## swing Jrs. Have Spelling Bee

Can you spell? It seemed to the program chairman of the Juniors last Wednesday that the class needed some more intellectual training than what they get in regular classes. The class was divided into two groups and given words to spell. Since the group had already been divided for the contest in the magazine sales, they kept these same sides for the spelling bee. As the class had quite a lot of business to attend to beforehand, the bell interrupted Jim Hicks try-

ing valuey to spell a word the class who is in the hospi-tal, is doing better after his operation, and we hope that he may soon be with us again.

## Talents Exposed Among Students

Many of us think that as far as lalents are concerned we are practically worthless. We see gymnasium. others who are accomplishing things and doing things that no one else ever thought of doing or could do. Well, maybe we. aren't so talented as they are; but if we will only create ideas and put those ideas to work, we, too, gan make or do something

worth while. Perhaps some of you have met Susie and Snooks, but many of you have not. Florene Lloyd, ho is the creator of these two characters, gives us an introduction to them and adds a few points about their lives. "I want to introduce to you Susie, my chair. Susie hasn't been in our family very long; in fact, for only about three weeks. I found Susie among discarded furniture we had planned to dispose of.
