When It's A Break To Be Illiterate; Don't Eat Democrats, They're Scarce

By WILL ROGERS
Well all I know is just what deread in the papers or what befind couple of weeks ago I wrote a Sun day Article and it mentioned the Donner Party at Donner Lake as being our only case of Cannibalism ever practiced in our abundant Country. Welf then some man wrote me and fold me of a case of a man named Packer in Colorado, and so I wrote a Daily prescrip-tion about him, stating the Judge's charge to the Jury, and admonish ing him for enting up all the Dem ocrats in the County. If he had just eat up a Republican why the Judge (a fine old high type Democrat from Arkanana), would have cer-tainly given the man a pension instead of a sentence. Well now we got that much straight.

We first wrot of the Donner Party, by the way, if you havent read its history do so, its the most dra-matic piece of life ever lived by a band of our brave countrymen and Women, Well then comes this other case of this fiend eating the Demo crats, and these two cases must be all there is, or otherwise I would have heard of any others, for pecple love to write leters and tell you of any other cases, even of cann

Well now comes a long and verinteresting leter from a man name. N. E. Guyot, whose leterhead say Kingman, Arizona, and he give me the exact details of this las case. It seems he was in Colorade at the time. Now a lot of folk thought I was just kidding when I wrote of this Packer, and the story of the Democrats, but it was the gospel truth. I certainly wouldent make light of a thing so serious as eating a Democrat. We are reaching a time in our existence muster. We got to get some properity mixed up in our National existence, and as the coming No-vember reaches the election day we are coming out in numbers that will astonish the Natives. So I certainly was serious and was relating a historical fact. But, wait, let Mr

Guyot tell you. It was in the Northwestern par of Colorado, San Juan mountains ten miles from the Town of Lake City on a plateau that is called on Government survey. Cannibol Pla-teau. It was here that Pucker thru a severe snow storm murdered and devoured his Prospector companions" Now those are some mere you to get. Its the history of this fellow Packer before he started in subsisting on the minority party. Packer was a Harvard Graduate. and graduated in 66. He was a Law Student and started practicing in Boston. What I am getting at is that the only case of a person will fully devouring human flesh was the Alumni of the great Harvard. So Harvard has not produced the least understandable English in our fair land, but proed the only living Cannibal.

Then he was a Lawyer, that of course seems natural, their profes-sion is an offshoot of the cannibal profession, they generally skin em alive. Packer did have the good taste to destroy em and get em out of their misery Mose Lawyers delight in seeing their victims suffer It was the winter of 72 and 73 There was six Companions, and they were all well equipped with provisions. But in the snow they got lost from their Burros. Mr. Guyot in his letter says that it was the first time, and perhaps the last that a Lawyer was ever permitted to accompany a band of Prospectwaits till they go out and find it.
