Water Expansion Begins

UF Majors Get Monetary Goals

A nickel will do it — A nickel an acre on irrigated land will push the United Fund goal over the top.

Bobby Owen, chairman for rural collections in the annual charity project developed the plan to give guide lines for farmers wanting to do their part in the community campaign.

Dryland farmers get a reduction in expected donations since

income from their acres is percentage-wise much less than that of irrigated farms. Dryland farmers will be asked to donate 1 cent per acre.

In prior years, Melvin Jayroe, president of United Fund said, farmers have been missed in the drive because of the large area spanned by their operations. Farmers are tabbed for \$4200 this year.

This year, Owen will have captains who will recruit sergeants to pull in funds from all corners of the county since citizens from all areas participate in the agencies funded by the drive.

Other drive majors said that they are asking for one day's pay from each employe associated with their phase of the campaign.

Drive majors were given their goals this week at a Monday morning meeting. Over-all goal this year is \$30,400. This amount has been divided with the following men responsible for collecting from certain areas. Johnny Clark is major for schools with a goal of \$1400. Ben Childers will comb the industrial community for a gigantic \$6100. Clete Corlis and Buddy Bloomer have taken the commercial districts and will shoot for \$4500 and \$5100 respectively.

City, county and federal agencies, as well as clubs will be expected to contribute \$2,000 with B. F. Cain ramrodding that drive.

Joe Soto will spearhead the drive into the Latin American community with a goal of \$500. Leo Forrest will contact utility companies, banks, and lawyers to reach his goal of \$4700.

Sums expected from the various segments of the community are based on donation cards filled out during last year's highly successful campaign.

Bond Sale Date Set By City Commission

Agreeing unanimously that the people of Hereford have been kept waiting long enough, Hereford City Commissioners Monday night authorized the sale of \$610,000 in bonds for water and sewer improvements.

Commissioners also gave final approval to a new plumbing code for the city and set up a six-man advisory board to oversee the code during the brief, assiduous meeting.

After consulting with their attorney here and the bonding attorney in Dallas Tuesday and Wednesday, the commissioners decided to open bids on the bonds October 18.

The major portion of the improvements, said City Manager Dudley Bayne, will be in south Hereford, and the big part of the water improvements will be in wells, a booster station and a million gallon storage tank.

Contracts on the projects were opened August 11, but were held up to see if federal funds could be obtained. Soon after the bonds were approved by city residents in April, the commissioners applied for the additional funds from the Department of Housing and Urban Development.

When such a grant is approved, the federal government matches 50 per cent of the funds.

During discussion Monday night, commissioners agreed that the federal funds would be a big help and are needed, but projects should be started.

"We expanded the projects some when we realized the possibility of the federal funds, and

these may have to be cut back," said Commissioner Albert Maxwell, "but I don't think another bond election will be necessary."

Bayne said the approximate \$250,000 in federal funds would "certainly postpone another bond election which we will have to call in the future in order to continue expansion."

Bayne told commissioners that the attorneys said the bonds can be sold because they are listed as unspecified. The projects, said Bayne, also can be started and the amount from federal funds reduced if they are approved.

The bonds will provide \$436,998 for expansion and improvement of the water department, and \$173,008 for sewage system additions. Municipal water and sewer service will be extended to south Hereford — that portion of the city located south of Tierra Blanca Creek — at a cost of about \$221,168.

Low bidders on the projects are H. B. Jordan, Inc. of Amarillo, which bid \$17,807.67 for sewer and water construction jobs. Gorbett Brothers Steel of Fort Worth, \$43,621 for building the one million gallon steel reservoir, and McDonald of Amarillo, \$72,710 for construction of four other water wells.

Wilson's Funeral Rites Set Today

Robert Lee (Bob) Wilson, 68, retired Hereford School System employe, died unexpectedly Tuesday afternoon at his home, 218 North Texas.

Funeral services are scheduled at 2:30 p. m. today in First Methodist Church. Burial in West Park Cemetery will be directed by Gilliland Funeral Home.

A resident of Deaf Smith County since 1901, Mr. Wilson came as a child with his family from McKinney, where he was born Sept. 17, 1898. He married Mabel Faulkner Oct. 11, 1925 at Plainview.

His wife survives, with a daughter, Mrs. Marian Joe Clark of Midland, a son, Richard Wilson of Dallas; three sisters, Miss Floyd Wilson, Mrs. Hazel Lewis and Mrs. Waldine Boozer, all of Amarillo, and one grandchild.

State Water Plans Are Being Pushed By Moore In Austin

By LARRY FUHRMANN
Hereford Brand
Austin Bureau Chief

Joe G. Moore Jr., executive director of the Water Development Board, outlined yesterday in Austin a program of work that the board will undertake during the next few months as it pursues final studies of the Texas Water Plan. Major studies will be availability of state funds, he said.

A work program consisting of 16 areas of study and analysis

covering suggestions, criticisms and alternatives will be instigated in the immediate future if funds are allocated.

Contrary to popular opinion, financing for the Texas Water system will not be through tax burden. All costs of Texas Water, including construction costs, will be born by the users themselves.

One of the major problems in preparing the preliminary plans was provisions of sufficient irrigation water for the heavily irrigated plains area of the Tex-

as Panhandle. There are presently some 5.5 million acres in the area now being irrigated with an estimate of 17 million which could be irrigated in the year 2020, provided water is available. Moore listed four alternative sources of surface water for irrigation purposes in West Texas:

- 1) Waters available to Texas in the Sulphur, Cyprus and Lower Red River Basin and possibly the upper Sabine River Basin, in excess of intra-basin requirements and projected municipal and industrial requirements in the Dallas-Fort Worth area.
- 2) Water of the lower Sabine and Neches River Basin presently unallocated under the Texas water plan.
- 3) All water in East Texas surplus to intra-basin requirements, and the demands for higher uses which must be satisfied by inter-basin transfer.
- 4) Imported water to West Texas from either the Mississippi or Missouri rivers or their western tributaries.

These alternatives were announced in Austin Wednesday afternoon.

"In addition," Moore said,

"the bureau of reclamation will determine the cost of delivering water in various quantities for municipal, industrial and irrigation supply to West Texas, utilizing a pump back system of the Colorado River channel."

An evaluation of alternatives to some parts of the state water plan are:

- 1) Reduce quantity of water to be delivered to the lower Rio Grande Valley for "new irrigation." Moore pointed out importance of West Texas agriculture to the whole state's economy and the Rio Grande Valley had not received the idea of water importation with enthusiasm.
- 2) Divert a surface water supply into the middle and upper Neches River basin, considering the possibilities offered by ex-

See STATE Page 2

Chamber Backs Symphony Plans

Board of Directors of the Chamber of Commerce reviewed several issues, advanced some new action and appointed a nominating committee Tuesday morning at their regular meeting.

Recommendations from the Beautification committee and the fine arts council as well as the retail merchants meeting were accepted by the board.

The Chamber board voted to underwrite the booking of the Amarillo Symphony, November 19, the date the group will be available. The recently organized fine arts council discussed the project at their organizational meeting. The group stated that they realized that rush action would be required to organize the event but tentative plans call for two performances, one in the afternoon for the children and one at night for adults. Several members of the council said that they had heard the symphony perform and that they would highly recommend the organization.

The merchants committee had recommended that Christmas lights be turned on the first Sunday following Thanksgiving. The board accepted this recommendation.

Beautification committee recommendations included a request that the Chamber contact the Santa Fe Railway about maintenance of a drainage ditch along the right-of-way between the tracks and Highway 60 inside Hereford city limits. The committee had earlier contacted the city about this ditch which serves the city as an open storm drainage. Of concern to the committee is that it is an eye-sore as well as being a health hazard, the committee report said.

The board approved the leas-

ing of a car for the use of the Chamber manager, Bill Thompson. A Buick, leasing for \$72 a month will be leased for 24 months.

Nominating committee to fill four vacancies that will occur as present directors' terms expire was named.

BIG BLOW — Tim Northcutt gets with it during a full in serious practice. A big horn takes a big man and a big man has to have lots of wind to keep sailing with the Whiteface band. (Hereford Brand Photo)

Walcott Voters Face Bond Issue Saturday

Walcott School District voters will go to the polls Saturday to decide the fate of a \$60,000 bond issue to finance proposed classroom additions and teacher and custodial housing.

Almost unique among Texas schools, Walcott located some 30 miles west of Hereford, is a rural school that is growing and that has not had any trouble

Clifford Is To Be Tried In October

William B. Clifford of Canyon will be sentenced in 16th District Court in Denton today to two years in the state penitentiary for the April 8 slaying of his wife.

Clifford, who will be tried in late October by a Deaf Smith County jury for the shooting of a Hereford feed lot worker, was found guilty earlier this month of shooting his wife. The trial had been moved to Denton on a change of venue.

Clifford allegedly shot Billy Joe Stevens, 24, at the Hereford Feed Yards about 30 minutes after shooting his wife in Canyon. He was charged with assault with intent to murder in connection with the shooting, and indicted in May by a Deaf Smith County grand jury.

He was placed under a \$10,000 bond.

Clifford is expected to be kept in Denton until time for his trial here. Lawyers have stated they will not appeal the two-year sentence handed down in Denton.

with the accreditation bureau of the Texas Education Agency, according to Jim Monroe one of the trustees for the district.

The district has as present outstanding indebtedness, \$141,000. If the proposed bond issue is approved, the district will barely top the \$200,000 mark on indebtedness.

Voters will have a choice on their ballot of a quick payment plan or a long range plan, school officials said.

Proposal no. 1 will boost taxes from the present 20 cents set aside for bonded indebtedness to 47 cents. This 27 cents increase would mean that payments on the principle would begin immediately and that indebtedness would be retired more rapidly, Monroe said.

Proposal no. 2 would increase the taxes only 16 cents on hundred dollar evaluation. Total tabbed for bond retirement under this plan would be 36 cents.

Present tax rate for the district is \$1.65. It had originally been set at \$1.75, but Monroe said that operating expenses had allowed the 10 cents cut last year. Of this \$1.45 is used for local maintenance, 20 cents for the bond retirement. Assessed value for the district was \$4,207,779 in 1965.

Trustees for the district are J. V. Perrin Willis Duggan and Monroe.

Election officials for the bond election Saturday are G. V. Hall presiding judge, Ernest Brown and Billy White, clerk. Balloting will be in the Walcott School gym from 8 p. m. to 7 p. m.

Football Winners

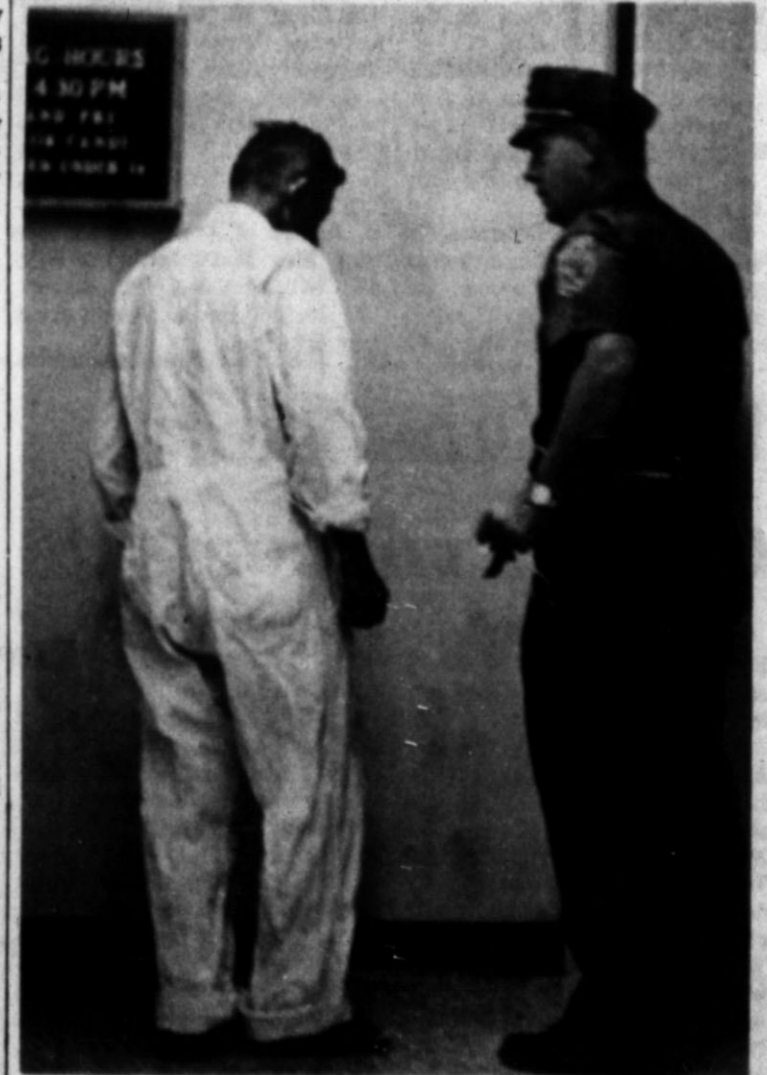

Heien Parsons guessed correctly on 18 of 18 games to win \$7.50 and take the lead in the first week of the Hereford Brand Football contest.

Four persons tied for second place money of \$3.50 by correctly guessing 15 of 18 games, but Marshall Wilson took the pot by doing best on the three tie breakers. Tying with Wilson were Gilbert Yosten, James C. Mercer and Margaret Randall, who finished, third, fourth and fifth, respectively.

By finishing third, Yosten claimed \$1.50. Mercer, Randall and Jean Collard, who picked 14 of 18 games correctly, each received two tickets to the Star Theatre.

There were 163 entries in the first week of the contest, which runs weekly.

Contest rules and an entry form are printed on an inside page of today's Brand.

ARRAIGNMENT HELD — George Moore returns to his cell after arraignment before Justice of the Peace, C. B. Miles, Monday morning. Accompanying Moore is a city policeman.

Moore Charged With Assault To Murder

George L. Moore, 58, charged Monday with assault with intent to murder in connection with the Friday night beating of Herbert Roddy, 54, remained in Deaf Smith County Jail late Wednesday in lieu of 5,000 bond.

Roddy, who was transferred from Deaf Smith County Hospital Monday morning to the Veterans Hospital in Amarillo, remained in good condition late Wednesday. He was unconscious when he left the Hereford hospital but Amarillo doctors said he regained consciousness that afternoon.

Roddy, hospital physicians said, had several facial bones and ribs broken, severe contusions and abrasions and some damage to his left lung. His inability to regain consciousness

also led doctors to believe there had been brain damage.

There were no wounds from sharp instruments and he did not appear to have fallen, doctors also said, stating that he appeared to have been brutally beaten.

At his arraignment Monday morning Moore waived examining trial and delayed appointment of an attorney pending action of a grand jury in October. Only comment Moore made, was, "I had to defend myself."

Justice of the Peace C. B. Miles set the bond at \$5,000.

The owner of the apartment on east Third street where Roddy lived had called police to report an argument in the apartment last Friday night. J. C. Cummins, owner, who lives in a residence over Roddy's base-

ment apartment, said he had called to the occupants to be quieter and then summoned police when the request was ignored.

Cummins also said he had heard a voice threatening to kill someone.

When the investigating officer arrived at the scene at 7:07 p. m., he said his knock on the apartment was answered by Moore. Hearing a moan, he entered the kitchen where he discovered Roddy lying on the floor in a pool of blood.

The officer placed Moore in his patrol car and called for an ambulance and more officers.

Moore, the patrolman said, was shoeless at the time and his socks appeared to be blood stained. The slightly built Moore

AT THE FAIR

Area Residents Bring Home Awards From Many Divisions

Deaf Smith, Castro, Oldham county residents are coming home from the Tri-State Fair in Amarillo with enough red, white and blue ribbons to make their own American flag.

The fair opened Monday, and soon after judging began that day area residents began making themselves heard by winning first, second and third place ribbons.

A light weight Shorthorn steer exhibited by Joyce Bezner of Hereford and a heavy weight Hereford steer shown by Kathy Garrison of Adrian were two of only 10 steers graded as prime in Monday's junior market steer show. There were 75 entries.

Judged as choice in that show were a light weight Angus shown by Kirk Garrison of Adrian; a light weight Hereford Shorthorn exhibited by Tommy Bezner of Hereford, and a light weight Hereford also shown by Garrison.

Chosen as choice in the medium weight class were a Hereford shown by Rodney Brooks of Hereford and an Angus shown by Kay Atchley of Summerfield, Debbie and Kim Ivy of Adrian exhibited a Hereford in the medium weight class which was judged good.

In the heavy weight class, choice ratings were placed on several area steers. Receiving them were an Angus shown by Kim Garrison of Adrian, a Hereford shown by Dude Speed of Adrian, an Angus shown by Kris Garrison of Adrian, an Angus shown by Charles Atchley of Summerfield, and an Angus shown by Sue Atchley of Summerfield.

Buyers submitted sealed bids for the steers at 3 p. m. Wednesday, but no figures were available. The bids could be rejected by exhibitors.

Winners in the Teen-age Textile Division of the Fair textile competition were Patsy Paetzold of Hereford, first, dress; Marilyn McLeroy of Dimmitt, first, wool dress or skirt; Susan Benson of Dimmitt, second for wool, synthetic blends, dress or suit, and Dorothy Marnell of Hereford, first, any other class.

Judy McLeary of Dimmitt won first in the skirt class of the Junior Textile Division.

In the Quilt Division, Hattie Rogers of Hereford won first in the cotton class, and Mrs. J. J. Boyd of Hereford took a second place ribbon in the any other class.

Rita Womack of Dimmitt entered in the Junior Culinary competition and won a second for her tomatoes in the Class 2, baked products class and took

a first in the any other jelly class.

Larry Paetzold of Hereford took second place honors in the FFA farm mechanics contest and won \$30 for his cattle squeeze chute project.

The Hereford FFA chapter brought home \$70 for being one of the top three chapters in the

FFA educational exhibits contest. The group's project is titled, "Put Zip in Your Crop and Money in Your Pocket by Applying Fertilizer."

Mrs. A. J. Bezner of Hereford saw her entries win first in the grape division of Class 10, preserves, and first in the grape division of Class 11, jellies.

Double-Header Hit By Herd This Week

A battle Saturday night with one of the top Class AA teams in the state — the Phillips Blackhawks — will climax a weekend of football for the Hereford Whitefaces and area fans.

The gridiron action begins Friday night when Head Coach Jack Meredith takes his junior varsity and a few varsity players to Hale Center to do battle with the Class AA team.

The Whitefaces, armed to the teeth and sporting a 2-0 won-loss record, will take on the powerful Blackhawks at 8 p. m. Saturday in Whiteface Stadium.

Phillips lost its first game of the young season last week to the Dumas Demons 8-0 after battling the state's No. 1 team in Class AAA on even terms all night. Two blocked punts led to Dumas' only scores — a touchdown and a safety.

Coach Meredith said he liked the split games because it gives the Junior Varsity a chance to play against "top notch competition. They can get as much experience in one game like this as they can in three B-Team games."

"Since Dumas only beat Phillips one touchdown last week," Meredith continued, "it will be a big test for us. We consider the game a real challenge."

Meredith said his only injury at present is Safety Gary Goodin, who broke an arm while practicing before last week's game. "We'll start pretty much the same team as last week."

Phillips, Coach Meredith said, likes to run a wide pitch and trap plays up the middle. This week, the Whitefaces have concentrated on stopping those plays.

Describing last week's game with Olton, Coach Meredith said "it was a tremendous team effort. It would be real hard to pick any outstanding players." The Whitefaces trounced Olton 47-8.

Junior varsity coaches are Jack Waggoner and Larry Brown.

Funeral Today For Ex-Resident

Funeral services for Lucas Cuthbert Jordan, 66, former Hereford resident who died in an Amarillo hospital Tuesday, will be conducted at 2:30 p. m. today in Blackburn-Shaw Memorial Chapel at Amarillo.

He resided in Hereford several years before moving to Amarillo in 1949. A retired Civil Service employee, he was employed at the POW Camp here during World War II, then was a member of the Hereford police force. He was a native of Arkansas, born Feb. 22, 1898 in Shady Grove.

Survivors are his wife; two daughters, Mrs. Burke Inman of Hereford and Miss Betha Ann Jordan of Amarillo; two sons, Bill Jordan of Lubbock and L. C. Jordan of Amarillo; his mother, Mrs. Mary Jordan of Bryan; two brothers, five sisters, 12 grandchildren and eight great grandchildren.

Rotarians Here CAP Prospects

A 20 year perfect attendance Rotarian from California attended the weekly luncheon of Hereford Rotarians Monday.

Guest speaker was Dr. Milton Adams, commander of the local Civil Air Patrol unit, who presented a film of the 1965 National Flying Encampment. This encampment was so successful that it has now expanded to be quadruple in size.

The first encampment, in 1965, was held in Elmira, New York. Adams mentioned that this encampment was held in a cooperative effort and financed and conducted by the Civil Air Patrol. Flying lessons were conducted by instructors from certified flying schools.

The day for the CAP cadets who took airplane flying lessons began at 5:30 with much marching in the curriculum. This marching was disciplinary and, as the film stated, "discipline is a necessary part of flying." Other cadets learned to fly sailplanes.

Cadets from fifty states and Puerto Rico attended the encampment. On graduation day a Gold Trophy was presented to the outstanding cadet and scholarships were given to those who had completed their training and passed the 3 1/2 hour exam.

After the film Adams further explained CAP to the Rotarians. He announced that the Hereford unit now has a plane, an L-16 with 380 hours on it since it was last overhauled. He described it as being in "good shape."

Adams said that the primary use of the plane would be for search and rescue.

The local unit hopes to someday be able to sponsor a scholarship to a Hereford cadet, though such a goal cannot be reached without financial help, Adams said.

He stated that this year four cadets would be qualified for this type scholarship. One of them is a girl who wants to be an astronaut and is extremely active in CAP. This scholarship would cost from \$500 to \$800, Adams said, using local aircraft and instructors.

Adams said that they are stressing aerospace education to the cadets, for they feel that aerospace industries is the "future way of life." He said the local unit has 19 cadets and 11 senior members, and is continually expanding. Adams invited all the Rotarians to join CAP and be active senior members. He said the age span for cadets is 13-18.

State ...

(Continued from Page 1) change of water delivery through the state plan.

3) Compare as an alternative to a San Antonio surface supply the long term benefits and detriments of unrestricted pumping of ground water.

"No plan can meet the preferences of every individual in the state," said Moore. "Some of the suggested alternatives are irreconcilable with each other."

Moore explained that the whole state cannot be irrigated. The board did not set any timetable for completion of the study of the preliminary plan. Upon adoption of the final plan by the Texas Water Development Board, the Texas Water Plan will be forwarded to the Texas Water Rights Commission for determination that all existing water rights have been fully protected and that a procedure suggested for their modification.

Certification by the Texas Water Rights Commission will return the plan to the Texas Water Development Board for final adoption and presentation to Governor Connally and the people of Texas.

Moore pointed out that population figures in the preliminary plan were first estimated on a state-wide basis. The plan projects 30.5 million population in 2020. Population figure for various cities and areas throughout the state were determined by breakdowns of this figure.

Moore said that just because various cities have claimed their population projections have been underestimated, the state total cannot be raised. He said, however, that population figures would be re-evaluated and if possible redistribution might be in order.

It was pointed out at the announcement meeting that the Texas Water Plan must be implemented before being forced to succumb to federal regulations. It was pointed out that federal agencies have already begun work on the Texas problem. Although hearing will not be required for implementation of the final plan, they may be conducted, depending upon necessary plan modification, Moore said.

The constitutional amendment to be voted on in November can determine three things:

- 1) Authorization of funds for permanent construction of water projects.
2) An increase from \$200 to \$400 million for trans-basin diversion projects.
3) Protection of basins of origin.

Moore pointed out that the basin having the water supply has the first rights to that water. Its needs must be met before water can be transported out.

Moore pointed out that \$200,000 has already been spent in excess of last year's appropriation for the Texas Water Study. The planned study and analysis will require an emergency appropriation by the Texas legislature. Cost will be known by October 15.

Moore pointed out that the Texas Water plan can still achieve state support since the idea of a water plan has been accepted throughout the state. "It is the buts and howevers that have slowed us down," Moore said.

High School Band Off To Good Start

The Hereford High School band under the direction of Ben Gollehon, is off to a good start as far as musical selections are concerned.

The band, winner of many awards and marching contests, will again be working on difficult musical selections to present at the University Interscholastic League contest in Canyon on October 25. Last year the band took the sweepstakes

award in the UIL contest. They also won the outstanding band award at Six Flags over Texas, and the Doc Severinsen stage band award.

The group is using the same marching style that they have used in the past, but this year they are adding new variations to their popular march formations.

Many new sophomores are included in the band, and Gollehon says they are coming along real fine. Approximately 100 students are in the band this year which is an average number.

Among the many selections chosen for contest and marching events is "The Guns of Navarone," which is the theme song for the movie of the same name. Many other theme songs from hit movies are on the band's schedule for the year.

Other selections include: "Voice of the Guns," "Colossus of Columbia," "Bravura," and "Purple Carnival."

About three weeks before the UIL contest, the band will begin having two practice sessions a week. At the present time, the band is practicing marching on Tuesday nights at the old football field.

At the last Whiteface football game, the band featured Hereford's four twirlers, Alana Cropper, Margaret Phipps, Trisha Hill, and Debra Walden, along with drum major, Roger Suttie.

After the UIL meet the band will change from contest music to light-hearted selections.

Water ...

(Continued from Page 1) Bayne said construction on the projects will begin as soon as the city gets approval of the federal funds, or will start about November without the funds.

Although adopted by the commissioners Aug. 1, final approval of the new plumbing code was delayed until Monday night because enough printed copies of the code had been unavailable for careful study by plumbers.

"There are no radical changes in the code," said Bayne, "just a modernizing and updating of the old code."

Under the new code, \$1 will be charged for issuance of a permit. The permits are required when any plumbing is constructed or installed, or extensions or additions are made on any lines using water from the city water mains. Previously, the city had not charged for the permit itself, only for plumbing inspections.

Other charges will be made according to what the person has installed in the building.

Also for the first time, an inspection of sprinkler systems will be made.

Recommended to the commissioners by Bayne, members of the advisory board will be Jim Pavlicek and Nelson Rieger both master plumbers; Lee Carter, building contractor; Dr. Roy Grubbs, city health officer; Dale Young, engineer, and Bayne.

The board, Bayne explained, will act not only in an advisory capacity, but will study new amendments to the code, and hear appeals of plumbers. Plumbing inspector for the city is Tom Crawford.

Commissioners also adopted a resolution from Santa Fe Railway dealing with the water line for a booster station north of Hereford. The railroad charges the city \$50 each time a line is run under the tracks and lists specifications which must be followed by the city in laying the line.

Chamber ...

(Continued from Page 1) Named were Hilrey Ave, Johnny Pool, Monk Johnson, Austin Rose Jr. and Maurice Tannahill.

Out-going directors are Hilrey Ave, Russell Carver, Labry Ballard and Raymond White. White's elected term expires this year but he will be active next year on the board of directors as past president.

Directors who have one year to serve are Neil Cooper, Dub Hair, Pete Caviness, and Johnny Pool. Directors with two years more to serve include: Morris Easley, Frank Ford Jr., Dexter Lillie and Melvin Young.

No change is being made in procedure of committee reports and the chamber's press relations. Coverage and recommendations to the Chamber board will come from committees as they have in the past without alterations in procedure.

Moore ...

(Continued from Page 1) also was reported to have blood stains on his hands, wrist watch and his shirt.

Moore's shoes were found later in the three-room apartment. The articles were being held as evidence and Moore wore a pair of fireman overalls and thongs to his arraignment Monday.

A pool of blood was found on the kitchen floor of the apartment where Roddy had lain, and smears of what appeared to be blood were tracked around.

Moore, who had been working on the Everett Wiseman farm 2 miles south of Vega about three weeks, told officers he has

known Roddy several years and visited him frequently.

Mrs. Wiseman, contacted in Vega, said she and her husband had been shocked to hear of the incident because "Mr. Moore was a very quiet person and had been a very good employee. We both liked him very much."

Born in Chickasha, Okla... Moore had been living on the farm at the time of the incident.

In many African tribes a stool is the symbol of authority. The British once fought to get the golden stool of the Ashantis in West Africa, knowing its capture would intimidate the tribe

Boy Scout Rally Convenes For Area

Scouts will converge on the Bull Barn next Tuesday for a district rally. Troops from Hereford, Vega, Adrian and Friona will acquaint boys and their parents as well as being an information program for new scouts.

A court of honor with the presentation of badges and awards earned by Scouts since summer camp will highlight the meeting that is to begin at 7:30 p. m.

Nolan Grady, District Advancement Chairman, said that several troops will be taking part in the Rally. Among those participating are: Troop 50 sponsored by the Lions Club of Hereford, Troop 55 sponsored by

the Church of Latter Day Saints, Troop 52 sponsored by the First Methodist Church of Hereford, Troop 56 sponsored by the Friona Lions Club, Troop 16 sponsored by the Vega Jaycees, Troop 32 sponsored by the Adrian Lions Club, Troop-151 sponsored by the Wesley Methodist Church of Hereford. Several other troops in the District are also expected to attend.

Any boy who is interested in becoming a Scout and is eleven years of age or older is invited to come to the meeting. Parents of scouts are also invited according to Ed Skypala, District Chairman for the Tierra Blanca District.

Membership Drive Slated For Friday

One day for it. One day for a Chamber of Commerce membership drive, tomorrow.

One day but ten crew chiefs, who will be competing for top crew awards.

Oliver Streu, membership committee chairman announced this week that each chief will have five workers and that they will work Friday — Friday only to sign up new members.

Plans for the drive include on-the-spot interviews over KPAN with each new member as he is signed up. Top producer of the day will receive a pair of tickets to the West Texas State University football game (home game) of his choice. The winning crew will be treated to steak dinners — at least all members of the crew who produce, Streu said.

with a free breakfast briefing session for all crews at the Calson house. No workers will be permitted to take more than three prospect cards to begin with, but many report back for additional cards after working his initial set. An elaborate point system has been developed to determine the winners.

Goal of the drive is \$2,400 in receipts in this fiscal year and additional pledges to total \$3,500 in new support in order to sustain the constantly expanding activity of the Chamber in all fields of community growth.

Crew chiefs will be Russell Carver, Hilrey Ave, Frank Ford Jr., J. F. Martin, Frank Ball, Doyle Rush, Neil Cooper, H. A. Linquist, Bert Cooper, Johnny Pool and Ralph Owen. More information may be had by calling the chamber office.

ANOTHER \$25 WINNER From The Cloverlake Mystery Man

Jack Barker, left, the Cloverlake Mystery Man, is shown presenting \$25.00 to Mrs. Benny Cooper of Hereford while Jack Nunley, manager of Taylor & Sons Food looks on. Mrs. Cooper had Cloverlake products on hand when the Mystery Man called. She purchased her Cloverlake products from Taylor & Sons Food. Good things do happen when you buy Cloverlake.

BSP Unit Hears Toastmasters

A quartet of members from Hereford Toastmasters Club presented the program on Public Speaking for Xi Epsilon Alpha Chapter of Beta Sigma Phi at Community Center Tuesday evening.

Program arrangements were made by Mmes. Chuck Laing, Hicks Roberson, Walter Kirkland, Oliver Streu and Bill Kendall. Irving Alexander was master of ceremonies.

Speakers were Alvin Smith, industrial cooperative training coordinator in Hereford High School whose topic was The Art of Conversation; Bill Lamm, office manager for the Chemical Company of Texas, who told How To Say It; and Ernest Neff, mechanic for Case Implement, who discussed steps in Building a Speech.

Mrs. Nolan Grady and Mrs. Alexander were hostesses for the meeting and Mrs. Clete Corlis presided for business. Mrs. Streu was elected a representative to the City BSP Council and Mrs. James Shearer alternate.

The president appointed Mrs. Ernest Wade parliamentarian.

Plans for attending the area BSP convention at Borger Oct. 15 and 16 were discussed and it was announced that Walter Ross

Family Health Is Progressive Club's Subject

Program topic for Progressive Home Demonstration Club Tuesday afternoon was Family Health. Mrs. P. L. Carmichael discussed rheumatic fever and hepatitis as diseases which threaten children, and strokes, a frequent cause of death or founder of the sorority, is to be a speaker on the program.

The next City Council meeting, on Oct. 10 in Mrs. Corlis' home, was announced.

Members present included Mmes. John Schneider, E. N. Johnson, Max Stipe, Larry Summers, Ollene Williams, Delbert Bainum, Harold Beauchamp, and R. J. Cramer.

disability in older persons.

The meeting was in Mrs. Carmichael's home. Mrs. H. L. Hershey directed a recreation period and Mrs. Dale Hollows the business session.

Announcement was made of the annual fall luncheon for county H. D. Club members at the Bull Barn on Sept. 26, when delegates to the Texas H. D. Association convention will make reports. Progressive Club will meet next with Mrs. E. C. Hammett Oct. 4.

Others present Tuesday were Mmes. Dean Stallings, Hammett J. D. Gilbert Jr., Floyd McGee and Taft McGee.

THEIR AIM, BETTER HOMES — Officers for a new year in the Hereford Chapter, Young Homemakers of Texas, were installed at a meeting Tuesday evening observing annual YHT Week. Mrs. Clark Andrews, left above, hands the gravel symbolic of the president's office to her successor, Mrs. Larry Dobbs. Mrs. Andrews becomes parliamentarian for the coming term. Other officers, top row, are Mrs.

David Brumley and Mrs. Lewis Block, vice presidents, and Mrs. Bud Thomas, secretary-treasurer. Three committee chairmen, bottom left, are Mrs. Kenneth DeHart, cheer; Mrs. Raymond Gerk (seated), finance, and Mrs. Howard Hunter, social. The chapter's Little Sister, a high school FHA member, is Carol Robbins, pictured with Mrs. Joe Bradley, chapter sponsor who is also an FHA sponsor.

YHT Week Noted At Installation

Observance of the annual Young Homemakers of Texas Week, Sept. 18-24, was highlighted in the Hereford Chapter with a membership party and installation of new officers in the homemaking parlor of Hereford High School Tuesday evening.

Mrs. Larry Dobbs took office as president, succeeding Mrs. Clark Andrews who became parliamentarian. Mrs. Lewis Block and Mrs. David Brumley are vice presidents. Mrs. Bud Thomas secretary-treasurer and Mrs. Carolyn Axe reporter-historian.

Mrs. Lawrence Baird and Mrs. George Zetsche were hostesses for the meeting. The installation was conducted at a table centered with flowers and candles in red and white, YHT colors.

Yearbooks for 1966-67 season, prepared by a committee with Mrs. Lewis Block as chairman, were distributed. Others on the committee are Mmes. Jerry Don Glover, Raymond Gerk, Layton Sawyer and Andrews.

YHT Week is observed in the first week of autumn throughout the state. Its purposes are evaluation of chapter accomplishments and interpretation of the organization's program to the community.

As the name implies, Young Homemakers is an organization of housewives under 30, with a common interest in their homes and their small children. Monthly programs of information and social activity are scheduled through the year.

Aims of the organization are stated in the YHT creed, "We seek to strengthen the bonds of family with knowledge, integrity, love, understanding and faith in God in order that our homes may be established in the firm foundation of our community, state, nation and the world."

Sports Offered Again By Lions

Paisano Lions will begin their sports night again on October 6, at the Bull Barn.

Planned for boys eight through sixteen, the sports night offers exercise and skill opportunities in basketball, trampoline, boxing, tumbling, volleyball — all under capable coaches. The program is open to all boys.

The program proved itself last year. Vista workers assist with the program, offering professional coaching for the boys. This year Vista worker Fred Chubb will work with co-chairmen Noe Salinas and Alex Torres, Paisano Lions. Hours are 7:30 - 9 p. m. every Thursday.

Paisano Lions are working with other Lions club on the international scholarship fund. They meet twice a month and are directing their efforts to youth work, Joe Soto president, said.

By MELVIN YOUNG

Twenty-one United States presidents have worn the uniform of their country, and a large portion of that number were involved in a fire-fight at some time or other during their military career.

Seven of the twenty-one were involved in the Civil War while five served during Indian campaigns, some seeing battle in more than one major war.

Former president Harry Truman was an infantry Captain in World War I, General Dwight D. Eisenhower a professional soldier, spanned both World War I and World War II. John Kennedy and Lyndon Johnson both served in World War II, although Johnson's tenure of duty was short.

General George Washington, our first president fought in the French and Indian War and of course, distinguished himself in the Revolutionary conflict.

James Monroe fought in the 3rd Virginia Regiment at White Plains, Brandywine, Monmouth during the Revolutionary War and was wounded at Trenton. However, the reference books say little more about his military career and we presume that his political endeavors so overshadowed his military record that little space was given to it. Monroe of course, gave us the Monroe Doctrine which served notice on European powers that any attempt at colonization or encroachment upon the American hemisphere would be considered as endangering the safety of the United States and would not be tolerated.

Andrew "Old Hickory" Jackson seemed to be one of the presidents who loved fighting — any kind and demonstrated his bravery and his love of country at the early age of 13 when as a captive revolutionary, he refused to shine the boots of a British officer, receiving a blow from the officer's sword as a reward.

Jackson defeated the Creek Indians at Horseshoe Bend, Ala., 1814, and as major general, U. S. A., drove the British out of Pensacola. With 8,000 backwoods fighters he defeated Packenham's 12,000 British troops at Chalmette, outside New Orleans, Jan. 8, 1815, losing only seven to the British loss of 2,000.

In 1818 he fought so recklessly against the Seminoles in Florida that he endangered foreign relations.

His policies after entering the White House were apparently as reckless and roughshod as his battlefield tactics. At the Jefferson Day dinner, 1839, he offered the toast:

"Our Federal Union; it must be preserved." Vice President John C. Calhoun, exponent of state sovereignty, gave in reply the toast: "The Union — next to our liberty, most dear." Jackson was originally a Jeffersonian-Republican; later the first Democrat.

William Henry Harrison served only 31 days as President of the United States, falling victim to an attack of pneumonia during the inauguration. He died April 4, 1841.

Harrison fought under General Anthony Wayne at Fallen Timbers, 1794. With 900 men he routed Tecumseh's Indians at Tippecanoe, Nov. 1811. A major general, he defeated British and Indians at Battle of the Thames, Oct. 5, 1813.

Little is said in this particular reference book of John Tyler's military career, other than the fact that he served in the War of 1812.

Zachariah Taylor also served in the War of 1812 as well as in campaigns against the Black Hawk and Seminole Indians and in the Mexican war. He was the first regular army man to serve as president.

Franklin Pierce fought in the Mexican War and James Buchanan in the War of 1812. Abraham Lincoln of course, served his country in the campaign against the Black Hawk Indians and was president of this nation during the bloody Civil War that was to take the lives of so many American men.

Andrew Johnson was Military Governor of Tennessee and also served in the Civil War. He became president after the assassination of President Lincoln.

General U. S. Grant led the Union forces to victory in the Civil War and also served earlier in the Mexican War. Grant served his country well as a military man, but probably reigned over one of the most corrupt administrations in the history of our nation. He died penniless, although his PERSONAL MEMOIRS, completed only four days before his death, brought in more than \$450,000.

Rutherford B. Hayes and James Garfield both served in the Civil War and Chester A. Arthur was Quartermaster General of the state of New York in 1861 helping to supply troops for the front. Benjamin Harrison and William McKinley both served in the Civil War. Both distinguished themselves in that conflict.

The only former president to serve in the Spanish War was Teddy Roosevelt, and his exploits during that conflict need not be reiterated here. Roosevelt organized the 1st U. S. Volunteer Cavalry (Rough Riders) and dazzled both friend and foe when he led his troops up Kettle Hill at San Juan and routed the Spaniards. His political career was as stormy as his military career and he went down to defeat in 1912 when he organized the Progressive party and ran for President against Taft (Republican) and Woodrow Wilson (Democrat).

Teddy Roosevelt, like Andrew Jackson, was a colorful fighter and will always be remembered by his countrymen. Many military men have served their country as well, or better, but we doubt that any will have so thoroughly captured the imagination of the American people as did Theodore Roosevelt.

Perhaps the above information is worth nothing, but to say the least, it is interesting. Of a total of 35 presidents more than half have served in the armed forces of this nation.

—HB—
And then there's the story about the prison inmate who was asked by the prison librarian: "What are you reading?" "Nothing much," replied the inmate, "Just the usual escape literature."

HEAR DUTIES DETAILED — Growing demands for Red Cross service to families of men in the Viet Nam combat area, call for new responsibilities of local committees, members of the Deaf Smith Chapter's committee on service to military families were told Tuesday. Mrs. Fay Rives, consultant in this territory on service to military families, and Dick Strayer, National Red Cross representative, both from Amarillo, were here to tell of duties of the Red Cross, chiefly as a

means of communication between servicemen and their families; functions of the local committee and practical procedures in various cases. Listening intently to the speakers are, top photo, Mrs. Loyd Bridges and Mrs. Magdalene de la Rosa, and below, the Rev. Gene Brink, the Rev. B. L. Davis and Dr. Bruce Beene. Other committee members are Mrs. Will Walker, Cecil Braly and the Rev. Gene Suttle of Dawn.

First Baptist Revival Slated For Next Week

A week of revival services will begin in First Baptist Church Sunday, with the Rev. F. C. Bradley, pastor of First Baptist Church of Floydada, as evangelist.

Services will be held daily at 10 a. m. and 7:30 p. m., with the public invited, the Rev. B. L. Davis, pastor, announces. A nursery will be open for small

children.

The evangelist, who will be assisted by song leader Joe Whitten of Tullia, left a business career to preach at Brownfield in 1950. He received a BA degree from Howard Payne College in 1953 and attended Southwestern Baptist Theological Seminary at Fort Worth.

A trustee of Wayland Baptist College, he has served on the Texas Baptist Executive Board. He is a veteran of World War II, having served as a naval aviator four years, 18 months in the South Pacific.

Whitten is music and youth director at First Baptist Church of Tullia. Born and reared at Muskogee, Okla., he is a graduate of West Texas State University.

WITH A REAL LIVE HORSE GREENSBURG, Kan. (AP) — Bob Martin figures it was horse play that broke his toe.

He was examining a horse's hoof when the animal kicked him in the leg.

Martin retaliated with a well-placed kick of his own which broke his toe.

HEREFORD

At The

TRI-STATE FAIR

Many Deaf Smith County people enter Amarillo Tri-State Fair exhibitions each year. Among those entries noticed early this week by Hereford Brand photographer were those of Cheryl Cole who entered a pie, Trotter farms with berkshire hogs, the county exhibit, Rod Brooks with a Hereford, Jimmy Robinson with milo, and Angel Studios with portraits.

Veterans Liable For House Loans

Texas veterans who have received GI loans for the purchase of homes were reminded today that they remain personally liable on their note and mortgage when they sell their homes if the new buyer merely continues the payments on the GI loan. Jack Coker, manager of the Veterans Administration Regional Office advised veterans that liability continues until the loan

is paid in full or until veterans are personally released by the VA on the obligation. "The VA has guaranteed and approved many home loans in the area under our jurisdiction," Coker said. "We have experienced cases where veterans have sold their properties and were led to believe they had no further responsibility for the mortgage debt."

He warned veterans who may be behind in their payments due on GI loans to be very careful before agreeing to offers by strangers to make up their back payments if the veteran will sign contracts.

Coker said if such a proposition is made, veterans should ask the holder of their mortgages or the Loan Guaranty Division of the VA Regional Office for advice on the validity of the offer.

He stressed that the veteran remains personally liable for the payment of his GI loan if it is not paid by someone else. Even though the buyer takes over the

Letter To The Editor

It could of been a child. Would you of driven on off and left it behind as you did my boy's collie dog? At 13th St and Long on the 16th of this month there was one brown and black dog already hit and dead, and our dog looked to see why a dog was there. I don't think anyone would want to hit him as big as he is. It broke his left back leg and we had to take him to Can-

yon to have surgery and a pin put in his leg, \$60 and who can afford to put that out on a dog? But have you ever seen a child when his pet is hurt? They got him when he was a baby and for 5 1/2 years he has been by their side, unless they are in school. So when you drive down this busy street, look and be careful, as the next time you hit something it might be one of our children as we have a large neighborhood of children.

Mrs. A. J. Dickens
403 Long
Hereford

The operation of a pulpwood truck represents an average of \$25,000 annual business to the community in which it operates.

SURGICAL HANDWASHING PASSE
 Surgical hand washing before surgery joined the boiling of buckets of water before home delivery of a baby — out of date
 Dr. C. W. Walter of Peter Brigham Hospital, Boston pointed out that new disinfectants and germicides largely have replaced thorough scrubbing with hot water and soap. Although there is resistance to the new practice, Dr. Walter stated flatly that carelessness is the root of most surgical infections.

MANOR GIFT DEDICATED — Residents and staff members at King's Manor enjoy daily a memorial gift of library furniture which was dedicated at the Founders Dinner Monday evening. The handsome walnut tables and chairs were presented by Mrs. J. W. Houston, a Manor resident, as a memorial to her husband. Shown in the upper picture are Miss Lillian Hostetler, seated, and Mrs. Anna Blake. In another corner of the room, lower picture, are Mrs. Ola Davis and Mrs. Edna Culver. Another gift dedicated at the dinner program was the lighted fountain on the Manor lawn, given by Mrs. H. E. Gillespie of Levelland in memory of her husband.

Diners Initiate Fund For Manor

Gifts which totaled almost \$18,000 were contributed to the capital fund for King's Manor, Methodist retirement home here, by 100 persons who attended the first annual Founders Dinner in First Methodist Fellowship Hall Monday evening.

They heard an address by the Rev. W. W. Hawthorne, director of Moody House at Galveston, who spoke of the increasing concern of church people over care of the aged, and the place of such homes as King's Manor in the overall program.

Of the fund contributed at the dinner, \$3,000 will be used immediately for construction of a utility building on the Manor grounds, by vote of the board of directors. The building committee, of which J. C. McCracken is chairman, was authorized to have the work started at once.

Ceremonies for dedication of two gifts to the Manor were conducted as part of the Founders program. Furniture for the library was given by Mrs. J. W. Houston, a resident of the Manor, and a lighted fountain on the grounds is the gift of Mrs. H. E. Gillespie of Levelland, both as memorials to their husbands.

The Rev. Charles Lutrick, Amarillo Methodist District Superintendent directed the dedication, assisted by Dr. Vernon N. Henderson, associate executive secretary for the Methodist Conference Council, Lubbock.

The Rev. Clifford Trotter,

First Methodist pastor, was master of ceremonies at the dinner and others with leading roles in the program and business session were Walker Watkins of Rails, president of the King's Manor board of trustees; Dr. J. O. Haymes of Lubbock, past president; Dr. Luther Kirk, superintendent of the Pampa Methodist District, and Dr. Don Davidson, director of the Manor.

Vocal solos were by Mrs. Richard Jackson with Mrs. McCracken as piano accompanist. Guests were present from Strat-

ford, in the north Panhandle, Andrews, at the southern border of the Northwest Texas Conference, and 14 towns between.

Manor residents held open house all day Monday, as visitors here for the dinner dropped in to inspect the home. The reception rooms were bright with flowers, some from the Manor gardens and some sent by friends; arranged by Mrs. Clara Shore and Mrs. S. S. Williams.

MEETINGS ATTENDED

Dr. Don Davidson, director of King's Manor retirement home here, is in Austin today attending a day-long workshop conducted by the Texas State Welfare Association. He went to Austin Tuesday and was present yesterday for a meeting of the directors of the Texas Association for Non-Profit Homes for the Aging.

Espanola Prospects For Forest Products Good

A study published by the U. S. Department of Agriculture's Forest Service, Southwestern Region, says the forest resources of northern New Mexico could support a wood pulp and paper-making industry and that Espanola would be a likely plant site.

Regional Forester William D. Hurst said in Albuquerque the report, "Pulp and Papermaking Opportunities in Northern New Mexico," was compiled by Rudyard B. Goode, University of New Mexico associate professor of business administration.

Funds for the Forest Service study came from the Northern Rio Grande Resource Conservation and Development Project which was launched to attract economic activity to the area. Pablo Roybal, Nambe rancher and project chairman, noted that an Arizona plant similar to the one proposed for New Mexico employs 800 persons.

"An economic opportunity exists," Goode said. "The basic wood resource is adequate; water, though not plentiful, could be obtained; and most importantly, a market which is already sizable exists and is growing at a relatively fast pace. It remains for (private industry) to marshal and organize the available factors of production and demonstrate the viability of the opportunity."

The report noted that the population within 100 miles of Espanola — recommended as a plant site because of its central location and good transportation facilities — was some 425,000 with a pulp and paper consumption rate of about 288 tons per

day, according to 1965 figures. Within 200 miles of Espanola the population increases to 875,000 with a daily paper products consumption of about 595 tons. Within 300 miles the population is 2,825,000 with paper product needs totaling 1,920 tons a day.

The largest single user of paper is the newspaper industry which currently draws much of its newsprint from Canadian mills, the report said. Using the same three geographic zones the newsprint consumption in 1964 was 27, 37, and 300 tons per day.

The Espanola mill envisioned by Goode could produce at least 300 tons of paper products a day.

The study area includes all of Los Alamos, Santa Fe, and Taos counties, almost all of Rio Arriba, and most of the timber resource areas of Bernalillo, Colfax, Mora, San Juan, San Miguel, and Sandoval counties. National Forest land, including the Santa Fe, Carson and part of the Cibola National Forests, accounts for almost half of the study area. A similar amount is held by the State and private individuals. The remainder is within Indian reservations.

The New Mexico Department of State Forestry surveyed the forest resources on State and private land. The Forest Service supplied data on the National Forests. The unreserved commercial forest land within the study area totals 3.1 million acres of ponderosa pine, mixed conifers, and aspen. The only hardwood in significant quantities is aspen. The study notes that much of the presently un-

used timber is of low quality and generally small, making it especially good for pulping.

The Forest Service estimates that the study area land could supply 136,000 cords of pulpwood per year for 20 years and 111,000 cords per year thereafter.

The unused residues from sawmills are a second large source of pulping materials. The study said the area sawmills in past years could have provided annually 71,000 units (equivalent to cords) of wood chips made from the residues of lumber production. Another 21,000 units could have come from lumbering operations in Colorado near the study area.

The pulp sources listed, the report emphasized, could be vastly expanded by adding dead and cull trees larger than the pole timber size normally cut for pulp. Another major source would be logging residue left in the forest and a vast amount of aspen too large to be classed as pole timber. The report notes that if all sources were used the number of cords of pulp-

Cookbook Sales Project Begins In H.D. Club

Cookbooks to be sold as a fund-raising project for Young Homemakers Home Demonstration Club were distributed to members at this week's meeting in First National Community Room Tuesday morning. Mrs. Carl Armstrong was hostess.

Mrs. Charles Brown presided, and appointed Mrs. Lloyd Smith and Mrs. Lee Roy Burges to serve with her on a committee to nominate 1967 officers.

The program was by Mrs. Argen Draper, County H. D. Agent, who described new types of cotton fabrics, listing advantages and disadvantages of permanent-press materials now on the market.

She stressed the selection of correct sizes of garments in this fabric, and the need for care in laundering.

Mrs. Max Rieman was welcomed as a new member of the club. Others present were Mmes. Kenneth Bryant, J. R. Watson, Tom Crawford and John Hammett.

SPECIAL OCCASION — Girls of the Bluebird Group led by Mrs. Jack Allen form a semicircle and join hands to sing the closing song at a ceremony in Community Center Tuesday evening marking their "fly-up" to become a Camp Fire Girl group. One end of the long semicircle was caught by the camera.

le material available would number in the millions.

Next to pulpwood, the report said, "water is likely to be deemed the most important (resource) and the one generating the most difficulty." However, the report added, "sufficient supplies are present. Arranging for the transfer of water from present uses to new ones will be the basic problem."

The problem of waste disposal also is discussed by the report. It concludes that while preventing stream contamination is a

"vexing matter," technology can be expected to provide relief.

No problems were anticipated in securing labor, power, and chemicals needed for the pulping process.

The report has been distributed to paper industry leaders throughout the Nation. Copies are available from the U. S. Department of Agriculture's Forest Service, Southwestern Regional Office 517 Gold S. W. Albuquerque, New Mexico, 87101.

ONE MINUTE PLEASE

THE CHURCH I LOVE . . . LOOKS FORWARD TO OUR RESURRECTION

"Lo! I tell you a mystery. We shall not all sleep, but we shall all be changed, in a moment, in the twinkling of an eye, at the last trumpet. For the trumpet will sound, and the dead will be raised imperishable, and we shall be changed. For this perishable nature must put on the imperishable, and this mortal nature must put on immortality." (I Corinthians 15:51-53)

"But some one will ask, 'How are the dead raised? With what kind of body do they come?' You foolish man! What you sow does not come to life unless it dies. And what you sow (the seed) is not the body (the stem, leaves and flower) which is to be, but a bare kernel (seed), perhaps of wheat or of some other grain. But God gives it a body as he has chosen, and to each kind of seed its own body." (I Corinthians 15:35-38)

On "the first day of the week, Mary Magdalene and the other Mary went to see the sepulcher" where they buried the Christ after he died on the cross. . . . "The angel said to the women, 'Do not be afraid; for I know that you seek Jesus who was crucified. He is not here; for he has risen, as he said. Come, see the place where he lay.'" (Matthew 28:1-6)

After his resurrection, Christ simply appeared in a room with the doors closed where the apostles had gathered. Yet he was recognizable, for he showed them the nail prints in his hands and the place where the sword had opened his side. (John 20:19-29)

Gravity could not hold the Christ, for he later ascended out of their sight into heaven. (Acts 1:6-11)

"But if there is no resurrection of the dead, then Christ has not been raised; if Christ has not been raised, then our preaching is in vain and your faith is in vain. . . . If Christ has not been raised, your faith is futile and you are still in your sins." (I Corinthians 15:13-17)

"Beloved, we are God's children now; it does not yet appear what we shall be, but we know that when he appears we shall be like him, for we shall see him as he is. And every one who thus hopes in him purifies himself as he is pure." (I John 3:2, 3)

Adrian News

By ANN BEAVERS
Brand Correspondent

Mrs. Earl Croff fell and broke her hip in her home Friday and was taken to the Hereford hospital, where she underwent surgery Saturday morning. She is doing well but will have to stay in the hospital for a while.

W. M. U. observed a week of prayer for state missions when they met Monday at the Baptist Church and had the week's programs.

Visiting over the weekend with the Bob Crawford family was Mr. and Mrs. J. E. Sorrells of Bootleg, Mr. and Mrs. A. L. Sorrells of Wellington and Mrs. Jaunita Royal and daughters of Vega.

Mrs. Irene Brown and Davis Brown attended the funeral of a relative in Silverton Sunday.

Mr. and Mrs. Bob Caldwell took Mrs. J. R. Caldwell of Bovina to Big Spring Sunday. She went from there to Curio with her sister, Mrs. Taylor, to attend the funeral of their brother, Truman Claggett.

Mrs. Bob Caldwell visited last week in Hodgens, Okla. with her mother, Mrs. W. M. Wilson.

Howard Pridmore of San Diego and Mrs. Opal Moore of Occochee, Calif. spent last week visiting their brother and family, the Grady Pridmores.

Mrs. Imogene Parker, Mrs. D. P. Doherty and Mrs. Lola Perry visited Mrs. Earl Croff in Deaf Smith County Hospital Monday. Mrs. Croff is in Room 109.

A. R. Clay, 88, of Shamrock, died Monday in the hospital. He was the father of Mrs. Lottie Hicks, a former school teacher of Adrian.

Donna and Karla Patterson of Friona visited in the Adrian school Friday. They are former students.

Dooley Fincher and Jackie Kidder of Denver are visiting friends and relatives in Adrian.

Mr. and Mrs. L. E. Wagner visited in Eastland, Okla., and Rising Star with Mr. and Mrs. Ross Hammit, in Sweetwater with Mr. and Mrs. Clyde Holiday, Mrs. Brison, and Mr. and Mrs. A. A. Fincher for the past 9 days.

Weldon Reno of Panhandle was in an Amarillo hospital last week, but is home now. Mr. Reno is a former Adrian school Superintendent.

Glenn King, 83, of Twitty, father of an Adrian woman, died Saturday of a heart attack. He had lived in Wheeler County since 1908. He was a retired farmer and a former Wheeler County Commissioner.

Survivors include his wife; sons, F. A. of Hereford and Richard of Graves, Okla.; daughters, Mrs. Clarence Archer of Mercedes, Mrs. Farris Kromer of Adrian, Mrs. H.R. McCandless of Dallas and Mrs. J. C. Price of Borger; 13 grandchildren and 5 great-grandchildren.

Funeral services were held Sunday in the Shamrock Church of Christ. Burial was in Shamrock Cemetery.

Mr. and Mrs. E. E. Allen visited their grandchildren, Chester and Keith Wood, at the children's Home in Amarillo Sunday.

Mr. and Mrs. David Gamble of Ft. Worth are the parents of a son, David Wayne Jr., born Monday morning. Paternal grandparents are Mr. and Mrs. Austin Gamble of Adrian.

Mr. and Mrs. Jimmy Smithers of Hereford are the parents of a daughter, Shari Jean, Mrs. Smithers is the former Truby Benefield of Adrian.

CADETS HONORED — At an awards presentation Monday evening, three Hereford CAP cadets received new rank. From right Neal Kelley and Teresa Rudd receive Airman 2nd Class ranks while Mark Robertson becomes Cadet Tech Sergeant, next to the highest non-commissioned rank achievable. All three cadets received the General Hap Arnold Award in the form of a ribbon. Also honored was Bennie Womble, 1st Lieutenant and senior member who had achieved Mission Pilot 1st Class rank. It is necessary to pass two written exams, participate in five search and rescue mission and fly a minimum of 1000 solo hours to obtain this award. Curtis Traweck, 2nd Lieutenant, has also achieved this award and Dr. Wes Owen, 1st Lieutenant, has obtained the Mission Pilot 3rd class award. (Hereford Brand Photo)

Heavy Damages In Rash Of Accidents

Four accidents incurring almost \$1,000 damage to eight vehicles occurred last weekend. Three of the wrecks were Sunday events while one occurred Saturday night.

The Saturday evening wreck involved Joseph Bowery III, 18 Rt. 5 and Manuel Alonzo, 28, 210 Ave. I. The accident occurred on Park Avenue when Alonzo, driving a 1958 station wagon, came to a sudden stop. Bowery's 1964 sedan, which was going west on Park as was Alonzo, then collided with the 1958 vehicle. Alonzo, whose vehicle incurred \$100 damage, then left the scene of the accident. He reported to the police department on Monday morning to explain this action, saying that he believed no damage had been done to Bowery's vehicle.

Bowery's vehicle damage was estimated at \$200. An accident involving Emil Anton Herr, driving a 1953 sedan and Jerry Ross Bellows, driving a 1962 sedan, occurred on South 25 Mile Ave. Sunday. Seventy-one-year-old Herr, 117 Bradley Street, was going south on 25 Mile Ave., traveling in the inside southbound lane, and started to pull over into the right lane in order to make a right turn onto Bradley Street. Bellows of Vega, who was also going south, but in the outside lane, was unable to stop due to excessive speed and the two collided.

Herr's vehicle incurred \$10 damage while Bellows' vehicle damage was estimated at \$95.

The intersection at Brevard and Myrtle was the scene of an accident early Sunday evening. Both Darrell Wayne Maddox, Star Route, and Juan Jose Marroquin, 309 Adelito Calle, were approaching the intersection, Maddox on Brevard and Marroquin driving a 1958 sedan owned by Esequiel Marroquin, entered the intersection first, saw Maddox, who was driving a 1964 pickup, attempted to stop and skidded 24 feet into the intersection. Maddox saw Marroquin as Marroquin reached the intersection also tried to stop but was unable to, thus the two collided.

Maddox's vehicle received \$200 damages while Marroquin's auto incurred \$150 damage. An accident involving Dan Henry Tijerna of Nazareth, driving a 1957 sedan owned by Raymond Tijerna, and a 1956 parked sedan owned by William Lee Hubbard, 815 South Lee occurred Sunday on South Lee Street. Tijerna was traveling south on Lee, facing the parked vehicle, when his vehicle struck the parked one. Damage to his vehicle was \$50. Hubbard's auto suffered damages estimated at \$75 or more.

Continued Study Of Crime Shows DWI Upswing

In the Deaf Smith County Court the crimes committed from January through June of 1966 as compared with 1965 records showed that of the nine-teen crimes recorded, ten had decreased for this year while nine had increased.

The major increases were in driving while intoxicated cases, which were 41 this year as opposed to 26 in 1965; possession of liquor in dry area with six cases this year as compared to last year's three; and carrying a prohibited weapon of which there were six cases this year and only one in 1965.

The major decrease was found in swindle with worthless check charges, of which there were 48 in 1965 and only 27 in 1966. Another considerable decrease was aggravated assault of which there were twelve last year and five this year. Thefts recorded four for 1966 as compared with seven for 1965.

Child desertion and driving while license suspended are two relatively heavy crimes in Deaf Smith County.

Speaking of YOUR HEALTH...

By LESTER L. COLEMAN, M.D.

Readers Are Asking . . .

CAN snoring be cured?
Snoring is usually a cause of distress to the snorer, the "snoree" and sometimes to the neighbors. The social aspects of snoring are almost always worse than are the medical and physical effects of the condition.

Dr. Coleman

There are some anatomical conditions that are known to be responsible for snoring. Large adenoids in children, polyps of the nose and allergies that block the nose can be responsible for snoring. There are other less likely reasons.

When an underlying cause is found it should, of course, be removed.

Unfortunately, many people have been driven by their anxiety about snoring into long and expensive treatment with gadgets and devices that are worthless and sometimes hazardous. Some have even undergone questionable surgery in an effort to find the elusive cure for snoring.

If, after a complete examination, no findings are present patients must simply accept this condition as a nuisance and pattern their sleeping habits around it.

Is erysipelas a dangerous condition? What causes it?

Erysipelas of the skin was once considered a very severe infection. It occurs on the face and legs and is characterized by an area of redness and swelling of the skin.

The skin feels hot and is tender.

The border of the red area has tiny offshoots which point in the direction in which the erysipelas is spreading.

Erysipelas is caused by a form of the streptococcus bacteria which enters the skin that has been broken or injured. Today erysipelas is readily controlled and cured by the antibiotics and the sulfa drugs.

Can high blood pressure be reduced by the rice diet? Is it still being used?

The past ten years have brought many scientific advances for the reduction of high blood pressure. Newly developed drugs have been extremely successful in regulating most forms of high blood pressure.

Before these drugs were discovered, the rice diet was used successfully in many cases. The purpose of the rice diet was to reduce cholesterol in the blood and salt in the body tissues. With the rice diet came a marked reduction in weight so important for the control of high blood pressure.

The gratifying results with drugs has reduced the need for the rigid rice diet as the only means of control of high blood pressure.

SPEAKING OF YOUR HEALTH—Air pollution is a threat to your health. Help fight it with legislation.

Dr. Coleman welcomes letters from readers, and, while he cannot undertake to answer each one, he will use questions in his column whenever possible and when they are of general interest. Address your letters to Dr. Coleman in care of this newspaper.

Golden Wedding Dinner Held By Parvin Family

A family reunion in the home to Mr. and Mrs. H. C. Parvin, 235 Ave. A, celebrated the couple's fiftieth wedding anniversary last weekend. Seven of their ten children and a number of other relatives were present for the reunion and dinner.

Mrs. Parvin is the former Miss Annie Mae Payne. She and Mr. Parvin were married at Greenville Sept. 16, 1916. They have lived in Hereford the past 20 years.

Children of the Parvins who were present, with their families, were Mrs. Herbert Goett-

sch and Noel Ray Parvin of Hereford, Mrs. Bill Billingsley of Hart, Mrs. Clyde Carr of Wichita Falls, Mr. E. A. Mayfield of Dimmitt, J. C. Parvin of Friona and the Rev. Bill Parvin of Pleasant Hill, N. M.

The other children are Mrs. G. E. Lovelady of Wichita Falls, Sgt. R. L. Parvin of Leesville, La., and Mrs. G. O. Barefield of Florida.

Also present for the Golden Anniversary observance were Mr. and Mrs. Travis West and children, Mr. and Mrs. R. L. Swaffar, Mr. and Mrs. Albert Treadway and B. B. Noyes of Hereford; Mrs. David Fowler and children of Sunset, Mrs. Charley Short and children of Friona, Mrs. Wilber Keener and children of Pleasant Hill, Bobby Noyes of Dalhart.

Letter To The Editor

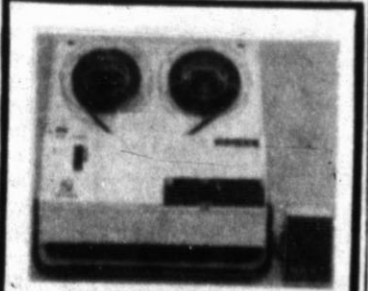

The parade opening the Tri-State Fair for 1966 has come and gone. I was surprised and disappointed to see that Hereford was not represented by its fine "Big Domino Band."

I watched the array of horses, cars, mediocre bands pass by, just waiting for the finest band of all, ours. People from all over the panhandle lined Polk Street, here was the chance to show them all what we in Hereford can do with hard work and pride. I waited for the finest band in the panhandle or maybe even the state to march by, but as the street sweepers followed along, I knew the chance to "show em" and a little bit of my pride was gone.

Whats the old saying about hiding your light under a bushel basket?

Sincerely,
Paul B. Schroeter

SLOWED BY RAIN

Ensilage Cutting Is Nearly Finished

LAST GO AROUND — Silage harvest in the Hereford area picked up again this week after several days off because of rain. Caught Monday were workmen cutting the crop for the Hereford Feed Yards on land about one-half mile west of the yards. Some area farmers already have completed their silage harvest. (Hereford Brand Photo)

The Deaf Smith County silage harvest, halted for nearly five days by persistent rains, gathered full steam this week and is expected to be complete by the end of September.

Silage cutters began cutting corn for the feed yards Monday after having been idle since Sept. 14 when the first rains began.

Joe Easley of Easley Feed Yards Inc. said his company has contracted some 300 acres this year and has harvested "probably 40 per cent of it." The acreage, said Easley, is contracted with Virgil Marsh, who's crop is 12 miles west and 5 miles south of Hereford, and Ernest Flood, who farms 4 miles west of the city.

Richard Jagels, manager of Hereford Feed Yards, said approximately 1,400 acres of silage had been contracted by the feed yards this year.

Jagels said their harvest was about three-quarters done and should be completed by the end of the month. He said larger farmers contracted with the feed yards include the Chester Clark Estate, Dave Downey, Leroy Bodkha of the Frio community and the Reinauer Bros.

David Brumley, who farms

southeast of Hereford, said he had finished harvesting his 68 acres of corn silage Monday. Contracted to the Hertz Livestock Industry, the crop had been planted about May 12.

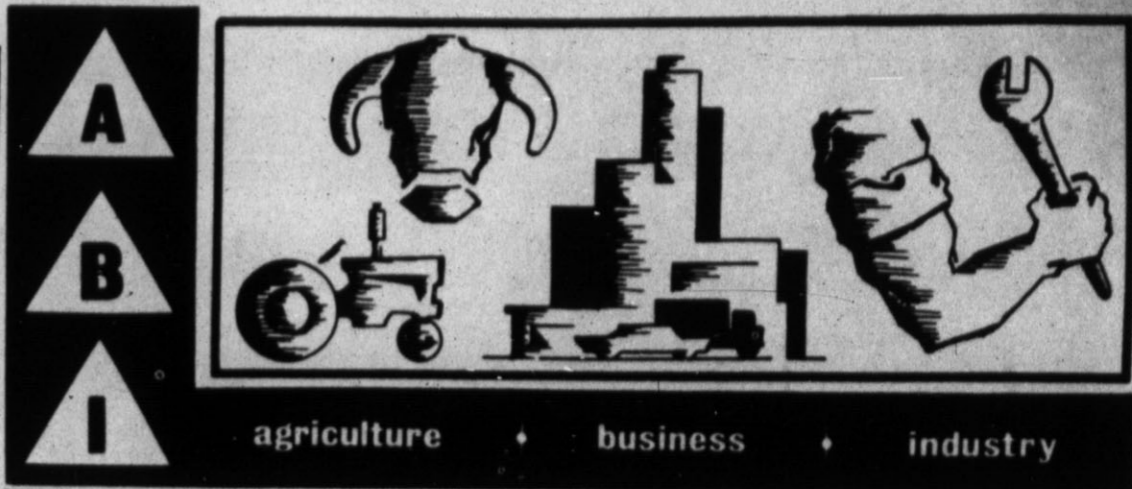

Brumley said he likes to plant the silage because it offers a diversification in his farming and better efficiency. He also has 27 acres of corn yet to pick, and acreage in grain sorghum, potatoes, cotton, soy beans and wheat.

Silage yield for Brumley was approximately 23 tons an acre, for which he received \$6.50 a ton delivered to the silage pits at the feed yards.

Brumley added that he would like to plant sorghum for silage but the buyers in Hereford prefer corn. "I think the sorghum just needs use to be accepted," he said.

One of the largest silage yields in the Hereford area this year was grown by Charles Packard on 52 acres about 4 miles southeast of the city. Packard's crop averaged 32 tons per acre and was sold several weeks ago.

Silage, explained Faust Collier of the Agricultural Stabilization and Conservation Service, is feed for livestock, usually planted by the farmer under contract with feed yards.

SECTION TWO HEREFORD, TEXAS 79045, THURSDAY, SEPTEMBER, 22, 1966

TEXANS IN WASHINGTON

Texas's Third In Nation With Agricultural Sales

By **TEX EASLEY**

WASHINGTON (AP) — Texas farmers and ranchers received \$2.4 billion on sales of their crops and livestock in 1965, an amount exceeded only by California and Iowa.

A recent Agriculture Department report shows sales of livestock in Texas last year brought \$1,124,000,000 and sales of crops brought \$1,346,000,000. The combined receipts in California totaled \$3.7 billion and in Iowa, \$3 billion.

In sales of livestock, Texas receipts ranked fifth, being exceeded by those in Iowa, Cali-

fornia, Illinois, and Minnesota. In crop receipts, however, Texas ranked second only to California, with Illinois, North Carolina, Florida trailing. Iowa ranked sixth in crop sales.

The report said receipts for all states totaled \$39.3 billion last year. Alaska was at the bottom with \$4 million. Livestock sales bringing in \$3 million and crops \$1 million. Rhode Island ranked 49th with receipts totaling \$21 million.

In addition to the receipts from sales, Texas farmers and ranchers also got \$198,814,000 in federal funds because of participation in price support programs. In only two other states were the payments larger—\$228 million in Iowa and \$207 million in Kansas.

The dollar breakdown of the conservation and crop price support programs in Texas last year (in millions): Conservation \$20.3; sugar act, \$1.2; wool act, \$2.9; soil bank, \$19.9; Great Plains conservation, \$2.9; cotton domestic allotment, \$14.9; feed grain diversion, \$74.0; feed grain price support, \$29.8; wheat diversion, \$2.4; wheat marketing certificates, \$30.

The federal subsidies to agriculture in Texas rose from a total of \$20.5 million to \$198.8 million in the decade from 1955. One set of figures in the report dealt with "realized net farm income."

"This is the most representative measure of farm income actually realized in a calendar year by farm and ranch operators, and is the primary measure of changes in their income position," the report said.

"It omits from consideration the value of any change in the inventory of crops and livestock held by farmers."

The realized net income per farm and ranch in Texas in 1965 was put at \$4,622, as compared with a U. S. average of \$4,210. This compared with a Texas average of \$2,455 in 1955 and a national average of \$2,417 that year.

Texas' neighbor states showed these comparable realized net income averages for 1965: Arkansas, \$5,095; Louisiana, \$3,569; New Mexico, \$5,969; Oklahoma, \$3,099.

In addition to the cash receipts the report noted that the 1965 home-consumed crops and livestock had a total value of \$923 million for the country as a whole. In Texas the value was placed at \$37.8 million, including \$25.4 million in livestock and \$12.4 million in crops.

AGRICULTURAL BRIEFS

NEW PLANTS FROM OLD — Air layering is a means of inducing root formation on the above ground portion of a woody plant while the limb or branch is still attached to the parent plant. It is an interesting hobby, points out E. E. Janne, Texas A&M University Extension landscape horticulturist, for the individual who likes to work with plants. It, he adds, provides a means for salvaging interesting but overgrown woody specimens frequently found growing about the home.

Fertilizer Men Attend Workshop

Don Waters and Guy Ford of Hereford Butane Inc. attended a Smith-Douglass sales workshop at the Underwoods Bar-B-Q last week.

Purpose of the meeting was to learn more about fertilizer, farm chemicals and nitrogen needs of crops grown in the Hereford area. They attend a Smith-Douglass workshop each year to keep up to date on the latest agricultural practices, in order to recommend programs to farmers in the Hereford area that will grow more profitable crops.

Don Waters said they are "trying to keep up with the trend" so that they may better serve our customers and our community." He said new fertilizers and trace elements in present fertilizers were discussed and studied.

Irrigation Company Supplies Pipe For Various Systems

Gifford-Hill Western Inc. moved into Hereford in 1953, a branch office of an older firm established in Dallas in 1926.

First West Texas office was located in Lubbock (1949).

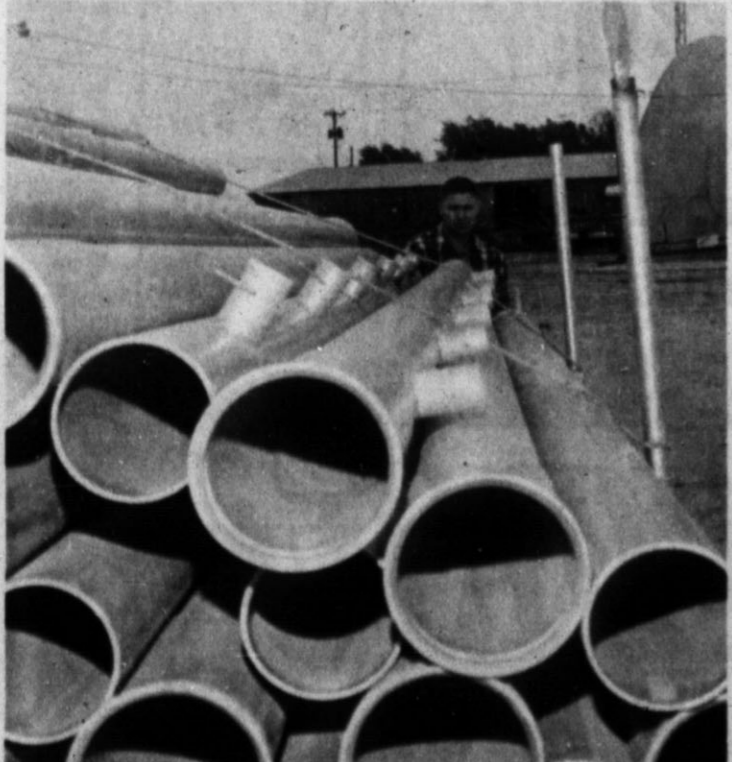

The company is a natural for the Hereford area since their main concern is the manufacture and installation of irrigation in concrete pipe, the company does install plastic and aluminum systems.

O. "Wert" Wertenberger has had more years of service at Hereford than any other employee. Harold Banks began the Hereford division as salesman and manager, Jim Wiman, now in Farwell, was next manager, followed by Wayne Newson, present division manager.

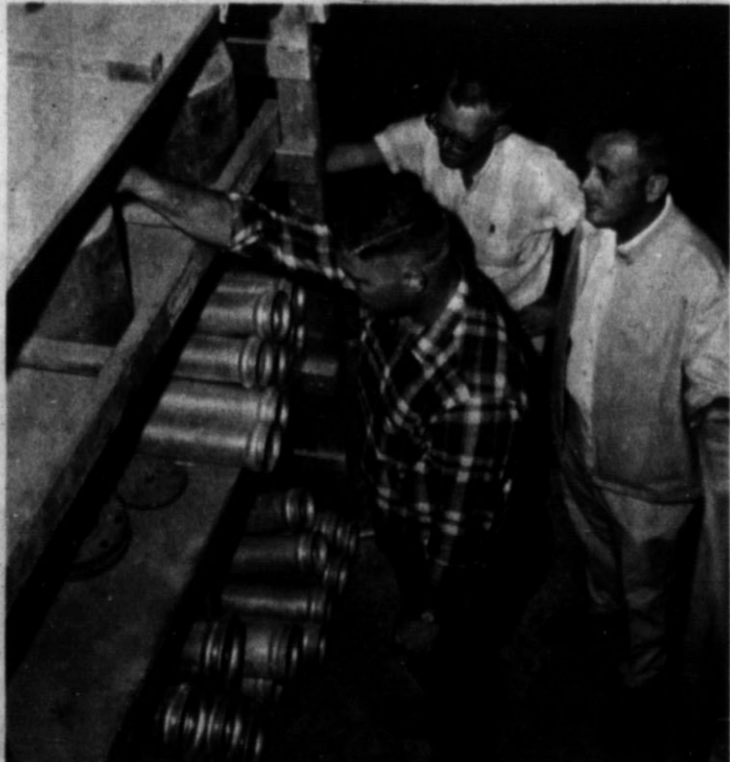

The company operates divisions in Texas, Oklahoma, New Mexico, Kansas, Colorado, Ne-

braska and Arizona. Objectives outlined by the company for all state divisions are the same: supplying quality products at competitive prices, returning prices to shareholders and offering employee opportunity.

The present sales force consists of Reuben Knox, Dave Honea, John Cranford and Donald Webb. Webb lives in Dimmitt and is in charge of the Dimmitt sales office.

PIPE, PIPE, PIPE — Dave Dettman, who works at Gifford-Hill Western, Inc. surveys some of the aluminum pipe used by the company in their irrigation service (Hereford Brand Photo)

INVENTORY — David Dettman, Don Walser and Dave Honea look over irrigation supplies kept in stock by their company, Gifford-Hill Western, Inc. which serves several western states. (Hereford Brand Photo)

On Job Training Proving Successful In Many Areas

WASHINGTON, D. C. — "The business community and American labor have cooperated in making MDTA on-the-job training one of the most exciting and successful aspects of our Manpower policy," Secretary of Labor W. Willard Wirtz reported in a memorandum to President Johnson.

In a statement response, the President said he welcomed the "fiscal integrity" and the "individual dividends" of the program.

"On-the-job training is an example of a sound economic and social investment. It illustrates clearly how the Nation and the individual may benefit from the wise use of the national wealth," the President said.

Secretary Wirtz reported to the President that the average trainee in the on-the-job training programs developed by the Labor Department is returning the total cost of his training to the U. S. Treasury in less than two years.

Other facts concerning MDTA on-the-job training, reported to the President by Secretary Wirtz, are: —The average MDTA on-the-job trainee earns \$57 a week during 14 weeks of training, and \$73 a week as a fulltime worker after his training. Thus the average trainee earns \$3,572 the first year.

—The cost to the Government of regular on-the-job training averages about \$500 a trainee. Some cost more, some less.

—According to the Internal Revenue Service, income taxes on earnings of \$3,572 range from \$419 for the trainee with no dependents to \$74 for trainees with three dependents.

—More than 45 percent of the trainees are single; another 15 percent claim only one dependent; 14 percent have two dependents; 12 percent have three, and the remaining trainees have four or more.

—Of the 182,000 on-the-job trainees approved since the program began in 1963, the incomes of nearly 163,800 are taxable, after deductions.

—Of the 182,000 men and women who have had or are now being given on-the-job-training, 163,000 are taxable, after deductions.

—The Federal Government allocated \$95.8 million for their training.

—The Federal treasury has so far received back \$50.5 million in taxes from these trainees, or better than 53 percent of what was spent on them.

Agriculture Wages Rising

The Senate on September 13 passed a new minimum wage bill bringing agricultural workers under a federal minimum wage for the first time in history.

The bill passed the Senate by a vote of 57 to 17 under what proved to be the able floor management of Texas Senator Ralph Yarborough. It now goes to President Lyndon B. Johnson who will doubtless sign it into law. Texas Senator John Tower voted against the measure.

The minimum wage for those farm workers covered begins at \$1.00 an hour on February 1, 1967, goes to \$1.15 February 1, 1968 and to \$1.30 on the same date in 1969. It will remain at \$1.30 an hour until the law is again amended, but both House and Senate advocates of the measure have made it clear that the ultimate goal is to bring the

agricultural minimum up to the industrial minimum.

Wages of industrial workers now covered by the minimum wage under the new law will be not less than \$1.40 as of February 1, 1967 and \$1.60 beginning February 1, 1968.

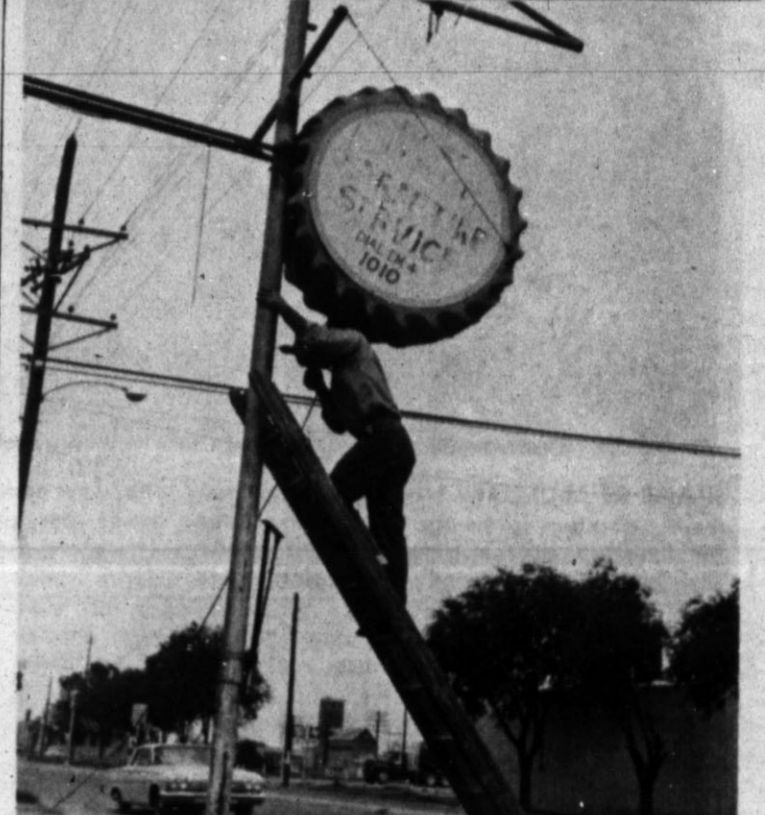

Newly covered non-agricultural employees are to begin at \$1.00 per hour on February 1, 1967 and go up 15 cents per hour per year to \$1.60 an hour in 1971.

Not all agricultural workers are covered in the legislation — only those working for an employer who used more than 500 man-days of agricultural labor during any calendar quarter of the preceding calendar year. "Man-Day" means any day during which an employee performs any agricultural labor for not less than an hour.

The effect, of course, will be felt on virtually every farm which uses hired labor. Four classes of agricultural employee exemptions are spelled out:

1. Employees who are the parent, spouse, child or other member of the employer's immediate family;
2. Employees (a) employed as a hand harvest worker and paid on a piece rate basis in an operation which has customarily been paid on a piece rate basis in the area of employment, (b) commutes daily from his permanent residence to the farm and (c) has been employed in agriculture less than 13 weeks during the preceding calendar year;
3. Employees (other than employees in 2-a above) who (a)

MANY PLANT DISEASES — Area Extension Plant Pathologist Robert W. Berry at Lubbock says we can no longer consider moisture and plant food conservation as the only reason for controlling weeds. We must also realize that in many instances good weed control is also a good plant disease control practice.

HEREFORD GOING FRENCH? — Bob Wright, an employe of the Shook Tire Co., 128 W. 1st, was spotted Monday putting up a sign announcing the sale of Michelin tires. Made in France, the tire has three layers of meshed steel wire and is guaranteed for the life of the car. The Shook Tire Co., which purchased McClure's A-1 Tire Service about two weeks ago, also will handle Fisk tires. The Michelin tire went on sale Monday. (Hereford Brand Photo)

Mrs. King Opens Antique Shop At Her Country Home

Mrs. F. H. King, two miles north on Highway 385, has recently opened an Antique Shop. The shop, located directly next to the King home, is in the office portion of her husband's business, King Sales. It will be operated by Mrs. King Monday through Saturday from 8 a. m. til 6 p. m. and she stresses that if she is not in the shop, customers can probably find her at home.

Mrs. King says that she became interested in antiques only last summer when she and her husband took their daughter, Denise, to Denton for summer school. Stopping at an antique shop to use the telephone, she and her daughter were fascinated by the lovely items in the shop. Since that time she has been frequenting antique shops every chance she gets, says Mrs. King.

Mrs. Dale Young, a close friend of Mrs. King, is also an antique enthusiast. Mrs. Young enjoyed accompanying Mrs. King on some of her antique expeditions as they searched for an antique jar for Mrs. King. Shortly after this introduction to antiques, Mrs. King decided that she wanted to open a shop in Hereford.

Working as secretary, bookkeeper, receptionist, etc. for her husband's business seemed very dull to her, thus she devised this plan to make her job more enjoyable. Her husband, who was quite interested in her suggestion had the office remodel-

See **KING** Page 2

FIRST CUSTOMER — Mrs. F. H. King (right) and Mrs. Dale Young, first-customer in Mrs. King's antique shop, stand under one of the lovely items which may be found in the newly opened shop — a crystal chandelier. Mrs. Young holds the small vase which she purchased.

SILAGE IN ABUNDANCE — While one truck Monday about one-half mile west of the waits, another is being filled with silage yards on land owned by the company. for livestock at the Hereford Feed Yards. (Hereford Brand Photo)
The harvesting pictured was being done

King . . .

(Continued from Page 1)

ed and built a room behind it large enough to house the antique collection. Mrs. King looks forward to the trade, both local and tourist, that she hopes the shop will bring in.

Naturally it will be necessary to make enough money from the antiques to keep it running, plus the cost of advertising, etc., however, Mrs. King says they will not be dependent on it for a living. The primary business is still, and will remain, King Sales. The major purpose of the shop is to make her other job more interesting and enjoyable.

The collection in the King Antique Shop is quite varied. Most of the pieces are relatively small. Among the larger pieces are a couple of china cabinets, a commode (a cabinet-type wash stand), a few small tables, lamps and an exquisite crystal chandelier.

Among the smaller items are a lovely white old-fashioned wash pitcher with gold accents, the wash bowl, etc., which match it, various assortments of plates, etc.

Also interesting is the history behind these antiques. Mrs. King is quite enthusiastic about what she has learned, from books and dealers. She feels that the culture of bygone days must truly have been gracious and impressive. For instance, once gracing the tables of wealthy homes were individual "salts" which were used by each person. Also common were individual butter dishes. A pickle caster was an elegant jar-of-a-sort in the table arrangement to hold pickles. Many such unusual items may be found in the antique shop.

Mrs. King hopes later to furnish the outer office in antique decor purchasing antique chairs a clock, round table, hat rack, etc.

Mrs. King says "I want people to come out and look; I don't care if they don't buy anything, but just look."

The Kings have three children, Jacob, who is 19 and has attended West Texas State University, Denise, who is 18, has attended college in Denton and is presently enrolled at West Texas State University, and Renee who is 8 and attends 3rd grade at Bluebonnet. The Kings have lived in Hereford 15 years.

REPORT

Officers elected by A-O-Wa-Ki-Ya Camp Fire Group at a recent meeting are headed by Debbie Hoover as president, Rosalind Knox as president vice president, Nancy Brink secretary, Janna Balden treasurer

They farmed until about 1961 when they began leasing the land and started operating King Sales.

Mrs. King says she will be obtaining more and different merchandise all the time, improving her collection as she finds out what the buyers want.

AGRICULTURAL BRIEFS

GRAIN SORGHUM YIELDS UP AT STILES FARM FOUNDATION — For the third year in a row, grain sorghum yields on the Stiles Farm Foundation, Thrall, have been increased. Average per acre yield this year on 683 acres, reported Texas A & M University Dean of Agriculture R. E. Patterson, was 3,983 pounds. Yields in 1964 averaged 3,285 pounds and in 1965, 3,555 pounds per acre. He credits the increases to the 3-year rotation of grain sorghum, small grains and cotton — standard on the Foundation Farm; to use of adapted hybrids; weed control; fertilization based on soil tests and the overall good management practices followed by Farm Manager Calvin Rinn.

HEDGE AGAINST WINTER KILLING — Oats are the most popular small grain for winter temporary pastures but have the disadvantage of not being very winter hardy, says M. J. Norris, agronomist at Texas A&M University's Livestock and Forage Research Center at McGregor. He suggests sowing part of the winter pasture to more cold hardy small grains such as wheat, barley or rye or by planting a mixture of oats and wheat or oats and barley or ryegrass to hedge against winter killing.

and Carla Albright program chairman.

The group wrote friendship letters to former members who have moved from Hereford.

Others present were Lisa Allen, Cathy Fuller, Diana York, Debbie Hanson, Valerie Chisholm, Becky Hardin, Sharlene Powell, Shalyn Sisson and Cathy Yarbro. Mrs. E. K. Brink is group leader.

Antelope Permits On Limited Basis

SAN ANGELO — Landowners with huntable antelope populations in the 27 county Permian Basin Regulatory Area are destined to receive 308 buck and 80 doe antelope permits from the Texas Parks and Wildlife Department, according to Jack K. Parsons, regional wildlife supervisor.

He said a surprisingly large number of Permian Basin counties support huntable antelope herds including Andrews, Borden, Dawson, Gaines, Garza, Glasscock, Howard, Irion, Lubbock, Lynn Midland Mitchell, Reagan, Sterling and Yoakum Counties.

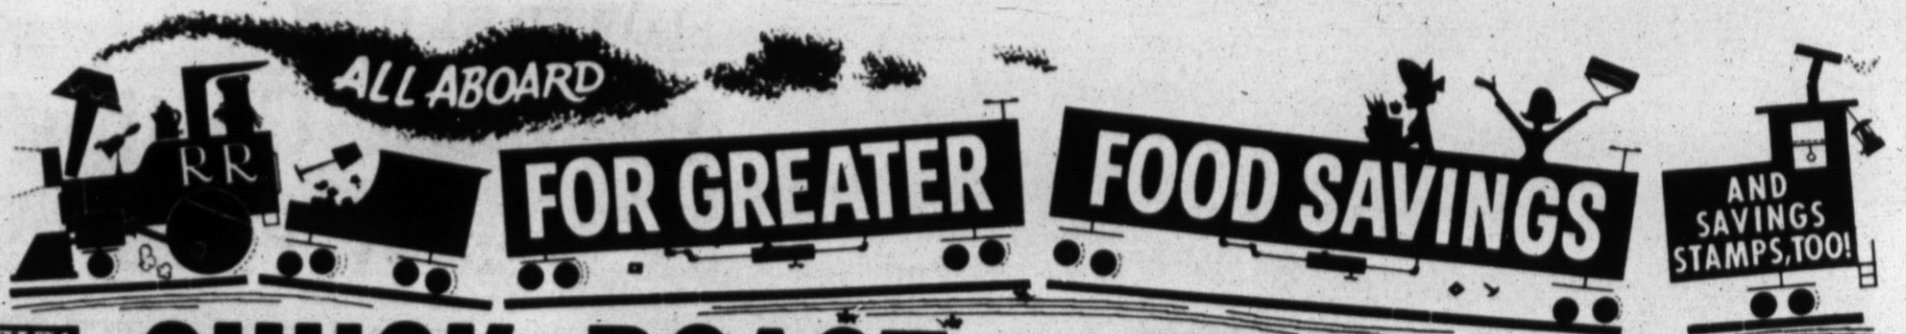

The bulk of the Permian Basin antelope permits will be distributed to landowners in Borden, Reagan, Irion, Midland, and Sterling Counties. Interested sportsmen may obtain more detailed hunting information concerning antelope hunting by contacting the San Angelo Regional Office of the Parks and Wildlife Department or the Parks and Wildlife Department District Office in Midland at 1909 West Wall.

Recent rainfall has noticeably improved range conditions throughout the Permian Basin and antelope are expected to be in good condition for the October 1-9 Permian Basin antelope season.

VALUABLE BLACK WALNUT

FRANKFORT, Ky. — The Kentucky Department of Natural Resources is trying to stem the decreasing supply of black walnut, the most valuable timber species in the state.

The department has launched a project to get 1,000,000 seedlings planted this year in hopes the supply will catch up with the demand.

German Torte Is Great

By SUE COLEMAN
Women's Editor

When Mrs. Elov Valdez visited her parents in Germany this summer, it was her first visit back to her native land since she came to the United States almost 10 years ago.

SHE WAS ACCOMPANIED on the trip by her son, who was born here, and a daughter who was a baby when she left Germany. They left last May and returned home Aug. 20. Marina is 11 years old now and Elov Jr. is 8.

The trip was more than a visit to Mrs. Valdez' old home near Augsburg. With her parents the Hereford family made a tour into Austria, seeing some of the cities and castles in the beautiful Bavarian Alps, and with her brother they went into Italy.

Other travel with members of her family took them to parts of Germany, and on their way home her mother accompanied them to Belgium and enjoyed with them an excursion boat ride on the Rhine.

MRS. VALDEZ has been a Hereford resident since 1957, when her husband was discharged from U. S. Army service and brought his German bride back here to his home town. They live at 206 Ave. K.

He was stationed in Germany five years and the couple was married during his term of service near her home. When they first came to the United States they were in Louisiana six months before Valdez' discharge.

Blonde Elizabeth Valdez spoke "some English — not much" then thought, "Oh, what use will I ever have for English?" so I dropped it."

SHE COMPLETED the usual public school course for German students when she was 14 years old, then went to business school. She was working in an office, doing bookkeeping and related work, and also attending classes two evenings a week for advanced instruction, before her marriage.

Training in housekeeping and cooking had been part of her upbringing, but she had the European girl's usual trouble in the kitchen when she came to the United States and found measuring cups and spoons which did not respect her cookbooks' call for litres and grams.

To complicate her problem, her husband likes Spanish cooking, so she learned to use unfamiliar ingredients and seasonings to please him. Her version of international cookery meets his approval, she finds, "at least he doesn't complain."

ONE TYPE OF GERMAN cuisine he does like, and so do the children, Mrs. Valdez says. They all appreciate the desserts which she especially enjoys making. A favorite cookbook details the making of cakes and cookies which are rich, elaborate and attractive, often beautifully decorated.

She gives a recipe for a torte which she admits is "some trouble to make, but worth it for

Mrs. Elov Valdez with son, who traveled too

a party, or a birthday or some special occasion." Amounts of the various ingredients are as near as she can translate from the metric measurements.

PRINZEGENTORTE
1/2 pound butter
1/2 pound sugar (1 cupful)
1 tsp. vanilla

4 eggs
Pinch salt
1 cup flour
1 tsp. baking powder.
Cream butter, add sugar and vanilla, then eggs and salt. Sift flour with baking powder and mix into the egg mixture. Spread this soft dough, divided

FROM OUR AUSTIN BUREAU

Capitol Besieged With Varied State Problems

By LARRY FUHRMANN
Two men waving their flags in front of the Texas Capitol in Austin are going to get mighty

to make eight thin layers, over the bottom of a greased round cake pan and bake in a hot oven 7 minutes. (You don't have eight cake pans? Then bake one or two at a time, says Mrs. Valdez.)

PUT THESE THIN layers together with the following buttercream filling between layers:

1 pkg. chocolate pudding
1 tsp. cocoa
3/4 cup sugar
6 cups milk
1/2 pound butter

Mix the cocoa and sugar with the pudding, add milk and cook to thicken. Stir a while after it is removed from the fire, so it will not "crust over" on top. Cream the butter and spoon the still-warm chocolate mixture into it, stirring thoroughly.

AFTER THE LAYERS are stacked, cover the torte with this icing:

1 cup powdered sugar
2 tb. cocoa
1 lb. butter
2 or 3 tb. hot water

Cream sugar and cocoa with butter and add hot water until the mixture is of consistency to spread.

chilly later this fall if they plan to continue their picket until the State legislature passes a State minimum wage law.

A part of the band of marching farm workers, the men point out that they are not seeking representation by unions, nor want anything to do with the labor organizations. Neither are they picketing just for agriculture workers, they say. What they are asking for is an across-the-board State minimum wage law, to cover all workers in the State, no matter what the condition of the business or the job of the employed person.

They want a minimum wage of \$1.25 an hour.

A symposium on language disorders, sponsored by Speaker of the House Ben Barnes, drew many to Austin Friday for the one-day event.

Speaking to legislators and other gathered in the Municipal Auditorium, five internationally recognized authorities were in attendance and later toured points of interest.

The speakers included Dr. Macdonald Critchley of London, president of the World Federation of Neurologists; Dr. Ralph D. Rabinovitch, psychiatrist and director of Hawthorn Children's Center, Northville, Mich.;

Dr. Gilbert Schiffman, state supervisor of reading in Maryland and medical psychologist at Johns Hopkins University; Dr. Douglas L. Crowther, pediatric neurologist at Child Development Center, San Francisco; and Dr. Richard L. Masland, director of the Institute of Neurological Diseases and Blindness, Washington, D. C.

The group toured the Scottish Rite Hospital, and flew to Abilene for a tour of the West Texas Rehabilitation Center before returning to Austin for the symposium.

Following the Friday program the five symposium speakers, special guests, Advisory Board members and interim House committee members met in the Main Committee Room of the House for a discussion of how best to implement a state-wide program to alleviate and correct language disabilities among the State's school children.

The symposium is a follow-up on work by the House interim committee making a study of language disorders. Hearings have been held in Austin, Abilene, Houston and Dallas. Chairman is a "citizen" member, Dr. Stanton J. Barron, chief of pediatrics at Hendrick Hospital in Abilene.

Members of the Texas House

on the committee are Travis Peeler of Corpus Christi; Jesse T. George, Levelland; John Wright, Grand Prairie; Raul Muniz, El Paso, and Jim Wade, Dallas.

Other members are Dr. Lucius Waites of Dallas, staff member, Texas Scottish Rite Hospital for Crippled Children and associate professor of pediatrics at Southwestern Medical School; Dr. Edward Mason, Dallas surgeon; Mrs. Harry W. Paterson of Sugar Land, distributive education coordinator at Bellaire High School and wife of a Houston attorney; and C. T. (Pete) Matthew of Yoakum, savings and loan association executive and former legislator.

"Language disorders is a problem about which little has been done in Texas or elsewhere on the scale the problem deserves," Barnes said. "This symposium was arranged to focus attention upon the problem, to discuss what can be done about it and lay groundwork for obtaining state funds to establish a worthwhile program in Texas."

The House resolution establishing the interim committee noted that "a child with a language disorder often reads far too slowly and usually poorly, for his age; is generally a poor speller, confusing word sounds and transposing letters; experiences difficulty in writing, usually doing so painfully, awkwardly, and with many untidy mistakes; and sometimes stutters or lisps."

Barnes noted it is estimated that as high as 25 per cent of the nation's entire school population is afflicted

in greater or lesser degree with language disabilities. The estimate of severe cases, he said, is seven per cent, or approximately 2.5 million children.

In addition to the legislative study committee, Barnes has appointed a special 15-member advisory committee for the symposium.

Over 2000 attended the State symposium.

Federal funds are coming into Texas in water development projects, with the U. S. House Appropriations Committee voting a total of \$51,500,000 for Texas projects. The money for the Army Engineer and Reclamation Bureau water projects will be for the year ending next June 30.

Included in the Federal appropriation is a Canadian River project planned to take \$14,215,000.

Miss Donna Zenor, freshman at West Texas State University, was the first recipient of a college loan under the new Texas Opportunity Plan. At a special meeting of the Coordinating Board of the Texas College and University System last week, Governor John Connally presented the loan to Miss Zenor.

She is the first student to qualify for a college loan under a measure enacted by the 59th Legislature and approved by Texas voters last November as an amendment to the state constitution.

Miss Zenor, who is a graduate of a Texas high school, is a major in elementary education.

Glad's Garden

By GLADYS HOWTON MANJEOT

For several weeks we have suggested a day by day schedule of maintenance for the gardener. To date we have completed through Friday.

The poet admonished us to "Laugh a little, love a little as you go your way. Work a little, play a little, Brings happiness to others by sharing, the little things."

So let's make Saturday a day of SHARING. In order to do this well, let's ask ourselves this question. What would you have your garden do for you and for others? Improve the appearance of your property? Give you an extra room for outdoor dining and entertaining? Bring the deep satisfaction of working with nature? Give the season's delights in flower color and beauty? To bring happiness in to the lives of others by sharing? Perhaps if your garden does any one of these things it will do them all.

Yes, gardening today is a many sided thing. It's still the fun of growing plants from seeds and seedlings. It's still the satisfying union with the soil, and closely linked with it all is the crowning joy of SHARING.

If you really want to have fun, invite one or more children to come and share your garden. Introduce them to your favorite flowers, trees or plants, by name and a bit of the history of each. Some of our best

and most loved fairy tales are based on flowers. Play a game of identifying plants, foliage, or flowers. Serve light refreshments, use a pretty flower as a plate favor, and as they depart give each a bulb, some seeds, or a small potted plant, to plant and grow for themselves. Some of the most treasured memories I have, are those which are associated with my grandmother and mother as they taught me to understand nature and to have a just appreciation of it.

Recently when we had our grandchildren Beverly and Lloyd Jr., visiting in our home, I had the opportunity to pass on to them some of the wonders of nature, which had been instilled in me. We took strolls through the garden. We watered, planted, and gathered flowers and vegetables. Readily Beverly, who is ten years old, showed a real interest, and soon we were playing games and learning the names of plants, shrubs, trees, etc. She and I made a list of approximately a hundred things which were growing, and classified them so that she could associate them with something that would help her to remember names, histories and other items of interest.

For example one of her favorite cut flowers was the gladiolus. She had a little difficulty in separating them from the iris (since their foliage was a bit

SHARING FLOWERS — A chief channel of sharing flowers is through floral arrangements for special church services. This arrangement was made as a memorial and was done in white and gold. Flowers used were double larkspur and iris. (Personal Photo)

similar) I noted her trouble and told her to remember that my name was Glad (ys) that my favorite flower was gladiolus, and that it was my birthday flower.

Quickly she learned many names, but again some trouble in the varieties of the roses, to assist her here, I would associate names of people or a bit of a story with each, and soon she knew many of them. Soon she wanted to cut some and to make arrangements. That is when the real fun began. Each

morning she would go into the garden select and cut her materials and make them into arrangements. Her eye for color was excellent, and she made many combining gladiolus and roses, which seemed to be her very favorites. Later we shared some of them with others. I have done this same thing with other children, and it is really enjoyment.

The sharing of our gardens through arrangements of cut flowers is endless. To name a few examples; birthdays, bon voyage, convalescents, shut-ins, friends in sorrow, house guests, special events, church altars, luncheons, for missionary programs, offices, hospitals, and many, many others to numerous to mention. (To be continued next week.)

REMINDERS: Now is the time to select your cuttings from geraniums, coleus and other plants which you hope to grow as house plants this winter.

Give your chrysanthemums extra care, they are fast approaching their peak of perfection and will be a blaze of color and beauty.

Flower Show School Number Five, will be held in Amarillo September 27-29, Instructors are Gundell and Roberson. For further information call 364-1343, October 8th, will be a big day in Hereford, Watch for further announcements relative to this.

HAVE YOU SEEN? The

pretty red and white petunias growing at the Walter London Jr., home 226 Ranger. Many of the petunias over town are giving an abundant bloom these cool days, and the colors are more vivid.

The beautiful Rose Garden at the Hopson home, on Country Club Drive. While on this drive, stop by and look at the French Marigolds, growing at the Country Club entry. The texture and colors are gorgeous.

SHARING is happiness pressed down and running over.

..... Glad.

NEW WAY FOR POST SORTING

TOWANDA, Pa. (AP) — A stamp phosphor that could revolutionize mail sorting in post offices will be supplied to the U.S. government under a contract awarded tosylvania Electric Products here.

The recent decision to print all stamps with luminescent ink containing the phosphor is the result of a successful two-year test in Dayton, Ohio. During the test more than 30 million letters passed through a machine which identified phosphorescent tagged stamps and automatically faced and canceled them at a rate of 30,000 per hour.

The Bureau of Engraving and Printing expects to have all stamps tagged with the phosphor by next May.

Walcott P-TO To Start Year

New faculty members of the Walcott School will be introduced and proposals to be voted upon in a bond election Saturday will be discussed at the first Parent-Teacher Organization meeting of the fall. It will begin at 8 p. m. Friday at the school building.

Introduction of faculty and

staff will be made by J. G. Hobson, head teacher, during an informal ice cream social. Afterward the school board president, J. V. Perrin, will explain plans for adding two rooms to the school building if the \$60,000 bond issue is approved.

Mrs. J. E. Sorrells, vice president of the P-TO, will preside in the absence of Mrs. Bill White, president. All residents of Walcott community are invited.

LIVE OAKS TO LIVE

BEAUMONT, Tex. — Work is to begin soon on relocation of 170 live oak trees which had been doomed but received a reprieve.

The trees, located along 31 miles of U. S. 90 near Beaumont, were to be cut down to make way for widening of the highway to four lanes.

The 170 trees will be moved 20 feet north to form the center strip of the new highway.

Eight HDC Members At Convention

Eight women from Home Demonstration Clubs of this county are in Corpus Christi for the annual Texas H. D. Association convention which ends a two-day program today. Mrs. A. E. Hodges of Hereford is a candidate for the office of state treasurer.

Mrs. Paul Hoff, Mrs. Jimmie Bradley and Mrs. S. N. Thweatt are delegates from Deaf Smith

County H. D. Council and Mrs. Bradley was assigned to take part in a panel discussion for a 4-H Club workshop.

Others who went from clubs of this county were Mrs. Viola Williams, Mrs. Louie Olden, Miss Mary Bradly and Mrs. Joe Landers. They went down Monday on a chartered bus taking about 60 women from this district.

Mrs. Hodges is ending a term as director of District One, and last spring was named Home Demonstration Club Woman of the Year for 1966 by members in this county.

New Series Of Square Dancing Lessons Slated

A new series of square dance lessons, conducted as part of the Wednesday evening meetings of Sugar Squares Club, is announced to begin Sept. 28 in Community Center. It will follow a similar course of instruction which ended with a graduation dance yesterday evening.

Sid Perkins of Amarillo is the teacher and caller. The club invites any interested residents of

this area to become members, and those who need instruction are invited to take the lesson series and then enter the club.

Gerald Sledge is now president of the Sugar Squares, Roy Boyer vice president, Mrs. Don Goldstun secretary-treasurer, Mrs. Jackie Greene social chairman and Billy Joe Lloyd reporter.

Sugar Square is an open club, which accepts single members as well as couples. Newcomers to Hereford who are square dancers are especially invited to join the group at any of the weekly dances, with no individual invitation necessary. The lesson period begins at

7:30 p. m. each Wednesday and the club dance an hour later. Anyone interested in joining the group is invited to call one of the officers or any member for information about lesson fees or club dues.

CZECH THOSE CARS

PRAGUE (AP) — Czechoslovakia boasts the highest number of cars per head among the Communist bloc countries. While one in 35 Czechoslovaks owns a car, the figure is one in 117 for Hungary, one in 169 for Bulgaria and one in 386 for Romania; the news agency CTK reported.

Unique Shower Given By Club

A "grandma shower" was given Mrs. H. S. Fuller, hostess to Dawn Home Demonstration Club at its meeting last weekend. Other members presented her a collection of items which they told her will be useful when she baby-sits with an expected grandchild.

The program was by Mrs. Argen Draper, County H. D. Agent on new types of cotton fabrics. She described methods of treating fabric for permanent press

and crease resistant qualities, saying that the material may be pre-cured in the bolt or post-cured in a finished garment, by spraying with a resin or nylon solution and baking at a high temperature.

Present were Mes. Leroy Johnson, Rea Cox, Jim McCabr, J. B. Caraway, Bill Leonard, H. D. Fowler, Dick Golden and Ray Stewart.

Fireflies have their femmes fatales. Females of the carnivorous Photuris genus imitate the flashing of Photinus females. A luckless male Photinus responding to the false love signal is swiftly eaten.

Rummage Sale To Aid Easter Building Fund

Easter Community Ladies Club will hold a rummage sale beginning at 9:30 a. m. Saturday at 145 Main, next door to Ray's Pawn Shop. The sale is planned to raise funds for the club's contribution to the fund for a community club building at Easter.

Arrangements are in charge of Mrs. Sam Scarbrough, finance chairman, and Mrs. Trent Downing, president of the Ladies Club.

Small Talk

By SUE COLEMAN
Women's Editor

In a magazine advertisement the other day I saw listed a brand-new gadget, it said, which is expected to catch on with the school crowd.

IT IS CALLED a book belt, and is an inch-wide strip of genuine cowhide a yard long, with a buckle at one end — just like an ordinary belt except it is pierced so the buckle can be fastened when the belt is rapped around two or three school-books, leaving a long end of the belt to carry them with.

It is not so cumbersome as the attache case which is the currently popular book carrier, says the ad, which advised students to order one at once for only a dollar and a quarter.

Well, if it does turn into a fad, and junior comes home jauntily toting his books on the end of a book belt, I only hope grandpa can restrain himself, and not say anything about the book-straps he used to use.

Especially, it will be nice if he doesn't tell any fifth-grade boys how neatly a girl can be tripped by slinging the loose end of the bookstrap — pardon me, book belt — about her ankles. Just to get her attention, of course.

IT'S GOT SO you can't even depend on the words in good old sayings which have been used for years — maybe I've been wrong all time, but it looks like somebody is changing things. Makes you wonder if there are subversive plots going around. A reputable publication had a recent article referring to a "time-honored phrase, Ada from Decatur." Well, is that a new way to spell eighter from Decatur, which I understand is the correct form of the old crapshootin' term? If not, who is Ada and how did she get into the act?

But the item I've just noticed is a statement that our Ameri-

can slang expression, "just plum good," is derived from the name of the delicious fruit.

Seems to me that the word should be spelled "plumb" and that it refers to the plumb-line used by builders to determine a straight-up-and-down direction. Because you not only can say something is "plumb good," but such things as "He was plumb tired out," and that wouldn't have anything to do with plums.

ANOTHER off-to-college note Juliana Gamez enrolled yesterday at Southern California Lutheran College at Newbury Park. She will study there this term on a \$600 scholarship. Daughter of Mr. and Mrs. Refugio Gamez, 303 Myrtle, she was one of the graduates from Hereford High School last spring.

Bluebird Group Conducts Fly-Up

A fly-up ceremony to mark the achievement of Camp Fire Girl status by the Merry Bluebirds group was conducted at Community Center Tuesday evening, with parents of the girls as special guests. Bluebird groups comprise girls in the Camp Fire program who are too young for the regular groups.

Mrs. Jack Allen has been leader of the Merry Bluebirds and Mrs. James Tucker assistant. They are to continue to direct activities of the group. Girls from two Camp Fire groups assisted with the fly-up program.

The new Camp Fire girls are Laurie Allen, Gail Tucker, Carol Bavousett, Cynthia Beyers, Jeanne Carnahan, Kelley Daniels, Sharon Dearing, Gloria Mays, Susie Moreno, Melinda Rhodes, Beverly Scott, Tara Wesson, Kim Simpson, Debbie Stringer and Shyla Thomas.

FOR GOD SO LOVED. THE WORLD

each crumb

... is precious but who among us needs the whole loaf?
Bread is vital but perhaps we should NOT live only to eat.
We are invited to break the bread as Jesus broke it and the Great Baker stored the earth with plenty for all. Woe be it to the selfish hand who holds the knife and cuts the slices thin. We are told to beware of him who withholds corn, for the people shall curse him. Our body is of the earth and must be fed from the earth.
But the soul is of Heaven and must be fed with Heavenly bread. Then let us worship in church this week and pray to God to, "Give us this day our daily bread."

You In The Church
The Church In You
— form a combination for good. Every man, woman and child needs the influence of the church. So, come let us go into the house of the Lord. Let us support her program of service to humanity, be a faithful worker, a daily bible reader and attend services regularly.

ACCESS ROADS — Hereford is being surrounded! New roads are circling the city. Shown is a recently completed railroad crossing two miles east of town. This makes a road cut through from Highway 60 to Dairy road useable. The

center picture is the old crossing that served a road going east. The new crossing connects both roads. The picture on the right is of a new bridge across Tierra Blanca west

of town. The road borders land recently purchased by the city for water wells. It connects Highway 60 north to the Holly Sugar road. (Hereford Brand Photos)

tions to find the pressing ones. Auto inspection period for 1967 has officially opened, says Col. Homer Garrison Jr., Department of Public Safety director. Inspections will continue at 5,500 official inspection stations through next April 15 when 5,500, 000 Texas vehicles must display new green and white stickers.

AUSTIN HIGHLIGHTS

Singleton Heads Parks And Wildlife Department

By VERN SANFORD

AUSTIN — Far-flung operations of the Texas Parks and Wildlife Department have been placed under new administrative leadership. Commissioners have named J. R. (Bob) Singleton as executive director. He replaces J. Weldon Watson who resigned last June. Singleton had been serving as director of Region IV with headquarters in La Porte. He picked Robert G. Maurmann, Region V director at Rockport, as his chief deputy.

permitted shell dredging up to 300 feet of live reefs under close department supervision result in "extremely insignificant" oyster kill. This issue has been heatedly debated between dredgers on one hand and fishermen and conservationists on the other since the old 1,500-foot-minimum-distance-from-reef policy was abolished. A statewide tour of department facilities, particularly the parks, is planned by Singleton in order to familiarize himself first-hand with problems and needs. Singleton declined to express his views on "closed door" meetings of the three-member P.W. Commission. However, he did say "The commission sets policy. My duty is to implement and carry out that policy."

AG RULES Not only may a county cut its tax rate when the reason for the tax disappears, but, according to Attorney General Waggoner Carr, it must. He pointed to the

law which prohibits the use of tax funds for any purpose other than for which it was levied. Carr also held that, while a city may prohibit the sale of alcoholic beverages at any time, it may not prescribe a lesser penalty for such an offense than is provided by state law. A district court has exclusive jurisdiction over all suits on behalf of the state and county for the collection of penalties on delinquent personal property taxes, although the county court may have the power to share jurisdiction in a suit against property for the actual taxes, Carr ruled.

BIG BEND AIRPORT PLANNED Federal money will be available for building an airport adjacent to Big Bend National Park for commercial and general aviation, confirms Charles Murphy, Texas Aeronautics Commission director. Daniel Beard, National Park Service Southwest regional director, said \$450,000 is expected

to be provided by the U. S. government. Money will go to land acquisition, planning and designing and actual construction. T. A. C. will supervise the work, including awarding of contracts, Murphy said. State will have to pay the cost of constructing terminal facilities and auto parking accommodations, as well as airport operation.

Texas funds are not now available and will require legislative appropriation or transfer from other source, Arizona's share of the Grand Canyon airport constructed under similar terms was about \$160,000.

STUDY RESULTS Attorney General Carr reports that a two-month study of Texas Highway Department records reveals no indication or evidence of price fixing among asphalt producers' sales to the state. Carr's staff made the study at the request of DeWitt C. Greer, state highway engineer. Request followed the filing of lawsuits in other states alleging antitrust violations by asphalt producers.

PROGRAM HAS BOOST Texas' marketing program got a big boost when John C. White, Commissioner of Agriculture, received more than \$45,000 in donated equipment to be used as traveling showcases. These contributions from farm commodity groups, individuals and industry signaled a "new

era in Texas agriculture, marketing and education," White said. Gifts included two large trucks two power generators, two mobile trailers, exhibit material and operational funds.

SHORT SNORTS Gov. John Connally approved Neighborhood Youth Corps projects for Canutillo Independent School District, El Paso; City of Snyder; and Advance, Inc., in San Antonio. State will earn about \$2,000,000 more in interest on its time deposits this year due to a one-half per cent increase, State Treasurer Jesse James estimates. James said interest collections under the 4-1/2% rate should be \$10,600,000, compared to \$8,700,000 for the fiscal year which ended August 31.

Texas' oil production allowable was boosted for October to 33.5 per cent of potential. Raise was first in five months. October percentage allows maximum oil production of 3,154,384 barrels a day, compared to September allowable of 3,125,028 under a 33 per cent factor.

State Board of Health has withheld action on 80 requests for federal hospital construction funds until Congress appropriates money for distribution. Since only about \$17,500,000 in federal funds will be available for Texas, State Board will have to sift through all the applica-

Southwestern Bell Telephone Company

If we sent bills for telephone repairs here's what they would look like

That's right — there's no extra charge for telephone repairs. Any repairs are covered by your regular payments for service. Today's telephones are so trouble-free you'll seldom see a repairman. But in the rare event something

does go wrong with your service, we fix it. Fast. And you'll never see a repair bill. Southwestern Bell wants to make your telephone service — already the world's best — even better.

Letter To The Editor

To The Hereford Brand: Mrs. Gilbert Brown, Route 1, Hereford sent me a clipping from your issue of September 4 and this brought back memories of my experiences at Frio. I recall that I entertained the four-year-old of the Stanley family all the long, slow drive to the funeral Mrs. Brown mentioned. She would remark at frequent intervals, "Oh, Connie," (for some reason she called me Connie) "There's a rattlesnake on your head!"

I would frantically brush that imaginary snake off my head while she shrieked with laughter, mile after mile, snake after snake and peals of childish laughter ringing out on the clear air, filled the long slow drive into Hereford. Years later when I was wandering about in the west-I think it was in Arizona-I found Jake, a pleasant pup at Frio. He was a man grown and owned a ranch. I wish I had his address. I should like to write to him

and remind him of our Frio days. Mrs. Brown mentioned Mrs. Percy Estes of Dimmitt. Mrs. Stanley told me that when Lena Greer (now Mrs. Estes) first came to the Stanley dougout to board, she was horrified at the idea of cooking with cowchips as fuel, but that it was not long until Miss Greer would take up a dry cowchip, break it across her knee and stuff it into the stove. All of us learned much in those days. A day or two after I got to the Panhandle, a lady spoke of doing the washing. I exclaimed, "Why I never

washed a handkerchief in my life." With gentle dignity she answered, "we were none of us washwomen before we came." And I learned a lesson from her. I have gone back in memory to Frio and recall my years of the cattle that stared at me as I went to school so that I followed a roundabout path near a fence with the idea of crawling under the wires if a wild cow came toward me. Another memory is of having Mrs. Stanley drive up one day to bring me home from school. She was wearing my best dress. A minister of some unusual

cult and his wife stayed at our house, occupied my room while I went to a dugout. He preached at the school house at night. I said one day that I could accept anything he said but that war was imminent. I was sure our nation would never go to war. It was not long before World War I broke out. I have been trying to recall the name of a young man in Hereford in those early days. He dressed well and was looking on as the catch of those days. But who was he? I wish someone would recall his name. If you wish to get in touch

with me, address me as follows: Laura V. Hamner 2720 12th Ave., North Birmingham, Alabama

KNOWS THE FAMILY
LIBERTY, Ky. — Dr. L. C. Young has read the vows at marriages involving three generations of the same family. In 1919, the minister married Marion Combest and Doll Daugherty. In 1935, he married the couple's daughter, Hilda, to Charles Wesley. In 1966, he married their granddaughter, Nancy Wesley, to Lewis Williams.

Visitors From Libya Honored

A reunion at the home of Mr. and Mrs. N. A. Brown in the Walcott community was held to honor her brother, G. O. Potts, Mrs. Potts and daughter who are visiting in this area from Tripoli, Libya, where he is employed with an oil company. They previously lived in Lovington, N. M. All the Browns' children were at home for the family gathering, which was featured by a picnic dinner. Also present were

Mrs. Brown's father, W. L. Potts of Clovis, N. M., and five brothers and sisters with their families. They included Claudie Potts of Amarillo; Messrs. and Mmes. Cordie Potts of Friona, Roy Potts of Texico, Cecil Davis of Lovington and Pat Palmer of Hobbs, N. M. Other relatives were Jan Potts of Amarillo and Walter Potts of Texico, with their families. A visitor in the Brown home this week was W. Dewey Clark of Benton, Ky., a cousin of Mrs. Brown, who left Tuesday.
