### AROUND TOWN

Sights and Faces Seen

The story about Hereford Potatoes is really getting around, according to Meade Halle, who with his family returned Wednesday night from California. Stopping in a service station at El Monte, a small town just out of Los Angeles, the station attendant asked what part of Texas the Hallees were from. Upon telling him Hereford, the man said: "Sure, I know where that is. It's getting to be quite a potato country isn't it?"

## Skunks Turn On Poison Gas In Blitzkrieg

The skunks are getting desperate and in their latest blitzkrieg attack used poison gas, a weapon which is pernicious, atrocious and totally uncivilized. At least that is what Chris Wagner says.

Friday morning about 5 o'clock he heard a noise in a chicken coop so he took his pistol and went to investigate, clad only in his BVD's. Mrs. Wagner accompanied him.

Firing once he was certain he got the skunk, but Mrs. Wagner said he missed. About that time a skunk came into view turning loose the gas, and Chris fired again, killing the skunk. When daylight came, not one skunk, but two were found dead.

Two empty shells.  
Two dead skunks.  
Ten dead baby chickens.  
One pair of highly-perfumed BVD's.

## Pioneers In Women's Club Movement Will Be Honored At Golden Jubilee Tea Soon

Tribute to the pioneers in the women's club movement and a special salute to pioneer club women of Deaf Smith County will provide the theme for the Golden Jubilee Celebration Tea that will be sponsored by the Deaf Smith County Federation of Women's Clubs, Thursday, September 26.

Climaxing fifty years of outstanding accomplishment, the Golden Jubilee of the General Federation of Women's Clubs is being celebrated with programs featuring the enviable record of the past half century and forecasting what club women will achieve in the next fifty years.

Club women have covered much ground since they first gathered together to hear the reading of poetry and to drink tea. Some of them still listen to poetry and most of them continue to drink tea but they manage to learn more than a little about local and national politics and to discover what is going on in the rest of the world.

The Federation now has 15,000 units and a membership exceeding 2,000,000. Its task before the close of the Golden Jubilee Celebration is to raise \$700,000 necessary to bring the endowment fund up to the \$1,000,000 figure.

It is also desired that the celebration serve as a medium for the accomplishment of several things. 1. To place before the public the outstanding accomplishments of women of the past. 2. To acquaint the women with the great struggles of their predecessors in their efforts to develop women and women's activities to their present status; and to make them cognizant of the necessity, at the present time, of working to preserve that status. 3. To inspire women, particularly the juniors, so they will continue their organization work with greater vigor and enthusiasm. 4. To give national recognition to women leaders in public affairs; to women of accomplishment in all fields; to national leaders of the past; and to the pioneer states and pioneer club women in each state. 5. By trying to make the entire world conscious of the great strength and high purpose of the General Federation of Women's Clubs and its determination to work for those projects which will help to create peace, harmony and better living conditions for all people.

## Camp Fire Girls Open-House Draws Large Attendance

Approximately ninety interested guests attended the Weocantawaste Camp Fire Girls open house held at the Camp Fire hut Thursday night. Significant of the organization's third birthday and of the beginning of a new year, (the fourth) four miniature dolls dressed in the Camp Fire service costume, decorated the large birthday cake.

Officers of the club including Marian Plummer, Rosemary Phillips, Georgianne Miller, Mary Ellen Henslee, Helen Miller and Juanita Beauford, formed a receiving line to greet the guests. After guests had registered the Camp Fire Girls acted as guides, explaining displays of the year's work and showing new equipment.

Mrs. Urlin Streu, guardian of the group, was paid high tribute by the guests, many of whom were mothers of Camp Fire Girls. In improving pastures the first essential in fertilizers is phosphorus. Lime is seldom needed in Texas west of the Trinity River. Nitrogen, another essential, can be supplied by growing pasture legumes after phosphorus has been applied.

## Conserving Of Soil Urged As Defense Aid

Farmers, just like all other citizens of the country, must be in a position to shoulder their part of the national defense load, according to James P. Williams, County supervisor for the Farm Security Administration. And those farmers, he added, who have security of tenure, who can produce an ample supply of food and yet protect the soil and conserve the moisture will be better able to help in times of emergency.

Mr. Williams believes it is time for landlords to be thinking about the tenants who will farm their places next year. He cited a number of reasons why a tenant, if he has been satisfactory, should be told at this time he may continue on the farm another year or even longer.

"If the landlord and the tenant make a contract now for next year it will profit both parties," Mr. Williams said. "They can plan for cover crops, improvements in the buildings and perhaps acquire needed machinery and livestock."

Mr. Williams reports definite progress in land lord-tenant relations in Deaf Smith and Oldham counties. He said a check of the 37 tenant families in these counties on the FSA program shows that 15 of them have leases of from two to five years and that 35 families have written leases with renewal clauses.

"The Farm Security Administration," Mr. Williams said, "has been working for improved landlord-tenant relations. We have tried to cooperate with landlords in finding good tenants, and we have been working with tenants to secure long-time leases in order that the farms of this country can be operated at a profit and conserved rather than mined."

Mr. Williams cited a well-known fact that tenants who move each year usually are compelled to mine the soil in order to make the most out of it and leave it poorer than before. He said that a short term lease cannot justify the landlord or tenant to build up the soil or make improvements to the farmsteads.

The supervisor said the FSA has flexible farm lease forms for landlords and tenants and that he would be glad to explain them all to interested parties.

"We hear a great deal about national defense," Mr. Williams said, "but as far as agriculture is concerned, a necessary contribution toward national defense is to restore opportunity to low income and disadvantaged farm families, and to protect the soil of the landlords of this nation."

Littlefield next!

That might be the cry of the Whitefaces as they prepare to meet the Lamb county squad at Littlefield Friday night at 8 o'clock. I searched diligently through the Littlefield paper but found no mention of their football team so I can't tell you anything about them. They should have a good team, one that will give Hereford a real test. Speaking of tests, that game Friday night with Friona was three or four times tougher than most fans expected.

Friona came up here with blood in their eye and a passing attack that most teams don't achieve until the last game in the season. For size, cooperation and smoothness Friona has one of the best teams it ever had. With the exception of one 90-yard run, they played equally as good football as the locals did. Hereford edged them out on first downs 8-7.

Fans got their money's worth Friday night. Plenty of long runs, passes and intercepted passes made the game a thrill from start to finish. There's no doubt in my mind that the big crowd—must have been at least 1,000—helped make the game the good one it was. All indications are that this is going to be one of the best home seasons Hereford has had in several years.

Grandpa Worley is quite a hero due to the 90 yard run after intercepting that Friona pass. And Joy is proud of himself, as who wouldn't be. But there's no danger of Joy getting the big head. In the first place he's not that kind of a boy; and

In the second place he would be the first to praise the splendid interference his team mates gave him. Without that interference, which took care of several Friona players, Grandpa would have been downed in short order.

Hereford had two casualties in the game. Duane Balze broke some bones in his hand and Roger Hartman received badly torn ligaments in his wrist. Jack London was practically knocked out in the last play but had walked out the gate before he came to enough to discover it.

Coaches Best and Stanton are working on pass attack and defense this week, two departments in which Hereford was lacking. Loerwald's passing is good, but receivers seemed to have unusual trouble catching them.

Henry Ford seems to have slid easily into his new job as quarterback and it looks like he is going to town as the signal caller.

Among other players who looked good Friday night were Tag Johnson, who is a line-plunger deluxe, Duane Balze, a new comer, London, Jones, Hartman, Fox and Brock, and Brown. Keep an eye on Roy Saltzman; and another on J. W. Merrill, who got in on the last play of the game. O. G. Hill, Jr., Cliff Vaughn and Charlie Hill also looked good.

In the kicking department, Fox is doing mighty well. In fact boots by Fox and Johnson's ground gains were all that offset the Friona pass attack.

creation after business meeting. Mrs. Glenn Hetzler and Mrs. Lualin showed us how to make tomato juice.

Mrs. Waldo Gronman from Mound Ridge, Kan., Miss Heim from Canton, Kan., and Mrs. Elmer Weidner were visitors.

Mrs. R. L. Hancock, Carl Hammock and Helen Fisher were new members.

Refreshments of cake, fruit salad, and punch were served to Mesdames Bert Cook, Alton Biggers, Albert Hays, Hammock, Floyd West, M. W. YOUR FUTURE

# Congressman?

It's HARD to tell... but EASY to pick a winning oil

YOU'RE STICKING YOUR NECK OUT, if you try to guess whether this young chap is headed for Washington.

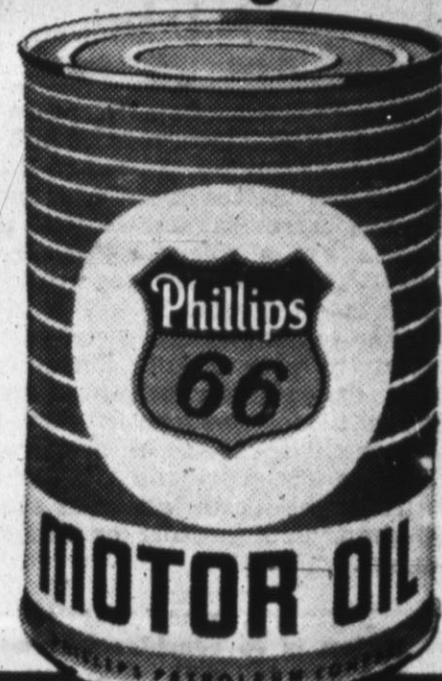

True, he is already exhibiting signs of future political prowess. But experience has shown that some of the least likely candidates end up with high position, while school boy orators and class officers seldom rise to national affairs.

Easier than picking a winning politico is voting for a winning oil for your motor. This is why:

Of the many oils which Phillips makes, in various grades to match varying needs of cars and pocketbooks, we have set one apart as **our best**.

We say unconditionally and without reservation that **Phillips 66 Motor Oil is our finest quality**... the highest grade and greatest value... among all the oils we offer.

Pick a winning oil by pointing to the can marked with the **Orange and Black 66 Shield**, when you make the 1,000-mile change, as well as when you put in lighter oil for the winter.

## Persons Here May Care For Refugee Child

Persons in this area desiring to care for a British refugee child should write to Henry Mack, Acting sec'y, Local Information Committee, Mack and Mack, Fort Worth National Bank Bldg., Fort Worth, Texas, for information. Mrs. Dyaltha Brady announces.

Certain qualifications must be possessed by the family desiring a child before one will be released to them by the United States Committee.

Among assurances that must be given are that the child will not become a public charge, that the child will be cared for in accordance with the standards

of the Children's Bureau of the U. S. Department of Labor, and that care of the child will at all times be subject to supervision of the United States Committee or its agents.

A payment of \$50 into a trust fund must be made for each child to meet possible emergencies after he has been placed. In addition, a head tax, visa charge, and a small sum to verify sponsor's statement as to his financial assets, which will total about \$13.

Besides caring for a child in your own home, you may provide for the child in the home of relatives, friends, or in a home unknown to you provided the homes are otherwise accepted by the committee; you may be willing to care for a child provided means of support can be found. The U. S. Committee will endeavor to find help to support children in homes which qualify; or you may make cash contri-

## Moline-Monitor... All Steel

# DRILLS!

NOW you can get all the famous MONITOR drill features plus all-steel construction, roller bearings, and several new refinements in design.

MOLINE-MONITOR single disc drills are made entirely of steel and are less bulky—thus giving more clearance between the disc and the boot to prevent clogging. Breakage of these boots is unheard of.

Another M-M Feature is that the heavy duty ARM attaching boot to drawbar, extends down the full length of boot and has scraper attached directly to it rather than to end of boot. The fact that the boot does not have to support scraper means that boot can be made less bulky. This patented design allows boot to be placed wholly within the circle of disc blade and closer to disc so that the seed is deposited in the furrow before dirt has a chance to fall back in the furrow. This MONITOR feature assures a uniform depth of drilling and even ripening. This is better construction from the standpoint of good drilling and freedom from clogging, and it is also stronger construction—the heavy duty steel arm supports the boot and scraper all the way. These compact openers also pull easier. New flexible feed tubes are used to carry the grain to the boot.

For many years the same kind of bearings have been used on all MOLINE-MONITOR single disc drills because they have always given outstanding satisfaction and last so long without trouble or expense. They are chilled white iron bearings—glass hard—run in oil in dust-tight chambers—Alemite-Hydraulic lubrication. If bearings ever need replacing it is easily and inexpensively done. These bearings assure light draft—they last long and are practically trouble-proof. If properly lubricated (SAE No. 140 grease is recommended for this use) they will often last for the life of a drill and for a MONITOR that means many years.

## BULL

By Jimmie Gillentine

For the first time in peacetime history, America faces military conscription. I guess the draft bill strikes most everyone in the same fashion. At first it seems like a splendid idea, indeed. Then suddenly you realize with a pang that it will touch some of your own kin, along with many of your friends. Certainly the Conscription Bill has two sides, a fact conclusively proved by the long weeks of deliberation in Congress and the Senate. Maybe it will take your son, perhaps your brother or sweetheart.

Naturally, your first reaction is to consider where the new bill will touch you. That's human nature.

On the other hand, would you like to send your son on the field of battle untrained? Would you want to see your brother, a man who barely knew how to fly an airplane, in mortal combat with a Nazi or Japanese pilot who boasted 1,500 hours in the air? Thousands of girls lost their sweethearts on the battlefields of France—because those young men were not skilled in the art of modern warfare. Back in 1776 the young men of this country answered the call to arms. They left their posts as bookkeepers, they left their plows on the farm. Furthermore, they fought as probably no other men have fought, but today the picture has changed. Just as the tractor has replaced the oxen and just as the adding machine has substituted for the slate—so have the methods of warfare changed.

If there is anything wrong with the idea of a conscription bill, it is probably the fact that we have not had one sooner. The factor of being well prepared is within itself one of America's best forms of insurance against war.

Frank Bates is another fellow who sees a bright spot for many of the young men who face conscription. He figures that he will be drafted ahead of his boss, H. A. Burk, and he is going to work hard to get to be a sergeant by the time Burk gets drafted as a private. From the time forward, after Burk is drafted, Frank says life will be just a bowl of cherries.

Here's a joke, slightly altered, which Ralph Roden said I would be afraid to put in the Bull Column:

Two American boys volunteered into the French army and early in the war were captured and placed in a Nazi concentration camp. During the summer it was plenty hot and, to make things worse, they had these two old boys digging ditches.

Finally, it got so uncomfortable that one of the boys got really disgusted. He threw down his shovel and said, "Hitler is a horse's neck."

Right off, the other American boy ran over and slugged his companion. The first fellow struggled to his feet, dusted off his clothes and muttered, "I guess I'm in the wrong camp."

"No, you're in the right camp," shouted the second American, "but I am from Kentucky and I have a lot of respect for horses."

Urin Streu just dropped in and he sure is excited over some of the splendid irrigation feed crops.

Out around Progressive they have some of the best irrigated feed this country has seen in a long, long time. Lynn Powellson expects to make around 1,000 bundles to the acre and J. C. Albracht expects between 600 and 700 bundles to the acre. Sam and Finis Hunter also have excellent feed crops in the Jumbo area, as does Addison Hunter. E. H. Shinn may have his sights a little high, but the boys on his place are all expecting 1,500 bundles to the acre—or 250,000 bundles off of the 170 acres. In fact, it looks as if all of the irrigated farms will make exceptional yields in feed stuff this year.

Likewise, some tremendous yields are being reported from irrigated alfalfa. A lot of experienced irrigation farmers are putting in more and more alfalfa every year.

Here's a letter about swimming pools. The fellow who submitted the letter is a local business man and a tax payer. He didn't want to use his name on the letter and he says he don't claim to be a writer, but I would say he did a pretty good job—and you can tell that he put his heart into every line he wrote: Mr. Jimmie Gillentine, Hereford, Texas.

Just for a change I am going to attempt to write a letter in regards to the swimming pool. Personally I think the people as a whole are really losing a fine thing when they sit around and let this project slip through their hands. When their neighboring cities, without near the possibilities of really growing into a larger city, are getting things like this and in the final round up no one is hurt. The people of the Hereford community are paying for these other towns which build, or at least I mean they are helping to pay by the taxation that is put on them—so why in the name of Hades cannot we have something here at home for our young people to enjoy instead of having to travel from 15 to 50 miles for just a little recreation.

I personally would like to see the "bee" put on the Chamber of Commerce, the City officials, and the county commissioners and all the civic clubs of Hereford and get this thing put over and be ready for the spring run of the swimmers.

You mothers and fathers of Hereford who have boys and girls that are just about grown, where do you think your boy or girl goes for some entertainment through the summer months? Where do you think you could find them if an emergency came up? About all you could do or say is that Bill or Mary said they were going riding, and it could be ever so true that they were riding on that awful death dealing highway that we hear and read of so many deaths all over the country, day and night; and then if a messenger knocked at your door in the wee, wee hours of the night with that awful news that Bill or Mary had had an awful wreck. Even if they weren't hurt the awful experience that you will go through with for the following hour is worth plenty of money.

Don't you older people think for a minute that it isn't right for the young people of this community to have entertainment that is clean and wholesome. And above all, don't think for a minute that one time in your life you were not young and gay, and liked to have a good time whether it was right or wrong. You just can't rightfully, and wilfully condemn your boy or your girl if they stray from the "long straight and narrow way," and go to the very bottom pits of hell when just a little money and cooperation would have more than likely saved that humiliation. Where, if they could have had some kind of entertainment that was clean and wholesome it would not have happened; they probably would have been where you knew where they were and what they were doing.

I am no fanatic on Christianity or neither am I a outlaw, but I do know if there isn't anything to do in the way of entertainment the young people of today will make something to do, so why can't we all pull together and get this swimming pool built. Yours very truly,

Results thus far have been gratifying and the prospect for the future was never brighter. Services are being conducted each day at 10:00 o'clock in the morning and 8:00 o'clock in the evening. You will be helped more than words can express by the fine singing and Gospel preaching of our visiting evangelists. A hearty welcome awaits everyone.

## BAPTIST CHURCH NEWS

Attendance was good last Sunday. There were 327 in Sunday School, 108 in the Training Service and good attendance at both preaching services. There was one addition by letter at the morning service.

September 29 is promotion Day. We have set a goal of 550. It is not impossible to reach. We have had 525 before and with the help and organization that our Educational director is working out if we work we can easily have that many. Not over half of the people in Hereford attend Sunday school according to records.

We are looking forward to our fall revival, October 20 to November 3. The pastor will preach and Mr. Stroble will direct the music and personal visitation.

The pastor plans to preach Sunday morning on "Christ Our Advocate and Propitiation," I Jno. 2:1-3. The subject at the evening hour will be "Saints as Judges" I Cor. 6:1-8. We invite all who will to worship with us. W. E. Barnes, Pastor.

## Heiman-Schumacher Marriage Rites Held Monday Morning

The marriage of Miss Oleda Heiman to Mr. Andrew Schumacher took place Monday morning at St. Anthony's Catholic Church. The bride is the daughter of John Heiman of Nazareth and Mr. Schumacher is the son of Mr. and Mrs. Clem Schumacher of this city.

Rev. Father Aloysius, assistant pastor, read the ceremony before close friends and relatives of the couple.

The church was decorated with flowers in fall shades and the altar was lighted by tall tapers. Miss Edna Urbanczyk, organist, played the wedding marches and the hymns sung by the choir during the mass. She also accompanied Miss Adeline Koelzer who sang "Ave Maria" for the offertory.

Miss Monica Albracht, cousin of the bride, was maid of honor. She wore an aqua taffeta frock and carried a bouquet of pink asters. Ernest Schumacher, brother of the groom, served as best man. Ushers were Gene and Ed Loerwald, and the altar boys at the mass were Stanley Phillips and Raymond Lueb.

The bride wore a white slipper dress made with long sleeves, fitted bodice and full skirt which fell into a train. Her long veil of illusion was held in place by a coronet of seed pearls. Her flowers were white asters and she carried a white prayer book and blue rosary. Her something old was a gold pin belonging to the bridegroom's sister and for something borrowed she wore a necklace belonging to a friend.

After the ceremony a wedding breakfast was held at 908 Twenty-Five Mile Avenue where the couple will make their home.

Out of town guests at the wedding included Mr. and Mrs. Clem Schumacher who have just moved to Amarillo, John Heiman, Mr. and Mrs. Frank Hoelting, Mr. and Mrs. A. H. Heiman, Mr. and Mrs. Florence Heiman, Mr. and Mrs. Henry Lange, all of Nazareth and Miss Bernadette Albracht of Amarillo.

Mrs. Schumacher attended school at Nazareth and Mr. Schumacher is a graduate of Hereford High School. He is employed at Jacobsen Bros. Machine Shop.

## Junior Pioneer Club Meets With Mrs. Culpepper

After a short business session, a program on the "Psychodynamics of Personality" was presented by members of the Junior Pioneer Club at the meeting held at the home of Mrs. O. H. Culpepper Tuesday night.

During the business session plans were discussed concerning the Golden Jubilee Tea which will be held Thursday, September 26. The club also voted to cooperate with the Seventh District in making a gift to the Woman's Club Building at Austin. A committee to look after the club's welfare projects for the year was appointed. Those on the committee are: Miss Edna Daugheter, Mrs. Lilburn Ray and Mrs. J. E. Whitlow.

Quoting from Dr. Henry Links' book "The Re-discovery of Man" Miss Edna Daugheter defined personality as "the extent to which the individual has developed habits and skill which interest and serve others. The essence of a dynamic person is self sacrifice, not self gratification." Miss Daugheter continued saying, "Education and science have been increasingly unable to define or develop personality. In the midst of great knowledge man himself has become a great mystery."

The second part of the program dealt with "The Weaknesses of Personality" and Mrs. B. Y. Crosthwait chose three points of discussion: 1. Snobishness; with position, authority and egotism as mediums. 2. Shyness; which is shown in the timid person who asks the opinions of others, hesitating to use his own ideas and 3. Irritability; which is anger in its mildest form and emotion which none can afford.

Members present were Mesdames Homer Brunley, B. Y. Crosthwait, Fred Harrell, Willis Edelman, Ralph Hastings, Frank Hucker, Alton Miller, Troy Moore, Elmer Patterson, Lilburn Ray, Ralph Roden, A. J. Schroeder, R. B. Scott, Ulin Streu, J. E. Whitlow, R. B. Williams, Miss Edna Daugheter and the host-

ling year were also discussed.

## SCHOOL DAYS ARE HERE

Here are a few suggestions that might help in minimizing hazards which follow all youngsters:

Let them know that in spite of legality of the case, the pedestrian cannot be guaranteed the right-of-way, because of reckless drivers who cannot stop in a half block.

Insist that they do not become Arabs, daring to be the last to jump out of the way.

Explain that bicycles are dangerous in the street and subject to strict regulations. Hitch and stunt rides are often fatal.

Do not allow your children to hitch rides on cars, trucks, etc.

These timely suggestions are made in hopes that they may help prevent an accident. See this page next week for more suggestions!

## Let's Cook Something

The first chilly days of autumn remind us that the time has come for us to get things in order for winter. Now is the time to be putting things away in cans for future use and if you are one of those mindful cooks who doesn't trust too much to luck, rather preferring something already tested for palatability, economy and health, here is a sandwich spread recipe recommended by Mrs. H. C. Baird that will fill your need. A dozen jars of this concoction on your pantry shelf and your hurry-up lunch problem vanishes before it begins.

### SANDWICH SPREAD

- 1 pt. ground green tomatoes
- 2 green peppers (ground)
- 2 red peppers (ground)
- 1/2 doz. sweet pickles (chopped)
- Cook together 5 minutes and set aside.
- Make a dressing of:
- 1 cup sugar
- 1 cup sour cream
- 2 tablespoons flour
- 2 eggs, well beaten
- 2 tablespoons prepared mustard
- 1/2 cup vinegar

Cook in double boiler until thick, stirring frequently. Add the first mixture to the second mixture and cook together 1 minute. Seal while hot.

## ...BUT WHY COURT-MARTIAL THE WHOLE REGIMENT?

There are bound to be one or two bad soldiers in every regiment. But why court-martial the whole regiment?

The same applies to beer retailing. Out of hundreds of thousands of wholesome, law-abiding beer retailers, there is bound to be a small minority who disobey the law or permit anti-social conditions.

To protect your right to drink good beer, the Brewing Industry wants even this small minority of undesirable retailers eliminated entirely? Beer is a refreshing, appetizing beverage — the

beverage of moderation. We want every beer retail establishment to be as wholesome as beer itself.

To that end, we have instituted a "clean-up or close-up" program — now in operation in some states and being extended to others. We'd like to tell you about it in an interesting free booklet.

### Joy Worley Makes Only Touchdown

Have you noticed a familiar tension in the air? Have you felt that there was excitement pending? If you have, you are a confirmed football fan. Football is definitely in the air, and Hereford has the best prospects for a good team in many seasons.

Coaches Best and Stanton have been putting the boys through stiff workouts since September 2. The boys are working hard, and there is much competition for each position. The boys are very spirited and seem to have a will to win.

Their first test came Friday night with Friona furnishing the opposition. Friona has the best team in years and they played a hard game. Both teams knew they had been in a ball game when the final gun sounded.

Hereford received the opening kick-off and started a drive that fizzled out about the twenty yard line. This seemed to discourage the Whitefaces, but they held Friona. The teams played rather evenly until the second quarter when Worley of Hereford intercepted a Friona pass on his own fifteen yard line.

The Whitefaces quickly formed interference for him, and with the aid of marvelous blocking, he ran eighty-five yards for Hereford's first and only score. Johnson's try from placement for extra point failed, thus leaving the score, Hereford 6-Friona 0. Friona showed a fine passing attack, but Hereford always stopped them before they reached pay-dirt. For the remainder of the game, both teams battled up and down the field, each being unable to score.

Baize, Johnson, and Worley showed up well in the backfield with Loerwald showing promise as a passer; also Ford did a good job of quarterbacking. In the line, Fox did fairly well at end, and London handled his job as center. Jones was a spirited guard and Brown also showed promise as a lineman. All the other boys took care of their particular place.

The greatest drawback at the present time is the inexperience of the team. Of course, they will

### Larry Trimble Is Selected Junior Class President

The Junior class has elected Larry Trimble as their president for 1940-41. After he started presiding, the following officers were elected: Rachel Ireland, president; Mattie Lawhon, secretary-treasurer; Lois Agnes Glibreath and Jack London, Student Council representatives; and Dorothy Banner, football queen candidate. Miss Ramey was elected class sponsor to assist Mr. Emmons. The remaining officers will be elected at the next class meeting.

### Nine Girls Help In Two Offices This Year

probably overcome this by the time conference games roll around.

In parting, I wish to remind everyone of you readers that the team needs your support. Come on out and see the boys do battle for Hereford. Besides enjoying wholesome entertainment of the highest class, you will be helping the boys. So come on out and yell, cheer and encourage the boys; they need you.

## CCC Wants Boys; Camps Are Still Non-Military

Reporting that the Civilian Conservation Corps was now laying more stress on character and less on the boy-from-poor-family angle, Mrs. Dyalitha Bradley said this week that she was accepting applications now for the regular CCC enrollment period, in October.

"It is no longer necessary for the boy to come from a poverty-stricken family," she said.

The CCC continues to be non-military in character. However, boys in the CCC, in case Congress passes a compulsory military training bill, would be given preferred positions in the army.

CCC provides many advantages in work and study. If a school or college is nearby, boys may enroll for night classes provided especially for them.

Boys from 17 to 23 years of age are eligible to enroll. Mrs. Bradley attended a meeting in Pampa, Friday when C. J. Sweeney, Texas director of CCC, spoke and said that camps were all being increased in size.

## COYOTE LASSED BY PIPELINE

The strange method of trapping coyotes ever disclosed has been found in Texas! And there is a picture of the event to prove it! A pipe line recently broke on the Howell lease near San Diego in Duval County. Force of the explosion caused a piece of pipe to curl in a circle, and in this circle held so tightly it could not escape, was a coyote. It has not been determined whether the pipe choked the coyote to death or the force of the explosion killed it, according to J. L. C. Beaman, newspaper owner in San Diego, who ran a picture of this strange occurrence. It is said the pipe was twisted so tightly around the coyotes neck, and with no tool marks on it, that it would have been impossible for anyone to have played a practical joke.

said Mr. Posey. "Employer forums conducted in a number of cities in Texas and many other states, have proved one of the best means of educating employers regarding their responsibilities under the Social Security Act," he said.

According to responses received from employers of Hereford, the forum will have a large attendance. "We are hopeful that the County Court Room, in which the forum will be held, will be filled to capacity," said Mr. Posey.

The meeting will begin at 8:00 o'clock with explanations of the respective programs, after which the motion pictures will be shown. Then the meeting will be thrown open to questions from employers and any others who are interested.

## Conscription To

(Continued from Page 1)

ed before October 15 from a certain area, the fewer persons who will be conscripted in that area.

The new law requires all men who on October 16 have attained the 21st anniversary of their birth and have not passed their 36th year to register.

A national drawing by lot will determine the order in which questionnaires will be mailed to the men. On the basis of questionnaires the men will be classified. First contingent of 75,000 of the total of 16,500,000 men affected will be called about a month after registration is completed. Thereafter they will be called in blocks of 100,000 to a total of 400,000 by January 1 and 900,000 in the spring of 1941. Total number of men drafted from this county, if figures hold proportionately will be about 40.

Draftees will receive 12 months training, four months at a pay of \$21 a month and the last eight months at \$30 a month, with opportunities for advancement. The above wages are base pay for privates. Persons drafted will be liable for service anywhere in the western hemisphere, in U. S. possessions outside the

hemisphere and in the Philippine Islands.

In addition to conscripting men, the bill also contains measures providing for the taking over by the government of any factory which rejects govern-

ment orders, or declines to give them priority. Just rent would be paid by the government, but the manufacturer would be subject to maximum penalties of five years' imprisonment and \$10,000 fine.
