Higher Rates On Mail Will Become Effective Jan. 7

Increased rates for all classes of mail except parcel post and international mail will go into effect Jan. 7, Hereford Postmaster Nolan Grady reminded postal customers today.

"Even with the new rates of six cents for first-class mail and 10 cents for air mail, postal service is still a real bargain," Postmaster Grady declared. "For six cents you can send a letter to any of the 50 States, to any United States territory or possession, to Canada or Mexico, or to an American serviceman stationed anywhere in the world."

Postmaster Grady pointed out that the new rate for post cards will be five cents and for air mail post cards eight cents.

He said the added cent in the letter rate is a 20 per cent increase compared to a 24 per cent boost in the rates for mailing newspapers and magazines and 34 per cent hike for

advertising circulars, "occupant" mail, and other material in the third-class category.

The new rate of six cents per ounce for first-class mail applies up to 13 ounces and the new rate of 10 cents per ounce for air mail applies up to 7 ounces. Under the new rate structure all first-class mail over 13 ounces and all air mail over 7 ounces will be merged into a single category.

These heavier pieces of first-class and air mail subject to the single rate schedule will be delivered by the fastest available means of transportation.

A flat rate of 80 cents will be charged for all mail in this category up to one pound. For all mail weighing more than one pound, the present air parcel post rates will continue to apply, except that the postage on matter weighing between one and five pounds will change at half-pound intervals rather than one pound intervals.

Grady said that the new rate structure will mean a reduction of postage on some parcels.

Another rate change that will affect the general public is the increase from four to six cents for the first two ounces of individual pieces of third-class mail. Unsealed greeting cards may be sent at this rate. Postmaster Grady said.

He emphasized that the new rate on unsealed greeting cards will not go into effect until January 7 and until then they can be mailed at the old rate of four cents.

Grady also noted that effective January 7, special handling will be available for third-class parcels weighing between eight and sixteen ounces. Special handling has not been available on these parcels since 1958, when packages weighing between eight and sixteen ounces were transferred from fourth to third-class mail.

There will be no changes in the charges for special delivery, special handling, registered mail, certified mail, cash on delivery or insurance, Grady said.

"We have an ample supply of

one-cent stamps on hand," Postmaster Grady said, "for those people who have five-cent stamps and need one-cent stamps to make up the postage required under the new rates."

Higher rates also will go into effect Jan. 7 for all categories of second-class mail, bulk-rate third-class mail, controlled circulation mail, and the educational materials category of fourth-class mail. Mailer using these classes who need information on the new rates should contact the local Post Office, Grady said.

Mrs. Joe Brooks Dies Wednesday

Mrs. Donna Brooks, former elementary school teacher in Hereford schools and wife of former high school coach Joe Brooks, died Wednesday morning in an Amarillo hospital following several months illness.

Mrs. Brooks and her family had flown to Silverton over the holidays to visit with relatives there and became seriously ill Monday morning. She was taken to an Amarillo hospital where she died Wednesday.

Mrs. Brooks, who was in her early 30's, had been ill with multiple sclerosis since the family had moved to Bilton earlier this year. The family had lived here since 1960, when Brooks became assistant football coach and track coach at Hereford High School.

A native of Silverton, Mrs. Brooks graduated from West Texas State University along with her husband in 1957. The couple had married while in college.

Survivors of Mrs. Brooks include her husband and two sons, Mark and Kelly.

Funeral services, to be held in Silverton, were pending at press time Wednesday.

ANOTHER FRONT HITS — Hereford residents awoke Wednesday morning to the tune of low temperature and light snow as another cold front moved through the state. One sure sign of the wintery weather is the clothing, and the photographer found that persons hurrying to get their mail wore plenty of that.

Retirement Plans Of R. J. Cramer Include Long List Of Activities

By TYLER VANCE
Staff Writer

For a number of years, R. J. Cramer has been planning for the time when he would retire. Now, with his 65th birthday coming in just over a month, Cramer has almost finished his retirement plans.

Ever since Cramer was a boy, he has been interested in violin music. He owns a 203-year-old Stainer violin, given to him by his grandfather. The valuable violin was made in Germany in 1761. Cramer started taking lessons when he was 11 years old. After high school he played in several theatres and for dances. He even had his own band several years ago. But Cramer's musical ability is only a part of his retirement plan.

A visitor to the Cramer home around 5 p.m. each day will find the Hereford resident watching the newscast on television. "I am very interested in world affairs," says Cramer. It is

this interest that prompts him to write "in depth" reports of the world situation, and pressing problems of the time. So far this year, Cramer has written articles with titles such as, "Let's Make Democracy Popular," "Crime in Entertainment," "Inflation 1967," "Thirty Years of Federal Management," and just completed last week, "Our Abandonment of Ancient Values." But these, too, are only a part of his retirement ambition.

Three years ago, Cramer purchased a 4-track stereo tape recorder. This, combined with his writing and music, are the tools he plans to use to make his after-65 life interesting and worthwhile.

First, after careful research, Cramer types his "in depth" reports and revises them. Next, using his tape recorder, he reads the reports, and tapes them. Sometime in the future, he hopes to send these tapes, to be played back to church and civic groups

on request; anywhere in the U. S. Already, scores of tapes fill the drawers of his study. Some of the tapes are of musical selections. This is where the violin comes in. The musician records a record or someone's accompaniment for background music. Then, donning earphones to listen to the pre-recorded music, Cramer blends in his concerto violin, and plays the melody. The result is a stereophonic reproduction of both record and violin, blended together just right.

Cramer was born in Martinsville, Ind. in 1903. His parents came to the U. S. from Germany. Cramer completed high school, and then put his musical ability and violin knowledge to work. At the same time, Cramer started in his present profession, that of interior decorator. "I've had my own business for 52 years," noted Cramer. I started when I was 19, and saw a lot of others go broke, but I'm still here."

Cramer came to Hereford in 1950, and set up his shop here. He and his wife reside at 122 Catalpa St.

Cramer's intentions in writing and recording the reports he does, is to bring things to public light. The 25-minute tapes contain facts gained through careful research by Cramer. Among his many sources are television, newspapers, and magazines. "The average man doesn't know what's going on," says Cramer.

During his lifetime, Cramer has had quite a few experiences. One of them he feels sure he will never forget. He told it this way:

"I was just about 20 years old at the time, and I answered an ad at the Gaiety Theatre in Indianapolis. They were looking for a young violinist to play for their burlesque show. So, I went to see the producer, who gave me a piece of music to play. I did and he thought I'd be alright. I came the next Monday and practiced all week with the musicians for the Saturday night show.

"At that time, the orchestra sat in a pit just in front of the

stage, and that's where I was on Saturday night. Everything went fine through the show, then came the Grand Finale. All of a sudden I looked up and right in front of me was a girl on the stage trying to take everything off! Well, stage hands were trying to pull her off the stage, and policemen were coming down the aisle of the theatre. Of course it was all part of the act, but I didn't know that. My mouth flew open, and my bow stuck to the strings. I just stood there watching the show in front of me. Then I realized the tuba playing a familiar note, and I knew what had happened. I tried to catch up, but I ended up seven bars behind on the last page. The next day I was paid by a rather upset producer. I didn't fiddle for a while after that!"

After that experience, Cramer got a job at a community theatre, performing with an aged lady who played the piano. He worked from 7 a. m. until 6 p. m., and from 8 p. m. until 11 p. m. playing the violin. The local violinist's talent hasn't dwindled over the years, as he presented a program at the Deaf Smith County Museum on Dec. 17.

Cramer's highest ambition is to have some sort of radio or television program, where he could play back his reports.

Funeral Rites Of W. T. Vernon Are Conducted

Funeral services for William Thomas (Shorty) Vernon, 56, who died in a hospital here Sunday after a short illness, were conducted Tuesday afternoon in Grace Gospel Church by the Rev. H. V. Fields, pastor.

Mr. Vernon, whose home was at 442 Ave. A, had been a Hereford resident since 1947, when he came from Amherst. He owned and operated a shoe repair shop.

Born Sept. 11, 1911, in Rains County, he married Minnie Lee Steedum at Amherst in 1947. He was a member of the Methodist Church.

Surviving are his wife; three daughters, Mrs. Evelyn Rutherford and Mrs. Terrell Jean Carter of Hereford and Mrs. Bobby Ellis of Midland; his mother, Mrs. Vivian Vernon of Hereford, and ten grandchildren.

Burial was in West Park Cemetery, directed by Gilliland Funeral Home. Pallbearers were Jack Curtis, Dewey Ellis, L. F. Carter, C. O. Wilkins, L. M. Lefel and Albert Farris.

maybe once a month. "World affairs are daily or weekly things," says Cramer. "If I write about something in world affairs today, it might not be important next week."

Following are excerpts from some of Cramer's reports:

"People don't want to work and earn the better things of life, they demand them."

"The concept of victory without pain, prosperity without work, luxury without effort, something for nothing is unrealistic. The thought is wonderful, but is an illusion — an adolescent dream.

The America we know and want and love does not, cannot and will not live on unreality."

"For the first time I am ashamed of some of my fellow Americans. I am ashamed of the draft dodgers-the draft card burners-the youngster who lives in fifth-the puppets who follow (See RETIREMENT, Page 2)

Medallions Are Presented To 3

The highest honor that could be given to Camp Fire Girls, the Wobelo Medallions, were presented to three Hereford young women at a dinner Wednesday evening, with the Camp Fire Board serving as hosts.

The Medallions were presented to Jean Roberson, daughter of Mr. and Mrs. Edward Roberson of 137 Greenwood; Charlotte Hill, daughter of Mr. and Mrs. O. G. Hill of 122 N. Texas, and Mr. Keith Henderson, who was Cynthia Knox before her recent marriage, and is the daughter of Mr. and Mrs. Marvin Knox of 126 Greenwood.

Dinner was served at the Caslon house with the three girls and their parents as honor guests. Mrs. Wayne Thompson was in charge of arrangements.

City Residents Are Careful, 3 Wrecks Over Weekend

Only three traffic accidents were reported in Hereford over the Christmas weekend as local residents did their part in national safe driving campaign.

The first accident occurred about 12:55 p. m. Saturday on 25 Mile Avenue, about 250 feet north of Mormon Street. Involved were a 1961 Ford driven by Rita Duncan of Route 5 and a 1963 Chevrolet Corvair driven by Joann Ferguson of 217 Ave. D.

Both vehicles were being driven north on 25 Mile Avenue and one driver had stopped in the inside lane waiting for traffic to clear so she could make a left turn. The other vehicle did not observe the first car stopped and struck it from the rear.

There was an estimated \$65 damage to the Duncan vehicle and \$200 to the Ferguson car. A citation was issued for caus-

ing a negligent collision by following too closely.

S. 25 Mile Ave. and W. 2nd Street was the scene of the second accident at 11 a. m. Sunday. Involved were a 1960 Ford driven by Alfonso Fuentes of Walsh, Colo., and a 1966 Chevrolet driven by Jose Grego of Hereford.

Both vehicles officers were told, were going north on S. 25 Mile Ave. when one driver made a right turn into the path of the other car. There was an estimated \$150 damage to the

Fuentes car and \$250 to the Griego vehicle.

Two tickets were given one of the drivers — for having no drivers license and causing a negligent collision by improper turn from the wrong lane.

The third accident, occurring at 9:05 p. m. at Grand Avenue resulted in about \$100 total damages.

A 1965 Dodge driven by Gilbert Alaniz Jr. of 601 Austin and a 1967 Chevrolet owned by Jerry McIntire of 1106 Grand Avenue were involved in the accident.

The Dodge was being backed from a private drive and the Chevrolet was parked at the curb when the accident occurred. The Chevrolet had about \$100 damage and there was none to the Dodge. Two tickets were issued — for having no driver's license and improper observation.

Arnold King Is New SCS Worker

The local Soil Conservation office announced this week the addition of a new employee — Arnold King.

King, 22, comes to Hereford from Dumas, where he was active in Soil Conservation work. He holds a Bachelor of Science degree from West Texas State University.

King will hold the position of Planning Technician, helping plan conservation programs for local farmers, and helping them carry out the plans.

He and his wife, Willeene, live at 836 Blevins.

Santa Fe To Lay Pipeline Over Area

Plans to construct a pipeline between Amarillo and Clovis, N. M., were announced Wednesday by John S. Reed, president of the Santa Fe Railway.

The piping, costing in excess of \$2 million, will be built and managed by a wholly-owned subsidiary, Santa Fe Pipeline Company, and will operate as a common carrier.

Throughput will be comprised principally of jet fuel from Amarillo to Cannon Air Force Base, near Clovis, but the line also will handle other petroleum products.

Construction on the pipeline is expected to begin in early February. The pipeline will start at Diamond Shamrock Oil and Gas Co. terminal just north of Amarillo and go south to a

point on the Santa Fe line near Umbarger. It then basically will follow the line to Clovis. Construction is expected to be completed about the middle of 1968.

Prime contractor will be Brodie Construction Co. of Amarillo, which will build the pipeline. Terminals will be constructed by the Milliron Engineering Co. Inc. of Pampa. Consulting engineers were Purvin and Getz of Dallas.

Plans also call for a pipe-coating yard to be in Hereford. General supervisor of the construction will be John C. Major, who is also vice president of Santa Fe Pipeline Co.

Local Trainees Will Be Honored At TEC Today

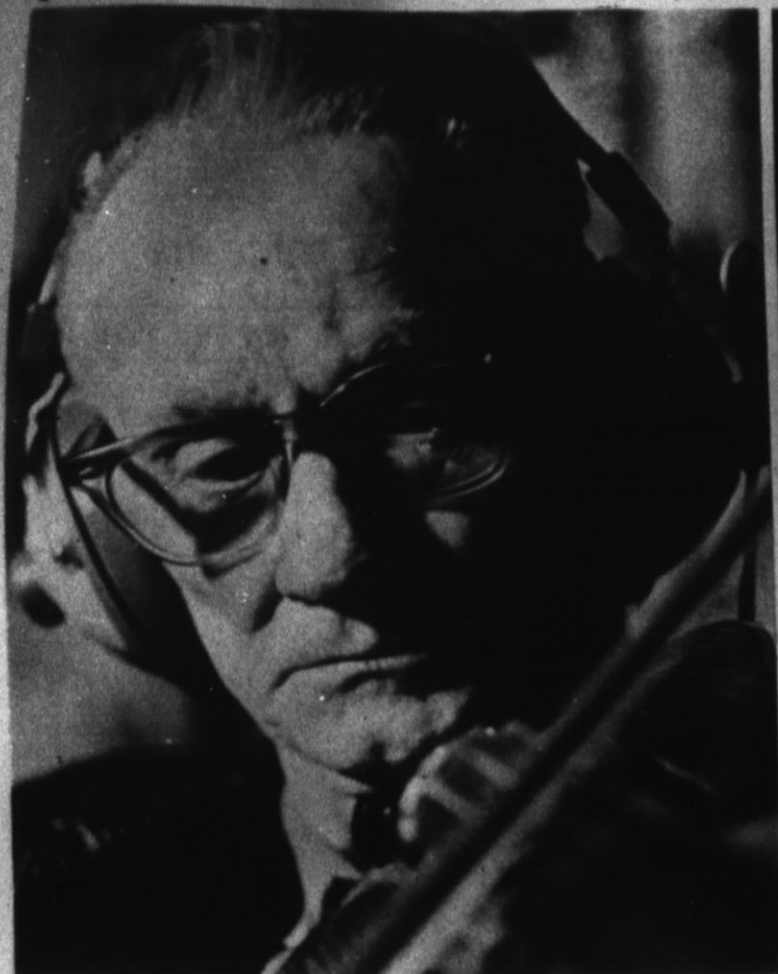

An open house today at the Texas Employment Commission office, 700 25 Mile Avenue, will be held for all Job Corps trainees who have returned to their homes in Hereford for the Christmas holidays. They will be guests of honor.

The open house will begin at 10 a.m., with refreshments being served. All Job Corps trainees are urged to attend.

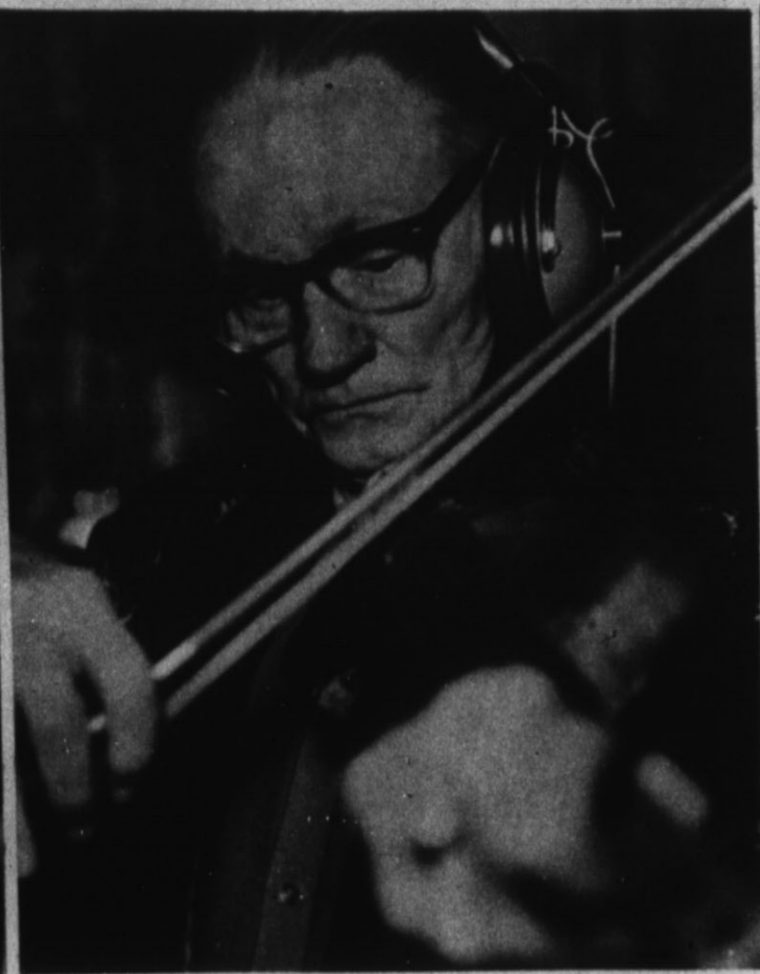

Junior College In Local Area?

The Coordinating Board of the Texas College and University System has received a plan for establishing 52 junior colleges in different geographical regions of Texas.

The proposal included seven junior colleges in the Panhandle. Deaf Smith, Oldham, Parmer and Castro counties are listed as primary locations for such a venture. See AUSTIN HIGHLIGHTS in this issue for more details.

RECORDING MUSIC — R. J. Cramer records background music on his 4 track stereo tape recorder, then listens to it through earphones while he adds

his own violin music. He has quite a collection of tapes with music such as this on them.

Cotton Harvest Hits Million Mark

The South Plains cotton harvest passed the million bale mark this week, according to W. K. Palmer, in charge of the Lubbock Cotton Classing Office of the USDA.

Samples from 1,005,000 bales of cotton had been received and classed by the three area classing offices through Friday, Dec. 22nd.

Through Friday the Lubbock Office had classed 769,000 samples of this year's crop, the Brownfield Office 160,000 and the Lamesa Office 76,000. This brought the total classed this season at the three offices to 1,005,000.

The seasonal classing office at Brownfield closed Friday and samples remaining to be classed from that area will be classed at Lubbock.

Spotted and tinged cotton continued to increase as the harvest neared completion. Light Spotted, Spotted and Tinged cotton made up 80 per cent of all cotton classed at the Lubbock Office last week.

Middling Light Spotted was

the predominant grade at Lubbock last week with 28 per cent of all cotton classed. Strict Low Middling Light Spotted made up 17 per cent, Middling Spotted 19 per cent, Strict Low Middling Spotted 8 per cent and all Tinged grades 5 per cent.

Staple length improved slightly and averaged 31-32. Seven per cent of all cotton classed at Lubbock last week was 29-32, 36 per cent 32-34, 25 per cent 31-32 and 32 per cent stapled 1-1/2 inch and longer.

Twenty-one per cent of the cotton had a micronaire of 2.6 and below, 24 per cent "miked" 2.7 through 2.9, 24 per cent was 3.0 through 3.2, 11 per cent 3.3 and 3.4 and 20 per cent was 3.5 and better.

Cotton prices, as reported by the Consumer and Marketing Service of the USDA, were lower for cotton in all micronaire categories. Cotton with micronaire of 3.2 and below was generally selling at \$2.50 to \$10.00 per bale over the loan.

Average prices paid for the most predominant qualities in the 3.5 to 4.9 micronaire range were: Strict Low Middling 15-16-17.70, Strict Low Middling 31-32-22.35, Middling Light Spotted 15-16 — 19.85, Middling Light Spotted 31-32 — 22.60, Strict Low Middling Light Spotted 15-16 — 18.90, Strict Low Middling Light Spotted 31-32 — 21.55, Middling Spotted 15-16 — 17.75 and Middling Spotted 31-32 — 19.60.

Cottonseed prices ranged from \$55 to \$73 per ton at the gins. Average price was \$60 per ton.

Rainmaking is becoming an accepted industry, though many questions remain unanswered. Weather modification programs have been carried out in Japan, Mexico, Colombia, Russia, Israel, Australia and the United States.

(Continued from page one) high sounding, but often questionable leadership, and go about inciting disturbances—sit ins—riot-civil disobedience and demonstrations, and the self styled intellectual who wants to bring communism to this country — of the politicians who blind themselves who apologize for enemies of our freedom.

"Federal subsidies paid for no work would have a tendency to increase the number who do not work. When a person is drawing \$60 per week for not working it would be very difficult to induce him to work for even \$70 or \$75 a week."

Besides writing and music, Cramer enjoys hunting. In the past 50 years, he has trained 34 bird dogs. He is a familiar sight at the Hereford Gun Club trap shooting range. He is also a good home repair man, and has built a "sunken patio" in his back yard.

Cramer describes himself as "just an everyday old man, but one that doesn't want to just sit and get old." Undoubtedly, Cramer will have little time to "get old". Already he plans to write another report, "A World of Hunger", in which he will point out that 88 per cent of the world's population go hungry everyday. In fact, Cramer hopes to write at least one such report every month. At the rate he's going, he just might do it.

Concerning Veterans

A former Texan who helped prepare the legal background for much of the major veterans' legislation during the past 20 years, Veterans Administration attorney, Ray P. Bland, has received the agency's Exceptional Service Award.

Presented by Administrator of Veterans Affairs, William J. Driver, the award citation credited the attorney from Wichita Falls with broad legislative activities benefiting veterans and dependents.

An assistant general counsel of the VA, Bland worked closely with Texas Congressman Olin E. Teague, Chairman of the House Committee on Veterans' Affairs, on such activities as drafting the Korean GI Bill and other veteran legislation. He supported veterans' hospital, medical and loan guaranty programs through legal, litigation and legislative activities.

An honor graduate of the University of Texas School of Law in 1930, Bland practiced law in Wichita Falls between 1931 and 1942. He came with VA in 1946 after service in the Office of the Army Judge Advocate General. His mother, Mrs. J. M. Bland, lives at 1415 Buchanan Street, Wichita Falls, Texas, and his brother, Lloyd, lives at 1514 Grant Street.

The Veterans Administration paid out in 1967 an estimated \$256,409,000 in compensation and pension benefits to 247,300 Texas veterans or their survivors, Jack Coker, Manager of the Waco VA Regional Office, announced today.

Drivers Violate Crossing Signals

AUSTIN — Familiarity breeds accidents — especially at railroad grade crossings, the Texas Safety Association said today in noting that most accidents at grade crossings involve motorists who live within 25 miles of the crossing.

The Safety Association also pointed out that in more than two out of five accidents, motorists violate crossing protection. Most of this protection is audible and visible signals, but lowered gates and watchmen also are disregarded.

Last year, 1,740 persons were killed in grade crossing accidents in the nation. This was a 12 percent increase over the previous year and indicates that motorists are becoming less cautious or unaware of the danger at the railroad crossing.

Hazards of the grade crossing increase during the winter months with early darkness, poor visibility and inadequate traction. The Safety Association warns that rain, sleet and snow can cause skids into trains and stalls on tracks.

The Safety Association is calling for more research into the problem of grade crossing accidents and has suggested the application of modern technology to the problem. For example, the Safety Association is asking why some type of warning device, such as a buzzer, or flashing dash light, could not be installed in motor vehicles which could be activated by a train as they both approach a railroad grade crossing. Motorists often fail to hear outside warning bells or train whistles because of tightly closed cars and the noise of radios, heaters

(He said that an actual state-by-state count of the veteran population and of VA expenditures by major programs on a fiscal year basis will be available and released in 1968.)

Compensation and pension benefits for approximately 4.5 million American veterans or survivors account for nearly \$4.4 billion of the \$7 billion total of VA expenditures this past year. The next highest VA expenditure in 1967 was for hospital and medical services. To care for ill and disabled veterans in its 166 hospitals and 202 outpatient clinics in 1967, VA spent more than \$1.3 billion.

VA payments for insurance and indemnities in 1967 totaled nearly \$800 million. Education and training expenditures were the next highest item in the VA's budget this past year. Under this program, which cost approximately \$320 million, about 468,000 veterans went to high school, college or postgraduate school, or received on-the-job, farm, apprenticeship or flight training in 1967. Additionally, some 37,000 children of veterans who died from a service-connected disability or who are permanently and totally disabled as a result of military service received about \$33 million in educational assistance this past year.

The GI loan programs, boosted by the participation of Post-Korean and Vietnam era veterans who accounted for more than four-fifths of the loans, were strong in 1967. VA guaranteed approximately 200,000 loans with a face value of nearly \$3.4 billion in 1967. This past year VA also made slightly more than 12,000 direct loans valued at nearly \$150 million.

As in past years, the cost of administering VA's \$7 billion programs of veterans' benefits and services was less than 3 percent of its total budget.

Report Needed On Working SS Beneficiaries

Social security beneficiaries who earn over \$1500 in 1967 must file an annual report of their earnings with the Social Security Administration by April 15, 1968, according to Travis C. Briggs, District Manager of the Amarillo social security office.

The exempt amount is \$1500 and beneficiaries earning this amount or less are not required to file a report. The report is required in order that a proper determination of benefits paid and payable in 1967 can be made.

Reports will be automatically mailed to beneficiaries receiving some payments in 1967. They should be received sometime in February 1968. Beneficiaries not receiving a report by mail because of not having received benefits in 1967 or some other reason should contact the social security office before April 15, 1968.

Briggs said that the annual report should not be confused with a tax return. The annual report must be filed with Internal Revenue Service.

Persons desiring help in the filing of this report should contact a representative of the Amarillo office who will be in Hereford at the Courthouse several times each month during the first quarter of the year.

and air conditioners.

TSA lists among other common causes of crossing accidents the inability of a driver to judge speed and distance of the train, speed too fast to stop, and failure to check for another train on an adjacent track after one train has cleared the crossing.

Travel Handbook Is Now Available

AUSTIN — An expanded edition of the popular Texas Travel Handbook has been released by the Texas Highway Department.

First issued last year as an aid to pleasure travel in Texas, the enlarged second edition now lists nearly 400 cities and towns, and includes more than 2,500 individual items of interest. The 208-page handbook also contains 112 photographs which provide travelers with previews of such attractions as the aerial tramway in El Paso, and Presidio La Bahia near Goliad.

Handbook subjects are as varied as the state itself, ranging from the melancholy Empty Saddle Monument in Dalhart to the humorous Popeye statue in Crystal City.

With the Texas Travel Handbook as a guide, travelers may discover dinosaur tracks, Indian pictographs and buried cities. They will learn the locations of little-known ghost towns, and follow specific directions to the most popular attractions of modern Texas cities.

Special sections are devoted to recreational facilities in Texas as national and state forests, and in more than 55 state parks. Summaries of Texas hunting and fishing regulations are provided, as well as information on visiting Mexico.

Like all Highway Department travel literature, the handbook is free. Since its initial publication last year, the guide has become a major item among more than four million pieces of travel material distributed annually by the Texas Highway Department.

The guide is available to three quarters of a million visitors who stop at Highway Department Tourist Bureaus each year and by individual request from the Texas Highway Department, Travel and Information Division, P. O. Box 5064, Austin, Texas 78703.

Glad's Garden

Some have asked what became of the Christmas Tree which the Junior Garden Club made for the Birds.

When the purchase of the tree was made a threefold purpose was kept in mind and that is being carried out. First, a live potted tree was brought. I is always wise to purchase a live tree for Christmas, even for a home, but this one was to be used differently.

The Junior Garden Club and Sponsors decorated the tree with edibles to attract birds. Was exhibited at The Annual Christmas Flower Show in the mall. Received a SPECIAL AWARD, because of its Educational value, the chief one being conservation. The decorations consisted of suet, seeds, grain heads, hard toasted bread, popcorn, pieces of cut fruit, and bird corn-bread.

After the Garden Show, the tree was taken to Westgate, placed in the planter on the west side of the entry, and is being left there for the patients to enjoy, watching the birds come for food. The tree, when undecorated by the birds, will be left in the planter in its container, will be watered and tended, and on Arbor Day will be planted on the grounds, where the patients of WESTGATE and the folk of KINGS MANOR can watch it grow.

Now that Christmas Day has passed, don't take the tree down and burn it. When you have finished with it, place a sheet spread out around the base to catch the falling needles, etc., remove the decorations, then carry it outside and cut off the branches and use for mulch in the garden. J. P. B., Garden Column Writer for Flower and Garden, suggests that there is nothing like evergreen boughs for covering frozen perennials, where freezing and thawing are weekly occurrences. He hacks the branches into manageable lengths and then lays them over the perennials, bulbs, rock garden, or young shrubs.

Before placing the evergreen boughs be sure and place first a layer of hay or other mulch, then lay the boughs over this. In the spring time these can be

spaded or dug into the soil. J. P. B. also suggests that if needed some boughs can be cut from your evergreens which needs pruning. He also suggests if your neighbor is not using his Christmas tree, ask for it. However he further states that if you do not hurry a fisherman may beat you to them. Fishermen use the trees to place in lakes or other fishing waters, for protection and to be used as feeding places for fish. Art used bales of alfalfa and tree boughs, at the boat house for the fish, it worked real well, because some of the best catches were made over these feeding and protected places.

There is very little that can be done in January in the gardens except enjoy the various views from the windows. One thing that can be done however is to order catalogues and start studying them. Plan your garden, and plantings on paper. Be sure and get your list of 1966 Garden Mistakes Made. Check carefully as plans are made for the new plantings and gardening. When making the list of new purchases be sure and study the list of New Introductions, some of them just cannot be resisted, so be sure and add some to your list. One of the new ones I am interested in is Geranium seeds of a new variety.

The following is a tried and proven suggestion of the Christmas Poinsettias. Water each potted plant with one-fourth cup of tepid water (should be room temperature) each morning, then once or twice a week, sprinkle the foliage with tepid water. A clothes sprinkler, or any other spray attachment from another bottle may be used. (Clean well before using.) This helps to keep the leaves from falling.

Do not place the plant in a draught, or near a fire as they do not like a high temperature. About 60-65 degrees is about right. Am keeping mine in the bedroom and it is beautiful. Have it where there is a mirrored reflection, there are TWICE seen and enjoyed.

All Christmas potted plants should be watered with water which is room temperature. Azaleas, Kalauchoe, and Gloxinias should be watered everyday, using about one-fourth cup of warm water to each pot, using care to pour the water on the soil and not the plant. Turn the plant at least twice a week about a fourth of a turn, is suggested.

This is a good year to join one of the National Plant Societies. They are helpful. The plant of plants which you are most interested in is the one to join. The American Rose Society, Cacti or Succulent Society, American Horticultural Society, the American Iris Society, or the International Geranium Society. There are annual dues for each of these, and the literature received will be worth the price of membership. IF further information is wanted call 364-1343.

Have not seen all of Hereford this Christmas Season, but what I have seen it seems that the outdoor lighting is not as much as usual. Are we getting lazy? Too busy with other things? Don't know the answer, but as for me, I am prone to put off. There are some nice decorations in Hereford, the downtown is especially pretty this year, the lighted Christmas trees are very effective. The decorations and scriptural portrayal at the Solomon Home on West Park Avenue (Harrison Highway) are well done and very effective. Many outdoor Christmas trees, Windows, and Entrance Ways depict the Christmas Spirit and are very beautiful. Take time to drive over town and see these, even though Christmas Day is gone, you will enjoy them.

KEEP FOR NEXT YEAR

To keep your Christmas Tree green and live and needles from dropping, soak the base of the trunk of the tree, which has had an inch or two sawed off, in the following mixture.
4 tablespoons of Green Garde micronized Iron (can be purchased from a Garden Supply Store or Hardware Store).
2 cups of corn syrup.
4 teaspoons of chlorinated household bleach.

Mix all together thoroughly in one gallon of boiling water. When cooled, place the tree trunk into the mixture and let soak for at least 12 hours. When tree is mounted and trimmed, fill the tree holder with mixture, and keep adding as it evaporates. When mixture is gone use warm water.

This treatment can double the indoor life of your Christmas tree, and other fresh cut Christmas greens. It is NOT a fire proofing agency, but makes the tree keep its freshness and a green tree does not burn as readily as a dry one. It is always tragic, when we hear or read of a Christmas tree burning and causing a tragedy.

May Everyone Have a GLAD and Happy New Year.

The Post Office Department is studying the possibility of eliminating some of the 9,900 fourth-class Post Offices in country stores, crossroads garages and old railroad stations.

NEW FACILITIES — The new Vocational Building at Hereford High School has raised new feelings of pride not only in the school administration, but the students as well. The new facilities will be open to the public on Jan. 8. Pictured here are portions of the Cosmetology and Auto Mechanics departments.

AUSTIN HIGHLIGHTS

Local Area Being Promoted As Site For Junior College

By VERN SANFORD Texas Press Association AUSTIN — Closer relationship between junior and senior colleges is inevitable.

Crowded senior college campuses across the state have convinced the Coordinating Board of the Texas College and University System that educational emphasis cannot be laid solely on the larger schools in the future.

Answer seems to be a junior college program that offers two-year courses of study which then can be transferred to the four-year colleges for degree credit.

Dr. Jack Williams, commissioner of higher education, has submitted to the board a plan to establish guidelines for future relationship between the two fields of education. It also sets up 32 geographic regions in Texas for junior college development, 18 of which have no junior college.

Idea behind the regional approach is to prevent creation of any junior college in an area which cannot support it and to encourage the development of junior colleges in areas needing them.

None of the existing public junior colleges would be dislodged by the plan. But each of the 32 regions would have at least one junior college in it. Envisioned is a junior college system of 70 to 75 campuses.

In briefing junior college presidents on the proposal, Commissioner Williams cited the importance of community two-year colleges in the overall higher education picture. According to Williams, 727,000 Texas students will be attending colleges and universities in the state by 1985. And junior colleges must be able to take care of 305,525 of them.

New schools would be recommended only where enrollment of at least 500 students could be expected by the end of the third Fall term and 1,000 by the fifth term.

Recommended regions would include seven Panhandle divisions. These would center around Borger, Amarillo, Clarendon, Levelland, Lubbock, Plainview and the Oldham-Parmer-Deaf Smith Castro Counties area.

In West Texas, the regions would encompass El Paso, the Trans-Pecos area, Odessa, Big Spring, Wichita Falls, San An-

gelo, the two junior colleges in Eastland County, Uvalde and a 12-county region around Mason County.

North Texas districts would center around Weatherford, Dallas-Forth Worth, Cooke County Sherman, Paris, Texarkana, Hill County and Corsicana.

South Texas section of junior college education would be Laredo, San Antonio, the Lower Rio Grande Valley, Alice, Corpus Christi, Bee County, Wharton and the Caldwell-Guadalupe Gonzales-Wilson Counties area.

East and Southeast Texas areas would have schools in the regions of Longview and Panola County, Tyler, Lufkin, Houston, Galveston, Beaumont-Port Arthur-Orange and two other four-county areas just north west of Beaumont.

Central Texas junior college education would be centered around Waco, Bell County, Austin, Brenham, Bryan-College Station and San Marcos.

Public hearings on the proposals will be held in Austin on January 8.

COURTS SPEAK District Court at Corpus Christi upheld Atty. Gen. Crawford Martin's opinion that voter registration applications cannot be submitted in bulk by third parties. Court refused to serve a writ of mandamus to Nueces County tax assessor-collector to issue registration certificates where applications were turned in by someone other than the applicant's closest relatives. Decision will be appealed.

State Supreme Court will hear arguments February 21 as to whether the state may tax casinghead gas used for lifting oil to the surface.

A January 10 hearing has been set at Sarita (Kenedy County) on an injunction order that stopped Indiana and California firms from exploring ruins of an old Spanish ship on state-owned land near Port Mansfield.

NEW HIGHWAY — Texas Highway Commission has approved a "consolidated highway program" which will include \$362,000,000 construction or reconstruction of 1,668 miles of non-interstate highways over the next two years.

Master plan places emphasis on what the Texas Highway Department calls its "bread and butter" routes. "These highways of the primary system are the transportation lifelines for a

vast number of Texans," the Commission said. "Our people and commerce are deeply involved in these routes, yet many are outmoded."

That \$362,000,000 covers the state's part for acquisition of right-of-way on 557 miles of U.S. and state highways, which will cost \$27,000,000.

VETS LAND BONDS SOLD — Veterans Land Board sold \$30,000,000 worth of new Veterans Land Bonds at the low interest rate of 4.2823. First National City Bank of New York and Harris Trust and Savings Bank of Chicago and Associates were low bidders.

Land Commissioner Jerry Sadler termed the rate "impressive". He said it will enable veterans of World War II, the Korean War and Vietnam to purchase property at five per cent down payment and five and a half per cent interest on the balance over a 40-year period.

Board will begin taking applications to buy land about January 15.

APPOINTMENTS ANNOUNCED Gov. John Connally appointed Tommy V. Smith of Austin acting commissioner of the Bureau of Labor Statistics to finish the unexpired term of Charles H. King Jr. of Dallas who resigned.

Connally also appointed Thomas A. Wheat, Liberty attorney, as 75th district judge (Liberty and Chambers counties). Wheat succeeds Judge P. C. Mathews who resigned effective Decem-

ber 25. VOTER REGISTRATION DRIVE — Secretary of State John L. Hill, as chief election officer, has announced plans for a statewide voter registration drive throughout January.

Hill has asked daily newspapers to publish registration application forms at least every Sunday and weeklies to carry them in each issue. Forms may be filled in and sent to county tax assessor-collectors.

Hill noted that, for the first time, all persons over 60 who live in towns under 10,000 population or in rural areas must register in order to vote.

Deadline for all is January 31. TRAIN DISCONTINUANCE SEEN — Missouri Pacific Railroad's application to discontinue passenger trains 7 and 8 between San Antonio and Longview will be heard by the Railroad Commission early in February at Longview, Austin and San Antonio.

Railroad brotherhoods have filed a protest. Notices of applications have gone to mayors of all towns along the route. DRUG-CONTROL PUSHED — Rep. Burke Musgrove of Breckenridge wants to mobilize state agency resources to see that laws against drug abuse are enforced and the public told about the dangers of drug use.

Musgrove, one of the sponsors of the anti-LSD bill passed by the last Legislature, met with representatives of a number of state agencies and private groups in Austin to clarify whatever problems exist and to suggest solutions.

It was generally agreed that the drug-law-enforcement division of the Department of Public Safety should be tripled in size and that the State Health Department should be made the clearing house for public information on drug use.

DRINKING DRIVERS — If a study conducted in San Antonio represents the state as a whole, the Texas Safety Association says almost half of the drivers and pedestrians in Texas traffic accidents may have been highly intoxicated.

A 10-year blood-alcohol study by the Bexar County Medical Examiner's Office shows 48 per cent of the persons killed in San Antonio traffic accidents had 15 per cent or more alcohol present in their blood.

That means that, theoretically, each of them had consumed more than three highballs or more than six beers in his final hour. A driver with an alcohol content of 10 per cent is considered by most experts to be too intoxicated to drive safely.

OIL ALLOWABLE INCREASED — Railroad Commission boosted statewide oil allowable from 40.8 per cent to 45.7 per cent of potential for January. Figure permits 3,593,405 barrels daily production compared with the present 3,317,796 barrels.

Commission extended its temporary lease allowable system inaugurated in June to help increase production during the Mid-East crisis.

INDUSTRIAL DEVELOPMENT — Two new source books on developing industry have been published by the Texas Industrial Commission. Titles are "Texas Community Profiles" and "Texas as Plant Location Facts."

First book, compiled from information submitted by local organizations, gives industrial development data for 375 communities in the state. It should be valuable to firms planning to locate in Texas.

"Texas Plant Location Facts" is a series of four booklets giving information in the industrial climate in Texas, as concerns prospective immigrant industries.

Congress Asked For Placing Of Meat Embargo

Congressman Bob Price has joined in the introduction in the House of Representatives of a resolution calling on the administration to place an embargo on the importation of all red meat into this country until the exporting countries prove they are free from foot-and-mouth disease.

In commenting upon the resolution, the Panhandle Congressman said, "Great Britain is experiencing a foot-and-mouth epidemic and has already slaughtered some 300,000 head of cattle, sheep and hogs. The Soviet Union is experiencing a serious outbreak too and almost every other European country has placed an embargo against meat shipments."

"Also," he added, "the livestock industry is the most important industry in America today and should this disease get a foothold, it would be almost impossible to check."

"There is no question but that domestic meat supplies are sufficient to fill all domestic meat demands without the need of imports. An outbreak in this country could set us back 100 years. It is essential that immediate action be taken," Price said.

WORLD AFFAIRS WRITER — R. J. Cramer is interested in World Affairs, and writes about the pressing problems and issues of the day. He records his writing on tape, and hopes to present his readings to clubs and civic groups all over the nation.

WATER IDEA REJECTED — Texas Water Development Board's staff has rejected the idea of moving Missouri River water to West Texas. Proposal is being pushed in Congress by U. S. Sen. John Tower and Cong. Bob Price of Pampa.

It conflicts with the Board's own Texas Water Plan of moving from the Mississippi River to West Texas to supply water needs. Besides, such a project would require "slack water" operation of the Missouri's navigation system, say board spokesmen.

SHORT SNORTS — Lt. Gov. Preston Smith became the first statewide candidate of 1968 to post the \$1,000 filing fee for a place on the Democratic ballot for governor.

Restocking has provided hunting deer population for 42 counties which formerly had few deer, says the Parks and Wildlife Commission.

Agriculture Commissioner John Hill and Roland Hairgrove, former Land Bank Commemorative medal for distinguished service to agriculture.

Former state Rep. George H. Cook of Odessa, who served in the Texas House from 1959 through 1963, has been named

Quality Of Hay Varies Greatly

COLLEGE STATION — Hay is an important crop in Texas. In cash value, says A. C. Novosad, Extension pasture specialist at Texas A & M University, it ranks fourth behind cotton, grain sorghum and wheat.

Harvested forage, he adds, provides a large part of the feed nutrients for the states livestock industry. And it has been demonstrated that the producer to know the

director of field operations for the Texas Parks and Wildlife Department.

Federal approval has been given a \$91,980 grant for improving three city parks in McKinney and a \$108,850 grant for the development of the 478-acre Caddo Lake State Park near Jefferson.

Texas Water Rights Commission has recommended that Governor Connally approve an \$18,000,000 federal flood control plan to widen and otherwise rework Clear Creek just above where it flows into Galveston Bay.

formance of animals utilizing forage is directly related to the quality of the forage.

Despite the value and importance of forage, Novosad says it varies more in quality than other feed produced. Because of this variance in quality, special emphasis is placed by the Extension Service's educational programs on quality evaluation of forage crops produced and utilized in the state.

This emphasis, he says, has resulted in the Texas A & M University Forage Testing Service. In addition to supplying information on the quality of hay and silage to be fed, the laboratory provides the producer with management suggestions which have a bearing on quality.

The information supplied by the testing laboratory also emphasizes the value of his forage, and thus, how it can be best utilized in his feeding program.

Novosad says numerous farm demonstrations over the state have shown that forage testing is a useful tool in increasing profits for those who market forage through livestock and also as a selling factor for those who produce hay for sale.

SCHOOL HAPPENINGS — Local residents will have the opportunity to see new facilities at Hereford High School on Jan. 8 when an open house is held for the new Vocational Building. The pictures here were made in the Auto Mechanics and Building Trades classes.

PERSONALS

by Penny

Quite a few ex-Hereford High Students are home from college for the holidays this year. Jack Akin attending MIT is home with his parents, Mr. and Mrs. John D. Akin, Sidney Bayne attending college at Texas Tech and Dudley Jr. from Dallas are home for the holidays with their parents Mr. and Mrs. Dudley Bayne. Charlotte Williams is visiting her parents, Judge and Mrs. Hank Williams.

Mr. and Mrs. Stan Knox have their son home from Abilene Christian College Steve Knox. Nancy Smith is staying with her parents, Mr. and Mrs. Alvin Smith, Roger Suttle, attending Texas Tech is home with his parents, Mr. and Mrs. LeRoy Suttle and Larry Fuhrman was home for a few days but had to leave for Dallas. Larry attends University of Texas and his parents are Mr. and Mrs. Ronald Fuhrman.

Mr. and Mrs. Bill Cargo had their daughter, Gwen, with them over the holidays from W. T., and Gary Story visited his parents, Mr. and Mrs. Joe G. Story. Gary attends Amarillo College. Gilbert Sims is visiting his parents, Mr. and Mrs. Fred G. Sims, and Jean Roberson, attending TCU, is staying with her parents Mr. and Mrs. Edward Roberson. Also home from TCU for the holidays and visiting with her parents, Mr. and Mrs. C. E. Rush, is Roslin Rush.

Linda Carter attending Trinity is staying with her mother Mrs. Mary B. Carter, and Charlotte Hill is home with her parents Mr. and Mrs. O. G. Hill. Claudia Loerwald attending Texas Tech is home with her parents, Mr. and Mrs. Eugene Loerwald. Gerald Witkowski, attending Texas A & M is home with his parents, Mr. and Mrs. Leo Witkowski and Mr. and Mrs. J. P. Jones have their daughter home for the holidays. Cindy is attending Trinity.

Bill Watts, attending college in Portales is home. Bill's parents are Mr. and Mrs. Verdon Watts. Ken and Nate Stark are home for the holidays. Ken and Nate attend South Plains in Levelland and are the sons of Mr. and Mrs. Wayne B. Stark. Tyler Thompson, and Kerry Thompson sons of Mr. and Mrs. Bill Thompson, are both home for the holidays. Tyler attends MIT, and Kerry the University of Houston.

Mr. and Mrs. C. R. Winget have their daughter Pam home with them for the holidays, and Jerry McCathern is visiting with his parents Mr. and Mrs. J. E. McCathern. Jerry is also attending the University of Houston. Judy Summers, attending Texas Tech, is home for the holidays with her parents, Mr. and Mrs. Clarence Summers.

MR. AND MRS. HEREFORD HIGH are Jimmy Bayne and Kandi Hill.

MOST INTELLIGENT — An award presented by the teachers went to Glynda Kay Landers and Frank Nobles.

WT Vegetable Growers To Meet Here On Jan. 9

The West Texas Vegetable Growers Conference will be held at the Bull Barn on Jan. 9. This will be the sixth annual conference for the group, made up of growers from the Panhandle and the West Texas area. Registration will begin at 9:30 a.m. with a fee of \$3 which includes lunch. The conference is sponsored by the Deaf Smith County Vegetable Committee, along with the vegetable growers of the area. The program will feature subjects pertinent to vegetable production and marketing, and all interested vegetable farmers are urged to attend. Some social historians predict that after the miniskirt, skirts may disappear altogether.

Small Talk

By SUE COLEMAN
As the year reaches its end you can always look back and figure that on the whole it wasn't as bad as it seemed sometimes. If you can't even believe that, you can take the final refuge of the optimist and state that next year will be better.

BUT I'M NOT SURE. Been reading some fashion notes from London and learn that the teenagers there have adopted black and brown as their favorite colors this winter, eyours and tweeds as the favorite fabrics.

Long coats, culottes and skirts are newest although there are still miniskirts; high boots in black or brown, or heavy brogues are the girls' chosen footwear, with thick black stockings.

Sounds like a description of costumes worn by women ditch-diggers in a Siberian prison camp.

And consider that London sets the teen styles of the world; then grandma picks up the styles from the teens.

Give it about six months to spread from there to here and get set for a dreary season next fall. Anybody looking moderately cheerful will certainly be out of style.

Remind me to pick up a couple of fireball-orange dresses and a Hawaiian print blouse on the clearance sales, just to store up against the gloom.

BEST CHRISTMAS in years, the Ansel McDowells pronounce the recent holiday weekend. The reason: Their sons and families were all together, with other relatives for good measure.

Dr. and Mrs. Ansel McDowell

Courthouse Records

Hersley Family All Together For Christmas

A Christmas reunion was held by the Harold L. Hersley family in the home of the parents, who have resided here since 1942. Refreshments and the traditional exchange of gifts featured a Christmas eve party in the home of Mr. and Mrs. Kenneth Walterscheid.

This was the first time in three years that all members of the family had been together. From other cities came Mr. and Mrs. Darrell F. Hersley and family of Fort Collins, Colo., Mr. and Mrs. Joe Hersley and daughter of Des Moines, Ia.

Children living here are Dale, Jim, Jon and Joann of the home, 309 Ave. B. Mrs. Walterscheid and Mrs. Timothy J. Leatherman. Families of the latter two were also present, except for Sgt. Leatherman who recently assigned to Army duty in the Viet Nam area.

Farm-Ranch Club Host At Luncheon

Guests lunched with members of Farm and Ranch Club at the Christmas party in Mrs. Glenn Burrus' apartment recently, when gifts were exchanged from a gleaming tree. The hostess gift went to Mrs. Buel Monroe. Entertainment of members' husbands with a dinner Jan. 2 was planned in the short business period. The dinner will be at the Caison House. Mrs. C. T. Douglas was announced as hostess for the next regular meeting.

Club guests were Mrs. Dick Slaughter, Mrs. Jerry McIntyre, of Amarillo, Mrs. Herschel Burrus and Miss Cecelia Burrus. Other members present were Mmes. Jack Weaver, Phillip Miller, Paul Rudd, G. V. Hall, W. B. Nunley, W. W. Thomas, Hohn Hill and Roland Halgrove.

Judy McCarver Honoree At Coffee And Shower

Miss Judy McCarver, a bride-elect of early 1968, was honored at a lingerie shower and coffee Saturday morning in the home of Mrs. Ron Zimmerman, with Mrs. Roger Abracht, Mrs. Ronnie Welty and Miss Joyce Warren as co-hostesses.

A student in West Texas State University, Miss McCarver will marry John Edward Meador of Eldorado Jan. 20 in Hill Chapel on the WTSU campus. She is the daughter of the Bill McCarvers.

Gifts were presented and packages opened at the party, and coffee was served informally from a table decorated in garnet and pink, colors selected by Miss McCarver for the wedding.

Cakes were iced with pink and the centerpiece was of flowers in the deeper shade.

Guests were Meses Jim Vines and Ronnie Gray, Meses Betty Huckert, Patsy Huckert, Barbara Langley and Merle Carmichael.

The oilbird, which inhabits mountainous areas of northern South America and Trinidad, is one of only two birds which navigate by bouncing clicking sounds off walls. The other is the Southeast Asian swiftlet. bat's echo guides, except that a bat's chirps are usually not audible to man.

James Reinauer Flies First Solo

PENSACOLA, FLA. — Navy Ensign James R. Reinauer, son of Mr. and Mrs. Joe P. Reinauer of Hereford, has flown his first solo flight.

James Reinauer

The flight was made in a T34 "Mentor" trainer aircraft after approximately one month of Primary Flight Training with Training Squadron One at Saultley Field, Naval Auxiliary Air Station, Pensacola, Fla.

The "Mentor" is the military's version of the civilian Beechcraft "Bonanza." He will continue on to more advanced phases of his flight training for approximately 13 more months before receiving his pilot's "Wings of Gold."

Nauru, which lies west of the Gilbert Islands just below the equator, has been called "the loneliest island in a lonely sea." It is one of the world's major sources of phosphate. The eight-square-mile atoll is literally a huge chunk of phosphate rock.

PERSONALITY QUEEN AND KING OF HHS — Patsy Smith and Gary Goodin.

Capt. William S. Busik, Navy's athletic director for three years through 1964, is now stationed at Pearl Harbor.

A U.S. Public Health Service study counted 60 scuba diving deaths and 24 skin diving deaths in the U.S. in 1965.

SOPHOMORE CLASS FAVORITES for this school year are Peggy Summers and Jerry Tyler.

Trio Named For Summer Outing

Three girls with outstanding records in Horizon Club activity and a lively sense of the value of conservation have been chosen to represent Hereford at the biennial national conference of Horizon Clubs in Estes Park, Colo., next summer.

Destinations range from the Ozark Mountain rivers to the Southern California Pacific coast, and as far north as the International Peace Park on the Canadian border.

A girl may make her choice of the trip she takes, naming three so there is an alternate if her first choice has its quota of travelers assigned. After the trip, the groups will go back to Estes Park for four more days which will be devoted to reports and discussions of the various trips.

Conservation will be the theme of the convention this year, which will be attended by some 1000 girls from over the nation July 8-27. The number who may attend from a city is limited, and selection is made by a committee from the Camp Fire Girls Council.

Kay Golden, daughter of Mr. and Mrs. O. Z. Golden; Cynthia Lea, daughter of the Lewis Lea, and Rhonda Stewart, daughter of Mrs. Zelma Stewart, are the three chosen on the basis of overall club records and knowledge they have shown in written reports on the conservation of natural resources.

Conservation will be the theme of the convention this year, which will be attended by some 1000 girls from over the nation July 8-27. The number who may attend from a city is limited, and selection is made by a committee from the Camp Fire Girls Council.

Girls must meet health and physical standards, must be members of a Horizon Club, which is the Camp Fire group for older girls, and must be ready to enter the 11th or 12th grade in the fall of 1968.

They will spend four days in conference sessions at Estes Park, then join one of 16 Travelcades for a 12-day trip by boat, canoe, horseback, bus, plane, jeep or covered wagon.

Sampson, Third Scene Of Wreck

The intersection of Third and Sampson streets was the scene of a two-car accident Tuesday afternoon which resulted in total damages of approximately \$400.

Officers said a 1967 Oldsmobile driven by Sara Hammett of Dalhart was going north on Sampson Street about 2:30 p. m. and a 1965 Ford driven by James Blankenship of 230 Beach was going east on Third Street when the collision occurred.

There was an estimated \$150 damage to the Hammett vehicle and \$250 to the Blankenship car. A citation was issued for failure to yield right of way.

LET'S COOK SOMETHING!

Clear The Recipe File!

By SUE COLEMAN
Women's Editor

Yearend is the logical time for clearing out stored items, looking them over, discarding the useless and using the useful.

THE PROCESS MAY as well be applied to recipes; many a collection would be the better for a careful appraisal and a ruthless burning of those never used.

In The Brand's file are a number of recipes which have been picked up along with some that were published, but were crowded out when space grew short and it was necessary to choose between two good recipes.

These were saved because they were just too good or the wastebasket and now is a suitable time to bring them all out. They are a varied lot, many for desserts because we get more dessert recipes than any other kind, so sometimes another type is chosen simply because last week's recipe was for a dessert, and these, equally good, are left over.

FIRST IS a timely one, Mrs. J. J. Buckner's basic recipe for icebox cookies. These are perennial favorites for serving at teas, showers and other parties of the type that are filling the calendar now that numerous midwinter wedding dates have been announced.

1 1/4 cup brown sugar
1 cup shortening
2 eggs
3 cups sifted flour
3 tsp. baking powder
One third tsp. salt
1 tsp. vanilla or almond extract.

Cream shortening, add sugar, beaten eggs and vanilla. Sift dry ingredients, add and mix thoroughly. Shape into a long roll, wrap in waxed paper and place in the refrigerator overnight or longer. Slice thinly and bake 8 minutes at 400 degrees.

Nuts or chocolate may be added, and these cookies may be decorated with colored sugars,

nut halves, bits of candied fruit, etc.

ANOTHER RECIPE, for cookies not so party-ish looking but delicious, is from Mrs. Leo Witkowski's collection.

OATMEAL CRISPIES

1 cup shortening
1 cup brown sugar
1 cup white sugar
2 beaten eggs
1 tsp. vanilla
1 tsp. soda
1 tsp. salt
1 1/2 cups flour
3 cups quic coats
1/2 cup chopped nuts

Cream shortening well, add sugar, then eggs, vanilla, sifted dry ingredients, oats and nuts; mix well. Roll in balls the size of an English walnut, put on ungreased baking sheet and bake at 350 degrees 12 or 14 minutes. It is not necessary to flatten the balls of dough; they flatten when cooking.

FOR A VERY special dessert, to serve in small pieces, is this elaborate pie. The recipe is Mrs. John Hammett's.

CHOCOLATE ANGEL PIE

2 egg whites
One eighth tsp. salt
One eighth tsp. cream of tartar
1/2 cup sugar
1/2 tsp. vanilla
1/2 cup finely chopped nuts.

Make a meringue shell of these ingredients by beating egg white with salt and cream of tartar until foamy. Add sugar, 2 tb. at a time, beating well after each addition, then continue beating to very stiff peaks. Fold in vanilla and nuts. Spoon into lightly greased 8-inch pie pan to form nest-like shell, building sides up half an inch above edge of pan. Bake in slow oven, 300 degrees, 50 to 55 minutes. Cool.

For the chocolate cream mixture, stir 1 bar (4 oz.) German sweet chocolate in 3 tb. water over low heat until melted. Cool until thickened and add 1 tsp. vanilla. Whip 1 cup cream; fold in the chocolate mixture. Pile into meringue shell and chill 2

hours. Serves 6 to 8.

OUT OF SEASON, but worth keeping until fresh rhubarb is on the market again, is Mrs. J. F. Matthews' recipe for an unusual variation of rhubarb pie. She clipped it some years ago from a woman's magazine which gave it a 5-star rating.

HONEY-LEMON RHUBARB PIE

4 cups rhubarb, cut in 1/2-inch pieces
1 1/4 cups sugar
6 tb. flour
1/4 tsp. salt
2 tsp. grated lemon rind
One third cup strained honey
4 or 5 drops red food color
Pastry for 2-crust pie
2 tb. butter or margarine

Combine first five ingredients, blend in honey and food color and let stand while making pastry. Line 9-inch pie pan with pastry; fill with rhubarb mixture; dot with butter. Adjust top crust and seal edge.

For a sparkling top, brush with milk and sprinkle with sugar. Bake in very hot oven (450) 14 minutes; reduce heat to moderate (350) and bake 35 to 45 minutes more.

ALSO TO BE saved for another season, next fall when tomatoes and vines are loaded with small tomatoes and frost is predicted, is Mrs. A. B. Clark's recipe for an unusual pickle. She got it from her grandmother and it is a family favorite.

DILL GREEN TOMATOES

2 qts. water
1 qt. vinegar
1 cup bag salt (not iodized)
Heat to boiling. Quarter green tomatoes, or use the tiny ones whole. Pack them in quart jars and put in each jar the following:

3 pods garlic
1 tsp. dill seed
1 tsp. crushed red pepper (dried whole red peppers)
2 pods fresh hot peppers.
Pour boiled liquid mixture in jars and seal. Allow to set 30 days before use.

BACK TO dessert recipes, this one for an easily-mixed

Traveling Outpost Is Now Only A Historical Marker

PARIS, Tex. — A pioneer outpost that traveled about as much as a town could is only a historical marker now.

The town was Pecan Point, considered the farthest point of civilization in the Red River Country in the 1800s.

The outpost once was a part of Arkansas. Mexico also claimed it.

Then the United States called it Indian Territory. Statehood presented it to Oklahoma. Then by the meanderings of the Red River it came to rest in Texas in the far corner of Red River

County.

Oklahoma has noted the existence of the town with a historical marker saying the first Protestant church services in Oklahoma were held there.

The minister was the Rev. William Stevenson, a Methodist. The marker, however, is three or four miles to the northeast of the town's site.

There is no trace of the outpost now, but Quinton Thompson of Harris, Okla., not long ago recalled it vividly.

"There used to be a big mound with the old Shraeder house on top of it," said Thompson. "There was a square section of pasture in front of the house. I used to go there and buy corn."

"But the old Red River kept flooding and eroding and it finally swept everything away." Thompson said that what once was old Pecan Point is just a bunch of native pecan trees now.

There is no trace of the original trader post or the wild, Indian-infested forests that Claiborne Wright and his family

found when they tied up their boat at the point Sept. 5, 1816.

The Wrights were the first permanent family to make their way that far west in this country.

They helped found Red River County and later Lamar County. George W. Wright, who arrived on the boat, became the father of Paris, Tex., donating the townsite.

Claiborne Wright was born in North Carolina and emigrated to Carthage, Tenn. He tried making salt from the saline beds in Shawneetown, Ill., but returned to Carthage, built a keel boat, loaded it with household goods and food and headed for the Red River country.

With him he took his wife, three sons, a sister and a female slave.

The voyage down the Ohio and the Mississippi and up the Red River took six months. An Indian helped them negotiate a major logjam. They stood helplessly by while so-called friendly Indians helped themselves to the Wright's stores.

At Pecan Point they found a

Women Advised To Nag Drivers

AUSTIN — Ladies who "back-seat" drive evidently have good cause, the Texas Safety Association said today in noting that more than one half of the female traffic victims in Texas last year were passengers.

Of the 998 females killed on the state's streets and highways in 1966, 572 were simply among for the ride. Only 283 of the total 1,714 Texas drivers killed

crude trader post. They built a home and then traded it and moved to Jonesboro.

George Wright, seeking a more healthful climate for his family, chose the ridge that divides the Sulphur and Red River Valleys and bought 1,000 acres.

He built a home in what now is Paris. Through his efforts, Lamar County was formed by the Republic of Texas. He donated the 40 acres that became the Paris townsite.

Even today, the water that falls on the south side of Paris drains into the Sulphur River and rain that falls on the north side goes into the Red River.

Paris thrived but Pecan Point could not survive the meandering of the Red River.

were women. There were 136 females killed in pedestrian accidents and seven females killed in bicycle and other types of accidents. Females killed represented only slightly over 29 percent of the state's 3,496 traffic fatalities.

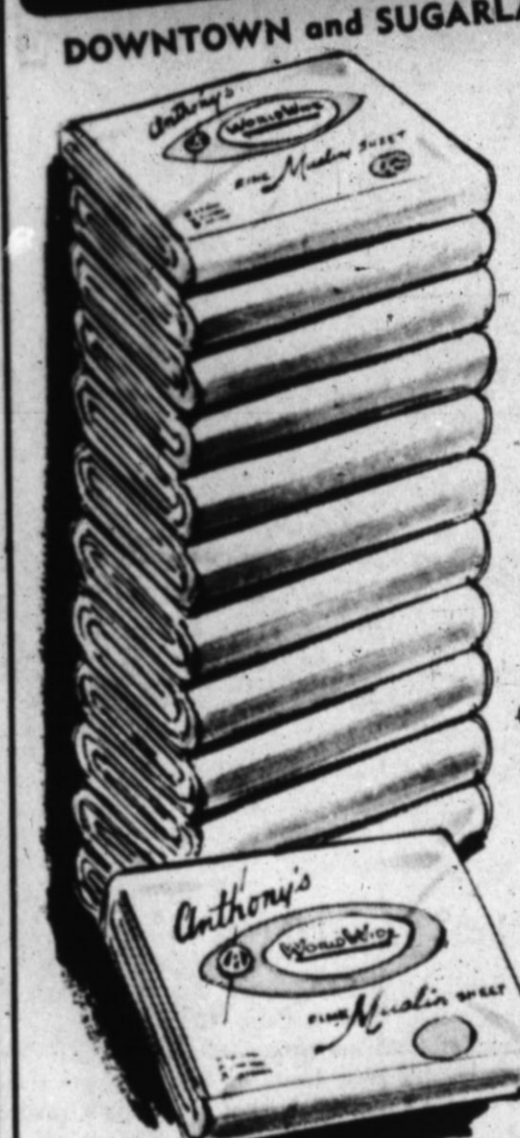

A look at the ticklish question of a lady's age shows that fatal accidents happen most often to young women between ages 18 and 25, with the highest number of fatalities occurring at age 19.

The Safety Association suggests that women "nag" their husbands or escorts to drive safely. They also advise women to cut down on romancing the driver and mind on the wheel at all times. Ladies should also "buckle up" to avoid becoming a real "femme fatale."

The male grackle is one of the noisiest birds in his range, according to the National Geographic, which adds that he assaults the ear with a cacophony of rattles, grunts, shrieks, yodels and clacks.

NOTICE OF SPECIAL ELECTION

TO THE DULY QUALIFIED RESIDENT ELECTORS OF THE CITY OF HEREFORD, TEXAS, AND TO ALL OTHER INTERESTED PERSONS:

NOICE IS HEREBY GIVEN that an election will be held in and throughout the City of Hereford, Texas on the 23rd day of January, 1968 on the question of the adoption of a One Percent (1) Local Sales and Use Tax within said City, in keeping with the following ordinance adopted by the City Commission of said City, as follows, to-wit:

ORDINANCE NO. 841 AN ORDINANCE ORDERING A SPECIAL ELECTION TO BE HELD IN THE CITY OF HEREFORD, TEXAS, ON THE QUESTION OF THE ADOPTION OF A ONE PERCENT (1) LOCAL SALES AND USE TAX WITHIN THE CITY; DESIGNATING THE DAY OF THE ELECTION AND THE POLLING PLACE; APPOINTING ELECTION OFFICIALS THEREFOR; PROVIDING THAT ALL DULY QUALIFIED RESIDENT ELECTORS SHALL BE QUALIFIED TO VOTE; PRESCRIBING FORM OF BALLOT; PROVIDING FOR NOTICE OF ELECTION; CONTAINING OTHER PROVISIONS RELATING TO SAID ELECTION; PROVIDING FOR SEVERABILITY; AND DECLARING AN EMERGENCY.

WHEREAS, Article 1066c, Vernon's Texas Civil Statutes (acts 1967, 60th Legislature, Regular Session, Chapter 36, Page 62) authorizes the governing body of any city, town or village in Texas to call an election for the purpose of adopting a local sales and use tax within such city, town or village;

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF HEREFORD, TEXAS:

SECTION 1. That a special election shall be held in and throughout the City of Hereford, Texas, on the 23rd day of January, 1968, at which election there shall be submitted to the resident qualified voters of said City, for their action thereupon, the following propositions:

"FOR adoption of a one percent (1%) local sales and use tax within the City."

"AGAINST adoption of a one percent (1) local sales and use tax within the City."

SECTION 2. That said election shall be held at one polling place for all qualified voters of said City, and the polling place and presiding officers for said election shall be, to-wit:

POLLING PLACE
City Hall - 239 North Miles Avenue, Hereford, Texas
PRESIDING OFFICERS
Robert Veigel, Presiding Judge
Lloyd Pool, Alternate Presiding Judge
The Presiding Judge at such election shall appoint two clerks.
SECTION 3. That said election shall be held in accordance with the Constitution and Laws of the State of Texas, and all duly qualified resident electors of the City of Hereford, Texas shall be qualified to vote.
SECTION 4. That the ballots of said election shall conform to the requirements of Section 3, Subsection G, of Article 1066c, Vernon's Texas Civil Statutes (Acts 1967, 60th Legislature, Regular Session, Chapter 36, Page 62), and to the requirements of Chapter 6 of the Election Code of the State of Texas,

as amended, and the language to be printed thereon shall include the following:

OFFICIAL BALLOT

INSTRUCTIONS: Place an "X" in the square beside the statement indicating the way you wish to vote.

() FOR adoption of a one percent (1) local sales and use tax within the City.
() AGAINST adoption of a one percent (1) local sales and use tax within the City.

SECTION 5. That election judges and clerks are directed to comply with Article 8.06, Election Code of the State of Texas, as amended (Section 2 of House Bill 181, Acts 1967, 60th Legislature, Regular Session, Chapter 452, Pages 1026, 1028), which provides that a square shall be placed beside each proposition in which the voter is instructed to place an "X" or other clear mark to indicate the way he wishes to vote; but which also provides that the failure of a voter to mark his ballot in strict conformity with the directions on the ballot shall not invalidate the ballot, and the ballot shall be counted if the intention of the voter is clearly ascertainable, except where the law expressly prohibits the counting of the ballot. It is specifically provided that the election officers shall not refuse to count a ballot because of the voter's having marked his ballot by scratching out the statement of proposition for which he does not wish to vote.

SECTION 6. That notice of the election hereby ordered and called shall be given:

(A) By publication on the same day of two successive weeks in a newspaper of general circulation published within said City, the date of the first publication to be at least twenty-one (21) days prior to the date set herein for such election; and
(B) By posting of such notice at the polling place at the City Hall of the said City not less than twenty (20) days prior to the date set herein for such election.

It is hereby found and determined that the HEREFORD BRAND and the SUNDAY BRAND are newspapers published within the City of Hereford, Texas, and are newspapers of general circulation within said City.

THE ABOVE and foregoing Ordinance was introduced upon the motion of Commissioner Barnard, seconded by Commissioner Sharp and by unanimous vote of the City Commission, was passed and approved, this 18th day of December, 1967.

S-Ray Cowsert
Ray Cowsert, Mayor

FOR GOD SO LOVED THE WORLD

not opened yet

In three minutes -

we "open up" a brand New Year. At this moment, "three minutes 'til midnight," millions are assembled to usher in this New Lease on life. Men are thanking God for blessings of the past and resolving new things for the future. This neat box holds a beautiful New Year, if we make it so. This gift is God's gift to mankind... what will you do with it? The steeple clock warns time for the new birth is nigh. Whatever you write on this New Year will be written in indelible ink... no erasing! Think wisely, speak truthfully, write with eternity in mind. Happy New Year!

BUSY AGAIN — Work at the Holly Sugar Corporation's Hereford Plant is getting back into the full swing of things after a few days off because of the wet weather. Plant officials estimated on Tuesday that there were about 120,000 tons of beets left in the fields, with enough on the lots to slice for 28 days. The beets in the fields would mean another 15 days of slicing.

Minister Preaches To Many On Shores Of Lake Texoma

DENISON — The resort ministry at Lake Texoma of the Rev. Thomas E. Arney has proven enlightening during the past two and a half years. He now can tell at a glance the difference between a bikini and a two-piece.

The first time a female form in a two-piece suit slithered down to the shore where the sunbathed pastor was holding services from his boat, the leisure minister was shocked, he admitted later.

But as he since has learned in preaching the Gospel to weekenders and vacationers, that a two-piece bathing suit does not a bikini make.

And neither is a bikini-clad worshiper disrespectful in the opinion of Arney.

"I'm going right to the spots where the people are camping and boating and swimming," he reasons. "I'd be rather foolish to think that they are going to stop what they are doing and go get dressed to come to my church.

It is enough that they feel free to come as they are. That is what has made this service so successful."

This last summer, attendance increased by 1,200 over a year ago — "And this despite some wet weekends that washed out services," said Arney. Texoma's leisure resort ministry drew nearly 6,000 worshippers last summer.

"And that doesn't count the hundreds who attended a six-week daily Bible school in the Oklahoma State Park, the special services that were held, or my appearances before area service clubs, at sporting events, boat races and the like," said Arney.

"He doesn't do it alone. He had help from four ministerial stu-

dents, two of whom worked full time, plus both ordained and lay speakers from towns and cities surrounding the lake which sits between Oklahoma and Texas.

His full time assistants were Dick Novotne of Salina, Kan., and Gordon Leak of Pratt, Kan. Bill Wattenbarger of Tulsa, Okla., and Skip Polson of Moore, Okla., worked at Texoma Lodge but had some free time to help with the ministry.

The resort ministry is basically financed by the Texas and Oklahoma Councils of Churches.

"It's pretty hard to pass a collection plate when your worshippers are in swim suits," said Arney. Even so, people came to him after services and tucked everything from a 10-cent piece to a check for \$250 into his hand to help with the ministry.

His automobile came from trading stamps. The United Church Women of Oklahoma City, Fort Worth Dallas and Denison collected 800 books of stamps for a down payment on a new car. They are continuing to send books of stamps to pay off the total cost which is 1,000 books.

Arney's job is greater than simply holding services from a floating pulpit. He has an extensive work in ministering to the permanent residents around the lake.

He conducts weddings and funerals, visits the sick, and holds special services and provides the same counseling service as a city pastor.

The big difference is that his parish covers parts of two states on both sides of Lake Texoma's 1,250-mile shoreline.

Offensive end David Moss, sophomore from Odessa, Tex., is the smallest man on Tulsa's football team. He's 5-8.

Mrs. Pauline Huffman, a Lexington, Ky., grandmother, was averaging 142 this fall when she bowled a 300 game.

Citing a probable all out fight on government payment limitations and the possibility of new cotton legislation being introduced in Washington next year, Plains Cotton Growers President Don Anderson of Crosbyton tabbed 1968 a "most critical year for High Plains cotton farmers."

Speaking at the year-end meeting of the PCG Board of Directors Dec. 19, Anderson said "If our interests are to be protected we will have to maintain an alert, aggressive cotton producer organization. And to this we are going to have to become active, interested participants in PCG affairs."

He reminded directors, of which PCG has two from each of 23 High Plains counties, that they were elected to represent the cotton interests of their respective areas, and that it is their responsibility to attend meetings, keep themselves informed and make a sustained effort to look after those interests.

A limitation on the total amount of government payments that any farmer could receive from all government price support and acreage diversion programs has been repeatedly proposed in Washington, but in the past has always been beaten back. In 1968, according to Anderson, the task of defeating such proposals is going to be more difficult than ever before.

The level of such limitations has been advocated at from \$5,000 to \$50,000, but the most recurrent figure seems to have been \$10,000. And Anderson said "I seriously doubt if half the cotton producers on the Plains could stay in business with a \$10,000 limitation."

He recalled that the danger of such limitations was one of the primary reasons for PCG's opposition to the current cotton program when it was passed in 1965.

This program is a part of the Agricultural Act of 1965 and extends through 1969. But top officials of the U. S. Department of Agriculture are reported to have said new legislation would be introduced to Congress in 1968.

"And whether the Department is serious about getting a new cotton program passed in 1968 or not, we have to be ready at all times to counteract any proposal that might be injurious to the High Plains cotton industry," Anderson told the Board.

In this connection he advised that the PCG Legislative Committee was in the process of being re-constituted and would soon begin discussions toward legislative recommendations to the Board.

The Legislative and other standing PCG committees are appointed by the President and

approved by the Executive Committee.

The Executive Committee is made up of the organization's officers and past presidents plus six members elected by and from the Board to represent each of six districts. The six elected members, announced as the result of a recent mail ballot, are W. L. Edelman of Friona, Bill Thompson of Shallowater, Don Marble of South Plains in Floyd County, Clyde Cruasbay of McAdoo, Joe D. Unfred of New Home and Joe Anderson of Seminole.

Completing the Executive Committee are President Anderson, Vice President Donnell Echols of Lamesa, Secretary-Treasurer Ray Joe Riley of Hart, Chairman of the Board J. D. Smith of Littlefield, and past presidents Wilmer Smith, New Home and Roy Furkner, Lubbock.

In other action the Board voted unanimous support for a PCG effort to get the deadline

for sign-up in the '68 cotton program extended in this area to July 1. As regulations are now written producers are required to make known their cotton planting intentions by March 15, some three months before planting time on the Plains.

Anderson expressed optimism on chances for getting such an extension because of U.S.D.A.'s desire to get as much acreage planted to cotton as possible under the 1968 program. Also, he said extending the sign-up time would in all probability reduce the amount of money paid out by government in the form of diversion payments.

Mrs. L. E. McDowell of McAdoo, organizer of the Crosby County Women's Cotton Club in 1965, spoke to the Board on the effectiveness of such education and promotion clubs in getting more cotton sold in retail stores.

Largely as a result of Mrs. McDowell's efforts there are now six women's cotton clubs in five counties on the Plains, with total membership of about 1,300.

Activities of the clubs include educational meetings, calling on retail stores to get more cotton goods stocked, cotton queen and sewing contests, bumper stickers, fair booths, and a cotton newsletter circulated to members of all clubs in the

area.

Mrs. McDowell asked PCG Directors if they thought "thousands of informed, organized women looking, asking for and buying cotton would help the industry."

The Board answered the question by authorizing the payment of Mrs. McDowell's expenses in the organization of women's cotton clubs in all High Plains counties, and expressed the hope that the movement will spread all across the cotton belt.

Income Tax Facts

Taxpayers on over 63 percent of the returns filed for 1965 received a refund.

Refunds totaled \$5.9 billion — an average of \$139 — according to the Internal Revenue Service publication, Statistics of Income — 1965, Individual Income Tax Returns.

The IRS book is available now for \$2 from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20462.

Anything About JFK Is Collected By Canton Man

CANTON — "I thought I saw that John F. Kennedy would be our next President and with a lot of people of the same opinion we formed the John F. Kennedy Philatelic Society on election day, 1960."

Thus George H. Goldey, a former newspaper photographer in this tiny Northeast Texas

town, founded a society dedicated to all things Kennedy.

Since Kennedy's death the wealth of material has mushroomed. The society shifted its focus to a dedication to the President's memory and to assembling and preserving all possible JFK memorabilia while it is still available," Goldey said.

A lending sound tape library on Kennedy has been started under the society's auspices for

As distinguished from collectors only of stamps in Kennedy's memory, the society members save also material pertaining to his daily life before and after the presidency and to memorials erected since his death.

He voted for Kennedy and said he believes Kennedy will be called a great President by historians. That's one reason for such acute Kennedy memorabilia interest.

the 321 members. The 4-year-old Goldey, a native of Philadelphia, Pa., said he has collected stamps since he was young. "I had originally started collecting material on President Dwight Eisenhower and it was just a matter of changing from one to the other, when Kennedy was elected," Goldey said.

He voted for Kennedy and said he believes Kennedy will be called a great President by historians. That's one reason for such acute Kennedy memorabilia interest.

"He was one of the first young Presidents, the first Cath-

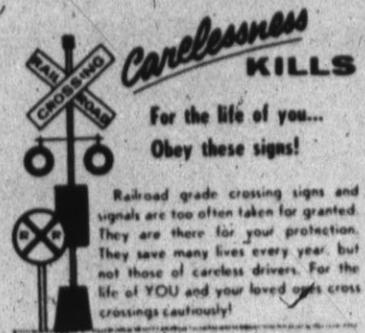

olic, he was martyred while a young man in office, and he was perhaps one of the best-thought-of Americans in foreign countries," Goldey noted.

Some of the small nations have tried to capitalize on the Kennedy fame by issuing limited numbers of Kennedy stamps, often times issuing airmail stamps when the country doesn't even have an airport, Goldey said. The aim is to beef up their treasury by taking advantage of some stamp collectors who compete for possession of the stamps.

Why collect stamps? "Why collect matchbook cov-

ers or anything else?" Goldey countered. "It's mostly for enjoyment." "Everybody hopes that someday they will get a cover envelope with stamp that's expensive and make a little gain on it. We display exhibits and vie for trophies and ribbons where it's not so much what we collect but how artistically we mount them," he said.

The JFK Society each year since 1963 has placed a wreath near the assassination site in Dallas. It keeps up with the still-not-slackening flow of magazine articles and books concerning Kennedy.

And it encourages its members to collect any and everything about Kennedy — from photographs, postcards, coins, medals or campaign buttons.

Jesse Chisholm was a wandering Indian trader who died in 1868 after eating bear grease that turned out to be toxic. He is the man whose wagon route became the nation's important cattle trail.

Waves come giant size in the Indian Ocean. Off Sumatra, layers of colder and warmer water undulate in 240-foot underwater swells more than twice the size of the largest surface waves on record.

A serious sign in the progression of alcoholism is the need for an "eye-opener" before beginning the day.

Uncle Sam's Selective Service

Editor's note: Below are questions now being asked at draft boards. The answers are by Colonel Morris S. Schwartz, State Selective Service Director, 200 W. Ninth Street, Austin, Texas, 78701. He will welcome your questions.

Q — I am now deferred in Class II-S as a college student. If I enlist in the National Guard, what will happen to my student deferment?

A — When your local board is notified that you've enlisted, you'll be reclassified from Class II-S to Class I-D (member of a Reserve component).

Q — I've received my induction order. Is it too late to enlist in the Regular Navy?

A — If a representative of the Regular Navy presents evidence that he is prepared to enlist you by your induction date, your order will be cancelled.

Q — My local board has classified me in Class I-S (C). I'm a junior in college and was wondering how long I may retain that classification?

A — You may be retained in Class I-S (C) until the end of your academic year, or until you cease to pursue satisfactorily your course of instruction, whichever is the earlier.

Q — I'm a full-time trade school student studying mechanical drawing. Can I qualify for a deferment?

A — Yes, you may be considered for a Class II-A occupational deferment.

Q — I'll get my B. A. degree

in January 1968. Can I be deferred in Class II-S for law school in the spring?
A — No, not under present regulations. You would have to have been in law school by October 1, 1967.

A man can be deferred from military service by his draft board for family dependency.

If he has a child or children with whom he maintains a bona fide family relationship in their home, he is deferred in Class III-A, if he is not a physician, dentist, veterinarian, osteopath, optometrist, or male nurse, or if he has not been deferred as

a student in Class II-S after June 30, 1967.

Any man may be deferred in Class III-A if the draft board finds that his induction into the armed forces would result in "extreme hardship" to his dependents.

If he has only a wife, and his induction does not create "extreme hardship" to his dependents, he is subject to classification in Class I-A as being available for military service, if he is not subject to deferment for other reasons.

On September 10, 1963, the late President John F. Kennedy issued an executive order which,

in effect, provided that all childless married men, age 19 through 25, could not be drafted until all single men, age 19 through 25, were exhausted.

On August 28, 1965, President Lyndon B. Johnson signed an executive order which, in effect, provided that all men, age 19 through 25, who married after August 25, 1965, and were not deferred, would be drafted along with single men, age 19 through 25. He signed an executive order June 30, 1967, which made the college student deferred in Class II-S after June 30, 1967, ineligible for deferment in Class III-A as a father.

The term "child" as used in draft regulation includes either a legitimate or illegitimate child from date of conception, one one legally adopted, a step-child, a foster child, and a person who is supported in good faith by a man in a relationship similar to that of parent and child.

On a local draft board is placed the responsibility, under the law and regulations, of deciding which men should be deferred because of their civilian activities for limited periods.

The three categories of men considered are: (1) farmers or farm workers, (2) college or un-

iversity students, and (3) men in industrial and all other civilian activity.
In the case of students, deferment in Class I-S until the end of the academic year is ordered by law if the student is mailed an order to report for induction while he is in school satisfactorily taking a full-time course, provided he has never received I-S before, or has not received his baccalaureate degree after being deferred in Class II-S subsequent to June 30, 1967.

Price, Tower Ask For Water Study

A new Panhandle water import study would be authorized under bills introduced by Congressman Bob Price and Senator John Tower.

The study would be made by the Chief of Army Engineers to determine the feasibility of diverting water from the Missouri River to the Western part of Texas. Price said the plan was presented at the annual meeting of the Mid-West Electric Consumers Association in Omaha, Nebraska and would use surplus waters of the Missouri River which would be diverted from Fort Randall Reservoir in Nebraska. The water would be lifted through a series of dams and - or canals to a point near Alliance, Nebraska from where gravity flow would carry it through a major canal across western Nebraska, down the Colorado-Kansas border, across the Oklahoma Panhandle and into the Panhandle of Texas.

Price said the study already made by R. W. Beck and Associates, Analytical and Consulting Engineers, indicates that the Missouri River Basin offers the best source of water for the Panhandle. "From what I have seen of the study, I am convinced that the plan is worth looking into," Price said. According to the study, the annual water flow of the Missouri at Sioux City, Iowa is about 1-1/2 times the flow of the Colorado which serves California and Arizona. "Thus," Price said, "there seems to be plenty of water to divert from one area to another without endangering anyone's growth." "As a fact of life, the Western part of Texas, as well as other Great Plains areas, must have an increased water supply and this could be the answer," Price said.

division among water short states of any diverted water, Price said. "And that would be included in the feasibility study Senator Tower and I have introduced," Price added.

Letters To Santa

Dear Santa, I would like to have a doll. Her name is baby fussy. I would also like to have some House shoes and robe. I would like to have a steing ray bike. I would like the color of it to be purple and a purple basket. I would like a baby bed that is big enof for 4 babys or dolls. I would like to have all the easy bake stof. The washer the oven and so on. I would like some doll close for baby fusy. And a boddle. I would like to have a fall. You know the one out of the cattalog. I want it to be blonde.
