ROUND

Sights and Faces Seen

You're right. It was a Hereford boy who was responsible for those cricks in the neck which resulted from looking up at that AT-11 which was doing such noisy diving over the rooftops of Hereford last Saturday morning. The Hereford boy in the plane was Lt. Lynn Hallum, who is now stationed at Carlsbad Army Air Base, where he is serving as a flight leader and bombardier instruc-

Etnyl Robinson didn't really think it was "Be Kind to An-imals Week." She just didn't recognize the eight dollars worth of rat poison which Jim had put out, so she carefully gathered the stuff up and threw it away. Result: she is not popular with Jim, but the rats probably love her.

News of the Deaf Smith County Wind Erosion District

"Pump Jack Troubles" are over at the Brumley and Son Ranch in the southwest part of the county. Construction with Deaf Smith County Wind Erosion District equipment has been completed on one dam and two trench silo tanks in the bottom of big lakes. The dam holds approximately 21 acre feet of water; and the two tanks have, together, a holding capacity of ten acre feet of water. The recent rains in Deaf Smith County have practically

Green and Scott, Deaf Smith County Wind Erosion District cooperators, have started harvesting onions on their truck farm just west of town. It is too early to make an estimate of the yield. One reason for this is "there are so many full sacks and laborers in the field, one distinguish between

R. R. Lindsey is planning a trial planting of winter legume east of town. Fifteen acres of Austrian Peas will be planted this month and will be plowed under after the blowing season as a green manure crop.

Winter legumes are not only effective in holding the soil in place but also in increasing soil productivity when used as a green manure crop.

This practice may be followed by Deaf Smith County potato producers for increasing soil fertility and at the same time

interest in the deal and will be associated with Mr. Purcell in the conduct of the business.

Another splendid evidence of mereasing activity in business and property circles is given this week in the announcement of the sale of the Alvin C. Thompson home, adjoining the Cordova Hotel, to Irving Hamilton of Castro County.

My wife wasn't all joking.

She said that a real new car improvement would be to go easing sideways, right into a cramped parking space at the curb. I said yes-maybe in 1960. There's one swell improvement though, that's here already!-an OIL-PLATED engine! You get that immediately by switching to Conoco Nth motor oil. I don't say it's the only oil; they're not hiring me. But I had this engine OIL-PLATED around 1941. It's still running like a darb, using Conoco Nth oil all the while, to cut down damage from engine acids. If I know what I've read all through this War, the acids made by every engine are liable to cause corrosion inside. That's bad. But acids don't like OIL-PLATING-can't gnaw right through it. It's fastened real close or sort of plated onto working parts that you've got to protect till your new car comes. And even then you'll want the engine OIL-PLATED with Conoco Nth oil, the same as in the car you've got right now.

Mr. Davison who has been sick for some time is at Dallas for medical care.

Our sommunity was left in great sorrow when Mrs. J. E. Roberson passed away at one o'clock Tuesday morning at Mrs. Godwin's sanitarium in Hereford. Mrs. Roberson was among the first settlers of this community, and though the family lived in Canyon for awhile for the children to attend school, they considered Summerfield their home at all times.

The last two or three winters Mrs. Roberson has spent in Hot Springs, N. M., for her health. Survivors are her husband and the following children: Mrs. George Storey and Mrs. Britt Clark of Summerfield and Mrs. Claudie Brown of Canadian, Mrs. John Hics of Hereford and William Roberson of Summerfield and 14 grandchildren. Three of the grandsons, Everett Storey and L. J. and Harrold Clark are in the navy.

Our community extends sincere sympathy to the family.

The Young People of this community enjoyed a picnic Wednesday night in the Davison pasture. Those present were Misses Dottie and Juanita Davison, Dorothy and Doris Roberts, Jean and Jewell Clark. Pearl Prachar, Mary and Jessie Hays, Billie Ray Johnson and Taft Holloway, Wayne Lee, Wendell Roberson, Jim Suttle, Bobby Clark, J. R. Euler, Bradley Lookingbill and Paul Lance. Rev. and Mrs. M. D. Rexrode. Mr. and Mrs. Ky Lawrence and Mrs. Tandy Legg.

Bob Coke, and Temmie Jenkins spent the week end in New

Mrs. Hays and daughters of Wellington and Hereford attended church here Sunday morning.

Jumbo

MRS, SAM HUNTER

After a very successful week the Daily Vacation Bible School ended Fridev night. The average attendance was about 28. Mr. Wylie returned to his home in Canyon Friday night. The last of the series of church services, held in connection with the Bible School was held Sunday morning. At that time the children, under the di-rection of the Rev. C. W. Williams and the Bible School teachers, Miss Mary Gene Dy-er, Mrs. Clyde Renfro, Mrs. M. L. Simpson and Mrs. Addison Hunter, gave their program of

songs and scripture readings.

Leaving for Oklahoma City
Thursday to be inducted into the army were three boys from this community: Lonnie Wayne Adams, G. D. Caison, and Merle Matthews.

Mrs. Anne Hunter and Barbara Anne, accompanied by Mrs. Hunter's sister, Mrs. Lula Mae Hardin, have been to Big Spring to spend a few days with another sister. Mrs. Fannie Parker. On the way they stayed overnight in Slaton, where they picked up still another sister, Mrs. Lizzie Kirkland, who went with them to Big Spring. The four sisters had a grand

Hopson's Unit Cited For D Day Action

Opl. Elton C. (Pete) Hopson's unit, the 146th Engineer Combat Battalion, has been cited for gallantry on D-Day, and Cpl. Hopson has sent his parents, Mr. and Mrs. Lee Hopson, a clipping from "Stars and Stripes" which carries the official commendation given his outfit.

According to the "Stars and Stripes" account, "men of the 146th Engineer Combat Battalion, operating as a special demolition task force attached to the First Division, were charged with clearing beach obstacles. Each demolition team carried a ton of explosives and accessories and completed the job under heavy artillery and small arms fire."

Cpl. Hopson writes that he has recently passed through a part of France that reminds him a lot of the Panhandle. It is good wheat country-but instead of being combined the grain is stored in shocks.

Your Fat's in the Fire

Pfc: James Echols, Chemical Warfare, of Atlanta, Ga., shows a flame thrower in action. The tanks on his shoulders hold fuel oil and nitrogen. Fuel oil, forced up by the nitrogen, feeds the flames that spurt out to a distance of 180 feet. Used fat is an essential ingredient in the manufacture of this fuel. What used to be thrown away in the kitchens, now throws back our enemies.

Canyon, Texas

WITH OR WITHOUT WATER PUMPS

DIETICIAN'S AIDE

Constance Talmadge, former movie star and now the wife of Col. Walter Giblin, does her war stint by working as dietician's aide for the Red Cross. She is shown weighing used fat at a well-known New York hospital before it is turned in for salvage. Used fat is an essential ingredient in the manufacture of munitions, medicines and other

SUMMER SALVAGE

THE good old summertime invites rest and relaxation, but the war goes on in spite of the mercury. and the home activities that sup-

port our fighters must do the same. The farmer must produce the hogs and cattle and tend the crops that will feed us this winter, regardless of torrid days. War plants and factories that

manufacture the hundreds of products upon which the armed forces and civilians daily depend must keep on producing at full speed in August as they did in December. .To keep industry's wheels turn-

ing, the saving of used fat must

also go on, because factories need

all we can supply and more. When you save kitchen fat, and turn it in for extra ration points you are doing more than saving fat, you are saving manpower, because you extend the labors of the farmer when you use his fats first

for food, then return them to the

economy for industry's use: If we are to reach our quota of 230,000,000 pounds of used fat from kitchens this year, we can't take time off. We must save every day. in spite of the temperature, and in spite of the very human inclination to avoid effort and take it easy.

So stay in the production line, turned in puts us that much nearer to Victory

Lions Hear Talk By Judge Baird

Reviewing post-war plans for Deaf Smith County, Judge Fred W. Baird Wednesday pointed to the need for greater hospital accomdations, an airport, a jail and generally improved roads over this territory. He spoke before members of the Hereford Lions Club and reported this

county as in excellent financial condition. Among guests of the club were four Canyon Lions, Milton Morris, John Gillis, J. L.

Gilmore and Clay Cooper.

Mrs. C. R. Morgan and Miss Mae Millard or Wichita Falls are visiting their parents, Mr. and Mrs. Fred Millard for a few

It's Back to School Time

Dear Driver:

I'm sending Johnny to school this year for the first time. He isn't very big, yet; desn't know the danger that lurks at every street crossing, and is inclined to dash headlong to his destination. So, I'll just have to place Johnny's life in your hands. Won't you sort of watch out for him and drive extra cautiously when you see him on the way to school.

-An Anxious Hereford Parent.

SEND HIM BACK TO SCHOOL WITH GOOD EYES. CHECK THEM TODAY!

School work places a heavy strain on young eyes. If your child squints, dislikes reading or has headacheshave his eyes completely checked by a registered eye doctor. Give him an even break so he can meet competition in the modern school.

YOUR CHILD NEEDS PRE-SCHOOL HEALTH CHECK-UP!

Before beginning the long school period, when your children will be in contact with hundreds of others, check up on their general health condition. A physical and dental check-up now will assure you they are entering school with incomparable assets of sound healthy bodies.

SCHOOL SUPPLIES AND CLOTHING

To put forth their best efforts workmen need good tools for school children this means top norch school supplies, and adequate clothing protection. For both of these consult your favorite local merchant who will be glad to help you work out any starting-to-school problem.

This space donated by the HEREFORD BRAND in the best interests of the school children of Hereford and Vicinity.

SEEDS of ADVICE

The Garden Club

Note-This was taken from e Texas A and M College Ex-

lower gardeners can merit he envy of their friends in the onths to come if they attend to a few early fall chores.

The enterprising flower grower now can start hollyhocks for ext year, and gladioli may be planted until the middle of tember, says Sadie Hatfield. pecialist in landscape gardenng for the A and M College Extension Service. She adds that sometimes pansies bloom early If they are planted in the early fall and protected from the sun until cool weather.

Flowers that resist some frost now may be planted in flats, cold frames, or frame gardens for transplanting in October. Among these hardy stand-bys are snap dragons, stock and calendulas. Others which are less certain, varying with climatic conditions, include petunias, sweet alyssum, late cosmos and periwinkle.

There are plenty of jobs that await the gardener in the fall. This mont his a good time to prepare soils for planting shrubs and trees in the winter. It is also a good time for a clean-up, fix-up program around the homestead. Miss Hatfield suggests that the house will be warmer in winter and more attractive all the year round if it is underpinned. Drives may be made of gravel, sand and clay mixed, or crushed rock. This is also a good season to construct cement or flagstone walks around the house.

The men have been really living high this week. Three home made cakes and a batch of cup cakes have come in .And our story about the yellowmeated watermelons reached sympathetic ears. Mrs. Albert Springer brought three of them in on Saturday, and Sunday Mrs. Joe Doerfler brought one in for the men. Our thanks to the ladies.

Yes, that was Sgt. Grant Hanna, Came all the way from Camp Elgin, Ill., to spend part of his furlough in Hereford! He is looking fine and we were very glad to see him again. Come back often Hanna!

A welcome to the new men who came in from Ft. Bliss last Friday. We hope you will like it here. If there is anything that we can do for you, be sure to let us know.

home on Monday. We were sorry to see her go, and we hope she doesn't stay away too long. She helped us out when we needed help and we will be eternally grateful to her.

With the opening of school some of our volunteers have returned to Hereford. We hope they will come in to see us and meet some of the new men who are stationed here now.

Don't forget the traveling USO show at Camp on Friday night, Sept. 8, and the dance at the Clubhouse on the 11th. Call your sponsor and let her know that you are going. This will be the last dance for a number of the girls who are returning to college this

IN TIME OF PEACE hundreds of Phillips chemists and engineers devoted themselves, in the glass-bricked laboratory pictured above, to search for product betterment.

Car-gwners reaped the benefit in improved gasolines and lubricants, at prices which represented ever-increasing value for the money.

IN TIME OF WAR, Phillips research activities are sharply focused on the requirements for victory, and the U. S. Armed Forces . . . and you, not as a car-owner but as citizen and taxpayer . . . reap the. benefit in improved products, at prices which represent ever-increasing value for the money.

The Phillips airplane pictured above, with its unique test and measuring devices, is also a labora-

tory . . . a flying laboratory for a Phillips pioneering research project. Phillips recently was first to conduct a flight test program to determine the anti-knock performance of aviation gasolines . . . not in earthbound test motors . . . but in combat-type engines under actual flying conditions.

PHILLIPS HIGH PLACE in the war production of butadiene for synthetic rubber, 100-octane aviation gasoline, and other petroleum chemicals, is the result of Phillips long years of peacetime research to extend the frontiers of knowledge concerning hydro-carbon chemistry.

Who can predict what great new benefits will flow to motorists after victory, as the result of Phillips wartime exploration of the limitless possibilities of the chemical production of new and better things from petroleum gases as well as from petroleum!

This much can be predicted with confidence: With the coming of peace, car-owners will be offered a vastly improved postwar Phillips 66 Gasoline. In the meantime, whenever you see the Phillips 66 Shield, let it remind you that Phillips great refineries are gigantic chemical plants pouring out weapons for victory.

THREE R'S GOES A FOURTH--

School days again remind vs mon rec 3m?"
ritin', 'rithmetic could hardly get across so
well without another "R" necessary io modern education—Reddy Kilowatt.

From the moment their electric clock gets the youngsters up, Reddy is busy all day for them. The breakfast-table toaster, the cor-ner traffic light, often even the school bell itself, depend on modern electric service. You think of many more ways Reddy helps

Lighting is the most important. All study needs it, in school or out. With the coming of shorter days, children will spend more time indoors, more time studying after dark. Here's where Reddy can do his best for students. Good home lighting is inexpensive. It takes little time or effort. It will pay dividends in easier seeing.

Make are year high.

PARENTS — Most electrical dealers now have light bulbs in all common home sizes. Fill your empty sockets and fallow these few simple rules to secure more light from your bulbs:

Wipe all light bulbs frequently. Keep reflector bowls and shades clean. Dust and dirt rob you of light!

Use the RIGHT SIZE bulb in each lame A white-lined shade will reflect more light for use. A dark lining absorbs it.

Move lamps closer to points of use, so they shed light directly on the work.

of Hereford Ian Killed in **Action** in Italy

Memorial services were held nday at St. Anthony's Church r Lt. Leo A. Betzen, 23, who as reported killed in action over Italy on Aug. 15. He was the son of Mr. and Mrs. William en, who live four miles north and two west of Hereford.

Lieutenant Betzen, who entered service on Jan. 3, 1943, received his wings and commission at Lubbock on Nov. 3 last year and had been overseas for bout two months when he met his death. A pilot of a heavy bomber, he had completed six combat missions according to he last information received by his family here. Lieutenant tzen was killed on his 23rd.

Survivors include his wife and arents and six brothers and rive sisters. One brother is serving in the Signal Corps of the Army Air Forces in the Pacific.

Salvake Backs Up HEAT DETOUR **Invasion Drive**

With the long-awaited invasion of Europe now in full swing the national salvage effort takes on greater significance, for without the salvage effort those men would be denied essential materials and the miles infinitely harder to gain.

Complaints of patriotic Texas housewives that they could not dispose of used kitchen fats after they had labored over the distasteful task of salvaging kitchen grease have been received by the Salvage Division of the War Production Board, according to A. Patrick Flood, State Salvage Chairman.

In all thickly populated areas of Texas there is a regular pickup service whereby trucks col-lect the used fats accepted by butchers and storekeepers.

In outlaying and rural communities the storekeeper can ship his collected fats to the nearest renderer by American Railway Express. There is no charge to the merchant for availing himself of this sys-tem. He merely puts his fats in a container, adresses it and calls the nearest express office. They will pick it up and ship it collect, says Mr. Flood, and the container will be returned.

Meanwhile, each and every Texas housewife is urged to continue the good work she has done in the past an dsave each and every drop of kitchen grease not necessary for her own needs.

Seems six year old Andy Thomas Leonard's mom sent him to the meat dealer to exchange a can of used fat for some of those very valuable red ration points during one of New York's hot spells. Although Andy knows that fat will be used for builets to make it hot-ter for the Axis he couldn't resist this nice cool street spray.

Mrs. Harold Spratt and son Harold of Tom Bean are visiting their mother-in-law and grandmother, Mrs. I. H. Spratt.

Colemans Receive

First Letter From Son in German Camp First direct word from their son, Flight Officer James Ray Coleman, who is in a German prison camp, was received Sat-

urday by Mr. and Mrs. R. J. Cole-

man of Messenger, in a letter

written by James Ray on May

The letter stated that Coleman was well and that he was not injured in the mission on which his plane was forced down. He suggested that his mother contact the Red Cross to find out what items she could send him in official Red Cross packages, and as Mrs. Coleman had already sent packages through the Red Cross she hopes that some deliveries have now been made.

Flight Officer Coleman, listed as missing on Feb. 25, was not reported as a prisoner until WHAT'S WRONG WITH THIS PICTURE?

Don't make extra work for yourself trying to save your used hitchen fat in too small a container. Set up a convenient-sized, accessible receptacle for all meat scraps and table scrapings. When for all meat scraps and table scrapings. When this is full, melt down the contents and transfer the liquid fat into a tin can for the meat dealer.
