Don King, along with Bryan, will again handle the seventh, eighth and ninth grade athletes. They are in charge of some 38 ninth grade athletes who will open to-

night against Dumas. The only thing that the coaches know about the Dumas team is that they defeated La Plata last year in the eighth grade contest by a close score of 21-14 and expect them to be a tough team to contend with tonight.

Comprising the Stanton ninth grade this year will be 38 boys of which the ends include Steve Clark, Danny Diaz, Jimmy Jobe, Alan Lemons, Robert Lyons, Tommy Martinez and Carlos Mendez. Filling and competing for the starting backfield positions will be Richard Barrett, Greg Black, Curtis Clayton, Eddie Gage, Rudy Gonzales, Ike Graves, Larry Lomas, Jimmy Monroe, Rodney Neil, David

Spain, Eugene Suttle and Terry Vick.

Tackle slots will be filled by Alan Brooks, Randy Cook, George Davis, Mike Dawson, Jay Henderson, George Pecheo, Richard Sierra and Pat Swindell. Taking up space at the guard positions will be Kenneth Bass, Rosendo Gonzales, Steve Leasure, Daniel Martinez, Robert Merrill, Earnie Murphy, Neil McAndrews and Jerry Sparks. Winding up the team at the center position will be Billy Smith and Larry Roberts.

LINEUP FOR LA PLATA

La Plata, on the other hand, will see their ninth grade team open their season against the Plainview Blue Pups tonight in Plainview.

La Plata, sporting a somewhat larger squad of ninth graders, will have one new addition to their coaching staff, and this is Danny Smith. Smith will head the seventh grade team and assist with the offensive line with the ninth grade. He comes to Hereford from Spring Lake Earth system where he was a mentor for eight years. He takes the place of Pat Privett who left the system this year.

The other two coaches who will work with the La Plata boys will be Alex Glass and Grady Allen. Allen is beginning his second season with the Mavericks while Glass starts his third.

With a schedule of nine games on tap for the Mavericks, they will also compete for the top spot in the High Plains Conference league against Tullia, Stanton, Friona, Dimmitt and Canyon. Their non-conference games include the Plainview Blue Pups, the Plainview Red Pups, Littlefield, and Mulshoe.

Making up the backfield of the Mavericks are Charles Allison, John Page, Gary London, Tony Hardin, Danny Charest, Robert Newsom, Kim Gripp,

Royce Waldrip, Johnny Tjerina and Frank Beizer. At the end positions are Ralph Waits, Cliff Herring, Rueben McGlivery, Randy Clements, Doug Poarch, David Hicks, Duane Warren, Sammy Ogan, Billy Bob Taylor, David Thomas, Terry Morgan, and Bruce Barrett.

Filling up the tackle slots will be Charles Ross, Wayne Walker, Daniel Higgins, Dewayne Jones, Vernie Taggart and Robert No-gler. Guards include Larry Driver, Celstino Hernandez, Eugene Cordarco, Steven Colbert, James Jorde, Joe Flood, Ricky Godwin, Jessie Rodriguez, Don Squier, John Wilson, Joe Downey and Allen Wilson. Centers include Moffie Smith

and Mike Corlis. Glass, head coach of La Plata, knows little of the Plainview team except their past record and feels that "they will probably be the best team we will have all year."

La Plata's game is to begin at 5:30 as will the Stanton game here in Hereford.

La Plata meets Plainview tonight

Justice Realtors Leads Standings

For the second week of play in the Sunset Keglers bowling league, Justice Realtors picked up the "High Team Game" by rolling 781 while also picking up the "High Team Series" with a roll of 2229.

Joan Munnerlyn won both the "High Individual Game" and the "High Individual Series" by bowling scores of 210 and 542, respectively.

In this week's action, the Medics won 4 and lost 0; Hereford Insurance won 0 and lost 4; Team No. 3 won 4 and lost 0; Team No. 12 won 0 and lost 4; Justice Realtors won 4 and lost 0; Team No. 11 won 0 and lost 4.

4; Chester Gin won 4 and lost 0; Hays Implement won 0 and lost 4; Sunset Lanes won 3 and lost 1; Team No. 4 won 1 and lost 3; Team No. 10 won 2 and lost 2 and Hereford Welding won 2 and lost 2.

Standings show that Justice Realtors stand at 7-1; Team No. 3 at 7-1; the Medics 6-2; Sunset Lanes 5-3; Hereford Welding 5-3; Chester Gin 3-5; Hereford Insurance 3-5; Team No. 4 2-6; Team No. 10, 2-6; Hays Implement 1-7; Team No. 11 (incomplete) 0-7 and Team No. 12 (incomplete) 0-4.

Of all pursuits from which profit accrues, nothing is superior to agriculture, nothing more productive, nothing more enjoyable, nothing more worthy of a free man. — Cicero

Kings, Queens To Start Bowling

The Kings and Queens bowling league will begin bowling action Friday night at Sunset Lanes, Margaret Collins, secretary-treasurer of the league announced.

Games will start at 8 p. m. and Mrs. Collins has urged anyone that wishes to join the league, to be at the lanes Friday night so that they may do so. The teams will consist of two men and two women each and it is hoped that there will be more teams this year than there were last year.

President of the league this year is Leroy McDonald.

Tascosa Nips JV; B-Team Gets Win

In opening season games, the Hereford Junior Varsity and B-teams did battle against Amarillo and Dimmitt, respectively, with the JV falling to the powerful Amarillo team and the B-teams notching a victory over the Bobcats of Dimmitt.

Dimmitt's defense could not muster up enough power to halt the driving of the B-team Saturday as they fell 22-16. Accounting for the Shorthorn tallies were Alan Wagner, who scampered for two TD's on long runs of 60 and 40 yards. The last paydirt toss was Paul Samneigo who tucked the ball away and glided 8 yards into the end zone.

Harold Schmuher took the ball over into the end zone on two occasions to add four, via two-point conversions. A third attempt for two failed.

Dimmitt's first score came when the locals, after dropping a punt on their own three-yard line and holding the Bobcats to a minus four yards in three plays, allowed them to complete a pass for six points. Their only other tally came on a 20-yard pass.

Though pitted against an overwhelmingly sized team of Amarillo boys, the Junior Varsity showed strength on defense

in their game Saturday despite a losing score of 26-6.

A 60-yard pass from quarterback Paul Hendon to end Mark Woodward was the only score the Longhorns could manage against the Amarillo team.

JV coach Bill Narrell stated that even though the offense had trouble getting going in the game, the defense proved itself capable against Amarillo. "On two occasions," he said, "our defense did an outstanding job and put forth an outstanding effort to halt a drive by Amarillo." Narrell pointed out Stephen Dzuik and Johnny Wall as doing an outstanding job on defense.

The junior varsity held the Amarillo team scoreless during the first quarter but they managed to add 12 points to their score for an 18-0 lead before the Longhorns managed their score in the final stanza. Amarillo then finalized the game with eight additional points in the fourth quarter.

The next game for the Junior Varsity will be tonight when they travel to Littlefield for a game at 7 p. m. The B-team will play host to the Farwell team on the same night at Whiteface Stadium. Their game will begin at 7:30.

Announcing the 1969 Plymouths.

FURYS • BELVEDERES • BARRACUDAS • VALIANTS

Now there are 64 great new Plymouths to win you over. Completely restyled Furys. Newest edition of the success car of the sixties. Longer, wider, roomier than ever. 6 new wagons, too. The best goes on with Belvedere. Fastest-growing line in the mid-size market.

Cut loose with Barracuda—pure sport from bumper to bumper. Eight new Valiants because an honest compact makes a lot of sense to a lot of people. In the past two years, three-quarters of a million owners of competitive cars have been won over to Plymouth. See for yourself why.

Two Are Placed On Committees At Conventions

Hereford men were elected to committee posts during state conventions of their respective political parties this week. At the State Republican Convention in Fort Worth, Joe Shollenbarger was placed on the nominations committee. Charles Bell, at the Democratic State Convention in Austin, was named to the committee on permanent organizations.

High Damage Monday Accident

A three-car collision at the intersection of U. S. 60 and Whittier St. Monday afternoon resulted in an estimated \$1890 damages to the cars involved. A 1967 Chevrolet driven by Milo Crawford of Amarillo sustained about \$650 in damages and the 1965 Pontiac, driven by Rose Funk received about \$1000 damages. The other car involved in the accident was driven by Jose Leal and received an estimated \$200 damages. The accident occurred when all three cars were traveling east on U. S. 60 and the car in front of the other two stopped to make a left turn onto Whittier St. The second vehicle stopped but the driver of the third car, apparently not seeing the others stopped ahead of him, ran into the rear into the rear of the second car, knocking it into the rear of the car attempting the turn. Investigating officers issued a citation for following too closely. The Japanese island of Hokkaido accounts for 20 per cent of Japan's land area, but supports only 5.4 per cent of the nation's population.

Backing the Whitefaces . . . last week's Kickoff Party.

Whiteface Opponents Split Wins, Losses In 1st Outings

By MARSHALL DAY Staff Writer

It wasn't what a lot of people looked for during the first weekend of football, but then, someone has to be the winner and someone has to be the loser, as seat, switched off the ignition key and let the truck roll. "That darn truck rolled and rolled and rolled. I thought it would never stop," Miller said. When it finally halted Miller carefully climbed out of the truck and breathed again. He then subdued the snake and put him back in the tank. That's when he realized that the second big rattlesnake was missing. "I almost disassembled that truck looking for that other snake. I guess he fell off in the road somewhere," Miller said.

teams on the Whiteface schedule split wins and losses down the middle with five winning their openers and five losing. Of course, everyone knows Pampa downed the locals in a 12-6 contest Friday night, but the remainder of the games were either upsets or run-aways. Plainview slapped Tulia all over their field in the two teams season openers by a whopping score of 48-7. The Bulldogs, after having been held scoreless in the first stanza, erupted for scores on a fake handoff, an intercepted pass, a 15-yard pass, two more passes that resulted in touchdowns, and a couple of grinding plunges up the middle. Tulia made their only score in the final quarter on an eight-yard pass. Seminole, expected to be one

of the most explosive teams on the Whiteface schedule this year, met disaster at the hands of the smaller, underrated Denver City Mustangs by a tally of 15-7. Denver City was out-weighted and out-manned throughout the entire contest, but managed to pick up their needed yards on the ground to squelch the opener for the Indians. The Class AA Mustangs, rated ninth by Texas Football in the state poll, held the Seminole offense throughout the entire contest in pulling a major upset. Guymon, Okla. Tigers kind of wished they had waited for another night to play after they fell to the Dalhart Wolves by an astounding score of 66-7. Dalhart, who the Whitefaces are to meet four weeks from now, scored in every stanza on long gallops while the only Tiger score came on a similar run that totaled 82 yards on a kick-off. The Wolves proved to be tough on the ground game as they pounded out 389 yards rushing and also on the air attack with 130 yards there. Dimmitt slapped it to the Muleshoe Mules 12-0 to thwart another district foe of the Whitefaces. Dimmitt collected their points in the third and fourth stanzas after a scoreless first half for both squads. Perryton was the only district 1-AAA team to win their opener as they downed a powerful Borger team to the tune of 13-6. The Rangers cinched the contest on a fluke play of a fumbled pass reception in the end zone that ended a Borger uprising. The district 3-AAAA Bulldogs lead in total yards by rolling up 274 yards — 153 on the ground and 121 on the passing game, but this was not enough to offset the unique fumbled pass recovery in the end zone, and giving Perryton the only win by a district 1-AAA team this week. Dumas lost it's season opener to the Palo Duro Dons for the first time in who knows how many years, but not by what might be called a close score 35-0. Dumas, rated 10th in the state among AAA schools, couldn't quite make a go of it

2 Road Projects Are Announced

The Texas Highway Department announced two new highway construction projects in Hereford and Deaf Smith County: U. S. Hwy. 60 beginning at east city limits to intersection U. S. Hwy. 385; FM 1058 beginning at State Hwy 214 to U. S. Hwy. 385. The construction will consist

of asphaltic concrete pavement, base stabilization and grade revision. The Texas Highway Department and the contractor, Cooper & Woodruff Inc. of Amarillo, stated that the construction will begin on Sept. 25, and will be completed by Oct. 31.

William V. York, supervising resident engineer of the Texas Highway Department in the Hereford area, explained that traffic will be routed through the project. There would also be occasional disturbance of side street traffic during the construction operations. York pointed out that barricades and warning signs will be prominently displayed, but motorists should exercise extreme caution in passing through the area. Cooperation of the public is urged.

Rotarians Hear Of Big Brother Program Here

Big Brothers of America and what a chapter could do in Hereford was the topic of discussion during the regular meeting of the Hereford Rotary Club Monday.

Don Chaney, an officer in the newly organized club here, told Rotarians a survey revealed that there are 99 boys in the local schools who do not have fathers (those not in school were not counted.)

Purpose of the organization is to give male guidance to the young boy. The board of directors of the local organization, which is headed by Melvin Jayroe, are made up of a cross section of the community. "These are men who give a little bit of time, no financial help," said Chaney.

He urged interested men to make application to become a Big Brother, since the Big Brothers and the boys will be paired up soon. Chaney said \$1500 will be needed for the club's first year of operation. A film titled "What Is A Boy," narrated by Charlton Heston, also was shown.

Don Chaney . . . Rotary speaker.

as the Dons pushed them back on defense and held them on offense the full four quarters in notching the win. This was the first time that Palo Duro had won over Dumas in a good many years.

Phillips and Canyon were in what is called a one-sided contest as Phillips, the number one team in their district of AA ball, all but disgraced the Eagles. A little 150-pound halfback on the Phillips team accounted for over half of their 40-13 win, as he scampered to TD's on runs of 20, 15, 37 yards along with a 55-yard punt return. Both of Canyon's scoring notes came on long gains but neither could so much as put a dent in the score that Phillips had already accumulated.

From the looks of things, it is either going to be a rough-and-tumble season all the way for the Whitefaces, or it is not. That is all there is to it. Hereford will meet Plainview Friday night in Plainview at 7:30 p. m.

Election System Is Topic Of Meeting

Government Affairs Committee of the Deaf Smith County Chamber of Commerce met Tuesday on the question of current national interest in the electoral college system of electing a President and Vice-President (considering the 3-party race for these offices in November) and the possible organization of a class in the school adult education program on "Action Course in Practical Politics."

The committee did not entertain any motions on the position of the conventions nominating Presidents and Vice-Presidents on the basis that it would be an invasion of principles in the democratic system.

On the electoral college proposition, Assistant Public School Superintendent Roy Hartman made a motion that a public opinion survey be taken by the news media in Hereford in regard to the two bills now before Congress on the same subject to "get their feelings" on this vital question.

The motion stemmed from a statement made by KPAN manager Clint Formby earlier that

"this committee cannot be expected to solve such a problem as this in 30 minutes when Congress hasn't done it in 20 years."

Chamber manager Bill Thompson, who had given a review of the electoral system in the United States at the beginning of the meeting, was asked by Government Affairs Committee Chairman Harlan Vander Zee to obtain information on the two current bills and forward the information to the local news outlets for the survey. Joining in the complex discussion was Dr. Joe Whitley, who described the aristocracy of the first six presidents and how it was changed with the election of Andrew Jackson.

Bruce Miller, Woody Wilson, Pauline Howard, and Les Combs also voiced opinions.

Hartman pointed out the complexity of the changes in the present system and offered that "the electoral system was good for this country in the beginning, we may need something new today — realizing that what we do today may not be good 50 years from now."

Therefore, they agreed to turn the matter over to the public here.

In the matter of the political course, Thompson explained that it had been designed by the U. S. Chamber of Commerce and does not take sides in the political issues or with personalities but teaches the fundamentals behind the political practices.

The committee agreed to recommend the course to the Chamber board for their action.

Several thousand different varieties of wheat are grown around the world. They are bred for resistance to disease, high yield, proper maturity and good milling and baking qualities.

SCHEDULE OF DISTRICT TEAMS

While Hereford is doing battle against the Plainview team Friday, other district opponents will have their hands full as they see action also.

Perryton, the only district team to win their opener, will travel to Woodward, Okla. this Friday in an effort to keep their slate free of losses. Dumas, on the other hand, lost their first season opener in several years and will now go after their first win when they play Pampa at Demon Stadium.

Others seeing action will be Canyon at Olton, Tulia at Floydada and Muleshoe playing Abernathy at home.

Lately-Wed Couple Live At Dallas

Mr. and Mrs. John Michael Mastervich III are at home in Dallas after a honeymoon in Mexico following their recent marriage in Highland Baptist Church at Dallas. The bride is the former Miss Cheryl Ann Edmonson, daughter of Mr. and Mrs. James N. Edmonson, 601 Star.

She is a 1965 graduate of Hereford High School and has attended Eastern New Mexico University and West Texas State University.

The bridegroom, son of Mr. and Mrs. John M. Mastervich Jr. of Fraser, Mich., is an aerospace engineer with Ling-Temco-Vought of Dallas and will receive his masters degree this semester from the University of Texas at Arlington. He holds a BA degree in math and physics from Oklahoma City University.

The Rev. Jack C. Parker officiated for the marriage ceremony, and the couple was attended by Miss Linda Nash and James Franklin.

Flower Arranging... Elements of Design

Have you made an arrangement yet? The flowers are very lovely now that the days are getting cooler, the colors more intense, textural qualities nice, and substance of stems good. Excellent materials to work with. I made an arrangement this morning of peace roses, and Sunday morning the one (that went to Church) for my Sunday school class was of two shades of large margolds (Art grew them) small two-tone zinnias, and fountain grass heads. It was relaxing, gave me chance to share, and I hope pleased others.

The elements of an arrangement are the working ingredients which the arranger uses; which have been organized and combined to form a complete unit. These elements are perceived by the senses; they are the artistic components rather than concrete ones. These are fitted together in an artistic manner to create a design, which is very important to any arrangement. The design elements of structure with which the arranger is concerned. Working in three dimensions are SPACE, LINE, FORM, PATTERN, TEXTURE AND COLOR.

The idea of three dimensional and SPACE have recently been included in the art of flower arranging. Like many other phases of life, time changes things, therefore flower arranging changes, new ideas or elements are added, and others taken away. Creativity, expressionalism, and originality are very important factors to arranging. In these chaotic times in which we live, flower arranging has given to many an outlet of feelings.

The first element that concerns the design is space. The picture one wishes to create begins with a frame. This space may be either bounded by the actual lines of a niche, shadow box, or by imaginary limits set by a piece of furniture or a pedestal. The FRAME is limited by the immediate environment or placement in which an arrangement is to be used. The relation to the frame is a controlling factor, and aids in the selection of design.

Specifically, the SPACE will influence the size, proportion, shape, lines and direction of the design. A vertical space, that is a frame which is taller than wide, will ordinarily demand a vertical design; if a horizontal frame, then naturally a horizontal design would be proper for the frame. Within the frame or space, the completed design, with accessories, background etc., will make the whole, and all these should have a proper relationship through line, form, texture, pattern, and color. This will present a unified, rhythmic design, expressing an idea, emotion or create the effect sought by the arranger.

Line, is the primary foundation of design. It delineates shapes, and pattern. It establishes general movement and movement of pattern, texture and color. It creates the linear pattern, which leads the eye through the arrangement from

one area to another. It is these paths or lines which unifies all within its space. The directions or attitude of lines are: vertical (upright), horizontal (across) and diagonal or oblique. The characters of line are short long, straight curves; weak, strong; thick or thin; delicate or bold. Each has a specific character, selected to promote that which makes a pleasing arrangement. Line is the foundation of all design.

FORM is above and beyond simple shape or outline for it includes the entire physical composition in three dimensions. FORM is the total effect of the structure of an artistic creation. Form should have meaning.

Size of component parts, effects form. Selection of materials, should be done with care. Size relationship is something that should be coordinated with care. A large frame, will naturally need a large container, and the materials also should be comparable to the frame. Just as a person with a large frame, and a tendency to be overweight would not select a small dainty purse or a dainty petite person choose a large bulky purse, proper relationship in size determines the effect created.

PATTERN, in creative design is achieved by the use of solids and open spaces. The silhouette of an artistic arrangement against its background is an important phase of pattern. Repetition, gradation, and structural qualities are units which tend to create pattern, and the picture which the arranger seeks to make.

TEXTURE, refers to surface finish or materials which appeals to the sense of touch. Character of materials which are referred to as rough, smooth, coarse, fine, glossy or dull, hard or soft. All textures of materials, backgrounds, containers, and accessories should be compatible. Textural qualities add interest to an arrangement. Unity in texture is just as important as unity in all other elements. Textures influence weight, also proportion and balance, and should be used with thought, and measured choices.

Color, plays such a vital part in our lives. It is one of the most compelling factors in an arrangement. Color like music has a great emotional appeal. It can be enjoyed for its natural beauty. Just as one responds, or is thrilled at the beauty of a plains sunset, moonlight on roses, butterflies flitting here and there over beautiful flowers, the rainbow at the end of the day of rain, or a well executed floral arrangement, this is done with out having to think or analyze. It however convinces one that color is effective and ones senses automatically responds to beauty revealed by coloring. Color is VERY fundamental, much more than form and design. It therefore should be used with discretion, and correctly or all will be lost. For an arranger to use color correctly much study and practice should be done by the arranger. The wrong choice of color will destroy the grace of the very best designs. COLOR is fundamental, and thrilling.

The above may seem a bit confusing, if so study it carefully, then carry it out by making an arrangement, thinking of the Elements of Design — as you work.

HAVE YOU? Made a nature study this summer? Gone to a park to rest and relax? Stood still, looked, meditated on the beauties about you? Sought to improve your mind and appreciation of the beautiful?

Last Friday I had an opportunity to do some of these things. The Hereford Garden Club made a trip to Palo Duro Park for nature study. The COLORS were exotic against the backdrop of the beautiful autumn blue sky. Formations, plant materials, ravages of nature (recent rains) studying the wildflowers, etc. — made a most enjoyable and profitable day.

Mrs. Eva Gilliland visited with me and told of the beauties of nature that she saw while making an air plane trip to the southeast part of the state. She was especially impressed with the beauty of the Golden Spread with its fields of maturing grains, the green pastures, and the different patterns made by highways, fields, and other factors. Beautiful to look up into the beauty of the sky above, and down upon the fruitful earth below. Since the pilot was her son, John, the company was good too. All in all a day well spent.

Flower Show School Number five will be taught at The Amarillo Garden Center, next week. Flower Arranging will be featured on the 23rd, and horticulture on the 24th. Any one interested is invited to attend. A fee will be charged each day. The instructors are well qualified. If interested contact Mrs. Joe Miller of Amarillo, or call The Garden Center 352-6513.

Make each day count. Seek out something beautiful. GLAD.

ASC Members To Hold Election

The County convention where farmer-chosen delegates will elect farmers to fill vacancies on the Deaf Smith County Agricultural Stabilization and Conservation (ASC) Committee will be held Wednesday at 8 p. m. at 317 W. 3rd, Hereford, according to Frank J. Bezner, Chairman, ASC County Committee.

One committeeman will be elected for a 3-year term and two alternates will be elected for 1-year terms. Two other regular committeemen, who were elected last year and the year before for three year terms, will continue in office. The convention also determines which of the regular committeemen will serve as the chairman and vice-chairman.

The convention will be open to the public, and any person interested in observing the voting procedure may attend. However, only farmer-delegates to the convention may participate in the election process. Election is by secret ballot.

After 450 years, the Portuguese cod fleet still crosses the Atlantic in April to bring the dorymen, their tiny craft and hand gear to the Grand Banks off Newfoundland.

An ounce of gold can be stretched into a wire 50 miles long.

LAE Study For Year Introduced

Introducing a year's study course with the general subject, Cultures of the World, Mrs. A. B. Higgins and Mrs. George Suggs gave the program on Age of Exploration at a meeting of La Afflatus Estudio Club Tuesday afternoon.

Mrs. A. L. Hewitt was hostess in her home. As a preface to the

study which will review ancient cultures and touch on the modern, a quotation from Shakespeare, "What's past is prologue", was given.

The speakers brought out that man in this century is exploring not only outer space, but the culture of other peoples on earth. To reach an understand-

ing which will lead to peace on this planet, he must realize that nothing human is alien, it was emphasized.

Two new members, Mrs. S. C. Ramey and Mrs. Bud Durkee, were welcomed at the beginning of a new club season. Others present were Mmes. C. E. Beauford, Earl Clark, A. H. Cook, Emmett Hale, Walter Johnson, B. F. Markham, Sam-Morgan, B. A. Reddell and T. W. Roberson.

In 1954 a slide tore 185,000 tons of rock and earth from Prospect Point on the American side of Niagara Falls.

Joyce Betzen Is Out Of Hospital

Joyce Betzen, 10, who was injured last Thursday night when she fell from a horse, is now at home and "doing real good" the Brand was told Wednesday.

The daughter of Mr. and Mrs. Mike Betzen, who lives 3 miles west and 5 miles north of Hereford, Miss Betzen had received head injuries when the saddle broke as she was helping to move cattle. She received treatment at Deaf Smith County Hospital before being transferred to

St. Anthony's Hospital in Amarillo.

It is expected that the girl will be back in school next week if she continues to improve as she has this week.

Look Who's New

SWPS Workers Are Honored

Four Hereford employees of the Southwestern Public Service Company were among 107 of the electric company's Panhandle division employees honored Tuesday night at the 20th annual service awards dinner in Amarillo.

Don French topped the Hereford list of awardees with 20 years of service. The other honorees were Wendlin Joe Hacker for 10 years of service, and Maxine Lewis and Melvin Lomenick for 5 years.

Gordon Lyons of Pampa and Edgar S. McMillon of Borger with 40 years of service shared the top honoree place. Roy Tolk, president of the electric company made all of the awards presentations.

A total of 311 employees with a combined service of 4590 years are being honored at awards dinners this year throughout the Southwestern Public Service Company's 45,000 square mile service area.

Meeting Is Set On Alcoholism

Deaf Smith County Council on Alcoholism will meet Tuesday, September 24, at noon in the Jim Hill Hotel.

The Rev. Fred Howard will report on "Institute on Alcohol Studies," which he attended at Austin during July.

Rev. Howard is vicar of St. Thomas Episcopal Church in Hereford.

Chamber Board Approves Local Housing Study

Deaf Smith County Chamber of Commerce board of directors met Wednesday morning and laid the groundwork for the study of housing for the Wilson and Co. workers expected here and to begin plans for the annual banquet in January.

The directors also approved both recommendations of the Government Affairs Committee. One regarded the local news media taking a survey on the preference of two bills now before the Congress on the electoral vote situation for U. S. President and the other was the backing of a political education course for adults pending future school arrangements. (See separate story on Government Affairs Committee.)

Melvin Young was named chairman of the nominating committee for candidates in the directorship of the Chamber. Also on the committee are Neil Cooper, Bert Boomer, Hilrey Aven and Clint Formby.

Directors heard a report from Dr. H. A. Cavness for the annual banquet. They prefer the banquet during the last week of January and are trying to work out a date for Jan. 30. Chamber manager W. T. (Bill) Thompson also reported that they have a preference for an "entertainer" speaker, as opposed to political.

Housing Task Force, headed by Neil Cooper, will begin a study of the needs, opportunities and problems in lieu of housing in Hereford for prospective workers set to move here for employment with the new Wilson and Co. plant.

Also discussed at length were the future ground-breaking ceremonies for the Wilson Co. plant ("No date has been set, of course," Thompson reported, "but we will be in complete accord with the community on the ceremonies.") and the House Water Commission meeting to be held in Hereford on Oct. 5.

FIESTA HIGHLIGHTS — Celebrating Mexico's Independence which began in 1810 and was not complete until 1920, hundreds of area descendants joined in the Coronation of Queen Elvidia Torres, heard the special broadcast which included Joe Zepeda, Frank Ford (who congratulated them in

English) and Paul Abalos, stood in the rain to watch the parade, and danced to the music of Junior Perales (whose musical instruments were damaged in an accident on the way to Hereford.) In the fabulous Grand March, they played The Star Spangled Banner and Himno Nacional, de Mexico.

And all ages joined in—the very young, including Eddie Rodriguez and Debbie Hernandez (center), to the very old. Photos by Earl Moseley.

U.S. Political Future Is Topic

Changes foreseen in the future in American politics were suggested by Mrs. Clint Forby as she presented the program for LaPlata Study Club Tuesday evening in the home of Mrs. M. H. Richie. It was the first program of a series on Looks Into the Future.

The speaker predicted changes due to the increasing influence of young people on politics, and the growing number of voters who cross party lines. She added that changes in the convention system of nominating presidential candidates are likely within the next four years, due directly to the power of television in directing the thinking of many voters.

As for Texas politics, Mrs. Forby said that after several decades of strong Texans on the national scene, a change seems in order with Lyndon Johnson's retirement from the presidency.

In the business session, the club planned to continue sponsoring a Camp Fire Girl group. Mrs. Emil Dettman and Mrs. Frank Prowell were named club representatives to assist the group. To raise funds for service projects, a rummage sale was scheduled for Sept. 28.

Members agreed to participate in a county-wide project of clubwomen to supply cars and drivers to take residents of Kings

Manor retirement home on shopping trips at regular times each week.

Local Women Winners At Fair

Winners in the Women's Division of the Tri-State Fair at Amarillo include several from this county. Mrs. Leroy Williamson took four first places in the baked products division and Mrs. Mary Newman won first place on afghans in the knitting division.

Mrs. Williamson's baking awards were for yeast rolls, cinnamon buns, sour milk biscuits and oatmeal cookies. She also placed second on whole wheat rolls and pie.

Mrs. J. E. McCabe of Dawn received second place for a loaf of yeast bread.

The macaque, a type of monkey, has cheek pouches in which it stores leaves and fruits.

Shootin' The Bull At HHS Activities Aplenty On Tap At Hereford High School

By JANE ZINSER

The third week of school has almost ended and nearly everyone is situated and settled down into some sort of school routine — and the midnight oils have already started to burn.

—HHS—

A Capella Choir has begun hard work for a concert to be presented at the Lions Club in October. Newly elected choir officers are Wayne Winget, president; Russell Phillips, vice president; and Janice Newsom, secretary. The choir is under the direction of Bill Devers and is accompanied by Betty Hodges and Judy notingsworth.

—HHS—

The Kick-Off Party held last Thursday night had a turn out of over 300 people. Tony Gorman opened the celebration when he kicked off a miniature football with his golden toe. Pep talks by Coach Wartes, football captains, and Student Council President, Lanny Buck, were followed by yells led by the cheerleaders. Numbers by the

band and twirlers followed. After the school song, delicious cake and punch were served by the Student Council.

—HHS—

Since home room elections, there are approximately 45 members in the Student Council. The election for Student Council Secretary will begin the 23rd of this month when petitions are passed out to the Sophomores so that they may choose our next Student Council Secretary. At the same time, petitions for Sophomore Class President will be circulated.

—HHS—

The turnout for the first game of the season was tremendous and we all enjoyed watching our boys play. We know they did their best and hope their efforts will be fully repaid in their future games. Good luck, boys!

Our first pep rally was bursting with excitement and school spirit with the help of the cheerleaders, the band, and newly elected "Scat," who is Cindy Tips. The Juniors won the vic-

tory stick for showing the most spirit and having the loudest vocal cords.

Tomorrow night our Fighting Whitefaces travel to Plainview to challenge the Bulldogs. Kick-off time is 8 p.m., and let's show our boys that we are really behind them by being there. We want everyone to come and hope there is a line of cars from here to Plainview. Tonight our Junior Varsity, the "Longhorns," meet Littlefield at Littlefield; game time is 7 p.m. The "Shorthorns," our "B" team, clash with Farwell here at 7:30 p.m.

NEW VICA OFFICERS — Officers for the coming year in the Vocational Industrial Cooperatives of America program at the high school were elected in a meeting Tuesday morning. They are, from left to right, Annie Nunly, treasurer; Rosemary Fangman, president; Sherri Jones, vice president; Melody Ott, parliamentarian; Becky Jesko, secretary; and Mary Hushman, reporter.

Future Teachers of America had their first meeting Monday night at La Cafe Hacienda. FTA officers, (president, Martha Kate Aikin; vice-president, Judy Yarbro; secretary, Jane Zinsler; point keeper, Connie Hoover; and historian, Theresa McAndrews), will be attending a workshop in Amarillo Saturday. Anyone interested in joining FTA will be welcomed.

The first meeting for Texas Association of Careers In Health formerly Future Nurses of America, was held Tuesday night, September 10. These are ambitious girls, for a money-making project, they will wash windows for the next four Saturdays. Telephone numbers are 364-0119 or 364-1663.

—HHS—

Gary Crume was elected beau for the Future Homemakers of America last Monday at their first day meeting. FHA will also be sponsoring a salad supper September 27.

Guests Speak To Kappa Iota

A possible local service project was presented by a guest to Kappa Iota Chapter of Beta Sigma Phi, and discussed by members at a meeting Tuesday evening in Community Center. Other possibilities are to be reviewed before the year's project is chosen.

Virgil Dodson, board member and former chairman of the Migrant Ministry group which operates Casa de Amigos at the Hereford Labor Camp, showed a film and told of needs at the Casa. He was assisted by Tom Doyle.

Mrs. J. D. Hamblen and Mrs. Gary Braden were hostesses for the meeting and Mrs. Gene Larsen program leader.

Announcement was made that the chapter earned the rating of Three-Star Chapter for its accomplishments of the past year.

Mrs. Joe Frank Huckert was elected corresponding secretary to fill an office vacancy. An invitation to the Sept. 30 luncheon of Deaf Smith County Federation of Women's Clubs was read, and chapter representation was planned.

Date of the fall preferential tea, which had been scheduled for Sept. 22, will be changed because of conflict with the area convention to be held in Dumas; a new date has not been set.

Early fall activities of the chapter included a salad supper last weekend in Pioneer Gas Flame Room, with Mmes. John Fink, Kenny Roland and Jerry Weldon as special guests.

Games of crazy bridge were played after supper, with scores

awards going to Mrs. Charles Cabiness and Mrs. Bob Spangler.

AUSTIN HIGHLIGHTS

Land Squabble, Water Plan Are Big Austin Newsmakers

By VERN SANFORD Texas Press Association

AUSTIN — A new Texas land war is raging.

Land developers and Texas Land Commissioner Jerry Sadler are in disagreement over the recently-revived \$400 million state Veterans Land Program.

Mindful of the VLP scandals of the mid '50's, Sadler is adopting cautious, conservative policies to guide future state policies.

Developers claim Sadler is tight-fisted and is jeopardizing the program by low-ceiling land value appraisals and limiting sales to 10 per cent of large subdivisions.

Under Sadler's limits, developers with tracts of 1,000 acres can sell only 100 acres through the state bond-financed program.

The Commissioner argues that the state should not spend all its constitutionally-authorized bond funds in a few areas.

Central Texas developers counter that land values already are soaring and that veterans held out of the market now eventually will pay higher rates.

Sadler says land already is selling at prices beyond reason in Travis, Kerr, Bastrop and Hidalgo Counties.

Sadler's 25 appraisers are putting price tags on property \$40 to \$100 an acre too low right now. They claim qualified veterans are lining up to buy land at prevailing prices and the program is a "flop."

"Trying to make a fast buck at state expense," reprimands Sadler, who staunchly maintains he is having none of that kind of business.

One realtor is seeking a legislative investigation.

WATER PLAN — Texas' monumental water program — to move surplus water from the Mississippi River and Northeast Texas to the drier areas of South and West Texas — is not to be released until late October or nearly November.

But the Texas Water Development Board, which is working up the plan, let some details slip out when it approved its budget request to be submitted to the Legislature for the two-year period beginning September 1, 1969.

Board's budget requests a more than 50 per cent increase in appropriations for the agency so it can get the plan into operation before Texas faces economic disaster from a lack of water.

A time schedule for the project — estimated to cost around \$10 billion — will be presented to the Legislature, outlining what needs to be done in the next six years.

First step is gathering the surplus Northeast Texas water for the Trans-Texas Canal, which will move water west to supply Dallas-Fort Worth, then on through the concrete-lined canal to the South Plains and other areas of West Texas and the Trans-Pecos, all the way to El Paso.

Then by the end of 1971, negotiations must be completed to bring surplus water from the lower Mississippi, below New Orleans, across Southern Louisiana, then into either the Sabine River or up the Red River to the Sulphur and Cypress Rivers.

By the middle of 1974, federal, state and private sources need to agree on the construction of nuclear-energy power-generating plants to produce the electricity necessary to run the hundreds of pumps which will actually move the water.

South Texas will be served by a South Texas Canal, which will run from the lower Sabine River near Orange down the coast to the Lower Rio Grande Valley. This project will need to be approved by Congress by mid-1972.

State will probably have to pay 25-30 per cent of the cost of the project. This means that the \$400 million borrowing power the board now has will have to be expanded to at least \$2.5 billion. Legislature would have to approve this in January, with the people voting on it in 1970.

NEW LIQUOR PROBE — A House committee probing influence of vending machine operators on tavern keepers will hold hearings in Austin, Fort Worth, Houston and probably two smaller cities.

Dallas Attorney David Witts was named chief counsel and investigator of the committee by the five-member panel headed by Rep. H. H. Cory of Victoria, in conference with Texas Liquor Control Board Acting Administrator O. N. Humphreys Jr.

Panel, armed with sworn statements from tavern operators, will look into rumors of Mafia and crime syndicate activity. Only witnesses heard to date said he knew of no such outside influences in his area.

But he testified vending machine operators should be prohibited from lending money to taverns and drinking clubs.

APPOINTMENTS ANNOUNCED — Donald R. Fishel is new chief of Texas Liquor Control Board enforcement division. Sherman McBeath of Wichita Falls will replace Fishel as assistant enforcement chief and Leonard J. Lozano of Poteet will be LCB supervisor of investigations.

Gov. John Connally named Bryan Beck Jr. of Beaumont and H. J. (Bubba) Shands Jr. of Lufkin to Lamar State College of Technology board of regents. He re-appointed Pat Peyton Jr. and Otto Plummer of Beaumont to new terms on same board.

William A. Wroe, Austin banker, has been appointed treasurer of the Republican Party of Texas.

Dr. Richard Tozer of Dallas is executive director of the Texas Nixon for President finance committee.

LOUDER SENATE — News-men and spectators in the Texas Senate have been complaining for years that they can not hear what the Senators are saying to each other on the floor, making it rather difficult to follow debate.

A San Antonio firm is solving that problem, at the request of a special Senate committee created by the June special session.

Company plans to install a powerful amplifier and 35 speakers around the chamber — specially attuned so that deep-throated Senators and high-pitched ones, too, will be heard by all in the chamber.

Each senator will have an individual desk microphone, and a central panel at the president's desk will allow the Denators to be turned off and on by the Senate secretary.

Cost of the system will be from \$20,000 to \$25,000.

ATTORNEY GENERAL SPEAKS — A write-in vote for President and Vice President is valid and must be counted, regardless of whether the political party or the candidates "written in" has qualified to have names printed on the ballot, Atty. Gen. Crawford Martin held.

Martin said if the Secretary of State has not been notified as to identity of the slate of presidential electors for write-in candidates, inquiry may be made by him as to the electors' names.

In other recent opinions, Martin concluded that: "A county judge performing duties of county school superintendent (where office of superintendent is abolished) is not entitled to office and travel pay or salary of an assistant in addition to his \$2,650 annual compensation for extra duty.

"Palo Duro Canyon State Park revenues collected since last November 28 must be deposited in state parks fund with state treasurer.

"Texas State Board of Registration for Professional Engineers can pay temporary employee to help handle its examination papers.

JUVENILE DELINQUENCY. Rep. Vernon Stewart of Wichita Falls, chairman of the House Committee on Juvenile Crime, offers a new approach to juvenile-crime problems.

Stewart wants to pay Texas' 254 counties to "keep their young people out of trouble." This would involve a state program of paying the counties \$2,000 a year for each juvenile they keep out of the state reformatories.

Proposal is based on the fact that not only is the state planning to spend \$10 million in the next three or four years on building new Texas Youth Council facilities, but will also spend \$2,000 per year per "student" to keep them in the "schools."

Stewart said his plan "would save the state taxpayers the cost of the buildings to house them and the county taxpayers the cost of the losses they create by delinquency."

MILK FREIGHT RATES — For the first time, Texas Railroad Commission has established rates, rules and regulations on the shipping of milk in relatively small quantities from dairy farms to milk processors.

Previously, rates were simply agreed on by the dairyman and the transporter.

New rates will be based on a mileage scale from 10 to 200 miles and are different for Grade A and ungraded milk and according to the size of the shipments, in four brackets from fewer than 5,000 pounds up to 10,000 pounds and more.

Rate charts — Motor Freight Commodity Tariff No. 30 — are available free from the Railroad Commission, Transportation Rate Section, Austin.

SHORT SNORTS Dove hunters bagged 20 per cent fewer whitewing doves — 250,692 — in the Lower Rio Grande Valley this year according to the Parks and Wildlife Commission.

Attorney general said his office has obtained an injunction against Chapman Oil Company of Fort Worth for distributing barrels of fake Chevron oil.

Water Development Board will lend \$2 million maximum to the San Jacinto River Authority for Conroe Dam and Reservoir.

State general fund surplus at start of new fiscal year was \$32.9 million says State Comptroller Robert S. Calvert.

A \$100,500 federal grant has been approved for Marina Bay Park recreation facilities at Wichita Falls.

Of the 60 Texas school districts that the U. S. Department of Health, Education and Welfare said last March were not meeting federal desegregation standards, 47 now are clear, 10 are still up for HEW hearing, two are awaiting federal rulings and one (Carthage) has had its federal funds cut off.

Cork is used in insulation, floor coverings and many other products, but bottle stoppers and liners for bottle caps still create the main demand for the product.

The House of Representatives last week approved the largest single appropriation bill ever to come before Congress. This was the \$72.2 billion Department of Defense Appropriations Act for 1969.

The huge outlay was, however, \$4.8 billion less than what the President had requested in his budget proposal. The Appropriations Committee had made the reductions on a selective basis.

Rep. George H. Mahon, Chairman of the Committee supported the bill and contended that the cutbacks did not represent any backing down or a posture of appeasement. Rather, he said, "This bill represents firmness, this bill represents power, this bill represents strength, and this bill represents the view, in my opinion, of the great majority of the American people; that Communism remains a serious threat, that we must keep up our guard, and that we will not subscribe to policies of appeasement or weakness." Those were Mahon's words on the House floor.

The ranking minority member of the Armed Services Committee, Rep. William A. Bates, pointed out in the debate that there undoubtedly will be a large supplemental appropriations bill early next year and that some of the savings in the Defense bill had been achieved through a stretch-out of various programs and could result in an over-all increase in the unit cost

of items such as aircraft and helicopters.

Rep. Glenard P. Lipscomb, ranking Republican on the Appropriations Subcommittee on Armed Services, supported Mahon's position that the cuts would not weaken our defense posture. He also pointed out the "explosive expansion" of Russia as a maritime power. Soviet naval power now includes over 100 destroyers and about 20 cruisers and during 1967, the Soviets added a new class of guided missile cruiser and their first helicopter carrier. They are rapidly expanding their merchant marine of 1400 ships and increasing their capabilities for specialized operations to include oceanographic research and intelligence gathering.

But the main USSR naval threat is their formidable submarine fleet. They are the only country to mass-produce submarines on a wartime basis in terms of peace. In terms of numbers of operational submarines, the US has fewer than the Soviet Union. At least 250 of their approximately 370 subs are "attack" versions and about 45 of these are reportedly nuclear powered. Our 41 Polaris missile-carrying subs would be prime targets for the giant Soviet submarine force. And in many other areas, evidence points to Soviet capabilities equal to or superior to ours. In recent years they have increased their research and development efforts

by about twice the amounts spent by the US when considered on a gross national product basis.

According to Lipscomb, the list of sophisticated superior Soviet weapons available to oppose our general purpose forces in the field continues to grow. An additional reason for this is that in Vietnam we have uncovered to the Soviets many of our own developments. In addition to the Communist-dominated regimes of Eastern Europe, at least 29 countries in Asia and Africa, and including Cuba, are currently reported to have Soviet-manufactured military equipment.

It is clear that Soviet arms figure heavily in most trouble spots and combat areas throughout the world. All of us want peace, but it is wishful thinking to believe that the Soviet Union has peaceful intentions when Communist Party Chief Brezhnev says, as he did recently, that the Communist Party of the Soviet Union is "waging an active struggle to strengthen the unity of the Socialist community and the world Communist movement." In that speech, Brezhnev among other things, pledged to continue to render to Vietnam the necessary aid and also said: "Our Arab friends can be assured that we will continue to render them all the necessary aid and support." So in the face of these stark realities and the apparently unchan-

ged goal of the Soviet Union to wipe freedom from the face of the earth, we cannot do less than continue US defense efforts at the highest possible level and appropriate the funds necessary to maintain US military superiority.

Rep. Glenard P. Lipscomb, ranking Republican on the Appropriations Subcommittee on Armed Services, supported Mahon's position that the cuts would not weaken our defense posture.

He also pointed out the "explosive expansion" of Russia as a maritime power. Soviet naval power now includes over 100 destroyers and about 20 cruisers and during 1967, the Soviets added a new class of guided missile cruiser and their first helicopter carrier.

State Awards Received By VFW Auxiliary

Honor roll and Voice of Democracy awards were won by the Hereford Ladies Auxiliary to the Veterans of Foreign Wars at the recent state convention, it was announced at last week's meeting in the VFW Clubhouse.

Mrs. Henry Murrell presided for the business meeting, in which plans were made to entertain the district Auxiliary president, Mrs. Yvonne Neal of Plainview, here Sept. 26. A salad supper will be served at 8 p.m. in the clubhouse, with a program afterward.

Planning also began for the district VFW and Auxiliary convention to be held here Nov. 16 and 17.

The state awards received by the Auxiliary are earned by programs fulfilling standards of excellence set by the national organization.

Uncle Sam's Selective Service

Editor's Note: Below are questions now being asked at draft boards. The answers are by Colonel Morris S. Schwartz, State Selective Service Director, 209 W. 9th Street, Austin, Texas 78701. He will welcome your questions.

Q — I have a physical defect which I think will disqualify me for service. Can I find out without having to take a pre-induction examination?

A — Possibly. When you complete your draft questionnaire, or at any other time, you may furnish a medical statement from a physician which substantiates your claim. Your local board could classify you in either I-Y or IV-F on the basis of this statement. It might want to send you to its own local medical advisor. If the board could not concur in the diagnosis of either of these physicians, it would send you for the pre-induction examination.

Q — My cousin speaks and understands very little English. He is to register with the draft board soon. Will someone be able to help him?

A — Yes. When it is necessary, the board chairman may appoint an interpreter. The board probably already has one.

Q — I'm registered in Texas and work in England. Yesterday I got a new classification and want to appeal. How much time do I have?

A — Sixty days. Look on the reverse side of the Notice of Classification (SSS Form 110) you got. It tells you that you have 60 days instead of 30 if you're located in a foreign country other than Canada, Cuba, or Mexico. Your appeal from classification from your board may be taken by filing written notice within the 60-day period after the date of mailing of your notice. This date is stamped on the notice.

The cost of sediment in our reservoirs alone is \$100 million a year. Sediment ruins recreational lakes, kills fish, costs millions in taxes for dredging and filtering, and carries other pollutants into the water. Total yearly silt pollution damage is in excess of \$346 million. — Secretary of Agriculture Orville L. Freeman

Garrison Gets Third Citation

HONOLULU — Senior Master Sergeant Richard W. Garrison, whose wife, Frances, is the daughter of Mrs. G. H. Whitaker, 223 25 Mile Ave., Hereford, has received his third award of the U. S. Air Force Commendation Medal at Hickam AFB, Hawaii.

Sergeant Garrison was decorated for meritorious achievement as a personnel systems analyst at Osan AB, Korea. He was cited for his outstanding knowledge and leadership.

He is now at Hickam in a unit of the Pacific Air Forces.

The sergeant is a 1947 graduate of Milton Hershey High School, Hershey, Pa.

His sister, Mrs. Robert C. Raub, resides at 218 High St., Glendon, Easton, Pa.

HONOLULU — Senior Master Sergeant Richard W. Garrison (right), whose wife, Frances, is the daughter of Mrs. G. H. Whitaker, 223 25 Mile Ave., Hereford, receives the U.S. Air Force Commendation Medal at Hickam AFB, Hawaii from Colonel John W. Livingston, deputy chief of staff for personnel, Headquarters, Pacific Air Forces.

Grants Set For 4-H Members

Four \$1,600 scholarships for students majoring or minoring in forestry at an accredited college will be presented to four outstanding youths who are now or have been 4-H Club members.

The grants are provided for the 12th straight year by Homelite, A Division of Textron Inc. Candidates must have completed at least three years of 4-H work, and be in their freshman year in the fall of 1968, according to the Cooperative Extension Service.

Applications are to be submitted to the State 4-H Club office. For further details, contact the state office or the county extension office.

Final judging of the applications is done by a committee of

extension personnel meeting for this purpose in Chicago early in November. Winners will be announced during the National 4-H Congress held the first week in December.

Golden Circle Officers Named

Mrs. James Brownlow, president, heads officers elected for the Golden Circle Class of Avenue Baptist Church at a meeting Monday evening in the home of Mrs. Ron Harpster. Mrs. Dale Barkley was hostess.

Other officers chosen for the coming term are Mrs. Tom Nance, vice president and program chairman; Mr. Bill West, treasurer and ministriss; Mrs. Charles Gresham, secretary-reporter; Mrs. Harpster, visitation chairman.

Strengthening Rural Economy Is To Be Goal Of Candidate Ford

Campaigning for State Representative through the 72nd District this week, Frank Ford stressed "The immediate need for strengthening our rural economy."

"All over this district," stated Ford, "There are fine young farmers being forced out of farming by high costs and low

income, new school facilities in the rural areas faced with dropping enrollment, and towns and businesses faced with the greatest challenges we have known in this generation."

"It is going to take a lot of hard work on the part of a lot of people, but I am convinced we have the desire and the ability to reverse this trend," Ford said. "There was enough grain sorghum raised in this six-county district last year to feed out over one million additional cattle. This alone could mean over six hundred new jobs, plus the jobs which would be created in servicing industries. It would create a better market for our grain, and provide enough feed cattle for two of the largest and

most modern packing facilities in the world which will be operating in this district."

"With proper water conservation, we have most potential in vegetable processing in addition to what we are doing now. In addition, there are dozens of light industries which need to be told about the benefits of locating in this area. We have people who are willing to work, and towns which are willing to grow, and I intend to work with local people in each county and the Texas Industrial Commission to help see that we realize our full potential. The cities are already over-crowded, and it is up to us to see that there are opportunities for our young people to raise their families in our own towns." Ford is the Republican candidate in the 72nd District.

More Local People Get Pension Checks

NEW YORK (Special to the Brand) — According to a recent government report, the number of Deaf Smith County residents who are receiving retirement checks each month, via Social Security, is at an all-time high.

And the amounts they are getting are larger, due to increases voted by Congress last December.

A total of 1,402 former workers and their families are now receiving such returns. They are benefiting from money that was deducted from their pay envelopes over the years and put into the Social Security trust funds for their future needs.

Most of these recipients are retired workers. The remainder are disabled workers, wives, widows, children and other dependents of these contributors.

The rapidity with which the system is expanding in the county is brought out in the current report, which covers the period ending March 1st.

It shows that the number of local residents receiving pension checks is considerably greater than it was five years ago, when the total was 897.

The increase, 56 percent, compares with a rise of 25 percent in United States and with 35 percent in the State of Texas.

Changes made from time to time in the Social Security program, extending its scope and permitting more people to qualify, account for most of this increase.

Equally impressive has been the rise in the dollar amount going to people in Deaf Smith County.

It reflects the bigger benefits provided for in the recent amendments to the Social Security Act. The records show that never, during the last two decades, has Congress failed to take such action in a presidential election year.

recipient, locally, is now \$849 per year, a big jump over the \$697 they collected five years ago.

What with more beneficiaries and bigger checks, total payments in the local area have zoomed to \$1,190,000 a year, as against the 1963 total of \$626,000.

Nationally, more than \$2 billion is being pumped back into the economy each month through these pension payments.

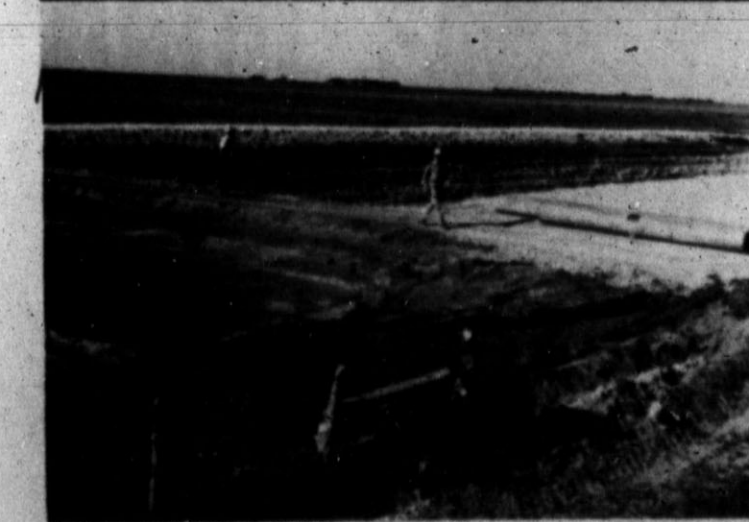

Nearly 24 million men, women and children are now on the receiving end, or about one out of every eight in the population.

Information obtained at a regional meeting held in St. Louis is on how to check the flow of rural people into urban areas will be discussed by the State Office staff. Wayne Nelson, president of the Young Farmers Association of Texas, will be a guest speaker.

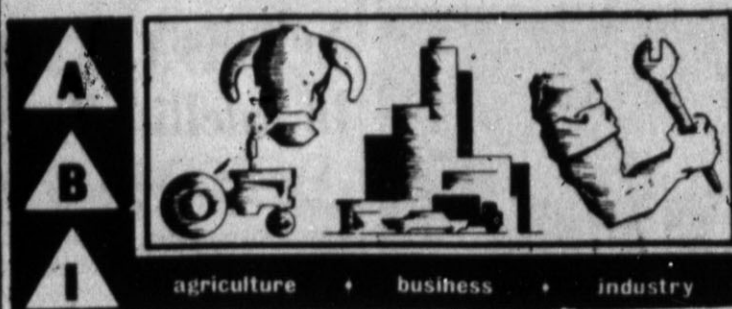

The local Farmers Home Administration office will be closed Tuesday and Wednesday due to the meeting. Those attending from Hereford will be James Goudly and Alwyn Foster.

Goudly said that through 138 county offices, the Farmers Home Administration in Texas will loan about \$130 million to rural families and communities this fiscal year.

Last year, about \$60 million was loaned for operating expenses. Over 4,100 rural Texans received loans to improve or construct homes. More than 600 farmers became land owners through the FHA Farm Ownership loan program, and nearly 250 Texas communities received FHA loans to build or expand water systems, sewer systems, recreation projects, grazing associations.

CROPS TOUR PLAN — Juston McBride, County Agricultural Agent, Wilton Green of the Deaf Smith County Soil and Conservation Service, and Hugh Clearman, chairman of the County Crops Committee, make a "dry run" of the tour that is planned for area farmers, ranchers and businessmen at the all-day tour Friday. In the top photo, McBride and Green look over a test plot while in the lower photo, McBride and Clearman inspect a tailwater pit just northwest of town. The tour will be held this Friday. See Page 1 for details.

HEREFORD, TEXAS, 79045, THURS., SEPT. 19, 1968

Food Trends Are Listed By USDA

Trends for food — the prices we pay, the total money we spend, and the amount we eat — are discussed in a report issued today by the U. S. Department of Agriculture.

What we eat is measured in the report three ways — by what it's worth, by how much it weighs, and by how much nourishment it gives.

U. S. citizens spent \$93 billion for food in 1966, up 102 percent from 1950. This increase did not match the 146-percent rise in disposable personal income from 1950 to 1966.

Consequently, expenditures for food dropped to 18 percent of disposable income in 1966, compared with 22 percent in 1950. During the same period, retail food prices rose 33 percent while the entire Consumer Price Index rose 35 percent.

Consumption of food per capita averaged almost three-quarters of a ton in 1966, as measured at the grocery check-out counter.

Reduced consumption of bulky foods such as potatoes and cereals, increased use of higher-cost but lighter weight foods, and the substitution of processed for fresh foods accounted for a decline in total weight of products consumed, according to the report.

But, the per capita Food Consumption Index, which weighs quantities eaten using constant retail prices, increased 3 percent since 1950 and 16 percent since 1960.

The average U. S. citizen in 1966 consumed over 3,100 calories a day in food, plus an estimated 90 calories a day in alcoholic beverages. This is a decline of almost 500 calories per day over the past half-century.

The decline has slowed in the past few years.

Animal Health Commission Has Big Responsibilities

COLLEGE STATION — Texans are justly proud of the state's varied geographical features and, among other things, her fine seaports and international air terminals. But these same sources of pride also are areas of concern because they pose a threat to a major Texas industry.

Heavy international traffic at harbors and air terminals, coupled with activity along 889 miles of common boundary with Mexico, means that Texas is at all times vulnerable to the introduction of exotic livestock diseases.

Standing guard to protect against losses from these hazards is the Texas Animal Health Commission, a state agency created in 1893. Known then as the Texas Livestock Sanitary Commission, its initial responsibility was the eradication of fever ticks, a job successfully accomplished.

Today, under the leadership of Dr. James B. Henderson, executive director, the Commission is responsible for control and hopefully eventual eradication of all infectious diseases of livestock and for protection of the industry against introduction of diseases from other areas.

The executive director is appointed by the Commission

whose six members represent the swine, sheep and goat, beef, dairy and poultry industries and veterinary medicine. The state is divided into 9 areas, each with a resident veterinarian who coordinates Commission activities, including work of test crews and other technicians. Many field activities are carried on in close cooperation with the Animal Health Division of the U. S. Department of Agriculture.

Success of the current screw-worm eradication program is due in no small part to support the Commission gave this cooperative effort of state and federal agencies, private organizations and individuals.

Of much concern at present is the status of several Texas counties in relation to brucellosis, a dangerous disease of both man and animal. The number of counties listed as Modified-Certified Brucellosis Free now stands at 160.

Work in 76 other counties is progressing as rapidly as availability of state and federal funds permits, but there is genuine concern for the 18 counties that have not requested help.

Proposed federal legislation has serious implications for them. For one thing, it would mean that their animals could

be sold only for slaughter, thus seriously restricting operations of operators who produce breeding and replacement stock.

Counties may enter the brucellosis program only when at least 75 percent of the producers owing at least 51 percent of the cattle request it.

Another important activity of the Commission is the inspection service maintained at marketing centers which prevents spread of disease by stopping movement of infected animals. A different inspection service is offered on farms and ranches to detect reservoirs of disease or parasites and prevent unknowing exposure through purchase of replacement stock.

With rapidly increasing interest in pork production in Texas, the Commission anticipates an accelerated effort to eliminate hog cholera, a major disease of swine. Other changes in emphasis will come as dictated by needs.

Constant application of basic principles in animal disease control will result in eventual eradication of dangerous diseases, Commission officials believe. Only through eradication, they say, can the state's billion dollar livestock industry obtain the degree of protection it deserves.

Small Talk

By SUE COLEMAN
Women's Editor

It's always comforting, somehow, to find someone else who admits to our own frailties; absent-minded as I am it made me feel much better to hear Irene Trotter, after making a promise for an evening, add, "Be sure to phone and remind me that day," then go on to say she can forget things even when she is reminded again.

WITH A MINISTER'S wife's crowded schedule, it's easy to see how she could. Without that excuse, I can too. And there's no use pleading advancing age because I've been that way all my life.

Sunday visitors in the Trotter home, by the way, were Irene's sister, Evelyn Vineyard, who came over from Plainview to speak to a church group and went by Kress and picked up their mother.

ONE STRAIN on my weak memory lately has been a broken thingamajig on the right turn signal of my car, which kept the signal from cutting itself off after the corner was turned. A new one had to be ordered so the trouble continued several days.

The "trouble" was my inability to remember to turn off the signal manually, and I kept catching myself a couple of blocks from the corner with the light still blinking.

That hurt my conscience the worse because of some very unkind thoughts I'd had about the driver of a pickup with which I almost collided lately, because his right turn signal was showing at an intersection and I expected him to turn right. He didn't but drove on up the street a few blocks and turned left, still signaling that right turn.

Poor man; maybe the pickup had a broken signal switch. But he needn't have given me one of those "blasted-woman-driver!" looks as I braked to keep

him from hitting me.

THEY'VE GONE BACK home now, but a visit from the Bill Purcell family of Hialeach, Fla., was such a happy experience for Velma Hodges that she's still bubbling over about it.

Mrs. Purcell is her daughter, Jo, and while she was here she completed a reunion of the three Hodges children.

Another daughter, Mrs. Bobby Owen, and a son, Keith Hodges of Amarillo, are in easy reach, but the daughter from Florida can't be with them so often.

There were still some missing from the family group; Velma's three older grandchildren and three great-grandchildren live in Michigan. She has 14 grandchildren in all, including the Purcells' four who were here.

That's believable, but somehow I can't place Velma as a great-grandmother; she just doesn't look like one when you see her usually in the role of the courteous and capable county treasurer.

SEEN HERE AND there downtown lately: Joan Pugh with her hair in a pigtail, looking over some party supplies for a Beta Sigma Phi social. Norma Coffey hurrying along Main Street, getting in a bit of shopping after work. Annie Springer smiling a quick greeting between maneuvers of her car into a parking spot. Joan McPherson in a smart suit of the popular-this-fall pattern, a bold black and white shepherd's plaid.

Which reminds me, one time a man whose eye for an attractive woman was quite accurate, told me a woman who wants men to really see her shouldn't choose a red dress, but one in stark black and white. That always is noticed, he said. Isn't it nice it's a stylish combination this fall?

SCHOLARSHIP GIVEN — Miss Cynthia Hanna receives a check from Mrs. Richard Golden, left, president of Dawn Home Demonstration Club which is giving for the first time a \$100 cash scholarship which members plan to make an annual award to a Hereford High School graduate who is to major in home economics at college and consider a career in Home Demonstration work. Dawn Club women earn funds for the scholarship by serving dinners to Dawn Lions Club. Miss Hanna is the daughter of the Grant Hannas; her mother looks on as the check is presented.

Palo Duro Trip Begins Garden Club's Season

A trip to Palo Duro Canyon and to commercial greenhouses in the city of Canyon opened a new year for Hereford Garden Club Friday, when members met at Community Center and went together on the tour.

Wildflowers and rock formations in the canyon were studied, and in the Irwin greenhouses attention was given to care of potted plants. Mrs. Luther Norvell was leader of the study.

Yearbook committee members were hostesses. In addition to Mrs. Norvell they are Mmes. J. V. Pickens, G. W. Newsum and Ben Childers. Picnic lunches were served in a pleasantly shady dining area in the canyon.

The National Zoo in Washington is starting a three-year study of Ceylon's primates — three monkeys and a lorix, a "half-monkey" that creeps through the trees in slow motion.

Mrs. D. K. Brook's mother,

Volunteer Teacher-Aides Needed In Satellite Day Care Program

A number of volunteers are needed for the Satellite Day Care Program now, according to Mrs. Nedra Higginbotham, the local Volunteer Coordinator.

2 Painters Show Work During Tea

Results of a summer "painting spree" were shown, with some former work, to a group of friends whom Mrs. Henry F. Neely and her niece, Miss Marie Roberson, invited to a Sunday afternoon tea in Mrs. Neely's home.

The two, who have worked together this summer in painting sessions, hung a varied collection of their work including early pieces they did as students and a number of pictures now owned by family members or friends but loaned for the exhibit.

Callers were served punch and cookies by Mrs. Glenn Roberson, mother of the younger painter and sister of Mrs. Neely. Mrs. George Jowell and Mrs. Richard Jowell assisted in serving and registering guests. Pink roses decorated the refreshment table and registry desk.

Guests were invited to wander through the house and view the pictures hung in all the rooms, while they enjoyed informal conversation for an hour.

Nursing School Enrollment Up

Enrollment in the nursing program at Northwest Texas Hospital School of Nursing is up 40 percent over last year.

Mrs. Marilyn Dyer, director of nursing education, said 302 students were enrolled as of Sept. 9, as compared to September 1967 when 215 were enrolled. There are 146 first year students, 77 juniors and 79 seniors. Thirteen men students are currently enrolled, an increase of 45 percent.

please telephone her. She would like to discuss the program with them in an effort to solicit their cooperation in the volunteer program.

Mrs. Higginbotham also reported that, due to a prior commitment, she may have to be out of town for a few days. If she cannot be contacted at her home, please call 364-1584 and leave your name. She will contact such callers upon her return.

Dr. Clyde Rush Seminar Speaker

Dr. Clyde Rush of Hereford will speak on "General Hospital versus Sanatorium Care of the Tuberculous" in Amarillo on Sept. 27.

His talk will be part of a general program on TB and emphysema, presented in seminar, for the registered nurses and others interested in these disease problems in the Panhandle area.

The seminar will be held at the Polk Street Methodist Church. Approximately 200 nurses from the Panhandle region are expected at the meeting.

Several thousand different varieties of wheat are grown around the world.

Dinner Given To Welcome Pastor At St. Anthony's

Parishioners of St. Anthony's Catholic Church welcomed their new pastor, the Rev. Simeon Heine, S. A., at an old-fashioned basket dinner at noon Sunday in the parish school.

Each family contributed to the variety of food which was spread together in the cafeteria dining room. Time for visiting afterward permitted the church members to become acquainted with the man who recently came here to head the parish clergy.

Rev. Heine came from New York, where he has been a vicar of the Graymoor Friars. His family resides in New York City.

Atlantic City, largest of New Jersey's resorts, plays host to 16 million visitors a year, including vacationers and those who attend the numerous conventions held there.

The new city of Brasilia replaced Rio de Janeiro as the capital of Brazil in 1960.

You say people are afraid to get involved?

...not everyone.

Many telephone people have made it their business to get involved in other people's problems. They've saved hundreds of lives in the process, often risking their own safety.

Over the years, 240 Southwestern Bell employees have been awarded the Vail Medal, an award recognizing acts which exemplify the company's highest traditions of service.

Among our Vail Medal winners are employees who... pulled a mother and her son from the rushing waters of a turbulent river... carried a baby from a blazing trailer home... dragged a man and woman from a burning car.

The list goes on and on.

And we're proud of them all. They're the kind of people you can count on to get involved.

Southwestern Bell

Announcing your next car:

It can surround you with a fuselage. A sweeping new design where body and frame are one.

Three Hundred 2-Door Hardtop

The great new Chrysler.

Your next car can be a gently curving line of tempered glass and steel that sweeps quietly around you. A molded shell of stressed skin and thousands of miniature welds.

Your next car can have a cockpit. Instead of just a seat and a dashboard.

Your next car can provide a controlled environment where

man creates his own climate and the perimeter of the cockpit blots away the murmur of road and wind.

Your next car can cater with soft seats fitted to the contours of your body, and memory systems that complement your driving habits.

Your next car is 15 choices, but only one shape.

Your next car is one you can still move up to. Easily. Your next car is here. The great new Chrysler for 1969.

CHRYSLER

See it at your Chrysler Dealer's Sept. 19th.

Hereford, Texas

WT Student Couple Wed Recently

Mr. and Mrs. J. Hilton Henderson, both junior students at West Texas State University, are at home in the Patio Apartments at Canyon after their recent marriage in Tenth Street Church of Christ, Friona, and a short trip to New Mexico.

Mrs. J. Hilton Henderson nee Patricia Gay Wyly (Angel photo)

She is the former Miss Patricia Gay Wyly, daughter of Mr. and Mrs. James A. Wyly, Route 3, Friona. His parents are Mr. and Mrs. Jim Henderson, 702 Irving, Leland H. Hitson, Friona minister, conducted the marriage ceremony.

Miss Debra Wyly attended her sister as maid of honor and Stephen Moore of Plainview was his cousin's best man. Misses Donna Patterson, Eileene Henderson and Crista Evans were bridesmaids; Danny Moore of Plainview, Donny and Danny Carthel the groomsmen.

Guests were seated by Clyde Wyly, Galen Jack of Hereford, Ira Purdy of Fort Worth, Gary Pope and Gerall Wyly. Robin Wyly was the flower girl, Kirk Pope ring bearer, Criss Wyly and Kent Marshall of Tulia candlelighters.

Miss Janice Burgess and Retha Pope; Smith Pope and Lee Pope sang the wedding songs.

The bride, who carried the Bible which her mother carried in her own wedding, was dressed in white satin with lace applique embroidered in seed pearls. A chapel train was attached at the back neckline.

Her waistlength veil was held by a coronet of seed pearls. Her bouquet was a white orchid with white streamers. Attendants wore street length crepe dress two in gold color and two in pale yellow, with headpieces and single carnations to match.

A reception in the school cafeteria followed the ceremony, with table decorations in white and yellow.

Mrs. Henderson was graduated from Friona High School and Mr. Henderson from Hereford schools. He is employed in Amarillo.

Miss Hamilton Shower Honoree

Miss Joellen Hamilton, whose marriage to Wayne Hamilton of Sacramento, Calif., student at West Texas State University, is planned for Oct. 18, was honoree at an afternoon tea and shower Saturday in the home of Mrs. Charlie Burk, west of Hereford.

Mrs. John Hill and Mrs. Jack Weaver were hostesses with Mrs. Burk to friends of the bride-elect and her family in that part of Deaf Smith County.

Art Guild's Supper Set

Hereford Art Guild members will each bring a painting for evaluation by a guest, Olive Bugbee of West Texas State University, to their first meeting of a new season Tuesday evening.

A salad supper will be served at 7 p. m. in Community Center as members reassemble after the summer vacation period.

Members of the guild are from Friona High School and Mr. Henderson from Hereford schools. He is employed in Amarillo.

Autumn garden flowers, stressing shades of yellow, decorated the Burk home.

Miss Hamilton greeted callers with her mother, Mrs. Joe Hamilton. Miss Mary Ruth Weaver was at the guest book.

Misses Charlene and Mary Ruth Weaver served punch, coffee, and cakes decorated in white and yellow. Gift packages were presented to the honoree by Misses Mary Alice and Frances Burrus and Charlene Weaver, then opened and the gifts displayed.

Guests included Mmes. Roy Pruitt, W. W. Gilbreath, Herschel Burrus, Paul Rudd, J. V. Perrin, G. V. Hall and C. P. Douglas and Miss Teresa Rudd.

Mrs. Thompson At TFMC Meet

Mrs. A. O. Thompson, a member of the board of Texas Federation of Music Clubs, went to Killeen the first of this week for a board meeting.

A member of Music Study Club here, Mrs. Thompson is at present state chairman of choral music in the Texas Federation.

Coronation Held At First Baptist

Coronation Service of the Girls' Auxiliary was held Sunday night at the First Baptist Church in Hereford. The Queen-With-Scepter was Carolia Scott. Queens were Denise Strange and Barbara Owen.

The theme of the program was "His Saving Grace Proclaim."

Prelude was by Mrs. James Alston on the organ. The candlelight service was conducted by TeriBeth Line and Kaylanette Battenfield. "Coronation: A GA Definition" by Jane Hillman was delivered by Mrs. Harvey Penner.

Prayer was delivered by Mrs. W. R. Hair, WMU president.

"The Light of the World is Jesus" was sung by the Spiritual Swingers, which included Rosi Rogers, Janice Newsom, Donna Coker, Janet Frye, Vickie Kendall, Janene Suttle, Sherry White and Sammie Vinson, who also sang "Amazing Grace."

Following the processional, the Coronation Service was conducted by Mrs. Gwynne Owen, presiding officer. Rev. Gerald Mann, pastor of the church, gave the Challenge and Benediction.

Maidens in the Girls' Auxiliary were Beverly Beene, Teresa Rhoton, Beverly Phillips, Becky Oglesby, Karen Kitchens, Donna Kendall and Linda Alston.

Lady-In-Waiting: Monica Herring, Libby Parten, Brenda Owen, Beverly Willis, Cindy Parten and Vicki Payne.

Princess was Denise Strange. Janene Suttle was Queen Regent.

GA Counselors are: Intermediate, Mrs. Penner and Mrs. Ken Rogers; Junior 2, Mrs. Ray Don King and Mrs. W. H. Willis and Junior 1, Mrs. Ray Frye and Mrs. Roy Parten.

The GA ushers were Rhea Ann Wesson, Shyla Thomas, Susan Wartes, Vickie Keenan, Lisa Martin and Sherry Janssen. GA's serving at the reception which followed the service in the church fellowship hall were Kim Wilson, Anne Frye, Melinda Bradley, Gay Womble, Gaye Wesson, Susan Janssen, Laura Jenson, Beverly Auten, Brenda Formby, Donna Digby, Valeri Chisholm and Nellie Cochrum.

Methodists To Have Speakers

Faculty and staff members from McMurry College in Abilene will appear in 29 Methodist Churches of the Amarillo District in September and October as a part of McMurry's current \$3.5 million Golden Anniversary Fund campaign.

On Sept. 29, Wilford Moore, director of admissions counseling, will speak at the Wesley Methodist Church in Hereford.

On that same Sunday, Russell Meier, assistant professor of sociology, will speak at Adrian.

On Oct. 13, Dr. Porter J. Crow, the new dean at McMurry, will speak at the First Methodist Church in Hereford.

Moore, who is married and the father of four children, graduated from Littlefield High School and received his BS and MEd at Harden-Simmons University. During World War II, he served in the USAF. Since then, he has been head coach at McMurry, its athletic director, head coach at Lubbock High, head coach and athletic director at Port Neches-Groves, same positions at Cleburne High, and divisional manager for Waddell and Reed Inc. in Abilene.

CLUB TO MEET

North Hereford Home Demonstration Club will meet in the home of Mrs. A. A. Hair, 600 Plains, at 2:30 p.m. today.

For God So Loved The World

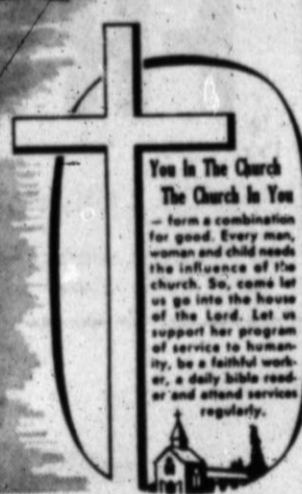

fundamental belief in God

Dreamed of by millions, searched for by many, discovered by a few: Established, built, maintained and governed by a Fundamental Belief in God; That is America — these United States, our home, if you please, it is you and me. How else could the heritage we hold come to be? A system? Not so! But surely it is a dedicated, consecrated way of life as set forth in the Sermon on the Mount. *And through the grief and misery suffered at Valley Forge, shines the same light which has illuminated men's minds since time began.* That same light, the light of Faith found in the holy word of God, is now lighting and showing the way, the way of truth to us as a nation and as individuals. And just so long as we, each of us each day, rededicate our lives to a Fundamental Belief in God can we endure.

Then, let us worship in the true Faith of Our Fathers in the sanctuary of our choosing every week. A-Men.

Praline Wafers
... perfect to serve with iced or hot drinks

LET'S COOK SOMETHING!

Wafers Are Real Treats

By CECILY BROWNSTONE
Associated Press Food Editor

Some of the most satisfactory sweets a cook can bake are those that belong to the wafer family of cookies.

Thin, crisp and full of flavor, these goodies look so professional and taste so good.

But some of these wafers used to cause problems: they were hard to remove from the baking pans. Good news: now that we have aluminum foil with us, they're easy to turn out.

In the following recipe for Praline Wafers, cookie sheets are covered with foil and the batter is dropped onto the foil. Then when the cookies come out of the oven, they are allowed to stand for five to seven minutes and finally the foil is peeled off. We use that word "peeled" advisedly; you really do use just that motion in removing the foil.

Praline Wafers have no nuts in their batter. Instead, each

portion of batter is topped with pecans. Each cookie gets two or three pecan halves, depending on how many nuts are on hand. Serve the Praline wafers with cold or hot beverages — they're delicious with both varieties. They're good, too, with a custard or fruit dessert.

PRALINE WAFERS

2 medium or large eggs
One-third cup granulated sugar
1/4 cup firmly packed light brown sugar

1/4 cup sifted regular flour
1/4 teaspoon salt
1 can (6 ounces) pecan halves (1 1/2 cups, generous)

Cover a couple of large cookie sheets (15 by 12 inch size) with aluminum foil — it doesn't matter whether foil is shiny or dull side up.

Using an electric mixer, beat eggs until foamy; add sugars. Beat at high speed until thick and a pale fawn color. Beat in corn syrup and vanilla until blended. Add flour and salt; with a rubber spatula, stir until smooth.

Drop level tablespoons of batter, several inches apart, on prepared sheets — no more than 9 to a sheet with maximum space between; top each with 2 or 3 pecan halves.

Bake in preheated 375-degree

oven until browned. — about 10 minutes. Remove from oven. Transfer wafers on foil sheets to flat surface (so cookie sheets may be reused at once); cool wafers 5 to 7 minutes, then peel off foil. (If foil does not peel off easily, wafers were not baked enough.) Underside of wafers will look beautifully shiny and smooth. Store in a tightly covered tin box.

Makes 4 to 5 dozen.

Note: Use fresh uncrinkled sheets of foil for baking each batch of cookies.

Guild Asks Guests To Autumn Tea

A re-assembly tea after the summer vacation was held by Wesleyan Service Guild of First United Methodist Church Sunday afternoon, with prospective members as guests.

Mrs. Evelyn Vineyard of Plainview, Guild secretary for Northwest Texas, was guest speaker in Ward Parlor at the church.

She spoke of changes in Guild by-laws resulting from the recent merger of Methodist and United Brethren Churches, and explained to guests that the Guild is the organization in the Methodist Church for employed women.

Mrs. M. H. Richie, president, welcomed guests and introduced Mrs. Vineyard. The first regular fall meeting was set for Wednesday evening in the home of Mrs. Clifford Trotter; study courses are to be decided and a hostess schedule made then. Mrs. Jim Bookout, Mrs. L. W. Metcalf and Mrs. J. J. Durham served lime punch and cookies at a table decorated with roses in varied shades of pink.

The old Chinese "doctrine of signatures" holds that a specific plant remedy exists for every ailment. The shape, color, taste or other characteristic of the plant indicates its specific value.

The people of the Netherlands are raising the largest and most complex system of flood-control dams and sluices in their history.

Community Calendar

The Community Calendar, which includes major events which will be of interest to Hereford and residents of the immediate area, will run in each issue of the Brand. The calendar will include events for the coming six months, and all individuals and organizations are urged to write or mail their event for inclusion.

September
14-21—Annual membership week for Hereford Community Concerts.

20—Deaf Smith County Crops and Conservation Committee will host all-day tour and barbecue at Bull Barn.

21—Local NFO (National Farmer Organization) Chapter will host an area-wide meeting at the Bull Barn.

22—Dedication ceremonies and open house at the new Camp Fire Girls' Lodge.

October
4—Tour of Homes sponsored by Garden Beautiful Club.

5—Hearing on proposed legislation authorizing the formation of a master water import district by the House Interim Water Study Committee of the Texas Legislature. At the Bull Barn.

8—"Howdy" stop at the Hereford Municipal Airport by the "Texas Air" Tour.

11—Fall Flower Show of Bud To

Blossom Garden Club, at Community Center.

November
3—Carnival sponsored by P.T.O. at St. Anthony's Parish School.

5—General election.
7—Annual Lions Club Fish Fry.

21—Tasting luncheon to benefit scholarship fund, sponsored by L'Allegria Club at County Bull Barn.

25—District conference of Methodist Churches at the First Methodist Church.

27—Schools dismiss for Thanksgiving holidays.

December
2—Classes resume following Thanksgiving.

12—Lions Club Christmas party and Ladies Night.
20—Schools dismiss for Christmas holidays.

January
2—Classes resume.

February
23—Community Concerts present Norman Luboff Choir in concert at high school auditorium.

Channel 7 To Get High Tower The tallest man-made structure in Texas, a new 1,829-foot tower for KVII-TV will soon give viewers here substantially better television reception than they are presently getting from any Amarillo station. Construction of the new facility will begin immediately and is scheduled for completion in mid-January, John Tyler, KVII manager said in making the announcement. More than three times as tall as the tallest building in Dallas, the new tower will extend up to a height almost a mile above sea level. In addition to improving the television signal in all areas, Tyler explained, the giant steel tower will double KVIT's effective viewing area. The new tower will also improve reception for viewers receiving KVII-TV by cable. General Electric, prime contractor, will erect the new tower at a site 12 miles north of Amarillo. The structure was designed by Dresser-Ideco of Columbus, Ohio, who have designed and prefabricated many of the tallest towers in the world. The proposed KVII-TV tower will contain more than 185 tons of steel, 31,000 feet of guy cables and about 2 1/2 miles of elec-

trical wiring. Two and one-half tons of zinc will be required to galvanize the structure.

Adrian News

By ANN BEAVERS Brand Correspondent

The Adrian Livestock Show sponsored by the Adrian Lions Club was held Friday at the Ag. Barn. The judges were Dr. Charles Smallwood and a senior livestock judging team from WTSU. Winning in the Light Steer Contest was: 1st - Joel Brownlee; 2nd - Bobby Harwood; 3rd-Vickie Lloyd; 4th-Chris Bruns; 5th-Dude Speed; 6th-Kurt Garrison; 7th-Billy Lloyd; 8th-Pat Moore; 9th - Kim Garrison, and 10th-Ernie Wood, Betty Whitten, Jim Bob Perrin and Jan Cavin.

Adrian Man Visits After Korean Duty Spec. 4 Clayton Thompson, 22 whose honesty won the hearts of Panhandle residents when he was a teen-ager, is visiting relatives in Amarillo and Adrian after 13 months duty in Korea. A member of the U. S. Military Police, Thompson will return Sept. 19 for three more months duty in Panmunjom, the "Joint security area" between North and South Korea, where talks are taking place about the Pueblo.

His wife, Ina Sue, their children, Stacy Marie, 3, and Clayton Jr. 10 months, are living with her parents, Mr. and Mrs. M. A. Ferguson, in Adrian. His grandmother Mrs. Maggie Russell, lives in Amarillo. When he was 16, Thompson dropped out of Amarillo High School and began working on a farm near A-

Sales training course... 51 finish.

51 Complete Sales Course

Fifty-one persons, 24 of them members of the Distributive Education class at Hereford High School, finished the retail sales course held last week.

Called "Sales Sharpeners," the course was made possible through the Distributive Education Program of the University of Texas and the Texas Education Agency. It was presented by Mary Frances Bowden, sales management training specialist from the University, in two and a half hour sessions Monday through Thursday.

Local businessmen and women taking the course included: Ronald Bridges, Teresa McFaul, Lea Smith, Cherry Sherriell, Evagene Tatom, Dallas Phillips, George Masso, Emilio Fuentes, Weldon Dickson, Wayne Phillips.

Students completing the course include Joe Wade, Brenda Alger, David Treadwell, Joe Gorden, Donna Ann Perry, Dorman Stowers, Rickey Barnett, John Goodwin, Patsy Daniels, Rhoni Ragsdale, James Driskill, Lindell Fisher, Deborah Boardman, Jamie Edmonson, Carmen Castaneda, Simona Garcia, Augie Tijrerna, Carmen Rodriguez, Theresa Lemus, Tyesina Flector, Angel Gomez, Sony Peralles, Fred Tijerina and Henry Lafuente.

Details Set On TB Workshop

Charles McIntosh, executive director of Top Of Texas Tuberculosis, TB casefinding, notified the schedule for the nurses workshop to be held on Friday, Sept. 27 at 9:30 a. m.

McIntosh said that all RN and professional nursing students of the Panhandle area, including others who have an interest in tuberculosis, TB casefinding and an emphysema, are invited to attend.

It will be held at the Polk Street Methodist Church social hall, 1401 S. Polk in Amarillo. Speakers will be Dr. Rodger Smyth, Austin; Miss Sue Barfoot, Texas State Department of Health; and Dr. Loyde Hudson of Amarillo.

Easter News

By RUBY STONE
Brand Correspondent

Calvin Stovall is in the High Plains Baptist Hospital in Amarillo after suffering an accident on the farm. A tractor wheel fell on him. The extent of his injuries was not known.

Mr. and Mrs. B. F. Brown, Charles C. and Gail of Los

Cruces, New Mexico, spent the weekend in the Fred Walton home. Mrs. Brown and Mrs. Walton are sisters.

Sharon Garrison, daughter of Mr. and Mrs. Shirley Garrison has returned to McMurry College in Abilene, where she will be a sophomore this year.

Dr. and Mrs. G. G. Downing from Lawton, Oklahoma, visited Mr. and Mrs. Trent Downing and children, Laura and Amy.

Mrs. Trent Downing, Laura and Amy Downing and Mrs. W. A. Epperson were in Amarillo

Saturday. They took Mrs. Downing's mother, Mrs. Roland Laws to the airport for her return to her home in Louisiana. Mrs. Laws has spent nearly four weeks helping with the new granddaughter, Amy Downing.

Mrs. R. B. Medley and Kellie Howell visited with Mr. and Mrs. W. A. Epperson Wednesday morning.

Mrs. W. A. Epperson and Mrs. Ruby Stone visited Wednesday afternoon with Mrs. J. H. Flood and Addie Miner in Hereford.

Easter Ladies Club met Thursday the 12th for their first fall

meeting in the home of Mrs. Shirley Garrison. 4 members and the hostess. Most of the meeting was taken up with discussions and plans. Mrs. W. A. Epperson, the vice president, presided. Those present were Mrs. J. H. Burnett, Mrs. Fred Walton, Mrs. W. A. Epperson, Mrs. Ruby Stone, and the hostess.

Denise Stone returned home from Dallas where she attended school at Elkins Electronic school. While in Dallas, Denise stayed with Mrs. Givins and Mary Beth.

READ THE WANT-ADS.

Some Families May See Film Free Of Charge

Families with Deaf Smith County servicemen and women in Vietnam are again offered free admission to see "The Green Berets," the first large-scale motion picture with a Vietnam war background.

It is the same offer for those families who missed it earlier at the Star Theatre downtown. This time it will be showing at the Tower Drive-In Theatre on West Highway 60, with no cost to

qualifying families.

To qualify for free admission, parents of Deaf Smith County Service personnel who are being shipped to Vietnam (now with definite orders), who are now stationed in the Vietnam war zone, and who have had previous experience there — but did not receive an invitation previously to see the picture free downtown in July — are asked to mail their name and address (along with the name of the service kin) to: "The Green Berets," P.O. Box 673, Hereford, Texas 79045.

Wives of such servicemen are also included, as are all children of the parents under age

18.

However, only those requests mailed to the above address will be honored. Invitations will not be available at the theatres or at the Hereford Brand office on a personal basis. All requests must be received through the mail. Enough time should be allowed for remailing prior to Sept. 27, 28 and 29, the three nights the picture is to be shown at the Tower.

This offer is jointly sponsored by the Hereford Brand and Francis Hardwick, manager of the local theatres. It is done simply to revitalize and maintain an interest in the U. S. serviceman — who is fighting

the most unpopular war in history.

The box turtle of North America is able to support a weight 200 times its own. In Spain such a feat would mean supporting the weight of two large elephants.

SAFEWAY RAIN CHECKS INSURE SPECIALS!

Sometimes an extra heavy demand will exhaust our supply of a special. If this happens, just ask our checkout clerk for a rain check (oversold certificate). It guarantees you the items at the sale price as soon as new supplies come in.
