THE MENDENHALL CASE.

Fred Mendenhall Returns to Hereford after a several months Absence.

On last Thursday Sheriff J. T. Inmon received a telephone message from Sheriff Hughes of Amarillo, stating that Fred Mendenhall, who was wellknown here last summer and fall as manager of the gravel pits below town and also for various irregularities in his business methods, was in Amarillo. Sheriff Inmon holding several papers against the party desired very much to meet him, so catching an afternoon cattle train he went to Amarillo, but Mr. Mendenhall had left; he had taken the train for Denver. Upon arrival he consulted Sheriff Hughes and he wired up the Denver Road to the Colorado authorities to make the arrest and that evening Mendenhall was arrested at the Brown Palace in Denver. He had registered as H. C. Calhoun and wife, Fort Worth,

Texas. At first he indignantly denied his identity to the authorities but upon being confronted by Sheriff Inmon he acknowledged that he was the man wanted and consented to return to Texas without requisition papers. He was accompanied by his wife who claims they were married four days previously at San Antonio, Texas.

Sheriff Inmon started back for Hereford on an early train, reaching here Tuesday morning.

The specific charge upon which the arrest was made is that of felony, but there seems to be other matters of far graver importance behind it all. The Rocky Mountain News, of Denver, states that Mendenhall or Calhoun is muchly wanted all over the country—his chief weakness being that of signing other peoples names to checks, draughts, and other bankable paper. Without question Mendenhall is wanted all over this country for various swindles. Yesterday morning Sheriff Inmon received the following telegram from San Antonio, which shows somewhatly how much some people would like to see him:

SAN ANTONIO, June 19, 1901.

J. T. INMON, sheriff:

I hold copies for Mendenhall alias Calhoun. Three cases swindling, over fifty, hold him, will come soon as notified. No reward offered.

JOHN W. TOMM, sheriff.

At the request of the authorities further details in this case are with-

held for the time being.

Mr. Mendenhall has refused to accept bail preferring rather, the luxurious quarters and attentive watchfulness of Sheriff Inmon and his assistants, Messrs. Harwell and Boyd.

Sheriff Inmon has accomplished a fine piece of work in this case and one that has earned him the commendations of all law abiding citizens of Texas and elsewhere.

A Pleasant Evening.

One of the most enjoyable parties of the season was that given in honor of Miss Patton and Miss Wayland of Plainview—at the home of Mr. and Mrs. W. H. Patton last Tuesday evening. The evening was passed with music by several young ladies—games in which all took part and found much enjoyment and general conversation. At about 11:30 o'clock the young gentlemen drew partners whom they escorted to the dining room where refreshments consisting of delicious cake and ice cream awaited them.

One of the most pleasant features of the evening and was particularly spoken of was the charming hospitality of Miss Patton in entertaining her guests.

Thomas Aten arrived from Wichita Falls, Texas, Tuesday and registered at the Ritchey.

COMING AND GOING.

Movements of People You Know and Other Items Picked Up Here and There.

Dr. R. H. Gough has greatly added to the comfort and convenience of the citizens of Hereford by putting down gravel walks around his drug store, a great improvement.

That gentle little shower of last Friday afternoon, which was so cooling and refreshing here, was quite destructive at Canyon City. It is reported that the hail broke some thirty-five or forty panes of glass in the court house windows and that nearly every other house in town was damaged more or less.

Strayed.

One dark bay or brown horse with right fore foot, crippled, branded Jf on left shoulder. Had short rope on when lost. Will pay suitable reward for recovery.

Ever Made The Trip?

While it has always been a beautiful trip over the Lackawanna Railroad to Buffalo, yet the fact has not been so generally known as it has been of late, and the result is that the increase of traffic is very large. One of the most talked of pieces of scenery is the Delaware Water Gap, and it would pay any one who has never made the trip to Buffalo by way of the Lackawanna to take it and view this beautiful spot. Another great advantage is the short-

D. T. Blankinship returned to

Mr. Blankinship reports the rail-

or Monday.

Abbott Hardee, representing the
Texas Stock Journal of Dallas,
came in Friday last and talked to
our business men in regard to a
write-up of Hereford in his paper
and its auxiliaries. As the mer-
chants have been buncoed by a fake
concern a short time previous they
did not all take kindly to his pro-
position. We are sorry as we be-
lieve that a write-up in his four pa-
pers, having as they do a circula-
tion of over 40,000 among the class
of people we wish to acquaint our
town and country with, would have
been a profitable investment to every
business man in Hereford. He
left Monday for divers points on the

An Accident.

On last Friday afternoon as John
Flanagan and several others of

right leg from ankle to toes was
badly torn. His horse was also
severely cut. He was carried to
Carter's ranch where his wounds
were dressed and at last reports he
was doing nicely.

in attendance.

EDITORIAL NOTES.

Comments on Current Events in the Busy Outside World.

Why doesn't some yellow reporter get Teddy to express his opinion of the third-term movemens?

Reduce a man to a state of numb despair and he becomes a machine in constant danger of a smash-up.

The weekly bulletin denying that Charles Emory Smith will retire from the Cabinet is getting monotonous.

Mark Hanna is a little behind-hand in capturing the title of "colonel"; Perry Heath got his several years ago.

"His Great Self" is a new book, but it isn't an autobiography of J. Piermont Morgan, as might be supposed from the title.

Fred Grant is going back to the Phillippines; hence, he sees a great future for them. Fred always did make a specialty of modesty.

It is not surprising that New Yorkers got tired of putting up money for the brand of reform turned out by the committee of fifteen.

Democrats are not worrying over the prospect of a cat and dog tariff fight among the republicans in Congress during the coming session.

CONGRESSMAN Grosvenor, who has a faculty for getting on the wrong side of public questions, has come out for a third term for Mr. McKinley.

EVER Chauncey Depew ought to know that as a joke the third term is antiquated and as a serious proposition is thoroughly obnoxious to a great majority of the American people.

Senator Quay may be out of politics, as he says he is, but his men are grabbing everything in sight in Pennsylvania, including many valuable street railway privileges.

The republican party ought to be able to give the country something better to choose between than a third term for McKinley and the nomination of Hanna.

It has been suggested that Secretary Root arranged his visit to Buffalo so as to do a little missionary work among the members of the National Editorial Association, which met there.

OCCASIONALLY a man is found reckless enough to declare that he knew all the time just what the Supreme Court decisions would be, but he doesn't make a hit with that portion of the public which admires brain capacity.

It has not yet been claimed that the recent suicide of Dr. Wm. H. Daly, whose report to Gen. Miles unearthed the "embalmed beef" scandal, was a vindication for the men responsible for the use of "embalmed beef", but it doubtless will be.

When the administration openly supports Comptroller Dawes in his candidacy for "Billy" Mason's seat, the Senate is likely to hear "Billy" make some more blushing-for-his-country talk.

WHAT "Billy," Mason thinks of the administration's backing young Mr Dawes in his effort to freeze "Billy" out of the Senate will be such "hot stuff" that it ought to be kept on ice until hot weather.

New Orleans is making rapid strides in business growth. In the annual readjustment of salaries of Presidential postmasters it received an increase of \$1,000, its postmaster's salary being now \$5,000. It has also displaced Boston as the country's second export port.

THIS country was horrified at the results of of the Spanish policy of concentrating Cuban women and children in camps but less attention is given to a similar policy perposed by the British in South Africa, with

the same results—ruination of the health of many. Two prominent Boers are now in this country to tell about these camps.

The President of Princeton University predicts a reign of trusts. With all due respect to the learned gentleman, we beg to ask if the reign of trusts is not already in power?

THE after-dinner boquet throwing lately indulged in by British and American millionaires will not prevent their doing each other in business as often as they get the opportunity.

WHAT right have Americans, who spend thousands of dollars trying to make rain rain by the same methods, to sneer at the European vine-growers and call them ignorant and superstitious because they are shooting cannon at clouds with the belief that it protects their vine-yards from hail and frost?

Charles Ferguson spent Saturday and Sunday in from the ranch.

WASHINGTON LETTER.

(From our regular correspondent.)

WASHINGTON, June 14, 1901.

Mr. McKinley again demonstrated when he knocked the bottom out of the third-term bucket by declaring that he would not again accept a nomination that he is one of the shrewdest politicians in his party. He knows there are breakers enough ahead of the republican party without the addition of a third term elephant, as he frankly acknowledged when he said:

"There are now questions of the gravest importance before the administration and the country, and their consideration should not be prejudiced in the public mind by even the suspicion of the thought of a third term." Mr. McKinley knows there are several public questions of importance which may wreck all chances of the republican party to elect the next President, and wishes to impress that fact upon the minds of some of the prominent members of his party who act as though they thought the administration owned the country and could do anything they pleased without jeopardizing the future success of the republican party. The immediate effect of Mr. McKinley's announcement was a sort of fluttering activity among those who are coaxing the growth of boomlets for the next republican nomination for a number of men, including Senators Fairbanks, of Ind.; Hanna and Foraker, of Ohio; Platt, of Conn.; Lodge, of Mass.; Cullom, of Ill.; ex-Senator Spooner, of Wis.; Gov. Odell, of New York, and Judge Taft, of Ohio, Chairman of the Phillipine Commission. A notable thing about the situation is that there isn't the slightest evidence of a Roosevelt boom in Washington. Mr. McKinley has said that he did not want another nomination himself but he hasn't said that he didn't wish to name the man, and he will not say so. Shrewd observers will ascertain Mr. McKinley's favorite before betting on the name of the next republican candidate. Representative Richardson, of Tenn., the democratic leader in the House, who is in Washington, said of Mr. McKinley's anti-third term announcement: "It is what anybody could expect. No man is good enough to be elected President three terms. It is a rule that has never been broken and never will be. I think Mr. McKinley is too good a politician to ever undertake to violate that rule or precedent."

Nothing more autocratic has occurred in official circles for a long time than the announcement that the Commissioner and Assistant Commissioner of Patents would grant no

hearings during July and August.

It is a fit sequel to Boss Platt being allowed to put a political figurehead in charge of the enormous business interests of the Patent Office. That order, if not set aside by higher authority, will delay the business of every inventor whose case requires a hearing for more than two months and pile up a class of business already in arrears, which will be a future incentive to improper and unjust decisions. These men will continue to draw their salaries during July and August and the government will continue to make a profit on the Patent Office. The injustice of such conditions is apparent to all and the rumpus it will raise will be in Congress next winter. The only possible reason for the order is that the Commissioner of Patents and his assistant wish to take things easy for those two months, without regard to the interests of those who will be affected by the order. It is an outrage, which should cost the Commis-

sioner his place.

After thinking the matter over the Cubans accepted the Platt emendment, just as it passed Congress, and their action has been officially communicated to the War Department.

Mr. T. J. McElroy, of Chicago, who belongs to a family of old time democrats, thinks that Mr. McKinley's upsetting of the third-term boom which has been started for him, ought to be decidedly beneficial to the democratic party. He said on the subject: "Where can you find another man prominent among the leaders of the republican party whose political life is not entwined with the trusts which sell their products, made in America, at a lower price abroad than they get at home, and this because the high tariff of the United States over-protects them. Mr. McKinley's declination to run for the Presidency again certainly makes the race among the leaders of his party to succeed him an open one, and it

should encourage the democrats to come together and develop their real strength.

The impression prevails among the labor leaders, who are already at work preparing to bring pressure upon Congress at its coming session to re-enact the Chinese exclusion law, which expires next May, that the administration is secretly, if not openly, against re-enactment although they do not care to talk about for publication at this stage of the fight. They hint, however, that if the administration opposes re-enactment there will be some lively times in Congress which will have an effect on next year's congressional campaign.

Although Judge Springer, attorney for the Kiowa, Comanche and Apache Indians who are protesting against the carrying out of the treaty providing for the opening of their lands in Oklahoma to public settlement, has not received much encouragement from the authorities, he is still pushing the matter. A delegation of Indians arrived in Washington today to personally present to Mr. McKinley the protest of what they claim to be a majority of the tribes, and a suit against the secretary of the interior will be heard next week in the supreme court of the District of Columbia. Officials say the lands will be opened according to programme.

Changes That Are Being Made Among the Cattlemen of the Panhandle and Vicinity.

The first of the weak Nick Beals sold 1063 steers, twos, to Ed Reid for shipment to Wyoming.

On last Saturday J. C. Cox sold to George Blake of Pueblo, Colo., 490 head two-year old steers. Consideration \$23.

John H. Beal and others of Lubbock, delivered to Ed H. Reie of Omaha, 900 steers, 2's on Tuesday last at \$22.

Crowley & Irwin of Roby, delivered to Ed Reid of Omaha, Neb., 1590 head of steers, 2's receiving therefor \$22 per head on last Tuesday.

Tom Morrisson sold and delivered to Lake, Tombs & Co on yesterday 593 head of two-year olds for shipment to South Dakota.

One day this week J. W. and J. E. Ray made a trade whereby they will be the winners in the future. It will be remembered that some weeks ago they purchased an immense tract of land from the Capitol Syndicate with the evident intention of going into cattle business on a larger scale than ever. A short time since they announced their intentions of going into the steer business exclusively and this transaction of Tuesday is in furtherance of their plans. They sold 500 cows and calves to Wilson & Sullivan and received in exchange 636 yearling steers. These youngsters are without doubt one of the prettiest bunches of cattle that has ever been brought to the Panhandle. This sale closes out their she stuff and this aquisition of over 600 head of yearlings brings their holdings to over 6000 head of steers, and will make them one of the most extensive cattle dealers in southwest.

Among those who attended the picnic at B. T. Bell's, three miles east of Dimmitt, from Hereford were Mr. and Mrs. J. M. McGlothlin, Jos. Killough and Miss Lyle, Dalton Johnson and Miss Flossie Johnson, W. D. Smith and wife, Dow Mercer and James Thomas.

Happenings in the Busy Castro County Seat Briefly Told
 EDITED BY AN UNKNOWN

Quite a large cow outfit is working the open range south of town, composed largely of Castro county cowmen.

Dr. Chas. V. Bomor was called on last Tuesday morning to the bedside of Mrs. W. B. Dameron who was quite ill, but at this writing we hear that she is much better.

A good rain is what we all need now. It would assure us plenty of feed for the coming winter.

Last Saturday was the day so many looked forward to with such great pleasure, the enjoyable picnic at Mr. B. T. Bells, and we are glad to say their anticipations were not in vain. The crowd began gathering at an early hour and continued until late in the day, having come from all over the country and from Hereford. Out on the lawn some of the young people gathered in a game of croquet and their laughter could be heard by those who had wandered off to the shade of the beautiful trees where they had their interesting little chats. In-doors the ladies and gentleman gathered and were royally entertained by Mr. and Mrs. Bell; while Miss Bell and her brothers wandered through the crowd seeing that each and every guest was not neglected. Dinner was served in the delightful shade of the shade of the big trees, which every one enjoyed and if any one was neglected it was not his or her fault.

In the afternoon the young men had on an interesting game of ball and some plays were made. Mr. Bell's guests found a great interest in his new sheep shearing machine. In the afternoon the young men with their sweethearts went for pleasant drives. As the sun began to go down those who would not remain for the evening entertainment returned to their homes; a large number stayed and went out under the beautiful trees and ate supper in the twilight. After supper they returned to the house where music, dancing and games were indulged in until a late hour when every body returned home with light and happy hearts.
