XIT History Moving

Escarbada Gets Moved -- Piece By Piece

By STEVE CONNELLY

The Escarbada ranch house, an historic monument of early life in Deaf Smith County, is in the process of being moved to the Texas Tech campus to become a part of the Ranch Headquarters Museum.

The ranch house, built in the late 1880's, is being moved under the supervision of Texas Tech Museum officials, University of Texas archeologists, and the Colonial Stone and Brick Co. of Lubbock. The contract is expected to be fulfilled by September, 1974.

THE ESCARBADA ranch house, located on the Joe Reinauer, Sr. farm, 35 miles west of Hereford on Harrison Highway, was once the headquarters of this area for the 1,050,000-acre XIT Ranch. Left unattended for many years, the rustic ranch house slowly began to decay and became the prey of souvenir hunters.

Fritz Willingham, owner and manager of the Colonial Stone and Brick Co., said the house was being moved to the Tech campus because within 15-20 years, the house would be a pile of rubble.

"THE WAY people used to live back then would be preserved," continued Willingham. He and five other stone movers have undertaken the task of disassembling and

moving the building to Lubbock.

The crew of stone movers camp in front of the ranch house during the week and return to Lubbock each weekend, Willingham said.

When he was asked what the main problems of moving such a structure were, Willingham replied, "No one could pick out any particular problem, except that it is slow and

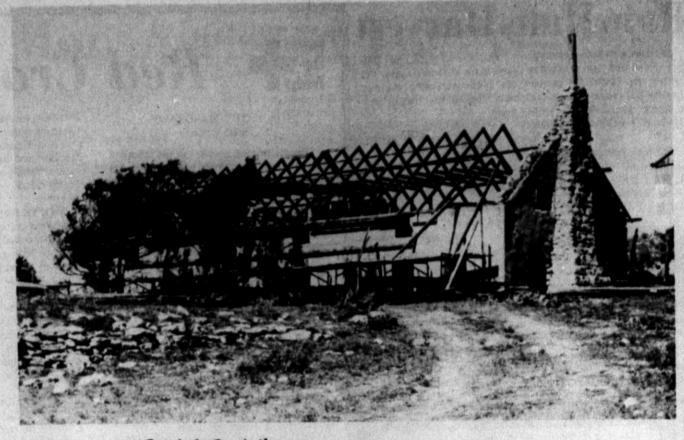

EACH BRICK, stone and salvagable piece of lumber is marked so it can be replaced in exactly the same place.

Willingham said the house was originally constructed of dirt mortar and stone, and that the dirt mortar would be replaced with another material. He added that this would not be visible when the building was rebuilt in Lubbock.

Will Robinson, head of the Tech museum, and a team of archologists from the University of Texas tag each piece of the house, take photographs and draw blueprints to insure proper reconstruction.

THE GROUND floor of the house will be replaced with wood which will duplicate the original floor in dimension and appearance, but the second floor, which was not heavily

Herd Makes Mud Of Sandies Whitefaces Stop Amarillo 21-2 For Fifth Win

By DON RICHARDS **Brand News Editor**

Amarillo High had their misty-rain weather conditions but the Hereford Whitefaces added the lightning Friday night to topple the Sandies 21-2 and remain the only undefeated, untied

AAAA team in the West Texas area.

The game was the final non-

conference battle for both teams and both have open weeks before beginning district action. Hereford's win Friday night, coupled with Snyder's 35-0 loss to Lamesa and Odessa Permian's 21-8 defeat at the hands of Midland, left the Herd as the only AAAA team in the northwest portion of Texas with an unmarred season record.

The game sent both teams into midseason with the Herd riding a 5-0 record while the once strong rated Sandies sit at

Amarillo dominated the first quarter statistics but Hereford's James Harris and brothers Dave and Doug Charest drove the Faces through the final three periods on the mud-slicked field for the decisive win.

AMARILLO HIGH, boosting a roster of ment any feedlot would be proud of, came on strong in the first quarter and it appeared the Herd might be in for a long

Hereford took the opening kickoff and got a first down, one of only two the first half, after three Harris runs. Facing a third and four the Sandies then picked off a Franklin Higgins pass to set up their own operations at the Amarillo 46.

THAT BIG black and gold machine began rolling, as the black-jerseyed Sandies clicked off three first downs to move just inside Hereford's 20.

However, then, just as they had done all season when they had to, the Herd linesmen dug their knuckles into the turf and held on as big Sandie back Marc Redus busted the line on a 4th and 1 situation. The Herd held and the entire complexion of the game seemed to change hands there.

The 'Faces punted out of the hole and thes again swapped punts with the Amarillo team with Hereford getting the better end and setting up camp just shy

of midfield with about three and a half minutes gone in the second period. FROM THERE the first of Hereford's

three lightning bolts hit. On first and 10, Harris bumped his way through a hole at right tackle, made a quick step around a Sandie defender and flashed 54 yards to the double stripes. Dave Charest split the uprights and Hereford had the intermission lead and all the lead it ever needed.

Into the second half Hereford held the Amarillo team, forcing them to punt and a 15 yard return by Harris set up the scrimmage line at the Herd 40.

Harris made two over the middle and then 12 yards and a first down around right end. High was stopped at the line twice before quarterback Franklin Higgins reached into his bag of tricks.

FACING third and 10 at the Amarillo 46, Higgins sent Dave Charest out of the backfield and wide open across the

Branding Time • By Speedy Nieman

That feller on Tierra Blanca Creek says a husband is a man who is under the impression he bosses the house, when

There's a meeting for ladies this afternoon at the high school auditorium, and it could be called: Everything You've Always Wanted to Know About Football But Were Afraid to Ask.

ACTUALLY, it's a football clinic being conducted by Whiteface boss Larry Dippel and is being held again by popular demand. A similar clinic was held for ladies prior to the start of the grid season. Time of the clinic is 2 p.m.

WE HEAR the ladies will have a new style of dress this fall. The long dress is called "The Watergate," since it's quite

It's all right to save money, but too many people are trying to save it from people they owe it to.

BY THE WAY, we forgot to remind you that Sept. 5 was to be observed as Be Late for Something Day."

Speaking of "special" days, we have quite a few days and weeks proclaimed for October. Among these are Apple Day, Unicef Day, Veterans Day, Columbus Day, 4-H Week, Fire Prevention Week and National Newspaper Week. We also have National Restaurant Month and National Beauty Salon Day - which makes a natural combination if the little woman is going to be eating out all the time. How could she eat out if her hair wasn't fixed?

STATISTICS reveal that coffee is still the No. 1 American drink but soda pops are closing in fast. Figures show every American will drink in excess of 30 gallons of soda pop this year. That's a lot of belching. After coffee and soda pop comes milk, beer, and tea in that order. Canned juices and distilled spirits bring up the rear.

HOW ABOUT our hustlin' Herd? The Whiteface's turned in another fine team performance at Amarillo Friday night to chalk up their fifth straight triumph. I don't think there are many fans who would have believed, at the start of the season, the Herd would be 5-0 at this stage of the game.

Seems the fan support at out-of-town games has not been as good this season. One reason may be the weather, and another reason might be that fans keep thinking the 'balloon might burst" at any time. Even at that, however, there appeared to be more fans from Hereford braving the elements at Amarillo Friday

That's Far Enough

Hereford's James Harris puts the brakes on Sandie Runningback Garland Jones in the first quarter of action Friday night when the Herd put down the host Amarillo team 21-2. David Crume (72) is at left along with John Stoy (74) and Ed Warren (64). Coming up at right is Doug Charest

Judge Neill Concerned

Warns Bike Riders Of Responsibilities

By KATHY MARGRAVE Staff Writer

"In the past month we've had three wrecks involving bicycles and in each incident the bicyclist has been at fault,' Judge J.D. Neill, Hereford municipal judge said.

Luckily, there has been no serious injuries in any of the accidents, but we've got to do something to inform all bike riders about their responsibilities." Judge Neill said that local law en-

forcement agencies have been receiving complaints about kids on bicycles. The biggest complaint has been about bicyclists riding in groups, two or three abreast, whereas the law states that they must ride in single file," Judge

Neill said. "We've had several complaints about kids weaving from one side of the street to the other. Also, several concerned persons have called about kids riding at night without any lights or reflectors, and the law clearly states that lights and reflectors are required for night riding.

ACCORDING TO new bicycle laws and city ordinances, bicycle riders are now under the same traffic laws as

"Up to now, we haven't been en-

forcing these laws for bike riders," stated Judge Neill, "but I have instructed the chief of police to tell all his officers to start enforcing them.'

City police officers have the authority to ticket anyone caught in violation of bicycle laws. Anyone under 17 years of age who is caught in violation and ticketed must appear before Judge Neill with one parent and pay a-fine, which may be from \$1 to \$200, depending on the violation and number of offenses. If over 17, the person may appear alone before

the judge.

NEW BICYCLE laws listed in the Texas Drivers Handbook, revised in February of this year are:

1. A person riding a bicycle shall not ride other than upon or astride a permanent and regular seat.

2. No bicycle shall be used to carry more persons at one time than the number for which it is designed or 3. No person riding a bicycle shall attach the same or himself to any

streetcar or vehicle upon a roadway. 4. Every person riding a bicycle upon a roadway shall ride as near to the right side of the roadway as practicable, exercising due care when passing a standing vehicle or one proceeding in the same direction.

5. Persons riding bicycles upon a roadway shall not ride more than two abreast except on paths or parts of roadways set aside for the exclusive use of bicycles.

6. Where a usable path for bicycles has been provided adjacent to a roadway, bicycle riders shall use such paths and shall not use the roadway.

7. No persons operating a bicycle shall carry any package, bundle or article which prevents the driver from keeping at least one hand upon the handlebars.

8. Every bicycle in use at nighttime shall be equipped with the following:

a. A lamp on the front which shall emit a white light visible at a distance of at least 500 feet to the

b. A red reflector on the rear of a type approved by the Department of Public Safety which shall be visible from all distances up to 300 feet. A red light on the rear visible from a distance of 500 feet in addition to red reflector may also be

9. Every bicycle shall be equipped with a brake which will enable the operator to make the braked wheels skid on dry, level, clean pavement.

PERTAINING to numbers five and six, Judge Neill explained that there are no bicycle paths in Hereford, except for the ones located in Veterans Park.

In addition to the bicycle laws listed in the drivers handbook, Judge Neill pointed out another important law pertaining to bike riders.

One law states that no person shall drive any vehicle in any race, speed competition or contest, drag race or acceleration contest, test of physical endurance, exhibition of speed or acceleration, or for the purpose of making a speed record, and no person shall in any manner participate in any such race, competition, or contest, test or exhibition.

"This includes bicycles," Judge Neill

ANOTHER LAW states that every person riding a bicycle upon a roadway shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of a vehicle.

The Bicycle Instutute of America, Inc., list 11 bicycle safety tips, some overlapping with state and city ordinances, which if followed could make the difference between life and death.

1. Obey all applicable traffic regulations, signs, signals and markings. 2. Observe all local ordinances pertaining to bicycle operation.

3. Keep right, drive with traffic, not against it. Ride single file.

4. Watch out for drain grates, soft shoulders and other road surface

5. Watch out for car doors opening, or for cars pulling out into traffic.

6. Don't carry passengers or packages that interfere with vision or

con trol 7. Never hitch a ride on a truck or other vehicle.

8. Be extremely careful at all intersections, particularly when making a

9. Protect yourself at night with the required reflectors and lights. 10. Drive a safe bike. Have it inspected

to insure good mechanical condition. 11. Drive your bike defensively; watch out for the other guy.

"WE'RE NOT trying to create a hardship on the bike riders by enforcing these laws - we're just trying to save lives," Judge Neill stressed.

Rain Halts Harvest

the Hereford area Friday early in the harvest he said. "It temporarly halted the annual has been increasing steadily harvest of sugar beets ac- since the harvest began last cording to Bob Ginn of week." Hereford's Holly Sugar Plant.

"We were going good until the rain started," said Ginn. "Here at the plant we had received about 85,000 tons of sugar beets through Friday morning.'

Ginn said the plant was continuing operations and had enough sugar beets on hand to run for about five days.

"I think most of the area formers will be able to get back into their fields Monday though," he said.

Sugar content has been averaging about 14.5 per cent

Red Cross -- 'Helping People'

By KATHY MARGRAVE Staff Writer

"People helping people" is the theme of the American Red Cross organization, but before the Red Cross can help others, they must have your help.

One of the many local agencies that depends on financing entirely by the United Way, the Deaf Smith County Red Cross Chapter has set its minimum budget for the next fiscal year at \$10,006. The United Way has agreed that they will meet this budget with an even \$10,000, if this year's goal is

'Oh, we can make do without that \$6, I just hope that the United Way fund reaches its goal this year so that we can remain in operation," Genevieve Miller, County Red Cross executive said.

CHARTERED by the government in 1917 during World War I, the American Red Cross was formed to help military families, mainly in the form of communications.

With the end of our participation in Viet Nam," Mrs. Miller explained, "the need for this communications service has lessened. However, we still have a lot of service men in Germany and Okinawa."

The communications service with military families involves notifying the servicemen in case of family sickness or death and other

"WE'VE HAD cases where the head of the family has gotten ill and it is time to get the crops harvested. In such cases, the military officials will grant special leave to servicemen to come home and help out. This is where we come in to verify the family crisis for the military," Mrs. Miller explained.

The American Red Cross also gives loans and grants if the serviceman is in need of money to get home.

'Last year, we handled 240 communications and 42 cases involving financial help," Mrs. Miller said.

APPROXIMATELY 43.90 per cent of the local red cross chapter's budget must be given to the national organization for expenses abroad.

"We handle this end of the work, telling the family what they need to do in case of a crisis expense on the other end, contacting the serviceman wherever he may be," Mrs. Miller explained.

The local red cross chapter also helps out in time of disasters.

"When we had the tornado here a couple of years ago," Mrs. Miller related, "we set up stations where we provided coffee and sandwiches and we also received calls from out-oftown relatives wanting to know if their kin here were all right."

IN THE CASE of a family losing all their belongings in a fire or other disaster, the Red Cross aids with food, housing and clothing.

"We help the ones that cannot afford to rebuild. We provide food, housing and clothing and money so that they may start all over. All of this is free - nothing has to be

The Deaf Smith County Red Cross Chapter also provides other services that benefit the community.

"EACH YEAR we have a water safety program that is conducted during the sum-

mer months. Last year, we had 24 instructors on the roll and taught 485 students. We also provide first aid programs for various groups. The community has a need for these programs, so we provide them," Mrs. Miller said.

The local red cross chapter also provides uniformed volunteers at Westgate nursing home, the Satellite program, the Hereford Day Care Center and to help local church and club groups prepare ditty bags for servicemen in the combat zone.

"At the peak of our involvement in various wars, we prepared 254 ditty bags, but now we have no men in combat zones," Mrs. Miller explained.

LAST YEAR, the Deaf Smith County Red Cross chapter received only 70 per cent of their minimum budget that they requested from the United Way.

"The United Way Fund Drive didn't meet its goal last year, so all locally funded agencies were affected. My salary was cut in half, but someone has to continue to provide this very important service," Mrs. Miller said. "We're just people helping people."

New Uniforms?

There is an old saying that you can't judge a band by its uniforms and the Hereford High band proved it. Like the Amarillo band, the Whiteface band shunned the uniforms because of rainy weather and soggy field at the Hereford-

Amarillo game in Amarillo Friday night. Although the band didn't march at halftime, the spirit was still there and fans were kept alive by the familiar sound.

(Brand Photo)

Labor Survey

At the request of several prospective industries who are interested in locating a plant in the Hereford area the Deaf Smith County Chamber of Commerce is sponsoring a labor survey of the Hereford area.

The survey is meant to study the labor situation in the area so that prospective industries can decide if the labor force is strong enough here to support the planned industry.

"We want to get as good a survey as possible," said Bill Albright, CC executive vice president. "We need to get these surveys back in by Friday.'

Albright said several industries have been studying the Hereford area and were interested in locating here if a strong labor force is available.

"Anyone, male or female, who is available for work needs to fill out the survey," Albright said. "We will give surveys to the school children Monday and have them in the banks and grocery stores. We would sure like a good cross section of the

Herd Makes Mud Out Of Sandies

middle. Higgins delivered him the mail

at the Amarillo 40 and Charest cut to the ieft sideline and zipped to the end zone however, an official caught him gambling with the out-of-bounds line at the Amarillo 7.

From the 7 Harris struck for four yards and then again struck paydirt in the final three steps for his second score of the night. Charest this time hit the ball low and the PAT kick missed its mark for a 13-0 Whiteface lead.

The two-touchdown Herd lead sent the Sandies into a game of catch-up and the mistakes added one, and almost two more TD's to the Herd.

AMARILLO came out passing from their own 35 and moved up to the 43. On a second and 15 following an offside penalty against the Sandies, Amarillo QB Mac Jefferies rifled one to halfback

Charles Meander. However, Hereford's Doug Charest had other plans. Stealing his first of two aerials of the night, Doug Charest pulled in the ball at Hereford's 35 and did some fancy footwork and maneuvering over the next 28 yards before he was boxed in by Amarillo

From the Amarillo 37 the Herd wasted no time in scoring with Harris and High taking turns cracking through the middle line. However, from the Amarillo 10, Dave Charest took his turn with a short reverse counter over left tackle for the final 10 steps and the score.

Higgins then evened up the scoring as he ran a keeper off the option around left end and into the end zone untouched for the two-point extra.

THE ONLY miscue of any consequence for the Herd came with only a minute and a half left in the game.

Doug Cherest had just killed another Sandies drive when he skyjacked another Amarillo aerial at Hereford's 2 yard line. Two running plays resulted in only two yards and backup quarterback Mike Crim tried a little "blood-and-guts" football on a third and 8 situation from the 4 yard line.

Crim took the snap and stepped back into his own end zone looking for a receiver: However, the Sandies knocked the ball loose and Herdsman Lynn Lauderback covered the ball in the end zone giving the Sandies a two-point safety, but saving an Amarillo touch-

Crim then punted from the Herd's 20 and the Sandies tried three plays in vain from their own 28 before the final gun

HEREFORD threatened to score one other time in the middle of the final

quarter when they moved down to the Amarillo three The short drive had started when

Amarillo, facing 4th and 14 situation from their own 20, centered a punt snap over the head of punter Garland Jones. A host of Herd linesmen downed the punter at the 20 to set up what looked another Hereford score. With Crim calling the signals,

Hereford moved to the Amarillo 9, but then lost back to the 20 on a missed pitchout to High. Crim then nailed Dave Charest for 17 yards to put Hereford at the doorstep on the Amarillo 1-yard-line. However, the Sandies held their ground and took over the ball on downs two plays The Herd now takes a week off to

prepare to meet the Lubbock Monterey Plainsmen in Hereford Oct. 19, which also is the Herd's homecoming.

Man Arrested For Assault

By STEVE CONNELLY Staff Writer

A Hereford man was arrested Monday night for aggravated assault with a deadly weapon after apparently firing shots or pulling a gun on a relative.

The relative reported the incident to local law enforcement officers and the suspect was arrested and later released under a \$5,000 bond.

Five accidents have occurred in Hereford since Tuesday, one of which resulted in minor in-

juries to a pedestrian.

John Paul Jeffrey, 706 Cherokee, apparently crossed the street in front of a 1968 Pontiac, driven by Romulo D. Estrada, 420 Jackson, who was traveling south on Avenue F, Wednesday at 3:35 p.m.

Jeffrey was struck on the right leg and was taken to the Family Medical Clinic for treatment of minor injuries.

One accident was reported at 5:35 p.m. Tuesday in the 100 block of Douglas involving two

A 1967 Ford, driven by William G. Gentzel, 516-B Ave. G, was reportedly stopped at a stop sign at the intersection of Douglas and Plains Streets.

A 1973 Ford, driven by Steven L. Taylor, Rt. 4, Okmulgee, Okla., was behind the Gentzel car when the Gentzel car apparently began to back up and collided with the Taylor car.

An accident at the intersection of 25 Mile Avenue and Park Avenue took place at 11:10 a.m. Wednesday when a 1971 Ford, driven by Faye J. Black,

406 Ave. I, was attempting a left turn onto Park Avenue and collided with a 1970 Ford, driven by Claborn L. Collins, 301 Ave.

Wednesday's second accident took place at the intersection of Major and Austin roads at 3:40

A 1970 Buick, driven by Raul Claudio, 325 Ave. C, was headed

1972 Buick, driven by Marguerite M. Cole, Rt. 2, was going west on Austin Road. The two cars collided at the in-

> The last reported accident of the week occurred at 12:15 p.m. Friday at the intersection of Park Avenue and Avenue B.

north on Floss Street, while a George L. Tiefel, 124 Ave. J. was reportedly stopped at the traffic signal at the intersection facing east when a 1968 Volkswagen driven by Barbara Jean Brown, 1505 Brevard, stopped behind the Tiefel vehicle.

The Brown car apparently started forward and collided with the rear of the Tiefel car.

County Court Works Over Busy Docket This Week

Judge H.C. Williams' County Count saw a busy week as 19 cases were attended.

Eleven cases were cleared from the docket in one form or another and eight other cases were filed by Crim. Dist. Atty. Andy Shuval.

Cases disposed of included: A plea of guilty to a charge of driving while intoxicated (DWI) resulted in a \$100 fine, court costs, 30 days in jail and one year's probation for Isaac V. Villarreal.

Gary Mac Dryden pleaded guilty to DWI and received a \$100 fine, court costs, one year in jail and probation for a year. Wesley High pleaded not guilty to a DWI charge and was

acquitted after a jury trial. Dale Doan was fined \$25 for swindling with worthless check (SWWC) and paid court costs plus restitution.

Harold Wayne Morgan was

fined \$100 plus court costs and appeal to a speeding charge 90 days in jail and a year's

FIRST NATIONAL BANK of HEREFORD

Water Quality Board To Hold Public Meet

The Texas Water Quality Board will hold a public hearing in Amarillo Thursday to consider applications for waste control orders by three cattle feedlots in the panhandle area as well as a certificate of registration for a commercial swine operation. The hearing will be held in Conference Room C of the Municipal Building

starting at 10:00 a.m. The Jay Taylor Cattle Company of Amarillo is applying for a permit for a variable amount of rainfall runoff water containing wastes from a feedlot operation located approximately 28 miles west of Amarillo with a capacity for feeding 1,000 head of cattle. The runoff water is to be collected in a retention pond and utilized for irrigation. There is to be no discharge to the surface waters of the state.

Coyote Lake Feedyard of Lubbock is requesting a permit pertaining to a variable amount

of rainfall runoff water from a proposed livestock feeding operation to be located approximately 12 miles southwest of Muleshoe in Bailey County. The feedlot will have a capacity for feeding 15,000 head of

The rainfall runoff water will be collected in a retention facility which is a natural depression 600 feet wide, 15,000 feet in length, and having an average depth of two feet. It will drain an area of approximately 92 acres which will include the cattle pens. A roadway and the natural topography of the land will divert other rainfall runoff from entering the depression. The runoff water will be evaporated, and there will be no discharge to the surface waters of the state.

The Running Water Cattle Company of Dimmitt is making application for a waste control order for a variable amount of rainfall runoff water containing .

wastes from a feeding operation to be located about 21/4 miles west of the intersection of FM Road 145 and U.S. Highway 385 in Castro County. The facility will have a capacity for 1,000 head of cattle.

The wastewater control facility will consist of a sediment pond and a retention pond, and the runoff water will be used for irrigation. There is to be no discharge to the surface waters of the state.

Application is being made by Southwest Pork Feedlot, Inc. of Canyon for a certificate of registration for a commercial swine operation approximately six and one-half miles northwest of Canyon in Randall

Rainfall runoff water containing wastes is to be collected in two holding ponds and utilized for irrigation, with no discharge to the surface waters

INTRODUCING VIA LANVIN, A BEAUTIFUL NEW WAY TO GO.

Via Lanvin is for a kind of woman

Via Lanvin is for a kind of woman who didn't exist when most perfumes were born.

A kind of woman who lives and live fresh air into every place she walks.

A woman who believes the world is worth smiling for.

To keep pace with this woman,

a beautiful new way to go.

The package and the bottle, gleaming and splashed with color, are much closer to the future than

And the scent, well, to say it is simply beautiful is much too simple Via Carryin comes from a phi-

scent can be elegant without being

tingley and yes, even fresh, and yet still be soft and sensuous and yes even touching And most of all, a philosophy

subtle hints of jasmine and numees of gardenia, na cissus and hyacinth all harmonized against a woodsy musk background. An unusual com-bination that somehow keeps appearing through the day when other scents would have long disappeared. Via Lanvin II you find it easy to fall in love with life then you will find it easy to fall in love with Via Lanvin.

HUSTLE HUSTLE HUSTLE

By Bill Albright, Executive Vice President **Deaf Smith County Chamber Of Commerce**

I'd like your help this week .one of the letters we send out needs to be revised and I'd like your suggestions on the revision. This is an open letter sent to folks who inquire about Texas. It reads as follows;

"The West Texas Chamber of commerce has told us of your request for information about Texas. Hereford is not what you'd normally consider a tourist attraction. We don't have the usual amusement parks, mountians, lakes, or tourist traps.

We do have the unique distinction however, of being number one in the United States in the production of cattle and agriculture and we are a community that's "on the grow". Hereford experienced a 75 per cent population increase between the 1960 and 1970 census and in 1973 we passed the 15,000 mark. The Texas Industrial Commission forecasts our total county population at 25,000 by 1975.

This unusual increase is due to a combination of things. First, Deaf Snith County is a very heart of the cattle feeding industry with more than 800,000 head of feed lots employ the latest technology in computerized milling and blending of grains and feed supplements. To complement our cattle feeding we are located in the heart of a very fertile grain producing area with ex-ceptionally high yields of grain sorghum, wheat, and numerous other feed crops.

The cattle industry is further intensified by Herefords Huge Armour Packing Plant and the large Missouri Beef Packing Plant at Friona just a few miles west of town. Both are new plants and employ the most modern methods of pollution control. Vegetable farming also adds a very substaintal impact

to our economy, as does sugar beet production which is enchanced by the Holly Sugar refinery, one of the largest, most modern in the world. Of course the weather has to be just right to make these agriculture operations possible and we do enjoy cool summers

and mild winters. All these and the many other developed thru application of modern techniques, and a deversified agriculture economy owned and operated by some of the finest agribusinessmen, ranchers and farmers to be found anywhere in the world.

If you decide to visit our area you will want to see our museum which preserves the rich heritage of this panhandle area. Tours of feed lots, irrigated farming operations, various produce processing plants and other points of interest can be arranged by contacting this office.

We know that your visit to agri-related businesses have Texas will be enjoyable and we're confident that time spent with us in Hospitable Hustlin' Hereford will be particularly pleasant and worth while."

Your comments please, and since we have to get this in the mail early this week-hustle, hustle, hustle.

used or sold as grain, should be harvested prior to using a desiccant on seed rows, according to Grain Sorghum Producers Association Executive Director Elbert Harp. Harp stated that no desiccant is registered for grain sorghum to be fed or grazed. AUTOPSIED DEATHS

Only about one in every five

Pollinator rows, in hybrid

seed production which is to be

deaths in the United States is autopsied. Yet few procedures yield more information to doctors about disease. For example, the October Reader's Digest reports post-mortem examinations have helped doctors identify (and develop treatment for) coronary occlusion, deaths from which were once thought to stem from "acute indigestion." Today, experts use autopsies to check the effectiveness of new medicines and surgical techniques. And some medical men believe that long-term post-mortem studies will eventually provide answers to their questions about relative effectiveness of various treatments for cancer of the breast and other organs.

Early Cotton Plants Were Decorative Shrubs

The first cotton plants were believed to have been tropi-cal shrubs similar to crepe myrtles or lilac bushes. Over the centuries, annual forms evolved that could produce a crop in a single season.

Food Bill Vs. Wages

If wages had risen at the same rate as food prices in the United States during the last 20 years, the average industrial worker today would be earning \$2.23 an hour instead of \$3.65

EXERCISE

Exercise can help you lose weight. A full-page chart in the October Reader's Digest indicates how many minutes of exercise you need to burn off the calories in a glass of beer in 22 minutes, or run them off in just six minutes. Even lying down can help you lose weight, although it'll take you 386 minute of reclining to get rid of the 502 calories in a malted milk shake.

SHOOK TIRE CO

Rotarians in regular meeting Monday installed a new member heard an interpretation of recently passed "comparative negligence" laws. Don Richards, left, was the new member sponsored by Hereford Southwestern Bell manager Mike Patrick. Rotarian Ken Rogers then introduced Mack Tubb, who interpreted recently passed state laws allowing persons to collect damages for accidents although they may have been partially at fault.

Many Veterans Unaware End Is Near For GI Bill Aid

Infant Dies After

Run over by a pickup as he

apparently played in a

driveway at his parents' home,

Henry Villarreal, year-and-a-half-old son of Mr. and Mrs.

Mateo Villarreal of 102 Dayton,

was pronounced dead at Deaf

Smith General Hospital Wed-

nesday evening.

Tragic Accident Here

A large number of veterans The maximum entitlement is Every veteran should be now have a period of less than available to veterans who had one year to use their continuous active duty of educational assistance benefits which are provided by the eighteen months or more. Veterans Administration through the GI Bill.

Unfortunately, many of these veterans are unaware that they are nearing the end of their eligibility period to use the GI Bill to complete their education. This announcement was made today by Benny Womble, Veterans County Service Officer for Deaf Smith County.

Veterans who were discharged or released from military service at any time between February 1, 1955, and June 1, 1966, have a period of eight years to use their GI Bill entitlement, and such period commenced on June 1, 1966, the date Public Law 89-358 went into effect. This means that all veterans who got out of service prior to June 1, 1966, will lose their entitlement on May 31,

Veterans who have been discharged or released from service since June 1, 1966, have a period of eight years from their release to use their GI Bill entitlement to go to school. There is a possibility that Congress may extend the deadline beyond the present eight-year limit, although such action cannot be predicted with any certainty at this time.

Veterans who were discharged or released from service under other than dishonorable conditions following 181 days or more service, are entitled to one and one-half months of training for each month of service, with a maximum of 36 months of training for any one veteran.

BARGAIN? .. only a professional knows

Today, all diamonds have determinable value. If a stone has any worthy quality to it. a jeweler can obtain the standard price for it and doesn't need to sell it to you "wholesale." Many so-called "bargain" diamonds have first been marked up in order to be "slashed down," It costs no more to buy your diamor from a reputable firm with qualified personnel to properly evaluate the stone you select. As members of the American Gem Society, you may be assured of both our reliability and proven know-MER AMERICAN GEM SOCIETY AGS

We've got MICHELIN 'X' the original steel-belted radial.

If you've been thinking about buying radials, drop in and let us tell you about the original steel-belted radial, Michelin 'X'. Michelins have proven themselves over millions of miles of rugged roads the world over. They're designed specially for American cars and American driving conditions. Michelin 'X' radials give you safe, smooth, dependable driving you can rely on. They've got tough belts of steel inside to resist punctures from road hazards. A unique radial construction that cuts down on rolling resistance to produce measurable fuel savings*, and a warranty of **40,000 miles on every tire for domestic cars. Michelin makes a tire just for your car. Come in today and we'll tell you the one that's exactly right

*compared with bias-ply tires 40,000 MILE WARRANTY

**Michelin's Warranty for X Radial Highway Tubeless Whitewall Tire shown here covers tread life, normal road hazards (excluding repairable punctures) and defects in work manship and materials for 40,000 miles when tire is used on domestic passenger vehicles in normal service in continental United States, except Alaska. Credit or refund (at Michelin's option) is equal to current actual selling price multiplied by percentage

All persons having claims against said Estate, which is being administered in the County of Deaf Smith, are hereby required to present the same to me respectively, at the address below given, before suit upon same are barred by the general statutes of limitation, before such Estate is closed, and within the time prescribed by law. My residence and mailing address is 117 Ave. A, Hereford, being in the County of Deaf Smith, State of Texas. Dated this 1st day of October,

Juanita Houle Independent Executrix of the Estate of Vera Wilson Davison, deceased, No. 2391 in the County Court of Deaf Smith County, Texas

S-15-1c Aikman P-TO Has Family

Night Meet

An informal family night at Aikman School was held with an Aikman Parent-Teacher Organization business meeting

Thursday evening. Hereford's Birthday was the theme of a musical program presented by fourth grade pupils under direction of Mrs. John Latham.

A nominating committee of Mrs. Burke Inman Jr., Mrs. Lee Jones and John Poindexter was appointed. Mrs. Don Mc-Whorter was chosen to replace Mrs. Charles Minchew as historian.

Mrs. Gladys Cox conducted the meeting and Gary Jander led the flag pledge.

Flower Arranging Is Shown

Basic flower arranging was demonstrated by Mrs. Wayne Porter as she spoke to Bud To Blossom Garden Club Friday morning in a meeting at Mrs. Bruce Brown's home.

Application of the principles she taught, to making miniature arrangements was the subject of Mrs. Jess Robinson, who also gave methods of drying small flowers and using them in arrangements.

Members voted to continue assisting with transportation of Kings Manor residents this

Mrs. Harve Williams was introduced as a guest. Members present included Gladys Setliff and Mmes. Steve Coneway, Sam Long and Billy Wayne

Precautions Listed To Avoid Fires

most dangerous, because the farmer, his family and his property are usually miles away form the nearest fire department or from neighbors who could lend assistance. Never is a farm so isolated than when a fire strikes.

Farm families should take all precautions to prevent accidental fires and they should use all methods of fighting fires if they do start, according to

Farm fires are potentially the Milvin Hoover, Farmers Home Administration county supervisor in Hereford.

The Farmers Home Administration, in observance of National Fire Prevention Week. Offers this list of fire prevention and protection ideas:

1. Make sure every member of your family knows how to call the fire department. Post the fire department number at the telephone. Also make sure your fire department knows the

layout of your farm, house and designed for larger loads barn, and the location of water

2. Check conditions of heating equipment, including chimneys and flues. Make all repairs

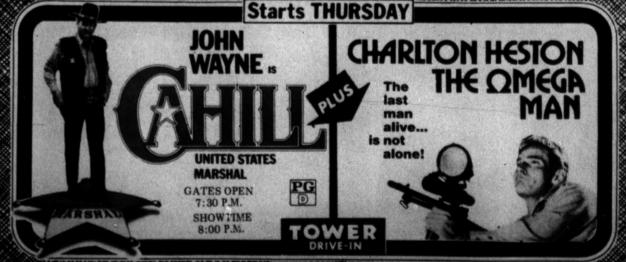

necessary for sage operation. 3. Check electric wiring for wear and loads - replace worn and inadequate wiring. Use only 15 ampere fuses unless a circuit has been especially months.

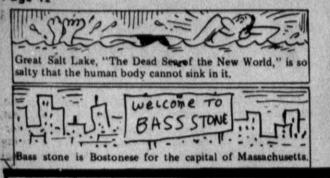

4. Keep fire fighting tools accessible in an emergency. 5. Have ladders ready for

escape and for fighting coof fires. 6. Keep fire extinguishers on hand. Check them frequently and recharge them when necessary. Also, protect them form freezing during winter

Strip-Tease Tactics **Being Used On Bugs**

In Oklahoma, they're dust-ing off an old conservation practice and putting it to work in cotton fields to obtain better yields at lower risk to the environment.

The practice being revived is strip-cropping, reports the National Cotton Council, but in the Sooner State it's being given a new twist.

In four years of tests, Oklahoma State University researchers have found that planting strips of sorghum with cotton increases the population of beneficial in population of beneficial in-sects and reduces the need for spraying. What happens is that harm-

ful insects build up in the sorghum and beneficial pred-ators move in to eat them.

Kay Euler-Wayne Barber Marry In WTSU Chapel

A wedding in Joseph Hill Chapel on the campus of West Texas State University, where both are senior students, was read for Miss Kay Ann Euler of Summerfield and Wayne Edmund Barber of Canyon at midafternoon Saturday.

White chrysanthemums were arranged in a large bouquet around a memory candle in the center of the altar, backed by candelabra twined with green

The Rev. John Wagoner of the Methodist Student Center at WTSU officiated for the

The bride is the daughter of Mr. and Mrs. J.R. Euler of Summerfield and the bridegroom's parents are Mr. and Mrs. William Barber of Miss Lesley Euler, maid of honor for her sister, and Joe

Barnett, best man, were the only attendants. David Euler, the bride's brother, and Jesse Hooper were ushers and lighted candles at the altar. Wedding music was by Miss

Lily Lyons, vocal soloist, and Mrs. Bill Bradly, organist. As the memory candle was lighted Miss Lyons sang Wedding Song: other solos were For All We Know and The Lord's Prayer.

A deep lace yoke with circle collar, and leg-o'-mutton sleeves with lace trim gave a peri d look to Miss Euler's It was fashioned of car_lelight organza over bridal taffeta, with natural waistline and slightly flared skirt with a lace panel down the front and lace edging around the hemline which widened into a chapel

Her illusion veil, extending over the train, was held by a lace caplet topped with a satin bow. She carried a nosegay of yellow daisies, pink and orchid pompons, blue cornflowers and babybreath.

An onyx ring with diamond in the center, belonging to her grandmother, Mrs. Joe Kendall, was an heirloom piece in her costume. For luck she had a Canadian penny minted in the bridegroom's birth year in her left shoe, and United States penny of her own birth year in her right shoe.

Royal blue velvet made her attendant's dress, with candlelight lace around sleeves and neckline. Her flowers were snowball mums and blue starflowers in a nosegay tied with blue streamers.

A reception after the ceremony was held in the Methodist Student Center. Miss Gayla Tate served the wedding cake while Miss Paula Clements of Plainview ladled

Aunts of the bride, Mrs. Ralph-G. Smith of Dimmitt, Mrs. Gerald Smith of Panhandle. Mrs. Howard Turner of Roswell

and Mrs. Delbert Bainum, assisted at the refreshment table, which was covered with white net appliqued with sequin

Royal blue candles burned in crystal holders. A design of blue roses and bells ornamented the tiered cake, topped with brideand-groom figurines

For a short trip, Mrs. Barber changed her wedding dress for brown velvet pants and a camel-tan jacket. After midweek the couple will be at home

An elementary education major specializing in kindergarten, the bride was graduated from Hereford High school in 1970. Mr. Barber, a native of Canada, is dorm director of Guenther Hall and a senior majoring in industrial distribution. He has served two

years in the Marine Corps. Wedding guests from other cities included Mr. and Mrs. Robert Tiffany and sons of Questa, N.M., as well as the Gerald Smiths, Ralph Smiths and Turners.

BSP History Given Claresholm, Alberta, Canada. By Mrs. Fred Ruland

Mrs. Fred Ruland presented the history of Beta Sigma Phi Sorority to members and guests of the Alpha Iota Mu chapter Thursday evening in the Community Room at First National Bank.

She stressed the functions of the cultural social service organization in relation to the chapter's motto, Live, Learning and Friendship.

In connection with the program yearbooks, magazines, bracelets, pins and badges were on display. Each officer summarized her duties to complete the model meeting

Invitation to membership was extended to guests present. Those included Mmes. Ken Glenn, Glenn Thomas and Philip Scuimbato; also, Carol Elliott, Betty Barrett and Phyllis Gerdsen

During the business meeting the service committee announced that the chapter would sponsor Judy Rawles of Girlstown this year.

Members present were Mmes. Chick Holbert, Johnie Burkhalter, Ken Walser, Jerry La France, Jimmy Bell, Bill Drake, David McDonald, Robert Williams, Coy Mason, Floyd Neil and Carla George.

Taxes And Election Changes Discussed

the U.S. election system were- person. the topics for an Americanism program in Summerfield Study Club Thursday afternoon. Members met in Mrs. Ray Johnson's home with Mrs. Thurmond Atchley as co-

Mrs. Elmer Woodward, discussing proposals for tax reform emphasized that no one argues the present tax system is Walser, Clayton Sanders, L.B. fair, but plans for change vary greatly. She urged members to inform themselves of the various suggestions and let legislators know their conclusions

Electoral College procedure in choosing a U.S. president is widely condemned as obsolete, Mrs. J.R. Euler told the group, and there is much criticism also of the policy of permitting the presidential candidate to select his running mate because if the vice president does become president, he has actually been

Verdure From Caliche

ranch home.

A SHADY AND grassy oasis on a bare caliche slope north of Dawn is the Residential Beauty Spot for September, designated by the beautifucation committee of Deaf Smith Chamber Commerce Women's Division.

Homes in the city are usually picked for this designation, but an exception was made for this unusual place.

It is the home of the H.D. Fowler family, and is picturesquely located on ground that slants down to Palo Duro Creek. There are native trees on the creek, but the higher ground is all grassland.

Mr. and Mrs. Fowler moved to the place when they married 25 years ago, built the house on the bare hillside and began work on the grounds. It was necessary to haul dirt in for most of the planting, Mrs. Fowler says.

FIRST OBJECTIVE in making an attractive yard was tree planting for windbreaks. They set Chinese elms for quick

BEAUTY FROM ANY ANGLE - The entrance to the H.D. Fowler home,

Beauty Spot Of The Month for September, reveals a frame of evergreens and a

background of higher trees, top photo, while the outdoor living space behind

the house is surrounded with more trees and has a rock pool and fountain,

glimpsed at far left. Mrs. Fowler sits at the table with Argen Draper, county

extension agent who has been an advisor for some of the landscaping at the

Ranch Home Is Chosen

Through the years they have planted other, slower-growing trees which will replace the elms when the shorter lives of the elms are over. Many are. apricot, peach, plum and pecan trees which the Fowlers have grown from seed.

There are also numerous evergreens of various species which are even more effective than the deciduous trees in breaking the force of the Plains winds on the exposed slope.

PINE, SPRUCE, fir and others have been brought back from Colorado mountains on the Fowlers' trips, and red cedars came from the Texas Forestry

Some of the trees were set in haphazard fashion, Mrs. Fowler says, before an overall play was developed, but all together they make beautiful spots of shade and sunshine, viewed with the shrubs, vines and flowering plants.

Native grass has been watered and cultivated to make a green carpet in the fenced front yard and also in an informal garden behind the house

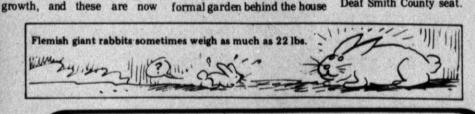

add to the scene. The rocks are a collection, souvenirs of family

THIS YARD, with its barbecue grill and outdoor tables, rises higher than the fenced yard, and still higher up the slope is a well and swimming pool which the family and friends enjoy in summer.

There are usually from one to two dozen people around the pool on any Sunday afternoon," Mrs. Fowler says.

The Fowlers have two sons who still live at home. Bill ranches with his father since graduation from college, and Jim is a sophomore in West Texas State University this

The ranch is one of this county's historic spots. The grove of trees in a bend of the creek just across from the Fowler home was much used as an Indian camp ground before settlers came to this area, and down the creek a short distance is a cave which was a postoffice on a pioneer mail route from Amarillo to La Plata, the first Deaf Smith County seat.

You may have heard that our agents have a reputation. If not, we'd like to give you the word:

PLAN DECEMBER WEDDING - Alan W. Railey of Hereford and his fiancee, Elda Marie Cruce of Lubbock, have set Dec. 15 as the date for their wedding. Railey is the son of Mr. and Mrs. Joe W. Railey, 312 Ave. C, and Miss Cruce is the granddaughter of Mrs. Ludie Spales of Tahoka. Both are junior students in Texas Tech University. She majors in dietetics and medicine and plans to teach dietetics in a school of nursing. Railey is a business major.

ENGAGEMENT ANNOUNCED - Mr. and Mrs. B.A. Reddell of Morgan's Point Resort City, former residents of Hereford, announce the engagement of their daughter, Betty, to Ralph Moreland of Arlington, Virginia. The couple plan to marry January 5 in the bride's home. Miss Reddell graduated from Hereford High School in 1970 and will graduate from Mary-Hardin Baylor College, Belton, in December with a bachelor's degree in physical education. Moreland attended Bee County Junior College before entering military service. He is presently employed with the Department of Defense in Washington D.C.

COUPLE TO WED - Mr. and Mrs. D.G. Mc-Carley of Chicago, former Hereford residents, announce the engagement of their daughter, Cindy, to Ronnie Nunley, son of Mr. and Mrs. W.B. Nunley, 513 Ave. K. The couple plans to marry in November. Miss McCarley is a 1973 graduate of Hereford High School and is attending West Texas State University. Nunley is a 1967 HHS graduate and attended WT before completing four years of military service with the U.S. Marines. He is presently employed by A.D. Gugenheim Co.

Trio From Hereford On Regional Program

Three Hereford women will have a part on the fall regional program of Delta Kappa Gamma Society when the annual meeting is held in Bonham Junior High at Amarillo

Saturday. Members of Delta Xi Chapter here will explore goals of the society with regard to women in education. Mmes. J.D. Neill, Bob Hamman and Gerald Hale in a panel discussion will suggest how the goals can be reached and whether women educators can be truly professional.

Mrs. Dick Montgomery in charge of arranging Hereford's part on the program, which has the overall theme. Our Past Is Prologue To Our Future - A Plan For Action

Members from 150 chapters are expected at the regional meeting, with Pi Chapter pi Amarillo as the hostess group. Dr. Dahlia Terrell, state finance chairman, and Mrs. Grover Rowlette, state research chairman, will conduct the session. Both are Lubbock residents.

Young Extension Club Hears Talk

Undetected Hearing Loss Indicated By Danger Signs

With the school year underway, parents and teachers should be especially alert for slow learners and childern who are behavorial problems, as these youngsters may be exhibiting the danger dignals of an undetected hearing loss," according to David Smith, director of the Belton Crusade for Hearing Conservation.

The crusade, sponsored by Chicago-based Beltone Electronics Corporation, world leader in hearing aids and electronic hearing test instruments, is designed to build public awareness of the vital need for hearing conservation programs.

Smith said the child suffering can also manifest such other symptoms as obviously straining to hear, confusing words which sound similar and becoming withdrawn or introverted for no apparent

"Unfortunately, hard-of-hearing childern often do not recognize the problen and teachers as well as parents can mistake inattentiveness or preoccupatoion for slow learficulty can encounter extreme him. problenms in trying to learn something he simply can not hear well enough to understand. At times he might be thought of as disobedient when in actuality

The Sunday Brand

Editorial Forum

Hereford, Texas, Sunday, October 7, 1973

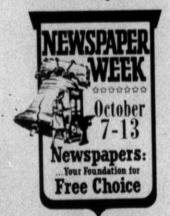

Dear editar:

It's not a world-shaking problem but as you know, Congress has now passed a law allowing the television of home games in professional football if the game is a sell-out 72 hours before it starts, and as I understand it the owners of the teams aren't happy about it.

They say that even if all the tickets are sold, if the day turns off wet and cold a lot of fans will stay warm and dry at home and watch the game on television, thus cutting down on parking lot fees, hotdog sales, etc., not to mention the dispiriting effect a halfempty stadium has on the players.

THERE'S a remedy for this. Put seat belts in all the seats in the stadium. Rig them up somewhat like

The Sunday Brand

the new cars. If the belt isn't fastened, your television set at home won't start, it just emits a continuous buzzing sound. The stadium thus will be filled, either by the ticket holders or somebody they hired to sit in for them, and what difference can it make to the players if they're being cheered or booed by somebody who paid to get in or was hired?

On this law, as with lots of laws, Congress either went too far or didn't go far enough.

SPEAKING of these new car seat belts that make that awful nagging buzzing sound and won't let your car start till they're fastened, I was just thinking, how could the west ever have been won, how would the cattle ever have been herded, how would a stampede ever have been stopped, if, when a cowboy leaped into his saddle, his horse wouldn't start till both feet were in the stirrups?

> Yours faithfully, J.A.

"Who is going to sacrifice to ease the gasoline shortage? Are you going to cut down on gas usage, drive a smaller car, walk, ride a bicycle, forego a trip, adjust your poor driving habits, etc. -or is it going to be the guy down the street? But he's thinking the same thing about you . . ." ST. MARYS, MO., WEEKLY REVIEW

'The soaring rise in prices reminds us that inflation is like flirting with a girl . . . By the time you become alarmed, there doesn't seem to be anything you can do about it! . . . The price of beef is so high, for example, that cows are no longer being branded: they're being engraved."

Editorials

In The Thick Of Things

"The mills of the gods grind slowly, but they grind exceeding fine."

So goes the saying.

The mills of the more "god-like" decision-makers of earth, courts and congresses, emulate that slowness, but that's as far as it goes. They are human institutions and imperfect, as we are often reminded by

Meanwhile there is nothing godlike about a newspaper.

Its presses don't grind at all they whirr exceedingly fast.

As an imperfect human institution that is also always in a hurry, we are imperfect indeed.

Wisely, the function we serve does not require perfection. It requires only that there be an open marketplace for ideas and claims, so that the truth can "emerge triumphant" eventually.

Ours is a helter-skelter kind of service that is unique. The newspaper is the supermarket of the mass media. You can browse among the departments of your choice, examine the labels we call headlines, and select for yourself the items you care about.

The reporting style we use offers you still another choice. You can have as much of our food-forthought as you want. You not only can stop with the headlines, you can quit after the lead facts or delve deeper if it suits you.

No other technique for gathering and laying out news and comment gives you this range of freedom of choice and a system of "labels" to make your choice most effective whenever you choose to exercise it.

In spite of the fact that we are always dealing with events that are bird-on-the-wing and can't "stop time" to do our thing as the courts, congress, researchers, and academicians so often do, the record shows that American newspapers are

scarcely more error-prone in the long run than those other human institutions.

Yet our greatest virtue is that we do not pretend to be carving tablets of stone as they often do.

The town newspaper, thus, with all its sins is a unique and invaluable institution and we are proud of the business we're in.

National Newspaper Week is a fitting tribute to the press, but the newspaper comes out regularly, and in this on-going service every day is newspaper day in a practical way.

Our free and varied press may not give society "final solutions" to its problems — but it will always keep readers in the thick of things and ABLE TO COPE.

We shall strive to keep meeting that basic obligation.

> - The Journal Star Peoria, Illinois

Red Tape And You

One of the most telling criticisms of the way Congress manages the national finances is that no single agency within that august body has the responsibility for examining the total picture and aligning income with outgo.

Each Congressional committee is concerned only with the share of the pie going to the various interests within its jurisdiction. Not surprisingly, that situation tends to make for larger and larger pies, even when there aren't enough apples to fill them.

A similar lack of overview with respect to government regulation of business is threatening to destroy the small businessman, wipe out jobs and

aggravate inflation.

NEW federal regulatory agencies have proliferated in recent years. Among them are the Occupational Safety and Health Administration, the National Highway Traffic Safety Administration, the Environmental Protection Administration. And the brand new Consumer Product Safety Commission.

Then there are the "old" regulatory agencies: The Departments of Commerce and Labor, the Internal Revenue Service, the Social Security Administration, the FDA, the FPC, the FTC, the ICC, the FAA, the CAB, the SEC, the AEC, the FCC, and ETC., ETC., ETC. . .

AND ON the congressional drawing boards there are plans for new agencies or new regulations dealing with consumer protection, pension

plans, unemployment insurance and workmen's compensation, to name a few.

Each of these agencies produces hundreds of rules and regulations. And most of the regulations require a lot of work on the part of the regulatee. Most businesses - even small businesses fall within the jurisdiction of several

It is often difficult to quarrel with the stated objectives of these federal guardians. Who can be against safe working conditions? Safe products? Secure pensions?

But the problem is, no one is looking at the total impact of all this red tape on the businessman.

A company with 50 or 60 employees now has to fill out at least 75 or 80 forms a year, for the federal government alone. In many cases, it is much, much worse. For example, to apply for FDA approval, of a new drug, one pharmaceutical company recently submitted 64 volumes of data, making a stack 101/2 feet high.

NOR IS the problem limited to filling out the forms. First, the beleaguered businessman must learn which forms to fill out. The Associated General Contractors concluded that for a contractor to be fully informed of his responsibilities under the Occupational Safety and Health Act, he would need a pile of documents over 17 feet high, costing more than \$6,000.

This growing burden of red tape is becoming a serious social problem in itself, for two reasons.

FIRST, IT adds to the cost of doing business without helping to increase the production of goods and services. That's a classic formula for aggravating inflation. Senator Thomas McIntyre (D-N.H.) puts the present cost of processing federal red tape at \$18 billion a year for the businessman and another \$18 billion for the govern-

Second, and perhaps even more ominous, is the detrimental effect on the small businessman. Some are going out of business, rather than try to cope. Others are reducing the number of their employees in an effort to lighten the paperwork load. And many are simply ignoring some of the forms and regulations they should be worrying about. Consequently, it is becoming increasingly easy for the regulators to find excuses for harassing any small businessman who displeases them.

Can't help wondering if thse results are really what the various selfappointed crusaders for the "public interest" wanted, or even anticipated. Or are they, too, guilty of not stepping back to examine the total, cumulative effect of all they have wrought?

Talk Of Texas

TOUGH TEXANS-When the

University of Texas Longhorns played a football game with the University of Chicago 69 years ago this autumn, Illinois sports writers had a field day spoofing the Long Star State.

By JACK MAGUIRE

From the village of Dwight, III., (where the Texans stopped to rest and practice) a reporter from the Chicago American filed a story that read, in

"The carpenters and restaurants and hotel-keepers are all doing a thriving business. All the beds in the hotel where the Texans are staying were too short and 13 of Dwight's 22 carpenters were called in to lengthen them. The footboards were let out six inches per bed.

"The Texans live on raw, chopped beef, fresh blood from newly-stuck cows, toast, fruit and milk. Each man drinks a half pint of gore each morning for breakfast. They brought 13 carcasses of Texas beef along with them, but the last of these were eaten the day after the team left St. Louis."

If this kind of publicity led Illinois fans to think their team was about to face a squad of supermen, the score proved otherwise. The Longhorns lost the game, 68 to 0.

TRAVELING TEXAS-For a unique dining experience, try the

state's only restaurant where everything from soup to desserts is flavored with herbs.

It's the Hilltop Herb Farm and Garden Restaurant in San Jacinto County. It's difficult to find (it's on Farm Road 1725) and reservations are required. But for an unusual mealdinner on Saturday, luncheon on Tuesday, Wednesday or Thursdayit's worth the effort.

EXPATRIATE TEXAN—Temple Houston, youngest son of Sam Houston, migrated to Oklahoma and died there.

Born in 1860 in the Governor's Mansion in Austin, young Houston studied law and gained a wide reputation as a trial lawyer. He spent much of his professional life in western Texas, including a stint as district attorney in Mobeetie, Wheeler County. He also served a term in the Texas

When he was offered the job as local attorney for the Santa Fe Railroad at Woodward, Okla., he left Texas forever. He died in Woodward in 1905 at the age of only 45.

WHAT'S IN A NAME?-Falfurrias, county seat of Brooks County, was named for a Lipan Indian word meaning "land of the heart's delight."

H. D. Chatter With Arthritis, You're One Of The 100,000

By Argen Draper **Home Demonstration Agent**

have met this week and studied Josie's Hinges. You guessed it, it is on arthritis, which according to the National Arthritis Foundation, is the number one crippling disease.

Many diseases receive more attention than arthritis as it is often unnoticed until persons are very deformed and crip-

We don't have an estimate of how many local citizens are affected by one of the 100 rheumatic diseases which are termed arthritis but it is estimated by the foundation that 100,000 persons in the West Texas chapter area, have arthritis. The West Texas chapter is 83 counties.

The purpose of the club programs is to tell people to avoid self-diagnosis but to go to their family physician. Here are the warning signs to heed: -persistent pain and stiffness

on arising pain or tenderness in one or

more joints -swelling in one or more joints recurrence of these symp-

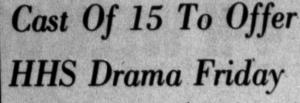

-pain and stiffness in lower back, knees and other joints -tingling sensations in

fingertips, hands and feet unexplained weight loss, fever, weakness or fatigue

Our purpose in club programs is to give the dietitian's point of view. The program material was taken from Pattee's Dietetics, Revised by Dr. Hazel Munsell, G.P. Putnam's Sons Publishers, New York.

It was formerly supposed that arthritis was the result of focal infection only. Dr. Munsell's research has been that neither any single infections agent nor any completely defined dietary deficiency or metabolic disturbance is the sole cause of this disorder. Rather, that a combination of these and appropriate circumstances may basically underlie the onset of

the disease A generally balanced diet is used and it is probable that arthritics will do better on a diet adequate in calories, low rather than high carbohydrates, other forms of emotional stress. adequate or slightly higher in respect to protein, smaller guide, L-1006, is available free.

A Distant Bell by Katherine Morrill will be presented by members of the Thespian Club of Hereford High School 7:30 p.m. October 12 at the HHS

Wayne Hodgson, Thespian sponsor, will direct the 15member cast. Adults tickets are priced at \$1.25 and children and student tickets at 75 cents.

In reviewing the Broadway play, John Chapman, New York Daily News, states, "A Distant Bell is a fascinating play which and turns.

"The author has given us the best writing of the seasonimaginative, lucid, unhackneyed and very often beautiful.

"This is a play which cannot be given a llabel, for some of it is whimsical, some of it glows with human warmth and some of it is tragic. I recommend it because of these varied qualities, which somehow, come and fit together.'

Family Living Is Topic For Club

Two members of North Hereford Extension Club discussed phases of the topic, Family Stability, at the meeting in Mrs. Iva Saltzman's home Thursday

Mrs. A.E. Hodges spoke of 4-H Clubs as a youth activity to involve the entire family, citing growth of Texas 4-H Clubs. Mrs. Paul Hoff's subject was Attitudes and Potentials.

Attitudes which affect adults are formed in childhood, she said, by looking and listening, rewards and punishment. In

adolescence, personal experiences form attitudes, the speaker continued, and youths should learn that it is not necessary to destroy others for self-enhancement.

Mrs. T.E. Brisendine directed business. A former member, Gertrude Neill, was a guest. Mrs. J.A. Crofford, Vi Williams and Roberta Campbell were

By The Garden Gate With Glad By Mrs. Art Manjeot

Peace, peace, sweet peace, The gift of God's love.

We hear much about war, riots, troubles and crime. It isn't too often that we are told of peace and some of the things which have been done and are being done to attain peace.

One of the highlights of last week, was when I had the privilege and honor of meeting and hearing Mrs. R.L. Pollock of Fargo, N.D., speak on the International Peace Garden.

Mrs. Pollock has been interested and a participant in the Peace Garden since its in-

ception in July 1932.
The International Peace Garden lies nestled in the beautiful Turtle Mountains on I re-read it (I usually do two or three times) and I thought, gee! the border of North Dakota and that is a lot of hard work I have Manitoba. The location is midway between the Atlantic suggested to get gardens in a and Pacific oceans, 35 miles good sanitary condition. from the geographic central of

Happy to say that and 281 in North Dakota. (Study they are responding to treatment, and all the tears I have the location and note how timely it is, and how much even the

chrysanthemums, evergreens, The International Peace shrubs and vegetables. In a few Garden symbolizes that two days the flower gardens will be nations who have been at peace ablaze with beautiful autumn over 150 years are made stronger and are indeed concolors. Today I have six different colored chrysanthemums tributing to world peace, also in bloom. that two nations can and do live in peace and harmony along the flower arrangements. Glads are longest unfortified boundary in the world.

Two other features that dahlias, daisies, geraniums, played a large part in the location were that the terrain petunias (have had a continuous was good and the accessibility

Mrs. Pollock showed color slides. The beauty of the garden leaves one almost speechless deepens one's appreciation of the beauty of God's good earth and what man can do when working hand in hand with the creator of the universe.

even a box filled with dirt-Many outstanding things makes 'em feel like somebody relative to the Peace Garden new! I'm 73 years-old, and some appealed to me. One which I days when I first get up I feel hall never forget are the words just like going back to bed and which were engraved on a stone staying there—then I quit tablet located on the cairn. They garden tools, amble out to the and "We two nations dedicate this garden and pledge ourselves that as long as men shall live we will not take up arms against one another."

Another thing which impressed me, was how the plants, trees, lakes, streams, stones and other things of natural beauty, had been used in the overall landscape design of the

The teaching program in its various mediums is certainly conducive to the strengthening of peace. Many of the activities are set up for youth, which as we well know hold the key to the future. I pray that peace will be the cornerstone of all aims.

When I was introduced to Mrs. Pollock, I was certainly made to think. After exchanges, she asked me if I was a member of a garden club? I quickly said, "Oh yes, I am a member of two garden clubs.'

Then she asked me, "Why hasn't the National Council of Garden Clubs of the USA or the International Garden Clubs made a contribution to the International Peace Garden?"

For once I was speechless, (for a minute,) then I replied, "I

REMINDER: The Garden Club Course One School will be taught at the Amarillo Garden Center, October 9-11. Dr. Gundell, is one of the leading horticulturists of the USA and he will share much of his knowledge relative to correct practices of horticulture.

He is well a cquainted with our area and its needs. He has taught other Schools in District One. Lives in Colorado, which has similar problems.

Mrs. Jason Robertson of Amarillo will teach the course in artistic, also flower show practice. For information call Mrs. O.G. Hill, Sr. or other members of Hereford garden clubs. The public is invited to

These are crucial and sharing days, perhaps this old quote will be well for us to think on, "Count that day lost whose slow descending sun views from thy hand no worthy action done."

Fire Watcher - Teacher Likes Life Atop Tower

By SANDY INMAN **Brand Staff Writer**

FROM A SCHOOLTEACHER to a forestry service lookout. Shirley Gorman has spent the last three summers living in a lookout tower in Gila National Wilderness outside Truth or Consequences, New Mexico, and the Clearwater National Forest in Idaho.

"Actually, my girlfriend first got me interested in the ssion. She was working as a lookout in New Mexico and talked me into going back with her," says Miss Gorman. "We worked together for two

"Although there were many advantages in working with someone, I also enjoy working alone," smiles the young fire

"DURING MY leisure hours, listened to a transistor radio I brought with me and I also became an avid reader. I didn't miss not having a television because the radio picked up two TV station "

For reporting fires and emergencies, she used a twoway communications radio. She depended on the forest rangers or the fire prevention guards for her provisions and her mail.

"Since I was working alone, I

had an eight-hour shift and would fan the area at regular intervals. The tower I lived in was about 20 ft. high and was build on top of a concrete

"THE ROOM itself, was just large area that contained a bed, table and one wood burn

stove. I had propane heat for cooking and lighting."

"The only real disadvantage in the living facilities was having to chop wood and haul water every day, but that really wasn't bad," laug. The friendly

"I had visitors during the unting and fishing season and of course, there were my pets. Miss Gorman explained that she made pets of the squirrels.

"I put food at the base of the tower and when they had ed eating, they would climb the tower steps and come into "my home."

THE YOUNG fire watcher was assigned to the tower for three months. She spotted six fires during her stay and said she was very excited when she saw her first fire.

Before being accepted for a position as a lookout, she explained she first had to attend guard school. There she learned how to operate equipment and how to use the various tools used in fire fighting.

Miss Gorman is currently living with her parents, Mr. and Mrs. John Gorman, 215 Ave. A. She graduated from high school in Abilene and attended Incarnate Word, a Catholic girls school in San Antonio. She later transferred to West Texas State University.

She taught second and third grades at St. Anthony's Parochial School.

Arthritis, Diets Program Given

Arthritis was the subject of a program presented by Argen Draper, county home demonstration agent, and Mrs. Raymond Flores to Ford Extension Club Wednesday at Ford Community building.

Mrs. Draper listed some of the causes of arthritis and the diets that can be used to help arthritis victims.

During the business meeting, members discussed the possibilities of having the Ford 4-H group start a project in the Community building.

Members also discussed plans for strengthening the community. Hosting the meeting was Mrs. C.R. Stokeberry.

more for your money...

Thrifty homeowners do a lot of thinking about the way they spend their dollars to operate their homes. That's why more and more homeowners are taking a good look at electricity. Thousands of our customers are already heating their homes with electricity. They've found, through experience, that they get their money's worth. Drapes and furnishings stay clean longer and repainting doesn't have to be done so often . . . and that's saving dollars.

And, when you consider that you get full value for your electric dollar - 100% use out of every kilowatt-electricity becomes mighty attractive, not only in the home, but for industry, business, and agriculture as well!

Assistance in transporting Kings Manor retirement home residents on shopping trips will also be a continuing Bay View project. Members will fill this assignment next May.

The Rev. Doug Manning was guest speaker, introduced by Mrs. Juston McBride, program chairman. Drawing on his experience as a pastor and counselor, the First Baptist minister discussed need of every person for self-esteem.

Self-estimates often leave people wondering, "We know God loves us bút does he like us?" the speaker said. He summed up his talk with the statement that proper selfesteem comes when a person realizes that God knows us and loves us as we are.

Members present included Mmes. Jack Wilcox, Keith Simmer, Austin Rose Jr., Ansel McDowell, Earnest Langley, W.S. Kerr, Robert Josserand, Jimmie Gillentine, W.E. Golden, W.J. Gililland, John Gililland, Howard Gault, Homer Garrison, D.N. Garner, R.W. Eades, Colby Conkwright and H.L. Benefield.

SUNDAY, OCTOBER 7, 1973

Other Story: SO PRINCE ARN SELLS HIS SHIP AND HIRES A PORTER TO CARRY HIS GEAR UP INTO PARIS. IF HE CANNOT SEE THE FAR PLACES OF THE WORLD BY SEA IE WILL GO BY LAND.

HE HAS GROWN TOO TALL AND BROAD FOR HIS PRESENT ARMOR, SO HIS FIRST CALL IS AT THE SMITHY OF AN ARMORER. HERE HE IS ACCOUTERED AS BECOMES A KNIGHT ERRANT RIDING AT ADVENTURE.

NEXT, TO THE TAILOR. TOO LONG HAS HE DRESSED LIKE HIS FATHER, NOW HE PLEASES HIS OWN VANITY.

ON A SUNNY DAY ARN LEAVES PARIS. HE IS ON HIS OWN. HE SINGS, FOR THIS IS HIS FIRST VENTURE ALONE AND HE IS FREE TO VISIT STRANGE LANDS AND SEE FOREIGN CITIES.

WEARY FROM A LONG DAY'S TRAVEL HE STOPS AT A HOSTELRY. HAVING PLENTY OF MONEY, HE HAS PURCHASED MANY COMFORTS FOR HIS JOURNEY. NOW HE FINDS HE MUST CARRY UP TO HIS LODGINGS, SADDLEBAGS, SATCHELS, POUCHES, SHIELD AND WEAPONS.

HE MUST HAVE A SQUIRE. IN THE PUBLIC ROOM HE LOOKS AROUND FOR A SUITABLE CANDIDATE.

IN A FAR CORNER A GREAT COMMOTION ARISES AND THE ANGRY TAYERN KEEPER FORCIBLY EJECTS AN OBVIOUSLY TIPSY RASCAL.

NOT UNTIL HE HAS BEEN TOSSED OUT INTO THE NIGHT IS IT DISCOVERED THAT FOOD FROM EVERY TABLE HE PASSED BY

AIRCHILE

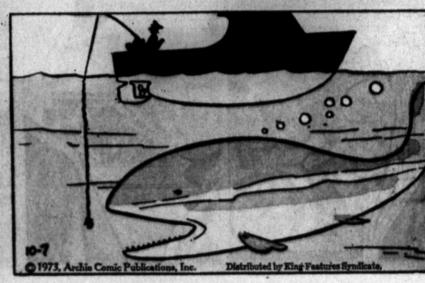

BRINGING

BILL KAVANAGH & FRANK FLETCHER

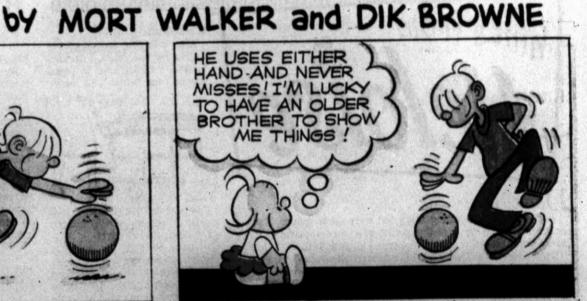

Hi and Lois

HAVING THAT

LEE HOLLEY

hints from

EAR HELOISE:

Last night when putting away leftovers from supper, I put my cranberry sauce (the type that comes in a can and you slice it) on a saucer and placed a couple of deviled eggs with it. I put a bowl over it as a lid (high enough not to mash the eggs, yet

keeping air from the food) and set it in the refrigerator.

Well, this afternoon when I

got it out to eat with my lunch, I had pink deviled eggs where

the cranberry juice had run. They are just as pretty as pickled eggs, and the tarty flavor from the cranberries tasted good with the egg.

Next time, I plan to slice my eggs in half, remove the yolks and immerse the egg whites in cranberry juice overnight to get that pink color even, then I'll make my egg filling when I'm ready to fix them.

Bernice Thompson Bernice, I want you to know

you have discovered a great idea. In fact, you are a gal after my own heart. I always keep hard-boiled eggs in my pickled beet juice jar (sweet and sour).

The eggs turn a beautiful purplish red, delicious for salads or just plain eating.

Heloise

SUITS HER TO A "T"

DEAR HELOISE:

Truly, "Necessity is the mother of invention," and I wish to share my latest idea with all disabled friends who

use walkers.

After creeping around on my walker for two years, I decided to find a faster way to move around our home and carry

things at the same time. It had to be on wheels, so why not try my dear old tea cart?

There it was, in splendid shape, two large front wheels, rubber-tired, two small rear wheels and swivels. Two large shelves and a dandy little drawer for my pad and pencil and a what not. The large, strong handle was exactly the right height.

Now I load the cart with various things and get around much faster. Whoopee! Mrs. June Heckman

STICK WITH IT!

DEAR HELOISE: I use a sponge to make a pin-cushion. I cut it into a shape and

hang it by a ribbon.

It makes a decorative and very handy place for your pins when you need them.

You can find sponges in various colors.

HELP FOR HOMEMAKERS

ALWAYS ON THE GO

DEAR HELOISE:

Sometimes it is a problem finding a suitable graduation gift-something reasonably priced yet something that will be appreciated.

One of my favorite gifts has been the plastic cover for carrying my hanging clothes back and forth to and from college. It stays folded at the top of my closet and when I'm ready to pack, there is no need to search for a flimsy plastic cleaner's bag!

A Coed

LETTER OF THOUGHT

DEAR HELOISE:

My husband always has a solution for everything, but he just came up with a real winner that I am sure would also be most helpful to your many, many readers.

Our children very often complained they were not tired enough to go to bed, so when my husband decided that he had heard this enough, he said,

"From now on, the entire family will have physical fit-ness class for ten to fifteen minutes before bedtime."

It is a great success, as they are ready for sleep after exercise time, and it is also a lot of fun to have the entire family exercise together. It is a habit everyone needs each day, and is more fun when one has company to exercise with.

This is also another opportunity for the family to be together, so important these hectic days!

Mrs. Sandler H. Dickson

DEAR HELOISE: Just a suggestion for cleaning the fringe on those lawn swings

and umbrellas.

Take a large bowl, fill with a good solution of bleach and detergent, dip the fringe in solution, let drip. By the time you have gone all around the fringe, it will be time to rinse off thoroughly with the garden hose. Your fringe will be snowy white once again.

Bess Clark 10-7

KEEP 'EM CLEAN

DEAR HELOISE:

For all those people who have cedar or redwood chips in their yards, we found an easy way to

remove leaves. Use the blower attachment on your vacuum and just "blow" the leaves and debris out of the chips.

Mrs. C.O.Biggs

LACE INTO THIS!

DEAR HELOISE:

As a mother of two toddlers, I would like to pass along a tip on those white shoelaces that

forever need washing. First, have at least two pairs of laces for each child's shoes. Never allow them to dry in the dryer as this ruins the plastic tips very quickly. Without those smooth tips, even relatively new laces are nearly impossible to thread.

Lastly, to help them appear new longer, when you're ironing a pillowcase or something equally flat, place those shoelaces on top and iron as if you were only ironing the pillowcase.

They will definitely look fresher without those tiny drying wrinkles. The shoes look so much better with bright

Lois Glase

WHO'S THIRSTY?

DEAR HELOISE:

In the opening made for a drinking glass (in the center of toothbrush holder), a dispenser for small paper cups will fit perfectly so the paper cups protrude from underneath. Don Campbell

IT'S A SNAP!

DEAR HELOISE: I took a sewing course and if I only had learned this one thing, it was well worth the cost, time, and effort.

Who hasn't struggled trying to catch that hook or loop above

the zipper in the neck of a dress in the back?

Instead of using a hook and eye (or loop), use a snap. Sew the flat piece of the snap on the left side. Then take the other half of the snap and sew it on (through two holes only) as near the edge on the right side as you can sew, leaving the snap completely extended over the edge of cloth. No more trying episodes hooking yourself

Hard to explain in writing, but, oh, so easy to do.
