FARM HOME NORTHWEST OF BIG SPRING Mr. and Mrs. G. W. Webb wouldn't live in city again

'MYSTERY' SERIES

Webb Farm Shady As A Park, Couple Find It 'Cool, Restful'

The Mystery Farm No. 4 was no mystery to the friends and neighbors who had visited in the home of Mr. and Mrs. G. W. Webb, three miles northwest of Big Spring.

Mrs. Webb said she had little trouble in recognizing the picture, except that the trees and shrubbery did not show up as well in the picture as they do in reality. The trees are completely lush out now, and there is almost as much shade around the place as in some city parks.

The Webbs bought the farm in 1944 from C. M. Weaver and moved to it from Big Spring. It is one of the oldest farms in the area and was originally owned by Charlie Myrick back in the early days. They have 164 acres altogether, though a small part of it is still in mesquite pasture.

Webb's main crops are cotton and grain sorghums, with emphasis on cotton. He has had some hard years like other Howard County farmers, and says that in 1952 he didn't plant a seed. The next year was really more expensive because he went ahead with planting and cultivating and still made only two bales of cotton.

Things picked up last year and Webb produced 22 bales of cotton on a little more than 60 acres. This year he has one of the best cotton crops in the community, but has his fingers crossed.

"You never know anymore," he said. "We used to think that droughts lasted only a year, or

two. Now people don't have that confidence and are ready for anything to happen."

After moving to the farm, Webb put in a large dairy and operated for several years. Finally when the cost of feed became greater than the proceeds from the milk, he auctioned off the cows and confined his farming to cultivated crops.

Before he began farming, Webb had worked 14 years as a bus driver for the American Bus Lines out of Big Spring.

"It was a fine job," he said, "and I enjoyed it. But I was away from home so much, I finally decided to try farming."

He now spends all his time with the farm, though Mrs. Webb is checker at a local food store. He is thoroughly sold on deep-breaking and says the only cotton he lost to the big sandstorm a few weeks ago was on a small field not deep-broken. Since he sold the dairy, he keeps only a couple of cows and a few chickens. However, they do raise a garden and store much of it in a big home freezer.

Recently they set out an orchard of peaches, pears, plums, apples and nectarines. They already have a small vineyard that produces all the grapes they can use.

The Webbs have done a lot more beautifying than most farm couples. Though they have no children, they have furnished the big farm house with beautiful furniture and say the three bedroom house is not too large for them. In addition to all the latest conveniences, including television, they have a big, old-fashioned fireplace that burns real mesquite.

"I think it was that fireplace that sold me on the place," said Mrs. Webb, "and it was the

red-tiled barn that took my husband's eye."

Mrs. Webb belongs to the Fairview Home Demonstration Club, and can more than hold her own in showing how to keep a house beautiful. She attends the Northside Baptist Church, while her husband is a member of the Church of Christ.

"We don't have any arguments about it, though," they said. Like many other farm families in this section, they spend part of their leisure time fishing. Quite often they go to Buchanan Lake and to other places in West Texas.

Webb says it is hard to plan for the future with the weather like it is. He would like to buy some more land, as the quarter section has become too small since cotton allotments were applied. However, there is hardly any land for sale anywhere, and it is particularly hard to get in his neighborhood.

But no matter if the farm is a trifle small, the Webbs have no intention of living in town again.

"It's so cool and restful out here," she said. "With the trees, the songbirds and the peace and quiet, I just can't imagine living anywhere except on the farm. Even with the droughts and other natural calamities, farm life is still the most natural and enjoyable way to live."

Innocence In The Flesh

LINTON, England (AP) — Nurse Norah Lyne, 18 years old and only six months out of a convent school, wanted to date a handsome fireman she met at a dance.

She picked up the phone yesterday and told the operator: "Give me the fire brigade."

"Where are you speaking from?" the operator asked.

"Linton, Kent," she said.

Within a minute 4 fire trucks, 2 radio control cars, 50 firemen and half a dozen top officials were rushing to the hospital.

All they found was Norah—still holding the line and hoping to speak to her boy friend.

"Send a fire officer," she gave her a little lecture on how to use the phone—but you can't be too harsh with a girl like that."

Showers Dampen Mississippi Valley

By The Associated Press

Showers and thundershowers dampened the upper and middle Mississippi Valley and Southern Plains today.

An unconfirmed tornado was reported shortly after midnight 15 miles southwest of Shattuck, Okla., in the extreme northwestern part of the state.

Rain was rather general along the Pacific Coast and in the northern and central plateau region.

It was generally fair elsewhere except for some showers and partly cloudy weather along the east Gulf Coast and Florida.

Graham Trains Sights On Holland

DORTMUND, Germany (AP) — Billy Graham trained his sights on the Netherlands today after winding up a six-city revival tour of West Germany.

The American evangelist closed his weeklong German crusade last night, preaching to a crowd of 25,000 in this industrial Ruhr city.

He speaks in Rotterdam tomorrow, in Oslo, Norway, July 3, and in Goteberg, Sweden's second largest city, July 5.

He also has scheduled a revival meeting in Geneva, Switzerland, July 12, on the eve of the opening there of the Big Four summit conference.

Surgery Due

OXNARD, Calif. (AP) — Movie actress Loretta Young undergoes surgery today for abdominal adhesions.

Traffic Toll Of 380 Is Forecast

CHICAGO (AP) — A July 4 weekend automobile traffic death toll of 380 was forecast today by the National Safety Council.

The estimate covers the period from 6 p.m. Friday until midnight Monday and takes into account only immediate deaths and not those occurring later from injuries suffered over the weekend.

More than 40 million cars will be on the move over the holiday, a factor that the council said will produce an added travel hazard. The council gave these safety suggestions:

Drive about 10 m.p.h. slower than normally to give time to react in an emergency.

Start your outing in plenty of time so there'll be no need to hurry.

Stay alert and avoid distractions from the business of driving.

Don't compete for the right of way.

Pass cars singly and be sure you have a clear margin of safety.

Slow down at sundown and avoid driving when sleepy or overtired.

Fireworks Blast Causes 3 Deaths

SPRINGFIELD, Mo. (AP) — A fireworks display in a retail store blew up yesterday, causing the deaths of three shoppers.

The exploding firecrackers and skyrockets scattered flames through the one-story structure. The building was destroyed.

The three shoppers perished in a restroom where they had fled to escape the flames. They were Mrs. Margaret Click, 56, and two sisters, Mary Williams, 31, and Linda Kay Williams, 7.

It was not known what touched off the fireworks. An employee of the store was overcome by smoke, but 14 other employees and three customers escaped injury.

Mayor Warren Turner called a special meeting of the City Council today to consider a resolution to ban sale of fireworks in the city.

Clarence Wheeler, co-owner of the store, estimated damage at \$275,000.

Scientist Jokes About Passports

WASHINGTON (AP) — Pioneer atomist scientist Leo Szilard of the University of Chicago was explaining that he never had any real trouble with the government when he wanted a passport.

There was one time shortly after the war, he said in a letter to the Evening Star published yesterday, when a passport didn't arrive a day or two before his scheduled departure.

But such delays were routine with atomic scientists in those days, he said.

"I imagine the government wanted to count the number of secrets each man carried in his head so that upon his return they could check if any were missing."

Cold Water War

HENLEY-ON-THAMES, England (AP) — Russian seamen withdrew today from the famed Royal Henley Regatta because Britain's six-week-old dock strike kept their rowing shells aboard a Soviet freighter.

Gets License

LOS ANGELES (AP) — Richard de Mille, 33, adopted son of film producer Cecil B. de Mille, and Mrs. Margaret Beltrano van Fossen, 30, obtained a marriage license yesterday.

Delay Seen In German Arms

BONN, West Germany (AP)—A new delay in putting the first West German into uniform was seen today as the lower house of Parliament sent a bill to call up the first volunteers to committees for re-writing.

Although still approving rearmament in principle, many of Chancellor Konrad Adenauer's own supporters complained that the measure contained no guarantees of civilian control over the military and could lead to a resurgence of German militarism.

The sharp blow to Adenauer's plans came last night after a heated debate in the Bundestag (lower house). Government sources said new proposals would be readied but there was considerable doubt that the legislators could prepare and pass another bill before the start of their scheduled summer recess July 18.

The Chancellor had wanted the enlistment of volunteers under way quickly to give the free world and the Russians additional evidence before the start of the Big Four summit talks next month that West Germany is determined to rebuild its armed strength.

Adenauer's request for temporary power to recruit a nucleus of volunteers pending passage of permanent army legislation came under sharp attack from representatives of all parties, including his own Christian Democrats.

The decision to return it to committee was taken on a show of hands, without a recorded vote. Despite a personal appeal by their 79-year-old leader, many of Adenauer's chief lieutenants deserted him in the debate. The government said full controls would be provided in the later, permanent legislation.

Negro Admits Fire Death

MOBILE, Ala. (AP)—A New Orleans Negro has been charged with murder in the death of a girl companion he admitted setting fire to during an argument in a tavern.

Betty Jean Watts, 19, died yesterday of burns on about 70 percent of her body. Willie Jackson, 23, admitted in a signed statement that he dashed gasoline on her last Thursday and then tossed a match.

Detective Harry Simmons said Jackson told him he was angry because persons in the tavern laughed at remarks the girl made during the argument.

Air Force Claims 'Best Bomber' In B52 In Report On Strength

WASHINGTON (AP)—The Air Force says it has in the B52 the best bomber "in the world today," has fighters ready to move anywhere on the globe and is making advances in developing continent-to-continent missiles.

The outline of air strength was contained in the Defense Department semiannual report released yesterday. It appeared coincidentally with a demand from a Democratic senator to Secretary of Defense Wilson to answer a dozen questions dealing with the quality and quantity of Russian planes and missiles.

The brief air section of the report, covering a six-month period ending last Dec. 31, was written by Secretary Harold Talbot. He said the program to build to a 137-wing Air Force (from a present strength of 121 wings) has not been changed, although "it must constantly be reevaluated in the light of growing Communist capabilities."

Talbot said the appearance soon of the Boeing eight-jet B52 in the air fleet "should be of great reassurance to our people."

He said the North American supersonic-speed jet fighter F100 "is already here and the first squadron has been activated and equipped." The research and development, he said, "is turning out newer and better fighters and missiles at a steady rate."

Sen. Jackson (D-Wash.), chairman of a military applications subcommittee of the Joint Congressional Atomic Committee, made public a lengthy letter to Wilson, saying he feared Russia "will be our unquestionable superiors in air power" within a few years.

At the Pentagon, a spokesman said Jackson's letter had been received and referred to various officials for preparation of a reply. Jackson expressed special concern over Soviet progress in developing an intercontinental ballistic missile, saying that a "Soviet victory in this race for discovery could turn the balance of world military power upside down."

"If the Russians attain first a ballistic missile of mere continental range—1,500 to 2,000 miles—all of Europe would be 'at the mercy of Moscow,'" Jackson contended.

In the semiannual report, which apparently was prepared before a controversy over U.S.-Russian air power erupted a month ago, Talbot said: "This year (calendar 1954) has shown advances in the development

of the intercontinental ballistic missile. Even this brief comment about 'advance' was more than the Air Force had said before about the intercontinental ballistic missile program. It had acknowledged there was a development project for a missile named "Atlas." The project, or at least a portion of it, is being carried on for the Air Force by Consolidated-Vultee.

'Pressure' Urged In Release Of Yanks

WASHINGTON (AP)—Sen. Humphrey (D-Minn.) said today President Eisenhower should urge Soviet Russia to "bring pressure" on Communist China for release of all Americans helping holds.

Should that fail, he said in an interview, the United States should be prepared to take the matter up directly with Red China.

He said the United States should press Russian leaders at the July 18 Big Four summit conference to use their influence toward freeing 11 U.S. airmen held in Communist jails and a number of civilians detained in China.

Without mentioning the prisoner issue, Secretary of State Dulles told a news conference yesterday he does not rule out the possibility of direct talks with Red China on some matters.

Sen. Mansfield (D-Mont.) chided Dulles for not saying that release of the airmen should be a condition for any talks with Peking, as Senate Minority Leader Knowland (R-Calif.) has insisted.

Mansfield said in a separate interview: "I would hope that before any serious consideration is given to direct talks with Red China, we emphasize and reiterate that the 11 airmen and all other Americans being held in China should be

given their full release as a condition of the talks. 'If they offered to negotiate that with us, we should refuse on grounds there is nothing to negotiate. China is under legal international obligation to return those American citizens.'

Mansfield said Dulles' omission of the prisoner issue "would indicate abroad a softening of the hard attitude this nation has taken on that important question. We must insist on our rights."

But Humphrey, disagreeing with his colleagues, said U.S. refusal to meet Red China until the airmen are released would "amount to standing on false pride."

"We have to be willing to talk to Red China," he said. "That might be the best possible approach to getting our people out."

Molotov Ends Visit In U.S.

NEW YORK (U-P)—Russia's Vyacheslav M. Molotov leaves the United States today after a 13-day visit.

The Soviet foreign minister, wearing the smile of the "affable, new Molotov," arrived in New York yesterday after attending the United Nations' 10th anniversary celebration at San Francisco.

He immediately plunged into a busy schedule which included a luncheon with financier Bernard Baruch, a visit to a museum (the third on his present trip) and a three-dimensional movie.

At the luncheon at Baruch's Long Island mansion he was offered a vodka-tomato juice cocktail called "Bloody Mary." He said he liked it and drank half of it.

The 65-year-old Soviet diplomat was the one who suggested the meeting with the Baruch, author of the first plan for international control of atomic energy. The plan was never accepted by the United Nations because of Soviet objections.

The luncheon meeting was private. It was learned, however, that Molotov renewed his previous invitation to Baruch to visit the Soviet Union. He reportedly got no commitment from the 84-year-old elder statesman and former presidential adviser.

Earlier in the day, Molotov made a tour of the American Museum of Natural History, where he expressed particular interest in dinosaurs, cast and an exhibit showing rotation of farm crops in Dutchess County, N.Y.

WAFB Band To Lead Rodeo Opening Parade

The Webb Air Force Band will lead the parade opening the annual Big Spring Rodeo and Cowboy Reunion Aug. 3. Charlie Creighton, rodeo association official, announced today.

The afternoon parade, which annually attracts scores of riders as well as the traditional floats and other entries, will precede the opening performance of the rodeo. Four evening performances of the rodeo are set for Aug. 3-6.

The 1955 rodeo will be produced by Gene Autry and Everett Coburn.

Turnabout Gift

DETROIT (U-P)—Mike Barkay contributed fifty \$1 bills to Lawrence Tech's campus development fund yesterday. Mike, at 69, is ready to retire as head janitor at the college. He said he wanted to make a "going-away" present rather than receive one.

Backing Up Of Red Germ War Propaganda Revealed In Hearing

LOS ANGELES (U-P)—The story of how a southern California fruit grower got to Red China in 1953—backing Communist claims of U. S. germ warfare in speeches he made on the way—was told before a House Un-American Activities subcommittee hearing.

The subcommittee counsel, Frank Tavenner, outlined the trip in questions he put to Hugh Hardyman, 53, of La Crescenta and Toppanga, Calif., when Hardyman appeared before the panel yesterday. Hardyman refused to answer. He was the last witness of a series that included actress Angela Clarke and a Korean-born Los An-

geles resident, Diamond Kim. Miss Clarke and Kim cited the First and Fifth amendments in refusing to answer questions about Communist activities. Hardyman cited these and, in addition, the Fourth, Ninth and Tenth amendments.

Tavenner said that Hardyman went to Peiping by way of Paris, Czechoslovakia and Russia in 1952-53 as a delegate to a Communist peace conference. He said that Hardyman made talks in China, Czechoslovakia and Poland which backed Red claims that the United States waged germ warfare in Korea.

Hardyman, English-born, was

naturalized in 1927. Rep. Clyde Doyle (D-Calif.), subcommittee chairman, termed the alleged speeches, "a shameful attack on the country that gave you citizenship." He told the witness: "I am ashamed of you."

Tavenner said Hardyman made the trip to Peiping on a passport he obtained ostensibly for a trip to Australia.

"It is obvious a fraud was perpetrated on the State Department," said Rep. Scherer (R-Ohio). "I think it should be referred to the

Justice Department for denaturalization proceedings — and I so move."

Miss Clarke, who has a prominent role in the current Bob Hope film "The Seven Little Foys," testified that she had been a member of the Communist party from 1942 to 1949. On grounds of the First and Fourth amendments she refused to discuss the party's activities or other members.

Kim, also known as Kim Sang and Kim Kang, refused to say whether he was the editor of a Los Angeles paper, the Korean Independence, which Tavenner said published alleged germ warfare confessions of U.S. servicemen.

The counsel read a letter, dated November 1948, and captured by U.S. forces later in Korea, which identified Kim as a member of a Korean Communist party cell in Los Angeles.

Big Spring (Texas) Herald, Wed., June 29, 1955

3 Female Politicians Urge Women To Run For Office

LOS ANGELES (U-P)—Three women and one Democrat—today urged more women to run for public office.

They were scheduled speakers for a panel session at the biennial convention of the American Assn. of University Women.

Mrs. Katherine E. White, Democratic mayor of Red Bank, N.J., described her position as "just an enlarged housekeeping job." "When you're mayor," she said, "you have the sewer system to fix instead of the kitchen sink. And you sweep the city streets instead

of the living room." Mrs. White, vice chairman of the New Jersey Democratic State Committee, said: "The emergence of more women on Capitol Hill in Washington and in state legislatures as well as in other state and municipal offices is only a fraction of the untapped woman power sources."

In another prepared speech, Miss Bertha S. Adkins, assistant to the Republican national chairman, said, "I'm a politician and proud of it. I am here today to encourage more of you to get on the outside

of politics—to run for public office as a politician." And she added this tip to potential candidates: "Never forget that you are a woman. And don't apologize for being a woman when you campaign."

CITES REPORT

Mansfield Urges Eye On Spy Setup

WASHINGTON (U-P)—Sen. Mansfield (D-Mont) today cited the Hoover Commission's criticism of the government's secret intelligence network as support for his plan to set up a special congressional committee to keep watch on such activities.

The 12-man commission, in a report based on a special study made by a group headed by retired Gen. Mark W. Clark, said last night this country is not getting "adequate data from behind the Iron Curtain."

It called for "greater boldness at the policy level," and said that in the Central Intelligence Agency the Clark group found "certain administrative flaws" calling for "an internal reorganization." It did not spell out details.

Mansfield for some time has been plugging for creation of a congressional committee, somewhat like the Senate-House Atomic Energy Committee, to keep a continuing watch on CIA's operations.

He said in an interview he intends to "press for action," citing the Hoover Commission suggestion that some such group should be created "as a matter of future insurance" against any intelligence failure.

CIA Director Allen W. Dulles declined to comment on the Hoover group's report. It termed Dulles "industrious, objective, selfless, enthusiastic and imaginative," but said that "in his enthusiasm he has taken upon himself too many burdensome duties."

The 48-page report said it has

found no support for accusations by Sen. McCarthy (R-Wis)—disputed by Dulles—that Communists or Red sympathizers have penetrated CIA. The report noted, however, that some cases are still under investigation. It suggested periodic checks.

Garden City Scouts In Davis Mountains

GARDEN CITY—Nine Garden City Scouts and their leader are spending this week at the Buffalo Trails Scout Ranch in the Davis Mountains.

Attending are Glenn Joe Riley, Dennis Calverley, Ben Cox, Truman Parker, Weyman Gill, Joe Carter, Douglas Parker, Eddie Bryans, Gary McDaniel and Scoutmaster Harry L. Calverley.

Cubs Of Pack 1 Tour The Herald

Cubs and their leaders of Pack 1, Den 2, toured The Herald plant Tuesday on one of their "field trips."

The group was led by Den Chief Austin Ferguson, Den Mother Mrs. Glenn Earhart, Assistants Mrs. Opal Covington and Mrs. Pauline Hanson. Cubs making the tour were Gary Earhart, Joe Earhart, Dwaine Hanson, Tommy Buford and Eddy Dean Covington.

A Bible Thought For Today

By faith Enoch was translated that he should not see death; and was not found, because God had translated him; for before his translation he had this testimony, that he pleased God. (Heb. 11:5)

Editorial

Lively Interest In Social Security

By insisting that any major changes in the social security laws must be subjected to full hearings by the Senate Finance Committee, Senator Byrd (D-Va.) has virtually done away with any chance to enact the Democratic program on this head at the present session. Full hearings would require more time than available if the Democratic majority carries out its plans to adjourn by July 30.

Revisions to make women who become widows after 55 eligible for pension benefits when they turn 60, and in the case of totally disabled workers to make them eligible for payments after age 50, instead of the original "any age" proposal.

Does The Bear Need A Breather?

Carlos P. Romulo, the eloquent little Filipino who represents the islands in the United Nations, appeared on a television program Saturday night with some shrewd observations regarding Russia's current change of attitude.

Apparently, Romulo went on, Molotov found the atmosphere at San Francisco different from what he expected. In the second speech he was so put on the defensive by the spiritual offensive that developed the first day that he asked for tolerance of atheism.

Marquis Childs

McCarthy Very Definitely Put In His Place

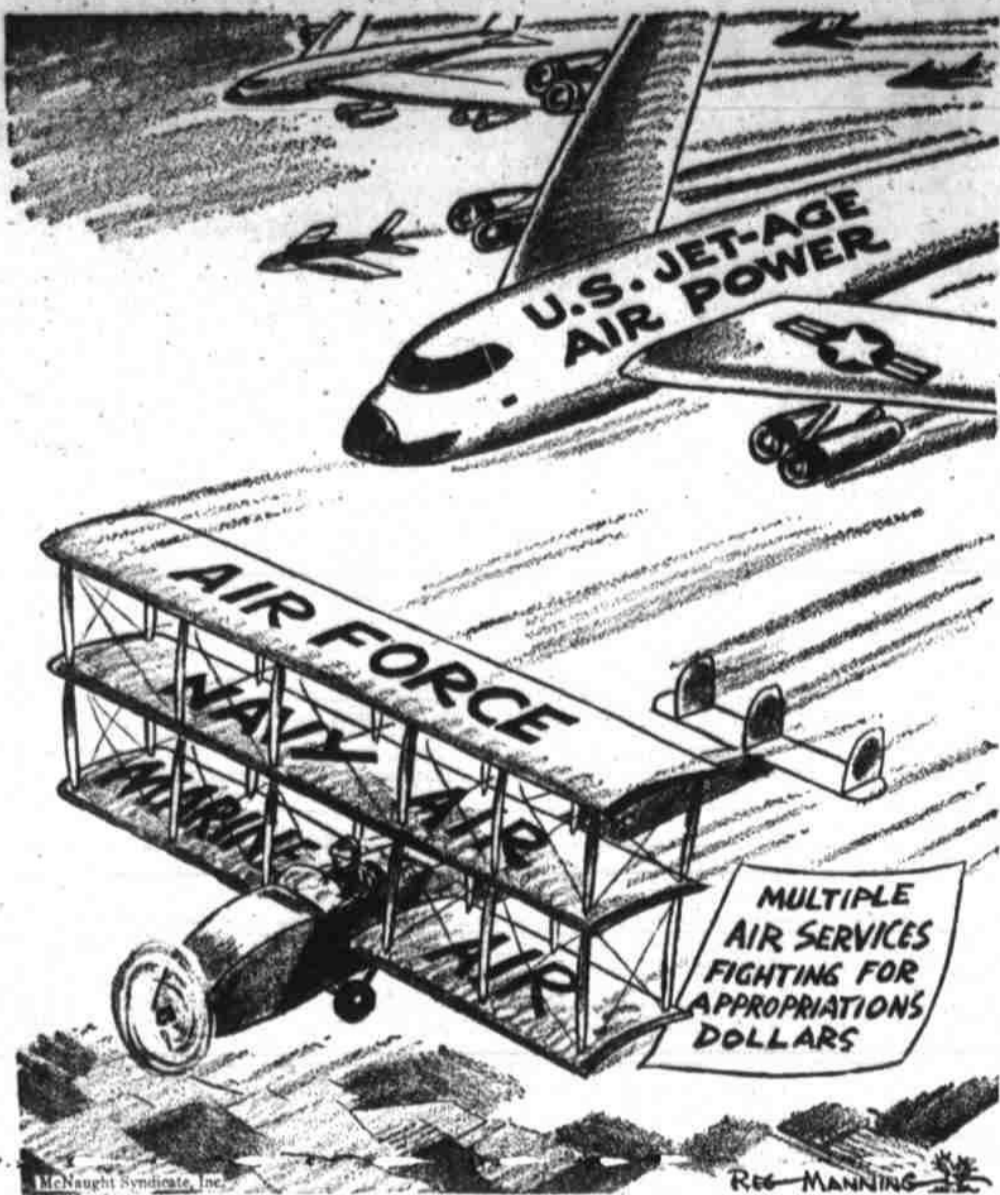

(While Marquis Childs is on vacation, his column is being replaced by the comments of Washington Observer Thomas L. Stokes.)

WASHINGTON—In the Senate last week we saw dramatized once again how our democratic processes work and continually justify and renew themselves. It was a demonstration that might properly be catalogued in our system of checks and balances.

Checked in this instance was the once rampant Senator Joe McCarthy and the torrent of fear and suspicion he stirred up that for a moment threatened trust and confidence in one another and in our institutions.

The Big Spring Herald

Published Sunday morning and weekday afternoons except Saturday by AFFILIATED NEWS-PAPERS INC. 400 Main St. Dallas 1, Texas. Entered as second class matter July 18, 1923 at the Post Office at Big Spring, Texas under the act of March 3, 1912.

Lead Plane Needs Modernizing

James Marlow Dulles Ripped In Velvet Prose

WASHINGTON—Allen W. Dulles, boss of the most hush-hush American spy agency against the Russians, has just been ripped in prose so velvet you have to look twice to see the wounds.

After getting a look at the whole picture, the report recommended "too conservative" about intelligence work in foreign countries.

Hal Boyle Nothing To Worry About? Try These

NEW YORK—Some things an average man finds hard to understand. Girls who wear no stockings in the summer, and girls who wear stockings so thin you can't tell for sure—even after looking twice—whether they are bare-legged.

Grass Cut Mixup

AUSTIN—Police here rained the streets for the first time in years looking for a rustler after a man reported somebody swiped his lamb.

California Leads

SAN FRANCISCO—California again led all other states in turkey production in 1954. Growers turned out 9,998,000 birds or 16 per cent of the national total.

Mr. Breger

"Frankly, I'd prefer a REAL country background . . ."

Around The Rim Racer Gets Heavier As Deadline Nears

It's Soap Box Derby time again, and our household is in a turmoil. You wouldn't think that something as inanimate as a crate with four wheels would create a crisis; but it not only can, but does in our unregulated corner.

sponsor's deals—and hold our breath that the increase in weight of both the racer and Gary do not put it over the limit in that case we may be out before we're in.

David Lawrence

Perhaps Even Russia Will Exercise Restraint

EN ROUTE FROM SAN FRANCISCO—There's a story going the rounds which tells far better than thousands of words, of speeches and diplomatic notes just why there is to be a Four-Power conference in Geneva next month, and maybe another conference later, and then another as the Western diplomats seek to keep peace in the world.

It's a story that was told in the presence of Sir Winston Churchill and some members of the President's Cabinet as they chatted over the breakfast table when the distinguished Briton last visited Washington as Prime Minister.

Wars have come in the past as a consequence of what seems to be local incidents. No country wants to let such incidents, however aggravating, inflame public opinion.

near Alaska and far away from Russian territory, the news was suppressed for a few hours so that Secretary Dulles could make his address before the United Nations Assembly in San Francisco without having his words taken to mean something in connection with the incident which, of course, was not intended, as he had written the speech before he had any news about the airplane incident.

But already it is apparent that Molotov is learning something about American institutions. He called a press conference last Saturday in San Francisco and subjected himself to questions—friendly and hostile. This is an institution of which Americans are justly proud.

Business Mirror Time To Add Some Plumage

Industries Hunted

ESCANABA, Mich.—The Upper Peninsula Development Bureau has set a \$250,000, five-year program to attract industry to horthem Michigan.

Escape Hatch

PORTLAND, Ore.—Somebody fashioned a 15-inch hole in a mesh grating atop the elevator shaft at the city jail. Police, reasonably sure nobody had broken into jail, believe some trusty used the escape hatch to come and go as he pleased.

Neat Thief

REARDON, N. M.—A woman's wife returned from a shopping trip to find a pan of cinnamon rolls, a jar of jelly and a carton of milk gone. But the thief was well-mannered enough to wash the dishes.

NEW YORK—Optimism is growing today in both the men's and women's clothing industries. If orders, production and sales are any indication, the American family is going to spruce up its looks this fall.

women are bent on replenishing their wardrobes and will have more money for that purpose this fall.

—SAM DAWSON

Second Peron Aide Resigns

BUENOS AIRES (U)—A second top aide of Argentine President Juan D. Peron reportedly has decided to step out in the aftermath of the June 16 revolt. He is Angel Gabriel Borlenghi, who as interior minister played a major role in the government's anticlerical campaign.

Reliable sources said last night that Borlenghi, 49, has decided to retire from public life "because of ill health." The informants said he told visitors yesterday he would soon make a trip abroad.

The reports of Borlenghi's retirement came a day after Eduardo Vuletich, secretary general of the powerful General Confederation of Labor, was said to have stepped down in favor of his assistant, Hector Hugo de Pietro. Vuletich also was active in the fight against the Roman Catholic Church.

Peron conferred with both Vuletich and De Pietro at his residence yesterday and later received the CGT council and secretariat. The labor organization, which claims six million members, is the backbone of the Peronista movement.

In separate conferences, Peron also talked with Foreign Minister Jeronimo Remorino and the army minister, Maj. Gen. Franklin Lucero, who was given control of all Argentine forces following the recent uprisings by navy and marine units.

Post office inspectors resumed direct censorship of news dispatches in communication company offices here yesterday. The inspectors had been withdrawn from duty for the first time since the revolt. There was no explanation for their return.

Family Affair

With one arm draped across the shoulder of his son, General Matthew Ridgway, Army Chief of Staff, Washington, D. C. Beaming proudly in the background Eisenhower at a White House ceremony in receives the Distinguished Service Medal from Presind is Mrs. Ridgway. The son is six-year-old Matthew Ridgway. The general is scheduled to retire from his Army post.

ROK Army Chief Sees New Invasion

SEOUL (U)—South Korea's military chief predicted today the Communists will launch a new Far Eastern war by 1958—"probably in Korea."

"And when it comes, it will be worse than June 25, 1950," said Gen. Lee Hyung Keun, chairman of the Joint Chiefs of Staff.

That was the day North Korean tanks rumbled across the 38th Parallel in an attempt to smash the Republic of Korea in one lightning blow.

Lee said in an interview his nation now fears airplanes, not tanks.

"North Korea has seven air divisions and 40 air bases," he said, charging they were built up in violation of the armistice agreement.

The Communists had no air force and only two usable fields at the end of the war, he said.

Lee raised substantially figures on North Korean strength obtained from two Red pilots who defected to the South last Tuesday. The government released their testimony yesterday. They listed four air divisions and 13 bases in North Korea.

"Everything else checks with

what our intelligence has learned," Lee said.

Lee said strength of the South Korean Air Force is "a shameful thing."

"The Communists could cause great destruction with their air power in one surprise attack before help could ever come from U.S. bases in Japan, Guam or Okinawa," he said.

Lee based his prediction of war on the "continuing buildup in North Korea, the imbalance of power," created by the Communist air force, and what is known of the Communist program.

"Northern Korea has a five-year plan ending next year. China's five-year plan ends in 1957, and the Soviet Union's one year later," Lee said. "That is the time when they will be best prepared to start a new war."

Leaves Hospital

H. M. Rainbolt, who sustained a mild stroke last week, was able to leave the Malone & Hogan Clinic Hospital Wednesday. He is convalescing at his home and his condition is satisfactory.

Israel, Egypt In Gaza Meet

GAZA, Egyptian-held Palestine (U)—Israeli and Egyptian representatives scheduled a second meeting today to discuss proposals aimed at easing tension in the Gaza Strip.

A brief communique was issued last night after a first four-hour meeting under the chairmanship of Maj. Gen. E. L. M. Burns.

The Burns plan would limit troops in the Gaza Strip area to regulars, require their withdrawal to a line about half a mile from each side of the boundary, permit local commanders on each side to confer and set up joint Israeli-Egyptian patrols.

Crops run from good to poor

Jen-Talkin

by Jess Blair

Latest standings in the Rodeo around Coahoma. Nearly everyone has had to replant several times, and except for a strip just north of town where a rain and hail hit a week ago, the area is getting dry.

I. F. McQuerry said he had planted in dry soil three times, and is not sure he will get a stand at all. He received enough rain to get a crop up if there had been any subsoil moisture.

"We didn't get any winter rains," he said, "and these showers just haven't wet deep enough."

Most farmers know that maize will mature quicker when planted in June than if planted in May. The Lubbock Experiment Station carried on some field tests with grain sorghums and found out that maize planted June 15 reached the booting stage in 66 days. Seed planted May 1 required 82 to 88 days to make the same growth.

"This slow growth is the reason early maize usually makes less under dryland farming," said E. L. Thaxton, station engineer. "It takes all the moisture from the soil and there is none left when it starts to head out."

C. H. Garner who lives north of Vincent recently bought two truckloads of cattle to turn in on his pastures.

Farmers in Mitchell County have decided that castor beans don't pay off, and will plant only a small acreage this year. Several hundred acres were planted last year with varying results. The main objection to castor beans, according to James Trammell, associate county agent, is that the beans are too much trouble to raise, extra harvesting equipment is needed and the crop coincides with that of cotton and requires too much extra labor.

Trammell said several farmers might plant castor beans if the support price were as much as eight cents a pound. Last year it was six, and they didn't think they made enough profit to justify planting the crop again.

Wayne White, vocational agriculture teacher at Coahoma, is working on his master's degree at Sul Ross College this summer. He will be back at Coahoma when school starts in September.

Nearly everyone in the Luther community has some crop, but nobody has a full crop, says Rex Mork. who farms two miles south of the store. His feed is looking good, but he came out with only 75 acres of cotton up to a good stand on a 130-acre field.

Morton said some of the late plantings seemed to be drying out. The showers have not wet the soil deep enough and the top moisture is soon taken out by the hot winds.

There are two schools of thought concerning our declining soil resources. At a soil award banquet in Big Spring a few weeks ago, Paul Walser of the Soil Conservation Service said the increasing population would soon take care of our

Fourth Of July Fireworks To Be Louder, Brighter

A "busting" and gala array of fireworks will be one of the special events at the City Park Monday, July 4th.

Jimmie Greene, manager of the Chamber of Commerce, sponsor of the annual fireworks display, said this year's show will be even more colorful and loud than previous years. Special attention was given to the purchase of the fireworks, he said, to get the serial type so that all the spectators could see them. They will be in every color of the rainbow too, he added.

The display will last about 30 minutes and will start about 9:30 p.m. Greene said. Seth Lacey of the Lacey Electric Company will be in charge of shooting the firecrackers and aerial pieces. The program will be under the direction of Roy Bruce, chairman of the Chamber of Commerce special events committee.

Greene said that last year the fireworks could be heard all the way to Coahoma. The Independence Day show attracts about 10,000 to City Park annually.

surpluses. He stated that we might not even be feeding and clothing ourselves adequately in another 20 or 30 years, as soil continues to erode.

Another group says our research program is staying well ahead of population gains. They think we can eventually take care of twice as many people as we now have. They point out that warehouses are bulging with corn, wheat and cotton, and say crop surpluses will plague us for many years to come. With fertilizer, insecticides and hybrid grains, to mention a few developments, these people are not alarmed over soil erosion.

One group paints a dark picture; the other lights it up.

The average person doesn't know which one to believe. But regardless of who is right, a landowner never loses anything by taking care of his soil and water. If scientists can help him double his yields, then improving the soil will give him a still greater advantage. Fertilizer soil will always respond more readily to fertilizer and high quality seed than worn-out land.

Residents Urged To Get ID Tags

W. D. Berry, Civil Defense coordinator here, urged citizens take advantage of the identification tag program now being staged by the Federal Civil Defense Administration.

Order blanks are available at most grocery stores in town. The cost of the ID tags are 25 cents each. Equipped with a chain, the tags will contain the full name of the wearer, the name and address of the next of kin, hometown, and birthday. Stores report that a number of coupons have been picked up.

The FCDA and local civil defense unit are encouraging this ID tag program because they can be valuable to the national well-being in time of war as well as in peace time.

Berry said that the tags would be vital in keeping families together and in relocating civilians following an attack. The peace time value of the tags would center around assisting in restoring lost or injured persons to their families, he said. In this connection the tags have an especial value for minors and aged persons at all times.

Berry reminded that there is still an increased Civil Defense problem resulting from new knowledge of the threat of atomic or hydrogen attack. These ID tags could help greatly in preventing confusion in case of a national disaster, he said.

Candid Trial Drama

This series of pictures was taken by a Waco Times-Herald photographer in the courtroom during the murder trial of Sgt. Marion Washington. Judges usually do not permit photographs to be taken during any kind of courtroom hearing. Above, Dorothy Popendorf, 33, identifies Washington as the man who killed her fiancé, Airman T.C. Henry Poole, after an attack threat. Below, Washington tells the court he was far away from the scene of the crime at the time Poole was killed.

Yugoslav Aid Cut Up For House Vote

WASHINGTON (AP)—At least two proposals to curtail aid to Yugoslavia come up for House decision today along with a number of other moves to revise President Eisenhower's foreign aid program for next year. Rep. Edna F. Kelly (D-NY) said she will propose eliminating all aid to Marshal Tito's Communist government. Rep. Fulton (R-Pa) is sponsoring an amendment to bar shipment of latest model jet planes to Yugoslavia until American and

Berserk Father Slays Family

CORA, Wyo. (AP)—A prosperous rancher went berserk and shot and killed his wife, daughter and parents-in-law four days before their bodies were found at their home north of here. Sublette County officers said today. Coroner Francis Tanner, summoned by a forest ranger who made the grim discovery, termed the slaying "murder-suicide—it couldn't have been anything else." The victims, their bodies pierced by bullets from a heavy 30.06 rifle, were Lawrence (Jack) Alexander, 45, his wife Patricia, 40, their daughter Grace, 6, and Mrs. Alexander's parents, Mr. and Mrs. F. X. O'Brien, of Miami, Fla., visiting here. Sheriff Morris Horton was unable to offer any motive for the tragedy. He said the Alexanders had been married about 15 years. Alexander's body, the rifle cradled in his arms, was found beside that of his only child on the back porch of the family home seven miles north of here. He had a bullet wound under his chin. Mrs. Alexander, a bullet through her neck, was found lying near the body of her father in the backyard. The body of Mrs. O'Brien, who was shot through the chest, was in the dining room, wedged against a door to the kitchen. Officers said Alexander apparently shot her from behind the door as she tried to call for help. The dead woman clutched a telephone in her hand.

Nehru Adviser Sees Change In World Attitudes

WHITTIER, Calif. (AP)—K. Krishna Menon, chief foreign policy adviser to Indian Prime Minister Nehru, says that the U.N. anniversary meeting at San Francisco "represents a change in attitudes of world leaders." He told the opening of the 21st annual Institute of International Relations at Whittier College last night that "circumstances are such that a reorientation of thinking is necessary." Menon termed the San Francisco session "a good omen" for the Four-Power conference in Geneva in July. "We cannot establish peace by methods of war," he said. "We must think in terms of peace." India, he said, is often called neutral. "India is not neutral to peace," he said. "India is not neutral to using methods of negotiation." "We should be willing and wise to take the risks for peace as we take the risks of war. The cause of peace through consultation calls for courage, perseverance, patience and magnanimity."

Israeli Cabinet Resigns After Coalition Ends

JERUSALEM, Israel Sector (AP)—Premier Moshe Sharett's Cabinet resigned today after the Premier's Mapai (Labor) party decided to end the four-party coalition government. It was understood that the Mapai would try to form a new cabinet without the General Zionist party, the second largest faction in Parliament. The Mapai holds 47 of the 120 Knesset (Parliament) seats and the General Zionists have 20. The Mapai held 9 of the 16 Cabinet jobs. A party spokesman said the decision to break up the coalition was taken after the General Zionists abstained from voting on a no-confidence motion in Parliament yesterday. The dispute arose over the two no-confidence motions presented against the government for its conduct in the so-called Kastner case. One motion, introduced by the extreme right-wing Heruth party, was defeated yesterday 50-9 with 29 abstentions. A Communist motion on the same issue was defeated 60-7 with 17 abstentions. The Kastner case involved an appeal by the Israeli attorney general against a judgment of the Jerusalem District Court June 22 which declared that Dr. Rudolf Kastner, former head of the Jewish Rescue Committee in Budapest, collaborated with the Nazis. In his decision, the District Court dismissed libel charges brought by the attorney general against Malkiel Greenwald, who had published accusations against Kastner. The extreme opposition parties in Parliament yesterday criticized the government for having initiated a state case and for what they called a "hasty appeal."

3-Way Collision Injures Only One

EAST ST. LOUIS, Ill. (AP)—A collision on a Mississippi River bridge approach yesterday involved two buses, a truck and a locomotive—but only one person was slightly hurt. Police said it happened this way: A truck stalled on the approach which has railroad tracks in the center. Two buses then collided, one hitting the truck and the other going through a guard rail and partly into the track area. A diesel engine hit the protruding bus and buried it back into the other bus.

Steel workers Begin Cool-Off For Strike

PITTSBURGH (AP)—Employees of the mammoth basic steel industry were alerted today to begin orderly shutdowns because a strike is feared at midnight tomorrow. At the same time, the CIO United Steelworkers planned show-down talks with U.S. Steel Corp. and other big producers in the hope they will increase their offer to boost wages. U.S. Steel, which employs 150,000 of the USW's 600,000 members, held firm to its original offer of slightly more than 10 cents an hour. Basic steelworkers now average \$2.33 an hour. While the industry prepared for a possible strike, government mediators in Washington kept a close watch on the situation. Inland Steel Corp. began banking its furnaces at its Indiana Harbor, Ind., plant last night. U.S. Steel said it would begin closing down sometime today. Usually 72 hours is required to cool off furnaces and close operations so machinery will not be damaged. The process can be rushed in 48 hours. Other major producers indicated they also would start closing-down operations. Major producers following Big Steel are offering about 10 cents an hour include Inland, Republic Steel Corp., Bethlehem Steel Corp., Jones & Laughlin and Youngstown Sheet & Tube. Clifford Hood, president of U.S. Steel, said in a statement last night the industry is threatened with "a wholly unnecessary strike." He said such a strike "would have damaging effects on the country's presently flourishing economy." David J. McDonald, president of the USW who has never called a strike in the three years he has headed the union, reiterated in a TV broadcast last night that the union is entitled to "an even shake—a wage increase" because the steel industry is enjoying a very profitable year. Under its two-year contract, the USW is able to discuss wages only. Unlike the CIO United Auto Workers, it can't bargain this year for a guaranteed annual wage. Hood said U.S. Steel offered a wage increase because it felt that it "would be in the interest of the national economy... in the hope of preventing any interruption in steel production and any setback to the country's present level of prosperity." McDonald repeated his claim

Burma Legate Due For Talks

WASHINGTON (AP)—Prime Minister U Nu of Burma arrives today to discuss Far East tensions with President Eisenhower and Secretary of State Dulles. The scholarly Prime Minister, who has offered to help bridge the gap between Communist China and the United States, arranged to meet with Dulles and Eisenhower shortly after his arrival by air from New York. He will remain in Washington until Sunday. Dulles pointedly opened the way for any proposals U Nu may have by saying at his news conference yesterday he looked forward to the Asian leader's visit. He said he expected to discuss problems dealing with relaxation of tensions in the Far East. The 48-year-old Prime Minister, an active neutralist closely aligned with Prime Minister Nehru of India, visited Peking last December. He declared afterwards that he might have some contribution to make in settling differences between the United States and Red China. However, he is not expected to propose a specific formula nor to seek the role of mediator between the two countries.

Bexar Approves Hospital District

SAN ANTONIO (AP)—Bexar County property owners approved yesterday a hospital district to administer and finance Robert B. Green Hospital, Southtown Sanatorium and Bexar County Home for the Aged. Unofficial returns with one small precinct unreported showed a total of 4,297 for the district and 1,655 against.

Ike Anniversary

WASHINGTON (AP)—President and Mrs. Eisenhower will celebrate their 33rd wedding anniversary Friday with a picnic for White House staff members and their families at the Eisenhower's Gettysburg, Pa., farm.

Demos Accused Of Hopping Ike Wagon

WASHINGTON (AP)—Sen. Ives (R-NY) accused Democrats today of "trying to climb on the Eisenhower bandwagon" with claims that they are supporting the President's programs in Congress. Ives said in an interview he regards a statement yesterday by Sen. Lyndon B. Johnson (D-Tex) as indicating the Democrats have concluded Eisenhower will be re-elected next year and have decided to concentrate on efforts to retain their control of Congress. Johnson, the Senate Democratic leader, said in a statement the Senate's record in this session disproves Eisenhower's contention during the campaign last October that Democratic control of Congress would result in "a cold war of partisan politics." After the Democrats did win control, Eisenhower told a news conference the words he used were too strong for what he had in mind. Ives said a list of 45 bills Johnson said represent the character of the current legislative program showed the Democrats are "facing in two directions." He noted that Johnson, shortly after issuing his statement, rallied Democratic forces to defeat a GOP attempt to authorize the atomic peace ship Eisenhower has proposed. "The Democrats are criticizing the President on one hand and claiming to support him on the other," Ives said. "They realize they can't attack him or his program successfully, and they are trying to claim credit for as much as they can get away with."

"What they are doing is trying to climb on the Eisenhower bandwagon. I don't think they believe they have any chance to beat him in 1956 and all that is left for them is to try to retain control of Congress." Johnson's list of 45 bills covered a variety of subjects, including many routine measures on which there was no controversy. However, on 15 of the more important measures, the Democrats gave support to Eisenhower's recommendations on 9 and upset his proposals on 6.

PLYMOUTH DESIGNS WITH YOU IN MIND!

to put extra value in the low Plymouth price!

This message is for people who think all low-price cars are "pretty much alike." Of course, all cars have horns and wheels and headlights, but there's a lot of difference in the features of a car that add up to v-a-l-u-e. Here are just a few of Plymouth's features that will add to your comfort and your convenience. In the low-price 3, you'll find them only in Plymouth. Drive a new Plymouth today; see how much more its "personalized design" gives you!

The PowerFlite Range Selector is mounted on the dash, near the ignition key—the logical place for easiest use. You can change speed by touch alone!

For more direct pillowing action, Plymouth mounts the longer-stroke front Oriflow shock absorbers inside the big front coil springs.

Plymouth places two hydraulic brake cylinders in each front wheel (other low-price cars use only one) for smoother stops, greater reliability.

17 FEET LONG

PLYMOUTH OTHER CARS

If you've ever had a blowout, your Plymouth has Safety-Rim wheels which help hold a deflated tire on the rim while you slow to a safe stop.

Plymouth's brilliant Forward Look styling gives you better forward visibility by letting you see more of the road directly ahead of the car.

Plymouth is the BIGGEST, LONGEST, ROOMIEST car of the low-price 3. In fact, you can pay as much as \$500 more for a medium-price car that's smaller than Plymouth!

BEST BUY NEW; BETTER TRADE-IN, TOO

2 ROOM house.

UNCLE RAY'S CORNER

The Chinese god of thunder.

With lightning comes thunder, and the thunder seems to have impressed early people more than the flashing. Very often they prayed to thunder gods.

The Greeks, for example, spoke of Zeus, and said that he produced thunderbolts. Adopting Zeus as their chief god, the Romans called him Jupiter.

The Norsemen had Thor as their god of thunder. They declared that the noise was made when he hurled a hammer through the sky.

In Asia the Chinese god of thunder has been given much honor. Artists picture him as a combined man and eagle. He is shown with claws on his feet, a pair of wings and a beak-like mouth. Otherwise he appears as a man with a stick

in his right hand. The stick is used to beat drums which circle about him in the sky.

Q. What makes the thunder?
A. The heat of the lightning makes the air expand, and after the air expands it contracts. This quick motion causes several kinds of sound, including cracking and booming.

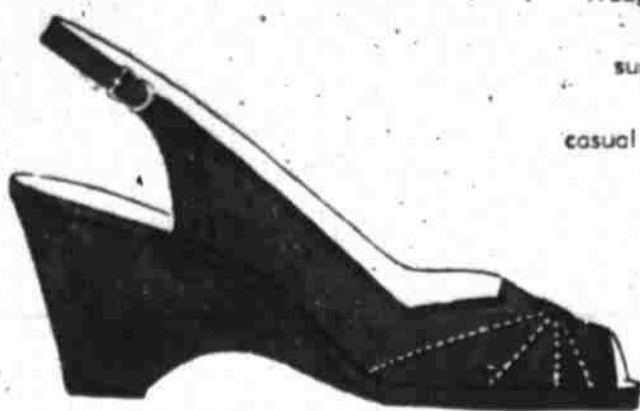

Q. Does thunder hurt people?
A. The loud sounds may startle people, but the lightning offers really serious danger. If you hear the thunder, "it is said, you have escaped the lightning. Lightning travels far faster than the sound of thunder.

We must remember, that one flash of lightning may be followed by many others. It is well to obtain the shelter of a house whenever possible.

Q. Where does rolling thunder come from?

A. We see lightning in a split second, but thunder takes two seconds to cover a distance of 2,000 feet and five seconds to travel a mile. When a flash is a mile long, the sound waves come to us from various parts; the sounds from the more distant parts come more slowly. The result is rolling, or rumbling, thunder. Echoes sometimes play a part in the rumble. Tomorrow: Ball Lightning.

Music Is Important

Musical training reaps dividends in popularity. For anyone plotting to remake the self during vacation and emerge on next fall's campus a radiant new person all set for popularity, I would advise investing in some form of musical training now.

Let me explain. Personality is based on personality. Personality is a bubbly, sparkling quality springing out of inward happiness, a sense of achievement, and the self-assured ability to do something well.

You may be able to bake mouth watering cookies, or walk away with a tennis trophy, but these are specialized abilities you cannot trot out at a party. They won't even

rescue you when you're gathered in the school auditorium after lunch and a dreadful lull creeps into the conversation.

Music is the universal language. Everybody, regardless of race, sex, age, color, or creed, loves it. It makes a hit anywhere, any time. Everyone can "get into the act" by singing, humming, dancing, or keeping time.

It livens up the end of gym period when you're waiting for the bell just as much as it does a party.

True, talent is not given to all with equal generosity, but the person who does not enjoy hearing music, and does not possess a desire to produce it, even in some small measure, is unusual, indeed. Will music training be of any

value if you are without talent? Yes, it will. In school you are required to take certain subjects which, aside from lacking talent in them, you find downright distasteful. These subjects are necessary, you are told, because they help to give you a "well rounded" education.

Music, too, makes you a fuller, more complete person. Reading music is like reading English. You may not become another Liberator, just as you probably will not be a book reviewer. Nevertheless there is great satisfaction derived from being able to read the evening newspaper or play a currently popular tune.

The boy or girl who can play the piano at Sunday School or an informal get-together is the center of attraction and popularity, always.

"Prescription for Popularity" a free booklet, is yours by writing Miss Brandow in care of The Herald and enclosing a 3 cent stamp.
