

## Date Nears For Chamber Fete

Final plans and preparations for the 50th Anniversary Banquet of the Deaf Smith County Chamber of Commerce, at which Dr. Charles Jarvis will be the featured speaker, have been announced by chamber officials.

The banquet, planned for Friday, January 9 at the Bull Barn, is expected to attract one of the largest crowds ever at the annual banquet.

Dr. Jarvis, who is considered by many to be the number one humorist in America today, spoke at the annual Texas-New Mexico Sugar Beet Growers Association. He is a former dentist, who, after getting on the speaking engagement trail, found it impossible to carry on with his dentistry and speak at meetings and luncheons at the same time.

Since the time of his first speech, Dr. Jarvis has been in such great demand as an after-dinner speaker that he averages over 150 addresses a year throughout the United States. He is a resident of San Marcus and began his stint as a speaker

when he first spoke at the San Marcus Chamber of Commerce Banquet in 1959. His performance was so well received that requests began pouring in for his appearance at other service meetings.

It was in 1961 that his time as an after-dinner speaker became so valued that he was forced to begin speaking professionally.

A native of Texas, Dr. Jarvis, who was born in Waxahachie, attended the Brady public schools, then the University of Houston and Texas A&M University. He is a graduate of the United States Naval Academy, Annapolis, Maryland and the University of Texas School of Dentistry. His professional affiliation included Omicron Kappa Upsilon, National Dental Honor society.

He has a national reputation as the most outstanding humorous speaker on the banquet and convention circuit with his talks that carry a spiritual message but are primarily entertaining.

## Voter Quota For County Has Been Set At 7,027

The "Operation: Everybody!" voter quota for Deaf Smith County has been set by the Texas Democratic Party at 7,027, according to county chairman Leo Witkowski.

"That figure represents 65 per cent of our estimated voting population, which is 9500, Witkowski said. "The state goal is to have 4,250,000 Texans registered between now and the end of the registration period on January 31."

"Operation: Everybody!" is a project of the State Democratic Executive Committee. The special drive is headed by Mrs. James A. McMullen, III of Fort Worth with Mrs. Carol Vance of Houston as vice chairman.

"Voter registration is free, but everyone must register in order to vote in the 1970 elections," Witkowski said. Application forms are at the County Tax Assessor's office in the courthouse.

"Our county will be competing with other counties of similar

size for statewide recognition in doing a good job," Witkowski said.

Gold, Silver, and bronze plaques will be awarded to the counties which exceed their quotas by the highest margins. All counties which meet their quotas will receive special certificates of merit.

In Group Five are Bastrop, Calhoun, Colorado, Dawson, Deaf Smith, De Witt, Eastland, Earh, Falls, Fayette, Gonzalez, Jones, Lavaca, Maverick, Nolan, Panola, Starr, Terry, Titus, Uvalde, Washington, Wise and Wood.

## Divisional Breakup Affects Plant Name

By JERRY ODOM  
Staff Writer

In one of the biggest cattle raising areas of the world, Hereford's new meat processing plant, which is currently taking applications for employees, will be phased under the heading of Wilson Beef and Lamb Company.

The unusual note in this is of course the word lamb inserted in the title, especially since no lamb slaughtering is scheduled in the near future. There is a reason for it however, as explained by Wilson employment manager Dales Sanes.

"When the old Wilson and Company split up, it was divided into six divisions. These different divisions were usually according to geographical area and the products they produced."

According to Sanes there are four plants in the Wilson Beef and Lamb Company. They are the ones at Ogden, Utah, Denver, Colorado, San Angelo and Hereford.

"Denver and Hereford," said Sanes, "will only process beef while Ogden and San Angelo will primarily handle sheep. Since there are several plants in one division they all have to go under one name. Therefore because they do slaughter sheep in Ogden and San Angelo, Hereford will include lamb in its title as well as beef."

Sanes reported that they are now well under way in taking applications which they started on December 15. They want to receive them from anyone who wants to apply in any field. He said, "Most of the applications are being handled by the Texas

Employment Commission."

Having received over two hundred applications he commented, "We want to credit the Employment Commission for this high number. We didn't expect to do this well so soon."

As far as interviews are concerned Wilson's personnel are only discussing jobs with the mechanical people now. Sanes stated, "We are calling for people with packing house experience for interviews right after the first of the year."

"To begin with we will look at the butchers but we don't want to discourage anyone because there will be plenty of jobs available. We are set to begin plant operations on January 27 at which time we will use around eighty to a hundred employees."

## Small Boy Receives Big Present From Shriners

BY JERRY ODOM  
Staff Writer

Jolly old Santa glided into the Panhandle last Wednesday evening on his annual one night tour distributing the spirit of Christmas and all those out of sight toys to the youngsters. When children awakened on Christmas day they found their ordered items under the tree but one younger Hereford fellow received a present expected to last a bit longer.

It wasn't a shiny red bike or anything of similar nature and he didn't receive it all on Christmas morning. The young man's name is Joe Tijerina and his gift is the hope of a normal right foot like all his comrades.

You have to know the little guy and how he is being benefited to understand why his gift will be the best he ever receives. Since birth Joe has had a defect with his right foot which is somewhat related to club foot. All along he has been forced to hobble around with his right heel three to four inches off the ground.

This is the sort of handicap that would be hard to take for anyone and in many instances many let it damage their well being. But Joe has overcome it.

For the past four or five months he has been employed at the John A. Pitman Golf course. According to Calvin Garrett, local golf pro, Joe does several of the necessary odd jobs around the course such as cleaning clubs and caddying when needed.

It was through Garrett that the fourteen year old La Plata seventh grader was benefited through a campaign involving numerous people.

"We first took Joe to the annual clinic held by the Oasis Shrine Club here in Hereford," said Garrett. This clinic is usually held in May.

"An orthopedic surgeon examined him here and concluded that it would be beneficial to send Joe to the Texas Scottish Rite Hospital for crippled children in Dallas. We then needed the approval of his grandmother, who is now his legal guardian, before transferring him to Dallas."

An appointment was made for Joe on November 21. Garrett escorted the boy to the hospital. He stated, "After thorough examination by five doctors the best course decided was a two stage operation. The

reason was that the bones weren't flexible enough and the tendons wouldn't let the foot drop down.

They performed the first operation on November 24 in which they did a lot of bone work on the back of the leg and foot. This allowed the heel to drop about half the distance to the ground."

Garrett said that doctors worked on the tendons in the leg in the second operation to lengthen them. Joe was able to drop his foot closer still to the ground following. He emphasized that before either operation doctors said they could make Joe a pretty good foot without sacrificing any of his mobility.

Joe stayed in the hospital from November 21 to December 22. During this time allowances were made for him to keep up with his school work. Garrett checked him out of La Plata when he realized his stay would probably be lengthy and enrolled him in a special education course of the Dallas School District at the hospital.

Although Joe will return to Scottish Rite on the thirteenth of February he will be enrolled back into La Plata after the holiday vacation. Whether or not he will have to have more extensive care or surgery has not been determined yet.

During the entire period of care, the little fellow has been through about five casts, the last one applied last Monday.

Garrett commented how people helped Joe other than the Shriners. "Everybody just sort of took to Joe. All the golfers knew and liked him. He's a real talkative and bright little guy."

Before he left for the hospital one lady gave him a nice sports coat and a man gave him a couple of pairs of slacks and a couple of shirts. He was given some new pajamas by the Newcomers Club and a real nice robe by Bob Spangler.

It seemed that quite a lot of people wanted to help Joe in some way," said Garrett. "So we set a contribution box on the counter at the golf course and collected around \$150.

When I took him down to Scottish Rite Earl Jackson furnished the car. When I went back to get him Joe Easley furnished a plane and pilot."

Garrett expressed his feelings about Scottish Rite in saying, "It's a wonderful place. You

can't spend a penny down there. They take care of everything."

C. F. Worthan, president of the Oasis Shrine Club explained the Shrine's part in projects such as Joe's. "The main purpose of the Shriners is simply to help the human being.

To be a shriner you must be a Master Mason and then a Scottish Rite. In other words the Scottish Rite and the Shriners are branches of the Mason.

"We have 21 hospitals in the United States sponsored by the Shriners but Scottish Rite does most of the surgical work. The master of the Masonic Lodge in Hereford made the approval to the Scottish Rite for Joe's care," Worthan said.

"What we do is find children such as Joe and then let the doctor recommend what should be done. We sent one child to Salt Lake City that had been bitten earlier by a rattlesnake. They did some bone grafting and other work for him. We also sent one child to Galveston for heart surgery. We've handled six or seven underprivileged children of this kind this year.

"Most of our cases are birth defects or burns. These are the ones that most need specialist's care. Doctors have been real helpful to us. They contact us when they find a deformed child even if he hasn't gone through the clinic," he added.

Little Joe didn't have much to say about the entire situation but he was still in his usual happy spirits, something he practices not just at Christmas but seasons round.

## Hereford Man's Brother Dies

Funeral services for Pete Blakney, 77, of Plainview, brother of Ed Blakney of Hereford, were conducted at 2 p. m. Saturday, in Lemons Memorial Chapel in Plainview.

The Rev. Mark Williams, pastor of the First United Methodist Church, officiated. Burial was in Plainview Cemetery.

He was born at Sunset and moved to Plainview in 1927 from Silverton. He married Maude Crain in 1919 at Childress.

He recently retired after serving 21 years as manager of the Hale Center County Airport. Other survivors include his wife; and one sister, Mrs. Alice Love of Dallas.

# 1969 Marks Close Of Growing Decade For Hereford

1969 comes to a close at midnight, December 31, marking one of the most exciting decades in modern history, not only for the world but also for the once-upon-a-time small city of Hereford Texas.

From a tiny "community" of ten years ago to one of the most successful and prosperous in the country, Hereford, inspired by the leadership of many of its devoted leaders, closes out a year "for the books" in the fastest growing county in the state. From the 366 days which went into the making of 1969, new things gave way to progress in Hereford, and readers are invited to take a journey back through time in recounting the 104 editions of the Hereford Brand which gave accounts of the comings and goings in Hereford, Texas in 1969.

### JANUARY

Reports from County Judge H. C. Williams indicate that juvenile cases have dropped sharply in Deaf Smith County during the past year while Driving While Intoxicated cases have nearly doubled in number. Dr. Charles Jarvis, noted humorist-speaker, was scheduled to speak at the annual meeting of the Texas-New Mexico Sugar Beet Growers Association planned for January 18. Ronnie Rainey, a member of the local unit of the Texas Highway Patrol for the past two years, will be leaving the service soon to become retail route supervisor for Gandy's Milk Company in Abilene. Final plans and a speaker were announced for the installation ceremonies of the recently

elected members of the Chamber of Commerce. Scheduled to speak is Cecil Massey, former Chamber of Commerce manager here with installation to include Rex Lee, Jeff Carille, J.W. Robinson and Jim McDowell. James R. (Monk) Johnson, partner in Rutherford and Company, has been appointed Veterans Service Officer for Deaf Smith County. Michael T. MANY OTHER ITEMS REDUCED TO CLEAR!

By MELVIN YOUNG

Christmas has come and gone and we're sure that each of you got just the "right" gift. The ones you've always wanted. And if you didn't, then you have probably had an opportunity to exchange for something more suitable. Many stores these days advertise in the Christmas papers. . . Merry Christmas and many happy returns. . . encouraging customers to exchange items that don't fit, or the color isn't right, etc. And we're sure that many do. Of course, it's the thought that counts in Christmas giving, but certainly the giver will not object if you exchange a pair of trousers that don't fit, or a shirt that is the wrong color. That's just part of the spirit of giving. . . and receiving.

Each Christmastime brings a bunch of surprises around the Young residence. With two almost grown daughters, anything can happen, and usually does. This year has been no exception. Our college student daughter is home for the holidays and that fact alone assures that things will be different around the household and will not settle back to normal until she heads back to the campus. We would imagine that others with college students at home will experience the same upsetting of the norm. Of course, we love them, but it does change the routine.

As far as the Christmas season is concerned, this has been one of the nicest we've ever had. Certainly we've received more gifts than we deserve, although that really shouldn't be the measure of a happy Christmas. But it's the time of year when friends and neighbors show up at the front door for a short visit and when you get an opportunity to forget the trials and tribulations of the work-a-day world and enjoy friends and family. We've enjoyed it all.

Our good friend and golf partner, John Thames sent over a gift of golf balls and a note saying simply "for being such a good partner," and we certainly appreciated the thought. However, it was rather ironic that another member of the weekly golf playing team, Dr. Duffy McBrayer, the "loyal opposition," as he likes to call himself, also showed up bearing a gift of golf balls, but with a different story.

"Having played golf with you," he said, "and realizing how many balls you lose in the rough and water hazards, I knew you'd appreciate these."

True, we did appreciate the balls. And it's true that we lose a gob in the creek, but darn it, he didn't have to be so frank. Sometimes it's better to tell a little white lie.

However, true to Duffy's nature, the paper sack which contained the gift, was well inscribed with notes extolling the merits of this particular brand of ball and although we doubt seriously that it will help our score one bit, we did enjoy reading them. Like so. . .

"Old Curvmore Golf Balls: Guaranteed to sink faster in water hazards, cut with the first putt, adds more lateral distance to hook or slice and when topped will just sit there and look ashamed for you."

It also noted that this ball was chosen by Algernon Smoothstroke during his dramatic defeat at the Larbuddle open. Total score 18 holes (stroke play), 388. Well now, he's got the score about right.

—HB—

Others we know received fine gifts too. Clint Formby, for instance, received a nice Christmas wreath from his long-time friend Neil Cooper, stolen, by the way, from the front door of Radio Station KPAN.

This could only happen in Hereford.

—HB—

And that brings to mind another story told to us recently concerning two of Hereford's prominent businessmen.

Back in the early '40s when Carl McCaslin, owner of the lumber company bearing his name, was beginning to get things under control in the business after establishing the firm in the late '30's, and times were not quite as tough as they had previously been, McCaslin opened a charge account at the fashionable Dallas department store, Neiman-Marcus.

His friend and fellow Hereford businessman, Henry Sears, found out about the deal and while in Dallas on a business trip just before Christmas, dropped by the Dallas firm, bought an expensive Stetson hat, charged it to Mr. McCaslin had the store mail it to him with the appropriate Christmas wish.

Upon receiving the gift McCaslin suddenly realized that he had not bought a gift for Sears and immediately rushed downtown and purchased a cashmere sweater for his old pal.

Everything was just great until January 1 when the December bills started arriving and Mr. McCaslin realized what had happened to him. Needless to say, Mr. Sears has had to be on guard since.

—HB—

The incident that happened to the Bob Spanglers however, was not very funny to Bob and wife Sammy.

Spangler never does anything halfway and when he purchased a Christmas tree this year, he held true to form and got the best. A white flocked tree with peacock feathers. It was beautiful.

But it seems that Spangler also had —we use the past tense —a young bird dog which he was training to "point" using quail wings in the training program.

While the Spanglers were at the store busy with the Christmas rush, the bird dog somehow managed to get into the house. Now whether he actually came to "a point" or not will never be known, but it is assumed that the peacock feathers didn't set too well with him because he pounced upon the tree, literally demolishing feathers, tree and stand. The remains could have been picked up with a vacuum cleaner.

Now the Spangler's no longer have a bird dog. They did buy another tree, but like we said, they no longer have a bird dog.

—HB—

By the way, while we're on that subject, do you know how the pheasants in this area got their start? They're not native, but that's another story and we'll tell you next week.

Meanwhile, we hope you've finished all the Christmas turkey, ala sandwiches, etc. and are now getting ready for the big New Year's celebration, the annual January 1st parades, and football. We'll see you next year.

# Glady's Garden

By Gladys Howton Manjot

We are told by historians, that even the plants rejoiced, when Christ was born. Plants, evergreens, and flowers play a large part in the Christmas observance.

Even as the angels sang, "Glory to God in the highest, and on earth peace good will to men" flowers were pushing up through the snow in that radiant light, heralding the Christ Child's birth.

The value to man of the plant life is unmeasurable. It is significant that at every turn in our daily lives that we have and feel the great worth of plant life to our lives. Not only do they sustain man, but they give inspiration and their teachings are many.

We hope that when you choose your Christmas tree, and the greens for the Christmas season that you were mindful of this, and that time was taken out to breathe a prayer of thanks to God for the good earth, and its manifold blessings.

Throughout the world, old legends tell us, that to this time trees bloom and bear fruit, animals kneel in their stalls, and best of all, men forget and forgive old animosities, at the Joyous Christmas time.

Tradition also reveals to us that those who had no gold and jewels, no animals or fruit, to offer as gifts to the Holy Family, reached out for lovely flowers that would express their love and homage. These they brought to the Bethlehem Babe and His Mother.

An angle showed a little shepherd girl, weeping because she had no gift for the Babe in the manger, some pure white little flowers blooming in the snow. When she offered a bunch of them, the magic of the Babe turned the snowy white flowers to a beautiful pink tinged flower, and today they are called The Christmas Rose.

Even boys stopped at play and hurried down the mountain side to pay their visit to the Christ Child, and in the hurry, they took time to pluck some of the flowers which carpeted the Bethlehem Hills. They ran quickly and presented them to the Mother, and in her acceptance, she called them her "gold" Marigolds, as we know them today. (May we all slow down and not rush through this glorious season. Let us take time to give gifts in His name)

Tradition further reveals, that as the Wise Men came, seeking the Babe born in the manger, that they were guided to the place by a white chrysanthemum blooming all alone.

And that the Guiding Star, having shown the Magle the way to the little town, burst into a million fragments that fell to earth as little white starry flowers. Today these lovely flowers are called Stars of Bethlehem. Years ago when Mrs. R. A. Tynes was living here she grew the Star of Bethlehem flowers, and many times when we were in her garden, I was fascinated at their beauty. Sometimes they were not in flower, but if they were in full flower, she would say: "It is going to rain, the Stars of Bethlehem are predicting, by their blossoms." And rain did follow.

Many herbs are known as the Christmas Herbs. Thyme became fragrant when Joseph brought it in with hay he gathered in the fields for the bed, where the Babe was born.

Rosemary, sage, lavender and others with blue or lavender blooms received their lovely color on their branches from Mary's robe and their fragrance when she hung her garments and those of the Christ Child upon them to dry.

Both the holly, and mistletoe were dedicated to the Holy Child, at His birth. Holly was the Holly Thorn or Christ Thorn; that connected Jesus with his death on Calvary. It is to express love and good will to enemies. The thorn reminding of the enemy, and the everlasting green, the forgiving Lord.

Christmas evergreens symbolize life, and have been favorite Christmas trees through the years and used to deck the halls, to be made into wreaths to welcome guests at the door, and for corsages to make the hearts of friends and loved ones happy and gay. Oh! the legends relative to the evergreens are truly rich in legend.

The pine was used for the first lighted Christmas tree. It grew at the door of the stable with the olive and palm trees. The olive offered its fruit as a gift, the palm, its dates, but the pine, had no gift other than its beauty to offer, so the magic of heaven fell down upon it, making it evergreen, and beautiful and caused it to grow with a pointed shape. Pointing to the sky and ever upward, symbolizing Him who reigns on high.

On and on we could go with legends, and truths relative to the plants of Christmas time. That is not as important as is the importance of how we today will keep Christmas, and give of ourselves to let others know of Him.

BEAUTIFUL: Is a word which is used very often, but I have no other word with more meaning to express the beauty that prevades the homes, the streets, of Hereford. I think I have never seen Hereford more beautifully lighted than it is this year. (Maybe I have a deeper appreciation and can see more beauty.)

Really there are many spots of beauty in our home town. See it for yourself, and take some one with you to enjoy with you the beauty and loveliness of the Christmas lights.

When you drive by 303 Westhaven Drive, don't say bad things about Glad, not having many Christmas lights gleaming. I did decorate and things were aglow. While at the hospital visiting with my husband, (Art) some one came and took away all the bulbs that I had. I hope they have the same thoughts I did when I placed them and looked upon their gleaming beauty.

I also hope that between hospital visits, etc. I can replace the bulbs, and that Art will get to be at home to enjoy them. es' when we as a family decorated and sought to spread Christmas Joy.

GLAD

In the 1934 Rose Bowl game Columbia turned in one of the biggest upsets in the classic by beating Stanford 7-0 on a touchdown by Al Barabas.

## Letter To The Editor

Dear Sir,

Below is a letter sent to Assistant Secretary of Agriculture, Clarence Palmy which I thought might be of interest to readers.

Dear Mr. Secretary,

The farmers of the Panhandle of Texas thank you for taking time from such a busy schedule to speak to us at the P. G. C. convention. We realize that you and Secretary Hardin have a very difficult task to perform in trying to find answers to agriculture's many problems. I am certain that you would be the first to agree that those who are affected directly by these problems, the producers, should be able to help in finding the answers to these problems. Therefore, I am going to attempt to give you one producer's thoughts concerning some of your statements at the convention.

Statement: "Exports were 266 million bushels in 1967-68 and dropped to 90 million bushels in 1968-69."

Thought: A dock strike at harvest time which ran through most of the winter was the principal factor which causes the drop in exports. Even with the loss in export shipments we saw the domestic market prices move upward due to improved marketing procedures on behalf of producers.

Statement: "We must constantly remind ourselves that every dollar paid to mill producers by overseas customers adds to gross income."

Thought: Additional gross income which does not reflect an additional net income is worth less to producer.

Statement: "Exports in 1968-69 were 90 million bushels."

Thought: 90 million bushels is only about 15 percent of the national production. Should this 15 percent be used to set the price (at a low world price) for the remaining 85 percent which is used domestically.

Statement: "The United States supplies approximately 60 percent of the feed grains which move thru world trade."

Thought: If the U. S. supplies 60 percent of the total trade supply, then the U. S. should have the power to set the world price at a level which U. S. producers can sell at a profit.

Statement: "I cannot tell you what a fair export price should be."

Thought: Any producer can tell you what the price should be. Cost of production plus a reasonable profit. Until such time that U. S. D. A. starts using "cost of production" as a guide line when formulating new then the producer is going to be the loser when sales are completed. If the foreign buyers cannot pay this price or can buy it cheaper elsewhere, then we

must be content to give up that market, or formulate an export subsidy plan which will pay the producer the difference in the export price and has production costs plus a reasonable profit. We cannot continue to ask the American agriculture producer to feed the world at a loss.

Recent Action by U.D.A. in calling resale loans should not have affected local prices by more than a 5-7 cent drop.

Thought: Some drops in prices offered were as much as 30 cents per hundred. Even if average prices did not exceed 7 cents per hundred, this would mean a loss in excess of 30 million dollars to the nation's mill producers, which we cannot stand!

Statement: "Same action was taken on corn in May, 1968, and it did not affect corn prices appreciably."

Thought: There is quiet a difference in placing an additional supply of a commodity on the market at planting time, when most of the previous years production has been depleted, and placing an additional supply on the market at harvest time when all of the year's production is available and has not been used.

Statement: "Buyers want a constant supply available. If the producers remove their commodity from the market (by holding) at any time during the year, then the buyers will go elsewhere for their needs and the market will be lost."

Thought: Perhaps a "holding action" on the part of the prod-

ucers should be called a "pricing action." The commodity has not been removed from the market, it has only been priced for the market by the producers. The commodity is always available, but only at a price which the producers have determined to be reasonable. If the exporters need 125 million bushels of mill to supply Japan and Israel, the mill producers of this nation will gladly supply it, but at our price, not theirs. What kind of chaos would be caused in the automobile industry if a year's supply of automobiles were dumped on the market during the month of September and the manufacturers said, "Here is my production. You price it and you can have it at any price you wish to give." Agriculture is no different! We deserve the right to price our production.

Thank you for your attention, Mr. Secretary, and I hope that these thoughts might better inform you as to the feelings of

at least some of the grass roots farmers, whose welfare will be affected by any of the actions of the Agriculture Department. We intend to become better businessmen in the market place, Mr. Secretary, and would like to think that we can depend on U. S. D. A. to be for our efforts to obtain fair prices and that U. S. D. A. would help in these efforts.

Respectfully,  
Gerald McCathern

**DARTMOUTH IS STRONGER**

HANOVER, N. H. — Coach Bob Blackman hopes to have an improved Dartmouth College football team this fall.

"We have more returning lettermen (29) that we've had since 1961," says Blackman, now in his 15th season with the Indians. The team had a 4-5 record last season and finished

fifth in the Ivy League.

Co-captains are Ernie Babcock, a defensive end from Milton, Mass., and offensive tackle John Ritchie from Long Beach, Calif.

Coach John Yovicsin of Harvard started five different quarterbacks during the recent Ivy League football season.

**Plan Ahead This Year**

Most of us have plenty of resolutions for the making, but any resolution regarding your health is a resolution well made, advises the Texas State Department of Health.

Plan ahead this year. Maintaining good health requires a little time and forethought, but it's much cheaper and simpler than trying to get well again.

Resolve to lead a balanced life with plenty rest and exercise. Weight lifting or running the mile daily may not be your dish, but almost anyone can take a leisurely walk each day. Simply walking from the supper table to the bed is scarcely enough exercise for any well person.

Resolve to eat a balanced diet.

The Swiss have converted a 14th century mule trail into a 7,320-foot mountain road, the highest open to traffic in Switzerland, but motorists unfamiliar with mountain driving are advised to bypass the steep, narrow road.

The word "taxicab" was coined and copyrighted in New York. "Taxi" came from a French company that made taximetres for horse carriages; "cab" abbreviates the French word cabriolet.

The philosopher Eratosthenes first calculated the earth's circumference with an equation based on the linear distance between the Egyptian cities of Syene now Aswan and Alexandria.

Nutritionists recommend regular mealtimes with some of the basic four each day. Specifically, this includes a meat or meat substitute, bread or cereal, milk or dairy product, and fruit and vegetables—especially one rich in vitamin C. Foods come in many colors, textures and flavors, and can be easy on the eyes and tempting to the plate, as well as fuel for your body.

Resolve to see your doctor and your dentist for yearly check-ups, unless you need them more often. They can detect many danger signs, and in many cases prevent serious problems. Many types of cancer, for example, can often be cured if detected early.

Resolve to see that you and your family are protected against today's preventable diseases—smallpox, lockjaw, whooping cough, polio, measles, etc.... Keep your immunizations up to date.

Resolve to use your head where your health is concerned. Nothing cures everything. Be-

ware the peddler who says it does, or who comes bearing fancy gadgets, radiation cones or super juicing machines. If you're not sure, check with your local medical society or a local health authority.

Resolve to practice good personal hygiene every day of the year. Brush your teeth after meals; take a daily bath; wash your hands before eating or preparing food. A clean body and sanitary surroundings foster healthy living.

In the past one variety of fern was believed to heal wounds and broken bones, another was thought to prevent nightmares and another was considered a prevention for baldness.

In Massachusetts in 1659, it was a crime to be merry on Christmas because Puritan settlers regarded merrymaking as wrong no matter what its reason was a penal offense to celebrate a son.

Europeans grew the potato experimentally as early as the 16th century, but remained highly suspicious of it.

## Gerald D. Grizzle To Visit Hereford's Jehovah Witnesses

Chester Proctor, presiding minister of the Hereford congregation of Jehovah's Witnesses, announced the Tri-Annual visit of circuit supervisor Gerald D. Grizzle during the week of Jan. 27-Feb. 1. The congregation anticipates a week of increased activity and spiritual benefit from Mr. Grizzle's visit. Proctor stated, "The visit is described as part of an advanced training program for Jehovah's Witnesses. The activity scheduled is also designed to encourage more bible discussion by people of all faiths in the community. The program will begin Tuesday at 7:30 P. M. with a ministry training school, followed by a 30-minute discourse by Mr. Grizzle Wednesday through Sunday some time will be devoted to field missionary service each day. Mr. Grizzle will join ministers from the local congregations in making calls on residents in the community. This is part of the regular door-to-door ministry and training program of Jehovah's Witnesses. The Saturday evening program begins at 8:00 o'clock with a bible question period, "New Things learned," which consists of audience participation. A 30-minute discourse by Mr. Grizzle, dealing with counsel for improving one's personal ministry concludes the session. Highlight of the week comes Sunday at 10:00 A. M. when Mr. Grizzle will deliver the public talk, "Trust in Jehovah with all your heart." A congregation/bible study using the Watchtower magazine as an aid, and final remarks by Mr. Grizzle, bringing the week's activity to a close. All meetings will be held at the Kingdom Hall of Jehovah's Witnesses, 319 Ave. I, Hereford. All interested persons are welcome and no collections are taken.

## Auditions For "Texas" Are Planned For Friday

Actors, singers-dancers-technicians-instrumentalists who are in the Panhandle for the Christmas-Holidays may try out for the "Texas" production on Friday afternoon, January 2, 1970. Auditions will start at 1:00 p. m. in the Branding Iron Theatre which is in the Fine Arts Building on the Campus of West Texas State University on Highway 87 in Canyon, Texas. Mr. William A. Moore, the Director, asks everyone who comes to have a short speaking and singing selection ready from memory so that the Committee may hear both the speaking and singing voices.

"Texas" plays from June 26th through August 31st in 1970, nightly except Sunday, and has already been seen by more than 250,000 people in the first four seasons.

It has received acclaim from all parts of the United States, is visited by many travelers from abroad, and is a challenging professional experience for

the members of the company. All positions are salaried, and rehearsals start on the 31st of May 1970.

For further information, write Box 268, Canyon, Texas or call the office of the "Texas Musical Drama" in Canyon, Texas 806-855-2182.

## Letter To The Editor

Dear Sir,  
This Christmas and New Year I will be far away from all my friends in Hereford and I wondered if you could print this message for me in the paper. I would be very grateful, as it would bring us all a little closer together.

To my friends in Hereford, I wish you all a very, very happy Christmas and New Year. I wish I could be in Hereford this year, but as that is impossible I will be thinking of you all.

God Bless,  
Love,  
Sharon Watson

## Citation Issued In Wreck Here

An accident Friday afternoon near the intersection of U. S. Highway 60 and Clement St. resulted in an estimated \$200 damage to the two vehicles involved.

Sustaining damages in the accident were a 1957 Pontiac driven by Manuela G. Montelongo, which was \$50 and a 1967 Mercury driven by Dwight Lee Bogard, which sustained an estimated \$150 damage.

The accident occurred when the driver of one car was stopped on Clement St. and the other car made a turn off of Highway 60 and struck the stopped car in the side.

Investigating officers issued a citation for improper turn.

## Additional Information On Vehicle Registration

Texas drivers will find registering their motor vehicles for 1970 easier than ever before, thanks to a new registration system devised by the Texas Highway Department.

The Department expects more than seven million vehicles to be registered during the year

and there will be several new wrinkles.

First, license plates will have a new color scheme—light blue on a reflective white background.

Second, for the first time, motor vehicles registration renewal applications will be mailed

to every vehicle owner in Texas during January. The registration period begins February 1.

The renewal application will arrive in the mail in a slender envelope marked, "Important—This Is Your License Plate Renewal Application."

The application itself has instructions printed on it. It is a three-part form which should not be torn apart.

When the registration period begins, the vehicle owner need only take the application—and the

fee—to the county tax office. Or he can order his plates by mail.

With the application, he will no longer need to present his certificate of title or the last year's registration receipt.

If he decides to go to the county tax office or a substation, he will find shorter waiting lines. With the application, the clerk will need only to receive the fee, affix to the application a sticker showing the registration number and other data and hand over the 1970 plates.

Some vehicle owners may find it even more convenient to go through the registration process by mail.

Although owners can register their vehicles in person until April 1, there is a March 1 cut-off date for mail registration. This allows 30 days for delivery before 1970 plates must be displayed on vehicles.

If the vehicle owner wants his plates mailed to him, he should send his registration application to his tax collector, with the registration fee plus \$1,

## The Riddle Of Life And Death

Mankind has always been faced with the riddle of life and death.

This problem increases, as does age, along with maturity and broadening responsibilities, says the Texas State Department of Health.

which is the statutory charge for handling and postage.

If the address on the renewal application is incorrect, the vehicle owner should print his correct residence address on all three parts of the application.

The new registration renewal system is the product of an extensive computerization of the Highway Department's motor vehicle registration records.

Initiation of the new system means Texas now has one of the most efficient systems in the nation for filing and registering motor vehicle registrations. Motorist convenience will be one of the greatest dividends of the new system.

Centuries ago, war, famine and infectious diseases plagued man and limited life expectancy to about thirty years of age. Now with social reforms and better health facilities, people are building their plans for a lifespan of seventy to eighty years. Unfortunately, many of man's greatest hopes and dreams are swept away by sudden, unexpected death.

Although accidental death and suicide certainly account for many unexpected deaths in America, the greatest cause is heart disease. In Texas, as well as the nation, heart disease takes the greatest percentage of lives each year.

Presently, research personnel all over the world are trying to find the key that unlocks the gateway to a life free from coronary artery disease.

High blood pressure, elevation of the serum cholesterol, emotional stress, obesity, cigarette smoking and decreased

physical activity have been identified as factors increasing the risk of heart disease. Heredity is probably a factor of equal importance.

Just as diabetes requires people to take certain precautions to avoid serious trouble, it may be that people carrying a high risk of heart disease will one day choose to act accordingly. They could steer away from some enemies of a healthy heart such as inadequate exercise, overweight and cigarette smoking.

Since emotional stress can contribute to the risk of heart disease, don't do it. Have regular physical examinations instead. Your doctor can discover most forms of heart disease in their early stages, but only if you give him the chance to do so. Most serious damage can usually be averted or delayed if the condition is found early and the doctor's instructions are fully carried out.

And if you have heart disease, do what your doctor permits—

no more and no less.

Emergency medical care of a person having a heart attack may mean the difference between life and death. But if preventive measures are exercised earlier, you may avoid, or at least reduce the chances of having coronary artery disease.

**WEATHERSFIELD, Conn.**—Twelve golfers bettered par of 71 for four rounds during the Greater Hartford Open but conquering par on some courses fails to bring sudden riches.

Bob Charles shot rounds of 68, 70, 69, 70 and beat par by seven strokes at the 5,900-yard Wethersfield County Club yet all he won was \$602. He tied for 20th place, nine strokes back of winner Bob Lunn with a 268, by sinking a 23-foot birdie putt on the fourth playoff hole. Lunn earned \$20,000, Hill \$11,400.

# Miss Cooper Of Ralls Is Wed To Paul Drager

Miss Celia Ann Cooper exchanged marriage vows with

Paul Drager on Saturday in the First Methodist Church of Ralls, Tex. The Rev. H. B. Coggin, pastor, officiated for the double ring service.

Parents of the couple are Mr. and Mrs. Al Cooper of Ralls, Mr. and Mrs. Abraham Drager of Hereford.

Mrs. Charles Deats served her sister as matron of honor and the bridegroom's niece, Miss Debra Batenhorst, was bridesmaid.

Richard Bain of Lubbock was best man and Alan Cooper, of Denver, Colo. was groomsmen. Guests were seated by Mike

Williams, James Waldron and Charles Deats.

Arched candelabra set in greenery formed the background for the nuptial setting and white satin bows marked the family pews.

The bride's brother, Eddie Cooper, lighted the tapers.

Given in marriage by her father, the bride wore a formal gown of platinum crepe accented with lace and velvet trim. The Victorian styled gown was fashioned by the bride after her grandmother's dress which was worn by her mother in 1937. Her Juliet cap of pearls and

rinestones, which held a brief veil of illusion, was previously worn by her sister and her mother at their weddings.

She carried a nosegay of white gladiolus and chrysanthemum petals.

The dresses of her attendants were of turquoise satin styled with a fitted bodice and gathered skirt. They wore matching velvet headpieces and carried nosegays of gladiolus petals with pale pink streamers.

Wedding guests were registered at the church by Mrs. Richard Bain.

The reception followed the ceremony in the Fellowship Hall.

The service table was draped with a white organza floor length cloth accented with lace appliques.

An arrangement of pink and white gladiolus with snapdragons and burning tapers deco-

rated the table with the three-tiered wedding cake topped with bells.

Presiding at the table were Mmes. Mike Stevens, Mike Wil-

liams, Steve Gray and Miss Betty Austin.

Other members of the house-party were Mmes. J. B. Pre-witt, Henry Batenhorst, William

Starch, James Stokes, C. B. Hendricks, Walker Watkins, Charlie Cowley, Harold Priddy, Preston Cochran and Wright Kerr.

After a brief honeymoon trip the couple will be at home at 2121 B-3rd Street in Lubbock where they will continue their education at Texas Tech.

## Social Security

Q—Are social security benefits paid at the beginning or at the end of the month?

A—Benefit checks are regularly paid on the third day of each month and represent payment for the preceding month. If the third day of the month falls on Sunday or a national holiday, you receive the check on the second day of the month.

Q—My 73-year-old husband is totally disabled. He receives a social security check. Could he also receive disability insurance benefits?

A—No. He is not eligible for disability insurance benefits. The purpose of disability payments is to provide protection for a worker who becomes severely disabled before he reaches age 65.

Q—My daughter started to college in September. She was in an automobile accident last weekend, and the doctor says she cannot return to school until February. Can she continue to receive her checks during this fall semester?

A—Yes, since she will be out of school no more than four months, she may continue to receive her checks.

Q—When a wife receives her social security on the husband's record, do you issue two checks?

A—No. However, the checks may be paid separately upon the request of the husband or wife.

**IN APPRECIATION**  
We wish to express our thanks to the many merchants and individuals of Hereford who contributed toys for the annual Toys for Tots sponsored by Roy Wederbrook, VFW Post. Also to the Brand for the publicity and KPAN for the spot announcements. Without your help the drive could not have been so successful. Many underprivileged children will benefit because you cared. Sincerely,  
Members of Roy Wederbrook, Post 4818.

Mince pie has been traced to the Crusaders who returned from the Holy Land with exotic spices. A pie containing these spices was thought appropriate as a symbol of the Magi's gifts for Jesus. Superstition has it that refusing a piece of mince pie will bring bad luck all year.

# Makes New Adjustments

BY BARBARA DRYDEN  
Making an adjustment to a brand new town and mobile home living for the first time, is no chore for Mrs. Joe Wheel-ey, who has only been a Here-

ford resident for the past three weeks. She lives living here and has been busily getting settled in her new mobile home and get-ting ready for the holidays.

Adjusting to new surround-ings is easy for brown eyed, auburn haired Sarah Wheel-ey, however, because she has had her share of moving. They lived at Lubbock for a

time, which they still home, during which time they both at-tended Texas Technological University. When Joe graduated last spring, he went into the National Guard and was sta-tioned for four months in Cal-ifornia.

During this time Sarah divid-ed her time between her parents who reside at Tulsa and his family at White Deer.

After Joe had been there for eight weeks Sarah made her first trip to the West Coast to see him. She loves to travel and enjoyed the trip immensely. She was amused at the fact that a Texan can be identified so easily in California. She said, "Just because we say ya'll and yonder, everyone seems to know where you're from."

The Wheel-eyes spent Christ-mas day in Amarillo with Sar-ah's sister and family, then went on the White Deer to see his parents.

Now that Christmas is over and things have settled down, Sarah says she is getting to the point where she has nothing to keep her busy and is planning to find a job. She worked at Methodist Hospital when they lived at Lubbock and thinks she would enjoy the same type of work in an office. She loves to read, especially

She is also interested in astrolog-y and reads as much as she can find on the subject.

Other members of the Wheel-ey family include their two dogs, Eron, a fifteen-month-old German shepherd and Rusty, a little dog Sarah has owned since she was 11 years old.

Joe is employed by Cattle Town Feedlot and loves the out-doors. He is an enthusiastic hunter and fisherman.

Kentucky's Vic Nelson won the Southeastern Conference 19-69 cross country championship over the Roebuck Golf Course at Birmingham, Ala.

After three games this fall all eight Atlantic Coast Conference football teams had been beaten. South Carolina won its first two circuit tests but bowed to Geor-gia 4-16.

**GOOD FOOD IS MY LINE**  
By Red Hagan

I've heard so many people complaining lately about the high prices of meat and the necessity of going on an all vegetable diet to save money that I've become downright impatient with them. Don't they realize that they have cheaply and readily available one of the finest and most versatile of all meats? I'm speaking, of course, of the chicken. Speaking only for myself, I can't think of a more tasty and versatile meat. It's delicious roasted, in soup, stewed, barbecued, fried, hashed, hot or cold. Besides its great versatility of preparation, the chicken can be served with almost any other food. It's so inexpensive these days as compared to other meats. Give yourself a treat and have chicken at your house soon.

A Liberal's Bias

CARL ROWAN, whose syndicated columns appear in this newspaper but do not represent its thinking, shows an increasing bias and dislike toward the Nixon administration that are amusing. He finds virtually nothing in the Nixon regime that pleases him. And he is typical of a journalistic clique in Washington about whom Vice-President Agnew complained.

Rowan doesn't even acknowledge the pursuit of stable prices as a national priority. Instead, he attacks the administration's budgetary skimping as a rancorous campaign against the poor, the aged and the hungry.

He sees Nixon's "new federalism" as a concession to inept, faithless state politicians, and denounces a fair-for-all voter rights law as a grandstand play to the South.

How, he asks, can such a president be president of all the people when it's obvious that he's acting out of these motivations and when it's "appalling ly clear" that he doesn't care about the unfortunates?

WELL, IT'S appallingly clear that a man who can read enmity to the poor, hungry and aged into Nixon's opposition to high increases in Social Security and the personal income tax exemption isn't looking for the truth, but for a partisan reading of events, and doesn't seem to care what happens to the national currency.

It's all too clear that he doesn't respect the truth, either, when he denounces current limitations on food stamps in hundreds of counties as a consequence of White House heartlessness. The stamps are distributed by a law Nixon inherited — but which he is presently in process of overriding by ordering stamps distributed everywhere Rowan should be praising him — but it would spoil his case.

It would spoil his case, too, to acknowledge that a voter law (which has passed the House at Nixon's urging) banning literacy tests everywhere is a fair one. The law has to be interpreted by Rowan as a sneaking campaign to appease the Southern electoral base — and encourage it to renew discrimination against blacks.

In Rowanese, that's proved in part by the administration's lining up with Mississippi before the Supreme Court to ask for more time to mix.

WORST OF ALL, perhaps, Nixon did nothing, says Rowan, when the poverty war had a knife at its throat in the shape of a campaign to turn it over to the states. Note well that Nixon didn't back this campaign. In Rowan's view, he just didn't fight it hard enough because he didn't yell louder than he did that he wanted a simple 2-year continuance — which was the same thing that Rowan wanted and what the country will get.

Rowan wanted the poverty war kept federal because he says he's seen how special education funds for the poor have been misspent by the States. There is no boldness, effectiveness or justice found in the states, he thinks — only in Washington, and then, presumably, only when the Democrats hold the White House.

Rowan's summary of what's wrong with Nixon is as good a case as we can imagine for the country's denying his party the White House last fall — and as fair a warning as we're likely to get that the out-of-office liberals are out there waiting. They never change.

White House Conference

All of the quackery aside, what we need in this country is for this "silent majority" we've been hearing so much about lately to speak up as a great voice of reason.

The rise of the Nazis in pre war Germany was blamed greatly on the failure of good people to speak out — and the many people who went along with their government, right or wrong, until the time came when they had no choice but to obey every order, every command.

We eventually vanquished the horror which resulted; yet, we find elements in our own government today attempting to stifle dissent voice protesting several of our national policies, especially the war in Vietnam. These voices are at once moderate and radical, but treated almost exclusively as the latter for the purpose of rallying the country's silent millions.

For the radicals of both the right and left, some recommended reading. Those to the right might try "The Gestapo." For those who have some kind of misguided notion that communism beats America's system of government, as it was originally designed, they might try "The Penkovskiy Papers." Or they might try the more recent account of "Why I Left Russia."

We find it difficult to believe that our system of government and communism, so diametrically opposed, are alike in their efforts to suppress dissent, be it of a vocal minority or perhaps even a silent majority. To not be so compared, the United States' administration should make every effort to maintain an open forum, for a free exchange of every idea which exists in our nation today. We even go so far as to suggest that the best way this could be accomplished is by convening by a special White House conference on the war effort, to hear out every faction, rather than continuing the present course of polarizing the nation.

As much as we're tired of radical, unreasonable demonstrations, we're equally tired of jingoistic smokescreens — of hearing opposition to an undeclared war being termed treason, for example. Honoring the voices of reasonable spokesmen, whatever their view, would do much to end all the radical nonsense of a frustrated few both far right and far left. — Wayland (Mass.) Town Crier

Supermarket Razzle Dazzle

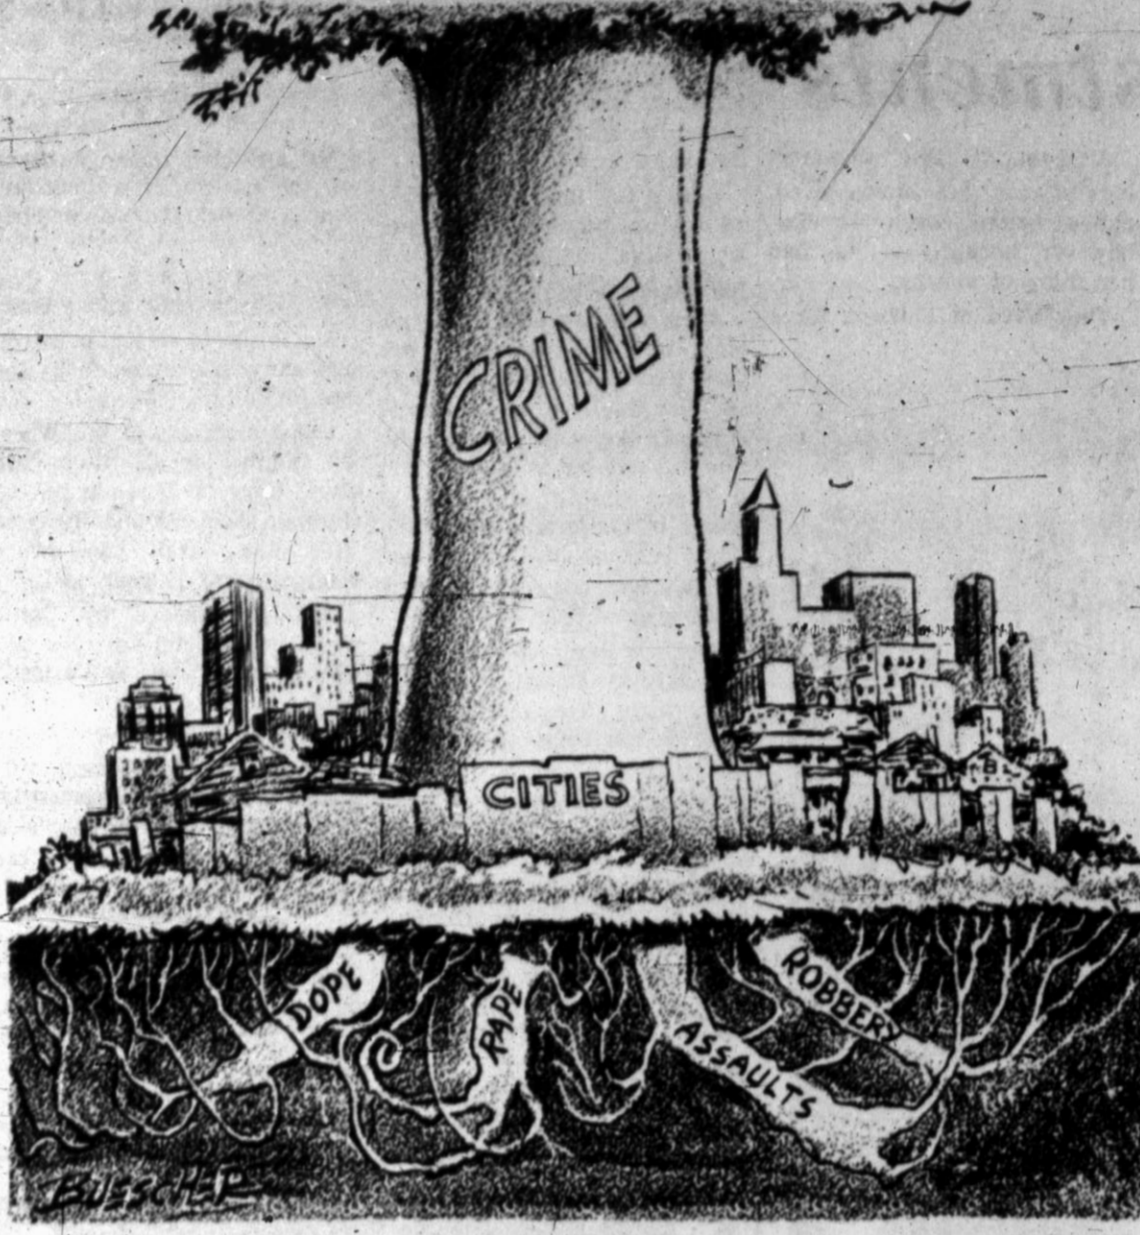

Psychologists have discovered that when women enter a supermarket their eye-blink rate slows down. And now Newsday's consumer affairs reporter has gathered some evidence that suggests why: they're not fascinated, they're stunned. The mind simply boggles at the task of making sense out of the bewildering array of packages.

It is now two years since the Fair Packaging and Labeling Act went into effect, yet our Miss Cerra was able to offer an archetypical example of tricky packaging. She noted three packages of tooth paste, all weighing the same — three and a quarter ounces. One was labeled giant, one large size and the other medium size.

And that's just a (excuse the expression) small example. There are 57 different sizes of tooth paste on the market.

Anyway, for best results, see your dentist twice a year. — Garden City (N.Y.) Newsday

Society is at last beginning to delve, somewhat, into what has been called the "battered child syndrome." This refers to the deplorable fact that, even in this enlightened day and age, there are children, mostly babies, who are severely beaten and battered by their parents. Here is an international social problem, confined to no race, religion or income stratum. — Christian Science Monitor

Highlights And Sidelights

Life Corps Choir Was In Austin For Christmas

BY VERN SANFORD  
AUSTIN, Tex.—Highlight of the Holiday Season at your State Capitol always is the annual Christmas party for employees and state officials, held in the House of Representatives. Featured at this year's festivities was a children's Life Corps Choir from Mexico City and Texas.

Climax of the revelry always is the group singing of Christmas carols around a giant Christmas tree, erected in the rotunda. This year's tree is 32-feet tall, and decorated with brilliant, colorful light. It is so huge and so heavy that a crew of workmen had to hoist it into place with guide ropes secured to the second floor balcony. Watching them erect it got everyone in the holiday spirit.

After the giant tree went up, Gov. Preston Smith and the Lady lighted the Mansion tree—a 22½-foot lace cedar. It was donated by a retired Central Texas couple, Mr. and Mrs. George Doss Sr. of Gay Hill near Brenham.

Thousands of Texans make the annual pilgrimage to the statehouse to admire the beauty of

the capitol building and the matching attractiveness of Congress Avenue and the Governor's Mansion.

WHAT? A TAX CUT!—While most taxes go up, the state unemployment insurance tax paid by Texas employers will go down again in 1970—for the third straight year—according to the Texas Employment Commission.

Tax rate of employers will be reduced 1.2 per cent from the calculated experience rate effective January 1, reports W. S. Birdwell Jr., employer representative on the Commission. Under the law, when the unemployment compensation fund exceeds \$300 million, as of October 1, the rate must be reduced. This October it totaled more than \$355 million.

So, payroll tax paid by the employers will be about \$23 million less. Not all employers will benefit. About 65 per cent already have earned the minimum 0.1 per cent. But some 23,000 firms will pay a smaller payroll tax. More than 90 per cent of the covered employers will not pay the minimum 0.1 per cent.

Overall average tax rate for

unemployment insurance paid by Texas employers is about half the average for all states.

MORE CRIME—FIGHT FUNDS ALLOTTED—Governor's Criminal Justice Council has recommended allocation of \$50,025 in federal funds to fight crime. Money comes from the \$1.1 million action fund granted Texas by the Federal Omnibus Crime Control and Safe Streets Act of 1968.

Grants went to Caldwell (\$84 for photo equipment); Grayson County (\$2,344 for police firing range equipment); Smith County-Tyler Council of Governments (\$5,520 for regional training program); Lower Rio Grande Valley Development Council at McAllen (10,800 for police training); Lubbock County (\$2,520 for a probation survey); Madison County (\$442 for photo management workshop); Texoma Regional Planning Commission (\$6,000 for a teletype network) and Washington County (\$165 for a fingerprint camera and kit).

Congress considers funding the program this year with \$250-275 million, including \$9 million for Texas.

WATER QUALITY PLANS TOLD—Twenty three northeast Texas towns and corporations have told the Texas Water Quality Board their plans for improving waste discharges.

Mayors and managers were invited to report on what they are doing to improve water quality. Board also conducted hearing on a proposal to require self-reporting from firms and cities that now discharge waste materials.

SAFE DRIVING URGED — Governor Amith has appealed to Texas drivers to use "utmost caution" during coming holiday season.

Department of Public Safety estimated traffic crashes in state during the Christmas-New Year period may claim as many as 87 lives.

Both the governor and the DPS said that this tragic toll can be averted if Texans will "drive safely and realize that no one is immune to a traffic crash."

Smith declared "a State of traffic safety emergency" through January 5.

APPOINTMENTS — Governor Smith has named the 15 members of the new Teachers Professional Practices Commission.

They are Mrs. Christine Higginbotham of Houston, Mrs. Margorie Jewel Bays of Mesquite, Mrs. Doris Jewell Harris of Abilene, Mrs. Jacqueline Bramwell Brown of El Paso, Mrs. Naomi Olivia Press of McKinney, Stephen Albert Fey of Beeville. See CHAIR, Page 7

THE BOOTLEG.  
—Philosopher

Editor's note: The Bootleg Philosopher on his Johnson-grass farm has discovered that Christmas is here again. His letter this week reveals.

Dear editor: Although they're generally drowned out because people's instincts frequently are more accurate than their thoughts, still there are always a few around this time of the year who say all this gift-giving has gone too far, that Christmas has become just a big commercial blast, that people would do better to spend their money more usefully.

Well, possibly so, but the same probably was said about a group of wise men, numbering three I believe, who showed up with some gifts one time. After all, what use are myrrh and frankincense to a newborn babe?

Now me, I believe in gift-giving so strongly that for years I've been working on a plan where everybody figured out what Christmas cost him; then put it alongside what he got, and if he came out on the short end, the government, in the spirit of the season, would make up the difference, but so far the only response I've gotten out of all the politicians I've mentioned this to is a Christmas card.

Oh, one did write a brief note saying he doubted it would show fiscal responsibility, but thunderation, if you're going to be financially responsible at this time of the year you'll wreck the whole idea. Obviously he didn't have the Christmas spirit.

Reforming Christmas is sort of like reforming society. It reads good on paper but nobody ever seems to pay much attention to it, people just go on being people.

Merry Christmas, this year and from now on, too. Yours faithfully, J. A.

Talk of Texas

By JACK MAGUIRE  
FOOTNOTE TO HISTORY — Affairs of the heart in early Texas sometimes lead, as they do now, to one lover murdering the other.

Occasionally, as in Jefferson's famous "Diamond Bessie" murder in 1877, the guilty party was found, arrested and tried. More often than not, however, the suspected killer was never seen again.

The grave of the pretty victim of one such murder as been tended by the good people of Grandview, Johnson County, for more than 102 years now. All that is known of the grave's occupant is that she was called "Annie," that she was traveling by horseback with a handsome stranger and that she was found murdered at their campsite outside the town on June 1, 1867.

Townpeople buried her under a stately oak in which they also hung the red riding habit that she had been wearing. Weeks later, two large stones mysteriously appeared at her grave overnight. On the large one at her head, the name "Annie" was scrawled in blood. It was assumed that the lover who had killed her was responsible for the macabre markers. He was never found.

The two stones marked the grave until 1966 when a modern granite tombstone was erected to mark the resting place of the nameless girl who gave her life for love.

STATE OF STATISTICS — Rockwall, Texas' tiniest county, has only 417 square miles. Brewster, the largest county, sprawls over 6,206 square miles of West Texas.

SWEET SIN — Flat, the town built by gamblers, prostitutes and bartenders to serve old Fort Griffin in the 1870's, boasted one drinking emporium known as the Bee Hive Saloon.

Lottie Dens, the beautiful and mysterious lady of the evening who ran the place, had a crude drawing of a beehive entwined in honeysuckle and with bees swarming over it painted behind the bar. Under the drawing was this verse:  
In this hive we are all alive —  
Good whiskey makes us funny.  
If you are dry, step in and try  
The flavor of our honey.

LONE STAR TRADEMARKS — George Rienstra, the Dutchman who founded Nederland in 1897, would feel more at home there now than he did then. The only authentic Holland windmill in Texas was dedicated in Nederland last summer.

The three-story windmill, with 60-foot revolving blades, cost \$25,000. The community's 18,000 people "went Dutch" to build it, conducting all sorts of fund-producing projects to raise the money. It was worth it. This year, an estimated 50,000 tourists will visit Nederland's unique trademark.

TRAVELING TEXAS — La Villita, the downtown section which San Antonio has restored to look like it did in the 1800's, has one of the few practicing free form glassblowers left in Texas.

Larry Williams, who is one of about 5 of these talented craftsmen left in the U. S., has operated his La Villita shop since 1947.

... from the Brand's files

65 YEARS AGO—1904  
The local railroad committee met with J. R. Ransom at the office of Murchison, Thompson & Co. the first of the week to ascertain what would be done in the way of closing the contract for the right-of-way and the cash bonus of \$15,000. A change was made in the ownership of the BRAND this week by which E. C. Edwards becomes financially interested in the paper.

30 YEARS AGO—1938  
The first result of the recent move of the Federal Fuel Administration in curtailing the use of coal and in rationing its distribution was felt locally when T. B. Gallagher outlined the severe coal situation. Real winter weather has been our lot the past week. We have had some three inches of snow and a temperature that reached about four above at one time.

25 YEARS AGO  
Not only will the Whiteface of Hereford High be chasing a bi-district championship next Friday when they play Shamrock's Irish—they will also be hunting revenge. A year ago, the Irish came to Hereford for a district championship game and won 7-0 when a blocked punt was ran back 86 yards for a touchdown. A hi-jacking that almost turned out to be a kidnapping started in Clovis and ended just west of Hereford Tuesday morning. Merritt Bell, a Clovis taxi driver, was forced at the point of a gun in the hands of a passenger to drive from Clovis to within a few miles of Hereford.

20 YEARS AGO—1948  
Representing only 90 per cent of this year's crop, only 2,500 bales of cotton have been ginned at Hereford Cotton Gin, said manager John McClesky Wednesday. No damage resulted Wednesday afternoon at a grass fire on the west end of Veteran's Park. About twenty Hereford Shriners and candidate J. W. Robinson, Jr. attended the fall Ceremonial during which 96 candidates from the plains area were initiated in Amarillo Monday. Delbert Bowles returned home this week after a 90-foot non-stop flight from one of Pitman's elevators to the ground.

5 YEARS AGO—1964  
Winter laid its coldest fingers on the Hereford area this week, sending the mercury skidding into the teens early Friday after spreading a thin white blanket of sleet and snow over this section of the Panhandle this week. Postmaster Grady reports that the Post Office Department is confidently prediction that the volume of mail during this year's Christmas rush will hit a record high. Dudley Lynch, 24-year-old journalism graduate of Eastern New Mexico State University, has been named to the post of news editor of the Hereford Brand.

MISS DONNA OLSON WEDS

In Impressive Ceremony

Marriage vows of Miss Donna Kay Olson and Larry Baggette of Albuquerque were spoken in a double ring ceremony at the First United Methodist Church here at 6 p. m. Saturday, with the Rev. Clifford Trotter officiating. Parents of the couple are Mr. and Mrs. George Olson of Hereford and Mr. and Mrs. Leroy Baggette of Albuquerque. A pair of spiral candelabra and two seven-branched candelabra with tall white tapers flanked a bouquet of white carnations and pompon chrysanthemums at the church altar. White satin bows marked the family pews. Miss Darlene Sparkman attended the bride as maid of honor and the bridegroom's sister, Miss Sherrie Baggette, as bridesmaid. The best man was John Henderson of Albuquerque and groomsmen were Steven Olson, brother of the bride, Ushers were Denny Bart and Bill Russell of Albuquerque. Miss Lois Marie Dunn of Portales, N. M. played the traditional wedding marches and other musical selections. Escorted down the white bridal aisle by her father, the bride wore a formal gown of bridal satin and Chantilly lace designed with a fitted bodice and full lantern sleeves. Sequins and seed pearls enhanced the scalloped neckline of the gown and were scattered on the front of the bodice. Her A-line skirt swept to back fullness and extended into a chapel train which was bordered with Chantilly lace. Her veil of illusion was held by a silk petal coil outlined with seed pearls and she carried an all-white cascade bouquet of Sweetheart roses and carnations. Her only jewelry was a single strand of pearls. The feminine attendants wore empire gowns styled with pale pink bodice and slender skirts of deep pink. They featured sheer Juliet sleeves and they wore hot pink veils of silk tulle held by a matching coil. They carried nosegays of pale pink carnations with matching streamers. A reception followed in the Fellowship Hall where guests were registered by Miss Jan McCullough. Silk organza over satin covered the serving table which was centered with the bridesmaids bouquets. The four-tiered wedding cake was decorated with pink rosebuds and surmounted by the traditional bride and groom. Cake was served by Miss Kathy Lee and punch was ladled by Miss Debbie Webb, both of Tucuman. Other members of the house-party included Mmes. J. J. Durham, Floyd Cline, Spicer Gripp, David Brumley, Preston Dunn and G. W. Duncan. After a wedding trip to El Paso the couple will be at home Jan. 2 at 68 West Campus, Portales where they are students at ENMU. The bride's traveling ensemble was a gray and yellow hounds tooth coat and dress with gray accessories. Her white rose corsage was lifted from her bridal bouquet. Out-of-town wedding guests were Mr. and Mrs. Preston Dunn of Portales, Mr. and Mrs. Calvin Dunn, Artesia; Mr. and Mrs. O. D. Williams, Mr. and Mrs. Joe Green, Amarillo; Mr. and Mrs. J. R. Dodson, Mr. and Mrs. C. C. Stewart of Canyon; Mr. and Mrs. Jim Lindsey of Forth Worth, Mr. and Mrs. C. F. Benton of Plainview; Mr. and Mrs. H. T. Hamblen of Wayside and the Leroy Baggettes of Albuquerque. Concerning Veterans EDITOR'S NOTE: Veterans and their families are asking thousands of questions concerning the benefits their Government provides for them through the Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office. Q—The King retirement benefits I receive each month from my former employer are to be increased. If this increase makes me ineligible to receive refuse to accept the increase in order to remain on VA pension rolls? A—No. Your refusal to accept the monthly increase on your retirement from your former employer would constitute an unauthorized waiver. However, the law provides that 10 percent of all retirement income is not counted as income for VA pension purposes. Q—How long will the VA pay training assistance allowance to a veteran who is in a four-year apprenticeship program? A—Training assistance allowance will be paid for 36 months, or to the expiration of the veteran's entitlement. The amount of the allowance is reduced at the end of the first three six-month periods. Q—I am a serviceman enrolled in a half-time course in a near-by school. Will the VA pay the full cost of tuition? A—The amount you receive through the VA may not cover the complete cost of your schooling. You will be paid either the cost of the course, or at the rate of \$60 a month for a half-time course, whichever is less. Q—I was released from the Army six months ago. Can I get dental care through the VA? A—A veteran has one year from the date of his release from active duty to apply for dental care from the VA. If he applies within the first six months, it is presumed that his dental condition is service-connected. MARSHALL TO ASSIST NEW YORK—Don Marshall, 37, with 15 seasons in the national Hockey League, is assisting Emile Francis in coaching the New York Rangers this season. Marshall, who can play anywhere on the ice, needs 16 more goals to reach No. 250. Last year he played in his 1,000th league game.

**Taxpayers Ask IRS**

This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q-I paid someone to help me with a holiday party. Is what I paid subject to the Social Security tax on household employees?

A-Probably not. The tax on household employees only applies when cash wages of \$50

or more are paid to a person for household services during a three-month calendar quarter. If what you paid the person you hired to help out at the party came to \$50 or more, then you would be liable. You also would be liable if you had employed the same person other times this fall and your total payments amounted to \$50 or more during October, November and December.

Use Form 942, Employer's Quarterly Tax Return for Household Employees, to report and pay this tax by February 2, 1970. The tax rate is 4.8 percent for the employer and 4.8 percent for the employee.

Q-When is a year-end dividend on stock taxable, the year it is declared or the year it is received?

A-A dividend, like other income, is generally taxable the

year it is received. In the case of year-end dividends, the stockholder usually doesn't receive his check until the following year. This would make the dividend taxable the year following the one in which it was declared.

Q-Does inherited property have to be reported on my income tax return?

A-No, this does not have to be reported. However, if the property is sold later for more than its fair market value when the decedent died, then the gain on the sale has to be reported.

Q-I have an expense account and make several business trips a year for my company. How do I handle this for tax purposes?

A-As a general rule, include reimbursements and allowances for travel, etc., expenses in your income. However, you do not have to report this on your tax return if you account to your company for your expenses.

If your reimbursements exceed your expenses, then the excess must be reported as income on your return. If your allow-

able expenses exceed your reimbursements, report the reimbursements as income, but also deduct the expenses.

Q-My husband is in Vietnam. Are we required to file a return?

A-No, you may wait until 180 days after he leaves Vietnam before sending in your joint 1969 income tax return.

If you do want to file a joint return earlier because you are expecting a refund, indicate in the space where your husband would sign that he is serving in Vietnam.

Q-Some of my income is from a little farm, though most of it comes from other sources. Do I have to file my income tax return in February instead of April?

A-The February requirement only applies to those who receive at least two-thirds of their gross income from farming or fishing and who did not file declarations of estimated income tax and pay the tax due by January 15th.

These farmers or fishermen have to file their income tax returns and pay the balance due in full by February 15th, to avoid an addition to their tax for underpayment of estimated tax.

ponent parts of "units of government" under Texas Tort claims Act and liability of personnel for damage suits would be responsibility of the creating governmental units, Atty. Gen. Crawford Martin recently held.

In other new opinions, Martin concluded:  
 State Highway Department may purchase personal injury coverage for its employees within specified limits.

"Parking fees charged University of Houston students is a voluntary student assessment, rather than compulsory service fee.

PUBLIC SCHOOL EDUCATION - A group of private citizens is distributing an eight-page booklet summarizing the results of the controversial report of the Governor's Committee on Public School Education (COPSE). Booklet includes a rundown of the accomplishments to date and those that became law even in a modified sense. It also advocates action on the "additional improvements proposed by COPSE which are still needed to give Texas a first-class public school system." Included in that section are the proposals for tax equalization and consolidation of smaller schools that raised so much furor during the legislative session.

CARGO PERMIT ASKED - Texas Aeronautics Commission held hearing on application of Lubbock-Amarillo Armored Service Inc. for permit to transport

cargo by air.  
 Flights would be coordinated with firm's 82 armored security cars. Cities served would include San Angelo, Brownsville, Midland-Odessa, Big Spring, Amarillo, Lubbock, Abilene, Dallas-Fort Worth, Austin, Waco, San Antonio, Corpus Christi, McAllen, Harlingen, Beaumont, El Paso, Galveston, Houston, and Wichita Falls. Two existing lines opposed application.

SHORT SNORTS  
 State Rep. Bob Armstrong of Austin has announced that he will run for Land Commissioner against the incumbent Jerry Sadtler, who plans to seek re-election.

Harris, Dallas and Lee Counties have been placed under federal quarantine for hog cholera as a result of an outbreak of the swine disease.

Texas Supreme Court has licensed 251 new attorneys.  
 Sen. Criss Cole of Houston, the only blind member of the Texas Senate, will be Governor for a day on Jan. 10.

Nearly half of Texans eligible to vote - about 1.5 million - already have registered, according to State Democratic Executive Committee.

The French word for Christmas, "Noel," comes from "noelle" or "novelle," old French for "news." It allegedly came from the angels' carol announcing Jesus' birth. Later carols were sung by men and celebrated the "news" the angels had brought.

# Native Of Texas Returns To Dallas

Being Texans, perhaps we may be interested in reading the story about a native of Texas who returns to Dallas to visit kin and discovers how difficult it is to leave Texas for New York and return only to face memories and an irrevocable change of life. Another novel tells of the unhappy life of Wade Coley, king of country music. These and many others may be found at the Deaf Smith County Library.

**FOLLOW THE RUNNING GRASS**

by Georgia McKinley  
This is a novel about Dallas, Texas and its natives — those who have stayed, those who have left to live elsewhere, and those who have tried to return. In it Georgia McKinley tells the story of Delmon Goods, a liberal-minded New York lawyer who reluctantly revisits his home in Texas to see his aged dying mother and is unexpectedly forced to search his own soul. What he finds there irrevocably changes his life.

The history of Delmon's family is skillfully threaded throughout the book, woven into the fabric of his agonizing present. Moving back and forth in time, the novel introduced four generations of Delmon's kin, from his pioneer grandfather, whose children raised themselves in the wilderness, to his hulking John Bircher nephew, Baby Boy, who lives off the air-cooled fruits of superpulpulence, these, the "pure" Texas, lock hands against intrusion as Delmon struggles to maintain his hold on the life he has made for himself and his family in New York.

Follow the Running Grass brilliantly captures the Texans' awareness of the dramatic, rugged country they live in — their awareness of its history as a living presence, even in the Dallas of the late 1960's, a glittering, totally modern, overpowering city that to the casual visitor might seem to have sprung

from the dry plains as if by magic. The feel of the place and its people, their speech, customs, their violence — set down here by an extraordinarily talented storyteller — could come only from the pen of a native Texan, one who knows what is at stake when Texas strikes out against Texan.

**HIGH LONESOME WORLD**

by Babs H. Deal

His name was Wade Coley. He wasn't handsome. He was sick. He looked sick. He could be crude and common and mean. But the music came out of him and was created by him and it was part of him. He sang like an angel. Devil. Something not quite human, a n-y-way. That high lonesome sound. That high lonesome world he created out of his voice. "Weep all you little rains, wail, wails, wail. All along, all along the Colorado Trail."

In the short, unhappy life of Wade Coley, celebrated king of country music, that high lonesome sound reached out and captured the imagination of millions and wreaked its blessing and its havoc on the few who knew him best. In this remarkable novel these last speak out, in antiphonal chorus, of their betrayal, desolation, hopeless bleak landscape of remote county places and little towns, while the faceless crowd that raised him up moves into complete destruction.

Aluminum goes into everything from airplanes to beer kegs, from skyscraper walls to kitchen foil, from sea-going ships to automobile radiators, from bridges to bottle caps.

# Miss Alyce Lena McClain Wed To Robert Dawson

The Palo Duro Baptist Church of Wildorado was the setting for the 5 p. m. wedding Saturday of Miss Alyce Lena McClain and Robert Alan Dawson of Fort Worth. Officiating for the double ring vows was the Rev. Davis Harrell, pastor of Little Lake Baptist Church, Norwalk, Calif., brother-in-law of the bride.

The bride is the daughter of Mrs. J. T. McClain of Wildorado Dawson is the son of Mr. and Mrs. D. A. Dawson of Tulla and the late Mr. McClain.

Arched candelabras entwined with greenery formed the background for bouquets of white gladiolus and red carnations centered with the kneeling bench at the altar.

Matron of honor was the bride's sister, Mrs. Charles Montgomery of Minneapolis, Minn., and bridesmaids were Miss Carol Gandy, Plainview; and Mrs. Jerry Neill, of Dallas, sister of the bridegroom.

Best man was John Carkeet of Houston and groomsmen were Charles Montgomery and Gary Burk of Amarillo. Ushers were Joe Moore, Stephen Harrell, Don Flynn and Scott Fort.

Jill Moore, daughter of Mr. and Mrs. H. D. Moore, was flower girl and ring bearer was Roger Lewellyn, son of Mr. and Mrs. Pat Lewellyn. Candle lighters were Troy Harrell and Al Moore.

Wedding music was furnished by Wade Crist, pianist, and Jerry Neill, vocalist. Selections included O Perfect Love, The Greatest of These Is Love and Wedding Prayer.

Given in marriage by her brother, H. D. Moore, the bride wore a formal princess styled gown of peau de soie with a detachable chapel train. Her veil of bridal net was attached to a crown of seed pearls and she carried a bouquet of white roses.

The feminine attendants wore street length dresses of red crepe in A-line silhouette and carried a long stemmed white rose with white headpiece of red roses.

A reception followed in the Fellowship Hall where wedding guests were registered by the bride's sister, Miss Darleen Moore.

The serving table was laid with red net over white, and held a red carnation centerpiece. The three-tiered wedding cake was decorated with red roses and topped with the traditional bride and groom.

Presiding at the table were Mrs. Wallace Shelton, Mrs. Jimmy Newton and Mrs. Joe Carthel.

Other members of the household included Mrs. A. D. Moore, Mrs. Pat Lewellyn and Mrs. Davis Harrell.

Medieval laws in France, Italy and the British Isles endorsed Leap Year privileges for unmarried girls, even to the point of fixing single men who declined an offer of marriage.

CENTURIES AGO--AN ANCESTOR OF MINE BROUGHT BACK THIS GOLD FLOWER FROM THE 'GOLDEN PEOPLE' THAT'S ALL WE KNOW.

GEE, I WONDER WHO THEY WERE?

WHAT DID YOU LIKE BEST IN THE CAVE?

THE LITTLE SNAKE IN THE BOTTLE!

THAT BIT WHAT'S HER NAME!

CAN'T I RIDE HIM?

NOT TODAY, REX. HE NEEDS A LONG RUN, AND I'M TOO BUSY TO EXERCISE HIM.

OFF YOU GO, BOYS!

HERO AND DEVIL LEAVE THE DEEP WOODS.

JUNGLE FOLK ARE USED TO THE SIGHT OF THE GREAT WHITE STALLION AND THE MOUNTAIN WOLF--

EVEN GREAT CATS FEAR HERO'S SHARP HOOF AND DEVIL'S GREAT FANGS!

NIGHT--NO SIGN OF HERO OR DEVIL. THEY'RE USUALLY BACK BY NOW!

DON'T WORRY, DADDY-O, I JUST MADE THE SCENE, MYSELF! IF SHE WAKES UP I'LL ABSTAIN FOR YOU--

HI, AUNTIE MAGGIE! DADDY-O AND I JUST CAME FROM A HAPPENING!

HOW NICE! I'M SO GLAD YOU TWO MEN ARE DOING THINGS TOGETHER--

AT TIMES I WAS AFRAID YOU TWO DIDN'T LIKE EACH OTHER--

LIKE WE FINALLY BRIDGED THE GENERATION GAP--

WHO ELSE WAS AT THE HAPPENING, DEAR?

LAST NIGHT IN BACK OF THE LIBRARY I KISSED JO ANN SCHWARTFAGER

G-GOLLY!

JO ANN'S SO PRETTY AND POPULAR AND ALL. HOW DID YOU EVER GET UP NERVE TO ASK HER FOR A KISS?

I DIDN'T ASK HER.

WE WERE JUST STANDING THERE LOOKING AT A HISTORY BOOK...AND, SUDDENLY, I DON'T KNOW WHY.... I KISSED HER... JUST LIKE THAT!

PUT 'ER THERE, CHIP. ANY GUY WHO CAN KISS JO ANN SCHWARTFAGER, HAS GOT GUTS! REAL GUTS!!

YEAH... WE'LL SEE YOU TOMORROW...

THERE'S GUS HOLCOMB'S PLACE, BROTHER. I WONDER HOW MANY COWS AND CHICKENS HE'S GOT.

SEE IF YOU CAN FIGURE IT OUT, I COUNTED 78 LEGS AND 35 HEADS.

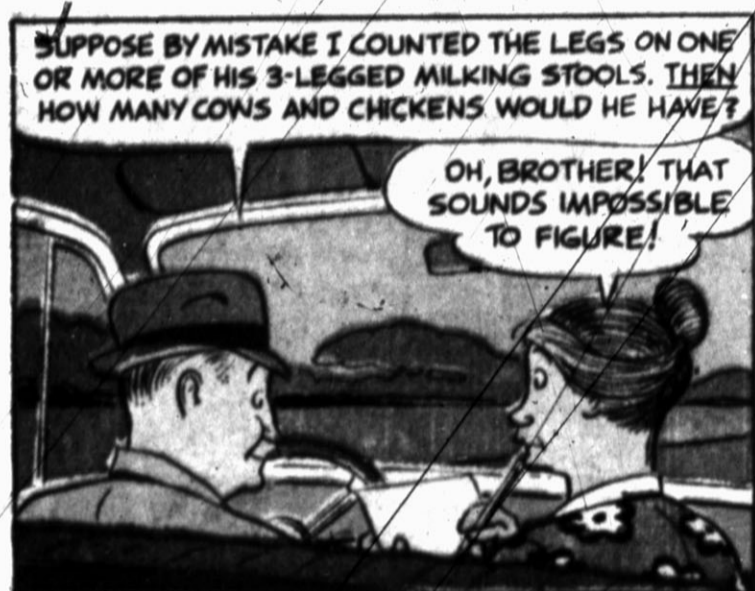

BUT, BROTHER, THE COWS AND CHICKENS WERE ALL MIXED UP!

SURE... BUT IF YOU USE A PENCIL AND PAPER YOU CAN SOLVE THE PROBLEM.

I THINK I'VE GOT IT! GUS HAS 4 COWS AND 31 CHICKENS!

THAT'S RIGHT! LET'S SEE IF I CAN MAKE THE PROBLEM A LITTLE HARDER.

SUPPOSE BY MISTAKE I COUNTED THE LEGS ON ONE OR MORE OF HIS 3-LEGGED MILKING STOOLS. THEN HOW MANY COWS AND CHICKENS WOULD HE HAVE?

OH, BROTHER! THAT SOUNDS IMPOSSIBLE TO FIGURE!

I'M HUNGRY. WHEN ARE WE GOING TO HAVE DINNER?

MAKE YOURSELF A SANDWICH, BROTHER I'M BUSY WITH THIS PROBLEM.

3 A.M. WAKE UP! I'VE GOT IT, BROTHER! 1 COW, 2 STOOLS, AND 34 CHICKENS!

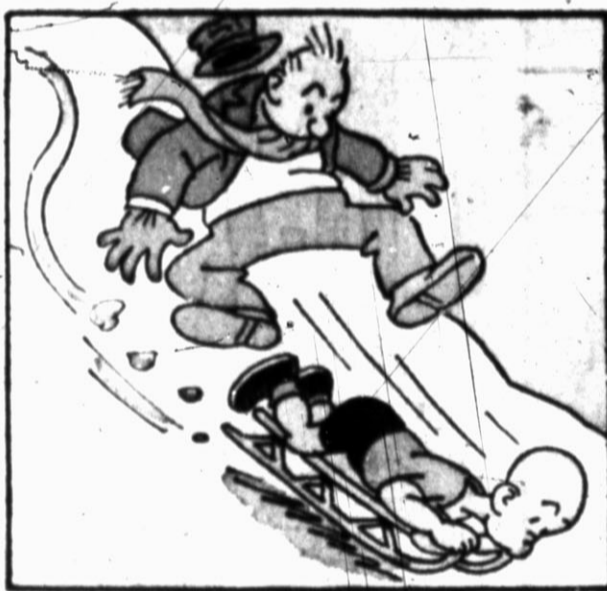

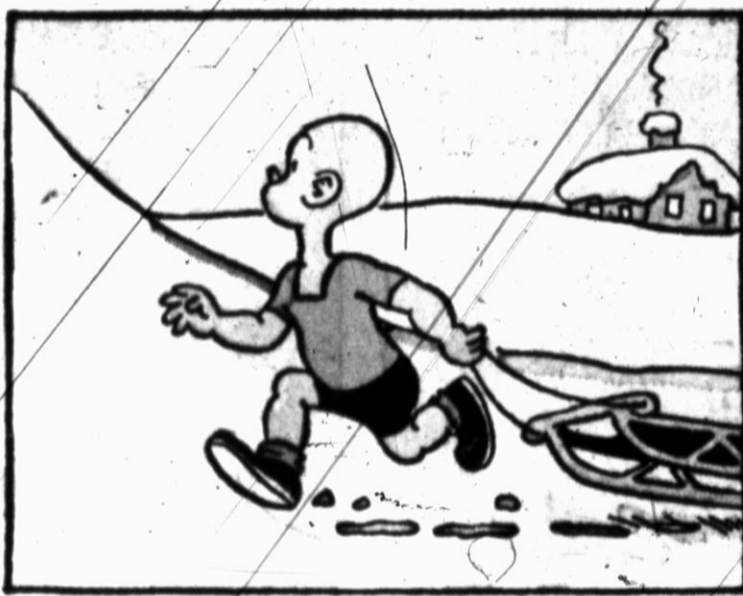

AND COUNTING ME, 1 JACKASS FOR STARTING THE WHOLE THING!
