

King's Manor Sets Founder's Dinner

Dr. Marvin I. Boyd, former Hereford minister, will be speaker for the third annual King's Manor Founder's Dinner, to be held at 6:30 p. m. at the Fellowship Hall of the United Methodist Church.

Approximately 200 members of the Association of Founders are expected to hear Dr. Boyd, who served as pastor of the local Methodist Church from 1942 to 1946. He presently is District Superintendent of the Lubbock District of the United Methodist Church and its North West Texas Annual Conference.

"The Hopes and Fears of All the Years" was chosen as theme for Monday night's talk by Dr. Boyd. In the light of the purpose of Methodist Homes for Older Adults as providing a reservoir of security for those who approach the end of their toiling time.

The dinner program will be presented by the King's Manor Founder's Association as an annual traditional session of a volunteer organization, explained Hugh Clearman, president.

Earnest Langley will be master of ceremonies and Dr. Charles Lutrick, superintendent of the Amarillo District of the United Methodist Church, will have a part in dedicating the gifts reported to the business session. There will be special music by a men's quartet and the Bell Choir.

The dinner is not open to the public but the public is encouraged to become members of the Association of Founders. Trustees and directors of King's Manor are expected to be present Monday, with members to attend from as far away as Abilene, Andrews, Lubbock, and Shamrock.

The gifts reported by the Fou

Dr. Marvin Boyd

Fiesta Queen Is Selected

Election results for the queen princess and princess princess have been announced for the Mexican Fiesta to be held at the Deaf Smith County Bull Barn on September 14, 15 and 16, according to Arthur Gonzalez.

The election was conducted at a dance at the Play House Skating Rink Saturday night, sponsored by the Holy Name Society of St. Joseph's Mission.

Selected as queen is Elvadia Vizco Torres, daughter of Mr. and Mrs. Frank Torres of 410 Ave. K. Miss Torres, representative is Frank Garcia, field contractor with Howard Gault here.

The princess is Eneledia (Nedie) Rodriguez, 307 Ave. B, daughter of Mr. and Mrs. Santana Rodriguez. Her representative is Bob Rodriguez.

Dutchess is Elvira Ruiz, daughter of Mr. and Mrs. Jose Ruiz of Rt. 4, Box 90, Paul Abalos is her representative.

The queen will have her coronation on Sunday, Sept. 15 — which is Mexican Independence Day.

Elvadia Torres

Elvira Ruiz

Education Group Meets Friday

The Education Committee of the Deaf Smith County Chamber of Commerce will meet at noon Friday at the Caison House, Leo Forrest, committee chairman, has announced.

Topics of discussion, said Forrest, will include the annual Teacher's Banquet which was held last Thursday, the possibility of conducting extension courses from West Texas State University in Hereford, and the adult education program in the local schools.

Funeral Pending In Hollis, Okla.

The funeral of Beryl W. Witherspoon, 60, of Lubbock, member of a pioneer Deaf Smith County family, will be conducted at 4 p. m. Friday in Rest Haven Funeral Home, Little Church of the Flowers, and burial will be in Resthaven Memorial Park.

Mr. Witherspoon, son of Mr. and Mrs. Vern Witherspoon of Hereford, died Monday morning in Methodist Hospital at Lubbock after a long illness. Dr. Hardy Clemons, pastor of Second Baptist Church, and the Rev. Bill Burton of Elm Avenue Baptist Church of Lubbock will officiate at funeral services.

A native of Hereford, he was a grandson of the late Mr. and Mrs. W. A. Witherspoon, who came to Deaf Smith County in the 1890's and settled at old La Plata, the town that was then the county seat. He grew up in Hereford and was a graduate of local schools, then of Texas A&M in 1929.

He was a retired mechanical engineer at Reese Air Force Base at Lubbock, and before moving to that city three years ago had been at the Amarillo AFB eight years. He was an Amarillo resident 24 years.

In addition to the Lubbock A&M Club he was a member of the Professional Engineers of Texas and the American Society of Heating and Air Conditioning. Mr. Witherspoon was a member of St. Mark's Presbyterian Church of Lubbock.

Survivors in addition to his parents are his wife, Grace, a daughter, Mrs. Jane Pugh of Lubbock, two sons, Beryl Jr. of Killeen and Robert of Amarillo, a brother, F. G. Witherspoon of Albuquerque, and six grandchildren.

MILo CENTER FETE — A total of 814 persons from throughout the immediate area passed through the line Sunday at the annual Milo Center free Labor Day barbecue supper. Residents of Milo Center, who paid for all the cats, prepared 300 pounds of beef, 20 gallons of coffee, from 150 to

200 pounds of potato salad, 35 pounds of beans, 100 pounds of onions and handed out nearly 100 loaves of bread to the hungry gathering. Bobby Viegel was elected "Mayor" (general chairman) to replace Virgil Marsh.

Report Is Given On Water Importations, Meeting Here

A progress report on water importation to this area and activities surrounding two vital meetings in Hereford have been presented by R. C. Dick, Godwin of Hereford, president of the Deaf Smith County Water Association, and a director of Water Inc.

In a letter to members of the DSCWA, Godwin stated, "We have good reason to be very pleased with progress achieved in only a year and a half to bring imported water to our area. The program launched early last year by Water Inc. with the coordinated efforts of the Texas Water Development Board, the U. S. Bureau of Reclamation, the U. S. Army Corps of Engineers, and the Mississippi River Commission has resulted in widespread support by the people of West Texas and Eastern New Mexico to seek the most fabulous water reclamation project of all time."

In this short period, he con-

tinued, the source of imported water has been determined as the lower Mississippi River, a rough cost analysis has been made on the route which the water would travel, a quantity of water at least equal to what we presently are pumping from underground has been proposed, feasibility from an engineering standpoint has been established, and an economic analysis of the future of our area has been found to fully justify the cost of the system.

The agencies working on this project are going "full speed ahead" to finish a reconnaissance investigation by the end of 1971 in order that we may go to Congress with a bill authorizing the complete design of the intricate network of canals, reservoirs, and pumping stations. And we are now working on a bill to present to the Texas legislature enabling our area to form a master import water authority to contract water with our farmers, cities, and industries.

Godwin explained that "On the broad scene Water Inc. has become the voice of our people as a full-time organization under the management of its Executive Director, Col. Clifton Chamberlain, to meet the challenge and get the job done. On the local scene, Deaf Smith County Water Association has secured for this county and all surrounding counties the assurance of being included in the first phase of imported water deliveries. The fair availability of water deliveries to each portion of the area and at the same price to each portion will be a reality in the master plan."

And now we are approaching the time for two of the most important meetings, Godwin said. "All of us are faced with the most pressing need and responsibility which will determine our economic future. We must succeed in this plan to supplement our dwindling underground water supplies. Both selfish and community concerns demand that each one of us does his part."

Sept. 20 is the date of the first meeting when we gather for free lunch at the County Bull Barn at 11:30 to hear Howard Boswell, Executive Director of the Texas Water Development Board, explain how our import plan fits into the Texas Water Plan, to be published in November. Mr. Boswell will join in the field crop tour that day to begin at 9:30 a. m. and he will answer your questions following his speech, which will begin at about 2:30 p. m.

October 5 is the date of the second meeting, again at the County Bull Barn. This will be a public hearing to begin at 9:30 a. m. and to end about 4 p. m. Water Inc. will sponsor the meeting and the hearing will be conducted by the House Water Committee of the Texas Legislature, our own Rep. Bill Clayton, Chairman.

The purpose of the hearing is two-fold: to sound out public sentiment on various features and to get the word out. See 50 PORT Page 2.

Schools Show Big Increase

Total student enrollment in the Hereford public schools, St. Anthony's School and the Walcott School has reached 5,277 now that classes are underway.

Assistant superintendent of the public schools, Robert Holman, said that this figure is certain to rise. Holman also reported that Northwest and Bluebonnet elementary schools were overcrowded and they would be shifting students around at both places Wednesday in order to relieve the problem.

The individual systems reported 4,912 (public schools), 225 (St. Anthony's) and 90 (Walcott.)

Holman also said that the public school total did not include the enrollment of the 5-year-old migrant kindergarten pupils. He said that at the present there were between 50 and 60 such students enrolled, but the school system was still in the process of constructing the portable classrooms for them and this total would also rise when they were completed.

Elections Are Set By ASC

On Friday, farmers will be mailed ballots to be cast for the upcoming elections of ASC farmer-committeemen who will serve for the next year as local administrators of national farm-action programs.

According to Frank J. Bezner, Chairman, Agricultural Stabilization and Conservation County Committee, eligible voters of Deaf Smith County will cast ballots for community committeemen by mail Friday through Sept. 18, 1968.

Qualified voters in the election are all farmers who are eligible to take part in one or more of the farm programs which the committee administer. Lists of eligible voters in each community are available in the ASC county office.

The community committee consists of a chairman, vice chairman, and a third regular member, as well as two alternates. The regular members of the committee also serve as delegates — and the alternates as alternate delegates — to a county convention, where farmers will be elected to fill vacancies on the ASC county committee.

The chairman stressed the importance of electing representative farmers as committeemen in view of their broad program responsibilities. Programs administered by the committee include the Agricultural Conservation Program, the Crop Land Adjustment Program, acreage allotments, marketing quotas, commodity loans, the feed grain program, the wheat pro-

Charles Mayfield

Mayfield Begins Work At ASCS

Charles W. Mayfield, 30, has taken over duties of office manager of the Agricultural Stabilization and Conservation Service following the retirement of Faust Collier, last week.

Mayfield came to Hereford from Hartley, where he was of office manager there for about a year and a half. Prior to the time he was at Hartley, he trained for his job in Swisher County for one year studying the entire program operations of ASC.

A native of Siverton, Mayfield graduated from high school there then received his Bachelor's degree from West Texas State University in 1959 and in 1961, he received his Master's in nutrition from Colorado State University.

Mayfield and his wife and four children, Zane, 12, Dane, 10, Traci, 6 and Staci, 5, reside at 531 Westhaven Drive.

Boosters Plan Special Event

Earl Stagner, president of the Hereford Whiteface Boosters Club, has announced that an ice cream supper has been planned for tonight for all football players and their parents.

The purpose of this supper is to acquaint the members of the club and the coaches with the parents and the players.

The supper will begin at 8 p. m. at Whiteface Stadium. All interested persons are invited to attend.

MRS. DRAPER WINS AWARD — Argen Draper, Deaf Smith Home Demonstration Agent, is shown here being awarded the Texas Superior Service Award by the Texas Agricultural Extension Service at its conference at Texas A & M last week.

Argen Draper Is Presented Award For Superior Service

Mrs. Argen Draper, who has been County Home Demonstration Agent in Hereford since 1947, has been awarded the Texas Superior Service Award by the Texas Agricultural Extension Service.

The award was made at the State Extension Conference on the Texas A&M University campus. It was awarded Mrs. Draper for distinguished achievement in the advancement of family living by developing leadership skills, creating an awareness of sound financial management, and offering opportunities for wholesome development among families of all economic levels.

The wife of Tom Draper, she and her husband now live at Frio. She originally came from Wellington.

It was in high school at Wellington that her interest in home economics began. When she finished high school, she began working on her bachelor of science degree in home economics education at Texas Tech in Lubbock. But she did not receive this degree for 10 years. It was the depression years. She took time out to teach school at Kesler, 10 miles southeast of

Wellington — and she taught all grades there.

After she graduated from Texas Tech — where she had been an assistant in clothing department — she served as home management supervisor for Farmers Home Administration in Tahoka and Levelland for two years. She then became County Home Demonstration Agent in Hemphill County from 1942-46.

Mrs. Draper said that her home economics information is dispensed mostly through speaking to various organizations throughout Deaf Smith County. She numbered 11 home demonstration clubs totaling about 175 members and 7 4-H clubs, with approximately 150 members in the county.

Continuing her education, she received her master of science degree from Texas Women's University in 1964 and is working on her doctorate in management, which she plans to complete in 1971.

Mrs. Draper is a charter member of the County Home Demonstration Agents Association of Texas and was one of four agents in the state recognized for "Distinguished Ser-

Local Group To Meet Tuesday

Deaf Smith County Chamber of Commerce Tourist and Convention Committee will meet Tuesday at 10 a. m. in the Chamber offices, according to Lynton Allred, chairman.

Allred reported that the Deaf Smith County Water Association has asked the committee to assist with the arrangements for the hearing to be conducted by the Water Committee of the Texas House here on Oct. 5.

He said that Dick Godwin will meet with them to outline details and suggest areas where they can be of assistance.

Beauty Spots Are Chosen

Residential Beauty Spot of the Month in Hereford is the Homer Powell home, 117 Kingwood, and the non-residential award goes to Radio Station KPAN, it is announced by Mrs. Bruce Brown, chairman of the awards committee.

Plaques will be placed at each of the two spots to remain through the month of September.

Sponsored by the Beautification Committee of Deaf Smith County Chamber of Commerce, the two awards are made each month during the growing season.

St. Thomas' Episcopal Church To Begin Fall Program Study

St. Thomas' Episcopal Church, 601 West Park, will begin its new Fall Program this Sunday.

effective for the remainder of the year.

The Sunday schedule is as follows: 8 a. m. — Holy Communion; 10 a. m. Family Worship with sermon; 11 a. m. — Religious Education; and 6:30 p. m. — Youth Program. The Family Worship services will be Holy Communion on the first third Sundays of each month and on special calendar days; morning Prayer on the second and fourth Sundays; and special services on fifth Sundays. The Sunday Evening Youth Program will be for young people in grades 7 through 12.

The one exception in the Religious Education program will be the 'Primgarten' Class. This class includes children ages 3 through those presently in the second grade. The Primgarten Class will meet at 10 a. m. where they will have their own worship service which will be followed by their religious education program that will last to 12 noon.

St. Thomas is a mission of the Episcopal Diocese of Northwest Texas, The Rt. Rev. George H. Quarterman, Bishop.

Open Meeting Of YHT Slated At Party Friday

The fall membership campaign of Young Homemakers of Texas will open Friday with a 42 party slated at 8:30 p. m. in Community Center, Mrs. Layton Sawyer, president, announces.

All women under the age of 35 who are interested in homemaking are invited, with their husbands.

"Bring your dominoes and come to the party", Mrs. Sawyer said, "whether or not you are interested in YHT membership. We want a chance to explain the organization and its educational purposes, and to invite young women of Hereford

Speaking of YOUR HEALTH...

By LESTER L. COLEMAN, M.D.

Readers Are Asking

IS HYPNOSIS ever used during childbirth?

The science of hypnosis is now recognized by the American Medical Association as a valuable tool when used by psychiatrists, psychologists, surgeons and physicians specially trained in its exact use. Hypnosis has finally attained its proper position as an art and science, having departed from its use as a parlor game or a theatrical presentation.

Dr. Coleman Dr. Stanley Perchard, a leading British obstetrician, and Dr. William Kroger of California, are two of the leaders in the field of using hypnosis as an additional means of making childbearing more comfortable.

Hypnosis at no time is a substitute for the usual medications that relieve pain or induce anesthesia. It is a source of psychological support to the expectant mother during periods of anxiety.

In order to use hypnosis during this time the mother must be assured that there is no danger in its use by competent doctors. With this assurance many patients relax and become tranquil even during the last stages of childbirth.

Mothers trained in the art of natural childbirth find the same kind of relaxation during this time that might be offered with hypnosis.

Physicians know that not all of their pregnant patients are candidates for the natural childbirth technique. Those who use hypnosis find it very helpful in cases that are carefully chosen.

What are the causes of black and blue marks even without injury? Are there any vitamins that can help to prevent them? Black and blue marks, or ec-

chymosis, occur in many people with the slightest kind of injury. They result from a break in a tiny blood vessel and leave unsightly but usually non-dangerous marks.

In most instances they are of very little importance. Sometimes a blood disorder may be the underlying reason for them.

It is for this reason that a complete blood study, including all the finer examinations for blood clotting, should be done. If there are no evidences of blood disease then these bruise marks can be accepted as being unsightly, but safe.

Some people with light skin and a moderate amount of soft, fatty tissue beneath the skin tend to bruise more easily than others. A study in a great many of these people failed to reveal that a vitamin deficiency was the reason for the skin marks. There are some general medical conditions and vitamin deficiencies, due to malnourishment, that may be responsible in rare cases.

Expensive doses of Vitamin C, Vitamin K and flavonoids have been used by many who are enthusiastic about them despite their total worthlessness. They offer almost no value at all for the prevention or the rapid absorption of these marks.

There are accurate ways to determine if a vitamin deficiency is present. Only then can the replacement of the deficient vitamin be advantageous.

SPEAKING OF YOUR HEALTH — Hand injuries are too often neglected. They may result in permanent disability.

Dr. Coleman welcomes letters from readers, and, while he cannot undertake to answer each one, he will use questions in his column whenever possible and when they are of general interest. Address your letters to Dr. Coleman in care of this newspaper.

proposed water import area to present their case of wanting to be included in the water distribution district."

"We are real proud to host in Hereford this important hearing for the entire West Texas area. It is both a privilege and a responsibility. We will have many visitors here, not only

from all over West Texas, but also from Austin and other states. We are expecting the leaders of water associations in East Texas and the Mississippi Delta states," emphasized Godwin.

"Of course everyone realizes that what we are trying to accomplish will take many years. The important thing is to get

busy with the task now, so that perhaps when we really have to have imported water, we can open the headgates, water our crops, and keep this economy thriving."

"And as you can well imagine, all this requires organization and money. We NEED more membership. Both Water, Inc. and Deaf Smith County Water Association are renewing the early memberships now. Please send dues of at least \$25 to Water, Inc., Box 367, Lubbock, Texas 79408 and DSCWA, Box 192, Hereford, for at least \$10."

Army Needs Ammo Experts

Ever since the ancient Chinese invented gunpowder, there has been a need for ammunition experts.

Today, an expert in ammunition must be familiar with a variety of shells, missiles and rockets as well as many different types of explosives. He must also know where and how to store them.

Training for such a job in the U. S. Army is accomplished at the Army's Missile and Munitions Center and School, Redstone Arsenal, Huntsville, Alabama. There, students attend a 11-week course in ammunition storage.

They learn about storage, shipment, issue, safety and security of ammunition components and their explosives.

The school also teaches the proper procedures and techniques in identification, packing and marketing of ammunition.

For more information about jobs such as ammunition storage, see your local U. S. Army recruiter, SFC Bert Pinales. His office is located at Post Office Bldg. RM 322 in Amarillo. Sergeant Pinales has almost 500 different enlisted skill courses listed in his Army schools catalog. SFC Pinales also can be contacted at the local board in Hereford every Tuesday.

Vietnam, Wilderness Books Are Added To Library List

Additions to the growing number of books at the county library now include one concerning the war in Vietnam and its connection with the over-all standings of the nation today, and another dealing with the conquering of a wild wilderness by a young boy and his father.

WILLIAM J. LEDERER, the author of the Ugly American, has written another intriguing book called OUR OWN WORST ENEMY. Mr. Lederer, a career military man, is a long-time observer of and participant in Asian life. This is a jolting first-hand account of what is happening in Vietnam today.

"We are fighting not one war in Vietnam, but several in combination. There is the big-bomber, major-encounter, body-count war; there is the political war for the loyalty of the South Vietnamese; there is the moral war. We are losing them all and, further, we are being lied to about them. In spite of our half-million-man military force, and in spite of the two billion dollars a month spent on the war, the Vietcong and North Vietnamese are stronger than ever."

problem. It embodies a unique combination of personal experience, research and the vetting of experts.

THE KINGDOM CARVER, by E. G. FERRAULT, finds Dave Laird, and the tender age of fourteen, expelled from school for one innocent, fumbling encounter with the adult world of sex, but Vancouver in 1917 was still very much in the grip of the pioneer puritan ethic. To Dave Laird, sent home in scalding shame, it was simple: his life was over, before it had a chance to begin. But his father took it calmly; the big, quiet lumberjack from Scotland had seen enough of life to put things in the right perspective. Besides, he was fed up with working for other men, and was about to risk everything the fam-

ily owned to buy the timber rights to an almost inaccessible site far up the barren Pacific Coast. Dave leapt at the opportunity to accompany him — into a strange and forbidding wilderness, where their only companions for the next two years would be dying tribes of coastal Indians.

As two years stretched into five, others shared their exile: Johnny George, a brooding, mysterious Indian whose fiery, beautiful wife wanted far more than that primitive existence had to offer. . . . Jim McKillop, a bawdy, tipping logger, running from his own kind of trouble. . . . and Sylvia, a missionary's daughter, whose face was half-covered by a purple birthmark, yet, who taught Dave that beauty comes in many forms.

Dave learned from them all, enough so that when the rest of the Laird family finally joined them, they hardly recognized the lean and powerful young man who had conquered the forest and founded a wilderness empire.

Racing Finals Are In Sight

Another series of races were chalked off the diminishing list as the season nears a close at the Hereford Speedway.

L. V. Watts collected the trophy dash last Sunday as he edged second placer James Davis out along with Red Easton, who finished in the third place slot.

In the first Heat, H. W. Johnson wound up with the number one position while Max Bridges was second and Travis West was third.

Red Easton won the Second Heat from second place finisher Coy House and the number three place finalist, Jim Culpepper.

Bridges won the First Semi-Main event as he outdistanced West, who finished second place.

In the Second Semi-Main event, House collected the first place spot while Davis was second and Culpepper was third.

Culpepper then came back to take the First Main Event as he was followed by Easton with a second, P. J. Becker with a third, Davis with a fourth and House with a fifth.

In the Second Main Event, Culpepper again collected a first as he was again followed by Easton with a second, Bridges a third, Johnson, a fourth and House a fifth.

The last races of the season will be conducted Sept. 8 when the drivers will have their last chance to accumulate points toward the championship. The final championship will be held on Sept. 15.

Leading thus far is the driver of Number 11, Coy House, who has 27, while a tie for second is currently standing between Culpepper and Easton with 21 points each.

Others who will be among those competing for the championship will be fourth placer Bill Byers with 20, P. J. Becker with 17, Bridges with 15, Johnson with 13, Gary Easton with seven, Floyd Shugart, also with seven, West with six, Davis with another six, Henry Elizondo and Bill Paetzold, both tied with 3, Sam Morgan, L. V. Watts, James Bradley all with one point each.

Wreck Occurs Monday Night

An accident which occurred Labor Day night resulted in about \$400 damages to two cars and \$12 damages to a stop sign at the intersection of 13th St. and Ave. J.

A 1961 Chevrolet, driven by Charles D. Caldwell received about \$75 damages and a 1961 Plymouth driven by Juan Ybarra received about \$325 damages. The driver of one of the vehicles traveling north on Ave. J. when the driver of the other car, which was going east on 13th St., ran a stop sign and the collision occurred. One of the cars then struck the stop sign.

Investigating officers issued citations for failure to yield right of way and expired drivers license.

The old Chinese "doctrine of signatures" holds that a specific plant remedy exists for every ailment. The shape, color, taste or other characteristic of the plant indicates its specific value.

Letter To The Editor

Dear editor:
I would like to thank you for the excellent coverage you have given to the National Farmers Organization meetings we have had. We feel this organization is the farmer's only chance of survival.

Contrary to what business people may have heard, the purpose of the NFO is to help raise farm prices and if there is one business man in town who does not know what the farm economy means to our town, he'd better find out! For every dollar the farmer spends, \$7 are put into circulation. We want the business people to understand what the NFO is trying to do and emphasize that business men cannot be members (only those who produce a farm commodity are eligible), so they won't be asked to join. At last Friday night's meeting, we figured about 22 businesses were represented as compared with five at the previous meeting. We farmers just want to know we have your support.

To the farmer's wives, I'd like to encourage their participation at our meetings. If you don't understand the NFO how can you encourage your husband? When my husband came home with this signed agreement, I thought he'd lost his mind. I had to go to a meeting and find out about all this milk that had been dumped and the hogs that were destroyed.

Do you homemakers know this milk was for sale at a fair price but the wholesalers would not buy it? When we go into a grocery store to buy milk, we pay the price that the store asks for it, not the price we want to pay. And those hogs were offered to charity but the packing houses would not donate the labor to process them.

So before you repeat any "hearsay" concerning the NFO, please learn the facts.

I welcome any correspondence concerning NFO or you can ask any member for more information.

Farmers, united we stand and here is a chance for unity! Come to our next meeting.
Sincerely,
Mrs. F. A. Marmell
124 Aspen

Accident Occurs Tuesday Morning

A citation for failure to yield right of way was issued in a collision that occurred Tuesday morning around 8:16 at the intersection of North 25 Mile Ave. and 15th St.

About \$200 damages was sustained to each of the two vehicles involved in the accident. Involved in the collision was a 1964 Chevrolet driven by Airman do Luna and a 1964 Oldsmobile driven by Barbara Bryant.

The accident occurred when the driver of one of the vehicles which was going west on 15th attempted a turn and pulled into the path of the other vehicle which was traveling north on 25 Mile Ave.

The original cowboy of the West's Golden Age appeared in 1867 after the Kansas Pacific Railroad laid tracks between Kansas City and a settlement named for a region mentioned in the Bible, Abilene.

Odd that country music seems to be more popular in large cities than in the villages of the country, Fort Williams (Ont.) Times-Journal

LET'S COOK SOMETHING!

Pie Is Her Specialty

By SUE COLEMAN
Women's Editor

Pies were almost always on hand for the senior Mrs. R. A. Daniel's children and their friends during their school years, and now her grandchildren and great-grandchildren expect her to have pie when they visit.

"I'VE ALWAYS liked to cook, especially to bake", Mrs. Daniel says, "and I still make bread and rolls often — and pies, of course, fruit pies and cream pies. I don't really use a recipe; I could make a pie in the dark!"

Her apple pies always get compliments, and since that dessert is such a universal favorite her recipe was requested. She uses an old-fashioned crust made with sweet milk and baking powder — the latter "to make it flaky" — and she specifies the brand of shortening because she says that makes a difference.

For exactly the right amount of flour, she says the cook must simply "get the feel". If she uses canned pie filling she puts a whole canful in one pie because she doesn't like a skimpy pie, and if she uses canned apples she chops the large chunks into smaller pieces because that makes it juicier, she says. Here is her recipe:

APPLE PIE

For the crust, mix:
2 rounded tbs. Crisco
1/2 tsp. baking powder
1 tsp. salt
3/4 cup milk

Flour to make a dough that can be handled and rolled.
Line piepan with this crust and put in the apples. Cut or slice good cooking apples in to small pieces for more juice. Mix them with 1 tsp. flour or cornstarch stirred into 1 1/2 cups sugar. Dot with butter and sprinkle cinnamon and nutmeg over the top.

Cut remainder of crust into

Camp Fire Leaders To View Home

Use of the new Camp Fire Girls building, a long-awaited realization of a dream, will be planned by leaders of Camp Fire Horizon Club, and Bluebird groups who make up the Camp Fire Leaders Association, when they meet at the new building in North Park at 9:30 a. m. Friday.

This will be the Association's first meeting after a summer vacation. Mrs. Earnest Langley, president, asks all leaders and assistants to be present and join in the discussion on uses of the various rooms.

They will inspect the entire house, which provides added space for activities of the girls' organization and room for future for activities of the girls' ed-through cooperation of interested Hereford organizations and individuals with the Camp Fire Council, to care for the needs of some 500 girls who are members.

At the National Institutes of Health in Bethesda, Md., a scientist spent six and a half years making a scale model of a molecule of human hemoglobin, the oxygen-carrying element in red blood cells.

strips and criss-cross them across the top of the pie. This amount of crust will make two pies.

MRS. DANIEL is a native of Kentucky, a state famous for its good cooking, and she was Willie Hammack, one of a family of nine girls, when she came with her parents to Hereford in 1906 at the age of 16. With another family, they chartered a freight car to move all their belongings to Texas, a common practice of the early settlers.

Some of her family still lives in Kentucky and there were family reunions each year until recently. Eight of the nine sisters are still living, scattered from Chicago to Corpus Christi, from here to Virginia.

Willie attended the old Central School here, in a wooden building where the present elementary school stands. She met R. A. Daniel, a young business man who was also a native of Kentucky, and they were married in the Baptist Church which was then located near the school.

EXCEPT FOR 10 years when they lived in Missouri and in Kentucky again, she has made her home in Hereford.

When she moved to her present home, 510 West Fourth, more than 40 years ago, 25 Mile Avenue just to the west was a quiet residential street instead of the busy national highway to which it has grown.

Mrs. Daniel has arranged a part of the house as an apartment, and shares it with another

habit instilled by their mother. PUTTING HER family and her church first in her plans was a matter of "following Mother's example", she says, and she found that her time was filled. A hobby was quilting, and after her husband's death she made it a paying hobby.

She also was a nurse, caring for newborn babies in many Hereford families for a number of years.

"I loved nursing, and have

wished many times that I had had the training to make a career of it. I enjoyed every minute of the work I did caring for babies, many of them the children of my daughter's friends", she says.

For relaxation now she often plays canasta or other games with a group of friends near her own age, most of them old acquaintances who enjoy their periodic visits as much as they do the cards.

Heavy Support For Wallace Would Give Democrats Win

By PEGGY SIMPSON
WASHINGTON — Republican Rep. George Bush, under attack at home in Houston because of his criticisms of George Wallace, says a heavy vote for the former Alabama governor's third party presidential candidacy will insure the election of the Democratic nominee.

And, says Bush, Wallace is no conservative when it comes to spending public money.

"Wallace is conservative on the issue of race alone — of keeping someone in his place," Bush said in an interview.

Since Bush voted for passage of the civil rights bill in April,

he has been flooded by critical mail from persons who describe themselves as Wallace supporters.

Bush, a Houston oil millionaire, said he tells such correspondents: "Be realistic and recognize that strong Wallace voting will simply hand the presidency to four more years of liberal spending by the Democrats."

One Houston man wrote Bush after the civil rights vote: "you are just a Judas traitor to the American people. Our last hope is George Wallace."

Another correspondent wrote: "You and your like have left us

no place to go in the Republican party. You sell us out on the crucial issues."

Bush, who is unopposed for re-election to a second term, calls Wallace "the critic and the spoiler."

Wallace, he said, "is not conservative on fiscal matters."

"When he was governor, the state debt tripled and state spending was up by over 50 percent," Bush said.

"He has used state employees widely to further his own candidacy." He replied to one critical letter-writer: "You are entitled to be for him if you want, but I can't see this man

to head up our country."

Bush's vote for passage of the civil rights bill was attacked by Wallace during a campaign appearance in Houston recently and Bush later voiced his views of Wallace and Wallace's presidential candidacy.

The mail volume rose.

One woman wrote that, while working as a precinct chairman for Wallace, she is seeking to organize a write-in campaign to defeat Bush.

Bush said he doesn't expect his replies to change the minds of persons who support Wallace because of his views on racial matters. But, he sends along with each letter a copy of a magazine article he says may cause second thoughts among others.

In Texas, Bush said, he expects votes for Wallace will be drawn from persons who traditionally vote for Democrats, Na-

Mrs. Hodges Candidate For High THDA Office

Candidacy of Mrs. A. E. Hodges of Hereford for the vice presidency of Texas Home Demonstration Association will be of chief interest to the Deaf Smith County delegation to its annual meeting in McAllen Sept. 18 and 19.

Mrs. Hodges, now treasurer of the state organization, is one of the candidates for the second highest office. Elected delegates from this county are Mrs. Paul Corbett of Cultural H. D. Club, Mrs. Elmer Northcutt of Messenger Club and Mrs. H. D. Fowler of Dawn Club.

Expected to attend also are Mrs. E. C. Hammett, president-elect of the County H. D. Association, and visitors, Mrs. Viola Williams, Cecil Matsen, N. A. Brown, Louie Olson and Miss Mary Brady.

Mrs. Maynard Gaines of Coleman is president of THDA, which composes some 34,000 members of H.D. Clubs throughout the state. New officers elected at the convention will be installed at a banquet on the closing evening.

Theme of the programs is "The Great Force That Reads the Home", a quotation from the late Dr. Seaman A. Knapp, a founder of the Extension Service. Workshops and addresses

guest speakers will make up the two-day program.

The Bayeaux Tapestry of the 11th Century was a picture story created for an illiterate public on 77 yards of embroidered linen. It dramatized the Norman Conquest in England and its leading figures.

Letter To The Editor

Editor's note: The Brand reserves the right to publish and edit any "Letter to the Editor" for reasons of length, taste and libel. This letter far exceeds the number of words usually printed, but it is an unusual letter.

Dear editor:

I hope this letter shall not come as a surprise to you, likewise to most of your readers, which I presume in this case must be Anglo Saxons. I write in connection with a letter sent in by one Thomas Albracht, which appeared in last week's Sunday Brand.

Please bear in mind however, that this letter is not meant as an insult to the above-mentioned gentleman. As a matter of fact, and with all due respect to Mr. Albracht, I was rather fascinated by his letter. Imagine an Anglo — or at least an Anglo with an English surname — speaking out for the Mexican-American, and in Hereford yet!

Well, I guess such is life, and these are trying and changing times. I assume one does encounter such rebels and minority lovers (as I am prone to believe your people will now call him.) But to get back to the subject — and it will be a long one at that.

Don't think for an instant, dear sir and all your devoted readers, that the Mexican-American population of Hereford is so naive as to not know or understand what is going on or what is happening. Do not let our indifference fool you, for we are quite aware of all facts and we know that some day, perhaps in the not too distant future, the sun will also rise for us.

Do you think we do not know of political leaders arrogance, in refusing food surplus commodities for the poor, even though there were some cases of near-starvation in many instances? There was a survey made, you know, and as a migrant myself, I will not go along with the political structure's intended be-

Mrs. Pearl Boyer, 127 Ave. K.; Mrs. Bennie Scott, 126 Juniper; Mrs. Roy Buechler, Rt. 4; Mrs. Sammy B. Lesly, Rt. 4; Mrs. Henry Ayala, 265 Kibbe.

PATIENTS DISMISSED
Mrs. Itabiano Jaimes, Mary Lou Romero, Mrs. Antonio Ybarra, Mrs. David Kerr, Mrs. Willis Hothouse, Harry Blakney, Bill Combs and P. B. Sowell, Sept. 3.

Mrs. Jerry Tucker, Mrs. Charles E. Brown, Edward Walters, M. L. Simpson Jr., Mrs. Elizabeth Ramirez, Mrs. Abelardo LaFuente and Mrs. Bruce Burney, Sept. 2.

Mrs. Robert Landreth, Mrs. Hector C. Aranda, Clayton Jobe Raul Ramos, Mrs. Kenneth Howard and Mrs. Richard Jagels, Sept. 1.

Mrs. Bert F. Parker, Mrs. Mildred Ramey, Mrs. Richard Mickler, Mrs. Jay C. Claborn, Mrs. Carrey Scroggins, Miss Mary Palomin,

Mrs. Charles R. Sowell, Mrs. O. O. Lanier, Mrs. Ollie Freeman, Mrs. Glenn Snyder and Mrs. Helen Irene Ballard, Aug. 31.

and long overdue us: Dignity and Justice. There are many like me that have weathered many an injustice, and for the sake of my people I could take some more, but there are also the young ones fresh out of high school and college. Are they willing to forget and forgive like I do? Will there come a day when our children will be abused, beaten up, pushed around, and be called "dirty gringo." Will they be able to stomach it?

We have! As for myself, I choose to believe that we are in for a great change, that one must have hope for a better future, that there will come the day when there will be love, compassion, and peace for mankind. I do not wish to think about the day when I shall witness a riot, I pray to God that it will not be here in Texas, for surely my people will get involved — I shall have no choice but to join them. We have been very patient, but we cannot wait forever. The young people are restless. Could you have waited this long?

Times are changing and people are not the same. Education has changed people, especially the young ones. They prefer to get involved. They do not want to be subjected to the old method of thinking. Some conform

to their parent's wishes because they have always been taught that they are different than the rest, especially in the southern states. But the minds and hearts of people were not meant to be imprisoned, and one day we will all be free.

I was elated when the unit rule in Texas imposed to our people by its governor was finally abolished, during the Democratic convention (last) week — already there has been change. It must have been a great slap in the face of the people who imposed it, but it is gone now — forever — AND OUR people will be free to choose whomever they please. It is a shame that our great state was exposed to the nation and to the world as a state where racism abounds. From now on, Texas will rank in the annals of history along with Alabama, Georgia and Arkansas, where bigotry and hypocrisy reigned. This will be the inheritance left to many people.

I am a Kennedy man. I always was and I always will be. But I see hope in Hubert Humphrey. There is something about him that tells me he is sincere, that he will try to bring our troubled nation together, as impossible a task as it might seem. And I will be willing to help him in my own way and in my own time. I am a Democrat, and a good one at that, I believe in our president; I still believe President Johnson is a gentleman. He tried very hard, but I believe he was caught in the middle of various forces. Sometimes I think he was embarrassed to have so many unpopular friends in the state.

There is a lot of hope for the future, for there are countless and countless of Thomas Albrachts and Nita Rogers every where in every town, and people more and more will speak out. They have lost their fear of repression from the Anglo community. These are the kind of people that will lead our nation to its full maturity. I feel sorry for the people who have repressed the progress of our Latin community for so long a time here in Hereford. Perhaps one day they will find out, when the crop is ready for harvest, that what they have sown is what they shall reap, for, my dear good friends: "HIS TRUTH IS MARCHING ON."

Porfirio Garza, Migrant, Box 1922, Hereford, Texas.

The known output of gold reached an estimated 41.5 million ounces in 1966. The Soviet Union keeps its production figures secret.

and long overdue us: Dignity and Justice. They have lost their fear of repression from the Anglo community. These are the kind of people that will lead our nation to its full maturity. I feel sorry for the people who have repressed the progress of our Latin community for so long a time here in Hereford. Perhaps one day they will find out, when the crop is ready for harvest, that what they have sown is what they shall reap, for, my dear good friends: "HIS TRUTH IS MARCHING ON."

Porfirio Garza, Migrant, Box 1922, Hereford, Texas.

The known output of gold reached an estimated 41.5 million ounces in 1966. The Soviet Union keeps its production figures secret.

By MELVIN YOUNG
A sure sign of age — when a day in the sun means a sunburned scalp.

September 22 is the day set for dedication and open house at the new Camp Fire building. Open house will be held from 2 to 5 p.m. with a short dedication service about 2:15, lasting 15 to 20 minutes.

Although there is much work to be done on the grounds, parking area, sidewalks, landscaping, etc., the building itself is complete, and the Camp Fire leaders have scheduled their first meeting in the new location Friday morning. The City is now in the process of paving the street immediately south of the building and with any luck, that should be completed this week. The parking area and sidewalks will take a little longer and it may not be possible to have this completed in time for the formal dedication, but this shouldn't be any problem. Jack Allen, president of the council, tells us that at least one National Camp Fire dignitary will be on hand for the dedication and possibly more. Make your plans now to attend. That's Sunday, Sept. 22, at the new Camp Fire building.

Hubert Humphrey is having his troubles in the South. Louisiana Governor John McKeithen has refused to support the candidacy of the vice-president claiming the South was spurned at the Democratic National Convention and Gov. John Bell Williams of Mississippi has also renounced the Demo nominee. Both will probably support the candidacy of former Alabama Governor George Wallace. We suspect that other Southern governors will follow suit. And due to the large amount of support for the former governor of Alabama, the final outcome of the 1968 presidential elections may well be decided in the House of Representatives.

Actually, we can't understand why either party would want to inherit the mess.

School enrollment took a substantial increase over last year figures Tuesday, the first day of the school year. School officials reported a total of 4,912 students Tuesday as compared to 4,676 at the same time last year, an increase of slightly over 200 students.

It used to be papa dealt out a stern code of discipline to junior. Then the electric razor took away his razor strap, furnaces took away the woodshed, and tax worries took away his hair and the hairbrush. That's why kids are running wild today. Dad ran out of weapons.

Mrs. Marvin Coffey would probably prefer that his story go untold, but since it was related to me by her husband, I just can't resist.

It seems that Mrs. Coffey was having trouble one day trying to drive the golf balls across the creek at No. 6 and after a couple had landed in the water she finally gave up. "I'm just going to throw it across," she told her partner. Yep, you guessed it. It also landed in the creek.

Record Is Broken By "Texas" Drama

The third season of the "TEXAS" production, a musical drama about the history of the Texas Panhandle, closed Monday evening after a very successful summer.

The average daily attendance was far greater than during the two previous seasons, 1160 persons per performance. The house seats 1497, though by using the more people can come in and on one evening there were 1711 in the house.

The total attendance during the season was 64,956 which brought the total number of persons who have seen "TEXAS" during the three seasons to 191,219. A total of 125,587 came to see "TEXAS" during the first two seasons, and 1968 has been the largest season.

There are few changes in the plans for 1969. The principal one is that there will be performances on every day except Sunday.

day. The dark night will be moved from Tuesday to Sunday.

CAST PERFORMS AT HEMISFAIR

Members of the "TEXAS" company presented a "REVUE" in the Amphitheatre at HEMISFAIR on Wednesday evening. Many members of the cast and company made the trip to San Antonio through the courtesy of the President of the Texas Panhandle Heritage Foundation, L. P. Gilvin, and other members of the Foundation and at the Fair, the players were guests of H. B. Zaehry, the former president and principal backer of the Fair. The program consisted of the highlights from the "TEXAS" production, Overture to "TEXAS" and some other special sections of the first act. Dean Kelly of Amarillo who plays Uncle Henry in the production, acted as master of ceremonies.

Glady's Garden

By Gladys Howton Manjeot

FLOWER ARRANGING

AIDS

The placement has been decided. What next?

Select the container and other accessories. It is very important to choose a container that aids in completing the picture which the arranger wishes to create. It should be harmonious in color, in period, in textural qualities, size relationship, and should hold enough water to keep plant materials fresh. In the selection of container and other accessories to be used with the flower arrangement, the arranger should keep in mind always that one never accents the container, but that the flowers and - or plant materials are to be the featured items. Accessories should never be used unless they add something of artistic merit to the arrangement.

Flower arranging is one of the most important creative arts of our generation. The arranger is one of the most important creative arts of our generation. The arranger is not working with brush, paints or canvas, but with living materials and other accessories which are to be used to create a picture. A properly placed arrangement in a room or other placement definitely completes the picture or effect which is being sought. If in a hall, it is a mode of welcome; if on a table where a meal is to be served, an expression of hospitality, and beauty; if for a shut-in, cheer and thoughtfulness, and if for a friend in the hospital a get-well wish. All this can be done if the arranger is successful in her creative art.

My pen-pal Mrs. Emma Cyphers, says, "That flower arranging is definitely a creative art, that it is more than a game. It can do things to you-for you. Are you bored? Are you depressed? Angry? Sad? Happy? Escape may be no further away than your garden and container shelf. Make an arrangement in contrasting hues to startle you out of listlessness. Or, if discouragement has you down, an all green plan can fill you with a spirit of hope. To soothe an angry mood, design the serene and subtle cool harmony of a Japanese style arrangement. The simplicity of the freer American plan will encourage patience to quiet your fretting. In shorthand, this is the story: There is an arrangement to enliven or suppress any mood, whatever it may be. Like any other work, flower arranging requires TIME, PATIENCE, and DILIGENT ENDEAVOR." It is a very worthwhile hobby, and is rated as one of the leading hobbies of the world.

Following the selection of the container (which really sets the design for the arrangement) the next step is to collect the materials, container, mechanics, and water. If working on a table top or cabinet, I would suggest that the work area be covered with waxed paper. This is done in order to protect the fresh cut materials in conserving their moisture content. Paper tends to drain from the plant materials the moisture so needed for their keeping qualities. The arranger will need some mechanics to work with and to

help hold the plant materials in the container. A sharp needle-point holder is good but it must be firmly anchored with floral clay or sticky tape so that it will not slip around and that the stability of the arrangement will be assured. Always press the needle point or other holding aid, on which the floral clay or sticky tape has been firmly pressed, on the bottom of the container—very SECURELY. This must be done before the water is added to the container. The clay or tape loosens its holding qualities if wet with water before use. The container must also be thoroughly DRY. And may I add, containers should be kept clean and well sterilized, this aids in the preservation of the plant materials. If bacteria is already present in the container from previous use, deterioration will start soon after arrangement is made.

Sticky tape, or floral clay can be re-used if cleaned and dried, when not in use it should be dried and then placed in waxed paper to keep it moist, or retain its other qualities.

A cup pinholder is used sometimes and these come in round, oval and semi-circular shapes. These are specially good for working around figurines or wood. If used on a base the cup holder should be securely placed with clay or tape.

Another type holder is Oasis (Some of my garden club friends, call this the answer to an arrangers prayer). Oasis comes in a block and can be cut the correct size to fit into container. Since Oasis is lightweight it should be impaled on a needle-point holder secured to the bottom when used in a shallow container. For tall vases let the Oasis stick up several inches above the rim of the vase if you would like some of the flowers to come down over the sides. (This is often used in the arranging of a Hogarth Curve Design) The Oasis must be soaked in fresh water before inserting any plant materials into it. Care should be exercised, in cutting the Oasis for the arrangement, do not make it too large, as all of the surface must be concealed. If it does not fit correctly it will detract from the beauty of the arrangement.

Other mechanics, other than the holder are: a sharp knife, or clippers, wires of various lengths and weights, floral tape, Scotch tape, yarn (green) wooden picks, paper towels, pitcher or other container to pour water into the container, and any other aids that will be useful in the execution of a pleasing arrangement.

SUGGESTIONS: Remember that it is not necessary to use quantities of flowers and other plant materials for an effective arrangement. Often the simplest arrangements are the most effective. Study nature, as to color, setting, and designs to guide in arranging. Let natural lines as found in nature suggest design and placement. Flowers cut in various stages of development from bud to full bloom, makes an interesting arrangement.

To prevent roses from open-

ing too wide, gently pull back several petals and stick a long pin through the side of the bloom. When the outer petals go back in place the pin will not show. Then one can use a piece of soft wool yarn and tie gently around the rose. Gently cut it loose when the placement of arrangement is made.

Fruits and-or vegetables may be wired to picks or small sticks before they are arranged. The fruit or vegetable can also be directly placed on a pick by inserting the sharp end of the pick into the fruit or vegetable, and then place the wooden pick into the Oasis or other holder.

To create a long stem, insert short-stemmed material in a hollow stem, or wire or tape inconspicuously onto another stem.

Do not be too hasty in cutting stems for arrangement, it is advised to cut too long first, rather than ruin a select piece of plant material by hastily cutting it too short for desired height, or length.

Be sure that all fresh cut plant materials have been properly groomed and hardened before using in an arrangement.

Dare to be brave. Try other designs, and effects. Surprises and delights are in store for the arranger who dares to be different.

HAVE YOU SEEN the lovely petunias at the Gaylor-DeWitt home at 110 Liveoak Street. There are also many beautiful plantings of petunias and other flowers on Mimosa Drive.

There is a very attractive rock garden on 13th Street. The other day when I went out to see the new Camp Fire Hut, I stopped and enjoyed this garden.

The verbenas at the Hi-Plains corner have been very colorful, and added much to the attractiveness of the street! The dahlias, all of one variety, and color grown at the McCathern home 605 McKinley. It is always interesting to note the placement of the blooms, they all seem to be facing the same way, and really saying Hello to the passers-by.

HAVE YOU PLANTED AND SHARED your iris. Was thrilled last week when my friend Don Baugous presented me a nice selection of his choice iris. THANKS DON.

Wednesday, a group of Garden Club Ladies are going to Clovis, to judge in their annual Fair. The Garden and Floral Department. We always enjoy visiting with our Gardening neighbors.

"He who sows courtesy reaps friendships. He who plants GLAD — ness gathers love."

The floor of the Atlantic Ocean a mountainous submarine expanse, covers one-sixth of the earth's surface.

Many historically significant pacts are known as the "Treaty of Paris" or the "Peace of Paris," after being negotiated in that city.

The Romans at the height of their power were fond of sweet raisins. It was a rare occasion for a slave to eat raisins. The act of eating a necklace of raisins was the dramatic gesture of freedom from slavery.

Funeral Slated For Pioneer Family Member

Funeral arrangements are pending in Hollis, Okla., for Lewis John Damron, 63, of Gould, Okla., who died Wednesday in Deaf Smith County Hospital. He was a brother of Claud Damron of Hereford, and had come here the first of this week.

Services will be in charge of Tims Funeral Home of Hollis. Local arrangements were by Gilliland Funeral Home. Born Oct. 29, 1904, in Ardmore, Okla., Mr. Gould was a salesman. He is survived by his wife; his father, J. P. Damron of Sudan; two brothers including the Hereford resident, and seven sisters.

In spring, youngsters knuckle down to a game of marbles — just as Stone Age kids did thousands of years ago.

Winners Are Announced In Easter Quarterhorse Show

Pat Dunning of Carrizo, N. M. was owner of the Grand Champion Mare and the Grand Champion Stallion exhibited during the Easter Quarterhorse Show Saturday at the Easter community.

Skip's Juliet, a 1964 mare owned by Dunning and exhibited by Bob Curtis was the only entry in Class No. 10 for 1964 and before Mares. Rose Skip, first place finisher in Class No. 8, for 1966 Mares, was reserve champion in the Mares division. Rose Skip was owned and exhibited by Charles W. Brown of Amarillo.

Skip A Son, a 1965 Stallion owned by Dunning and exhibited by R. C. Barham, won Class 4 for 1965 Stallions and then was winner in the Stallion division. Mr. Sugar Man, a 1963 Stallion owned by Billie J. Everett and exhibited by Floyd Flow, both of Amarillo, won Class No. 5 (for 1964 and before Stallions) and then was chosen Reserve Champion Stallion.

Skipity Let, a 1965 Gelding owned and exhibited by Gary Lovelace of Carrizo, N. M., was chosen Grand Champion Gelding after winning class No. 13 (1965 Geldings). Reserve Champion Gelding was Leo Light Buck, a 1966 Gelding owned by Jack Bates and exhibited by Peggy Bates, both of Sudan. Leo Light Buck was the only entry in Class No. 12 (1966 Geldings). Second-place winner in Class No. 5 was Clint's Happy, a 1955 Stallion owned by Lee Hopson and exhibited by Carrie Engmon, both of Dimmitt. Second-place winner in Class 8 was Poco Dmoradoes, a 1966 Mare owned by Mrs. Bill Moore and exhibited by Sammy Moore, both of Midland.

Big Roll, a 1965 Gelding owned by Pete Caviness of Hereford and exhibited by Anita Brown of Amarillo, was second in Class No. 13, while Bay Man Clark, owned and exhibited by

Johnny Clark Jr. of Hereford, was third in Class 13.

Class 1 winner (1963 Stallions) was an unnamed stallion owned and exhibited by Bill Stevens of Hereford. Class 3 winner (1966 Stallions) was Red Joe Chic, owned by J. D. Kirkpatrick and exhibited by Red Hamilton, both of Bovina. Class 3 runnerup was Danish Star, owned by V. C. Hopson and exhibited by Lee Hopson, both of Dimmitt. Other winners included:

CLASS NO. 6 1968 Mares — An unnamed mare owned and exhibited by Sylvia Brooks of Hereford.

Class No. 7 (1967 Mares) — Pretty Bo 3, owned and exhibited by Marshall Schultz of Plainview, first; unnamed mare owned and exhibited by Kathy Jagers of Hereford, second; and Poco Mi Top Sue, owned and exhibited by Cynthia Moore of Midland.

Class No. 9 (1965 Mares) — Silver Squeek, owned and exhibited by Orin Barnes of Amarillo.

Class No. 11 (1967 Geldings) — Kerby's Van, owned and exhibited by Al Kerby of Bovina. Class No. 14 (1964 and before Gelding) — Ancho, owned and exhibited by Gary Lovelace of Carrizo, N.M.

Class No. 15 (Western Pleasure All Ages) — Big Roll, owned by Pete Caviness of Hereford and exhibited by Anita Brown of Amarillo, first; Silver Squeek, owned and exhibited by Orin Barnes of Amarillo, second; Wiley's Top Oil, owned by C. H. Wiley and exhibited by Barbara Lovelace, both of Roswell, N.M., third; Skip A. Son, owned by Pat Dunning and exhibited by R. C. Barham, both of Carrizo, N.M., fourth; Skip's Juliet, owned by Pat Dunning and exhibited by Bob Curtis, fifth, and Tuff Customer, own-

ed and exhibited by David Cooper of Hereford, sixth.

Class No. 16 (Calf Roping All Ages) — Skipper's Ruby, owned by Spicer Gripp and exhibited by Kim Gripp, both of Hereford, first; Ancho, owned and exhibited by Gary Lovelace of Carrizo, N.M., second, and Mr. Sugar Man, owned by Billie J. Everett and exhibited by Floyd Flow, both of Amarillo, third.

Class No. 17 (Jr. Reining) — Skip's Juliet, first, and Big Roll, second.

Class No. 19 (Harrels All Ages) — Santa Bert, owned and exhibited by Jane York of Fort Sumner, N.M., first; Bay Man Clark, owned and exhibited by Johnny Clark Jr. of Hereford, second, and Tuff Customer, owned and exhibited by David Cooper of Hereford, third.

Class No. 20 (Jr. Cutting) — Jubilee Bingo, owned and exhibited by J. B. McNaughton of Vega, first; Cec Cakes, owned and exhibited by R. J. Cluck of Texhoma, Okla., second, and Big Roll, third.

Class No. 21 (Sr. Cutting) — Mackay Alice, owned and exhibited by J. B. McNaughton of Vega, first, and Swen Miss, owned and exhibited by R. J. Cluck of Texhoma, Okla., second.

Mr. and Mrs. Phillips Anniversary Honorees

Scores of friends, including a number from other cities, were guests at a Sunday afternoon reception honoring Mr. and Mrs. Coy O. Phillips, both members of pioneer Deaf Smith County families and residents here since their marriage 50 years ago.

Their Golden Wedding anniversary will come on Sept. 29; the party was held early so relatives who could not be here on that date, could be present.

Mr. Phillips and Miss Dola McClain married in 1918 at the home of her parents in the Palo Duro community northeast of Hereford.

Hosts for the reception in the IOOF Hall were their daughters, Mrs. G. W. McReynolds of Roswell, N.M., and Mrs. J. T. Higgins of Houston, with Mr.

McReynolds, Mr. Higgins and the Phillips' granddaughter, Katrina Higgins.

The hosts assisted Mr. and Mrs. Phillips in receiving guests and other relatives served refreshments and registered callers. On the registry table, a large heart and letters spelling the names of the honorees were standing on a gilded base. Two bells were tied with a gold bow at the top of the heart.

A bouquet of gold and white chrysanthemums and the anniversary cake decorated the serving table. White sugar roses and gold leaves ornamented the three tiers of the cake, and on top the numerals, 50, were set on a frill of net with lily-of-the-valley sprays.

A "money tree", its gilded

branches hung with tiny bells and green currency, was among the gifts displayed with numerous cards, telegrams and other congratulatory messages.

Out-of-city guests in addition to the hosts included Mrs. Phillips' sister, Mrs. Fred Harlin of Itasca; Mr. and Mrs. Clarence Higgins of Wildorado; Mrs. Bob Crozier of Friona; Mrs. Julie Rattan of Dallas; Mrs. Gracie Allred of Wildorado.

Also Mr. and Mrs. L. L. Womble of Denton, Mr. and Mrs. Mart Hart of Gruver; and from Amarillo, Mrs. Willie McClain, Mrs. Ruby Allred, the Curtis Lows, Clyde Barkers, Lem Shurgarts, Ray S. Daniels, Mr. and Mrs. Russell Bain and son, Mr. and Mrs. Lyndon McClain and children.

Among other things making for a long, hot summer are mowing the lawn and weeding the garden. **Windsor (Ont.) Star**

LaPlata Study Outline Viewed

A preview of a year's program was given and happenings of the vacation period were talked over informally at a supper which opened a new season for LaPlata Study Club Tuesday evening.

Revival Services To Begin Sunday

Trinity Baptist Church at Fourth and Jackson streets in Hereford, will have revival services each night at 7:30 beginning Sunday. The revival will end the following Sunday.

The evangelist will be Rev. Quinton Montgomery of Roswell, New Mexico. The singer will be Homer Thomas of Hereford.

Pastor of the Trinity Baptist is Rev. B. C. Stoncipher. He has invited everyone to attend.

MISS DRERUP RETURNS FOR VISIT HERE

Miss Dorothy Drerup, daughter of Mr. and Mrs. C. Drerup of 121 Avenue B, returned to her home in San Francisco Wednesday following a week's vacation here. Miss Drerup is employed at the Jack Tarr Hotel in San Francisco.

Yearbook committee members Mmes. J. D. Neill, Louis Woodford, Frank Prowell and Jack Brown, were hostesses in the Flame Room of Pioneer Gas Company, Mrs. Ansel McDowell, new president, welcomed the group at the reassembly.

During the meal, casual talk enabled members to "catch up" on summer events - vacation trips including Mrs. Emil Dettman's European tour; new babies for two members, Mrs. Bob Sims and Mrs. Robert Baker, and a new granddaughter for Mrs. Prowell, featured the list.

Discussion Set On Fook's Book

Gene Fooks, minister at the Central Church of Christ, reported that he and Rev. Gerald Mann, pastor of the First Baptist Church, will discuss the topic of the book, "Fellowship of Believers," together Sunday night at 7 at the First Baptist Church.

Fooks said that all area residents are invited to attend, regardless of their church affiliations. The book they are to discuss is an eclectic approach to Christianity. Fooks is the author.

Mrs. Neill presented an outline of the study course titled A Dip Into the Future, which the club will pursue this season. Symbolic of the subject, the buffet table from which supper was served was decorated with space ships and rockets.

Each of the quartet tables where members were seated had decoration in the theme of one program, politics, religion, literature, travel, fashion and music.

Places were laid for Mmes. Milton Adams, M. H. Rickie, Ivan Tipps, A. J. Schroeter, Merle Campbell, Clint Formby, Kenneth Rogers, Philip Shook, Jay Boston, Tom Harkey, Larry Dipple, Raymond White, McDowell, Dettman, Sims, Baker and the hostesses.

Sunday Reunion Set In Amarillo

Past and present residents of Cook County are reminded that the Cook County Reunion will be held Sunday in the YMCA building at 1006 S. Jackson in Amarillo.

The reunion will begin at 10 a.m. with a basket lunch to be served at 1 p.m. All past and present residents of the county are urged to attend and renew old acquaintances and make new ones.

In Nevada there are some 30 range-sheep outfits operating. There were twice that many just before World War II.

We wish to express our most sincere appreciation to the following businesses, organizations and individuals who furnished the trophies and gave us the support and cooperation to the make the Horse Show the success that it was - - -

Pride, Perfection Are Big Keys To Floral Shop Growth

By VICKIE INMAN
Staff Writer

Family history of florists is behind Park Avenue Floral, 501 Park, with Ray Seale as owner. Seale, 30, started in the florist business when he was 15 by working for his sister and brother-in-law who managed the Boston Greenhouse in Amarillo. Seale's brother now owns the Boston Greenhouse and his sister and brother-in-law have Amarillo Wholesale Florists.

Business at Park Avenue Floral has more than tripled since Seale took over February, 1967. When Seale first started, Mrs. Harry McCauley worked three half days. Then she started working three full days a week and now full time.

Seale's sister-in-law, Mrs. Bob Pitman, and Miss Edlana Vinson work full time. When school starts, a distributive education student will work part time.

On busy days, Mrs. Seale helps out at the shop. "She worked all the time when we first started," Seale said. "Now she doesn't work unless we are real busy. She would rather sew garden and keep house than wrap posies."

Seale and his wife, Joyce, have a 3-year-old daughter, Jennifer, and are expecting another child, Seale said a boy, in October. They live at 118 Centre.

A member of the First Baptist Church and Kiwanis, Seale fishes and golfs a bit, but "my hobby is mainly working," he said. He was in the army two years, stationed in Germany. He attended Amarillo College two years and West Texas State University one year.

Seale is proud of his membership in Florist Trans-World Delivery and calls it his biggest asset. This service guarantees delivery anywhere in the United States and trans-world where there is a florist shop. Flower arrangements can be ordered by number through FTD.

"Trans-World members are checked closely by representatives of FTD who make surprise visits on shop members. 'You have to stay on your toes if you want to be a member,'" Seale said.

Through FTD, Seale has wired flowers to other countries and sent a bon voyage bouquet to a couple leaving on a cruise. Seale said he can send flowers any place, provided the order is placed in time.

Friendships are sometimes made through FTD. Mrs. McCauley, a friendly, out-going person, told of sending flowers Easter to New York through a florist shop there. During the phone call, she and the lady florist in New York became acquainted.

"At Mother's Day, we received an order for flowers from the same shop in New York," Mrs. McCauley said. "When I didn't answer the phone, the caller asked to speak to the little, old lady she talked to before."

Meeting the public is important in the flower business as it is in any other business. Seale or any of his employees must

be able to show customers different flower arrangements.

Flower shops have several busy seasons during the year but Mother's Day is the biggest holiday, Seale said. Easter is also a good time for flowers, as is Valentine's Day. "People seem to be celebrating religious holidays with flowers less," Seale said. "We do double the business on Mother's Day as we do on Easter."

Summer used to be slow, he said. This summer he has handled flowers for 50 to 60 weddings, so he has been busy. Other occasions when people give flowers are birthdays, hospital arrangements, parties, anniversaries and thank you gestures.

Seale keeps a back supply of florist supplies, such as ribbons, wrapping paper for vases, candles and net. "We have to be prepared for all sorts of things," Seale said. "We have our own wholesale house, you might say."

He tries to keep all colors for ribbons as well as candles on hand. He uses candles for parties, weddings and home decorations.

During spare time, everyone makes bows by hand to use during rush periods. Many of the bows are for bud vases but quite a few bigger bows are used in funeral arrangements.

In one corner of the back shop, Seale has several cans of paint stored that he uses to antique fruit and paint wicker baskets or styrofoam. On occasions

Seale has sprayed flowers to change their colors but as a rule he does not like to change natural colors. Paint is used on baskets and other flower arrangements more during Christmas time than any other season.

Artificial arrangements using plastic flowers account for a quarter of Seale's business. He has a few artificial arrangements already made but most of the plastic flowers are loose and made according to the customer's specifications.

Seale is already planning for the Christmas rush. Near the last of summer he went to a Christmas showing in Lubbock where new merchandise was displayed and different arrangements shown. "Now is the time to order flowers for Christmas," Seale said.

Flowers are kept in two large refrigerators in the shop. The one in the front is a showcase refrigerator with sliding glass doors where cut flowers are displayed. The back refrigerator is used to store greenery and bouquets.

Shipments of cut flowers from California come at least once a week and sometimes two or three times. Seale buys other cut flowers from two local wholesalers in Amarillo who also handle all types of florist supplies as well. Pot plants come from a shop 10 miles north of Canyon. Some green plants and ivy are shipped from Florida.

Seale's biggest business is in cut flowers. In an average week 400 carnations, 100 mums, 200 roses and a large quantity of miscellaneous flowers, such as daisies, gladioli, orchids, asters and gardenias are sold from Park Avenue Floral.

FLOWER SHOP — Ray Seale stands proudly by his flower shop at 401 Park. He has been managing the shop since February, 1967.

SHOWCASE REFRIGERATOR — Ray Seale takes some carnations from the showcase refrigerator in the front of his shop to use in a flower arrangement.

Many Organizations Assisting In Texas Water Development

By CLIF CHAMBERLAIN
Executive Director of Water, Inc.

A list of all agencies and organizations in Texas working on some facet of the state's water problems would take more space than is available. A listing of some of these with a general statement of their responsibilities is of value.

The Texas Water Development Board. A board of six members appointed by the Governor for six-year terms with the advice and consent of the Senate. The Chairman is appointed by the Governor and the Vice-Chairman is elected by the board members for a two year term. The present Chairman is Mr. Mills Cox of Gay Hill and the Vice-Chairman is Mr. Marvin Shurbet of Petersburg. Responsibilities include investigation, planning and development of the state's water resources. It administers the Texas Water Development fund and has been designated as the state agency to cooperate with the U. S. Army Corps of Engineers and the U. S. Bureau of Reclamation in planning water resources development and projects in the state.

The Texas Water Rights Commission. This agency is a successor to the Texas Water Commission. It has responsibility to administer water rights, creation of water districts and approval of issuance of water district bonds. The commission has the responsibility of designating cooperating local sponsors on proposed Federal projects and for review and public hearing of

proposals put forth by these federal agencies.

The U. S. Army Corps of Engineers, has responsibility for flood control and navigation projects on the nation's waterways. This includes ports and harbors, supervision and building and regulating flood control and navigation works of all kinds.

The Bureau of Reclamation of the Department of the Interior has the primary responsibility for development of water conservation projects in its area of responsibility West of the Mississippi River. This includes development of water for all uses and required close cooperation with the Corps of Engineers on dual purpose projects such as both a flood control reclamation and navigation project.

These agencies work with a large number of important, unofficial, yet influential organizations to accomplish their task. These unofficial organizations include water committees of local and regional Chambers of Commerce, the National Rivers and Harbors Congress, the Association of Soil and Water Conservation Districts, the various citizens associations devoted to specific developmental programs and the non-profit corporations such as Water, Inc. devoted to importing adequate water supplies to West Texas and Eastern New Mexico.

These are only a few of the many agencies and organizations which must all bring their weight to bear if we are to see early fruition of our water import scheme.

Income Tax Facts Given For Farmer

DALLAS — One of the most significant changes in our farm life has been the changes in the types of farmers. We still have the farm family who lives on the farm or ranch and makes their livelihood from the produce that they raise.

A second but growing group in most rural communities are the folks who live on the farm and work in the city. Some of these folks farm on a part time and weekend basis. Others raise food for their own use and some depend on their salary or wages for their entire livelihood.

The new and most rapidly growing group is the "windshield farmer." He lives in town, or more likely the big city. His purpose in farming varies from hobby or weekend lark to a serious well-financed high commercial farm venture.

The 1965 statistics of income show that farmers in the Internal Revenue Service District covering the 143 counties in the Northern half of Texas, grossed more than \$1 billion in the sale of agricultural products. However, they reported less than \$50 million as adjusted gross income on their tax returns. The statistical breakdowns reported for the Dallas and Fort Worth metropolitan areas, show that the 18,956 taxpayers (primarily windshield farmers) reported farming losses of \$14,784, 000 on their form 1040F's.

The Secretary of Agriculture recently recommended that Congress review the farm tax loss

situation. Internal Revenue people are quick to point out that their objective is fair and equal enforcement of the present laws and that it is not advisable for IRS to comment on proposed legislation. However, IRS does point out that the Farmers Tax Guide spells out clear cut rules covering a part of the farm losses being discussed or questioned. The instructions set out for PERSONAL LIVING AND FARM EXPENSES on Page 33 of the Farmers Tax Guide apply to the farmer who is engaged in farming 100 percent of his time as well as the man who lives and works elsewhere and considers his part time farming operation as a secondary business. The Farmers Tax reads:

Deduction of certain personal, living, and family expense is specifically prohibited by law. These include rent and insurance premiums paid on property used as your residence, life insurance premiums on yourself or your family, the cost of maintaining automobiles or horses for personal use, allowances to minor children, attorney fees and legal expenses incurred in connection with personal matters, household expenses, and moving expenses of you, your family, and personal effects. Likewise, the cost of purchasing or raising produce or livestock consumed by you or your family is not deductible.

The tax folks have no doubt that personal expenses are not deductible, no matter whether

Committee Plans Field Day, Tour

The Deaf Smith County Bull Barn has been selected as the site for the Deaf Smith County Crops and Conservation committee all-day tour and barbecue which is scheduled for Sept. 20 beginning at 9:30 a.m.

Reports from Justin McBride, county agricultural agent, indicate that numerous out-of-town guests are expected at the all-day event. Various crop demonstrations concerning fertilizer, weed control and other subjects, will be conducted. These demonstrations will be conducted during the afternoon following the luncheon barbecue.

The tour and luncheon were planned at a meeting which was held in the Caisson House recently. The group that planned the event, consisted of about 20 agricultural leaders. Also at the all-day affair, Howard Boswell, Executive Director of the Texas Water Development Board, is scheduled to speak at the noon luncheon. Boswell's topic will be the drawing up of the Texas Water Plan.

All persons are urged to attend the meeting if at all possible. McBride stressed.

It is cow-feed expense to produce milk for personal farm use or for a carton of milk from the milkman.

Proper Fertilizing Increases Yields

LUBBOCK — Proper fertilizer use will insure higher yields of high protein wheat forage for winter grazing. And grain yields will be only slightly reduced if the wheat is not grazed too late in the early spring.

Research over many years in the wheat producing area shows nitrogen and phosphorus are the plant nutrients limiting production in the High Plains area, says Jim Valentine, Extension soil chemist, and Dr. Arthur Onken, soil fertility researcher at the So. Plains Research and Extension Center here. Nitrogen is the nutrient needed most frequently and in the largest amount. Phosphorus is needed when the soil test indicates a deficiency. Research has not shown response from potassium.

The amount of fertilizer needed depends on the nutrient level of the soil, crop history including residue, irrigation available, grazing practices and general level of management. On heavy soil, fertilizer material may be effectively applied preplant, according to Valentine and Onken. However, on sandy soils and others that take water rapidly, all the phosphorus and one-third to one-half the nitrogen should be applied

MAKING BOWS — Mrs. Harry McCauley makes bows for flower vases during her spare time. In the background are different ribbons in stock.

Agriculture Briefs

GRAIN SORGHUM FED TO HOGS BRINGS TOP PRICE — Grain sorghum marketed through hogs netted twice as much as grain sold at time of harvest. Feeding tests at the Stiles Foundation Farm near Thrall show that grain sorghum fed to hogs returned about \$4 per hundred pounds compared with \$2

per cwt. for grain sold at harvesttime in the area. In the tests 196 sows farrowed 2,077 pigs, an average of 10.6 pigs per litter. At 35 days of age, the litter average was 9.4 pigs, about 2 per litter higher than the state and national averages, said Dr. D. B. Hudman, Extension swine specialist.

GROUP ACTION — The key to market power for farmers is group action, says Dr. W. E. Black, Extension marketing economist. Farmers must sell on a group basis if they are to own farms on a family basis, he adds. Farmers can enjoy a better life if they'll use more of the market power they already possess and group action, he believes, is the answer.

FEDERAL CROP INSURANCE — More than \$900 million in farm crop production investments are protected by Federal Crop Insurance this year. This is the highest amount of protection in the 30-year history of the insurance program reports the USDA. In 1967 an estimated 83,000 farmers across the nation shared in Federal Crop Insurance payments, totaling more than \$54.5 million.

SCREWORM CASES STILL INCREASING — From July 4-8, 38 new cases of screwworms are identified in Texas, along with 8 in Arizona. All livestock producers in the Southwestern States are cautioned to use good management practices such as spraying herds and treating wounds; and collecting and sending larvae samples to the Mission Laboratory for identification. Sterile fly treatment is started immediately after a case has been confirmed. Screwworm populations could be re-established in states that have been free of the pest for many years, warn program officials.

Ginners Group Plans Meeting

A. L. (Skinny) Higgins, President, has announced that the annual meeting of Plains Ginners Association will be held on September 14 at the Lubbock Country Club. Activities will begin at 9 a.m.

On the program will be Higgins, of Plainview; Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc., Lubbock; Tony Price, Executive Officer of the statewide Texas Cotton Ginners Association, Dallas; Roy Davis, Lubbock Manager of Plains Cooperative Oil Mill and President of the National Cotton Council; and Roy Baker, Engineer-in-charge of USDA's new \$400,000 ginning laboratory at the South Plains Research and Extension Center.

Also on the program will be Texas Employment Commission, which will discuss TEC efforts to alleviate the expected shortage of gin labor this fall. Featured luncheon speaker will be the well known dentist-humorist Dr. Charles Jarvis of San Marcos.

Sales Training Course Is Set

Americans currently are spending at a rate of over \$1.3 billion per business day. These are consumer dollars going for oil and gas, TV repair, lawn mowers, clothes, insurance, and other goods and services. Minimum projection indicate that this figure will increase by \$120 million this year.

"Are we getting our share?" These were the words of Earnest Langley, president of The Deaf Smith County Chamber of Commerce when he announced a special training program for Hereford businessmen. Francis Bowden from the University of Texas will conduct a sales training course entitled "Sales Sharpeners" at the Hereford High School Cafeteria from 7:30 to 10 Monday through next Thursday, Sept. 12.

This training is made available by the Distributive Education Program of the University and the Texas Education Agency. It will help people who sell to do a better job.

During the four-day program, discussions will be held on how to secure and hold the customer's attention, create interest, kindle desire, and induce customer's action through the use of product information.

Mrs. Bowden has had extensive experience in retailing and has conducted similar programs for the University during the past year.

Plans Made For 2 Big Yield Days

The week of September 9 on the High Plains could appropriately be called "Agricultural Research Week" this year, according to Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc.

"Field Days" featuring tours of agronomic research projects, many of which receive PCG grants-in-aid, will be held at each of the area's two major agricultural research centers during that week, Johnson noted.

The 59th annual field day at the South Plains Research and Extension Center just north of Lubbock will begin at 1 p.m. on Tuesday, September 10.

The 12th annual field day of the High Plains Research Foundation, Halfway, is set for Thursday, September 12. Research projects and displays will be on exhibit from 1 p.m. to 4:45.

The evening portion of the program begins at 5 p.m. and will include an address by an outstanding agricultural speaker.

"Of all our activities, PCG's support for agricultural research at these two facilities has provided some of the most profitable returns," Johnson stated, "but our members could get substantially greater benefits from production research if it

weren't for the serious lag between the development of new and improved farming techniques and the field application of those techniques by farmers.

"So we are urging our members to avail themselves of these two excellent opportunities to see and study the latest advances in farm technology."

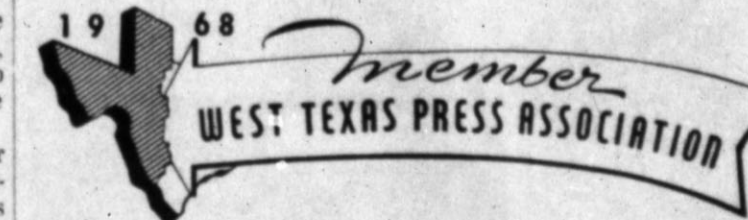

At SPREC on September 10, tours will show field plots on cotton varieties and diseases; weed control, soil fertility, irrigation flexibility and sorghum midge control. Other attractions include a large machinery exhibit, the new \$400,000 ginning laboratory, greenhouse and other laboratory displays.

The foundation of soil conservation farming is proper land use.

No great nation has ever existed that was not surrounded by an adequate agricultural area, because a substitute for food has never been found.

Soil is the Nation's basic asset; without it we're paupers.

Poor land makes poor people — poor people make poor land. —Pare Lorentz

HEREFORD, TEXAS, 79045, THURS. SEPT. 5, 1968

Removal Of Rogue Sorghum Plants Makes For Increased Production

LUBBOCK — Rogue or off-type grain sorghum plants can lower overall production somewhat since they compete for water, nutrients and sunlight just like weeds. Dr. Robert B. Metzger, area agronomist with the Texas Agricultural Extension Service, recommended their removal where possible.

These weedy sorghum plants are either volunteer (carried over in the soil from previous years) or spring up from seed mixed in with the present year's planting seed.

Now is a good time to remove these "weeds," says Metzger. This will avoid seed carry-over for next year. Ideally, these tall, weedy plants should

be removed within 10 days after flowering to prevent reduction of germinable seed, especially those plants that shatter easily.

Yet, careful removal of these plants before harvest will still help reduce the volunteer problem the following year, explains the agronomist.

Another control method, he points out, is to rotate heavily infested fields with cotton or soybeans and use herbicides recommended for controlling grasses in these crops.

The off-type plants originate from pollen of undesirable plants growing near hybrid seed production fields or crossing blocks. Thus, these plants are called "outcrosses," explains Metzger.

If the "outcrosses" are in the planting seed, the individual off-type plants will be uniformly distributed over the entire field. However, if they are volunteer, these plants will appear in large circular patches and will normally be concentrated in certain areas of the field in which smaller patches were located the previous year.

Seed already in the soil may produce volunteer plants for several years, Metzger emphasizes. Consequently, one or two years of grain sorghum may not completely control all volunteer sorghum. Weather conditions greatly influence the growth of these volunteer plants.

Francis Bowden

INSIDE THE SHOP — Park Avenue Floral has a collection of real and artificial flowers, such as the one on the right. Many types of vases and bows are kept on hand for each customer's preference.

Uncle Sam's Selective Service

Editor's Note: Below are questions now being asked at draft boards. The answers are by Colonel Morris S. Schwartz State Selective Service Director, 209 W. 9th Street, Austin, Texas 78701. He will welcome your questions.

Q — How can I secure a copy of a man's Selective Service file?

A — If the man authorizes you, in writing, to have a copy of his file, you may secure one by arranging for its reproduction, at your expense, by an organization which does this kind of work. A Selective Service System representative will then take the file to the designated organization, remain with it until it is reproduced, and will then mail the copy to you. You can not get a copy of a man's file, neither can you see it, unless the man authorizes it.

Q — My company is sending me out of the country for a three month period. Must I notify my local board?

A — You are required to keep your local board informed of your current mailing address. It is suggested that you see your local board and request it to issue a "Permit for Registrant to Depart From the United States (SSS Form 300)." It may or may not be issued, depending upon when you might be called upon to discharge your obligations under the Military Selective Service Act of 1967. If you're free of obligation, it will be issued.

Q — I've just received my Selective Service questionnaire. I am in doubt about completing an item. Is there someone who will advise me?

A — An advisor to registrants, who serves without compensation, or anyone at a local board will be glad to assist you.

TAX MAN SAM SEZ:

The Texas Community Property law creates quite a few differences in the income tax you owe. One of the surprises is the fact that both halves of the community property estate are re-evaluated as of the date of death.

To illustrate how this works, grandpaw and grandmaw bought a 1000-acre ranch in 1920, for \$1,000. Under the community property law of Texas, if they sold the ranch in 1967, grandpaw had a \$500 basis for his half and grandmaw had a \$500 basis for her half. In 1948 they struck oil on the ranch, and shortly before grandpaw's death in 1968 an engineering appraisal placed a \$1,000,000 value on the ranch. The Crude Oil Company offered them \$1,000,000 for the property, but grandpaw decided not to sell; even though they could take a capital gain, they would owe about \$250,000 taxes, they only had a \$1,000 basis. Grandpaw died in May 1, 1968. His half of the property went to their children, but grandmaw still owns her half.

Rhea Couple Honored On Anniversary

Mrs. L. H. Hoffman, 235 Ave. B, accompanied Mr. and Mrs. J. T. Stehr of Rt. 2 to Rhea Community Sunday afternoon, to attend a Golden Wedding reception for Mr. and Mrs. Herman Schueler, long-time residents of Parmer County.

The couple married Sept. 1, 1918 at Preble, Ind. Their attendants were Mr. and Mrs. George Schueler, who flew from Indiana for the celebration Sunday.

After a service at Rhea Lutheran Church a reception was held in the Parish Hall, where the Schuelers' four older granddaughters served punch and cake from a table laid with lace over gold and lighted by tall gold candles.

Four small grandsons whose ages range from five to nine registered about 200 guests.

Special guests, besides their attendants were Mrs. Hoffman, a sister of Mrs. Schueler; another sister, Mrs. Gus Koeltzow of Denver and family; a nephew, Arnold Schueler of Indiana and his wife.

Letter To The Editor

Dear Editor:
The constitution Right of Freedom of Assembly is deliberately misinterpreted by those who incite or instigate riots and civil disorders.

The Holy Bible supports this cherished freedom of assembly when the inspired writer of old, Isaiah, declared for unity of his people under God: "Come, let us reason together."

The right of the people to gather together and discuss a grievance basically in opposition to inherent rights is a commendable procedure and a duty of free society.

But, when agitators and ele-

American College Student Is Failure As A Smuggler

LAREDO, Tex. — The American college student is frequently cited as more alert, intelligent and aggressive than his predecessors — but, according to authorities, he makes a poor smuggler.

Unaware of the odds against them, they are being arrested in droves at Laredo's International Bridge. More than 127

persons were picked up for smuggling during the first two months this year. The total for all of last year was only 205. Asst. U. S. Atty. Ronald Blask says, "Most of the persons caught are college students who want to sneak marijuana across and think they can get away with it."

"College students these days

— because of the great increase of marijuana use on the campuses — are pretty suspect when they cross the bridge.

"Most," says Blask, "get a thorough going over." Blask also said many students make matters worse for themselves by not leveling with their lawyers.

"Some of the arrested stu-

dents don't tell the truth to their lawyers," Blask said, "and the attorneys are not able to provide good representation."

"In one case," he said, "the attorney wasn't aware of the true facts of the case until after the trial had begun."

Many attorneys are amazed to learn pertinent facts about a case that are brought up in pre-trial discussions between the defense and the prosecution, Blask said.

He said the federal attorneys often talk to defense lawyers and tell them all they know. Often there is a hasty change of

plea from innocent to guilty. Blask says many students are not aware of the severe penalties for attempting to smuggle marijuana into the United States.

"Most," he said, "when talking to the judge seem repentant. He said many of the young offenders plead guilty, in narcotics possession cases. 'I'd say that 85 to 90 percent plead guilty... they have the attitude they were caught and they were wrong.'"

"Some," he said, "get pretty stubborn or try to hide the facts from their attorneys."

"They are the ones who really lose in the legal proceedings." "These kids are pretty amateurish," says Blask, "and the customs agents and inspectors have a great deal of experience and training."

As a result, he says, the odds are greatly against the student. "If the youngsters only knew what their chances were pretty slim perhaps they would think twice about trying to smuggle this stuff across," he said.

England's Queen Anne, who reigned from 1702 to 1714, was so fond of brandy that she was nicknamed Brandy Nan.

LCC Associates Slate Meeting

First fall meeting of Lubbock Christian College Associates, an organization of that school's supporters in the county, will be held at 4 p.m. next Monday in the Flame Room of Pioneer Gas Co.

The meeting is open to all friends interested in LCC. The program will be a demonstration of arts and crafts, methods of making articles which are suggested as gifts to the school.

Mrs. Larry Brown and Mrs. Jeff Carlile are in charge of arrangements.

Wyoming mines nearly all the nation's bentonite, a vital clay used in steelmaking, and trona, an ingredient in glass, soap and paper.

For God So Loved The World

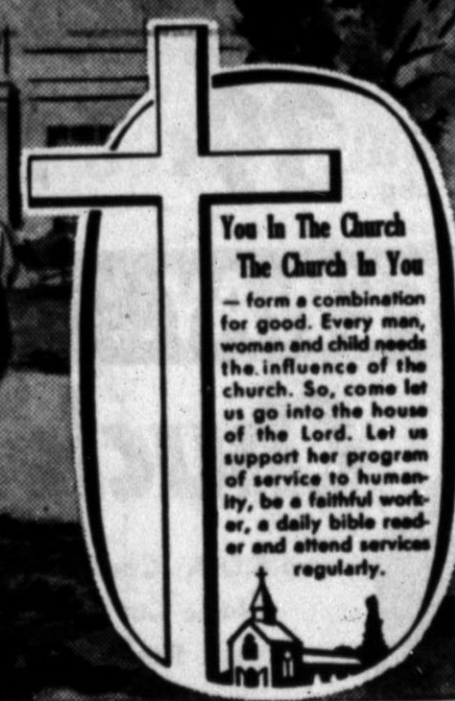

the Academic and God

The Great Teacher once said, when the fig tree buds it is spring. We might add, when the youngsters go back to school, it is fall. What a challenge back-to-school brings. It is time to learn more about math, and science, and citizenship, and God. How necessary to our American way of life are these basic requirements in our educational system. Our curriculum must include some precepts of Jesus if we are to have sufficient moral and spiritual stamina to endure. It has been said, education without a knowledge of God is dangerous. Our teachers, our preachers, and all loyal Americans should see to it that our basic education be broad enough to include both the academic and God. Of course our youngsters should be loyal to their colors, to their school, but they should also be faithful subjects of the Great God. They should worship in church every week.

The Hereford Brand, Hereford, Texas, Thursday, Sept. 5, 1968

Women's Clubs To Help Again In Major Project

Women's clubs in this county are being asked to cooperate again this year in a project of friendliness which they initiated and carried out successfully last year.

Members volunteer to serve as chauffeurs at specified times, to take residents of Kings Manor for shopping trips. A club which cooperates in the project is asked to be responsible for volunteers for one month. The shopping trips are made on Tuesdays and Thursdays.

Mrs. G. W. Newsom is general chairman of the project, and she urges clubs which are beginning to meet in a new season to discuss this project at first

meetings, and notify her of plans to assist. Dates will be assigned on a first come, first served basis, she announced. She may be reached by telephone at 364-3338.

"Club women and the women living at the Manor were equally pleased with this project after it was launched last year," Mrs. Newsom said. "It proved a welcome convenience to women at the retirement home, most of whom do not drive so they are not always able to make shopping trips when they like.

"The women who volunteered to drive them to town and shopping centers also enjoyed mak-

ing the acquaintance of their guests, so the program meant much to both parties. We hope to have a new schedule for the fall set up soon."

Community Calendar

The Community Calendar, which includes major events which will be of interest to Hereford and residents of the immediate area, will run in each issue of the Brand. The calendar will include events for the coming six months, and all individuals and organizations are urged to write or mail their event for inclusion.

SEPTEMBER

Stated meeting Hereford Masonic Lodge No. 849 Monday September 9.

Party Fetes Bride-Elect

Before her wedding Saturday, Miss Judy McNeil is honoring this week at final parties including a rice bag party Wednesday evening with her aunt, Mrs. Harry S. Snyder of West Monroe, La., as hostess in the McNeil home.

Pink snowball cakes and homemade ice cream were served to Mmes. Earl Jackson, David Dowell, Mack Cansler, Larry Miller and Mike Ferguson, and from out-of-town, Mrs. Johnny Wright and Mrs. Eddie Langwell of Amarillo, Mrs. Wes Cornett and Mrs. Del Brewer of Canyon.

Mrs. Snyder presented the bride-to-be a cake knife in her chosen silver pattern.

Star Theatre, Brand Lauded By Magazine

The Star Theatre and the Hereford Brand have received additional kudos in the national press regarding the guest admissions to families of Vietnam servicemen recently for the showing of "The Green Berets." For a second time, it has been featured by Boxoffice Magazine, which is received by nearly every motion picture theatre in the United States and Canada.

Additional facts were revealed by the magazine, which were confirmed by Star Theatre manager Francis Hardwick — although he said that he did not know how they got them. "Probably from the Dallas office"

of Commonwealth-Frontier, his partner in the theatres here, he surmised.

The story reported that the picture had gotten the "highest gross in the history" of the Star Theatre, and that Hardwick "credits the fantastic gate to the reams of publicity given the movie... when he offered free admission to the families of Deaf Smith County servicemen who have served in Vietnam."

Boxoffice reported that eight of the Brand's articles on "The Green Berets" ran a total of 257 inches of copy. "Only about 40 families took advantage of the free admission offer, but all the publicity kept the house packed for every showing."

It was reported that the offer of free admission brought controversy too — "letters poured into the Star Theatre and the

editorial offices of the Hereford Brand. Most were complimentary and thanked the theatre management and the newspaper for recognizing the families of servicemen."

Hardwick reported that "The Green Berets" is booked for a return showing in Hereford, at the Tower Drive-In Theatre on Sept. 27, 28 and 29.

Gilbert H. Grosvenor, who went from only employee of the National Geographic Society to president and editor at the time of his retirement, once said, "I personally addressed all the wrappers for the first issue I edited (April 1899) and carried the entire mail edition to the post office in one trip."

Lapps round up their reindeer under the midnight sun because summer's fierce mosquitoes are less active then.

Almost one million meteoroids — most no larger than a grain of sand — fall into the earth's atmosphere during each 24-hour period.

Ocean covered a vast part of southern Maryland in the mid-Miocene, 15 to 18 million years ago, the National Geographic Society reports.

A bison in the New York Zoo known as Black Diamond served as the model for the animal on the U. S. nickel coin minted between 1913 and 1928.

AUSTIN HIGHLIGHTS

New Election Rules, Taxes Are Discussed By Officials

By VERN SANFORD Texas Press Association
AUSTIN - Until this year no one could vote in any election in Texas unless he had lived in the state for a full year. "Not so now", says Secretary of State Roy R. Barrera.
As the result of a statute passed by the Texas Legislature in 1967, following voter approval of a constitutional amendment in 1966, voting rules have been changed.
Barrera, as the state's chief election officer, advises that any citizen of the United States, 21 years of age or older, who has resided in Texas less than one year and for at least 60 days as of the day of the election, who satisfies the conditions of a qualified voter in the state from whence he came to Texas and would have been qualified to vote had he remained there, may vote in the Presidential Election here this fall.
"However, Barrera points out, the voter can not vote on any office except that of president and vice president of the United States.
Furthermore, he must apply for a ballot at the office of the county clerk in the county of his residence... sometime during a 15-day period beginning September 6. If the voter has an official document attesting to the fact that he was a registered voter in the state of his former residence, he should take that document with him when he applies for his ballot. This will eliminate the necessity of the clerk verifying eligibility at the place of his former residence.
It is important to note too, says Barrera, that once declared eligible to vote, the new voter must cast his ballot in the county clerk's office... not on November 5, the general election date... but sometime during the 15-day period preceding the general election.
STATE INCOME TAX DISCUSSED - Constitutional Revision Commission finished its first full review of recommendations for a new constitution after a battle royal on the question of state income taxation.
Commission wound up recommending that the current provision allowing an income tax be retained, but there was considerable support for prohibiting income taxes.
Revenue and Taxation Committee, headed by George Wilson, of Dallas, president of Lone Star Steel Company, had recommended retention of the clause authorizing such a tax. But Wilson quickly joined forces with Houston Rep. Bill Archer during the full commission meeting in an effort to forbid income taxation.

Wilson said a prohibition on the income tax "would be helpful to our chambers of commerce in recruiting industry."
San Antonio Mayor Walter McAllister termed income taxes "socialistic, communistic and Marxist".
By a vote of 7-5 (most of the 25-man commission were absent or failed to vote) the prohibition of the income tax was approved. But Denton Rep. Alonzo Jaminson forced reconsideration of the issue when he moved that the sales tax be limited to its current level. "If we are going to bind the hands of the legislature in the matter of one tax."
Wilson and Archer were strongly opposed to restricting the sales tax level, but Dallas Times Herald Editor Felix McKnight, who had voted with Wilson, changed his mind and said he thought decisions on tax policy should not be made by a constitutional drafting body. He moved for reconsideration.
By a 10-2 vote the income tax prohibition was opened for reconsideration, and the prohibition on income tax was then defeated by a vote of 9-6.
Commission will meet again in late September to look after actual drafting work. The proposed charter will be submitted to the legislature in January.
WALLACE CHAIRMAN IN AUSTIN - Bard Logan, State Chairman of the American Party and the George Wallace presidential campaign, has started a week-day schedule of working in Austin in American Party headquarters at 506 International Life Building.
"I have made my wife a 'political widow'," Logan said, "I'm staying in Austin during the week and trying to get home to San Antonio weekends until the campaign gets too heavy, and she's running my business for me back home."
Logan denied reports that his party moved its headquarters from Austin to New Braunfels, explaining, "I presided at the official opening of the New Braunfels local headquarters, and some people thought we had moved there. But we have not. We are right here in Austin."
TEXAS STOCK EXCHANGE - A legislative committee and the University of Texas at Austin will begin a study this fall on the feasibility of a Southwestern stock exchange centered in Texas.
Advocates of the idea say that Texas and Southwestern stock-market transactions have grown so much in recent years that such an exchange soon will be a necessity and may be desirable now.
Rep. Dave Finney of Fort Worth chairs the committee, which includes Reps. Don Cavness of Austin and Dick McKissack of Dallas. The UT research will be carried on by Dr. Ernest W. Walker, professor of finance, and a graduate student.
They will report to the 61st Legislature in January.
CORY NAMES GAS-STORAGE COMMITTEE - Rep. Dick Cory of Dallas, chairman of the House State Affairs Committee, appointed a special subcommittee to study Texas laws on the storage of gasoline.
Rep. Charles Jungmichel of La Grange will chair the committee, which will include Reps. Bud Atwood of Edinburg, Jack Blanton of Carrollton, Ace Pick-

ed 696 screwworm cases confirmed in Texas in July. Mexico reported 1,982 cases in roughly the same period.
REHABILITATION STUDY - A report by the Texas Research League on vocational rehabilitation has prompted the State Board of Education to appoint a committee to look into the situation.
William H. Evans of Lubbock is chairman of the committee composed of Porter M. Bailes Jr. of Tyler, Doyle Corley of New Boston, E. R. Gregg Jr. of Jacksonville, Charles E. Hart of Bryan and James W. Harvey of Archer City.
League was prompted to make its report because of the sudden expansion of the rehabilitation program in the last five years.
ADDING IT UP - Two California mathematician-engineers are coming to Austin to begin computer work on the best ways to meet the problem of water shortages in Texas.
Their work comes under the Texas Water Development Board. Simply stated, the mathematicians will work on a theoretical model of how Texas water resources can be best moved to where they are needed.

Commission has also reported-
CARD OF THANKS
The family of Ella Bernice Parker wishes to take this opportunity to thank the doctors, nurses and any others at the Deaf Smith County Hospital for the care given to our wife and mother. Also to thank all of the dear friends who took time to visit her, bring her flowers and send her cards.
R. F. (Buck) Parker & Children.

TB Board Will Meet Saturday
Top Of Texas TB Association will have its board of directors meeting Saturday at 9 a.m. in the Amarillo YMCA building, according to Charles McIntosh, executive director of the association. Directors from Deaf Smith County are Mrs. Jewel Smith and Dr. C. E. Rush.

Dr. Rush will also be a speaker at their Nurses Workshop, scheduled for Friday, September 27. It will be a nurses seminar for all student and graduate nurses of the Texas Panhandle. Located in the social hall of the Polk Street Methodist Church in Amarillo, it is set to begin at 9 a.m.
Sponsored by the TOT TB Association, the seminar will also feature Dr. Roger Smyth of the Texas State Department of Public Health, who will speak on the Child-Centered Approach to Tuberculosis Caseload.

Dr. Lloyd Hudson of Amarillo will speak on Emphysema - the Smoker's Disease.
Dr. Rush will have as his subject Sanatorium Versus General Hospital Care of TB.
Also featured will be Miss Sue Barfoot, tuberculosis control nurse of Lubbock, who will speak on the Role of the Nurse in TB Control. A film, "The Elusive Enemy," will show through time lapse photography the actual invasion of TB germs into body cells while antibodies fight the killer germ.
Let us never forget that the cultivation of the earth is the most important labor of man. Unstable is the future of that country which has lost its taste for agriculture. If there is one lesson in history which is unmistakable it is that national strength lies very near the soil. - Daniel Webster.

Income Tax Facts
This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.
Q - I get \$25 a week from my ex-husband to support my boy. Who gets to claim him for tax purposes?
A - Since your ex-husband provides more than \$1,200 support during the year he would generally be entitled to claim the dependency exemption, unless you provide more than half the child's total support.
For the rules on claiming a child of divorced or separated parents, write your District Director and ask for a free copy of Document No. 5013, Personal Exemptions and Dependents.
Q - My boss is sending me to one of our branch plants to do a survey of employee attitudes. My expenses are going to be paid while I'm there but if I come home weekends, that will have to come out of my own pocket. Will I be able to deduct the cost of my weekend trips home on my tax return?
A - If your assignment is temporary you will be able to deduct the cost of returning home weekends. However, you may not deduct more for this weekend travel than you would have spent for room and board if you had stayed at your temporary assignment.
Your travel costs in getting to the temporary assignment and returning home after it is over are also deductible to the extent these costs exceed the reimbursement from your employer.

Income Tax Facts (continued)
Everybody knows that the new surtax law raised the amount of income tax that you will pay (7 1/2 percent this year) by 10 percent. What a lot of folks don't know is that the rules for paying estimated taxes have also been tightened up. Most of us work for wages and our employers withhold income tax and social security tax from our wages and pay it to Uncle, and we don't have to worry about filing an estimated tax return. However, those folks who are self-employed or who have income outside of their pay check, do have a problem. This type of taxpayers have been required to file an estimated tax return in the past, but there were lots of good excuses that wiped out a tax penalty if you did not file & you met the exception. Congress decided to wipe out and tighten up these exceptions. If you are self-employed or if you have substantial income on which you have not paid any tax, you better review the amount of estimated tax that you are due to pay on September 15, or find out whether you have to file and pay because your good excuse is gone.

CARD OF THANKS
This is to express our deep appreciation to all the relatives and friends who helped make our recent Golden Wedding anniversary reception a memorable occasion. We were happy to see those who called, and we enjoyed the cards, telephone calls, flowers and gifts from others. Your messages of congratulation, in whatever form, are sincerely appreciated as evidence of your friendship.
Mr. and Mrs. Coy O. Phillips.

FAMILY HONORS NONAGENARIAN — Mr. E. O. Parsons, whose 90th birthday fell on Aug. 28, was honoree at a family dinner the previous Sunday when her four children and 41 grandchildren and great-grandchildren, with several other relatives, gathered at the County Bull Barn. Mrs. Parsons is pictured with her daughter, Mrs. Aubrey Talley of Halfway and Mrs. Pauline Johnson of Amarillo, and sons, T. J. and Grady Parsons of Hereford. Gifts and flowers were presented to Mrs. Parsons, and a decorated birthday cake was a special item of the dinner menu.

Ex-Resident Is Married Recently

Mr. and Mrs. Johnny E. Cameron will make their home at Fort Hood while he is stationed there in U. S. Army service, after a short trip following their recent marriage in the bride's home at Commerce.

Before the wedding she was Miss Pamela Jane Edwards, a resident of Hereford before her family moved to Commerce about two years ago. Her parents are Mr. and Mrs. E. A. Edwards, 229 Brookhaven, Commerce. The bridegroom's parents, also of Commerce, are Mr. and Mrs. Dale Cameron.

The minister of Commerce First Christian Church conducted the marriage ceremony and the couple's only attendants were Mr. and Mrs. Benny Herman. An arch of greenery tied with yellow ribbons and flanked by tall baskets of mums was the background.

Miss Edwards, given in marriage by her father, wore a street-length empire dress of moonwhite brocade with bell sleeves and circle neckline. Sprays of pearls held her bouffant net veil and she carried white baby orchids.

The matron of honor was dressed in blue crepe in A-line style and her bouquet was of yellow carnations.

A reception in the home followed the ceremony. Miss Kathy Ainsworth, the bride's cousin, registered guests and Mrs. Judy Click served refreshments. Yellow tapers in a silver candelabrum lighted the table. Wedding bells topped the tiered cake.

Mrs. Cameron attended Hereford schools, and was graduated last spring from Commerce High. Mr. Cameron also attended Commerce schools.

Guests from Hereford for the wedding were Mr. and Mrs. Arlas Edwards and Mrs. C. H. Hammock.

New time-keeping and recording devices essential to space navigation maintain an accuracy to one ten-billionth of a second.

Mrs. Johnny E. Cameron nee Pamela Jane Edwards
