Seeking Sugar Program

Beet Growers To Send President Word

BY JIM STEIERT Brand Farm Editor

Members of the Texas-New Mexico Sugar Beet Growers Association Inc. passed resolutions to be forwarded to the President, the Secretary of Agriculture and Congress, elected two new directors and heard a presentation by the head of the Agriculture Council of America during their annual business meeting here Friday afternoon at the Community Center.

THE BUSINESS meeting preceeded the annual beet growers' banquet which was held at the Bull Barn last night. James Witherspoon of Hereford,

executive secretary of the association. presented resolutions to the membership on various aspects of sugar policy.

A resolution for 1977 to be presented to President Carter and Secretary of Agriculture Robert Bergland was unanimously approved by the beet growers in attendance at the meeting.

The resolution stated that the current price of sugar will not pay for the cost of producing it, and following low prices for the sugar crop in both 1975 and 1976, the domestic sugar beet industry faces destruction. Through the resolution, local beet growers requested that the administration align sugar imports with

Hereford, Deaf Smith County, Texas

THE HEREFORD BRAND

Published Daily Except Monday, Saturday

the actual requirements of the country and develop a national sugar policy insuring the health of the domestic sugar industry.

IN THE RESOLUTION to be forwarded to Congress, the beet growers reminded their legislators that the nation has been without a sugar policy since the expiration of the Sugar Act of 1934 during 1974, and that instability in the sugar market has not been in the best interests of the domestic sugar industry. The resolution urged Congress to make every effort to maintain the domestic sugar industry and to adopt a new sugar act without dealy

Witherspoon also spoke on a meeting of sugar beet producers and processors in Salt Lake City, Utah, last week, reporting on his impression of the outlook for action on a sugar act.

The climate for new legislation could never be better." said Witherspoon. President Carter is a farmer. I think the President will act favorably toward farm legislation. I'm sure that he is aware that if we lose the domestic sugar industry. consumers will really take it on the chin. A year is too long to wait for a new bill, we need one now," he added.

lowa dairyman Dale Hendricks. president of the Agriculture Council of

Sunday, January 23, 1977

America addressed the beet farmers or their important interrelations with the nation's consumers, and listed five things that would facilitate farm progress.

HENDRICKS DREW A round of applause when he stated, "The labor unions and bosses must stop their insatiable desire for more money while they are doing less and less."

The dairyman also pointed out that consumers must be informed of the interdependence of agriculture and the consumer, and that consumers must be convinced that they will pay the ultimate price if agriculture is forced to fold.

"Government must be made to protect

the citizens, not control them, we need less interference." Hendricks commented. "At the same time, farmers must be given the incentive to produce, although the farmer must fight the greed and power impulse. Finally, we must all realize that there will be sufficience if some of us don't get more than our fair share. If you want to control your destiny, start working for it now. Groups working together are far more effective than working singly." he commented.

He explained that the Agriculture Council works through city and farm exchange programs where rural and city families spend a long weekend observing one another's life styles and problems.

THE COUNCIL also operates a Farm Line, through which toll-free calls may be made to Washington, D.C. Legislators, farm and consumer leaders man these phone lines and receive inputs from a grass-roots level on various farm-related topics.

Other efforts on the part of the Ag **Council include a Consumer Action Panel** and media coverage and exposure.

Speaking on agriculture's unique problems. Hendricks commented: "As farmers, it is time we quit waiting for something to drop in front of us, just because we are nice and feed so many people. Many groups feel that the complete control of their destiny is lost. But turning our problems over to the government and hoping that they will be solved in that way is ridiculous."

Association Director Bill Cleavinger spoke on research conducted by Dr. Steve Winter at the agricultural experiment station at Bushland.

A REPORT filed by Dr. Winter stated. "Sugarbeets appear to be well-suited to production with limited and somewhat uncertain water supplies. Exceptional yields with limited water were attained in 1976. The advantages of sugarbeets with limited water appear to be a lack of critical reproductive stage and ability to adjust leaf area to changing water status throughout the growing season."

Commenting on the irrigation report from Dr. Winter, Cleavinger stated, "I think it is becoming more and more apparent that only a little water will go a long way with beets, and that we can probably make more money per gallon of water with sugar beets than with any other crop."

Growers also reviewed reports on performance tests on beet herbicides and

IF TEXAS EXECUTIONS are shown on tv as has been proposed. Arthur Tiefel of Hereford believes the stations should give "equal time" to the plight of the victim or victims. He says the public should be made aware of why a man is being executed.

He's got a good point. Before Gary Gilmore went before the firing squad in Utah, he had become some kind of folk hero through songs and ballads. He sold the rights to his life story for more money than he could have earned in his entire life, especially since he spent 18 of his 36 years in some kind of jail or prison. 000

MAYBE LOCAL MINISTERS could take a tip from the Rev. James Thompson of Michigan. He recently observed a "No Excuse Sunday." We don't know how it worked out, but at his small United Methodist Church, Rev. Thompson announced there would be

Blankets for those who say the church is too cold.

Fans for those who say the church is too hot.

Cots for those who like to sleep in on Sunday mornings.

Hearing aids for those who say the preacher speaks too softly.

Cotton for the ears of those who say the minister preaches too loudly.

TV dinners for those who say they have to stay home to fix the Sunday meal.

Trees and grass for those who like to worship God in nature.

Steel helmets for those who say the roof will fall in if they ever show up at church.

Sports equipment for those who are used to using it on Sunday mornings.

Christmas poinsettias and Easter Lilies for those who have never seen the church without them.

If may be fun, but the Rev. Mr. Thompson says he's not altogether kidding either

"Let's call No Excuse Sunday a serious event tinged with humor." he smiles.

Hereford High School was the scene Thursday for a seminar between West Texas State University administrators and about 125 HHS seniors contemplating attendance at the institution.

High Liver Embezzles

DETROIT (AP)- Fashionable, highliving Mildred Charla Wattleworth- once the assistant vice president of a bank- has pleaded guitly to embezzling \$760,00 and says she spent a bundle of it on a lover she no longer has.

"I always knew I would get caught." Mrs. Wattleworth told U.S. District Court Judge Charles Joiner on Friday

The 36-year-old divorcee from Birmingham said she had worked for the Michigan National-Metro West bank since she was 17. She said she first got involved helping her lover get money because she "knew he could not get a loan. He did not have any collateral or anything.

Hereford fire units were summoned to the Hutto Veterinary Clinic on North 385 early Saturday morning where a fire was reported under a gas tank. Firemen arriving at the scene in two units discovered that a fire had apparently been built under the tank, but extinguished it quickly with the only damage listed as a burned filler hose.

The alarm was turned in at 12:05 Saturday morning and units returned to the station at 1:15 a.m.

Week of Prayer Worship Service Planned Tonight

The worship service for the Week of Prayer for Christian Unity will be held at p.m. today in St. Anthony's Catholic Church

Under the sponsorship of the Hereford Ministerial Association, the service observes a worldwide effort to promote brotherhood among all persons and especially a stronger unified commitment to furthering Christian beliefs.

The service will be conducted by the following ministers accordingly: opening prayer, Rev. Bernard McGorry, St. Anthony's: scripture reading, Rev. Jesse Hodge, pastor of the Wesley Methodist Church: homily, Rev. Mack McCarter,

singing An invitation to the services is extended to members of all churches in Hereford

Shown above are HHS students Paula Wiley, left,

and Brenda Duggan, right, talking with WTSU sophomore and HHS graduate Dianna McCarley, who excitedly discussed the benefits offered.

Young Farmers To Stage Jr. Stock Show This Week

Youngsters in Deaf Smith, Castro. Parmer and Oldham Counties who are enrolled in 4-H and FFA livestock projects will be putting the final touches on the grooming and finishing of their animals early this week in preparation for the 12th Annual Hereford Young Farmers Junior Livestock Show coming up Thursday, Friday and Saturday

THE SHOW, to be staged at the Bull Barn, will feature top livestock from the four county area vying for premiums in the stock show sale Saturday, in addition to trophies and ribbons

Entry deadline for the show has already passed, and classes for the various divisions of the show will be formed later this week with weighing-in for lambs and hogs Wednesday and weighing in of steers from 8-10 a.m. Thursday

All lambs and market hogs must be in place by 8 p.m. Wednesday and calves must be in place by 10 a.m. Thursday.

Judge for the market swine division of the show will be Dick Nash of Sharpsville. Indiana

STORM GEARHARDT of Causey, New Mexico, will be the lamb judge and James Harkins of Clarendon Junior College will be the steer judge.

General Superintendents for this year's show are Jack Andrews, George Muse

and loe Shultz

By JIM STEIERT Brand Farm Editor

> Solomon Jimmy Christie is chairman of the barrow division and superintendents include Joe West, Ray Schlabs, Connie Urbanczyk, Ed Hammett, Bill Caraway, Bill Dutton. Tom Schlabs and Ted Eiche

> > LAMB SUPERINTENDENTS include Jim Bob Perrin, chairman. Ronnie Andrews, Rocky Andrews, Jerry Stewart, Ronald Johnson and Otis Robinson

Jay Boren and Robert Pope are in charge of the livestock judging contest. which will be held Saturday morning at 8 a.m. for FFA and 4-H competitors.

Publicity chairmen are Mike McCathern. Lon Conner and Roger Sanders.

Highlighting the stock show will be the livestock auction, which will get underway at the Bull Barn at 1 p.m. Saturday.

THE NUMBER of animals sold will be selected on a percentage basis from each class, and an exhibitor from Castro and Parmer counties can sell only one animal per division.

Various booster clubs will be assisting in providing minimum prices for livestock during the auction.

Local merchants are encouraged to attend the auction and support the projects of area 4-H and FFA members.

were James Higgins. Deaf Smith County; Glenn Merritt, Castro County; Dub Ingram, Parmer County; R.D. Freimel, Randall County; and R. Curtsinger,

Oldham County. Hendricks was also a speaker at the association's banquet last night.

He was joined by John Bunker. president of the Holly Sugar Corporation, and Joe Griffith, a humorist from Dallas.

WITHERSPOON ALSO announced award-winning beet producers for the 1976 crop year during last night's banquet, pointing out that there were numerous growers with outstanding yields, but that many neglected to qualify themselves for the grower contest.

The top grower received a check for \$500, courtesy of the First National Bank of Hereford.

Hereford State Bank provided a check for \$300 to the second place grower, and the third place finisher received a check for \$200, courtesy of the First State Bank of Dimmitt.

CarterGrants Pardon

WASHINGTON (AP)- Vietnam- era draft evaders can stop worrying and come home, those working for clemency can quit, and the few in prison for breaking the draft law can go free. President Carter has pardoned them.

On his first full day in the White House, Carter fulfilled a campaign promise Friday by issuing a "full, complete and unconditional" pardon to all draft evaders who did not commit acts of violence.

His first order as President affected more than 10,000 evaders

Nine-Day Affair Planned

Service Club Olympics **Heads National Y Week**

By BOB NIGH **Brand Sports Editor**

The Young Men's Christian Association (YMCA), an organization some 125 years old, is being honored across the nation this week as governors, mayors, and other officials proclaim honor to an organization that is as much a part of America as anything else.

National YMCA Week begins today, Sunday January, 23 and runs through next Sunday. January 30, and the Hereford Area YMCA, although an infant in comparison to the national structure, is all set to do its part.

Y director Claude Huard, a man already recognized as a person of extreme drive and an ability to get things done, has planned an activity to run in conjunction with the week which will include Hereford and the surrounding towns.

Beginning Wednesday the Y will conduct an Inter-Service Club Olympics, an affair which will run a total of nine days, and involve over 200 participants from local clubs as well as organizations from Simms, Dimmitt, and Easter. **Bulldogs**, Lubbock

"I did this in Bay City, Michigan, and it came off very well," Huard said. "I think with the participation we can expect from Hereford and the surrounding area that it will be an

exciting week." The "olympics" will include both team and individual sports as participants work toward winning their organization a banner proclaiming them the champs

"We counted up loosely the number of participants registered, and there were more than 200 names on the list," Huard added.

Included in the competition will be volleyball, basketball, floor hockey, table tennis, pool, foul shooting. shuffleboard. badminton, paddle tennis, archery, punt, pass and kick, bridge, checkers, dominoes, and chess.

"We included some athletic Post Office in Hereford, Texas under the and some non-athletic events so

ity." the director said

mpics is but the latest in a long line of Y-sponsored activities which have drawn a total attendance of 9,048 participants since the local Y began operation last September.

'From September 20 to the end of the year we enrolled 543 members, and have had a total of 786 different individuals participate in Y activities." Huard related.

'Some 30 groups, which included athletic teams, individuals, and board members have held 304 session (games, meetings, etc.) with over 9,000 people participating," he ad-

Huard said that the long climb to getting the local Y started was just a matter of involving the local populace. finding their interests, and then trying to develop a program around that.

We have an outstanding board of directors, and the warmth, compassion, and desire of the people to get involved have made us feel very well received," he said.

"And the availability of The Inter-Service Club Olvexisting facilities such as the Little Bull Barn, various areas of local churches, and public school gymnasiums and rooms has been a real shot in the arm."

> "Having to build up from zero is a lot of work, but we're going to make it," he added.

YMCA Board of Directors president Bill Johnson echoed that sentiment .. "We've seen some things develop that the community has responded to ... we've involved thousands of people, and are looking forward to the next year to further plans on a building and to the continuation of our program,"

he said. "Through the hard work of our board of directors and Mr. Huard the dreams of a community have become a reality," Johnson added.

As far as that building goes, Huard indicated that a capital fund campaign probably will be held later this year, and he anticipates breaking ground in the early spring of 1978 for a "full facility."

YMCA has introduced some new actitivies to Hereford. including floor hockey, Y Indian Guides, the Inter-Service Club Olympics, and informal education classes.

It has also provided the opportunity for league play in both men's and boys flag football, basketball, archery, physical fitness classes, and many other activities.

And it's not stopping there. Activities coming up this year include a day camp for 6-10 year olds, a Busy Beaver Fun Club for children from 31/2-6, a one-week resident camp at Taos, New Mexico, and from six to ten one-day bus trips to points of interest in the area.

"The only way we can succeed is if the people want us to succeed." Huard said. "Everything depends on the people joining the Y and then getting involved in the activities we provide."

And, as Johnson said, that response is evident. In the YMCA, involvement is

SAN FRANCISCO (AP) -Pitchers Ed Halicki and Dave Heaverlo have signed 1977 contracts with the San Francisco Giants, the National League club announced Friday.

Halicki, a starter, had a 12-14 record last season, with an earned run average of . 3.63. Hearverlo, a reliever, pitched in 61 games with a 4-4 record and a 4.44 ERA.

PITTSBURGH (AP) · Pittsburgh Steelers wide receiver Reggie Garrett, who missed the 1976 National Football League season with back problems, has undergone surgery at Presbyterian University Hospital.

Garrett, 25, was operated on for a disc injury Thursday and will be hospitalized indefinitely. a Steelers spokesman said.

OXFORD, Ohio (AP) . Five men, including New York Giants head football coach John McVay, have been selected for induction into Miami University's 48-member Athletic Hall of Fame.

The other four inductees were Bob Bronston, a 1955 graduate who was a football teammate of McVav's: Weaver "Red" Em ery, 1927, track standout; Alfred Gansberg. 1926, an allaround performer, and Bob Jencks, 1963, a record-setting placekicker and end in football.

AUSTIN, Tex. (AP) - Ron Brewer and Marvin Delph combined for 43 points to keep 15th-ranked Arkansas undefea-Lee Elder, who gained ted in Southwest Conference play with a convincing 86-58 first black to play in the victory over Texas Saturday night.

> Brewer pumped in 23 points and Delph added 20 as the Razorbacks won their sixth SWC game in a row. The are 14-1 for the season.

Texas kept the game close in the opening minutes, trailing only 19-16 with 11 minutes left in the first half. But Arkansas hit the next 14 points to take a 33-16 lead as the Longhorns went nearly five minutes without scoring.

Arkansas led 40-24 at halftime and kept going in the second half, hitting 12 of their first 15 shots to go ahead 63-38. Texas cut the lead to 18 at 72-54 but another cold streak gave Arkansas its biggest lead at the end of the game.

The Longhorns, now 6-8 for the season and 2-4 in SWC play. were led by Ron Baxter with 16 points and John Moore with 14.

James McDougald of Wake Forest finished the 1976 football season with 1,018 yards rushing. He is the first baseman to crack the 1,000-yard mark in Atlantic Coast Conference history

Page 6A Gas or No Gas

The City of Perryton is negotiating with our gas supplier, High Plains Natural Gas Co., over a new pricing schedule, thus entering another phase of a long standing difference of opinion between city and company over what is a fair price for the gas sold to the city.

The company has maintained that they must have a higher rate in order to compensate for the higher price they are paying for gas. The city questions the company accounting procedures which lead to a "fair rate of return" on investment.

It takes a real expert to dig into the mass of statistics and financial information to arrive at a true answer to questions being asked. We are glad that our city officials do question these figures and that they are dedicated to the citizens of Perryton in seeing that these citizens are not overcharged on their utilities.

We must keep in mind, however, that today's energy situation is a far different ball game than it was a few years ago and that our gas supplier might indeed be having a problem making ends meet.

It has been rumored, and probably correctly, that this company is not in the strongest financial position. We don't want to see anything happen that would give it a shove toward a worse financial position.

Whether we like it or not, the people of Perryton have to depend upon High Plains Natural Gas Co., for their natural gas at a price anything resembling what they now pay. In the event this company were unable to furnish gas, and in the event Perryton could secure other sources of supply, it is certain that we would have to pay several times what we are now paying.

We hope things can be worked out to the satisfaction of all. It might come down to a situation where it is a matter of gas at any price rather than gas at a price we prefer to pay.

The Perryton Herald

Don Oakley

Who says

slavery is gone?

It's like old times in Africa's Gulf of Guinea.

By Don Oakley

For one thing, the pirates are back. Foreign freighters waiting off the Nigerian coast for harbor berths are said to be coming under increasing attack from plunderers, who hide out in a maze of lagoons and swoop down on the ships in motorized dugout canoes. Meanwhile, slavery, or what amounts to slavery, has been

introduced in nearby Equatorial Guinea.

The small country, which won its independence from Spain in 1968, is ruled by an absolute despot, President Macias Nguema Biyogo. There is nothing remarkable about that in Africa today, but last March the president decreed compulsory manual labor for everyone over 15 in government mines and plantations.

According to a report by the British Anti-Slavery Society. an

The Penultimate Word

PEANUTS, POLITICS, AND A FORGOTTEN MAN

The peanut has it made. All of a sudden it has become a political symbol. All of a sudden it has become the subject of jokes. All of a sudden it can rest for at least four years. The price will remain stable and no one, absolutely no one will find out that peanut butter causes cancer.

I can not help but notice some irony in the situation. A President comes out of the deep south where the black man is still considered a shuffling, shiftless dummy. The President made his fortune on peanuts as did a great number of other folks in the area. The irony is, the peanut was a thing folks fed to hogs until a black man came along. Blacks are dumb and shiftless? George Washington Carver, black as the ace of spades, saw the south locked into a lifestyle and an economic blight because of cotton. The boll weevil was ruining them. Overproduction was robbing them.

The only hope was to diversify their crops.

George Washington Carver, black as the ace of spades, began to see other alternatives. He took the lowly peanut and found hundreds of uses for it. He became the disciple of the peanut and, in the process, changed the south.

Because of him, the lifestyle could change to more automation. That helped the white man far more than it did the black.

Because of him we have peanut butter, peanut candy, peanut oil, and Jimmy Carter.

The Orange Juice

Squeeze; 1st Birthday

My fears each morning increase concerning the possibility of not having breakfast as usual

Bobby Templeton

First it was the coffee barons who through no fault of their own endured harsh weather which drove the bean prices out sight and thereby increased the domestic price of the perculated brew.

Now, my already morbid thoughts are turned to the probable circumstance that orange juice may never again be affordable to the average man. That's me--your every day coffee, orange juice drinking American.

The coffee is supposed to give you the needed stimulus to wake up and the O.J. is expected to provide the energy needed to get through the morning with the help of that "one-a-day multiple vitamin."

The orange juice situation like that of coffee was brought on by the recent bitter winter which brought snow to the sunshine state of Florida. Even the winter resort of Miami saw it first snow in many decades if not centuries.

Of course the fact that Florida's citrus crop is destroyed, the Texas growers are expected to reap many happy returns. Even though they are fellow Texans and bringing more revenue here, I'm still in my same morning mess.

I guess, I can just take comfort in knowing that Anita Bryant, Florida's official Mrs. Orange Juice, won't be bothering much more with her worn out O.J. sales pitch on the tube. Again, a couple of mornings may find me rather grumpy which I probably am anyway even after the breakfast ritual. I'm too sleepy

to really know. The sunshine in my life is no doubt going to remain but at a littler higher price.

-BT-

My family marks another memorable anniversary today. It's neither mine nor my wife's, but that of our son. He is 1-year-old.

Nothing like that first year passes by faster. Although trite, it does seem only like yesterday when he was born following a rather hectic day. If you remember, we went to the hospital quite early in the morning-- about 3:30 a.m. to be specific.

Like any doting father, I've noticed with great anticipation each of those new steps in growth. First came the ability to roll over, then to sit up, then his combat type crawl using only the arms, and finally after much encouragment his crawling on all fours. He stands up on his own now and is very close to walking

I think it was that first roll over that excited me the most. I never thought something so seemingly insignificant could mean so much. When someone else talked about their babies, I did the usual polite listening but never paid much attention. Now I do.

It's all how a a little fella or lady, as the case may be, can change one's whole lifestyle. I've even learned more dutifully how to do household chores including the ones that grandpas won't do such as change the 'messy" diapers. How about it gramps!

The whole gang is here. There's nothing like getting four grandparents together at once. Talking about spoiling one child; this one's the classic case. But he's worth it and it's all fun for the daddy who can sit back and watch the action.

I just hope the birthday party is without too much of a mishap. My youngest brother for instance turned over his first cake on his head.

No matter what, the pictures will record the scene for Mark's future reference and he just my have the most enjoyable time of all from today's activity when he looks at the photos later on. Or he just may think how embarrasing the whole thing must have been and say to himself, "How could grownups make such fools of themselves."

-BT-

It's going to be an interesting year for the new administration and the country. By no means can anyone say it will be boring.

The man from Georgia has already turned Washington D.C. into a place where the tuxes and sophisticated rule no more. It's now a fashionable place for the country fellow and his informal ways. I personally like it. Things have been-too stuffy for too long.

But the real action of course started with the announced approval of unconditional and complete pardon to all Vietnam draft evaders not involved in violent activities. It's the expected compromise since it did not touch deserters.

The first feathers have been ruffled and more are certain to come.

In a way, Carter is going about it in an usual soft manner. He never raises his voice to angry levels and maintains a cool personality through thick and thin.

It sure contrasts with the gutsy performance of Harry Truman while he was president. That man didn't think twice who the person was or what subject the discussion was on when he peppered his "salty" cuss words into the conversation. That is if the show "Give 'Em Hell Harry," is to be believed.

At least he didn't mince words back and forth so as to say nothing and confuse the listener. He put it right on the line.

Carter I feel will do this more and more as he goes along. He once admitted that his campaign style was going to be far more difference than his performance in public office.

He has proven that by taking some controversial action on his first full day in

It'll be interesting to see what follows.

estimated 20,000 forced laborers are employed in the cultiva tion of cocca on the closely guarded island of Fernando Po. which has been renamed Macias Nguema Biyogo in honor of the maximum leader.

Cold weather good for some businesses

It's an ill wind that blows nobody any good, it's also a lousy winter that doesn't have some positive results. And this winter is turning out to be one of the worst (or best) in years in most parts of the country.

For one thing, it has blown in good news for a business that has its ups and downs in more ways than one.

The Pocono Mountains Vacation Bureau, for example reports that with the skiing season barely two months old, the Pennsylvania resorts are enjoying a 50 per cent increase over last year's patronage. Not only has sustained cold enabled full use of snowmaking equipment but Mother Nature has helped out with abundant natural snowfall.

Things are similarly booming in ski areas in New England and the Midwest, and at long last in the far West, which for a while was virtually snow-starved.

But what about nonskilers?

"Crime and disturbed psychiatric behavior go down, and morale goes up, in cold weather," says Dr. John Brantner, professor of health care and psychology at the University of Minnesota.

It's not just that the cold keeps the muggers, or their victims, off the streets. Severe weather is a "shared hardship phenomenon." he says, that seems to have a psychologically bracing effect on people.

But perhaps the greatest benefit borne in by this winter's winds would be the realization by Americans that there really is an energy crisis. The natural gas people, especially, have been threatening us with a cold winter ever since the oil embargo, and we've finally got it.

In the wake of record low temperatures, reports have multiplied of school closings, plant shutdowns or working day curtailments in efforts to conserve dwindling supplies of gas.

Natural gas supplies are so tight and the weather so cold even in the South that in an emotion-packed hearing held in Washington the other day by the Federal Power Commission. North Carolina Gov. James B. Hunt Jr. warned that his state's "very economic survival" and the "health and welfare of its people" depend upon emergency gas supplies. Congressmen from South Carolina and Maryland seconded his appeal.

The FPC had scheduled the hearing in response to a petition by the Houston Pipeline Co. for permission to make emergen cy sales to the East Coast. The permission was granted. Such sales will not be governed by price controls on natural gas. which the energy industry has been complaining for years are unnaturally low and which, like controls on oil, are discouraging it from prospecting for new supplies. Not everyone buys the industry's arguments, but few of us

can avoid buying its products. Thus Old Man Winter may do more to dispel our wishful thinking about energy than any amount of statistics on production and consumption.

Now that's a tough bird

Let's hear it for the white-tailed kite.

A few years ago, this small member of the hawk family was on the rare and endangered species list. Now it is reported to be flourishing in, of all unlikely environments, the Los Angeles freeway system.

It seems that the broad, grassy shoulders and divider strips of the freeways have become havens for mice, lizards and grasshoppers, which are the natural prey of the kite. One estimate is that the number of the birds is approaching 1,000. Flocks of 100 at a time are not an unusual sight for motorists. An abundance of food and freedom from human molestation notwithstanding, any bird that can survive the pollution generated by a modern urban freeway has got to be tougher than anyone gave it credit for.

While President Carte down Pennsylvania Avenue the other day, I bet old George Washington Carver smiled all over Heaven.

But in the crowd along that avenue there were a lot of folks who still say, Blacks are lazy and shiftless and dumb. If you believe that, then never eat a peanut until you change you mind.

rniosod BOOTLEG CORNER

office.

Editor's note: The Bootleg Pholisopher on his Deaf Smith grass farm on Bootleg Corner takes an inverted look at a few things this week.

Dear editor:

If, so to speak, you look down the wrong end of the telescope, you some times get a better view of things.

-0-

When for example political leaders say "no new taxes," look out for an increase in the old ones. Politicians have been running against high taxes evern since I can remeber and taxes have been going up for the same length of time. You reckon we're real bright?

Or take Russia. Right now Russia is telling the world she has a bumper grain crop. This almost automatically depresses the price of grain in the

isn't the city of Nueva Laredo in Texas and Laredo in Mexico, instead of vice-versa?"

The fact is that both Laredos are the same age. They date back to 1774. Then both Mexico and Texas were Spanish territories. Later the town which is bisected by the Rio Grande was part of Mexico's state of Coahuila.

Until 1836, when Texas won its independence from Mexico's state of Coahuila.

Until 1836, when Texas won its independence from Mexico, Laredo remained one community. The part of the city north of the Rio Grande, however, was the site of the mission that started the original settlement. Thus it kept the name of Laredo and the Mexican portion became New, pr Nueva, Laredo.

U.S., where farmers have produced a genuine bumper crop and were hoping to get a good price for it. Since the CIA has never been able to train any of its agents to look out a window to see if Russia has a drought, we won't know whether the Soviets really have a bumper crop or not until, a few months later, they've quietly bought up a lot of American grain at those depressed prices. You reckon we're real bright?

Another item: according to some figures I read last night, it now cost a million dollars a year to keep a Congressman in office. You reckon ... No. I won't ask it.

Let's change the subject. I notice that the new Secretary of Agriculture is a farmer, acutally operates a farm. I don't care what his salary is as Agriculture Secretary, he'll need every penny of it to keep the farm going, especially if he has any cattle. Ranching today is like the highway system--it's not supposed to make a profit, it's a public service project.

Changing the subject again, I see that Mr. Carter, true to his promise, has put some women in his cabinet. but what I want to know is how he's going to handle the problem, sure to be brought up, about there being no college or professional football team in the entire country with a woman coach?

> Yours faithfully. J.A.

Talk of Texas

By Jack Maguire

IT COULD ONLY HAPPEN HERE---Belle Starr, known as "The Queen of the Outlaws," once had a church in Dallas named for her. A street in the Pleasant Grove suburb in Big D still bears her name.

Born Myra Belle Shirley in 1851, this lady with a brace of guns in her cartridge belt became the best know, if not the most greatly admired, woman in Dallas County in the 1870's. She migrated there with her tenant farmer parents and settled in the community of Scyene.

Writers of dime novels later would glamorize Belle Starr as a gun-toting, stage-robbing bandit queen. In fact, however, she was at best a petty thief. Married only once (to a Cherokee Indian horse thief named Sam Starr), she had myriad lovers. some of whom were authentic bandits. Belle herself probably never fired a shot.

One of her lovers, Jim Reed, robbed the San Antonio-Austin stage in 1874. This caper resulted in so much heat from the Texas Rangers that he fled to the Indian Territory and took Belle with him. There she established a private domain on the Canadian River which she named Younger's Bend in honor of Cole Younger, another of her lovers and a famous outlaw.

On February 3, 1889, at age 41, Belle was ambushed and murdered. Most evidence suggests that her murderer was Eddie Reed, her son by Jim Reed.

Belle has never been forgotten by

The National Prohibition Party was organized in Chicago in 1869. Almost 200 delegates from nine states, concerned that neither major party included a prohibition plank in its platform, were responsible for its organization.

The first military heliport was at Ft. Eustis, Va. It was dedicated December 7, 1954.

James Higgins of Herefordpauses over a decoy to turn it into a stiff southwest wind during a goose hunt Thursday afternoon west of the Milo Center community. Higgins places his plastic shell decoys in a V, and leaves room in the middle of the spread for incoming geese to land. Higgins is an avid waterfowler and his decoys show the signs of heavy use.

Time to settle in. Higgins has spread his corn-husk covered blind over a water furrow in the wheat field and sorts out his gear before crawling under the concealment of the mesh. The local farmer has made Higgins and Brand Sports Editor Bob Nigh check over plastic ponchos and burlap-mesh blinds taken from the huge plywood box Higgins uses to store his decoys and other goose hunting gear. The box will easily hold upwards of five dozen decoys and makes hard work in setting out a decoy spread much easier. In the background are Canada and Snow goose decoys.

the decoy spread at a high level, overshooting, then banking into the wind to come back for another look after urgent calling by the concealed hunters. If they liked what they saw, they coasted toward the spread on set wings, calling softly. Frequently, their gliding pattern was punctuated by an urgent command from Higgins to 'shoot them, shoot them!' Then blinds were tossed aside and breathless gunners sat up to take shots at majestic Canadas. PHOTOS BY JIM STEIERT

the blinds easy to carry, yet they are extremely effective. A bar designed to fit across the gunner's chest gives him a handle to use in throwing the concealment aside when geese are coming in.

'I Sure Hate To See The Season End'

Higgins Hooked On Decoying Honkers

BY JIM STEIERT Brand Outdoors Writer

Like most dedicated Panhandle waterfowlers, James Higgins of Hereford is sorry to see the 1975-76 duck and goose season come to a close today (Sunday).

HIGGINS IS A TALL, strong figure who totes a 10 gauge autoloader, can quote you the book on reloading for his particular gauge, has well-founded preferences in decoy and blind placement-- and is thoroughly hooked on goose hunting. For him, the end of goose season eventually becomes what

almost might be termed an economic necessity.

"I sure hate to see the season end." the local farmer said Thursday afternoon while driving toward one of his fields near Milo Center, accompanied by Brand Sports Editor Bob Nigh and myself.

Higgins was headed for a wheat field where geese had been feeding in great numbers during the past week. As he leaned over the steering wheel he admitted, "I'd like to see the season run a little longer, but I have to get back to farming one of these days or I'll be way behind. I feel like we have some of the world's finest waterfowl hunting right here in this area though, and once I get the crops out every fall and things sort of squared away. I just take off from farming for awhile and do my best to take advantage of the hunting."

ALL DURING THE drive northward from Hereford, Higgins has kept up a continual conversation on decoys and handloading to get the maximum range out of copper-plated shot.

"I feel like the G&H decoys are about the best around now," he says, peering at you from beneath the rim of a weathered waterfowling cap. "They used to go by the brand name H&H. I believe," he continues. "I like the size of them, and they don't shine badly. There's nothing worse than decoys that shine for scaring geese away."

Higgins relates stories from years past of goose hunts out of four-man pits near Buffalo Lake Wildlife Refuge, and the misfortune of a calf falling in a snow-filled goose pit and crushing all but about a dozen blocks from a large decoy spread.

As he speaks, it becomes evident that he, like many other area waterfowlers, is convinced that the drying up of the huge refuge lake had much to do with improving the goose hunting throughout many local Panhandle counties.

"THE GEESE USED to winter on Buffalo Lake in the tens of thousands, but after it dried up, they began moving onto all the surface lakes in the area, and the hunting got a lot better," said Higgins.

The local farmer opined that with greater numbers of geese in the area, it is still hard for the weekend hunter to consistently bag geese.

"You need to be out in the country where you can watch these geese every day and know exactly what they're doing before you'll enjoy any great degree of success. That really puts the guys who can only hunt on the weekends at a great disadvantage." he said.

HE SPEAKS OF loads for his 10 gauge lthaca, and a question about putting filler material in the shot cup along with the shot to improve patterns brings a smiling response. "I've tried everything from ground plastic to flour, and it's amazing how much difference a little bit of flour can make in the patterning performance," Higgins relates.

You realize how serious this local farmer is about goose hunting when he explains that he works on load patterning throughout the fall and often orders equipment for building blinds, new decoys and other items during the summer, far in advance of waterfowl season.

HIGGINS TURNS into a pasture on his farm, and drives toward a wheat field, looking around for flying geese as he drives.

A strong southwest wind is prevalent, and Higgins is worried that geese might be feeding early.

As he turns toward the wheat field, his fears are confirmed. A massive concentration of almost 2,000 geese are scattered across the center of the field. The dark forms of lesser Canadas are quite evident, and at intervals, the body of a snow goose is visible.

"Doggóne it, I was afraid they would feed early today," Higgins says as we eye the huge gaggle of geese. "That weather change messed up their feeding pattern some. Most goose hunters like changing weather, but I'd a whole lot rather have constant weather and keep things the same. It makes it a whole lot easier."

AFTER VIEWING the situation a few minutes, our host decided it would be best to scare the geese away, set up our decoys, and hope for the best.

He drove the pickup into the wheat field until he had reached its approximate center, and it was only after he had stopped that his real secrets of success became apparent.

After we had piled out of the pickup, Higgins released two elastic straps on a huge plywood box which literally filled the back of his pickup.

With each of us grabbing a handle on the box, we slid the structure onto the ground.

OUR HOST BEGAN unfastening snaps on the box, and in short order, had the top folded back.

Inside were dozens of plastic decoys that bore the markings of extensive use, and testified to the skill of their owner.

"We want to place these decoys facing into the wind in a V pattern," Higgins explained, showing Nigh and myself the general area he wished to set out in.

In about twenty minutes an impressive spread of nearly six dozen decoys was in place, and when Higgins was satisfied with the positioning of every decoy, he summoned us to the plywood box and issued blinds.

HIGGINS AND a hunting companion had worked out the design for the blinds, which were made of a burlap-like mesh material covered with corn husks.

The blinds were similar to a blanket, and were weighted on one side with steel rods to prevent them from flapping in the wind.

We spread ponchos down three water furrows in the wheat field, then placed the blinds over them.

Higgins carefully explained how to unfold the rods so that they kep the covering level, and pointed out that a special rod had been attached to each blind, designed to lie across the gunner's chest.

"YOU HOLD THAT rod with your left hand, and when you're ready to shoot, you fling the blind back, sit up and fire," he explained. We loaded the box into the pickup once again, took out our shotguns, and while Higgins drove the pickup to a nearby irrigation pump. Nigh and myself got settled beneath our blinds.

The local farmer was back in short order, carrying a small canvas bag containing binoculars, gloves, ammunition and other handy items. It was only slightly after 4 p.m.

Higgins settled in, took out a small pair of binoculars and began to scan the area for flying geese.

IT WASN'T LONG before the first skein came weaving toward us from a playa lake to the west, and after that first skein came into sight geese were moving over us almost constantly for more than an hour.

Our host blew various notes from the two calls dangling from his neck, and I joined in the chorus with my own call, in between quick remarks to Nigh about the location of various flocks of birds and craning my neck to see through the mesh enveloping me.

It was an incredible experience, one Higgins was thoroughly familiar with, yet relished sharing with Nigh and myself.

Huge skeins of geese continued moving toward us from the west, dipping in a slow, undulating flight, their deliberate wingbeats plainly visible.

AMID RAUCOUS barking, they came hurtling overhead, past our position. Then, heeding the pleas of our calls, they would wheel and turn into the wind, to come coasting toward the spread on cupped wings, their necks outstretched, barking almost incessantly.

Many times, they were almost directly overhead, seeming to hover motionless in the air, their forms incredibly visible through the mesh covering our faces. You could hear the wind in their wings.

Their incoming flights were frequently punctuated by a quick command from Higgins to "shoot them, shoot them!"

The blinds would fly back, we would sit up, and almost before we could mount the shotguns to our shoulders, wildly barking honkers would be scrambling for altitude and quickly moving out of range.

WHETHER OUR SHOTS brought honkers tumbling to earth or merely sent them winging away a little faster, the incredible procession of skeins of feeding geese continued.

After slightly over an hour, we had acquired a new appreciation for the waterfowl resources of the area, the ability of our host to decoy the wary Canadas, and five honkers, including one Greater Canada.

As we went about gathering up the decoy spread, the geese passed all around us once again, and their calls were stirring to work by as they returned to the playa lake.

The drive home was filled with more pleasant banter about blinds and loads, and all of the other things hunters speak of, but mostly it was filled with a little better understanding of those majestic Canadas and of a man who gives it his all in the pursuit of them.

Brand Farm Editor-Outdoors Writer Jim Stelert, James Higgins and Sports Editor Bob Nigh show off four of five honkers brought down Thursday. The beg included one Greater Canada (left) and four Lesser Canadas.

This focused on them has had vastly year, the whooper watchers have cause for rejoicing. beneficial effect on the problem as a whole.

When the wild flock returned this fall to their winter home in Texas, they brought with them 12 young birds. This brings the total up to a record 68. compared to last year's figure of 57. All of those returned except one and even that individual might yet straggle in. as occasionally has been known to happen.

The population of wild whoopers dropped to its lowest level in the winter of 1941-42, Only 15 were along the Texas coast, with a remnant flock of six of southwestern Louisiana.

Close attention has been paid to them ever since. Scientists have noted a rhythm in population figures, with decli-

nes at 11 or 12-year intervals. Weather and habitat conditions on the Canadian summering grounds seem to be major factors in this pattern.

There can, therefore, only be restrained optimism about the present boom. John Smith. Texas Parks and Wildlife Department biologist, said there are many hazards which could cause a sudden, alarming decline or even eradication of the magnificent birds.

The whoopers' gallant battle Texas, Oklahoma, Kansas, for survival has captured the Nebraska. South Dakota, North imagination of conservationists Dakota, eastern Montana and and nature lovers. Reflecting Saskatchewan, to the nesting more than the value of this one ground in a wilderness area in

species, the birds have become northern Alberta, Wood Buffalo a symbol of endangered wildlife National Park.

Coordinated efforts were started in 1975 to monitor the exact migration route of the whoopers, because of an Best scientific estimate is that outbreak of fowl cholera in an at their peak whooping cranes never numbered more than area in Nebraska where they had been known to rest. 2.000. Their range was much Appeals were made to all wider, however, up until the last knowledeable observers to century or so. States, was a vital step. But by Whooping cranes live about the 1930s the whooping cranes 30 years in the wild and seem to have the same mate for life. Aransas National Wildlife This year was the second of a Refuge, halfway along the unique international experiment in raising young whoopers in Texas Gulf Coast, was established in 1937 to conserve all foster nests. The nesting birds usually produce two eggs per wildlife, especially waterfowl. This location plus Matagorda season. Island and Isla San Jose across

In 1975, American and Canadian biologists launched a well-organized project of picking up one of the eggs from each nest and placing them in the nests of greater sandhill cranes on the Grays Lake National Wildlife Refuge in Idaho.

route from Aransas crosses This year, 14 whooper eggs were placed with the foster parents, nine of them hatched, and four reached migration age and left with the sandhills on their journey to New Mexico.

arbed wire. The greater sandhill cranes differ from whoopers in wintering inland and eating other food, primarily grain. While whoopers are capable of making this adaptation, it is not expected they will interbreed with the sandhills, having additional marked differences in breeding behavior, calls and appearance. The three young whooping cranes which mana ged to get to New Mexico this year, plus three hatched by the foster parents last year, may be the nucleus of a new flock with a different migration pattern, which would boost the chances

of overall whooping crane survival. The greater sandhill crane eggs that were displayed in daho by the whooper transplants were taken to the Patuxent Research Center of the U.S. Fish and Wildlife Service in Maryland, for rearing there. This research center also has 19 whooping cranes and hopes to breed them in captivity for later release to the wild. So far, this plan has not met with success. In captivity, whoopers breed at five years of age, a year or so later than in the wild, and thier behavior is not the same. Sometimes the female will break the egg. One of the Maryland pairs has laid eggs, only one of which was fertile and the fledgling was deformed and

shortlived. Two other pairs are in captivity, one pair at the San Antonio Zoo and one pair at the International Crane Foundation at Baraboo, Wisconsin. A lone

whooper is in the New Orleans Zoo. These have not been induced to breed as yet.

Although the captive birds have not so far been productive. the grand total, because of the natural and foster parent success, now has reached 98 whooping cranes known to be in existence. While they are in residence at

the Aransas National Wildlife Refuge, the whoopers are the star attraction. The more than 100,00 visitors who come there annually -- with resultant benefit to the local economy-are eager especially to get a The Hereford Brand, Hereford, Texas, Sunday, January 23, 1977

in persuading the general public

AUSTIN -- The law of supply and demand can bring about some remarkable switches. One dramatic example is the status of fur trapping in Texas within the past five or six years.

In 1970, it was predicted that the fur trapper running his traplines would become as much a relic of the past as the blacksmith or iceman.

The decline in trapping was attributed to low fur prices and the fact that youthful trappers had become more urbanized and not so eager to earn their pocket money by tramping through the woods.

The boom was in synthetics and there was ready availability of attractive artificial furs. Fur farms also were a factor in the market.

But two or three years ago. the picture started to change. High operating costs of fur farms and the upswing in price of petroleum products and derivatives began to have an impact on the cost of synthetic clothing.

during five consecutive trapping Texas that now are bringing the seasons. Pelt or carcass samples greatest returns are the of raccoon, ringtail, gray fox and raccoon, ringtail, gray fox and red fox. According to Pierce red fox will be examined to collect data on sex-age structure. Uzzell, P&WD program director for nongame, these four species and breeding condition. ers can hunt quail at the Gene Howe Area, six miles east of Canadian in Hemphill County. On Jan. 22-23. Feb. 5-6 and studies. March 5-6. At the Howe Area.

Quail hunting there began Dec. 1. 1976, and runs through Feb. 13, 1977. The Texas Parks and Wildlife Department holds these public hunts not only to permit hunters to take surplus game populations but also to determine how the harvest is affected by research management practices, especially quail habitat

Good Catches Being Made Downstate

AUSTIN- Fishermen who have braved the chill during the first weeks of 1977 have been rewarded with good catches of crappie, striped bass and white bass in some Texas reservoirs. Parks and Wildlife Department fisheries biologist Joe Toole said crappie fishing at Lake O' the Pines has been

good. The fish are being taken in open water at depths of about 35 feet.

Crappie fishing is good at the Lake Waco marina and on Lake Sulphur Springs at the old bridge crossing which is marked by telephone poles. Most of the crappie are being landed with jigs and minnows in water 15 to 20 feet deep. Four large striped bass were

taken by fishermen on Lake Texoma below the Denison Dam. The largest weighed 221/2 pounds with three others ranging from 18 to 19 pounds. They were caught on white jig lures with artificial white grubs attached.

White bass are starting to move on Lake Whitney and both above and below the Lake Livingston Dam. Many of the white bass caught from Livingston weigh up to three pounds each.

P&WD biologist Charles Inman advises Lake Palestine fishermen to watch movement of sea gulls and anhingas (water turkeys) over the water as the birds feed on threadfin shad.

heat pump and save money ...

The heat pump is a home heating system that actually captures heat that would otherwise be wasted. The electric heat pump actually squeezes warmth out of cold outside air and uses that warmth inside your home.

The Lost Heat you pay for is a real villain, but you can turn him into a good guy with an electric heat pump. Call The Electric Company for complete information on the electric heat pump. It saves energy, saves money.

Yes, now at Jones Motors, Chrysler-Dodge-Plymouth we are offering summer pleasure at winter prices like this:

Banding Vital In Management **Of Waterfowl**

AUSTIN--Long a haven for migrating ducks to rest and refuel, an area in north-central Texas now plays an important part in waterfowl management research. The Lake Proctor location in Commanche County. selected in 1972 as a prime trapping and banding center, is beginning to yeild biologists much-needed information.

An article in the January issue of TEXAS PARKS & WILDLIFE magazine details the cooperative effort of the federal and several state governments in an extensive waterfowl

on migration chronology, distribution and annual mortality. It focuses particularly on the work of TP&WD biologists at Lake Proctor.

Waterfowl populations in-North America were declining critically several decades ago, primarily due to loss of wetland nesting habitat. This led to extensive regulation of waterfowl hunting and government intervention toward reestablish-

ing the resource. In 1948 the Flyway System was initiated to provide a basis for management. Characteristic migration patterns were recognbanding program to obtain data ized in four broad areas.

designated in the Atlantic, Mississippi, Central and Pacific Flyways.

Texas is one of 10 states that form the Central Flyway, along which a significant proportion of the wildlife migrates. At the southern end, Texas winters a major segment of the total waterfowl population.

Bottomlands along the Leon and Sabanna Rivers always attracted large concentrations of ducks during migration. With the construction in 1963 of the 4,600-surface-acre Lake Proctor by the U.S. Army Corps of. Engineers, this became one of Texas' most important inland waterfowl wintering areas. Enough peanuts are left after harvest in 55,000 acres of nearby fields to provide an easy and nutritious food supply

throughout winter. Peak concentrations usually occur during the coldest weather toward the end of the hunting season, and this is the time many hunters get full bag limits of mallards and pintails. Some portions of the lake are closed to hunting, to provide undisturbed rest areas for the birds.

Since the time Lake Proctor was chosen for the research project, approximately 3,700 ducks, primarily mallards and pintails, have been trapped. banded and released by P&WD biologists.

The ducks, caught either by swim-in traps or by rocket nets. each are given a numbered leg band. The numbers are

were does. Twenty-nine of 35 yearling bucks killed on the Kerr Area this year were spikes. Area manager Donnie Harmel attributes the high number of spikes to poor range conditions during the winter and spring of

taken, 98 were bucks and 63

Largest buck taken at the Kerr Area weighed 119 pounds field-dressed, with 11-point antlers.

Harmel said most of the deer taken were in good condition.

Antiers on bucks were good, especially when compared to those on deer killed at surrounding private ranches.

Hunters on the Engeling Area in Anderson County had much the same success. A total of 72 deer was killed by the 196 hunters who participated. The harvest was split between 41 bucks and 31 does, all of which were in good shape, according to area manager George Veteto. But Engeling Area deer were

considerably smaller than ones from the Hill Country or at the South Texas Chaparral Area.

Largest buck taken on the Engeling Area was a 15-point deer which field-dressed some 90 pounds. It was a 61/2-year-old deer.

As is usually the case, largest deer came from the Chaparral Area in Dimmitt and LaSalle Counties. Area manager Ernie Davis reported six bucks which field-dressed 130 pounds or more. Biggest buck weighed 152 pounds with eight-point antlers that measured 41/2 inches

around at the base. The Chaparral Area was open for hunting with both modern and muzzleloading firearms.

Ninety-three hunters used muzzleloaders and another 96

Page 3B

used modern weapons. The muzzleloaders harvested 23 deer, and 47 deer were taken by hunters with standard rifles.

Davis kept track of deer which were reported hit by hunters but unrecovered. He found muzzleloaders lost some 20 per cent of the deer hit as compared to a 10 per cent loss by hunters using conventional firearms.

All deer taken at the Chaparral Area were in good condition with heavier bucks being killed during mid-December hunts.

Out In Winter

TYLER- Spring traditionally is the time when game fish pounds. Currently there is no bag or possession limit on the spawn in Texas lakes, but the dead of winter -- December, Present state record for January and February--is when pickerel is for a fish taken from Caddo Lake in 1976, weighing fishing is best for the chain pickerel, a toothy pike which four pounds seven ounces.

Chain pickerel are taken weather of the year in East, easily on artificial lures, but often are selective in their choice of lure types and colors. White or yellow-skirted spinner baits often are productive. Long, jointed minnow lures or vibrating lures also are good choices. Gold and silver are good colors in these types of baits.

> A medium- slow retrieve of the lure usually is best unless submerged vegetation prevents it. During midday, chain pickerel often lie in water eight to 10 feet deep. A good technique in deeper water is slowly to bounce the lure off the bottom by pumping the rod.

This often will produce a strike when a faster retrieve will not.

The strike of a pickerel is sluggish compared to that of a largemouth bass. It will often take a lure gently, but fight stubbornly as it nears the boat or bank. It will also follow a lure in and surprise the fisherman by taking it near the boat.

Care must be taken in removing hooks from a pickerel. To avoid contact with the fish's sharp teeth. a pair of long-nosed pliers is an important item in the pike fisherman's tackle.

Pine Tree State The largest of the six New England states with 33,215 square miles, Maine is the only one of the 48 conterminous United States that borders on only one - New Hampshire. Its deeply indented seacoast measures 3,478 miles. West Quoddy Point is the most easterly U.S. mainland town.

A Texas Tech University research team headed by Dr. Ernest B. Fish of the Department of Park Administration. Landscape Architecture and Horticulture and Marvin J. Dvoracek of the Department of Agricultural Engineering has been named to monitor the effects of increased recreational use.

The study is unique in that other research has concentrated on changes only after land use has been intensified. In the Texas Tech project there will be documentation of watershed characteristics before development and monitoring of changes that occur during the course of development.

The project is supported by a \$100,000 grant from the U.S. Office of Water Research and Technology. Objectives includes studies of relationships between the soil, vegetation, geological characteristics and development. and the climate. Researchers will study effects of current land use on these relationships and past changes in vegetation and erosion

The approach will be statistical. Information will be collected. computerized and used as a basis for extending the results to give the researchers clues as to what can be expected to change in the park as increasing numbers of visitors hike and camp in the park.

"There are unusual and even unique species of plant and animal life in the park." Dvoracek said. "If water is diminished or polluted, these are endangered. We hope our study can help in development planning to allow maximum recreational use without destruction of the unusual and beautiful qualities of Guadalupe National Park."

Initial phase of the study has begun. This involves a complete analysis of the park, with aerial photos and available maps of topography, vegetation and soils, supported by field reconnaissance and checking. In addition to gathering of scientific data, the team will interview older residents of the area. review newspaper accounts of floods, washouts or other unusual natural pheno-

RENT CONTROL SPREADING NEW YORK (AP) - Rent

control may soon spread from the East Coast to other parts of the nation, triggered by a new round of rent increases, reports House & Home Magazine.

Among those who think there might be stepped-up action for rent control is John Williamson, general counsel for the Nation-al Apartment Association, Washington, D.C.

"You have to increase rents. There are going to be apartment shortages, tenants are more militant," said Williamson, who predicted "more action for rent control might assert itself" soon.

recorded as to species, sex, age, date and location banded. This data, placed on computer tapes at the Bird Banding Laboratory in Laurel, Maryland, is used for identification when bands are returned by hunters or otherwise recovered.

Returns now starting to come in indicate that some four per cent of bands placed on mallards at Lake Proctor between 1972 and 1975 were returned from hunters in two Canadian provinces and 12 central states of the U.S., also

that a significant number of banded mallards are returning to Lake Proctor each year. As band returns increase, the accumulating information from

them will have valuable impact on future waterfowl harvest regulations and management plans for Texas and the Central Fly way.

Getting what you want in life is often a matter of proper planning. And somewhere along the way. money usually enters the picture.

Vander Zee Reelected Executive VP

Paulson To Take NORM Proposals To Washington An immediate return to basic

economic policies will prevent an eventual economic and monetary disaster, directors of the National Organization for Raw Materials. Inc. (NORM) emphasized during a three-day conference at Omaha. Neb., the past weekend.

Page 4B

More than 250 bankers. farmers, professionals and raw material producers from 33 states attended the annual NORM board meeting to study and evaluate the present economic dilemma of the nation-with particular emphasis on the plight of the

producers and seller of raw materials.

Arnold Paulson of Granite Falls. Minn., was reelected president of the NORM board. and Harlan Vander Zee of Hereford was reelected as executive vice president. Two other Hereford men -- A.R. Dillard and Gerald McCathernwee reelected as NORM directors for the Texas area. NORM is a national organization chartered under state laws for the prime purpose of economic research, education, legislation, and public information. It was chartered in 1970.

was the decision by directors to establish a NORM office in

Washington, D.C. for a period of three to six months, with Paulson moving to the nation's capital to consult with various business and industrial segements and members of Congress to alert them to the dangers that exist unless economic policies are changed. Directors are urging a change from massive debt expansion to operate the economy to restoring the earned income normally generated from production times honest prices. This

Highlight of the conference says Paulson, is. "the only process by which any real economic correction can be achieved and preserve our private enterprise system."

Three basic proposals are being offered by NORM, which Paulson will convey to Wahington and the nation. They are: (1) Full parity prices at the marketplace for all agricultural commodities and other raw material production; (2) A new minimum wage law that will tie wages to the basic parity prices for all ag commodities, at honest parity prices; and (3) A new international trade policy called

Equity of Trade, providing for enjoy equitable prices for their exchange or trade with other countries at U.S. domestic partiv prices.

Full parity prices for ag products does not mean a federal subisdy program, claims NORM spokesmen. "We want a simple law that prevents the trades from purchasing any raw material production from producers for prices less than full cost of production, plus a reasonable profit for risk and work."

Spinning Machinery Donated To Textile Research Facility

LUBBOCK-The Cone Mills Corporation of Greensboro. North Carolina has recently announced the donation of a Platt Saco Lowell 883 Open-End Rotospin machine to the Textile Research Center, located on the campus of Texas Tech University in Lubbock. The spinner, which Cone has used in an evaluation program. is to be modified for TRC's use by Platt Saco Lowell of Easley. South Carolina. When the modifications have been completed, the unit is to be shipped to Lubbock for installation in the center's new Open-End Spinning Laboratory. The machine will be used in TRC's continuing research on cotton, man-made fibers, and short length wool and mohair. with primary research efforts

machine will play a significant part in our future studies, and we are looking forward to putting it into operation at the earliest possible date. Also, we are grateful to Platt Saco Lowell for their assistance in modifying the machine for us." This is the second major

contribution Cone Mills has made to TRC within the past two years. The first donation was a knitting machine which the Center has used in the development of fabrics from natural fibers.

WASHINGTON (AP)- Milk production last year jumped 4.2 per cent to more than 120.3 billion pounds, the most in 11 years and slightly more than Agriculture Department experts had expected.

The preliminary 1976 estimate compared with about 115.5 billion pounds annually in 1974 and 1975. According to USDA records, that puts last year's milk output at the highest

production, then the multi-millions of minimum wage earners must have the income to buy these living essentials."

Paulson says he realizes that the minimum wage proposal will appear to be in conflict with many people on main street. "Businessmen, at first glance, will think it is going to break them rather than help, but increased business profits will follow along with increased minimum wages and higher prices. farm prices. Just remember that all of those dollars will be re-spent in the stores and shops and will stimulate the business of the entire area. When every business is obligated to the same law, they will remain on the same premise as if wages were 25 cents an hour." claimed Paulson.

The "equity of trade" proposal simply means that the United States will pay underde-Hartington, Neb., presented a spending,"

veloped and other countries the American price level for all raw materials and imports, but only on a barter system -- meaning in exchange or trade for American goods at full U.S. domestic parity prices. This can be accomplished, said Paulson, by enforcing tariffs against importing companies and crediting

tomatoes and peppers.

have dropped some at local markets

SOUTH PLAINS: Some cotton ginning continues from cotton stored in modules and ricks. Farmers, trying to get their land ready for spring planting, are putting down fertilizer and herbicides. Cattle are in average shape. Wheat is providing little grazing due to cold weather. **ROLLING PLAINS: Recent**

snow brought needed moisture for small grains but growth is still slowed by cold temperatures. Cattle feeding is heavy throughout the area: calving is active. Land preparation for spring crops is under way as weather conditions permit.

NORTH CENTRAL: Although soil moisture is plentiful, small grains are making little growth due to below normal temperatures. Wet conditions also hamper land preparation for

spring crops. Cattle are in fair shape, with supplemental feeding heavy. Some cattle deaths have resulted from the severe

NORTHEAST: Livestock have little or no grazing. Cattle are losing weight despite heavy supplemental feeding. Some land is being prepared for-

FAR WEST: A few scattered fields of cotton remain to be harvested. Forage on pastures and ranges is deteriorating and small grain growth has slowed. Livestock feeding is heavy: calving continues.

WEST CENTRAL: A few fields of cotton remain to be harvested. Yields have been above normal. Cold weather has damaged most small grains so grazing is limited. The quality of dry forage is declining. Livestock feeding is heavy, with some shrinkage evident in cattle. Lambing is in full swing.

CENTRAL: Wheat and oats are dormant; many fields have suffered freeze damage. Cattle conditions are declining and milk production is down due to the adverse weather. Supplemental feeding continues heavy. EAST: Wheat and oat pastures suffer from the cold weather: freeze damage is evident in many locations.

GULF COAST: Livestock are in poor shape in many counties. Cattle deaths are up in some locations. Supplemental feeding is heavy. Low quality cabbage. mustard and green onions are being harvested in a few locations. SOUTH CENTRAL: Livestock

SOUTHEAST AND UPPER

conditions are declining due to the adverse weather and lack of forage. Small grains and winter pastures need warm weather and sunshine for growth. Some land is being prepared for spring vegetables.

SOUTHWEST: Dry forage is rotting on pastures and ranges. Livestock have limited grazing but remain in good shape: there is some supplemental feeding. Many vegetables remain to be harvested due to wet fields. COASTAL BEND: The continued wet, cold weather is becoming a major concern. Only

a limited acreage of flax will be planted due to wet fields. Land preparation is way behind schedule. Cattle have little grazing available and pasture and range conditions continue to deteriorate. Cattle deaths are increasing due to the adverse

weather. SOUTH: Excessive soil mositure hampers field work. Land preparation for spring planting is way behind schedule: planting of some spring vegetables and melons has already been delayed. Many winter vegetabes remain to be harvested along with citrus and sugarcane. Dry forage is rotting on pastures and ranges. Cattle

are losing weight despite

supplemental feeding. Hay

with the 10th Annual Membership Meeting of Water, Inc.

The hearing will provide the public an opportunity to comment on the TWDB's water plan revision which is expected to be released shortly. The hearing will be conducted at the Lubbock Hilton Inn. Water, Incorporated's Annual Membership Meeting has been set for Feb. 19 in the Hilton Inn.

Water, Inc., President J.W. Buchanan said the public hearing should provide an extra incentive for Water, Inc., members to attend the annual meeting.

"The hearing will give residents of the High Plains a chance to review the proposed revisions and to make sure they meet the needs of this area and of other sections of the state." Buchanan said.

"Good attendance and participation at the hearings will show the Water Development Board we are committed to finding additional water resources for the High Plains." Buchanan said. "A good turnout at the annual meeting on the next day will help reinforce that commitment.

U.S. Rep. Jack Hightower will be one of the featured speakers at the Annual Membership Meeting. Water, Inc., is a non-profit organization which seeks alternative water resourccs for the High Plains of Texas and New Mexico.

WASHINGTON (AP)- Heavy rains in Texas during the last three months of 1976 are largely reponsible for a 5 per cent drop in the prospective area for the winter vegetable harvest in the first three months of this year, the Crop Reporting Board says.

The board put the winter acreage for the 13 vegetables involved at 172,800 acres and dropped production estimates 5 per cent to 32.5 million hundredweight.

Page 6B Texas Farms Show \$15.7 Billion In Sales

billion worth of agricultural products in 1974 compared with \$3.3 billion in 1969, according to a preliminary report of the 1974 Census of Agriculture released by the Bureau of the Census, U.S. Department of Commerce. Total production expenses were \$5.0 billion in 1974 and \$3.0 billion in 1969.

There were 185.572 farms in Texas in 1974, occupying about 81 per cent of the State's total land area. Places of less than 10 acres were counted as farms if sales of agricultural products amounted to or normally would amount to at least \$250. Places of 10 acres or more were counted as farms if sales of agricultural products for the year amounted to or normally would amount to at least \$50. This definition was first used in the 1959 Census of Agriculture.

The value of sales from crops, including nursery products and hay, more than doubled between 1969 and 1974. increasing from \$1.0 to \$2.2 billion, while sales of livestock. poultry and their products accounted for \$3.5 billion of 1974 sales, rising almost \$1.2 billion from 1969.

The average size of a Texas farm increased from 668 acres in 1969 to 733 acres in 1974, while the number of farms with 500 acres or more fell from 49,204 to 44,664. Farms with 2,000 acres or more increased from 9,941 to 10,215. The average value per

Texas farms sold almost \$5.7 acre climbed from \$148 to \$252. The amount of Texas land on which corn for grain was harvested increased between 1969 and 1974. During the five-year period, the number of acres rose from 566,000 to 779,000, output expanded from 25 to 63 million bushels, but the number of farms harvesting corn for grain declined from 19,000 to 14,100. The number of farms

harvesting sorghum decreased from 50,000 to 39,000, while acreage declined from 6.0 to 5.6 million, and production dropped from 281 to 262 million bushels. Fewer farms harvested wheat in 1974--20,000 versus 25,000--but acreage increased from 2.8 to 3.5 million.

The amount of land on which oats were harvested was reduced from 619,000 to 280,000 acres and the total of farms harvesting oats dropped from 11,000 to 5,600. Fewer farms harvested cotton-- 27,000 as opposed to 48,000-- and acrage declined from 5.0 to 4.5 million. The number of cattle and calves increased from 12.5 to 13.5 million, with beef cow inventories growing from 5.3 to 6.0 million head and milk cows dropping from 332,000 to 319,000 head. The number of

farms reporting cattle and calves fell from 164,000 to 144,000. Fewer farms raised hogs-- 13,000 versus 23,000-and inventories declined from 1.0 million to 824,000 animals. The number of farms having

NEWS

sheep decreased from 16,000 to both 1974 and 1969 in the 10.000 and sheep inventories dropped from 4.3 to 3.0 million. The number of full owneroperated farms decreased from 122,000 to 112,000, while the number of part owner-operated farms fell from 56,000 to 48,000. Tenant operated farms dropped from 35,000 to 26,000. The average age of farm operators increased from 52.7 to 54.0 in sales. years. Less than one half of the

State's farm operators reported that farming was their principal occupation in 1974. Data for farms with sales of \$2,500 or more are shown for

report. There were 106,717 of these farms in Texas in 1974 and they represented 57 per cent of all farms. Moreover, these farms accounted for 98 per cent of the value of agricultural products sold and averaged \$52,000 in sales. This compares with 120,798 of these farms in 1969 with an average of \$26,500

Farms with sales of \$2,500 or more averaged 1.176 acres in size and average value per farm was \$276,000. Farms with sales of \$40,000 and over increased Office. The price is 25 cents a from 13,500 in 1969 to 21,600 in

1974. There were 8,994 farms with sales of \$100,000 or more. The preliminary report. "1974 Census of Agriculture: Texas, "contains more than 600

facts about agriculture in the State. The same items of information have also been published for each county having 10 or more farms. Wheatheart Ordered

To Halt Violations

WASHINGTON-Wheatheart. Inc., a custom feedlot formerly operating at Perryton. Tex., has been ordered to refrain from violating payment requirements of the Packers and Stockvards Act. the U.S. Department of Agriculture (USDA) said today.

The firm operated as a dealer. buying and selling livestock as agent of the purchaser or of the vendor. It is in bankruptcy proceedings and is not in operation at this time. The firm's trade territory included the Texas Panhandle, western Oklahoma and southwestern Kansas. Wheatheart also operated three feedlots in the Columbia River basin of eastern Washington.

The order was issued in default when Wheatheart failed to answer charges in an administrative complaint filed by USDA's Packers and Stockvards Administration. Administrative Law Judge William J. Weber ordered the

firm to cease and desist from issuing insufficient funds checks or drafts, and failing to pay. when due, the net proceeds due to vendors from the sale of their livestock.

The cease and desist

order--like a permanent injunction was issued to insure future compliance with the Packers and Stockvards (P&S) Act.

Dealers are required--under the P&S Act--to pay promptly for livestock. Issuing insufficient funds checks in payment for livestock is considered to be an unfair business practice.

The P&S Act is a fair trade practices law. It promotes and maintains fair and open competition in the marketing of livestock, poultry and meat.

WASHINGTON (AP)- If production levels for fertilizer hold steady, supplies in the coming year should be adequate and prices stable or lower, the Agriculture Department forecast.

When prices dipped last spring to levels as low as 30 per cent below a year earlier. farmers sharply increased the amount of fertilizer they were using- to a record-high 49 million tons for the 1975-76 season that just ended.

In a report Friday. USDA's Outlook and Situation Board said that new plants opening in 1977 should increase the domestic capacity for making anhydrous ammonia and wetprocess phosphoric acid.

Soybean Producers Will Meet Jan 28-29

BAY CITY, Tex .- State soybean producers will gather here Jan. 28-29 for the annual meeting of the Texas Soybean Association.

The first day's session, which begins at 1 p.m. at the Oasis Motel, will be a production clinic. The second day will be a marketing clinic, in session from 9 a.m. to about 2 p.m.

The production clinic will include information on foliar fertilization, pest control, nematodes and irrigation on the Coastal Prairie. The program will be presented by scientists from the Texas Agricultural Extension Service and by a Nominations Due There will also be a soybean

production panel moderated by R.J. Hodges, extension agronomist. Four or five leading Texas soybean producers will discuss their approaches to soybean production problems.

A banquet is planned for 7 p.m. Jan. 28, with presentation of awards and the new Texas Princess Soya. Cost of the banquet is included in the \$5 registration fee.

The marketing clinic will open with a discussion of the American Soybean Association's (ASA) market development program. In addition. ASA Vice President Bill Prichard of Louisville, Ga., will talk about the effect of government actions on soybean producers' ability to market their crop.

Richard Johnson, general manager of the American Grain Association of Lake Charles, La., will give tips on marketing sovbeans.

The meeting will also include the annual business session of the Texas Soybean Association and presentation of awards to winners of the Texas Five-Acre Soybean Yield Contest.

The Rural Heroism Award, sponsored by the Texas Farm and Ranch Safety Council, is presented annually to some deserving person who has

performed an act of exceptional bravery during a time of crisis. according to Ben Bullard. Council vice president and assistant safety director of the Texas Farm Bureau.

All entries must be submitted by February 25, 1977 to the **Rural Heroism Award Commit**tee Texas Farm and Ranch Safety Council, P.O. Box 489. Waco. Texas 76703 according to Bullard

Beef Industry Marks Records

high set in 1975.

highest since 1968.

highest beef price in history and

COLLEGE STATION-Many of the record books of the beef industry will have to be

rewritten now that 1976 has come to a close. "The past year was quite

significant to the beef industry in that many new records and statistics were established." points out Dr. Ed Uvacek. livestock marketing specialist with the Texas Agricultural Extension Service. "The happenings and events of 1976 might also bring about some change in philosophy about the meat industry."

Some of the startling facts about the beef industry in 1976 were these

-- Commercial cattle slaughter set a new record high of almost 43 million head. -Commercial beef production also set a new high, about 25 est in history. billion pounds.

Beef consumption approacincome of U.S. consumers also hed 128 pounds per person, not established a new high in 1976 only a new record but eight pounds more than the previous

... Calf slaughter at about 5 million head was the second Average retail prices were about \$1.39 per pound for Choice beef and \$1.36 per pound for pork, the second

Commodity The weighted average price received by producers for beef cattle was about \$34 to \$35 per hundredweight, the third high--Disposable per capital

at about \$5,500 per person. -- New record highs were also established during the year for

farm wage rates, machinery costs, interest costs, taxes, fuel costs, utility costs and real estate values. Even farm-to-retail price spreads -- what the producer gets compared to the price at the grocery store -- recorded a new high.

taxes are going to be levied.

at alternative ways of financing farm and ranch operations. Discussions will concern dealer methods of financing farm equipment--expected changes for the future and farmers and outside equity capital. Rounding out the school will

be sessions on loan documentation for various types of agricultural enterprises, recent developments in the agricultural industry, commodity outlook information, and the banker and his customer, notes Prater, Planned in conjunction with the school is an in-depth Agricultural Credit Analysis workshop and a Commodity Hedging Session, both beginning the afternoon of Feb. 9, and continuing through the morning of Feb. 11. The agricultural credit workshop will use case study problems to investigate the preparation of financial statements. reconciling and analyzing farm records, and preparing cash flow projections. The session on hedging will give bankers a look at the mechanics of hedging, hedging as a forward pricing tool, and living with a hedged loan.

Texans who are concerned with agricultural financing are invited to attend this school and either of the two workshops, savs Prater.

The school is planned for bankers by the Agricultural and Rural Affairs section of the Texas Banker's Association. It is sponsored by the Texas Agricultural Extension Service. Texas Agricultural Experiment Station and Texas Banker's Association.

For further information about the school, write Prater at room 107C Agriculture Building. Texas A&M University. College Station. Texas. 77843.

'Little Tex' Sells TAP

AUSTIN--A tow-headed character called "Little Tex" will be the master salesman for TAP (Texas Agricultural Products) in 1977, Agriculture Commissioner John C. White has announced.

Introduced at the State Fair in Dallas, Little Tex was conceived as a complement to Big Tex, the mammoth symbol of the Fair. The cartoon character is now appearing on all TAP promotional material and will be featured on a float, which will be seen in parades across the state. Little Tex will also become a symbol of good nutrition for school children when a pilot program with the Houston Independent School District is completed. The study material will be available to all schools.

CLOVIS, N.M. GESD'S THE SENSIBLE STORE FOR PRACTICAL PEOPLE

something in the real world goes wrong, as it usually does. The first problem, and one that just won't go away is what happens when the congress appropriates funds for a new job project? These people who are hired by such government funded operations probably will remain on government payrolls long after the job is finished, thus adding to the already bloated local as well as state and federal bureaucracies. The second problem is financing these payrolls and substantial benefits that all government employees receive: Who is going to have to foot the bill? The answer is quite elemen-

tary and disturbing, because only increased taxation of the private sector and the privately employed citizen can pay for the government bills. And it becomes difficult to determine just how successful an economic

overnment then in time will find itself in a kind of double jeporady, because not only will it not have sufficient tax revenue to pay off existing payrolls and benefits but it must also face up to the responsibility of paying off billions in interest to the holders of the securities. The only way out for the

Federal government is to either increase taxes to the point of literally strangling the private economy or dump the public payrolls, which hasn't happened yet. Instead the government has chosen to inflate the work force with a lot of non-productive federal personnel, and at the

same time the money supply, in an effort to pay for these employees. In the meantime, the

inflationary danger signals are flashing as the price of gold, and commodities in general are poised for a leap at the moon

"With 1977 being a 'make or break' year for many farmers and ranchers in our state, we need to encourage consumers to look for Texas products in the grocery store. Even if Little Tex isn't on the package, shoppers should buy items with a Texas origin on the label," White urged.

ME MAKES FINANCING EASIER VALLEY.

Qualifying for a large irrigation loan might be a problem without us these days. Financial institutions will be taking a careful look at the equipment you've chosen with two considerations in mind. Will the equipment last the term of the loan, and maintain its value? And is the company behind the system sound and experienced? When you decide on Valley Irrigation, you're covered on both points. Hot dipped galvanized protection is standard on all Valley equipment, giving you twice the life expectancy of mere painted steel systems. You can also expect a substantially higher resale value. Some of our dealers report that used, galvanized Valleys bring \$3,000-\$5,000 more than painted systems manufactured in the same year. And in case you didn't know-Valmont is still the largest company in irrigation.

We'll be around when you need us.

# The Hereford Brand, Hereford, Texas, Sunday, January 23, 1977 Local Resident Provides Missing **History Link For Book Writer**

EDITOR'S NOTE: The following story was mailed from the Mother Bickerdyke Historical Collection in Galesburg, Illinois. It provides an interesting series of actions which filled in a gap exisiting in the history of the famous army nurse.]

7

An important missing link in the history of Mother Bickerdvke, the Civil War nurse known as America's Florence Nightingale and the Patron Saint of Kansas, has been revealed because of a news item published in the December 21. A. 45th Illionois Infantry. She 1976 issue of Capper's Weekly. on page 3.

Capper's, which has a circulation of 453,000 is one of the bestknown midwestern family publications; it is part of the Stauffer Publications, Topeka, Kansas. Editor is Dorothy Harvey.

A longitme Capper's subscriber, Mrs. Nels H. Lekwa, 216 Avenue B, Hereford, noticed the item and remembered something which, by coincidence, has been a major concern of an author and researcher, Martin Litvin, who has spent the last 10 years running to earth leads on research material relative to his definitive biography of Mother Bickerdyvke.

Mother Bickerdyke was a pioneer Army nurse; in fact, some evidence says was the pioneer Army nurse. She had the perilous position of being the first woman nurse to command respect and cooperation in the old, unreconstructed, hard-drinking, coarse-talking army of long ago. Quartermasters often deliberately concealed from her out of sheer meanness the vitally-important medical supplies and food that the wounded enlisted men needed.

Not easily discouraged, Mrs. Bickerdyke invented ways of purloining the supplies. A few lads, enlisted men who had been injured in line of duty and nursed back to health by the hardy widow from Galesburg. Ill., were subsequently allowed to assist the nurse as her wagon drivers and helpers.

One such faithful helper was a lad from Oskaloosa, Iowa, the lame and ever-smiling Andy Sommerville of the 7th Iowa ons, nothing more is to be found. Even the recently-found Papers of Mother Bickerdyke scarcely mention these lads. Litvin found Andy Sommerville's descendants at Marceline, Missouri, and Mendota, Ill. but struck a blank wall on Frank Williams.

The information that Mrs. Zilphy Lekwa of Hereford, recalled, was a bit of news that Martin Litvin had been hoping to find her grandfather had been Robert Lillibridge of Company has her grandfather's copy of the 1886 book about Mother Bickerdyke, with the passages marked where his name appears. Mrs. Lekwa also has a letter from Mrs. Bickerdyke to Robert, written at her home in San Francisco at 2244 Mission Street, November 23, 1885.

"Dear Friend," wrote Mother Bickerdyke, or one of her innumerable secretaries who were often volunteer ladies from the G.A.R., "I am very glad to

hear from you, as I am from all the soldiers. I am glad to hear you speak of you daughter; and hope you have great comfort in your family. How is your health and what is your location? Tell me all about yourself in your next letter. Will I have the pleasure of seeing you here at

our next G.A.R. Reunion? We are having our rainy season now; and the rains fall in torrents. I wish I could send you a bunch of our beautiful calla lillies, picked fresh from the soil. Everything here is beautiful and green, while you have frost and snow. I cannot live where there is extreme cold or extreme heat, and that has driven me to California. My health is very good. I am now 72 years of age, and would like to know how old you are. It is estimated that we have 20,000 former Civil War soldiers living

her on the Coast. They have come in a race for life, like myself, and most of them are enjoying good health and are in comfortable circumstances.

No let me hear from you soon. As Ever, Your Friend, Mary A. Bickerdyke."

The article in Capper's December 21st issue announced the publication of the first volume in Martin Litvin's life of Mother Bickerdyke. Titled "The Young Mary." the book has just been chosen by the Kansas State Reading Circle for its 1977-78 reading program aimed at approximately 14,000 schools in 7 western States.

When Mrs. Lekwa saw the article, she re-checked her historical matieral and then rushed a letter off to Mr. Litvin in Galesburg. She has since provided him with a copy of the letter and plans to make available a copy of Robert Lillibridge's photo as a young man

Litvin phoned Mrs. Lekwa at her home in Hereford and thanked her. He is sending autographed copies of his new book to Mrs. Lekwa and her family.

агеа.

Alaska is two and a half times the size of Texas and nine times as large as all of New England.

Any man who inherits the done that. Presidency naturally hungers

be elected to the office. Yet former President Ford may have a more envied place in history this way--than otherw-

An audit of Ford's 30 months in the White House must reflect first how it was when he moved in: ours was a nation which might never smile again. The White House and the Congress were at war.

Government officials were in jail or on their way there. Elected leaders were routed from strange beds.

Unemployment was worsening: double-digit inflation was eroding our money: Arabs were threatening our economic life. lines with Gerry Ford; nothing and our country had been chewed up and spit out by a pipsqueak country no bigger than Illinois. Within 30 months the very ordinary guy from Grand Rapids accomplished an extraordinary transformation. He was able to deliver to his successor a White House with no shadows; inflation reduced to half what is was; more American workers working than ever in our history: personal incomes up, stock market up, credit plentiful. And our country is at peace with the world. By the time Ford delivered his last State of the Union address the respect of Congress was genuine and unanimous. He left office without one enemy. Yet I expect that when the jury is in it will be less impressed with economic statistics than with the soft-sell manner in which this quintessential commoner President built a bridge across the guagmire of 1974.

An autocratic, dogmatic man for the ultimate compliment: to could not have done that.

It had to be a decent man of Boy Scout virtues who could impart to our several sores a feeling of healing.

Theoretically, in a representative republic we are expected to elect our best men to make decisions in our behalf.

Actually what we trend to do--especially recently--is to elect men our own size and then expect them to be something more than we are.

Yet Gerald Ford--28 years in public office--proved himself a better man than most of us. His demonstrated love for his God, his country and his family

is what ours ought to be. There's nothing between-the-

none. At a time when video penalizes baldness, he was penalized. Yet perhaps even in that he

was just right for just then; we'd seen more than enough hair in 1974

And where Presidents used to boast of having "grown into the office." this one was most proud of shrinking the office back down to the size it ought to be.

We were real lucky to have had him when we had him.

The Isle of Man, located in the Irish Sea about equidistant from England, Ireland, Scotland and Wales, is not part of the United Kingdom, nor is it considered a foreign dominion. It is a dependency.

AMES, Iowa (AP)- If you've

Infrantry. Another lad, who sustained a head wound, was Frank Williams of the 2nd Minnesota Infantry. Still another was Robert Lillibridge of Company A. 45th Illinois Infantry.

Record keeping during the Civil War was a haphazard game for military authorities. North and South. No provision whatever was made for the history of a tough, middle-aged widow who almost single-handedly had to devise ways to sustain multitudes of sick injured boys in an era when soldiers were cannon fodder.

About 25 years had to pass before the public heard of Andy Sommerville and that happened when Mary Livermore of Chicago published her popularized, "My Story of the War." A rare comment about Frank Williams surfaced elsewhere. Robert Lillibridge is mentioned briefly in an 1886 book about Mother Bickerdyke, published in San Francisco.

Except for these bits and some rare, subsequent menti-

## **Meet Your Educators**

Sponsored By Hereford Classroom Teachers Assoc.

Tommy Rosson, Chairman of the Science Dept. at Hereford High School, has taught in Hereford for seven years, after having taught at Morton for six years. Tommy received his BS Degree in Biology at West Texas State Univesity, where he worked as Assistant Laboratory Instructor for undergraduates and was a member of Lambda Chi Alpha.

He received his M.S. in Botany from Texas Tech, where he also received a National Science Foundation Grant for Secondary Science Teachers for Graduate Studies. Tommy's teaching activities outside the classroom include taking students on field trips to acquaint them with the world of nature.

Field trip work in the past has included points such as various caves in Southwestern New Mexico, Big Bend National Park, short, local trips of interest, and has sponsored students to Science Fairs.

Tommy has had a science paper "Ophioglossum engelmanil Praut I. New to the Texas Panhandle," published in the "Southwestern Naturalist."

Proving that he is totally involved in his chosen field of work. Tommy is involved in many professional organizations, including life membership in TSTA, membership in NEA, CTA National Association of **Biology Teachers. Southwestern** Association of Naturalists. Texas Academy of Science. National Audobon Society, and

the Science Teachers Association of Texas. Tommy is also involved in the

community. He works with Boy Scouts, Key Club, and is currently secretary of the Whiteface Breakfast Kiwanis Club.

Tommy's wife, Madeline, is employed at Hereford State Bank and they have one child. Daphne, who is an eight year old third grader at Bluebonnet. The family are members of First Baptist Church, and enjoy hobbies such as camping. photography, and hunting.

When asked for a philosophy of education, Tommy replied. 'My philosophy is reflected by the behavior of students whenever they respond by saving. 'Oh. I understand!" He does not do anything halfway.

HEREFORD

Texas By The Associated Press A strong flow of moist air moved out of South Texas Saturday bringing with it the promise of rain, light snow and possibly a few scattered thundershowers. Light rain was reported in South, Southeast and West Texas early Saturday and the rain was expected to spread over the entire state during the day. Some fog was reported in coastal sections early today. Temperatures early today ranged from the 30s over all of the northern half of the state to the 60s in the Lower Rio Grande Valley. Some early morning readings included 32 at Wichita Falls. 35 at Dallas. 40 at Waco. 43 at Abilene, 47 at San Angelo' and 39 at Longview. Forecasts called for cloudiness to spread over the entire state with rain forecast for all areas. The forecast also mentioned the possibility of thundershowers in Southwest Texas. The cloud cover was expected to keep temperatures cooler than Friday when afternoon highs ranged from 68 at Brownsville in the Valley to 47 at Dalhart in the Panhandle. NEW YORK (AP) - Princess Grace of Monaco will christen the new cruise ship, Cunard Princess, in the spring of 1977, while the vessel is berthed here. Since 1840 the British Cunard Line has had its 179 passenger ships named by distinguished women from the United Kingdom, including the Royal Fami-This tradition was broken in August 1976 in honor of the U.S. Bicentennial, when Mrs. Janet Armstrong, wife of astronaut Neil Armstrong, named the Cu-

nard Countess, becoming the

first American woman to christen one of the line's ships

#### ARTS AND CRAFTS DEPARTMENT MAKES REPORT

17

si

e:

rv

The Arts and Crafts Department here with the capable and talented Vena Hudson as director, has done work which defies description and staggers the imagination. She gave an annual report to all Manor people on Thursday. Jan. 13.

We had observed the ladies morning after morning, as they gather and begin to busy themselves at those long work tables in the Lamar Memorial Garden Room. They are cutting. measuring, stitching, quilting, or running sewing machines. As the morning wears on, they seem to pick up steam and the lunch bell rings soso quickly. Sometimes they even reassemble after lunch and take up where they left off.

Our Vena is always appreciative. She states that there is rarely a day that some one doesn't come to her and say. 'Vena, if there is anything I can do for you, I'm glad to do it". On some types of work, our men have been called to help and they respond beautifully. Evervone in our complex buys something sooner or later.

There are about 25 ladies who work at Crafts. Some more often than others and for longer periods. Nothing whatsoever is compulsory. Some give money or materials. Many customers, having bought will say, "Keep the change", which of course all

counts up. Vena savs "Emma Jean Smith is a jewel!" She keeps minute account of all transactions and is general secretary and treasurer.

When we hear the numbers and variety of articles made here we begin swinging around. like the whirling dervish, as we try to keep up with what goes on in Arts and Crafts Department. It is said the two most popular sellers have been the table mats and the checked toys dogs for the children.

So ' e decided to give some estimates of monies made and what has been done with it. 7 In 1976 over \$1,000 was spent

of or a refrigerator for the kitchen.

## SLIDES SHOWN HERE

Culver, Mrs. Mary James, Mr. Everett Smith, Mrs. Lena Mrs Eleanor Hudspeth gave Menefee and Mrs. Amanda our first Thursday Bible Study Baca. Mrs. Baca was unable to which all residents enjoyed. attend as she was in the Rev. Goodwin and wife came the second Thursday for Bible study. Mrs. Goodwin gave a

all

special number with Mrs. Eva accompaniment. We are really going to miss

Mrs. Botsford for she has moved to Amarillo and she had been doing the playing for our Bible study on Thursday mornings. .....

We had Mrs. Ira Ott. Mrs. Robert Trobridge and Mrs. J.H. Holden for craft day. The residents enjoyed making rabbits with colorful yarn. .....

Our ceramic class has started full swing again with Mrs. Ben Greider, Mrs. Llovd Kirkeby, Mrs. Larry Perkins and Mrs. C.G. Trowbridge being the helpers this month. ......

The Auxiliary ladies have put some more beauty in our home. Mrs. A.T. Mims has arranged flowers for the dining room tables. These are so pretty and it really adds a cheerful note to the dining room.

The Auxiliary ladies have a project working at Westgate most of the time, and you can help by coming to the bingo party that will be at the Lamar Memorial Garden Room at King's Manor Jan. 31 which will be a money raising project. ......

Our Bingo party was first Thursday with Mr. and Mrs. Horace Hershey, Mrs. Sam Long. Mrs. Keith Simmer and Mrs. Jack Brown helping with the party. Mrs. Jessie Boardman was our winner for the day.

.....

Our residents are really enjoying the colored T.V. that Mrs. Nina Frances McMeans has given to the Home. A big thanks to you Nina Frances for all the nice things you do and have done for our Home and Residents.

......

May each of you be blessed that have come our way to make a day a little brighter for our residents. Many of you come as individuals and are not mentioned with groups. We do appreciate all of you.

## special number with Mrs. Eva Dr. Wadsworth To Speak **At Bible Conference**

The Temple Baptist Church will present "A Week With The Word" at its third annual Bible Conference which began at the church today.

The conference will consist of services at noon and 7:30 p.m. each night this week through Friday.

Dr. Dwight Wadsworth will

C of C Leaders **Slate Meeting** Tuesday

> A meeting of committee chairmen of the Deaf Smith County Chamber of Commerce will be held at 7 a.m. Tuesday in the C of C board room in the Chamber building.

The meeting has been called by Joe Shollenbarger, president of the Chamber. Attendance is encouraged for

all those involved.

The llama is a South American beast of burden related to the camel. It is sure-footed and can carry more than 100 pounds. But when it is angry or tired, it spits at the person who is annoving it.

be the Bible teacher for the conference, while Larry Howie will lead the music. Dr. Wadsworth was born in Astoria, Oregon and received

Christ as his Saviour at the age of 18. He traveled in Canada as an evangelist's assistant during the summer following his conversion and then returned to Portland to begin studies at Western Baptist Theological Seminary.

His pastorates include Calvary Baptist Church and Arleta Baptist Church in Portland. Oregon. In 1943, he volunteered for chaplain duty with the American Army. He landed on the invasion coast of France in 1944 and attained the rank of Captain and was awarded the Bronze Star for meritorious service. During this time, he gained a love and concern for Europe.

He continued studies at the University of Southern California in 1945, majoring in history and was called to be pastor of the Emmanuel Church in Burbank, California. In 1950, he moved to Edinburgh, Scotland where he began work on a doctorate in the field of historical theology.

During the two years in Edinburgh, he was invited to

# Mr. Farmer

When buying or selling farm and ranch lands, your selection of a realtor is of supreme importance. If your realtor does not understand well logs, underground line sizes and types, water tables, investment credit, repair costs, fuel costs, irrigation horsepower requirements, friction loss, soil maps, insurance rates, tax matters, and detailed production cost figures, then you may have the wrong realtor. Let us serve you. We understand farmers and farming.

England where he learned about the Torchbearer Fellowship founded by Major lan Thomas. He and his wife, the former Velma Moore, were invited to work within the fellowship and arrived in Germany in 1953.

that local residents will have the chance to give the gift of life by making a blood donation from 4-6 p.m. at the Community Center. Coffee Memorial Blood Bank in Amarillo reports that Hereford's blood "account" has again dropped to a dangerously low level and donors are requested to oblige by making contributions.

The diamond anniversary of the Masonic Lodge will be celebrated Thursday, Jan. 27 at a supper for local Masons and their wives. Past Masters who have recorded more than 25 years of service will be honored. Festivities will begin at 6:30 p.m. Circle Friday, Jan. 28 in red because that is the date of Hereford's first Heart Ball, a dinner-dance being staged to benefit the American Heart their new facilities at 610 E. Association. Classified as semi-Park Avenue from 2-4 o'clock formal, the party will begin at 8 o'clock at the Country Club. For those of you who are

Another tea, this one honoring the Beta Sigma Phi Sorority sweethearts, is scheduled that day from 2:30-3:30 p.m. in Ward Parlor of First United Methodist Church. Attending this BSP function will be judges from Amarillo who will select which sorority woman will be crowned BSP Valentine Queen on Feb. 12.

All local women are invited to attend a meeting of Deaf Smith County's Women's Forum at noon on Monday, Jan. 31 in the Community Center. This will be a covered dish luncheon. 585

WELL, THAT concludes that list of events for January and there may be some occasions that have been overlooked. From all indications. February promises to be filled with action too with the Camp Fire Father-Daughter Banquet, the Beta Sigma Phi Sorority Valentine Ball, a Boy Scouts banquet, and selection of Home Demonstration Woman of the Year, to name a few.

to the pageant theme, all music will relate to star melodies.

Dean Kelley or another representative of the Amarillo Chamber of Commerce, will serve as master of ceremonies at the March 12th pageant.

Mrs. Furr described the problems and trials of early Americans while forming our Constitution.

In summation she said, "The miracle was complete. Men of vision and purpose had come together, and had argued and compromised, had risen above personal ambition and political commitment to draft a document that ensures freedom for the future of their country." Other members attending were Mmes. Jack Wilcox, Si Darling. Charlie Hayes, Earl Holt. Bruce Burney, Justin McBride, Bud Eades and John

this afternoon. On tomorrow, a noteworthy organization, the Hospital Auxiliary, will hold a membership meeting and covered dish luncheon at 7:30 p.m. in the Flame Room of Pioneer Natural Gas. The Auxiliary, which carries out many invaluable chores for local patients and the medical staff, meets only three times each year and new members are urged to attend Monday's assembly.

Another vital task force in this community, the Chamber of Commerce Women's Division, will convene for a quarterly membership meeting at 7:30 the Eastern Star will be honored p.m. Tuesday at the Country that afternoon during a tea in

members of Hereford Community Concert Association, another star-circled performance is slated at 8 p.m. Saturday, Jan. 29 at Hereford High School. Earl Rose is the visiting artist. Three major events are occurring next Sunday, Jan. 30. The entire community will be asked to give their best in the campaign to prevent birth defects when the Mothers' March of Dimes begins at 1 p.m. Volunteers are needed to canvass the city/for donations. Also, grand officers of Order of **Family Center** 

House Today

Holds Open

Hereford Family Service Center, located at 610 E. Park Ave., will hold an Open House today, announced director Al DesMarteau.

The public is invited to view the center's new location from 2-4 p.m. The center offers mental health services to residents of Deaf Smith and

In preparation for the first Heart Ball in Hereford, volunteer workers recently distributed tickets to various representatives of the American Heart Association. In addition to selected individuals, tickets may also be purchased at both local banks and at the Chamber of Commerce office. Recording current sales are, from left, Mrs. John Hays, Margaret Formby and Mrs. Robert Josserand.

# **Heart Ball Plans** In Final Stages

Jerome Friemel, director of Hereford's first Heart Ball. announced this week that tickets for the gala social event are available at First National Bank, the Chamber of Commerce office and Hereford State Bank.

However, he urged local residents to purchase their tickets now, because admission will be limited to 200 persons. Tickets are priced at \$25 each with proceeds to be forewarded to the American Heart Association for research.

The semi-formal dinnerdance is scheduled at 8 p.m. Friday in the Country Club. Dance music will be provided by an Amarillo band, "Tiffany Brass." The meal will be prepared by chefs at the Country Club.

It is hoped by the local chapter of the Heart Association that the elite ball will become an annual benefit. The Hereford Chapter of the Association was founded two years ago and Mr. and Mrs. Archie Dwyer serve as president.

The Heart Ball will launch the annual Heart Fund drive, to be conducted here during the month of February.

Chamber Women To Meet Tuesday

The Chamber of Commerce "Woman of the Year" will be recognized Tuesday evening at the Country Club during the Women's Division's first general membership meeting of 1977.

Georgia Sparks, who served as president of the Chamber women during the past year, will hand over her gavel to Donna VanderZee during installation ceremonies that evening. All members of the Women's Division are urged to attend this important meeting. Mrs. James Welch of Dimmitt will present the program and

dinner will be served at a cost of \$5. Reservations must be made by telephoning the Chamber office, 364-3333, before 5 p.m. Monday.

# Los Ciboleros Chapter Elects Mrs. Joe Reinauer As Regent

nation of officers and an ensuing election highlighted a lengthy business meeting of Los Ciboleros Chapter, Daughters of the American Revolution, Thursday after noon in the home of Mrs. Garth B. Thomas.

Mrs. T.J. Carter, chairman of the nominating committee. submitted the following slate of women for election: Mrs. Joe Reinuer Sr., regent; Mrs. Carroll Newsom, vice regent: Mrs. LeRoy Williamson, chaplain; Mrs. Alfred Smith. recording secretary; Mrs. Arthur Clark, corresponding secret-ary; Mrs. Stanford Knox, treasurer; Mrs. Ron Smith, registrar; Mrs. J.T. Carroll, historian; Mrs. Jeff Smart,

The chapter voted to donate American flags to the newly-organized YMCA and to the Black home, recently acquired as a special feature of the local museum. Mrs. Austin Rose Jr. gave a progress report on the Black home, stating that restoration had begun and it was planned to use the historical site as a meeting place for local clubs.

ittee, stated that she had completed the compilation of the E.B. Black Co. Funeral records, dating from 1909-1923. This bound volume of 301 pages, including index, is available in the Genealogy Room at Deaf Smith County

Library. As chairman of the chapter's resolutions committee, Mrs. Newsom presented a list of adopted proposals to be sent to the state conference for consideration. These resolutions included:

1. Oppose blanket amnesty for draft violators.

2. Support six members of

Congress bringing suit against ident Carter, Secretary of State, Cyrus Vance and his Panama negotiator to stop the Panama Canal "giveaway." 3. Oppose televised executi-

4. Oppose closure of census records

5. Oppose the Humphrey-Hawkins Full Employement and Balanced Growth Act.

6. Oppose oil divestiture. Refreshments were served by Mrs. Thomas and her co-hostesses, who included Mmes. J.E. Manz Jr., Johnie Burkhalter and Jeff Smart.

Others present were Miss

Mildred Elliot and Mmes. Norvell, Earl Holt, Carter, Carroll, Rose, Brainard, Robinson, Sue James, Clark, Williamson, Newsom, J.R. Johnson, Curtis Traweek and Madeline Vieogever of Grand Rapids, Mich., guest of Mrs. Williamson,

EENIE MEENIE MINIE ...

# BEFORE THOU CAMEST FORTH OUT OF THE WOMB, I SANCTIFIED THEE...

Life before birth

Some say human life begins at birth. But doctors tell us that long before then, and even before the mother feels the unborn baby's movements within, the miniature infant wakes and sleeps, squirms about, squints, swallows, breathes fluid, hiccups, digests, hears, tries to cry, can feel pain, flexes his or her fingers, punches, kicks and even sucks his or her thumb-or toes. All of this occurs in the first half of pregnancy. At conception, a genetically unique individual begins life. All of the characteristics he or she will have as an adult are already determined-including eye color, skin pigmentation, sex and intelligence potential.

**JEREMIAH 1:5** 

None of us doubt that we were the same persons before and after our births, much less that we were alive. And it's obvious that we were human—we had human parents!

- -An unborn child is killed every thirty seconds by abortions
- -Parents are legally forbidden to stop their daughters from having abortions
- -Fathers are legally forbidden to stop the abortion of the child they helped create
- -50 million of your tax-dollars paid for abortions in 1976
- -Insurance premiums are being used for abortions.

## Time Off

About 4.5 per cent of a worker's paid time is spent off the job - because of vacation, olidays and illness. In the mining, manufacturing, transportation and public utilities industries, time off with pay can reach 7 per cent or 8 per cent of the total. The Conference Board notes.

# At Wit's End

### **By Erma Bombeck**

The younger generation talks a great game of peace.) They want no more wars, no military stockpile, and no involvements with anyone whose peace is threatened.

As a mother of three whose children pay dues in that generation, let me tell you they'll never pull it off. You know why? Someone will "hum" and it'll be World War III. In 20 years of child raising. I have discovered "humming" is the one sin children cannot tolerate and never outgrow. Hitting, biting, scratching, shoving, taking records, hogging the phone, locking doors, using up all the hot water, failing to repay bad debts, forgetting to pick them up at the gym ... all that they can handle, but "humming" will drive them up the wall

As small children they used to sit around the dinner table and suddenly one of them would drop his fork and implore. "Mom/ Make her stop it/"

The silence was deafening. "Make her stop what?" "You never heard it. She's humming just so I can hear it."

I'd lean over, my hair resting of her lips, and listen. Nothing. Then, I'd stare at her neck to make sure it wasn't moving. It got to the point where I used to feel the veins in her neck to see if they were still warm.

They hummed in the back seat of the car, nearly causing their father to crash into a tree with their fighting. They hummed on the playground one day and happily were near someone who knew pressure points. They hummed one Sunday in church and ended up having a fight in the vestibule-with holy water yet.

Twenty years I put up with humming I couldn't hear. Twenty years of recriminations, retaliations, and general rottenness. Once, one of them became so incensed over an inaudible hum that he leaned over and yelled into his brother's ear, causing him to read lips throughout an entire

## The Hereford Brand, Hererord, Texas, Sunday, January 23, 1977

The passing of Austin da; Mr. and Mrs. Merle Massey, Mr. and Mrs. Ronald Mobley, early Monday morning, Dean Smiley, all of Friona; Mrs. came as shock to family and Ruth Miller, Mr. and Mrs. G.H. friends, in this community and Miller of Odessa; Mr. and Mrs. area. He lived with his mother, Cecil Mobley, Denver City; Mr. Mrs. H.M. Mobley and farmed and Mrs. Dan Boothe of Hollis the place since the passing of his father in 1940. Mrs. Mobley Okla found him dead in the bed. He afternoon at 2:30 in First had apparently not been ill and Baptist Church, Hereford, and the two of them had visited Mrs. Mobley's sister, Mrs. Jewel Price of Floydada on Sunday.

The Mobleys came to the community when Austin was a baby and lived in this community until the mid-thirtys, when they moved to Dimmitt. They moved out to the farm eight miles north of Dimmitt about 1939. Austin was a member of Frio Baptist Church. Rev. Johnny Tims, pastor and Rev. M.A. Pennington of Dimmitt conducted the service. Pallbearers included Jim Elder, Dale Carmichael, Clyde Renfro, Oscar Wiley, Dick

Shackelford, and Herb Bippus. Surviving Austin besides his mother are sisters, Mrs. Floyd Cole of this community, Nell Miller of Hereford, Mrs. Earl Reno, Midland and brothers, Raymond and Don, both of Farmington, N.M. Others coming for the services included the Raymond Mobleys' child-PLACE OF BEGINNING and ren. Mr. and Mrs. Frank Kirk containing 84 square miles of Mobley and daughter; Mr. and Mrs. Kent Mobley, Mr. and Mrs. Dean McLaughlin and son red to acquire within and

Kyle, all of Farmington: Also Don Mobley's children, Craig, Stan, Curtis and Staci. Also Mr. and Mrs. Herman Also Mr. and Mrs. Herman Vinson and Shelley, Childress: Projects Mr. and Mrs. Sal D'Amato. Oklahoma City, Bill Cole, Hartley and Beverly Cole,

Wakan Ki Lo Discovery Club, sponsored by Mr. and Mrs. Virgil Marsh, completed their eight week planned program for a Group Torch Bearer in Interior Decorating

Members turned in their "Dream Homes" which was the final requirement for the Torch Bearer.

Songs were practiced for the Father-Daughter Banquet which will be held Feb. 4. Decorations for the event will include a pastel floral bouquet with matching napkins and stream-

The following members of Wakan Ki Lo Discovery Club served at the recent Chamber of Commerce Banquet as a "Give Service" Project: Paula Graves, Deanna Pool, Cristi Crawford, Brenda Parson, Jill Paschel, Willia Lawson and Monica George.

Members present were Willa Lawson, Lori Parker, Janet Burdine, Brenda Parson, Rhonda Hollowell, Susan Brown, Jill Paschel, Cristi Crawford and Monica George. Leaders are Mrs. Bill

Thompson and Mrs. Floyd Eubanks.

The Wa-Ca-Tawasi Camp Fire group met Tuesday at the Mrs. Bill Caraway, president of Dawn Extension Club, was Temple Baptist Church Fellowship Hall. nominated by her fellow club

After a brief business members as delegate to a meeting the group went to the district meeting. This transpired Heritage Room of Deaf Smith during a meeting Friday in the home of Mrs. John Wilson. County Library to view a film. The film was sponsored by the Horeford Camp Fire Council. In other business, all members were urged to support

Refreshments were served by the livestock show here next Tanya Jones to the following members: Gloria De La Paz, Holly McNeese, Rosie Garza, program on the responsibility of U.S. citizenship. Her topic Teresa Carr, Karen Johnson, Sandra Rodriguez, Kim Seward, Elma Turrubiates, Laurie the pursuit of happiness" as High, Norma Cervantez and Shirley Morrison.

Adult leaders are Betty Jones and Shirley Carr.

The Delmarva Peninsula separating Chesapeake Bay from the Atlantic Ocean is so named because it contains parts of three states -Delaware, Maryland, and Virginia.

DEAR ANN: Many writers (including you) have devoted a lot of space to the Battered Wife and the Sadistic Husband who abuses her. You seem to believe he is a psychopath who should be counseled and/or jailed in short order.

I remember my uncle, whose wife badgered him, complained and criticized endlessly. Why he put up with it I could never understand. True, they had children and they were poor, but still ...

Then came my turn. I married the prettiest, most virtuous girl in town. Within two years she became the same kind of badgering, complaining, critical wife my aunt had been. But we had children and were poor and she was still beautiful and insisted she loved only me.

Now, after 40 years, she is gone. And so are my ulcers. Why was that women so miserable to life with? I have speculated that perhaps she thought the honeymoon would last forever. When it didn't and I became busy with other things (such as keeping the wolf from having pups on our doorstep), she started in on me. I believe

now she did it to get my attention. I wonder if I should have slapped that mean mouth of her when she began to get ugly. I wish I had done it. The point is that when a wife

torments a man and drives him to the brink, I honestly believe she is asking for a bit of

UNBELIEVABLE

tracted, not scrubbed in.

battering and that's exactly what she should get. Please comment. -- Learned Too Late DEAR L.T.L. You theory is based on the assumption that all wives are alike. Well, they aren't Neither are all husbands.

The hysterical woman, the screamer and thrower of lamps, vases and frying pans just might bask in the head of a husband who attempted to give her "a bit of battering." The low-profile, super-critical nag who subtly drives a guy up the wall with her picky-pick-pick might react quite differently to a crack in the teeth. She could dissolve in tears and stay in bed for a week with a case of the vapors.

Ditto for men. Some husbands could never hit a woman no matter what she did. (I'll bet you're one; witness 40 years of restraint).

I've said it befre and I'll say it again. Women who live with men who beat them have a sick need for punishment. Men who hit women are also sick. And it's amazing how these people seem to find each other.

DEAR ANN: I'm a farily attractive 24-year-old woman (unmarried). Last night, a friend laughingly said, "You're built like a 12-year-old boy." Then she told me about an ad she had read in a magazine for breast developing--exercising with dumbbells for 20 minutes a day. Will it do something for me? --

**Royal Ignorance** Due to ignorance of the English language, the German-born Hanoverian kings allowed much of their power to fall under the control of subordinates and ministers thus spawning the concept of government by political par-

religious order.

460 acres of good land with 4 imigation wells. two 8" and two 4". And across the road 130 acres with one 6" well. This land borders on take about 12 acres in the lake. This 130 acres is a good location for a home and the price is negotiable. Make an offer.

1200 sq. ft. with detached garage - Building in back - Good investment . Priced right.

300 front feet on South Main - Might be developed commercially . Small house & garage on one end.

### Hereford GERMAN BAROQUE GERMAN BAROQUE LOS ANGELES (AP) - The Los Angeles County Museum of Art has recently acquired a German baroque statue by Ig-naz Gunther (1725-1775). The carving is of St. Scholastica, Realtors twin sister of St. Benedict and co-founder of the Benedictine Honored

Hereford Board of Realtors was recognized Wednesday. Jan. 19 at a noon luncheon in Austin for the outstanding growth in membership by Texas Association of Realtor's president, Frank Nix.

The luncheon at the Hilton. Inn closed the three day winter meetings of planning goals and programs for the Texas Association of Realtors. The growth of the 116 TAR boards increased the association membership to over 35,000 in 1976. This was an increase of nearly 5,000 the largest membership jump in TAR history.

Don Tardy is the president of the local board.

Mrs. Ship Presents Program

North Hereford Home Demonstration Club met Thursday in the home of Iva Saltzman:

Martha Lueb opened the meeting with members answering roll call with "Problems I Have In Communicating."

Joyce Shipp, County Extension Agent, presented a program on family relations. Members commented on the benefits this program gave to each one ndividually.

Judy Williams was nominated as "Woman of The Year" for the club and Evelyn Crofford was voted delegate nominee for the district meeting.

Members attending, other than those previously mentioned, are Olivia Smither, Virginia Cruse, Naomi Brisendine. Brenda Campbell, Mary Johnson, Sunny Lemons, Roberta Campbell and Nell Hodges. Guests attending were Alice Cox. Lucille Guinn and Saleeta Brink

The next meeting will be held Feb. 3 at the Reddy Room of Southwestern Public Service with Mary Johnson as hostess.

# Study Club Joins Friends Of Library

Members of Hereford Study Club agreed to join Friends of the Library here Thursday evening during a meeting in the home of Mrs. B.F. Cain. Mrs. Merlin Kaul was co-hostess.

Mrs. J.D. Gilbert Jr., club president, directed the business discussion. Plans were made for a Valentine party at 7:30 p.m. Feb. 3 at Dickies Restaurant. Hostesses at that festive occasion will be Mmes. Richard Winget, Art Stoy, Kaul and Shirley Garrison.

In other business, a nominating committee was appointed. This task force is composed of Mrs. Labry Ballard, chairman, Mrs. Cawthon Bryant and Mrs. Stoy.

Janita Oswalt, who is chairman of the nutrition task force for the American Heart Association, was introduced as the guest speaker. Explaining the function of the heart. Mrs. Oswalt stressed the importance

of correct diet in preventing heart attacks and heart disease. Through the use of charts, she presented the positive and negative eating habits that are most common in this country.

Others in attendance at the recent meeting were Mmes. T.E. Braddy, George DeBoer, W.H. Gentry, Bob Posten, Don Robinson, Joe Story, R.N. Yarbro and Miss Gladys Setliff:

> Methodists The name "Methodist" is thought to refer to the methodical manner in which members of the original movement performed engagements which a sense of Christian duty induced them to undertake. It was first applied to Charles and John Wesley and several other Oxford students in 1729. The movement was brought to

America in 1760 by emigrants

from Ireland.

### **Donating Paint**

Eunice Petersen, at left, is hopefully starting a trend for other local artists by donating a painting to be placed permanently at Deaf Smith County Library. Gwen London, managing librarian, accepted the painting Friday morning on behalf of Deaf Smith Ceunty Library. Mary Hamby, program chairman of Friends of the Library, urges local artists to enhance the library facilities by contributing their works of art.

"MATCHING COOKING JOB TO APPLIANCE SAVES represented. ENERGY

How many cooking appliances do you own? How often do you use each

cooking appliance? Which cooking appliance would you like to purchase? Because of the wide variety of cooking appliances available to the consumer, many kitchens

are overequipped, and some appliances are under-used. An appliance may become a liability rather than an asset if it is not used enough to justify the money it costs and the storage space it takes up.

The problem of storage will become even greater in the kitchens of future housing as cabinet space is reduced to save on building costs. Since the nation is in an energy crisis and fuel costs have soared, now is a good time to review available cooking equipment and select and use appliances for maximum savings of energy and money.

A questionnaire concerning ownership and use of the microwave oven and other cooking appliances was mailed to 25,00 households in 11 Texas cities. Major urban area with

364-0029

populations 20,000 or more were The 11 per cent response was

too small to allow generalizations or causal statements on the subject but did indicate some trends in appliance usage.

Of 272 households responding. 84 per cent had both male and female heads. More than half were between 30 and 60 years of age. Ninety per cent of the male and 46 per cent of the female heads were employed full or part time.

Thirty-eight per cent had an annual family income of \$8,000 and \$14,999, while 40 per cent had \$15,000 or more. About half of the families were composed of adults only.

The questionnaire consisted of four sections: two were about the microwave oven, one was on demographic information, and one was on ownership and frequency of use of cooking appliances.

Response to checklist of 13 cooking applainces included in the questionnaire showed that respondents owned from 1 to 10 appliances; more than half owned 5 to 7. All owned a coventional range (one-fourth of the ranges had double ovens). Most of the respondents owned a toaster or a toaster en; some owned both. Two

thirds owned an electric skillet; Of the seven respondents who half owned a waffle iron owned the microwave oven; three used it daily and two and patio grill; one-fourth owned an electric warming tray. weekly. Although few owned a microwave oven in this survey, indications were that the appliance was apparently used frequently. In another study, involving 50 microwave oven owners, the oven was used daily by 96 per cent and weekly by 4

per cent. Portable appliances can be used effectively to save electricity. Comparative studies of energy use by various appliances have shown that the use of certain portable appliances rather than the conventional oven is a practical way to conserve energy.

Studies have shown that the eating quality of food cooked by portable appliances is comparable to that of food prepared by The results of this survey

indicate that almost half of the respondents were not taking The conventional oven was advantage of the portable. appliances they owned. More and weekly by one-third. The frequent use of portable applainces and less frequent use were used one or more times per of the conventional oven would week by one-half of the save energy and money for

a rotisserie, and a protable electric oven. A microwave oven was owned by only about 3 per The microwave oven was the

most desired appliance. It was wanted by one-fourth of those not owning one. A double oven, toaster, patio grill, and deep-fat fryer were the appliances wanted by about one-tenth of those not owning the appliance. The least desired appliances were a rotisseie, an electric warming tray, and a portable

electric oven. Respondents were asked how frequently they were using various appliances -- "daily," "weekly," "monthly," or "seldom." Appliances used/ most frequently were the a conventional oven. conventional oven and toaster. The toaster or toaster oven was

used daily by all. used daily by almost two-thirds electric skillet and patio grill used by one-fourt of them. The pancake griddle, portable elect-

more times per week by slightly more than one-third; they were seldom used by almost half.

The deep-fat fryer was used weekly by one-fourth of the appliance owners, but seldom used by half of them. Applainces used least frequently were the rotisserie and electric warming tray; they were seldom used by a majority of the respondents.

Among demographic factors, family size appeared to have the greatest influence on the use of an appliance. The conventional oven was used less frequently by families having one or two members than by larger families.

Families having five or more members used the waffle iron, electric skillet, pancake griddle more frequently than smaller families.

The conventional oven was used least by families composed. of adults only; use increased as age of the children increased. The patio grill was used more frequently by families with annual incomes of \$15,000 or more than by those with lower

respondents and were seldom many appliance owners. H.D. Council meets at 2:30 ric oven, pressure saucepan, p.m. in the County Courtroom. and waffle iron were used one or Monday. Plan to attend this
