

The Hereford Brand

TUESDAYS—TWICE-A-WEEK—FRIDAYS

21st YEAR, NO. 21.

HEREFORD, DEAF SMITH COUNTY, TEXAS, MAY 24, 1921.

Hereford Has Enjoyed Inspirational Week

FIRST FIVE DAYS CHAU-TAUQUA VERY PLEASING; LARGE AUDIENCES ATTEND

HAWAIIANS MOST POPULAR. PLATTENBURG MAKES HIT, ADRIAN ASTONISHES, BAND GOOD BUT TOO STIFF

"BROADWAY JONES" IS APPROVED

Clean Cut Plot and Clever Acting Calls Forth Repeated Applause From Largest Crowd of Week. The Wells Co. is Voted one of Best of Program. Chew Popular

Five days of the 1921 Redpath-Horner Chautauqua had passed through Monday of this week with the two last days' programs to come, and taken as a whole, the people seem to have been mightily pleased with it. Speaking frankly, the good people of Hereford, in common with all people everywhere, have been under such a financial and mental strain for some time past that they are not as warm-footed on anything as they are wont to be. But the lack of bubbling enthusiasm of past seasons is readily understood by the chautauqua people, as well as by the local critics, and the chautauqua program as a whole has met with popular commendation.

Tuesday's program included the big Philharmonic Orchestra, and Clarissa Harrold, a reader, and the last day John Temple Graves, an orator of over twenty years' renown, and the Montague Light Opera Company.

The Grenadiers
The Grenadiers, the second musical offering on the program, turned out to be a nine-piece band, beautifully costumed, with military features predominating, and with solo and ensemble vocal work on the side. All were artists and some wonderful music was produced. Following as they did on the heels of the Hawaiians, professionals who know how to "put it across" the footlights and reach the audience, they suffered somewhat by comparison, not through lack of ability but because they appeared a bit stiff and did not make friends with the audience as readily as their predecessors. Their work was appreciated, however, to the fullest. Looking at it from a box-office standpoint solely, more popular approval might have been obtained had more popular music been used.

Henry A. Adrian
At night a packed tent listened to a short prelude by the Grenadiers and then for nearly two hours were held spell-bound while Henry A. Adrian, friend and co-worker of Luther Burbank, told of the wonders being performed by the California wizard of plant life, and earnestly appealed for a change in our school-room teachings that would enshrine scientific discoveries in the hearts of the children donated by Corner Drug Store, won by (Continued on Page Five)

RABBIT'S FOOT IS WHAT SAVED "RED" SMITH ON MONDAY

Curious things happen to all mortals, and "Red" Smith, automobile taxi man between Hereford and Canyon, is thanking his lucky stars Tuesday that on Monday night he was carrying in his pocket the left hind foot of a brindle cotton-tail rabbit, caught in a graveyard at midnight, in the dark of the moon.

Mr. Smith was guiding his Buick just outside of Canyon headed for home after meeting the night train. His speed was about twenty miles per hour. Coming toward him down the road roared a big Marmon car, with wire wheels, speed about forty miles per hour. A short distance ahead one wheel on the Marmon wobbled loose from the speeding car and streaked down the road toward the Buick. The Marmon plowed along a short way and stopped without injury. Smith turned into the ditch to avoid hitting it—and met the rushing wheel head on. It struck the Buick's front fender squarely in the middle, bent the fender back into the front springs, leaving two big dents, then jumped clean over the top of Mr. Smith's car. He states that, when it went over his head he was under that steering wheel as far as he could wiggle.

The damage to the fender has been repaired and all is serene Tuesday. There is no explanation of this strange freak except that rabbit's foot.

LOST!—REWARD!
Three bright young men, members of the Hereford Rat Committee. Any enterprising citizen who discovers their whereabouts and brings them to the Monday Luncheon, May 30, will receive a reward of one square meal, free.

E. W. Harrison is Vice President of The Grain Ass'n

E. W. Harrison of Hereford was elected first vice president of the Panhandle Grain Dealers Association at the annual meeting held at Amarillo last week. Mr. Harrison who is now in Galveston attending the State Grain Dealers Association convention, modestly kept his new honors to himself, not even telling his office force about it.

The association now numbers over 100 members. Concerning the meeting the Amarillo News said: "The meeting but recently closed was one of the greatest ever held by a regional organization in Texas, or any of the adjoining states. Its extraordinary attendance, its busy, important sessions, its attention to real and vital business of the trade, revealed the fact that the men came here to discuss and if possible overcome their problems. They gave their time to a consideration of worth while themes, and many of them expressed the belief that much good had been accomplished.

"The eyes of the grain men of the Middle West, the Southwest and the South are on the wheat and kafir fields of the Texas Plains."

Dairy Expert to Be Here Soon in Illustrated Talk

H. S. Mobley, practical dairyman, will speak to the dairy farmers and others interested in this division of agricultural life at Hereford on a date to be fixed and announced soon. Mr. Mobley is traveling under the auspices of the West Texas Chamber of Commerce and the International Harvester Company's agricultural department. He has an illustrated lecture, with lantern slides, and is said to be a very fine exponent of the value and profit of the dairy business. He is now speaking over the Plains country, and will notify the Hereford Chamber of Commerce the date he can arrive here, after which a special committee will arrange to secure him an audience.

CHILDRESS RELATIVES ARE VISITING TERRY FAMILY

Mr. and Mrs. J. M. Russell and daughter, Miss Madge, and Mr. and Mrs. C. V. Jones of Childress, Texas, arrived in Hereford last Saturday and are visiting in the home of Lee Terry. Mrs. Terry is a daughter of Mr. and Mrs. Russell. Mesdames Jones and Terry are sisters.

DISTRICT JUDGE'S WIFE AND DAUGHTER VISITING HERE

Mrs. Reese Tatum of Dalhart, and daughter, Miss Margaret, arrived here the latter part of the week and are visiting friends. Mrs. Tatum is the wife and Miss Margaret the daughter of District Judge Tatum, now presiding over the sessions of the court.

SHOWS 'EM HOW TO THROW MAIL; MISS GILLILLAND WINNER

Miss Cecil Gilliland of the Hereford postoffice "showed" Uncle Sam on Friday of last week, and as a result has been in high good humor ever since.

Assistant Chief Clerk Rogers of the El Paso postoffice came over and tested out Miss Cecil's ability to throw mail. The test covered mail routes in Texas, Oklahoma, Arkansas and Louisiana. She threw 857 cards, at the rate of 35 per minute, and the grade made was 90.7 per cent.

Mr. Rogers, a pleasant gentleman of thirty years experience with the postal work, complimented the young lady highly for her efficiency.

Confidentially, however, it was ascertained that Miss Cecil worked long and hard before examination time to perfect herself, and at home nights shut the rest of the family out of her room while she poured over route maps.

BOTH PARENTS DIE WITHIN WEEK; O. L. WILLIAMS GRIEVES

The news of a sudden double bereavement was contained in a telegram received by Dow Mercer Tuesday afternoon. The wire was from Otis L. Williams of Amarillo, who married a niece of Mr. Mercer, and was sent from Dallas. It said: "Mamma died last Monday; Papa died today."

Mr. Williams is agent for the Cadillac car at Amarillo. He is a member of the Amarillo Gun Club and expected to be here for the shoot this week. Mr. and Mrs. Mercer had prepared a special dinner for him Tuesday before the wire was received.

BEAUTIFUL SADDLE MADE BY TAYLORS; RANCHMAN OWNER

One of the most beautiful hand-made saddles ever exhibited here is that just completed by Taylor Bros. on a special order from V. R. Sadler, employed on the Charles Donald ranch. The hand carving and stamping has transformed ordinary leather in a splendid work of art. Taylor Bros. will hold the saddle on exhibition at their store for a few days. The cost of the saddle and bridle was \$190.

WOULD YOU PREFER BLUE WATERMELON GINGER FLAVOR?

To obtain any color you wish or any flavor you choose in a watermelon here are the directions:

Take the melon when it is about the size of your fist. Run a needle, threaded with yarn, through the center of the stem, just a few inches away from the melon. Leave the yarn in the hole, with the yarn hanging down several inches on both sides, and let them dip in a saucer full of water colored and flavored as you desire!—Henry Adrian.

Do the bugs eat up your potato vines? Just alternate the hills of potatoes with hills of white beans, so that the vines intermingle, and presto!—the bugs will confine themselves to your neighbor's garden.

Do your squash vines sicken and die when they are a few feet long? There is a little bug in the root that saps the life. Beat the bug by burying a couple of joints of one of the runners under about three inches of soil, and you start a new growth, with that bug sidetracked.

Want to grow some potatoes on the roots of your tomato vines, making two different crops?

Carefully cut out a triangular piece from the root of the potato, containing a bud; make a slit a couple of inches long on the root of the tomato vine, with a cross cut. Lift up the flaps and insert your potato bud; press the flaps down on it and carefully cover with dirt!

It's easy!—for Luther Burbank.

JURY GIVES BRAKE YEAR IN PEN FOR PEDDLING "BOOZE"

V. R. Brake, charged with unlawfully selling liquor, etc., entered a plea of guilty on one count in District Court last Friday and the jury gave him one year in the penitentiary.

Other cases handled by the court since last report are: State of Texas vs. John Young, forgery and passing forged instruments, continued and set down for trial November 7, 1921, at the next term of this court. The case of the First State Bank & Trust Company vs. John Young et al was on trial Tuesday afternoon.

The grand jury took another week's recess Monday, and will not meet again until May 30.

FIRST TOURNAMENT BIG SUCCESS; WEATHER BAD BUT GUNNERS HAVE FUN

ENTRANTS FROM LAKE ARTHUR, CLOVIS, AMARILLO AND CONWAY COMPETE CLOSELY WITH LOCAL TALENT AT TRAPS

DEVERS OF CONWAY IS CHAMPION

Takes Amateur High Score. D. L. McDonald is Third. J. J. Clark Wins a No. 40 Bathing Suit. High Wind is Annoying and Traps not so Good, but Sport Enjoyed

The Reason
The Brand is late this issue is because the Linotype man happened to come in Tuesday. He is a rare bird and hard to get hold of and we are glad to accept his services when we can get him. He worked over the machine Tuesday—and that will help The Brand to be on time hereafter.

Panhandle C. E.'s Have Big Meeting Palo Duro Canyon

About 150 members of the Panhandle District Christian Endeavor Society enjoyed an all-day outing and business meeting in the Palo Duro canyon, six miles northeast of Canyon last Sunday. The place of meeting was well chosen, the many trees and running water affording an ideal spot for just such an outing.

The members began to arrive before the noon hour and at 1:30 lunch was served, each party contributing to the table.

After dinner the district officers called a business meeting and disposed of work on hand. Mrs. Clara Mitchell of Amarillo, Pres., made an impressive appeal for a more consecrated devotion to the ideal expressed in the Christian Endeavor work.

At four o'clock the regular Christian Endeavor services were held. Hollis Galley of Hereford presiding. About forty were present from Hereford, and fully as many from Friona and vicinity. Amarillo contributed eight automobiles and two truck loads, and two members came from Childress, one being the district secretary, Miss Grace Wilson. During the meeting it was decided to send delegates to the State convention to be held at Waco, June 8-9-10-11.

SULPHUR PARK IS LUCKY FISH HOLE FOR GEORGE DENT

Ever fish under those grape vines, near the spring in front of the house at Sulphur Park?

George Dent dragged a frog across that pool one day this week and pulled out a five pound bass. Next day Mr. Dent went back and got twelve more of varying sizes and weights.

"You never can tell where they are."

With entrants from Lake Arthur and Clovis, N. M., and teams from the Amarillo and Conway Gun Clubs, together with two professionals, the first regular tournament of the Hereford Gun Club, held under the auspices of the American Trap Shooting Association, was carried through to a successful conclusion on Tuesday of this week. William Devers of the Conway Club captured the high amateur average with a score of 188 out of 200. D. H. Watei and M. B. Evans, of Amarillo, tied for second high average with 184, and D. L. McDonald took third prize with a score of 180.

C. F. McCubbin, professional shooting for the Peters Cartridge Company, broke 102 out of 200, the high professional score. This was really a remarkable performance in face of the high wind and difficult traps. Mr. McCubbin, familiar with tournament details, took a large share of the burdens of the match off the shoulders of the local officers, worked like a Trojan throughout to make the affair a success and earned the undying gratitude of the entire bunch of entrants.

There was a splendid spirit of good fellowship throughout and the shoot was a success from every standpoint. The weather conditions were not good, the traps did not work as smoothly as was hoped for, and many "dead" birds before the gun was fired annoyed somewhat, but as a whole the affair was well worth the money. The Hereford boys kept a good share of the prizes at home.

The Preliminary

On Monday a Merchandise Shoot Preliminary was held to limber up on. Four events of a total of 100 targets were held. Charlie Bennett, of Hereford, and Stead, of Clovis, tie for high gun with 87 out of 100. Andy Godwin was second with 86, and D. L. McDonald third with 84. Virgil Cunningham fourth with 81, A. Herbst fifth with 80.

Event No. 1, prize, shirt donated by Hughes & Crouch, won by Patton with score of 24.

Event No. 2, prize, carving set donated by Garrison Bros., won by Rockwell with score of 24.

Event No. 3, prize, pipe donated by C. A. Skelton, won by Charlie Bennett with score of 24.

Event No. 4, prize, box cigars donated by Geo. A. Lewis, won by Godwin with score of 24 in shoot off with Herbst.

High Gun tie, prize, thermos bottle Bennett in shoot off with Stead, scores (Continued on page five.)

BACK TO THE OLD SWIMMIN' HOLE

Rebekahs Beaten In Banner Drill But Take Medals

The delegates from the Hereford Rebekah Lodge who attended the I. O. O. F. Panhandle Association convention at Clarendon, Texas, last week were fortunate enough to bring back two of the gold medals which were awarded in the various contests.

Mrs. Hugh Witherspoon won one for the best rendition of the unwritten work. She made the highest grade to be attained, 1,000 points. Mrs. J. B. Jones was also awarded a medal for the best rendition of the Past Grand's charge.

The Hereford degree team has always heretofore carried away the banner, but was beaten by the Amarillo team. The defeat was greatly regretted, but next year the Association will offer a silver loving cup for this degree work and the local members are determined to capture it. The Hereford team won the highest points on Expression and Floor Work, but lost on the Ritualistic Work.

BULL

Over at Hereford, Editor Holman of the Brand, gets himself in good with his banker by writing a front page lead story about the vice president of one of the local banking institutions there catching a seven pound bass out of the Tierra Blanco. Money is pretty tight now, but a fish story like the Brand wrote ought to soften any banker's heart.—Clovis News.

That stuff don't cost anything, Manson, and we ALL fall for it. Get the habit.

Mary had a little frock,
 The latest style, no doubt,
 And when she got inside of it
 She was more than half way out.
 —Tioga (Texas) Herald.

The test of a man is the fight he makes,
 The grit that he daily shows;
 The way he stands on his feet and takes
 Fate's numerous bumps and blows,
 Why, a coward can smile when there's naught to fear,
 When nothing his progress bars,
 But it takes a man to stand up and cheer

When some other fellow stars,
 It isn't the victory after all,
 But the fight that a brother makes,
 The man who, driven against the wall,
 Still stands erect and takes
 The blows of Fate, with his head held high,
 Bleeding and bruised and pale,
 Is the man who will win in the bye and bye,
 For he isn't afraid to fail.

It's the bumps you get and the jolts you get
 And the shocks that your courage stands,
 The hours of sorrow and vain regret,
 The prize that escapes your hands,
 That test your metal and prove your worth;
 If isn't the blows you deal,
 But the blows you take on this good old earth
 That shows if your stuff is real.
 —Anon.

SPRING LAKE

Orval Jones is visiting his brother, Earnest Jones, this week.

Bro. McKenzie had his arm broken Saturday while cranking a car.

Wallace Phipps took Miss Velma Reed to Littlefield Saturday evening to visit with her cousins, Mr. and Mrs. Arthur Childress. Wallace spent Saturday night and Sunday with them and reports a fine time.

Cecil Johnson went to Hereford Sunday.

Misses Ethel Linval and Hattie May Barton spent Sunday with Miss Virginia Phipps.

A horse ran away with Mrs. Tom Selph and children and came near to causing serious results, however, they were "more scared than hurt."

The people of Spring Lake are rejoicing over the fine rain which was needed badly.

Sam Wilson has his new well drilled. Sam Jones visited homefolks at Hale Center and Miss Ollie Bell Thomason returned with him. She will visit her cousin, Mrs. Earnest Jones.

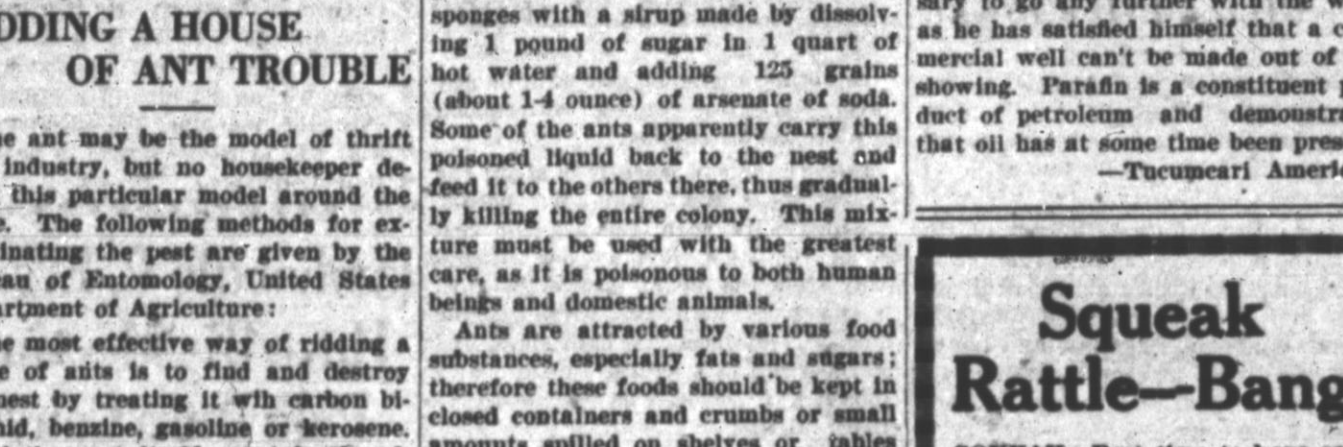

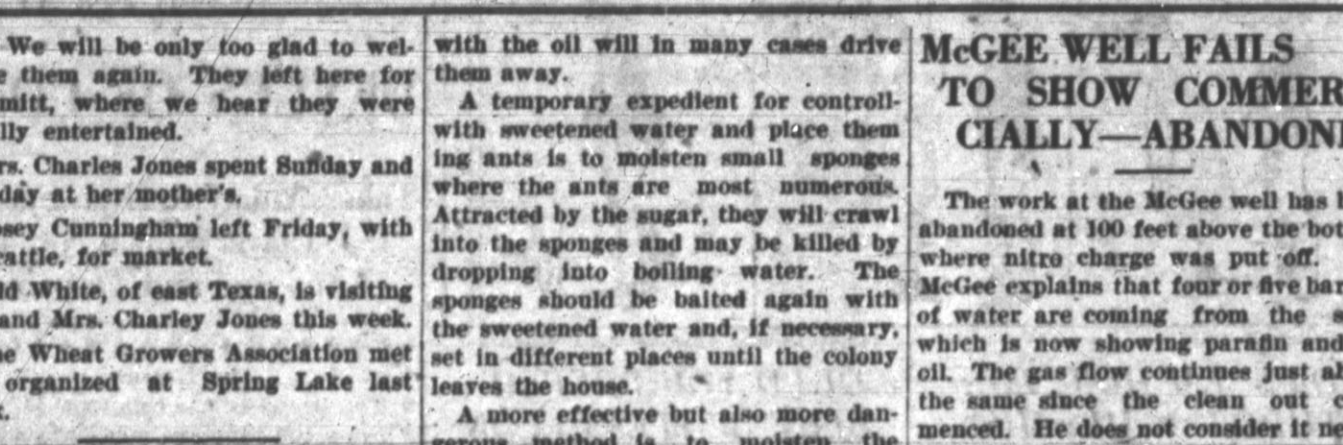

Born—To Mr. and Mrs. Del Huddins, a fine baby girl, May 7th.

Milton Ott started to market with his fat calves Wednesday. We hope he strikes a good market.

Mr. and Mrs. Earnest Jones attended the bedside of Mr. and Mrs. Phipps, who are both very ill, Saturday night. Charley Troxell and Ben Phipps went to Hereford with Milton Ott to take his cattle.

Quite a few of our people attended court at Olton this week.

The merchants' trade excursion came through Spring Lake, gave some interesting talks, some fine band music and many little souvenirs, all of which was enjoyed very much by all who attend-

ed.—We will be only too glad to welcome them again. They left here for Dimmitt, where we hear they were royally entertained.

Mrs. Charles Jones spent Sunday and Monday at her mother's.

Posey Cunningham left Friday, with his cattle, for market.

Edd White, of east Texas, is visiting Mr. and Mrs. Charley Jones this week.

The Wheat Growers Association met and organized at Spring Lake last week.

RIDDING A HOUSE OF ANT TROUBLE

The ant may be the model of thrift and industry, but no housekeeper desires this particular model around the home. The following methods for exterminating the pest are given by the Bureau of Entomology, United States Department of Agriculture:

The most effective way of ridding a house of ants is to find and destroy the nest by treating it with carbon bisulphid, benzine, gasoline or kerosene. Or if the nest itself cannot be found, oftentimes the ants may be traced to the opening or crack through which they enter. Squirting kerosene into it or plugging it with cotton saturated

with the oil will in many cases drive them away.

A temporary expedient for control with sweetened water and place them where the ants are most numerous. Attracted by the sugar, they will crawl into the sponges and may be killed by dropping into boiling water. The sponges should be baited again with the sweetened water and, if necessary, set in different places until the colony leaves the house.

A more effective but also more dangerous, method is to moisten the sponges with a sirup made by dissolving 1 pound of sugar in 1 quart of hot water and adding 125 grains (about 1-4 ounce) of arsenate of soda. Some of the ants apparently carry this poisoned liquid back to the nest and feed it to the others there, thus gradually killing the entire colony. This mixture must be used with the greatest care, as it is poisonous to both human beings and domestic animals.

Ants are attracted by various food substances, especially fats and sugars; therefore these foods should be kept in closed containers and crumbs or small amounts spilled on shelves or tables cleaned off at once.

Keep your eye on your Brand label, when the time is up the paper will STOP.

McGEE WELL FAILS TO SHOW COMMERCIALLY—ABANDONED

The work at the McGee well has been abandoned at 100 feet above the bottom where nitro charge was put off. Mr. McGee explains that four or five barrels of water are coming from the sand which is now showing paraffin and no oil. The gas flow continues just about the same since the clean out commenced. He does not consider it necessary to go any further with the work as he has satisfied himself that a commercial well can't be made out of the showing. Paraffin is a constituent product of petroleum and demonstrates that oil has at some time been present. —Tucumcari American.

More Dairy Cows Are Badly Needed

Texas is first among the states of the Union in the production of cotton; it is first in the growing of beef cattle; it is first in the growing of mules and third in the growing of horses. But it is only fifth in the total number of dairy cattle and only thirty-ninth in the number of dairy cattle to the farm.

The average number of dairy cattle to the farm in the whole United States is 323. In Nevada it is 11; in Wisconsin and Vermont it is over 9; in Minnesota it is 8. In Arizona, which is not considered a dairy state, it is over 5. In Texas it is only 223.

Dairy farmers are always prosperous. The dairy community is a prosperous community. What the dairy cow produces today is sold tomorrow. The range of prices on which dairy products are produced is the same as the range of prices on which they are sold.

Texas needs more dairy cattle. This is a matter in which we are all vitally interested.

Mr. H. S. Mobley, of the Agricultural Extension Department of the International Harvester Company, has been secured to conduct, in co-operation with local committees, a big meeting in Hereford, on a date to be announced shortly. At this meeting dairy farming will be discussed.

Mr. Mobley is a practical southern dairy farmer. He knows from actual experience how to produce dairy products on a southern farm at a good profit. He knows how to ship them from that southern farm to a profitable market. He is coming at the invitation of local people, to help us solve the dairy problem.

Mr. Mobley is a noted speaker and a leader in community development. He has been talking dairy farming and other subjects all over the South and newspapers everywhere speak highly of his meetings. The Lincoln, North Carolina, Times says:

"Mr. Mobley is a practical farmer and interesting talker. His talks are full of good, practical ideas and he has interesting things to tell the people."

The meeting promises to be one of the real events of the season. Admission will be free and everyone will be welcome.

Methodist Missionary Society

The Methodist Missionary Society met Wednesday, May 18, spending the day, until time for Bible study, in sewing. A pleasant day was spent, an appetizing dinner enjoyed.

Sixteen garments were completed. At three p. m. our regular program was carried out, the lesson being "The Sermon on the Mount." The lesson was divided into divisions and each lady on the program gave us some great lessons, showing thought and preparation. We are having splendid interest in our Bible study and those who fail to come are missing much.

Mrs. Ward gave a splendid opening talk on "Sermon on the Mount," also including the Beatitudes. This was followed by Mrs. Welliver speaking of our duties and influence as Christians. Mrs. Astbrook spoke of the Relation of Christ's teaching to the law of the Old Testament, and of the fulfilling of the same. Then Mrs. McLeah brought us a splendid message about extravagant speech from Matt. 5:33-37.

Mrs. Black gave us a very interesting talk from Matt. 5:38-48, bringing out the thought that we must be charitable, must do no harm but labor to do good and that our duties are to be generously performed. We are to found out our lives and be perfect as your Father in Heaven is perfect. Mrs. Beavers then brought us a very touching lesson on almsgiving, prayer and fasting, and what prayer means to us, then from Matt. 6:19-34 the leading idea, "Serve God rather than mammon." The climax of this teaching is that "Service of the world bring anxiety and unrest, and of God peace and quiet; and if God cares for the things

MILLIONAIRE FARMER WHO WORKS

Howard Parmenter, of Wayland, Mass., is first a farmer, then a millionaire. He likes his farm—so much so, that he wears overalls, a slouch hat and gets up at five o'clock every morning. In fact, he works longer and harder than any hand on the place, despite the fact that his father—Jonathan Parmenter, the original overall millionaire—left him his large fortune.

The End of a Perfect Day

of a day how much more will be care for us, by Mrs. Potts.

Mrs. Bryant then gave us the law concerning Judging, Matt. 7:1-6. There is just one safe principle, that is that we judge kindly, and in most cases we can pass judgment as we would like to have passed on ourselves. Mrs. Spratt followed this with a very helpful message on prayer giving us many good thoughts. Mrs. Fox explained the teaching of the Golden Rule, Matt. 7:12. It contains all the precepts of the law with regard to man. It teaches us to put ourselves in our neighbor's place. It is Christ's rule and therefore should be wonderful to us, and it has been singled out as peculiarly precious, therefore golden.

Then Mrs. Harrison gave us a sermonette on the two ways and the false prophets—the narrow way and the broad way, and how Jesus warns his disciples against false prophets.

Mrs. D. W. Hawkins, in her quiet forceful way, gave the conclusion speaking of the two builders, saying in part, when persecution, temptations and trials come upon us and through us, they test our resources and strength and we will be able to stand, only, if

we build on a solid foundation.

"The Sermon on the Mount," a wonderful sermon, the preaching is finished, the sermon is yet to be done. The hearing is not the great thing, the sermon must be worked into lives.

On the whole a profitable meeting, because of the truths gleaned and resolutions made. We hope every member will put in more time in the study of God's word.

JOEL

Mr. and Mrs. Lester Galley went along with the delegates from the Hereford C. E. Societies to the convention of workers held at Canyon on Sunday, the 22nd.

Our literary will hold its program on Wednesday evening of this week. The program was deferred on account of the rain. At this meeting the plans will be furthered for the boys and girls club.

Mrs. Boyle, who is spending the summer with her daughter, Mrs. Ed Botts, went to Canyon to visit another daughter for a week.

Lewis Smith took dinner Sunday with Mr. and Mrs. Ed Botts.

Irid West and family spent the day

Sunday with Mr. and Mrs. Roy Latham.

Bro. Sharp was out and gave us a fine sermon as usual yesterday.

The Chautauqua a Social Center
The Chautauqua this week, is providing an adequate outlet for the social spirit usually responded to by various other activities. Line parties to the Chautauqua are a popular means of spending an enjoyable afternoon or evening and are serving the double purpose of intellectual stimulus and social pleasure.

The "teen age" folk are celebrating their freedom from school duties in this way while the grownups are also finding in the Chautauqua a pleasant change from strictly social affairs.

Mothers' Club

While the club work of the city is practically at a close for the summer that of the Mothers' Club will go on uninterruptedly and regular meetings will be held on the second and fourth Tuesdays of each month, as usual.

Mothers' Park, the club's best known civic enterprise, is very attractive now with its abundant shade and soft grass, and is serving well its purpose as a thing of beauty and a favored spot for rest and recreation among both older and younger people.

The women of the club are very appreciative of the thoughtfulness on the part of most park visitors in doing their part toward keeping the park in good condition. This care and interest has aided the club materially and has had a salutary influence upon others who are less careful.

The removal of waste paper and other rubbish after a picnic luncheon, care in leaving the water as it has been placed and in doing nothing to injure or destroy the grass and trees are much appreciated as only in this way can the park continue to be a real community service and a beauty spot that all may enjoy.

The unsightly path made through the park by walking on the grass instead of on the walks is now almost obliterated just because those who go through are willing to sacrifice convenience for right. It is a splendid spirit of co-operation and one which the club duly appreciates.

Master Bill Shore Entertains

The week's list of children's parties has scheduled nothing prettier nor more delightful than the lawn party on Friday afternoon at which Master Bill Shore extended the hospitality of the Shore home to a number of her little friends in honor of his birthday.

The large velvety lawn was ideal for the games that children love and the happy little folks, as they shared the pleasures provided for their entertainment, present a charming picture of the unalloyed joy which only carefree childhood knows.

As a conclusion to the afternoon's program, delicious ice cream and cake were served.

Enjoying the very pleasant affair were: R. K. Bruner, Virginia Bruner, Dennis Baker, Virginia Barnett, Jimmy Clark, William Franklin McLean, Ardelle Foster, Earl Marie Foster, Violet Marrs, Bill McDonald, Frances Elliston, Jack Russell, L. B. Russell, Anita Jowell, Pauline Wilson and Bill Shore.

Picnic and Fish Fry

The initial fish fry of the season indulged in by the younger crowd gave pleasure on Friday afternoon to a party of high school boys and girls.

Early in the afternoon they met at the Christian Church and boarded a big farm wagon supplied with a hay frame and rode in state and merriment to the dairy where they began a spirit-

The Port of Missing Men

of contest for prowess with hook and line. The fish seemed in sympathy with the spirit of the afternoon and allowed themselves to be sacrificed on the altar of fun and frolic with unusual readiness.

After enjoying the sport for some time a fire was built and the fish fried and added to the bountiful picnic supper brought from home.

Among those who enjoyed the afternoon were: Misses Dorothy Shore, Lulu Orr, Gladys and Zoe Beavers, Mabel Jowell, Mattie Mounds, Elizabeth Stegall, Floyd Wilson, Eva Skelton; Messrs. Keith Stegall, J. M. Posey, Vernon Curtis, Paul Wilson, Clyde Carroll, Milton Beavers and Johnnie Orr.

C. E.'s Honor Miss Williamson

Of the many social courtesies extended to Miss Mahala Williamson whose work with the public schools is closing permanently, none have afforded more real pleasure than the picnic party enjoyed in Mothers' Park Friday afternoon.

The little folks of the Presbyterian Junior Christian League were hosts for the afternoon, having planned every detail of the pleasant affair and executed their plans with as much thoroughness as older folks could have done.

The park, just now, is a delightful place for an outing. Its soft grass and luxuriant shade invite to outdoor pleasures and the response on Friday afternoon was whole-hearted, the games arranged for the occasion providing a most entertaining program.

The picnic supper was in keeping with the other delightful features and

LUBBOCK GIRL HAS TEN GRANDPARENTS AND ALL SURVIVING

On the twelfth of this month Miss Aleen Marie Stubbs came to make her home with Mr. and Mrs. Herbert F. Stubbs. Miss Aleen has the distinction of having ten living grandparents, five on the father's side and five on the mother's side. Mr. and Mrs. Fred Stubbs are grandparents, Mr. S. P. Stubbs is great-grandfather, Mrs. J. K. Caraway is great-grandmother, and Grandma Wood, now in her 85th year, is great-great-grandmother. On the maternal side Mr. and Mrs. C. N. Barker are great-grand-

parents, Mr. S. H. Barker is great-grandfather, and Mr. and Mrs. L. D. Kinser are great-grandparents. Little Miss Aleen was born on her great-grandfather Barker's birthday.

We wonder if this is not another record for Lubbock county. Who can beat it.—Lubbock Avalanche.

THE U. S. ROYAL CORD

A famous tire—and a famous tread. Acknowledged among motorists and dealers alike as the world's foremost example of Cord tire building. Always delivering the same repeated economy, tire after tire, and season after season.

The stripe around the sidewall is registered as a trade-mark in the U. S. Patent Office.

How you can measure tire value in 1921

"Any U. S. Tire is a universal full-money's worth."

OFTEN it's surprising the number of different tire views that come out in a chance talk at the curb or in the leisure of a friend's garage.

Almost every day you come across the man human enough to believe he can outguess the cut-price tag on "job-lots," "discontinued lines" and "surplus stocks."

His opposite is the hard-pan car owner who sticks year in and year out to a standard brand as the only rational economy.

Many will remember the scarcity of U. S. Tires last year.

A hardship at the time, but a benefit now. There are no U. S. Tires to be worked off—no accumulations—no forced selling of any U. S. brand—no shipping of tires from one part of the

country to another to "find a market."

There are 92 U. S. Factory Branches. Each one gets its share of U. S. Tires. There is a broad, constant, even distribution of U. S. Tires always going on from these Branches to the dealer.

Buy a U. S. Tire anywhere—in a community of 500 people or even less—and you get a fresh, live tire of current production—with all the original service and mileage the factory put into it.

The owner of a medium or light-weight car stands on equal ground with every other car owner.

Any United States Tire is a universal full money's worth—backed up with a leadership policy of equal quality, buying convenience and price for everybody.

"The different tire views that come out in a chance talk."

JOHN McFARLIN'S SPINE BADLY HURT BUT STILL SMILES

John McFarlin, hurt in a recent automobile accident, is in a precarious condition, according to reports from attending physicians. Mr. McFarlin's spine was injured and a plaster of paris cast in which he has been encased has been removed. An operation was performed by Drs. Price and Gabbert Tuesday morning to determine the exact status of his injuries. The Brand regrets very much to report that Dr. Price announced following the operation that about two inches of the vertebrae, including the spinal cord, has been destroyed. Mr. McFarlin now is paralyzed and has no sensations whatever below the break. The outcome is extremely problematical, but the best is hoped for. Both Mr. and Mrs. McFarlin are holding up wonderfully well under the strain and smiling cheerfully through it all.

Chautauqua Very Pleasing

(Continued from page 1.) rather than "men of blood and iron." Mr. Adrian had a table full of samples of the work of Burbank, including the spineless cactus, a new species of Asiatic corn, the seedless plum, walnut trees of full growth only sixteen years old, and nut trees in full bearing only a few inches high. The speaker made an impassioned appeal for higher ideals in school work, stating that if our children had been taught to reverence Edison, Burbank, Pasteur and other men of science who have contributed to the advancement of the human race rather than military heroes of the various wars of the world the late unpleasantness with Germany would never have happened. On Saturday the Agnes Knofleckova Company pleased in the afternoon performance and in prelude at night. Knofleckova plays as a great artist. Her technique is flawless. The greatest numbers of the masters are played with ease and wonderful understanding. With Knofleckova were three exceptionally capable artists. Miss Gail King, coloratura soprano, has a splendid voice which she handles in a thoroughly professional way. Miss Cheek is a lyric soprano and a very good pianist. Delsohn Conway is an exceptionally talented young cellist.

As the advance notices announced the lecture Saturday night by Dr. Frank Dixon entitled "The Indispensable tools of Democracy," was no pink tea lecture. Dr. Dixon has been likened to a surgeon who inflicts some pain on his patient for his ultimate good. There were warm supporters as well as critics of the Saturday night lecture.

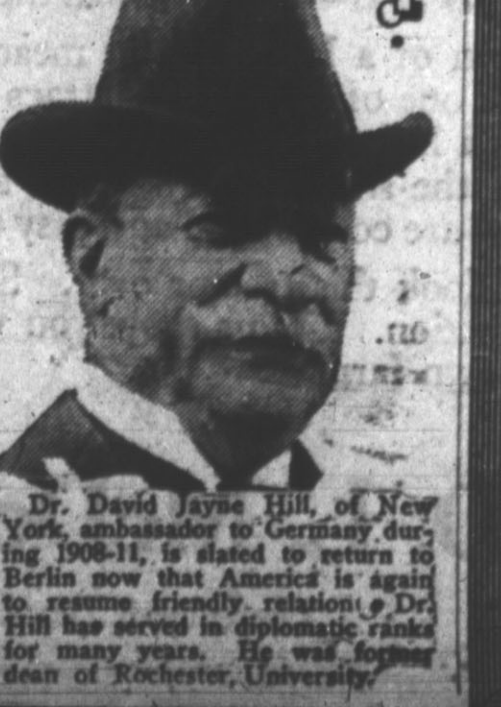

Dr. J. Q. Robinson in the "Lost Legacy" and Mme. N. N. Selivapora on Russian problems received deep attention from two splendid audiences Sunday. The former has a big meaning for both young and old, while the lady's interpretation of Russia's predicament today was as good as any human being can probably give of that unsettled maelstrom.

"Broadway Jones"
 The tent was packed Monday afternoon to hear the play, "Broadway Jones," the Coban drama. As is in all Horner plays the personnel was hand picked, the action was smooth, and the humor sparkling throughout. The absence of the night electrical effects marred the production somewhat, but the large audience thoroughly enjoyed the play from start to finish. Three of the actors in this play were here in "Nothing But the Truth" last season. Monday night Glenn Wells and wife put on a three-act playlet entitled "The Atonement," that was beautifully acted and made a straight hit with the audience. Following this, the Chinese Mark Twain, Dr. Ng Poon Chew, delivered a quaint philosophical lecture in excellent English. Dr. Chew, who has been a resident of this country thirty years, told of the establishment of a democracy among people who had supported monarchy longer than any other living nation, and of the encroachments of the Japanese upon Chinese territory.

UNIQUE CHARACTER EXHIBITS A BEAR

Canadian entertained a very unique character Friday and Saturday last week when an old time cowboy who called himself "Idaho Bill" Pearson, spent the night in our city, on his way to Washington, D. C. He was carrying as his passenger a big cinnamon bear weighing 650 pounds, which was, during the traveling time chained to the rear seat of the Ford which the man was driving.

The man claimed to have roped the bear on the ranch of his uncle about one hundred and fifty miles from Chihuahua, Mexico, and was carrying him to Washington. Just what he will do with him in Washington, he did not say.

He claims to have roped a mountain lion which he would like to present to the president of the United States. The baggage is piled on the back of the car and the bear chained on top of the paraphernalia. The unique combination, traveling across continent in a Detroit rattler attracts considerable attention.

The man tells many stories and apparently enjoys being a freak character. At Clovis, N. M., the peace officer looked over the fiver outfit and suspicioned that there might be contraband hooch under the rear seat. "Idaho Bill" protested against a search, but the only thing the officers found after unloading the pet bear, outfit and all was Bill's "shooting irons," which he was packing. They fined him \$50 for gun totin'.—Canadian Record.

Own Your Home? —Uncle Sam Asks

The Director of the Census writes the Brand as follows:

"The Census Bureau is now in the midst of an investigation to ascertain the amount or the encumbrances on homes. This inquiry is made in compliance with the requirements of the Act of Congress approved March 3, 1919. It is desired to show the total number of homes in each city that are rented, the number that are owned free of mortgage, the number that are subject to mortgage indebtedness and the amount of such indebtedness. Schedules of inquiry calling for this information have been sent to all of the persons reported in your city as owning homes subject to mortgage, but unfortunately, a large number of the citizens have not replied to the official request. We imagine this indifference on their part is due to the fact that they do not appreciate the importance of the statistics, and I write to you in the hope that you will give some publicity to the census inquiry so more prompt attention will be given to our communications.

"I enclose a copy of the schedule of inquiry. Two requests have already been sent to your citizens. A third request is now about to be mailed. The law providing for this inquiry contains a penalty for refusal to furnish the information, but it has not been our practice to enforce this penalty and we hope it will not be necessary to depart from it. I believe that your citizens will give more prompt attention to the inquiry if they are assured that their replies will be treated as strictly confidential and the figures used only for the compilation of totals similar to those contained in the enclosed statement for the District of Columbia.

"This is a very important inquiry. The statistics will go far toward showing actual conditions that are existing in the different sections of the country, and I trust that it will be convenient for your paper to give publicity to the matter. If you desire any additional information or additional copies of the report for the District of Columbia, to be used as samples, we shall be glad to hear from you."

TODAY

Sure, this world is full of trouble—
I ain't said it ain't.
Lord! I've had enough an' double,
Reason for complaint.
Rain an' storm have come to fret me,
Skies were often gray;
Thorns and brambles have beset me
On the road—but, say,
Ain't it fine today!
What's the use of always weepin'
Makin' trouble last?
What's the use of always keepin'
Thinkin' of the past?
Each must have his tribulation.
Water with his wine.
Life it ain't no celebration.
Trouble? I've had mine—
But today is fine.
It's today that I am livin',
Not a month ago,
Havin' losin', takin', givin',
As time wills it so.
Yesterday a cloud of sorrow
Fell across the way:
It may rain again tomorrow,
It may ruin—but, say,
Ain't it fine today!—Anon.

CARPENTIER HERE FOR DEMPSEY BOUT

Georges Carpentier, European heavyweight champion, is quartered in his Long Island training camp and at work for his battle with Jack Dempsey for the world championship title at Jersey City, N. J., July 2. Carpentier arrived smiling and confident, bringing with him his Belgium police dog, "Zip," which was with him before Verdun during his service in the world war and for which he received the highest French decorations for bravery in action.

HIGGINS WELL IS SHOWING SIGNS OF SOME OIL AND GAS

Oil and gas are both making their appearance at the well, and there is now the best showing for something big in this line that has made its appearance since the commencement of the well.

While the amount of oil and gas is not very great there is every probability that as the well goes deeper into the ground the amount of oil, or gas, as the case may be, will increase, and it seems very likely that a gusher will be brought in before the well is many days older.

At noon today, Friday, the presence

of gas was very pronounced, and the oil, while in small amount, is very perceptible.—Higgins News.

NOTICE OF TRUSTEES SALE

WHEREAS, on the 11th day of January 1915, W. M. Stovall executed and delivered to E. D. Fox a certain deed of trust by the terms of which he conveyed to the said E. D. Fox, trustee, the tract of land hereinafter described, for the purpose of securing J. H. Galbreath and J. A. Fox in the prompt payment of two notes in the sum of \$2888.75, dated January 11, 1915, payable to J. H. Galbreath and J. A. Fox, and due on or before 10-11-12-13-14-15-16-17-18-19 years after date respectively, bearing interest at 5 per cent per annum, with interest payable annually, and providing for attorneys fees of 10 per cent, if placed in the hands of an attorney for collection, signed W. M. Stovall; which deed of trust is recorded in the record of deed of trusts of Deaf Smith County, Texas, in Vol. 18, page 425, and.

WHEREAS, said Deed of Trust provided that in case default should be made in the payment of said promissory notes of an installment of interest when due, that the said trustee or his successors should be authorized and empowered, when requested to do so by the holder of said notes, after such default, to sell said property at public auction for such in satisfaction of said notes, and.

WHEREAS, default has been made in the payment of each and every interest installment as they fell due, and E. D. Fox, trustee, and J. A. Fox, the holder of said notes have requested me to execute said Trust and to advertise and sell the land hereinafter described.

NOW THEREFORE, I E. D. Fox trustee as aforesaid, by virtue of provisions of said Deed of Trust, will sell at public auction on the 11th day of June, 1921, the first Tuesday in said month, between the hours of ten o'clock a. m. and 4 o'clock p. m. at the Court House of Deaf Smith County, Texas, the following described real estate, situated in Deaf Smith County, to-wit:

A part of Capitol League No. 391,

391 1-3 and 408, described as beginning 673 vrs. North from the Southwest corner of Section No. 31, Blk. K-7 in said County and containing thence West 3750 yds. to a stake; thence South 4013.45 yds. to an iron stake; thence East 2287 vrs. to an iron stake; thence South 250.6 vrs. to a stake; thence East 222 vrs. to a stake; thence North 4598.05 vrs. to the place of beginning, and

containing 1922.5 acres. Said land will be sold subject to an issue in favor of the Empire Gas and Electric Co., dated July 2, 1917, and recorded in the deed records of Deaf Smith County, Texas, Vol. 33, page 318. Witness my hand this 11th day of May, A. D. 1921. E. D. FOX, Trustee 17-4c.

Wheels on a track—the Cletrac way—the low power

Meet the Harvest Rush

Be ready for the harvest rush with a fleet of Cletracs—the power-battery that makes the wheat farmer independent of weather conditions and labor shortage.

Each Cletrac easily hauls two binders—replacing six or eight horses and does twice the work. It keeps going more hours and longer days—is ready when the grain is just right.

The breakdown of a large tractor means a costly harvest hold-up, but if one of a fleet of Cletracs should be stopped it only means a little added work for the others. Cletracs work fast on the straightaway—turn short and get the corners clean—are economical and easy to operate.

Come in and look this tractor over. See for yourself its sturdy construction. Let us show you what it will do for you on your own farm.

D. L. McDonald

Hereford, Texas.

**ton Directing
Methodist Drive**

The Methodists of Northwest Texas Conference have entered upon the last month in the Christian Education movement campaign. This movement is an effort to raise \$33,000,000 to strengthen the schools and colleges of Methodist Episcopal Church, South. Of this amount Northwest Texas Conference is undertaking to raise \$530,000. Judge J. T. Slaton, of Hereford, is Financial Director. The organization in the various districts is directed by laymen.

The organization throughout the district is complete, and although the annual appeal will not be made until the week of May 29-June 5, gifts aggregating more than \$1,000,000 have already been announced. These gifts range all the way from \$5 to \$250,000. The Northwest Texas Conference has a college now in successful operation at Clarendon. Clarendon College has property valued at \$400,000 and a student body of over 300. The College will receive \$200,000 from the fund now being raised, \$100,000 of which will be permanent endowment. Another college within the bounds of the Conference is to be established. This is McMurry College at Abilene, Texas. The city of Abilene has given \$350,000 for the establishment of this institution. McMurry College will receive \$50,000 from the Christian Education movement which will make it one of the best equipped and endowed institutions in the beginning of its operations throughout the entire country.

Texas is expected to raise about \$5,000,000 of the \$33,000,000 fund and the Methodist schools of Texas will receive return more than \$6,000,000.

With the raising of this fund every Methodist educational institution of the South will be put on its feet and the cause of education in the South will be greatly helped.

**YOUNG MAN ACCIDENTALLY SHOTS
SELF IN BREAST**

Friday William L. Abney, eighteen years of age, accidentally shot himself while out hunting rats with five others. The entire charge from a shot gun entered in right breast just above the heart and death was instantaneous.

Reports state that the boys had chased a rat into its den of sticks and brush when Abney, who carried a shotgun, jabbed the butt into the nest, thinking to thus kill the rat. The brush pulled the trigger or the concussion caused the discharge of the gun

TO OUR HEROES BRAVE

with the fatal effect noted above.

Deceased lived with his widowed mother out on the river and there are seven other children in the family. It is said that they own a farm down in East Texas but moved out here last January to seek better health. Finding that the family was destitute of funds, kind hearted Childress people took up a collection to defray funeral expenses.

The McMinn ambulance was called and brought the body into town. Funeral services were conducted in the McMinn Chapel Saturday afternoon, being followed by burial in Childress Cemetery.—Childress Post.

W. B. Mersfelder and Harry L. Patton of Clovis, New Mexico, were in Hereford the latter part of last week attending court.

Bring your Job Work to The Brand.

THE STATE OF TEXAS
To The Sheriff or any Constable of Deaf Smith County, Greeting:
YOU ARE HEREBY COMMANDED to cause to be published once each week for a period of ten days before the return day hereof in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Deaf Smith County, a copy of the following notice:

THE STATE OF TEXAS
To all person interested in the Estate of Belle Hodges, deceased. R. F. Hodges has filed in the County Court of Deaf Smith County, an application for the Probate of the last Will and Testament of the estate of said Belle Hodges,

deceased, which will be heard at the next term of said Court commencing on the first Monday in June, A. D. 1921, the same being the 6th day of June A. D. 1921 at the Court House thereof in Hereford, Texas at which time all persons interested in said Estate may appear and contest said application, should they desire to do so.
HEREIN FAIL NOT, but have you

before said Court on the said first day of the next term thereof this writ, with your return thereon, showing how you have executed the same.
Given under my hand and the seal of said Court, at office in Hereford, Texas, this the 20th day of June, 1921.
A. L. BIGGS, Clerk
County Court Deaf Smith County, Texas. 24-31

Investigate Avery Financing Plan
For Purchase of Avery Machinery

The Avery Financing Plan enables you to buy Avery Machinery on the Easy Payment Plan without paying the usual heavy financing commission.

Through this plan the Avery Company will finance the purchase of Avery Machinery. It includes the purchase of Tractors, Separators, Motor Trucks, Stationary Motors and all Avery Tillage Tools.

It will pay you to investigate before you buy. The terms are liberal, the policy fair.

Only Bank of Honor Bank in Deaf Smith County.

Prepare for the Harvest

When the ripened grain stands in the fields it is too late to prepare for the harvest. Now is the time to have your binder or harvester-thresher ready to work steadily and efficiently until the last acre of grain is cut. An old, badly worn machine may fail at a critical time when delay means serious loss in the crop. You can avoid this by getting the time tried

HARVESTER-THRESHER

This dependable machine is the result of years' manufacturing experience. You can depend on the Harvester-Thresher to make good whether the grain is short or tall, heavy or light. Come in and let us show you why the Harvester-Thresher will make good under any harvesting condition. Let us talk to you about your harvesting machine requirements.

Deering and McCormick

Dunlap Hardware Company

Stop, Look and Listen

This rain in the Panhandle is Great! But we recommend to our customers that we not forget quickly the last few weeks, and conserve our resources and get on stable ground. We believe in the wisdom of making permanent improvements rather than continual expanding of affairs. What we need on the farm is to make provisions for more chickens, turkeys, milk cows, brood sows, and wind-mill gardens." Clean up, Paint up and Keep it up.
