

Hustlin' Harris

Hereford's James Harris here picks up more of his 232 yards as he leads the Whitefaces to a 13-7 bi-district decision over the Amarillo Caprock Longhorns Friday night in Amarillo. Harris Brand Photo by Craig Nieman

scored both Hereford touchdowns and intercepted two passes as Hereford moves into a regional game berth against El Paso Coronado to be played at 2 p.m. Saturday in Hereford.

Project Christmas Card Begins

Project Christmas Card, a 16-year old community effort which has added equipment valued at \$51,904 to Deaf Smith General Hospital and given scholarships to student nurses, makes its start for 1973 this week.

Hereford Medical Auxiliary, comprising physicians' and dentists' wives, conducts the project each year, and the fund is used to buy needed equipment which the hospital's regular budget does not allow

Cardiac Monitor equipment, a cast table for the emergency room, kitchen equipment, a medi-call system and even paving on a hospital parking lot have been among the various gifts in past , years.

Last year incubators for the delivery room and Infanetts to care for premature babies were bought with the money ; this year a monitoring system which allows

surveillance of fetal heartbeats is to be given for the maternity ward, and also a portable defibrellator.

The Medical Auxiliary asks all area residents to contribute to this project instead of mailing holiday greetings to local friends. A contributor who gives the amount he would have spent on cards and postage for such mailings, instead has his greetings conveyed in a full page of listings in The Hereford Brand's Christmas edition

Decorated canisters are set up in banks here, in several food markets and in the hospital foyer. Contributions may be placed in these, or deposited in either Hereford bank where accounts are carried.

Blood Bank Here Wednesday

- The blood bank mobile unit is scheduled to be in Hereford Wednesday for local residents who wish to donate blood.
- The unit will be at the Hereford Community Center, Park Avenue and Avenue C, Wednesday from 3 p.m. to 6 p.m.
- Persons wishing to donate blood may do so then to either an open blood fund or to a specific cause.

Harris-Led Herd **Slashes** Caprock In Playoff Game

By DON RICHARDS **Brand News Editor**

Hereford's James Harris was more than the -Amarillo Caprock Longhorns could handle Friday night as the 4-AAAA Player-of-the-Year led the Herd to a 13-7 bi-district playoff win and into a regional berth against El Paso Coronado this week

It appeared Harris could do no wrong as he stepped off 232 yards on 31 carries (152 of it in the first half), scored both of Hereford's touchdowns and intercepted two crucial Caprock passes as the Longhorns bowed out of the first playoff series the Amarillo school has ever known.

The win sends the Herd record to 10-1 and into a regional playoff game against Coronado, which also defeated El Paso Parkland 43-0 Friday night in El Paso's Sun Bowl. The regional game has been set for 2 p.m. Saturday in Hereford's Whiteface Stadium.

The teams met two years ago in regional playoffs when Hereford traveled to El Paso. University Interscholastic

Vol. 26 - No. 23 Hereford, Texas, Sunday, Nov. 25, 1973 Price 20c 40 Pages

Herd Dominates All-District Team

rules now provides that the two teams play the return bout in Hereford. See HERD Page 2

Tickets Up For Game

Tickets for the regional playoff game between Hereford and El Paso Coronado, to be played here at 2 p.m. Saturday, will go on sale Monday at the school business office and Hereford Bakery.

Season ticket holders, however, will have until noon Wednesday to claim options on their seats, it was announced Saturday morning by Larry Wartes, school administrative assistant. Ticket prices will be \$3 for adults and \$1.50 for students

The game is expected to draw a capacity crowd in Whiteface Stadium, which seats about 5,000 persons.

Herd coach Larry Dippel didn't hesitate a minute about the site of the game, after he learned Friday night that El Paso Coronado would be the Whitefaces' opponents. Since Hereford played the same school in a regional contest two years ago, the University Interscholastic League provides that the option of sites is turned around.

QUARTERBACK - Donnie Combs,

Lubbock, 5-10, 160, Sr. **RUNNING BACKS - James Harris**, Hereford, 6-2, 165, Sr.; Welton Cobb, Snyder, 6-0, 195, Jr.; Eric Felton, Lubock. 6-1, 190, Sr

the senior-oriented elite team: Cobb of points. Snyder, Brad Harrellson of Monterey in MARSH WAS the mainstay of the the defensive secondary, and Randy Evans, offensive lineman of Plainview.

yard barrier and led the district with 92

offensive line for the Herd all year. He d one full game injury, but the 6-3x200-h, senior returned to the lineup for the final season action on Hereford's district championship team. Gonzalez, the only other Whiteface to make the offensive unit, mached the elite team through his playing at the tight end position. Gonzalez, 6-0 and 165 pounds was an outstanding blocker from his end position and pulled in three passes for 32 vards.

Schumacher, a Whiteface captain along with Marsh, was leading tackler for the Herd from his linebacker position. Schumacher, a 6-1x165-lb. senior, made 108 tackles on the year and was known for his linebacker blitzes into backfields. In addition, he added four receptions for 45 yards from his offensive receiving position and picked off one opponents' pass during the year.

That feller on Tierra Blanca Creek says people will turn to you, follow you, and support you, only as long as they are confident you are doing your best.

FORMER governor Preston Smith will be in Hereford Wednesday night to speak at the annual installation banquet for the Hereford Board of Realtors. Lee Umsted will be installed as new president, and Realtors are selling tickets to the event. Call 364-1251 for reservations!

Another contribution? Yep, but this one only takes about 15 minutes of your time and doesn't cost a dime. It's the "blood drive" at the Community Center Wednesday from 3 to 6 p.m., with the Oasis Shrine Club joining the county blood drive committee in boosting the donation of blood. You've got your choice of where the blood goes, so roll up your sleeve and give!

A COMMENDATION goes to the sports committee of Deaf Smith Chamber of Commerce for sponsoring the playoff game here Saturday night between Vega and Hale Center. Projects chairman Tom Simons and his committee are to be congratulated for helping bring the game to Hereford!

HOW ABOUT those hustlin "Whiteface gridders? The Herd posted another great triumph Friday night at Amarillo, and now the state playoff road leads back home to Hereford. The regional contest with El Paso Coronado here next Saturday afternoon will be Hereford's first home regional appearance since HHS won the Class A title over Wellington in 1942.

Some writers are probably calling our Herd a "Cinderella" crew, since they were picked low in the district in preseason polls, and have been rated down the list in state polls all during the season. Now, however, there are only 16 teams left in the AAAA playoffs, and the Herd is one of them! This, in itself, speaks very highly for the Whitefaces and their coaching staff.

The fuel shortage problem is being felt far and wide. Here in Deaf Smith County, Walcott school has made a change due to the shortage of propane fuels. The school is installing a natural gas line, 4½ miles in length, to replace their butane heating system. School officials figure they can pay for the line in a couple of years with the resulting savings in fuel costs.

The five spots was the largest of any other team in the district with Monterey. Coronado and Lubbock taking four spots, Snyder three and Plainview two.

Five Whitefaces on Hereford's

District championship team grabbed

spots on the 22-man 4-AAAA All-District

team as selected by the district coaches

Named to the all-district team from Hereford were end Armando Gonzalez, tackle Jim Marsh, back James Harris, tackle David Crume and linebacker Wayne Schumacher.

Only two players in the district made the all-district team both ways - offense and defense. Lubbock's Eric Felton made both teams as a running back and defensive secondary, and Snyder's Welton Cobb made it as a running back and as a linebacker.

ERI

JAMES HARRIS

All-Dist. Offense Player Of The Year

LARRY DIPPEL

Coach Of The Year

No sophomores were on the coaches selected team. THERE WERE six players on this

year's all-district team who are repeaters from last year's team. Hereford's Marsh made the offensive line team last year along with center Jack Perry of Coronado, Mike Hagan and Larry Horn of Monterey, Cobb of Snyder and Felton of Lubbock.

Only three juniors cracked the ranks of

Harris, who also was selected Player of the Year by the district sports writers, was the leading rusher and scorer in the district. The 6-2x165 lb. senior was the only district runner to crack the 1,000-

CRUME, 6-1x220 pounds, worked the left side of the defensive line for the Herd. The senior lineman was one of the leading tacklers in the district with 78 unassisted tackles.

The 1973 Coaches' All-District 4-AAAA team follows:

Dippel, Harris, Charest Take Writers' Honors

Hereford took a clean sweep of the three special post-season awards following the selection of the Class 4-AAAA all district team.

The three awards went to Head Whiteface Coach Larry Dippel as Coach of the Year; runningback James Harris as Player of the Year; and to wingback Dave Charest as Sophomore of the Year. The three special awards were selected simultaneously with the coaches all-district team, but were chosen by the sports writers of newspapers in the district.

Dippel, who led the Whitefaces from a post-season prediction of a fifth place finish out of six teams to the outright championship of District 4-AAAA, also won the same award in 1971 after he coached the Whitefaces to their first district title in AAAA dassification.

Harris won his Player of the Year honors by being the leading scorer and rusher in the district. Harris racked up 1.036 yards on 161 carries to be the only player in the district with at least 1,000 yards rushing. He added 92 points to that total in addition to leading the total offense and tendem offense columns.

Harris was also one of the leading defensive players in the district as he had two interceptions and 84 tackles from his safety position.

Charest won the Sophomore honors with his starting role as wingback for Hereford. He was the leading receiver in the district each week until the final game as he caught 16 passes for 160 yards and two touchdowns. In addition he kicked 15 extra points for a total of 27 points for the year.

It made the third year in a row for a Hereford player to win the Player-of-the-Year honor. Keith Kitchens won the award for the Whitefaces in both 1971 and 1972.

Last year's Sophomore-of-the-Year went to Snyder's Welton Cobb, who made both the offensive and defensive alldistrict team this year. Lubbock High Coach Tommy Stone was the 1972 Coach-Of-The-Year.

Smith To Install New **Realtor Board Tuesday**

Former Texas Gov. Preston Smith will be featured guest at the annual installation dinner of the Hereford Board of Realtors Wednesday evening at the Hereford Country Club.

Page 2

Smith, who presently is a realtor in Lubbock, will deliver the main address at the banquet in addition to making special awards to local realtors at the 7:30 p.m. affair. Special entertainment also is planned for the meeting. Tickets to the banquet are available through any Hereford realtor.

Smith, a native of Lamesa, has lived in Lubbock since 1930. He graduated

Dr. Milton Adams

COW POKES

from Texas Tech in 1934 and married Irma Smith of Ralls the next year.

He was elected to the Texas House of Representatives in 1949 where he served several terms before being elected to the Texas Senate in 1957. He won the Lieutenant Governor's position in 1962 and was elected governor in 1968. He presently has business interests in Lubbock and is a member of the Lubbock Board of Realtors, having held a brokers license for 15 years.

Lee Umsted is scheduled to be installed as new president of the Hereford Board of Realtors, succeeding Gene Campbell.

Former School Head Here Dies

Funeral services for, Knox Kinard of Lubbock, a former superintendent of Hereford Public Schools, were conducted in Sanders Memorial Chapel at Lubbock Saturday morning by Dr. Marvin Boyd, United Methodist minister. Entombment was in Resthaven Mausoleum for the former schoolman and retired

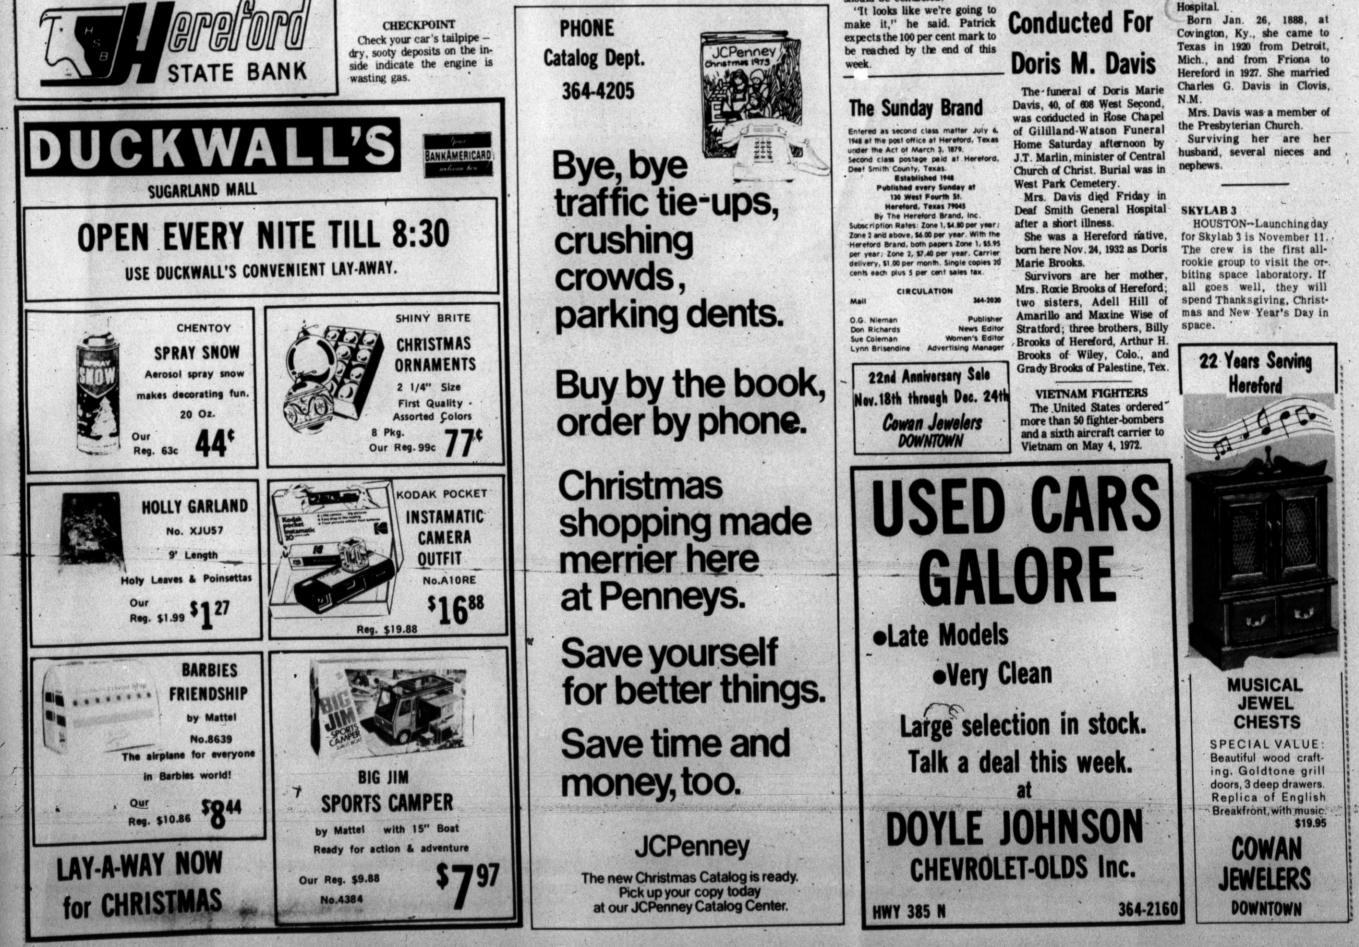

public relations manager for Walraven Book Co. He had lived in Dallas before moving to Lubbock a few months ago. His death occurred early Thursday at the age of 77. Mr. Kinard was a 50-year member of the Masonic Lodge and a Knight Templar. He was also a member of national and

> state educational organizations, the Rotary Club and United Methodist Church.

By Ace Reid He is survived by his wife, of Lubbock.

"Don't worry about feedin' the dog, he's eatin' the feed salesman!"

Pioneer To **Take Stand** At Hearing

Pioneer Natural Gas Co. will take a stand before the Texas Railroad Commission at the scheduled Nov. 26 hearing on "Apportionment of Natural Gas in the State".

K. Bert Watson, company president, said that Pioneer's position would be ". . no gas should be diverted from one company's system to another except for demonstrated human needs and protection against imminent severe property damage."

In the notice of the hearing, the RR Commission announced that it was being held ". . for the purpose of hearing evidence and in order to determine whether the available supply of natural gas can be voluntarily shared or apportioned on an equitable basis among the gas utilities to alleviate shortages. and if not, whether the need exists to establish a mandatory statewide apportionment program . ."

The hearing is scheduled Nov. 26 at 9 a.m. in the Townes Hall Auditorium at the University of Texas Law School. It is open to the public.

Star Theatre Contest Winners Named, New Seats Being Installed

Star Theatre manager Scott Brewer this week announced the winners in the Pippi Longstockings contest and then announced the theatre will be temporarily closed while new seats are being installed.

Winners of the two Pippi Longstockings dolls, to go along with the childrens' show which ended its run Saturday afternoon, were announced as Jo Dawn Bomar of 115 Lake St., age 5; and Denise Fangman, age 7 of Route 5, Hereford.

Brewer said the Theatre will be closed beginning today through Thursday night as new red-cushioned seats are being installed and as the auditorium floor is being redone. The theatre will then be open again beginning Friday.

Brewer said persons interested in purchasing the old theatre seats may contact him at the Star Theatre. "Persons interested need to just come by and quote me a

price," Brewer said. "Many of the old seats are in very good condition and are still good seats."

These new seats will bring our theatre up to a real firstclass theatre. It will complete our remodeling job and will give Hereford an excellent theatre it can be proud of."

and the property of the second second

Continued From Page 1

THE HERD dominated the Amarillo team the entire game despite three Whiteface mistakes in the first half and a short-lived Caprock rally late in the

Harris' 232 yards rushing was 104 yards better than the entire Caprock team. The fleet Hereford tailback, who has been known for his explosive running all year, sent Hereford ahead to stay midway through the second period as the two highly-rated teams swapped strong defenses during the first period.

Hereford had set up shop at their own 17 following a 37 yard Caprock punt. Harris and Chuck High swapped carries to the 26 where Hereford faced a third and one.

HARRIS then broke over the left side, ran backwards for five yards as he broke a tackle and then ran a footrace down the sidelines behind a host of blockers.

Herd wide receiver Dave Charest, who was named Sophomore-of-the-Year gave Harris the one final block for the TD as he screened off Caprock safetyman David Ream as Hartis flashed by. Charest then booted his only extra point of the night for Hereford's 7-0 halftime lead.

HARRIS STRUCK again on the first play of the final period from 11 yards out. The drive began at Hereford's own 30 and went the 70 yards in nine plays with Harris blasting over left tackle, where he had been most destructive all night.

Charest's point-after was blocked following a high snap, but the Herd had all the points it needed. The 70-yard drive hit two crucial

points and excellent play calling from the Whitefaces kept the drive alive. Quarterback Franklin Higgins faked

to Harris and High inside and nailed Charest with a screen pass covering 20 yards to the Caprock 29. Three plays later facing a fourth and three, Caprock piled the line as Higgins faked inside to Harris and then quietly bootlegged the ball around right end to the Caprock 18.

United Way Reports *45,000

Mike Patrick, president of the Deaf Smith United Way Campaign, said the drive in Hereford went past the \$45,000 mark this week, leaving only about \$5,700 before the \$50,925 goal is reached.

Patrick did not move the exact figure that the fund drive had reached this week.

THE LONGHORNS struck quick with 5:35 left in the game and appeared to be rallying for a come-from-behind win. The Longhorns took the ball at their own 19 following a Herd punt and marched to the Hereford 46 behind the running and passing of the highly-touted Ream.

On a first and 10, Caprock sophomore receiver Bobby Stewart slipped behind Hereford's Mike Munnerlyn, who intercepted one pass during the game and leads the Herd team in interceptions, and took the Ream pass the 46-yards scoring play. The extra point kick was good by Mike Velasquez and suddenly Caprock was only a TD and extra point away from victory.

HOWEVER, Hereford took the kickoff and Harris proceeded to run out the ball and the clock. The Whitefaces moved the ball from their own 20 out to just past midfield before being stopped by the Longhorns. However, more importantly the Herd had run four minutes off the clock and Caprock had no time outs left.

Hereford punter Mike Crim, who had had high and low moments during the game, booted the ball to the 16 where Caprock began its do or die final drive. Hereford's Harris then made it a "die" drive for the Amarillo team.

ON THE first play from scrimmage Ream dropped back and fired a long one for Stewart again, but instead it found Harris as the Herd ace killed any rallying thoughts of Caprock.

The Herd defense highlighted the first half of action as it played a stubborn role in holding back the strong ground game of the Longhorns.

Hereford lost the ball early in the first period after High fumbled a Caprock punt at the Hereford 43 and Longhorn Mark Mendez fell on it. However, the Herd defense allowed only one first down and forced the ball over on downs after letting the Caprock team move to the 22.

HEREFORD also missed a scoring opportunity at the start of the second period after Harris pushed the ball to the

costs, a'survey shows.

country, more money is buying Such are the findings, drawn from an analysis covering the United States as a whole, made by the Tax Foundation, of the

extent to which today's bigger incomes and higher costs balance each other. The figures indicate that Deaf

Smith County families that had incomes of \$7,000 in 1966 and are now earning 35 percent more, approximately \$9,450, have fallen some \$310 behind in purchasing power. Their income taxes and

payroll taxes combined have some up by about \$560 and their living costs by \$2,200 for a total of \$2,760, whereas their earnings went up only \$2,450.

Applying the Tax Foundation's figures to the married man in the local area whose wages in 1966 were \$5,000, he is \$140 worse off than he was then, despite the fact that his income is now \$6,750. His \$1,750 gain in earnings has been swallowed up by tax increase of \$288 and by higher living expenses generally, placed at \$1,602.

Local families that were at the \$10,000 level seven years ago and are now making \$13,500 by virtue of salary increases since then, have lost considerably in the process. Their personal taxes went up \$950 and their loss due to inflation, \$3,016, or \$3,966 in all. They fell \$466 behind as a

The report states that "the loss in purchasing power increases as higher salaries give both inflation and progressive income tax rates more dollars to chew on.'

Rodino has a solidly liberal voting record. Last year's ratings of Americans for Constitutional Action, an organization of conservatives, gave Rodino a zero for his voting performance during the second session of the 92nd Congress. For an eight-year period, he was rated as having voted right on conservative-liberal issues only 7 per cent of the time.

a few years ago, it was Rodino who led the

successful fight to make Columbus Day a

national holiday. Some states refuse to ob-

serve it but you can be sure it is celebrated in

changed and the majority of his constituents

are now black. A year ago his three opponents

in the Democratic primary were all black,

and they totaled 43 per cent of the vote. To his

black constituents, Rodino can point to his

solid civil rights record. The Judiciary

Committee originated much of the civil rights

laws passed during the 1960's.

However, Rodino's district has been

It used to be that the House Judiciary Committee, traditionaly composed entirely of lawyers, was regarded as relatively nonpartisan. Not so any more.

CHAIRMAN Rodino is new in his job and still feeling his way. Partisan wrangling has marked the beginning of the impeachment inquiry. There have been only three votes and all three were straight party-line votes, 21 Democrats outvoting 17 Republicans. All votes concerned granting subpoena powers to the Chairman

When Rodino decided he needed an extra-\$1,000,000 to beef up the committee staff, he neglected to consult the committee minority. Republicans forced a full debate and a record vote on approval of the funds, and a recommittal motion failed by only a 227-190 margin. Chairman Rodino has promised a "thorough, fair job" in the impeachment probe. That will be difficult at best, Some Democrats on the panel are long since committed to impeachment. One even wears an "Impeach Nixon" button. Whatever happens, Peter Rodino will be in the national spotlight as never before.

Peter Rodino could walk down the main street of any U.S. city or town at high noon and never be recognized, unless he was in Newark, N.J., or Washington, D.C., the two cities where he has spent practically all his

By BERT MILLS

If the name of Rodino is slightly more familiar than his face, it has become so in the very recent past since he became the key man in two vital Constitutional questions, the confirmation of Rep. Gerald Ford as the first Vice President ever put in office by Congress, and the possible impeachment of President Nixon.

Rodino is a Democrat from Newark who ha's served in Congress for a quarter century. Through the seniority system, he became Chairman of the House Judiciary Committee this year, only a few months before the Ford and Nixon problems confronted his committee. From relative obscurity for one so long in Congress, instant fame now seems inesca pable.

The son of an Italian immigrant, Rep. Rodino is 64. He worked his way through law school, earning his degree when 28. He opened a law office in Newark, then served in the Army in Europe in World War II, earning an overseas commission. After the war, he returned to his law office, ran for Congress and lost in 1946, then ran again and won in 1948. He has been reelected a dozen times.

He is a commuter Congressman whose family remains in Newark. Rodino lives in an apartment in Washington and makes a 400mile round trip to Newark each weekend. Throughout his government career, he has continued his private law practice in Newark.

REP. RODINO'S district in Newark used to be heavily Italian so it was natural that he should interest himself in the problems of the foreign-born. He became Chairman of the House Immigration Subcommittee. He had a major hand in legislation which abolished the national origins quota system for immigration, which discriminated against Italians and others from Southern Europe.

Fuel Shortages Could Curtail Dairy Services

Jewelry Gifts Are Lasting **Cowan** Jewelers DOWNTOWN

The President of the association representing the milk and ice cream processors and manufacturers of Texas stated today that predicted fuel shortages will almost certainly lead to some curtailment of services to customers.

Dairy Products Institute of Texas President H. Lee Richards, of Hygeia Dairy Company in Harlingen and Corpus Christi, said, "It is perhaps too soon to tell to what extent the consumer will be affected, but it appears that there will be some curtailments of services, deliveries and the

Potato Breeding Program Set crossing desirable parents. Potatoes fried, baked, boiled,

chipped, chopped-anyway you like, they are an important part of almost everyone's diet. While a potato may not seem

so spectacular, laying there next to your steak at dinner tonight, this vegetable in reality is the number one vegetable crop in West Texas. More important, the potato is a multimillion dollar business for the High Plains economy.

In an effort aimed at producing a potato variety for West Texas which is profitable to the grower and of good quality for the consumer, the Texas Agricultural Experiment Station here has initiated a new

potato breeding program. The work, which could take up to 10 years, is headed by Dr. Creighton Miller, plant breeder. The research will focus on the development of a variety specifically designed to perform under the trying West Texas environmental conditions.

"Potato varieties grown in West Texas are selected and developed for production in other states," said Miller. "It is only by chance that they perform well here.

"Because potato production is susceptible to fluctuating market conditions and adverse weather, it is a risky business,' the researcher declared.

"What we hope to do in our program is to develop a high yielding, early maturing variety which would enable the grower to make a good crop each year and provide the consumer with a product of high

Seed obtained from those crosses, referred to as "true" seed, is born on the potato plant and resembles a small tomato. This seed is then extracted and planted in the greenhouse the following year. Each of the seedling plants produce small potatoes one fourth to one inch in diameter

The small plants are then harvested and planted in the field. The field-planted seedlings, known as seedling clones, are dug and the superior clones are selected.

"This past year," he reports, "we selected 89 promising clones out of 5,000 field planted seedlings. These will be tested extensively to determine their potentiality as new varieties. "We hope to expand our program in 1974 by increasing the seedlings grown for selection to over 10,000," he added.

According to Miller, all the seed potatoes planted in the West Texas area are produced in northern latitude states where disease is less prevalent. Seed potatoes, he added, are similar to those found in grocery markets, except that they must be certified disease

free and genetically pure. Because of the stringent requirements for certification of seed potatoes, the Experiment Station program is being conducted in cooperation

with other variety breeding programs, primarily with Dr. Robert Johansen of North Dakota State University. This cooperative effort enhances the

Bentsen Pleased With 60-Day Fuel Allocation For Farmers

Senator Lloyd Bentsen said he is pleased that the Office of Oil and Gas has made a positive response to his request that agriculture be granted a 90 day exemption from the Mandatory Diesel and Fuel Oil Allocation Program.

Page 6

Bentsen has been informed that the allocation program has been amended to give an immediate preference to farm users in the allocation of diesel fuel for 60 days.

"Permitting oil companies to

must a few unexpected

mers regardless of their purchases during these months of 1972 should lessen the harmful impact the fuel shortage is having in Texas and other states," the Senator said.

"I feel the 90 day exemption would have been more beneficial, but this step will give some relief to the American consumer who is already wearied by the recent dramatic rise in food prices," he said.

The Office of Oil and Gas notified Bentsen that it has sell available fuel to our far- amended diesel fuel allocation

regulations to give preference for 60 days to farm and ranch activity, oil and gas drilling activities and public transporation, effective today. Office spokesmen said that

farmers must continue filing requests for allocations in excess of their 1972 purchases for use at the end of the 60 day period.

In a speech on the Senate Floor Thursday and in a letter to Governor John Love, Director of the Administration's Energy Policy office, Bentsen said suppliers have diesel fuel on hand but are afraid to sell it

to farmers because of confusion over the allocation program. Farm use accounts for only

three percent of the fuels covered by this program, yet I have received numerous calls from Texas farmers who report their tractors are stopped, their

grain and cotton stand unharvested in the field and their wheat is going unplanted," Senator Bentsen said during the Senate speech.

He said planting for 1974 is already underway in the Rio Grande Valley and has been disrupted by confusion over the allocation program.

Senator Bentsen said today's action should ease the situation, but he cautioned against overoptimism, warning that the energy shortage remains a critical, long-term problem.

Feedlot Waste Being Studied As Fertilizer

Throught recorded history the use of animal waste has made an important contribution to domestic agriculture. Within the last few decades commercial inorganic fertilizers have come into prominence as a source of plant nutrients. Without doubt commercial fertilizer will retain this position but since their price is increasing and inadequate supplies are in prospect it is time to take a new look at

lbs. P2O5 and 360 lbs. K2O, These values are much higher than those previously reported for barnyard manures. The material varied in nitrogen contents with extremes being 226 and 392 lbs. N in 10 tons. Their research indicates that about half of the nitrogen present in 10 tons of manure, or some 120 lbs. of nitrogen, is consideration. Even available to the first sorghum distrubution and good incrop. Sixty lbs. of the remaining nitrogen will be

From now through early December, the Texas Crop and Livestock Reporting Service will be expecting to hear from 75,000 agricultural producers in the state.

It's time for the annual crop and livestock surveys for Texas. If you happen to be one of the 75,000 who will receive either a crop or livestock survey card, you are requested to fill it out as carefully and as accurately as possible. Then return it as soon as possible.

In cooperating in this survey, you will be helping to give everyone in Texas a true picture of the state's most basic industry-agriculture.

Your individual answers will be kept strictly confidential. The only people who will see your report are those officially designated to compile the individual reports into county, district and state totals. No other government agency will have access to the reports you send.

In past years, Texas has led the nation in getting returns on a voluntary basis from farmers. Texas agriculture producers have cooperated better and more fully than any other state

Agricultural statisticians in other states are always amazed when they see the response from Texas farmers and ranchers. Anyone who lives in Texas knows the reason for the cooperation. Farmers and ranchers in Texas are just naturally more cooperative than are farmers in other states. The final reports on Texas agriculture provide basic information for use by government and private industry.

COTTON estimates for Texas are up again. The Texas Crop and Livestock Reporting Service now estimates cotton in Texas for the 1973 season at 4,800,000 bales, an increase of 50,000 bales over the Oct. 1 forecast.

This year's production forecast for Texas is the largest since the record 6,040,000 bales produced in 1949. Yield, based on Nov. 1 conditions, is expected to average a, record 419 pounds of lint per acre compared with 408 pounds last year and the previous record yield of 410 pounds per acre reached in 1968.

Acres for harvest are set at 5,500,000 compared with 5,000,000 in 1972.

As of Nov. 1, harvest statewide was estimated at 27 per cent complete. This compares with 33 per cent a year ago

Production of American-Pima cotton in Texas for 1973 is estimated at 29,200 bales compared with 31,400 bales in 1972 Yield is expected to average 449 pounds per acre compared with 437 pound, last year.

Carlen After Title, Cotton Bowl

Texas Tech head football Raiders will play Tennessee in the Gator Bowl in Jacksonville, Fla., Dec. 29, continues to turn out bowl teams with machinelike precision. This is the third time in four

years that Carlen has guided a Texas Tech team to a bowl berth. Including his West Virginia squad's Peach Bowl victory in 1969, it is the fourth bowl appearance in the Tennessee native's last five years as a head coach.

Under Carlen's direction, the Red Raiders are already assured of having their best season record ever in the Southwest Conference. Tech had a 9-1 record before ending the regular season Saturday against Arkansas in Little Rock

The Red Raiders, who have won 17 of their last 22 games, rolled up 55 points against Baylor last week, posting their highest total ever against a Southwest Conference opponent.

Ever since Carlen left his post coach Jim Carlen, whose Red as head defensive coach at Georgia Tech for the imposing challenge of building West Virginia into a winner, his coaching graph has moved

steadily upward. The Mountaineers were 3-5-2 in 1966, his first season. They followed that with a 5-4-1 record in 1967 and a 7-3 mark in 1968. The culmination of Carlen's

guided West Virginia to a 10-1 record and a Peach Bowl victory over Paul Dietzel's South Carolina eleven. Texas Tech put out the call to

Carlen and the progress con-tinued as the Red Raiders rolled to an 8-3 regular season record and a Sun Bowl berth in his 1970 debut, when he was honored as says. "But our players and

program came in 1969 when he Southwest Conference Coach of

the Year. Tech sandwiched in a 4-7 1971 season, in which it was hampered by the lack of outside speed, with another 8-3 mark and Sun Bowl berth in 1972.

"Naturally I'm pleased with the progress we have made so far," the hardworking Carlen

coaches are never completely satisfied, he quickly adds. "Our ultimate goal is the Southwest Conference title and a Cotton Bowl berth." Four years of hard work, coupled with considerable success, have laid a solid foundation and you kind of get the idea that Carlen and his men intend to reach their ultimate goal.

After The Deer Is Killed

Once the deer is down and to its ultimate destination, in where the deer is finally. field dressed, what must the hunter do to get his venison ready for the oven, legally?

First, he must attach the proper tag from ths hunting license to the deer. If the hunter has bagged an

antlerless deer then he is also required to attach an antlerless deer premit or special tag that he receives from the landowner to the foreleg of the deer.

Then it can be transported

Purpose of these regulations, according to the Parks and Wildlife Department, is to insure that all legally taken deer can be indentified by game wardens and still permit a person to properly care for the meat thereby insuring some fine steaks, roasts, chili and sausage during the coming. sea son

How much profit do you think a super market operates on? I'll bet most people will be as surprised as I was to learn how small the margin really is.

Who profits from profits? Let's take a quick look at the system. Profits are a vital part of free enterprise. And of course free enterprises is the American way of producing and distributing goods and services. Free enterprise is the principal ingredient which makes these United States the greatest producer on earth.

Without profits where would pay checks come from? Who could afford to hire? Where would taxes come from? How stores purchase goods to sell to the consumer? - The answer is simple, but often not clearly understood. "Profits Produce Progress". - No I'm not going on "P-3" kick-just want to make sure we don't abuse a very useful and necessary tool for the 'good life'. Profits are VITAL to our existence.

Profits help everyone - we. all profit from profits. (A well managed super market averages between \$1.50 and \$2.00 profit for every \$100 worth of business - that's 2 per cent - What was your guess?)

I've received several comments on the article written by a New York Sportswriter regarding "Friday Night Football" in our area. Mixed feelings were voiced from various readers but I think the crux of the matter is that other parts of our country would do well to emulate the spirit that permeates our community.

As I see it, we have a real handle on what is meaningful in raising our kids and developing

A new hired hand is coming in for more and more use on the nation's farms these days. It's the computer, a space age helper that could be as valuable to the future of agriculture as it has been to moon explorations.

Articles about the "black box" as a possible aid to agriculture first began appearing in farm magazines about 15 years ago. Its first use by farmers was

in record keeping. Later, livestock producers began utilizing computer programs in agricultural colleges to determine the least-cost rations for feeding steers, dairy cattle, swine, and poultry. Today, computer uses are mushrooming as farmers take advantage of the numerous

programs available to them through their land-grant colleges. The U.S. Department of Agriculture maintains a complete listing of such pro-grams.

Cotton Harvest

harvest is gaining momentum daily as stripping operations increase in all counties, according to Paul R. Dickson, in charge of the U.S.D.A. Cotton Classing Office in Lubbock. This great increase in harvest

activity is reflected in the increasing number of samples being received daily at the four area U.S.D.A. classing offices. Approximately 32,000 samples were received at the four South Plains offices on Friday. This was the largest number of samples received any day this season and this volume is ex-

favorable weather continues. During the peak of the harvest this volume usually reaches 50,000 to 60,000 samples per day. Classers from other areas are being transferred to the local classing offices to take care of this increased volume. The U.S.D.A. classing offices

at Lubbock, Brownfield, Lamesa, and Levelland classed 170,000 samples last week and had approximately 69,000 on hand Friday afternoon. Total price was \$101.50 per ton. classed so far this season now

the 1972 crop had been classed.

be the predominant grades at Lubbock, making up 72 per cent of all classed. Grade 31 made up 34 per cent, Grade 41, 38 per cent and Grade 32, 10 per cent. Staples were predominantly 30 to 32. Thirty-seven per cent had staple lengths of 30 and

per cent stapled 31 and longer. Average staple length was 31.4-32nds of an inch.

Lovelier Skin

The South Plains cotton maturity. These readings indicate that most of the early harvested bales were fully mature. Eighty-two per cent of all cotton tested at Lubbock had micronaire readings in the premium range of 3.5 to 4.9, 11 per cent was in the high micronaire range of 5.0 to 5.2 per cent was in the very high range of 5.3 and above.

The Agricultural Marketing Service of the U.S.D.A. reported increased trading on the Lubbock market. Prices were \$10.00 to \$20.00 per bale lower and averaged 34 cents per pound over the loan. Most lots were selling in the price range of 50 to 60 cents per pound.

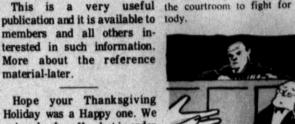

Average prices paid for the most predominant qualities in the 3.5 to 4.9 premium micronaire range were: Grade 31, Staple 30 - 48.65 cents per pound, Grade 31, Staple 31 52.40, Grade 31, Staple 32 - 57.40, Grade 41, Staple 30 - 47.70, Grade 41, Staple - 51.25, and Grade 41, Staple 32 - 55.95. Cottonseed prices were steady and farmers, received \$96 to \$110 per ton. Average

boy's discontent was not enough Various computer netreason to grant his request. The works have already emerged, and more are expected in the future with terminals closer court said he would probably soon get used to the shift from a and closer to the farms. Besides increasing effisheltered existence with his grandmother to the normal abrasions

ciency on the farm, comput-ers also are being put to use in agricultural research to benefit both farmers and consumers.

Newest of these is a com-puter that stores descriptions of plant varieties. It's be-lieved to be the only one of its kind in the world. Infor-mation from the computer will be used to speed up plant breeders' work in developing new varieties for disease and insect resistance, and greater yields.

reverence

of family life. Instants Add Up

On Food Bill If you can spare some in-

stants, you'll save on your weekly food bill. Sprinkling sugar over your

breakfast cereal instead of letting the manufacturer do it for you saves about one-cent per serving.

And cooking your own oat-meal instead of using the instant individually packed variety saves about five cents per serving.

These savings were recent-ly brought out in a comparaly brought out in a compara-tive cost study of convenience foods by Carolyn A. Raab, University of Wyoming Ex-tension nutritionist. While partially or fully-prepared food items do save time, they cost more than many consumers realize.

many consumers realize. As a matter of fact, the U.S. Department of Agricul-ture says the cost of thisbuilt-in service in conve-nience foods has gone up more than the food ingredi-

ents themselves. Frozen French fries, for example, cost twice as much per serving as those you make from fresh potatoes. So do frozen hash browns. Slicing your own cheese is

another way to save on food costs. Ready-sliced cheddar costs 17 cents a pound more

than unsliced. Instant pudding—the kind that needs no cooking—is a cent higher per serving than regular pudding. And ready-to-eat pudding that comes in cans costs twice as much as instant

Petition at or before ten o'clock A.M. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, same being Monday the 31st day of December 1973, at or before ten o'clock A.M. before the Honorable District Court of Deaf Smith County, Texas, at the Court House of said County in Hereford, Texas. Said Petitioner's Petition was filed in said court, on the 14th day of September A.D. 1973, in this cause, numbered 6900 on the docket of said court, and styled, IN RE: ADOPTION OF

MICHAEL RAY BENTLEY, a 12-40-tfc minor (present birth certificate name of Michael Ray Strain). NG CO. The names of the parties to the cause are as follows : James Curtis Bentley and wife, Carolyn Webb Bentley as & Metal Petitioners.

A brief statement of the nature of this suit is as follows, to wit: Said Petitioners seek to -12-40-tfc adopt the said Michael Ray Bentley, a minor, alleging that no consent of the natural father of said child, the said James Scotties, Eugene Strain, is required by reason of the exceptions con-**Wirehairs** tained in Article 46a, Section 6 (a) of the Revised Civil Statutes of Texas, as is more fully shown S-11-18-tfcby Petitioner's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved. 199

The officer executing this process shall promptly execute.

New Manager Has High Hopes For Local Textile Industry

By STEVE CONNELLY **Staff Writer**

David Andrews, new plant manager for Tucumcari Industries, has high hopes for the new textile business, which came to Hereford about nine months ago. He said he also wants to change the image of the textile industry and its

employees. Tucumcari Industries, 146 E. 2nd St., came to Hereford when Dolly Textiles was bought out by the main branch in Tucumcari, N.M. Tucumcari Industries has been in existence for about five years, Andrews said, and the new plant in Hereford is a result of the growth of the New Mexico of-

Andrews stressed that the new textile plant was not affiliated with Dolly Textiles, which was located at the same site as Tucumcari Industries.

"OUR PLANT is operated solely by Tucumcari Industries, which is a profitable company, he said. "In the near future, I can see a very profitable plant in Hereford. It's getting there fast.

We are in the process of expansion so a larger plant can be built in Hereford," he said. Andrews said the textile company would be able to employ more people when the plant is expanded.

Andrews said some people seem disillusioned about the textile industry and the working conditions because of books written, which describe the plants as 'sweat shops'.

ANDREWS said he hopes to change this image.

"Concerning the stereotype of garment factories as being 'sweat shops', we are governed by all federal, state and local laws on working conditions, and we try to make it comfortable for all operators."

He said operators were "not at the mercy of the roaring machines and the supervisor," as some seem to think.

We are trying to keep the work as easy and enjoyable as possible to hold the turnover rate down," he said.

the Haywood Co. to "stay for some time." He was plant manager in Andrews began his training in Alamogordo, N.M. before he the textile industry in Clarksville, Tex., and then went

came to Tucumcari Industries in Hereford. to Pecos where he worked for

He attended the University of Texas at El Paso, served in the Air Force, and was an avid rodeo cowboy before his marriage.

News From Austin

Farmers Stewing Over Diesel Fuel Crisis

Texas farmers have been having serious problems getting necessary diesel fuel to harvest cotton, pick citrus and combine grain sorghum due to "mass confusion" over federal fuel allocation regulations.

After several reversals by federal officials, some dealers were still slow to make sales because they feared prosecution if they acted under informal agreements passed joined Gov. Dolph Briscoe in level.

Rep. Jon Newton of Beeville announced at a national energy crisis meeting in Boston a top federal Department of Interior official had assured him the problem will be worked out in 10 days to two weeks (from last weekend). Newton said he was informed that users will be able to draw their allocations when they need the fuel rather than on a month-by-month basis.

The hitch has been that allocations were based on the amount of fuel used in November, 1972-a low usage month for Texas.

NEW GROUP

A new group is seeking to improve cooperation between state and federal law, enforcement officials in Texas. Atty. Gen. John L. Hill and MEDICAID

U.S. Attorney William S. Sessions of San Antonio are co-Law Enforcement Coordinating Committee."

The organization is described as an outgrowth of discussion over a several months' period between Sessions and Hill.

Some of the state's top prosecutors of both state and deral jurisdictions, Federal Bureau of Investigation agents and Department of Public Safety officials met privately in Hill's office last week to formalize the organization.

"We made a little bit of along to them. Agriculture history," Hill said of the Commissioner John White meeting. "It's the first time there has ever been such a demanding "immediate gathering of law enforcement-positive action" at the federal policy making people in this policy making people in this state. It is only a first step, of course, but the lines of communication are open, and we all

have a lot to gain, if we exert the effort to make it work." Hill and Sessions expressed optimism about prospects for success. They said state and federal law enforcement officials have a strong mutual desire to work more closely together and deal more openly with each other.

> The two attorneys predicted state and federal law enforcement officials, and the public, will gain from better coordination of policies, operational efforts and intelligence resources.

They indicated the committee will meet three or four times a year to discuss problems and topics of mutual interest.

ECONOMIES SOUGHT The State Welfare Board last chairmen of the "Federal-State week discussed a proposal to screen hospital admissions of Texans under the Medicaid

program in an effort to a certified copy of a limited eliminate needless medical partnership agreement outlays. recorded in the secretary of

Texas Medical Foundation proposed a review to determine hether patients can receive equal, but less expensive, care in other institutions. The admission review would be undertaken within 24 hours after a patient enters a hospital under Medicaid. Periodic reviews would follow to determine how long the patient needs to remain in the hospital.

Under federal regulations, the state will be required to implement some kind of utilization review program. **Texas Medical Foundation**

estimated the program could be initiated within 60 to 90 days following a 30-day training period for personnel.

AG OPINIONS

Texas Animal Health Commission may require a slaughter of brucellosisinfected cattle within 15 days of determination of infection, Attorney General Hill informed the agency.

In other recent opinions, Hill

Whether - and how long - a Brooks County road foreman can keep his job after his brother-in-law became county commissioner depends on terms of his hiring agreement. The county clerk of Harris County is not required to record

Small Talk By SUE COLEMAN

the second and a second and a

Women's Editor

ON THE morning after one of those holidays where we all eat too well but not wisely, my country grandpa used to say, 'Let's have turnip greens and cornbread for dinner today!"

Page 2

He wasn't joking, and that's what we had and it surely did taste better than turkey hash and leftover pumpkin pie after Thanksgiving. I thought about Grandpa while I was eating a bowl of delicous stew-with cornbread-Friday.

At this time of leftover turkey and jokes about leftover turkey we can certainly appreciate the plainer food. And right on the verge of the Christmas party season, looking forward to all that candy, fruitcake, eggnog and other culinary cheer, I think I'll have stew again today.

THANKSGIVING as usual was the occasion of lots of

setting for the marriage of Angie Mendiaz and Mike Alonzo Saturday in St. Anthony's Catholic Church with the Rev. Aedan Davis of the church

officiating. Miss Mendiaz is the daughter of Mr. and Mrs. Pablo Mendiaz. 521 Ave. H., and Alonzo is the son of Mr. and Mrs. Juan Contreras of Edinberg. Flowers decorated the altar

and aisles of the church. Given in marriage by her father, the bride wore a sheer white gown trimmed with lace. The empire bodice, collar and cuffs were made of lace and the skirt, which extended into a train, was scalloped and tied with white bows at the hemline. The bridal bouquet was of hand - made wax flowers as was the headpiece of the bridal veil. The floor-length chiffon vell was trimmed in a matching lace. Maid of honor was the bride's sister, Miss Marta

An afternoon wedding was the Mendiaz and best man was Freddie- Rodriguez. Lorina Saldivar, daughter of Mr. and Mrs. Pablo Saldivar, was the flower girl and Caesar Hernandez, son of Mr. 'and Mrs. E.C. Hernandez, was ring bearer.

The bridesmaids dress was a floor-length pastel blue gown with silver trim. She wore a matching hat.

White and blue decorations were arranged on the threelayer wedding cake which was served at the reception in the church hall. Angel figurines were placed between layers.

The bride is a 1973 Hereford High School graduate and is employed as a secretary at A&P Inc. The bridegroom attended Edinburg High School and is working at Armour, Inc.

Out-of-town guests included friends and relatives from El Paso, Dallas, Fort Worth, Odessa, Lubbock, Spearman, Akron, Ohio and Oklahoma.

Couple Wed At Bovina To Reside In Hereford

Ave. K.; Mrs. Fidencio Rivera, After their marriage in First Baptist Church of Bovina Friday evening and a short trip, Mr. and Mrs. Michael Edward Mrs. Charlie Phipps, Mrs. Veazey will be at home in No. Stella Wood, Mrs. Nellie 121, Blue Water Garden Stanford, Ignacio Esqueda, Apartments here. Belton Bryant, Mrs. | Ellis

Mrs. Veazey is the former Nena Dale Spicer of Bovina, daughter of Mr. and Mrs. Henry Spicer of that city. The Terri Hill, Mrs. Linda bridegroom's parents are Mr. and Mrs. Clarence Veazey, 823 Jay Noland, Chester D. Pinckert, Robert W. Russell, Blevins

Setting for the ceremony was an arrangement of candles with flowers. Lilies of the valley were twined with foliage on the spiral candelabra at either ide; roses and spider mums were massed before the central

arch of tapers. Small globe candles marked family pews. The Rev. Larry Heard, pastor of the church, conducted the wedding service as the bride's father gave her in marriage. Her honor attendant was Mrs.

Billie Charles of Bovina with **Miss Kathy Roberts of Hereford** as bridesmaid. Gary Coleman was best man and Robert Lyons groomsman; Mike Anderson of Dallas, the bride's cousin, and Jack Admam of Bovina were

ushers. The soloist, Randy Clements, sang Wedding Song and I Know I've Always Loved You, with Charles Turner playing the accompaniment and other organ selections.

Venise lace made the empire bodice and sleeve caps of the bride's gown, and bordered the veil which formed a train. Skirt and puffed long sleeves were of organza over bridal satin. Her bouquet was a nosegay of

red minuet roses, miniature carnations and babybreath. She wore as "something borrowed" Mrs. Jim Russell's pearl necklace.

Of crimson velvet, the attendants' dresses were in empire style with short puffed sleeves and trim of white lace. They carried nosegays of babybreath and carnations tipped in crimson and tied with

white velvet ribbon. A reception after

ceremony was held in the church fellowship hall. Mrs. Ray Stanton, sister of the bride, invited guests to register. Miss Twyla Hutto of Bovina

ladled punch and Miss Becky Veazey, sister of the bridegroom, served the wedding cake, made in two tiers with revolving heart cakes and a fountain in the center. Silver candelabra and a dozen red roses were in the centerpiece. For travel, Mrs. Veazey changed to a brown pantsuit with plaid jacket and beige sweater.

She is a sophomore speech major at West Texas State University, and was a 1972 graduate of Bovina High School. Graduated from Hereford High the same year, Veazey is employed with McCullar Machine Shop.

Page 4 McCarley-Nunley Vows **Exchanged In Ceremony**

Temple Baptist Church Friday was conducted for the marriage of Miss Cindy McCarley and Ronnie Nunley, with the Rev. Clarence Powell officiating.

The bride, who resided at 219 Elm, is the daughter of Mr. and Mrs. David G. McCarley of Chicago; Nunley's parents are Mr. and Mrs. W.B. Nunley of 513 Avenue K.

At the altar with its decoration of autumn yellow gladiolas and chrysanthemums, Mr. McCarley gave his daughter in marriage. She was wearing a Victorian period gown of peau de soie and Chantilly lace. A circular yoke with high

neckline, and puffed long sleeves were of the lace which edged the tiers of skirt ruffles. Underskirts of nylon net added bouffancy to the skirt as it billowed below the basque bodice

Golden Wedding **Reception Today**

Sr., 115 Ave. J., will celebrate their 50th wedding anniversary from 3-5 p.m. today at a reception to be held in their honor in the Fellowship Hall of. First Baptist Church.

Hosting the reception will be their daughter, Mrs. John Winkler of Baton Rouge, La, and their son, L.H. Lookingbill Jr. of Hereford. They have eight grandchildren and three greatgrandchildren.

OLDEST NEWSPAPER

Miss Grisham Becomes Bride On Thanksgiving

The Sunday Brand, Hereford, Texas, Sunday, November 25, 1973

Marriage vows were spoken in a late afternoon ceremony Thanksgiving Day by Miss Rebecca Rhea Grisham, whose parents, Mr. and Mrs. Milford R. Grisham, came from Santa Fe, Argentina, for her wedding, and Raul Valdez, son of Mr. and Mrs. Manuel Valdez, south of Hereford.

The Rev. Ray Brooks of the Open Way Church in Topeka, Kan., a family friend, conducted the service in the Christian Assembly sanctuary, where a background of carnations in light and dark shades of pink was arranged.

Parents of the bride have been missionaries in Argentina since 1961. She is the granddaughter of Mr. and Mrs. M.W. Culp, 328 Avenue I, and Mr. and Mrs. A.G. Grisham, Star Route. Her father gave her in marriage and her sister, Miss Rachael Ann Grisham, was her maid of honor. Miss Eva Valdez and Marlene Bustamente were the other bridal attendants.

man, the bridegroom had Victor Villegas and Trine Bustamente as groomsmen. Serving as ushers were the bride's cousin,

Completing the wedding party, Julie Culp, daughter of the Niles Culps, was flower girl and Rodney Valdez, son of the Eulogio Valdezes, ring bearer. Melanie Culp and Adriana Valdez lighted candles. Mrs. Merlin Kaul was pianist

as Miss Janell Barbian, cousin of the bride, sang her own musical setting of the New Testament's "love chapter," I Cor. 13, and Mrs. Ray Brooks presented another solo, Great Is Thy Faithfulness.

Sheer white nylon and lace made the bride's gown, worn over snowflake taffeta. The fitted bodice was of heavy lace, which also made the sleeve caps and deep cuffs to which fulness was gathered at the wrists. The skirt, on straight lines, had a lace heading over the sheer ruffle that brushed the floor.

Lace crown held her veil bordered in lace scallops, which extended to form a circular train. She carried red and white

In different shades of pink, the bridesmaids' dresses were of double knit, simply styled, with deep pink velvet sashes

matching bows in their hair. After the wedding the couple and their parents greeted guests in a reception at the church. Mrs. Casper Morales served the three-tiered cake which was topped with pink wedding bells and sprays of pink roses.

Mrs. Allan Clark poured punch; Mrs. Eulogio Valdez and Mrs. Bob Clark assisted in serving. Carnations in the shades of pink were arranged on the refreshment table.

Leaving for a short trip, Mrs. Valdez wore a double knit dress in lavender, green and grey pattern, with high waist and butterfly sleeves. After Monday the couple will be at home at Apt. 48, 1516 Forrest.

The bride attended Shirley Elementary and Stanton Junior High in Hereford, then completed studies in Argentina, receiving her high school diploma from American schools through correspondance.

A 1972 graduate of Hereford High, Valdez is employed as a teacher's aid at Northwest Elementary. He spent eight months in Mexico working as a Christian youth counselor.

simmer one-half hour. If mixture becomes dry, add a little boiling water, or water from the beans. Season with salt, chili powder and paprika. Serve with brown rice.

Variation: Use 1/4 lb. diced salt or fat pork in place of 1 T. fat and only 1/2 lb. ground beef. Fry the pork until crisp. Remove the pork and brown the onions. Add the beef, brown, then add all other ingredients. Simmer for a few minutes.

Editorials Americans

Page 6

The United States dollar took another pounding on German, French and British exchange this morning, hitting the lowest point ever known in West Germany.

It has declined there by 41 per cent since 1971 and this Canadian thinks it is time to speak up for the Americans as the most generous and possibly the least appreciated people in all the earth.

As long as sixty years ago, when I first started to read newspapers, I read of floods on the Yellow River and the Yangtze. Who rushed in with men and money to help? The Americans did.

They have helped control floods on the Nile, the Amazon, the Ganges and Niger.

Today the rich bottomland of the Mississippi is underwater and no foreign land has sent a dollar to help.

Germany, Japan and to a lesser extent Britain and Italy, were lifted out of the debris of war by the Americans who poured in billions of dollars and forgave other billions in debts.

None of those countries is today paying even the interest on its remaining debts to the United States.

When the franc was in danger of collapsing in 1956, it was the Americans who propped it up and their reward was to be insulted and swindled on the streets of Paris.

was there. I saw it.

When distant cities are hit by earthquake it is the United States that hurries in to help...Managua, Nicarague, is one of the most recent examples. So far this spring, 59 American communities have been flattened by tornadoes. Nobody has helped.

The Marshall Plan, the Truman Policy, all pumped billions upon billions of dollars into discouraged countries. Now newspapers in those countries are writing about the decadent warmongering Americans.

I'd like to see just one of those countries that is gloating over the erosion of the United States dollar build its own airplanes.

Come on let's hear it?

Does any other country in the world have a plane . to equal the Boeing Jumbo Jet, the Lockheed Tristar or the Douglas 10?

Why does no other land on earth even consider putting a man or woman on the moon?

You talk about Japanese technocracy and you get radios. You talk about German technocracy and you get automobiles.

You talk about American technocracy and you find men on the moon, not once but several times...and safely home again.

Bootl The hilosophe BOOTLEG CORNEL

Editor's note: The Bootleg Philosopher on his Deaf Smith grass farm on Bootleg Corner is un-characteristically serious this week, for some reason.

Dear editor:

I don't like to get serious, it's not my style, but it makes no difference how hard I've tried I can't find anything funny about the way people have been wringing their hands over illegal campaign contributions.

Everybody says something has got to be done about it, that it's dangerously unwholesome for so much money to be raised to elect a President, something over 60 million dollars by the Republicans and over 40 by the Democrats, not counting what was raised for lesser offices like the House and Senate, Governorships, etc.

AS I understand it, a lot of big corporations are now confessing they knowingly violated the law by handing over big chunks of cash in \$100,000-lots to the Presidential campaign. That they knew ahead of time it was against the law is demonstrated by the fact they delivered the money in cash and tried various ways to cover it up on their books, as they are now confessing.

People are asking, how can we put a stop to this?

I CAN tell you one answer. Find a judge who will fit the punishment to the crime. Instead of fining a multimillion-dollar corporation \$5,000 for illegally contributing \$100,000, which is about like requiring me to put a nickel in a parking meter, why can't we find some judge who will follow the second provision of the law and sentence the corporation's president and directors to a year in jail? The law is already on the books.

You make it known that any corporation head who uses company money to contribute to a political campaign is going to jail for 12 months, along with his directors, and you'll whip the problem in no time.

Find a judge in the Sirica mold who'll say, look, you guys aren't dumb, you can read, you know the law says it's illegal for a corporation to contribute to a campaign, just as it is to break and enter or steal chickens, and from here on out you're going to spend a year in jail if you do it.

I don't know where the money for a campaign would then come from, but I know where it wouldn't come from.

> Yours faithfully, J.A.

Colored Stars

This is a good time of year to turn your attention to the colored star. They are few in the heavens, and it takes careful attention to pick them out, but you can do it if you pick a bright night and go about the job with determination.

'A reddish star which might be seen is Mira, or the Wonderful Star, which is found in the constellation Cetus. Cetus is in the southern part of the sky. Mira becomes very bright for about ten days, about this time of year, is reddish in color and much larger than the sun. In the northeast, the bright yellowish star Capella is easy to observe, and lies in the small Constellation of the Charioteer. The Charioteer is in the northern edge of the Milky Way. Near it, towards the east, is the orange-red star Aldebaran, which is in the constellation Taurus. You will note that Capella and Aldebaran are the only brilliant stars high up in the whole eastern half of the heavens at about nine o'clock at this time of year. Two other bright stars near the North Star are Vega and Deneb. If you have any delusions of grandeur, when you view Capella, remember that you are seeing it as it was fortyseven years ago. It takes that long for its light to reach earth.

Creating A Shortage

Amid all the other problems that seem to beset this country right now, perhaps none is more pressing than the energy crisis. We are going into the cold weather of winter time with a great deal of uncertainty about whether or not we will have enough fuel to heat our homes and businesses. We are also facing the grim prospect of gasoline rationing.

All of a sudden, our land of plenty has turned to one of wartime shortages.

And as is natural, a lot of folks are heaping the blame on President Richard M. Nixon and calling. upon him to do something. His critics say that if he had any ability, he would have kep in his mess. There are whisperings that he has sold out to the big oil companies to help create an artificial shortage of fuel.

Talk Of Texas

By JACK MAGUIRE

THE PASSING PARADE -General Albert Sidney Johnston, a Civil War hero who had served as secretary of war of the Republic of Texas, had one dying wish. He asked to be buried in the State Cemetery in Austin.

It took five years and an act of the Legislature to make the wish come true.

Even their draft dodgers are not pursued and hounded. They are here on our streets. Most of them, unless they are breaking Canadian laws, are getting American dollars from Ma and Pa at home to spend here.

When the Americans get out of this bind ... as they will ... who could blame them if they said the Hell with the rest of the world. Let someone else buy the Israel bonds. Let someone else build or repair foreign dams or design foreign buildings that won't shake apart in earthquakes.

When the railways of France, Germany and India were breaking down through age, it was the Americans who rebuilt them. When the Pennsylvania Railroad and the New York Central went broke, nobody loaned them an old caboose. Both are still broke.

I can name to you 5,000 times when the Americans raced to the help of other people in trouble.

Can you name me even one time when someone else raced to the Americans in trouble?

I don't think there was outside help even during the San Francisco earthquake.

Our neighbors have faced it alone and I'm one Canadian who is dammed tired of hearing them kicked around. They will come out of this thing with their flag high. And when they do, they are entitled to thumb their nose at the lands that are gloating over their present troubles.

I hope Canada is not one of these.

Gordon Sinclair, Station CFRB, Toronto, Canada.

Well, the American people won't buy that. The blame for our energy crisis has to be placed squarely in the lap of Congres.

Weak Congressmen have been scared by ecology pressure groups to the extent that laws have been passed and regulations put in force which aim at cleaning up the environment at any cost.

We may have a cleaner environment but we might freeze to death while enjoying it.

This administration has to share some of the blame , of course. It has bureaucrats that enforce stupid regulations just like they did in the Johnson, Kennedy, Eisenhower, Truman and Roosevelt administrations."

The energy shortage was created by degrees. Here is the recipe for creating the energy shortage:

1. Natural Gas--Set a ceiling price on natural gas so low that it discourages exploration and increases use. Keep the price down by law in order to make consumers happy. This will guarantee a shortage because supply will not keep up with demand.

2. Coal-- Ban the use of coal with sulphur content and this will sharply restrict the supply. Restrict strip mining because it damages the appearance of the countryside. Impose drastic new safety rules which will substantially cut output. Freeze prices so no one can offset cost increases by higher selling prices. This will keep people from using coal.

3. Atomic power .- Delay construction by years by stalling on how to license atomic power plants. Delay operation at full power after construction. Delay start of new plants by environmentalist suits.

4. Oil--With natural gas, coal and atomic power all severely restricted , this leaves only oil. First, increase consumption by automobiles by requiring controls on engines that make them eat more gasoline. Then ban the use of oil containing sulphur and this will shut down some refineries. Eliminate new refinery sites because of danger to en-vironment. Block the use of the Alaska pipeline for the same reason. Stop the search for offshore oil because of danger to fish. Bring suit against all major oil companies, charging them with dragging their feet and fixing prices.

All of these things have been done and are being done, with results guaranteed to bring on a shortage of energy.

A lot of people have to share the blame for the crisis we now find ourselves in and it appears that mismanagement in our government is not restricted to a few but must be shared by many.

General Johnston was killed in 1862 at the battle of Shiloh. The Confederate Army, aware of his last request, shipped his body to Texas. It reached New Orleans, however, just as that city was being captured by the Union forces.

The capture of New Orleans caused all' communications with Texas to be severed and shipment of the body was halted there. The Union commander of the city ordered it entombed temporarily in St. Louis Cemetery No. 1 and it remained buried in New Orleans for the next five years.

In 1866, the Texas Legislature appropriated \$2,000 for the transfer of Gen. Johnston's body to Austin. It arrived shortly after New Year's Day in 1867 and was reburied in the State Cemetery in an unmarked grave.

Finally, in 1901, the Legislature appropriated funds for a monument. Elisabet Ney, the Austin sculptress, was commissioned to execute a statue of Gen. Johnston. Today it has come to be recognized as one of her best works of art.

DID YOU KNOW - That the 291piece marching band of Texas A&M University is the largest military musical aggregation in the U.S.?

FOOTNOTE TO HISTORY - In 1860, a third of the population of Texas was not allowed to own property, marry or even attend the church of the choice. They were in bondage to their fellow citizens.

According to the 1860 census, 30 per cent of the state's population was in slavery. They were owned by another third of the citizenry. The same census showed that 30 per cent of the population owned at least one slave. Harrison County, in East Texas, had a slave population of 58 per cent, highest in the state.

Slaves had almost no civil rights except for the right of trial by jury. They couldn't even negotiate the sale of their labor to anybody except the citizen who owned them.

Texans, a term which cam after the War Between the States, are those out of the old rock. The people who live in Texas are those who are wearing the old rock away. "Which are you?"

WORDS TO LIVE BY - The late

J. Frank Dobie delighted in in-

troducing students to his course,

"Life and Literature of the South-

west," at The University of Texas

"There are only three classes of

"They are either Texians,

"Texians are the old rock.

Texans, or people who just live in

with these words:

people in Texas.

Texas.

MAIL CALL - Postmen are among the principal beneficiaries of Texas' marvelous system of farmto-market roads.

On an average day, U.S. Mail couriers will travel 53,000 miles over farm roads to reach residents on rural free delivery routes.

IT'S A FACT - Of the 83 communities in the U.S. which have elected black mayors, three are in Texas.

The state's three communities with black mayors all are in East Texas. Easton, on the border of Gregg and Rusk Counties, elected David K. Robinson as mayor. Dennis D. Rundles is chief executive of Detroit, Red River County. The mayor of Prairie View, Waller County, is Eristus Sams.

DOWN MEMORY LANE -Remember when Texas had a highway called "The King of Trails"? · Lewis B. Walker of Gonzales,

who frequently contributes bits of unique history to "Talk of Texas," recalls hiking along the old road between Austin and San Marcos and Austin and Georgetown before World War I.

The road, which may have been the first nationally-marked highway. in the U.S., ran from Laredo to Winnepeg, Canada. It was started about 1912 by motorists who, lacking both road maps and direction signs, decided to create a national highway that would be identified with standard markings. The insignia for the "King of Trails" was a sign with the initials "K-T" painted on a large board and affixed to telephone or telegraph poles that paralleled the inevitable railroad.

There is still a K-T Garage in San Antonio, Mr. Walker reports-the last known trace of the old road left in Texas.

Shop Larly

While Christmas does not arrive until the 25th of December, enjoyment of the 1973 Christmas season may depend on how much planning or preparation for the major religious observance of the year (and holiday) are done in early December, Most pressing need at the moment is to mail Christmas presents which must reach a far away destination.

Buying the many presents, cards, wrapping, some food preparation and general planning can be completed in the first days of December.

First, one avoids larger crowds. Second, there's a better selection. Thirdly, the hours of daylight are longer and the weather not so bitter. There are other advantages and the most important of all is that in preparing in advance one leaves himself time to really enjoy the holiday and participate physically and spiritually in the true meaning of Christmas.

By The Garden Gate With Glad

Autumn to winter, winter into spring, Spring into summer, mer into fall.

So the changing season follow one by one,

And the first cold blast of winter sweeps over the plains.

December should be the month in which the gardener may relax and enjoy the fruits of his labor, and to read the stacked magazines on gardens and horticulture and books which have been put away for winter reading.

Before you really relax, check on the garden. Make sure that all shrubs, trees and lawns have been thoroughly watered, and protective measures for them completed.

Debris should be removed from the base of all, soil pulled towards the trunk and mulch added for protection of winter cold. Boughs which will rub on the house or other objects should be trimmed; canes of roses, especially the climber, should be cut back so they will not be damaged nor scar fences or house.

Check on your garden literature and if subscriptions to garden magazines are about due, tend to the renewal. Add some new horticulture magazines to your list. Share materials with friends and neighbors, especially new homemakers and gardeners.

Check list of spring flowering bulbs and corms you have planted and from the following list of bulb selections for 1973. The voters of the choice ones were in Holland, at the famed Keukenhuof Garden in Lisse, a truly beautiful and fascinating garden, one long remembered by anyone who has the joy of visiting it.

Eleven of the numerous bulbous flowers currently cultivated by Holland's expert growers were named the eliteeight were tulips, each from a tulip division, one hyacinth, one daffecil and one crocus. They are as follows:

Double late tulip-Bonanza, carmine-red with yellow. These are peony-like tulips, and give joy and pride to the grower.

Darwin hybrid tulip-Golden Apeldoorn, golden yellow with

BY MRS. ART MANJEOT crystal like fringe. This tulip was grown in testing beds in several gardens in Hereford, and at the Hereford Garden Club center. Reports were compiled by Mrs. Ralph Mc-Cullough, and sent to the rowers in Holland from whom the Pioneer Study Club gets the bulbs. This is indeed a beautiful tulip and will add that certain something which each garden strives to attain. The cottage

tulip was first grown in cottage yards in Great Britian and France. The following selection especially thrilled me, as I grew some of them in my garden. It is the lily flowered tulip, named West Point. Is a beautiful clear

yellow. Luxurious foliage, and an interesting and beautiful lily shaped blossom. Reflexed and pointed petals with exceptional grace. An excellent keeper in flower arrangements and

withstands the spring winds. Parrot Tulip-Texas Flame, bright buttercup yellow flamed carmine blooms with attractive foliage. Parrot tulips were first grown in 1665, they are exotic and picturesque with fringed, scalloped and wavy segments, truly unusual and add a highnote to any garden. I have also grown this Texas Flame, and

reports were given on its growth habit in our soil and conditions. Another brilliant vermillion-red with heavy marbled foliage, Greigii Hybrid tulips, has especially strong stems. Another beautiful selection

was the Fosteriana tulip, Candela, which is pure yellow in color. Blossoms are exceptionally large.

Kaufmanniana tulip, Guiseppe Verdi, carmine edged with yellow. They are similar to the lily type tulips in that the segments of blossom are pointed and open directly horizonal. They are especially at home in the rock garden.

Hyacinth-Blue Jacket, solid spikes of dark blue with small purple strips on each floret. An exhibition type hyacinth, because of size, that can be grown in small groups or used for mass bedding plants. They

are described as eye-catchers. Small-cupped daffodil-Barrett Browning, has a white perianth, orange-red cup. This type daffodil is usually very graceful and airy. Is nice when planted in small areas where

bore each other, never impose, one of the easiest of all bulbs to grow in almost any type soil and never inflict penalties on each under almost any conditions. other. We understand each other well, and therefore gain They can be left for years undisturbed. Should not be planted from one another. too deeply-a light covering of

My garden is really different from the average garden. They bring special joy and Usually when one plants delight to the gardener because petunias, petunias grow, if one plants radishes, radishes grow, they flower early and are often mentioned as being the first but I repeat, my garden is different. I plant petunias, symbol of spring. Is great to asters and others and the look out the window on a cold harvest is bountiful in its return late winter or early spring morning and see the first crocus these are contentment, anticipation and peace. bloom. Eight yellow, white,

In short my garden gives me purple and stripped flowers are some of the popular colors in comfort and quietness from the world of turmoil and strife. It is Reason' teaches us that each the one spot where I can relax and forget life's troubles. Inkind of bulb may have its own little likes and dislikes, but stead I gather to me a feeling of contentment and rest that try as across the board, bulbs do not I may, I cannot find in any other like and will not tolerate soggy soil. (Many bulbs are lost

There is something warm and inviting in working with good growing earth and why not? Does not life stem from the earth?

Yes, gardening brings one to their knees right down to earth and for most of us that is good. People stop often and admire my garden's beautiful colors. and the beauty of the blossoms.

All should count themselves blessed in that we can garden and have a share in making the world more beautiful and productive. GLAD.

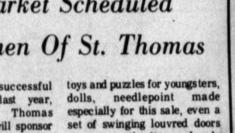

Thomas, Carol Elliott and Mrs. Philip Sciumbato, pledged to Alpha lota Mu Chapter, Mrs. Sparky Stephens and Phyllis Gerdsen, Kappa lota Chapter.

Flea Market Scheduled By Women Of St. Thomas

Repeating a successful benefit event of last year, Women of St. Thomas Episcopal Church will sponsor their second Paris-style flea market Friday and Saturday in the former Yardstick location at Sugarland Mall. Some new, some used but still

usable, a wide variety of articles will be on sale in the booths and tables arranged for the market. An addition to this year's market will be demonstrations and sales by artists and craftsmen of this area. Household appliances, kit-

chen utensils and dishes, furniture, a chandelier, a battery charger, a sturdy wood cabinet, draperies and traverse rods,

are among the items already collected for the market. Gift packages of foods produced and processed in this area, from Arrowhead Mills, with the new cookbook, Deaf Smith Country Cooking, will be a special item.

Mrs. Keith Simmer is president of the Women of St. Thomas Church, who are all working on this market as their annual holiday fund-raising project.

Food stamp benefits to rise in January.

Adult Basic Education Registration Planned

Registration for adult basic education classes will be at 7:30 p.m. Monday at Tierra Blanca Elementary School, according to Richard Robinson, director of Vocational and Adult Education of Hereford Schools.

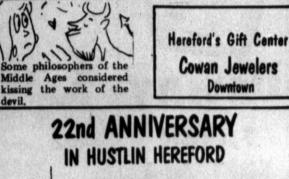

Classes are open to all persons who wish to work toward a GED Certificate. The GED Certificate is equivalent to a high school diploma and is

Page 7

The classes will include work on every level from beginning reading, math, writing and speaking, up to review and preparation for the GED test.

Classes are free and students may enroll at whatever class level meets their needs. Information can be obtained by calling Robinson at 364-5112.

IT'S NOT TOO LATE FOR CHRISTMAS!

to the girls we say:

keep wishing, keep hoping, keep hinting! Make the miracle happen now! We are ready with the newest, nicest diamond styles in town.

to the men we say:

Why wait? Christmas is a wonderful time. We have the experience, the great selection, the friendly attitude. We'll help you to get the ring to make her happy-at the price you plan to spend and can afford.

Be happy yourself . . . and make her happy too ... it's wonderful to

DEAR HELOISE:

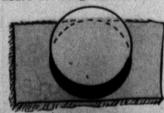

I bought one of the cardboard tables that requires a 72" round cloth and found that a tablecloth that big is expensive.

Let me share with your readers how, I solved this problem: I took an old discarded bedspread that was in good condition ex-

cept the color was faded from so many washings. First, I removed the fringe inexpensive cardboard table.

and laid it aside for later use. Second, I cut a circle right out of the center of the spread using a string guide to be sure that the circle was perfectly round and the size desired.

Next I hemmed the circle and added the fringe. Then I just

dyed the cloth a bright orange to complement the color scheme n my master bedroom. Presto, beautiful round cloth for my mixer, and then used a part of the second towel (not the rooster end) to make gussets to fit the back of the mixer cover. Then I used what was left of the second towel (rooster end)

and squared it up to fit the toaster. They came out exactly right

with only the tiny rounded-off corners left over. So pretty, and inexpensive, too!

Mrs. Tom Ruble

books.

COCK-A-DOODLE-DOO!

DEAR HELOISE:

not ordinarily go out and buy, Just thought I'd like to share prompts me to tell you one of this idea with you and your many fans.

I took two printed, pure-linen dishtowels and made very attractive covers for my electric mixer and toaster.

The towels I chose to use were an Early American design. Each had a beautiful red rooster on one end.

Since our kitchen and den are decorated in Early American, these were perfect.

I used one of the dishtowels, rounded the corners to fit the

C'mon, all you gals. Why not start a worthwhile project like this in your town? If each and every one gave, say, even two books of stamps, it wouldn't be long before enough books had been donated for your worthy cause!

Think how good it would make everyone feel to know they had been an indirect help in making someone else's life just a little better.

home I'll get sometime.

treatment machines.

THAT'S SOME YARN!

DEAR HELOISE:

I like to knit and crochet, so I make many knitted garments for my family.

When I present the finished garment to them, I also give them any of the yarn that was left, to be used for future repairs or sewing on a button. I also give them the wrapper

from the yarn. This will tell them if the yarn used was wool My mother-in-law is one of the or acrylic, washable or not. persons now receiving treat-In other words, this will give ment on one of the dialysis them the information needed as to the best way to care for their Maureen Powers

new garment. Like all your readers, I enjoy and use many of your helpful hints.

Peggy O'Brien +++

I hope they realize what an

important member you are of that family It isn't everyone that ean be wearing a hand-knitted gar-

ment - and when you think of the price of them - Wow! Heloise

LETTER OF LAUGHTER

DEAR HELOISE:

I was sitting here writing a letter to my aunt when my 6year-old son came running up to me and said, "Do you know why they wrap paper plates in this plastic with the elastic band?" "So when you use all the

plates you have a shower cap," and you know, it does make a good one. Mrs. Janet Morton

TAG! YOU'RE IT!

DEAR HELOISE:

If you are like me, you hate to throw away those beautiful greeting cards you receive. From now on, take my advice and save them. They can be used in so many ways.

My sister's favorite way is making fancy name tags for gift packages.

Center the best of the picture you want to use from the card. Cut out the picture in any shape or size, large or small. For the name tag, they are usually about 214-inch square. Appropriate pictures (sweet little angels, a cute bunny, a pretty flower or a jolly Santa)

two small holes about one-half inch apart are made near the

top or side edge. In a color that blends with the picture, cut off about a threeinch length of narrow ribbon. The two ends of the ribbon are inserted into the holes from the

front. On the back side, the ribbon is crossed and comes back out to the front in the opposite holes.

Cutting the ends of the ribbon on a slant makes a pretty flat bow which holds the three pieces together. That pretty gold or silver cord could be used to make ties if you didn't have any ribbon.

The picture on the tag could fit the occasion for the gift birthday, Easter, Christmas,

etc. Just let your imagination take over.

It will give you pleasure knowing that the thought behind it came from one who cared about dressing up a gift!

Two Readers +++

There wouldn't be too much trouble of the imagination being overworked for things to make. This darling idea is a humdinger!

Why not start a project for your next church bazaar? With all the ladies saving their cards and having different ideas, I'll bet everything you made would sell faster than them thar hotcakes!
