

Soliz Tried Wednesday For Lopez Murder

Defendant Enters Plea Of Not Guilty

A 69th District Court jury composed of six men and six women found Demetrio Soliz, 32, of 215 Hereford-Calle, not guilty of murder with malice aforethought Wednesday night.

The verdict was returned at 8:20 p. m., about 20 minutes after deliberation began.

Soliz pleaded not guilty Wednesday morning to the charge of murder with malice aforethought in the Jan. 9 shooting death of Henry Lopez. His attorney, Andrew Shuval, entered the plea, stating that Soliz was "not guilty by reason of justification."

Lopez's body was found by Hereford policemen in the front yard of Soliz's home. He had been shot once with a 1917 Winchester, also known as a 30.06.

Soliz was taken into custody at the scene and later released on \$2,500 bond.

During his testimony, Soliz described previous incidents in which Lopez had threatened to kill him. He said about December 1 that Lopez had decided to quit working for him (Soliz) and demanded his pay right then.

When Soliz told him he didn't have it and would have to wait until the next morning, Lopez allegedly told him that "if you don't give me the money now, I will have to shoot you. I have killed before and have nothing to lose by shooting you."

Another incident came in mid-December when Lopez demanded \$40 for the rent on an apartment in which Soliz was living. Lopez, said Soliz, again threatened to kill him.

Soliz said he got the money from Joe Soliz and paid Lopez, who stated "I still am going to shoot you someday."

On the evening of Jan. 8, Soliz testified, he was working at a private club in the Buena Vista addition when he saw Lopez doing something to the gasoline tank of his car. Lopez ran when he went to see what was going on and that sugar and salt were found by the car.

The incident was reported to police, but Soliz refused to sign a complaint because "I was afraid he would do something."

Continuing his testimony, Soliz said he was home about 1:30 a. m. drinking coffee when he heard a car "honking too many times." Looking out, he saw Lopez. He testified that he then got the gun from the closet and put shells in it.

"Why did you get the gun?" asked Shuval.

"To protect myself. I was afraid he would do something to me or my family," replied Soliz.

The defendant then testified that he went out with the gun and asked Lopez why he had put sugar in his car. "I couldn't understand what he said. He jumped out and came toward me. He reached for something at his belly so I shot to scare

See SOLIZ Page 4

Swift Feed Plant To Open In July

Product Expansion Being Anticipated

Swift & Co., whose newest feed processing plant is nearing completion in Southeast Hereford, is today opening up new lines for the Hereford facility. Originally planned for production of mineral and protein blocks and granular minerals only, the feed mill will now manufacture a complete line of cattle feeds under the nationally recognized Swift brand name.

Through this expansion project, the Hereford office of Swift & Co. will become the first in its company to specialize in cattle feeds, according to manager Jim Padgett, recently arrived in Hereford.

Some 30 to 40 different products will be manufactured now that the new cattle feed categories have been added. The output of Swift & Co. can be broken down into five general categories, protein supplemental blocks, mineral blocks, granular minerals, range cubes and protein supplements.

The only structural change the added products require is the addition of more bulk stor-

age tanks at the plant, located on Progressive Road south of U. S. Hwy. 60. A hammer mill was also installed. Padgett anticipates having the business open about the middle of July if construction is able to stay on its present time table.

When Swift & Co. completes the outlet here, this will be the company's 11th feed milling plant. It is associated, however, with food products, meatpacking and cattle feeding, with processing plants scattered nationwide and in several foreign countries. Swift & Co. is headquartered in Chicago. Local estimates place the initial investment of Swift & Co. here at over \$300,000.

Tapping a natural resource of economic growth in the Southwest, Swift & Co. is also operating in Clovis (meat packing) and at Guymon, Okla., where it has a livestock operation.

The decision to locate a feed mill in Hereford was the result of consulting the best location of raw materials for the manufacture of feed; the principal materials will be cottonseed meal and milo, both readily available in this area.

Padgett predicts purchasing most of the milo needed for Swift & Co. within a short distance of Hereford; cottonseed meal will probably be purchased at various mills scattered over the plains area.

Swift & Co. will serve a broad territory from the Hereford center. Its jurisdiction is intended to include all of New Mexico, and parts of Colorado and Oklahoma as well as all of the Panhandle-Plains of Texas. Three salesmen, one in Amarillo, one in Roswell, N. M., and another in northern New Mexico, will work throughout the territory.

Bob Hill, nutritionist, will be transferred here from the research and development branch of the company; he has been in Chicago. Also in the Hereford office, along with Manager Padgett, will be Gary Ladner, superintendent. District manager for the nationwide concern is H. H. Wedeman, who oversees all Texas feed mill operations.

Company officials declined to predict the output of the manufacturing process here. Manager Padgett said Swift & Co. simply plans to grow here "as business grows." No estimate was available on how much the plant would produce.

The feed processing facility here will be noted for its block production, normally omitted in the typical feed mill due to heavy capital outlay necessary for proper equipment.

Heaviest work season for the feed mill will be mid-September through mid-February, when cattle feeders will need to supplement pasture food supplies. Padgett estimates that Swift will employ 18 to 20 hourly paid production employees here during this peak season.

ALL SMILES — Pretty Kerri Dameron, 15-year-old daughter of Mr. and Mrs. Bill Dameron, 808 Ave. K, tosses a big smile such as the one which many area farmers have had lately since they discovered that not all the wheat crop was damaged by the late freeze which struck this county. The field where Kerri posed is one of the lucky ones

which survived the freeze and it will probably yield some 50-55 bushels per acre. The wheat belongs to H.L. Ward and oddly enough, the color of it is identically the same as Kerri's long hair. For related story on wheat harvesting, see ABI page inside this issue. (Hereford Brand Photo by Joe Bran)

Plant Manager Moves To City

J.H. (Jim) Padgett Jr. comes to Hereford as manager of Swift Co. with a long record of 21 years in the company. He is being transferred from Waco, and will bring his family here this weekend.

Padgett and his wife, Katherine have three children; one son, 22, is married, lives in Los Angeles and has a daughter; the Padgetts' daughter, also married, lives in Dallas; and 18-year-old J.H. "Bo" III, Bo, who is spending his summer with his brother and family in Los Angeles. He attends Paris Junior College on a baseball scholarship.

The Padgetts are members of the Methodist church, and Jim has been a part of the Kiwanis club.

Mrs. Padgett, besides her professional activities in accounting, takes an active interest in choral groups.

Jim Padgett

AFS Students To Be Hosted

Entertainment of 38 students from foreign countries, who will visit Hereford the weekend of July 1 on one of the touring buses of the American Field Service program, was planned at a meeting Monday evening in Hereford High School Cafeteria.

The students, who have been attending various high schools in the United States under the AFS program, will be guests in Hereford homes over the weekend. The bus is scheduled to arrive at the cafeteria at 5 p. m. July 1.

Visitors will spend Saturday night and Sunday morning with their host families, then will go together to Palo Duro Canyon that afternoon for a tour of the state park, a picnic supper and attendance at the musical production, Texas, in the evening.

Departure time for the bus is 8 a. m. Monday. Ray Moore is serving as chairman of arrangements for entertaining the visitors.

Hereford High School's AFS student the past term, Thomas Graf, is to leave here June 27 and leave Amarillo two days later, on another of the bus tours which will take him to other parts of the U. S. before he flies.

See STUDENTS Page 4

Set Bell Ringing

Hereford will again join the country in a special bell ringing ceremony as part of a national revival for patriotic observance of Independence Day.

A special committee has made plans to participate again in the national celebration with speakers, singers and a host of other persons who will be involved in the 30-minute event.

The bell ringing ceremonies will again be held on the south portico of the county courthouse at 11:30 a. m. Tuesday, July 4.

Among the distinguished guests will be the Honorable H. C. Williams, Judge of Deaf Smith County, Mayor of Hereford, Ray Cowser and as mas-

Wheat Program Fills Banks As Well As Bins

Despite the fact that area farmers have had their share of bad luck this spring, bank accounts will see some relief after July 1 as government checks to farmers are paid.

Faust Collier, office manager of the Agriculture Stabilization and Conservation Service in Hereford, anticipates that checks will be paid to farmers on the straight wheat program soon after July 1. Farmers whose programs included mixtures with feed grains will be paid later, but all payments will have been made by Sept. 1.

A check with local grain elevators Wednesday showed that the wheat harvest should reach its peak sometime within the next week, with most of the crop in from the fields by the first of July.

Quality of the crop has been fairly good, and has improved considerably as later wheat was being cut. The late spring freezes had done considerable damage to early varieties, some of

See WHEAT, Page 2

Accident Compounded By Ennui Of Public

An exciting afternoon of boating and water-skiing ended abruptly Sunday at Buffalo Lake for David Ruland, 17 year-old Hereford boy, his brother, Roger, Floyd Coker and Coker's son Lonnie.

David, son of Mr. and Mrs. Delbert Ruland, 223 Ave. B, was involved in an accident shortly after 5:00 p. m. in the lake as he fell from the boat in which he was riding and his feet were cut by the blades of the whirling propeller.

His brother Roger had been skiing behind the fast moving boat when he, (Roger) fell. The boat driver, Floyd Coker slowed down to make a turn so as to pick Roger up when David slid off the top of the boat. He tried to swim away from the boat as soon as he fell in but the propeller caught him before he could get away.

"The propeller really didn't hurt as much as you would imagine," stated David. "It sort of stunned me most of all."

His feet were cut in several places, the left foot being cut more severely. A cut ran across the left heel and it exposed part of the bone. The doctor attending David at the local hospital told him that apparently, the propeller blade had glanced off the bone when it struck it.

Several stitches were required to close the wounds.

Besides experiencing the injuries, several hardships impeded

his progress to the hospital. When he was brought to shore injured, the car they had driven, was driven too close to the water and got stuck in the sand. Help was asked from a neighboring party and it was refused.

That particular party was finally asked if they would go summon the Rescue Patrol of the lake but the party left, not summoning anyone.

J. A. "Babe" Nicholson, an Amarillo resident, stopped and rendered aid to the troubled party. He, along with his wife and 4 grandchildren, drove David toward Hereford, having difficulty with the heavy traffic which was leaving the lake at that time. They stopped by a store close to Umbarger and asked if someone would call the hospital and summon the doctor. That way, he (the doctor) could be waiting for David.

They continued toward Hereford and while traveling at some high speed, a tire blew out. Several motorists were waved to stop and none would. Finally, a small foreign car with several people stopped and asked what was wrong.

The small party was dispatched to a nearby farmhouse to call the ambulance but the ambulance, if called, never showed up.

Another passing motorist, See ACCIDENT Page 2

City Commission Admits House Trailer Addition

Hereford City Commissioners approved a petition Monday night for annexation and zoning of a portion of the Stark Addition in the north part of the city.

Lots 1-24 of the Stark Addition will enter the city as a "C-Multi Family" zone. The property is between Avenues F and H north of 15th Street. N. D. Bartlett presented the petition, which had been turned down earlier by the city's Zoning Board.

In making the motion to approve the petition, Commissioner Dick Barnard said "changes have been made since they (the board) saw it." The property will be used for trailer house space.

Ed Warren and Ernest Ken-

dall were returned as members of the Tax Equalization Board by commissioners, who appointed Doyle Rush to fill the spot previously held by Oliver Streu. Members of the board serve one year terms.

Commissioners voted unanimously not to meet July 3 because of the nearness to Independence Day, so the next regular meeting will be July 17.

A resolution authorizing Mayor Ray Cowser to take \$50,000 from the budget for the city's general operating expenses also was passed.

Morris Hacker appeared at the meeting to ask commissioners to pass a resolution approving his rebuilding a custom meat processing plant on a 2 1/2 acre plot of land just outside the

city limits in south Hereford. The Hacker and Jesko Meat plant burned in May, 1966.

Hacker was accompanied to the meeting by an Amarillo attorney, Charles Neill, who made the appeal to commissioners.

In answer to questions by commissioners, Hacker said he would handle about 100 head of cattle a month. The state health department already has a sanitation and pollution permit in their files for him, Hacker said and he added that he would be serving the schools and cafes in Hereford.

Commissioners advised Hacker to submit a plat of his proposed building and get copies of the permits from the health department. Action was delayed until the plat is submitted.

Juveniles Are Charged With Burglary Series

A hearing for four Latin American teenage boys, charged with theft of four cars and four burglaries, will continue at 9 a. m. today in Deaf Smith County Court.

Scheduled to go before Judge H. C. Williams are Jake Yanez Lopez, 14, of 401 Bradley; Joe Frank Martinez Garcia, 15, of Route 3; Juan Jimenez, 15, of 319 Adelito Calle, and Richard Marry, 14, of 400 Avenue E.

The four appeared in court Tuesday morning to face the charges. At that time, Judge Williams appointed attorneys for the four to assure them of a "fair trial," and then ordered the four back to jail until the trial.

Lopez and Garcia will be represented by Hazen Woods and Marry and Jimenez will have Jim Krueger as their court-appointed attorney.

Marry and Jimenez were arrested by Hereford police Saturday night at the Hereford skating rink in a car allegedly stolen from the Labor Camp. Garcia and Lopez were arrested in connection with the burglary.

See JUVENILES Page 2

Dale Young Is Concert Head

Organization of Hereford Community Concert Association was completed, officers elected and tentative plans made for a membership campaign in early September, at a meeting of interested residents at a luncheon in Hereford Country Club Tuesday.

A minimum of three concerts, by musicians selected locally from a list of nationally-known artists, will be presented each year. A "hold" order was placed for two attractions for the first season's program, assuring the appearance of Peter Nero and the Texas Boys Choir with at least one other concert in the 1967-68 year.

Dale Young was elected president, Milton C. Adams vice president, Mrs. Joe Reinauer secretary and Mrs. Earnest Langley treasurer, after the approximately 40 persons present voted unanimously to form the association.

Directors elected are Ben Gollehon, Bob Wert, Mrs. Dick Godwin, Charles Bell, Lynn McLarty, Mrs. Bill Dameron, Mrs. D. W. Palmer and Bill Devers.

Forming the executive board, the officers and directors met briefly after the luncheon and named chairmen of two committees. Bill Thompson will be membership chairman, Mrs. Jimmie Gillentine and Mrs. Clint Formy co-chairmen of publicity.

A membership fee of \$10 yearly was agreed upon. This will entitle the member to at least three concerts; the minimum of three is fixed by contract of the Association with Community Concerts, the national organization through which programs are booked. If the local budget permits, additional concerts may be booked.

The budget is determined by

the number of memberships sold. In Hereford the number is limited to approximately 1,000 by the seating capacity of the high school auditorium, where concerts will be held.

In a Community Concert Association, memberships are sold only once a year, during campaign week. Attendance at concerts is by membership card only.

These provisions, and other features of Community Concerts, were explained at the luncheon by Mrs. Lyndall Stevens of Hattiesburg, Miss., representatives of Community Concerts, Inc.

Bill Thompson, manager of Deaf Smith Chamber of Commerce presided until the permanent president was elected. He explained that the Community Concert Association has no connection with the Chamber of Commerce, although the Chamber's Fine Arts Committee was instrumental in calling meetings of interested residents to form the organization, and in inviting the national group to send a representative here.

YEP, It Works

Texas Employment Commission reports that it has filled over 12 new jobs with local youths who are seeking summer employment. The jobs are in addition to those that have already been filled.

Most of the opportunities for teenagers have been in agriculture, according to TEC manager Lester Rape. Several placements have been made on piece work.

The employment commission is still seeking employers of any type to furnish jobs for young people during any part of the summer.

Two-Year-Old Sleeps It Out At City Hall

A Latin American girl, almost three years old, was re-united with her parents at the Hereford Police Department late Saturday afternoon after being separated some 3 1/2 hours.

The small girl, officers said, was reportedly taken to Cooper's Market about 3:30 p. m. by someone who had found her near the Municipal Swimming Pool on Park Avenue.

The parents identified their child just after 7 p. m. at police headquarters. They told officers that they had taken their children on an outing to the park and the father and mother had alternated in watching the children, one leaving for a short while and then coming back to relieve the other.

When they got all of the children home, there was one missing. The girl was found clutching her doll at the police station.

NO PROBLEMS HERE — This little tyke, about two years old, had a comfortable sleep on the carpeted floor of the Hereford Police Chief's office Saturday evening after the little girl was seen wandering in the neighborhood of Cooper's Market, 7th & McKinley where an employe gave her a doll. She never shed a tear, just lay down and went to sleep on a comfortable policeman's jacket. (Hereford Brand Photo)

Accident . . .

Continued From Page 1

Mrs. Terry (Azalee) Hodges, stopped to see what was the matter and rushed David here. She met some difficulty in heavy traffic, particularly when she was coming into town as the large crowd which had gathered for the stock car races was just coming out.

When the party finally reached the hospital, the doctor, it was discovered, had never been summoned by anyone.

He arrived later and took care

YOUTH EMPLOYMENT — Dennis Wosnitzky, manager at Continental Grain, explains duties to Charles Schneider, a local youth, as he begins a job at Continental for the summer. of the injuries. "You know, the cuts I got never really did hurt much up until they started cleaning them," David said.

The doctor saw David yesterday to remove his bandages and see if any infection had started. It will be some weeks, however, before David gets back on his feet.

Jim Harter of Lemon Grove, Calif., will captain Army's wrestling team next season.

Wheat . . .

Continued From Page One

which were already in the blooming stages when the mercury dropped below the freezing mark.

Moisture contents have been good, one elevator official reported; there have, however, been some low test weights when the grain hasn't filled out properly.

Collier says that the wheat program has had no major changes from the program a year ago. He predicts that government money will swell bank accounts here by some \$7 million, same as 1966.

A drain on the nation's wheat surplus brought increased allotments in the county this year. Farmers were allowed 223,408 acres, compared with 169,360 acres in 1966. The '66 figure has been the lowest during the 1960s.

Price supports this year will probably run in the neighborhood of \$1.32-\$1.33. This price will be paid on 35 per cent of a farmer's allotted wheat acreage, and will be based on his normal yield. The big cut in wheat income will be the result of marketing losses brought about by late freezes and hail damage, which did extensive damage in various spots through out the county.

Racing Results

Racing Results at Hereford Speedway:

B Trophy Dash: 1. Bill Paetzold, 2. Max Bridges, 3. Don Scott.

A Trophy Dash: 1. David Watson, 2. C. B. Lunsford, 3. Bill Byers.

First Heat: 1. Frank Easton, 2. Bill Byers, 3. Paetzold.

Second Heat: 1. Lunsford, 2. Byers, 3. Jim Dawson.

First Semi-Main: 1. Byers, 2. Easton, 3. Harold Sergeant.

Lions Review A Year Of Work

As Hereford Lions completed their 1966-67 fiscal year, yesterday noon, they heard a report from Boss Lion Bill Gentry and their new Boss Lion, Rocky Lee.

Gentry told the club that the year had been one of the most pleasant years of his life and expressed his thanks to the club and especially to the board of directors for helping to make the year a successful one.

During the luncheon meeting, the club heard a report on expenditures for the fiscal year 1966-67. Projects that the Lions have completed during the past year were reviewed. This money was used in many ways including improving carnival ground equipment and the customary Lions projects of helping the underprivileged.

Carnival booths cost the club \$1145.00 and bleachers in the bull Barn received paint and repairs costing the club \$100.00. Lions contributed \$500 to Deaf Smith County Historical Museum and \$1,000 to Girlstown.

Ladies night and Dawn Lions Charter night chalked up \$110 in expenses and exchange student expenses amounted to \$115. American Field Service exchange student costs amounted to \$750 and Kerry Thompson received \$200 as a tribute to his hand capabilities.

A \$1200 cash outlay by Lions placed the electric scoreboards in the gym at LaPlata Junior High School. Boys Ranch land expansion program received a \$1250.00 shot in the arm from Hereford Lions and the Ranch also receives a \$25 a month stipend from the club.

Girlstown receives \$50 a month from the club and Troop 50 of the Boy Scouts receive \$50 a year and Cub Scouts receive \$50 a year of the Lions money.

United Fund donations this year amounted to \$250.98; an even thousand dollars is spent each year on miscellaneous items that includes costs of eyeglasses to underprivileged youngsters.

District contributions, small gifts to unexpected benevolent causes and general club operation make up the remainder of the \$12,950.98 that the club reported on this year's list of donations and gifts.

June 29 has been slated as ladies night and installation of officers is the occasion. The meeting will be in the high school cafeteria at 8 p. m. New Boss Lion Rocky Lee, Major Schroeter and Phillip Shook will attend the International Convention July 4-8. Their families plan to attend with them.

Coastal Bermuda Course Offered

COLLEGE STATION — New developments in forage crops and the latest Coastal Bermudagrass information will be described at a special shortcourse July 6-7 at the Texas A&M University Memorial Student Center.

The session is the second annual Pasture and Forage Crops Texas Agricultural Extension Service.

A. C. Novosad, extension pasture specialist, and J. N. Pratt, Extension agronomist, said the shortcourse is designed to "attract progressive farmers and cattlemen, professional agricultural workers, and others interested in forage production. Its purpose is to acquaint those who attend with current information and findings in the area of improved pasture production and utilization."

Topics and speakers during production and use of Kleingrass B. E. Conrad of the Coastal Bend Experiment Station, Beeville; adaptation and potential of a new hardinggrass, M. J. Norris of the Livestock and Forage Research Center, McGregor; and adaptation and use of winter Ryegrass, Dr. R. H. Brown, associate professor from the Beaumont Rice-Pasture Research Center.

Others are recent developments in Buffelgrass improvement, Dr. E. C. Bashaw, USDA geneticist at Texas A&M; and preliminary evaluations of new grasses, Dr. E. C. Holt, professor, Soil and Crop Sciences Department at A&M.

Topics and speakers for the second day's program are principles in making good Bermudagrass hay, Phillip Nix, assistant professor in the A&M Soil and Crop Sciences Department; Coastal Bermudagrass establishment and weed control, Novosad; and fertilization of Coastal Bermudagrass for hay and pasture, Dr. C. D. Welch, Extension soil chemist at Texas A&M.

Also included are grazing management and cattle production on Coastal Bermudagrass, Conrad; factors influencing forage quality, intake, and animal response, R. E. Riewe (ok) on the Angleton Gulf Coast Pasture-Beef Cattle Research Station; and forage handling, processing, and mechanics of feeding, J. W. Sorenson of the A&M Agricultural Engineering Department.

Novosad and Pratt said the program also includes talks on legume sandle gume bloat by Dr

County Social Security Checks Up 16 Percent

A total of \$80,323 a month in social security benefit were being paid to 1,324 residents of Deaf Smith County at the close of 1966.

This is an increase of 16 percent over the previous year according to Travis C. Briggs, district manager of the Amarillo social security office. While the majority of these payments went to older persons, Briggs pointed out that substantial payments were also made to young widows, children and disabled workers.

Nearly every young family in Deaf Smith County has survivors protection under social security that can be worth \$75,000 or more, and equally valuable insurance in case they become disabled.

"The average worker," Briggs said, "can expect to collect more than the value of his own social security contribution just in benefits payable to him and his family in retirement. If he should die or become disabled before retirement, his family stands to collect for more than the contribution he has paid."

Monthly payments to the family of a worker who dies leaving two or more children can range from \$66 to \$368 a month, depending on the worker's average earnings under social security.

Benefits to a mother and children continue until the youngest child becomes 18. Further, if a child is disabled or a full-time student, this benefits may be continued beyond age 18.

Briggs recommended that all persons having a question about social security contact Mr. Bruce Grady, a representative of his office who is at the Court house in Hereford every Tuesday.

There are some 2,500 different types of mineral to be found in rocks. They range from the popular finds such as mica, pyrite, calcite and quartz to sulphur crystals so delicate that the heat of a hand will crack them. Recently a Colorado woman picked up a 50-carat white topaz worth \$2,000.

R. D. Staten of the A&M Soil and Crop Sciences Department, and Dr. Hgen Lippke (ok), agronomist at the Angleton field station.

POSTAL OFFICIALS — J. Allen Dupree, left, assistant regional director of the post office department, made the dedicatory address of the Hereford Post Office Saturday afternoon. On the right is Robert T. Davis, regional director of business affairs of the General Services Administration, who also had a part in the dedication ceremonies. (Hereford Brand Photo)

At Ruidoso Jet Smooth Cops First Lap Of Tres Coronas

Jet Smooth lived up to his advance billing Sunday at Ruidoso Downs to capture the first big race of the season, the \$85,000 Kansas Quarter Horse Futurity by a straining half a length and win first money of \$34,008 for owner Walter Merrick.

The victory, over a rapid group of two-year olds, was accomplished in 18.37 seconds for the 350 yards dash and gave Jet Smooth the firstleg of the Tres Coronas, with the Rainbow and All American Futurities to follow.

Favored by a crowd of more than 5,000 at 8-5 the husky son of Jet Deck broke alertly, under Harold Baker's guidance, and was in front all the way down the straightaway and was slowly pulling away from Fly Little Jet and Double L Straw, the second and third place finishers.

Jet Smooth had rung up the fastest time in qualifying for the Kansas and proved it was not a fluke with his big win Sunday.

Fly Little Jet was in contention all the way and earned owner Charles Harper second money of \$17,004, while third money of \$10,202 went to Mark Duncan and Art Heath's Double L Straw.

In order behind the top three and their money winnings came Jessie & Ray Cates' Jimmer Jr. \$5,951; Charles Mickles' Vanny's Gold, \$5,101; Noble Taylor's Miss Bar High, \$4,251; Robert Boniface's Double Don, \$3,400; Natalie's Duncan's Tonto Bars Girl, \$2,550; H. C. Lewis' Deck Night, \$1,700 and last was J. B. Ferguson's Miss Lea Deck, \$850.

The victory was Jet Smooth's second in four outings and the chestnut was upping his career money winnings to \$34,850.

Trainer John L. Jones, Jr. had the Jet Deck colt in splendid condition for his big test and now will be pointed for the Rainbow Futurity on Aug. 6, the second leg of the Tres Coronas. A win there will put him dead in line to become the first Tres Coronas winner by taking the world's richest race — the estimated \$450,000 All American Futurity on Labor Day.

The victory by Jet Smooth vaulted his sire, Jet Deck, into more prominence. The winner is from Jet Deck's first crop to get to the races and the one-time national quarter horse monitory in the final 90 yards.

CHANGE OF PACE — Kathleen Kuper, left, and Mrs. Bill (Darlene) Craig, secretaries of the Barrett potato shed, are the kind that like to do something different once in a while so things don't get too boring. Well, their chance came when Dick Barrett suggested painting the shed this week. (Hereford Brand Photo)

Wardrobe Plays Important Role

COLLEGE STATION — Americans have more clothes per capita than nearly any other people in the world. Since we have many changes for sports, school dress, and work, consumer awareness in clothes buying has become very important in our society.

Kay Hunter, Extension clothing specialist with Texas A&M University, offers these suggestions for personal wardrobe planning.

First, know the colors and designs that "do things" for you. Know what you have in your present wardrobe (this may need some sorting out, too!). Know where you are going and what you will be doing; figure out how much you can and should spend for clothing, and learn to shop for the best values.

Learn to dress to fit your personality. Dressing is largely a matter of feeling and is reflected in ease and self-confidence. But, even if you are the classic type that likes tailored clothing, don't buy everything in this same style.

Buy a few good quality tailored garments for long-term use, and a few relatively inexpensive items for variety.

"Know yourself" is the advice of the clothing specialist. If you are heavy, choose darker colors and flat textured materials. Firm, non-clinging fabrics which drape well are best for the heavy figure. Rough fabrics such as tweeds, loosely woven knits, and rough linens tend to make you look larger. Shiny fabrics can also make you look larger because of the light reflection.

Bold patterns and bright colors make figures look larger, as do pastels.

It's fun to be daring occasionally, but most budgets can't afford to accommodate every change of fashion. If you think a new style is relatively suitable for your figure, try an inexpensive copy at first. If you still like it after wearing in a few weeks, invest in a better quality one and wear it often — before the style goes out.

ey winner is off to a splendid start at stud.

Jet Smooth's win was heart-breaking to owners of the runners up — Charles Harper, owner of Fly Little Jet, and Mark Duncan and Art Heath, in whose colors Double L Straw ran. Both horses were right there until Jet Smooth asserted his superiority in the final 90 yards.

Soliz ...

him off." "Did you intend to shoot him?" asked Shuval. "No, I did not," replied Soliz.

"Did you aim the gun?" asked Shuval. "I just pulled the trigger in no direction," said Soliz.

In his cross-examination, Hunter asked Soliz if he saw a gun on Lopez. "I thought he had one," said the defendant.

"But you didn't see one," continued Hunter. "No," replied Soliz. Hunter continued his questioning:

Q. You saw it was Henry Lopez outside.

A. Yes.

Q. You went and got the gun out of the closet.

A. Yes.

Q. You put the shell in the gun.

A. Yes.

Q. You went outside with the gun to where Henry Lopez was.

A. Yes.

Q. Did you intend to shoot Henry Lopez?

A. It happened so quick that I didn't think at that time.

Q. You've had time to think now. Did you intend to shoot him?

A. Like I said, it happened so quick I didn't think at that time. I thought it was going to be me or him so I pulled the trigger.

Earlier in the trial, Abel Garcia had testified that he had been with Henry Lopez during the day of Jan. 8 and they had been drinking during that time. He stated that he had passed out that night and woke up when he heard a car door open and a shot. He had looked around and saw Lopez on the ground.

"Were you drunk when you woke up," asked Shuval. "Yes," replied Garcia, "but I sobered up when I heard the shot."

District Attorney Bill Hunter called three witnesses to the stand — former Hereford Policeman A. J. Dickens, Abel Garcia and Chief of Police Marshall Padgett.

Shuval called N. D. Bartlett Jr., Bob Pugh, Santos Soliz, Joe Soliz and the defendant to the stand to testify for the defense.

Dickens was the first officer to arrive at the scene. He said he found two cars in the driveway at the Soliz home, with one of the cars having three doors open and the motor running. Dickens checked and, thinking the victim to be still alive, called for an ambulance.

Someone then came out of the house and Dickens called "What's happened here?" Dickens testified that "the subject said 'I shot that man.'"

Hunter asked "Who was the subject that spoke those words?" Dickens replied, "the defendant." He said Soliz told him the gun was in the house.

After turning Soliz over to another officer, Dickens entered the house and talked with Mrs. Soliz. He said he saw a gun lying on a chair by the bed and asked her if that was the gun and she had said it was.

The gun was taken at that time and entered as one of the state's exhibits Wednesday morning.

In questioning possible jurors Wednesday morning, Shuval pointed out that it was the duty of the state to prove that the charge against his client was not self-defense. He asked the veniremen if they would be prejudiced against the defendant because of his keeping firearms in his home.

Members of the jury are Mrs. Charles Jowell, Mrs. J. L. Fyfe, T. B. Thomas, Alvin Schmucker, R. N. Yarbro, Raymond C. White, Mrs. C. C. Ellis, Marvin Diller, Mrs. Clyde Russell, Mrs. Bert Brown, George Tiesel and Mrs. Clinton Jackson.

In action Monday in district court, Gene Oakley was sentenced to two years in the state penitentiary after being found guilty on a charge of swindle with a worthless check, and Edwin Leon Youngblood received three years probation on a charge of swindle with a worthless check.

BOY SHOTS WOLF

ASHLAND, Mo. (AP) — A youth hunting rabbits bagged bigger game recently, and got paid for it.

When the large, light gray wolf appeared in the sights of his 22-caliber rifle, Jack J. Winkler, 12, of St. Louis fired automatically, killing the predator on the spot.

A friend directed him to the home of Judge Eugene Hamilton of the Boone County Court who made sure young Winkler got paid the \$15 state bounty on wolves.

Africa's highest peak — 19,340-foot Mt. Kilimanjaro — may be preserved in all its natural beauty as a national park. The United Republic of Tanzania invited three men from the U.S. Park Service to study the feasibility of a national park on Kilimanjaro, and their report is favorable.

Molded Salad Refreshingly Good

This salad beauty is refreshingly good — and a breeze to prepare. Apricots provide gas color contrast and a tempting flavor accent for the lime gelatin base, made creamy smooth and a delicate seafoam green with double-rich evaporated milk. Creamed cottage cheese, celery and pecans are stirred in for total good eating.

- Apricot Lime Salad**
- 1 can (1 lb.) whole peeled apricots
 - 1 pkg. (3 oz.) lime flavored gelatin
 - 1 cup evaporated milk
 - 2 tablespoons lemon juice
 - 1 cup creamed cottage cheese
 - 1/2 cup dried celery
 - 1/2 cup chopped pecans

Drain apricots, saving syrup. Cut apricots in half, discarding pits. Place 6 halves on bottom of a lightly oiled 5-cup ring mold. Cut up remaining halves and set aside. Measure apricot syrup, then add water to make 1 cup liquid. Heat over low heat to boiling. Pour over lime gelatin in a medium size mixing bowl; stir until gelatin is completely dissolved. Cool. Gradually stir evaporated milk into cooled gelatin, then stir in lemon juice. (Mixture may look curdled, but this does not affect finished salad.) Chill until mixture is the consistency of unbeaten egg whites, stirring occasionally to keep smooth. Fold in cottage cheese, celery, pecans and apricot pieces. Spoon mixture carefully over apricots in ring mold. Chill until set, 3 to 4 hours. Makes 8 servings.

NEW CLUB OFFICERS — Heading plans for the 1967-68 season in L'Allegria Study Club are officers who were installed last month at the close of a club year. Mrs. Dennis Lomas is the new president, succeeding Mrs. Alex Schroeter. From left in the top picture are Mrs. Hazen Woods, secretary; Mrs. Jim McDowell, vice president; Mrs. Lomas and Mrs. Schroeter, who is serving as parliamentarian in the new administration. Below are Mrs. Bobby Veigel, seated, corresponding secretary, and standing from left, Mrs. John E. Smith, treasurer; Mrs. Jimmy Conkright, historian, and Mrs. Bill Warrick, reporter.

at "Texas"

Gala Opening Is Being Planned

Opening night for the 1967 Season of the Paul Green musical-drama "TEXAS" will be a gala affair. The \$8.50 fee for the evening will include a barbecue dinner, membership in the Texas Panhandle Heritage Foundation, special entertainment during dinner, background music from the stereophonic system in the theatre, fireworks and of course, of most importance, the first performance of the 1967 "TEXAS" production.

The barbecue is to be a new feature in the theatre this summer. There was a trial run for the members of the board and their families Tuesday night in the theatre. The menu included delicious barbecue, potato salad, beans, pickles, onions, jelly and butter with individual small loaves of home-baked available in profusion. The same menu will be served before each per-

formance in the theatre and will be introduced to the public for the first time at the gala opening.

George Ritter, an associate professor of government at WTSU is the chef. The manager of the theatre, Raymond Railroad, discovered by accident that Mr. Ritter had had many years of experience in barbecuing as he was growing up and found on sampling his cooking that he is a master in the field. William A. Moore, says that the 1967 production of "TEXAS" will be of special interest to those who have seen it before. About half the cast is new and Mr. Green made several changes in the script to make some scenes move more swiftly. Mr. Moore also recommends that people try to sit in various places in the theatre when they are able to come several times. Every

Small Talk

By SUE COLEMAN
Women's Editor

If anybody has noticed that this column was missing in several issues past, maybe the explanation is due that it wasn't because of a vacation trip to Europe or some other exotic spot; it was a little session in the hospital and some recovery time afterward.

AFTER ABOUT six weeks out of the office, things are in a somewhat confused state at my desk and to complicate the matter, my sudden dropout left some unfinished work which is still unfinished.

Right now I'm picking up all the loose ends that can be picked up at this date, but some have lost all their news value because they are so far in the past, and are a lost cause. My apologies, and if there is any way I can make amends, please notify me.

This is a good place to say that I want to get acquainted with all the new club reporters this summer and June is nearly gone already. Please drop by and have a cup of coffee while we talk over your plans for next club year, or at least phone and visit awhile, ask any questions you wish, and let's get ready to make your job as easy and as satisfactory to your club as possible.

BACK TO MY experience as a patient, it was made much more pleasant (well, that may not be the best word to describe it, but if you've got to be sick you may as well relax and enjoy it all you can) by visits and messages and cards from more friends than I knew I had in Hereford.

Words are not enough to express my gratitude, but they are all I have at the moment, and I hope better ways can be found sometime to let you all know how much I appreciate your timely friendliness.

ONE OF THE GIRLS who grew up in Hereford and has many friends among residents of a few years back, the former Helen Ann Snyder is here with her family from Bellevue, Wash. a Seattle suburb, for a visit in the home of her mother, Mrs. Glenn Snyder, 110 West Ninth.

She is Mrs. Paul Sanders, and is accompanied on this visit by Mr. Sanders and their children, Doug, Greg, Gayle and Judy.

seat is good, and since the angle of the bluff is not parallel with the front of the stage, every different location appears to present a different show.

A Membership plus \$3.50 for the barbecue admits a person to the gala. For those who are not members yet, admission is \$8.50 Starting time is 8:55 p. m. The hour has been changed from last year to 8:55 P. M. because of Daylight Saving Time and gives patrons more time to explore the Canyon at its most spectacular hour.

They came by train, wishing the children to have the experience of a long train trip before passenger trains became a thing of the past, as they seem to be doing rapidly in this country.

They will be here several days and Helen Ann hopes to renew as many acquaintances here as time allows. Tomorrow they will go with Mrs. Snyder to Tulla, where the latter's granddaughter, Julie Ann Holman, is to be married to William Brice. Julie also has friends here, as does her mother.

ALL THREE daughters of Mrs. Charles Hood are holding a reunion this week. Mary Lee, Mrs. A. E. Moore of Titusville, Fla., came in by plane Monday

evening with her son, David, and small daughter, Lee Ann. One object of her visit is to attend the 25th anniversary reunion of her high school graduating class.

Another of Mrs. Hood's daughters, Nettie, Mrs. Tom Wilson, and her daughters, Shannon and Victoria, arrived Tuesday from Eastland. The third is Mrs. Hershel Miller of Dawn, who is more of a hostess than a guest for this family gathering.

VISITING THIS WEEK in the Weldon Roberson home is Mrs. Roberson's mother, Mrs. Harry Norwood of Vernon, who accompanied the Robersons home when they were in Vernon last weekend. Mr. Norwood is expected to come up this weekend to join the family party.

Flower Show Is Slated

Early plans for a fall flower show were discussed by the flower show committee of Bud to Blossom Garden Club at a Monday meeting in the home of Mrs. Bill Nelson, general chairman.

A called meeting of all club members, to complete the planning, was set for 2 p. m. June 29 in the home of Mrs. Bill Gentry, who was appointed schedule chairman for the show. Others present for the com-

Mrs. Wilson Is Guest Speaker To H.D. Club

Preparation of Mexican food was the subject of a program for Progressive Home Demonstration Club Tuesday afternoon in First National Community Room, with Mrs. Gerald Wilson as guest speaker. She gave instructions for making several popular south-of-the-border dishes.

Samples of a spicy dip and of tacos were served to another guest, Mrs. Dave Downey, and the members present. Mrs. H. L. Hershey opened the program with a brief humorous selection.

mittee session were Mrs. B. T. Brown, Mrs. Calvin Edwards and Mrs. Sam Long.

Plans were made for a party July 27, when club members will entertain their husbands. The committee to complete plans comprises Mmes. Charles Gresham, Dean Stallings and Tom Nance.

Other members at this, the last regular meeting until September, were Mmes. Taft McGee and Pete Carmichael.

Two Young Singers To Be Heard

A musicale presenting Cynthia McMinn, soprano, assisted by Dorothy Marnell, contralto, is planned for Friday evening in the home of their voice teacher, Mrs. D. W. Palmer. Families and friends of the two young soloists have been invited.

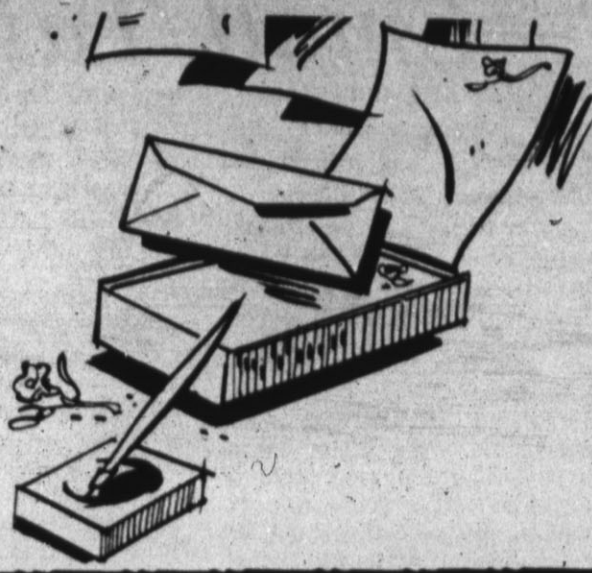

Cynthia is the daughter of Mr. and Mrs. W. P. McMinn of Frio, and Dorothy of Mr. and Mrs. A. M. Marnell, 124 Aspen. Miss Theima McMinn, aunt of Cynthia, will be at the piano.

Songs by classic composers, Du Bist die Ruh (Schubert) and Sing, Smile, Slumber (Gounod) are included in the first group of solos to be sung by Cynthia, with Langi dal Caro Bene (Secchi) and I Will Lift Up Mine Eyes (Bartlett).

Miss Marnell's solos are Panis Angelicus (Franck) The Sleep that Flits on Baby's Eyes (Carpenter), Voice of the Prairie (Doster) and Leoncavallo's Mattinata.

The second group of Miss McMinn's songs features modern pieces, No Candle Was There (Lehman), In My Garden (Firestone), Take Joy Home, Bassett) and Rain (Curran). The two girls will sing duets, By the Bend of the River and The Lilac Tree, to close the program.

Letters To The Editor

Letters written to the editor of the Hereford Brand need only the signature of the author in order for them to be published. Answers to other letters that have been published

are welcome. Address them to The Editor, The Hereford Brand, Box 673, Hereford, Texas 79045.

EDITOR'S NOTE: The following is a copy of a letter from a local attorney, addressed to Associate Justice W. O. Douglas. It is with Mr. Witherspoon's permission that it is printed in the Brand letters column.

June 15, 1967
Honorable W. O. Douglas
Associate Justice
United States Supreme Court
Washington, D. C.
Dear Mr. Justice:

I was most disappointed at your lack of information concerning West Texas when you appeared on Hugh Downs' "Today Show." The people of this great Panhandle section of Texas who may have heard you would be convinced from your public statements Wednesday morning, June 14, 1967, that you were talking, and apparently have written your book, without first-hand knowledge of this great area. I would anticipate that you have not produced a best seller.

Regardless of what you may report about the arid desert region as you refer to our country, you should be mindful of the fact that buffalo, deer and antelope from this section in the early times were plentiful, healthy and fat and afforded our Indians from neighbor sections, a leisure livelihood and a bountiful supply of the diet they loved.

Anyone who believes in progress, and most people do, could find the greatest progress right here in this area, which you described as forsaken. If you had investigated, you would have found an excess of 10 million acres of fine irrigated land which ingenious people have developed from underground water supplies in the old pioneering fashion of independence and self-sustaining practices. The level lands of the "Great Staked" Plains have been converted into the food basket of America and other sections of the world.

The sight of golden grain at harvest time, of green sorghums the many varied color hues of all kinds of vegetables, hay and grain crops at this time of the year are the most beautiful sights to behold. The moving of the cattle feeding, the packing and many other industries to our great country from other sections is proof of the accomplishments of those who have pioneered this frontier in the

development of America. Their foresight, developments, and their independence and ingenuity has made a great contribution to America and the American way of life for which most people should be and are proud.

We would certainly invite you to visit this area with the hope that upon appraisal of the true facts, you might reverse your conclusions. The knowledge you would thus gain should place you in a position to be in accord with the judgment of not only Texas, but all those throughout the Nation who have had an opportunity to travel this way. You would surely want to write another book.

Thanking you, we are
Yours Truly,
James W. Witherspoon

EDITOR'S NOTE: The following letter was sent to Mr. Cliff Roberts, Dept. Baseball Chairman, 419 Tammy Ave., Amarillo, Texas 79108 by two Hereford men. They have requested that this letter be printed in the Brand letters to the editor.

Dear Mr. Roberts,
We received your ruling on coach Case's protest of our game with Tascosa on June 9th at Thompson Park in Amarillo. We maintain the protest is illegal for several reasons. Coach Case did not protest to the umpire—in-chief about the pinch hit violation before the next ball was legally pitched from the mound. Our coach told the Tascosa bench, their scorer, and the Umpire-in-chief what he was doing and there was no protest before the next ball was pitched. This protest was evidently not sent to you by registered letter, as you noted on it "Received in lenge the fact that "Bud" case We challenge this. We also challenge the fact that "Bud" case is the only one signing the protest. This too is illegal and I will quote, word for word, why.

Under Rule 5, Paragraph C, 1967 Texas American Legion Baseball Rule Book, "Protests of rule interpretation during actual game conditions must be made known to the Umpire-in-chief before the next legally pitched ball is thrown from the pitcher's mound. If this is not done, no protest shall be accepted. Protests must be made in writing and mailed by registered letter to the Department Baseball Chairman and must be

signed by the team manager and/or coach and the Post Commander and/or the Post Adjutant within forty-eight hours after the incident occurs." No Post Commander or Adjutant signed this protest.

We will now ask you, as you are the one in charge, to reconsider your ruling and award us this game as we feel we won fair and square, and this protest of Mr. Case be ruled null and void, because it is illegal on at least three points.

Mr. Roberts, we know you are a Justice of the Peace in the County of Potter, and we also know that a man in your position should rule on the merits of the case and the evidence submitted and show no favoritism, whatsoever because of personal feeling.

This is not, as yet, a protest or a counterprotest, but appeal to you, in all fairness, to go by your own rules and disallow the protest of Tascosa. In the event you do not choose to do this, we are prepared to enter a formal protest.

Yours truly,
Benny Womble, Manager
Jack Waggoner, Coach

Pianist To Give Sunday Program

A solo recital open to the public is to be given at 3 p. m. Sunday by Kevin Young, piano pupil of Mrs. Bill Brady and son of Mr. and Mrs. Dale Young.

The program will be presented in the fellowship hall of First Christian Church, and a reception honoring the young pianist will be held afterward.

Three Men Are June Inductees

Three area men were inducted into the Army during the month of June, according to Texas Local Board No. 18, Hereford.

Actually inducted into the Army this month was James L. Thuet, Vega; Curtis W. Colling, Canyon and Gerald D. Drerup from Hereford.

Some good cooks have been known to add a few drops of salad (not olive) oil to a confectioners sugar glaze for a cake

EXTRA TOUCH? — Hereford Insurance Agency, former winner of the commercial beauty spot of the month award, seems to go all out in making their business front look pretty. From a crack in the sidewalk in front of the agency, a petunia sprung up just recently. The flower has been out for several days now and everyone seems to watch their step as it still stands upright. (Hereford Brand Photo)

Calendar Of Events

THURSDAY
Hereford Duplicate Bridge Group at Community Center, 8 p. m.
St. Anthony's Guild in St. Anthony's School auditorium, 8 p. m.

TUESDAY
Rebekah Lodge at IOOF Hall, 8 p. m.
Jaycees, lunch at Jones Restaurant, noon.

WEDNESDAY
Avenue Baptist WMU at church, 7 p. m.

Cattle Donations Are Sought For Child Welfare

C. A. (Charlie) Morris, owner-manager of the Ranchers and Farmers Livestock Commission Company, has been re-appointed general chairman of the 1967 Cattleman's Round-Up for Crippled Children. Raleigh Br Brown, president of the board of directors of the West Texas Rehabilitation Center announced Monday.

The sale, schedule, in late September, was founded in 1961 when Coke county rancher Conda Wylie donated 20 calves to the Center.

This year's Round-Up is expected to receive hundreds of animals from ranchers throughout the Southwest. All proceeds from the sale go to the WTRC, providing a third of the annual operating costs of the Center.

Morris, chairman of the sale since 1962, said this year's sale would be held at Ranchers and Farmers' auction facilities on East Highway 80.

"We're ready to begin picking up cattle anywhere and at any time," Morris said. Cattle will be quartered at the new WTCC feeding pen south of Abilene until the sale date. Arrangements for picking up any cattle donated to the sale can be made by calling OWen 3-1633 in Abilene.

Tony Carter Is Slightly Injured

Tony Carter received only slight injuries yesterday at noon when his motorcycle skidded on Union and Ave. I. He was taken to Deaf Smith County Hospital where he was treated and released.

Officers said that apparently a dog ran out in front of the youth. The boy tried to avoid the dog by laying his 1967 motorcycle down, but turned over as he tried to stop. An estimated \$15 to \$20 damage was done to the motorcycle.

Tony is the son of Mr. and Mrs. Doc Carter, north Ave. K.

The Mason-Dixon Line was drawn in 1787 to end a bitter colonial land dispute. It extends from east to west between Pennsylvania and Maryland, with a shorter branch reaching southward then east between Maryland and Delaware. All three states were on the Union side during the Civil War.

Breezy Outdoors

If you are looking for a place to go with something to do then try Palo Duro Canyon.

The largest park in the Texas Parks and Wildlife Department, it covers 15,103 acres. Although the canyon is 120 miles long the remaining part is owned by individuals and estates.

The park is 800 feet deep, from 3500 feet on the rim to 2700 on the floor.

Formations show the canyon to be 250 million years old. It has been a State Park since 1931.

It is located 43 miles northeast of Hereford, about an hours drive. The first view of the canyon is well worth the trip.

Wildlife thrives in the Canyon and with a little extra effort may be found. While hunting is not allowed just sighting these animals can be worthwhile. For instance there are not many sights to compare with an eagle floating around in the sky. And the wild Aoudad sheep although very shy and hard to see is a beautiful animal. These sheep are not native to the canyon but were brought in several years ago. Deer run wild in the canyon, along with cyotes which may be heard in the night. Raccoons, possums, rabbits, and all kinds of snakes and lizards can be seen in all parts of the canyon.

Camping and picnicking places are excellent. These are placed in the canyon for comfort and scenic view. History of the canyon is as amazing as the canyon itself dinosaurs huge creatures of the past, made it their home and their fossils may still be found in the canyon.

The last Indian battle in the state of Texas was fought between its walls. Mackenzie's Raiders fought and captured a large group of Comanches and Kiowas which had set up camp and were using the canyon as a base for their raids on settlements and forts in the area.

So if the television is getting on your nerves and you need some fresh air, then try the Canyon. I think you will enjoy it.

Last year the outdoor sportsman spent more money on hunting and fishing than was spent on football, baseball, track and horseracing combined!

If you have any advice or information you would like to pass on please send me a card at box 673 Hereford, Texas.

GOOD LUCK!

Hospital Notes

PATIENTS IN HOSPITAL

Mrs. Harvey G. Lindsey, Rt. 3; Russell Jones, Vega; Mrs. Chessie Welch, Westgate; Mrs. James J. Goodin, Rt. 5; Mrs. Jesse G. Soliz, Box 142; Beth Stansell, Dimmitt; Mrs. Jesse D. Cain, Rt. 1, No. 5; Mrs. Nora Brooks, 119 Fir.
Mrs. Theola Sherrill, Amberst; Mrs. Ed Salinas, Rt. 1; Mrs. Donald L. Welty, Box 894; Mrs. Bill Nunn, Frio; Walter L. Chiddix, Littlefield; Mrs. L. B. Worthan, Rt. 3; H. O. Griffith, 329 Ave. B; Mrs. Billy Emmons, 100 Aspen.

David Duran, Hart; James R. Southward, Frio; William Menter, Rt. 5; Alexander Peterson, Box 585; Valentine Castillo, 406 Ave. F; Ona Hammer, Westgate; Linda K. Hallows, Rt. 5; Mrs. Bess May, 118 Douglas; Abby G. Hefley, 522 Irving.

Mrs. Norene Pannell, 831 Bleavins; Mrs. Billy Shelley, Rt. 2; Mrs. Robert Lohr, 404 Joel; Ricardo Soria, Amarillo; Mrs. Ky Lawrence, Rt. 5; Mrs. Eugene Morton, 513 Star; Herbert F. Hultman, New Mexico; Mrs. Tom Morgan, Rt. 1; Mrs. Jim Hill, 411 E. 4th; Giles Williams, 520 Star.

PATIENTS DISMISSED

Mrs. Felice Wright, Michael Hinson, David Knox, June 16.
Roy D. Beardain, Jerry Leonard, Mrs. Dollie J. Parker, Whitney Rounds, June 17.
Monte Almanza, June 18.
Kenneth Duncan, Jr. Mrs. Jose Valdez, June 19.

Mrs. Conrado S. Riojas, Susan Harvey, Mrs. Victor Cantu, Mrs. Gabriel S. Martinez, Mrs. Roberta Ellen Last, Mrs. James R. Thompson, Warren K. Cornelius, June 20.

Mrs. Jose Nunez, Mrs. Roy Thompson, June 21.

BIRTH ANNOUNCED

Mr. and Mrs. Herbert Howell of Bovina have announced the birth of a son, James Mattlock, on May 19. Mrs. Howell is the former Montie Dean Hale, daughter of Mr. and Mrs. C. H. Hale of Hereford. Paternal grandparents are Mr. and Mrs. Moss Howell of Dimmitt.

Voice Pupil Is Honoree

Entertaining informally, Mrs. D. W. Palmer was hostess to a group of Mrs. Garland Solomons friends Wednesday evening in the Palmer home.

Mrs. Solomon, a voice pupil of the hostess, during the evening sang solos including two in a religious mood, My Task (Ashford) and Prayer Perfect (Stenson); a love song by Handel, Where E'er You Walk, and the ballad, Absent, by Metcalfe.

Mrs. Dick Godwin poured coffee as refreshments were served

Look Who's New

Mr. and Mrs. Jose A. Valdez are the parents of a daughter, Cindy Kay, born on June 17. She weighed 6 lbs. 13 1/4 ozs.

Mr. and Mrs. Conrado S. Riojas are the parents of a daughter, Tina, born on June 17. She weighed 6 lbs. 11 ozs.

Mr. and Mrs. Juan V. G. Cantu are the parents of a daughter Patricia Ranjel, born on June 18. She weighed 5 lbs. 11 ozs.

Mr. and Mrs. Donald L. Welty are the parents of a daughter, Cynthia Marie, born on June 19. She weighed 7 lbs. 5 ozs.

Mr. and Mrs. Jesse D. Cain are the parents of a son, Jesse Dean, Jr., born on June 20. He weighed 6 lbs. 8 1/2 ozs.

Mr. and Mrs. Jesse C. Soliz are the parents of a daughter, Debra Ann, born on June 20. She weighed 8 lbs. 14 1/2 ozs.

Mr. and Mrs. Edwardo T. Salinas are the parents of a son, Edwardo Tadeo, Jr., born on June 21. He weighed 5 lbs. 1 1/2 ozs.

Mr. and Mrs. Harvey C. Lindsey are the parents of a son, Johnny Forest, born on June 21. He weighed 7 lbs. 7 ozs.

RESIDENTS' BROTHER PASSES

Mr. and Mrs. George Millard and Mrs. R. E. Cottingham were in Spearman Monday to attend funeral services for O. Lee Jenkins. He was the brother of Mrs. Millard and Mrs. Cottingham.

CARD OF THANKS

Dear Friends,
In a most humble way we say thank you. Words cannot express our appreciation for ALL your kindness that came our way in our recent sorrow.

Richard and Wilda Jowell and sons

Glad's Garden

GARDEN TIPS

Have just put our dinner on to cook. What are we having? Fresh green beans, ruby red beets, curly green, brown-tinted, lettuce salad, small crystal white onions — all out of our garden. When I gathered them and placed them in the garden basket, I had a very attractive arrangement. From the standpoint of color, textures, forms, and interest the scoring would have been good. When the vegetables are ready to serve, I will use white china, on green place mats, and a floral arrangement of fresh cut, mixed sweet peas, arranged in a low white container.

How does your garden grow? Having trouble with insects, worms and other garden enemies? Get those garden enemies, before they win the first round. Have a consistent routine of spraying, or dusting. Use a well balanced spray or dusting powder. Your local dealers can recommend the best for you. Also the vegetables should have a feeding of plant food now. The tomatoes, okra, beans, beets, carrots, and others will respond if feed, and watered in. Do not neglect to cultivate your vegetables. This is the time a second planting of beans, beets, radishes and lettuce should be made.

One of the chief topics of conversation the past few days, has been the invading swarms of mosquitoes. Spray with Malithion. Have a REGULAR schedule for spraying and be sure that the spray reaches underneath the shrubs, rose bushes and other low growing plants. Give special attention to corners, and places that have poor drainage. Malithion can also be used in the vegetable garden.

When preparing to spray for mosquitoes, be sure and prepare yourself by using a preventive spray or oil, saturate yourself, on all exposed areas. Put on gloves, long sleeves, and heavy jeans, and work FAST. If you do receive bites then use rubbing alcohol generously. Seven is another recommended spray for garden enemies.

Now is the TIME to spray for

bagworms. The bagworms hatch in June. The young worms are likely to be moving about on the evergreens, and other foliage. Often the bagworm goes undetected on our conifers until he is so big he nearly strips the plants of their foliage. The ability to kill an insect is in direct relationship to its size, the bigger he gets the harder he is to kill, and the more potent the insecticide just be to bring him under control. Remember it is much easier to keep a bagworm, or insect out than it is to get him out once he is IN. For control of bagworms, spray with seven, Chlordane, DDT, or Malathion.

When you are checking your evergreens and other plants for bagworms, look for webworm next. These are usually found over the end of branches of various trees, shrubs, and evergreens. Cut out whenever possible, wash thoroughly with a STRONG spray of water, and treat with insecticide.

A reminder for watering the lawn. When you suspect that perhaps it needs water, walk out over an area of the part which you think needs water. Then turn around and look back where you have walked and if you can see your footprints the grass needs watering. If the grass springs back into place after having been walked upon, then do not water. If watering is done unnecessarily the root system will be shallow, and the lawn will demand more maintenance, and the turf will not be as good as it should be. When watering, saturate to a depth of at least 6 inches. Do not be hurried when watering the grass. Patience is the word, and do be thorough.

In driving over town and talking with gardeners, I have noted that there is much complaint about plants, trees, shrubs, which have taken on a pale or yellow green appearance. The common term for this is "iron chlorosis," caused by the lack of CHLOROPHYL which is the substance responsible for the yellow appearance. Iron chlorosis is widespread and may occur in plants and or trees grow-

ing in any type soil, be it sandy, loam or clay, acid or alkaline. Many species of plants and trees such as roses, holly, pink oak and many others are extremely susceptible. It is a problem for the professional and amateur gardeners alike. One of the remedies which I have used is Sequestrene. It is a recommended stimulant for foliages. This can be applied in either dry powder form, directly from the package, or as a diluted spray or drench. Any type spray, sprinkling can, or hose-end sprayer can be used as it is entirely soluble, and will not clog nozzles. I used it in powder form on a pin-oak, and in a spray form on some climbing roses. On my potted plants, one application has brought results.

Spring-blooming shrubs should be pruned now. As you prune, keep in mind that you are shaping your shrub. Will it enhance or detract, when new growth comes on? This is a good time to check shrubs for mites, aphids, and borer injuries. After pruning, then spray thoroughly.

Stake tall flowers to prevent wind damage. Dahlias are starting to bloom, and should have good support, also delphiniums, and lilies.

June is the month to mulch, to keep roots cool during hot summer days. Mulches do much to conserve moisture and to keep down weeds. More about this later in another article.

Any plants that show any signs of disease or insect injury should be examined. If diseased then burn the plant. Treat soil after plant is removed, to kill any infected soil.

HAVE YOU SEEN? The beautiful petunias at the home of The Ralph Hastings? These are red, white and blue, and make a very striking picture. The planter at the Dr. Owen home is also very pretty. The petunias are all a very pleasing pink. These homes are located on Douglas.

All creation, it is said, is rooted in an ancient garden. And Eden, still is not an idle dream. The earth is the source of all we have, we are its STEWARDS. This should challenge all Gardeners.

Garden and be GLAD Around the house a woman's work is never done, and a man's is never started if he can help it.

Salesman Joe says he can always tell when the boss is in by the length of the coffee brak.

SECTION TWO

HEREFORD, TEXAS, 79045, THURSDAY, JUNE 22, 1967

POTATOES are just some of the many crops which the Wards raise on their farm. Potatoes look good this year, according to Richard, a farmboy who has been around the agricultural business for several years. (Hereford Brand Photo)

MAKING SURE that her baby is sound asleep and comfortable is Mrs. Richard (Kay) Ward. Jon Marcus, 14 months old, is shown as he finally fell asleep after many hours of continuous running, jumping and playing. (Hereford Brand Photo)

Young Farmer Finds Time To Race In Busy Schedule

Custom Cuts Wheat, Milo During Season

By JOE BRAN
Staff Writer

During the harvest seasons, he does custom work for farmers; once a month during the summer he participates in the dragraces at Amarillo Dragway and most of the other time, he devotes to farming.

This active farmboy is one who lives about 3 miles north of Hereford, Richard Ward, son of Mr. and Mrs. H. L. Ward.

Richard does some custom cutting of wheat and maize for area farmers on a limited basis during the harvest seasons and also at times some potato digging.

Whenever he is not doing custom work, he is found working at his own farming which keeps him busy year-round. "Farming is that sort of job that you not only do in the summer or fall," he states, "but you must do it every month." He further went on to say "Maybe not all farmers stay busy all year but as far as I am concerned, I always have something to do at the farm."

Born in Levelland and raised on a farm near Morton, Texas, he has always liked farming and hopes to continue, someday hoping to get a bigger place of his own.

He moved to Hereford when he was in about the 3rd or 4th grade in school and has remained here ever since, graduating from Hereford High School in 1960.

His father had always done some custom work for many of his farmer friends back in Morton before they decided to move up here. The opportunity presented itself to move to a better place such as Hereford and the Wards grabbed it.

Richard stated that the custom work they do is just something on the side. "It helps us pay for our machinery most of all," he pointed out. "Small farmers like us could never dream of having one of these huge combines or any other farming machine if he did not have some revenue coming out of it. I mean, if one does farming only on a small basis, you never would get to pay for the thing unless you really had a large yield at all times and then the gamble is far too great. This way, we raise and cut our own crops and help pay for the machinery out of doing some custom cutting for our friends."

"The combine itself is worth some \$12-13,000 and any repair bill is too great whenever anything goes wrong," Richard con-

tinued saying. "That is one of the main reasons that only my dad and I operate these things. That way, if something goes wrong, you do not blame anybody but yourself and besides, you are paying for it."

Richard remembers one particular time when he hired some one to do some of his cutting with his combine. He recalls that the fella had stated that he had several years experience operating one of those machines but in less than 30 minutes, he broke some parts on it. "The trouble was not just ordinary wear but carelessness," stated Richard.

One of the reasons the Wards moved to Hereford was because of the wind and dust down in that part of the country where they used to farm. "Why, it is like a paradise here compared to the place we come from," he exclaimed. "The wind and dust would get so strong down in Morton that sometimes, and I am not kidding, we could be driving down the road and could not see more than a few feet ahead of us." He further went on to say that the wind did considerable damage to the crops, in the same respect that freezes harm our crops up here.

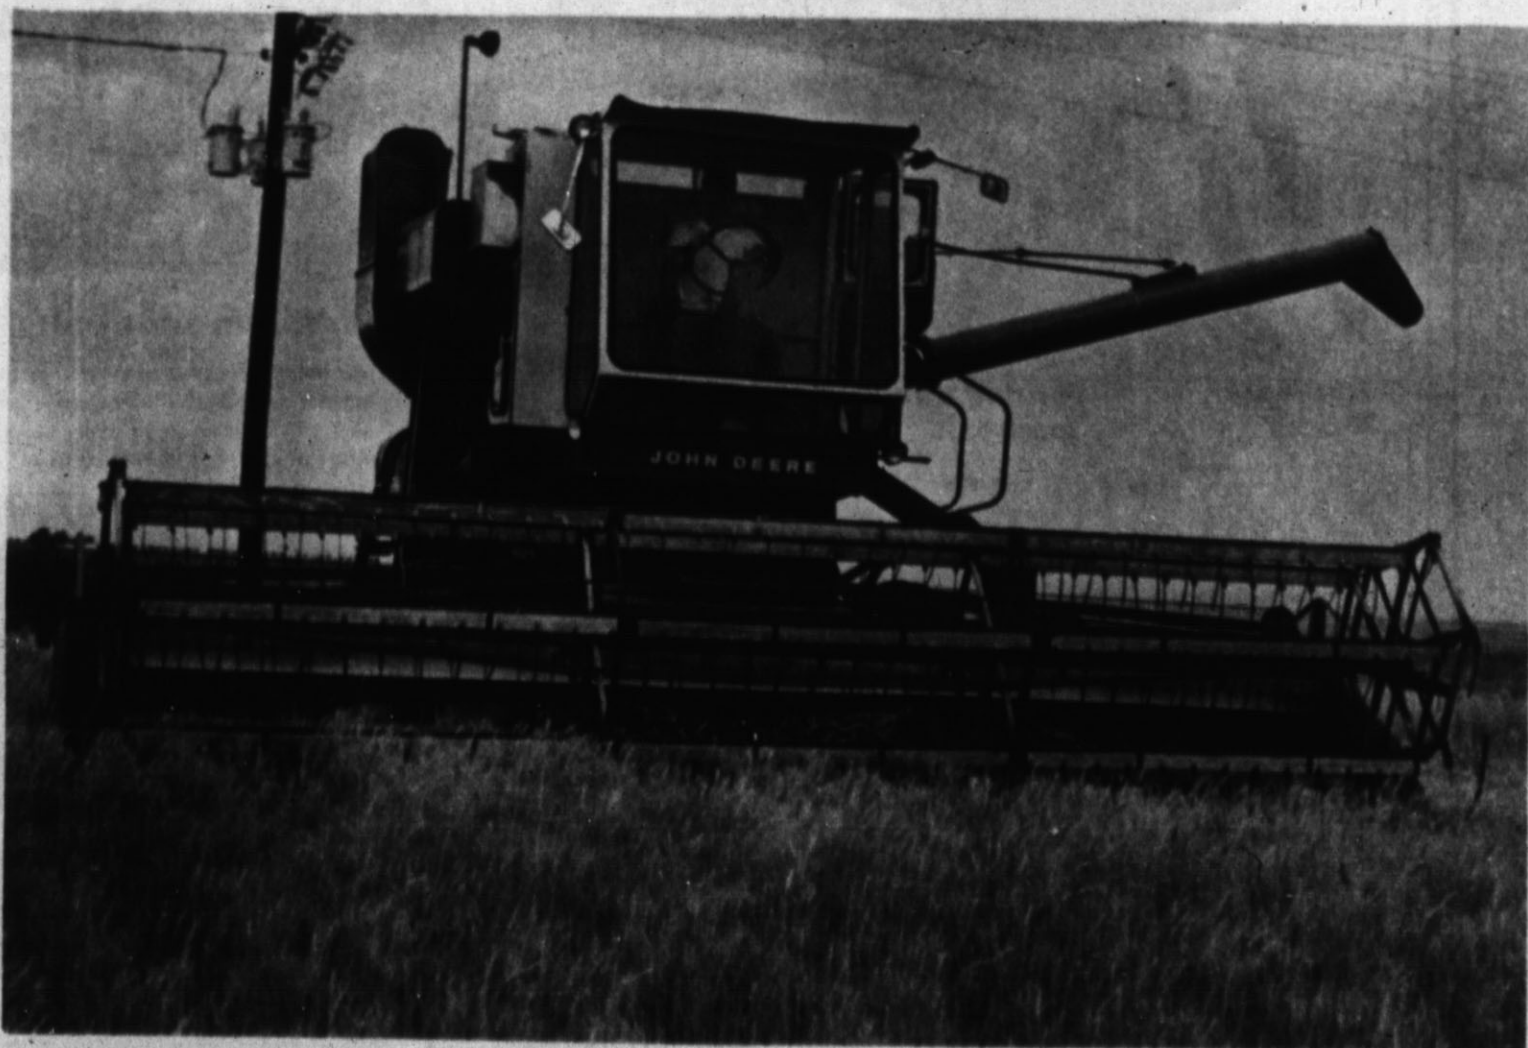

The Wards have traveled

some throughout the country and have had many an opportunity to buy some farms in other states. Richard is sold on the rich agricultural soil in this area and so far, plans to continue living here.

Most farming implements and machinery that the Wards have is owned mainly by the older Ward. "I guess that is the reason that I do much more work on the farm than my dad," said the younger Ward. "I farm about 1/4 section of land and about 1/2 for my father. I do about, say 90 per cent of the work on my father's land."

The Wards do not hire many if any, farm laborers. The work is done all by themselves except for some general work like hoeing. And whenever they hire people to do this sort of work, both Wards join in the work. This enables them to keep a close eye to the workers and see that their work is done better and faster.

"It is not that we are 'tight' or anything like that," explained Richard. "But if you start giving people all that they want of you, pretty soon you are going to find yourself in a position that will be pretty hard to crawl out of," he continued. "There See YOUNG FARMER Page 2

BUSY CUTTING WHEAT is Richard Ward, a local farmer who also does custom cutting for many area farmers. The machine he operates is owned by him and his father but Richard does most of the work with it. (Hereford Brand Photo)

LOOKING OVER some of his father's wheat is Richard Ward. He does, however, most of the farming on his dad's farm and all on his own place. (Hereford Brand Photo)

YOUNG FARMER - - -

Continued From Page One was this time when several persons were gathering potatoes from a freshly-dug field. It happened that this family came along and sent their children, and there were quite a few of them, into the field where the potatoes had just been dug and started to fill some sacks with them. Well, it so happened that this particular year the potatoes were bringing in a real high market price, especially the premium size. We didn't tell them anything except that they were not allowed to pick potatoes from that certain spot. We told them that if they wanted some free ones, they would have to go pick them up where the rest of the field crew had just passed as those potatoes were going to be left behind anyway."

Richard went on to say that if you give a little to everyone, soon you are going to find yourself losing money and in the long run it will show.

"But most farmers will give, if asked first, some of their vegetables to city people," he finished saying.

Richard compares the vegetable snitching by the city folks as if he were to go into town and start picking up some items from some business establishment.

Besides custom cutting wheat and milo, the Wards have done some cotton stripping in the past. However, they do not do that type of job anymore because instead of breaking at least even, they were losing money.

His wife, Kay, also graduated from Hereford High but in 1961. They met while in their early teens and he was the first boy she had ever dated. They married in 1963, some 8 years after their first date. They did not, however, date all through the 8 years.

She is the former Kay Packard, daughter of Mr. and Mrs. Charles Packard of Hereford.

They have one child, a 14 month-old boy named Jon Marcus. He, at his early age, is one of those "balls of energy," jumping and moving around at all times.

As for Richard's hobby, it is dragracing. He is a very active participant in the sport, having won numerous trophies in 8 years of racing.

At present, he is running a 1966 Chevy with a Corvette engine. The car, although on the old side, is a suremover. It turns better than 16 seconds on a quarter mile and does over 80 miles an hour in the same distance.

These last two months he has won top place in his class at the dragway very easily. As a matter of fact, he couldn't win them easier if he tried. Both times, he has been the only one to show up in his class and therefore, he wins the trophy. He does, however, have to run his car to record the time and speed. This past week he set a new et. (elapsed time) at the dragway. Besides posting the new record, he beat a hot Camaro with a big 396 engine.

Having raced for several years, he has picked up quite a few of the "tricks" and that is what enables him to win over the newer car. The tricks that he has learned throughout the years sometimes mean

the difference between winning and losing. All the tricks of the game, all legal, are picked up only from racing several years and this is what he is good at. Richard explained that there are several lights to watch take off in a dragrace. He stated that just before the one which signals you to go comes on, you must start so as to pass it while it is in the process of changing. If you pass it before the previous light goes off, you are fouled and lose the race.

The car he is racing now is an old beat-up vehicle that he picked up at a local junk yard for \$30. But, even though it looks as if it can barely move, it can sure surprise you.

MOVE THE POTATOES

LISBON (AP) — The 16th Century "House of the Beaks," Lisbon's rare architectural jewel presently serving as a potatoes warehouse will soon become a museum devoted to the former Portuguese territories of India.

The Lisbon mayor, Gen. Franca Borges, recently announced he will expel the reluctant tenants of the building, under a special decree thus ending a five-year-old dispute.

Of the original "Casa dos Biscos" built by a son of the first Portuguese governor of the India territories more than 400 years ago only the original facade remains. The facade is made of small square stone pyramids, jutting out like gray diamonds.

The rest of the structure came down during the 1775 earthquake which completely destroyed Lisbon.

The "Museum of the Portuguese State of India" will gather all the documents and historical pieces related with territories of Goa, Damao and Dio invaded by the Indian army in 1961.

The Lisbon administration recently turned down a proposal by Amalia Rodrigues, an internationally known fado singer

Travelers In Mexico

Tourists Need Car Protection

DALLAS — Thousands of vacationing Americans will be driving their cars into Mexico this summer. Many of them will be falsely confident that they have proper liability protection in case of an accident in that country, the Insurance Information Institute warns.

When planning to drive south of the border, U. S. residents should check with their insurance agent or broker about obtaining an official Mexican automobile liability insurance policy.

Unless properly informed and insured, their pleasant vacations could turn into costly nightmares. Tourists should be warned: "Don't drive into Mexico without auto liability insurance from a Mexican company!"

Most Americans are unaware that only insurance companies located in Mexico are recognized under Mexican law. And contracts of insurance written by non-Mexican companies are not in force in that country.

A tourist involved in an accident in Mexico could be faced with a large cash outlay, informal detention, or even jail, under the strict provisions of the Mexican law — even if he has the "Mexican auto endorsement" attached to his U. S. policy.

The "Mexican endorsement" on some U. S. policies is designed for a limited purpose and its application to vacation use

and queen of Portugal's national song, to transform the "Beak House" into a fado restaurant.

Amalia would have sponsored the singing while the gastronomic side would have been the responsibility of the best-known cook of Portugal-Lourdes Modesto, who made a fortune with a weekly TV cooking program.

should be thoroughly discussed with an insurance agent or broker before a person drives across the border.

Without proper Mexican coverage, the motorist has four alternatives if he is involved in an auto accident which results in even minor personal injury or property damage. They are:

1) Post a cash bond with the local officials.

2) Post a commercial bond from a Mexican bonding company (a possibility if the tourist speaks Spanish, knows someone locally and has enough money).

3) Contact a U. S. insurance agent, via telephone or telegram (but, under Mexican law, it is illegal for the agent to settle the claim in Mexico. He may however, advance the cash necessary to post bond).

4) Face legal detention and impounding of the automobile.

As visitors to Mexico, Americans are bound by Mexican laws, just as Mexicans traveling in the U. S. are bound by its law. Compliance with those laws can make for a happier vacation in Mexico.

Here are some additional pointers for traveling south of the border.

— Obtain a tourist card from the office of the Mexican Bureau of Tourism, the Mexican Consul or at the border.

— If you have an auto accident in Mexico, look for help from one of the green Turismo jeeps that patrol the highways. The driver will assist insureds in contacting an adjuster for the Mexican company which issued you insurance.

— If no patrol car arrives in a reasonable time, call the nearest police officer. The policy should be shown to the chief of police, and no officer

The first major redesign of Canadian coinage in 30 years commemorates the country's 100th anniversary as a federated nation. Wildlife motifs on the coins — the wildcat on the 25-cent piece symbolizing independence — reflect the character and spirit of the Canadian people.

In some national parks, including Yellowstone and Grand Teton, elk have stripped grazing areas, threatening soil erosion and undernourishment of wildlife.

Adrian News

By ANN BEAVERS

Brand Correspondent
Davy Gruhlkey of Adrian was among 750 boys from all parts of Texas who attended the 27th annual American Legion Boys State sponsored by the Department of Texas and held recently on the University of Texas campus.

Highlights of Boys State were

a trip to the capital, where each elected Boys State Official served in his respective office for a day and, the Governor's ball Friday evening.

Gary James is at Ft. Sill, Lawton, Okla. for six weeks taking ROTC cadet training.

Mr. and Mrs. P. N. Johnson attended the Golden Spread Coon Hunt Sunday at Cliffside near Amarillo, and won three first-place trophies and a third-place trophy.

Jerry Whitten and James Waldar of Amarillo rode their bicycles from Amarillo to Ad-

rian, then back to Amarillo, last Tuesday.

Mr. and Mrs. L. G. Green and Mrs. Evie Frost of Amarillo spent Tuesday night with the Elbert Whitten family.

Mr. and Mrs. Floyd Sharp and Mrs. Sharp from Adrian, Mich., traveling west to California, stopped in Adrian last Tuesday morning with a sign on top of their car saying Adrian, Mich. Of course Adrian, Mich., is a much larger town than Adrian Texas, but it is always nice to meet someone from Adrian.

Visiting the T. L. Shuberts last week were Mrs. Helen Bell and daughters of Lander, Wyo. and Mrs. Nell Chavez and baby of Salt Lake City, Utah. Sunday dinner guest were Mr. and Mrs. Marvin Tucker of Portales, Mr. and Mrs. Calvin Peters and sons and Mrs. Cat Brown.

Mr. and Mrs. P. N. Johnson attended the Eastern New Mexico Coon Hunt at Clovis last week and won a first-place and a second-place trophy.

Pam Johnson of Stinnett and Nancy Lee Johnson of Canyon spent last week with their grand-

parents, the P. N. Johnsons. Mrs. Nancy Johnson and Rex of Stinnett came for Pam and Mr. and Mrs. Billy Lee Johnson of Canyon came for Nancy Lee Saturday.

Mr. and Mrs. Jerry Fortenberry from California are visiting the Fortenberrys in Adrian and his mother, Mrs. Ida B. Fortenberry in Amarillo.

Beverly Bradley is spending the week with her grandparents the Jess Bradleys, in Amarillo.

Mr. and Mrs. Troy Lemley and family of Guthrie are visit-

ing the John Horton family. A dance sponsored by the Adrian High School cheer leaders was held Saturday night.

Joel Brownlee won first place in bull riding Friday at the rodeo in Borger. Mrs. Joe Brownlee and family attended.

Mrs. Homer Collins, Maurice, Lawrence and Glenda, and Lawrence Loveless of Hartshorne, Okla. visited the Manuel Loveless, Lawrence and Glenda remained for a longer visit.

Maurice, Lawrence and Glen-

da Collins, Larry, Tommy and Jackie Loveless, Junior Clark and Mary Glass, Scherrie Beavers, Mrs. Claudia Loveless and Mrs. Geneva Glass were at Ute Lake during the week.

Mr. and Mrs. Grady Pridmore and family were in Oklahoma and Arkansas last week on vacation.

Terry Johnson of Amarillo spent Sunday night with Dude Speed.

Larry Loveless leaves Tuesday for three days of electri-

CHANGE MOSQUE'S FRONT
CAIRO — The Turkish-designed front side of the 1,000-year-old Azhar Mosque will be changed to the Fatimide style, an announcement said.

"This change was essential to keep the homogeneity of the building," the announcement added.

The Turkish style is castle-like and depends on high walls while Fatimide's buildings keep the walls low with Oriental decorations atop.

cal schooling, given by the Southwestern Public Service at Amarillo.

AUSTIN HIGHLIGHTS

Drivers Reminded That Points Count On Aug. 1

AUSTIN — Auto drivers may have forgotten, but they will be reminded of "points" starting August 1.

That's when the new insurance plan adopted last July by the State Board of Insurance begins to show on insurance rates. Drivers will pay 15 per cent more for insurance if they have one point charged against them, 35 per cent for two points, 60 per cent for three points and 90 per cent for four points.

Points are assessed for accidents or traffic law violations which came after August 1, 1966 when the plan was adopted. Penalties will apply when auto insurance policies are bought or renewed after August 1, this year.

A driver who is assessed points can "work them off." Only points assessed after August 1, 1966, will count. But after three years of being charged more, the points drop off the driver's record, for rate purposes.

Board believes this will lower the basic rates, thus will reward no-point drivers.

14-YEAR-OLDS CAN DRIVE
Fourteen-year-olds who complete driver education before August 28 still can get a license good until its regular expiration date.

Homer Garrison Jr., Director of Texas Department of Public Safety, issued the interpretation following numerous calls about new licensing law amendments.

New law which goes into effect in late August would raise the minimum age for licensing drivers with behind-the-wheel instruction to 16, except in unusual cases. Garrison said, however, he did not interpret the new law as denying "the privilege of driving" to 14-year-olds who already have qualified under existing regulations.

DESALTING FEASIBLE
New study concludes that large scale desalting in the lower Rio Grande Valley can provide a dependable source of good municipal water at costs comparable to that of conventional production.

Study for Texas Water Development Board and U. S. Department of Interior said water could be made available to a

metropolitan district for about 25 to 31 cents per 1,000 gallons at a desalination plant. Cost of delivery to individual cities in the Lower Valley would increase that figure from one to two cents per 1,000.

COURTS SPEAK
U. S. Supreme Court has agreed to hear arguments October 2 on whether the one-man-one-vote standard it applied to congressional and legislative districts also fits county commissioners precincts in Midland.

State Supreme Court found no error in lower court opinions dismissing the case of a woman who sued Galveston County for \$20,000 after finding glass in scrambled eggs served her at the county's Memorial Hospital.

A certificate-holding student pilot does not meet standard insurance policy definitions of a duly-licensed aircraft operator whose passengers remain insured while in flight, State Supreme Court concluded in a Gillespie County case.

ATTORNEY GENERAL RULES
Guilford state boundary is a line three marine leagues from coast, and in those waters Texas is empowered to control and regulate fishing. Atty. Gen. Crawford Martin has ruled.

In other recent opinions, Martin concluded that:
*In counties where the office of ex-officio county school superintendent has been abolished, a county judge serving in superintendent's role continues to be paid for the extra job until the end of the current term of office. Thereafter, he must perform those duties without pay.

*State can make lease and rental contracts for up to four years, contingent on availability of funds appropriated by the legislature.

When a married couple creates a valid joint tenancy agreement with a third party, including right of survivorship, inheritance tax is applicable on passing of the couple's interest.

WATER PROJECTS APPROVED
Texas Water Development Board found San Antonio River Authority eligible to seek \$900,000 in state aid to build a low water dam on Cibola Creek and

provide water supply to Karnes City and Kenedy. SARA also will seek a federal grant of \$915,000.

At the same time, Board extended for 120 days a \$1,700,000 loan commitment to the Upper Leon River Municipal Water District for facilities to take water from the Proctor dam reservoir to Comanche, De Leon, Dublin and Gorman, pending outcome of bid for a federal grant.

AIR SERVICE BROADENED
Texas Aeronautics Commission has given Fleetway Commuter Airlines a certificate to begin operations in eight locations and approved extension of Davis Airlines service to Houston.

Fleetway, a new company, will fly two routes: from Gregg County airport to San Antonio via Tyler, Waco and Austin and return; and from Tyler to Houston via the Gregg County Airport, Palestine and Nacogdoches and return.

Davis, which now operates between College Station and Dallas, was granted a permit for service between College Station and Houston.

Both companies had presented evidence showing the need for their passenger services on these routes.

MANPOWER
Texas Employment Commission reports that during April the civilian labor force in Texas continued to expand with an increase of 37,000 boosting the total to 4,204,300 at mid-month.

Non-farm employment 3,784,000, a record for April; and agricultural employment rose 18,800 — to 307,400.

There were 110,000 unemployed in mid-April, 4,000 less than were unemployed in mid-March. This put unemployment at 2.6 per cent of the total labor force.

SHORT SNORTS
Agriculture Commissioner John White reports that crops are making good progress in the eastern third of the state and conditions have improved in northwestern Texas, while South Texas and parts of West Texas that failed to receive rainfall continue short of plating and

growing moisture.
GOP State Chairman Peter O'Donnell Jr. has announced that Hilary Sandoval Jr. of El Paso newly appointed first assistant Republican state chairman, will head the recently created Latin Advisory Committee to the Republican Party of Texas.
Texas is one of seven states to participate in a new program sponsored by the US Defense Department to develop additional fallout shelter space.
Thomas M. Keel moved up from acting director to director of the Legislative Budget Board June 1.

Cattle Feeders Locate Offices

Amarillo — Jack Carrothers President of Texas Cattle Feeders Association announced today the establishment of association offices at 800 West 9th street in Amarillo, Texas. The offices are located in the new American Amicable Life Building.

In reviewing the progress of the new Texas Cattle Feeders Association, Carrothers said "membership applications are being received and he was pleased with the excellent sup-

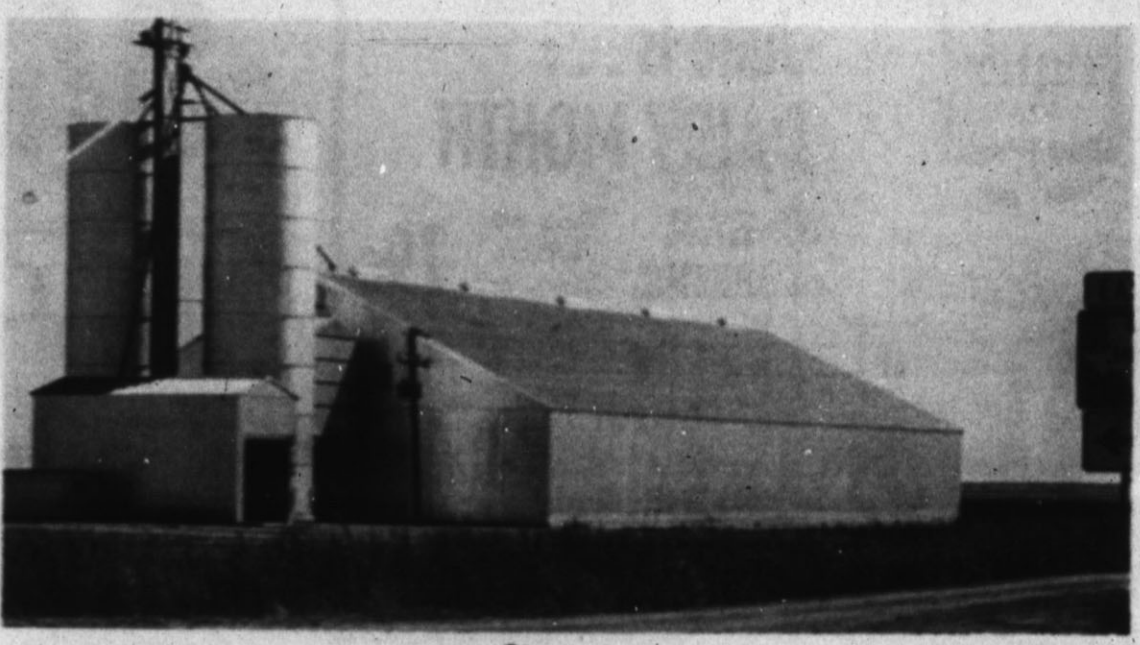

port the association is experiencing.
Membership in the Texas Cattle Feeders Association is available to all cattle feeders and a special associate membership is available to allied industries and others interested in the cattle feeding industry. Membership applications can be obtained by contacting association board of directors or the association office.
The association has completed arrangements with LFM News Inc., to provide members with a complete livestock, feed and meat market information wire system. Members will receive special rates for the LFM news

TAX MAN SEZ
If you were divorced during the year you need to consider service as well as a private market report prepared daily by the Texas Cattle-Feeders Association. LFM news, Inc., is a nation wide news gathering and in cooperation with the Texas Cattle Feeders Association will provide members with a prime source of the latest livestock, feed and meat prices.
Information regarding association membership and services provided through the association can be obtained by contacting Lloyd Bergsma, Executive secretary, at the association office.

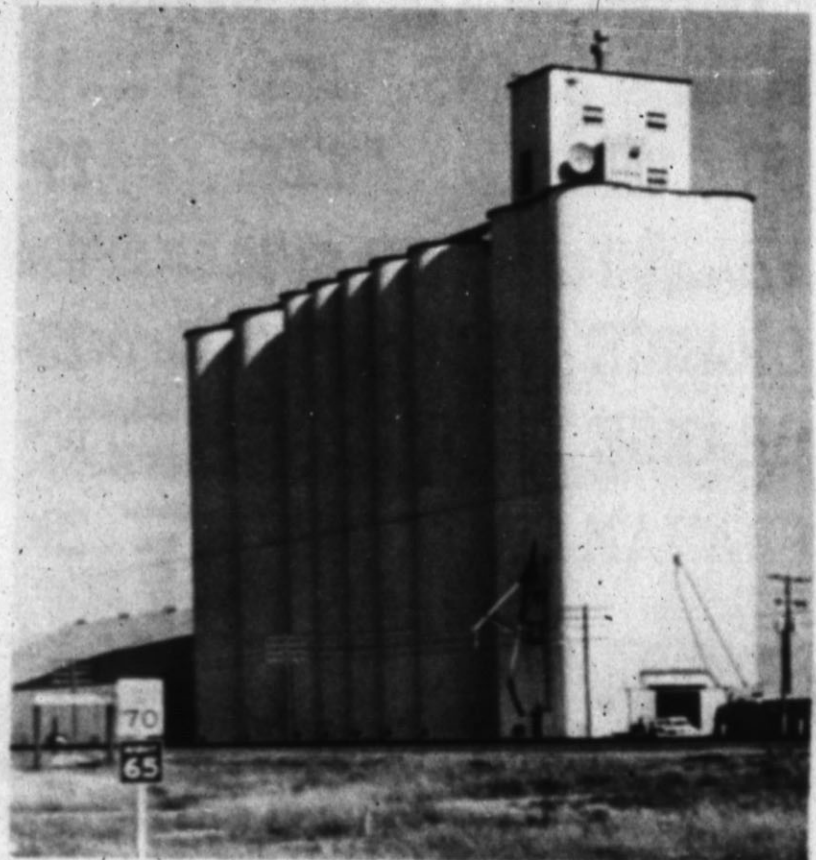

your income tax problems in settling your property. Each spouse is liable for the income tax on one-half of the income earned by both spouses up to the date of divorce. They are of course entitled to one-half the withholding credit for both spouses up to the date of divorce. After the date of divorce, each includes the separate income for the remainder of the year. If you don't get this settled as a part of the divorce you may have some additional problems with your "Ex."

John Tower Speaks Out

Israeli Victory Changed World As Well As U. N.

June has proved a tension-filled and exciting month thus far as all of us have worried about the Middle East war between Israel and the Arabs. It's probably too soon for us to relax, too, but I do think we need to take stock of the changes made and of their possible future impact.

It would be nice if the world could learn a few lasting lessons from the Middle East war.

but perhaps that's too much to ask. Nevertheless, the smashing Israeli victory has changed the world, and we will have to live with the new situation.

For one thing, the United Nations showed early in the crisis that it could do nothing to prevent the fighting. In fact, withdrawal of U. N. buffer forces at exactly the wrong moment allowed the belligerent armies to come face to face. Then, suddenly — when Israel won — there was hyper-activity at the United Nations; no less than three cease-fire resolutions; and great strivings for peace.

What happened in the United Nations and in the world cannot be explained solely in terms of Israel and the Arabs. It can only be explained by the activities of the Communist Soviet Union.

What we must always remember about the Soviet Union is that its declared foreign policy is one of agitation. The Soviets are engaged all over the world in stirring up trouble between other nations. They are dedicated to destruction of world order. They want chaos so that communism may triumph among the rubble of peace and trust.

So, the Soviets armed the Egyptians and egged them on toward aggression by constantly promising them full support and backing. Eventually, President Nasser took the Soviet-fashioned bit in his teeth and blockaded Israel's only Red Sea seaport.

This brings us to the thing we must always remember about the United Nations — which is that the U. N. Security Council can only do what the Soviets will allow it to do. That's because all the major powers, including

Russia, can veto any proposed Council action.

So, with Nasser's blockade in force, the United Nations was totally unable to prevent increasing tensions — because the Soviet Union wanted increasing tensions.

But — both the Soviets and Nasser miscalculated the strength of Israel and the speed with which Israel acting alone would strike to protect her trade interests and national security.

With the collapse of Arab assistance to Israeli forces, the tune quickly changed at the United Nations. It changed because the Soviet Union now wanted a cease fire fast to prevent total collapse of the Arab nations to which so much Red aid had been sent.

So, the United Nations acted to help end the war it had been powerless to prevent.

From the American point of view, it should be obvious from this Middle East exercise that we cannot count on United Nations help in any situation in which U. S. and Soviet interests and intentions are in opposition. Therefore, we never can rely on the United Nations as a substitute for a strong American foreign policy.

However, it is equally obvious that on those rare occasions when both the United States and the Soviet Union wish to end a brushfire war — for whatever separate reasons — the United Nations is a useful tool for proclamation of cease fire orders and for provision of truce observer teams.

Thus, this crisis has served to remind Americans that while they cannot count on the United Nations for everything, neither is the U. N. totally useless. If

we can thus view the U. N. in perspective, it still can be meaningful in complementing U. S. foreign policy.

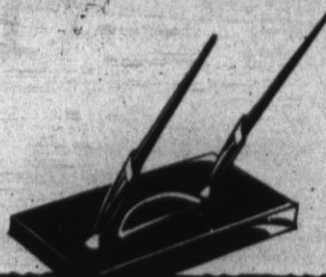

Right now, we must look to the future and toward some long and perhaps bitter negotiations between the Arabs and Israel. Having watched its agitation goals drowned in Arab military defeat the Soviet Union likely will seek to recover its position at the conference table.

I doubt very much that we can reasonably expect Israel to trust again a U. N. peacekeeping force or to settle for anything that does not guarantee her national right to exist and to enjoy free trade routes.

It seems desirable that the United States do what we can to help achieve a new stability in the Middle East. That requires us to take a fresh look at our policies in light of current events. The United States must base its policy not on the inflexibilities of a past rocked by three wars, but on the demands of the future for a new order of peace and stability in the Mideast.

Stability in the Middle East is in America's national interest. If new treaties and even new borders appear necessary to

Dear Sir:

When are we going to win this war in Vietnam — and why not?

Why fight the Communist in

achieve lasting stability, we must approach such suggestions with an open mind.

The peace and security of the world will remain under constant threat until lasting solutions can be found to the vexing problems of the Middle East.

Vietnam and help them everywhere else?

Right now the Administration is moving heaven and earth to bring about more so-called trade with Soviet Russia and all of its satellites.

Our boys are being killed by Russian bullets fired from Russian guns, while the Johnson Administration sends the Soviets wheat to feed those who are making the guns and the bullets.

In one recent year the Com-

unist regime in Poland gave our enemy Ho Chi Minh, in North Vietnam, thirteen million dollars taken directly out of the much larger sum which Washington had given to Warsaw. What kind of insanity is this?

Our bombers are regularly required to fly dangerous missions with only a small fraction of an effective bomb load.

Why are we fighting in Vietnam?

The answer most frequently given is that the U. S. is duty-bound and nobly determined to oppose Communist aggression — Then why pick Vietnam and Vietnam alone for this opposition? If this Administration or any other Administration did want to fight the Communists and save some other nation or people, why not run the beasts out of Cuba? Cuba is right at our doorstep, and a Communist regime there is infinitely more damaging and more dangerous to us than one in South Vietnam.

We are still the most powerful nation on earth. We have been spending forty to fifty billion dollars per year on our military preparedness. Under these circumstances is it possible that we cannot lick a puny bunch of half-starved guerillas in a

country the size of Missouri? Sincerely, Florence Traweck

Hereford Brand Hereford, Texas

Dear Sir:

My face is red! In my recent letter to the 1967 graduating class of Hereford High School, I made a statement for which I have been called to task by one of my former classmates.

I stated that my class of 1942 put our class monies in the bank to be used for future class reunions instead of buying something for our school. I remember that this course of action was discussed within the class. But I have been informed by a former classmate that this idea was abandoned, and in actuality my class used our money to purchase stage curtains for the high school.

I realize that this statement could very well be a source of embarrassment to those of my former classmates who still live in Hereford. I would like to use this method to correct my mistake publicly and to apologize publicly to the rest of my class.

Sincerely, Mrs. L. L. Baker

VC WEAPONS — Captured Viet Cong weapons were displayed in the Rayburn House Office Building in Washington recently. Marine Corps Captain Henry Buse, right, explains the origin of the communist made sub-machine gun to Congressman Bob Price. The heavy machine gun in foreground was Russian built. Others were manufactured in Czechoslovakia, Yugoslavia and Red China.

Cotton Growers Spend \$32,000 For Research

Plains Cotton Growers, headquartered in Lubbock, announce that \$32,000 for High Plains cotton production research has been recommended by its research committee and approved by its finance committee. The board of the association will consider the recommendation with the rest of the 1967-68 budget later this month.

Almost 75 per cent of the total, \$23,900, is aimed at studies with three targets: (1) better quality, higher yielding varieties adapted to High Plains growing conditions; (2) cheaper and better weed control and (3) more effective disease control.

The twelve grants, divided between the South Plains Research and Extension Center, High Plains Research Foundation, The Texas Agricultural Experiment Station at Bushland, and Texas Tech, will be: (1) develop varieties and/or breeding stocks adapted to High Plains conditions; (2) control for cotton diseases; (3) control of annual weeds in cotton; (4) study of planting design and climatic influence on fiber development; (5) fatty acids as natural inhibitors of fusarial and verticillium wilts; (6) South Plains soil moisture survey; (7) evaluation of cotton strains and varieties for the High and Rolling Plains; (8) genetic, cultural and chemical

modification of the cotton plant; (9) conservation and utilization of rainfall and irrigation water; (10) comparison of water usage and yield on bench leveled and contoured sloping land; (11) chemical control of full season and early season weeds, and (12) soil fertility research.

Aid To Shut-Ins Is Club Topic

Ways to help shut-ins were discussed by Bippus Home Demonstration Club members at their recent meeting in the home of Mrs. C. F. Burk, who presided. Suggestions included aid in getting the shut-in started on a hobby and carrying it out, supplying books and magazines and plenty of visits.

Mrs. C. F. Homfeld, foods leader of the club, gave the program on Food Preservation, demonstrating methods of blanching and freezing squash and peaches, and preparation of eggs for freezing.

She reminded members that food is blanched to kill bacteria. She showed how to freeze fruit by using both dry pack and syrup pack methods.

This meeting was the last until Sept. 13, when Mrs. Phillip Miller will be hostess in her home. Visitors were Mrs. Shaeffer and Connie from Clovis, N. M. and Mrs. Jack Weaver.

Veteran pitcher Curt Simmons is the player representative for the Chicago Cubs.

FOR GOD SO LOVED THE WORLD

GOSPEL of HEALTH

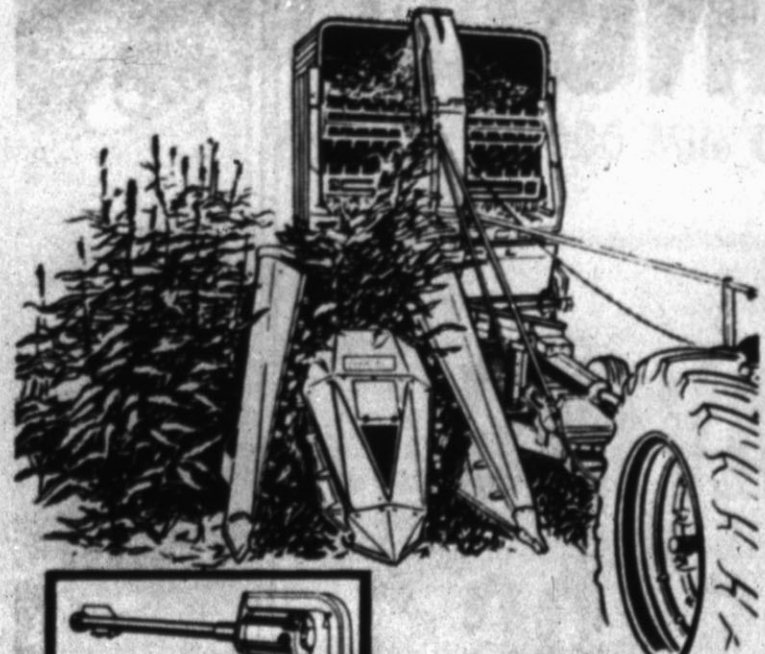

Christ cleansed the Leper and hope, instead of death, brought relief. Through the grace of God, Leprosy has been conquered. One by one the curses of disease and pestilence give way before the Christian Gospel of love and healing. Every good physician, every ministering nurse, every great hospital is a product of the healing ministry of Jesus... the Great Physician. Is your touch always a healing touch? Have you today tried to heal a hurt, to mend a heart, to lead a friend to church? Everyone of us ought to be some sort of missionary, or nurse, or healer of the hurts of those who cry for help. Oh, God, never let us add to the total of human misery and pain.

New! 10,000 RPM Portable Knife Sharpener... electric or gas models

Gehl Chop-All

for narrow or wide row corn

This year, you'll increase your profits in narrow row corn with the Gehl Chop-All. Narrow or wide row (2-row) corn head attachment lets you chop silage faster... saves you valuable time and labor. You'll get up to 28% more silage in your silo with the Gehl Chop-All. Reason: Gehl Chop-All gives you a shorter, finer cut than any other make. And Gehl's chrome-edged knives stay sharp longer — chop more tons of fine-cut forage faster. When quick touch-ups are needed... Gehl offers a new lightweight 10,000 RPM portable knife sharpener with adjustable guide to insure proper beveling of knife cutting edges, right on the machine. Come in today for a look at the new Gehl Chop-All. Financing available.

Recently Wed Couple At Home In Washington

Mr. and Mrs. Douglas Dwight McGee will be at home in Othello, Wash., after a trip to Las Vegas and other western cities which began after their marriage in the Church of Christ at Stinnett June 10.

The bride is the former Miss Susie Groves, daughter of Mr. and Mrs. Paul Groves of Stinnett, and the bridegroom is a former resident of Hereford, son of Mr. and Mrs. Floyd McGee, now of Pasco, Wash. Glenn A. Near, Church of Christ preacher, officiated at the wedding.

Mrs. V. J. Duncan of Graham was her sister's matron of honor. Bridesmaids were Mmes. David Bornstein of Canyon, Kenneth Reimer of Alpine, Robert Haseloff of Abilene and Miss Barbara Ann Smith.

Floyd McGee Jr. of Lubbock served as best man with Jim Kasshan, Charles Kelley, Jerry Bybee and David Dowell, all of Hereford, as groomsmen, Rob Groves of Bushland and Troy Don Moore of Lubbock as ushers.

Tapers in arched candelabra and down the church aisle were lighted by Buzz Britain and Alan Hardin. Flower girls were Kelly Gayle Groves of Bushland, niece of the bride, and Tynetta Green of Stinnett. Cody Duncan was ring bearer.

White gladiolus were arranged on tall standards tied with blue

ribbons, flanking candelabra and greenery as a background for the wedding party. Miss Sheryl Wilbanks, organist, played traditional selections and accompanied the soloists, Miss Betty Bergner of Stinnett, and Miss Connie Kent of Hereford, who joined in a duet version of One Hand One Heart.

Given in marriage by her father, the bride wore a gown of white peau de seie with Watteau train, the empire bodice overlaid with Chantilly lace embroidered with pearls. Her veil fell waist length from a cluster of silk organza roses. She carried white roses and stephanotis on a bridal Bible.

Her attendants wore blue crepe dresses in empire style, floor length, and carried single white roses. The flower girls' frocks were miniature versions of these dresses.

Slate blue lace made the costume of the bride's mother, while Mrs. Floyd McGee Sr. wore a pink lace suit. Both chose white accessories accented with white rose corsages.

A reception in the Falcon Banquet Room followed the ceremony, with Mrs. Bob Groves of Bushland registering guests. Mrs. Jimmy Ruth Smith, Misses Mary Ann Austin and Sonya Sanford, all of Canyon, served the wedding cake and punch at the bride's table, which was appointed all in

white and blue carnations and white mums in a centerpiece.

The groom's table was arranged with an oriental theme using cloth and appointments from various countries. Troy Don Moore served the chocolate cake and V. J. Duncan the coffee.

Guests were present from a number of cities in Texas and other states. From Hereford, in addition to those in the wedding party, guests included Mr. and Mrs. Lee Kent, Mr. and Mrs. V. P. Walker, Mrs. Lloyd McGee, Mrs. O. L. Bybee, Mrs. Troy Moore, Steve Conway, Steve McWhorter, Alan Hardin, Miss Kima Marsh.

Pre-nuptial courtesies for the bride included a miscellaneous shower June 8 at the Falcon Room, with decorations in the wedding colors of blue and white. The bridegroom's parents were hosts at the rehearsal dinner the evening before the wedding, also in the Falcon Room.

The camel may become extinct. Predicts a gloomy Egyptian official: "Twenty-five years from now the number of camels in Egypt will not be worth talking about." The reason: trucks and airplanes are replacing them. And some Egyptian gourmets have developed a taste for camel cutlets.

Virginia Newberry went with a group of Woodman of the World lodge young people, from Hale Center to Ft. Worth to Six

Frio News

By MRS. OWEN ANDREWS
Brand Correspondent

Rain and spotted hail fell in this community Thursday night. Amounts varied from 1/2 and over at the following locations: the Floyd Coles, the Robert Dobbins, Joe Andrews, Jim Brooks, Carlton Dobbins, Harvey Manleys, and a little over an inch in the area of the county line on Farm road 1055. This is the most rain in this area since last September. Pasture grass has not even greened up this spring.

Mr. and Mrs. Henry Andrews, Miss Alma Andrews, Mr. and Mrs. Charles King, Amarillo, and Mr. and Mrs. Ray Rogers of Loco, Okla. spent the weekend at Conchas Lake at the Andrews Lakeside cabin. The Rogers were visiting their relatives in the area for several days.

Virginia Newberry went with a group of Woodman of the World lodge young people, from Hale Center to Ft. Worth to Six

Flags, leaving on Tuesday and spending the remainder of the week.

Mrs. Sam Ogan and Debbie left Thursday afternoon to spend a few days visiting Mrs. Ogan's relatives in the Stephenville area. They expected to have a family gathering during the weekend at Glenrose.

Mr. and Mrs. Domingo Medrano and children returned home Monday after spending the weekend visiting relatives at Eagle Pass. Medrano's parents and others from Mexico met them there and a brother came home with them for a few days visit.

Visiting their relatives here, Tuesday through last weekend, were Mr. and Mrs. Raymond Mobley and family. They had also been to Wichita, Kan. to visit Mrs. Mobley's sister and others. While here they visited his mother, Mrs. H. M. Mobley, in the Floyd Cole, Don Mobley and D. C. Miller homes and other members of the family attended the gatherings in each home. A sister, Mrs. Earl Reno and Mr. Reno, of Midland came during the weekend to be with the family. Mrs. Reno is the former Dorothy Mobley.

Attending the funeral on Sun-

day for a cousin, Mrs. John Luna, at Ft. Sumner, N. M. were H. D. Robbins, Mr. and Mrs. Frank Robbins, Mr. and Mrs. Weldon Stephan, and Mr. and Mrs. E. H. Little. Mrs. Luna, 78, was a pioneer school teacher in that area, having lived there during the "Horse and Buggy" days and being a pioneer teacher during that time.

Mr. and Mrs. Benito Martinez, Marcella, Willie, Arthur and Norma returned home Tuesday after a two and a half week visit with relatives in their hometown, Monterrey, Mexico.

Mrs. Z. P. Pilgreen came Thursday to spend the remainder of the week visiting her granddaughter, Mrs. Joe Andrews, and family.

Commencement for Bible School was scheduled for Friday evening. A total of 150 were enrolled in the school, with an average attendance of about 130.

Olin Parris, accompanied by his mother, Mrs. H. A. Parris, Lubbock, and other relatives flew to Pierre S. D. Wednesday, to attend funeral services held on Thursday for Joe Poindexter. The service was in First Methodist Church there. Mr. Poindexter, 71, was a brother to Mrs. Parris. He was also sur-

vived by his wife, a daughter, Miss Sandra Poindexter, Kansas City, two sons, T. J. Rhee Heights, S. D. and Harry, Miller, S. D. Poindexter is a former Hereford resident, and also lived at Tahoka, New Home and Stanton on the South Plains. He died on Tuesday after a long illness.

A 160-million year old set of footprints can be seen in Rocky Hill State Park in Connecticut. They belonged to a dinosaur known as Anchisauripus, of the Triassic period, and were uncovered by a bulldozer excavating for a highway department laboratory.

SEND HOME A BOX TOP - ALBUQUERQUE, N. M. - A C-rations box top, turned postcard, was received recently by an Albuquerque family from their son who is in Vietnam.

Marine S. Sgt. Tony Salazar was on field duty from a source of stationery.

On one side of the box top received by Mr. and Mrs. J. M. Salazar was written: "Meal, Combat, Individual, Ham and Eggs, Chopped, B-3 unit."

On the other side was this message: "Doing fine, am out in the field. What do you think of my writing gear." and the Albuquerque street address of his parents.

PROMOTED BY THE HEREFORD LIONS CLUB

Washington Report

From Congress

BOB PRICE 10TH DISTRICT, TEXAS

1222 LONGWORTH OFFICE BUILDING, WASHINGTON, D. C. 205-2706

The futility of the U. S. "soft line" toward communist-bloc nations was dramatically emphasized by recent events in the Middle East.

Years of diplomacy and billions of dollars in foreign assistance efforts apparently went down the drain with the rapid collapse of Nassar's United Arab Republic, although the U. S. carefully avoided any direct participation or involvement.

The Soviet Union is well aware too, that neither the U. S. nor Great Britain had anything to do with Israel's lightning attack on Arab airfields. Our aircraft carriers were hundreds of miles from the area and under close surveillance of Soviet ships.

But the Russians will, as usual, accuse us along with the Israelis of aggression during the crisis session of the General

Assembly of the United Nations. And already Libya has demanded liquidation of our air Force Base which represents a \$72 million investment, Yugoslavia, who we have so generously aided and India who demands that we feed her starving millions say they "share identical views" on the Middle East and charge that the United States and Britain are solely to blame for the crisis there.

Furthermore, we can expect little relief from continuing world tensions from the UN debate of the crisis. The Soviets will attempt to salvage what world prestige they can from the Arab disaster they were so instrumental in provoking. So let us hope that our response will be firm and that we will counter the communist propaganda barrage with an insistence that the blame be placed where it

belongs as far as aggression is concerned.

The Israelis obviously had little choice but to attack if they were to survive the combined threats of an overwhelmingly superior force by which they were surrounded and whose intent to annihilate them had been made perfectly clear. A man with a cocked gun pointed at him has little choice but to fight for his life.

After the UN "peace-keeping" force had been hurriedly withdrawn at the insistence of Nassar at exactly the wrong time, it was obvious that the UN could do nothing to prevent the armed conflict that was inevitable.

For the past six years and particularly under the present Administration, the U. S. has extended extensive aid to the United Arab Republic and some of

it after Nassar had told us to take our foreign aid and go jump in the lake.

This included:

More than \$900 million in food-for-peace aid.
More than \$25 million in commercial guarantees for the United Arab Republic.
More than \$63 million in letters of credit for commodity shipment between June 1966 and January 1967.

Additional millions of dollars worth of military and commodity aid to other Arab nations.

Other commercial guarantees by the Export-Import bank include:

Iraq — \$14 million
Jordan — 2.6 million
Lebanon — 4.6 million
Saudi Arabia — 8.9 million
Sudan — 3.2 million
Syria — 3.4 million

The House added a Republican amendment to the Foreign Assistance Act of 1966 which required the President to report to the Congress within 30 days of his finding that aid to the United Arab Republic was in the best interest of the United States and that such aid would neither directly nor indirectly

assist in aggressive acts by the United Arab Republic. But since that time over \$1 million in

technical assistance foreign aid has been extended to the United Arab Republic — but no public report or announcement has been sent by the President to either the House or the Senate.

It should be obvious by now even to those who insist that we keep pushing our aid on those who are aligned with the communist bloc that the Russians have not changed their policy of agitation in the world and especially in a crisis such as this which we leaned over backward to avoid.

So while we furnished the Egyptians food and other assistance, the Russians armed them and egged them on until an overconfident Nassar pushed the United Arab nations over the brink of disaster. The Russians quickly changed their tune when Arab resistance collapsed and called for a cease fire to prevent total collapse of the Arab nations and asked the UN to end a war it had been powerless to prevent.

Let us hope now we will stand firm in the face of Soviet face-saving efforts and possibly by so doing convince the Russians and the world that any true and meaningful peace in the world will come only when they change their policy of stirring up trou-

Ruidoso

William Rock Sets Feat Of Five Wins

Irish-born William Rock proved to be a mud rider deluxe at Ruidoso Downs Friday.

Rock was listed to ride five horses, on a day that started in sunshine and ended up in pouring rain.

But Rock didn't let the elements deter him as he scored five straight wins before missing out on his sixth, which he accepted at the last minute as another rider took off.

All five triumphs came with off the pace efforts. Rock scored in the first race, abroad lady Finesse, coming from eighth place to win the six furlongs race by two lengths. Win number one came on a fast track.

The rain was beginning to fall and the track was sloppy as Rock piloted Timmy's Fist from third place to win the eighth

place between other nations and add their efforts to ours in making the UN a real peace-keeping body of nations.

The Hereford Brand, Hereford, Texas, Thurs., June 22, 1967

Cronin Receives Ph.D. At Oregon

OREGON STATE UNIVERSITY — John T. Cronin II of Hereford, Texas, received a doctor of philosophy degree from Oregon State University last week.

A total of 2,464 degrees were conferred by OSU at its 98th annual commencement. There were 1,791 bachelor's degrees, 875 master's degrees, 95 doctor's degrees, and 3 professional engineering degrees. The graduates represented 43 states and 28 foreign countries.

Most airplanes need 10 to 30 man hours of maintenance for each hour in flight.

Holly Stockholders Rename Directors; Dividends Up

COLORADO SPRINGS Colo. — Stockholders of Holly Sugar Corporation today re-elected its present board of directors, according to Dennis O'Rourke, chairman of the board and chief executive officer, who presided at the 62nd annual meeting of stockholders held in the new Holly Sugar Building in Colorado Springs. Immediately following the stockholders meeting, the directors re-elected all officers of the corporation.

Directors re-elected included: Edwin F. Blair, Henry C. Breck, and John L. Loeb Jr. of New York City; John Evans of Denver, Colo.; B. Barret Griffith and Russell T. Tutt of Colorado Springs, Colo.; Ben H. Slothower of Salt Lake City, Utah; Dennis O'Rourke, chairman and chief executive officer and John B. Bunker, president.

The re-elected officers are: O'Rourke; Bunker; Joseph A. Ash, vice president and treasurer; Marlin C. Chenburg, vice president — sales; Dr. C. M. Nicholson, vice president — marketing; Guy O. Rorabaugh, vice president — operations; Glen W. Yeager, vice president — agriculture; and John B.

Evans, secretary and general counsel.

Stockholders voted to create a new class of preferred stock and empowered the board of directors to issue up to 2,000,000 shares of this preferred stock. The board indicated that it would use the new preferred stock to further corporate growth, but has no present plans for issuing any of the preferred stock.

Stockholders also approved a new by-law allowing the board of directors to increase the number of board members by resolution and approved the re-appointment of Haskins & Sells as auditors for the current fiscal year. The directors of the corporation have announced their intention of electing as an additional director, Thomas S. Moon, president of the first National Bank of Colorado Springs. John B. Bunker, president of Holly Sugar Corporation, reminded the large turnout of stockholders of the financial results of Holly's most recent fiscal year as reported in the annual report released on May 5, 1967. Net income (excluding the investment tax credit) for the fiscal year ended March 31, 1967 totaled \$3,747,000 an increase of 8% over the \$3,459,000 (excluding the investment tax credit) earned during the previous fiscal year (\$2.80 per share over \$2.63 per share).

In February, Holly's directors increased the quarterly dividend to \$3.30 per share, up from the earlier level of \$2.25 per share. Bunker noted that the corporation's dividend had doubled in the past eight years and that the corporation has paid dividends continuously for the past

36 years.

Bunker also reported that the Corporation's previously announced plan to concentrate northern California operations at one large new California factory had been reconsidered in light of changed California conditions. The corporation is now planning substantial enlargements and improvements at its existing northern California beet sugar factories.

Bunker noted the recent increase in the U. S. Department of Agriculture's estimate of national sugar consumption and indicated that the increase in this estimate by some 200,000 tons would mean an increase in the beet sugar quota of 95,333 tons.

The new beet sugar marketing quota would be at a level of 3,120,333 tons. Bunker reported that this was the first time the beet sugar quotas had been increased over the statutory minimums established by the 1965 Sugar Act amendments.

Bunker also reviewed with stockholders current agricultural, factory, marketing and research conditions.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

LUBBOCK — Gross value to farmers from 2,122,770 acres of cotton allotments in the 23 counties surrounding Lubbock and represented by Plains Cotton Growers, Inc. came to \$257,922, 510 in 1966.

This is the figure arrived at by John J. Seibert, area extension farm management specialist, working with the PCG staff. It includes producer income from lint, seed, and both price support and acreage diversion payments under last year's cotton program.

In calculating lint value, Seibert used quality statistics published for each of the High Plains counties each year by PCG Per-bale prices for lint, on a 500-pound basis, ranged from \$72.76 to \$91.62 or from a little over 14.5 cents to 18.3 cents a pound.

Seibert says varietal differences plus the varying effects of adverse weather from county to county in 1966 accounted for the difference in prices received.

Total lint value of the 1,293, 700 bales (500 pounds gross weight) in the area was \$149, 885,258.

To that figure the value of cotton seed added another \$33,375, 000 based on an average of 800 pounds of seed per bale at \$65

per ton. Government payments finished out gross cotton income with another \$108,037,252 in the 23 counties. In this figure were included \$68,897,682 of price support payments and \$39,275,560 of payments for diverted acres.

Seibert says these figures are to be used in connection with the South Plains Development Program launched last year by the Texas Agricultural Extension Service. The program seeks to build producer income from all crops through yield and quality increases, reduced production costs and maximum diversification.

Another step toward improvements in cotton classing procedures was taken June 15 when representatives of Plains Cotton Growers, Inc. and other cotton producer and ginners groups met in Dallas with USDA officials.

Discussion centered around instrument classing of cotton in future years, but there were also assurances that USDA in 1967 would place added emphasis on the accuracy of its human classers, especially in the High Plains area where quality improvement is on the upgrade.

Stanley Rademaker, Director

of the Cotton Division of USDA's Consumer and Marketing Service, said extra care would be taken in the assignment of classers to the Lubbock, Brown field and Lamesa offices and that current plans call for double the number of classing supervisors.

A report on work in the field of instrument classing gave hope that instrument classing of cotton is closer at hand than many people realize and could be effected in the near future, according to Donald A. Johnson, PCG Executive Vice President, who represented PCG at the meeting along with J. D. Smith of Littlefield, President.

Johnson reported that at least one, and possibly as many as three, instrument classing "lines" will be set up this Fall in Memphis, Tennessee to evaluate both individual instrument and the system. He said all instruments which are sufficiently developed at that time will be tested in the lines.

Machines likely to be included are a combination colorimeter-trasher, length analyzers improved microneaire testers and possibly strength and uniformity instruments.

Another meeting with these same USDA officials and others is being planned for next spring when the results of this fall's operations, as well as the latest developments from other sources, are known.

"At that time," Johnson said, "we will be in a much better position to determine which, if any, of the instruments can be put into actual classing-of-fice operation in the fall of

1968." He pointed out that use of instruments to more exactly define the spinning value of cotton fibers will eventually be of great benefit to cotton producers. "And, incidentally, the use of instruments will have to be the result of producer and ginners efforts. No help at this time at least can be expected from other segments of the industry," he added.

Four people with definite interests in the future of High Plains cotton are now members of a USDA Agricultural Research Service committee named to evaluate and make suggestions concerning the work of the Southern Regional Laboratories at New Orleans.

Most recent additions to the Committee are Donald A. Johnson, Executive Vice President of Plains Cotton Growers, Inc., and James S. Parker who was Textile Consultant for PCG from 1962 until the beginning of 1966.

Parker is now Director of Technical Services for the American Textile Manufacturers Institute, Charlotte, N. C., but his experience with and knowledge of the High Plains cotton situation should prove valuable in his new appointment.

Already members of the committee were Dr. Earl Heard, Textile Professor and consultant to the Textile Research Laboratories at Texas Technological College, and Carl Cox, Director of the Cotton Research Committee of Texas.

The agricultural appropriation

bill recently passed by the House of Representatives in Washington earmarked \$1,018,800 for the advancement of three projects sponsored by Plains Cotton Growers, Inc., and of prime interest to the High Plains cotton industry.

Largest of the three was an appropriation of \$502,800 for continuance of the boll weevil control program which has prevented cotton's most dreaded pest from invading the High Plains area.

Federal funds in this program are matched dollar-for-dollar by area cotton producers and the Texas Department of agriculture. Its success has drawn nationwide interest as one of history's largest and most successful insect control efforts.

Another \$275,000 was allocated for research on utilization of short staple cottons and for studies of instrument classification of cotton. Texas produces some 90 per cent of the nation's cotton stapling under an inch, and of this the High Plains turns out almost half.

Donald Johnson, PCG Executive Vice President, "We have supported all this appropriation all along, pointing out to people in Congress and USDA that such work offers the best and most equitable promise for correcting the current oversupply of short staple cotton, and we are gratified that our efforts are to be rewarded."

The third appropriation, for \$241,000 is for staffing and equipping a new ginning research laboratory in Lubbock. Funds for the building to house the new facility were voted by Congress

Santa Fe Orders New Equipment

The Santa Fe Railway announced today it is releasing orders totaling \$25 million for cars, locomotives and maintenance equipment, according to John S. Reed, president.

The orders, part of Santa Fe's previously announced \$83.3 million capital expenditure program for 1967, include nine 3600 h. p. Diesel locomotives from General Electric; 200 open-top hopper cars from Greenville Steel Car Corp. and 35 hi-cube auto parts cars from Thrall Mfg. In addition, orders will be placed with car builders for 30 flat cars, 32 gondola cars and 200 89-ft. flat cars for piggyback and container service. Also, 30 flat cars and 62 mail containers will be ordered for passenger train service, and approximately 1,000 cars of various types are being built in Santa Fe's Car Building Shops at Topeka, Kan., and Cleburne, Tex.

Reed added, "Reinstatement of the 7 per cent investment tax credit will have an immediate beneficial effect in that our planning and placement of orders for 1968 deliveries need not be postponed until year-end."

last year, and bids for its construction are to be opened on June 27. Construction, expected to start in July, will be at the South Plains Research and Extension Center north of Lubbock.

Harborvale Stable's Summer Scandal, who won eight races in 1966, spent the winter at Middleburg, Va.

Bud Harrelson of the New York Mets and Ken Harrelson of the Washington Senators are NOT related.

Israeli-Arab Crisis Precipitates Oil, Cotton Cuts

United States Should Assume A Middle Role

By RALPH YARBOROUGH
United States Senator

The past two weeks the world has seen and survived an international confrontation that might easily have spread into World War III, extending war beyond the Middle East and bringing a nuclear war between nations. The showdown between the government of Israel and her Arab neighbors concerned all of us. It showed how quickly an old and smoldering disagreement can suddenly endanger all of humanity.

The Israelis have won an overwhelming and thorough military victory. Even the Israeli generals must have been astounded at the completeness of their amazingly quick victory — the victory with which their crack troops swept back Arab forces. But now the hardest battle — a battle for peace — looms ahead.

It is here that the United States can play its most important role.

I have watched during these past two decades, as Israel and the Arab nations have three times resorted to bloodshed. The Israelis are a proud and courageous people who have certainly earned their right to independence, their recognition as a nation among nations. The Arabs, proud people too, have been burdened by po-

verty and misled by the folly of their leaders. But the aggressive policies of the Arab have caused the Arab people pain and suffering. Perhaps they now will resist the lure of large, burdensome military forces and concentrate on education and internal development for their nation.

On June sixth, as the fighting raged along the Egyptian frontiers on the Sinai peninsula, I appealed on the floor of the United States Senate for an immediate ceasefire. I urged the United States to assert its dedication to an independent and free Israel. And I said that the United States must take the lead in the search for a lasting and real peace.

President Johnson has taken a step toward assuming that role. He has appointed a task force of top U. S. foreign policy advisers to explore the problem of long-range peace in the Middle East.

Under the rule of Premier Gamal Abdel Nasser the Egyptians and their allies among the Arab Nations are being taught to blame the United States for the Arab defeat and their radios blare out hatred for this country. In a recent broadcast Radio Cairo viciously declared: "The United States is the enemy. The United States is the hostile side in the battle. The

United States is the force behind which Israel is taking shelter. The United States is the enemy of the peoples, the killer of life and the shedder of blood." That was Nasser blaming the United States for the war that Nasser brought on when he said he was going to destroy Israel and its people.

We stood behind Israel, but did not intervene — and Nasser found that his belligerence toward Israel was wasted and fruitless.

Now it is time for a new Middle East, and the United States should help guide both the Israelis and the Arabs toward that day. Nasser has been badly beaten and his people disillusioned. We must show compassion and understanding for the rights of all of the peoples to avoid further flareups.

We must bring the two sides to a common table, encourage them to sit down together, and seek a middle ground. This will take statesmanship and wisdom. It will take leadership. And if the United States provides that leadership I believe that we can eradicate the Middle East tensions that otherwise will bring still more bloodshed. Unless the root causes for those tensions are removed, another war is certain.

It might not end as quickly as this one. The building of hatreds

breeds war. Peace is built on a mutual acceptance of peoples not on continued recriminations. The Middle East cannot bear the heavy burden of armaments that have been weighing it down. They must disarm and build their resources and their people with a free Gulf of Aqaba and equal passage to all nations through the Suez Canal.

Legal Notice

NOTICE OF SALE
THE STATE OF TEXAS
COUNTY OF DEAF SMITH

By virtue of an execution and order of sale issued out of the District Court of Deaf Smith County, Texas, on a judgment rendered in said court on the 30th day of January, 1967, in favor of Curtis Roach and against Dave Thompson, sometimes known or referred to as David G. Thompson, in Cause No. 5214, Curtis Roach v. Dave Thompson, in such court, I did on the 9th day of May, 1967, at 9 o'clock A. M. levy upon the following described property located and situated in Deaf Smith County, Texas, as the property of Dave Thompson, to-wit:

(a) Four hog feeders located on a certain 1.92 acre tract of land out of the east part of Section 60, Block K-3, D e f Smith County, Texas, described in a certain lease dated July 26, 1963, from Veterans Park Board to the said Dave Thompson, said lease being filed for record July 2, 1965, in the office of the County Clerk of Deaf Smith County, Texas, in Vol. 234, Page 328, Deed Records of Deaf Smith County, Texas;

(b) Wooden livestock pens, frame office building and scale room, Fairbanks-Morse 20,000 pound scales 2895R, and a 3/4 horse electric submersible pump installed in a well, all of said property being on that certain 1.92 acre tract of land out of the east part of Section 60, Block K-3, Deaf Smith County, Texas, more particularly described in that certain lease dated July 26, 1963, from Veterans Park Board to the said Dave Thompson, which lease is filed for record in Vol. 234, Page 328, Deed Records of Deaf Smith County, Texas; and

(c) All the leasehold estate and the rights and interests of the lessee created by lease from the Veterans Park Board to Dave Thompson dated July 26, 1963, recorded in Vol. 234, Page 328, Deed Records of Deaf Smith County, Texas, upon, covering and with respect to that certain 1.92 acre tract of land out of the east part of Section 60, Block K-3, Deaf Smith County, Texas, described as follows:

BEGINNING at a 3/4" iron pipe driven in ground 144.5 feet south of and 50 feet west of the northeast corner of Section 60, Block K-3;

THENCE South 79 degrees west 250 feet to a 3/4" iron pipe, THENCE South 335 feet to a 3/4" iron pipe in the north line of a road;

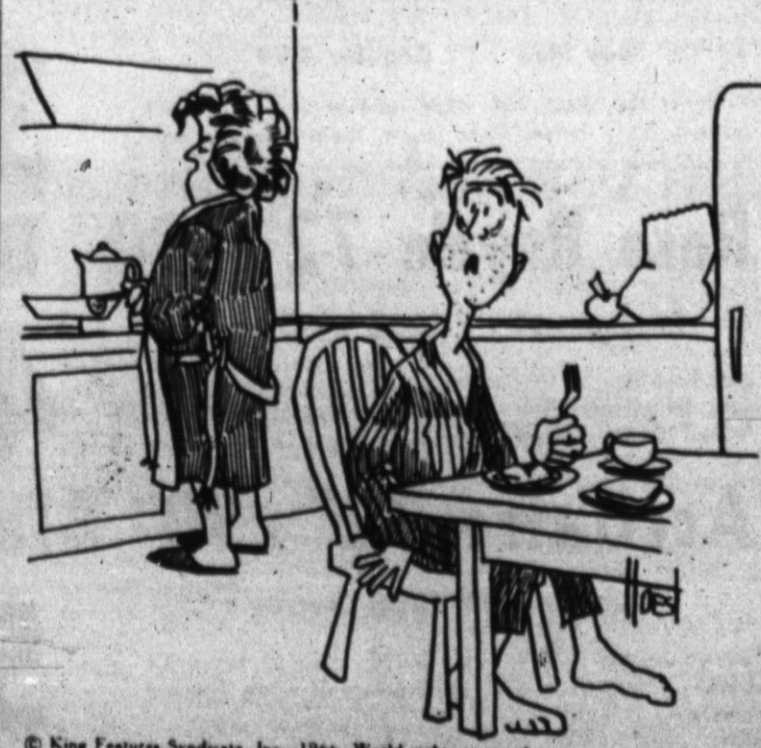

THENCE North 79 degrees east along the north fence

Texans Attempt To Bar Eastern Cotton

By BOB PRICE
UNITED STATES
CONGRESSMAN

Legislation to bar the importation of Egyptian extra long staple cotton into the United States, and permitting U. S. farmers to supply this market now enjoyed by Egypt, was introduced in the House today by Congressman Poage (D-Tex.), chairman of the committee on agriculture and by Rep. Bob Price, with the joint sponsorship of 23 other house members, including Rep. George Mahon.

"There is no use in denying our farmers the right to produce this cotton, and giving this market to those who trample our flag," Price said. He continued, "I have never understood the reason for importing extra long staple cotton when our own farmers are capable of supplying our need. In 1963 we produced 161,000 bales here in the United States. This year we will produce only about 71,000 bales. I think the American people would like to see some of this market returned to our own producers — especially in the light of recent events."

The legislation would close an Egyptian market in the United States amounting to around \$12 million to \$15 million annually.

The U. S. now permits the importation of 83,000 bales of extra long staple cotton each year, while restraining the domestic production of such cotton through acreage allotments. The new bill would permit an increase in production by American farmers to fill the market for some 69,000 bales previously supplied by Egypt. This would virtually double U. S. production which now amounts to around 70,000 bales a year.

Although the bill offered today does not mention Egypt, it is plainly aimed to stop the importations of Egyptian cotton. It would close U. S. markets to "raw, semi-processed, or processed extra long staple cotton which is the product of a country which has severed diplomatic relations with the United States during the one-year period ending on the date of the enactment of this legislation." It reduces the quota by the amount of cotton received from any such country during the 1964-65 quota year. In that year Egypt shipped 69,431 bales of extra long staple cotton into the United States.

Further, the legislation instructs the Secretary of Agriculture to "give domestic producers an amount of such extra long staple cotton equal to any reduc-

tion in supply which may result from" this enactment.

The present allotment for production of extra long staple cotton in the United States is 70,500 acres. This cotton is produced principally in Western Texas, New Mexico, Arizona, and California.

Price said there is no danger of short supply in the United States by cutting off Egyptian imports, as there now are stocks of approximately 200,000 bales in this country. The extra long staple cotton has a staple length of 1-3/8 inch or better. It sells in the United States for around 50 cents a pound, whereas most other cotton of shorter staple brings to farmers not more than half this amount per pound.

Installation of two officers who were unable to be present at the recent annual induction of new officers, was featured at a regular Order of Eastern Star meeting in the Masonic Hall recently.

Mrs. Wilton Green took office as organist and Mrs. Bob Bingham as Ruth. All officers were present at this meeting, when refreshments were served to 30 persons by Mr. and Mrs. Horace Baird, Mr. and Mrs. Tom Draper, Bobbie Metcalf, whose membership is in the Dumas OES Chapter, was a guest.

Installation In OES Completed

Installation of two officers who were unable to be present at the recent annual induction of new officers, was featured at a regular Order of Eastern Star meeting in the Masonic Hall recently.

Mrs. Wilton Green took office as organist and Mrs. Bob Bingham as Ruth. All officers were present at this meeting, when refreshments were served to 30 persons by Mr. and Mrs. Horace Baird, Mr. and Mrs. Tom Draper, Bobbie Metcalf, whose membership is in the Dumas OES Chapter, was a guest.

Specializing Is Bad For Athletes Warts Warns

Larry Wartes, athletic director and football coach at Hereford High School, urged the Hereford Rotary Club to support the school's athletics, "something any boy can participate in."

Wartes, who took the position in March, was speaker during the regular noon meeting of the organization Monday.

"Athletics in general," said Wartes, "is something in which any boy can excel, no matter which side of the tracks he is from."

"We need to be hungrier," stated Wartes. "I think the American boy needs to participate more in every sport. One of the greatest mistakes a boy can make is to specialize in one thing. That goes for education too."

"I also think it's a great mistake for adults to tell young boys to specialize when they are 14 or so. They have plenty of time to specialize," he emphasized.

"Since 1952," continued Wartes, "there have been 27 of our players on the All-State football team. Out of those 27, twenty of them now have college degrees."

"I guarantee that they couldn't have received a college education without some sort of financial help," he stated. "Their athletic ability got them through."

"I believe that any time the boys of your community get scholarships, you're receiving some return on the money spent on athletics."

Concluding, Wartes said the players must have the desire before they can excel. "It takes a lot more than a little guidance and boost from the coaches, school and town. They must have that desire."

Browns Attend CPA Conference

HOUSTON — Howard C. Brown and wife, Ruth, are attending the 52nd annual meeting of the Texas Society of CPA's and the 23rd annual Southern States Conference of CPA's. The two organizations are meeting in joint sessions at the Rice Hotel June 18-20.

Brown is a Certified Public Accountant for Brown, Graham and Glover in Hereford.

John Messenger is Elected to Institute
NEW YORK — John N. Messenger, CPA of Hereford, has been elected a member of the American Institute of Certified Public Accountants.

Messenger is a partner in the accounting firm of Steve Messenger & Co.

More Oil Destined From Texas Fields

By VERN SANFORD
Texas Press Association

AUSTIN — Railroad Commission authorized Texas oil industry to produce an additional 2,268,000 barrels of oil during the last two weeks of June in view of curtailed supplies from the unsettled Middle East.

Commission increased the June allowable from 33.8 per cent to 35.9 per cent, retroactive to June 1. This figure will permit maximum oil production of 3,112,191 barrel daily compared to current 2,992,236 barrels. Commission postponed setting an allowable for July, but another moderate increase is almost certain.

State officials, conscious of the legislature's special tax session looming next year, see a possible revenue windfall (which could reduce the new tax need) from the crisis-caused oil production jump.

With an increase from 10 to 13 days a month in production, there is no telling at this point how much the ultimate increase will be. Before the emergency situation, the oil production tax income for the coming year had been estimated at nearly \$140,000,000.

These factors figure in the magnitude of future allowable increases:

*Kuwait, Saudi Arabia, Iraq and Algeria have banned oil shipments to U. S. and Britain. Libya's production has been halted by a strike.

*Arabs want to nationalize their oil fields or call in Spain and France to develop their problem industry, replacing the U. S. and Britain.

*Suez Canal may remain blocked for several months. Thus any oil shipments would have to round the Cape of Good Hope. Trip would be longer and more expensive.

Interstate Oil Compact adopted a resolution calling for a 12.2 per cent limit on the ratio of imported oil to domestic stocks east of the Rocky Mountains. Experts say present situation demonstrates need for better government attitude toward domestic production and industry development.

If you flour chicken livers before sauteing, they'll have an attractive brown exterior. An easy way to do this is to put flour, salt and pepper in a brown paper bag, add the halved livers and shake well.

Rainbow Shades Form Setting For Wedding

The marriage of Miss Peggy Jean Allred and Royce Loveless, both of Wildorado, was solemnized in Palo Duro Baptist Church of that community in a late afternoon ceremony Tuesday with the Rev. V. L. Huggins, pastor, conducting the service.

Rainbow tinted dresses were worn by the bridal attendants, to blend with the summer decor of pink and white roses at the church altar. Baskets of the roses stood beside candelabra twined with green foliage, and there were bouquets of white mums at either side of the choir loft.

The bride is the daughter of Mr. and Mrs. Glenn B. Allred of Wildorado, the bridegroom the son of A. W. Loveless of Oklahoma City and Mrs. Loveless of Canyon.

Mrs. Jimmy Newton of Canyon, the bride's sister who was Miss Donita Allred before her marriage in late May, was matron of honor, dressed in orchid brocade.

Miss Joyce Loveless of Okla-

homa City, sister of the bridegroom, wore pale yellow brocade and Miss Shirley Simpson of Hereford, lime green. Hats were in matching colors, and each bridesmaid carried a long-stemmed white rose tied with white ribbon.

All the dresses were floor length, as were the forget-me-not blue frock of Miss Marilyn Hopson of Oklahoma City, candle lighter, and the tearose pink brocade of the flower girl, Sherri Perkins. Bill Fowler, cousin of the bride, assisted in lighting the candles.

The bridegroom's brother, Bill Hopson of Oklahoma City, was his best man. Roddy Allred, brother of the bride, Tommy Jarnagin, John Sublett of Hereford and Robert Koch of Umbarger were the groomsmen.

A string of pearls worn by both her mother and grandmother at their weddings, and gold earrings which were the bridegroom's gift, were items of sentimental note in the bride's costume.

Her portrait gown, the wide

skirt formed of tiered ruffles, was of Chantilly lace over bridal satin. Scallops of lace outlined the wide neckline of the long-sleeved figurine bodice, as they edged the skirt ruffles which rounded into a slight train at the back.

Her illusion veil, caught to a coronet of pearls and iridescent sequins, was bordered with lace. The bridal bouquet of pink sweetheart roses was placed on a white Bible.

Miss Mary Lynn Gibson of Hereford sang Because, The Twelfth of Never and Wedding Prayer, accompanied by Mrs. Sam Long of Hereford, organist who also played the marches.

The Allred home was the scene of the wedding reception, at which pink punch was served with the white wedding cake decorated with pastel rainbow-colored flowers. Pink roses were arranged with candelabra as a centerpiece.

For the honeymoon trip to New Mexico, Mrs. Loveless wore a gold and white linen suit

The Hereford Brand, Hereford, Texas, Thurs., June 22, 1967

with gold accessories and a corsage of roses from her wedding bouquet. After June 27 the couple will be at home south of Wildorado, where the bridegroom will farm.

Both plan to continue studies this fall at West Texas State University, Canyon. The bride is working toward a BS degree in nursing while Loveless is an agricultural business major. Both are 1966 high school graduates, she at Hereford and he at Canyon.

YES, ELEVATOR FAILURES
SANTA FE, N. M. (P) — The New Mexico State Senate, in legislative session, took up construction and maintenance deficiencies of the new Capitol Building in Santa Fe.

State Rep. John Mershon, Cloudford Democrat, was explaining to the Senate the various deficiencies including non-fitting doors and locks, broken chairs, malfunctioning clocks and elevator failures?

Elevator failures? While the Senate was voting on the House's housekeeping bill, State Sen. C. B. Trujillo, Taos Democrat, was locked in a stuck elevator. State Police got him out.

DIVIDED CLAY FAMILY
FRANKFORT, Ky. (P) — Of the five grandsons of Henry Clay, a native of Kentucky, three were CONFEDerate and two Unionist.

Kiwanians Will Attend Confab

Mr. and Mrs. Dean Herring, and family, and Mr. and Mrs. Bobby Owen, and family, representing the Kiwanis Club of Hereford, will attend the Fifty-second Annual Convention of Kiwanis International in Houston, Texas, June 25-28. The convention will emphasize the rapid expansion of Kiwanis in nations abroad, and the 1966-67 theme, "Quality Leadership, Key to the Future."

Approximately 18,000 people, Kiwanians and their families,

will attend. They will represent more than 275,000 Kiwanians in 5,400 clubs in the United States, Canada, Mexico, the Caribbean, Western Europe, the Far East, and Central America. Convention sessions will be held in Houston's Sam Houston Memorial Coliseum.

Work to be accomplished at the convention includes the election of officers for 1967-68. . . a president, president-elect, two vice-presidents, a treasurer, and six trustees; recognition of the

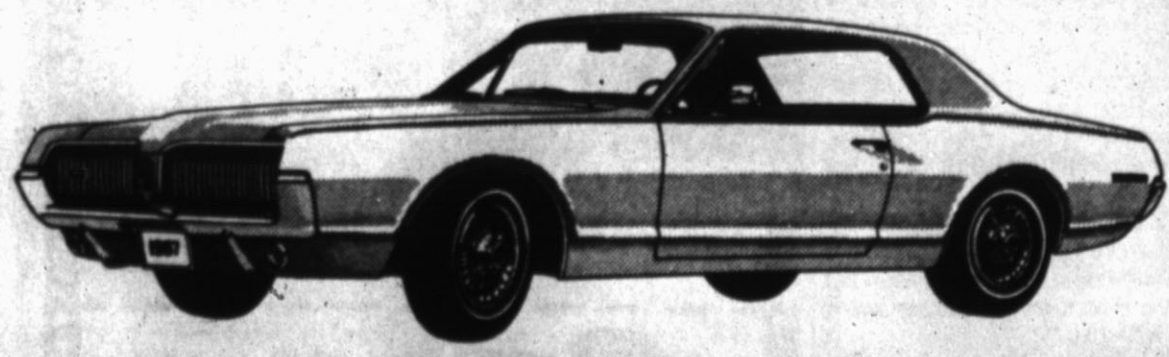

clubs and districts throughout the organization adjudged tops in community service work and over-all excellence; and the adoption of resolutions upon which the organization's 1967-68 community service program will be based.

The mushroom is synonymous with good cuisine in Paris. Hundreds of miles of mushroom beds thrive in caves, tunnels and sheds in the suburbs, the National Geographic says. The average Frenchman consumes about two pounds of mushrooms a year.
