## Commentator Says Psychology Can Drive Cattle Market Upward

BY JIM STEIERT **Brand Farm Editor** 

"There's not a problem in the world that's important, it's the solutions that

THAT'S WHAT local cattlemen heard Eddie Collins, radio commentator and agricultural journalist from Red Oak Iowa say concerning the depressed cattle market during a session at the Hereford Community Center Tuesday night.

Collins was in Hereford to drum up support for his radio program, which he contends can help drive up the price of cattle, and also spoke on behalf of a

consumer education project in New York. 'Our problem in the cattle industry isn't covotes or brand laws or rustling. but unethical individuals shooting down the cattleman in the futures market. I know of three packers who are engaged in

futures market at this time and pocketing money for their actions." said Collins.

Speaking on behalf of his radio program, Collins stated, "We can raise the cattle market at any time, we simply have to prepare a little and put the bug in a few ears. The market will be up the day we go back on the air. I can't understand why it isn't doing something, it is so sick. We know for certain that it hasn't gone up at any time we've been off the air.'

ACCORDING TO supporters of Collins' program, the airing of his radio comments has coincided with rises in the cattle market on three different occasions, and drops have accompanied periods when the program went off the

Collins feels that the entire cattle market hinges on the attitude of individuals

"Never in my mind has there been a surplus of beef in this country. It is simply individuals saying there is a surplus which causes the market to drop. If you can just change the psychology of the people in the market, the market will change," Collins contends.

The lowa commentator also proposed better merchandising and public relations

"THERE IS NO reason in the world American cattlemen should be sitting with a quality product such as grain-fed beef on their hands and have to defend it on television, in court, and everywhere

else. Today, lean import beef is worth more than choice American beef, simply because we are a hamburger generation. Let's talk steaks and roasts instead of hamburger. Why can't a person be as sophisticated when ordering a steak as he can when ordering wine," Collins

He pointed out that the beef industry could derive considerable benefits from sending young ambassadors to New York, Washington, and other major cities in the country, and outlined a program which would give \$1,000 scholarships to young men and women who served as beef ambassadors.

"Young people could help put some happiness back in the beef industry, tell its story, and push the product. Boy, if you ever convinced people that beef is an aphrodisiac, you could never raise

enough," he laughed. Collins expressed hopes for eventually setting up a 30 minute television program with expert interrogators to defend farming and the cattle industry and investigate their problems. He explained that the program would be fashioned along the lines of the TV news program '60 Minutes.

With pictures, cattlemen could go places and get things done," he opined.

AUSTIN (AP) - Gov. Dolph Briscoe says Texas not only can get by without new taxes the next two years but he thinks it could be done again in 1979.

Briscoe, who is expected to announce for a third term soon after the end of this legislative session, said he also thought a repeal of state sales taxes on utility bills was in order.

Opponents to the \$528 million highway financing bill which passed the Senate Monday claimed that a \$100 million amendent added to repair winter-damaged highways would wipe out chances of the tax repeal.

Furthermore, Briscoe said, if the legislature would adopt his entire legislative program there not only would be money for the \$258 million tax repeal but there also would be \$80 to \$90 million "carryover" or balance for future legislatures.

Briscoe was asked if he would sign a refinery tax if it passed both houses. "It's not going to pass and I'm not

going to sign it." he said quickly. We are going to live within our financial resources this session. There

will be no new taxes." ·He thinks the House school financing bill to be debated April 12 is "a step in

## Cattle Prices May Be Highest This Fall

WASHINGTON (AP) - Market prices of grain-fed cattle may rise to their highest levels in almost two years by this fall, according to Agriculture Department livestock

The department said Tuesday that in the third quarter of this year prices for choice-grade steers on the Omaha, Neb., market are forecast to market \$42 to \$44 per 100 pounds, up from \$39 to \$41 now expected during the April-June quarter. That would put prices next fall at their highest average since the fourth quarter of

Hog prices were projected to average \$39 to \$41 per hundred weight in the third quarter, up from \$35 to \$37 this spring. However, hog prices still will be less than they were during most of last year.

## **Tenderized** Meat Safe

COLLEGE STATION -- All meat tenderizers have been cleared for use in foods, after lengthy animal toxicity studies and clinical testing by the U.S. Department of Agriculture and the Food and Drug Administration, Mary Sweeten, foods and nutrition specialist, says.

"Meat tenderizers are enzvme preparations from plant, bacteria or fungus which break down the muscle fibers. The tenderizers, of which papaya is one source, work best in a midly acid medium, but are destroyed at cooking temperatures.

"In the strong acid content of the stomach, the remaining enzyme from the tenderizer would be destroyed, and there is no evidence that these tenderizers remain in the intestine," she explained.

People have never had problems eating the natural enzyme which is also found in figs, pineapple and papayas, the specialist with the Texas Agricultural Extension Service, The Texas A&M University System, pointed out.

"One method of tenderizing is by mechanical treatment to cut or break connective tissues and muscle fibers. Before sale, thin steaks such as sirloin tip or round steak, may be put through a machine that scores the surface. The meat is then sold as cube steak, 'minute' steak or 'sandwich' steak. At home, round and flank steak can be made more tender by pounding them with a mallet or edge of plate.

"The other method of tenderizing meat is by treatment with liquid of powdered tenderizers. Meat is frequently treated with liquid tenderizer before sale. The tenderizer may be injected into the vascular system of the animal before slaughter and sold under a trade name. Or powdered meat tenderizers may be used at home," she said.

## Hereford Wins Opener; Bulldogs Return Favor

**Brand Sports Editor** 

The Hereford Whitefaces opened the District 4-4A baseball race with a come from behind 6-5 victory over Plainview Tuesday afternoon, but the Bulldogs evened the score with a 3-0 win in the nightcap behind a no-hit effort by hurler Larry Womble.

Womble gave the Bulldogs the split in a 12-strikeout, no walk effort in the day's second game, with the 'Faces managing but one baserunner. Herd pitcher Roy Martinez wound up on second in the initial inning after Plainview left fielder Bill Westbrook dropped his pop fly.

Martinez then raced to third on a wild pitch by Womble, but the Plainview right hander struck out Herd designated hitter Chris Hill to halt the threat

In the opener the Whitefaces had to rally for five runs in the final two innings to post the one-run win. The Bulldogs broke a 1-1 tie in the fifth with four runs on three hits and two Herd errors as Hereford starter Hill struggled a little.

Hereford third sacker Jim Lawson started a sixth-inning

and after Martinez grounded out to third, walks to Mitch Guinn and Kent Herring were followed by run-scoring singles by Hill and Kevin Bunch as the Herd knotted the score at 5-5.

Hereford scored the winning tally in the bottom of the seventh after Paul Garcia reaped a base on balls. Lawson followed the free pass with a double to left, and Garcia ended the game by scoring in Martinez' sacrifice fly to the same field

Hill took the win for the Herd to move his record to 4-3 on the year and 1-0 in the district. Plainview reliever Jackie Edwards absorbed the loss to see his record drop to 1-3 and 0-1 respectively.

Lawson led the Hereford hitting attack with a single and a double in three trips, while Martinez, Hill and Bunch each collected a pair of RBIs.

The Whitefaces' dream of a sweep of the preseason district favorites was swept out of the park by a masterful performance by the 'Dogs' Womble in the nightcap.

Plainview got to Herd hurler Martinez for single tallies in the second, fifth, and sixth innings rally by reaching on an error, enroute to the victory as

## Upstarts Challenge Veterans At Masters

By TOM BRETTINGEN **AP Sports Writer** 

AUGUSTA, Ga. (AP) - Pro golf's "establishment" expects to put the tour's young lions in their place at the Masters. But one of those upstarts. Bruce Lietzke, doesn't think the tradition or treachery of the Augusta National Golf Course will knock him out of contention.

The theme of this 41st Masters, which gets under way Thursday, is the rivalry between the tour-tested veterans and the obscure but talented youngsters who have dominated this year's

Jack' Nicklaus, the only five-time winner here and favored as always, is one of the veterans who gives a first-year entrant little chance of winning. In full agreement are Ray Floyd, the defending champion, and Tom Weiskopf, the perennial

They speak vaguely of the mystique that surrounds the Masters, started in 1934 by the legendary Bobby Jones as a get-together for his friends and now the first of each season's Big Four golf tournaments. And they speak pointedly of the dangers imposed by hilly. 7,030-yard Augusta National particularly the fast, roller-coaster greens and the four testing holes know as "Amen Corner" Nos. 10-13.

"There's just more of the young players this year, that's all," said Nicklaus, seeming to shrug them off as he prepared for the event the calls "the start of the season for me."

"That long shot just ain'tgoing to get bome here," said Floyd, who ran away from the field with a 17-under-par effort last year.

"A first-year person can't win at Augusta." said Weiskopf. who has finished second here four times. "The kids who have never played this tournament in competition don't know when to shoot at the pin and when not

Lietzke is listening to all of this, but he's not ready to fold

"If you say a first-year guy is unlikely to win, that's well put. But if you say he can't win. I'd disagree," Lietzke said during a practice round in windy. 55-degree weather Tuesday.

"The odds are against a player who hasn't played the course in competition. It's a learning process, knowing not to go for certain pins. I'll learn from my mistakes, probably: hopefully, I'll limit them to a

A second-year tour member who's already won two events and \$128,830 this year, Lietzke is only one of the horde of young players hoping to accomplish at the Masters what they've done time and again this season.

Ten of the top 14 money-winners this year are in their 20s. Danny Edwards, Tom Purtzer, Gary Koch, Andy Bean and Lietzke are all first-time winners.

They'll all be keeping an eye on Nicklaus, of course, but the field of 77 contains plenty of other potential winners.

Hale Irwin, Hubert Green, Ben Crenshaw and Al Geiberger are other top American challengers. Leading the foreign contingent are two-time winner Gary Player of South Africa and Australians David Graham and Graham Marsh.

And then there are the three oung question marks -- Johnny filler, Tom Watson and Jerry

## House Sends Governor Bill To Appropriate Funds For Highways

AUSTIN (AP) - The legislature today sent Gov. Dolph Briscoe a bill increasing funds for highway construction and repair by \$528 million over the next two years - less than he wanted, but an amount he will

The House also planned final votes on bills raising penalties for prostitution, expanding the definition of pimping and giving the state banking commissioner power to block 'rent a bank" schemes.

Briscoe already had sent word he would sign the highway bill, which guaranatees steady increases in funds as inflation raises the cost of laying asphalt, filling potholes and building bridges.

Rep. Jim Nugent. D-Kerrvi-He, sponsor of the measure, won a 116-22 vote to accept the Senate's rewrite of the considerable larger bill that had

passed the House early in the

Before the highway bill can be signed by the governor, Comptroller Bob Bullock must certify that funds are available -as they are. This is the first major spending bill to clear the legislature and will reach Bullock long before the general appropriation bill and public school finance measures.

Senators totally revised the highway money bill after the House sent over its \$674 million version, which earmarked revenue from sales taxes on motors vehicles, lubricants, auto parts and accessories for roadbuilding.

The measure now gives highways an early draw on the omnibus tax clearance fund,. ranking them with such other priority items as the Foundation maximum penalities would protective gear.

School Program and welfare. Steady increases would be guaranteed, tied to rises in the cost of highway construction.

Briscoe had wanted an \$825 million program, with earmarked revenues such as the House approved, but he said Tuesday the Senate version was "sound legislation" that he would sign.

The banking bill is one that Briscoe recommended to the legislature following a failure of two South Texas banks.

It would give the banking commissioner new authority to review and prevent acquitions of 25 per cent or more of a bank's voting stock.

Persons who plan such stock purchases would have to disclose their financial condition and the source of their funds. Under the prositution bill,

increase from \$250 to \$1,000 plus 180 days in jail.

The pandering bill would enable courts to convict a person of pimping if he or she arranges sexual relations between two other persons, with or without compensation.

Rep. Stan Schlueter, D-Salado, the sponsor, represents Killeen, near Ft. Hood.

"You can see as many as 150 prostitutes in an area five times the size of this floor in Killeen or Oak Lawn a Dallas neighborhood on pay day." Schlueter

## 'Crib Death' Probe, Helmet Ditching Okayed By Senate

AUSTIN (AP)- The Senate voted Tuesday to spend nearly \$1 million to probe mysterious "crib deaths" and to let motorcyclists 18 years and older ditch their helmets before hitting the highway.

It also voted to abolish the State Building Commission- a minor state agency-and to urge Congress to oppose any attempt to repeal the law allowing states to prohibit union shop contracts. All four proposals now go to

the House. The House tentatively approved bills raising penalties for prostitution and giving the state banking commissioner more power over the transfer of bank stock-a move designed to curb bank failures. Final votes are

expected Wednesday. The crib death bill would authorize expenditure of an estimated \$995.283 over the next two years to underwrite autopsies on children under two years of age who die suddenly

## Prosecutor Aims At Potter County

Tuesday to head an investigation into Potter County's age of one week and one year, handling of its \$5.4 million budget.

Hugh L. Russell, an assistant district attorney here from 1969 until 1972, was named special counsel for a court of inquiry focusing on county auditing.

Judge Dowlen agreed to convene the court of inquiry at the recommendation of a Potter County grand jury which returned five theft indictments against County Attorney Kerry Knorpp.

The recommendation came after a probe into Knorpp's handling of county money withdrawn from the treasury as expenses for trips and for defending Sheriff T.L. Baker in

veston, chairman of the Senate Jurisprudence Committee, said he was "tentatively thinking" about asking the Senate to vote on the bill April 1.

Witnesses said that statewide associations of trial lawyers, hospitals and medically related groups still support the compromise bill but the Texas Medical Association remains convinced that it doesn't go far enough to trim malpractice insurance rates.

A few hours earlier, Atty. Gen. John Hill held that a key provision of the bill- a \$500,000 cap on malpractice judgments, exclusive of medical costs-

would be constitutional. Other major provisions of the bill would:

-Require 60 days' notice before a patient could sue his doctor.

Require that a malpractice claim be reviewed by a panel of three doctors or other health care providers before suits could be filed. The panel's findings, however, could not be admitted in court.

-Give new powers to the Texas State Board of Medical Examiners to discipline doctors for incompetence and require insurance companies to report all malpractice claims to the board.

-Require the State Insurance Board to evaluate rate requests according to Texas loss. experience- unless data is inadequate- and to consider an insurance company's investment income in testing whether

a proposed rate is adequate. -Enable the Texas Medical Association to establish a "selfinsurance trust."

Doug Barnert, spokesman for the State Insurance Board, and Richard Cross, president of Insurance Corp. of America, said they hoped the Senate would remove that provision or at least put the trust under regulation of the board.

Cross said one effect of the trust, if unregulated, could be "destroy or curtail the private market for malpractice insu

## Governor Knows Farm Labor Today In History . Problem, Says Politician

BY GREG THOMPSON **Associated Press Writer** 

AUSTIN (AP)- Gov. Dolph Briscoe, a lifelong resident of South Texas, ought to know about problems of migrant Mexican-American farmworkers without needing more studies, says a member of the House Labor Committee.

Rep. Bill Blythe, R-Houston, charged Tuesday that Briscoe, one of the richest landowners in South Texas, may be supporting a special study of South Texas farmworkers problems in order to "create a little fanfare before the election."

Sergio Martinez of the Governor's Office of Migrant Affairs told the committee that Briscoe supports the resolution creating such an interim committee.

Where has the governor been since he was born?" Blythe asked Martinez. "He

knows what the problems are." Are you sure this is not something the governor wants.

create a little fanfare before the state about \$50,000.

Briscoe, who is up for re-election next year, met privately Monday in the Executive Mansion with a bedraggled group of farmworkers seeking to unionize. Some of whom had marched more than 400 miles to gain support for their cause.

He indicated then that he did not support the farmworkers' plea for collective bargaining rights, but would continue to study their problems.

"Let's do something besides study, said Rep. Frank Collazo Jr., D-Port Arthur, also a member of the labor committee.

"I think the interim study will come up with solutions to the problems we know exist," said Rep. Irma Rangel, D-Kingsville, who is co-sponsoring the resolution that was later sent to

House Speaker Bill Clayton would name the five members of the interim committee, which to do to get them off his back- Rep. Rangel said would cost the collective bargaining rights.

The interim committee is seen as a safety valve by farmworkers and Mexican- American legislative leaders who do not feel this legislature will pass bills granting the farmworkers collective bargaining rights.

'There will be no push to pass this legislation," Sen. Carlos Truan, D-Corpus Christi, the sponsor of the Senate bill, said Monday. "I am hopeful that we can establish an interim study commission that will come forth with solutions to these problems."

"The problems of the migrant farmworkers are multi- faceted," Sharon Flippen of the **Good Neighbor Commission told** the labor committee. "A group such as this could come up with solutions."

Rev. John McCarthy, executive director of the Texas Catholic Conference, said farmworkers were powerless to deal with their problems without the right to organize a union with

OTHER VOLUNTEERS included Melvin Cordray, Ed Barrett and Mrs. Elmo Hall.

"We will set up an escrow account for the fat cattle market promotion fund at a local bank," Hoover explained. "It will probably be set up along the lines that if the market doesn't move while the program is on the air, or if it doesn't advance \$4 in 30 days, contributors will get their money back. Of course we hope that if the market advances more than that, we could obtain additional support," he added.

Individuals interested in contributing toward the radio program fund or the New York project should call any of the committee members.

At least 32 people were reported killed in the destructive wind and rain storm that spewed out of the Mississippi Gulf on Monday toward the Northeast and swelled water ways in the Southeast.

Alabama had the highest toll with 23 reported dead, mostly from tornados. The death of one woman, found floating in her home, was attributed to drowning. Kentucky reported five deaths, and West Virginia and Virginia each reported two.

Rain subsided in much of the Southeast but unseasonably cold temperatures turned rain into sleet or snow in the mountain valleys of Appalachia, where the flood damage was

'We think the sandbags may have saved us," said Charles Buchanan, an official in the Kentucky strip-mining coal community of Barbourville.

Volunteers had worked in sleet and cold to build a defense of 15,000 sandbags against tons of Cumberland River water that

strained a 20-year-old floodwall. Deputies estimated that about one-half of Knox County and 90 per cent of the homes on the outskirts of Barbourville were

National Guard officials in Virginia said that water started to subside in the some areas as the rains stopped. They said there was an urgent need for food, medical supplies, blankets and drinking water in many of

the stricken communities. Rescuers in the Birmingham area of Alabama found the body of a woman and her child, and another child alive, in the rubble of the tornado-leveled Smithfield Estates, bringing the state's storm death toll to 23.

## Teacher Pay Raise Bill Cleared

AUSTIN (AP) - A \$263 million teacher pay bill, which boosts the beginning salary only \$84 a year but raises minimum income for the most experienced teachers by \$1,474, cleared a House subcommittee today.

Rep. Tom Massey. D-San Angelo, said he hoped the House would suspend its fire-days notice rule and let the fall House Public Education Committee vote on the measure Thursday.

That way, he said, representaffives could take the bill home over the weekend for study before considering the \$694 million comprehensive school finance bill next Tuesday.

Subcommittee members stuck with their "bell-shaped curve" dea, providing the smallest increases to non-teaching personnel, including superintendents, and the largest ones to experienced teachers

A beginning teacher with a bachelor's degree would increase from \$8,000 for the standard 10-month year to \$8,084.

The most experienced teachers, however, would receive an increase of \$1,474, or 12.5 per cent, reaching a minimum of

In the 1978-79 school year. the beginning teacher's pay would increase to \$8,164, while top scale would rise to \$13,386.

Local districts can pay more than the salary levels guarnteed by and subsidized by the state through the Foundation School

Three new steps were added to the present 10-step salary scale, at a cost of \$26 million over the next two years. No teacher would advance beyond step 11 during that period. however, because of a threeyear waiting period, however, because of a three-year waiting period for advancement to each

of the top three steps. Bachelor's degree teachers now reach top scale in 13 years.

L.T. Cave, committee consultant, said 16,000 teachers will have been in step 10 for three years at the end of this school year, but 1,500 of those will retire. Another 20,000 will have completed three years at step 10 when the next school year ends.

The Texas State Teachers Association had sought pay raises totaling \$865 million. starting with a \$2,000 jump at the bottom of the scale.

L.P. Sturgeon, TSTA consultant, said he was disappointed that the subcommittee bill was 'quite a bit lower' and "a quite a bit different arrangement" from that of his organization.

He said there would be attempts on the House floor to provide more than the subcommittee recommended, probably by Rep. DeWite Hale, D-Corpus Christi, sponsor of the TSTA's original bill.

'It's still a reasonable request in terms of what teachers are paid." Sturgeon

## TAR President To Update Realtors On Their Business

Several hundred Panhandle Realtors and guests are expected April 13 in Amarillo's Hilton Inn to hear a status report on the Texas real estate business by Reese Henry of San Antonio, Henry is the president of the 35,000- member Texas Association of Realtors.

Henry, a developer, builder and real state broker of extensive experience, will be speaking at 7:30 p.m. Carlton Clemens, president of the Amarillo Board of Realtors, has announced that he expects

'Henry to give us a legislative update, statewide and nationally, an assessment of the home market now and in the future and a general review of our professional needs. I know also that Henry is dedicated to encouraging higher and higher education levels for everyone working in the real estate profession so that we can meet more efficiently the ever-increasing demands by our clients."

Ted Schuler, past president of the Amarillo board and now TAR vice president, will introduce Henry. Others who are expected to help lay out the red carpet for the San Antonioan will include two past presidents of TAR, Don Mason and Franklin Jeffers, both of Amarillo. Jeffers is a member of the Texas Real Estate Commission and Mason serves on the National Association of Realtors

executive committee. The following board presidents are also expected: Edward Turner, Borger; Marilyn Keagy, Pampa; Kay Whitby. Dalhart; and Don Tardy, Hereford.

Coming here with Henry will also be Erv Luedtke of Austin. the executive vice president of the association. Leudtke will speak briefly on the upcoming TAR convention in Dallas, June 8-11. Some of the main events at the annual session will be talks by Don Wiedmann, first vice president the California Association of Realtors; Don Hopkins of Phoenix, Ariz., management consultant; and many important meetings to elect 1977 association officers and to hear committee reports on community work, legislative

concerns and educational plans. Henry was president of the San Antonio board in 1967 and was named Realtor of the Year there in 1973. He often teaches in San Antonio colleges and in the Texas Realtors Institutes.

## Sadat Seeks Economic Aid On Last Days In United States

WASHINGTON (AP)- Eyptian President Anwar Sadat is spending his last day in the United States pursuing economic aid after two days of discussions on military and

political issues. The Egyptian leader's schedule for today set separate. meetings with Agriculture Secretary Bob Bergland and John Gilligan, director of the Agency for International Deve-.

Time also was set aside for a of the board of Agribusiness

White House Press Secretary Jody Powell announced that the United States would support the six-month \$7.5- million hydrogeographic survey of the Gulf of Suez. No disclosure was made of the American cost for the project, aimed at expanding ship traffic and promoting oil exploration.

And the Egyptian president was "assured of continued U.S. economic support subject to congressional approval," accorstatement issues after his final meeting with Carter.

Later Tuesday, Sadat met with the Senate Foreign Relations Committee where he said his country needs at least \$1 billion a year in U.S. aid through 1980.

But much of Sadat's activity Tuesday dealt with Egyptian

## **Eyeglass Prices** A senior Defense Department official said after Sadat's Artificially High

glass prices are kept artificially high by state regulatory boards Tuesday

"The profit on a pair of glasses may be as much as 400 or 500 per cent," said Herbert Haft, president of Dart Drug, which sells glasses in Virginia and Maryland.

"The reason the profits are so high is that the field is tightly restricted and the public has no opportunity to get price

WASHINGTON (AP) - Eye- information," Haft told a small

business subcommittee. William Schwartz, vice presimade up of opticians and dent of Wall and Ochs, an optometrists who want to limit optical retailer in Eastern competition, optical retailers states, said state boards told a Senate committee roadblocks in an attempt to keep out the larger merchandizers of

eveglasses. 'The roadblocks take the form of restricted licensing. regulation on advertising and methods of retailing all the way down to size of print in the phonebooks and harrassment of

employes." he said. Schwartz said almost all state regulations on opticians and optometrists "come out of smoke-filled rooms and are blatant attempts by individual opticians and optometrists to keep the larger, more efficient

operator out of their states. "These state boards and state societies exist for one reason: to artificially upgrade the business of selling eyeglasses into a professional status so one canhang a license on the wall and charge more for eyeglasses. These self-serving state boards are controlled by the very interests they are supposed to be regulating," he said.

In Connecticut, for example, there is a four-year apprenticeship requirement. he said Schwartz contended this requiement "exists to keep down the supply of opticians and keep optical prices up.

In New York, he said, "it's easier to become a doctor than to become an optician" because of restrictions by a state board.

Haft said that in Virginia the board-promulgated regulations on advertising are "so onerous that you almost can't advertise.

"The public is interested in whether they pay \$130 or \$50 for a pair of glasses. But it is very difficult to get this price information out," he said.
