Miss Oliver Gives Instructions For Fall Garden: Stresses Insect Control

Knowing that many persons in this county will plant fall gardens and that early or mid-August is the best time for planting, Miss Sadie Lee Oliver, county home demonstration agent, this week prepared information which she feels will be of value to gardeners. Since defense of health can best be secured through adequate diet, Miss Oliver points out that the raising of gardens has come to be almost a patriotic duty.

Foremost instruction for gardeners, according to Miss Oliver, is to plan to control insects before they damage crops. "Sprinkle rotenone on radishes, mustard, tendergreen and turnips as soon as they sprout and repeat once a week to kill flea hoppers," says the demonstration agent.

Continuing in the discussion of insect poisons, Miss Oliver explains that a powder or dust composed of eight parts dusting sulfur, one part powdered arsenate and one part nicotine sulfate or pulverized tobacco, can be put to many uses in the garden. For convenience, this poison is referred to as "S-A-T" dust. Satisfactory results from this poison depend on its remaining on the plants for some time or until the insects have an opportunity to feed upon the

leaves or other plant parts covered with it. If washed off soon after being applied, it should be renewed as soon as the plants are dry.

The arsenical residue, Miss Oliver warns, "is poisonous to human beings if not removed from vegetables."

Rotenone is not poisonous to human beings and a Rotenone product, "Garden Guard", is sold by local firms at a small price. The poison is in a shaker top can, and the top should be sealed with adhesive tape when the insect killer is not in use.

In discussing vegetables which thrive in fall gardens, Miss Oliver says that English peas (Alaska or Little-Marvel varieties) will mature in 45 days and that other vegetables which may be expected to make before frost are turnips, radishes, carrots, stringless green pod beans, beets, spinach, lettuce, and mustard. Of these vegetables, carrots, beets, lettuce, mustard, radishes, swiss chard and turnips may be expected to withstand a light frost. Miss Oliver adds that tendergreens and radishes should be thinned in three weeks after planting.

"The value of the fall garden cannot be overestimated," concludes the home demonstration agent. "As a factor in reducing the grocery bill and as a necessity for obtaining that type of food needed by people at a season of the year when meat and bread comprise too large a portion of the daily ration, the fall garden is extremely important."

According to Mrs. Mora Bell, plans for the community park are progressing nicely. To date two fireplaces, one table and two benches have been contributed by different organizations. Roads will soon be laid out and graded and work will start immediately on the park.

Mrs. K. E. Dygert is confined to her home because of illness this week.

Miss Cleo Taylor and Mr. Marlon Alfred Ferguson who live southwest of Vega were married Saturday morning. The ceremony was performed by Justice of the Peace Ben Freeman.

Variety Of Cotton Stocking Designs Open To Manufacture

College Station.—More than 150 different cotton stocking designs are now available to the hosiery industry as a result of investigation by the Bureau of Home Economics at the Beltsville, Maryland, research center. Three years ago Congress appropriated funds to the Department of Agriculture for investigating the use of cotton for women's hosiery.

According to Dora R. Barnes, specialist in clothing for the A. and M. College Extension Service, the designs vary from cotton web mesh for evening wear to plain knits in various weights for sports wear and for around the house and garden. Several are in production and more will be soon. They are pro-

Surveys made in 1940 showed that 89 per cent of the 16,200 full-fashioned knitting machines in the United States are suitable for knitting cotton as well as silk, while only 47 per cent can handle nylon yarns. Last year American women bought more than 43,000,000 dozen pairs of full-fashioned stockings. If these had been made from cotton, it is estimated that nearly 300,000 bales of long-staple fibre would have been required.

Chevrolet-Olds Agency Bought By G. W. Brumley

G. W. BRUMLEY this week assumed active management of Brumley Woodford Motor Co., following purchase of the interest of Louis Woodford, who has been manager during the past few years.

Mr. Brumley this week announced his purchase of the interest of Louis Woodford in the Brumley-Woodford Motor Company, Chevrolet and Oldsmobile agency.

Mr. Brumley thus again becomes sole owner of the business which he founded in 1927 and continues his own business record in this community which began in 1909 when he came here as a day laborer. He is famous throughout the southwest for his hog business, which has been largely responsible for the growth of the hog breeding industry in this section. An early convert to the idea of irrigated farming, Mr. Brumley started irrigation on some of his land in 1917, he also has extensive cattle interests.

Louis Woodford has been in the Chevrolet-Oldsmobile business since 1936 and has been active in managing the business. He came to Hereford in 1931 and has farm property here, and for several years operated the Conoco Service Station at Main Street and Highway 60.

Besides having the agency for Chevrolet and Oldsmobile, the Brumley Motor Company features a complete parts line, an expert repair shop, and an active used car sales department. They are also agents for Good-

Mr. Ridenhour Is A Budget-Minded Man

Kansas City.—The budget-minded Garnett A. Ridenhours came up with figures today to show that babies are in reach of almost every married couple's pocketbook.

The Ridenhours totaled up their budget and found that blonde, blue-eyed Nancy Gayle cost them exactly \$234.66—about \$11.33 a pound—since she was born 18 months ago.

And they estimated you could have the second baby much cheaper.

By handing down some of Nancy's clothing and equipment they figured two-month-old Jan William's total expenses for his first year at \$170.15—a saving of \$248.17 over his sister's.

The Ridenhours proudly pointed out that Nancy's first year expenses were more than \$70 less than Chicago's budget baby, two-year-old Sharon Defer, whose parents recently reported her first year expenses at \$270.17 and her second at \$225.05.

Ridenhour, a clerk in an army engineer's office, is 26 and his wife Uma Adele, is 25. They were married in March, 1939, when she was a junior in the Ottawa, Kas., university and he was employed there in the government soil conservation office.

New York.—The coolest man in town in Monday's heat wave was Dan Pores, helper on a refrigerator truck.

Someone slammed shut the door, accidentally locking him in. The outside key was inside—his pocket.

He was blue.

Kid Has Talent For Organization But He Exercises It In Queer Ways

Dallas.—District Judge W. L. Thornton believed Thursday he had found Dallas' no. 1 problem child.

He is a boy, 14, who tried to telephone President Roosevelt, Gov. Lee O'Daniel and Tyrone Power, the movie star, and charged the toll calls against an Oak Cliff church. He took full charge of one Sunday school class, was promoted and became active in another class, only to resign because he sought new fields to conquer.

He wanted to talk to the nationally known trio, he said, to discuss with them a patriotic organization he founded for children his own age. Of course he got no further than a telephone connection with secretaries of the celebrities, but the toll galls went on the books just the same.

Deciding that the church group offered too small an opportunity for his talents for organization he frequented the courthouse lobbies, listened to discussions of lawyers at their meetings in Judge Sarah Tughes' court and announced he wanted to be a politician.

He tugged at the coat sleeves of several judges and asked them to appear as speakers before his patriotic group.

Then, juvenile authorities say, he stole a purse containing \$60 from the handbag of a stenographer in the old-age assistance office on the second floor of the old courthouse building.

He used the \$60 as down payment on an automobile and his father made the loss good.

Now he must face trial in a few days before Judge Thornton, who frankly does not know what to do about the case.

"This is the kind of kid that is the real problem child because of his obvious influence over children," said the judge, who is asking an appropriation of \$50,000 for better care of juveniles.

Announcement...

G. W. Brumley has purchased the interest of Louis Woodford in the Brumley-Woodford Motor Company.

I wish to take this means of announcing that I will in the future have active management of the Brumley-Woodford Motor Company, and that we will continue to feature the CHEVROLET and OLDSMOBILE lines. As we all know, there will likely be some shortage on cars during the coming months — but it will be our policy to operate as nearly as possible just as if this country were normal.

Our service department, of course, will continue to give jam-up, first-class service. Furthermore, we hope to be able to fill the demand for automobiles — and invite you to figure with us, for we believe that we have two of the very best lines in the entire country. Anyway, drop in and visit. I will give you a good deal — even if it hurts sometimes!

Thanks

I want to take this opportunity of expressing sincere appreciation to the many friends and customers whom I have dealt with during recent years.

It has been a pleasure to associate with you and to deal with you, and I hope that most of you have enjoyed the friendship as much as I have.

For the next few days I will be around the garage, and will be glad to go over any details which might occur.

Again, I want to say "Thank You."

— Louis Woodford.

Let's Cook Something

When the thermometer is almost bursting and you think you are too hot to venture into the kitchen, you can get a meal on the table in short order and with little effort by planning a cold meat platter with thinly sliced meats, attractively arranged and garnished, and a bowl of crisp salad. Even a wilted appetite will freshen up at the sight of this summer setup.

Mrs. R. E. McCullough gives you two excellent salad recipes and a recipe for lemon dressing that will appeal to those who do not like salad dressings with a starchy base. Here they are:

WHITE SALAD

- 1 cup white or Tokay grapes (seeded)
- 1 cup canned white cherries
- 2 large bananas diced
- 2 apples peeled and diced
- 1 flat can pineapple tidbits
- 1 cup blanched almonds chopped

Drain all the fruit carefully and after mixing it all together thoroughly fold in 2 cups of lemon dressing. Serve in lettuce cups.

COTTAGE CHEESE SALAD

- 1 package lemon jello
- 2 cups water
- 1 flat can pineapple
- 1 cup cottage cheese

Dissolve the jello in the water and add the drained pineapple then stir in the cheese. Place in refrigerator to congeal and serve with lemon dressing.

LEMON DRESSING

- Juice of 1 large lemon
- 1 cup sugar
- 1 egg
- 1 lump of butter

Beat the egg thoroughly and add the other ingredients. Place in double boiler and cook until thick. When cool fold in 1 cup of cream which has been whipped stiff. Do not place mixture in ice box to cool before adding the cream as it will harden and will not blend satisfactorily with the cream.

Informal Tea Is Given For Austin Visitor

Mrs. T. W. Ridgeway of Austin was named honoree at an informal tea given Thursday afternoon by Mrs. George Muse. The honoree has been visiting in the home of her daughter, Mrs. Kellar Muse, for the past ten days. Conversation centering around vacations enjoyed and plans for varied activities for fall, provided entertainment in rooms decorated throughout with mid-summer flowers.

Those invited to meet the Austin visitor and to renew acquaintanceships of previous visits in Hereford, included Mesdames J. B. Stoker, A. M. Jones, A. C. Thompson, D. H. Alexander, Noah Ewton, John McLean, H. M. Redford, James Alken, F. M.

Class Is Entertained

The regular business and social meeting of the Home Makers Class of the First Baptist Church was held at the home of Mrs. T. W. Roberson Friday afternoon.

Mrs. Joe Kendall, president of the class, presided over the business session and the remainder of the afternoon was spent sewing on aprons designed for use in the church kitchen.

Refreshments were served to Mesdames Joe Kendall, Edgar Moseley, Earl Lance, W. L. Alexander, Art Manjeot, O. G. Hill, Otto Massie and the hostess.

Mrs. Sydney Maxfield was hostess to members of the Justakrd Club on Wednesday afternoon of last week. Mrs. Colby Conkright was a special guest.

High scores in the games of bridge were made by Mrs. N. E. Milburn and Mrs. Meade Haile. Others playing were Mesdames George V. Stambaugh, J. W. Witherspoon, Grant Fuller, Henry Sears, R. L. Craner and Mrs. Conkright.

Roy Jewells Entertain At Dessert Bridge

Among the many week end parties was the dessert bridge party given by Mr. and Mrs. Roy Jewell at their home on Bradley Street for members of the Thursday Night Bridge Club.

Using white cloths with red decorations small tables were laid for twelve guests. Dessert was served when the guests arrived and later games of contract were enjoyed.

Those making up the party were Mr. and Mrs. Reed Williams, Mr. and Mrs. Jim Black, Mr. and Mrs. Jim Lipscomb, Mr. and Mrs. John Olson, Mr. and Mrs. Bob Wilson and the hosts.

Outdoor Affair Is Enjoyed By Club And Guests

Outdoor affairs with special attention being paid to cool spots, continue to dominate the social calendar. A delightful club party honoring husbands of members of the Wednesday Luncheon Club was given by Mr. and Mrs. Oscar Easley last week.

The flower-lined back yard at the Easley home provided an attractive place to prepare the supper which was cooked over an open barbecue pit.

Later in the house, where profusions of flowers furnished a flower garden effect, contract games were featured for diversion. Mrs. W. L. Davis and Jimmie Gillentine played high for score award.

Those enjoying the occasion were Mr. and Mrs. W. L. Davis, Mr. and Mrs. Jimmie Gillentine, Mr. and Mrs. S. P. Rosson, Mr. and Mrs. C. C. Acker, Mr. and Mrs. J. W. Witherspoon and the hosts.

LOCALS

OUT-OF-TOWN GUESTS

Mr. and Mrs. Wm. McGeehee and Dr. and Mrs. F. M. Kester were hosts Sunday at the Kester home to a group of out-of-town friends and relatives who were friends and neighbors when they lived at Lockney. Dinner on the lawn, making pictures of the group and a watermelon feast in the late afternoon were highlights of the day.

Those present included Mr. and Mrs. Buck Sams and granddaughter Jacqueline, Dr. and Mrs. N. E. Greer and Mr. and Mrs. E. L. Woodburn of Lock-

afternoon. Special guests included Mrs. W. L. Davis and Mrs. Kinard's sister, Miss Aline Walker of San Angelo, who is a guest in the Kinard home.

Gladiolus and dahlias in shades of orchid, salmon pink and wine were used in bouquet arrangement about the house.

Mrs. E. B. Hicks played high for score award.

Those present were Mesdames Grant Fuller, A. R. Bateman, Colby Conkright, J. W. Witherspoon, E. B. Hedrick, F. L. Lucas, E. B. Hicks, W. L. Davis, Miss Walker and the hostess.

Good Cleaning

Is Your Best Investment!

Of course you want your garments to look nice — and you certainly don't want to take chances of injuring the fabrics with inferior chemicals.

We know these things from experience and we know that you will agree that Good Cleaning is a Good Investment.

For this reason, we are forced to announce the slight advances shown on this page, Effective Friday.

Good Cleaning PROTECTS Your Clothes!

Costs are Rising . . .

Probably many of you have noticed similar increases in cleaning cost in other places, due to the increasing costs of Soaps, Chemicals and other ingredients necessary to give you Good Cleaning.

Housewives, we are sure you have noted an increase in the costs of Soaps even such as are used at home — and the price rises are even more drastic on delicate soap compounds which are necessary to give you the quality of work you demand and deserve.

Although the price of almost everything has continued to go up, I have anticipated this and even as early as last fall, took this fact under consideration and prepared for this price increase. Merchandise should be much higher than it was last year, but I am able to offer you the latest merchandise at sale prices which are much lower than prices were a year ago. It may seem that if I lower this merchandise at the old price level, or even below, that I would want to take advantage of the price raise and charge you the new price. But No! In appreciation of the nice business of the good people of this trade territory, I am holding the price down as long as it is humanly possible. Because I do really want and appreciate your business.

Miss Sarah Truitt And Hugh Harman Are Married In Sunday Ceremony

Vows were exchanged between Miss Sarah Truitt and Mr. Hugh N. Harman at 8 o'clock Sunday morning in the home of the bridegroom's parents, Mr. and Mrs. S. L. Harman, with the Rev. James Alken, Jr., pastor of the Presbyterian Church, officiating.

In a dusty rose ensemble accentuated by white accessories, the bride wore a corsage of white carnations. Her something old was a hand-painted brooch belonging to her mother. She was attended by Miss Vera Byrnes, who wore a black and white ensemble with a corsage of pink carnations and baby's breath.

Best man was S. L. Harman, Jr., brother of the groom.

Mrs. Harman is the daughter of Mr. and Mrs. W. J. Truitt of Guymon, Okla. She is a graduate of the Guymon High School, attended Panhandle A. & M. College at Goodwell and is a graduate of the University of Oklahoma at Norman. For the past four years she has been a member of the Miami Public School faculty.

Mr. Harman graduated from Hereford High School and is a graduate of WTSC, Canyon. He has been band director in the Miami Public Schools for the past three years.

After a breakfast, which immediately followed the ceremony, the young couple left on a trip to Richmond, W. Va., and Washington, D. C. For traveling, the bride chose a red and blue suit dress with white accessories.

Upon their return the couple will be at home in Miami, where he will resume his position in the school.

Typhus Fever Is Over Seven-Year Median In State

Austin.—The prevalence of typhus fever in Texas during the last week was almost three hundred per cent higher than the seven-year median for the disease at this time of the year, according to Dr. Geo. W. Cox, State Health Officer. Whereas we could normally expect thirteen cases of typhus fever during the first week in August, actually thirty-eight cases were reported and the number continues to increase.

The rat is the animal host for the insect vector which spreads typhus, and since dry, hot weather favors the increase of fleas among the rat population, the possibilities of typhus transmission are thus increased.

Old World typhus fever has a high death rate, while the type we have in Texas, sometimes called Brill's disease, has a much lower death rate. Typhus occurs most frequently among persons who work or live in rat-infested buildings. It was this fact that led to the discovery that rats are the carriers or transmitters of the disease. It appears that the rat suffers attacks of typhus fever and that the fleas harbored by the sick rat bite man, and thus human infection results.

Although typhus is not commonly fatal, it cannot be considered lightly. The intense headache, the high fever, and the great mental depression are its most commonplace features. In common with seasickness, the patient's greatest fear is that he is not going to die. The illness generally lasts about two weeks.

The control of typhus fever is primarily dependent upon the extermination of rats. Trapping and poisoning are helpful in exterminating them, but the best results are obtained by star-

Defense Courses Open To Men With Basic Scientific Training

Austin.—Magnetism, single and polyphase alternating current circuits, and transformers. These will be only a few of the terms that will fill the lectures of the University of Texas' newest defense short course. Electrical Machinery and Circuits, to begin August 11 and run for 12 weeks.

This course is open to any Texas man with some knowledge of radio, high school physics, who can work problems in algebra and trigonometry. It is designed to furnish badly needed technicians vital in defense industries. R. W. Warner, University electrical engineering professor, has announced.

The U. S. Office of Education supplies funds for instruction. The students pay only those expenses which are incidental to tuition.

This is the twenty-third short course to be offered by the University.

strawberries were dug at the N. B. Elliston home and replanted at several homes in Messenger.

"Anybody can have strawberries if they have water," is the comment of Mrs. J. T. Glenn who helped secure the plants for her garden and community.

Make a new planting every year is the advice of Mrs. Nollie Elliston whose plants produce runners enough to cover the ground between the three rows in her garden. "Come back for plants," is still her invitation. Early October is the time to transplant if spring berries are wanted.

Should she tell visitors about the water-moccasin which has moved into her garden this season? The Bermuda grass is tall on the earthwalls of the water-tank which is kept filled by a second windmill.

CHDA NOTES

By Sodie Lee Oliver

Twelve members of the Wyche 4-H Club left Monday morning for a trip to Trinidad, Colo. They will return Friday, making the trip in Jack Roberson's truck. With the group will be Mr. and Mrs. Jack Roberson and Miss Imogene Roberson.

Expenses for the vacation were earned by the girls, most of the funds coming from proceeds of the sale of a clothes hamper containing complete equipment for a standard bed. Materials in the hamper included sheets, pillow cases and other linens.

C. D. Carnahan and Mr. and Mrs. R. E. Wagoner of Ford, Floyd Ross and the home demonstration agent went Saturday morning to see the strawberry planting at the Nollie, Elliston farm at Wyche and the landscape planting at the G. E. Thiele farm.

Ross, who has been taking pictures for the Chamber of Commerce, took shots of improvements at both farms and also got some pictures of the Palomino horses at the Elliston place.

On the Thiele farm the group also viewed the grape plantings, which include three vines of 16 different varieties. The vines will not bear heavily this year since they are only one-year-old. However, the Thiele's expect to make a good grape crop next summer.

Elsewhere in this paper is a digest of information on fall gardens, prepared by the home demonstration agent. She urges that gardeners give the fall planting a try this year, as fall gardens can be unusually successful in this territory, and there are many vegetables which will mature before frost which have not been given a fair trial here.

Crabapples have long been recognized as a fruit from which jelly can readily be made. They are rich in both pectin and acid. If dead-ripe the acid content

ing them. Rat proofing of buildings where food is stored is the surest method of exterminating rats by starvation. The State Department of Health and the U. S. Department of Agriculture will be glad to assist communities in their programs of exterminating this pest.

is lower than when just ripened. Most fruits jell better when slightly under-ripe.

An orchard had been planted below an earth water tank on the farm purchased by Mr. and Mrs. Pink Gilliland just west of Hereford. This year crabapples have been canned from that orchard. Other fruits produced include plums, cherry-plums, cherries, pears, Damson plums, apples, and a hybrid Apricot.

A bushel of crabapples was bought in the Hondo Valley by Mrs. Lee Cocanougher. From this bushel of fruit she canned twenty-four quarts. Divided as follows:

- 5 quarts of sweet pickles
- 9 quarts of jelly
- 10 quarts of butter and jam.

A choice product is the sweet pickle whose crabapple upon which the stems have been left. "Tell everybody to plant strawberries," was the suggestion of Mrs. Liston Wilson of Wyche. She dug a hundred and five plants which were almost buried by dust storms at the Louie Olson home this spring. She reports that even the runners have fruit on them. Each night they pick enough to serve on three bowls of cereal. Two or three times each week they pick all the berries and these sometimes amount to a gallon. Mrs. Wilson thinks that three hundred plants would be a generous amount to plant for three people.

It may seem a long drive from the Messenger Club to the Wyche Club but early in the spring

Morrison Rites To Be Tomorrow

Granville R. Morrison, 71, died early this morning at his home following a brief illness. Mr. Morrison has lived in Hereford since 1937.

Funeral services will be held tomorrow afternoon at 3 o'clock at the First Baptist Church, with Rev. W. E. Barnes conducting the rites.

Mr. Morrison was born in 1870 in Arkansas and came to Hereford from Oklahoma about four years ago.

He is survived by four sons, Edgar Morrison, Bill Morrison and Elmer Morrison, all of Ada, Okla., and Ray W. Morrison of Hereford; two daughters, Mrs. Eula Kennedy of Wichita Kan., and Miss Noyeta Morrison of Hereford, and by five grandchildren.

Burial will be made in West Park Cemetery.

Two Men From County Called for Army in August—Two for September

Albert William Frye of Dawn, son of Mr. and Mrs. A. H. Frye, and William Isaac Allen, son of Mr. and Mrs. George Allen, left Thursday for Fort Bliss, El Paso, to enter army service.

Frye's number was "63", and he was a selectee. Allen, a volunteer, held number 94.

The Deaf Smith County Selective Service Board also announces that they have received a call for two more men for September 24. There is a possibility, say selective service officials, that this quota may be filled by volunteers.

Presbyterian "Round-Up" Draws Large Crowd

The summer round-up which included members and former members of the Presbyterian church attracted a large crowd to the church lawn Tuesday night.

An old-time basket lunch was featured and games and contests from every age group of the church furnished entertainment. Even the men found themselves taking part in the entertainment for the fun of the crowd.

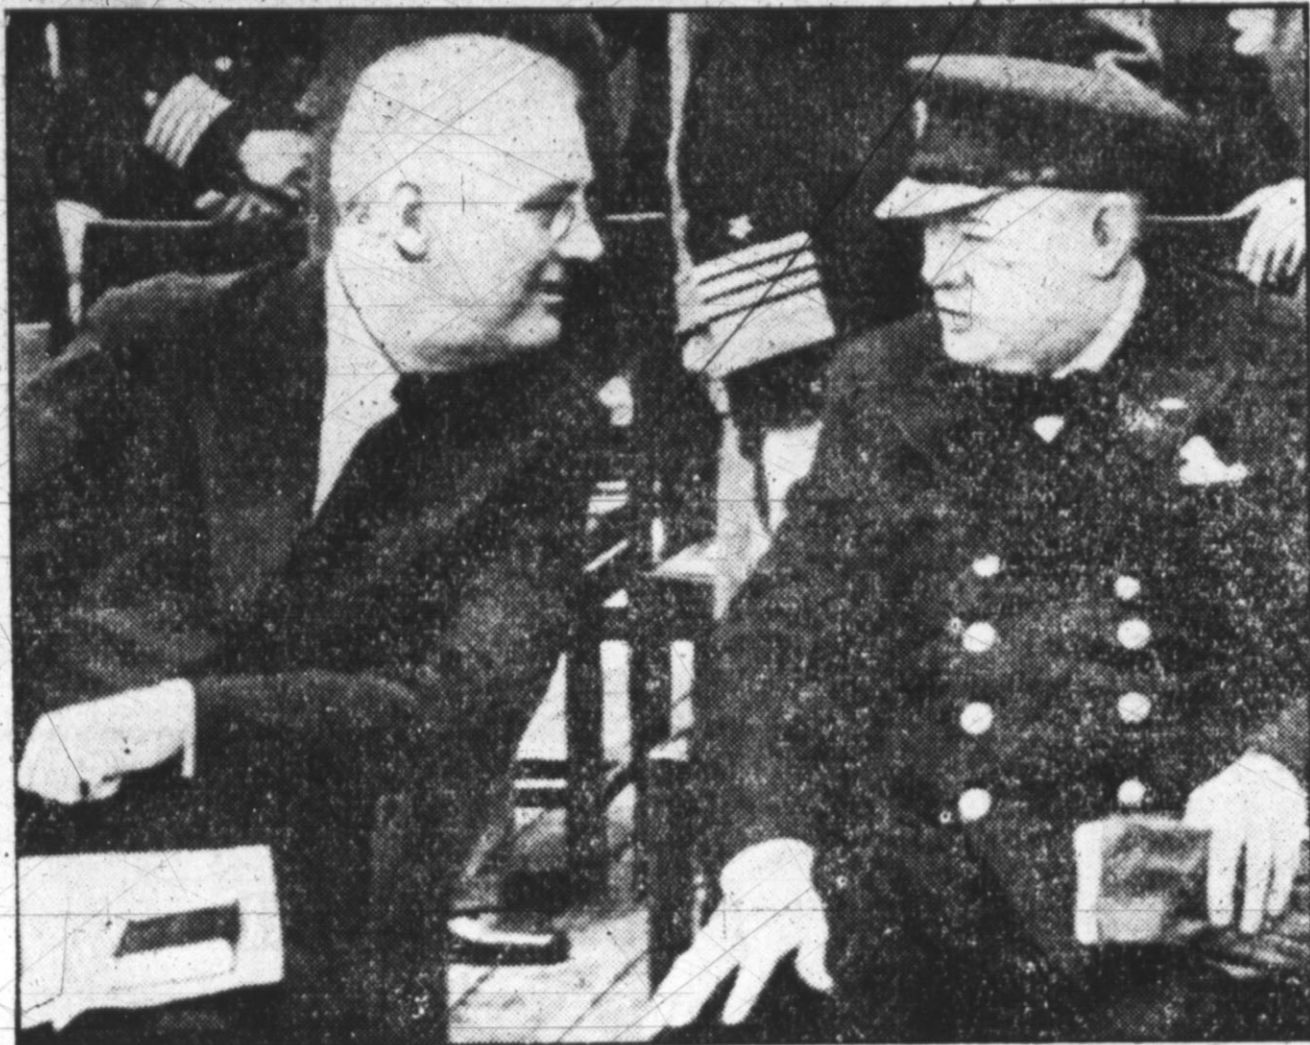

Members of the Woman's Auxiliary planned the program with emphasis on "everybody participating" which resulted in a maximum amount of fun for everybody. All might have had a "too full for utterance" alibi but no excuse was accepted and the outcome was that over one hundred people were laughing and entertaining each other, all in fun and friendly cooperation.

Wife of Former Hereford Resident Dies In Midland

Funeral services were held in Midland Monday for Mrs. Spencer Jowell, 65, member of a pioneer ranching family and Midland County resident 55 years who died Saturday night.

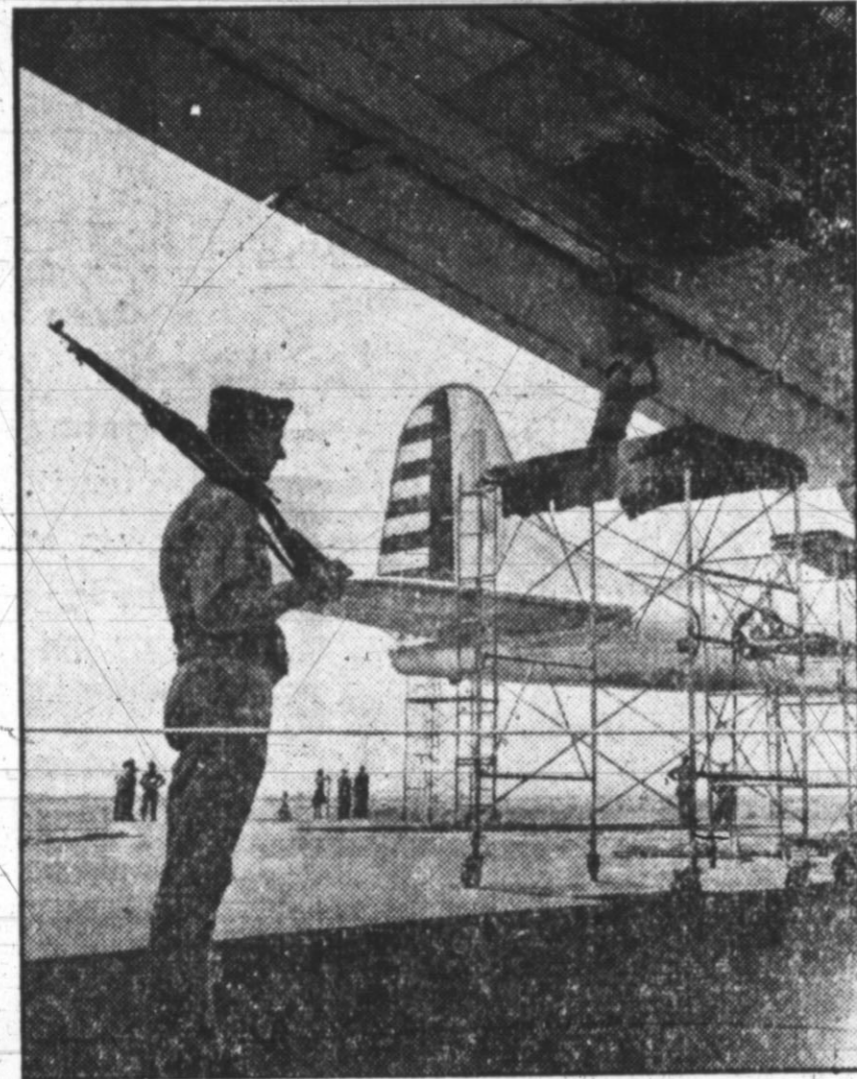

Mr. Jowell is a half brother of Roy Jowell and a cousin of the late G. R. Jowell. At one time he and G. R. Jowell were co-owners of what is now known as the Tom Ivey ranch.

Guard Giant of the Airways

Some idea as to the size of the giant Douglas B-19 bomber may be obtained by comparison with the size of the men guarding the huge new 82-ton ship. An aircraft worker is overhauling one of the wing-flaps, preparatory to next test flight.

continued to teach. Their first child was born in California, where Mrs. Tarr had gone to visit her parents, who had moved from Hereford to San Bernadino. The other two children were born in South Africa.

As Africa developed into one of the main theatres of World War No. II, the Tarrs decided to return to the U. S. Mr. Tarr

because of his English citizenship, naturally knew that his entry might be delayed, but tickets were purchased for the wife and three children. However, when the party reached the port of debarkation, it was learned that the eight-year-old daughter would not be allowed to enter the United States. A change in immigration laws within the past six years, permitted the five-year-old child to return with her mother, and the boy, because of his birth in California, could claim American citizenship. It was necessary therefore, for the girl to remain in Africa with her father.

On her way to Hereford, Mrs. Tarr spent four days in Washington talking with State Department officials about her predicament. She still hopes to get all of her family into the United States, but says that if they cannot get in here, they can live in Canada.

While in Hereford, Mrs. Tarr visited Mrs. Carl Williams, an old school friend. She is now in Grants, N. M., visiting her sister, Mrs. Ross Green.

on an ordinary repair job," says Mr. Hagar.

In fact, inspection of the new machinery, all electric powered, reveals that it is the type used in leather manufacturing plants, the same type machines found in large shoe factories, but built to a smaller scale.

Mr. Hagar hopes to hire a boot and saddle-maker in the near future as his equipment is now capable of turning out a high-grade finished product.

Inviting the public to inspect the new machines, Mr. Hagar adds that with his present equipment he will be able to turn out shoe repair jobs which will literally make the old shoe like new.

payments with the rates for compliance and special crop allotments to be announced later. The two types of payment are (1) a payment for carrying out approved soil-building practices, and (2) a payment for planting within special crop allotments such as wheat, cotton, rice and peanuts.

As in former years, conservation payments to be made under the 1942 farm program are contingent on the annual appropriation authorized by Congress, the AAA official said.

Instead of a total soil-depleting allotment for the farm, there may be substituted special crop allotments covering certain feed grains in surplus areas, he said.

adding that the state committee has not yet decided whether this would be necessary in Texas. Feed grains include oats, barley, rye, grain sorghums and corn.

A soil building allowance is established for each farm on the basis of such factors as the farm's cropland and non-crop pastureland; and the farmer may earn his farm's allowance by carrying out approved practices.

falo Lake. Mr. Patterson also hopes to have pictures of fishing on the Tierra Blanca.

The picture is still in production, but reels already completed will take about 15 minutes to show. It is expected that the completed film will probably be almost 30 minutes long.

Mr. Patterson has worked out a new system of titles for his picture this year which will add greatly to the attractiveness of the film.

U. S. O. contributions this week amounted to \$4.50, with the Catholic Ladies' Auxiliary giving \$2, C. T. Guseman giving \$2, and Jess Ford 50c.

Chairman Harold Close states that this brings the county total to \$263.80, and asks that persons who have not yet made a donation see him or C. C. Acker this week and try to put Deaf Smith County "over the top."

office. Before the inspector calls to measure the granary, the grain should be leveled off, the bin completely enclosed and a means provided for entering the bin above the top line of grain. This entry to the granary must have a lock with one key to be delivered to the inspector when the bin is measured and the granary sealed.

"The farmer should arrange

to be present to assist the inspector in taking a sample of the grain and in measuring the bin," concludes the local representative of Commodity Credit.

A further warning on farm-stored grain is to tell farmers that much trouble has been encountered in farm stored barley's failing to meet eligibility requirements. This barley must be free of the defects of weevil, stain, blight, smut and eight

bleach to be accepted for a loan. Some of these defects are apparent on a casual observation of the grain; but in any event, the grade certificate from the grading laboratory will determine the loan eligibility of either barley or wheat.

Any further information concerning farm-storage facilities as they effect commodity credit corporation loans can be secured at the ACA office.
