

AROUND TOWN SIGHTS, FACES SEEN

Ernest Wade reports that, so far the finance committee of the Camp Fire Council has collected \$513, in individual contributions to swell the sadly depleted funds of the organization. The drive will extend throughout the week and anyone who wishes to contribute may contact Wade.

We can't let this go unmentioned. May 15 to 21 is (believe it or not) National Raisin Week. We wonder what happens to raisins during their moment of fame. Do they lose their sad and wrinkled expressions? Do they lose their worry looks and begin to smile again? And if they do, are they still raisins?

The La Plata Study Club announces they've collected some \$150 in contributions toward establishment of the nursery they have been planning. The money has come in from study clubs and personal contributions—and they are still accepting donations.

The end of school always brings a big change to the town. Kids that were forced to hibernate within the close confines of four walls and textbooks begin to spill out into the sunshine between 8 a. m. and 4 p. m. The school clubs quit sponsoring take sales and other money raising projects, and the drug stores are singularly empty in those after school hours.

Ah, the ingenuity of youth. William and Don Rice weren't at all perturbed by the flood that stretched the boundaries of Boardman Lake last week end. They inaugurated something new for Deaf Smith—a ferry service, yet. You could ride up one side of the road, ferry across and come back.

Lions To Institute Scholarship Fund

A member of the Hereford Lions Club, who wishes to remain anonymous, instituted a scholarship fund this week which may prove to be an annual project of the club. Because someone helped him, financially, to get a higher education, this local man wishes to help someone else in the same way. Though his debt was paid long ago in hard cash, he feels he owes a debt to human kindness.

And so a committee from the local Lions Club is selecting a high school senior this week who needs a little financial aid to get started in a college career. The student must be deserving—that is, he or she must desire a higher education, must be able to apply himself, must have ambition, and must have a good scholastic standing. Members of the committee will talk to the teachers about various students who are in line for the scholarship. They will check the students record, their participation in activities—in short they will conscientiously try to find the student most worthy.

Deposited in the bank is \$400 to cover the four years of a college course. Each year the scholarship winner will be given \$100 with which to pay tuition and initial fees. The committee from the Lions Club will aid the student in finding suitable work if it is necessary.

Selection of the college or school to attend and of the course to take is the student's own decision, whether it be business, nursing, education, agriculture, etc.

Representatives of the Lions Club said today that they hoped the Club would adopt the scholarship award as an annual project. The fund, they predicted, might serve as an incentive to students who dream of specialized training in a chosen field but have no hopes of securing it.

Legion Auxiliary Chooses Alma Faye Knox Blue Bonnet Girls State Representative

Miss Alma Faye Knox, high school junior, was chosen by the American Legion Auxiliary this week to be their representative at Blue Bonnet Girls State which convenes in Austin June 5 through 11. Miss Knox was chosen for her outstanding qualifications by a Legion Auxiliary committee from a group of six representative girls selected with the assistance of Superintendent George Graham.

This is the first time the local auxiliary has sent a representative to the Austin meet. At Blue Bonnet State the girls study government. They organize themselves into city, county, state and national governments under the American plan, electing their officials under a two-party system, setting up their rules and regulations, and functioning for as long as time allows. They also edit and publish a newspaper, go on a tour of the capitol and museum, have recreational activities and are given a reception at the governor's mansion.

Miss Knox, the daughter of Mr. and Mrs. Bill Knox, will be a senior next year. She sings in the high school Glee Club, and has for two years been a member of the Girls' Sextet. She served this year as Student Council representative from her class, and she worked on the annual staff. A member of the Tri Hi Y, she will serve as Song Leader of that group next year. Her favorite subjects, she says, are English and Glee Club.

Donna Stagner Alternate Chosen as alternate delegate was Miss Donna Jean Stagner, daughter of Mr. and Mrs. Owen Stagner, also a junior, who is active in school organizations and who presented outstanding qualifications for the honor.

A pie supper, beauty contest and baby contest will be sponsored by the American Legion Auxiliary on Monday evening at 8 o'clock in the High School Auditorium to raise funds for Miss Knox's expenses. The beauty contest is open to high school seniors, and the baby contest is open to children from the ages of one to six—they must be able to walk across the stage. Two prizes will be awarded in the

contest—one for boys and one for girls, and an award will be presented to the senior girl named "Miss Hereford" in the beauty contest. Each individual entering the contest must bring a pie or a cake in a fancy box, which will be sold at auction. Master of ceremonies will be Charlie Gibson of the Amarillo Times. Three Amarillo men will serve as judges.

'Volunteers For World Building' Is Baccalaureate Service Theme

Addressing the graduating class and their guests on the theme "Volunteers for World Building," Rev. Don Davidson of the First Methodist Church spoke at the Baccalaureate Services

Sunday night at the High School Auditorium. "We cannot live isolated in the world of today," said Rev. Davidson, "but people always have to make the choice between helping build a world for everyone and finding their corner of the world and fencing it off to settle down with their own selfish dream."

Rev. Davidson outlined the need of the world for Christian people in every profession and occupation, and the need for parents who could build a home and guide their children in successful living.

The 67 graduates of the Class of 1949 appeared in caps and gowns at this first service of Commencement Week. A capacity crowd of relatives and friends attended the service.

The high school stage was decorated with iris, the class flower, accented with greenery and peonies.

Final graduation services will be held Friday night at the High School Auditorium when the seniors will receive their diplomas and switch the tassel on their caps that distinguishes a graduating senior from a graduated alumnae.

Arch McMillan, head of the Journalism Department at Wayland College will deliver the Commencement address. The program is scheduled for 8 p. m. Tonight Junior High students will observe their Commencement program when Wayne Evans will deliver the main address of the evening, and salutatorian Jerry Witherspoon and valedictorian Margaret Sexton will give their talks for the class which next year will be High School freshmen.

Hand in hand with this plea, comes word from Harold Close, First Aid chairman of the Red Cross, that several people have asked about establishing another first aid course so that they may be ready to administer aid in case of a disaster. Such a course will be established in Hereford if there is a demand for it. Close said J. C. Reese and S. B. Berry have offered to conduct such a school, which is usually a 20 hour course conducted in ten 2-hour lessons. A minimum number of 10 students are required and anyone interested should notify Mrs. Brady at the Red Cross office so that plans for the course can be worked out.

Library Will Close Saturday Afternoons

Mrs. Jake Boydston, county librarian, announced the library will close on Saturday afternoons during the summer school vacation.

Beginning May 28 doors will close at 12 noon Saturday.

This is in accordance with the practice of all county offices of closing on Saturday afternoon, a practice which the library waived during the school term, because Saturday afternoon was the only opportunity many students had of using the facilities available there.

Mrs. Holman Sells Interest In Brand

Mrs. Seth B. Holman today announced sale of her interest in the Hereford Brand and Sunday, Brand to Jimmie Gilentine, who has been manager of the organization since 1939.

"It will be our policy to continue operation of the two papers as in the past," Gilentine said. "Thursday and Sunday editions will be published, and no changes in general operation are anticipated."

Mrs. Holman has been associated with The Brand since Oct. 1, 1918, when she and Mr. Holman moved from College Station to Hereford, except for a few years after they sold the newspaper to Nunn-Warren Publishing Company in June, 1929. In December, 1932, the Holmans moved to Amarillo, but in February, 1933, they took back The Brand, and returned to Hereford.

Following Mr. Holman's death July 20, 1933, Mrs. Holman took over active management of the newspaper and has since been closely associated with its operation. The Brand, then a six-page and eight-page weekly, has since grown into a large semi-weekly newspaper and is considered one of the outstanding small-town papers in the United States.

Mr. Gilentine became associated with The Brand on Feb. 15, 1937, and on July 1, 1939, purchased a half interest in the business from Mrs. Holman, serving as editor and manager.

"I still plan to make my home in Hereford," Mrs. Holman said, "and I will always be interested in The Brand. I want to thank everyone in the community who has been so nice, and especially the merchants who have always been cooperative and considerate. It has been a pleasure to work with you and for you—and I know that you will extend Mr. Gilentine the same consideration you have always shown me. If The Brand has helped to make Hereford and this territory a better place to live, I am indeed happy."

Disaster Crew Necessity Is Very Apparent

The tornadoes that have hopped over the Panhandle during the past few weeks pointed up the need for an effective disaster crew organization and for first aid instruction right here in Hereford, announced Mrs. Dyalitha Bradley, secretary of the Red Cross.

Emphasized by the tornado that struck Amarillo this week end, disaster relief was brought to the attention of conscientious Hereford citizens. There is a local disaster relief group which met and organized in October, but they have felt perhaps a few timely hints on better preparation and more efficient organization might have been emphasized by the recent events.

In view of that plan, the group will meet Thursday night at the Court House at 8 p. m. All members of the committee are especially urged to be present, and other interested citizens are invited to attend. Men who helped with the work in Amarillo or who have had experience in other stricken areas will give some hints on organization to promote the best work, should disaster hit Hereford.

Hand in hand with this plea, comes word from Harold Close, First Aid chairman of the Red Cross, that several people have asked about establishing another first aid course so that they may be ready to administer aid in case of a disaster.

Such a course will be established in Hereford if there is a demand for it. Close said J. C. Reese and S. B. Berry have offered to conduct such a school, which is usually a 20 hour course conducted in ten 2-hour lessons.

A minimum number of 10 students are required and anyone interested should notify Mrs. Brady at the Red Cross office so that plans for the course can be worked out.

Relatives of Hereford Families Escape Serious Injuries In Storm

The tornado that ripped through Amarillo Sunday evening leaving in its wake a path of death and destruction, brought responsive action from Hereford people. Many former Herefordites and relatives of Hereford people lived in the stricken area.

Mrs. Dyalitha Bradley, Red Cross head, said that soon after the news of the disaster reached here, she received a flood of

phone calls from people offering to help. They alerted a first aid crew and organized an ambulance corps, transforming a station wagon into an ambulance and first aid equipment, ready for service when called upon, but the Red Cross policy is for surrounding chapters to wait until they were not using all the local ambulances.

Jack Wilson and Vance Hannington answered the radio plea for people with pick-up trucks and search lights. They left Hereford about 10 p. m. and on arrival in Amarillo they were sent out to the Wineinger Dairy one of the first spots hit by the storm.

Demolished Dairy

Wilson said the place was

completely demolished, four or five buildings left in splinters. Their dairy barn, sheltering a herd of 200 cows, collapsed on until a direct call for help is issued.

About 1 a. m. Monday morning the crew called a halt to their work when Amarillo reported the stock and men were called to help clear the debris and free the animals, with saws, axes, etc.

Six people were injured out at the dairy, but no one was killed. Ten cows in the dairy herd were killed, when the barn collapsed. Wilson reported. Clearing work took all day Monday and the two men returned late Monday night.

Sheriff J. C. Reese, Police Chief F. S. Buckalew and Henry Sears left Sunday night for Amarillo to offer their assistance. Reese had been notified by short wave from Amarillo officers to stand by for assistance, but when the three men arrived there was little they could do, Sears reported.

The short wave report had been sent to Hereford via Roswell. Long distance telephone lines from Hereford to Amarillo went out during the storm and service was not restored until Tuesday, according to Mrs. Ruby Dobbs.

W. W. Hill's private airplane was in the hanger at Trade-wind's Airport, and was badly damaged when the high winds streaked through the airfield. No report was available as to whether the plane can be repaired or not.

Among the Hereford residents and former Hereford residents in the area, the only ones reported injured were the wife and child of Lynn Arnold Powelson, son of Lynn Powelson, former Hereford resident who now lives in Hot Springs.

Home Was Destroyed Mrs. Nels McRight, cousin of Lynn, said the Powelson home on Tyler was completely demolished, furniture, clothing and everything, destroyed. Mrs. Powelson and her young son had to be hospitalized for treatment, but have been released. Lynn Arnold is a nephew of Allan Powelson.

According to reports received by the Brand, when the Powelsons heard the storm coming, they crawled under the bed for protection. The wind blew the house right off its foundation and left the Powelsons and their baby, still holding hands for protection.

Mr. and Mrs. E. B. Honea, former Hereford residents, who live on Thirty Sixth Street had their home badly damaged in the storm, but neither was critically injured, according to Gerald Gollehon, who talked with Honea. Honea is the father of Mrs. Lynn Arnold Powelson.

The home of T. H. Weathered at 3817 Van Buren was hard hit by the winds, and almost every window in the house was shattered, reported Mrs. Jason Luck. Mrs. Weathered is the former Ctho Worley. They were (Continued on page 5)

? QUESTION ? of the WEEK

What does your husband do when he gets an unexpected bill at the end of the month?

Mrs. Jack Pickens: Goodness, all our bills are expected, so there's not much new at the end of the month. As far as going in and getting a new dress and charging it to Jack for him to pay at the end of the month, no siree. I tried it once, but never again.

Mrs. Marie Brittain: Most of our end-of-the-month bills are the usual utilities, etc. We don't run up many charge accounts, and so we don't have any of those unexpected notices. Guess I've been married too long for that.

Mrs. Frank Gyles: I really don't know what he does, because he gets his bills down at the mill and I get mine at home. He never gets excited about mine; you see, I have to pay them myself.

Mrs. E. J. Reynolds: We don't get many unexpected bills either. We like to pay as we go along, so we always know about what the expenses are, and at the end of the month we aren't in for many surprises.

Mrs. Ralph Hastings: Well, I'll tell you. I just destroy those bills. I write a check and Ralph never knows about it until the bank statement comes in at the end of the next month. Then he looks at the statement and says, "Hmmm, I thought I had more money in the bank than that."

Mrs. Homer Hamilton: I can't even remember what he says. Usually I get the bills and pay them, and I can't even remember what I say.

Farm-to-Market Road Hopes Soar

Deaf Smith's proposed farm-to-market road set-up got another enthusiastic push this week end when State Highway Commissioner DeWitt C. Greer promised the Hereford delegation his committee would give the group their specific attention and let them know in a couple of weeks just what the state could do.

Elevated hopes were not soaring too high, however, for the delegation was reminded of the stern fact that there are 14 other counties in the state who are also pleading for farm to market assistance, and they have to be answered, also.

What Deaf Smith had hoped for was a cut in the state allotment for the paving of main farm road arteries on the 75-25 per cent basis whereby the state pays 25 per cent of the costs and the county votes bond issues to pay for the other 75 per cent. Under this program the state assumes maintenance costs.

A county committee worked out a network of some 100 miles of roads which they believed would best serve the entire county. This map was presented to the commission, when they met in April.

At their May meeting, the Commission talked with the Hereford delegation for about two hours, and in conclusion, promised to let them know before long just how much state aid could be afforded the County in this project.

Attending the meeting Monday morning were A. J. Schroeter, Leonard Foster, J. C. Morrison, Ezra Norton and O. P. Cowart.

County Gets Hail Near Summerfield

Hail pelted Deaf Smith again early Sunday morning, skipping the northwestern part of the county where it hit before and landing in the southern part to tear up wheat crops around Summerfield.

Britt Clark reported the hail started about 2:30 a. m. Sunday morning and lasted for about fifteen minutes. It didn't fall fast, but it hailed hard, with king size stones pelting down.

He did not check the size of the hail stones at the time they fell, but five or six hours later he picked up three that measured two and three quarters and two and a half inches across. Clark's car was marked in the open and the sunshield was speckled with dents. A dent on one fender measured five and a half inches across. The insurance company estimated damage to the automobile at \$350.

Accompanying the hail was two inches of rainfall, but even that moisture won't help the quarter section patch of wheat that the hail laid flat. Clark said he had estimated it would have made 20 bushels an acre, but now it's a hundred per cent loss.

His vegetable garden was cut down, and a patch of onion laid flat.

Clark's place is two and a quarter miles west of Summerfield, and was the largest damage report turned in. Mr. Dodson, who lives on Bill Harris' place said they got "too much" hail out in that area of the county but didn't estimate the damage.

Two sections of wheat were reported lost on the O. E. Hefner place, but Lloyd Lookingbill said they had received a small amount of hail out his way, but not enough to do appreciable damage to the wheat.

Tommy Shott on the Perry McMinn place, reported hail damage to his house and automobile. The stones pounded holes in the roof of his home and window lights were broken out. His 36 Ford coupe had the headlights and windshield broken by hailstones.

Cal Brumley Purchases Half-Interest In Tullia Herald, Effective June First

Calvin Brumley has announced the purchase of a partnership interest in the Tullia Herald, buying out the interests of R. V. Miller. Effective June 1, Brumley will assume editorship of the Tullia weekly.

Negotiations on the contract were completed this week. Brumley's partner in the enterprise will be Willis Reynolds, shop foreman at the Tullia plant.

Miller, a former Hereford resident, purchased half interest in the Herald in partnership with Reynolds in 1938. He is tentatively planning to move to Colorado after June 1 and assume business interests there.

Brumley, 25, a graduate of Hereford High School and Texas A&M College is the son of Mr. and Mrs. Bonnie Brumley of Hereford. Following his graduation from college in February, 1945, he worked with the Amarillo News Globe for four years and in January of this year went to Dallas where he worked for several months with the Southwestern Associated Press Bureau.

MESSANGER NEWS

Hundreds of Acres of Wheat Damaged By Recent Hail Storms in Community

By MRS. BOB WYLY

Large hail stones accompanied by strong winds struck the Messenger Community about seven o'clock Friday evening, May 13, damaging hundreds of acres of wheat, much of it reported at a one hundred per cent loss. Both the E. M. Jack and the Bob Wyly farms suffered a total loss.

About 5 1/2 inches of rain fell in the community the past week. Hail damage was reported the first of last week by Elmer Northcutt, Harris Evans, T. J. Poindexter, W. H. Clements, Willy Poindexter, J. C. Northcutt, J. E. Rouse, Alta Wyly, and Porter Wyly.

Birthday Party

Little Wanda Northcutt was honored with a party on her fifth birthday recently at the home of her parents, Mr. and Mrs. Elmer Northcutt.

Refreshments of sandwiches, cake and pop were served to W. H. Larry, and Bryan Evans, Kay and Johnnie Northcutt, Joey Poindexter, Jackie Clark, Jerry Northcutt, and the honoree. Mothers present were Mesdames Ralph Northcutt, Johnny Northcutt, W. H. Evans, T. J. Poindexter, W. H. Clements and the hostess.

Mr. and Mrs. L. E. Beene and children visited relatives in Seminole and Lamesa over the week end and spent Mother's Day with Mrs. Beene's father and mother of Big Spring.

W. H. Clements underwent a tonsil operation last Friday in the Parmer County Hospital, and is reported recovering satisfactorily.

Mr. and Mrs. J. O. Purdy and son, Ira of Seagraves spent three days with her mother, Mrs. Alta Wyly, last week.

W. H. Evans, Jr., spent three days in the Parmer County Hospital last week receiving treatment for a fractured skull suffered when he fell out of a swing at school. The fracture was slight and he is expected to recover without complications.

Mr. and Mrs. J. O. Purdy, Mrs. Alta Wyly and Duane made a visit to San Jon, New Mexico, last Tuesday. They also visited in the W. H. Evans home.

Visiting in the W. H. Clements and T. J. Poindexter homes this week is Mrs. W. L. Clements of

on Friday, May 27. Testing pressure cooker gauges will be the demonstration of the day, and each member is reminded to bring her cooker if it needs testing. Any woman in the community, whether a member of the club or not, is invited to bring her cooker for testing. A small fee of ten cents will be charged for non-members of the club.

Kindergarten Picnic Marks End of School

Kindergarten pupils of Mrs. Carroll Whiteside met Friday morning for their last day of school, with a picnic the featured event of the morning.

Following rehearsal of their parts for the recital Sunday, the youngsters adjourned to the lawn at the Whiteside home to play games.

Refreshments of popsicles and punch were served to Judy Fowlkes, Butch McCaslin, Helen Sears, Troy Don Moore, Jimmy Reinauer, John Everett Whiteside, Sara Gillentine, Sally Whiteside, John Waldon Scott, Sandra Brumley, and Carol Pinckert.

The kindergarten pupils, to-

gether with the expression pupils of Mrs. Whiteside and the music pupils of Mrs. Bob Lawrence presented a recital Sunday afternoon at 2:30 at the First Baptist Church.

Rev. and Mrs. R. W. McCann of Houston visited from Thursday until Saturday in the W. A. Dobbins and W. B. Dowell homes. Mrs. McCann is a sister of Mrs. Dobbins.

Buddy Corbett, a freshman student at Texas A&M College and the son of Mr. and Mrs. Roger Corbett of Hereford was seriously injured Saturday night in an automobile collision which occurred in College Station. Corbett and several other boys were riding in the back of a pick-up truck, en route from town to their rooms in "the annex," a part of the college six or seven miles removed from the central plant, when the collision occurred, throwing the Hereford boy out onto the pavement. It is believed that Corbett was the most seriously injured in the wreck. Mr. and Mrs. Roger Corbett left here Sunday afternoon immediately after receiving a call from another son, Roger, Jr., also a student at A&M. First reports back here Monday morning were that the boy was believed to have a slight fracture, although he had not yet regained consciousness.

Warrick Hospitalized For Treatment Again

J. E. Warrick was re-admitted to Deaf Smith County Hospital Saturday night for treatment of a heart condition, after he was found by neighbors in the road near his home. He was removed to his home Tuesday.

Apparently he had been driving his pick-up and was returning to the house when the pick-up stalled. Mr. Warrick climbed from the vehicle and was making his way back to Eliza's Garage on the Dimmitt Highway, when he suffered the attack.

He was discovered by neighbors and brought to the hospital. His family is at his bedside.

in Santa Fe at the time of the disaster.

McCrarys Were Visiting

Mr. and Mrs. Jack McCrary were visiting friends and were not in their house on Tyler when the wind storm occurred. A porch was blown down, the roof and windows damaged. Mrs. McCrary is the former Evelyn Walker.

The home of Lawrence McGee in Amarillo was destroyed, according to reports. The McGees had just recently moved from that home to Hereford.

Mr. and Mrs. Frank Marrs and Mr. and Mrs. Dennis Barnard went on Sunday night to see about Mr. and Mrs. Frank O. Marrs who used to live here. The Marrs were not injured, although their home at 4011 South Tyler was ruined. The furniture was torn out, windows broken and porches demolished.

The Billie Robersons lived in the area hit by the tornado. They were in church when the disaster was announced, and chose to remain there with three of four other couples. They were safe in the building, although their home on Van Buren received some damage. Bill is the son of Mr. and Mrs. Jack Roberson, and his wife is the daughter of Mr. and Mrs. E. B. Posey.

Only Hail Damage

The home of Dr. and Mrs. Norman Harris, located in the Bivans addition, was not damaged by the tornado although the accompanying hail knocked off some of the surface tile on the home. Mrs. Elmer Gollehon reported the Harris family had spent the afternoon at Buffalo Lake and were just driving in on the highway about the time the storm occurred.

Mrs. R. G. Blue reported that her daughter, Mrs. Sam Jolly, who lives in Amarillo, had been down to Hereford to spend the day and was just returning home when the storm occurred. Mr. and Mrs. Jolly had taken their brother-in-law, Bill Bradley back to school at West Texas, and they believed that for the delay in Canyon, they would have been right along the highway in the disaster area when storm hit. Their home and their business in San Jacinto were not damaged.

The daughter of Mr. and Mrs. Walter London, now Mrs. Ted Myers, was visiting here with Mr. and Mrs. Walter London, Jr., when the storm hit Amarillo, but she reported on her return there was no damage to their home.

Mr. and Mrs. A. B. Christian and Marion Rutter were up to see Christian's mother and sister. Mrs. A. A. Christian lives at 109 West 39th Street. She was not injured although the awnings, roof, and window lights on her home were damaged. Trees in the yard were uprooted. His sister, Mrs. Carl Ince, at 3900 Polk, was not at home when the storm occurred. Her home, also, was damaged by the wind and hail.

The mother of O. T. Bailey, and Mrs. Abe Martin, Mrs. Mollie Bailey lives at 3811 Polk in Amarillo. She was in the house alone when the storm hit, but she was not injured. Windows were broken out of the house and the roof was damaged. Her son Fred, who lives near her, was in church with his family when the storm hit. It did considerable damage to his house, destroying the furniture, the porches, etc. reported Mrs. Boyd Knox who went up to help them. Mrs. A. H. Swigert, who has

two children in Amarillo, reported the storm missed the home of her daughter, Mrs. J. H. Sullivan at 1003 Lamar, but hit the home of her son, C. V. McCord at 4123 Hayden. The McCords were not at home so no one in the family was injured, but the garage was blown over, window lights broken out and other such destruction.

Mrs. Lowery Walker reported her mother, Mrs. C. E. Trimble, who lives at 3710 Tyler with her sister and family, Mr. and Mrs. R. T. Bailey, was not injured. The family were all at home when the storm occurred. Trees were torn out of the ground, window lights broken and several two by fours driven through the walls.

Former Herefordite Injured In Collision

Mrs. LaVerna Bane, the former Miss Lora Kibbe who resided in Hereford for many years, is reported to be recovering rapidly from injuries sustained in an automobile - bus accident near Stanfield, Oregon, recently, according to word received by Mr. and Mrs. Beryl Elliston from Mr. Bane.

The Banes live in Salt Lake City, Utah, where he is a member of the University of Utah faculty. Mrs. Bane was returning to Salt Lake City on the bus after visiting her daughter and son-in-law, Mr. and Mrs. Robert Larson, Vancouver, Washington. She is said to have had two small skull fractures, but will probably be released from the hospital Sunday or Monday.

Mrs. Bane is the sister of Mrs. W. A. Vaughn of Hereford. They are daughters of the late Mr. and Mrs. R. J. Kibbe, pioneer settlers of Deaf Smith county.

Mr. and Mrs. Jacques Stoltz of Lubbock arrived Wednesday to spend the latter part of the week visiting with Mr. and Mrs. Jerry Stoltz here.

Wheat Is In Less Cutworm Danger After Losing Thousands Of Acres

Too much rain and too much hail aren't the only worries of the wheat farmer this year. Cutworms and rust have given him some headaches, too.

Cutworms, that slashed into Deaf Smith County's wheat crops and gnawed off several thousand acres of the grain, have just about quit working, but the moths haven't flown yet, according to Wes Bradley of the Agriculture Conservation Office.

"Until they fly, wheat growers still might keep a look out on their crops," said Bradley.

Most of the several thousand acres that were lost to cutworms were out in the western part of the county, bordering on New Mexico land, and Faust Collier said the cross-state wheat was damaged more by cutworms than wheat in this county.

Several farmers used DDT spray in the hopes of killing the insects, but they didn't tackle it to the extent that New Mexico farmers employed the spray.

The effectiveness of such a spray is debatable, said Hugh Clearman, county agent. It's hard to judge its effectiveness because often farmers do not attack them as soon as they see them. They wait several days and then spray, but by this time, the worm has gone into its cocoon to emerge as a moth, and it wasn't the spray, but the state of development that put an end to the cutworm.

Some of the farmers who reported loss by cutworms were V. Ridley, Leo Gallagher, Mrs. Ruth P. Coleman and G. K. Horton.

The prevalent danger of wheat rust, that has haunted the farmer's nightmares since the siege of rain hit the county, finally reared its ugly head, Virgil Walker reported some rust in his wheat south of town.

His reports were of leaf rust, not stem rust. Clearman said leaf rust was not as damaging as stem rust, because stem rust sapped the food supply of the plant.

Race Track Doubles as Farm

"When they're not racing horses, they're raising crops at Miami's beautiful Hialeah Race Track. While the ponies thunder around northern tracks during their peak season, Hialeah is being planted with peas, okra, cucumbers, corn and watermelon. Here, workers distribute a covering of hay and fertilizer near the finish line. After the harvest, stalks and roots are chopped to a pulp and plowed into the strip."

Ceramic Art Club Installs New Kiln And Announce Schedule For Using It

Members of the Hereford Ceramic Art Club were interested by for baking ceramics. Installed last Sunday by the Witherspoon Electric Company, the kiln has its home in a small building located at the rear of the J. T. Gilkint, about 24 inches square, 12 inches on the inside, to be used the installation this week of a breath place on the corner of Lee and Fifth.

The fifty members of the club meet in two sections—each Saturday, in the morning at 10 o'clock and in the afternoon at 1:30 o'clock, to take instruction from Mrs. Helen Harrell of Borger. The kiln will be used everyday by the members.

Mrs. H. E. Wester was appointed to work out the schedule for baking. On Tuesdays and Wednesdays the kiln will be used for bisque bake, and on the other days of the week it will be used for glaze and gold bake.

Review of Projects During Year Reveals Considerable Progress

By PHYLIS RADOVICH

Rounding out a year of progress in civic improvements, educational facilities and recreational programs, Hereford's leaders can look back with pride over the things they have accomplished since May 19, 1948. One year ago plans were still in the paper stage for the hotel campaign, the Harrison Highway paving and the Golf Association. The school expansion program still had to be put to a vote, the street lighting program had just been inaugurated, and the Hereford Breeders' Association was organizing.

And now, twelve months later, the Hereford Hotel is under construction, the engineers are surveying Harrison preliminary to paving, the Golf Association plans to open the course in August, Shirley School is under construction, Hereford's "white way" gleams, and the Hereford Breeders have completed their first year of activity.

The May 20, 1948 Hereford Brand announced the bond issue for the school expansion program would be put to a vote June 12. Herefordites welcomed the chance to help alleviate the crowded conditions in the school system, build a new grade school and add rooms to the Central School.

By September, 1948, construction had been completed on the five room addition to Central School that provided a special annex for the oldest class of students, and the cement-floored play yard that filled the enclosure was ready for a year of hard use.

Right now workmen are busy with the Shirley School, the grade school located at the corner of Grand Avenue and Avenue H. Superintendent George Graham said the basements have been dug and the foundations run, the boilers are set, the fills are in and most of the major plumbing roughed in. Some of the outside walls are up and walls have been framed around the steel bucks.

The wet weather has stymied further activity for the time being and no concrete can be run, but the work is pretty well up to

schedule and Graham said they are still hoping it will be ready for use by September.

Highway Project
Last year another delegation had just returned from one of its numerous jaunts to Austin to see if the State Highway Department wouldn't concede the need for paving Harrison.

The visits paid off well, and this year engineers are busy surveying the road. At present they are drawing up deeds for the release of right of way, and are planning to begin paving of the 35 mile stretch along the road in autumn.

In May the Hereford Golfers' Association formed an Executive Committee to go out and get both plans and money for the stick-ball and walking enthusiasts. They have outlined the plans for the course.

Now they have outlined the course. Golf Pro Jim Terry said the nine hole course has been surveyed, the greens and tee boxes sowed, the water system installed, an 18 hole putting green and a driving range surveyed. The pro shop in the Club House has been established; counter, display and club racks have been built. The bridge has been constructed across the creek off number one tee box.

If things work out, mid August should see the course ready for playing. The opening date has been postponed month-by-month, due to repairs to the course necessitated by freakish weather or vandalism, Terry said.

Breeders' Association
The organizational meeting for the Hereford Breeders was held just a year ago and in the ensuing 12 months the charter members have been pursuing their policy of promoting Hereford cattle from Hereford, Texas.

They are planning a sale of registered stock, perhaps to be held in the fall, although no definite date has been set, according to Hugh Clearman, secretary. During the early spring they held a day-long tour that took breeders over the ranches of the members to check on the stock and stimulate interest in their own cattle.

The contract for the \$15,000

street lighting project had just been awarded last May but today the gay-white-way is no civic vision; it's a reality. City Commissioner J. C. McCracken said he believed the contract with the city had been fulfilled.

As of February, brighter, stronger lights blaze along Highway 60, Highway 51, Main Street, Third Street and Park Avenue, controlled by "magic eyes," and powered by two new large transformers, the lights were installed to replace inadequate street lights, increasing the power from the ineffective 1,000 lumen per light to 6,000.

Hereford Hotel
And the Hereford Hotel, spotlighted project into which the community threw its heart and soul, got off to a rousing start last May when the Executive Committee was appointed, and the money raising project was underway. Today the visible results of that months-long campaign are evident at the corner of Third and Sampson, where the foundation for the hotel has been poured. Workmen await arrival of the structural steel parts for the side walls, and dry weather to aid in putting them up.

Another visible result of the project is the architect's picture on review in the First National Bank. The colored print shows the proposed hotel, and how it would look if another floor were added in case extra rooms were needed by the growing community of Hereford.

That's a spot review of the progress of a town in which its residents have pride. It is not the complete story of a year's success, but the story of what happened to the major projects that were underway a year ago at this time.

First Lt. Bill A. Montgomery, grandson of Mr. and Mrs. J. W. Alexander, is among the more than 700 Air Force officers in the current class of the Air Tactical school at Tyndall Air Force Base in Panama City, Fla., according to an U. S. A. F. release received here Tuesday.

The course at the Air University lasts four months.

BACK OF HOME PLATE

By JERRY STOLTZ

Football is in the air over at West Texas State Buffalo and Spring training ends with a regulation game Friday night. Coach Kimbrough is dividing his 45-man squad into two teams and is looking forward to a real head-knocking regulation game. The public is invited. It starts at 8 o'clock and there will be no admission charge.

The ballyno says Kimbrough has ordered the signal callers to "use everything. Don't pull any punches. We've got to see who's who before we can settle on the line-ups."

Hereford softball seems to have "nad it". In other words all indications at present point to no softball league here this summer. It is too bad but from what I hear it wasn't panning out through the last of the 1948 season, and with the best of local players devoting full-time to baseball it has died.

Vega is proudly pointing at a huge scoreboard and new bleachers in their baseball park. The local field has plenty of seating capacity too.

No report on Central Plains league scores. Apparently everybody was rained out Sunday before last, and either that or it is too early to hear from them goes for last Sunday.

A good crowd turned out for the negro exhibition game Saturday night. Amarillo defeated the Kansas City Monarchs 8-4. Amarillo was billed as the Detroit Senators, etc.

Fisherman have really had a holiday through the past week. Just a few of those who were jerking them out in wholesale lots included Tom Garner and son Melvin who had five nice channel cat after a couple of hours of bank fishing Sunday afternoon. Monte Baker had

Creek Rise Covers Much of Course But Doesn't Affect Opening Date

Rampaging Tierra Blanca covered a lot of the golf course during the Sunday rise, but apparently damage is very slight to the course, according to Jim Terry, Club pro.

The creek was about 200 yards wide over number eight fairway and out to 100 to 150 yards in a couple of places. He reported greens one, two and five had streams of water running across them which probably carried out some of the seed just replanted after the hard rain a week previous.

He said he had talked with president Deward Roberson and they had decided to let the grass come on out and then reseed the washed out spots. Number three green was about half covered with water and it was lapping right up to number nine. Actual damage was to the

enough to feed six or seven families, they just couldn't seem to resist the hook he said. Oscar Altman, Clarence Schultz and Dennis Baker brought in a nice mess of channel cat and crappie. Jim Bob Allison and Robert Virgil were throwing back the little ones to give the big ones a chance and Bill Clutter, Mark Benfield and wives really hit it good.

As a matter of fact it didn't seem like the fish had a chance, a couple of local fishing equipment stores reported the "durndest run on fishing equipment in years." E. D. Zimmerman and Noel hooked several good sized channel cats from the bank with minnows. E. J. Reynolds was said to have caught a bunch, and I guess you could name half of Hereford if you had the space. The bass start biting pretty quick now.

Hall Beavers, Dr. John Chaner and Carol Whiteside fished at Conchas dam over the week end. They reported "good fishing." The week before Hall caught a 21 inch pike up there. Bruce Woodell, T. J. Clay, Dale Tinnan and Earl Prather made that trip.

VFW Battles Wind, Rain And Umbarger to Win Sunday 3-2

VFW evened up its Central Plains league record Sunday afternoon with a 3-2 victory over the Umbarger club on the Veteran's Park diamond.

Playing an abbreviated seven inning game, with both teams handicapped by strong winds and occasional sprinkles of rain, Hereford managed to take the lead in the second after both teams had scored once in the first. J. Brandt of Umbarger had scored an unearned run on a couple of errors and a fielder's choice. VFW followed suit with Carroll scoring on a walk, stolen base and passed ball.

Lueb rapped out a double to start the Hereford half of the second and scored on Turpin's single. A double play had stopped Umbarger in the first half of the inning.

Hereford scored again in the fourth, after Blue Turpin got on when Umbarger forced Harold Loerwald, at second. Turpin scored on Andy Anderson's single.

Umbarger scored their second run in the sixth, again without a hit. N. Brandt scored on a walk and a couple of errors.

Errors were numerous on the VFW side, adding up to eight during the afternoon. Most of these on throws to first which were difficult to handle because of the strong wind. Umbarger had one error.

SPORTS ODDITY

Hair styling is a major sports problem in Browning, Montana, thanks to the flowing braids of Earl Old Person, Blackfeet Indian star on the Browning high basketball team.

Earl likes his hair that way. Opposing players complain that the braids bounce around too much in play and declare a personal foul should be called any time one of the braids touches an opponent.

The rule book doesn't cover the subject of one player's hair (literal) getting into another player's (figurative).

"The Chautauque property man, Cecil Deleser and Miss Magdeline Wolfe, Junior Supervisor, arrived here Tuesday morning. The big tent is here and Mr. Deleser said he and his crew will begin operation Wednesday morning," announced the Brand for May 20, 1924. "First big performance of the Redpath-Horner Chautauque," continues the Brand, "will come next Saturday afternoon and evening, a concert by the Radio Entertainers for both afternoon and night, accompanied by 'The Merry Old Chief,' Leo Fitzpatrick, Mr. Elwood T. Bailey will lecture at the close of the night entertainment."

Three gold medals were presented last Friday night at high school graduation exercises, the Brand reports. Elmer Patterson received two—one for high honors in his class work, and the other for making the highest grades in spelling for the entire year. And Miss Emma Jean Donald received a gold medal for the second highest honors in the class.

A new business had just been established in town, according to the Brand. With R. D. Davidson and R. D. Norton as proprietors, the new confectionery was located across the street

Baylor's Official May Queen

Dr. C. D. Johnson places a crown on the head of Hester Curl, 19, brown-haired beauty from San Antonio, Texas, making her the official May Queen of Baylor University during the ceremonies at Waco, Texas, May 4. Previously Mrs. A. J. Mehaffey, Waco housewife, mother of two children and Baylor law student, was crowned May Queen also, thus giving the school an extra queen for its traditional play day. (AP Photo).

from the Star Theatre, and was named "Soda Pop-a." "The boys are making popcorn Crispettes," said the story, "and later will make homemade candy."

A couple of sports stories in this issue of the Brand report that "Thor Jensen, undefeated local champion, wrestled Charles Olsen, middle weight champion of Canada, to a draw here Saturday night" and that "The Hereford Golf Club won its first tournament on the local grounds with an outside team Sunday when they won eight out of four teen matches from the Hillcrest Golf Club of Amarillo."

Miss Bessie Walker of Hereford was one of the candidates in line for a degree from West Texas State College at the spring graduation exercises.

A review of a movie to show at the Star Theatre read: "She is too easy to hug to suit me. More than one modern youth has remarked this to another with reference to some young girl of his acquaintance, but not all of the flappers of today are

as fortunate as the screen heroine of "Flaming Youth," who chanced to overhear it and thereby profit by what she learned. Colleen Moore plays the heroine as Patricia Fentress in the first National film version of the movie. She capers from one calf love affair to another until the dropping of the remark in her unsuspected presence puts a new twist in the plot. After that she is not quite so 'easy to hug' and a genuine 100 proof romance pops into her amazing career. "Flaming Youth" with an all-star cast is described as the most interesting photodrama of this age of jazz yet brought to the screen."

Local items from the Frio-Easter Community include: "Misses Lattie and Della Stagner, Eva Zelma, Maurine Sullenger, Dora Smith and Mr. Jesse Laughlin attended a party at the Flag Ranch, Friday night." "Louise Ann and Caroline Frye visited last Friday with Inez and Ruth Easter. The day was spent in plucking wild flowers and baking 'mud pies.'"

And personal items included: "Mrs. Cliff Estes and little son left Saturday morning for Pilot Point, Texas." "Mrs. L. P. Landrum and daughter, Frances, went to Amarillo Saturday morning to visit Mr. Landrum." "Mrs. W. J. Todd left Monday morning for her home in Canadian." "Mr. and Mrs. D. C. Laird and two sons of Plainview arrived here Saturday evening to be with Mr. and Mrs. Seth B. Holman." "Mrs. Ralph Barnett and little daughter, Virginia, left Tuesday morning for Memphis and Wichita Falls."

Seven women from the St. Anthony's Church attended the Amarillo District Council of Catholic Women held in Dalhart on May 5. They were Mrs. Frank Brinkman, Mrs. Ed Loerwald, Mrs. Gene Patzold, Mrs. Lester Wagner, Mrs. E. N. Johnson, Mrs. Leo Hoffman. Lunch was served to the group at the Rangers Club.

Mr. and Mrs. Bill Howard were the houseguests of Cl o v i s friends Saturday and Sunday. They visited with Mr. and Mrs. H. C. Rodgers.

Club Members Explain 'Handy Gadgets' For Roll Call Answers

Members of the Sims Home Demonstration Club met for a regular meeting last week in the home of Mrs. Homer Brooks. Each member brought a "handy gadget" which she explained during roll call.

Mrs. Tom Draper, CHDA, gave a demonstration of food spoilage, and a demonstration on correct use and hanging of pictures and mirrors. Club members voted a gift of \$1.50 to go to the 4-H club.

A demonstration on the testing of pressure cooker gauges will be presented May 21 at the home of Mrs. Roscoe Pinnell.

Attending the meeting were Mesdames Donald Guseman, Glen Hetzler, Cord Hammock, Edd Thomas, G. A. Ferguson, Marion Ferguson, C. W. Edwards, E. A. Edwards, N. W. Blankenship, Orville Gronerman; Zerrell Thomas, Roscoe Pinnell, Greshman, a new member, Mrs. A. N. Gamble, a visitor and the hostess.

A crowd of Hereford people visited in Hot Springs for some vacation fishing and recreation this week. Included in the groups were Mr. and Mrs. Jim Black, Mr. and Mrs. Reed Williams, and Mr. and Mrs. Cecil Gunter.

You can See it!

Compare Ford's new styling. The New York Fashion Academy judged it "Fashion Car of '49." See upholstery you'd welcome in your living room. See a really new power plant. (Ford alone offers you choice of 100 "horse" V-8 engine or 95 "horse" Six.)

You can Feel it!

Feel how much smoother you ride "Mid Ship" between wheels, not over them. Feel how Ford's new "Hydro-Coil" and "Para-Flex" Springs blot out bumps. Feel the new "Magic Action" of fully self-energizing brakes. Only Ford in its field offers you their 35% easier stops. And only Ford offers you the new 59% more rigid "LifeGuard" Body and box-section frame that has five full cross members.

 Come in!... See why the New Hudson is America's "4-MOST" car!
 1 MOST BEAUTIFUL Voted by millions—"America's most beautiful car!" A low build is the basis for modern beauty, and the New Hudson, with "step-down" design, is lowest of all—yet there's full road clearance. Its stunning lines flow naturally, even to the graceful curves of its Full-View windshield.
 2 MOST ROOMY Not just "more" roomy, but the most seating room in any mass-produced car, the most efficient use of interior space. Amazing head room, leg room to spare. You enjoy the most riding comfort—ahead of rear wheels, within the base frame, down where riding is most smooth, most relaxing.
 3 MOST ROAD-WORTHY Not just "more", but most road-worthy! Only Hudson, with exclusive "step-down" design and recessed floor, achieves a new, lower center of gravity—lowest in any stock car. Result: safest, steadiest ride ever known! To all this, Hudson adds the advantages of unit body-and-frame construction.
 4 MOST ALL-ROUND PERFORMANCE Your choice of the high-compression Hudson Super-Six engine, America's most powerful Six, or the even more powerful Super-Eight. Center-Point Steering for easiest handling. Triple-Safe Brakes for utmost safety. And many more high-performance, low-keep features.

The Swish Of The Tail

Well, here it is another and the last week of school until next September. Everyone is running around like chickens with their heads cut off. This week nearly all the school has a part in the paper.

I tell you what let's do, let's make a general survey of the school year. First, we'll take the teachers. They have put up with us for the last nine months. Considering all that has taken place, they have been a swell bunch and I believe that everyone in school will always remember them and the fun they had this year. If everyone can't leave school this year and say he's proud of the way it began, the way it was run, and the way it ended, he ought to be kicked, because everyone has had a good time and the teachers have been wonderful.

Now we'll continue on with the organizations: The Pep Club and the Band worked marvelously together during football season, thanks to Mr. Williams and Mrs. Little. The Hi Y and Tri Hi Y have helped many boys and girls in leading a better life. Miss Rigler and Mr. Cogdill have done wonderful jobs. The Glee Club has worked hard all year and given a number of good programs in various places, they never could have done this without the undying help of Miss McMin. The Annual and Paper Staffs have performed a most stupendous job. Our paper has never failed us and our annuals are just beautiful. Mrs. Criswell and Mr. Smith—we thank you deeply. The F. H. A. and the H. F. A. have worked wonderfully together to improve our school and each of his homes. The Student Council has kept our Assemblies going and we are proud of them.

Now we come to the janitor—Mr. Brock. He has done an untiring job to keep our school clean, warm, and peaceful. He has made the rooms comfortable and pleasant to be in. We are proudest of him and his faith in our high school. Mr. Brock, we thank you and will remember you forever.

Now, at last we come to the students. The Student Body of Hereford High School has been the most cooperative and happy group of students I've ever seen. Here are a few of the personal ideas of theirs about how this school year has appeared to them.

Joyce Potter—strict but O. K. Claudia Lewis—pretty lenient if I say so. Patsy Wiltshire—SUPER. Bobby N. Pitman—I'm not gonna say. Ronny Durham—doing best job ever. Audrey Hood—Spirit could be better, but it's been fun. Jo Ann Witherspoon—better cooperation between students and faculty.

Faye Knox—I've enjoyed it more than ever before and I hate to see the day come when I have to graduate. Susie Rogers—I've had fun. Leta Dene Springer—I've definitely enjoyed it. Emma Jane Brown—I've had a wonderful time. Sallie Womble—Sure, I've had a good time. Billie Stevens—Been most wonderful year of all. Martha Thomas—Enjoyed it very much. Gayle Foster—Everything's been wonderful. Evelyn Lee—Beginning to dread my senior year and I've had loads of fun. Wiley Ewton—Just another

year gone by. Carl French—Just another year.

Mary Nell Cassells—Had loads of fun and enjoyed it. Doris J. Smith—More fun than I've ever had. Bobby Jane Sisk—Gobs of fun, been wonderful.

Brack Daniel—Could be worse. Robert Bateman—Rather fair or something like that. Inez Tucker—Meant everything to me. All my dreams put into one.

Bob Johnson—It's something to do between eatin' and sleepin'. Leo Henington—I refuse to answer. John Newsome—It's one of the Twelve years I've looked forward to.

Geraldine Knabe—It's affected me more than any year in High School. Clara Stengel—I've enjoyed it lots.

Glenn Hopson—Had a good time most of the time. Dwight Wilson—Made me happy by getting out. Clede F. Dow—I like H.H.S. better than any school I've been to. I like the teachers, students and that is really what counts.

Eariena Phillips—One of the most wonderful years in H. H. S. Mr. Sullivan—Lot of work, lots of fun, one more year and less hair.

Mr. Martin—Most of it I've enjoyed, but there has been some rough spots. All in all I'm very proud of it. Mr. Smith—It's been okay. Mr. Groom—Very good school year and things have run pretty smooth.

Mr. Cogdill—Very successful. I hope that the next person who has this article will enjoy it as much as I have. I would like it to remain the same with the same name.

IN APPRECIATION

The Seniors of Hereford High School have enjoyed their last year of high school. To all of those who have helped us, we are grateful. To Mr. Graham and Mr. Martin, our sponsors, and to all of the faculty we thank you. To the juniors and their sponsors we wish to say that the banquet was very nice. We can't enumerate all of the various things but to everyone who has helped make this year pleasant, we express our appreciation for your help. We'll always remember you.

SCHOOL DAZE School days are happy days. Many a pupil gives the teacher an education. What teachers tell a pupil goes in one year And out the other.

Our Last Words

—The Whiteface Staff Dear Readers (if there have been any):

To the Staff: As your editor, I would like to say I have certainly enjoyed working with you. I couldn't have asked for a better bunch

of people to work with. You have been very nice and cooperative, and I appreciate it. To all of you, I wish every success in life, and to Mr. Smith and the paper staff of next year, I hope you have a very good paper. I'll never forget any of you or the fun we had putting out the paper.

Jane Welch

I want to say a few words about the "Whiteface" and its staff. I have had wonderful people to work with and as a team, I hope, we have given you the things that you want to know and read about. Never have I had more fun in any undertaking. I have enjoyed bringing to you the few little items that I could.

Now we are ready to turn this paper over to a new staff for the coming year and I know it will be a good staff, paper and year. Goodbye, and thanks for reading my features.

Love, Gertrude Betzen

I think this has been a wonderful year for the paper staff. It has been so much fun getting the articles ready to send to the Brand. We have had a very fine sponsor this year and I am sure his efforts have made the paper what it is. I have really enjoyed working on the staff and I want to wish all the success in the world to the next year's staff.

Mary E. Hund

I have enjoyed very much working on the paper with the rest of the staff. The staff has really worked together and I think it has been a nice paper.

Orene Duggan

It has been fun working on the paper staff this year. The entire staff has cooperated in turning out the paper. Here is wishing next year's staff lots of success.

Virginia Green

I have enjoyed working on the paper staff very much. We have had a wonderful editor and sponsor and a wonderful staff to work with. I only regret that I couldn't devote more time to the "Whiteface".

Evelyn Ford

Working on the paper staff has meant as much and more to me than any other undertaking. I have enjoyed being with the staff and making friends with them.

Lola Faye Brunson

Well, Hello There: Yes, it has been fun and I am sure going to miss "you-all." I would like to take this time to say—I wish for you all a very happy life. Seniors, "good-bye and be good;" Juniors, "Make swell seniors;" Sophomores, "Keep that wonderful spirit;" Freshmen, "Keep that eagerness;" Jr. High, "Keep working and you will be in high school before you know it;" Freshmen (to be), "You'll love high school."

Luck and love. Bettie Jo Carnahan (K. I. A.)

Working on the paper staff has been an opportunity to get to know the teachers and the students in school better. I hope the staff next year has as much fun as we have had.

Caren Conklin

Being able to put out such an important feature as "The Whiteface" has been one of my greatest thrills of H. H. S. I have sincerely enjoyed working with all the staff and with our fine sponsor, Mr. Joe Smith. Each Thursday next year, I will be thinking of H. H. S. and wishing I were here to help put out the "Whiteface".

Good luck and much success to next year's staff. Inez Tucker

I have had a lot of fun working on the paper and I think we have had the best editors and sponsor possible. I hope the next year's paper staff will have an even better paper than we have had.

Rose Stephan

I have enjoyed working on the paper staff very much this year. We have had a fine spon-

Poll of Students Opinions Sums Up Importance of High School Life

Question: What has High School meant to you?

Orene Duggan: It has meant preparing for the future, knowing kids, and getting a diploma. I will really miss all the teachers and kids.

Junior McGee: In Hereford High I have made many good friends. This is one thing I consider important. To me High School is an important part in life.

Cleda Faye Dow: I have enjoyed my years here in Hereford High and I hate to leave all of my friends.

Edwin Plummer: It has meant a place for opportunities of all kinds. It has helped me in associating with other people and it has been lots of fun and worry.

Virginia Green: High school has meant a good education and lots of fun to me.

Robert Betzen: Typewriters, Mr. Sullivan, lots of fun with a little work.

Rose Stephan: It has meant more friends, a wonderfully good time, and I have learned a little bit.

Johnny Cokerham: Lots of enjoyment and association with swell people.

Caren Conklin: High school was a time I looked forward to from the time I started to school. It has been a time of enjoyable companionship as well as a time in which I tried to increase my knowledge.

Truman Price: It has been one of the greatest things that has happened to me. It has helped me get an education and still have lots of fun. It has helped me in so many ways I can't count them.

Gertrude Betzen: The happiest four years of my life with a little work and a lot of play.

John Newsom: It has meant four of my eleven years of school. It has been a lot of fun, but I'm ready to graduate.

Evelyn Ford: High school has meant preparation for my future career. Also it has meant a very enjoyable four years that I wouldn't have missed for the world.

Billy Moore: It meant a lot of work to get an education. A place where I could have fun and meet lots of friends.

Naoma Carter: Four of the happiest years of my life. I wouldn't take anything for them, but I wouldn't want to go through them again.

Billy Martin: It has meant a lot of hard study and work, although I am not sure just how much I have learned. It has given me a chance for a higher education, but all in all I have really enjoyed it and had a lot of fun, especially this last year.

Elaine Cox: I have had a wonderful opportunity to get an education and to succeed in life.

Danny McLallen: To me High School has the deepest meaning of any institution. I remember

and I think the staff next year will put out a paper just as good.

Naoma Carter

More fun! Sometimes I wish I were going to be a roving reporter, but Miss Rigler hopes I'm not. I have really enjoyed working with the staff and Mr. Smith. I have learned a lot more than I would have otherwise. Good luck to the staff of 1949-'50.

Dorothy Lee

I promise I will quit asking questions after this, our last edition, is published. Thanks to everyone for your cooperation and it has been a lot of fun. I'm wishing success to the staff and sponsor next year.

Sallie Womble

Trying to put a bit of humor in the paper with my jokes, has really been a lot of fun. I hope the staff next year gets as much out of it as I did and has as sweet a sponsor as we did.

Billie Stevens

One job that has been more fun than work to me has been getting the inside dope on the senior personalities. I hope the person who takes over my job next year enjoys it as much as I have.

Doris Jean Smith

My article, "The Swish of the Tail," has given me something to do and I have enjoyed working on it tremendously. I hope next year that the person who succeeds me will enjoy it half as much as I have.

Good-bye and good luck. Pat Longbottom (E. A. E.)

I've really enjoyed working on the staff this year and I've learned a lot under the work of Mr. Smith. Pat Corbett.

English, Mr. Sullivan, and the annual.

Mary E. Hund: Higher education and a lot of fun.

Glenn Hopson: Most of the time it has been great, but I really have enjoyed all of it.

Lola Faye Brunson: High School has meant the world to me, all the fun, all the sorrows, but most of all, all the joys anyone ever had.

M. J. Layman: School has meant the good fellowship of classmates and the place where I got the knowledge needed to be a success in the world.

Clara Stengel: School has meant the making of many friends and learning things that will be helpful to me.

Lawrence Owen: High school has meant a place to be with kids and have a lot of fun as well as receive some education.

Emma Jane Brown: It has meant my dreams, my hopes, my wishes. It has been the most wonderful years in my life.

Johnny Jesko: It has meant being around my friends and learning new things through my studies.

Inez Tucker: High school has been the fulfillment of all my dreams. It has been the most fun I have ever had and I certainly hate to leave.

Nely Kimbrough: It has given me a chance to participate in athletics, and other organizations. These things have made me many friends that I will never forget.

Mary K. Carroll: High school has been my whole life. I've made friends and met many new kids. High school has meant everything to me and I hate to leave.

Dwight Wilson: It has meant a lot of fun and companionship. Also I believe that I have learned something.

Dorothy Lee: My five years of high school have meant more to me than words can express.

Grady Poff: A chance for a better standard of living.

Martha Thomas: High school has been the happiest period of my life so far. I have never had so much fun, before.

Lewis Hembree: It has meant fun, happiness, and a preparation for a bright future.

Doris Jean Smith: High school to me has been fun and hard work rolled into one. It has all passed too quickly and this last year will always be one that is unforgettable.

Eugene Collier: It has meant a lot of hard work, much grief, more enjoyment, and a great privilege.

Susie Rogers: I wanted to hurry and get out, but now that the time is here I dread it. I know that these four years will be the most wonderful years. I wouldn't trade Hereford High School for any school in the world.

John Sudduth: It has meant that I have had a lot of fun and learned a little bit.

Mary J. Pickens: To me, high school has meant a higher education, loads of fun, and horrible studies.

Dale Barkley: High school has meant a growing of friendship with the students and teachers and it has meant a background for the future, which every one needs.

Joyce Moore: High school has meant studying, along with pleasure, the making of new friends and getting an education. It has been half of my life and I wouldn't take anything for it.

Robert Bateman: It has meant happiness and a lot of memories and the starting of my higher education.

Pat Longbottom: High School has meant everything I ever dreamed of. The hard four years just flew by and now I can begin to realize how much it really has meant to me. I would ad-

vice everyone to grasp everything now because the day will come when you will regret every minute you missed.

Conrad Clark: High school has meant being among my friends. It gives you a chance to improve your personality and a chance to become someone in the world.

Billie Stevens: My high school years have been the most wonderful years of my life.

Doyle Cox: High school has meant a lot to me. It has been filled with great joys and some heart aches. I wouldn't take anything for my high school.

Marilyn Henderson: A wonderful life full of joy and happiness. I shall never forget the grand friends I have known here and shall miss them very much.

James Hutson: It has meant a lot of fun and studying which in years to come I know will help me and also it holds a lot of very pleasant memories.

Betty Smith: It has meant so many things that I couldn't possibly list them all. It has been the four happiest years of my life because I have made some friends I wouldn't take the world for. Also I have learned something even though it wasn't spelling. H. H. S. is just wonderful.

Bob Johnson: It has meant a lot to me this year. I've had to work hard but maybe it did me some good. All in all I guess it has been a year.

Leo Henington: High school has meant everything to me. I have never had as much fun as

I did playing football and running in track. I have made many friends that I'll never forget. I am proud to be able to graduate from this school and I only hope every other student has as good a time in the future in this school as I have had.

Jane Welch: In the first place it has meant the furthering of my education. Then it has meant the making of many wonderful friends and wonderful experiences, memories of which I'll never forget.

Sallie Womble: To me it has been an experience worth going

through. My memories of high school are truly wonderful. I am proud to be graduating from Hereford High School.

Betty Ruth Cawthon: To me school has meant a higher education, having lots of fun and being associated with all the teachers and students. I have certainly enjoyed it all.

WHITEFACE NEWS

Are You Acquainted With Yourself?

Many an individual finds himself graduated from high school much too soon. He has his diploma and a transcript with plenty of good grades on it. He leaves home and what happens? In the spring many students are graduating. Some who are not, are going away to work. Do these people know what they are going to do and what they are capable of doing? Consider yourself a graduate. Ask yourself these questions. Do I use my energies? Can I meet my failures away from home without my parents' advice? Do I keep fit physically and spiritually? Do I have good habits? Can I support myself? Do I have a purpose in life? Just as in making a trip on a train, one should know his destination, so will you need to know what your destination is like. Experience will probably change your ideals but all ideals should develop progressively. Discover your possibilities and have the courage to make them over into the person you want to be. I dare you to be your ideal.

Parting Charge To Juniors

Dear Juniors:

We, the seniors of 1949, salute you who are soon to take our places. You have an extremely difficult role, but do not be disturbed. We want to assure you that if you will dig a little harder, if you will endeavor to learn a little faster, if you will put more time on your school work, if you will improve your deportment, if you will work up more class pep and school spirit, if you will develop greater executive ability, if you will cut out idleness and frivolity, if you will increase your oratorical powers, if you will broaden your athletic propensities—in short if you will try to be a little more like US, we feel confident you will fill our places in quite a creditable manner.

Just a word of warning—don't imagine you can put anything over on the faculty; that you can hood-wink them or get by without studying. You can't do it; we tried and we know whereof we speak! So study so that when you graduate, your head will be filled with common sense, horse sense, book sense, etc. Then you will be equipped to fill your pocket book with cents and meet life in general.

With best parting wishes we leave you saying we love you and remember our motto, "To be rather than to seem!"

As Ever,
The Seniors

JUNIOR HIGH NEWS

As this will be the last paper of the year, Junior High News will present a review of the last semester.

The new students at Junior High since the first of the second semester are Hubert Godfrey, Margie Osburn, Jo Nell Hilton, Beverly Hamilton, Fred Roseberry, Kenneth Hamilton, Olan Reese, Retha Jo Godfrey, Ismal Games, Isas Games, Oma Ruth Thompson, Jean Jones, Charles Quattlebaum, La Dean Adams, Claudia Stone, Mary Stone, Douglas Wayne Tuck, Maxine Norton, Barbara Jeter, Franklin Boyce, Gloria Nell Jacobs, Peggy Jacobs, Dean Garrett, and Mary Ann Garrett.

The Junior High students were all very proud of Richard Tucker when he won second place in the Spelling Bee at Amarillo this year.

The eighth grade banquet was held on Thursday, April 14.

The eighth grade commencement exercises will be held on Thursday, May 19 at the High School auditorium.

Junior High exams will take place Tuesday and Wednesday, May 17 and 18.

played in Ebbets Field in the Flatbush. Inning after inning went by and still Johnny mowed them down. He was wild but fast, awful fast.

The fans of Brooklyn started yelling for him because there had never been anyone ever in baseball to pitch two no-hitters in a row. In the ninth he retired Buddy Hassett to open the inning. But then the pressure got the best of him. He walked three men to load the bases. There was then a soft fly to center and a force at home and the game was over and the 23 kid had done it. He'd pitched two no-hit, no-run games in a row. Boy, did this fix those Bums from Brooklyn.

LAUGHS

FIRST ATTEMPT

He: "Who spilled mustard on this waffle, dear?"
She: "Oh John! How could you? This is lemon pie."

STOVEPIPE

Teacher: "Can anyone tell me how a stovepipe is made?"
Johnny: "First you take a big hole, and then you wrap some tin around it."

HEADS OR TAILS

The teacher was testing the knowledge of the kindergarten class. Slapping a half dollar on the desk, she said sharply, "What is that?"
Instantly a voice from the rear of the row said, "Tails."

JUST ONE

Mother to little girl who had been sent to the hen house for eggs: "Well, dear, were there no eggs?"
Little girl: "No mummy, only the one the hen uses for a pattern."

Mother: "Your face is clean, but how'd you get your hands so dirty?"
Small son: "Washin' my face."

"Pa, may I ask a question?"
"Certainly, my child."
"Well, where is the wind when it doesn't blow?"

CUT OUT

Little Ethel: "Don't you like to play with paper dolls any more?"
Little Willie: "No, I cut them out long ago."

Little Willie had gone to bring the kittens in. His father, hearing a shrill meowing, called out: "Don't hurt the kittens, Willie!"
"Oh, no," said Willie, "I'm carrying them very carefully by the stems."

ROUND AND ROUND

"Do you remember when we met in the revolving door?"
"Goodness, yes. That was when

we started going around together, wasn't it?"

Bride: "I made this pudding all by myself."
Hubby: "Splendid. But who helped you lift it out of the oven?"

THE SUCCESS FAMILY

The father of Success is work. The mother of Success is ambition. The oldest son is Common Sense. Some of the other boys are: Perseverance, Honesty, Toughness, Foresight, Enthusiasm, and Cooperation. The oldest daughter is Character. Some of the sisters are: Cheerfulness, Loyalty, Care, Courtesy, Economy, Sincerity, and Harmony. The baby is Opportunity. Get acquainted with the "Old Man" and you will be able to get along pretty well with the rest of the family.

RECIPES

To Preserve Children:
Take one large grassy field, one-half dozen children, two or three small dogs, a pinch of brook and some pebbles. Mix the children and dogs well together and put them in the field, stirring constantly. Pour the brook over the pebbles; sprinkle the field with flowers; spread over all a deep blue sky and bake in the hot sun. When brown, remove and set to cool in the bathtub.

To Preserve a Husband:
Be careful in your selection. Do not choose too young. When once selected give your entire thought to preparation for domestic use. Some insist on keeping in hot water. This makes them sour, hard and sometimes bitter. Even poor varieties may be made sweet, tender and good by garnishing them with love and seasoned with kisses. Wrap them in a mantle of charity. Keep warm with a steady fire of domestic devotion and serve with peaches and cream. Thus prepared they will keep for years.

WHO SAID WORK

Every year has 365 days. If you sleep 8 hours a day it equals 122 days. This leaves 243 days. If you rest 8 hours a day it equals 122 days. This leaves 121 days. There are 52 Sundays. This leaves 69 days. If you have one-half holiday Saturday, it equals 26 days. This leaves 43 days. If you have 1 1/2 hours for lunch it equals 28 days. This leaves 15 days. Two weeks vacation equals 14 days which leaves on 1 day. This one day remaining being Labor Day, no one works!

TriHi-Y Members Have Final Meet; Enjoy Social Hour

The Tri-Hi-Y held its last meeting for 1949 on Tuesday, May 10.

Donna Jean Stagner opened the program by playing "Perfect Day." Jane Welch then led the group in singing several songs. The devotional, Proverbs 14: 1-21, was given by Gayle Foster after which Emmarie Turner led the group in prayer. Songs selected by the group were sung.

The business meeting was then conducted. The officers for next year are: President, Earlena Phillips; Vice-president, Nan Buckner; secretary - treasurer, Barbara Smith; reporter, Patsy Wiltshire; pianist, Donna Jean Stagner; song leader, Alma Faye Knox. A discussion of such questions as, "What Tri Hi Y has meant to me," was held.

After the regular Tri Hi Y Benediction a fellowship hour was held.

Refreshments were served with multi-colored napkins and consisted of ice cream "Dixie cups" and chocolate cake.

"He done me wrong," wailed the algebra problem as the freshman handed in his math paper.

Brains And Eggs Pack Nourishment And Flavor In An Appetizing Menu

Plentiful products, perfect partners; brains and eggs furnish appetizing food for May, giving point to the phrase, it's delicious to be thrifty. Timely brains and eggs provide a dinner that packs flavor and nourishment and when teamed with oranges and onions sliced thin and arranged on lettuce, needs nothing else for delectation.

Mrs. Glenn Snyder uses this recipe for scalloped brains often. She got it from the late Mrs. W. F. Gabbert, a former Hereford resident who excelled in Southern cooking and who considered it her prize recipe.

- Scalloped Brains**
 1 lb. calf brains
 4 hard boiled eggs
 1 cup cracker crumbs
 2 tablespoons butter
 1/2 cup top milk
 salt and pepper
- Prepare brains by soaking one hour in cold water. Cook 15 to 30 minutes in gently boiling water to which has been added a little salt, and one teaspoon of vinegar. Remove membrane and cut into small pieces. Place half of the brains in buttered baking dish and cover with layer of half the chopped eggs and then a layer of cracker crumbs, roll-

Brother And Sister Have Say So At DU

The son and daughter of Mr. and Mrs. J. M. French, 210 E. 6th St., will have a large say in the student affairs of the University of Denver next year.

Miss Linnea French is elected vice-president of the student body of the college of business administration at the Colorado school in an election this week in which her brother, Doyle, was chosen Interscholar Council representative from the same college. Linnea is studying secretarial science while Doyle is majoring in marketing and salesmanship.

Linnea received additional honors last week when she was chosen as one of the underclass princesses in the traditional May festival.

Eggs and canned corn are expected to be in plentiful supply in Texas during May.

A girl may wear a golf outfit when she can't play golf, and a bathing suit when she can't swim, but when she puts on a wedding gown she knows what she's doing.

About the most discouraged person we've ever seen was the fellow who had written a long overdue letter, and then lost it before getting it mailed.

Lecture Features Camera Club Meet M. L. Simpson Wins Photo Contest

The ordinary camera fan can develop his own negatives and print his own pictures at home for a nominal cost, and thus increase his interest in making pictures, said Bill Patton when he discussed dark room equipment for the Camera Club at their meeting Thursday night, in the Beta Eta Room at the Court House.

Basic equipment for developing negatives can be assembled for under ten dollars. Packaged equipment in the ABC developing kits, for the amateur photographer, costs about eight or nine dollars and includes even the safety light.

All one really needs is a set of three trays, a developing tank and a contact printer that may be a simple print frame to hold the negative and the paper with an ordinary light bulb for contact, said Patton.

Chemicals are reasonably expensive. The beginner needs only the developer, fix, and wash-water. Printing paper, which may also be purchased right here in town, costs about 30 or 35 cents for a box of 25 sheets.
