HEREFORD, DEAF SMITH COUNTY, TEXAS, JANUARY 10, 1902

\$1.50 PER YEAR

College Investment

محرر
محرر

The Hereford College will soon be an assured fact. In our last list of donations published in the issue of December 6, 1901, there were donations, or, more properly speaking, cash investments, made to the amount of \$2550. Since that time there has been added \$1580 to the amount already subscribed.

The increased business of our merchant solicitors caused by the holiday trade has interfered somewhat with their college fund solicitation work, but that they have not been idle will be seen by the following additions to the former list:

| | |
|----------------------|-------|
| J. S. Wyche..... | \$ 30 |
| O. F. Smith..... | 10 |
| E. W. Tinsley..... | 25 |
| C. L. Bounds..... | 25 |
| Beach & Orr..... | 50 |
| R. H. Gough..... | 50 |
| T. M. Palmer..... | 300 |
| Cardwell Bros..... | 25 |
| F. B. Fuller..... | 100 |
| C. E. Wheeler..... | 10 |
| A. S. Bassett..... | 10 |
| Emmett Cardwell..... | 10 |
| W. E. Rush..... | 10 |
| Joe Killough..... | 20 |
| H. S. Syms..... | 25 |
| Troy Womble..... | 75 |
| Robert Humphrey..... | 250 |
| H. P. D. Howard..... | 25 |
| R. N. Mounts..... | 150 |
| L. W. Ricketts..... | 200 |
| T. S. Watts..... | 25 |
| J. P. Connell..... | 100 |
| E. J. White..... | 25 |
| W. B. Robinson..... | 30 |

Total.....\$1580
Previously acknowledged.....\$2550

Total cash investments \$4130

There are still a great many of our townspeople who have signified their intention of investing different amounts in the proposed college, but who have been dilatory in signing their names and specifying the amounts they would invest. To these people we would especially urge a prompt and liberal investment, as their backwardness is proving detrimental to the college interests when our solicitors ask an investment from out-of-town people, as they notice the absence of several of our most substantial and progressive citizens' names on the list, and comment upon it, many of them believing that their backwardness is a sign of little or no interest. Again, it works a hardship on our solicitors,

as they are all men of business and it takes a great deal of their valuable time to see and talk with these non-investors several different times. Remember that these solicitors get no remuneration whatever for their work and are putting in much time in the interest of the college which can be illy spared from their respective business affairs, and when one of these gentlemen urge upon you for an investment do not put them off with the argument that you have not decided as to the amount you can invest, but invest all you can at the present time, reserving the right and privilege of increasing it at some future time. Get your name on the list and thus show that you are in favor of the college and not against it.

If one or more of the solicitors fail to call upon you for an investment do not let that be a criterion that your investment is not wanted, but go to one of the following named gentlemen and request that you be allowed to invest in this most worthy cause. They will not refuse to comply with your request. The solicitors are Judge Jno. E. Ferguson, Judge L. Gough, W. H. Patton, A. J. Lipscomb, F. M. Avis, Robert Humphrey, J. M. McGlothlin, G. A. Stambough, and S. S. Evans. Remember also that the college building will be of brick and that \$10,000 is needed to successfully launch this institution into the educational world, though but \$5000 in cash is necessary to gain a title to the S. S. Evans', 100 acres and the W. U. Townsite Company's 8 blocks of land, which these two parties have given to secure the college. Also have in mind that this college will be conducted in such a manner that its influence will be for great mental, moral and physical good. Again we enjoin you to make your investments at once.

An injunction has been granted by Judge M. E. Smith of the 17th Judicial District against the Commissioners' Court of Potter Co., enjoining that body from enforcing an order preventing the sale of intoxicants in precincts one and three. The contention will be argued during vacation of court before either Judge Wallace of this district or Judge Smith, and if not set aside cannot be enforced until the next regular session of the court.—Amarillo Record.

HEREFORD HIGH SCHOOL

**A Few Facts Concerning the Needs
 of Our School.**

It is time the citizens of Hereford and the adjoining country were realizing more the needs of the teachers and pupils of their own town school. Let me give you here a few facts concerning the Hereford school in the past two years, and also of its increase during the present term. Two years ago last September this school was organized with an enrollment of 55 pupils. The

following September the enrollment had doubled. At the beginning of the present term the enrollment was 186 and has been increasing until we now have an enrollment of 286 pupils. The school building has been enlarged. The faculty increased since Christmas by Miss Mina Dameron, a determined and energetic teacher. But the teachers still have more work than they can do and at the same time do themselves and the pupils justice. Then, too, every conceivable object from a goods box to nail kegs are used for seats and

desks. But, notwithstanding all these obstacles, the pupils are doing good work, I never saw a brighter or more energetic class of boys and girls anywhere than are found in our school. The teachers are putting forth every possible effort to teach the pupils what will do them the most good—to inculcate into them the true principle of manhood and womanhood. We, as teachers, know that the children of today have to be educated to keep pace with the scientific progress of the world. The time is past when a knowledge of the three R's is all that is required to complete ones education. The world needs educated, thinking men and women. But to build up our school and maintain our school the teachers and pupils can't do all. Your help is needed—"There is work for all to do". You ought to be if you are not awake to the fact that a good school is the best stimulus a town can have, then if for only a selfish motive, give us your hearty co-operation and let's build up our school to the level of any graded school in Texas.

A PRIVATE BANK.

Soon to be Established at Hereford.
 —Will Have Ample Capital to
 Loan in Large Amounts.

Messrs. James Smith, senior member of the mercantile firm of Smith, Walker & Co., and G. A. F. Parker, formerly president of the Meridian National Bank, and who took charge of the affairs of the U. S. Weddington private bank at Childress upon its failure, were in town Wednesday investigating the proposition of a private bank at this place. It is understood the promoters were so well pleased with the prospects that such an institution will be organized and be ready for business about the first of February.

It is thought that the new bank's business will interfere little with the immense volume of business of the Hereford National Bank, as their principal business will be loaning money in large quantities on real estate and other property which the Hereford National cannot handle on account of the laws governing national banks.

It is understood that the firm name of the new bank will be Smith, Walker & Co., private bankers, and that they will in the near future erect a commodious brick building for their enterprise.

THE BRAND

A New Monthly Publication, Which Will Be Devoted to the Interests of the Panhandle.

On or about March 1, 1902, a new and exclusive venture in the field of journalism will be launched in The Brand, a monthly journal, whose columns will be devoted to the up-building of the entire Panhandle country.

The Brand will be a 16-page magazine, including the cover, and will be printed on an excellent quality of book paper, profusely illustrated with fine half-tone engravings of scenes and industries pertaining to the Panhandle of Texas. From a typographical standpoint, it will be a work of art, and it will be the aim of the publishers to fill its reading columns with up-to-date, spicy reading matter, of a nature that will be a strong factor in the up-building of the plains, both in population and in industries. In politics the publication will be Democratic, but its politics will be confined to those issues only which pertain to the plains.

At the present time there is not a publication in the Panhandle of Texas which has any great influence outside of its immediate locality, and to fill this need The Brand will be put before the public.

Its editor will be Mr. B. P. Stone, formerly editor of the Salisbury (Mo.) Democrat, the Hot Springs (Ark.) Life and other well known Democratic publications. Mr. Stone was also special correspondent for some time for the St. Louis Sunday Republic, and is a writer of exceptional ability.

The subscription price of The Brand will be \$1.50 per year, which is very low, considering the high standard with which the journal will be maintained.

MAY HE BE SUCCESSFUL.

H. T. Groom Will Endeavor to Induce Mexicans to Buy Panhandle-Bred Cattle.

H. T. Groom, the well known Panhandle City breeder of fine registered Durham cattle, was a pleasant visitor in town on Sunday last, making the Humphrey his headquarters, accompanying as far as this place four Palace stock cars which contained 98 head of registered Shorthorns, 56 of which were bulls, enroute for El Paso, where they will be exhibited during the Mid-Winter Carnival held at that place on January 14, 15, 16, 17 and 18.

These cattle were all range bred, as are all his stock, Mr. Groom rightly believing that range bred animals are much stronger and more serviceable than are the pampered and corral-fed animals. Notwithstanding they were on the range during the recent two-below-zero weather, they were in fine form, though somewhat wild.

Mr. Groom was elected president of the American Shorthorn Breeders Association at its Chicago convention held in December, succeeding John Burgess, deceased, of Ft. Worth, and as its president believes that it devolves upon him to further the interests of that association, and consequently the cattle it represents, even though by doing so he incurs no little expense, which must be borne by his private purse.

One of his first official acts along that line will be to exhibit his fine stock at the El Paso Carnival to the many Mexican cattle breeders and endeavor, by his persuasive methods, to induce the Dons to come to the Panhandle for their breeding stock instead of going to the northern and eastern states. With his fine herd to show them, he is prepared to prove to their satisfaction that Panhandle range bred cattle are stronger and more serviceable than their northern cousins, which are unacclimated to the more torrid regions, and which have not been taught to rustle for themselves, and which can be purchased at a lower price and with far less costs for transportation to their Mexican ranches.

Mr. Groom had intended to accompany the cattle to El Paso, but was informed that Governor Sayers had appointed him on a committee to prepare a fine cattle exhibit for the St. Louis fair in 1903. This committee held a meeting at Dallas this week at which meeting his presence was deemed necessary.

In a conversation with the REPORTER representative Mr. Groom said that in view of the fact that Panhandle cattle had for the past two years taken the first premiums against all competitors from the large number of herds from Mis-

souri, Kansas, Iowa, Illinois and other states on exhibition at the big stock show at Chicago, there is no plausible reason for southern buyers to go outside of the Panhandle for their breeding stock.

As president of the American Shorthorn Breeders Association Mr. Groom will do his utmost to place that particular breed of cattle before the breeders of fine cattle not only in Mexico, but all over the United States, and as a resident and large stock raiser of this section of the country he will do his best to increase the growing demand for the Panhandle bred animals.

W. F. Manning of Bellvue is visiting his brother-in-law, J. A. Fox, having arrived last Friday. Mr. Manning paid this office a pleasant visit and left \$1.50 for a subscription to the REPORTER.

R. H. Norton claims to be a sure enough farmer now, having recently sold over \$500 worth of farm produce. Mr. Norton said this was the first time in his career as a stock farmer that he had sold anything from his farm except stock.

C. E. Wheeler returned from Amarillo Sunday. While at that place Mr. Wheeler bought 50 head of high grade Hereford and Durham cattle of Geo. Kilgore of that place. Mr. Wheeler left Monday to transfer the cattle bought from Amarillo to his ranch on the North Draw.

The little expense at which feed can be produced in the Panhandle will make it the best stock farming country in the west. The big ranches will have to give way to improved methods. Ten acres to one steer worth 4c. will give way to two acres to the steer of better weight at 6c. Plenty of winter feed and water will do the work. Better stock, better methods of care and sure profits go hand in hand.—Industrial West.

Our First and Last Thought is to Please Our Customers

WE are running our business on the theory—the fact that the people of Hereford and surrounding country will buy the best at the right prices. We have a full line of Groceries. We have the best brands. We have medium grade goods. We have a few that are not much. We tell you what we have and sell you what you want. Remember that if you get our best, and there should ever come a time you get something unsatisfactory we

will like you better if you will return it. Our best goods are guaranteed and we like to advertise them; we love to think about them and we like better to sell them. We do not claim that every article at every time will be just what you expect. The best things that grow or that man ever made are not always perfect; even the best men that God has ever created have subjected themselves to just criticism. We want your trade. Our prices are right.

A PLEASANT TIME

Spent Last Sunday at the Ranch of Mr. and Mrs. J. W. Moreman.

Last Sunday morning Mr. and Mrs. Christian, Mr. and Mrs. Witherspoon, Miss Ola Scott and Claude Moreman, on special invitation, went out to J. W. Moreman's ranch to spend the day. To say that they enjoyed the hospitality of the host and hostess puts it entirely too mild.

They found Mr. Moreman's ranch an ideal one in every way. Fine registered Hereford cattle, thoroughbred hogs, turkeys and chickens were very much in evidence.

One of the large bronze turkeys occupied a prominent place on the table otherwise laden with the good things raised on this model ranch and prepared by an expert in the person of the hostess. An early and short breakfast and a thirty-mile drive had given each one an appetite that soon made itself manifest, and Mr. Editor, you ought to have seen that turkey, or rather its remains, after we were through. The remains were all that were left—and not much at that.

In looking over Mr. Moreman's place we found several hundred tons of feed put up for stock. We also found fine large cabbages and beets put up for winter use, and everything was in a prosperous condition. Mr. and Mrs. Moreman are young people and have been on their ranch only about three years, but everything shows the energy and progressive spirit of these young people, and if we had more such people ours would soon be a land, if not of "milk and honey," one of other things equally good.

After spending a very enjoyable day, the elder portion of the crowd returned to town, while the younger portion said they were going by "home" on their return. So mote it be. C. G. WITHERSPOON.

TO LOCATE HERE.

W. F. Ramsey of Austin Wants to Change the Location of His Nursery Business.

R. F. Holloway recently received a letter from Rev. Randolph Clark, in which that gentleman stated that he had been to Austin and had a conversation with Mr. Ramsey in regard to establishing a nursery business at this point.

From Mr. Clark's description of the plains Mr. Ramsey is convinced that this section of the country is soon destined to be the fruit raising district of the United States, and as one of the largest nurserymen of the state, believes that it behooves him to get in the center of the district, hence Hereford is his objective point.

Mr. Ramsey's proposition is that he be donated ten acres of land lying near town for exhibition purposes. In addition to this he will

buy a large tract of land outside for use as a nursery stock experiment station.

It has been proposed that he be given one of the ten-acre blocks given to the college by Mr. Evans, inasmuch as he proposes to give free instruction to the students in the art of tree culture and landscape gardening, in addition to remunerating the students financially for whatever work they do for him in that line.

This enterprise would be one of the greatest helps to this country that could be gained, and it is sincerely hoped that our citizens will do all in their power to have Mr. Ramsey establish his nursery business here.

Don't Be A Knocker.

If your neighbor is prosperous, let him prosper. Don't grunt, or grumble. Say a good word for him and let him go at that. Don't be a knocker. Your turn will come if you have the push. No one man is the whole show. If you see the town is moving along nicely, feel good about it. Help things a little. Shove a little. Push. Try and get some of the benefit yourself. Don't stand around like a chilly old cadaver. Don't waste your time feeling sore because some fellow has a little more sand and sense than you have. Do a little hustling your self. Don't be a knocker. No man ever helped himself up permanently by knocking down his neighbor. Give him a kind word; give it liberally. It won't cost you a cent, and you may want one yourself some day. You may have thousands today and next year be without the price of a shave. So don't be a knocker. You can't afford it. Don't throw brickbats or mud. Don't be a knocker. If you must kick, go around behind the barn and take a good kick at yourself. For, if you feel that way you're the man that needs it. But, whatever you do, don't be a knocker. You will get there if you have the push. No one man is the whole show. Las Vegas Optic.

A BETTER SERVICE.

The Santa Fe Has Improved the Traveling Conditions of Its Panhandle Patrons.

Under the new passenger schedule the patrons of the Pecos system and the Southern Kansas of Texas are now enabled to reach Kansas City with about twelve hours less traveling than formerly, which, with the better connections at Kansas City, makes the time between this section of the country and St. Louis, Chicago and New York via the Santa Fe twenty-four hours quicker than before, and that much quicker than any other route. In addition to this better time service, another admirable feature has been added—a Pullman sleeping car, which runs through to Wichita, Kas. These concessions were made to accommodate the largely increased traveling patronage which the Santa Fe has been receiving of late.

Nine thousand cars of Quana cement plaster was ordered by the St. Louis Fair people from the Acme Co. Immense as the capacity of the mills are, we don't believe they will be able to put out two solid train loads of cement daily for one year to one customer alone. The Company's other two mills will have to come to the rescue.—Tribune.

Notice to Subscribers.

We expect to erect a commodious office building next month on our lots, back of the bank, and in order to do so must collect all outstanding accounts. Delinquent subscribers will shortly receive a statement of their account, and unless the same is settled on or before February 1, 1902, said delinquents will cease to receive the paper. It will be our policy in the future to have subscriptions paid strictly in advance, and papers will be stopped at expiration of the time paid for. A statement will be sent you one month before your time expires, however, to give you ample time in which to renew. It will be our aim to give you a first-class local paper, and one which will be well worth the price—\$1.50 a year. F. L. VANDERBURGH.
