

Hereford Whitefaces Scalp Seminole Indians in Friday Night Action

By MARSHALL DAY
Sports Editor

It is said that the longer you wait for something, the more you appreciate it when you get it. For the Hereford Whitefaces, they had waited a year and Friday night, they trounced the Seminole Indians, 20-0, avenging the 7-6 loss to the Indians last year.

Hereford, thrashing the host Indians in every department were bothered with slippery fingers again throughout the first half, losing the ball on two occasions on fumbles and having one pass intercepted. Seminole had their share of troubles with the stingy Herd defense as they allowed them only 54 yards on the ground and 96 via the pass route.

Alan Wagner led the Whiteface offense in rushing as he accumulated 80 yards on 15 carries. Scrappy little Richard Lyons collected 60 yards on 12 attempts while husky John Frank Martin rolled for 77 in ten carries. Junior Ricki Ward averaged 6.4 yards per carry as he hit for 64 yards on ten attempts.

Quarterback Marsh Pitman averaged 3.28 yards per tote as he gained 23 yards on seven carries to aid the cause.

From the start of the game, the Hereford offense tore gaping holes in the Indian defensive wall, only to have their drives stymied by fumbles or interceptions.

Hereford took the opening kickoff from their own 20 and on the first play from scrimmage, Martin tore a 28 yard hole in the host team's defense before he was downed at the 48. Lyons carried for 11 big ones, Pitman added six and Martin

tore loose again for 16 and the Whitefaces found themselves resting on the 20 of Seminole.

Short spurts of five, three and five yards put the ball to rest on the two, and on the next play, an onrush of Indians jarred the pigskin from Lyons and the host team recovered on the four.

Pioneer Gas To Expand

Pioneer Natural Gas Company, through its Hereford district manager, Dale Young, has announced two separate expansion projects for its Hereford operation.

The company has completed the purchase of the east half-block of property running from Second to Third on Lee Street. Pioneer had originally owned the 100 x 140-foot lot on the north corner of the block, and completed the acquisition of the remainder in three separate transactions.

COMMUNITY CONCERTS KICKOFF - Hereford Community Concert Association director Rev. Fred Howard is shown with Mayor Jim Sears announcing the kickoff drive for renewed memberships beginning Monday and for new members, beginning Oct. 6.

First attraction is Fiesta Mexicana, booked Oct. 14, three days after the membership-drive ends. The second definite attraction is Ferrante and Teicher on Feb. 13. One other attraction is guaranteed - a fourth one is a possibility. -Staff Photo

FB Recommends New Farm Plan

In a move which reportedly took Deaf Smith and Oldham County Farm Bureau members by surprise during their convention meeting Thursday night in the Hereford High School cafeteria, Dennis Pulliam of Frio took the podium late in the three-hour session to offer a resolution for a farm program which he said he felt should begin at the conclusion of the present U. S. agriculture program, set to expire in 1970.

Pulliam said, "I don't want anyone to say we (Farm Bureau) do not stand for a farm program, because I've picked one out tonight."

It was passed by the membership with an amendment to the effect that "it should have an adjustment period" so as not to disrupt the economy "on sudden change when the farmer goes from one revenue to another."

Weather

Wednesday	87	56
Thursday	87	53
Friday	88	57
Saturday	57	
Moisture for month:	2.43	
Moisture for year:	20.62	

Construction on the warehouse is expected to start in the near future. Plans for developing the downtown office will need to be finalized before a starting date can be announced.

Disease-Free Hogs, Big Business Here

Remember when a farmer's hog business usually consisted of two or three sows in a slop-pen behind the barn? That was the time pigs stayed outside all year long and remained dirty their entire life.

Concert Drive Begins

Hereford Community Concert Association is scheduled to begin its renewal membership drive and the kickoff for its new membership drive Oct. 6-11 with an orientation coffee from 10 to 11:30 a. m. Monday in the home of Mrs. Harlan Vander-Zee at 136 Live Oak.

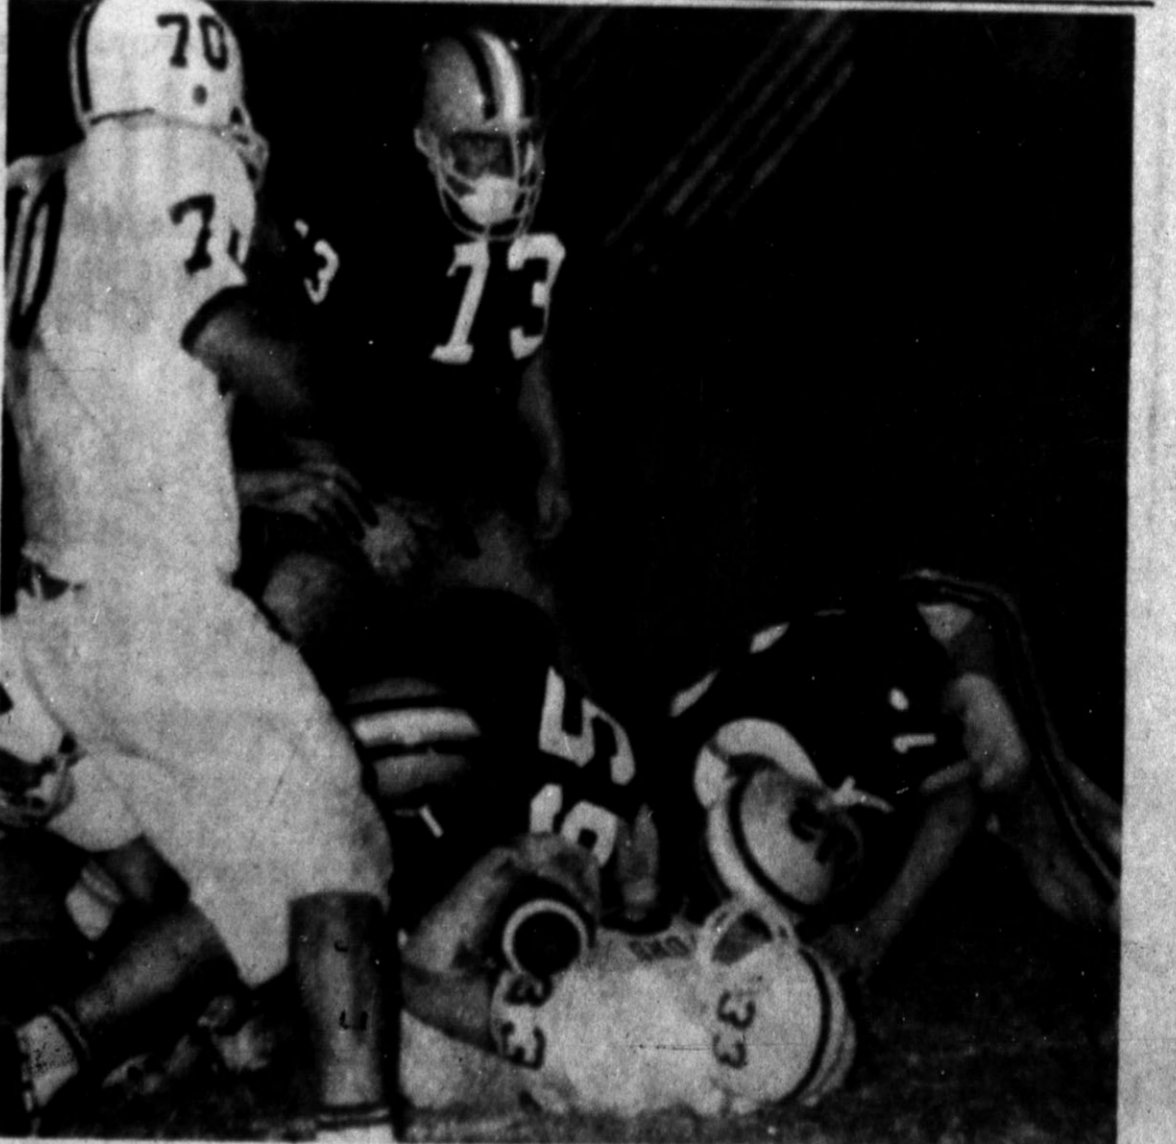

SWINE PRODUCER OBSERVING PRODUCT - Sammy Lesly (right) of Westway inspects one of his disease-free pigs which happens to be 13 days old. With him is his manager, Tommy Williams. -Staff Photo

Robinson & Associates, a local insurance firm, this week announced purchase of Hereford Insurance Agency and Deaf Smith County Abstract Company, effective immediately.

Insurance - Abstract Firm Is Purchased By Robinson & Assoc.

1500 feet of floor space to their building, making three additional offices and a conference room. The remodeling program should be completed in about 60 days.

HIT HARD - John Frank Martin, 33, is hit hard by a crew of Seminole Indians after gaining considerable yardage on the play. Martin amassed a total of 77 yards on ten carries in the 20-0 win for the Whitefaces. -Staff Photo

**Angel Corps In
3rd Year At WT**

CANYON, Tex. — This fall even the girls are in uniform at West Texas State University as the Angel Corps, the girls' drill team affiliated with the Army ROTC program begins practice for its third year's competition.

Over 35 girls have expressed interest in the crack girls' drill team. Organized in 1967 with only two dozen girls, the Angel Corps has become one of the major coed organizations on campus.

Structured somewhat like the men's program, the Corps is commanded by Captain Marilyn Bell, Amarillo senior, and is instructed by Cadet Lieutenant Colonel Doug Thompson, a member of the Sam Houston Rifles, the men's drill team. The girls compete with other

teams across the state each year, and in the past have marched in the St. Patrick's Day Parade in Shamrock and the state competition in San Antonio. In the spring the Angel Corps sponsors a drill competition on campus.

The Angel Corps practices each Monday and Wednesday at 4:30 p. m. near the ROTC Building. Girls interested in participating in the Corps should contact Captain Rosser, Military Science Building.

Mrs. Betty F. Mintz, an astronomer at the United States Naval Observatory, Washington, D.C., will use her National Geographic grant to observe the asteroid Geographos from the Cerro Tololo Inter-American Observatory in Chile. At its closest approach, the asteroid will not be visible from the northern hemisphere.

"Mr. Decker, I've got a troublemaker here who wants to pay cash for everything."

Horizon Club Joint Meeting Held Recently

The four levels of the Horizon Club held a joint meeting, the first of its kind, recently.

The group sang and got acquainted, with the sophomore class acting as hostesses and Sally Bayne presiding.

Mrs. T. E. Seigler, Director of Nurses at Deaf Smith County Hospital, presented an informative talk on nursing careers and the community service that is open to those willing and able to help.

The Horizon Club gives service to the county hospital through program which Mrs. Seigler has organized, with ex-

citing possibilities. The meeting was quite a success.

Manager here is Charles Doss.

They reort a complete line of General Electric products will be sold here. After eleven years at the Earth store, they

Newcomers In Profile

Climate Helps Appetite

By BARBARA SWIMMER Women's Editor

"I don't know what it is about this climate, but my entire family's appetite has improved since living here," says Mrs. Noel Jones, who moved here

from Wichita Falls just three short weeks ago.

The Jones, with their three children, Barry, 13; Debbie, 11; and young David, who is 8, are enjoying living in Hereford, and are busy meeting new friends and getting acquainted.

Joan Jones originally came from North Carolina and met her husband, Joel, who is a native Texan, when he was a pilot in the U. S. Air Force. They married about two years before he was released from the service and at that time they moved to Henderson where he went into the car business with his

father, later moving to Wichita Falls. They lived at Henrietta for a time before moving back to Wichita Falls.

Noel is service manager of Jones Motors, which his father, L. J. Jones purchased recently from Dishman-Hale. Other than his parents, Noel's brother, Dale and his family, also moved to Hereford, where he is sales manager with Jones Motors.

Joan worked as financial secretary for the First Methodist Church during the time they lived in Wichita Falls and enjoyed working but says she

likes being at home now, and being a full-time homemaker. She loves to cook and enjoys it more when she isn't rushed by working out of the home.

Although they are still getting settled into their new home at 135 Ironwood, they are enjoying working in the yard, trying to get it landscaped before winter.

The Jones love the out-doors

and Joan says they would like to get a camper for the use of fishing trips. While living at Wichita Falls, she said, it was so far to a camping place where the summer heat wasn't so intense, they didn't ever have time to make the trips.

Noel was a pilot in the U. S. Air Force and has owned a plane of his own since his air

force days, but they recently made a trip back to Wichita Falls to sell it.

The children all love the out-doors and sports and Miss Debbie pretty well keeps up with her brothers in any thing they do. Joan says she has her moments at being a frilly little girl, but most of the time is quite a tomboy.

LOCATED IN SUGARLAND MALL

ZONE ONE ELECTIONS for the Soil and Water Conservation Districts will be held at Walcott School on October 2. Mapped above are zones 1-4.

Zone one is divided from the others by the dark dashed line.

Plan . . .

(Continued from Page 1)

gram set-up. Then he said, "We need flexibility in this program so we can farm. I think it's time we write something that fits our area."

He said he believed his resolution would receive area Farm Bureau support. "But it must go to the state Farm Bureau and then the national."

OTHER RESOLUTIONS
Local president Bill Walden presided over the meeting following the dinner, where he introduced the three young people the FB had sponsored during the recent Citizenship Seminar at Waco, heard a financial report from Steve Clements ("I've been giving this report for a number of years and this is the best one I've given," Clements said), and the awarding of the door prizes.

Walden announced prior to the policy-making session that "there is one vote per member family — and only then if his income is primarily derived from farming. Policy begins in Deaf Smith County and then goes to the state. And I can tell you from personal experience, many of them are voted upon there."

David Brumley, chairman of policy development, told the membership that the resolutions were divided into three sections, national, state and local.

Among the state resolutions were a recommendation of cattle brand registration; that American Agricultural Marketing Association should enter into the marketing of Texas agriculture products; opposition toward including new farm equipment, farm chemicals and other production necessities under the state sales tax laws; all state and national FB policies should be renewed every two years or automatically dropped.

Also recommended was that legislation be enacted to enable the Texas Railroad Commission to issue intrastate permits on a temporary seasonal basis to

any qualified hauler for the transportation of agriculture products in their raw state.

Hauler should also show proof of adequate insurance and to pay a nominal fee to obtain the permit.

Local FB also agreed to support the findings of its committee toward changes in the state FB constitution and by-laws regarding lengths of time of elected state officers, etc.

County resolutions which were passed included the support of the local FB in the efforts of the Grain Sorghum Producers Association to establish a voluntary check-off program for grain producers; and a similar support toward a voluntary check-off to pay for the diapause boll weevil control program.

The one resolution which failed passage was "to adopt and enforce the law regarding the state herbicide regulation" through Deaf Smith County Commissioners Court, which involved the usage of 2-4-D.

This resolution did not pass through explanation that the state law, which must be approved by each county court, was "not a cure-all" since it still left the measure of 'proof of damages' entirely in the hands of the farmer.

National resolutions, beyond the farm program resolution by Pulliam, were to include "all commodity acreage allotments should be a part of the farm with the owner's right to sell, buy or transfer these allotments; no farm should lose allotments on a acreage history because of failure to plant the minimum acreage, regardless of the reason for not planting the allotments; that 7 per cent investment credit should be returned to agricultural producers; and that they are nationally opposed to any increase in length and width of trucks at the present time.

MORE CONTROVERSY NOW
Walden told members at the beginning of the meeting that "there seems to be more controversy over farm bills and programs this year than at any

other time. Something has to be done."

As a bright spot, Walden then introduced Jimmy Christie and Mary Jane Kriegshauser of Hereford and Frank Kennedy Jr. of Vega, the three teenagers who had attended the Citizenship Seminar. Each told that they had listened to various speakers in Waco, which included a former Russian prisoner, convicts from Huntsville, and from college and the FBI. They also heard Richard Perigo, a former narcotics addict who recently spoke here to students at La Plata Junior High and Hereford High School.

Christie reported he had learned from the seminar that "our country is now growing into a great nation, but communism is a problem."
Miss Kriegshauser stated, "I came home with a greater knowledge of Communism," after hearing the man who had been a Russian prisoner for nine years.

Kennedy said that he was very impressed with Operation Teenager. "It had an effect on me that I can't describe." He said a talk was given concerning the youth of America. "If teenagers don't do something about it, we won't have the world as we know it today."
At the close of the meeting, six new Deaf Smith and Oldham County Farm Bureau directors were named: Frank Barrett, Mike Betzen, Richard Hagar, Bill Kahlick, Bob Hicks, and Dick Kirkland.
Officers are to be elected at their next regular board meeting which is scheduled Thurs-

day, Oct. 9.

Peak Time Nears

With the first of October approaching — the time when reports indicate that Hereford school enrollment in Deaf Smith County usually reaches its peak and begins to taper off — schools have increased by seven pupils, St. Anthony's School has remained the same, and Walcott School has lost one pupil from last week's totals.

Hereford Independent School District reported a total enrollment of 5,446.
St. Anthony's School remains at 294.
Walcott School has 99.

Trustees Move Meeting Date

Hereford-Independent School District Board of Trustees meeting has been moved back one week.

Instead of the usual second Tuesday date, trustees will meet on the first Tuesday, Oct. 7, at 8 p.m. in the board room of the School Administration Building.

READ THE WANT-ADS TODAY

Walcott Is Sight of SWCD Election

Residents of the Sub-division 1 of the State's 187 Soil and Water Conservation Districts have an election date to keep on Thursday.

Justin McBride, County Agricultural Agent, says the election is very important and he urges all eligible voters to cast their ballot. Anyone is eligible to be a candidate in this election.

Voters in Sub-division 1, Tierra Blanca Soil and Water Conservation District will elect a farmer or rancher to serve as their director and representative on the Soil and Water Conservation District Board for the

next five years. Time and place for the October 2 balloting is 8:30 p.m. at Walcott school, says McBride.

A qualified voter is a land owner in Sub-division 1 who is 21 years of age or older. Wives of eligible landowners can vote and should do so since they have an interest in their soil and water conservation district.

The agent points out that Soil and Water Conservation Districts are sub-division of the State of Texas and by law are charged with the responsibility of carrying out a soil and water

conservation program in their district. Through them such items as technical service, equipment, leadership in small watershed projects and many other services are provided to cooperating landowners.

If you are a qualified voter McBride urges you to partici-

pate in the October 2 election because of the great importance of the districts and to the directors of our Conservation Program. A thirty minute color slide presentation on local conservation practices will be shown.

Holly Operations Are Halted Here

Holly Sugar Corporation's plant in Hereford is being forced to halt all early beet operations for the time being, according to plant agriculture manager Bob Ginn.

Ginn reported Friday that a turbine at the plant is down and power cannot be supplied for the necessary operations. He added that no parts to repair the turbine can be received here for at least a week.

Early harvest operations had just gotten underway last Monday with the first loads coming in, and recent wet weather, in addition to a larger acreage of beets this year, the operating time was lengthened to two weeks. The breakdown at the plant will force the operations back another week.

Last year, 2,000 acre of beets were harvested in a four-day period, but this year, 5,000 acres are expected to be handled by the plant during the two week period this season.

What is the A.B.C.?

Chatting with a merchant the other day, we mentioned our "ABC figure."

"What," he asked, "is an ABC figure?"

Perhaps what we told him will also interest you.

This newspaper is a member of the Audit Bureau of Circulations, an independent, nonprofit organization of nearly 4,000 advertisers, advertising agencies, and publishers.

Its purpose is to provide accurate and factual reports on the circulations of member publishers. In the advertising and publishing industry, the ABC insignia is often referred to as the "hallmark of circulation values."

At regular intervals an ABC traveling auditor visits our office to check our records. The findings of this

physical audit are embodied in an Audit Report published by ABC — the report literally tells us what our circulation is.

Virtually everything an advertiser should know about our circulation is found in this report, facts and figures without opinions.

Few retailers bother to ask to see a copy of our report, yet we want you to know one is available anytime you are interested in the quality and quantity of our circulation audience — the audience for your advertising messages.

What is an ABC figure?

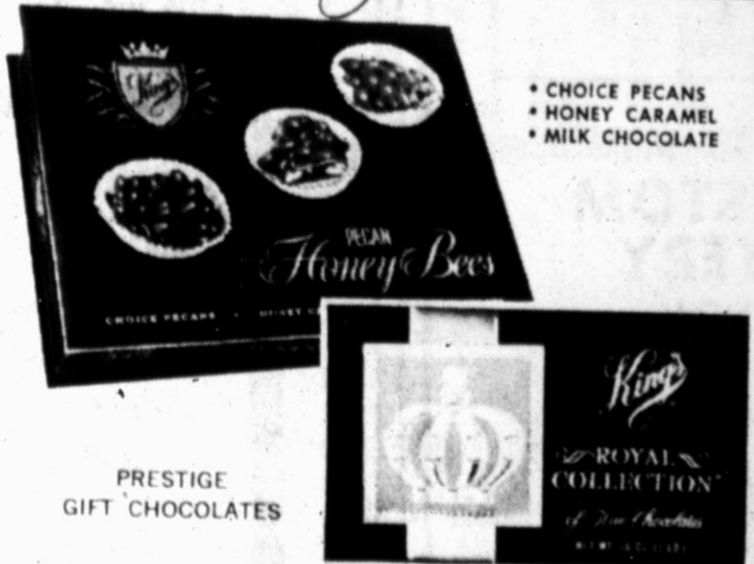

It is our way of assuring you that you get full measure for your advertising dollar in this newspaper.

Click Says Cattle Must Be Rendered

Hereford Independent School District Tax Assessor-Collector Orpha Click has received an opinion from Attorney General of Texas Crawford C. Martin regarding "whether a commercial feedlot is obligated to furnish the county tax assessor-collector with a list containing the names of the owners and the number of cattle each owner has placed in the lot as of January 1 of each year."

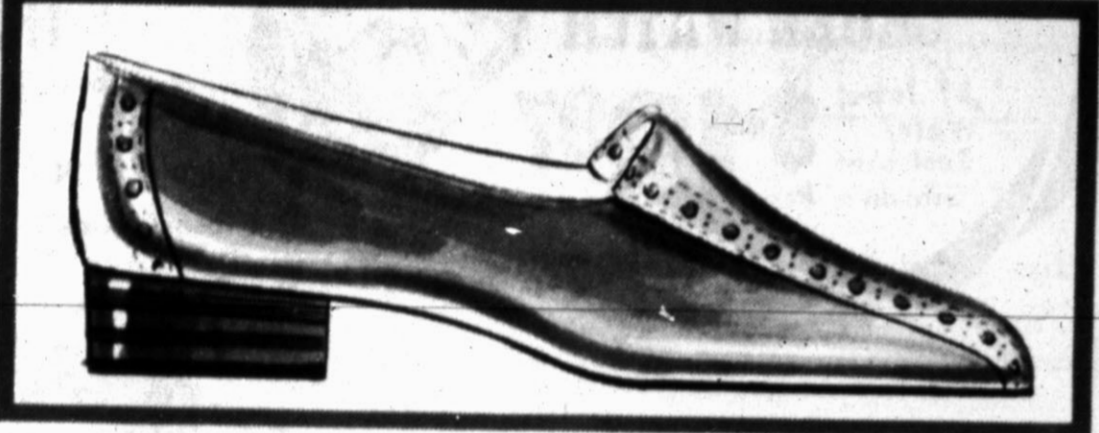

Click said there have been several questions here on this matter, which arose from a recent opinion by Comptroller of Public Accounts Robert S. Calvert which was "in answer to a question from the County Attorney of Castro County." It was concluded that a custom cattle feeding lot is not a "place of storage" as such phrase is intended in Article 7243, Vernon's Civil Statutes; "and that therefore Dimmitt Feed Yards Inc. is not obligated to furnish the County Tax Assessor of Castro County a list of the names of those owning cattle located within said lot on January 1 of each year and the number of such cattle, upon demand by such assessor."

Martin's opinion states: "On the other hand, we are of the opinion that Article 7152 (2) Vernon's Civil Statutes, especially in conjunction with Article 7160, does require the feedlot owner to furnish a list to the Tax Assessor-Collector containing the names of the owners and the number of cattle each owner has placed in the lot as of January 1 each year." Article 7152 (2) reads: "All property shall be listed

or rendered in the manner following: "(1) By the owner. Every person of full age and sound mind, being a resident of this state, shall list all of his real estate, moneys, credits, bonds or stock of joint stock or other companies (when the property of such company is not assessed in this state), moneys loaned or invested, annuities, franchises, royalties, and all other property. "(2) As agent. He shall also list all lands or other real estate, moneys and other personal property invested, loaned or otherwise controlled by him as agent or attorney, or on account of any other person, com-

pany, or corporation whatsoever, and all moneys deposited subject to his order, check, or drafts and credits due from or owing by any person, body corporate or politic." Martin therefore has stipulated: "It follows that as of all cattle controlled by the owner of the feedlot on account of another, the lists in question shall be furnished under paragraph (2) of Article 7152 and all cattle owned by him shall be rendered under paragraph (1) thereof. From the facts submitted it is clear that all cattle now owned by the feedlot owner are controlled by him on account of another person, company or corporation."

Club Schedules Benefit Shoot

Hereford's newest civic club, the Evening Lions Club, has announced that they will hold a Youth Benefit Merchandise Shoot, Sunday, Oct. 12 at the shooting range east of the Hereford airport.

Ray Barber, president of the organization, announced that the shoot will be divided into three classes — Ladies Shoot, Junior Shoot and a Special Events Shoot.

Shooting will begin at 1 p.m. with prizes of \$5 and \$2 merchandise certificates to be awarded should the winners prefer these instead of the turkey which will be awarded.

Winners will be handicapped, Barber explained, and 12 gauge shells will be available for purchase at the match.

The new club, which was organized only two weeks ago, has already completed the first project of the year by taking several bus loads of elementary physical education boys to the West Texas State-Arizona football game last week.

Barber also reported that the club is launching an all-out effort to raise funds for a Youth Center which the club is seeking to provide for local youth. Though no definite plans have been worked out at the time, several offers are being negotiated concerning the center.

Pitcher Ted Abernathy of the Chicago Cubs broke in with the Washington Senators in 1955 after pitching in only 44 minor league games.

Two FFA Meetings Christie To Attend

Jimmy Christie, son of Mr. and Mrs. Kenneth Christie, of Summerfield, was one of the many Future Farmers of America named to the honor list for the Honor Award Dinner at the State Fair of Texas in Dallas.

Selected by state and county youth leaders, the young people have achieved superior results during the last year in agricultural science and in the home-making arts.

Christie, one of eleven Future Farmers who will be recognized, is a senior at Hereford High School.

The dinner, which will be held Oct. 3 in the grand ballroom of the Sheraton Dallas Hotel, will have Miss Marilyn Van Derbur, former Miss America, deliver the principal address.

Dan C. Williams of Dallas will serve as master of ceremonies. The Rev. Kerby H. Edwards of Dallas, Minister of the Mungler Place United Methodist Church, will present the invocation, and James W. Aston of Dallas will present medals to the honored boys and girls.

In addition to attending the Honor Award Dinner at Dallas, Christie will be representing the Hereford Future Farmers of America Chapter at the National FFA Convention in Kansas City, Missouri, Oct. 13-17.

Christie, along with six voting delegates and State Association Officers, will attend the meeting which is expected to attract over 10,000 FFA members and guests from 50 states and Puerto Rico.

Assistant Director and G. C. Scroggins, Executive Secretary of the Texas FFA.

Eleven local chapters of Future Farmers of America representing the Texas Association will be honored at the 41st Annual National FFA Convention, when chapters are recognized in the National Chapter Award Program which is part of the convention. Five Texas chapters will receive the "Gold Emblem" award, one of which is the Hereford chapter. Others which will receive the award will be Boys Ranch FFA, Nacogdoches FFA, New Braunfels FFA, and Sulphur Springs FFA.

Each State Association was permitted to enter two or more chapters, depending upon State FFA membership, in the National contest.

Accompanying the delegation will be George Hurt, State Director of Vocational Agricultural Education; J. A. Marshall,

BILL WALDEN — Local Farm Bureau president is shown during convention here Thursday night addressing the membership in attendance. Staff photo.

Parisians, besieged by the Prussian army in 1870-71, sent out crated homing pigeons by balloon. The birds returned with more than a million photographed messages — one of the earliest military uses of microphotography.

UF Midway Point Shows 44.7 In

Upon reaching its midway point in the current collections campaign, United Fund drive chairman Cleo Corlis reported following the second check-in of majors Friday that 44.7 per cent of the \$38,000 goal has been reached.

Corlis pointed out that some of the rural majors have not as yet made a report and that the percentage may be higher. Also awaited is the report following the first of the month, where it is indicated that a number of local employees will reach a payday — a first one since the campaign began on Sept. 17.

It is felt that contributions will rise considerably at this point.

Corlis said the next check-in date is Thursday at 10 a. m. in

the Hereford State Bank board room.

Total collected thus far in the 1969 campaign is \$16,927.75, as tabulated by UF vice president Joe Shollenbarger.

A breakdown in classifications, each individual goal, the amount collected and its percentages were released by UF president Calvin Goodin, Corlis, and Shollenbarger:

Schools: goal \$3,300, already collected \$2,618 (63 per cent); Commercial A: goal \$6,000, collected \$4,300 (72.7 per cent); Commercial B: goal \$6,000, collected \$2,354 (39.2 per cent); Commercial C: goal \$7,700, collected \$3,272 (42.5 per cent); City, county, state employees: goal \$3,000, collected \$685 (22.8 collected); Utilities, banks and attorneys: goal \$6,100, collected \$3,453 (56.6 collected); and Rural: goal \$6,000, collected \$764 (12.8 per cent).

Majors reported that some of their people have spoken the opinion that they are not aided by any of the local United Fund member agencies and therefore do not feel they should contribute. However, Corlis pointed out that it is a personal benefit to each person in Deaf Smith County "because these agencies reflect the welfare and betterment toward the entire community. We all benefit."

Member agencies are Boy Scouts, Red Cross, Camp Fire Council, Little League, Pony League, Colt League, USQ Council on Alcoholism, Salvation Army, Cerebral Palsy, and Texas United Fund.

Birth Of Baby Is Announced

Mr. and Mrs. Gary McQuigg of Amarillo are the proud parents of a son, born September 18 at Northwest Texas Hospital.

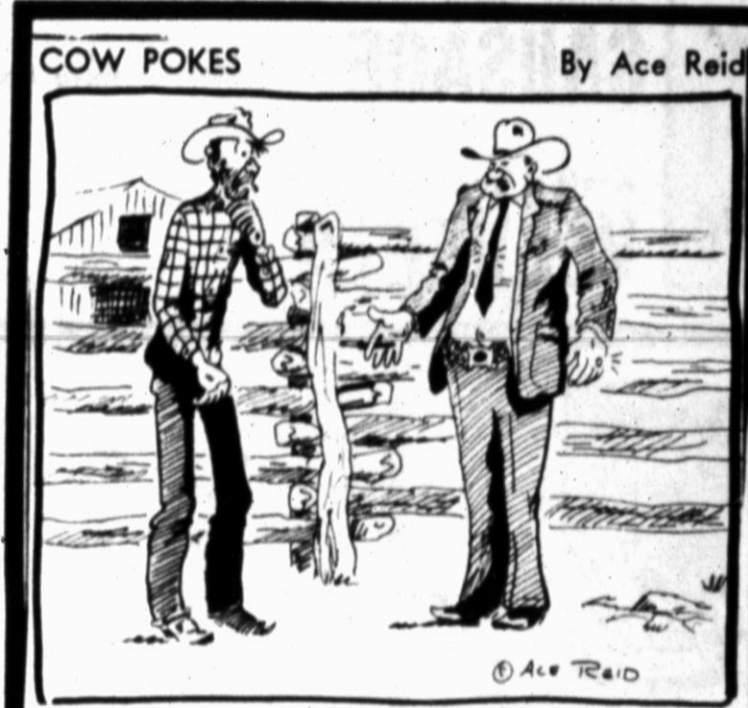

The infant weighed 9 lbs. 1 oz. and was named Gary Mark.

Gary's grandparents are Mr. and Mrs. Clyde Carr of Eagle Pass and Mr. and Mrs. C. R. McQuigg, 234 Centre in Hereford.

AREA SALES MANAGER

being assigned to Hereford area to develop and supervise sales force for marketing equipment and fixture leases for foodlot, farm industry, aircraft, commercial hospital and nursing homes. Successful applicant will make \$30-\$50,000 plus stock options per year. Good sales track record first requirement, with experience in equipment sales finance or leasing helpful. Send resume to Box 673A.

Tierra Blanca District Begins Scouting Activities

Age, color and race barriers were erased from the lives of some 550 boys here last week as the understandings of their worlds, far cries from the distraught world of the adults, were expressed in their desire to serve others.

These 50 boys, ranging in ages from seven to nineteen, are just a small handful of the hundreds of thousands who are working in their own ways — helping themselves while helping others.

These boys, known as Cub, Boy Scouts, and Explorers, have undertaken chores for the good of others while the world outside their own goes in never ending strife.

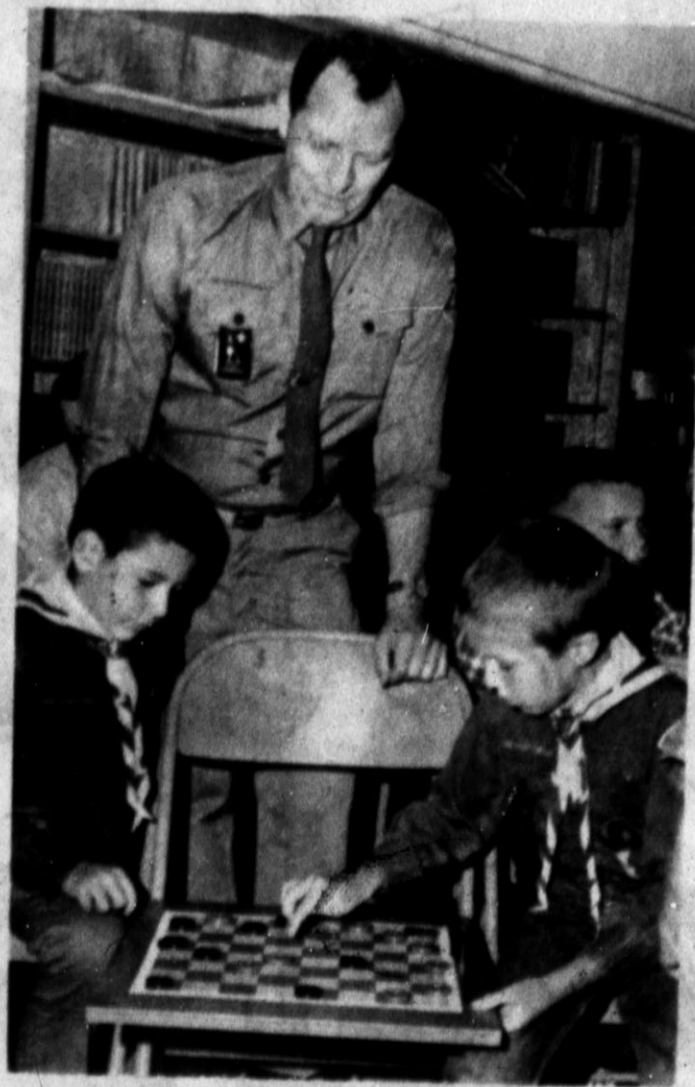

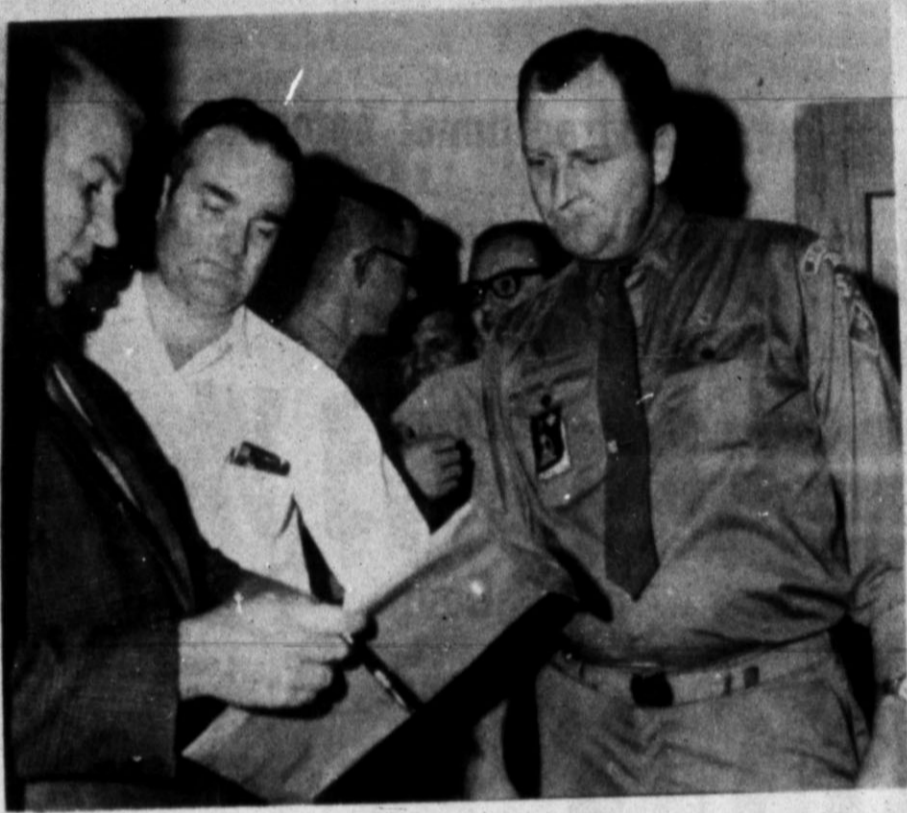

This week, some 121 new youngsters were introduced to the ways and skills of the life of scouting which has done so much for so many before them. Great men throughout the times have found scouting a crutch to lean on in times of need and others, including the small handful that has introduced this week, will be the stones for foundations of future scouts.

But, these boys, despite their own desires, must have qualified leaders to show them the way. Men, who get nothing for their work with scouts except the feeling of accomplishment when a small fry or older scout receives recognition he well deserves. Men who find time just once in a while to help those who will help others — because there was that someone who helped him. Men who laugh with, hike with, give occasional words of encouragement, and make a small boy proud he has done something.

Hereford has just a few of these men, but they have always been there when a young one is down, when an old one is up or when things seem bleak. For the boy scouts, there will be, when the help is needed, Nolan Grady, George Ochs, Frank Ford, Oliver Rudd, Delmo Williams, Boyd Collins and Martin Diggins. For the Cubs, there will always be men like Hawk Craig, Edwin Axe, Raymond Dement or Richard Parker. Men like Kirven Roper, Hap Cavness; Don Chaney.

And, for all these boys, there will be thanks to the foresight of other people, places like Camp Don Harrington where life becomes a little more meaningful.

Yes, there are a lots of things that a young boy must give for scouting, but there is far more that he will receive in return from scouting itself. The most important thing, however, is that through the efforts of others, he will be finding his place — growing to manhood and helping others.

The Sunday Brand

Hereford, Texas, Sunday, September 28, 1969

SECTION TWO

Pre-Nuptial Shower Fetes Miss Monroe

The Hereford Country Club was the setting Saturday afternoon for a prettily planned bridal shower honoring Miss Kathy Monroe, whose marriage to Dusty Duncan is planned Oct. 17.

Guests were received by Miss Monroe, her mother, Mrs. Buel Monroe; her fiancé's mother, Roy Duncan; and the couple's grandmothers, Mrs. Joe Monroe of Clovis and Mrs. Nonna Duncan.

An arrangement of white daisies and mint green tapers carried out the bride's chosen colors on the serving table. Presiding at the refreshments were Mrs. Bill Jack Gilliland and Miss Mary Sue Neff.

Guests were registered by Miss Vicki Duncan, sister of the bridegroom-elect, and music was furnished at the piano by Miss Betty Hodges.

Hostesses for the occasion were Mmes. L. B. Russell, Elmo Hall, N. E. Tyler, Charlie Burke, Melvin Henderson, Morris Easley, Ivan Tipps, Larry Summers, Willis Duggan, G. V. Hall, Jack Weaver, Dan Guseman, John Hill, Bill White and W. W. Gilbreath.

Mrs. Jackson Is L'Allegra Speaker

Guest speaker for L'Allegra Study Club Thursday afternoon at the First National Bank Community Room, was Mrs. Clinton Jackson, who told of the recent trip she made with her husband to Pakistan. Hostess for the meeting was Mrs. John Smith.

Mrs. Jackson wore a sari of hot pink silk, embroidered in authentic gold thread. She explained to the group that a sari, which is the dress worn by Pakistan women, is six yards of material which is pleated, wrapped and draped around the body. A table displayed hand made items such as cloths, hats, brass spoons, scissors, knives, pictures and farm tools. Slides were shown and explained with such interesting detail that the group felt they had actually shared the trip. An interesting question and answer program closed the program.

Madre Mia Club Hears Of Opportunity Plan

Miss Paula Jackson, a freshman student at West Texas State University who is attending on the Opportunity Plan, was guest speaker for members of La Madre Mia Study Club at a meeting held Thursday evening in the home of Mrs. Richard Ward. Co-hostess was Mrs. C. D. Adams.

Miss Jackson works fifteen hours per week, as all of the students under the plan, and is very enthusiastic about the appointment.

There are now 283 students attending college on the plan, she said, with 64 from Hereford.

For those students not able to attend scholastically, they are encouraged to attend Oklahoma State Technical School.

Fifteen hours of employment is required for each student, she stated, but for those who cannot work and keep their grades up, have fifteen hours of supervised study.

During a brief business meeting, with Mrs. Waldo Baxter presiding, the club voted a contribution to the Opportunity Plan, which is their major project for the year. They also discussed the possibility of assisting with Camp Fire groups.

The constitution and by-laws were read by Mrs. G. C. Merritt Jr. and Mrs. Charles Watson was welcomed as a new member.

Others attending were Mrs. Roger Williams, a guest, and Mmes. John Smith, Charles Fry Ray Don King, Ben Scott, Carl Carlile, James Gentry, Don Lane, Don Walser, Lynton Alford, Herschel Black, Gerald Martin, Wayne Lady, Bobby Owen, Dean Herring and David Honea.

CARD OF THANKS
We wish to thank all who brought food and flowers and helped in other ways, especially Rev. and Mrs. H. T. Goodwin for comfort and help during our time of bereavement.
May God bless each one of you.
The family of Mrs. Vick

Needle Club Plans Social

Plans for an ice cream social to be held Oct. 16 at 7 p. m. in the home of Mrs. Haskell Benson, were made at a Thursday meeting of the Mother's Needle Club in the home of Mrs. Ralph Paul.

Refreshments were served to Mmes. C. N. McClure, Nell Auten, A. H. Cook, Gerald Awtrey, H. E. Lindley, Adam Flowers, J. L. Shirley, Earl Cole, W. T. Gunstinson and Annie Springer.

Holly Announces New Manager At Wyoming Factory

COLORADO SPRINGS. — LeRoy J. Abbott, factory manager at Holly Sugar Corporation's Delta, Colorado factory, has been named factory manager at Holly's Worland, Wyoming factory, George W. Miles, Jr., vice president and general superintendent, announced today.

Abbott, who worked at Worland for nearly 20 years during his 38 years with Holly, replaces Eugene Kelly, who has resigned.

Louis R. Garcia, Jr., assistant factory manager at the Carl-

ton, California factory, will be acting factory manager at Delta until a permanent one is named, Miles said.

Abbott joined Holly in 1931 as a mechanic's helper at Swink Colorado. From 1933 to 1935 he was a sugar boiler helper at Swink and Delta Factories. He was named a sugar boiler at Worland in 1936, promoted to sugar end foreman there in 1944 and to beet end foreman in 1947.

He was promoted to shift superintendent at Delta in 1955 and made factory manager there in 1965. His father Clyde is a retired Holly employee and a brother J. P. Abbott, is the assistant general engineer at Holly's main office.

Abbott attended the General Electric Vocational School, Schenectady, New York. He is married and has three children.

According to the Barton Museum of Whiskey History in Kentucky, President Nixon prefers scotch, as did LBJ. Daiquiris were JFK's favorite and FDR preferred Old-Fashioneds.

CARD OF THANKS
We wish to express our appreciation for each kindness given us during the illness and death of our loved one. So many kind deeds were done that we could not name all of them. Thank you each and every one. You will never be forgotten.
Mrs. Steve Powell and Sharlene

Calliopian Club Views Film On British Empire

Mrs. D. C. McWhorter, who recently made a trip to England, presented a program on the British Empire in Our Changing World, at a Calliopian Club meeting held Thursday in the home of Mrs. Clyde Cave.

Showing films of several counties, Mrs. McWhorter said, "British Empire attained its zenith, entered its decline and was transformed into a commonwealth during the first half of the century, but we are not in error to think of Britain as an ancient country. What counts is the determining character of the country. Britain and its people possess a quality that is more durable than any of its empires."

Attending the meeting were Mmes. Erwin Alexander, B. F. Cain, C. J. Crump, Emil Dettman, Alton Fraser, J. T. Gilbreath Jr., David Bigson, Tho-

Cancer Films Set Thursday

By Mrs. Argen Draper
Home Demonstration Agent

One of the most important programs of the year is scheduled this week. Two cancer films are being shown Thursday at 2:30 p.m. at the Community Center. This will be very informative and every woman in the county should attend. I don't want to back the hears up to you, but — the cancer you detect might be your own. Cancer when detected early has a good chance of being cured. Please come next Thursday, 2:30, Community Center.

A family news item: Tom Draper announces the marriage of his brother, Robert. Many of you remember Robert as he lived in Hereford and farmed in this area several years ago. He is now living in Lewisville and developing some acreage into city lots. Our congratulations and best wishes to them.

Sadie Lee Oliver, former home demonstration agent, sent a cake recipe and recommends it as a very good dessert. You'll like it.

THE WESTERNER
3 sticks (3/4 bl.) butter, margarine or fat
1 1-lb. carton powdered sugar
6 eggs
1 powdered sugar carton full of sifted flour

1 teaspoon lemon juice
1 tablespoon vanilla
Have eggs and butter at room temperature. Cream butter, add powdered sugar; beat with electric beater till fluffy. Add eggs, one at a time; beat well after addition. Sift flour 3 times; add gradually to batter. Add flavorings and mix well. Bake in 10" greased and floured tube pan at 325 degrees for 1 1/2 hours. Cool 4 minutes, then invert pan. Delicious served plain with powdered sugar sprinkled lightly into ridges on top of cake. Or, top with ice cream, fruit, whipped cream or dessert sauce.

Mrs. Leroy Williamson is one of the most regular exhibitors of quality baked goods at the area fairs. At Lubbock's South Plains Fair, Mary won first places on pound cake and loaf bread, both white and whole wheat. The week before at Tri State Fair, Mary won three first and five second places. The first were: whole wheat rolls, assorted candies and white loaf bread. Second, chiffon cake, plain biscuits, divinity candy, cinnamon rolls and white rolls. Congratulations to Mary on this good showing.

Mary Williamson has tried a new pie recipe and recommends it as good.

Kings, Queens Name Winners

In Kings and Queens Bowling League action last week, Sonny Dyer with his 565 handicap series, was named "Bowler of the Week" for the Kings and

Queen. Anne Radney, with her 547, took the honors for the Queens.

Chuck Clarke took the tokens for the men with a 520 series scratch while Bonnie Bauman rolled high game for the women with a 184.

In team action, Sunset Lanes rolled the high series of 2242. Picking up splits were Stan-

ley Varner, the 7-2-10 and Nita Hoffman, the 3-7-10.

In action last week, Sunset Lanes won 3 and lost 1; Vance Hall Sporting Goods won 3 and lost 1; Sunset Food Center won 3 and lost 1; Team Number 1 won 3 and lost 1; Hereford Janitors won 2 and lost 2; Team Number 4 won 2 and lost 2;

Team Number 3 won 1 and lost 3; Reeves Chevrolet-Olds won 1 and lost 3; The Cougar Club won 1 and lost 3; and Team Number 2 won 1 and lost 3.

George Blanda, Oakland Raider reserve quarterback, is 49 and the oldest player in the American Football League.

LEMON PIE

2 lemons
2 cups sugar
4 eggs, beaten
Pastry for 2 crust pie
Slice lemons paper thin, (rind too). Place in mixing bowl and mix sugar. Let stand 2 hours or longer. Line 9" pie plate with half pastry — add eggs to lemons and mix thoroughly. Pour into pie shell top crust, crimp edges, cut vents to allow steam to escape. Bake 450 degrees for 15 minutes. Reduce heat to 350 degrees and make 30 minutes.

Where have I been in September? In four weeks, I have driven 3200 miles. Therefore, I'll be in the office three days this week to catch up on correspondence, reports and office work.

Next week:
Monday: Sugar Blues TOPS diet cola party — 7 p. m.
Tuesday: 4-H Parents Hour — 8 p. m.

Wednesday: — Sub-district meeting in Hereford all day
Thursday: Cancer films at Community Center, 2:30. Dalhart to judge fair — all day
Friday: Office

Observed at a candy counter: All 5 cent gum now 8 cents.

Referendum For Soybeans Has Postponement

AUSTIN — Texas Soybean Association officials of Plainview have postponed plans for a referendum among growers under a commodity check-off plan, Agriculture Commissioner John C. White announced.

W. B. Tilson of Plainview, president of the association, requested a temporary delay of proceedings, following a public hearing in Austin September 15. Although the group fulfilled legal requirements for certification by Commissioner White, additional time was requested in order to explain the proposed program to soybean growers in the 23-county area which will be involved.

"We definitely plan to petition for certification at a later date," Tilson said. "However, we feel more time is needed to get information on the necessary election to potential voters."

Liveoak.
North Hereford H. D. Club, 2:30 p. m.
L'Allegria Study Club, 1:30 p. m., hostess Ella Marie Veigel.
Bay View Study Club, 3 p. m. hostess Mrs. Herman Ford.

READ THE WANT-ADS TODAY

Under the program, soybean growers would consider a proposition to assess themselves for crop promotion, research, education, and disease and insect control. A nine-member commodity producers board would be proposed to administer the program if established.

Congratulations!

November Luncheon And Work Day Planned By Ford H.D. Members

Plans for a luncheon scheduled before the regular meeting November 19, possibly being combined with a work day, were formulated at a Wednesday meeting of the Ford Home Demonstration Club held at the

Ford Community Building. Hostesses were Mrs. Joe Meyers and Mrs. John Brorman. A program on choosing jewelry to compliment skin and hair coloring was presented by Mrs. Argen Draper, H. D. Agent. She distributed charts to those present, showing colors of jewelry flattering to brunettes, redheads, platinum blonds, golden blonds and those with gray hair and stressed the importance of choosing pearls with the proper tint.

She said clothing costs were up this fall from 30 percent to 50 percent and sometimes double so the smart consumer will make every effort to "make do" with jewelry and scarves to achieve a new look. Best colors this fall, she said, are black and murky colors.

Larry Brown, Harlan Vanderzee, Elmore Rains and Ray Simpson. Mr. Massie is being transferred to Amarillo by Pioneer Natural Gas Co.

A study by Pittsburgh Corning Corporation revealed that an average 80-ft. square window in a factory costs \$106.67 a year to wash and keep in repair.

Mrs. Massie Honored With Coffee, Gifts

Mrs. Clinton Massie, who is moving with her family to Amarillo on Oct. 1, was honored with a coffee in the home of Mrs. Dean Herring Saturday morning. Others assisting Mrs. Herring with hostess duties were Mmes. Eugene Sparks, Cecil Boyer, Bobbie Owen, Lloyd Sharp, and Jimmy Mercer.

Coffee, rolls, fruit, and nuts were served informally from a table centered with an artificial fall arrangement, a gift from the hostesses to the honoree. Guests signing the register were Mmes. Frank Smith, Clyde Cave, Doyal Brook, J.B. Harlin, Jack Roberson, Blanche Moseley, Gwynne Owen, Bill Frank, W. H. Kitchens, Benny Womble, C. E. Leasure, Walter Bryan, G. C. Merritt, Jr., A.T. Mims, Otis Lee, Lloyd Crume.

Attending were Mmes. Frank Brorman, W. A. Carter, J. Raymond Flores, Joe Gonzalez, A. B. Kent, D. B. Roberson, Raymond Smith and the hostesses. Plans for the November luncheon will be completed at the next meeting scheduled Oct. 15 in the Ford Community Building.

SPEED READING CLASS SET FOR HEREFORD

The famous Cutler Accelerated method of speed reading, created by Dr. Wade F. Cutler, who holds a doctorate in psychology, will be taught here in both day and evening classes.

The average person today reads some 200 words per minute with about 60 percent comprehension — a rate inadequate to cope with today's reading demands in school, college, and business. This widely acclaimed course guarantees its graduates will read at least 1,000 words per minute with a definite increase in comprehension.

Many graduates of the nine-week program far exceed the guarantee and complete with rates of 2,500 and more words per minute with far better comprehension.

Concentration, recall, steady and test-taking skills show a remarkable degree of improvement. Such achievement means that a person can read books of average length in 45 minutes or less, and understand, remember, and enjoy them better than ever.

This remarkable accelerated reading and study course is offered here exclusively by Accelerated Education Schools with locations in major cities in Texas, New Mexico, Louisiana, and Oklahoma.

This professionally conducted course boasts over 10,000 successful graduates due to its common sense approach to better and faster reading, and to its staff of professionally qualified master teachers.

A series of meetings has been scheduled for those in the Hereford area who desire to know how they too may learn to read with greater speed, power, and efficiency.

At these free one-hour orientations, full details about speed reading and the unique Cutler Accelerated Method will be given to those forward-looking persons attending.

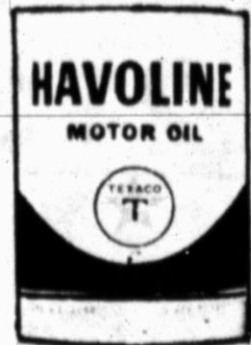

Since there is no cost or obligation by attending, you owe it to yourself to attend the time most convenient for you.

Drop in and find out how you can make 1969 a more successful year.

All meetings are open to the public, and will be conducted as follows:

HEREFORD COMMUNITY CENTER
Park Avenue
Sunday, September 28 at 2:30 p. m. and again at 4:30 p. m.
Tuesday, September 30 at 7:30 p. m.
Thursday, October 2 at 7:30 p. m.

World Understanding Workshop Speaker Is Rep. Bill Clayton

State Representative Bill Clayton, of Springlake, will speak about "Challenge and Responsibility of Government in Issues of Poverty", Tuesday morning during the World Understanding Workshop, to be held September 29-30th at the First United Methodist Church Fellowship Hall.

Following Rep. Clayton's program at 9:00 Tuesday morning, a panel and open discussion will be held on the topic "What Can We Do?", featuring local and professional workers in these areas: Housing — Harlan VanderZee; Adult Education — Bob Holman; School — Mrs. E. D. Hopson; Day Center — Mrs. Joe Easley; Health — Raymond White.

A special invitation is extended to all to hear Dr. J. Woodrow Hearn, Shreveport, La., a delegate to the 1968 meeting of the World Council of Churches in Sweden, treat the subject "World Churches' Experience in World Understanding", at the First United Methodist Church Sanctuary at 7 p.m. Monday evening.

Registration begins 9:00 a.m. Monday with the opening session covering the purpose and goals of the workshop. Registration fee will be \$3.00, with each day's lunch at \$1.25. A nursery will be provided, and the children are requested to bring sack lunches. The dinner, 6:00 Monday evening, hosted by the Hereford Church Women United, will be catered by Caison's for \$1.75 per plate. These dinner tickets should be purchased by noon Monday at the First United Methodist Church.

Others on the program will be Rev. Jacinto Alderete, of the Wesley Community Center in Amarillo, presenting "Challenge and Responsibility of Community Development", to be followed by a panel discussion, with Bill Thompson, Manager of the Hereford Chamber of Commerce as moderator; Roland Barton, president of the Community Action Committee; Ernest Castaneda, Co-ordinator of the CAC; and Argus Burnett, Amarillo, Area Representative of the Office of Economic Opportunity. "What is My Challenge and Responsibility?" Will be conducted by members of the Northwest Texas Conference Women's Society; Mrs. Roy LeMond, Post, Secretary of Christian Social Relations; Mrs. C. B. Melton, Floydada, vice-president of the Northwest Texas CWS; and Mrs. O. C. Lewis, Amarillo, treasurer. A tape recording from Miss Naomi Hare, Missionary from the first United Methodist Church, will conclude the two-day session, at 2:30.

Rep. Bill Clayton

Serving with Mrs. Grant Hanna, general chairman, are: Mrs. S. L. Garrison, president of the First United Methodist Church Women's Society of Christian Service; Mrs. Bruce Terry, president of the Wesley United Methodist Church WSCS; Mrs. Claude McDougal, secretary of the local unit of Church Women United. Chairman of registration is Mrs. Bill Walden; ticket sales, Mrs. A. T. Mims; hospitality, Mrs. Clifford Trotter, and publicity, Mrs. Werner Koelzer.

Jim Sears Is New Savings Bond Chairman

James H. Sears, vice president of the First National Bank in Hereford, has accepted appointment by the U. S. Department of the Treasury as volunteer chairman of the Deaf Smith County Savings Bonds Committee.

Announcement of his appointment was made by Rex Brack, chairman of the Texas Savings Bonds Committee.

In announcing Sears' appointment, Brack remarked that "his wide business experience and active participation in community affairs will be most valuable in his volunteer service as Deaf Smith County chairman especially in these times when the U. S. Savings Bonds Program takes on increasing importance in helping to keep our nation economically strong and secure."

Sears is well-known in civic affairs, being active in volunteer work in many areas. At present, he is serving as Mayor of the City of Hereford. He has served a two-year tour of duty with the United States Army.

As county chairman, Sears

Wetness Showing Adverse Effects

PLAINVIEW — Continued wet weather is haunting High Plains farmers as some crops are beginning to show adverse effects in these last days of the approaching harvest.

Of special concern is cotton crops which have had only a few days of fiber development since the cool weather began August 24.

According to Jim Valliant, soil scientist, High Plains Research Foundation, cotton development has been hindered by days in which the temperature did not reach above the 70-degree mark.

Using degree hours, the number of hours temperature reached 70 degrees multiplied by the number of degrees above 70, to show the lack of fiber development, Valliant said that in the past four weeks, cotton had only 614 hours. In comparison,

will work with other community leaders in a year-round program to encourage the increased purchase of Savings Bonds at banks and on the payroll savings plan.

the week of Aug. 11-17 showed 1,279 degree hours. The highest cotton development weather was on Aug. 23, where 198 degree hours were recorded. Since the unfavorable weather started the highest degree hours was on Sept. 7 when 105 degree hours were recorded.

He said that the wet weather, combined with losses through disease and insects, had reduced the average cotton lint yield approximately 150 pounds.

Other Foundation researchers agree with him. Ben Quebe stated that the tests he has with verticillium wilt resistant varieties held up real well before the prolonged wet weather. "Now all varieties are showing varying degrees of wilt damage," he said.

Dr. Douglas Owen said the rains did save an irrigation on soybeans and for the most part soybeans were holding up pretty well through this wet period. "Some Patterson and Clark beans show signs of maturing and if not harvested soon, farmers could have some loss due to pod dropping," he said.

Some armyworms and bollworms are showing up in area soybeans but not in sufficient numbers to severely affect yields. Also, he noted there was some presence of salt marsh caterpillars. "But, these are leaf eaters and even if they were in large numbers, which they are not, they would only eat leaves and not damage the pods," he stated.

Some of the later maturing soybeans are getting pretty rank and tall due to lush growth and there is some concern that these beans might fall and lodge before harvest.

Some bacterial blight is being found in soybean crops but Dr. Owen said this is insignificant at this stage of growth.

"Castor crops are suffering from blue capsule mold in some fields due to the wet weather," Dennis Mooney said. And this problem could be serious if the weather continues like it has been.

The continued wet weather is also causing grain sorghum to wither and shrivel. Reduced bush weights are anticipated and some sorghum heavily infested by mites earlier is starting to fall.

Mooney pointed out that the weather did stop the spider mites which were beginning to

build up during the last part of August.

Foundation researchers point-

ed out, however, that the wet weather is good for grass and winter grain crops.

Highlights And Sidelights

All-time Expenditure Record Set Despite Large Cutback

By VERN SANFORD
AUSTIN, Tex. — Gov. Preston Smith has signed into law a \$5.8 billion 1970-71 state budget. This was after vetoing \$4.4 million in miscellaneous spending items. Yet the expenditure set an all-time record.

Earlier, Smith approved a new record \$348.6 million tax bill which takes effect October 1. (In addition to state revenue, cities will get an estimated \$6 million a year due to extension of the sales tax to beer and liquor. Sales tax rate goes up from 3 to 3.25 per cent.)

Smith also signed other acts of the special session, including legislation creating 28 new

Texas district courts. He will name all judges to serve until the next general election. This may be the largest single amount of judicial patronage assigned to a Texas governor at one time in state history.

Governor Smith vetoed the following items as now "unjustified or non-essential": Construction funds totaling \$2.9 million for the Dallas Neuropsychiatric Institute; \$262,717 for the Department of Public Safety sub-district headquarters in McAllen; \$250,000 for the Junction adjunct of Texas A&M; \$160,000 for Texas Maritime Academy Pelican Island Development.

Also an appropriation of \$225,

000 for contracts of private lawyers to assist the Attorney General in tort claims cases in 1971; \$172,000 for park land acquisition in Hardeman and-or Motley counties; \$267,500 for acquiring land and development of Port Lavaca Caseway State Park; \$30,000 for drilling a water well at Lyndon B. Johnson State Park in Gillespie County; \$25,000 for Longhorn Cavern State Park; \$29,000 for completion of a master plan for the Red River Authority; \$60,000 for a fish raising facility at Stephen F. Austin College in Nacogdoches, and \$65,000 for environmental pollution control studies at Prairie View Agricultural and Mechanical College.

BARNES FOR SENATE? — Is Lt. Gov. Ben Barnes, 31, about to become a candidate for the U. S. Senate against Sen. Ralph W. Yarborough, 66?

Nobody can truthfully claim to know the answer to that, including Barnes himself, who says he has not yet made up his mind.

Yet, Governor Smith opened up new speculation on the subject during the recent Southern Governors' Conference at Williamsburg, Va.

Asked by reporters if he thinks Barnes could beat Yarborough, Smith said he believes that is possible — depending on the kind of races run by each, their financial resources and a lot of imponderables.

Smith didn't claim to know, but the fact he was willing to discuss the prospective race at all was an indicator of the widespread circulation of the Barnes-Yarborough contest rumor.

Smith also told newsmen he feels Yarborough is in the best political position he has enjoyed since he went to Washington more than a decade ago. Smith will, he emphasized, take no hand in the Senate race no matter who the candidates are.

APPOINTMENTS ANNOUNCED — Major and minor appointments came thick and fast during the last week.

Veteran State Securities Commissioner William M. King resigned his post to enter private banking here, and his longtime deputy, Truman G. Holladay, was named to succeed him.

Former State Sen. Dorsey B. Hardeman of San Angelo was selected executive director of Texas Water Rights Commission, succeeding Frank Booth who resigned to enter private law practice.

Sen. Criss Cole of Houston

was sworn in as president pro tempore of the Texas Senate on September 22.

Smith named a nine member board of regents for East Texas University. They include Antonio, Raymond Middleton Holliday of Houston, Joseph Zappa of Tyler, William Garland Button of Dallas, Cam F. Dowell Jr. of Dallas, Joel Thomas Williams Jr. of Dallas, Leona Jackson Coker Jr. of Texarkana, Thomas Brazelton Steely of Paris and Luther Preston Johnston of Lubbock.

Smith placed on the new State Board of Landscape Architects Robert Hall Green of Houston, Otto Erwin Scherz of San Angelo and Leonard Morrison Riggs of Longview.

He named Gerald Hicks Smith of Houston and James L. Lindsey of College Station to the State Finance Commission and reappointed Rex G. Baker Jr. of Houston to the Commission's banking section.

Buster Eugene French of Dayton was named to the board of directors of the Coastal Industrial Water Authority. Smith renamed Johnnie Glen Jennings to Baytown and Robert Clayton Lanier of Houston to same agency. Malcolm J. Henley of Lindale was placed on the Sabine River Authority board of directors and Tom R. Pegues of Mineola and Charles T. Wickersham of Orange were reappointed to the Sabine Authority.

Berl E. Godfrey of Fort Worth, Davie James Lawson of Dallas and Gus S. Wortham of Houston were assigned by Smith to six-year terms on the board of regents of North Texas State University.

Smith selected Mrs. Elaine Byron Cominsky of Pasadena and Mrs. Helen Ruth Cox of Lubbock for the board of nurse examiners. He appointed Roy Lee Fowler of Austin to the board of barber examiners.

Dr. Stewart Wold will head the marine biomedical institute at Galveston. Mrs. Marie Schulz has been named program director of the library systems act for the state library. Eleven new Texas Rangers were designated by the Department of Public Safety.

LEASE SALES SET — A total of 338 tracts of University of Texas lands (111,812 acres) in West Texas will be placed on lease auction, December 16. November 4, some 768 tracts totaling 496,871 acres will be offered in a school land sale.

Land Commissioner Jerry Sadler said 125 tracts of university land in Hudspeth County will be offered at bonuses of not less than \$1,000 per half section and at annual lease rentals of \$1.50 an acre. This was reduced from former requirements of \$5,000 per quarter section and \$2 per acre. Former require-

ments will govern other tract leases.

In school land sale, 37 tracts in El Paso County had acceptable bonus reduced to \$5 an acre and annual rental to \$2. Other upland and riverbed tracts will command a \$20 per acre bonus and \$5 per acre annual rental. Those lying under bays, inlets and Gulf of Mexico lands will go at \$25 an acre and a \$5 per acre annual rental. Most of school land is in Gulf Coast submerged areas.

ATTORNEY GENERAL SPEAKS — University of Texas cannot strip Dr. James McCrocklin, former Southwest Texas State University president, of his Ph.D. degree, and court action would be necessary to annul it, Atty. Gen. Crawford Martin said.

In other recent opinions, Martin concluded that: "Commercial feeding lots 'finishing out' cattle for market must provide county tax collector a list showing the numbers of cattle they need for each owner, on January 1.

"New type liquor wholesalers permit does not discriminate against other permit holders, and is constitutional.

"Harris County commissioners may grant the county sheriff and his deputies the same authority DPS officers have, to remove vehicles from county roads.

"Depository interest earned on special constitutional funds or federal trust funds created for specific purposes should be deposited to the credit of those specific funds rather than the general revenue fund.

"Employees of the House and Senate are not part of the class of elected officials for purposes of membership in the state employees retirement system. Therefore, they are not eligible to make contributions or receive benefits as elected personnel. Only officers of the two houses who are required to take the constitutional oath of office, can be so considered.

SCHOOL DISTRICTS WARNED — More than a dozen Texas school districts have drawn warning of deficiencies from the State Board of Education.

Crosby Independent School District lost its accreditation but can regain it when it meets state requirements.

Alpine received final warnings it may lose accreditation if conditions are not approved.

Also warned were Antelope, Bertram, Bridgeport, Calvert, Hemphill, Masonic Home, Pettit, Rains, Elizario, Spur, Timpan and Little Elm.

State Board decided to permit 16-year-olds to enroll in adult basic education programs. New department of special education and special schools organization was approved.

SHORT SNORTS — Governor Smith and Senator Yarborough are united in defense of tax exempt status for state and local bonds.

Liquor Control Board will make new rules covering collection of taxes on mixed drink (in private club) before the levy goes into effect October 1.

Many Texas nursing homes are withdrawing from medicare program because of government red tape, according to an association spokesman.

Law enforcement leaders have scheduled meeting here for Sept. 27-28 for the 19th annual attorney general's law enforcement conference.

DPS is actively recruiting men (ages 20-35) for Texas Highway Patrol training.

A last-minute item in the appropriations bill was a \$100,000 allotment to the Texas Water

Quality Board to contract with a study of pollution in the Sabine River Authority for

Taxpayers Ask IRS

This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q — I'm now retired and I have Social Security and my company pension to live on. Will any of this be taxable?

A — Social Security benefits are not taxable. Your company pension may or may not be taxable depending on whether you contributed to its cost.

If the pension plan is of a type where the pensioner's cost is recoverable within the first three years, the pension is tax-free until this cost is fully recovered. After that, the full pension is taxable income.

One provision you should check is the retirement income credit. When certain conditions are met, this provision allows a taxpayer to reduce his income tax by up to 15 percent of his retirement income.

Details on these provisions are given in IRS Publication 524 Retirement Income and Retirement Income Credit. Send a post card to your District Director for a free copy.

Q — I receive my room and meals at college free of charge for working in the dining hall. Is there any tax on this?

A — The fair market value of room and board received as compensation for work is usually taxable income. If this plus any other income you have amounts to \$600 or more for the year, you will have to file a tax return.

Remember that if your earnings from all sources were less than \$600 and any Federal income tax withheld, a return must be filed to obtain a refund.

Q — This is the first year my income will be high enough so that I'll have to file a tax return. Is there anything I can

do to avoid having to pay any tax at the end of the year?

A — If taxes are withheld from your wages, any increase in the amount withheld will reduce the chances of having additional tax to pay when you file your 1969 return. Your withholding can be increased by not claiming all your withholding exemptions or by having additional amounts withheld through an agreement with your employer.

Note that if you do not claim all the exemptions you are entitled to for withholding purposes you have not forfeited your right to claim them at a later date. You can, and should, claim all exemptions you are entitled to on your income tax return.

Q — I've just opened my own business. What can you tell me about my Federal tax responsibilities?

A — Information on taxes and withholding requirements can be obtained by contacting your local IRS office. Publications are available that cover these subjects.

JUST WAITING

TOLEDO, Ohio — Two police cars and a harbor patrol boat rushed to the Anthony Wayne bridge here when it was reported a man was threatening to jump off the span.

They found a man perched on the bridge railing waiting for his stalled, overheated car engine to cool.

JULY 4 CHECKS FOR '1776'

NEW YORK — Investors of the hit musical, "1776," have realized another return on their investment.

Producer Stuart Ostrow mailed out the third \$100,000 of the \$500,000 capitalization of the musical, dating the checks July 4.

The musical, which won a Tony Award, has returned 60 per cent of its original investment in 16 weeks.

Peters-Kendall Marry In Wellington Ceremony

The Church of Christ in Wellington was the setting for the wedding of Miss Deborah Gail Peters and David Lee Kendall of Amarillo at 7:30 p. m. Saturday, with John Gay, minister of San Jacinto Church of Christ of Amarillo, officiating.

The bride is the daughter of Mr. and Mrs. David Peters, Wellington and parents of the bridegroom are Mr. and Mrs. Ernest Kendall, 240 Elm St., Hereford.

Vows were exchanged before a heart shaped arch covered with greenery and white gladiolas, flanked by candelabra. Miss Loynda Jones of Petersburg and Miss Susan Peters of Wellington, cousins of the bride, lighted the candles. They wore formal gowns of orange peau de soie and lace.

The wedding music was presented by Mrs. Glenn Brock of Claremore, Okla., a cousin of the bride, who sang Because, Wedding Prayer and Whither Thou Goest. The wedding march was recorded by Mrs. Dan Henard Jr. of Wellington.

The bride's formal gown of white peau de soie and Chantilly lace was fashioned with a

fitted bodice with Sabrina neckline and long tapered sleeves. The bouffant skirt was layered with lace ruffles and her veil of illusion was secured by a tiara of seed pearls and crystals. She carried a bridal Bible topped with white roses and primroses.

Miss Patricia May of Amarillo was maid of honor and bridesmaids were Miss Beth Peters, sister of the bride, Miss Sherry Kendall, sister of the bridegroom and Mrs. Ronnie Ressel of Dickens.

Deep yellow peau de soie and lace made the formal gown of Miss May and that of Miss Jan-non Thomason of Wellington, who was the flower girl. Miss Peters' gown was Kelly green, Miss Kendall wore hot pink and royal blue made Mrs. Ressel's gown. Their headpieces were circlets with brief tulle veils and they carried a long stemmed white rose and a carnation matching their gowns.

Kyle Kendall of Weatherford served his brother as best man and groomsmen were Mike Hanes, Ralph Boyle, also of Weatherford, and Nelson Kendall of Hereford, cousin of the bridegroom.

Ushers were Freddy Peters, of Collinsville, Okla., brother of the bride, Billy Harkins of Weatherford, Tommy Farris of Amarillo and Mike Peters of Wellington.

Ring bearer was Greg Neeley of Wellington.

Guests were registered at the wedding by Mrs. Freddy Peters. Following the ceremony, Mr. and Mrs. Peters were hosts for a reception honoring the couple at the Farm Bureau Hospitality Room. Yellow was carried out in the table decoration and on the three-tiered wedding cake and appointments were silver and crystal.

Miss Kathy Kiker of Canyon and Miss Rhonda Cypert of Lorenzo presided at the bride's ta-

ble. Serving at the registry was Mrs. Dean Schickadanz of Amarillo.

Other members of the house party were Mrs. Jack Neeley and Mrs. Waymon Moody.

After a wedding trip to points in New Mexico and Colorado, the couple will be at home at the Heritage House in Amarillo.

The bride was graduated at Wellington High School and is a recent graduate of West Texas State School of Business.

The bridegroom was graduated from Hereford High school in 1963 and Southwestern State College School of Pharmacy at Weatherford in 1968 where he was affiliated with Phi Delta Chi Honor Fraternity. He is serving in the U. S. Air Force reserves in Clovis and is employed by Dee's Pharmacy in Amarillo.

Out-of-town guests were Mrs. Orville Scott, Collinsville, Okla. Mrs. John Nite and Pam, Pampa; Mrs. H. L. Jones, Mike and Scott, Petersburg; Mr. and Mrs. Dale Farris and Dean Schickadanz of Amarillo; Mr. and Mrs. John Carson Jr. and Mrs. Ralph Boyle of Weatherford; Ronnie

Gay, Amarillo, Mr. and Mrs. W. H. Patton, Miss Barbara Jolly, Mrs. B.E. Kendall, Mrs. H. E. Danforth, Mr. and Mrs. J.R. Kendall and Mr. and Mrs. J.B. Noland, all of Hereford; and Mrs. Irene Readnour of Gage, Okla.

The parents of the bridegroom were host for the rehearsal dinner held Friday evening at the Cherokee Inn.

The table decorations included an arrangement of yellow carnations centered with a miniature bride and groom. The couple exchanged gifts and presented gifts to their attendants. Attending were 26 members of the wedding party.

Blood in the Sputum

A SPECK of blood coughed up in the sputum always seems to strike a note of terror. When there is a little more blood coughed into a toilet basin the anxiety becomes even greater because it almost seems that a basinful of blood and not a tiny quantity was coughed up.

The fear that blood in the sputum necessarily means tuberculosis or cancer is not valid, for there are dozens of unimportant reasons for such small quantities of coughed up blood.

It must not be assumed that I suggest such a condition be disregarded. Rather do I mean that the cause be found by a medical examination instead of harboring the frightening thought that the blood is more meaningful.

Fear sometimes can keep patients away from the doctor's office, especially those who are afraid to come face to face with the truth and prefer the delaying tactics.

Blood can come from the back of the nose or throat, trickle down into the larynx and then be coughed up. The same can happen with tender bleeding gums. In these cases the blood does not originate in the lungs and is of no great importance.

I must point out that tuberculosis is not a disease to be ashamed of. It falsely was at the turn of the century because it was felt to occur only in underprivileged families. It can and does occur in every social and economic class and can be cured or controlled when caught early.

This age of the wonder

drugs has been responsible for the cure of a large percentage of cases of tuberculosis. The enthusiasm is great for this accomplishment, but let it not be forgotten that this disease is still a very active threat to the health of people all over this country and the world. Blood that is coughed up is an excellent warning of nature. It must not be overlooked.

The analysis of the contents of the stomach is a valuable tool for the doctor in seeking a diagnosis to account for a patient's complaints. The contents of the stomach are suctioned up through a thin rubber or polyethylene tube which is passed into the stomach through the mouth or nose.

The procedure is mildly unpleasant, but now can be eased by the local application of an anesthetic and by freezing the tube. The process, takes only a few minutes and should not be feared by those who are expecting to have it done.

The stomach contents are then studied for the amount of hydrochloric acid, the presence of blood or tissue cells.

Ulcers of the stomach, tumors and some anemias, like pernicious anemia, show changes of the acid content. Valuable information can come from such study.

SPEAKING OF YOUR HEALTH! Education is urgently needed to stem the modern epidemic of venereal disease.

Dr. Coleman welcomes letters from readers, and, while he cannot undertake to answer each one, he will use questions in his column whenever possible and when they are of general interest. Address your letters to Dr. Coleman in care of this newspaper.

READY, AIM, FIRE!

GLASGOW, Scotland — A fire was taken to Glasgow's Central Fire Station to be extinguished. Fire broke out on a heap of refuse in a cleaning wagon in the center of the city.

Quick as a flash driver Jimmy McBride (29), leapt into the cab and drove past gapping and shouting onlookers for nearly half a mile to the Fire Brigade headquarters.

With the horn blaring and the headlights blazing, the big refuse truck screeched to a halt.

Firemen had already been alerted, and rushed out with hoses at the ready to put out the blaze.

"I thought it would be quicker to drive the fire round to the fire station than to have them come to me," said Jimmy afterwards.

New directors for 1969-70 are Tom Burdett, Walter Bryan, Loyd Crume, R. L. Blakley and Larry Wartes. Carryover directors include James Boyd, Charles Duvall, Lowell Sharp and Gene Huntsinger.

Bobby Owen will be master of ceremonies for the event.

YOU BUY IN SEPTEMBER OR OCTOBER, WE PAY UP TO \$600 CASH.

Now is the time for cash... from Minneapolis-Moline®

Minneapolis-Moline's "You Buy! We Pay!" celebration has been extended through October 31. That means an extra month for you to cash in. Up to \$600 in cash on any new Minneapolis-Moline tractor or combine.

See your MM dealer. Make your best deal. Take delivery. Complete and mail the cash certificate your dealer will give you to Minneapolis-Moline by October 31. Your cash will be mailed directly to you.

The amount of cash is shown below. Ask your dealer today for details.

YOU BUY

Big capacity combines for grain, corn, and beans. Straight-through balance design for extra stability and traction. Models and sizes are—2890, 3496, 4296, 4293 or 4292.

WE PAY

Cash of \$500.

YOU BUY

The Jet Star 3 with 45 hp 206 cu. in. engine. Economical, utility size. But built to last: ideal for special chores and many jobs on the farm.

WE PAY

Cash of \$300.

YOU BUY

The U302, 55 hp 220 cu. in. engine. A work-horse. Great on economy and reliability. Low on repairs and maintenance.

WE PAY

Cash of \$300.

YOU BUY

The M670, 73 hp 336 cu. in. overhead valve engine. Big displacement teamed with lower engine rpm gives greater torque than comparable tractors.

WE PAY

Cash of \$400.

YOU BUY

The G900, 97 hp 451 cu. in. engine. Built for longer life. A heavy weight. Up to 1700 pounds more weight than any other tractor in its class.

WE PAY

Cash of \$500, \$600 on 4-wheel drive models.

YOU BUY

The G1000, 110 hp 504 cu. in. engine. Biggest engine in its class. Turns over at only 1800 rpm for less wear. A powerhouse.

WE PAY

Cash of \$500, \$600 on 4-wheel drive models.

Dr. Thomas Describes New Agriculture: "Fantastic"

LUBBOCK — The American agricultural industry has a fantastic story to tell its city friends and customers, says Texas Tech University Dean of Agricultural Sciences Gerald W. Thomas. And he tells a portion of it in

a newly published volume designed primarily as a textbook, but slanted, too, toward the consumer who too often blames the farmer and rancher for rising prices of food and fibers.

"Americans are spending less than 17 percent of their income after taxes for food compared with 31 percent for France and more than 50 percent for most of the people of the world," Dr. Thomas said.

"They're eating better than ever before and spending a smaller percentage of their disposable income for it, despite the pinch they feel when they pay for their groceries at the local supermarket," he said.

Another contributing factor to the bite, Dr. Thomas said, is that most families make their house, car, medical and major appliance payments and other installments "right off the top of their income by check, then complain when they have to dig down in their purse to pay cash for groceries."

Dr. Thomas' new volume is "Progress and Change in the Agricultural Industry." He calls it an "overview."

Consumer expenditures for food in the United States have dropped from 40 percent of disposable income in 1900 to 36 percent in 1947 and to the 1969 level of 17 percent.

"Housewives now have a choice of more than 8,000 items

on the shelves of our supermarkets — all packaged as quality products unheard of only a few decades ago," he said.

Dr. Thomas refutes another misconception that has clouded the agricultural picture.

"With the trend toward reduction in on-farm population, some people feel that agriculture is becoming less important in the world economy," he said.

"Actually, the reverse is true. Although fewer and fewer people are engaged in the production aspects of agriculture, the total industry is increasing in importance as the world-wide population explosion places greater demands on agriculture for good food.

The broader and more meaningful concept of the industry, referred to as "agribusiness," now includes three main segments: suppliers of machinery, fertilizers, seed and other production resources; producers on farms and ranches and managers of renewable natural resources, and processors and distributors of farm and ranch products.

"Workers in these three segments of the agricultural industry constitute more than one-third of our population," Dr. Thomas said.

"Agriculture is still America's number one industry generating more than 25 percent of our gross national product."

He cited an increasing interdependence among agriculture, petroleum, transportation and many other business enterprises.

The prime beneficiary of both basic and applied research in agriculture has been the consumer, he said.

"As new technology moves into practical application, and competition begins, the initial advantage to the farm innovator is passed on to the consuming public," Thomas said.

"It has been estimated that if farmers were using the same practices now that they were using as late as 1940, food and clothing today would cost the average consumer in excess of \$400 more per year."

Again documenting the case for the producer, Thomas said the farmer's dollar has been declining steadily. In 1947, the farmer received 51 percent of the retail cost of food. The share dropped to 38 percent in 1968. The remainder of the cost goes to the marketing sector — processing, packaging, transportation and associated services.

"The farmer receives only 34 cents for the cotton in a \$4.38 business shirt," Dr. Thomas says, "yet consumers are inclined to blame the high cost of shirts on the price the farmer receives for his staple. The farmer receives 3.7 cents for the wheat in a loaf of bread which retails for 22.2 cents, yet many urban purchasers believe that the price of bread is determined almost wholly on the price the farmer gets for his wheat at the elevator."

Looking into the future, Dr. Thomas' projections indicate that the costs of food and soft beverages, clothing and accessories, and alcohol and tobacco will take even smaller portions of income by the year 2,000. Bigger bites are likely to go for housing, transportation, passenger

er car purchases and operating expenses, personal and medical care and a category including recreation, travel, education and religion.

Pointing to the production sector of agribusiness, Thomas cited the following significant changes:

The number of farms in the U. S. has declined from an all-time high of 6.8 million in 1935

to less than 3 million today.

The average farm size has increased from 109 acres in 1935 to 377 acres today.

Nearly five million tractors have replaced 25 million horses and mules for farm work, thus releasing 72 million acres which would have been required to produce feed for the work animals.

One farm worker in the United States now supplies enough food for himself and more than 45 other persons — in 1920 he supplied enough for only eight.

Since 1910, average production per hour on farms has increased 700 percent, production per acre has increased 600 percent and production per breeding unit of livestock has increased 400 percent.

"Truly, progress in American agriculture has been one of the miracles of the past century," Thomas said.

The Tech dean predicts, almost without contradiction, that the agricultural industry will continue to provide challenging employment opportunities for scientists, technicians, farmers, ranchers and specialists with a wide variety of backgrounds and talent.

Meeting Housing Needs Outlined By Sen. Tower

Our nation is suffering from a severe housing shortage. In fact, it is one of the most formidable crises ever to face our nation. In order to adequately house all Americans, we must construct some 2,700,000 new housing units each year for the next ten years. In order to meet the housing demands of our country from now through this century, we must build a city the size of Amarillo and Lubbock combined every remaining week of the century.

We are presently falling far short of this goal. It is expected that during this year only about 1,400,000 new housing units will actually be constructed. This is only about half the number of new units we must build every year for the next decade if we are to meet the great demand for additional housing in our nation.

I believe Congress must provide federal legislation which will encourage and enable the administration to mold a policy which will provide the necessary incentive for the housing industry to re-double its current efforts. The industry has made significant strides in recent years and I am confident that private enterprise has the capa-

bility of meeting our nation's housing needs if we will only properly encourage it through an intelligent government policy.

The Department of Housing and Urban Development is now sponsoring "Operation Breakthrough" which I believe will greatly improve this nation's capability for meeting the severe housing shortage which faces us. In "Operation Breakthrough" the Department called upon the housing industry to step forward with new technology, techniques, materials and construction methods, including pre-assembled products, which would enable the construction of additional good quality units at a lower per unit cost.

The basic concept of "Operation Breakthrough" perceives a concentration of the market and volume purchasing power which will permit economies of scale and volume discounts to be passed on to the various communities and their respective housing authorities.

The housing industry has already responded with enthusiasm to "Operation Breakthrough." It has come forward with a variety of imaginative approaches of which most are quite

practical and should be utilized in our future federally-assisted public housing efforts.

The new technique most likely to enable us to provide low cost housing of acceptable quality for all Americans is mass production. An AFL-CIO representative testified before the Senate Housing subcommittee earlier this year that volume production must be utilized in order to enable any sizeable increase in the construction of new housing units.

I fully agree with that view and Secretary Romney has informed me that he also agrees.

It is my feeling that we can simultaneously obtain the objectives of lower cost and improved quality in federally-assisted housing by the development and utilization of new housing technology.

This past week the Housing Act of 1969 was approved by the Senate. As ranking Republican of the Housing Subcommittee, I sponsored an amendment to that legislation to add language directing the Secretary of Housing and Urban Development to assure that the new technology, techniques, materials and construction methods now available within the hous-

ing industry will be utilized in federally-assisted public housing projects in the future. My amendment was agreed to by my colleagues in the Senate and it is now a part of the legislation. After Senate passage, the bill went to the House of Representatives for consideration by that body.

Secretary Romney set forth the possible roadblocks to utilization of new technology in a letter he wrote me recently. In it he said, and I quote, "Any limitations placed on our ability to utilize advanced technology to produce more housing — whether imposed by zoning,

NO HORSEPLAY
CHICAGO — Horseplay in an industrial plant can create problems that eventually may land on a labor arbitrator's desk.

Commerce Clearing House said when a worker pulls a stunt that could have or did seriously hurt somebody, a discharge can be upheld.

The degree of discipline tolerated by arbitrators is directly proportionate to the type of conduct involved and the employee's past record.

One employe lost his job when he performed a variation of the "hot foot" gag — he put lighted cigarettes in his victim's back pockets.

His dismissal was upheld because the hot pocket victim worked with dangerous machinery and sometimes in a paint spray booth.

building codes, or labor practices — keeps us from producing the housing this country urgently needs."

As I see it, we are on the threshold. We can continue to fail in the attainment of our housing goals and we can continue to procrastinate in taking the necessary steps to assure adequate housing at low cost for all Americans. Or, we can require the utilization of new housing technology to achieve our goals.

I believe the nation has reached a time when it must decide whether it will provide an opportunity for all Americans to obtain housing of good quality. I believe we must provide that opportunity, but we will be unable to succeed without full uti-

lization of the new technology which is being developed by the housing industry.

I wanted to guard against any future possibility that for some reason the new technology now available might not be put to use.

I feel that new technology and mass-produced housing are the answers to many of our housing problems. That is why I felt so strongly about the need for my amendment, and that is why I am now so pleased that it has been incorporated into the housing legislation which is now proceeding through the Congress.

We must try to achieve our housing goals for all Americans.
Sen. John Tower.

REC INDUSTRIAL RELATIONS — R. G. (Dick) Montgomery, shown here with his wife Patricia and their two sons, Mauri and Jay, recently began duties as Director of Industrial Relations for Deaf Smith County Rural Electric Cooperative here. Montgomery, who will be calling on and servicing commercial and industrial consumers for REC, was previously

associated with Farmland Industries in Amarillo and engaged in the marketing of petroleum products and public relations work. He has also worked as a wire-line service engineer and is a veteran of the Korean War. Natives of Altus, Okla., he and his wife both attended Oklahoma State University. The Montgomerys reside at 137 Mimosa in Hereford.

CROP Fighting Food Shortage

New York — Nearly a half-million pounds of CROP foods are starving of starvation in an isolated Sudanese refugee camp in the Central African Republic, according to Jan S. F. Van Hoogstraten, Church World Service Africa Director.

"There are UN and CROP food supplies in the C.A.R., but these are located in Bangui, 1,000 kilometers from the M'Boki settlement, where 17,500 refugees from southern Sudan are attempting to carve out a new existence and where actual famine conditions have been reported," Mr. Van Hoogstraten said. "The rainy season has brought excessive rains, and primitive roads are impassible with many of the 120 wooden bridges washed out."

"Most of the food now being distributed to the refugees is CROP food still warehoused at M'Boki," the CWS spokesman declared. "The International Committee of the Red Cross is attempting to arrange for a limited airlift, which is the only way more food can immediately be brought into the area and pre-

vent further starvation."

The Sudanese refugees first arrived in the Central African Republic in 1964, and the United Nations initiated an emergency relief program the following year. The C.A.R. government provided land for homesteading by the refugees. The large-scale rehabilitation program was to have been phased out earlier this year. Church World Service in consultation and cooperation with the World Council of Churches and with Roman Catholic organizations agreed to take over for the League of Red Cross Societies and the United Nations High Commissioner for Refugees in assisting the integration of refugees in the area where local population equals the total number of refugees. Late planting, poor harvest, and logistical difficulties produced the current food crisis.

Beginning last December, CROP shipped 457,000 pounds of food and seed, valued at \$130,000, to M'Boki. Those shipments included large amounts of rolled oats, non-fat dry milk, and shelled corn. CROP shipments now en route to the C.A.R. total 108,000 pounds, valued at \$50,000, and include 55,000 pounds of beans. CROP is currently readying a shipment of 17,825 pounds of a high protein be-

Social Security

Have you a question about social security? Address it to: Travis C. Briggs, District Manager, Social Security Administration, 1006 Adams Street, Amarillo, Texas. You will receive an answer in this column "of" by mail.

By TRAVIS C. BRIGGS
Q. I have lost my Medicare card. What do I have to do to get another one?

A. Simply request this through your social security office. If you write, please give your name and address and your Medicare claim number, if available.

Q. I received a bill for over \$400 from my mother's doctor for services before her death. I filled a claim with Medicare, but they say they cannot pay until the bill is paid. I thought Medicare would reimburse on the basis of an itemized bill even if it is unpaid?

A. This is true if payment

verage for the area. CROP is the community hunger appeal of Church World Service.

quite successful in the insurance business and eventually became an officer with the Southland company, resigning to return to Hereford where he started.

Also involved in the firm are Marvin Coffey, Charles Cabbiness and now Don Baugous.

A lady out on Mimosa Street, who prefers to remain anonymous, has called to the office for a little help in asking the people to please not drop their sick animals in that part of town. Apparently some folks in Hereford have been carrying off stray dogs and cats and dropping them at the outer edge of the city and of course, Mimosa Street is the first one they hit on the way back in. "Many of these animals are sick," the lady said, "and only yesterday I had to take a little stray kitten away from one of my youngsters. The cat had ringworm." She said that there were about 40 youngsters on the street, many of them to young to realize that they should not pick up stray animals.

Our congratulations to the Hereford Whitefaces for a fine game Friday night. We're all proud of you.

And according to the Jackson (Miss). Clarion-Ledger, a gentleman farmer is a fellow who has more hay in the bank than in the barn.

can be made to the Medicare patient. Where a claim is filed by the estate or next of kin after the death of the patient, payment can be made only if the bill has been paid. However, payment can be made to the doctor if he accepts an assignment.

Q. Several months ago I applied for Medicare. I have now received a notice of award advising me of the amount of my benefit when I retire. I did not want to apply for benefits at this time since I have high

earnings and want them included in the future computation. What can I do about this?

A. There is nothing you need to do now. Your benefit will be automatically refigured each year to give credit for your additional earnings.

WATCH OUT for this guy!

By MELVIN YOUNG

Robinson & Associates, a local insurance firm originally founded by J. W. Robinson Jr., this week announced the purchase of one of Hereford's oldest insurance firms, Hereford Insurance Agency, and the Deaf Smith County Abstract Company as well. Don Baugous, who has been managing both Hereford Insurance and the abstract company will remain with Robinson as a partner in the firm and will manage the abstract end of the business. Deaf Smith County Abstract will remain in its present location for the time being, with plans to move it to another building in the near future. All insurance files and equipment have been moved to the Robinson & Associates office at 218 W. Third Street.

J. W. Robinson started selling life insurance here in 1949 with Southland Life, and in the early '50s, he and Bill Decker founded the general insurance agency that he now heads. He still handles life insurance with Southland, and has since talked Herman Ford into coming back and joining the firm. Herman was a school teacher here many years ago before he quit to go into the insurance business. He was

Gattis SHOES OF HEREFORD

Mavericks, Dogies Collect Victories

Winning has already gotten to be a habit for the Stanton Dogies and La Plata Mavericks as they both collected their second straight wins of the season last Thursday. Stanton ripped Dimmitt 36-6 while La Plata crushed the Canyon Purple team, 24-

7. Stanton, led by quarterback Keith Kitchens, got on the scoreboard in the initial stanza when Kitchens, after the team had driven to the Dimmitt three, plunged over. The pass for the extra points was good from Kitchens to Terry Scott and the Dogies led 8-0.

On their next possession, Kitchens went to the air again and found Wesley High on the receiving end of a 45 yard pass which wound up in the end zone for a score. The try for the extra point failed and the Dogies led 14-0 at the end of the first quarter.

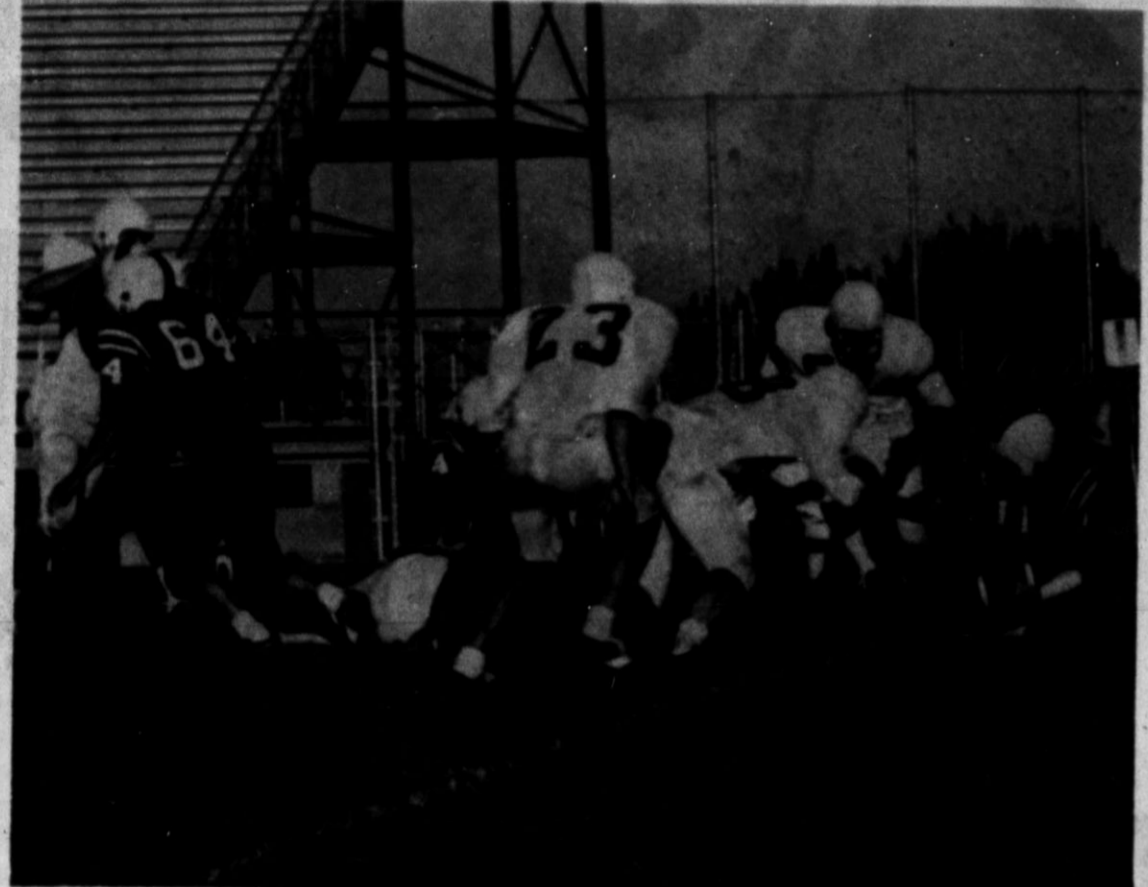

In the second period, Scott again latched on to one of Kitchens' passes and scampered 70 yards for the TD. The point attempt went amuck, making the score 20-0 for the Dogies.

Dogie Ray Ramirez provided the final score of the first half for the visiting Dogies as he intercepted a pass and returned it 35 yards for the touchdown and a 28-0 halftime lead.

The scoring was halted in the third period, but in the final stanza, Stanton scored again as Kitchens went over from 10 yards out on a dive play. Robert Lee ran for the extra points on a reverse to end the scoring for the Dogies.

Dimmitt got on the scoreboard in the final minutes of play as they drove downfield to score against the Dogie second team. Their try for the extra point failed and the Dogies wrapped it up, 36-6.

The La Plata Mavericks wasted little time in whipping the visiting Canyon Purple team as they went ahead on a four yard run by Danny Harris. Larry McNutt added another TD in the last half on a 47 yard carry while in the waning minutes, Harris added two more scores on an 80 yard run and the other a ten yarder.

NOT THEIR DAY — Quarterbacks found going a little rough on both teams last Thursday when the Canyon Purple and La Plata Maverick ninth grades met for battle. Shown in the top photo is Maverick field general Walter Olson about to be swamped by several Canyon players after a miscue in the backfield. In the bottom picture is the Canyon quarterback getting off a hurried pass as several La Plata defenders put the rush on. —Staff Photos

Maverick coaches pointed out the outstanding kicking game of Walter Olson and the defense. They also pointed out the punt

ROTC Record Is Set At WT

CANYON, Tex. — Junior students turned out in record numbers this fall to enroll in military science courses at West Texas State University.

Seventy-seven juniors signed up for the advanced Reserve Officers Training Corps program, according to Lieutenant Colonel Billy R. Smith, professor of military science.

Lieutenant Colonel Smith was pleased with enrollment figures for the fall term in military science. More than 400 students are taking ROTC courses at the university, despite an announcement by President Nixon on the first day of registration at WT that changes in the Selective Service System are in the mill.

And, the President's announcement apparently has some effect on enrollment in military science, according to Lieutenant Colonel Smith.

Fewer freshman students enrolled in ROTC this year compared to last fall. The colonel attributes at least part of that drop to the President's announcement.

"I feel that the headlines in last week's paper had some effect on our freshman enrollment," he said. "But, I think it had no effect on the more mature student who has seen the ups and downs of the draft before."

The colonel said he is "confident that the Panhandle will continue furnishing us with fine officer material."

The military science department at WTSU is in its fourth year as an elective course. Prior to that time, it was mandatory for freshman and sophomore students.

Local Boys To Receive Degree

Fifty outstanding FFA members from Texas have been selected to receive the highest award given by the Future Farmers of America Organization — The American Farmer Degree.

Included in this list is Bill Fowler of Wildorado, who is a former member of the Hereford chapter of the FFA, and William Browning, Jr. of Vega.

Future Farmers of America is a national organization of members studying vocational agriculture in public secondary schools throughout the nation. Students become members on entering high school and may retain their membership until they are 21 years of age or three years after graduation. The American Farmers come from the older group, and only one out of each 1,000 members can receive the degree if qualified.

Members will be awarded the degree at the Wednesday afternoon Oct. 16 session of the 51st Annual Convention in Kansas City, Missouri.

OBVIOUSLY DRUNK

BUDAPEST — An intoxicated Hungarian sleeping it off on the boards of the railway tracks between the stations of Veszollos and Tatabanya, did not notice that the Hegyeshalom express passed over him. The train made an emergency stop and the man was handed over to police.

He woke up at the police station hours later with a headache but unscratched.

CAMP FIRE GIRLS CEREMONIAL — Set for Monday evening at the Camp Fire Hut is a Camp Fire Girls Ceremonial. The teepee in the picture was made by the Senior Horizon Club Girls at Camp Summer Life this summer to be used at the ceremonial.

Activities included in the event will be Indian songs, dances, a drama on Hiawatha, and chants by the girls. Pictured above are two of the girls to present the drama on Hiawatha; Laurie Allen, left, and Shyla Thomas, right. —Staff Photo

Avenue Baptist Intermediates Meeting Held

The Avenue Baptist Intermediate Girls' Auxiliary held a meeting Wednesday, September 24, at the church.

Each week two girls present a skit and dish for a previously chosen country; This week the skits and dishes were given on England and Mexico. Next week will be France and Italy.

The Intermediate and Junior Girl's Auxiliary extend a warm invitation to all girls ages 8 through 15. The Juniors range in ages 8 through 11; the intermediates range in ages 12 through 15. Leader for the intermediates is Charlotte Wilburn.

The United States Ski Association, with headquarters in Denver, says 1968-69 membership has reached 109,000, a record for the organization.

Cultural Club Sets Committee

Appointed on a nominating committee by Mrs. Paul Corbett, president, were Mrs. M. W. Sumner, Mrs. D. C. Allmon and Mrs. George Parker, at a Friday meeting of the Cultural Home Demonstration Club held Friday in the home of Mrs. J. G. Gandy.

Mrs. Argen Draper presented a program on clothing hints and choosing jewelry to compliment the hair coloring.

Committee and council reports were given and the announcement was made of two cancellations to be sponsored by North Hereford H. D. Club at 2:30 p. m., Thursday at the Community Center.

Others attending were Mmes. P. M. Houser, J. D. Love, Grady Parson, Roy Thompson and Thurman Deas.

Utah State's football team has 27 lettermen, 19 of them seniors.

ESTATE AUCTION Tuesday Night (Oct. 7) 7:30 P.M.

Location: 5 Miles South of Hereford, Texas on U.S. 385 (Watch for Sale Sign)

4-H Clothing Girls In Revue

DALLAS — Top Texas 4-H clothing girls will vie here this week (Oct. 3) for annual State 4-H Dress Revue honors.

Forty-four teenage seamstresses will model their outfits as one highlight of the State Fair of Texas.

Judging will be at the Sheraton-Dallas Hotel Friday preceding a press luncheon to announce the winners. All contestants will be presented in two public fashion shows at the Women's Building Auditorium at Fair Park, 10 and 11 a. m. Saturday.

Miss Linda Gaylor, group fashion advisor for J. C. Penney Company, Inc., will commentate the show.

The champion wins a trip to National 4-H Club Congress in Chicago in November. An alternate winner also will be selected. Highest-ranking winners in all-cotton and all-wool divisions will receive cash awards.

Finalists in the 4-H clothing activity represent about 17,000 Texas 4-H girls enrolled in clothing work this year, says Dr. Graham Hard, revue chairman and Extension clothing specialist at Texas A&M University.

TAX MAN SAM SEZ:

Most folks work for a salary and have their income tax withheld. It's awful easy to forget to include that extra income that you receive from your saving account, dividend on your stock, \$15 for helping Joe Jones, and similar items.

It saves a lot of embarrassment, delayed refunds, and problems with your income tax. In general, if you keep a simple record of all such income throughout the year.

In this way you don't forget to report all of your income and you don't get a letter from Internal Revenue's computer telling you that you forgot to include your dividends from your South African gold mining stock.

Keeping your receipts and a record of your deductions as well as your income also pays off in tax reduction dollars.

First baseman Ernie Banks of the Chicago Cubs never played in the minor leagues. He played 10 games at shortstop as a Cub rookie in 1953.

John Bateman, catcher for the Montreal Expos, is a native of Killeen, Tex., home of Orville Moody, 1969 U. S. Open golf champion.

Camp Fire Girls To Host Ceremonial Fire

A teepee, made by the Senior Horizon Club Girls at Camp Summer Life near Taos, New Mexico, will be used Monday night in the Camp Fire Girls Ceremonial Fire.

The teepee was constructed with symbols of rain clouds, a thunderbird, the sun, Camp Fire Girls' crossed logs and a flame surrounded by the symbol of red and blue triangles symbolizing the camp fire girls group.

Also included at the ceremonial will be a drama done on Hiawatha with choral reading and creative movements. These

activities were participated in at Camp and are being repeated here.

The girls will do Indian dances, sing Indian songs and chants, and use the traditional Camp Fire processional and recessional. According to leaders, the ceremonial will be as traditional Indian style as possible including a circle with the council fire in the center.

Chiefs presiding will be the Senior Horizon Club Girls. Those attending camp this past summer were Cindy Lea, Shirley Turner, Camille Langley, and Prissy Crume.

Gas Industry To Discuss Housing

DENVER. — The nation's housing shortage and other critical urban problems will get priority attention from the natural gas industry here next month.

The American Gas Association's 51st annual convention on October 19-22 will hear government and industry leaders propose far-reaching solutions and suggest cooperative local action by utilities.

The Federal government will be represented by Under Secretary Richard C. Van Dusen of the Department of Housing and Urban Development. He will share a morning-long session October 21 with Ray A. Watt, Los Angeles, president of the National Corporation for Housing Partnerships, and Eli Goldston, Boston, president of Eastern Gas and Fuel Associates.

Van Dusen, 44-year-old Detroit lawyer, is a top aide to HUD Secretary George Romney. Watt, one of the nation's leading homebuilders, is a pioneer in construction of low-cost housing, and Mr. Goldston has won acclaim for spearheading his company's leadership in revitalizing blighted areas of Boston.

Benefits of the nation's space program, natural gas developments in Alaska, progress in gas industry research, marketing innovations, consumer affairs, and the impact of high interest rates are among other topics before the national trade association of gas utility and pipeline companies. Attendance of more than 2,500 from the U. S., Canada and Europe is expected.

The industry's future will be dramatically emphasized in the "Home for Tomorrow" exhibit featuring working demonstrations of feasible major advances in consumer convenience, comfort and well-being through applications of gas. The exhibit is a cooperative development of A. G. A. and the Institute of Gas Technology, Chicago.

This Space Age home will be displayed throughout the convention in the Denver Hilton lobby and will be the focal point of an October 20 luncheon meeting on "Marketing Innovations for the 70s." The luncheon, sponsored by the A. G. A. Industrial, Commercial and Residential Sections, will be keyed by Dr. Robert B. Rosenberg, Institute of Gas Technology, and Dr. Robert Wald, George Frye Associates, Los Angeles.

In a related presentation earlier that day, Robert W. Stewart, A. G. A. director of research and engineering, will assess current research projects and specify targets for the next decade. In the same General Session, environmental studies will be discussed by Dr. Walter Orr Roberts, Boulder, Colo. president of the University Corporation for Atmospheric Research.

W. Morton Jacobs, completing his one-year term as A. G. A. president, will preview the 70s in the gas industry at the October 22 General Session. Jacobs, 22 General Session, Mr. Jacobs, also president of Southern California Gas Co., Los Angeles, will share the final session with Edward B. Lindaman, North American Rockwell Corporation, on the significance of space exploration, and Henry Schachte, of J. Walter Thompson, New York advertising agency, on consumer affairs.

Alaska's Commissioner of Natural Resources, 37-year-old Thomas E. Kelly who was born in California and graduated from Texas A. & M. University, will discuss natural gas in his state.

Kelly, who presided at the recent bidding for petroleum tracts in Alaska, will speak at

an Operating Section meeting the afternoon of October 21. On the same program, William E. Scott, vice president of Irving Trust Co., New York will speak on the impact of high interest rates on a utility's operating department.

In a concurrent meeting, the Accounting Section will present speakers from two accounting firms — John F. Utley, partner-in-charge of the Public Utilities Department, Haskins and Sells, New York, and Cary B. Lewis, Jr., who heads his own Chicago firm in addition to being an attorney and college professor.

Earlier that day, Dr. Orlo E. Childs, president of Colorado School of Mines, Golden, will discuss common objectives of industry and education at the General Management Section luncheon meeting.

A Home Service Roundtable at 3 p. m. October 20, will feature Mrs. Frances Shaver, food editor of Seventeen Magazine, and the first showing of a film on "Discovering Canadian Cuisine." The annual Home Service breakfast is scheduled for 8 a. m. October 21.

Slated to succeed Jacobs as A. G. A. president is John W. Heiney, president of Indiana Gas Co., Indianapolis. Other nominees to be presented for election October 22 include G. J. Tankersley, president of The East Ohio Gas Co., Cleveland, for first vice president; Ralph T. McElvenny, president of Michigan Consolidated Gas Co., Detroit, for second vice president; and Herbert C. Johnson, president of Consolidated Natural Gas Co., New York, for treasurer.

Also to be elected are 16 directors, as well as chairmen and vice chairmen of each of A. G. A.'s five sections.

The 1970 A. G. A. convention will be held October 11-14 in New Orleans. The subsequent schedule lists Boston, 1971; Cincinnati, 1972; San Francisco, 1973; and Atlantic City, 1974, all in October.

ON DEFENSE
FARIDABAD, India — A delegate from Kerala state told the national convention of the ruling Congress party that Prime Minister Indira Gandhi's cabinet consisted solely of defense ministers because they all made defensive speeches.

GUILD OFFICERS INSTALLED — St. Anthony's Guild officers were installed Thursday evening by Mrs. Paul Zinser. J. Lueb, secretary; Mrs. Leander Reinart, treasurer; and Mrs. E. N. Hoffman, reporter. Not present were Mrs. W. J. Schumacher, vice-president, and Father Aedan Davis, club moderator for the coming year. — Staff Photo

Thirsty Citizens \$807,000 Is Spent Locally For Pop

(Special to the Brand)
NEW YORK, Sept. 28 — The bubble, sparkle and fizz business is setting new records in Deaf Smith County.

The amount of soda pop being consumed is at an all-time high. So is the amount of money being spent in that direction.

According to the latest figures, it is estimated that local residents are drinking such beverages at the rate of 366 eight-ounce bottles a year per person.

In the past year it added up to a total of 7,613,000 bottles for the local population as a whole. And this was exclusive of bulk drinks sold at soda fountains and lunchrooms.

By way of comparison, it was considerably more than was downed in the area ten years ago. The total at that time was 2,795,000 bottles.

The increase, a hefty 172 percent, was greater than in many sections of the country. In the United States the rise was 105 percent and, in the state of Texas, 106 percent.

The figures for the local area were developed from data re-

leased by the Department of Commerce and by the soft drink industry. They show the rate of consumption nationally and in each regional area.

The reports reveal that soda pop consumption varies along geographic lines. People living in the southern part of the country, where temperatures are generally higher year-round drink much more, on average, than those in the north.

In the matter of flavor, too, regional preferences are quite marked. In the northeast, cola-type beverages represent about 40 percent of the demand, with ginger ale, root beer, citrus drinks and the like making up the remainder.

In the south, by way of contrast, some 70 percent of the calls are for cola drinks.

An idea of the amount of money that goes for soda pop in Deaf Smith County is indicated by the figures. They show that local residents spent an estimated \$807,000 for such beverages in the past year. Ten years ago it was \$224,000.

Nationally, the outlay for the 66 billion bottles of pop con-

sumed in the past year came to a cool \$7 billion. Teenagers and those in their early 20's were the biggest users.

Second baseman Glenn Beckert of the Chicago Cubs hit .394 last season, his highest average in seven years of organized baseball.

St. Anthony's Guild Officers Installation Held Thursday Night

Approximately thirty-eight members and guests were present for the Saint Anthony's Guild Installation of Officers which took place Thursday evening at the auditorium beginning with a salad supper at 8:00.

Following the supper a program was presented to members and guests by the Fellowship Gospel Singers.

Pastor and Guild Moderator, Father Simeon Heine, spoke to the group concerning Christian Unity. Moderator for the coming year will be Father Aedan Davis.

Mrs. Paul Zinser installed the new Guild officers for the coming term with Mrs. Elmer Reinart, club president for the past two years, presiding.

Incoming officers are Mrs. Bill Gilleland, president; Mrs. W. J. Schumacher, vice-president; Mrs. W. J. Lueb, secretary; Mrs. Leander Reinart, treasurer; Mrs. Ed Loerwald, parliamentarian; and Mrs. E. N. Hoffman, reporter.

Outgoing and incoming officers were presented beautiful corsages, made by Mrs. Herbert Friemel, a member.

This is college football's centennial year.

Page Twenty-Three
Guests present at the meeting were Mr. Bill Gilleland and daughter Nina; Mrs. Leroy Williamson; and Mrs. Paul Zinser. Hostesses for the evening were Mrs. Buster Miller, Herbert Friemel, Leo Witkowski, and Hilda Straufuss. The next meeting has been scheduled for October 23.

Texas-Oklahoma Feedlots Studied

COLLEGE STATION —Large commercial cattle feeding operations with 10,000-head or more capacity enjoyed a cost advantage over smaller feedlots in Texas and Oklahoma during 1966-67, especially those with less than 1,000-head capacity. A research report, "Costs and Economics of Size in Texas-Oklahoma Cattle Feedlot Operations," Bulletin 1083, just released by Texas A&M University in cooperation with the U. S. Department of Agriculture, points out this and other facts regarding feedlot operations.

Dr. Raymond A. Dietrich, assistant professor, Department of Agricultural Economics and Sociology, said the recent upsurge of cattle feeding within the Southern Plains (Texas and Oklahoma) has raised numerous questions concerning economies of size in feedlot operations, the effect of location on feeding costs within the Southern Plains and the effect of the various cost components on cattle feeding operations. Accordingly, a study was designed to analyze these questions. It represents the second phase of a comprehensive economic analysis of cattle feeding within the Southern Plains. An earlier study provided a detailed analysis of management practices and cattle feeding systems in Texas and Oklahoma.

The study shows that feedlot investments in fixed facilities varied by size of feedlot and feeding area. Total capital investments in equipment and facilities averaged about \$35 per head of capacity. The two largest items of capital investments, which accounted for more than one-half of the total fixed investments, were pens plus associated equipment and milking equipment.

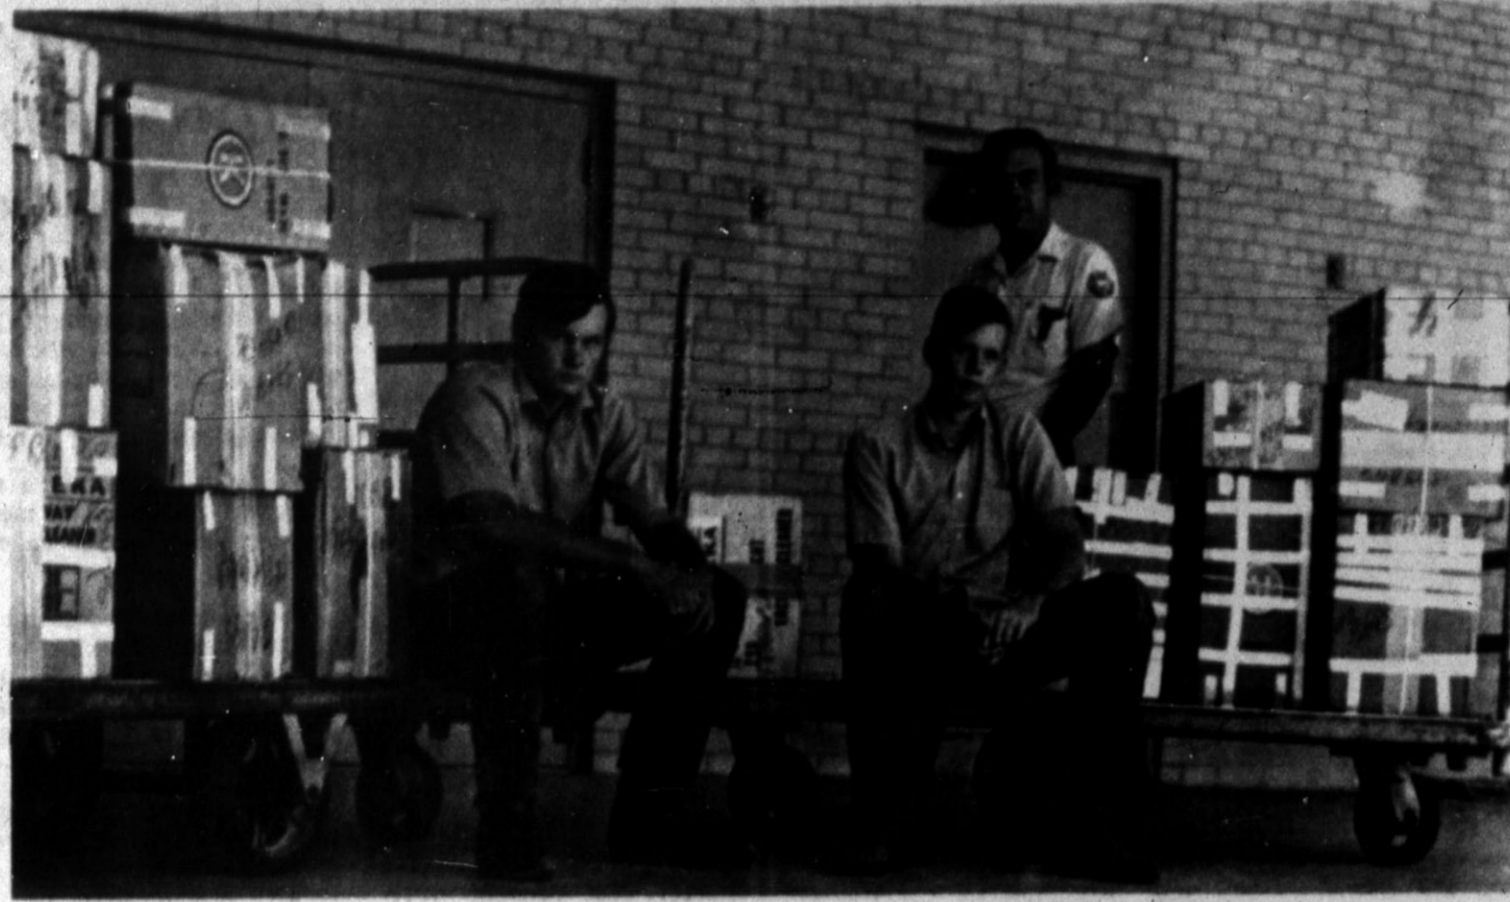

Dietrich stated that variable or operating costs accounted for 95 percent of the total feeding costs in the Southern Plains during 1966-67. Annual fixed costs made up the remaining 5 percent. Feed, which accounted for more than 80

percent of the total variable costs, was the most important variable cost item. Variable labor costs and interest on feeder cattle accounted for about one-half of the remaining variable costs. Depreciation costs and fixed labor represented about 60 percent of the total annual fixed costs.

Feedlots with a one-time feeding capacity of 1,000 head experienced total annual fixed costs equivalent to about 2.4 cents per pound of gain as compared to 1.4 cents per pound of gain for feedlots with 10,000-head capacity. One of the major contributors to lower annual fixed costs per pound of gain in the larger feedlots was the level of feedlot utilization rates. Feed with 10,000-head and over capacity generally exhibited utilization rates above 75 percent as compared to utilization rates of 50 percent and lower for feedlots with less than 1,000-head capacity. However, the competitive advantage due to size declined when feedlot utilization rates were held constant at consecutively higher levels.

Based on 1966-67 grain sorghum production and various assumptions regarding feed use, grain sorghum available for feeding in Texas during 1966-67 was estimated to be sufficient for finishing approximately 5 million head of cattle or about triple the number of fed cattle marketed during that period. In addition, feeding cost differentials between feeding areas and available sources of nearby feed supplies suggest that cattle feeding will continue to be concentrated most heavily in the Texas and Oklahoma Panhandle areas.

The study suggests that increased emphasis will be placed on a high degree of feedlot utilization rates as feedlots increase in size and are faced with increasingly larger capital investments in fixed facilities. The proportion of cattle fed on a custom basis will probably increase above 1966-67 levels when almost 60 percent of the cattle were fed on a custom basis in

RED CROSS DITTY BAGS — Seventeen cartons containing 259 Red Cross ditty bags slated for Vietnam were shipped out from the Hereford Post Office Friday afternoon, as a culmination of Operation Shop Early. Post office people cooperated with the kids when they couldn't make delivery until after school. Shown here are Steve Loveall,

vice president of HHS Red Cross Council; Robert Holland who volunteered his pickup truck for delivery, and Tex Rhodes of the post office. ARC chairman W. B. Dowell has expressed his appreciation to all club and individuals who have made the ditty bag project possible here. —Staff Photo By Jerry Odom

FLY FIGHT
SALISBURY, Rhodesia — Rhodesia is winning its fight against the tsetse fly, Agriculture Minister David Smith told an international conference here.

"We can now look forward with confidence to the time when tsetse flies between the Sabi and Limpopo Rivers and the Indian Ocean will be finally eliminated and the land freed for maximum agricultural development," he said.

The tsetse fly, bearer of tripanosomiasis (sleeping sickness), is still one of the major scourges of man and beast in Central Africa.

HAVE YOU EVER WONDERED JUST HOW LONG A WIG WILL LAST?

If well cared for, it should last indefinitely. Actually, hair does not deteriorate. A wig is not hot; its foundation is icy, which permits air to circulate. Most of the prospective wig purchasers are concerned about harming their regular hair. It will not harm your hair at all. Actually, wearing a wig could cause regular hair to become healthier. The hair that has been damaged by

teasing, coloring, and bad permanents is eliminated. Never shampoo your wig. Always have our experts to clean it for you. This should be done every four to five weeks depending on how frequently worn. Wigs can be color rinsed or made darker. This also should be done professionally. You can use a very light wig spray on your wig, obtainable at our shop!

IN THE MISTY MOUNTAINS—THE PHANTOM TAKES THE FLOWERS—THERE IS SUDDEN LAUGHTER—

THANK YOU.

YOU SAVED US FROM THE BEAR, YOU ARE OUR FRIEND.

THANK YOU.

ALL WE HAVE IS YOURS.

FACTS CHANGE WITH DISTANCE. ARE THESE THE "SAVAGES" OF THE MISTY MOUNTAINS?

FRIENDLY HERDSMEN—NOMADS WITH THEIR FLOCKS OF GOATS.

BY BARRY 9/28

I SEARCH FOR A MAN AND WOMAN WHO CAME FROM THE SKY IN A ROARING MAN-BIRD.

WE SAW SUCH A MAN-BIRD—HE FLEW OVER US—

IT FLEW UP THERE IN THE HIGH LAND TO DO BATTLE WITH THE MONSTER.

MONSTER?

THE HIGH LAND OF THE GREAT BEAST!

THE KILLER OF BEARS AND GOATS AND PEOPLE!

WHAT KIND OF BEAST?

A GREAT HAIRY BEAST!

DO NOT GO, FRIEND.

I MUST FIND THE PEOPLE.

IF TRIPPER STUDIED MORE AND DEMONSTRATED LESS, HE'D GET BETTER MARKS IN SCHOOL!

I'M GOING TO HAVE A TALK WITH THAT YOUNG MAN!

DON'T BOTHER! I'LL TALK TO HIM!

A SIT-IN? MAN, THAT'S MY THING! LIKE I'LL MAKE THE SCENE!

WE'RE GOING TO HAVE A SIT-IN IN THE DEAN'S OFFICE, DADDY-O!

OH, NO, YOU'RE NOT!

LOOK AT THIS REPORT CARD! YOU'RE GOING TO HAVE A SIT-IN RIGHT HERE!

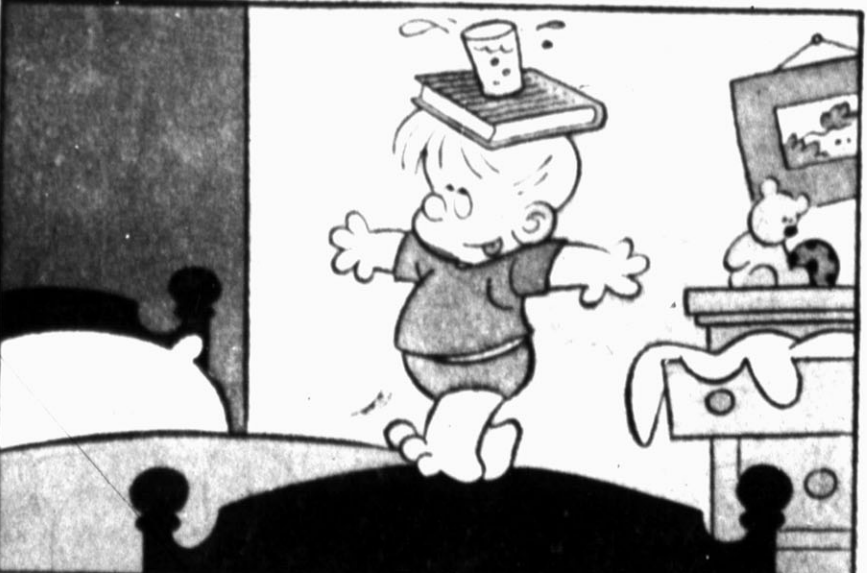

MAN, THIS IS ENDSVILLE! LIKE A CAT NEEDS SOME SHUT-EYE!

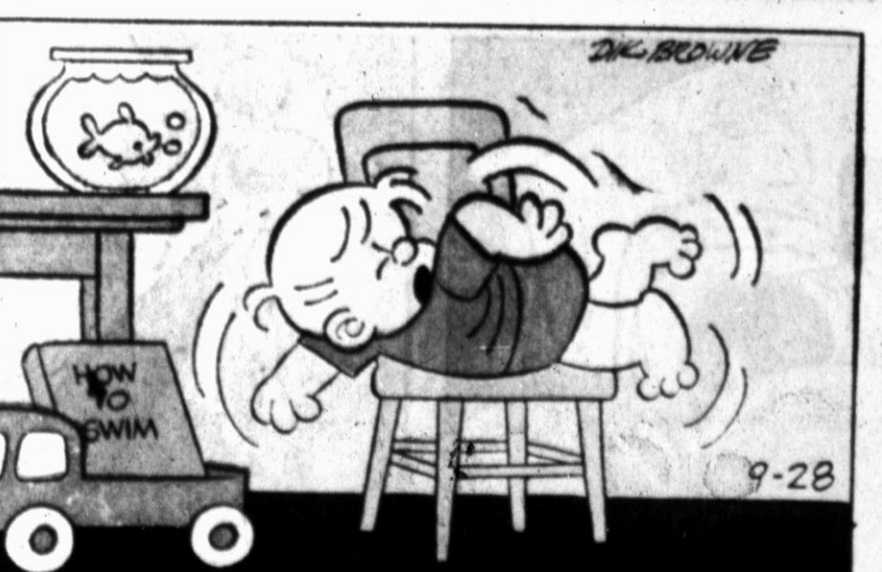

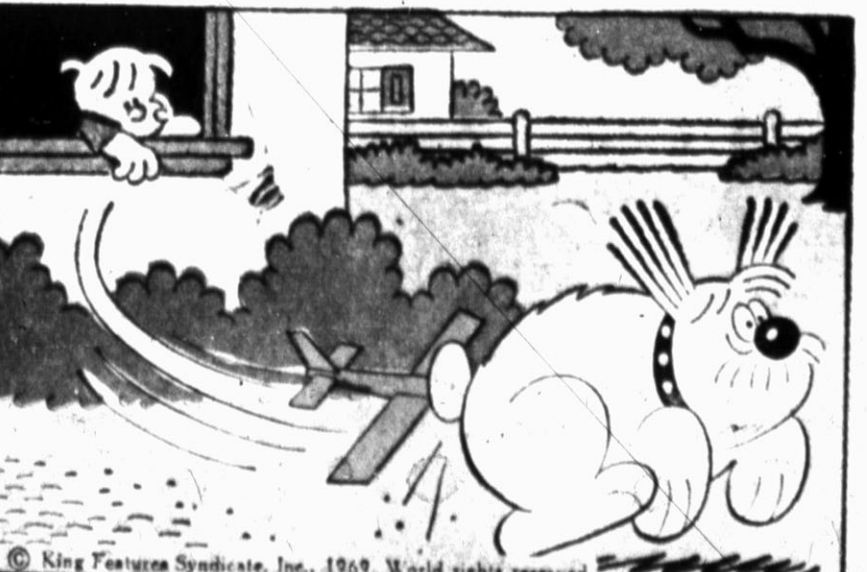

KEEP STUDYING, CAT!

HMMM

Dear Mom and Dad,
How are you?
I am fine.

IT'S THE SAME PROBLEM EVERY WEEK. I GET THIS FAR AND RUN OUT OF INFORMATION

WRITING YOUR WEEKLY LETTER HOME, BEETLE?

YEAH... IT SURE IS HARD FOR ME TO THINK OF THINGS TO SAY

TELL YOUR FOLKS ABOUT THE THREE-ALARM NIGHT CLUB FIRE WE SAW IN HURLEYBURG

AND THE TWO-HEADED TREE TOAD I FOUND ON BIVOUAC

HOW ABOUT MENTIONING SARGE'S NEW TATTOO?

GEN. HALFTRACK FINALLY BROKE A HUNDRED

ROCKY BOUGHT A NEW GUITAR

SARGE WON THE PIZZA-EATING CONTEST

LT. FUZZ HAS THE MUMPS

COL. GREENBRASS GOT A TOUPEE

OTTO BIT THE MAILMAN

GEE, THANKS! YOU GUYS HAVE GIVEN ME LOTS TO WRITE HOME ABOUT!

MORT WALKER

BEETLE SAW A THREE-ALARM FIRE? WHAT ELSE DOES HE SAY?

"MORE NEWS NEXT WEEK"

FLASH GORDON

FLASH AND ZARKOV SUCCESSFULLY FOLLOW THE ALIENS' SHIP TO THE ARCTIC PLAINS... ONLY TO BE TAKEN PRISONER...

YOU CANNOT MOVE, EARTHLINGS! THE FREEZE-BEAMS ARE YOUR CHAINS! WE ALLOWED YOU TO FOLLOW US HERE...

VERY KIND OF YOU!

... ONLY BECAUSE YOU MAY BE OF SERVICE TO US!

IF THIS IS NOT AN INVASION FLEET... IF YOU ARE BUT ONE SHIPLOAD OF PEOPLE STRANDED IN SPACE... YOU CAN'T HOPE TO TAKE OVER THIS PLANET BY FORCE!

WE CAN AND MUST, EARTHLING! FOR THE SURVIVAL OF OUR FAMILIES!

WHY DO YOU WANT US? WHY DID YOU LET US LAND?

OUR WARPERS CAN THROW YOUR WORLD INTO CHAOS... WE KNOW THAT! WE CAN KNOCK OUT YOUR TECHNOLOGY... POOF! ... LIKE THAT! BUT YOU TWO SEEMED COURAGEOUS...

YOU CAN TELL US MUCH ABOUT THE STAMINA AND RESISTANCE OF YOUR PEOPLE!

WE ARE SLIGHT IN STATURE, EARTHLINGS— BUT WITH THE STRENGTH AND AGILITY OF YOUR GRASSHOPPERS!

YOU ARE FREE OF THE FREEZE-BEAMS! HERE... WEAPONS! OUR GLADIATORS ARE TRAINED KILLERS...

... DEFEND YOURSELVES!
