

# Fierce Storm Paralyzes Milo Center Area

By TOM PORTER  
Staff Writer

A strip of Deaf Smith County some five miles long and seven miles wide was almost inundated Thursday afternoon during a two-hour period which also saw heavy damage by hail and tornadoes.

At least six twisters were spotted during the destructive period which began just after 2:30 p.m. One of the small tornadoes reportedly was heading toward Hereford from the north when it dissipated.

A 20 - by - 30 foot building on the Richard Zinser farm 6 miles north and one mile east of Hereford was demolished by a twister which passed right over a house without doing damage. It then took the top out of a tree about 10 yards in front of the house and continued south toward Hereford scattering parts of the building in nearby fields.

Zinser said his brothers, Joe and Gene, and his sister-in-law Karen, watched as the storm rolled in from the northeast. The building, which was located in the corner of a field about 50 yards from the residences, was picked up, "rolled through the air just as pretty as you please and then went to pieces."

"We could see them come down, fly around and then go back up," said Zinser. "They were little enough that we knew we could get away from them. They were coal black, perfect twisters."

Zinser stated they did not see the twister which destroyed the building until it had passed over the house and headed the other way. "I figure that it couldn't have been much more than six foot wide at the bottom."

The Zinsers spotted about six little twisters at one point during the brief period. "There was a lot of turbulence. We could see this big black cloud and we

knew there was going to be trouble because it looked like it was going backwards. It was real quiet for so much to be going on and then this one that got the barn sounded like a train."

The family watched the twisters until the heavy rain began and then they went inside. The storage building, which held "odds and ends," had been recently custom made.

There was no official estimate on the amount of rain which fell in the area, but several rain gauges holding 3.50 and 4 inches ran over. It was thought the amount at Milo Center could have been 6 inches or more.

A 3 1/2 - rain gauge at Pioneer Fertilizer Co. at Milo Center was running over when it was busted by the heavy hail, according to Bobby Owen. Several residents in the immediate area of Milo Center said the golf-ball-size hail fell constantly for about 45 minutes, let up for a short time and then came back down in smaller sizes.

James Holman, an employe of Pitman Grain Co., said he saw the storm coming about 2:30 p. m., but "it didn't look bad enough for me to stop watering the trees here. A few big drops hit them and I said to myself that it was going to rain so I turned off the water and came back to the weighing station. A little bit later it started."

Soft-type shingles were knocked off roofs, windows were busted and cars dented by the hail which built up to as much

as 18 inches on the ground.

The hail was pushed about the swirling waters when the runoff began and appeared to be snow banks on the side of U. S. 385. The "snow banks" remained throughout the night and large hailstones could still be found in the deeper water Friday afternoon.

The high waters — filled with wheat, grain sorghum, sugar beets and other crops which had been planted in that area — boiled over the highway in several spots, slowing traffic to a snail's pace or halting it entirely.

U. S. 385 was never closed by the rampaging waters, but Farm-to-Market 1062, which connects the main highway with Farm-to-Market 809, was closed indefinitely because of a newly formed lake about 1 1/2 miles east of Milo Center.

At that point, there was a body of water about a mile wide Friday morning. A tail water pit some 135 feet long and 22 feet deep, dug this week on land owned by Luther Lesly, was included in the body of water just

north the farm road.

Friday morning, employees of the Messer Construction Co. pulled out of the lake on the Lesly property three large pieces of digging equipment, including a Mack diesel truck and 30-foot trailer, a back hole machine with truck and a TD 15 International bulldozer. All of the machinery was in deep water.

One of the workers said the bulldozer had been parked some six to 10 feet from a drop off spot, but the rushing waters had swept it into a lower spot. Jack Messer said he also had a call to pull another back hole machine and drag lineout of high water on the Gib Brown farm about 2 miles east of Lesly's.

The newly formed lake east of Milo was only one of many in the vicinity which could be seen from the highway Friday morning. Water had run in the ditches on both sides of the highway some four and five feet deep for hours during the night to fill the low-lying places.

One victim of the high waters

was a 1950 Chevrolet owned by Jesse Escamilla of Hereford. Parked in front of Pioneer Fertilizer Co. at the time the rains started, the car was submerged up to the windows. It remained until the torrents receded Friday morning and was pulled out just before noon. Little difficulty was experienced in starting the car.

Southwestern Bell Telephone Co. officials said they experienced no troubles from the storm, while West Texas Rural Telephone Co-op. had a few telephones out in the isolated area around Milo Center.

The Deaf Smith County Rural Electric Co-op. found a fuse blown at Pioneer Fertilizer Co. and a transformer out on the Lawrence Carlson residence, 1 mile south and 1 mile west of Milo Center.

"WORST EVER SEEN" J. B. Haile, who lives 11 miles north of Hereford, described the storm as the "worst I have ever seen." Surveying his damage Friday morning, Haile said 105 acres of wheat planted near his home was 100 per cent destroyed by the hail and pounding rain.

He hadn't been able to get to another 85 acres of wheat northeast of Milo Center about two miles, but felt sure it was destroyed too.

Haile said the storm came in from the northeast, bringing the heavy hail, rain and a dense fog. Screens on the house were beaten in and the windows broken by the hail, which also stripped the trees and ruined the roof. The only leaves left on the trees were on the south side, Haile pointed out.

He said there were two cars in the garage when the hail beat out the garage windows. "We ran out and put blankets over the cars to keep it from breaking the windows on them." The large hail pounded the area for about 45 minutes, let up and then came back for another 45 minutes with marble size hail. See STORM Page 2

## Shelter Space Available

Bill Thompson, manager of the Deaf Smith County Chamber of Commerce and director of the Hereford Deaf Smith County Civil Defense, has announced that there are 6 buildings in Hereford that are licensed public shelters in case an emergency of any type should occur.

Thompson pointed out that it is very important to seek shelter in these buildings "only" when an emergency occurs.

An emergency will be "only" when the siren or the radio stations announces such a case and people are asked to please not

seek shelter in these buildings at other times. The buildings will be opened whenever an emergency arises — day or night.

The buildings are Witherpoon Law Office, 140 E. 3rd; United States Post Office, 408 Main; Fullwood Office Building, 232 W. 3rd; Jim Hill Hotel, 3rd and Sampson; Holly Sugar Refinery Elevator, West of Hereford and all of the Hereford school buildings.

Any other information may be obtained from Thompson at the chamber office on 126 E. 3rd or by calling Area Code 806, 364-3333.

POSSIBLE TORNADO AND RESULTS — The Zinser Brothers farm located 6 miles north and one mile east of Hereford, was the site of a tornado Thursday afternoon which destroyed a storage building. Top photo shows layers of hail which fell on the L. D. Pickering farm. Low hanging clouds covered the area around Milo Center during the storm, with at least six twisters being spotted and large whirlwinds breaking out everywhere. The photograph shows one of the large windstorms or a small tornado. (Hereford Brand Photo)

### Secretary Of The Month

## Sheriff's Secretary Has A Unique County Position

Mrs. Florence Robinson, secretary to Deaf Smith County Sheriff Ed Roberson, has a position unique to that of most secretaries in the area. Although her "8-5" duties are confined to her own desk in the sheriff's office, she also serves on the relief shift for dispatchers in the office.

According to her boss, Mrs. Robinson is "a real cracker-jack" in the sheriff's office; she has been working for the county, off-and-on for some nine years. She knows the ins and outs of the business.

Mrs. Robinson's duties are, foremost, those jobs that keep her in her secretary's office — paper work, legal work — whatever the sheriff has her doing. But as an after-hours duty, Mrs. Robinson has taken on relief shifts in the dispatcher's office. She works in this position on weekends and some nights.

This position is not the first one Mrs. Robinson has held in a sheriff's office. Before she and her husband moved to Hereford, she had been employed in the

Collingsworth County Sheriff's office; she has worked with sheriffs for 14 years, ten years in Hereford.

The business in her sector of the courthouse "isn't all bad," she says. She enjoys working with people of all kinds, and she has found them in her job. The sheriff's office does more than simply chase criminals.

Although being a secretary is her primary duty, she does get in on the "free gratis" work that has to be done by the sheriff's department, work such as locating people in times of emergency. She also enjoys the rehabilitation work that goes on. See SECRETARY, Page 2

SECRETARY OF THE MONTH, Mrs. Florence Robinson has been employed by the Deaf Smith County Sheriff's office for about nine years. Her boss describes her as "a real cracker-jack" — she knows the business. (Hereford Brand Photo)

## Earnest Langley Will Be Education Officer

Earnest Langley, attorney who was recently named to the board of directors of the Regional Education Media Center, was elected secretary of that body this past week.

The group has adopted the name PESO Education Service Center for the time being and are in the process of adopting by-laws.

Chairman elected is Joe H. Gidden, manager of Southwest

tern Public Service, Canyon and vice chairman will be Charles Rogers, retired superintendent of schools of Amarillo.

The three officers will also comprise an executive committee to facilitate board action. Work has already started on a search for personnel to fill several posts of the organization to be set up for this district, designated as district 16 of the 20 such districts established by Texas Education Agency this last winter.

Langley said that the legislature authorizes the hiring of a director with a salary up to \$20,000, which would make that See OFFICER, Page 2

## Building Permits On Rise

Residential construction continued to remain high during May as 13 permits for new homes were included in the 25 issued for the month.

The 25 permits totaled \$290,250 bringing the total for the year to \$1,441,790. In comparison, during the same period in 1966, the figure was \$1,035,900.

Of the 13 permits for new residences, two were over \$20,000 and two were \$30,000 and over. The permits for residential construction — new homes and additions — totaled \$239,350.

There were five commercial permits issued totaling \$50,900. Included was the new American Legion building and storage and pump facilities for the Pacific Molasses Co.

## NYC Expands As Youths Sign

By DARRY FUHRMANN  
Staff Writer

Neighborhood Youth Corps — a Federal program intended to encourage children from poverty-level families to stay in school — is getting a big push in Hereford as cooperating agencies look forward optimistically to the outcome of the work-study project.

Tom Harkey, director of the program in the school system, predicts applicants to number well over the 25 allowed. Only initial requirements are that a student be at least 14 years of age and be from a family whose per capita income is below certain standards.

Neighborhood Youth Corps is not a handout program; Harkey, as business manager for the Hereford Schools, is working with other administrators in outlining specific duties and supervision for the teenagers. The work is there to be done, Harkey points out — and students participating will be expected to come through with their end of the deal.

Skeptical considerations are being cited — and taken care of. A backlog of eligible needy students will be utilized when administrators feel a student is not responding properly and should be replaced.

Among students applying for NYC are bound to be those who

can be classified as habitually lazy; Harkey hopes to be able to screen those persons out of the program before actual work operations get underway. Unfortunately, dismissing such a student from the program, after he had been hired could provide just the "last straw" in embittering a student against the school system and furnishing what would be — in the student's eyes — a tangible excuse for dropping out of school, the administrator pointed out.

"There can be no personal pain or more bitter feeling than the shock that comes to a young child when he first realizes that all of his dreams and ambitions are someone else's property," says President Johnson in a booklet for interested youths. "NYC projects not only condition an untried skill for employment but restore a forlorn hope. Not only the opportunity for work but the basis for self-respect is being provided. The war against poverty is, in the last analysis, the struggle for human decency and independence." The President's words, though sounding slightly melodramatic, do point up what Harkey and other administrators hope to achieve; the work accomplished by the students will be completely cost free to the school system, other than the See YOUTH Page 2

## Year's Exchange Students Named

Hereford students and families — particularly the Rocky Lee family — will catch a glimpse of middle eastern culture when Huseyin Shevki M. Haci Shevki, 16, arrives in Hereford as a foreign exchange student under auspices of the American Field Service.

Huseyin is from Cyprus, situated in the northeast corner of the Mediterranean Sea near Turkey, Syria, and Lebanon. He is a Moslem.

Kaija Helena Laine, 18, will be a member of the Hap Caviness family this school year. Kaija is Finnish. She will arrive in New York on Aug. 14 aboard the S. S. Ryndam; the Caviness family will meet her in Amarillo 2-3 days later.

Huseyin will fly into New York from Paris on Aug. 19, to arrive in Amarillo also 2-3 days later.

The Rocky Lee family, 304 Centre St., has three boys, Ren, Rick and Rex — 17, 14 and 10. Both Huseyin and Ren will be seniors at Hereford High School this fall. Huseyin will be the

first foreign exchange student in Hereford to have come from the middle east. Although a marked difference in cultures may exist, no overwhelming difficulties are anticipated.

Kaija, a Lutheran, will be leaving three brothers and her parents in Savitaipale, Finland. Her father is a police sergeant, her mother a housewife. She will graduate from her school in Finland in 1969; most foreign exchange students are required to do one more year of study in their home school because of educational differences. Her favorite sport is skiing. She has studied English four years, and hopes to teach English.

Katie as she will be called, will have one American sister and one brother — Cindy Caviness, 16, and Steve, 15. Katie will be a senior at Hereford High, Cindy a junior and Steve a freshman. Cindy will attend summer school so that she won't have to take a full load next year. The Caviness family is "anxiously awaiting" Katie's arrival and has planned several weekend trips with Katie before school begins. Katie has received letters of welcome, as well as brochures and descriptions of her new home and area.

Huseyin is Turkish; he has studied English six years, and, like Katie, will have to spend another year in his own school upon his return to Cyprus. Among his activities are listed woodwork, reading, and work on a bird collection. He will be the second in his family to come to the United States under the auspices of the American Field Service; his older sister was an exchange student in 1965-66. He also has a younger sister, 11; his mother is a widow. The family lives in Paramali Village, Limassol, Cyprus.

## Suicide Victim Services Held

Funeral services for Gordon Douglas Womble, 28, of 510 E. 4th, were held at 3 p. m. Friday in the First Christian Church.

Officiating was the Rev. Eugene Brink, pastor, assisted by the Rev. H. V. Fields, pastor of the Grace Gospel Church, and the Rev. Ron Harpster, pastor of the Grace Gospel Church. Burial was in West Park Cemetery by Gilliland Funeral Home.

Mr. Womble hanged himself early Thursday in the Hereford City Jail, less than two hours after he had been arrested on a drunk charge. Justice of the Peace Ernest Wade, acting as coroner, ruled the death as suicide.

One of the policemen, said Chief Marshall Padgett, was going off duty about 1:35 a. m. when he saw someone enter the Fire Department building attached to the bus depot. Womble See SUICIDE Page 2

### Storm -

Continued From Page 1  
he said. Eight windows were broken out of the house, which began leaking after the roof battered.

"I was scared," said Hailie, "but I didn't want the kids to know it. We couldn't leave because you couldn't see and you might run right into a barnyard."

#### EXPERTS DESCRIBE RESULTS

Wilson Green of the Soil Conservation Service said Friday that he hadn't been out to look over the damage, but "when you get a rain like that, it generally is concentrated in one area and the areas around it get good moisture because it will continue to rain without the severe weather."

The damage, said Green, would depend on the soil condition. "It could penetrate if there was quite a bit of residue. If the soil was built up, it could slick over and get erosion. If that happened and crops weren't planted back in' sept., it would start to blow."

"It will be real hard to find some benefit from a rain such as this," Green continued, "but there should be some if they look in the right places." He said the land should still contain enough moisture that farmers won't have to irrigate when they plant back, and the runoff waters which backed up in the low lying areas can be used to irrigate.

Deaf Smith County Agent Justin McBride said a survey he made Friday morning showed that the area hit was some 5 miles long and 7 miles wide, centered just about over Milo Center.

In that area, stated McBride, "wheat is a complete loss and the sugar beets and grain sorghum is pretty well a picture of planting over. The area as a whole had some water erosion, but it was not too severe considering the amount of runoff."

"Some of the wheat may still be green enough that it will come back," McBride continued. He said some of the farmers in the hardest hit area have federal crop insurance, but "probably for the most part, they are not insured."

The county agent said areas outside the hail zone will reap much benefit, "but the rest of us still need more rain. Some also want it dry and clear so they can finish the wheat harvest."

"What we need," McBride concluded, "is a good, slow, general rain, then dry, up so we can get the harvest over."

#### OTHER REPORTS ALSO FAVORABLE

Phillip Miller, located 18 miles west and 6 miles north of Hereford, reported, "So Thursday, with no hail. Jack Weaver, who lives 30 miles northwest of the city, received about an inch of moisture with small hail."

H. L. Hershey, who resides 4 miles southeast of Milo Center, measured 1.80 inches and moderate hail. "We had some damage to wheat and miln, but there was no material loss," Hershey said the storm "appeared to have started right over Milo Center and stayed there. There was a lot of turbulence

## B.F. Cain Heads Heart Campaign

B. F. Cain has been named chairman of Deaf Smith County Heart Campaign. The county has been without a campaign chairman since Dean House moved to Canyon.

Cain said that since the timing of the fund raising drive is not in step with state or national efforts, that the committee has decided to make this a mail only drive.

### Suicide -

Continued From Page 1  
he was found inside, arrested and jailed.

A policeman reported that he had heard prisoners talking about 1:15 a. m., and some 20 minutes later, the other prisoner in the jail aroused the dispatcher on the second floor by yelling. Womble was found hanging from a crossbar, having torn his black nylon jacket in strips.

Born in Hereford, Mr. Womble graduated from Hereford schools and served in the U. S. Army. He had been employed at the Deaf Smith County Hospital.

Survivors include his mother, Mrs. Wilda Jewell of 124 Lake; brothers Robert of Bethel, Conn. Lewis of Amarillo and Leidon of Altus, Okla., and his grandparents, Mr. and Mrs. J. M. Wilson of Canon City, Colo.

in the clouds and we could see dust boiling up several times."

Melvin Burgess, who lives near Hershey, had his crop standing underwater when the storm ended. More than 12 inches of moisture was recorded and the hail rained the young cotton which was barely up.

The Burgess family was in the cellar when the storm hit, but they said it sounded as if the wind blew pretty hard and the hail was heavy.

Hereford measured only .80 officially from the storm, while Vega caught more than an inch.

Members of the Citizens Band Radio Club kept a close watch on the dangerous clouds and reported back to City Hall for a possible alert to local residents. Also aiding was the Hereford Communications System.

## Wardrobe Costs Loom Large For Undergrad Girls

COLLEGE STATION — Although tuition and living costs have increased this year at many colleges, much of the total college expense can be found in a girl's closet.

According to Rhoda Boyles, Extension clothing specialist at Texas A&M University, wardrobe costs for women were estimated by a survey to range from \$290 to \$590. Incoming freshmen generally bought more than the returning upperclassmen, according to the Fairchild News Service study.

Most of the freshmen shopped at home using the family charge accounts, and left fill-ins and flat items to be purchased in local college shops. Upper class women tended to wait until their return to campus because they were familiar with the local stores.

The survey further revealed that the longer a woman is in college, the less she buys. As she approaches graduation, wardrobe content decreases and types of garments tend to be less campus-oriented in favor of

### Officer -

Continued From Page 1  
the highest paid school position in this part of the country.

Langley described the position of the group planning this year's work as developing a philosophy of trying to make available to all school districts everywhere, all that is available anywhere. He explained that in this way, that districts, on a voluntary basis could have the same materials for education regardless of their size or economic standing.

Plans call for the organization to begin to take shape by the time school starts this fall.

### Secretary -

## Car-Truck Are Heavily Damaged

The intersection of U. S. Highways 365 and 88 was the scene Thursday of a two-vehicle accident as a 1965 Mack Tractor, driven by Kenneth G. Shary of 2222 S. Buchanan in Amarillo and a 1965 sedan, driven by Henry J. Smith of 3622 Doris Dr., also in Amarillo, collided.

Both vehicles accounted for a total of \$625 in damages with the sedan sustaining about \$350 of the total amount.

The accident occurred as one vehicle had stopped for a red light at the intersection and then started to move when it turned to cross. Another vehicle was crossing the intersection at the time the light was changing and struck the auto.

### Wreck -

Continued from Page 1  
and a 12 year-old girl, Mary Rodriguez.  
Love was listed in serious condition late Saturday.  
Damages to the station wagon were estimated at around \$250 and the cycle was considered a total loss by officers.

### Youths -

Continued From Page 1  
most involved in providing 45 minutes of individual counseling to each participant every week.

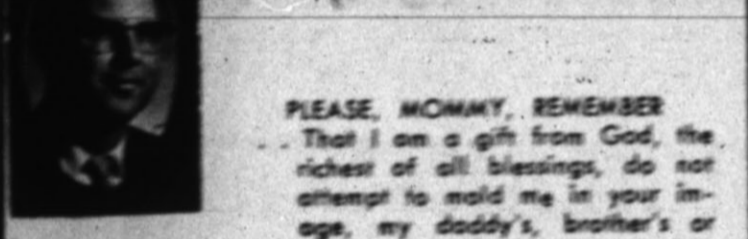

Pay checks (pay rate will be \$1.25 per hour) will come directly from the United States government; Mackey went over two or three forms (including a time sheet and an evaluation sheet) which are to be turned in to coordinating agencies twice a month. Field man for NYC in this area is J. C. Reese; Joe Gibson of Canyon is director.

Neighborhood Youth Corps is not new to Hereford; the city has employed students in this program since November. It's no skin off the back of the city government, since "the city can never get too much help," according to Dudley Bayne, city manager. If it were not for the program paid out of Federal funds, it is now being accomplished by the students would have to go unpaid; utilizing the NYC was not a matter of simply creating jobs. Bayne rates the Federal project "real fine" overall as far as the City of Hereford is concerned. Three of the city's quota are working at Tom's Manor, and one is employed by the county. Bayne predicts about half of the boys uprooted so continue in their present work; as far as employment is concerned, he believes the girls involved to be benefiting more because of the type jobs they are in.

work an average of 28 hours weekly; Mackey is planning a work schedule of four days a week, seven hours daily.

Interviewing for the 25 school positions will be carried on this week; Mackey said that he and other administrators intend to pick the most deserving first, putting others on a list as replacements. Actual work will get underway Monday morning, June 12. Work schedules will be altered this fall, when hours will be cut to 18-22 while the teenager attends junior high or high school. The program to be carried on in the schools is not for dropouts.

## ONE MINUTE PLEASE

PLEASE, MOMMY, REMEMBER  
That I am a gift from God, the richest of all blessings, do not attempt to mold me in your image, my daddy's, brother's or our neighbor's. I am an individual and should be permitted to be myself.  
Not to crush my spirit when I fail. Don't compare me with others who outshine me.  
Remember that anger and hostility are natural emotions. Help me to find outlets for these normal feelings—in play or physical exercise—or they may be turned inward and become deeper and much more serious.  
To discipline me with firmness and reason. Do not let your anger throw you off balance. If I know you are fair, you will not lose my respect or my love.  
Remember that each child needs two parents. When you side with me against daddy, I have had feeling of guilt, confusion and insecurity.  
Don't hand me everything my heart desires. That way I will never know the thrill of earning, the joy of deserving.  
Please don't make threats in anger or impossible promises when you are in a generous mood. To me your word means everything. When I can't believe in you and dad, I have difficulty believing in anything.  
Remember that there is dignity in hard work, whether it is performed with calloused hands that shovel coal or skilled fingers that manipulate surgical instruments. Let me know that a useful life is a blessed one, and that a life of ease and pleasure-seeking is empty and meaningless.  
Do not try to protect me against every small blow and disappointment. Adversity strengthens character and makes us compassionate. Trouble is the great equalizer, let me learn it.  
Teach me to love God and our fellow men, and, Mommy, don't send me to worship service and Bible school—take me there.

All children and mothers are invited to:  
VACATION BIBLE SCHOOL  
JUNE 12 thru 16  
9 A.M. thru 11 A.M. daily  
Classes for all ages including a special Mother's class.

### Veterinarians To Hear Scientists At June Meet

COLLEGE STATION — Three scientists, described as the "top men in their fields in the United States," will make talks during the 20th annual Texas Conference for Veterinarians June 14-16 at A&M University.

They are Dr. W. D. Ommert, horse practitioner at Monrovia, Calif.; Dr. R. P. Knowles, Miami, Fla., practitioner; and Dr. H. L. Marsh, a practitioner at Princeton, Ill.

Dr. Ommert will discuss unusual radiographic findings and various hazards in equine practice. Dr. Knowles will describe surgical techniques, and Dr. Marsh will talk on approaches and observations in cattle and swine practice.

Dr. R. D. Turk of the A&M College of Veterinary Medicine, conference committee chairman, said 200 to 250 persons are expected to attend the meetings in the Memorial Student Center.

He said the Texas Veterinary Medical Association will hold meetings June 14 at the conference. The president is Dr. R. C. Mallett, and the president-elect is Dr. A. I. Flowers, both of Texas A&M.

The overall session also will serve as alumni reunions for the classes of 1927, 1937, 1947 and 1957.

Conference talks start at 9:45 June 15 with an address of welcome by Dr. A. A. Price, dean of the A&M College of Veterinary Medicine. Other topics that day are Care of Chimpanzees in research, Capt. D. C. Van Riper, USAF Veterinary Corps, Holloman AFB, New Mexico; wildlife diseases, Dr. R. M. Robinson, Texas A&M; and mineral nutrition in cattle, S Steele Wright, president of Texas Farm Products Company, Nacogdoches.

Others are immunologic procedures, Dr. H. P. Hobson, Texas A&M, and cardiac resuscitation in the dog, Major G. L. Anstadt, USAF Veterinary Corps, Brooks AFB, San Antonio.

Banquet speaker that night at 6:45 is James Gillie of Bartlesville, Okla., manager of feed ingredient sales for Phillips Petroleum Company.

The June 16 program starts

### Beginners Crowd Swimming Class

Over 350 youngsters registered for swimming lessons on opening day of the Hereford Municipal Swimming Pool with the beginners group accounting for over 100 of the registrants.

The classes will be held twice in the morning — from 10-11 and from 11-12 starting tomorrow.

It was announced by Mrs. Bruce Miller, out-going Water

Safety Chairman of the Red Cross Chapter, that registration for adult swimming classes would be held Monday at 6:00 p. m. at the pool. Mrs. Clyde Rush is the new chairman of the program.

There will be two classes for adults — beginners and senior life saving. The adult beginners will have a one-hour long class while the senior life saving group meets for 1½ hours each evening.

The children beginners start at 10 o'clock in the morning and continue until 11 o'clock. Other classes will be conducted from 11-12.

Classes will be for beginners, intermediate and junior life saving in the children's group. Teaching the beginners will be Mrs. Rush and a host of water safety instructors. They will include Florence Robinson, Connie Brumley, Rozanne Frezer, Doris Rojek, Pat Fisher, Jan Story and Juanita Higgins. The

girls will also teach the adult will be assisted by some 8 water safety aids.

The instructors will also help Floyd Payne and Staley Hackley with teaching the adult senior life saving classes.

The fee for all courses, which last for two weeks is \$2.25. The two-weeks' classes will be held three times during the summer. Children who have completed the first grade of school and over, are eligible for registration.

The Centennial race track in Denver has banned all 4-year-old horses that have not won a race and all horses now 12 years old.

Coach Murray Armstrong calls his 1966-67 University of Denver hockey team the youngest he has had in 10 years at the school.

Bill Stansfield, 6-foot-8 Penn State sophomore, averaged 25.5 points per game at Riviera Beach, Fla., High School.

Penn State basketball teams have played five times in NCAA post-season tournaments and once in the National Invitation Tournament.

Four players — Jesse Arnelle, Carver Clinton, Mark DuMars and Bob Weiss — scored more than 1,000 points in their Penn State basketball careers.

Penn State basketball teams have played five times in NCAA post-season tournaments and once in the National Invitation Tournament.

### One Out Of Three Wives Are Employed

COLLEGE STATION — One in three, or about 15 million, wives earn a paycheck, according to Mrs. Wanda Meyer, Extension with Texas A&M University.

Half of all working wives earn about a quarter of their family's total income. About 40 percent of total consumer spending is estimated to come from homes where the wife is employed. Nearly half of the employed wives are in clerical jobs or work in factories. Over half are between 35 and 54 years of age.

Employed-wife households spend fractionally less for food and medical care, but more for dressing up, home furnishings and equipment, and for recreation than the household in which the husband only is employed.

These and other significant characteristics of the employed-wife household are brought out in a recent study by the National Industrial Conference Board, says Mrs. Meyer.

# Order Installs Beatrice Hutson

Installation of officers of the Order of the Eastern Star, Hereford Chapter number 312, was held Friday evening at the Masonic Temple in Hereford.

Guests were received in the foyer of the temple and Mrs. Faye Foster, of Olton, presided at the guest register, which carried out the colors of the worthy Matron. A low mass arrangement of red roses and blue corn flowers graced the registration table as guest signed with a blue quill pen, a gift of Mrs. Orpha Click.

Shine." An arrangement of red roses and blue forget-me-nots was placed behind a changing lighted plaque, bearing her motto.

Color stations were marked with low basket arrangements done in the emblematic flowers.

Refreshments were served from a beautifully appointed table. The cloth was the traditional Army-Navy cloth in white which belonged to Mrs. Foster, a life-long friend of the honoree.

The decorations in the chapter room further carried out the theme of red and blue and the theme of the incoming Worthy Matron, "Let Your Light So

The table was centered with an arrangement of red carnations, blue corn flowers and forget-me-nots. The focal point was a beautifully carved figurine holding aloft a lighted candle

SOME OF THE officers installed Friday night for the Order of Eastern Star are, left to right, front row; Marvin Coffey, Associate Patron; Mildred Lewis, Associate Matron; Beatrice Hutson, Worthy Matron and Bernard Roberson, Worthy Patron. Back row from left to right are Beatrice Noland, Conductress and Tiny L. Roberson, Associate Conductress. (Hereford Brand Photo)

from which ribbons in the emblematic colors fell gently to the massed flowers below. The table appointments were of silver and cut glass. Refreshments further accented the chosen colors. Mrs. Marine Cline presided at the punch service.

Coffee was served at the snack bar, which was decorated in keeping with the accented colors and flowers.

After a formal drill by Rainbow Girls and musical selections by Susan White, accompanied

by Becky Long, the officers were installed.

The installing officers were Opal Roberson, officer; Dorothy Noland, Marshal; Juanita Hershey, Secretary; Rosalie Wortham, Chaplain and Neil Culpepper, Musician.

Installed as Worthy Matron was Beatrice Hutson, as worthy Patron, Bernard Roberson. The others were: Associate Matron, Mildred Lewis; Associate Patron, Marvin Coffey; Secretary, Norma Coffey; Treasurer, Em-

ma L. Noland; Conductress, Beatrice Noland; Associate Conductress, Tiny Lee Roberson; Chaplain, Dottie Darden; Marshal, Nancy Mulkey; Adah, Charlotte Clark; Esther, Lucille Edwards; Martha, LaVone Boyer; Electa, Mary French; Warder, Wilma Townsend and Sentinel, Roy Boyer.

Jack Ouellette of Springfield, Mass., a performer in the still rings, captains West Point's gymnastic team.

### T. S. White Sends Bibles For Free

Old bibles — torn, discarded, just any condition — are being sought by a Louisiana man, T. S. White, for his "World Wide Bible Gift Ministry," which he conducts from his home in Shreveport.  
The better the condition of the bible, the better the service it can render; every bible will be accepted, however, he says. "Be cause any one leaf from any Bible is worth more than any man made tract, bibles being ragged and torn does not render them useless."  
White depends on donations to pay fourth class book postage. His address is 1719 Buckner St. Shreveport, La.  
Coons, Mrs. Vidal Trevino, June 1.  
Mrs. John E. Gilmore, Mrs. Duke Powell, Mrs. Robert Barton, Mrs. Joe Martinez, Mrs. Alice Williams, Mrs. Nell B. Ball, Frank Scott, June 2.  
Mrs. Ky Lawrence, Mrs. Jennie Buckner, Mrs. Leona Gaetz, Mrs. Walter L. Hardin, Alexander Peterson, Sammy Gaitan, Mrs. Anabel Gregory, Mrs. W. T. Vernon, June 3.

LUBBOCK — Ten more Texas counties, including Deaf Smith and Yoakum on the High Plains, voted May 15 through 19 to permit the lease or sale of cotton allotments across county lines within the state.  
This brings to 89 the state total of counties from which producers may buy sell or lease allotments to be moved outside the county. Gaines is the only other county on the Plains which approved the measure in the 1965 and 1966.  
Sixty counties approved inter-county transfers in 1965 and another 19 passed the issue in 1966.

Under the cotton-section of the Food and Agriculture Act of 1965 inter-county transfers by sale or lease were allowed for the first time in 1966, but only after allotment holders voting in a referendum approve the action by a two-thirds majority.  
The 23 counties represented by Plains Cotton Growers, Inc., gained 46,774 acres of cotton under this provision in 1966 and another 33,036 acres in 1967. Referendum approval is not required for transfers within a county or between counties if the move is between farms of the same ownership, but all transfers must be made during the period beginning June 1 and ending December 31 of each year.  
In addition to the two Plains counties, Hudspeth, Hutchinson, Irion, Kimble, Maverick, Presidio, Reeves and Winkler counties approved out-of-county transfers in this year's referendum.  
The ten counties have combined cotton allotments of 113,986 acres, of which 47,462 are in Deaf Smith and Yoakum counties.  
Producer approval of transfers is good for three years, and only 160 of Texas' 259 cotton producing counties held referendums this year. Next year the 160 counties which voted out-of-county transfers down in the three previous referendums, plus the 90 which approved them in 1965, will be required to vote.

chosen first vice president.  
Other officers include Gaston Wells of Dumas, second vice president; J. M. Collins of Plainview, secretary, and Jim Ed Waller of Lubbock, treasurer.  
Directors were elected from 23 districts, with five additional districts to be established outside the High Plains area later. Also included on the board are 10 "directors at large."  
In addition to the regular board, a six-man "advisory" board was established. Donald Johnson, PCG Executive Vice President, was given membership on that group.  
Purpose of the new organization will be to work for the importation of vast quantities of water to West Texas and adjacent areas for use by agriculture, industry, municipalities and recreation. Now considered by engineers as the most likely sources of water are East Texas and the Mississippi River.

Kendrick said the first order of business for Water, Inc., will be of a "housekeeping" nature — devising a budget, setting membership dues, appointing organizational committees etc.  
"After these things are out of the way we will need to begin immediately with an educational and membership campaign in which we hope to thoroughly acquaint every individual and every business entity with the almost unlimited benefits that can come to the area through Water, Inc.," he stated.  
He went on to say he recognized the necessity for dispelling doubt in the minds of many area residents as to the feasibility of importing water for irrigation and other purposes.  
Two quotes from Marvin Nichols, partner in the Fort Worth engineering firm of Freese, Nichols and Endress, which has made a study of the project, should go far toward accomplishing that purpose.  
In his address to the May 24 meeting, Nichols said "I can say without reservation that im-

portation of water to this region is engineeringly feasible and that ways will be found to finance it." He later said "... imported water will come to West Texas if the region's residents display the kind of wisdom, fortitude and stick-togetherness it's going to take to get the job done."  
Speaking for Plains Cotton Growers after the meeting, Smith said PCG was proud to have had a part in the organization of Water, Inc., and that the 23-county cotton producer organization expected to have an active part in helping to achieve its objectives.

Missouri's George Shelby was elected president of the American Cotton Producers Association at a meeting of the group May 24 in Washington, D. C. He succeeds W. W. Hart of Sinton, Texas.

James Connor, Executive Director of the Missouri Valley Cotton Producers Association, Portageville, Missouri, was elected secretary of ACPA, succeeding Bob Heard, Executive Vice President of the South Texas Cotton and Grain Improvement Association, Victoria, Texas.  
Donald A. Johnson, Executive Vice President of Plains Cotton Growers, Inc., attended the Washington meeting and reports that ACPA's immediate concern is for administrative actions which may be taken with regard to the 1968 cotton program, and that studies are also being initiated to determine what kind of legislation may be needed in the cotton industry following 1969 when the current program expires.  
He said ACPA will meet again in the near future and that the organization hopes to outline basic legislative policies which producers from across the belt will be able to support.  
He stressed that getting cotton legislation under which producers can live and prosper in 1970 and future years will depend on whether producers can will depend on whether producers unite behind such policies.  
Jim Allen of Roanoke, Va., captains West Point's squash team.  
The University of Vermont football team set a school record last season by scoring 200 points in eight games.

### Look Who's New

Mr. and Mrs. Leroy E. Carlton are the parents of a son, Craig, born on May 31. He weighed 7 lbs. 5 1/2 ozs.  
Mr. and Mrs. James W. Hill are the parents of a son, Jeffrey Lane, born on June 1. He weighed 7 lbs. 1 oz.  
Mr. and Mrs. George J. Meiwes are the parents of a daughter, Janet Mary, born on June 1. She weighed 7 lbs. 7 ozs.  
Mr. and Mrs. David E. Honea are the parents of a daughter, Shari Denae, born on June 1.

### Signal Light Is Damaged

A traffic signal light was knocked down Thursday afternoon at the intersection of Park Avenue and 25-Mile Avenue when a 1964 model truck, pulling a 60-foot trailer, made a turn and struck it.  
The incident happened as the truck was turning right. The truck weighed 6 lbs. 5 ozs.  
Mr. and Mrs. Santiago S. Valdez are the parents of two sons, Alberto and Roberto, born on June 2. They weighed 3 lbs. 1 1/2 ozs. and 3 lbs. 4 ozs. respectively.

driver of the truck, Steven E. Millikan, of Logan, Oklahoma, was traveling south on 25-Mile Ave. and was attempting to make a right hand turn onto W. Park Ave. (Harrison Highway).  
Damages to the truck totaled some \$200 and the signal light unit accounted for about \$500.  
One reason Hialeah Park in Florida is popular with horsemen is the climate. The average temperature for the 40-day 1966 meeting was 72 degrees.  
When Jim Ollom, Denver Bears southpaw, compiled a 20-8 record last season he became the first 20-game winner in the Pacific Coast League since 1957.

**Connie Kent Is Recipient Of Music Degree**

Miss Connie Kent, daughter of Mr. and Mrs. Lee Kent of 124 Star St., Hereford, received a bachelor of music degree with a major in voice during the 98th commencement exercises of Trinity University in San Antonio. The commencement was held May 29.

While a student at Trinity, Miss Kent was a member of the A Capella Touring Choir for four years; she also was a mem-

**Former Beauty Queen Attends State 4-H Meet**

COLLEGE STATION — A former Miss America will brighten the 4-H Roundup activities Wednesday as Miss Marilyn Vanderbur joins state-wide youngsters at Texas A&M University.

The 1958 wearer of the Miss America crown will arrive Wednesday, appear at several 4-H Roundup functions, and leave Thursday. The 4-H activities begin Tuesday.

Miss Vanderbur, who was graduated from the University of Colorado with Phi Beta Kappa Honors, is a frequent television personality and toastmistress. She has made appearances on the Steve Allen, Ed Sullivan, Art Linkletter, "To Tell the

Truth," "Candid Camera," and Bell Telephone programs. She also has been television hostess of the Miss America Pageant for five consecutive years and more recently has been hostess of the Miss Teenage America Pageant. Miss Vanderbur, in great demand as a keynote speaker, is the only woman presently a guest lecturer for General Motors.

During the past few years, she has spoken to thousands of groups as diversified as the American Mining Congress and the National Youthpower Congress. She has addressed the Ohio 4-H Congress four years. Active in sports, Miss Vanderbur has competed in AAU swimming meets, broken and trained her own horses, raced in competition in ski contests, and competes in organized golf tournaments.

She studied drama at the Musical Theater Academy in New York, played the organ for a long-playing Decca record, sings during personal appearances on television, and commentates numerous fashion shows in the United States and Canada.

Eighteen holes of play were scheduled Saturday and 18 more holes today. Eight men are scheduled to compete in each flight, with the top three in each to receive prizes of merchandise valued at \$50, \$30 and \$20. (Hereford Brand Photo)

## Letter To The Editor

Dear Editor:  
The 60th Legislature adjourned near mid-night on May 29, after 140 days of the hardest work that any legislature in history has done. I know that longer hours were spent on committees and sub-committees, than at any time during the years that I have served my district as a member of the legislature.

Very shortly now I shall close my office here in Austin, and will be in Springlake. It has been a pleasure to represent you during this session of the legislature. I just hope that I have represented you well, believe me I have tried.

I sponsored and passed 23 bills, and had 4 bills that did not pass the House, and 2 bills that were lost in the Senate. Besides these I co-authored about 20 other bills.

The State Affairs Committee, of which I was a member, heard 291 bills. The Counties Committee, of which I was chairman, heard 230 bills. The Conservation and Reclamation member heard 275 bills.

The Urban Affairs Committee, of which I was a member, heard over 60 bills.

So, you can see these four committees considered 40% of the 200 bills introduced in the House and Senate. The Rules Committee, of which I was a member, considered all of the bills that were reported favorably from the various committees before they were placed on the calendar for House action.

I was chairman of 24 sub-committees and on 65 other sub-committees. It is the policy of the House of Representatives to send each bill, that the committee heard, to a sub-committee for closer study than the main full committee can give to every bill. The sub-committee then reports the bill back to the main committee for its action.

Some of the major pieces of legislation that passed this session included the following measures:

**CITY SALES TAX** — this measure allows any city in Texas to call an election to determine whether that city shall impose a city sales tax on the people who purchase retail items within the city. A number of the larger cities plan, in the near future, to exercise this right to vote on whether or not they will have a city sales tax. The tax can not exceed 1%.

**TRAFFIC SAFETY** — this legislation provides that a person must be 16 years of age, and must have taken driver training before he can be licensed to drive an automobile; otherwise the person must be 18 years of age; it also provides that drivers' licenses of persons under 21 years of age will be a different color. This will keep minors from giving false ages in trying to purchase alcoholic beverages.

**INDUSTRIAL REVENUE**

**BONDS** — This measure allows cities and counties to issue bonds to attract industry; these bonds are to be paid for by the revenue from the industry that is attracted. This should be one of the best ways for small cities to draw industry. I sponsored and passed this bill.

**WATER ADJUDICATION ACT** — this act allows the Water Rights Commission to adjust water rights in Texas. This is something that has been needed for many years. This will help determine the amount of water available to move to West Texas.

**STATE EMPLOYEES' PAY RAISE** — gave to the employees of the State the first major raise in salary that they had had in many years, and allowed the State agencies to compete for capable personnel to fill vacancies that have existed because of inadequate salaries. Some of the major areas that Texas Highway Patrol; the State were helped were the personnel to staff adequately the Health Department; the State Highway Department, and other State agencies over the entire State.

**EDUCATION BILLS** — One of the bills of major interest was the increase in teacher pay by \$600 a year; other legislation would set up a sick leave program for teachers; allows pilot programs for 10 months and 12 months school systems, and more money for higher education.

**LOCAL COUNTY GOVERNMENT** — this legislation affects our local county offices, and standardizes the fees in certain offices such as clerk's and offices of the justice of the peace.

**INDUSTRIAL SAFETY** — for the first time Texas has an industrial safety act, which will serve to lessen the number of accidents in the industrial areas of Texas. This was a compromise bill, and was agreed on by industry and labor.

**CODE OF CRIMINAL PROCEDURE** — this legislation tightens the law in favor of law enforcement. It will help in the apprehension and prosecution of those violating our laws.

**OPEN MEETINGS BILL** — this measure provides that all State Agencies and political subdivisions shall hold public meetings, open to the press and anyone interested. Nothing can be withheld from the public.

**AIR AND WATER POLLUTION** — this measure will help the State clean up pollution in the streams, and the air pollution act was strengthened.

**PARK BONDS** — a revolving fund has been set up for the development of State parks by charging admission to State parks. The charge will be much the same as is now done at Palo Duro State Park.

**LEGISLATION WAS PASSED THAT WILL ALLOW COMMODITY GROUPS TO ORGANIZE TO HELP THEMSELVES**

**NEW RIOT GUNS** — City patrolman Bill Stephens exhibits one of the three new riot guns recently acquired by the Hereford Police Department. The 12-gauge shotguns are mounted in the cars magnetically and can be removed only

through specific procedures. The gun also cannot be loaded or fired while in the special mount. (Hereford Brand Photos)

through research and promotion. This is permissive on the part of each individual farmer.

**NATURAL FIBERS COMMISSION STUDY WAS AUTHORIZED** — in all probability this study will lead to the creation of a commission for cotton, wool, and mohair research. This could create a demand for our short staple cotton.

**LEGISLATION TO ALLOW RESEARCH BY CERTAIN INDUSTRIES IN CONNECTION WITH TEXAS TECH COLLEGE** — this should be a boom to Tech and the area in finding industries that are suitable to West Texas.

**THE CREATION OF THE WESTERN INFORMATION TELEVISION NETWORK** which will be one of the greatest strides in higher education to the people of our area. This system will eventually save millions of dollars by using a combination of talent from the various schools in the network. It might provide a method of taking college classes in some of the smaller towns or even at home.

These are a few of the more than 900 bills that passed at this session.

Probably three of the most controversial bills that did not pass at this session were:

1. State minimum wage legislation which would have set a minimum of \$1.25 for all workers including farm workers.
2. Liquor by the drink proposal which would have permitted open saloons in Texas.
3. Pari-Mutual betting a horse races which would have allowed several race tracks and gambling in our State.

### BACK TO FIDDLEING

**BUREAU, Ill. (AP)** — Violin playing will be a new line again for W. A. Johnston, 66, who retired as a mechanic after 44 years with the Rock Island Railroad.

His wife, who is a musician,

bought him a \$35 bow for his violin so he can take up the hobby where he left off soon after he married.

"She changed things," he said. "She taught me to read music."

Until then, Johnston played "by ear" like his father.

The couple at one time played

together in churches and at variety shows. Then his work ruined his playing and he dropped the violin.

When Bret Hanover, now retired to stud, was voted Harness Horse of 1966 he became the only three-time winner of the award.

### Regulations For '67 Hunt Season Outlined Monday

Three officials of the Texas Parks and Wildlife Department will hold a public meeting at 10 a. m. Monday in the Deaf Smith County Courthouse on rules and regulations for the 1967 seasons.

R. J. Stevens, game warden for Deaf Smith and Oldham counties, said bag limits, hours of hunting and open season dates for fish and game will be the topics of discussion.

"We'll explain what our regulations are and listen to anyone who feels they should be different," said Stevens. "If a person can convince us the rules should be changed, we will take it before the state board."

Stevens will hold the meeting along with Weldon Fromm of Amarillo, who will be hearing officer, and a biologist.

The public meeting for Oldham County residents will be at 2 p. m. Monday in the courthouse at Vega, and the Castro County meeting at 8 p. m. Monday at Dimmitt.

If you have any questions or if I can be of help to you in any way feel free to call on me at Springlake.

Sincerely yours,  
BILL CLAYTON

**By MELVIN YOUNG**  
The Goshen (Ind.) News says we're living longer in recent years, mostly because of advances in medicine and a better understanding of what makes us tick.

—HB—  
But modern times are here for sure. Kids once went bird hunting with all types of paraphernalia including sling-shots, B-B guns and even rocks.

Things are sure changing. Waldo Baxter, loan executive over at the Hereford State Bank would hardly be classed as a "kid," but it is interesting to note that he is still going "bird-hunting."

But Waldo is the only person that we know who kills birds with a golf ball.

On a recent round of the local links, Waldo got his first birdie. It's a little hard to get him to talk about the deal since he figures no one will believe it, but he swears that it's the truth and his golf partner, Gene Parsley will back him up.

Waldo was trying to hit the ball across the creek when it happened and it probably surprised him about as much as it did the bird. However, we will hasten to add, Waldo is still walking around and the bird isn't.

"Now who would believe a story like that?" he asked. "I can kill a bird in mid-air with a golf ball yet I can't hit the green. In fact, sometimes I have trouble staying on the fairway."

Well, the man does have a witness.

—HB—  
And while we're telling stories we might pass along one concerning the Pioneer Day activities.

Mrs. Reed Willaims, reports that one couple in their 50's wandered into the Bull Barn Tuesday and "joined the crowd."

When asked if they wanted to register however, they declined.

"We're from Idaho and just passing through. We saw all the cars over here and just wondered what was going on. This is the most exciting thing we have seen all day."

And true to the pioneer spirit, the visitors were invited to join the festivities. They apparently had a grand time.

—HB—  
And speaking of time, Henry Sears tells us that the First National Bank's "time and temperature" apparatus has been out of whack, giving the wrong time of day.

It has kept a girl busy answering the telephone, since people have been calling in to tell the folks at the bank that they had the wrong time.

Well, the electrician who maintains the clock finally got back to town and the clock is working properly again. Much to the relief of everyone at the bank.

That's become a pretty popular corner with local citizens who can drive by and get both the time and temperature without leaving their autos.

—HB—  
The hail out a Milo center was the worst that we have ever seen, and damage to crops and fields will run into many thousands of dollars.

By the way, our thanks to Bobby Owen for calling in the story. Bobby made the call from auto Radio-Mobiphone from Hereford Communication.

—HB—  
The Federal Communications Commission ruled Friday that radio and television stations which broadcast cigarette advertising must provide some time for antismoking programs without charge, if necessary.

The commission, according to an Associated Press story, issued its unanimous order by a 7 to 0 vote, in a letter to television station WCBS-TV, New York City.

On the surface one might think that this is a good deal, but when you stop to think a minute you'll realize that the danger here is in the precedent that this order will set.

Next week it may be some other product. In the end, all advertising will come under the dictatorial thumb of the FCC, and eventually, if it is allowed to stand, all advertising medias.

**YOUNG MERCHANTS**—A sure-winning idea for beating the hot summer days ahead of us has now been put to use by a group of local youngsters. The group set up operations in front of their home at Grand Street during the past hot summer-type days. From left to right are Gus Davis, Rusty Collier, Rochelle Davis and James Collier. (Hereford Brand Photo)

Governmental control of advertising would mean governmental control of news.

Complete control of news medias could only mean one thing — loss of freedom for the American people.

This may sound a little far-fetched, but it isn't. History will bear us out. And these things don't happen overnight. It's a long-range eroding process that eventually eats away the freedom of a nation.

—HB—  
The Wall Street Journal reports the number of American farms still on the decline. In 1952 there were 5.2 million farms; in 1966 a total of 3.3 million, and in 1967 the number will shrink to 3.2 million.

Farms of course, are getting bigger, more mechanized and we presume, more productive. And more farmers are moving to town.

—HB—  
Neighbors, we're told, ought to swap kids. Everybody knows what ought to be done with everybody else's.

**Dairy Farmers Warned Of DDT Danger In Milk**

COLLEGE STATION — DDT residues in excess of recently established tolerance in milk have been reported in some areas of Texas. Improper application and / or the application of DDT in the proximity of dairy farms and forage crops that are to be used as feed for dairy animals may be responsible for the trouble, explains Chas. W. Neeb, area Extension entomologist.

The protection of crops, in the proximity of dairy farms and / or forage crops, from insect damage with insecticide applications should not include DDT, advises Neeb. DDT should not be applied nor allowed to drift into forage crops that are to be fed to dairy animals or to animals being finished for slaughter, he adds.

He suggests that cotton growers in close proximity to dairy farms and forage crop fields use carbaryl (Sevin) spray applications for pink bollworm and cotton bollworm control. Carbaryl sprays will satisfactorily control pink bollworms and cotton bollworms; however, it may be necessary to add methyl parathion to the carbaryl spray. Methyl parathion should be used with caution where there is danger of direct drift onto animals, warns the entomologist.

As a general guide to the limitations of using insecticides containing DDT for crop protection, DDT sprays should not be applied within one-fourth mile of forage crops and dairy farms.

Cotton producers are urged to keep the use limitations of DDT in mind when considering the purchase of insecticides to be used in their crops.

In Coach Ara Parseghian's three years at Notre Dame, 51 records have been broken and eight have been tied.

**New Herbicide Boosts Mesquite Control In Texas**

COLLEGE STATION — A relatively new hormone-type herbicide, picloram, in combination with the well known 2, 4, 5-T has shown superior results in mesquite control on West Texas ranges.

Aerial application tests begun in 1964 boosted mesquite root kills from two to five times that obtained with 2, 4, 5-T alone.

Picloram, however, is not yet U. S. Department of Agriculture-approved for rangeland use. Further testing is necessary.

The trials have been supervised by E. D. Robison, brush control specialist at the Rolling Plains Livestock Research Center at Spur. The center is a unit of the Texas Agricultural Experiment Station.

Tests involved 70 mesquite plots, each about six acres in size, at 13 locations ranging from Vernon and Henrietta on the north and east to Mertzon and Midland on the south and west.

Robison used the picloram-2, 4, 5-T combinations in diesel oil-water emulsions at 4 gallons total volume per acre. The mixture was continually agitated during application.

Overall 1964 results averaged 11.7 percent mesquite kill with 2, 4, 5-T alone compared to a 50.2 percent kill with the mixing.

Results were much the same in 1965. The kill was increased from an average of 13.3 percent for 2, 4, 5-T alone to 33.8 percent with the mixture. Highest kill was 77.5 percent for the combination on old-field mesquite averaging 5 to 8 feet in height. The kill with 2, 4, 5-T alone under the same conditions was 40.8 percent.

Robison found that the best dosages in both years varied from a half-pound of 2, 4, 5-T plus a quarter-pound of picloram per acre to a quarter-pound of 2, 4, 5-T plus a quarter-pound of picloram to the acre.

Mesquite kills for the 1966 tests are incomplete and still being studied.

Results were much the same in 1965. The kill was increased from an average of 13.3 percent for 2, 4, 5-T alone to 33.8 percent with the mixture. # Double Ring Ceremony Unites Albracht-Haines

In a double ring ceremony Saturday morning, Miss Mary Virginia Albracht became the bride of Terrance D. Haines in Church in Hereford. The bride is the daughter of Mr. and Mrs. W. J. Albracht of Hereford. The bridegroom is the son of Mr. and Mrs. John F. Haines of Atchison, Kans.

Officiating at the ceremony was the bride's cousin, the Rev. Elmer Albracht, of St. Elizabeth's Church in Lubbock. Acolytes were the bride's brother, Wendell Albracht, and cousin, Bob Banner. The bride was given in marriage by her father. Mrs. Haines wore a full length silk organza gown for the

ceremony; the dress was embroidered with alencon lace emphasizing the scooped neck and side panels of the skirt. Her shoulder-length veil was held by a lace petal flower, trimmed with seed pearls. The bride's flowers were a cascade of white carnations; she carried a crystal rosary, a gift of the bridegroom.

Mrs. Rita Kay Thomas of Platte City, Mo. was Mrs. Haines' maid of honor; Miss Cecilia Wilhelm of Kansas City, Mo., was bridesmaid. The two wore blue crystalline dresses with empire bodices covered with white lace of a floral pattern. The floor length sheath was solid blue crystalline fashioned as a rose fastened to three leaves, made by the bride. The attendants each carried a single pale blue mum.

Serving Mr. Haines as best man was Bill Schorbrecht of Duluth, Minn. Joseph Begley of Atchison, Kans. was groomsmen. Ushers were George Boaz of Atchison, Kans., and Fred Albracht of Hereford.

Traditional wedding music, including "On This Day O Beautiful Mother," "Ave Maria," and "Mother At Your Feet We're Kneeling" was furnished by Mrs. Sharon Cramer, organist, and Ben Gollehon, vocalist.

A reception and buffet meal at the Knights of Columbus Hall followed the ceremony. Serving cake were Mrs. John Nishimuta and Mrs. James Paetzold; Miss Karen Albracht registered guests.

For the honeymoon trip to Las Vegas, Nev., the bride chose a white linen sheath with lace top and lace belted sleeves. She wore blue accessories. After the trip, the couple will reside at 900 Mound, Atchison, Kans., where the bride will teach math at Washington Elementary School. Mr. Haines is

Tulia and be at home in the Villa Apartments, 700 S. Austin, Apartment 17.

The bride was a Kress High School graduate, 1966. Now a business college graduate, she is presently employed by Graham, Glover, and Brown Accountants in Tulia, Texas. Carter graduated from Kress High School, 1965, and is now a sophomore at West Texas State University, Canyon, Texas.

For a honeymoon trip to Galveston and Houston, the bride wore a pink A-line shift with matching coat. Her accessories were white. The orchid from her wedding coat. Her accessories were white. The orchid from her wedding bouquet was her corsage. The couple will return to

## Guild Members Study World Peace Topics

Members of St. Anthony's Guild who have reached the Golden Age, were entertained at Mass and morning breakfast Thursday morning.

Those honored were Mrs. William Betzen, Mrs. Henry Hellman, Mrs. Joe Paetzold and Mrs. Josephina Schneider. Also attending as a special guest was Mrs. Annie Beizer from Dumas, a former member of the Guild.

Guest speakers for the occasion were Tomas Graf, exchange student from Karlsruhe, Germany and Rev. Father Albert Heald S. A., former pastor of St. Anthony's Parish, who has been in Japan for the past 15 years. Mrs. Ed Loerwald introduced the speakers.

The program carried out the theme on International Affairs Commission, and the women planned the program to help develop understanding between people of different lands to help bring about world peace.

Tomas, with slides, took the group on a panoramic tour of his country and back to Hereford, describing some of the events that had been meaningful to him. He attended the oldest Catholic Church in Karlsruhe.

Rev. Father Heald, dressed in Japanese Kimono and sandals told of the various customs of Japan and demonstrated the use of chop sticks.

He has been stationed in Japan having formerly been past in Hereford from 1943 to 1949.

Other guests were Graf, Father Heald, Mrs. Walter Paetzold, and Marie, Carolyn and Dorothy Orleans from Colorado Springs, Colo. About 40 members attended as did Rev. Father Aedan Davis S. A. and the hostesses Mrs. Gene Loerwald and Mrs. Henry Kuper. Guest prize was presented to Dorothy Orleans.

THE ONE SPOT

employed with Trans-World Airlines at the Mid-Continent International Airport in Kansas City, Mo.

The couple will be feted at a wedding reception at the Knights of Columbus Hall in Atchison on Sunday, June 11.

# McClellan-King Nuptial Vows Said In Gruver

Miss Sandra Kay McClellan and Bobby Wayne King exchanged nuptial vows May 27 in the First Methodist Church, Gruver. The bride is the daughter of Mr. and Mrs. Elmo M. McClellan Jr. Gruver, and the Mrs. Jacob A. King, Hereford.

Rev. Norman Grigsby, pastor performed the double ring ceremony before an arrangement of baskets of white gladiolas and yellow daisies. Lighted tapers were on the altar tables. Kneeling pillows were of blue satin.

Bridesmaid was Miss Virginia Weems, Pampa who wore a floor length green satin dress with a net overlay falling from the shoulder, held by a satin rolled collar. The maid of honor, Patty Dozier, Gruver, was dressed in a similar dress. They carried nosegays of white carnations, accented with lace and satin streamers.

Eva Holt, Gruver, was flower girl. She wore a floor length gown of yellow, a miniature of the bridesmaids and carried a basket of rose petals.

Rusty Gibson was ringbearer. John Edler, Dalhart was best man and ushers were Ronnie McClellan, Gruver, David Sadler, Dimmitt, Tommy Simmons, Aarillo.

Given in marriage by her father, the bride wore a formal gown of white lace. The empire dress was fashioned with a boat neckline and wrist length sleeves. The train of matching lace fell from the center back and flowed in a semi-circle. She wore a silver necklace, a gift of the bridegroom. Her flowers

## News About Area Men On Duty

LONG BINH, Vietnam — Army Specialist Four David R. McMillan, 21, son of Mr. and Mrs. Earnest E. McMillan, Vega, was assigned to the 46th Engineer Battalion near Long Binh, Vietnam, May 18.

Spec. McMillan, a heavy construction carpenter in the battalion's Company B, entered the Army in May 1966.

He is a 1965 graduate of Hereford High School.

were yellow rose buds carried on top of a white Bible. Her veil of illusion fell from a crown of seed pearls.

Marilyn Cator, Gruver, was organist and Jerry Curry, Canyon was vocalist presenting traditional wedding music and several special songs.

Following the ceremony, a reception was held in fellowship hall of the church.

The serving table was laid with lace over green and the four tiered wedding cake was decorated with swans and wedding bells. Members of the house party included Camilla

McClellan, Canyon, Gay Sadler, Dimmitt, and Cindy Benson Gruver.

For traveling, the bride chose a yellow and green ensemble accented with white. She wore a yellow rosebud corsage.

The bride is a graduate of Gruver high school where she was a member of the Harmony Club, FHA and FTA. She attended West Texas State University this past year enter Amarillo College of Hairdressing this summer.

Mr. King is a graduate of Hereford High School and is a senior student at WTSU. He is

a member of the music fraternity. He will attend camp this summer with the ROTC.

Out of town guests included Mr. and Mrs. Jacob King, parents of the bridegroom Rev. and Mrs. James Pepper, Haslet, Texas, Mrs. Ezell Sadler, Dimmitt, Mrs. Irene McClellan, Denver and Mr. and Mrs. John Chass, Amarillo.

The couple are a home in the Wyett Apartments, Amarillo.

## Nuptial Vows Are Exchanged In Church

TULIA — The marriage of Miss Donna Gayle Carlisle and Dwight Edwin Carter was solemnized Friday evening June 2, 1967 at 7:30 p. m. in Kress Church of Christ, Kress, Texas, with minister, G. B. Stanley of San Antonio, Texas, reading the double ring ceremony.

Parents of the bride are Mr. and Mrs. Tom Carlisle, 706 N. Floyd, Tulia, Texas. Mr. Carter is son of Mr. and Mrs. C. W. Carter, Route one, Kress, Texas.

Miss Susan Norfleet, Olton, Texas, attended the bride as her maid of honor. Wayne Carter of Mineral Wells, Texas, brother of the groom, was best man.

Bridesmaids included Misses Donna Fleming, Diane Byrd, Laquetta Bynum of Kress, Texas, and Francine Struve, Oton, Texas. Flowergirl was Rhonda Kiker, Tulia, Texas, attendant to the flowergirl was Kenneth Smith of Olton Texas, and candlelighters were Mike Carlisle, cousin of the bride who lives in Kress and Judy Carlisle, sister of the bride. Ringbearers were Terry and Tressa Hawkins, Pampa, Texas, nephew and niece of the groom. Music was supplied by eight singers from Lubbock Christian College Choir Lubbock, Texas.

Groomsmen were David Hawkins, Pampa, Texas, brother-in-law of the groom; Burney Hooper, Olton, Texas; Mickey Garner, Kress, Texas, and a cousin of the groom; Larry Carter, Kress, Texas, and cousin of the groom. Serving as ushers were Donald Campbell, Odessa, Texas (cousin of the bride), Buttons Carlisle, Tulia, Texas, (brother of the bride), Brad Burk, Kress, Texas.

Given in marriage by her father, the bride wore a formal wedding gown of white peau de soie enhanced with re-embroidered Alencon lace. The neckline was scalloped sabrina with the fitted basque bodice. Seed pearls and lace enhanced the neckline of the gown. A special feature of the gown was the removable wedding coat with an Empire waist and a cutaway neckline. A bouffant chapel length train falling from a fitted Empire waistline featured a tiny peau de soie cording. Her veil, chapel length mantilla, fell from a peau de soie pillbox.

The bridal bouquet was a white rose and orchid cascade atop a white satin Bible, which had been carried in previous weddings by cousins of the

maid of honor, Miss Susan Norfleet, was attired in a princess floor length dress of peau de soie satin with white lace bell sleeves and white wrist length gloves. Shoes were dyed to match the color of the gown. Bridesmaids' dresses were of same styling but in pastel rainbow colors. Their headpieces were pill boxes covered with white satin and white bell-shaped net which fell over their faces. Each bridesmaid carried one long stemmed red rose.

An archway topped with seven candles and decorated with white mums and gladiolas and emerald greenery formed background for the exchange of nuptials. Candelabra, with seven candles each, stood on each side of the archway.

Guests were entertained at a reception in Fellowship Hall of the church after the wedding service. Reception assistants attired in pastel rainbow-colored dresses included Mesdames Clarence Byrd, D. M. Springer, Jr. James Vineyard, D. M. Granberry, Elvin Glenn, J. M. Carter, Mike Powell, James Cruce, Clifton Thomas, Charles Fleming, Alton Cox, Elmer Adcock, and Brent Joy.

The bride's and groom's tables highlighted reception decorations. Her table was adorned with two candelabra of two candles each on each side of her bridal bouquet which was the centerpiece. Crystal appointments were used on the white white net trimmed with lace. A four-tiered pedestal wedding cake topped with white satin bells was served by Mrs. Frank Kiker and Miss Carolyn Carlisle, both of Tulia, Texas. The groom's table was hosted by Mrs. Wayne Carter, sister-in-law of the groom from Mineral Wells, Texas, and Mrs. David Hawkins, sister of the groom, from Pampa, Texas. Long stem red roses carried by bridesmaids, formed the centerpiece. A double-ring chocolate cake was served with nuts and coffee. Silver appointments were used atop a beige linen tablecloth with a brown and yellow trim.

For a honeymoon trip to Galveston and Houston, the bride wore a pink A-line shift with matching coat. Her accessories were white. The orchid from her wedding coat. Her accessories were white. The orchid from her wedding bouquet was her corsage. The couple will return to

### Miss Struben Is Honored

Armanda Struben, bride-elect of Charles Mims, was honored with a morning coffee Thursday at Hereford Country Club.

Decorations in colors of green and white included white daisies and ivy and baby's breath greenery over a green skirted table with silver appointments.

Coffee was served by Mrs. Roy Grubbs on a service table containing Danish rolls and a fruit-tray centered with a honeydew melon filled with strawberries, melon balls and fresh pineapple. There also was a tray of almond nutmeg balls. The tablecloth was green overlaid with a green net.

In the receiving line were Mrs. Mims, the honoree, and

Mrs. C. W. Fisher, grandmother of the bridegroom. Registering guests' was Ann Mims, sister of the bridegroom.

Hostesses for the occasion were Mmes. L. W. Combs, J. D. Kelly, Norman Gray, Earnest Langley, Roy Grubbs, Clinton Massie, M. W. Nobles, Clyde Rush, O. Z. Golden, Dick Barnard, Hag Cavness, Charles Holt and J. J. Durham.

Approximately 70 guests attended the Thursday morning coffee.

**BOYCOTT BILLY GRAHAM**

LONDON (AP) — Ministers in the Fellowship of Independent Evangelical Churches have threatened to boycott a rally planned here for Sunday, June 25, as part of Billy Graham's 1967 crusade. They say if it is wrong to organize a football match with its inevitable crowds, then it is just as wrong to hold an evangelistic rally.

Supporters of the Lord's Day Observance Society are also objecting to public transport being used. Maj. Gen. D. J. Wil-

**HELP FOR ALCOHOLICS**

LONDON (AP) — Representatives of four religious denominations — Anglican, Roman Catholic, Methodist and Presbyterian — have decided to ask the British Council of Churches to appoint an ecclesiastical committee to strengthen the church's role in the treatment and care of alcoholics.

The committee would be associated with the National Council on Alcoholism and eventually, it is hoped, with an International Council of Churches in Sweden, Holland and Switzerland are reported to have agreed in principle to the formation of such a group. It is estimated there are nearly half a million alcoholics in Britain.

**CLASSES AT WARDROBE**

LONDON (AP) — Sunday school classes for adults, run on the lines of university seminars, have been started at the London City Church of St. Andrew-by-the-Wardrobe.

"As it is particularly hoped to secure the attendance of those who have never shared, or have lapsed from, the Christian faith, the sittings will be held without prayers in order that no one no feel embarrassed," explained Ivor Bulmer-Thomas, church warden. The church takes its curious name from its past proximity to the royal clothing store.

When Duffy Daugherty of Michigan State played football at Syracuse two of the Orange assistant coaches were Biggie Munn and Bud Wilkinson.

EXPLAINING THE ART of making a quilt Hereford during the Pioneer Day Celebration Tuesday. (Hereford Brand Photo)

### Breith - Heidelberg Vows Are Exchanged

Miss Sharon Rae Breith, daughter of Mrs. Jettie Breith of Midland and granddaughter of Mr. and Mrs. C. N. McClure of 431 Star Street in Hereford, exchanged wedding vows with Wilson Elliott Heidelberg, also of Midland, in a double ring ceremony read in First Methodist Church, Midland, Saturday. Pastor of the church, Dr. Timothy W. Guthrie, officiated.

Both the bride and bridegroom are students at McMurry College in Abilene.

The bride, wearing a gown of imported silk organza over peau de sole, was given in marriage by her mother and escorted by F. B. Rhodes. Her dress of modified empire design was scattered

ed with crystal bead clusters and brushed silk embroidered motifs. The original design featured a low contoured neckline with teacup sleeves. The dress was complimented by a chapel train.

A cascade of chantilly lace petals, edged with bridal pearls and tipped with tiny crystal tear-drops, formed the headpiece for the veil of flowing pure silk English illusion.

The bride's jewelry was a strand of pearls given to her by the groom. She carried Phalaenopsis orchids and Stephanotis atop a white Bible.

The maid of honor, Miss Connie Kay Atwater of Midland, wore a formal gown of maize-colored sheer dacron over peau. The uplifted empire bodice and voluminous sleeves were of white daisy tulle overlaid with sheer maize. Two small self bows held soft full pleats at the back of the A-line skirt. She wore a headdress of lily-bell sprays and silk roses with a float of maize silk illusion. Her flowers were yellow daisies and gladioli trimmed with white streamers. Bridesmaids, Miss Linda McMahon of Balmorhea, Miss Judy Lippard of Lamesa, and Miss Jennifer Stephenson of Amarillo, wore dresses matching the Maid of Honor's. Their flowers were white daisies and gladioli trimmed with yellow streamers.

Brother of the groom, Hoppy

### News About Area Men On Duty

Anthony Saucedo, 18, son of Mr. and Mrs. Velix Saucedo, Route 3, Hereford, was promoted May 10 to Army specialist four in Vietnam where he is assigned as a rifleman in Company B-2d Battalion, 327th Infantry, 101st Airborne Division.

Spec. Saucedo entered the Army in January 1966 and was stationed at Ft. Benning, Ga., prior to arriving overseas the following July.

Dick Kenny, with five field goals in 1966, set a Michigan State career record with 19 field goals.

Pitt's football team had its poorest season in history in 1966, winning only one of 10 games.

Eric Heidelberg of San Antonio, was the best man. Groomsman were Wayne Merritt of Midland, Mark Halcomb of Andrews, and Jeff Deavenport of Hereford.

A reception for the couple was held immediately following the ceremony at the Elks Club in Midland.

Following a wedding trip to Lakeway Resort near Austin, the couple will be at home at Windsor Place Apartments, 1801 N. Midland Dr. Apt. 215, Midland. Both are 1966 graduates of Midland High School and are students at McMurry College at Abilene.

### H.D. CHATTER

## Summer Colors Dawn Bright

By Mrs. Argen Draper  
Home Demonstration Agent

Summer 1967 dawns with the ultimate brilliance of a clear sunny day. The air is sharp and clean and intense colors absorb the pure light. There is no over-cast or cloudiness. Freedom of fashion designs also dictates in individual color combinations. When colors mingle, it is for a more artful effect rather than to achieve a shocking clash. Color is wild, and free. Color is anything you choose that will enhance your beauty and feelings.

This is the season of print and pattern. Design takes a brave and bold step into spring. Fear and uncertainty are gone — even the classics voice their strength of character. Coordination is an established, profitable practice — it is an automatic sales promotion.

Textures add to the imagination of the manufacturer. Some of the interesting textures avail-

able to the home sewer are piques, cords, crepes, vinyls, tucks, imitators, reversibles and flocking. Your favorite is bound to be on the market. Bonding and permanent press are two of the exciting processes that are being made on almost all fabrics and textures. Also, the wet look is represented by an India Madras nylon taffeta with vinyl surface which can be sponged to remove casual soil.

As skirts inch up and up, legs move into the limelight in stockings of brighter and bolder texture. This season's colorful dresses, shoes in slick and wet colors, are coordinated with equally colorful stockings which are wild or subtle, solid or print and metallic or white — as well as sneer and shimmery, or thick and chalky. The textures are growing bolder, too. Colors and textures are worn in matching

and contrasting combinations of dress, hose and shoes. Contrasts and subtleties are worn, but the very newest look is the one color look — from tip to toe.

Treating bed linens and covers with a durable press finish has resulted in several benefits besides its basic no-iron properties. Because it reduces shrinkage when laundering cotton and blended-fiber bed sheets, standard sizes are being reduced from 108 to 104 inches and from 120 to 115 inches in queen size. Another change is marking sheets in terms of mattress sizes instead of torn size. These new markings are expected to aid homemakers to buy durable press, flat and fitted sheets more nearly scaled to the beds they cover.

While doing your spring cleaning, why not take a little extra time to be extra safe? You can make cotton fabrics temporarily flame retardant with two inexpensive, easy-to-obtain chemicals. Because the chemicals are water soluble, the treatment doesn't last through washing, but it can still be practical to treat again, after washing, such articles as curtains, draperies, potholders and upholstery padding. Dissolve seven ounces of bor-

ax and three ounces of boric acid in two quarts of hot water. Thoroughly wet the cotton items to be treated and dry them by any convenient means. The items will be flame resistant (but not fireproof, of course) until wet or washed.

Freezing cream for use within three months can be helpful if you have a surplus. Freeze heavy cream containing not less than four percent butter fat. Pasteurize the cream at 145 degrees F. for 30 minutes. Add 1/3 cup of sugar to 1 quart cream. Cool thoroughly. Fill moisture-vapor-proof containers to 3/4 inch of top. Freeze immediately. Store at zero degrees F.

Add some flavor to deviled eggs. Blue cheese deviled eggs

will add interest as the flavor is delightful. Cut 12 shelled hard-cooked eggs in half lengthwise; remove yolks and mash them with a half cup crumbled blue cheese. Add one-half cup dairy sour cream and one teaspoon of vinegar. Refill the egg whites, putting two filled halves together. Cover with transparent plastic wrap and refrigerate until ready to serve. If desired, reserve about one cup of egg yolk mixture to fill a pastry tube. With the tube, squeeze the egg yolk mixture around the egg where the outside meet; garnish with small pieces of pimento.

Michigan State is the first team to win successive Big Ten football titles since Ohio State did it in 1955.

## Frio News

By MRS. OWEN ANDREWS  
Brand Correspondent

Wilson Warrick, 50, brother of Elza and Billy Warrick, died in a Laredo hospital on Tuesday night after an illness of several months. Funeral services were planned for Friday at his home town of Freer. Mr. and Mrs. Elza Warrick and Mr. and Mrs. Billy Warrick, Eugene and Raymond, left Thursday for Freer and expected to be there through the weekend.

Mr. and Mrs. Glenn Gripp and Gail went on Friday to Stephenville to visit Mrs. Gripp's mother, Mrs. Tait Moring and leave Gail for a few weeks visit. Also, they were going on to Denton, where Mrs. Gripp will be in summer school at NTSC the first semester. Glenn and son Monte will "batch" while Mrs. Gripp is away and son, Dean, plans to visit his other grandmother, Mrs. A. G. Gripp at Conway during that time. Mrs. Gripp expects to complete work on her B. S. degree at this session.

Among former community residents seen at the Pioneer Day celebration in Hereford, Tuesday, were Mrs. Glenn Ratcliff, Dimmitt, who was Miss Komat Hyatt when she taught Frio School, during the thirties, and Mrs. Stella Fortenberry Sevier, El Paso, who also taught at Frio during the forties. Mr. and Mrs. Joe Greer, Amarillo, also were present. They lived on the place which is presently the H. F. Benson home, during the late 1920s. Rev. J. B. Harlin, Dallas, who grew up in this community was there with his parents, Mr. and Mrs. J. B. Harlin, whom he was visiting in their Hereford home.

A surprising rain and hail storm in a small area brought severe damage, Saturday night, to the following farms: Carlton and Robert Dobbins, Harlan Barber, Charles Springer, Jim Brooks, Andrews, Fred Axe Andy Axe, Alvis Jolly, Walter Hodges crop on Jack Bradleys place and damage on adjoining farms. It seemed to extend about to the Dimmitt highway. Hail fell for about an hour at the Brooks and Taylor farm and damage to wheat and cotton was total on farms in that area. Very high winds followed the rain and hail. The deluge filled the Brooks lake backing water up into adjoining fields. No rain fell only a line or so from the area.

Mrs. Boyd Vaughn, Valerie

Tests show:

and Delisa, Tullia, visited Tuesday until Thursday in the home of Mrs. Vaughns parents, the H. F. Bensons.

Virgil Barber is completing his freshman year at Tech, this week and expects to attend summer school at WTSU as he did last summer. Debbie Banks also plans to attend summer school at WTSU.

Ordination Services were held at Frio Baptist Church, Sunday evening for two men who were becoming deacons. The two new deacons are Homer West and Billy Warrick. Rev. Darold Baldwin, Brownfield, was guest preacher for the occasion. Others participating in the services were local pastor, Rev. Sam Ogden, and deacons, T. L. Sparkman, Jr., Olin Parris, J. H. Debbis, and Frank Robbins and a guest deacon, W. H. Andrews. Other visitors from out of town for the service were Mrs. Darold Baldwin and Toye, Brownfield. Mr. and Mrs. Robert Baldwin and Kristi, Amarillo. Mrs. Bill Maddox and Mrs. Geraldine Wells, of Sayre, Okla. Mrs. Maddox is West's mother and Mrs. Wells, his sister.

Mr. and Mrs. Z. P. Pilgreen, Vernon, visited during the weekend in the home of their granddaughter, Mrs. Joe Andrews and family.

Visiting the Olin Parrises during the weekend were his mother, Mrs. H. A. Parris, Lubbock, and a sister, Mrs. W. W. George San Antonio. They also came especially to attend the Silver Wedding anniversary celebration for the Parrises, Sunday afternoon.

Mrs. Dovie Isbell was another out-of-town guest for the occasion.

Mr. and Mrs. W. H. Andrews and Ronnie left on Wednesday on a trip, visiting Mrs. Andrews mother, Mrs. Herbert Adkisson and a sister, Mrs. Jess Lamb and family at Marlowe, Okla. and another sister, Mrs. Frank Calhoun and family at Ft Worth. On Saturday evening exercises at Austin, where their son-in-law Godfrey Baldwin, was a member of the class of graduate students. He received a Masters Degree in the social studies field. Baldwin is employed with the Texas Welfare Department in Austin. The Andrews visited the Baldwins during the weekend.

Darrell Knabe, a Junior student at Maryknoll Junior Seminary, in Chesterfield, Mo., was due home this weekend to spend the summer with his parents, Mr. and Mrs. Adolph Knabe, and the others of the family.

Mr. and Mrs. Joe Andrews, Elizabeth, Valerie and Jason,

visited Mrs. Andrews parents, the Herbert Haseloffs, at Abilene, Monday until Wednesday.

Cynthia, daughter of Mr. and Mrs. Oyd Eller, recently completed a nine month course of training at Medical Institute of Colorado, at Denver. Miss Eller a '65, graduate of Hereford High School, has trained to be a medical and dental assistant and expects to be employed now that she has completed the training.

Nancy Gripp plans to go this weekend to Las Vegas, N. M. to start work as counsellor for Lubbock Camp Fire Summer Camp. She expects to be there eight weeks. Her mother, Mrs. Spicer Gripp and grandmother, Mrs. A. G. Gripp planned to take her on Sunday.

Spicer Gripp is doing fine, recuperating at home after a few days and minor surgery at Deaf Smith County Hospital.

### News About Area Men On Duty

AUGSBURG, GERMANY (AH TNC) — Jerry D. Walker, 19, son of Mrs. Alene Nixon, 806 W. Bedford, Dimmitt, Tex., was promoted May 5 to Army specialist four near Augsburg, Germany, where he is assigned as an artillery survey computer operator in Headquarters Battery, 2d Battalion, 7th Artillery. Spec. Walker entered the Army in March 1966 and was stationed at Ft. Sill, Okla., prior to arriving overseas the following August.

Walker is a 1965 graduate of Dimmitt (Tex.) High School and was employed by Wayne Manufacturing, Pomona, Calif., before entering the Army.

## Tramps Pick Four From Hereford; Reunion Set

Saddle Tramps, men's service organization on the Texas Tech campus in Lubbock, has named four sophomore students from Hereford to its 1967 fall pledge class. The four are John Perrin, Virgil Barber, Jim Cooper and Dennis Sutter. Perrin, the son of Mr. and Mrs. J. V. Perrin, is an animal science major; Barber, son of Mr. and Mrs. Harlan L. Barber, is a landscape architecture major; Cooper, son of Mr. and Mrs. Neil Cooper, is majoring in pre-dental, and Dennis Sutter, pre-law, is the son of Mr. and Mrs. D. A. Sutter. There are 25 others in the pledge class. The Saddle Tramps became a men's service organization in 1936 and have undertaken various projects; the 1967 organization is planning a reunion for all Ex-Saddle Tramps, slated Oct. 14th, the day of the Tech-A&M football game. A barbecue is planned for the afternoon. Saddle Tramps are requesting names and addresses of ex-members; whereabouts of any of those persons should be sent to the Saddle Tramps, Box 5263, Tech Station, Lubbock 79409. Names and addresses can also be given to those in the pledge class. When first initiated, the Tramps' work centered around supporting athletic events at Tech. Their activities have since ranged from raising money for Tech's first hand uniforms in 1938 to planting 20,000 trees to beautify the campus. Recently they initiated a fund drive and collected \$50,000 to be used for construction of a monumental fountain at Tech's entrance.

Virgil Barber

used for construction of a monumental fountain at Tech's entrance. POTATO CRISP PATRON LONDON — The patronage of the Church of England of All Saints, Nocton in Lincolnshire, is possibly the only one held by a commercial firm — Smith's Potato Crisps. The company bought 8,000 acres of land around Nocton 30 years ago and the patronage of All Saints came with it. This gives the board the right to nominate a vicar and put his name before the Bishop of Lincoln. "The church conducts its own affairs but we take a fatherly interest and support it in any way we can," said managing director Ronald Baker. Usual patron is a bishop, the Queen or some local squire. Juan Marichal was the best control pitcher in the National League last season. He averaged 1.06 wals per nine innings. The Daimler motor car as-tounded the world in 1889 by racing down roads at the then incredible speed of 11 miles per hour.

**First Baptist  
 Slates Vacation  
 Bible School**

The Bible School of the First Baptist Church for children between the ages of 3-14 years will begin tomorrow morning at

8:30. The eight-day school will run through June 14 operating from 8:30 a. m. to 11:30 a. m. daily. Last year's school enrollment totaled some 349 and averaged 292 in attendance. More are expected to enroll this year.

The junior high division of the school will engage in a concentrated study of the Sermon on

the Mount and will produce a religious drama entitled, "The Challenge of the Cross." The play will be presented to the entire school at the conclusion of the school.

The Bible centered school will be open to children of all faiths.

BEST MEAT IN TOWN

**RAMPAGING WATERS** — Heavy rains, estimated by some to be as high as 6 inches, set bar ditches running with four and five feet of water Thursday afternoon. The water was over U.S. 385 in several spots for long stretches, obliterating the pavement entirely.

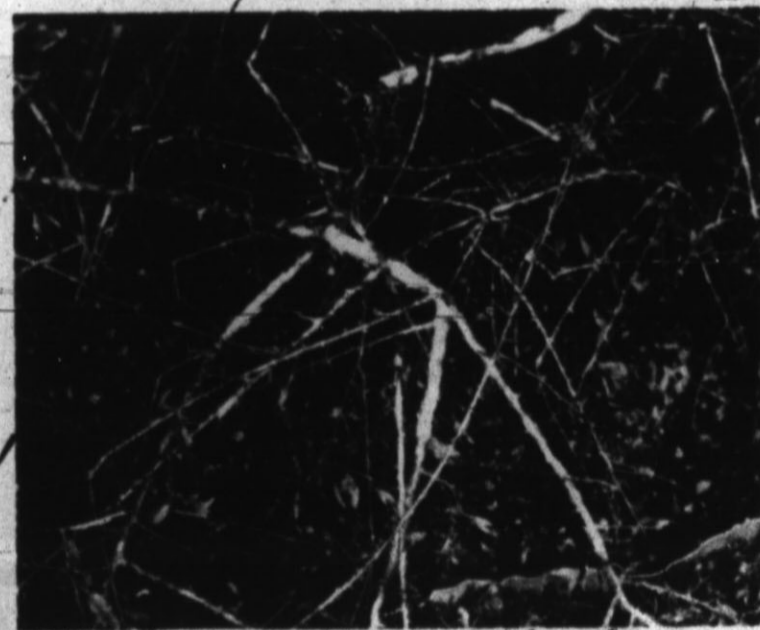

**DRENCHED RABBIT** — This rabbit symbolized the bewilderment expressed by drivers in the Milo Center area Thursday afternoon as a cloudburst left water rushing over fields and roads. The rabbit was in such a dazed condition that it was nearly picked up by hand before it hopped away.

**SNOWBANKS?** — Large hail covered the ground in as much as 18-inch depths Thursday afternoon during a severe storm at Milo Center. Torrential water swept the hail into large piles and cut through the stacks until the area appeared to have been hit by a snow storm.

**NEW LAKE** — Traffic was halted over Farm-to-Market 1062, about 1 1/2 miles east of Milo Center Thursday when runoff water from a downpour in the area backed up across the highway to form a small lake about a mile across. Traffic on the road will be halted indefinitely.

**HAIL DAMAGE** — Bark was knocked from the trees on the J. B. Halle residence Thursday afternoon by hail which was golfball size and larger. Only leaves were left on the south side of the trees in the hard hit area.

**EQUIPMENT UNDERWATER** — Employees of the Messer Construction Co. worked Friday morning pulling digging equipment from high waters on the Luther Lesly farm about 1 1/2 miles east of Milo Center. A bulldozer is being pulled from the water.

**ALMOST A BOAT** — A car owned by Jesse Ecamillo of Hereford was more than half-way underwater during the height of runoff from a downpour in the Milo Center vicinity Thursday. The car was pulled out before noon Friday and was being driven that afternoon.

HEREFORD, TEXAS, 79045, SUNDAY, JUNE 4, 1967

**RAINBOW GIRL HONORED** — Carole Coffey, left, a junior member of the Grand Examining Committee of the Grand Assembly of Texas, was presented an emblem of her office during a meeting of the Hereford Rainbow Girls Monday night at the Masonic Lodge. With Miss Coffey were Linda Jacobson, center, Worthy Advisor of the Hereford organization, and Mrs. Nell Culpepper, Mother Advisor. (Hereford Brand Photo)

### Music Students Presented In Recital By Mrs. Parker

Mrs. Frances L. Parker has announced that she will present her voice and piano students in a recital today at 2:00 p. m. in the Fellowship Hall of the First Christian Church.

The recital, which is open to the public free of charge, will feature nine pianists and three singers.

Paulette Spurgeon will play a waltz by Webricht, 'Johnny Get Your Hair Cut,' 'In The Old Cornfield,' and 'All Thru The Night' will be the selections performed by Becky Friemel.

'The Pigeon,' a French folk song, and 'Roaming,' by Curcio, will be performed by Mike Friemel.

Gary Friemel will play 'Twin Kle, Twinkle, Fifty Stars,' a selection arranged by Schaum, and he will be followed by Donna Sargent playing a selection by Mainville, 'Ghost of Barnacle Bill.'

'Chimes of Spring' and 'In the Hall of the Mountain King' will be played in a duet by Kathy Duncan and Mrs. Parker.

'Polka,' a selection by Roff, and 'Dance of the Princesses' (Firebird Suite), by Stravinsky, will be played by Carmela Burgess.

Betty Barrett, contralto, will sing 'As I Went A Roaming' and 'My Favorite Things (Sound of Music)'. She will be followed by Joe Priddy with a selection by Weybright entitled, 'The Trail A Daybreak' on the piano.

Mike Kemp, a baritone, will sing 'It's A Big, Wide, Wonderful World' by Rox and 'When I Think Upon The Maidens,' a song by Head.

'Prayer,' a selection by Webricht and 'March Slave,' by Tschalkovsky, will be the two selections Ann Priddy will play.

Rebecca Wilson, a mezzo-soprano, will sing two selections, 'Come Down To Kew,' by Deis, and 'I Cannot Live Alone' by Carrissimi, will be her selections.

All interested persons in music are cordially invited to attend the recital.

### Rainbow Honors Carole Coffey

The Rainbow Girls of Hereford Assembly No. 157 held a Friendship Night Supper Monday evening, May 29th, at the Masonic Lodge Hall in honor of Miss Carole Coffey, Junior Member of the Grand Examining Committee. There were about seventy members and visitors present. Other Assemblies represented were Amarillo, Happy, Friona, and Plainview.

Grand Cross members helped serve the meal. They were: Mrs. H. L. Hershey, Mrs. Virginia Patton, Mrs. L. C. Thomas

Mr. and Mrs. Marvin Coffey. After the meal, a program was presented by the Hereford Assembly. It had been prepared by Past Grand Worthy Advisor, Mrs. Mary (BOB) Bingham. Miss Coffey was presented with the badge of her office, as well as floral tributes from the color stations.

Linda Jacobsen is Worthy Advisor and Mrs. Nell Culpepper is Mother Advisor of Hereford Assembly. Mrs. Joan Quebe, Grand Visitor of the Plainview area assemblies was presented in the East also.

### Russell Named Vice President Of Accountants

W. C. Russell of Hereford, partner of the accounting firm of Brown, Graham & Glover, was elected vice president of the Panhandle Chapter, Texas Society of Certified Public Accountants, at a dinner meeting held at the Tascosa Country club in Amarillo on Friday night June 2.

James E. Jenkins, CPA, of Amarillo, was named president, Douglas N. Perkins of Amarillo was named secretary and Ben R. Smart of Amarillo was named Treasurer.

Russell is a graduate of West Texas State University and has been a resident of Hereford for 8 years. He lives with his wife, Winette and daughter Vicki at 114 Fir Street. Russell is a member of the First Presbyterian Church and past secretary of the Hereford Lions Club.

### Mission Appoints Missionaries

ATLANTA — The Southern Baptist Home Mission Board appointed nine career missionaries in May, including Mr. and Mrs. Donald T. Moore of Fort Worth to serve as area missionaries in Ponce, Puerto Rico.

The appointment of the Moores will reinforce home mission work in Puerto Rico, bringing to 14 the number of missionaries serving there.

Moore, a native of Hereford, Tex., is a graduate of Baylor University (Baptist) in Waco, and Southwestern Baptist Theological Seminary in Fort Worth where he is now working on his doctor of theology degree. He has served as pastor of churches in Cisco and Ranger, Tex.

Mrs. Moore, a native of Laredo, Tex., is a graduate of Howard Payne College (Baptist) in Brownwood, Tex. She also attended Southwestern Seminary.

### Couple Honored On Anniversary

Mr. and Mrs. Olin Parris were honored on their twenty-fifth wedding anniversary with a reception in the home of Mr. and Mrs. L. L. Schultz, Country Club Drive. Hosting the Sunday afternoon event were Mr. and Mrs. Parris' son and his wife, Mr. and Mrs. Walker Parris, Mrs. Parris's sister and husband, Mr. and Mrs. D. F. Yandell, Mr. and Mrs. Harlan Barber and Mr. and Mrs. Schultz.

Receiving guests were Mr. and Mrs. Schultz, the honor couple and Mr. and Mrs. Walker Parris.

Mrs. John C. Robinson, niece of Mrs. Parris, registered the more than 70 guests who called during the afternoon.

The serving table was covered with a white lace over damask. Silver bells and an antique silver chub carried out the theme of the occasion. The chub was the center of a floral arrangement of American Beauty and pink roses. Crystal candle holders containing pink candles flanked the floral arrangement.

Focal point of the entire table was an unusual family tree cake. The cake, baked in the shape of a heart, the base being accented with an American Beauty velvet ribbon, gave the names of the honor couple, Lee and Olin. The bottom of the cake carried the name of their son, Walker, on the same kind of ribbon. Whitney, the name of the Parris granddaughter, was inscribed on a miniature heart-shaped cake.

Mrs. Yandell served the punch and Mrs. Barber served the white bride's cake and the groom's cake, a chocolate layer cake.

Mr. and Mrs. Parris were married May 30, 1942, in Abilene.

Special guests for the occasion were Mrs. G. W. Parker,

**LITTLE FOXES BEFORE LC SEASON**  
NEW YORK — In a production innovation by the Lincoln Center Repertory company, Margaret Leighton will star in a revival of the Little Foxes' next season.

The presentation is to be a joint venture of the repertory sponsor, Saint Subber. It will be mother of Mrs. Parris and Mrs. H. A. Parris of Lubbock and Mrs. Wilburn George of San Antonio, mother and sister of Mr. Parris.

### Basic Real Estate Course Offered June 12

LEVELLAND — "Fundamentals in Real Estate," a short course, will be held at South Plains College June 12-17 in the administration building.

This is the last chance for the thirty-hour course which is approved by the Texas Real Estate Commission and will satisfy the 30-hour prerequisite for taking the State Broker's examination.

Classes will meet from 8:30 to 11:55 a. m. and from 1 to 4:20 p. m. Monday through Friday. Saturday classes will be held from 8:30 to 11:30 a. m.

Jim Montgomery will serve as supervisor-coordinator.

Pre-registration is now taking place. Board and room arrangements must be accomplished independent of the college.

Materials needed for the course includes notebook, protractor, "Provisions of Real Estate Licensing Act," dated August 23, 1963 (order this from Texas Real Estate Commission, Drawer F, Capitol Station, Austin, Real Estate Broker License Examination." (Order same as above) \$2.04 money order.

Instructors and their subjects are: "Real Estate Law," Warren Tabor; "Land Economics," Don Harris; "Real Estate Finance," Lester Smith; "Building Construction," Ken Flagg; "Real Property Marketing," Pat Garrett; "Taxation," Dan Howard; and "Instruments Used in the Real Estate Business" and "Mechanics of Closing Transactions," Jim Montgomery.

For additional information write Frank Hunt, director Special Services, South Plains College, Levelland, Texas 79336.

### Tarpley Music Presents Organ Showcase

Tarpley Music Company, Inc., a company serving the musical interests of the people of the Texas Panhandle for over 40 years, in Amarillo, has announced that they will present Porter Heaps Hammond Organ Showcase at the Amarillo Little Theatre auditorium in Wolf-Lin Village on Thursday at 8 p. m.

Heaps, Columbia recording artist and one of America's finest organists and teachers, will present the program.

The musical fare will be varied and it was announced that it unquestionably would include everyone's type of music.

The program isn't a class or seminar of "long hair" concertations," Jim Montgomery.

For additional information write Frank Hunt, director Special Services, South Plains College, Levelland, Texas 79336.

and the whole family is invited to attend. There will be no charge for admission.

After 17 years as an assistant coach, Moe Fassinger is coaching the Carnegie Tech basketball team this season.

In three seasons of harness racing, Bret Hanover earned a record \$922,616. The pacer won 62 of 68 races and was retired.

Mickey Rosborough, 6-foot-2 senior from Donora, Pa., set a three-year Pitt pass catching record with 78 receptions for 826 yards.

### What Will Federal Aid, Phase II Cost Citizens?

Federal aid is one of America's most debatable 20th century developments and, despite its apparent evils, it has expanded so rapidly that it is now entering the second stage toward outright Socialism.

Born in the "great depression" of the 1930's, federal aid until now has pretty well been optional with the states and

communities. Today, this is still true from a technical standpoint, but in reality it is fast becoming a necessity. Towns, school districts—even states—are finding themselves in the position of accepting federal aid, or being forced into a situation of double-taxation. Such political sub-divisions are, in fact, facing the same dilemma as the parent whose youngster wants a bicycle "because all of the other kids have one"; add to this a law requiring that all kids have a bicycle, which the government will furnish if the parent cannot, and you pretty well find yourself with the same outlook as the average local governing body.

School boards all over the country, for instance, are faced with basic requirements, many of which demand extra spending — which the federal government will furnish in whole or part. Should this board tax its citizens — who have already paid their share into the federal ladder — a second time, or should they go ahead and qualify for the federal handout?

Different people will answer the question in different ways, but it is obvious that most of the nation's school boards are going right along with the federal program. Many of them, in fact, have gone out and hired experts who better understand technicalities of the programs in order to get a little more federal money than do their neighbors.

Phase II of the federal aid program means, according to many critics, that we are well on the way toward total socialism; others tell us not to worry, that everything is fine, and that we never had it better. Still others are prone to throw up their hands and ask, "What can you do about it?"

Certainly, both national parties are trending more and more in this direction, despite the fact that it is merely another version of the original squabble between Jefferson and Hamilton over the concentration of central power. Their excuse is that the people are demanding federal aid, and election results of the past two decades definitely bear out their conclusion. Naturally, if this is what the people want, this is what they will get, along with more social security (such as medicare), more withholding, and other new-fangled tax versions which are bound to crop up from time to time.

All of this is a far cry from the basic thinking and theories which brought our nation into being a world power but, who knows, maybe a change is due. Maybe we have outgrown the old idea of getting paid for what we do, and the constant struggle our forefathers faced in an effort to "get ahead". Maybe the answer rests in a 20-hour work week, getting things for "free", and having some bureaucrat tell us when and how we must lead our lives.

These things are nice indeed, but they are expensive in that they have only one price tag. That price tag is our freedom.

### Pioneer Day Is Appreciation Day

Hereford's annual Mid-Plains Pioneer Day was attended Tuesday by a large delegation of old timers who, for the most part, include second and third generations. Ranks of the truly first settlers are becoming thin indeed, due to the 77 intervening years since Hereford was founded.

Tradition of the pioneers is carried on by most of the early families, though, and the annual celebration has expanded, along with the influx of such modern conveniences as automobiles, air conditioning, refrigeration, and television.

Memorial Day seems an excellent time to hold the celebration, and we are happy to note that the early settlers were remembered in official meetings as well as in the hearts of those who gathered here last Tuesday. One of the reasons the old timers tolled so hard, risked everything against the elements, and came West, often, against the advice of their elders, was in order that their children and grandchildren might realize a better way of life.

All in all, we sincerely believe that each of them would have heartily approved of the 1967 Mid-Plains Pioneer celebration and of those who were in attendance. In truth, it represents their dreams come true.

MAIN STREET, U. S. A.

## Congress Has Worries About Moving Population

By BERT MILLS  
WASHINGTON, D. C. — Congress is beginning to howl in increasing concern over population strangulation of the cities, caused in part by the out-migration of residents of small towns and rural areas.

Seven out of ten Americans now live in a metropolis and if present trends continue eight out of every ten will be city dwellers within 30 years. Nobody thinks this is a healthy situation but thus far nobody has produced a broad plan guaranteed to reverse current trends.

President Johnson has spoken of the need to "bring jobs to the countryside rather than people to the cities." Some Federal efforts are being made in that

direction but not nearly enough to stem the tide. Congressional concern has been shown by recent developments in both the Senate and House. In April, Senator Karl E. Mundt (R., S. D.) introduced a joint resolution calling for a commission to study population movements and to recommend a program of "balanced economic development." Twenty Senators, including several Democrats, are co-sponsors.

In March, a subcommittee of the House Small Business Committee opened hearings on "Small Town, U. S. A." These are investigative hearings designed to learn what is happening to small towns and what is being done, or can be done, to prevent their stagnation.

Cities Have Own Department  
Problems of the cities are so staggering that Congress found it necessary to create a Cabinet Department of Housing and Urban Development. HUD does not confine itself solely to cities but its concentration is on urban areas. The Federal government has a long list of subsidy programs which seek to cure the ills of the great population centers.

Senator Mundt's proposal for a blueprint to achieve "balanced economic development" is limited to a fact-finding study by a bipartisan commission which would spend two years evaluating such things as the economic, social, and political factors which affect the geographic location of industry.

The President would appoint 20 members to the Commission on Balanced Economic Development. Four would be residents of cities with a population over 1 million, four from centers in the 100,000-1 million class, four from small cities in the 10,000-100,000 bracket, four from towns and villages under 10,000, and four experts chosen without regard to residence.

To insure bipartisanship, not more than two of the four members from each population class would be members of the same political party. The fifth group of four experts could be picked without regard to political affiliation. Thus the party in power could not enjoy anything more than a 12-6 split.

Unlike various past commissions, including the two Hoover

See MAIN STREET Page 5

### THE BOOTLEG Philosopher

Editor's note: The Bootleg Philosopher on his Bindweed farm Northwest of Hereford examines the cost of living this week, in his own way.

Dear editor:  
A neighbor of mine climbed through a fence of mine yesterday morning, well actually he didn't climb through, he just stepped over, since the top two wires have been missing since 1958 and as long as it suits my cows it suits me, and handed me a newspaper and said, "Here, read this," and pointed to an article he'd marked.

What it was was a report on the government's current consumer price index, showing that living costs last month climbed three-tenths of one per cent, which is figuring it pretty close. I would have figured it had jumped maybe 40 per cent. In fact, it was too close for some people who have trouble with fractions, because I bought a tractor bolt last week that used to cost a nickel and now costs 15 cents, although it's possible that the store owner can figure fractions like three-tenths of one per cent but just hadn't read the latest consumer price index.

But the part of the article he especially wanted me to read brought out that a million workers in the auto industry will now get a cost of living pay hike of two cents an hour because their labor contracts are pegged to the consumer price index. Things go up, their wages go up.

"That's what we ought to have," he said. "Farmers don't get enough per hour. When things go up, we ought to get paid more."

I didn't argue with him, but I've got a little different notion about it. We ought to get paid more, but not more per hour.

You start trying to pay a farmer by the hour and you'll wreck farming, particularly on this bindweed farm. Some government official offers to pay me two cent more an hour, and the next thing he'll want to know is how many hours.

No sir. Farming ought to be pegged to the cost of living index, all right, but stay away from this hour business. Tie it to the price of bolts and nuts, tires, batteries, tractors, pickups, campers, for-pickups, fishing gear, T.V. picture tubes, oil and grease, doctors' fees, and such things like that.

Yours faithfully,  
J. A.

## Inside WASHINGTON

### MARCH OF EVENTS

REPUBLICANS PONDER JUST HOW MUCH MUD CAMPAIGN COMING UP SHOULD THEY SLING?

By HENRY CATHCART  
Central Press Washington Correspondent

WASHINGTON—President Johnson has now voiced publicly the dire forebodings of Democrats that the 1968 elections will prove pretty tough going if the Vietnam impasse has not been broken. But the concern of Democratic politicians runs far beyond the thesis that the presidential elections will turn on the status of the war there.

Some of them, along with their Republican rivals, theorize that the best chances for a GOP victory would be based on the oft-successful slogan: "Throw the Rascals Out." This strategy would be to impute all kinds of shady motives to a Democratic regime too long in national power.

According to one political observer, Republican candidates for national office, including the head of the ticket, should avoid taking firm stands on such matters as Vietnam policy, social improvement programs and economic principles. Firm stands on these and other national issues would serve only to

weaken political support from segments of the voting population which inevitably would be in disagreement.

Instead, Republican office-seekers would pound away at the implications behind the Bobby Bakers, Tom Dodds, and Adam Clayton Powells, all of whom came to national attention under Democratic rule in Washington. Their theme would be to allude to the invisible part of the iceberg — if a portion is above the water line, and visible, how much more is invisible?

A campaign based on such strategy would be "dirty," but its advocates claim that mud-slinging, by its very nature, attracts more public attention and presumably more votes than a clean campaign fought on the issues of the times.

● IT FIGURES—Some people may have been surprised by a recent study showing American pupils lagged behind their Japanese counterparts and some European students in mathematical ability, but not the Internal Revenue Service.

IRS says that 3.5 million out of 68.6 million returns filed last year contained simple errors in addition, subtraction and multiplication. Worst yet, 41 per cent of the errors resulted in taxpayers unwittingly cheating themselves. The total came to \$82 million. And, yes, it was refunded.

● OPEN LINE—President Johnson is widely known as a man who accomplishes a lot on the telephone. He is perhaps the most frequent user of the telephone of any president.

Government officials and legislators are used to receiving calls from the White House at any time of day or night, and long ago many of them got over that feeling of surprised disbelief when the phone rings and they are told that the President wants to talk to them.

But phoning the White House on occasions when high officials want to talk to the President is another matter. To most government officials he is a hard man. Phone LBJ to reach.

Word is getting around Washington that officials who want to talk to the President personally. Lenely Hours stand the best chance from 6:30 to 7:30 a.m. and between 6:30 and 9 p.m. These are the times of day when the President is least involved in White House official business and, according to reports, "That's when the man really gets lonely."

### ... from the Brand's files

#### 50 YEARS AGO

As advertised, the City Commission held the "Hearing" to consider the paving question on Monday, June 4, at which time a few citizens and property owners filed their objections, claiming that the proposed assessments were greater than the increased value to the property by reason of such improvements. The Commission heard all objects and the matter was most thoroughly discussed. No definite action was taken at that sitting, but the Commissioners took the matters under advisement.

A result of a call issued by those interested, some forty young men and a few older ones met at the courthouse Monday night and began military training, beginning with the rudiments of the subject. Three squads were put through the simplest setting up exercises. The basement was used for drilling purposes. T. E. Huffman, O. M. Shore, Fred Oberthier acted as drill masters. Not only were there in the squads a number of men in the selective draft age but several "overs" and a few under age boys.

Another example of the loyalty of the Hereford boys is found in the subscription of Tom Carroll, 14-year-old son of Jim Carroll. He has held down the shine chair in Long's barber shop for nearly a year and has saved up his dimes until he enjoys a neat bank account. When, the other day, the Liberty Bond question was being discussed in the shop by older heads, he settled the question and put to shame some well-to-do men by walking into the First National and signing an application for one fifty-dollar bond. He did not borrow the money from his Daddy or from the bank, that's not Tom's style, he gave his own good check for the total amount and he proudly awaits the coming of that bit of government printed paper which will make him a real "bond holder." Tom has been faithful at his job in the shop. Besides holding the job to the satisfaction of his many friends, he has gone to school regularly, never missing except when the measles got him, working at the chair before and after school during the school session and in vacation is ever on the job.

#### 25 YEARS AGO

A telegram received this morning by the county salvage committee requested that citizens prepare now for the fullest cooperation with the drive to collect rubber scrap, complete plans for which will be announced in a press release from Governor Coke Stevenson.

Directors hope that the collection will be big enough to make nation-wide gasoline rationing unnecessary and point out that a good collection of all available rubber scrap is looked to now as the only possible means of averting nation-wide gas rationing to conserve tires now in service.

A promise of help in the wheat storage situation was contained in a telegram received this week by the local AAA office from B. F. Vance, state administrative officer of the government farm program. Vance's telegram follows:

"Commodity Credit Corporation will purchase for resale to farmers two thousand 1592 bushel capacity and five hundred 1843 bushel capacity, pre-fabricated wheat bins at \$225 and \$270 respectively, delivered by rail, prepaid, to county points in car-load lots of five bins each. Suggest you contact producers to determine the number of bins required. Wire order daily giving number and size of bin and shipping points."

The county AA office announces that 84 bins have been ordered and suggests that farmers who want such bins get in touch with local office immediately.

Senator Tower Speaks

# Government Has Duty To Youth

I have just finished a week filled with commencement speeches to several colleges and high schools in our state. It's a time of year I particularly look forward to, because, as a former teacher myself, I always enjoy being with our students' again.

They never fail to challenge me with their enthusiasm, knowledge, determination and confident quest for the future.

Earlier this spring, I was asked to gather my thoughts and to talk with some Louisiana college students about America's future. Here's some of what I said to those students:

Just as today's politics combines all national technology and all social aspirations, so will tomorrow's politics have to perform the function of collating and coordinating every facet of human behavior and human capability for the greatest good of the greatest number. It is the function of governments, set by men over themselves, to temper technology with reason, to infuse machines with morality, and to safeguard subjectivity from science.

"I doubt that we can expect our future world to be free of tyrants, or of evil, or of the covetous and the selfish. So, let us not expect perfection, though we continue to reach for it. Let us, rather, anticipate challenge and

pursue progress.

"You must remember, most importantly, that the future must not shape you; but you must shape the future.

"For nearly two centuries Americans have made government 'of the people, by the people and for the people' work. With the consent of the governed, we have established a republic encompassing both inflexible liberties and flexible realities.

"We must expect that a Republic which has survived thus far can certainly survive for much, much longer. Over the next century your American government, with your participation and guidance, is going to create a climate for the most secure, most healthy and most prosperous domestic existence ever known to man.

"We are going to meet and deal with such things as tripled population, 100-year life spans, exotic drugs, uninjuring weapons, ocean farming, fusion power, robots, artificial life, weather control, genetic control, space exploitation, instant communication, urbanization and the right of privacy.

"We are in the midst of a transition into a new era of emphasis on individual liberties, individual responsibilities, and individual protections against all-powerful, national government.

"We are proceeding into a new era in which every American will have constitutionally equal opportunities, in which increased urbanization will be reflected in equitable urban political power, and in which state governments will be revitalized so that they may help preserve the democratic diversity upon which American strength rests.

"In the international political arena we must decide whether tomorrow's world will be the monolith of communism or the diversity of self-determination.

## Main Street

Continued From Page 4

Commissions which studied government reorganization and the more recent National Commission on Food Marketing, there would be no requirement that the Senate and House be represented on the group of 20.

**Youth Won't Stay Home**

The House Small Business subcommittee has developed a number of case histories with a common theme — the young people will not remain in a community which does not offer prospects of suitable jobs. Outmigration is mostly a matter of economics. Lack of local opportunity drives people to the cities where the jobs are concentrated.

The House hearings have already produced some distress cases as well as some success stories. Some communities have been able to pull themselves up by their bootstraps often with substantial Federal help. Local leadership is usually the key to the success stories, even though U. S. dollars are obtained.

Secretary of Agriculture Orville L. Freeman, a witness at the House hearings, suggested a tax incentive plan to encourage business to locate plants in rural areas. This would aid not only new plants but existing businesses seeking to expand and provide additional jobs.

Chairman Joe L. Evins (D., Tenn.) liked that proposal and more may be heard of it in the future.

Redevelopment of rural and small town America is still largely in the talking stage in Washington but there is evidence that some action may follow.

## SOUTH PLAINS

### Tex-Ann Drill Team Try-Outs Set Sept. 13

LEVELLAND — Try-outs of freshmen girls for the South Plains College Tex-Ann Drill Team will be held Sept. 13, 14, 15 and 18. Resident halls will be open for the girls early on Sept. 13.

Directors have announced that it is advantageous to begin with the first session on the 13th; however, if one cannot come at that time, she may try out as late as Sept. 18. Chances are better on being accepted for those attending on the 13th, depending on the number trying out.

Shorts, blouses, and tennis shoes are worn for try-outs and a pair of heels should be available for a period of walking.

Girls are asked to sign up for regular Physical Education at registration and if they make the Tex-Ann Drill Team, they may sign up for the team at that time.

"I believe our future contains for us neither war nor communism. I believe this first because there is solid evidence this is the way things are going, and second because if we allow ourselves to reap either nuclear war or communism the future of the world will not count for much anyhow.

"I believe we can safely project this peaceful future because today's United States has it within her power to achieve this future for the world. And, today's United States is strong enough, wise enough and determined enough to do just that."

"This concern about and responsibility for the world's peaceful future is precisely why America confronts communist aggression in Vietnam today — and likely will confront it, or some totalitarianism, again.

"The United States is today

and for the future the free world's leader. We did not ask for that job. Sometimes we do not particularly like it. But, we have got it, and it is up to us to make this world secure from aggression so that every nation — large and small — can aspire to self-determination with some reasonable hope to success.

"This is in the world's best interests and in our best interest too.

"I find today's United States firmly dedicated to this hard, peace task. Because of that dedication, and because we have the talent and resources to win our point, I believe today's America can will to tomorrow's world both peace and order."

# Teenagers Slate Eight-Lap Race

The first of many special events will be held at the Hereford Speedway at 2 p. m. today when the teenagers hold their eight-lap race on the track just east of Hereford on U. S. 60.

Other attractions at the Speedway include drawings for a jackpot worth \$20 donated by the Optimist Club and a 1956 Ford donated by J. L. Marcum Used Cars. Chances for the car are 50 cents each and it will be given away just before the main events are run.

Admission to the races is \$1

per person.

Results of last week's races found Bill Byers winning the Trophy Dash, finishing second in the second semi-main event and fifth in the second main event. Harold Sergeant was second in the Trophy Dash and first in the first semi-main event.

Bill Paetzold finished third in the Trophy Dash. Other results included the First Heat — Coy House, first; Bob Bradley, second, and Travis West, third. Second Heat — Jim Dawson, first; Jim Culpepper, second, and Don Loafman, third.

**FIGHTS LIKE TIGER LOURENCO MARQUES** — A fish with the fighting spirit of a tiger will be thoroughly studied by two South-African scientists and by a national tourism congress here, according to the semi-official Lusitania Newsagency.

Prof. Ian Garth and Zacobus Zan de Merwe will travel to the mouth of the Incomati River, south of this Portuguese east African territory, the favorite hideout of the tiger-fish.

The South African team will try to find out the reasons for exceptional combativity of the fish, when caught by hooks.

The tourism congress, the agency added, will study the use of the tiger-fish to attract foreign sportsmen who like to see their lines broken.

Bill Creeden, Penn's junior quarterback, set an Ivy League record by completing 89 passes for 1,518 yards last season.

## 'Trails' Off The Beaten Track May Help Tourism

AUSTIN — A scenic network of travel trails, winding through historical and recreational Texas, is being mapped by the surveyors who know the territory best — the state's citizens and community officials.

Letters have been mailed to the state's 254 county judges by the newly-appointed Texas Travel Trails Committee, requesting information on sites in their areas which might be included on the trails. Copies of the letter were also sent to chairmen of the state's county historical survey committees and presidents of chambers of commerce.

Specifically the committee is seeking information on:  
 — Sites of unusual scenic, geologic or geographic interest.  
 — Outstanding historic and archaeological sites.  
 — Recreational Sites.  
 — Cultural Attractions  
 County Judges will have until June 30 to meet with city leaders and submit reasons why their areas should be included in the program.

The Texas Travel Trails Committee will study these proposals, determine which sites will be promoted and announce the precise roadways chosen for the trails by Oct. 1.

The major cost of establishing and publicizing the Travel Trails will be borne by the state. Each community and county, participating in the program, will bear the responsibility of purchasing uniform signs to designate the tour routes.

Plans for the Texas Travel Trails, aimed at increasing the state's billion-dollar tourist industry, were unveiled by Gov. John Connally at a state-wide meeting in Austin on May 3.

The byways, designed to lure travelers "off the beaten path," will be routed over existing highways.

Last year 19.2 million out-of-state visitors came to Texas; but their average stay declined from 6.1 days in 1965 to 5.8 days.

Governor Connally expressed hope that the Travel Trails program will induce tourists to re-

main in the state longer by opening up tours through the countryside and smaller communities which have been bypassed by super highways.

The governor said, "Our purpose is to encourage sight-seers off the high-speed highways and onto the byways where they may take their time savoring the wealth of attractions Texas has to offer."

The Texas Travel Trails Committee is composed of Tom Taylor, director of the Travel and Information Division of the Texas Highway Department; Truett

Latimer, executive director of the Texas Historical Survey Committee; Dorman H. Winfrey, director and librarian of the Texas State Library; William M. Gosdin, director of park services for the Texas Parks and Wildlife Department; and Frank Hildebrand, chairman, executive director of the Texas Tourist Development Agency.

Tom Miller, 190-pound half-back from West Allis, Wis., led Dartmouth's freshman football team in scoring with four touchdowns in five games last fall. John Wimsall, a 6-foot-3 end from Chevy Chase, Md., led Dartmouth's freshman team in pass, catching last fall with 12 receptions.

**By MARTIN WINCH VOLUNTEERS**

Residents of this area have consistently done voluntary service for families living in the labor camps on the southwest edge of Hereford. Time, skills, concern, and goods have all been volunteered.

For the most part, these forms of community service have been performed under the auspices of local churches. Since 1950, Catholic and Protestant congregations have maintained volunteer programs serving the Hereford Labor Camp. These volunteer services have been extended to families in the Griffin and Brand barracks since they were relocated west of the Tierra Blanca in 1956. The increasingly interdenominational character of the service was shown to be an active concern of the whole community.

The effectiveness of the Hereford Migrant Ministry effort depends upon a high degree of volunteer participation by local residents. This has been the case ever since the Migrant Ministry's forerunner, the Hereford Latin American Day Center, was organized in 1950. Before the Casa de Amigos was built, volunteers reconducted and maintained two temporary facilities for the Camp. Volunteer labor constructed the Casa, and has since helped to improve the building and grounds. Volunteers readied two barracks apartments for the first VISTA workers in 1964.

Every summer since before 1950, volunteers have conducted an inter-faith Bible school at the Labor Camp. With volunteer help, a used clothing sale has been held weekly since 1950. Annually there has been supervised recreation, including organized baseball and basketball teams. Evenings of games at the Casa have been conducted by local residents, and by Baptist students from West Texas State University. Educational films, dances, cultural festivals and group singing round out a list of recreational activities for which local volunteers have been responsible.

Programs under the Casa de Amigos have usually been conducted by volunteers interested in developing opportunities for self-help. Initially, at least, this self-help approach to families on such a low income and educational level is a difficult one for the volunteers and for the Spanish-speaking families alike. To encourage and then to teach a housewife to make clothing for her family requires at the very least regular personal contact over a period of time. For all concerned, the rewards are commensurate with the effort. At the Casa de Amigos, volunteers have offered self-help instruction in such varied areas as cooking, money management, hygiene, grooming, woodwork, barbering, first aid, and driver education.

During the past winter, volunteers have helped with sewing classes and with preparation for the weekly used clothing sale. During the past two months, local residents constructed an addition to the Casa, helped to create an enclosed playyard

and made other improvements. Young people have taken on a tutoring program and Conducted a Campfire group.

Community support of community projects takes many forms. Different persons favor or feel suited to different types of activities. Some persons have time to volunteer. Some hire and train unskilled workers, completing employment with patient guidance. Still other persons volunteer goods, assist in financing service work, and offer their understanding and general support. Each of these volunteer services indicates active participation in the community. Beyond manifesting a Christian commitment to brotherhood, volunteered time and skills are helping to open his community to the constructive participation of all its people.

The five workers resident at the Labor Camp under the Casa de Amigos can maintain friendly contact with many Spanish-speaking and Anglo families, gain an understanding of problems and possible solutions, and perform certain social services. They can organize and coordinate activities; but local volunteers are essential to implement programs and to give them continuity. Thus, resident workers increase rather than supplant the need for volunteer service in this community.

**Real Estate Men Attend Dallas Meet June 8-11**

DALLAS — Realtors from all over Texas will go to Dallas in great numbers for the 46th Annual Texas Real Estate Convention June 8-11.

A light hearted theme will be followed this year. The general sessions will open with the Six Flags, and end with a Las Vegas night in Dallas' famed Statler Hilton Ballrooms.

But under the banner 'Realtor Opportunities Unlimited' day long sessions on such topics will be presented as "The Empire Central Building — The Story of a Suburban Hi-Rise from Dream to Dedication." Much emphasis will be placed on the Realtor's multiple role from selling homes to syndication ownership of skyscrapers and industrial plants.

P. C. Naylor, Jr. of San Antonio is state president. The president of the local Board of Realtors is Ralph Owens.

**ALBEE AS ADAPTER**  
NEW YORK — The next probably Broadway exhibit of author Edward Albee will be an adaptation of "Everything in the Garden," a British satire.

Albee's assignment is Americanization of the locale and dialogue. The comedy is about a suburban couple who live beyond their means.

Three of Albee's short plays which won him first attention are to be part of another White Way project next fall. They are "The American Dream," "The Zoo Story" and "The Death of Bessie Smith."

REGISTRATION was the first item on the agenda as the Mid-Plains Pioneer Day celebration got underway Tuesday in Hereford. Over 500 pioneers and visitors attended the day's activities. (Hereford Brand Photo)

**In Tri-State Area Water Inc. Seeks New Members**

"Our first big job is to sign up members and distribute information concerning the importation of water to the Tri-State area," John Kendrick of Brownfield, newly elected president of Water Inc., said.

Speaking at an after-dinner meeting of directors following formation of Water Inc., Kendrick said, "We must get about the organization's business promptly. We must make it understood that those who most need guaranteed irrigation water will have to depend upon themselves to get the job done."

Water Inc. is an association of West Texas, New Mexico and Oklahoma agricultural and business leaders who have banded together to see that the Tri-State area is represented in state water importation plans.

Offices of the firm will be established in Lubbock shortly, and Kendrick said anyone interested in joining the association may write to Box 217, Lubbock, 79408, for information.

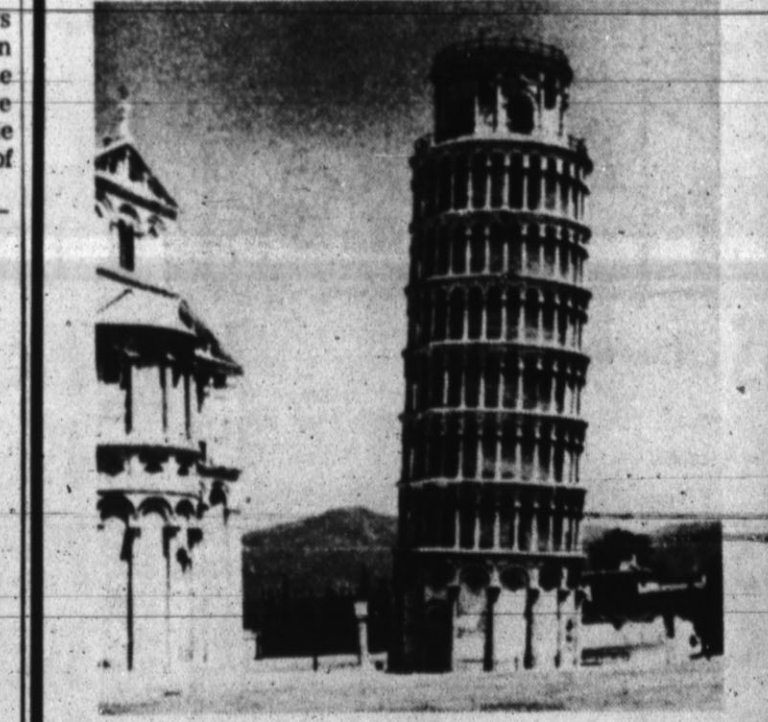

In addition to Kendrick, officers are K. B. (Tex) Watson, Amarillo, vice-president; Gaston Wells, Dumas, second vice president; J. M. Collins, Plainview, secretary, and Jim Ed Waller, Lubbock, treasurer.

District directors are Gaston Wells, Dallam, Hartley Sherman and Moore Counties; N. F. Renner, Spearman, Hansford and Hutchinson Counties; R. D. Lemon, Perryton, Ochiltree, Lipscomb and Hemphill Counties; Fred S. Vanderburg, Pampa, Carson, Gray, Wheeler, Collingsworth, Roberts and Donley Counties; Jerome W. Johnson, Amarillo, Armstrong, Randall and Potter Counties; R. C. Godwin, Hereford, Oldham and Deaf Smith Counties; A. L. Black, Friona, Parmer and Bailey Counties; Ray Joe Riley, Dimmitt, Castro and Laub Counties; Homer Garrison, Plainview John Kendrick, Brownfield, Yoakum and Terry Counties; Chester Mitchell, Lockney, Briscoe and Floyd Counties; Russell Bean, Lubbock; Lubbock and Crosby Counties; Gene Benham, Morton, Cochran and Hockley Counties; Wilmer Smith, Wilson, Lynn and Garza Counties; Donnell Echols, Lamesa, Gaines and Dawson Counties; A. T. Ford, Portales, N. M., Roosevelt, Lea, Eddy and Chaves Counties; Hoyt Patterson, Clovis, N. M., Curry, DeBaca, Quay Harding and Union Counties; Billy-Ray Gowdy, Boise City, Okla., Panhandle of Oklahoma.

Directors at large are A. C. Verner, Lubbock; J. W. Buchanan, Dumas; K. B. Watson, Amarillo; Bruce Spencer, Lubbock; Jim Nation, Pampa; George W. McCleskey, Lubbock; J. M. Collins, Plainview; Jim Ed Waller, Lubbock; D. G. (Bill) Nelson, Amarillo, and J. D. Smith, Littlefield.

Advisory Directors are Don Johnson, Lubbock; Michael Garrett, Clovis; Marvin Nichols Ft. Worth; Melvin Semrad, Amarillo; Berwin Tilson, Plainview and Marvin Shurbet, Pecosburg.

**What will happen if you take the low bid on your air conditioning equipment?**

You may get a sinking feeling later. Carrier equipment and our service put you on solid ground, however. We never cut quality to cut price. Call us and find out why more people put their confidence in Carrier than in any other make.

1223 LONGWORTH OFFICE BUILDING, WASHINGTON, D. C. • 205-3776

Differences in the Selective Service Act of 1967 as passed by both the House and Senate will be ironed out by a conference committee this week.

The bill passed by the House extends the present Draft Act and related laws for four years and updates and improves the present Selective Service System in a number of ways:

1. A National Manpower Resources Board is established which, in conjunction with the National Security Council, will identify those professional, scientific and critical skill areas...

2. Before any change in the existing method of determining the relative order of induction for registrants within the various age groups may be effected, the President is required to advise Congress that such change is in the national interest.

3. A method of maintaining the authorized strengths of the Reserve and the National Guard is provided.

4. Uniform criteria for future undergraduate college student deferments are established.

5. The President is required to establish, whenever practicable, national criteria for the classification of persons subject to induction. Such criteria shall be administered uniformly by all local boards.

6. Those opposed to participation in war in any form by reason of religious training and belief shall be exempt from service in the Armed Forces.

7. Individuals are prohibited from serving on local or appeal boards after they have completed 25 years of service or attained age 75. Also, women may be appointed to serve on such boards.

The order of call for eligible registrants will be revised so that those in the younger age group would be called to active duty first.

In the past, diverse classification actions by local boards have created certain inequities. The changes in the law embodied in the proposed bill should materially reduce, if not eliminate, this problem.

Although there is an acknowledged need for certain improvements, I believe that the Selective Service System has, for the most part, operated successfully over the last 26 years.

The proposed National Manpower Resources Board, in conjunction with the National Security Council, will identify those occupations, professions and areas of postgraduate study that are critically required in the national interest and that warrant a deferred status.

Under this procedure, the number of deferments presently granted to students engaged in graduate study would be sharply reduced.

The board also would identify skilled trade areas critical to the national interest which require continuation of apprenticeship programs.

Trainees in such programs would be provided a deferred status similar to that provided college undergraduate students.

Richardson is a part-time Yankee scout and assists in coaching young Yankee second basemen during spring training.

VERY WELL, THE DIAMOND WILL BE DELIVERED WHEN YOUR COMPANY'S CHECK FOR \$100,000 IS CONFIRMED TO BE GOOD —

YOU SHOULD HAVE AN OKAY ON IT BY NEXT WEEK —

NOW I MUST RE-HIDE THE DIAMOND — PLEASE STAY IN THE OFFICE FOR ONE HOUR!

I'LL SEE TO THAT, DOCTOR!

THE DEAL DOCTOR PAUL MADE WORRIES ME, SPUD —

WHY? HE DOESN'T SURRENDER THE BIG "PLUM" UNTIL FEDDER'S CHECK IS PROVED GOOD —

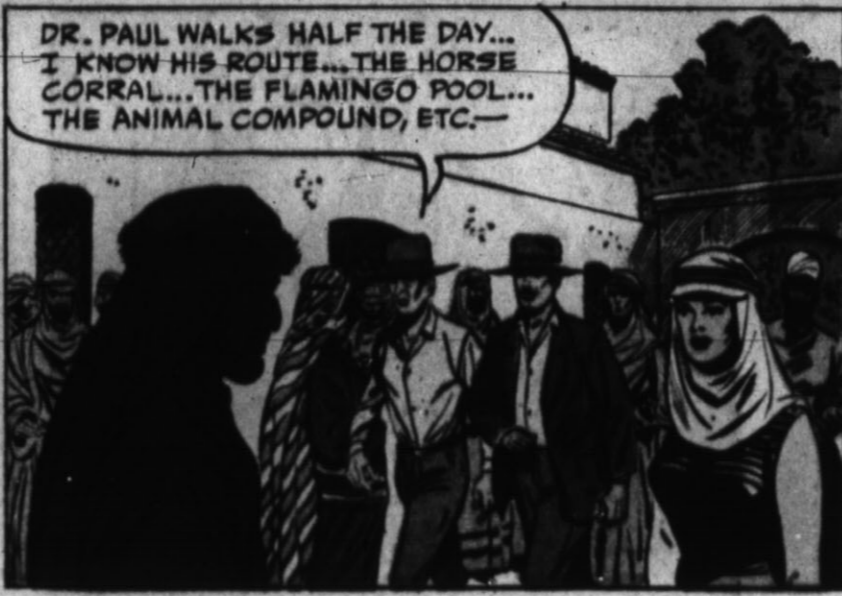

TRUB — BUT I WORRY ABOUT WHAT CAN HAPPEN BEFORE WE GET WORD ON THAT CHECK!

CLAWSON, IF WE HAVEN'T LOCATED THE DIAMOND IN FOUR DAYS, WE SKIP —

IT'S HIDDEN IN THE VILLAGE — I'M POSITIVE!

DR. PAUL WALKS HALF THE DAY... I KNOW HIS ROUTE... THE HORSE CORRAL... THE FLAMINGO POOL... THE ANIMAL COMPOUND, ETC. —

HE VISITS ALL THOSE PLACES JUST TO CONFUSE ANYONE WHO MIGHT BE WATCHING —

BUT ONE PLACE IS THE PLACE! HE CAN'T RESIST CHECKING TO MAKE CERTAIN HIS "PLUM" IS STILL SAFE!
