

Collision Kills Seven

A head-on collision between an automobile and a bus near Eudora, Ark., killed the seven occupants of the car and injured seven persons aboard the bus, two seriously. The bus was carrying a football team. All were Negroes. State Trooper Buren Jackson is shown investigating the wreckage on U. S. Highway 65 near the South Arkansas town.

Dodgers Take Series With Victory Of 2-0

NEW YORK (AP)—The Brooklyn Dodgers finally won their first world championship today by whipping the New York Yankees 2-0, in the deciding game of the classic behind the iron-nerved pitching off young Johnny Podres and the clutch hitting of Gil Hodges.

Hodges drove in runs in the fourth and sixth innings while the 23-year old Podres, pitching out of one hole after another, came through magnificently in the clutch to win his second game of the series with an eight hitter.

A spectacular one-handed catch by Sany Amoros in the sixth inning with two Yankees on base and none out was another decisive factor.

The Dodgers captured their first championship on their eighth attempt and their sixth try against the Yankees. It was the Yankees' first defeat in the series since 1942 when the St. Louis Cardinals accomplished the feat.

FIRST INNING
DODGERS: Gilliam went out on a high bouncer to Rizzuto. Reese raised a soft fly to Cerv in center. Snider, given an ovation, bounced out, Martin to Skowron. Snider didn't seem to be affected by his knee injury. No runs, no hits, no errors, one left.

SECOND INNING
DODGERS: Martin tossed out Campanella. Furillo flied to Howard in deep left center. Hodges walked. Martin took Hoak's bouncer and threw him out in a close play. No runs, no hits, no errors, one left.

THIRD INNING
DODGERS: Rizzuto scooped up Zimmerman's sharp grounder and threw him out. Podres bounced out to Martin. Gilliam walked. Reese lined to Cerv. No runs, no hits, no errors, one left.

FOURTH INNING
DODGERS: Rizzuto fouled to Campanella. Martin flied to Gilliam. McDougald was fooled by a change-up curve, looking at a third strike. No runs, no hits, no errors, one left.

FIFTH INNING
DODGERS: Martin tossed out Campanella. Furillo flied to Howard in deep left center. Hodges walked. Martin took Hoak's bouncer and threw him out in a close play. No runs, no hits, no errors, one left.

SIXTH INNING
DODGERS: Rizzuto fouled to Campanella. Martin flied to Gilliam. McDougald was fooled by a change-up curve, looking at a third strike. No runs, no hits, no errors, one left.

SEVENTH INNING
DODGERS: Rizzuto fouled to Campanella. Martin flied to Gilliam. McDougald was fooled by a change-up curve, looking at a third strike. No runs, no hits, no errors, one left.

EIGHTH INNING
DODGERS: Rizzuto fouled to Campanella. Martin flied to Gilliam. McDougald was fooled by a change-up curve, looking at a third strike. No runs, no hits, no errors, one left.

NINTH INNING
DODGERS: Rizzuto fouled to Campanella. Martin flied to Gilliam. McDougald was fooled by a change-up curve, looking at a third strike. No runs, no hits, no errors, one left.

Rayburn To Speak At Young Demos Booth
DALLAS (AP)—Two governors and Speaker Sam Rayburn will speak at the Dallas County Young Democrats' booth during the State Fair. Gov. John Sims of New Mexico and Gov. Raymond Gary of Oklahoma speak Saturday. Rayburn speaks Oct. 13.

Author Faces Test Of Probe Power
WASHINGTON (AP)—Harvey O'Connor was called to trial in Federal District Court here today on a contempt of Congress charge in a test of the power of congressional investigators.

errors, one left.
YANKEES: Howard raised a soft fly to Snider. Byrne was caught looking at a third strike. Rizzuto walked on four pitches. Martin punched a single to right, Rizzuto stopping at second. McDougald's slow grounder hit Rizzuto as he slid into third and the runner was automatically out. McDougald was credited with a single. No runs, two hits, no errors, two left.

FOURTH INNING
DODGERS: Snider struck out. Campanella doubled into the left field corner, his first hit in Yankee Stadium in 13 tries. Rizzuto dashed in behind the mound to make a nifty stop and throw and retire Furillo as Campanella advanced to third. Hodges lined a single into left, scoring Campanella. McDougald threw out Hoak. One run, two hits, no errors, one left.

FIFTH INNING
DODGERS: Gilliam and Snider crossed signals and Berra's easy fly to center field dropped for a double between the two outfielders. Bauer sent a looping fly to Furillo. Zimmer threw out Skowron, Berra taking third. Reese backed into short left center for Cerv's towering pop. No runs, one hit, no errors, one left.

SIXTH INNING
DODGERS: Zimmer struck out. Podres fouled to McDougald. Gilliam rolled out to Martin. No runs, no hits, no errors, none left.

SEVENTH INNING
DODGERS: Howard sent a long fly to Gilliam 370 feet away. Byrne was called out on strikes. Hoak threw out McDougald. No runs, no hits, no errors, none left.

EIGHTH INNING
DODGERS: Reese shot a line

NINTH INNING
DODGERS: Reese shot a line

Woman Indicted For Kidnaping
SAN FRANCISCO (AP)—The San Francisco county grand jury has indicted Betty Jean Benedicto, hefty Stockton blonde, for the felony kidnaping of 2-day-old Robert Marcus from Mt. Zion Hospital last Sept. 19.

Conviction carries a possible penalty of 1 to 25 years.

Mrs. Benedicto did not appear before the grand jury yesterday. She is still under observation in the psychiatric ward of San Francisco Hospital.

She was taken to the hospital two days ago after she swallowed several small wire clips from her coat in a city jail cell.

She was arrested after turning the kidnaped baby over to a Catholic priest Sept. 27. The baby was unharmed.

books and my political opinions are of no legitimate concern to this committee."

He said he did not think it would tend to incriminate him to answer the question of whether he was a Communist, but he told McCarthy, in effect, that his "political affiliations" were none of the committee's business.

O'Connor, author of "Mellon's Millions" and other books, testified he had not previously known that his books were in the overseas libraries. He said he certainly had nothing to do with their selection.

single past Rizzuto's outstretched glove. Snider laid down a sacrifice bunt and was safe when Skowron, after taking Byrne's throw off the bag, dropped the ball in making the tag. It was a sacrifice, an error for Skowron and an assist for Byrne. Campanella dropped a sacrifice bunt and was out. Byrne to Martin covering first. Reese went to third and Snider to second. Furillo was intentionally passed, filling the bases. That was the end for Byrne. Bob Grim was the new pitcher. Hodges flied deep to Cerv in right center, Reese scoring on the sacrifice fly as Snider dashed into third. Grim's second pitch to Hoak bounced in front of the plate rolled away from Berra. Furillo going to second on the wild pitch as Snider held third. Hoak walked on five pitches, filling the bases again. George Shuba, a left handed hitter, batted for Zimmer. Shuba hit Grim's second pitch to Skowron who tossed to Grim, covering first, for the out. One run, one hit, one error, three left.

YANKEES: Amoros went to left field and Gilliam switched from left to second base. Martin walked on four pitches. McDougald laid down a surprise bunt inside the third base line and easily beat Podres' throw for an infield single. Martin took second. Amoros raced into the left field corner for a spectacular gloved hand catch for Berra's bid for an extra base hit and McDougald was doubled up at first. Amoros to Reese to Hodges. Martin holding second. Reese bobbled Bauer's grounder momentarily but recovered in time to get his man with a strong throw to Hodges. No runs, one hit, no errors, one left.

SEVENTH INNING
DODGERS: Podres bounced out to Martin. Gilliam lined a single to right that Bauer trapped after a hard run. Gilliam was cut down stealing. Berra to Rizzuto. Reese struck out swinging. No runs, one hit, no errors, none left.

EIGHTH INNING
DODGERS: Reese threw out Skowron. Cerv went out the same way. Howard singled sharply to left field. Mickey Mantle batted for Grim and raised a high pop fly to Reese. No runs, one hit, no errors, two left.

NINTH INNING
DODGERS: Bob Turley became the Yankees' third pitcher. Snider looked at a third called strike. Campanella flied to Howard. Furillo flied to Cerv. No runs, no hits, no errors, none left.

YANKEES: Rizzuto lined a single to left center. Martin flied to Furillo in short right. McDougald crashed a hard single off Hoak's left shoulder into left field. Podres' first pitch to Howard was a fast strike over the heart of the plate. Howard looked at a slow curve outside for a ball then missed a fast ball for a second strike. He took a high pitch for a second ball. He fouled off the fifth. He fouled off another. Then he hit a low curve to Reese who threw him out. No runs, no hits, no errors, none left.

ALABAMA
Negro Slays White Youth At State Fair
BIRMINGHAM, Ala. (AP)—A teenage white youth was shot to death by a 14-year-old Negro boy at the Alabama State Fair last night, a few hours after the huge exposition opened its gates to thousands of fun-seekers.

Forney Waldrop, a 17-year-old high school senior, fell dead with a bullet in his temple a short distance from where Sharon Kay Ritchie, Miss America of 1956, was making a grandstand appearance.

City Detective C. B. Golden said Alfred Moore was charged with murder and turned over to juvenile authorities.

Moore was apprehended soon after the shooting. He was taken to police headquarters before news of the killing spread through the crowd milling around the saddest covered midway.

Police Sgt. C. D. Milwee said a crowd of angry white youths gathered outside the fair police station while Moore was being held there, but officers held them under control until he was moved downtown.

Golden said statements of witnesses gave this account of the killing:
Trouble started between Waldrop and Moore at one of the concession stands on the midway and they went between two buildings to fight it out.

Several white youths were with Waldrop and the Negro boy pulled out a pistol and snapped it at them but it didn't fire.

Several witnesses said someone grabbed the Negro boy and Waldrop hit him with his fist or hand. Golden said Moore snatched the pistol again and this time it fired, the bullet striking Waldrop in the right temple.

Hundreds Flee Swollen River At Wichita Falls

Several witnesses said someone grabbed the Negro boy and Waldrop hit him with his fist or hand. Golden said Moore snatched the pistol again and this time it fired, the bullet striking Waldrop in the right temple.

Oil Discovery In Firm Prospect
A discovery of oil from the Fuselman section eight miles north-east of Big Spring was in firm prospect Tuesday.

On a drillstem test, Phillips Petroleum Company No. 1 Satterwhite yielded 26 barrels of 49.8 gravity oil in 30 minutes. Operator was coming out of the hole at noon Tuesday and final results of the test were not known.

Top of the section was 9,583, on a datum minus of 6,968. The interval tested was 9,510-9,506. Gas surfaced in 32 minutes, the water blanket began flowing out in 70 and the oil in 85 minutes.

The test is five and a half miles southeast of the nearest production in the Luther Southeast field, which produces from the Siluro-Devonian and thought by some to be the same section as the Satterwhite well. However, the Luther Southeast field does not pick up pay before 9,900 feet.

Location is 660 from the north and 1,980 from the east lines of section 12-32-1n, T&P. For other details turned to oil news on page 8.

Sun Provides Electric Power For Telephones
AMERICUS, Ga. (AP)—The sun furnished a rural telephone line with power for the first time today.

George L. Mathews, a farmer, placed the first call on electricity supplied by a solar battery put into use here by Southern Bell Telephone and Telegraph Co.

Some Sections Of County Get Soaking Rains

Drizzles and downpours dampened parts of the Big Spring area and soaked other sections Monday. It was the third day in a row rain has fallen somewhere in the county.

Heaviest rainfall Monday apparently occurred in the Luther community. Van Owens, who lives a mile south of the Luther sign, reported 2.5 inches. Elsewhere in the county, gauges caught an inch or less.

Lamesa got another .58, making its three-day total 2.42. Lomax received an inch, and heavy rains were reported in the area south and southwest of Vealmoor, although Ralph Proctor said only .5 fell at his place about four miles south of Vealmoor.

Lake J. B. Thomas caught some more runoff Monday and Monday night to raise its level to elevation 2,255.40 — just 2.6 feet below the overflow point. The new level represented a gain of more than half a foot since Monday morning and nearly two feet since Saturday.

The big reservoir now contains about 183,000 acre feet, 90 per cent of capacity.

No gain was registered for Lake Colorado City, Texas Electric Service Company. Weekend and Monday showers apparently avoided its watershed.

In Big Spring Monday, the rainfall varied from .85 at 900 Main to .48 at Webb Air Force Base; .33 at the U. S. Experiment Farm on the north edge of the city; .35 at 1308 Stadium, and .25 in Washington Place.

Other Monday reports included a half inch in the R-Bar community. Texas Electric gauged .08 at Chalk, 28 at its station east of Big Spring, .22 at Snyder, and .7 at Lamesa. A trace or less was reported for Morgan Creek, Eskata and Sweetwater.

Only widely scattered showers were in the forecast for today.

Honors Set For Gas Station Men

The men who most directly represent the oil industry to the consuming public—the service station operators—will be honored at a dinner program this evening at the Settles Hotel.

The occasion will be first of a series of events marking Oil Producers Week, which officially opens Sunday. The gasoline and oil dealers will be guests of wholesalers in this "appreciation" affair.

It is sponsored by the Oil Industry Information Committee of Howard County and the Big Spring Chamber of Commerce. Some 130 persons are expected to attend the program, starting at 7 p. m. with a buffet dinner.

Principals speaker is to be Delbert Downing, manager of the Midland Chamber of Commerce and noted after-dinner speaker. The Rev. R. Gage Lloyd is to be master of ceremonies, and he will be introduced by C-C Manager Jimmie Greene as presiding officer. Musical numbers are scheduled as entertainment.

Arrangements for the banquet have been handled by Ted O. Groebel, OIC chairman for the county, Greene and K. H. McGibson.

4 Indicted In Martin County
STANTON (SC)—Four indictments were returned Monday by the new Martin County Grand Jury.

Harold D. Manning was indicted on a charge of second offense driving while intoxicated. His bail was set at \$2,000.

Railroad, Highway Damage Reported

WICHITA FALLS (AP)—Swollen waters of the Wichita River and its tributaries chased hundreds from their North Texas homes today, smashed a main-line railroad bridge and gashed across highways.

More than 100 families were evacuated in Wichita Falls as Holliday Creek, carrying a heavy runoff from rains which it couldn't dump into the already-full Wichita River, backed up into residential sections.

Far upriver on the Wichita, south of Paducah 150 families were isolated by spreading waters from rains last night that measured, up to 9 inches.

Rains continued falling this morning in parts of North and West Texas, with 1.47 inches reported at Childress since midnight.

Knox County Sheriff Homer Melton said approaches to the Santa Fe Railroad bridge at Benjamin, were swept away, stopping movement of trains on the Wichita, Kans., to San Angelo line.

Although thousands of acres of farmland were being inundated just when cotton needed hot, dry weather for maturing, the greatest damage apparently was being done in Wichita Falls itself.

Melton estimated at least 5,000 farmland acres were under water in Knox County alone. He said debris-laden water has washed out sections of State Highway 283, Farm 143 and Farm 267. An approach to the Wichita River bridge on Highway 283, 17 miles north of Benjamin, was washed away.

A crest of 21 feet was expected on the Wichita River in Wichita Falls, three feet above flood stage. Officials expected the river to stay within its banks except in low lying areas in the east part of town, where most of the families have been evacuated. The principal danger was expected to result from the flooding Wichita backing up in Holliday Creek.

"We don't expect any houses to get washed away or anything like that," a reporter for the Wichita Daily Times said, "but there's going to be a lot of water in and around a lot of houses."

The flooded section was described as "part working class area, part Negro section, and some industrial."

West of Wichita Falls, Lake Wichita was flowing 14 inches over the spillway, and Diversion Lake, about 30 miles west of the city, was overflowing the spillway. Lake Kemp, an 18-mile-long body of water 50 miles west of Wichita Falls, was expected to handle safely all flood waters on the upper Wichita.

Upriver in Cottle County residents of five communities—Hackberry, Chalk, Sneedville, Grow and Dumont — had been waterbound since Sunday night by Wichita River flood waters. A mile of water surrounded Hackberry, where just the tip of the bridge over the Wichita was visible.

The level was dropping rapidly today, however, and there was hope the situation would improve if the rains stop.

Flood waters were receding, too, in Knox County after rising at 2 a. m. to what Sheriff Melton described as "the highest level it's ever been that anyone knows of" at Benjamin.

Chief Forecaster E. A. Moore said the flood would be the greatest in the North Texas town since 1941, even greater, he predicted, than the 1950 flood which caused 500 families to flee their water-covered homes.

The swollen Wichita River, reported rising at a 4-inch-per-hour rate, was well past the 20-foot flood stage and still going up.

(See WEATHER, Page 8, Col. 5)

LATE BULLETIN
WEST NEWTON, Pa., Oct. 4 (AP)—A runaway truck crashed into a Baltimore & Ohio Railroad freight train at a grade crossing here today. The train jumped the track and demolished at least two buildings.

Police said they had received reports of "many persons injured."

Marvin House Dies, Victim Of Heart Attack
Marvin K. House Sr., a resident of Big Spring for nearly 25 years, succumbed shortly before noon Tuesday in a local hospital, victim of a heart attack.

Mr. House had such an attack several years ago, but subsequently resumed normal activities and had been feeling well until the latter part of last week. He suffered a more severe stroke Saturday evening and had been in the hospital since.

Mr. House, native Texan born in Quanah area, came to Big Spring in March, 1931, to join the Big Spring Herald as bookkeeper and office manager. He remained in that post until January, 1947, when he resigned to enter the building materials business, a line he had followed in Abilene before coming to Big Spring.

He had resided in Abilene for several years before going to Corpus Christi and thence to Big Spring and it was in Abilene that he was married to the former Bea Hollis, member of a prominent pioneer family.

The wife survives, and there are two children, Mrs. Eugene Morrison of Friona and Marvin K. House Jr., of El Paso. Five grandchildren also survive.

Mr. House for many years an active member of the Rotary Club, and built up a long record of perfect attendance until illness forced his retirement. He was the local club's secretary for many years. He also was a member of the Country Club.

Funeral services will be conducted at 10 o'clock Wednesday morning at the Nalley Funeral Chapel. The body will then be taken to Abilene where rites will be held at the Laughter Chapel at 4 o'clock. Burial will be in the family lot in Abilene.

1955 FB Meet Set For Tonight
Howard County Farm Bureau members will combine their annual convention with a barbecue tonight at the county fair grounds in west Big Spring.

The election of nine directors for the next year, selection of delegates for the state convention, and discussion of proposed resolutions for submission at the state meeting will be highlights of the 1955 gathering.

The program is to get started at 7 p. m. and will include musical numbers by Larry Nix and Ronnie Burke. Ralph White, Bureau president, said a guest speaker also is planned.

Bureau members will choose nine directors — one at-large and two from each commissioner precinct in the county. The directors will name officers at a later date.

Results of the election will be announced following the barbecue.

THE WEATHER
BIG SPRING AND VICINITY: A 50-50 chance of scattered showers and evening clearing. High 60-65. Low 40-45. Wind light and variable. Humidity 60-70. Rainfall 0.00-0.10. Clouds 10-20. Visibility 10-15. Barometer 30.00-30.10. Date 10-4-55.

Russians Build Big Polish Military Base

STETTIN, Poland (AP)—The Russians have built a giant military base in northwestern Poland.

All the Soviet army troops stationed in Poland are in this area, about 30 square miles in territory that was German before the war. The sector also contains jet airfields and naval installations along the Baltic.

To try for an estimate of the Russian strength is to invoke stony-eyed silence. Work on the base started three years ago. It serves as the supply center for the 300,000-man Soviet army stationed in East Germany. And it gets the Russians out of sight in Poland.

The plan for it was worked out by Marshal Konstantin Rokossovsky, Soviet army hero and native of Poland who now is Polish defense minister.

The old Soviet base at Liegnitz was eradicated along with suburbs through the heart of Poland from Frankfurt-Oder to Breslau.

Polish informants describe the situation insofar as they dare speak about it:

In the postwar years, the Russians supplied their garrison in Germany by rail. Anti-Soviet partisans kept three Russian divisions busy protecting the lifeline. Double locomotives had to be used, the first one to touch off land mines.

In the Rokossovsky plan, relocation of the base was tied in with a master system of supplying by ship. Not only supplies but Soviet troops being redeployed are moved by ship from Koenigsberg (Kaliningrad) to Stettin and there the short hop to the German frontier is easily negotiated and protected.

In two weeks this correspondent has driven 2,000 miles in Poland and by actual count has seen only six Russians in uniform. The western base is the explanation.

The defense thinking of the Russians makes sense, Poles commented. One semiofficial informant describes this area as "a Prussian field marshal's dream."

The reason: It is flat with no natural terrain for defense and once tanks broke out of the Stettin-Kolberg pocket nothing could stop them. These people know. They saw it happen before.

Cons Meet Their Match

HUNTSVILLE (AP)—Tough Texas convicts met their match yesterday as they tangled with tougher bulls and broncs at the opening of the annual Texas Prison Rodeo.

An estimated crowd of 20,000 watched the prison stock keep an edge over inmate riders during the two-hour show. Some performers were old-timers, many were new faces.

Gail Hall, serving 25 years from Odessa, won the famous prison rodeo mad scramble—featuring 10 Brama bulls with 10 riders coming out of the chutes at one time. Second was Charles Brogden, five years from Kerrville.

Only two riders placed in the saddle bronc riding event. Veteran prison rodeo rider Herman Sigler, a lifer from Dallas, won over Bobby Smithers of Denton, with a 10 year term.

Elliott Harvey, doing 50 years from Victoria, tamed a bronc for first place money in the bareback riding event.

First and second in the bull riding event were Jackson and J. T. Tomlinson, two years from San Antonio.

Another feature was an exhibition bull fight by Bette Ford, acclaimed as the world's best woman bullfighter. Texas law didn't permit Miss Ford to kill the Mexican bull, but she had complete control of the animal.

Since bulls learn quickly and are extremely dangerous to use twice in the arena, the animal will be slaughtered with its meat going to the prisoners' tables.

The prison rodeo is an annual affair held each Sunday in October. Net proceeds to go the Prisoner's Welfare Fund.

Simple Saliva Test Developed For 'Disease Of Salty Tears'

By FRANK CAREY AP Science Reporter

CHICAGO (AP)—Development of a simple saliva test for easier detection of a usually fatal and oftentimes misdiagnosed children's ailment called "the disease of salty tears" was reported today.

A team of University of Maryland researchers said the new test consists simply of placing a wad of cotton in a child's mouth, collecting saliva and testing it for its salt content.

Dr. Samuel P. Bessman and two colleagues told about it at a scientific exhibit at the opening today of the 24th annual meeting of the American Academy of Pediatrics.

The disease, technically known as "fibrocystic disease," can cause a plugging of certain pathways in the pancreas or lungs. It gets its nickname, "salty tear disease," from the fact that it usually causes malfunctioning of the sweat, salivary and tear-producing glands, resulting in an abnormal amount of salt in those secretions.

Digestive processes are disturbed, resulting in weakened bodies and bloated abdomens. When the lungs are affected, children are barrel-chested and subject to frequent respiratory ailments.

The ailment also is a common cause of heat prostration in children due to disturbance of the sweat glands. Death usually occurs by age 2.

Dr. Bessman told a reporter that the disease has been estimated to occur in from 1 in 500 to 1 in 1,000 births, but that it may be up to five times more prevalent than is commonly believed.

And he declared it is frequently misdiagnosed as bronchial asthma or chronic diarrhea.

Up to now, he said, diagnosis has involved such things as inserting tubes into the digestive passages, or making "complex" tests of sweat—and all such procedures are time-consuming and require special equipment.

The new "saliva salt test," he said, takes only a few minutes and can be done in any laboratory.

The doctor said dietary and drug treatments developed in recent years have prolonged lives in these cases. He added that the new diagnostic test—by allowing quick recognition and perhaps greatly increasing the number of cases brought to study—might enhance the value of present treatments and even lead to a specific cure.

Texan Killed In Headon Collision

EL CENTRO, Calif. (AP)—An Air Force sergeant from Texas was killed in a headon collision with a grain truck today 35 miles east of here. He was John Moon Jr., of Bonham, attached to Yuma, Ariz., Air Force Base.

Officers said his car struck a truck driven by Fred Grimland, 46, of El Monte, Calif. Grimland suffered only minor injuries.

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly. Just a little more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

Uncle Ray: Way To Happiness Told In Book Of Dead

By RAMON COFFMAN

The people of ancient Egypt believed that spirits would find heaven under the ground. It seems that they knew nothing about the roundness of the earth, but they did have an idea of "another side."

Each evening they saw the sunset. The sun sank, or seemed to sink, in the west. That suggested the death of the sun, and the idea seems to explain why the Egyptians used to say that a man "went west" when he died.

The night passed and dawn came. The sun appeared in the eastern sky, and this led people to ask, "Where has the sun been during the night?" The best suggestion was that the sun had passed under the earth.

The priests of Egypt said that the Under World enjoyed both warmth and sunlight. The Under World also went by the name of Other World.

Before a spirit could reach pleasant parts of the Other World, several things had to be done. One section of the Book of the Dead reads:

"This will make a man the victor over his enemies in the Other World. It will give him a safe and free trip. It will let him go in and out, and he can take any form he pleases. His spirit will live, and he will be saved from dying the second death."

Another passage in the book reads:

"When this chapter is read by

The god Thoth was supposed to make a record of good or bad facts about the spirits.

one who is on the boat of Ra, god of the sun, he is carried like the gods. He is like one of them, and has power over what will be done to him."

In the holy writings of the Egyptians, one prayer runs like this: "Oh, powers of high flood! Open to me your ponds! Open your lakes so I can take your water and rest in your stream, so I may eat your grain and be content with your food!"

Each Egyptian, during his life, was taught that he should learn and remember the prayers and magic spells. The words on the roll of papyrus were placed in his coffin to remind him of what he already was supposed to know.

Why THE BIG M makes the big news for 1956

NEW DISTINCTIVE FLO-TONE COLOR STYLING plus pleasing two-tones and solids for every taste! Greatest horsepower in Mercury's history—with a new high in usable power! A brand-new group of ten Safety-Engineered features for your greater safety and security! New improvements in famous Merc-O-Matic Drive and ball-joint front suspension. New wider-than-ever choice of models!

NEW 225- AND 210-HORSEPOWER SAFETY-SURGE V-8 ENGINES—A new high in torque and surging power. 225 hp available in Montclair and Monterey with 9 to 1 compression, 210 hp in Customs. A new 12-volt electrical system provides hotter ignition.

NEW RICHNESS AND LUXURY—THE BIG M is a car that makes you whistle twice—once outside, once inside. The colors, fabrics, and patterns rival the finest custom-built cars for dramatic impact. They are exclusively Mercury's.

DISTINCTIVE NEW GRILLE—From blocks away you can tell it's a Mercury. With the new BIG M crest and newly designed bumper-grille, there is no mistaking this beauty.

NEW FLO-TONE STYLING AND TWO-TONES—Mercury introduces a whole new palette of sparkling colors, in new Flo-Tone styling, two-tones and solids.

NEW HIGH IN USABLE POWER. Not just higher horsepower, but greater torque (wheel-turning power) for thrilling performance in the everyday driving ranges where you need it most. New SAFETY-SURGE V-8s deliver greater acceleration than ever.

NEW MERCURY SAFETY-ENGINEERED FEATURES—Mercury leads its field with ten new features. A new impact-absorbing safety steering wheel, safety door locks, safety-grip brakes, safety-beam head lamps, and optional safety seat belts and a padded instrument panel.

FINGER-TIP LUBRICATION is just one option. Widest choice in the field also includes power steering, brakes, windows, 4-way power seats and Merc-O-Matic Drive.

12 STUNNING MODELS, NEW FLEET OF HARDTOPS. Now Mercury's distinctive low-silhouette styling is available in every price range. New hardtops in every series—only 58 1/2 inches high. See THE BIG M in our showroom—now!

Big Spring Youth In University Of South

John Arthur Lawrence, son of Mr. and Mrs. Kelley Lawrence, 543 Hillside, is among the 60 students from Texas who comprise part of the 481 students in University of the South at Sewanee, Tenn.

He is a junior in the college of arts and sciences. Among others from this area in the school are Joseph R. Jones II and Martin Ralph Mitchell, in the college of arts and sciences, and James DeWitt Littlejohn, Emmanuel Parish, School of Theology, all of San Angelo.

Widow Files Suit

HOUSTON (AP)—A \$105,000 suit was filed here in District Court yesterday against the Waco Transit Corp. and a Houston doctor by Mrs. Leuna Giles, widow of William Giles, 51. Giles allegedly died of injuries in a collision between an auto driven by Dr. J. D. Edwards Jr. of Houston, in which Giles was riding and a Waco bus Nov. 30 in Waco.

Admits Slaying After Broken Watch Traced

DENVER (AP)—A young bridegroom of three months, traced through a broken watch, admitted he killed a symphony orchestra trombonist and shot his woman companion, Detective Capt. Fred Zarnow said today.

Robert Mark Dearmin, 21, related how an intended holdup Sept. 22, ended in death on a rural road for Hubert Hahn, 27, Zarnow said.

No charges were filed. Denver police said the prisoner, who also used the name Jay R. Dearmin, would be turned over to authorities of neighboring Adams County.

The lanky, dark-haired young man was arrested at his workshop bench yesterday. He later was pointed out tentatively in a police lineup by Joyce Danielson, 23, a companion of the Denver Symphony Orchestra member the night he was killed.

Miss Danielson, a hospital technician recovering from a bullet wound in the shoulder and from cuts and bruises inflicted by the assailant.

The wrist watch which led to Dearmin's arrest was found at the lonely spot where Miss Danielson said the gunman first tried to rape her, then shot and beat her and attempted to run over her in Hahn's auto.

Zarnow said a Denver jeweler recalled that a blonde girl had bought an identical watch a few days after the slaying. After police arrested Dearmin and found a photograph he carried of his wife Diane, 18, the jeweler identified her as the buyer of the watch, Zarnow said.

He said Dearmin, apparently fearful of questioning about the slaying, intended to produce the newly purchased watch as evidence the one found at the scene was not his.

The musician and Miss Danielson were in a car parked near the boarding house where both lived when a gunman forced his way into the automobile. He ordered the couple to drive into the country, robbed and shot Hahn and later wounded the girl when she attempted to escape.

Zarnow said Dearmin told his wife of the incident next day. Mrs. Dearmin, a secretary, said her husband had informed her fully of the robbery and slaying, Zarnow added.

Flood Gash Saves Hobbs

HOBBS, N.M. (AP)—A gash torn in a railroad embankment holding back a 10-square-mile lake saved Hobbs from what officials said could have been a disaster last night.

City Manager Neal Harr said pressure eased as water ran in a controlled flood from the emergency spillway into streets and through the southeastern New Mexico oil center.

"Evidently we have it under control," said Harr, an engineer, who ordered the chancy experiment.

Rains created a lake 21 miles long and half a mile wide. Only a railroad embankment about 15 feet high kept it from the city.

Harr said he decided to cut the gash after the water began lapping 15 inches from the top of the embankment. Bulldozers went in and 300 volunteers stacked sandbags along the edges to keep the mouth of the spillway from tearing open.

"The water had stopped rising," Harr said. "Clouds were kind of breaking up."

Home-Building Plant To Open

TYLER (AP)—A \$1,500,000 plant expected to produce 90 houses a day is being opened today by the National Homes Corp.

The plant will serve 16 states in the South and Southwest.

James Price, president of the corporation, Albert Cole, administrator of the Housing and Home Finance Agency, and Sen. Price Daniel presided at the opening ceremonies.

The largest of four buildings houses the production facilities. It covers 6½ acres and has 250,000 square feet of manufacturing space. Other buildings are for maintenance, transportation, and the general offices of the Tyler operation.

Walking Delegate

Hat in hand and fist clenched, French Foreign Minister Antoine Pinay talks to newsmen at Paris' Orly Field after a flight from New York. Pinay led the French delegation out of the United Nations General Assembly when it voted to debate French administration of troubled Algeria. At left is Preston Grover, Associated Press bureau chief in Paris.

FRENCH WALKOUT India Legate May Ease U.N. Tension

UNITED NATIONS, N.Y. (AP)—Observers at U.N. headquarters looked to India's V. K. Krishna Menon today for a move to ease tensions caused by the French boycott of the General Assembly.

Menon, Prime Minister Nehru's chief foreign affairs adviser, was listed to wind up the Assembly's policy debate. As a top leader of the Arab-Asian bloc, he could do much to influence fellow anti-colonialists to ease up on the Algerian issue until France cools off.

Although India voted against the French in the Assembly ballot to debate Algerian demands for independence, Nehru's government has praised the Paris government for giving up the small colonies France established in India in the 17th century.

Following the decision to debate the Algerian issue, France called home her representatives at the Assembly and then her permanent delegation to the U.N. The French Cabinet decided, however, to hold on to France's permanent "big power" seat on the Security Council and her place on the Disarmament Committee and subcommittee.

The French had more bitter comment about the Assembly vote to take up Algeria. Jules Moch, French delegate to the Disarmament subcommittee, labeled the decision to debate the Algerian demands for independence "a flagrant violation of the charter."

More Troops Move Up In Berber Revolt

RABAT, Morocco (AP)—Reinforcements poured out of Fez toward the Spanish-Moroccan border today to put down a Berber rebellion which has driven the French from one post and threatens others.

The little post of Imouzzer-des-Marmoucha, near the frontier of French and Spanish Morocco, was abandoned after 11 Europeans were killed in a surprise attack early Sunday.

About 60 rebels launched a new attack this morning against the French at Tafaralt, 40 miles from Oujda near the Algerian border. They were driven off.

The extent of the uprising was hard to measure. More than 1,500 rebels, many of the Spanish side of the frontier, took part.

The trouble was not confined to Morocco. Some of the rebels spilled over into Algeria where 22 were rounded up, part of a Berber tribe which lives on both sides of the French-Spanish Moroccan frontier.

The frontiers were set by European countries. The Berbers are aware of them only when they pass a frontier post as they move about.

In Algeria itself, fresh on the heels of the U. N. vote favoring a debate on the problem, disturbances seemed to be increasing.

The French predicted the disturbances in Algeria after the U.N. Assembly voted to support the Asian-Arab request to discuss the Algerian question.

Foreign Minister Antoine Pinay, who led France's delegation out of the Assembly after the vote was taken, said it would only encourage the Nationalist rebels. France considers Algeria a part of metropolitan France.

The troubles were so widespread they promised to test the capacity of France to handle them. Virtually all France's fighting forces are in North Africa, only a token force remaining in the French zone of Germany.

Recently approximately 60,000 more Frenchmen were called back to the colors, and yesterday a new call was issued in Algeria to muster reservists on the spot.

Probers Seek Crash Cause

TATUM, N.M. (AP)—Military investigators slogged through mud and water from heavy rains late last night seeking the reason for the crash yesterday of a B47 jet bomber.

Two of the three-man crew were killed. The third parachuted safely. He is Lt. William Borgen, 34, of Davis Mountain AFB, Tucson.

The unexplained accident came just after the jet bomber was refueled in flight by a tank plane, also from Davis Mountain.

The dead were Capt. Virgil Swim, 31, and Raymond Lichtenhan, 35, both of Tucson.

Mexican Bandits Kill 3 In Family

MEXICO CITY (AP)—Three members of a rich plantation family were reported yesterday killed by bandits in the state of Tlaxcala.

A band of 30 armed men raided the Del Infinito Ranch near Huamantla, about 75 miles northwest of the capital, killed the owner and his two young sons.

Two others of the family were injured as they fled in an auto.

The bandits then looted the main house and fled.

Texan Sworn In

WASHINGTON (AP)—A Texan from Muleshoe, Col. Inez Haynes, was sworn in yesterday as the chief of the Army Nurse Corps.

3 People Die In Crash Of Private Plane

UNION CITY, Okla. (AP)—A twin engine private plane crashed in flames three miles north of here last night, killing at least three persons.

One was tentatively identified as George Skakel, New York, chairman of the board of the Great Lakes Carbon Corp. The pilot was tentatively identified as Joe Warren Whitney, New York.

The third victim, a woman, was still unidentified.

At Greenwich, Conn., George Skakel Jr., president of the Great Lakes Carbon Corp., said his father and mother had left New York's LaGuardia field yesterday to fly to Los Angeles in a company plane.

The senior Skakels also resided at Greenwich.

At the Bridgeport Airport at Stratford, Conn., where the company plane was based, an official said it left there yesterday with Joe Warren Whitney of Stratford as its pilot.

The three bodies were removed from the wreckage, but a fourth person reported on the converted Air Force plane was still missing.

Highway patrol troopers said the plane apparently belonged to the New York firm. It was en route from Tulsa to Los Angeles.

A Civil Aeronautics Authority radio operator in Oklahoma City said he talked to the pilot only two or three minutes before the crash, 22 miles west of Oklahoma City.

"Something happened," Elmer L. Field said. "He wanted to land in Oklahoma City but was not scheduled to land. He didn't explain his trouble."

One witness said he saw fire shooting out from the plane engines before the crash.

"Apparently the pilot and his passengers were expecting a crash," a highway patrol trooper said. "We found a badly charred body of a woman with a pair of rosary beads wrapped around her arm, indicating that she was praying."

Reporter Defies Judge, Is Jailed

SANTA ROSA, Calif. (AP)—Jack Howard, San Francisco Chronicle labor news reporter, was jailed briefly yesterday for his refusal to obey a judge's order to answer questions regarding sources of information for stories he had written.

The questions were asked during an injunction suit hearing in a labor dispute.

Shortly after Howard was jailed, the 3rd District Appellate Court in Sacramento granted his attorney's petition for a writ of habeas corpus and ordered his release on \$10,000 bail. Hearing on the writ was set for Oct. 21.

While he was in custody, Howard wrote his own version of the case under the headline "Sonoma County Jail."

Attorneys for two apple-processing plants which seek an injunction against the AFL Teamsters Union were quizzing Howard on the stand about statements he had attributed to a union agent in his newspaper accounts of the teamsters strike in the Sebastopol apple growing area.

One attorney, Nathan R. Berke, sought Howard's sworn testimony that teamster organizer Peter Andrade had advised a union to observe officially a temporary restraining order granted by the Superior Court earlier in the dispute, but then had added:

"As individual American citizens anyone has the right to refuse to handle hot apples and we're telling this to all union members in the West."

Howard claimed the right to refuse to answer, under a 20-year-old

Old Mare Gives Birth

LONDON (AP)—Horse breeder Fred Unwin says his old gray mare Stephanie has given birth to a jet black filly at the unorthodox age of 30. "It's as though a human being had a baby when 120 years old," Unwin told a reporter. "But I bought Stephanie as a yearling myself in 1926 so there can be no doubt of her age."

Takes Care Of Herself

Special beauty news is passed on by Shelley Winters, who made some drastic changes in how she took care of her grooming.

HOLLYWOOD BEAUTY

Taking Care Of Self Requires Organization

By LYDIA LANE

HOLLYWOOD — I knew Shelley Winters when she shocked Hollywood by going around in faded locks and hair that badly needed the attention of a coiffeur.

takes me fifteen minutes to set my hair and fifteen minutes for it to dry, so when I'm getting ready for a date I know I must allow a half hour for my hair.

"I learned to like tea when I was in England," she told me as the waiter set a cup of hot tea alongside her cottage cheese salad.

"You're right," she agreed. "It's the influence of the beautiful speech I heard in London. For the first time I realized how pleasant it could be just to hear people talk. It encouraged me to give more thought to how I sounded."

"When I got home I went straight to Howard Greer and Don Loper and bought a whole new wardrobe in size 10. I purposely selected a size I couldn't get into because I knew I couldn't stand to see all those pretty clothes hanging in my closet for long without doing something about it.

"High protein," she told me. "That was the easiest for me because it allowed enough food so that I didn't need to go hungry. Besides, it actually gave me more energy."

"For quick results, I believe in combining diet and exercise," Shelley continued. "I try to get to the gym as often as I can to lift some weights and have a steam bath and massage but when I'm working, or the baby's nurse is off, I exercise at home."

"I've worked out a very effective routine. I exercise for 25 minutes, devoting about 10 minutes to the hips, 10 to my stomach and five to developing the breast."

I noticed that Shelley filled out her cocoa colored sweater very nicely and ventured to ask what her bust measurement was.

"Thirty-seven — working toward thirty-eight," she said with her infectious grin. "Dior is for the birds."

"After exercising," she continued. "I prepare a bath of epsom salts and concentrated oil of pine and soak in the tub for fifteen minutes. I place cool pads over my eyes, cream my face and just lie back and relax. When I get out of the tub, I massage my body with a lotion which has a firming quality."

When the waiter brought Shelley a second cup of tea, I noticed that she squeezed a few drops of liquid into it from a plastic bottle which she carried in her purse.

"It's a sugar substitute," she explained. "I like things sweet and this saves on calories. This and my salt substitute make dieting easy."

SHELLEY'S SECRET DIET Now, for the first time, you can get a copy of Shelley Winters' own secret diet—the fast-working diet that lets you lose weight quickly without cutting down your food intake.

Added, Shelley's own exercise routine that is guaranteed to take off inches from your measurements. Get this big beauty bargain — it's leaflet M-38 — by sending only five cents and a self-addressed, stamped envelope to Lydia Lane, Care of The Big Spring Herald. Be sure to ask for leaflet M-38.

Spice Sales Increase Due To Flavor Trend

By JOYCE CONNAWAY

Just like clothes and interior decorating, our tastes in food change and often go in cycles.

From records of colonial times, there seemed to be much emphasis on spices and proper seasoning of food. Mid-nineteenth century cookbooks paid less attention to flavoring.

In the gay-nineties era, the trend swung back and only to find itself reversed in 1920. But now, since World War II, there has been gradually a re-developing and expanding of a "taste for flavor in foods."

We are, according to the American Spice Trade Association, on the threshold of a new period in food flavoring in this country.

Spice trade reports that we are now using a greater quantity and wider variety of seasonings in our meals than ever before in history.

Annual consumption is approximately 150 million pounds.

Partly the cause of this stimulus is that today's homemaker has a much wider range of spices available at the local foodstore.

Before World War II, the average store stocked less than two dozen different spices. Now the grocery shopper can find about fifty different varieties.

Other reasons for this increase in spice sales is that vast groups of servicemen and increasing numbers of tourists have returned home singing the praises of the foreign cook.

Also, the smart housewife has found that spices are helpful in stretching the food dollar with less expensive cuts of meat, and getting more mileage out of left-overs.

Since all these cooking supplies are available, don't you think that it would be helpful to know what they are, where they come from and some information about them so you could use them intelligently.

Allspice is a native of the Western Hemisphere and is grown chiefly on the island of Jamaica. The berries are picked while they are still green and sun dried for about a week until they turn a dark reddish-brown. The flavor resembles a blend of cinnamon, nutmeg and cloves, hence the name, all-spice. It is used both whole and ground and is the favorite for seasoning pot roast and making mince-meat.

One ounce equals 14 teaspoons. Cassia or cinnamon is taken from the bark of a tree grown in Indochina. Whole it is used in pickling.

Pepper, America's favorite spice, has been a leader through history and was often used as money. Buy small quantities, so you can replace it often. This "absolute must" in any kitchen adds a spicy tang to almost all foods.

Did you know that vanilla was a spice? A native of Central America, vanilla beans are the dried cured fruit of an orchid. It is used mostly in the pure extract form for baking and desserts.

Preserving, flavoring puddings and fresh fruits. In the ground form, cinnamon is good in baked goods, mashed sweet potatoes and combined with sugar on toast.

Spicy small peppers make cayenne which, when used in just the right amount, is the hallmark of a good chef. This red pepper is used on meats, sauces, fish and egg dishes. A touch of cayenne plus 1/4 teaspoon paprika added to 2 or 3 tablespoons of butter makes an excellent sauce for vegetables.

From Indonesia, Madagascar and Zanzibar comes the nail-shaped buds of the stately clove tree from which cloves are made. This spice adds an excellent flavor to pork and ham roasts, pickled fruits, spiced sweet syrups, baked goods and stews and vegetables. For a tastier meat stew, add a small onion stuffed with two or three whole cloves.

Ginger, the root of a tuberous plant, is found in Asia, Africa and the West Indies. In the cracked form, the spice is good for pickling, dried fruits and applesauce. Gingerbread, cakes, canned fruits, and meats take to this ground product. For something new, try rubbing a chicken inside and out with a mixture of ginger and butter before roasting.

A fleshy growth between the nutmeg shell and the outer skin, mace is orange-red in color and its flavor resembles nutmeg. You would see this spice growing in Indonesia and India. Whole, it is called blade and is excellent in fish sauces, pickling, and preserving. Add a chopped blade to your gingerbread batter, or to stewed cherries.

Ground mace is essential in fine pound cakes, for it contributes a golden tone and exotic flavor to all yellow cakes. To increase the delicacy of whipped cream and to cut the oiliness, add one teaspoon ground mace to one pint of whipped cream.

Found in the same locality of mace, nutmeg is the kernel of the fruit. This spice is used in baked goods, sauces, toppings, vegetables and fruits. It is the spice flavoring for doughnuts. To add flavor to the crust of your meat pie, drop in a pinch of nutmeg.

A colorful red garnish for any pale foods, paprika goes on fish, meat, vegetables and canape dishes.

Pepper, America's favorite spice, has been a leader through history and was often used as money. Buy small quantities, so you can replace it often. This "absolute must" in any kitchen adds a spicy tang to almost all foods.

SALLY COWPER (Photo by Barr)

Sally Cowper Is Installed As Rainbow Worthy Advisor

Sally Cowper, daughter of Dr. and Mrs. B. B. G. Cowper, was installed as Worthy Advisor of the Big Spring Assembly No. 60, Order of the Rainbow for Girls Saturday night at the new Masonic Hall.

Those installing the officers were Betty Anderson, installing worthy advisor; Margaret Fryar, chaplain; Madeline Mann, marshal; Kenda McGibbon, organist; and Mary Sue Hale, recorder.

Officers installed other than Miss Cowper were Jacqueline Smith, worthy associate advisor; Frances Reagan, charity; Lucy Thompson, hope; Kathy McRee, faith; Belva Jo Wrenn, recorder; Billie Jean King, chaplain.

Also installed were Barbara Coffee, chaplain; Sandra Sloan, drill-leader; Sammie Sue McCombs, love; Carolyn Sewell, religion; Jennie McEvers, nature; Kathleen Mann, fidelity; Linda Woodall, patriotism; Annette Boykin, service; Kay Chadd, confidential observer.

Assisting these will be Janette Hefflin, outer observer; Delores Howard, musician; Beverly Alexander, choir director; Mrs. Tracy Roberts, Mother Advisor.

The outgoing officers gave a drill, followed by the invocation by the Rev. William Boyd. As a tribute to Miss Cowper, Joyce Howard sang "When You Grow Too Old to Dream," and Miss McRee presented her to the color stations.

Each station pinned a different colored carnation to a satin heart and then Miss Cowper was presented to the assembly as the new Worthy Advisor.

Following the installation, Miss Anderson presented a Rainbow Bible with the traditional flower to the new officer. Miss Cowper introduced her parents, and Dr. Cowper spoke on "Fidelity."

The refreshment table was laid with a white organdy cloth with a centerpiece of a doll dressed as the centerpiece in the center of a rainbow of carnations and dark blue ribbons. Punch and cake were served to the group.

Opening prayer was led by Mrs. Dub Bryant and each member answered the roll call with a place, town or river having an Indian name.

The worship center, displaying different phases of Indian life, was by Mrs. Clifford Hale Jr.

Those taking part on the program were Mrs. Dean Forrest, leader, Mrs. Tommy Lovelace, Mrs. W. D. Gilmore, Mrs. Roy Derrickson.

There were 15 present.

Church Guild Plans Dinner For Saturday

A Mexican Dinner will be open to the public Saturday from 5 to 8 p.m. at the Parish House sponsored by the St. Cecilia Guild of St. Mary's Episcopal Church.

All proceeds from the dinner will go to buy chapel furnishings for the State Hospital. The complete meal will be one dollar for adults and fifty cents for children under 12 years of age.

The menu includes enchiladas, Spanish rice, beans, cole slaw, coffee and a choice of praline or minis.

Reservations should be made or tickets purchased before the meal time, although tickets will be sold at the door. The ladies want to have an estimate of how much home cooked food to prepare. To make reservations, call 4-6846.

Circle Bible Study Led By Mrs. Webb

At the Bible study session of the Kate Morrison Circle of the East Fourth Baptist Church Monday afternoon, Mrs. Gilbert Webb taught the lesson on the 23rd Psalms.

The group met in the home of Mrs. L. E. Taylor, 1204 E. 15th. Eight members and two visitors, Mrs. O. O. Brown and Mrs. G. C. Ragsdale, were present.

Prayers were led by Mrs. H. Reaves and Mrs. Brown.

Found in the same locality of mace, nutmeg is the kernel of the fruit. This spice is used in baked goods, sauces, toppings, vegetables and fruits. It is the spice flavoring for doughnuts. To add flavor to the crust of your meat pie, drop in a pinch of nutmeg.

A colorful red garnish for any pale foods, paprika goes on fish, meat, vegetables and canape dishes.

Pepper, America's favorite spice, has been a leader through history and was often used as money. Buy small quantities, so you can replace it often. This "absolute must" in any kitchen adds a spicy tang to almost all foods.

Did you know that vanilla was a spice? A native of Central America, vanilla beans are the dried cured fruit of an orchid. It is used mostly in the pure extract form for baking and desserts.

Preserving, flavoring puddings and fresh fruits. In the ground form, cinnamon is good in baked goods, mashed sweet potatoes and combined with sugar on toast.

Spicy small peppers make cayenne which, when used in just the right amount, is the hallmark of a good chef. This red pepper is used on meats, sauces, fish and egg dishes. A touch of cayenne plus 1/4 teaspoon paprika added to 2 or 3 tablespoons of butter makes an excellent sauce for vegetables.

From Indonesia, Madagascar and Zanzibar comes the nail-shaped buds of the stately clove tree from which cloves are made. This spice adds an excellent flavor to pork and ham roasts, pickled fruits, spiced sweet syrups, baked goods and stews and vegetables. For a tastier meat stew, add a small onion stuffed with two or three whole cloves.

Ginger, the root of a tuberous plant, is found in Asia, Africa and the West Indies. In the cracked form, the spice is good for pickling, dried fruits and applesauce. Gingerbread, cakes, canned fruits, and meats take to this ground product. For something new, try rubbing a chicken inside and out with a mixture of ginger and butter before roasting.

A fleshy growth between the nutmeg shell and the outer skin, mace is orange-red in color and its flavor resembles nutmeg. You would see this spice growing in Indonesia and India. Whole, it is called blade and is excellent in fish sauces, pickling, and preserving. Add a chopped blade to your gingerbread batter, or to stewed cherries.

Ground mace is essential in fine pound cakes, for it contributes a golden tone and exotic flavor to all yellow cakes. To increase the delicacy of whipped cream and to cut the oiliness, add one teaspoon ground mace to one pint of whipped cream.

Mu Zeta Group Honors Rushees

A model meeting to honor rushees was held in the home of Mrs. Glenn Allen Monday evening by members of the Mu Zeta Chapter of Beta Sigma Phi.

The rushees are Mrs. Bill Burdette and Mrs. Bill Priebe, Mrs. Lowell Knoop and Mrs. Bill Crocker gave the program on "Happiness."

Mrs. Elmer Giles was named City Council representative.

During the business meeting tickets for the Charity Masquerade Ball to be held on Oct. 29 at the Settles Hotel were distributed. All proceeds will go to the Muscular Dystrophy fund and prizes for the most original costumes have been offered by The Men's Store and The Little Shop. Music will be furnished by Steve Birdwell's Orchestra of Atlanta and tickets may be obtained from any member of the sorority.

Mrs. Thomas J. Bauch will be hostess for the Oct. 17 meeting at 8 in the evening in her home at 1206 Lamar.

Each station pinned a different colored carnation to a satin heart and then Miss Cowper was presented to the assembly as the new Worthy Advisor.

Following the installation, Miss Anderson presented a Rainbow Bible with the traditional flower to the new officer. Miss Cowper introduced her parents, and Dr. Cowper spoke on "Fidelity."

The refreshment table was laid with a white organdy cloth with a centerpiece of a doll dressed as the centerpiece in the center of a rainbow of carnations and dark blue ribbons. Punch and cake were served to the group.

Opening prayer was led by Mrs. Dub Bryant and each member answered the roll call with a place, town or river having an Indian name.

The worship center, displaying different phases of Indian life, was by Mrs. Clifford Hale Jr.

Those taking part on the program were Mrs. Dean Forrest, leader, Mrs. Tommy Lovelace, Mrs. W. D. Gilmore, Mrs. Roy Derrickson.

There were 15 present.

P-TA City Council Big Spring P-TA City Council will meet Wednesday at 9:30 a.m. in the High School Cafeteria.

2155 SIZES 10-40

New Princess

A charming design for day or date—the princess jumper V-necked and teamed with a collared, "baby-doll" sleeved blouse.

No. 2155 is cut in sizes 10, 12, 14, 16, 18, 20, 26, 28, 40. Size 16; Jumper, 4 yds. 39-in. Blouse, 2 yds. 35-in.

Send 35 cents in coin (no stamps, please) for Pattern, with Name, Address, Style Number and Size, Address: PATTERN BUREAU, Big Spring Herald, Box 42, Old Chelsea Station, New York 11, N.Y.

For first class mail include an extra five cents per pattern.

The new FALL-WINTER FASHION WORLD, just off the press, features all the important changes in the fashion silhouette. Beautifully illustrated in COLOR, this book brings you scores of easy-to-sew pattern designs for all ages and occasions. Send now for your copy! Price just 25 cents.

Homecoming Queen To Be Crowned

The Big Spring High Homecoming Queen will be crowned on Nov. 18 when the Steers play on their home field, according to an announcement made at the student council meeting Monday afternoon.

Plans for the homecoming festivities which will take place on Nov. 22-24 were completed, but rather than crown their queen at the game in Sweetwater the group chose the Pinatvian game that will be held here.

Jerry McMahan led the opening prayer.

Plans were made for the Halloween carnival which is to be held October 31. Seniors will have the side show booth; juniors the cake walk; sophomores the bingo and any other school organizations may have dart throwing, horror house, baseball, archery or any other approved booths. Bennie Compton will be in charge of the lighting for the affair and Brenda Gordon will direct the decorations for crowning the Halloween queen.

Tommie Jo Williamson, Opal Hancock and Johnny Janak will serve as a committee to select a pin for the council.

Classes met this morning in their individual groups and selected two nominees as their candidates for the Halloween queen contest.

Announcement was made that the Texas Association of Student Councils will convene in Midland on March 13 and the local delegates are to be elected in December. Members heard correspondence read from San Antonio and Austin.

Councilors reminded that all Homecoming chairmen will be called upon to present their plans at the next meeting and delegates to the West Texas Forum will make reports at this time.

Lewis Porter, Valjean LaCrotz, Rodney Sheppard, and Jerry McMahan are a committee to choose 50 discussion topics to be used at the state convention.

A leadership training program will be set up at the next meeting and buzz groups will be formed to make plans for a program to be followed.

Nineteen members and their sponsors, Mrs. Betty Rathiff and Don Green, attended.

Mrs. Parker Speaks To Phillips Circle

Mrs. Deane Parker brought the Bible study from the book of First Samuel when the Blanche Simpson Circle of the Phillips Memorial Baptist Church met Monday for its weekly meeting.

Prayers were led by Mrs. Patsy Dial, Mrs. James L. Banks and Mrs. James O. Coyle. Ten members were present.

Patchwork Apron

By CAROL CURTIS Forty-five squares of the brightest cottons you can lay hands on, a variety of "sampler" stitch embroideries such as Grandmother used to make, plus pearls, sequins, beads in giddy colors and you have the most talked-about party apron ever made! All instructions.

Send 25 cents for PATTERN No. 134, YOUR NAME, ADDRESS, PATTERN NUMBER to CAROL CURTIS, Big Spring Herald, Box 229, Madison Square Station, New York 10, N. Y.

The NEEDLEWORK GUIDE, 36 pages, 150 designs for knitting, crochet, embroidery, hairpin lace, dozens of beautiful color transfers. Order as you do needlework patterns—Only 25 cents.

FOLGER'S GIVES YOU MORE FLAVOR PER CUP

... the richer, more satisfying flavor that comes only from skillful blending and roasting of Mountain-Grown coffees

For breakfast, there's nothing like the heart-warming lift of freshly brewed Folger's Coffee, because you get so much more vigorous flavor, so much more lively coffee goodness in every single cup.

Folger's, you see, selects only the finest coffees, Mountain-Grown coffees that are naturally more flavorful. They blend and prepare them with a unique century-old Folger "touch" that produces not only a richer flavor, but a truly distinctive flavor no other coffee can match.

Tomorrow morning, taste and see what a delicious difference Folger's richer flavor makes.

SO MUCH RICHER IN FLAVOR YOU ARE URGED TO USE 1/4 LESS THAN WITH LESSER FLAVORED BRANDS

Experts Disagree On Possibility Of Putting Halter On Hurricanes

WASHINGTON (AP)—Ten deadly hurricane sisters, ranging from shy Alice to vicious Janet, have whirled up out of their tropical spawning grounds so far this year—and more may be yet to come.

Officially, the season of the big winds lasts until Nov. 15.

Experts disagree on whether it will ever be possible to throw a halter on these dangerous ladies from the tropics. But each time the grim red-and-black warning flags begin to fly, the U.S. Weather Bureau braces for an inevitable barrage of complaints:

"Why don't you do something to stop it?"

"Do we have to wait helplessly until the hurricane strikes?"

"Why are we hoarding our atomic bombs? Drop an A-bomb into the hurricane and destroy it before it destroys us!"

Some scientists believe atomic intervention could turn the trick. Dr. Edward Teller, so-called "father" of the hydrogen bomb, said recently that atomic research developments may enable mankind to control weather and "prevent or alleviate" hurricanes within the next 10 years.

How? By dropping A-bombs into the storm? Dr. Teller didn't say. But Dr. Francis W. Reichelderfer, breezy, fast-talking chief of the U.S. Weather Bureau, has strong doubts about atomic bombs as hurricane killers.

"It would take 1,000 atomic bomb explosions a minute to match the kinetic energy of a single moderate-size hurricane," Reichelderfer said in an interview.

"Even if you dropped a whole curtain of A-bombs along one side of the hurricane, it might slow it down for a while, but the terrific force of oncoming winds from the revolving storm would start it spinning again."

"In the field of nuclear fission versus hurricanes, I'd guess there would be no revolutionary development for many years."

Theodore Gleiter, head of the bureau's hurricane warning system, added this comment:

"Radioactive fall-out from an atomic explosion in a hurricane would be so tremendous it might kill 10 to 1,000 times as many people as the storm itself."

Critics are quick to rise and take lusty swipes at the Weather Bureau when the agency commits a blunder, as in the case of September's Hurricane Ione.

The bureau's forecasts, picturing Ione as potentially the worst storm of the year, set alarms ringing up the Atlantic coast from North Carolina to New York.

In Washington thousands of government workers were dismissed, schools closed down and downtown stores taped their windows against the expected wallpaper.

In New York, the Rocky Marciano Archie Moore heavyweight boxing championship fight was postponed 24 hours.

Then Ione took it into her head to disappear. Nobody seemed to know just where the storm had gone.

Commenting on such criticism, Reichelderfer told a reporter:

"The Weather Bureau takes its mistakes as seriously as anybody. Every time we issue an alarm that doesn't come true it has a wolf-wolf effect. That's why forecasters always think twice before sounding a warning."

"But there was a real threat that Ione might speed up and arrive as scheduled by the Weather Bureau. We had to say so."

Reichelderfer, who has headed the bureau since 1939, said the agency is now in the midst of "a searching review of the whole sequence of events" surrounding the Ione fiasco.

"We are studying our entire forecasting process," he said. "If we knew of sounder methods, we'd adopt them immediately. We adopted radar so fast that the good professor at Princeton (Stewart) said we went too quickly. He's wrong. If he could see the radar picture of a hurricane he'd understand."

Reichelderfer acknowledged that something went wrong on radar's sleuthing of Ione.

"Rain bands in the radar picture gave a false view of where the eye was," he said, "but we have no reservations at all about the great value of radar in tracking tropical storms."

Gordon Dunn, chief of the Weather Bureau's storm warning center at Miami, Fla., says it may be possible to "steer" hurricanes away from a threatened city by treating the storm with artificial rain-making methods—i.e., seeding the clouds with dry ice pellets or silver iodide.

Reichelderfer was skeptical of this idea.

"There are probably not enough planes in the world to drop enough ice to stop a hurricane," he said.

While mankind may never be able to control nature's outbursts, human ingenuity is making considerable progress in detecting, tracking and warning of impending danger from hurricanes, floods, tornadoes and other weather caprices.

At the Weather Bureau's long-range forecasting center in nearby Suitland, Md., a giant new "electronic brain" analyzes complex data sent in four times daily from some 14,000 meteorological stations, ships and aircraft all over the world.

But for all its astonishing efficiency, the "brain" still can't give a simple yes or no answer to the question: "Is it going to rain tomorrow?" That's where the human element—based on judgment, experience and pure "hunch"—beats the machine.

Besides the "brain," the bureau has 38 weather scanning radar stations stretching from the Rockies to the Atlantic Coast and will soon have a multimillion-dollar radar network extending from Maine to Texas. A big new radar station at Cape Hatteras, opened in July, pinpoints the "eye" of a tropical storm as far as 200 miles away.

Dodge Slates Record Drive On New Models

DETROIT—Selection of a record number of newspapers to be used in launching the 1956 Dodge advertising program has been announced by Jack W. Minor, Dodge sales manager. In charge of advertising and merchandising.

"Every important daily newspaper across the nation will carry the 1956 Dodge model announcement advertisements beginning Oct. 6," Minor said. "More than 1,000 of these will be in major market areas. In addition, some 3,000 smaller dailies and weeklies also are on the schedule for initial and follow-up ads in a broad campaign even more comprehensive and spectacular than that of a year ago."

A highly diversified use of all advertising media is planned for the new car announcement phase. Heavy newspaper lineage throughout the first three weeks of the announcement period will be accompanied by full-color magazine display emphasizing the 1956 Dodge theme: "Born of Success To Challenge the Future."

"We're picking up right where we left off on the 1955 models," Minor said. "1955 was a great year for Dodge, and 1956 promises to be even better. The push-button era of motoring is here at last, and this new '56 Dodge feature already has captured the imagination of millions of American car owners."

"The response of our dealers and members of the press at our preview meetings has been tremendously enthusiastic, and we expect to support our field organization and sales force with every advertising, promotional and merchandising tool at our command."

Surf Baby

Deanne Barnard, 18-months-old daughter of Dr. and Mrs. James L. Barnard of Corpus Christi, enjoys riding a surfboard behind her father's speedboat in Corpus Christi Bay. Her four older brothers and sisters all perform on surfboards and water skis, and Deanne is ready to join the act.

All-Weather Oil Proves Popular With Motorists

Changing grades of motor oil to match the change in seasons is no longer necessary. With the development of all-weather motor oils many car owners now rely on one of the new multiple grade oils for both winter and summer engine protection.

The popularity of all-weather motor oil is shown in sales figures released today by Phillips Petroleum Company. During the first half of this year, the company's Trop-Artic All-Weather Motor Oil accounted for 36 per cent of Phillips sales of first line service station motor oils. Using this figure, Phillips estimates that almost four out of every ten customers are already using this all-weather oil which was placed on the market only 15 months ago.

Convenience is one reason for the rapid sales rise of this new type oil. All-weather oil makes it easy for motorists to protect car engines against operating and seasonal temperature changes.

Used in conjunction with gasoline that is "controlled" according to the season and climate, all-weather motor oil helps car owners enjoy trouble-free motoring at every season of the year.

To get full enjoyment from your electric service

MODERNIZE HOME WIRING NOW!

It takes more than modern appliances to get full benefit from your dependable low-cost electric service. It takes modern home wiring, too... with enough electrical outlets and circuits to operate your appliances with maximum convenience, efficiency and economy. See your electrical contractor soon about modernizing your home wiring. Ask him about financing on easy terms with no down payment and up to 24 months to pay.

FREE BOOKLET tells how to plan home wiring for maximum convenience and service... now and in the future. Phone, write or come in for your copy.

Texas Bracero Dies In N. Dakota Fight

GRAND FORKS, N.D. (AP)—One Texan was killed and two others wounded in what police called the climax of a street fight between two gangs of armed migratory farm hands Saturday night.

Tony Ortega, 20, Dallas, was cut down by two bullets. Domingo Ortega, 17, a brother of the dead man, received a knife wound in the shoulder. Enrique Trevino, 18, of Laredo, received two gunshot wounds. The fight occurred in front of the city auditorium just before a dance was to begin.

Body Sent Home

HOLLYWOOD (AP)—The body of James Dean, the 24-year-old motion picture star killed in a high speed crash last Friday, has been flown to Marion, Ind., for burial.

5 Labs Seek H-Bomb Taming

WASHINGTON (AP)—Chairman Lewis L. Strauss of the Atomic Energy Commission said today research aimed at taming the hydrogen bomb for peacetime uses is being conducted at a rapidly increasing rate at five laboratories in the United States.

Strauss told a news conference the long-range program, known as Project Sherwood, was started in 1951 and is now being carried out at Princeton University; at AEC laboratories operated by the University of California at Los Angeles, N. M., and at Livermore, Calif.; and at Oak Ridge, Tenn. and New York University.

Strauss declined to disclose how much is being spent on the project except to say it is "quite a significant sum of money."

He said it might be "a fair guess" that the success or failure of the attempt to obtain controlled energy from nuclear fusion would come about in 20 years. But, he added, some scientists say the answer may be known in anywhere between one year and 1,000 years.

LABOR KNOWS:

working together gets things done!

And Labor is setting the pace for the United Fund. Will you join the working men in building a better community?

AGAINST TWO Criminal Assault Charges Are Filed

Two Big Spring Latin Americans have been charged with criminal assault and a pair of Anglo American residents are being held for investigation on suspicion that they enticed two minor girls into their automobile and to the top of scenic Scenic Mountain.

Charges of attempted rape were filed Monday in Justice Court against Pio Bustamante, Pedro Amador Jr. and charged today with committing rape against a minor girl.

Both the defendants are being held in county jail. No bond has been set.

Police arrested Bustamante Saturday night, after an attack was reported in the 300 block of Trades Street, in northwest Big Spring.

City officers picked up Amador Monday after the father of the 15-year-old girl involved in the case reported the two had spent Sunday night in a tourist car.

The Anglo American men were arrested with two girls, aged 13 and 14, on Scenic Mountain. Both the men are married and have children, authorities said. They are 18 and 19 years of age.

Juvenile Officer A. E. Long said the girls will be held until their parents can be contacted. He reported both of the girls have been "running wild" recently.

Red Subversive Cost Estimated 10th Of Military

PHILADELPHIA (AP)—Allen Dulles, director of the Central Intelligence Agency, estimates that Soviet expenditures in training, support and operation of "its over-all subversive mechanism may approach 10 per cent of its expenditures on its over-all armament program."

Dulles made the statement yesterday before the 62nd annual conference of the International Assn. of Chiefs of Police. He warned that there is no hard evidence as yet that Russian underground subversive activities have ceased.

He also said the Soviets have a substantial stockpile of obsolescent military equipment as well as a whole new series of equipment, some becoming obsolete and some surplus.

As an example, he said, the Russians have a reserve of some 4,000 to 6,000 MIG15 fighter planes which have been replaced with newer models.

A very substantial number of this reserve could be "off-loaded as an adjunct to a general program of causing trouble throughout the world."

The obsolete surplus military equipment has gone to Communist China and Indochina, Dulles said, and warned, "I should not be at all surprised if we soon heard that countries in this hemisphere were being approached."

W. W. Ogle, 60, died suddenly at his home at 810 Johnson St. Monday afternoon.

Walter Grieve, justice of peace, returned a verdict of death due to heart attack. He said that Mr. Ogle had been in the yard and was walking toward the house when he was stricken. Mrs. Jimmy F. Harper, who was passing by, saw him and summoned aid, but he was dead.

Services were to be held at 4 p. m. at the River Funeral Home with the Rev. Lenol Hester, pastor of the First Methodist Church in Snyder, officiating. Burial was to be in the City Cemetery.

Mr. Ogle was born in Kansas on March 1, 1885 and served in the U. S. Navy in World War I. He moved here from Pecos in 1943 and had been a resident since that time.

He leaves his wife, Mrs. Gladys Ogle; two stepdaughters, Mrs. Prentiss Bass, Snyder, and Mrs. Ralph LaLonde, El Paso; one stepson, Willie Nolan, Big Spring; and a daughter, Mrs. E. L. Newsom, Dick Fitzgerald, Clifton Profit, Martin Binder, Jess Slaughter and Paul Lawrence.

Other speakers were Newell Hughes, El Centro District commissioner; Stanley Noel, Snyder District commissioner; and E. J. Fischer, neighborhood commissioner.

Joe V. Neidermayer, director of the field service, discussed the "Together, We Organize" program, and P. V. Thornton, Scout executive for the Buffalo Trail Council, led the group in several songs.

Request of Odell Buchanan, Coahoma county, for a two-way radio for his car, and a telephone for his office was rejected Monday by county commissioners. The officials said Buchanan could submit monthly bills for his telephone calls.

Heavy rains in Oklahoma were putting the Red River at flood stage north of Wichita Falls and it was probable that the Red's flood would back up waters of Holiday Creek and the Wichita River.

The Holiday runs into the Wichita River at the northeast edge of the Wichita Falls city limits. The Wichita Falls river runs into the Red River, the Texas-Oklahoma boundary north of the city.

Heavy rains reported at Clinton, Okla., and Sentinel, Okla., would push the Red to such a stage that the Wichita and Holiday Creek would have no place to dump their runoffs.

"Serious flooding" all over the town the next 40 hours was predicted by Forecaster Moore shortly before midnight.

Meanwhile, officials feared more rain as thunderstorms roamed over much of the Southwest, especially in Texas, New Mexico and Oklahoma.

Elsewhere in North Texas, the Brazos River was on the rampage and high water closed highways in the Paducah and Seymour areas where more than a million dollars worth of damage was counted from downpours last week.

At Knox City, the Stonewall Gas Products plant, was reported under water. A huge gin at Sneedville, was destroyed by flooding waters from the Brazos.

Farmers and ranchers along the upper Brazos watershed were warned to move their livestock to the highest ground possible.

Rain fell at 4:30 a. m. at Clifton, El Paso, Salt Flat and Midland after splashing over the wide area nearly all night.

Fog covered much of the San Antonio-Austin area and the rest of the state was cloudy to partly cloudy.

Temperatures at dawn ranged from 81 at Galveston to 60 at Dabhart and Amarillo.

Forecasters called for much of the same weather through Tuesday.

Big Oil Progress Observance Is Shaping Up For Big Spring

Oil Progress Week in Big Spring is to be observed with an increasingly wide range of events, Ted O. Groebel, chairman, told the Chamber of Commerce on Monday.

The traditional essay contest is moving along fine, he said, with all entries in the process of being judged. There will be speech contests in the high school this week.

Local service stations are participating in a lucky folder contest and there will be a special award of a weekend in Western Hills Hotel in Fort Worth.

Hotels and banks will have special displays as will several merchants, he said.

Service clubs will have oil progress programs, and the Ritz and Jet Theatres will have shorts concerning oil.

In other matters to come before the board, Jack Cook said that studies were progressing on a prospective port site, but that it would be around Dec. 1 before cost analyses might be available.

Negotiations are under way between the city and property owners toward opening West 2nd Street all the way through the city. L. L. Cook, chairman of the highway committee, told the board.

Manager J. H. Greene said that the Chamber had been able to iron out transportation difficulties which for a time threatened to stymie

Worthwhile entertainment is good business for a community. Mrs. Clyde Angel told the Chamber of Commerce directors Monday.

With Mrs. Arch Carson and Mrs. Truman Jones, Mrs. Angel appealed to the board for suggestions of how to meet the need of an organization of the Big Spring Concert Association budget.

Aside from the cultural contributions that programs of the quality book end here this year will make, programs generate business from out-of-town visitors and from members who buy clothing, entertain, etc. Moreover, Louisville, Ky. has extended cultural advantages resulted in numerous industries locating because of advantages for employees, she said.

The series of programs to be presented is the best on record and good enough that it is drawing several members from Sweetwater, which is much nearer to Abilene. The "Fiesta Mexicana" is a fabulous company with costumes valued

at \$300,000. The Dallas Fair wanted the group for the entire Fair but could not have them for so long a run.

Toscanni declared the "Virtuosi di Roma" the finest group of musicians he had heard, and their presentation at Hunter College in New York will have a \$5 admission tag, said Mrs. Angel. Mia Slavenska is the prima ballerina of the Metropolitan, and everywhere she has been most widely acclaimed. As for the Dublin Players in "Pygmalion," they are simply acknowledged to be one of the finest group of actors today.

The Sterling County 4-H Club team took first place in the range judging contest Saturday. The Hawley FFA chapter team took first place in the land judging contest and the Howard County 4-H Club team took second place in both events.

Carolyn Payne, Sterling County 4-H Club member, made the high score in the range judging contest; Robert Lomax, Howard County 4-H Club member, took second, and LeRuth Reed, Sterling County 4-H Club member, and Roy Griffith, Howard County 4-H Club member, tied for third place. Tommy Franklin, member of the Hawley FFA Chapter, made the high score in the land judging contest. Leola Price, member of the same chapter, made the second highest score, and Lynn Jackson, member of the same chapter, made the third highest score.

The Sterling County 4-H Club was trained by Fred Campbell, county agent. The Hawley FFA chapter was trained by Wayne Forest. The Howard County 4-H Club was trained by Jimmie Taylor, county agent, and Bill Simms, assistant county agent.

The contest was held on range and cropland near Big Spring. The event was sponsored by the supervisors of the Martin-Howard Soil Conservation District. Marion E. Echhart and Edward Bigham of the Soil Conservation Service assisted the supervisors in the contest. Plaques were presented to the winning teams and medals to the three high scorers in each contest.

Helon Blount, who was reared in Big Spring, will be aboard the Oldsmobile Show Train when it comes through here Friday morning.

G. W. Dabney, ticket agent for the T&P, said that the train will leave El Paso at 11:59 p. m. Thursday and is due to arrive here somewhere around 7:30 a. m. Friday. The definite time course he pegged by calling the ticket office anytime after 6 a. m. Friday.

A number of friends of Miss Blount have indicated they will meet the train to visit with her. The daughter of Mr. and Mrs. R. E. Blount, who now reside in Austin, Miss Blount attended the University of Texas and later was voice instructor there before singing professionally.

There were three minor accidents reported in the city Monday. Zella L. Bewley, 200 Goliad, was in collision with a parked car in the 100 block of East Second. The mishap occurred about 3:30 p. m. Owner of the parked car was not identified.

William Horace Garrett, 1715 Edwards, and Dorothy Basham Tow, 605 Main, were drivers in collision in the 600 block of Main about 5:30 p. m. Aler Benjamin Jernigan, 707 E. 16th, and Polk Arch Ratliff, 605 E. 13th, were involved in an accident at Goliad and Thirteenth.

Revival in Progress, at the Church of God, here in Big Spring, location 4th & Galveston St. Services Nightly at 7:30 p. m.

Rev. C. E. Richard, evangelist of Birmingham, Alabama, Rev. Richard is known to thousands, having served in a number of states as Camp Meeting speaker. You may attend are in for a great Spiritual Blessing.

Welcome

Rev. F. C. Dozier

Pastor

REV. C. E. RICHARD

WALL STREET

NEW YORK (AP)—The stock market opened mixed today. Prices spread over a range of about 100 points in the opening trading was fast.

Douglas General Motors up 1/2, General Electric up 1/2, Aluminum off 1/2, and Royal Dutch Petroleum off 1/2.

CHICAGO (AP)—Cattle 4,800 calves and calves generally steady; cows and heifers generally steady; hogs and pigs generally steady; sheep and lambs generally steady.

NEW YORK (AP)—Cotton was 15c to 20c a bale higher at noon today. October 31.75, December 31.25, March 30.81.

More Thefts Occur In City

Several thefts were reported to police Monday.

Investigation was proceeding today concerning a burglary last night of Holman's Grocery, 200 N. Gregg. Entry was made through a rear window and about \$40 was reported missing.

The York and Pruitt Used Car Lot reported a tire taken from a Dodge automobile parked on the lot. The Harmonson Used Car Lot reported three hub caps taken from a Chrysler on its lot.

A police were notified by Air Police that a 1935 Hudson had been stolen from Webb AFB. The green car had a Florida license plate, number SW-10705. The theft was discovered about 5:30 p. m.

George Kunkle, 601 Johnson, reported a grey Mercury had been abandoned in front of his home since Sunday night. Police said the license number was KW 4992 and investigation is being made to discover the owner.

Nadine Emerson reported that her car title, driver's license, and other papers were taken from her car sometime over the weekend.

He leaves his wife, Mrs. Gladys Ogle; two stepdaughters, Mrs. Prentiss Bass, Snyder, and Mrs. Ralph LaLonde, El Paso; one stepson, Willie Nolan, Big Spring; and a daughter, Mrs. E. L. Newsom, Dick Fitzgerald, Clifton Profit, Martin Binder, Jess Slaughter and Paul Lawrence.

Other speakers were Newell Hughes, El Centro District commissioner; Stanley Noel, Snyder District commissioner; and E. J. Fischer, neighborhood commissioner.

Joe V. Neidermayer, director of the field service, discussed the "Together, We Organize" program, and P. V. Thornton, Scout executive for the Buffalo Trail Council, led the group in several songs.

Request of Odell Buchanan, Coahoma county, for a two-way radio for his car, and a telephone for his office was rejected Monday by county commissioners. The officials said Buchanan could submit monthly bills for his telephone calls.

Heavy rains in Oklahoma were putting the Red River at flood stage north of Wichita Falls and it was probable that the Red's flood would back up waters of Holiday Creek and the Wichita River.

The Holiday runs into the Wichita River at the northeast edge of the Wichita Falls city limits. The Wichita Falls river runs into the Red River, the Texas-Oklahoma boundary north of the city.

Heavy rains reported at Clinton, Okla., and Sentinel, Okla., would push the Red to such a stage that the Wichita and Holiday Creek would have no place to dump their runoffs.

Dogs Trained To Aid Police In Philadelphia

PHILADELPHIA (AP)—Four German shepherd dogs, which at a command will jump through a plate glass window, are being used in an experiment that may prove the solution to the shortage of police officers in many of the nation's communities.

The experiment, first of its kind in city police work according to Commissioner Margurite C. Johnson of Dearborn, Mich., is being conducted in her city of 120,000.

"Instead of having two policemen on a beat, we can send out a dog and an officer," she said. "The dog, if commanded, will jump through a plate glass window, flush out a suspect and disarm him, enter a burning building to search for victims, scale a 14-foot fence and stand guard."

Mrs. Johnson, who is the nation's only woman police commissioner, is attending the 62nd annual International Assn. of Chiefs of Police Conference here. A grandmother, she also is commissioner of the Fire and Communications Department.

"So far," she said, "we think the experiment is terrific."

"The dogs, who also travel in patrol cars, could save many officers' lives," she said. "If a man is armed with a knife or gun or is holed up somewhere, the dog will find him, flush him out, disarm him and then guard him until the officer arrives."

"And officers get no sass when they are patrolling with a dog. Everybody respects them."

She recalled how a dog held four men at bay while an officer left him and walked down a long block to call for a patrol car. When he returned, she said, the men hadn't budged an inch.

Commissioner Johnson brought one of the dogs, Sgt. Orvie, with her to the convention. Like all the dogs, he is perfectly gentle unless commanded by his officer or trainer to flush out a quarry or attack.

Sgt. Orvie registered at the convention by sticking his paw dipped in ink on an application blank.

Dudley Sharp Takes Over Air Force Post

WASHINGTON (AP)—A Houston man was sworn yesterday as the new assistant secretary of the Air Force for materiel. Dudley Sharp replaced Roger Lewis who recently resigned to enter private business. Sharp is president of the Mission Manufacturing Co. of Houston.

'Brain Wave' Machine Uncovers Clues To Many Nerve Disorders

By FRANK CAREY
AP Science Reporter

CHICAGO (AP)—A possible clue to the cause of some types of epilepsy, cerebral palsy, spastic paralysis and feeble-mindedness was reported today by a team of University of Illinois researchers.

Dr. Frederic A. Gibbs and two colleagues said new findings with a "brain wave" machine suggest the possibility that certain neurological disorders of unknown cause may be late results of common virus infections of childhood, such as measles, mumps and whooping cough. They reported to the 24th annual meeting of the American Academy of Pediatrics.

The new studies "re-emphasize the need for finding improved preventive measures for common

viral infections of childhood," Dr. Gibbs told a reporter, adding: "Some important advances already have been made. And recent advances in the prevention of polio justly hope that prevention in the whole field of viral diseases will eventually be greatly improved."

The researchers said they had found evidence that encephalitis, or brain infection, commonly occurs in "supposedly uncomplicated cases" of measles and other prevalent virus infections of childhood.

The evidence showed up, they said, in "brain wave machine" studies of 700 children at Chicago's Municipal Contagious Disease Hospital.

They said that "fortunately" the number of cases in which the

brain infection persists is small. But they added that in such persistent cases, convulsive seizures and neurological defects may show up several years or more after the child has recovered from his measles or other childhood virus disease.

In their report—made at a scientific exhibit at the academy meeting—the researchers said: "By studying different types of virus infection and working with the youngest age groups it may be possible to pin the blame for some types of epilepsy, cerebral palsy, spastic paralysis and feeble-mindedness on virus infections occurring in childhood."

They said the "brain wave" machine offers a valuable aid to such work because, for one thing, "it makes the cerebral disorder evident, even when it is in a clinically silent phase."

Japan Has Had Typhoon Troubles For Centuries

TOKYO (AP)—Japan is the bull's-eye at which from one to three dozen disastrous Pacific typhoons are aimed each year.

October is when most of them slam home.

When the typhoons rip into densely populated Japan, thousands of houses are blown away, scores of persons are crushed by flying debris and drowned in flash floods, huge waves splinter fishing craft and thousands of acres of sorely needed rice plants are destroyed.

Damage from a single storm can top 100 million dollars.

Typhoon Louise, this year's most violent, took at least 42 lives last week during its rampage through southern Japan. Another 300 were injured. The storm's howling winds tore down a high-tension wire and started a fire that destroyed the center of Niigata, a city of a quarter million.

After Louise howled out to sea, nearly 300,000 persons were homeless.

On her way up "Typhoon Alley" from Guam, Louise also flattened the American base on historic Iwo Jima and took a pass at Okinawa, where the United States maintains a large garrison.

Typhoon Marge howled to a stop today on Japan's doorstep after keeping 88 million Japanese on edge for days.

And new typhoons are brewing in the South Pacific, gathering steam for the charge to the north.

When full grown, Pacific typhoons are twisting toros that whirl winds of 75 to 175 miles an hour around a hollow center. They

cut paths as wide as 250 miles. They dump torrents of lashing rain—sometimes as much as a foot in a few hours.

Typhoons are called hurricanes in the Western Hemisphere. They act exactly alike and pack the same destructive power, with the edge, if any, probably going to the typhoon.

"Typhoon Alley" in the Pacific runs from Guam and the Philippines through the East China Sea, over Okinawa and up the Japanese island chain.

Some storms blow themselves out harmlessly over the ocean. But an average of three to six a year streak right up the island chain. They have plagued Japan for centuries.

Catalogues Hit With Foreigners

WASHINGTON (AP)—Mail order catalogues, showcases of widely varied American consumer goods, have made a hit with foreign nationals who visit overseas libraries of the U.S. Information Agency.

The USIA announced today, it is sending copies of the latest fall catalogues to its 225 overseas posts where they have proved to be in such demand. USIA said some 3,500 copies of the Sears, Roebuck & Co. catalogue already have been shipped.

The USIA said that in Finland "old issues have been worn out through use, been patched up, rebound with stronger covers and put back into circulation."

Legion Disowns Any Support Of Freedom Fund

BLOOMINGTON, Ill. (AP)—The Executive Committee of the Illinois American Legion has repudiated and disowned any support of an "Education for Freedom" program which was sponsored last year by a Legion state commander.

The action was taken at a committee meeting in Bloomington Saturday and made public yesterday.

The committee went on record as "repudiating and disowning any support of the . . . American Heritage Council, the Ford Foundation or any of its programs."

The three groups cooperated in the "Education for Freedom" program, which was originated and sponsored by Irving Breakstone of Chicago, Illinois commander at that time.

A committee resolution said it had been reported that the Illinois Legion received \$50,000 for its use in promoting the program, either from the Ford Foundation or the Fund for the Republic, or both.

Nucleus Of New Military Reserve Begins Training

WASHINGTON (AP)—A nucleus of the new national military reserve corps began training yesterday at five Army posts.

This first class of 1,167 men included 495 volunteer reservists and 672 National Guardsmen. The reservists formed an advance guard for a potential force of 90,000 six-month trainees for the Army and 5,500 for the Marine Corps, authorized through next June 30.

These trainees, all volunteers, are to be given six months of intensive drills. Then they must serve 7½ years in the ready reserve. They are exempt from the regular two-year draft hitch.

The Army said about 2,000 young men so far have signed up for this reserve training. The Marines did not have information on their reserve enlistments to date.

The National Guardsmen, who will take six months active training, enrolled under a provision that enables them to complete their military obligations in eight years instead of having to serve until they are 25.

The trainees were assigned to Ft. Jackson, S.C.; Ft. Knox, Ky.; Ft. Leonard Wood, Mo.; Ft. Bliss, Tex.; and Ft. Ord, Calif.

It's a small thing to do for a "big feller"

Give your family added protection against the major causes of accident injuries by cloaking them in the LifeGuard protection of the new '56 Ford.

No car before has taken safety so seriously. Ford for '56 makes the first major contribution to passenger and driver safety. It's Ford's new LifeGuard Design . . . and it includes a beautiful new deep-center steering wheel that acts as a cushion on impact—new double-grip door latches which give added protection against doors springing open under impact—new optional padding for instrument panel and sun visors—new optional seat belts.

New Thunderbird styling. No other car has quite the styling "touch" of this new '56 Ford with long, low lines inspired by the Thunderbird. In the looks department, Ford is truly a pace setter.

New 202-h.p. Thunderbird Y-8 engine. If you've longed to enjoy all that

famous "skedaddle" of the Thunderbird, here it is—Ford's new 202-h.p. Thunderbird Y-8 engine. It's available in any Fordomatic Fairlane or Station Wagon model. It's quick—on hills, when starting, when passing.

It's quiet—wherever you drive—longer lived, too—thanks to Ford's deep-block construction.

The fine car at half the fine-car price

Meet Snyder Thursday

One-point victors over Central of Abilene here last week, the Ninth Grade Yearlings (above) return to action here Thursday night, at which time they tangle with a strong Snyder team at 7:30 p.m. in Steer Stadium. Coach Marion Crump has one of the biggest Ninth Grade squads ever to play football here.

Lefties Are Mound Foes In Stadium

By JOE REICHLER
NEW YORK (AP)—A pair of winning left-handers, aging Tommy Byrne of New York and youthful Johnny Podres of Brooklyn, carried the World Series hopes of their respective clubs today as the Yankees and Dodgers came to grips in the seventh and deciding game for the championship of the world.

The pendulum, which has been swinging back and forth, first favoring one team then the other, definitely had swayed toward the Yankees, in quest of their 17th world title.

Not only did the American Leaguers have the benefit of their own Yankee Stadium, where they have beaten the Brooks three straight, but this time it was the Dodgers who were sorely beset by crippling injuries.

The odds-makers, who have called the turn in each of the six previous games when the teams they tabbed as favorites all came through, have made the Yankees 7-5 favorites to win today's game.

The weatherman's prediction was "fair and mild" with the temperature in the low 70s.

This was the second series start for both Byrne and Podres. Byrne, 35, fired a five-hitter to win the second game, and Podres, 23, brought the Brooks back to life with a seven-hitter in the third game.

"I'll have everybody else in the bullpen," vowed Manager Walter Alton of the Dodgers, a statement echoed by Casey Stengel, the Yankee skipper.

Yesterday's 5-1 Yankee victory, which deadlocked the classic at three victories apiece, was a stunning blow to the Dodgers in more ways than one. Not only was young Karl Spooner shelved from the mound before he could retire two batters, but Duke Snider, the slugging star of the series so far, suffered a severe knee injury which forced him out of the game after only one time at bat.

The center field star, who has hit four home runs in this series, wrenched his left knee while chasing a fly ball hit by Bill Skowron in the third inning. Up to several hours before game time, it was uncertain whether Snider would be in shape to play today.

Jackie Robinson was another Dodger mainstay on the doubtful list. He aggravated a pulled tendon in the back of his left foot and the injury slowed him up perceptibly yesterday.

Alton optimistically expected Snider and Robinson to play.

"If they do, it will be the same lineup that we started today," he said. "If not, we'll have to wait and see."

The "same lineup" has Junior Gilliam at second, Sandy Amoros in left, when Snider left the game, Amoros moved over to center,

Gilliam to left and Don Zimmer went in at second. Such was expected to be the emergency lineup today.

The Yankees, too, expected to start the same lineup that won yesterday. Hank Bauer, back after a three-day layoff because of a leg injury, chipped in with three hits yesterday. He said he strained his leg running to first in the fifth inning.

"But I'll play tomorrow," said the hustling outfielder, "even if I have to do it on one leg. I don't want to miss the big one."

Mickey Mantle, the other Yankee convalascent, was not expected to play, according to Manager Stengel, except in a pinch hit role.

The Yankees didn't need any help from Mantle yesterday as they struck quickly, knocking Spooner out with a stunning five-run attack before the young south paw knew what had hit him. Skow-

ron capped the lightning assault with a three-run homer after Yogi Berra and Bauer each had singled over one runner.

After that the game was entirely in the strong left hand of Whitey Ford, who never faltered. He pitched the finest game of the series, and probably his best of the year as he handcuffed the Dodgers with four singles to record his second series triumph. He struck out eight and permitted only four fly balls to be hit to the outfield.

The Dodgers again got fine relief pitching after the game was lost, the third time this has happened. Russ Meyer, the forgotten man of the staff, rushed in after Skowron crashed the ball into the right field seats and blanked the Yanks on four singles in five and two thirds innings. Ed Roebuck added two more scoreless innings in the eighth.

TWO KEY PLAYS DECIDED ENCOUNTER ON MONDAY

By TED SMITS
NEW YORK (AP)—Baseball is a game that can be decided by fractions of a second or inches of measurement.

Even though the New York Yankees won the all-important sixth game of the series by the decisive score of 5-1 to even accounts at 3 games each, baseball men point to two key plays in the big first inning that could have gone against the Yankees.

As Manager Walt Alton of the Dodgers said, "If we'd gotten the double play ball we'd have been OK. Karl Spooner had plenty of stuff."

Here are the two plays, both decided by the barest of margins:

1—With Phil Rizzuto on first on a base on balls, Billy Martin struck out, the last strike being a foul tip Roy Campanella caught. Rizzuto broke for second. It appeared as if Junior Gilliam was slow in starting for the bag, and Campanella slow in making his rifle throw. Rizzuto was barely safe.

Said Gilliam: "I saw Rizzuto when he started to steal, but I didn't break for the bag right away because you're not supposed to leave too fast. Anyway the ball caught in the web of Campy's glove."

2—With Rizzuto on second, Gil McDougald walked. Then Yogi Berra hit a high bouncer. Spooner leaped into the air but not high enough. The ball eluded his grasp by inches. It would have been a double play if he caught it, ending the inning. But the Dodgers still had a chance. Gilliam almost snagged it, and if he had the

double play still might have worked.

Said Gilliam: "Berra's ball stayed down low. I was playing Berra to the right and I just couldn't get to it."

Rizzuto scored on the hit. What happened afterward is the whole story of the game.

Hank Bauer lashed a single to left, McDougald scoring. Moose Skowron at this point delivered a lofty home run into the right field scoring Berra and Bauer and giving the Yankees all the runs they needed, and all they ever got.

Spooner was lifted and in came Russ Meyer who subdued the Yankees through the sixth at which point Ed Roebuck took over and continued to blank the American League champions.

Meanwhile Whitey Ford was proving much too much for the Dodgers to fathom.

Only in the fourth when the Dodgers put together two of the four hits that Ford allowed were the National Leaguers able to score. Pee Wee Reese opened that inning with a single that Martin couldn't handle. Don Zimmer struck out, but Roy Campanella worked Ford for one of his four bases on balls. Carl Furillo singled to left, and Gil Hodges hit a bouncer to Gil McDougald. Reese had a running start from third and scored easily, as McDougald tossed to Martin to force Campanella at second. Jackie Robinson ended the Dodger threat by grounding to McDougald.

LOOKING 'EM OVER

With Tommy Hart

Sports dialogue:
DICK KRANZ, Amarillo scribe:
"Jerry Barron, who scored two touchdowns, was Big Spring's biggest ground-offensive threat (against Palo Duro), although there was nothing wrong with the fancy ball carrying of John Janak, Marvin Wooten, Charley Johnson or Stormy Edwards. The Steers, among the favorites for the District I-AAA title, should go far in conference play. The Dons may have lost to the champ."

FURMAN BISHOP, Atlanta writer:
"After he had whipped Cleveland in the big one that broke the Indians' backs, Steve Gromek moaned it was the saddest game he'd ever won. He came up the line with a stack of the present Tribe and they're old friends from minor league days. Actually, Gromek shouldn't feel so bad. The Indians usually best themselves this time of year."

CARL COLEMAN, Big Spring coach, following the Steers' victory over Palo Duro:
"We've still got linebacking problems. Graves can't do it all. Our boys kept driving though, didn't they? I was very proud of them."

MARTY MARION, Chicago White Sox manager:
"Now that Frank Lane has left the club, maybe Hank Greenberg (Cleveland's general manager) can deal with me. I'll trade anybody. In fact, I've always hankered to see an entire team traded for another. Excluding managers, of course."

A GAGSTER in California, talking about Coach Red Saunders and his star back, Ronnie Knox:
"Ronnie Knox, why he's so good Red wouldn't trade him for his brother Fort."

DICK FRIEDLICH, San Francisco scribe:
"The feeling around here is that the Lord must have loved football officials, because he made so many of them."

BOB ZUPPKE, former coach at the University of Illinois:
"A first-class line and a poet in the press box can make an All-American star out of any third-rate halfback."

ENOS SLAUGHTER, big-league outfielder, on why he still shows great spirit at the age of 39:
"I got that way all because a lesson Eddie Dyer taught me in the minors. One day I was coming in off the field, crossed the third base line and walked into the dugout. 'What's the matter, son,' Dyer asked. 'If you're tired, we'll get you some help.' I never forgot that remark. From that time on, I've run everywhere whenever I'm on the field. . . . to my position or back to the dugout or whatever I happen to be doing."

CASEL STENDEL, boss of the New York Yankees:
"Years ago, I'm managing the Dodgers. And early in a top-sided game — against us, naturally — I send in Babe Phelps as a pinch hitter which, you know, can hit a long ball. He hits a three-run homer to put us back in the game. In the ninth, the bases is full and I get no pinch hitter. Then one of them leather lunged fans give me the bird. 'What kind of managin' is that, you fat-head!' he hollers 'if you hadn't used Phelps earlier, you coulda used him now.'"

drive to raise the money to buy the franchise. But when Russell made his announcement, Simmons said he was withdrawing from the picture. He wanted the franchise taken completely away from Russell.

A crisis in operation of the Beaumont franchise came this year when attendance fell well under what is necessary to pay expenses. The league directors, meeting in Beaumont in July, said a decision on where the franchise would be operated next year would be made at the Oct. 10 session in Dallas.

Russell said he was attempting to place Livingston as manager of some club in the Milwaukee chain. Russell has a working agreement with Milwaukee.

Franchise Not For Sale, Says Shippers' Russell

BEAUMONT (AP)—The Beaumont franchise in the Texas League is not for sale, owner Allen Russell says, and wherever it is located next season he will be the operator.

Russell made the announcement last night at the same time that he was releasing Mickey Livingston as manager of the club. He said Livingston would be replaced probably today.

Russell has been negotiating with a number of cities regarding moving the franchise and said one city had agreed to raise \$150,000 in ticket sales in order to obtain it. He did not reveal the city but has visited Corpus Christi, Baton Rouge, Austin, Odessa, Lubbock, Amarillo and Wichita, Kan. Corpus Christi recently announced that it would bid for the franchise at the fall meeting of the Texas League in Dallas Oct. 10.

Russell said he would keep the franchise here if \$85,000 was raised in advance ticket sales, with one-fourth of the amount going to him immediately.

Harold Simmons, Beaumont business man, has been conducting a

Monday Drill Is Cut Short

The Big Spring Steers' Monday workout was cut short by the rain but the local schoolboys will try to get in a full day today.

The Longhorns, 33-7 victors over Palo Duro of Amarillo last week, are idle this weekend but will be pointing for their Oct. 14 engagement with the powerful Levelland Lobos, who come here for the game.

Carl Coleman's boys came out of the Palo Duro engagement in good physical condition and should be in top shape for the Levelland game, barring practice mishaps.

The Steers got in only about 30 minutes of work Monday before the rains chased them to cover.

Blackwell Draws Seattle Release

SEATTLE (AP)—Ewell Blackwell, the veteran righthander, was given his unconditional release by the Seattle Rainiers of the Pacific Coast Baseball League yesterday.

Blackwell, who was acquired by Seattle from San Francisco in mid-June, won five and lost five for the pennant-winning Rainiers last season.

Weather To Be Good

NEW YORK (AP)—Perfect baseball weather was forecast for the seventh game of the World Series today—fair and mild with a high in the 70s.

Maryland Improves Lead In AP Football Voting

By The Associated Press
Maryland and Oklahoma convinced the experts of their football might last Saturday and today stormed into commanding positions in the Associated Press ranking poll.

Maryland's Terrapins, holding a shaky first-place margin over Michigan a week ago and actually trailing in first-place votes, gained an unshakable lead as a result of their 29-6 victory over Baylor, Oklahoma's Sooners, who walloped Pittsburgh 25-14, jumped from fifth place to a strong third.

A total of 185 sports writers and broadcasters cast ballots and, in a surprising approach to unanimity, listed the first six teams this way: Maryland, Michigan, Oklahoma, Georgia Tech, Notre Dame and Army. Georgia Tech and Notre Dame slipped down one notch as a result of Oklahoma's show of strength.

From there on, there wasn't such close agreement. UCLA retained seventh place by a bare two-point margin over Texas Christian, which moved up from 10th. Wisconsin vaulted into ninth and Southern California dropped to 12th. Ohio State, rated eighth a week ago, disappeared from the picture after a 6-0 upset at the hands of Stanford.

The Baylor game was regarded as the big test for Maryland after it had beaten UCLA the previous week. As a result, Maryland's victory brought it 1,568 points in the poll on the usual basis of 10 for each first-place vote, 9 for second, etc. It had 88 first-place votes.

Michigan had a close call against a fired-up Michigan State team, winning 14-7 on some breaks and alert football. That was enough to keep the Wolverines in second place with 27 first-place votes and 1,223 points.

The leaders with first-place votes in parentheses:

- Maryland (88) 1,568
- Michigan (27) 1,223
- Oklahoma (13) 1,146
- Georgia Tech (9) 1,108
- Notre Dame (4) 1,048
- Army (8) 898
- UCLA 516
- TCU (5) 514
- Wisconsin (11) 479
- Southern Cal. (3) 412

The second 10:

- West Va. (13) 390
- Duke (3) 289
- Auburn 176
- Miami (Fla.) 68
- Clemson 61
- Purdue 56
- Washington (1) 24
- Kentucky 22
- Stanford 16

TCU Frogs To Seek 'Prestige' Victory

By The Associated Press
Texas Christian, conqueror of defending champion Arkansas, hoped Tuesday for a prestige-increasing victory for the South-west Conference next Saturday over Alabama.

And the Horned Frogs, unbeaten and unextended in three games, looked and felt like they could do it as the head-knocking preparations began Tuesday with a pleased Coach Abe Martin looking on.

It appeared that the Christians would carry a full-strength squad to Tuscaloosa, Ala., for their contest. The only serious injury on the squad was to second-string end Don Sanford who suffered torn knee ligaments in the game against the Razorbacks. Trainer Elmer Brown termed all other ailments minor.

And things were looking up at Texas, too, where the University of Texas team physician reported that sophomore quarterback Joe Clements would be able to go Saturday against potent Oklahoma. Clements was the nation's leading offensive star when he suffered a concussion last Friday night in the opening minutes of the Longhorns' loss to Southern California.

Clements joined the team in a

light workout Monday and Dr. John Arthur Archer said, "I believe he's going to be all right."

It was music to the ears of Coach Ed Price.

Several shifts in the Rice Owl backfield were expected as the Owls got down to hard work for their Saturday night game against Clemson. Coach Jess Neely indicated he would use more sophomores in the starting lineup to improve the defense and offense which let Louisiana State by with a 20-20 tie in Houston Saturday night.

Texas A&M, preparing for Saturday's game with Nebraska, heard only praise Monday from Coach Bear Bryant for their victory over University of Houston.

The Aggies, resurging from conference door-mat status, scrimmaged under game conditions Tuesday after lighter workouts Monday.

Southern Methodist, loser of its first two games, also held stiff workouts Tuesday in preparation for Friday night's contest with Missouri. Trainer Wayne Ruddy said he doubted if fullback Hal O'Brien or end Smitty Keller, both injured in the loss to Georgia Tech, would be able to start against the Tigers.

Baylor, stomped Saturday by Jim Tatum's mighty Maryland Terrapins, and Arkansas, the 26-0 loser to TCU, prepared for their conference game with gusto Tuesday.

Coach Jack Mitchell's Razorbacks appeared in good spirits as they took it easy Monday. Baylor, a mite more serious, ran an hour's drill on offensive plays over a muddy practice field.

Eddie Has A New Job

Eddie Stanky, former fiery manager of the St. Louis Cardinals is shown with his wife attending the sixth game of the World Series at Yankee Stadium. Eddie has been named new manager of the Minneapolis team of the American League, replacing Bill Ripkey who is the new skipper of the New York Giants. (AP Wirephoto).

QB Club Convenes Tonight At 7:00

Regular meeting of the Quarter-back Club has been set for 7 p.m. today at the high school, officials announced.

Films of the Amarillo (Palo Duro) game last Friday evening will be projected.

All fans, and especially members of the Steer football team and their parents are invited to take part in the session.

Persons who took part in the special enlistment campaign last Saturday also are asked to be present to report on results.

The meeting is due to start promptly at 7 p.m.

Lakeview Opposes Slaton Saturday

Theodore Brown's Lakeview Rockets will seek a return to winning ways in their Saturday night football game here with Slaton.

The Rockets now have a 3-1 won-loss record. They dropped their first game of the season last weekend, at which time Blackshear of Odessa beat them, 12-7. Previously to that, the local team had knocked over Slaton, Lamesa and Littlefield, in that order.

The Odessa loss will not count against Lakeview's conference record, however, since Blackshear is an A.A. school. Big Spring competes in Class A.

Tampico Hard Hit By Flood Waters

MEXICO CITY (AP)—The flooded Panuco River rose to new all-time heights at Tampico today and officials predicted only about 20 blocks in the highest part of the Gulf Coast oil port would remain above water.

More than 60,000 of Tampico's 110,000 people had been driven from their homes to huddle in government centers. Officials said the city was in far worse shape than after the record hurricanes of 1905 and 1933.

The river's crest was expected to reach the city sometime today. Steel cables were stretched across many flooded downtown streets to keep those who ventured out from being swept away. Boats and launches navigated the streets.

Six more persons were reported killed yesterday in Tampico. Three drowned when a boat overturned. Broken power lines electrocuted three others.

The refugees clamored to start a mass exodus to higher and drier ground. With all highways under water and railroad connections out for weeks, women and children crowded the airport and a helicopter landing field improvised at the country club, pleading to be moved.

Telegraph and telephone communications with Tampico were cut again. Extra guards were posted to prevent looting and disorders in the disorganized city.

U.S. Air Force planes from Texas and 14 U.S. Navy helicopters from the aircraft carrier Salpan continued to pour supplies into Tampico. Officials said 90 per cent of the aid for the city was coming from the United States.

Reports from other areas in east Mexico told of mounting misery from flood and rains. Officials virtually abandoned efforts to tabulate the death toll from Hurricane Janet last week but it was around the 300 mark and still climbing. Ten bodies were found floating in a river near Pachuca yesterday. The report was typical of many.

A new flood was reported from near Guadalajara, an area southwest of Mexico City which previously had not been hit. Reports said the Lerma and Duero rivers had rolled into the town of Maitarana, driving more than 800 persons from their homes.

20 ARRESTED Peron Friends In Argentine Purge

BUENOS AIRES, Argentina (AP)—Argentina's new government today was reported purging top military leaders under deposed dictator Juan Peron.

Arrest of some 20 generals was reported by unofficial sources close to the army. They appeared to have been picked up mainly to prevent any aid to Peron should he seek to make a comeback.

There was speculation the generals would be retired ultimately, since apparently their only error in the eyes of the new government was having obeyed the orders of the previous regime and protecting it.

Although there was no confirmation from officials, other sources reported those under arrest included the former army commander in chief, Gen. Jose Domingo Molina, and the rest of the 14-man junta which took over the government after Peron resigned and during its few days of rule in Buenos Aires negotiated the peace with the victorious rebels.

The peace resulted in installation of Maj. Gen. Eduardo Lonardi as provisional president. Lonardi has said he would hold elections for a new Congress as soon as the voting rolls can be prepared.

Maj. Gen. Franklin Lucero also was reported under arrest. It was Lucero who rallied army forces to put down the abortive June 16 rebellion.

From the Asuncion, Paraguay, private home where he is a closely guarded exile, Peron in a brief written statement to newsmen indicated he still hoped to return to Argentina — and politics.

The ex-dictator said he would "not move a finger in political affairs, but will live a purely private life as Juan Peron." But he added significantly:

"When I do (indulge in political affairs), I will return to my country."

The fallen dictator emphasized his intention to stay out of the limelight in Paraguay.

"I have come to this generous country as a simple citizen, drawn by its lively sympathy and my great love for its people to live alone my private life. This does not permit me to make statements or lend myself to any publicity.

"From now on I am only Juan Peron, an ardent admirer of Paraguay. I ask you to pardon me. I do not wish to violate a rule which I have set for myself decisively."

He relaxed here at the private home of Ricardo Gayol, an Argentine businessman living in Asuncion. The residence has a swimming pool and formal gardens.

The new Argentine government made no secret of its distaste for Peron's proximity. But the fallen strongman was taking his own time about disclosing his plans.

Some reports said he would go to San Bernardino, summer resort about 20 miles from Asuncion, or to Villarrica, about 150 miles southeast of here.

However, members of his entourage said Peron was very tired and did not plan to move for at least a week.

There have been suggestions he might go to Spain or Switzerland.

Except for such attention as the armed guard of police and tommy-gunners before the Gayol mansion attracted, Asuncion's residents ignored Peron's presence. Pedestrian traffic was barred from the street in front of the house, but streetcars operated as usual.

In Buenos Aires, President Lonardi scored publications which have been carrying stories on Peron's alleged love affairs. The Argentine press secretariat issued a statement on Lonardi's orders saying:

"The provisional government does not look with approval on notices and commentaries published by some organs on the private life of the ex-President. The government believes that criticism should be on a high plane and constructive."

Since Peron's overthrow two weeks ago, newspapers and magazines have been devoting much space to reports that the 59-year-old Peron had recently married a 19-year-old girl as his third wife and had intimate relations with a 16-year-old girl.

GI Gets 33 Years For Red Desertion

BERLIN (AP)—Pvt. Tommy R. Woods, 24, of Rogersville, Tenn., was sentenced today to 33 years in prison for deserting to Communist East Germany.

A U. S. Army court-martial deliberated 25 minutes on Woods' guilty plea before passing sentence.

The penalty, which included a dishonorable discharge, was the maximum. It is subject to review by higher authorities.

Woods did not take the stand. When the court's law officer asked him if he fully understood the implications of his plea, he replied in a clear voice: "Yes, sir."

He did not appear to be shaken by the stiff sentence. He smiled and joked with spectators as he left the court, telling them, "Take it easy."

Woods disappeared from his West Berlin unit March 1, 1954, and spent 16 months in East Germany. Shortly after his disappearance, the official East German news agency ADN said he had asked for political asylum. He was returned to U.S. territory last July by Russian authorities.

In addition to being charged with desertion, Woods was also accused of associating himself with East German Communist organizations which advocate the violent overthrow of the U.S. government, and with urging Pvt. Gerard R. Pepin, of Auburn, Maine, in January 1954 to desert and affiliate himself with Russian authorities.

Army authorities said Pepin rejected Woods' urging and has since been discharged. He was reported living in the United States.

Brazil Begins Counting Ballots

RIO DE JANEIRO, Brazil (AP)—Election boards began counting the ballots today in Brazil's hottest presidential election in years.

Early returns were still too fragmentary to indicate a national trend in yesterday's voting, in which the late President Getulio Vargas was still a prime issue 14 months after his suicide. Final returns were not expected for 10 days or two weeks.

Early tabulations totaled only 8,703 votes — only a fraction of the 10 or 11 million expected from the 15 million voters registered. Despite rain in some parts of the country, the turnout was heavy.

Of the scattered returns counted thus far, 3,661 were from one state, Sao Paulo, an industrial and coffee center where critics of the late President were considered strong.

First count gave 3,484 votes to Gen. Juarez Tavora, 56, candidate of the centrist National Democratic Union (UDN), who fought the political heirs of Vargas. Votes for the other candidates showed:

Adhemar de Barros, 54, multimillionaire ex-governor of Sao Paulo and candidate of the Social Progressive party (PSP), 2,319; Juscelino Kubitschek, 53, ex-governor of Minas Gerais state and candidate of the Vargas-founded Social Democratic (PSD) and National Labor (PTN) parties, 2,042; and Plinio Salgado, 59, of the extreme rightist Popular Representation party, 638.

Many observers expected final results to be so cloudy that a court battle would have to determine the count.

Despite the bitter campaign, only four persons were reported killed and four others wounded in election day clashes.

Vargas and his political followers have been under political fire since the late President's administration was plagued by a series of financial scandals. Vargas was accused of failure to act rather than with personal dishonesty. A military coup forced him to step down Aug. 24, 1954, and he shot himself through the heart.

Joao Cafe Filho, who was vice president under Vargas, succeeded to the presidency and has been conducting the government on a caretaker basis pending the election.

Charles of the Ritz presents **Special Formula Emollient**

a rich, rewarding lubricant for dry skin

Three rich oil groups scientifically wedded together to produce amazing lubrication benefits. Used overnight (or during the day) it helps banish surface lines due to dryness, gives your skin the look of soft, smooth beauty.
