## House Debates Tax-Cut Options

**Answer to Energy Crisis**

What better way to save on gasoline and fight pollution...! Eleven-month-old Shiloh Alonzo and Charmon Eskew, 9, aren't trying to get an example to adult motorists, though, as Shiloh orders his driver to halt so he can have his picture taken

Wednesday afternoon on Star St. After the photo session, it was "onward, Charmon!" as the wagoners continued on their way. (Brand photo by Don Ingram)

WASHINGTON (AP) - Seven months after President Carter called for a \$25 billion tax cut to boost the economy, the House is scheduling debate on three options - none closely resembling the administration proposal.

But any of the three bills, is chosen by the House and eventually enacted, could save middle-income families up to hundreds of dollars on income taxes. That would at least ease the bite of higher Social Security taxes next year.

And the Senate is likely to sweeten whatever package the House adopts. Acting after months of wrangling and stalemate among House tax writers, the Rules Committee on Wednesday cleared for consideration:

-A \$16.3 billion tax cut bill approved by the Ways and Means Committee with bipartisan support, but distasteful to Carter mainly because of its reduction of capital gains taxes.

-An amendment to substitute an \$18.1 billion tax cut package worked out with Treasury Department assistance. It

would be slightly tougher on capital gains and direct other tax savings more toward middle and lower incomes. The administration has accepted this compromise but without visible enthusiasm.

The official Republican Party measure calling for a one-third slash over three years in income tax rates. The committee, however, gave the GOP only a relatively limited opportunity to offer this bill. It would be allowed as a substitute at the end of debate on the main bill and amendments.

The committee, which sets procedures for full House actions, also allowed consideration of a measure that would simply continue the tax cuts voted two years ago and scheduled to expire this year, without any further reductions.

The committee also proposed that the House might vote on one other change in the Ways and Means bill, deleting a provision that would adjust capital gains taxes after 1980 to allow for inflation. It denied, by an 8-7 vote, an opportunity

sought by liberal Democrats to add to whatever tax package is approved a partial offset to the higher Social Security taxes going into effect next year. Without the provision, they contended, the contemplated income tax cuts could be less than the payroll tax increases, meaning that many families would end up with heavier tax burdens in 1979 than in 1978.

But whatever the House adopts will have little resemblance to the elaborate tax package Carter sent to Capitol Hill early this year.

The administration retreated step by step from its goal of a \$25 billion reduction and changes in the tax code in the name of reform. In the face of congressional opposition and long periods of stalemate in the tax-writing committee, Carter finally agreed to the \$18.1 billion compromise.

The bill Congress is expected finally to enact before adjourning, however, could come closer to the administration's totals, if not to its reform recommendations.

## Food Prices Decrease First Time in Months

WASHINGTON (AP) - The government provided encouragement to grocery shoppers today with a report showing that wholesale food prices decreased in July for the first time in 10 months.

But while food prices declined 0.3 percent from June, prices of other products continued to rise.

Overall, wholesale prices rose 0.5 percent, the smallest increase in five months.

Consumers usually can expect to see changes in wholesale prices reflected at the store checkout counter within a few months.

The decline in wholesale food prices followed increases of 1.8 percent, 0.5 percent and 1.1 percent in the previous three months. It was the first time the prices have gone down since September 1977, when they declined 0.1 percent.

Beef prices, which climbed steadily during the winter and spring, began to drop in July as more cattle became available, the Labor Department said.

Prices for poultry increased in July, but at a slower rate than in June, the department said. Prices declined for rice, coffee and vegetable oil products.

On the other hand, prices accelerated for fruit, vegetables, fish, flour mixes and eggs.

Products other than food increased 0.8 percent in price, about the same as the gains of the previous four months.

Although gasoline prices declined,

prices went up sharply for passenger cars, home appliances, furniture, jewelry and health products.

The government report measures the prices of finished goods, which are

(See PRICES, Page 2)

## Tickets Remain on Sale For Hill Fund-Raiser

Tickets still are available for the John Hill fund-raising dinner Friday night at Hereford Country Club, according to Richard Green, chairman for the affair.

The \$25-a-plate dinner will be limited to 200 persons. Green said ticket sales are continuing at a brisk pace.

"This will be strictly a fund-raising dinner and there will be plenty of time for individuals to meet and become acquainted with the next governor," Green said.

Mrs. Hill also will be present.

A public reception for Hill will be held from 5-6 p.m. at Hereford State Bank's community room, followed by a 30-minute press conference.

Tickets for the dinner can be purchased from the following members of the banquet steering committee: Green, Clint Formby, Travis McPherson, Mrs. Kathy Allison, Jay Boston, Jerry Don George, Paul Ramirez, Jerome Friemel, Jerry Payne, Carl King, Gerald McCathern and Margaret London.

## New York City Newspapers Close as Pressmen Go on Strike

NEW YORK (AP) - The city's three major newspapers are shut down today, their publishers uniting in a tough stance against printing pressmen who struck in a dispute over proposed staff cuts.

The two morning papers, the Daily News and the Times, and the afternoon

### Wreck Injures Woman, Child

A Deaf Smith County woman and her 17-month-old son were injured around 6:30 a.m. Wednesday when their late-model car went off an embankment on a county road near Frio Baptist Church.

The accident occurred on a dirt road one-half mile south and one-half mile east of the church.

According to Texas Department of Public Safety troopers in Castro County, Mrs. Mike White, whose address is listed as Route 2, Hereford, was driving west on the road and veered to the right to avoid an east-bound truck.

Mrs. White's car, a Chevrolet Nova, apparently went off the road into a ditch (See ACCIDENT, Page 2)

Post, ceased publication late Wednesday when negotiations with 1,550 pressmen failed to win relief from what the publishers see as overstaffing.

The three papers have a combined circulation of about 3.25 million.

The dailies carried through with a threat made two weeks ago that they would post new work rules at a specific time if no settlement was reached to replace a contract that expired March 30. The rules institute an attrition program to reduce pressroom workers by as much as 50 percent over several years.

The pressmen warned that such unilateral action would result in an immediate strike. The newspapers countered that they would not publish if the pressmen struck.

About 6 p.m. Wednesday, the publishers posted the rules and members of the Printing Pressmen's Union No. 2 walked out.

Kenneth Moffett, deputy director of the Federal Mediation and Conciliation Service, said he expected no further negotiations today.

The pressmen threw picket lines around the News and Times and ordered similar action today at the Post. Seven other craft unions and most members of

the Newspaper Guild then working immediately closed ranks and left the buildings.

## Mexican Applicant for Probation Office Charges Discrimination by Juvenile Board

By PAUL SIMS  
Managing Editor

A Mexican citizen living in the United States on a visa and employed by Deaf Smith County charged Wednesday that he was discriminated against by the county juvenile probation board when it did not hire him as juvenile probation officer.

Jose Vasquez, assistant juvenile probation officer since 1975, told The Brand that he should have been selected by the board in May instead of former policeman Bud McClendon.

"I was mad as hell," Vasquez said concerning his reaction when the board chose McClendon from a list of 10

candidates, who included Vasquez.

"I believe that the board members did an injustice to me and the kids by hiring a very unqualified person for the job. I believe the kids deserve somebody that's qualified for this office."

Vasquez said that a bill passed by the state legislature requires the county to select a juvenile probation officer who is trained and extremely qualified for the position.

Senate Bill No. 717, the enabling legislation which created the post of juvenile probation officer in Deaf Smith County, states, in part, "The person or persons appointed as juvenile officer shall be a person trained, qualified and

experienced in the field of juvenile and parental counseling, and/or having such other qualifications as may be specified by the Deaf Smith County Board."

Vasquez said that McClendon, who resigned in July to pursue another job, was not qualified under the enabling legislation.

"The previous probation officer (McClendon) didn't have any of those qualifications," Vasquez said, adding that McClendon's predecessor, Phil Sczubato, "didn't either."

Vasquez, who re-applied for the job when McClendon quit, said the juvenile probation board members, in their initial interview with him, showed that "this

county's not ready for a Mexican-American official."

Vasquez said, "They asked questions like, 'Do you think the Anglos are going to respect you?' And my answer to that person was, 'Do you respect me?'"

"Some other board member asked me if I was a wetback."

When asked if that was the terminology used during the interview, Vasquez said, "He asked if I was an illegal alien. They hired me three years ago, and they still don't know. My answer was, 'No, I'm not a wetback.'"

"Another question they asked was, 'Is it true that the Mexican-American (See VASQUEZ, Page 2)

## West Europe, Like America, Suffers Farm Woes

BEEZ, Belgium (AP) - With West Europe's stockpiles of surplus milk and butter climbing even higher, farmers like Henri Mauroy are hard at work these days - producing still more milk and still more butter.

The European Common Market countries' warehouses are bulging this summer with 811,000 tons of surplus milk powder - enough to powder over all of Manhattan two inches deep - and 420,000 tons of butter, an all-time record. There are 273,000 tons too much beef, and excess sugar may add up to 1.5 million tons by autumn.

But like many farmers, Mauroy dismisses claims that something is drastically wrong with European agriculture - that the Common Market's agricultural system is wasting money on

a price-support system that encourages over-production and small-farm inefficiency.

In mud-spattered work boots and chomping a cigar, with a baret covering his stubby gray hair, the 54-year-old Mauroy stirs his farm's own cream into a cup of coffee and declares:

"A farmer is a citizen, too, and has a right to live. If you don't have a support policy for agriculture, farming will fall apart and it will just swell the numbers of unemployed."

The Common Market nations - Britain, France, West Germany, Italy, Ireland, Denmark, Belgium, Holland and Luxembourg - have long lived with their "butter mountains" and "beef mountains," the surplus produce of the nine nations' joint agricultural policy.

But now, there may finally be enough pressure for substantial change in the way the agricultural system works - largely brought on by Britain and West Germany, which believe the Common Market can no longer afford agricultural extravagance.

Is it just extravagance? More than 9 million people in Common Market countries earn their living from agriculture, and have always made up a powerful voting bloc. The "common agricultural policy" is part of the bedrock of the Common Market and has two related purposes: to shield the nine countries from imports of cheaper foreign food, and to support the prices European farmers get from their production.

As in the United States, this is a time

when the survival of small farms is threatened by rising costs and other economic pressures.

With the supports, the Common Market is able to produce 91 percent of all grains it consumes, 100 percent of the potatoes, 95 percent of the sugar, 79 percent of the fruit, more than enough milk products, 97 percent of the meat. And agricultural exports totalled \$11.8 billion in 1976, compared with total farm production of \$106 billion.

Meanwhile, price supports cost the Common Market some \$12 billion a year, and in Brussels, good-quality steak costs \$4.37 a pound, butter \$2.27 a pound, milk 53 cents a quart. In New York, the prices would be \$2.50 for the steak, \$1.49 for the butter, 49 cents for the milk.

European consumer groups have complained about both the prices and the surpluses while other people in the world starve.

But supporters of the policy, led by Common Market agriculture Commissioner Finn Gundelach, say support payments are less than four-tenths of one percent of the nine countries' total economic output, that much of the money goes to improve farms, rural villages and living standards, and that some food is distributed to needy nations.

Farmers insist they need the support. Raw materials costs shot up 10 percent last year. "And I don't think the stocks are really as big as they seem," adds Mauroy, whose 123-acre farm 40 miles south of Brussels is large by Belgian

standards.

"If there was a war or crisis of some sort, we'd need them."

Mauroy, who has about 30 cows, himself takes no support money in butter or milk, because he sells that part of his production to neighbors. But he also grows about 25 acres of wheat, which he sells to a cooperative at a support price fixed by the Common Market.

Opposition to the farm policy is not growing from Britain, Italy and West Germany, but for different reasons. Italy claims more support should go for crops grown in southern Europe. Britain and West Germany - the country which produces most of the surplus butter - are more industrialized than such (See EUROPE, Page 2)

# update thursday

## Vietnam Relations To Be Discussed

WASHINGTON (AP) - The administration is ready to discuss the establishment of diplomatic relations with Vietnam, but actual talks may be a month off, according to State Department officials.

"It's all a matter of timing," one official said. The officials, who asked not to be identified, said the response to Vietnamese overtures might occur sooner except that the Carter administration fears any negotiations with Vietnam could prompt the introduction of amendments to tie its hands, just as Congress did on the question of Rhodesian economic sanctions.

With the foreign aid bills presumably cleared by late September, the officials said, high level talks may begin in New York when Secretary of State Cyrus R. Vance attends the opening of the United Nations General Assembly session.

The officials also said that any American eagerness to exchange ambassadors with Hanoi might offend China as an intrusion into its bitter dispute with Vietnam, which has seen the explosion of thousands of Chinese shopkeepers from Vietnam.

The State Department is weighing the advantages of establishing relations with Vietnam against the possible irritation to relations with Peking such a move could entail.

Hanoi has been signaling loudly in recent weeks that it wants to establish diplomatic relations with the United States.

## Police Report

Rozanne Garcia, 123 Kibbe, told police Wednesday that someone entered her back yard and stole two Doberman Pincher puppies.

She valued the dogs at \$50 and \$25. Jerry Jackson, 208 Centre, reported that \$20 worth of potted plants were stolen Wednesday from his front yard.

Mrs. Rinaldo Lucero, 505 Sampson, told police that someone stole an orange and black Topcat bicycle valued at \$45.

## Pope Paul's Body Viewed by Thousands

VATICAN CITY (AP) - The body of Pope Paul VI was removed from its coffin during the night and put on a low catafalque in front of the great altar of St. Peter's Basilica to be viewed by thousands filing past it.

Vatican officials hurried the mourners 12 abreast past the bier. But at noon, 4½ hours after the great bronze doors of St. Peter's were opened, there was a 20-minute wait in line, and the crowd was growing.

Although the body had been embalmed, deterioration appeared to be setting in. The facial features were deformed, and the skin had a brownish tinge.

Four ventilating fans were installed around the catafalque.

The plain oak coffin was closed before it left Castel Gandolfo, and Vatican officials said earlier that it would remain sealed. But cardinals and other prelates arriving from abroad asked that it be opened so they could pay homage.

Lines began forming at dawn in St. Peter's Square, commencing two days of public homage before the funeral and burial Saturday. The great bronze doors of the basilica opened at 7:30 a.m., and the crowd walked silently along a corridor of barricades.

## Plant Sale to Russia Draws Fast Criticism

WASHINGTON (AP) - The Carter administration has approved the sale of Russia of a \$144 million facility to produce oil drilling equipment, the first such approval since the White House announced new controls on U.S.-Soviet trade.

The approval came on Wednesday in the form of a Commerce Department export license for a \$1 million computer-run welding machine, which had held up the entire plant package, according to a Commerce Department official.

The move brought quick criticism from Sen. Henry M. Jackson, D-Wash., who originally had sought to cancel the deal altogether in light of the Soviet conviction of two dissidents - Anatoly Shcharansky and Alexander Ginsburg - last month.

Jackson said he had asked President Carter several days ago to hold off on the export license until his Senate subcommittee could examine whether the Soviets were gaining "certain technological advantages" with the proposed plant.

"The administration made a mistake in going ahead at this time," Jackson said in a telephone interview.

The sale by Dresser Industries of Dallas involved equipment and technology to build a modern plant that would produce bits for oil drilling equipment.

It was the first such approval given by the administration since Carter on July 19 ordered restrictions on the sale of all oil and gas exploration equipment to the Soviet Union.

## Weather

West Texas - Partly cloudy with widely scattered thunderstorms most sections today and tonight. Partly, cloudy Friday with widely scattered thunderstorms southeast. Warmer Panhandle and extreme west today. Highs mid 80s north and mountains to mid 90s Big Bend.

## Paul Harvey News

### Nuclear 'Chicken'

Paul Harvey soloed an airplane while still too wetwared to be licensed.

That's long enough ago to remember one of those wars back there when George Kenney had to hold MacArthur's airplanes together with bootlaces and surgical type and fence wire.

And I've hoped since that we'd never have to do that again.

Recently, in the cavernous underground of our Strategic Air Command in Omaha, I sat in the Eagle's Roost of the Command Center.

From the contour seat of the commanding general I observed the modern, computerized standoff we call "cold war"—the grim game of nuclear "chicken" on the high frontier.

And it was not reassuring that the average age of our SAC bombers is 20 years. We have gunners aboard who are younger than their B-52s.

We are modifying 20-year-old KC-135 tankers for surveillance. However ingenious and effective, the modernization is more makeshift than evolutionary.

This is not to imply that everything in our strategic arsenal is 20 years old.

The swing-wing FB 1-11—the Aardvark—is only 10 years old. It's little wonder Russia is in no hurry to sign a SALT treaty. While we had added no strategic weapons in a decade, Russia has multiplied hers by five times!

That we still have a fist in the face of the red bear—keeping him at arm's length—is no credit to the myopic misleaders who shot down the B-1.

It's because our military has been able to beg, borrow, copy, adopt and adapt rockets and devices and computers and hardware and components which were developed by American industry for the civilian space race.

Anything that "fell off" while we were on our way to the moon our hungry military found some use for. We are now contemplating adapting passenger planes to carry missiles.

So we have come a long way from the B-29.

We have intercontinental missiles and another one outcoming (from NASA research).

This coming season we are going to shuffle our strategic backfield, try the old hidden-

ball play. The Russians know how few intercontinental missiles we have; we will try to keep their satellite eyes from knowing where they are.

And there will be women added to our missile crews by next month, so it's not that we're doing nothing.

Recently I talked with some of the circling planes which never close their eyes over places like Keflavik and Guam and Nome—and I was back there with Churchill during the blitz appreciating how much so many owe so few.

Those star-wars guys underground and over the roof of the world are watchdogging our back doors with enough improvisation and determination so that we can still sleep nights—if only because of the American genius for "make-do."

But I can't help wishing they didn't have to.

Harvey, sounds like the brass got to you with their perennial protest that they need more, and more terrible, toys.

Okay. But please assure me that we will not take on Asia again—with bloody bayonets and marching men.

## Obituaries

### ALLISON LYNNE MILLER

Graveside services for Allison Lynne Miller, two-year-old daughter of a former Hereford couple, will be at 10:30 a.m. Friday in West Park Cemetery. Memorial services will follow in St. Thomas Episcopal Church at 11 a.m. Funeral arrangements are under the direction of Smith & Co. Funeral Home.

The child was born Jan. 26, 1976 in China Lake, Calif., to Lt. and Mrs. Bruce L. Miller, presently of Oak Harbor, Wash. She died Saturday in Children's Orthopedic Hospital at Seattle, Wash. after a short illness.

She is survived by her parents; one sister, Laurie, of the home; and her grandparents, Mr. and Mrs. Bruce L. Miller and Mr. and Mrs. Burke Inman Sr., all of Hereford.

Memorials in the name of Allison Lynne Miller may be made to Children's Orthopedic Hospital, Seattle, Wash.

### LANDRUM INFANT

Services for the infant son of Mr. and Mrs. Mark Landrum, 133 Ave. I, are pending with Smith & Co. Funeral Home.

The child was still born Tuesday at High Plains Baptist Hospital in Amarillo. He is survived by his parents.

## Vasquez

parents don't like for the children to better themselves? I didn't answer that. I thought he was joking."

Vasquez said an attorney "approached me" after he was not hired for the position but "I didn't hire him." He added that he never threatened to sue the board, in spite of reports to the contrary.

"The only thing I said to the board members is I was not going to apply for a second time."

"But I changed my mind because I am going to force them to hire somebody

that's more qualified than I am. If they don't, they're going to have to make a big excuse or to lie big.

"I'll be disappointed (if he is not hired) unless they hire somebody that's real qualified. But I'm going to predict the new juvenile probation officer is not going to be Mexican-American, is not going to be bilingual and is not going to be me."

Vasquez, who is 37, said he came to the United States from Mexico 13 years ago, worked in Hereford for a year with the

migrant ministry program, then moved to Amarillo. He worked as a counselor for Community Action in Amarillo then in an administrative position with Texas State Technological Institute.

Vasquez studied social work at West Texas State University.

He said that his being outspoken may cost him his assistant's job, but "I'm not scared to go back to the fields. There's one thing I want to always keep—my integrity...I have an obligation to speak up and say the truth even though it can cost me my job."

## Prices

products ready to be sold to consumers. At earlier stages of production, price increases also appear to be slowing down.

Prices of crude goods, such as farm products, iron ore, crude oil and natural gas, were down 0.6 percent in July.

Lower prices for farm products accounted for all of this decline, dropping 2.5 percent.

Prices of products halfway through the processing stage, such as steel, lumber, flour and motor vehicle parts, rose 0.5 percent, slightly below average for this year.

The Producer Price Index for finished goods, the leading measure of wholesale prices, stood at 195.9 in July. This means

that a product costing \$100 in the base period of 1967 cost \$195.90 last month.

In a recent report, the Agriculture Department said wholesale prices declined in July for cattle, hogs, corn, soybeans and lettuce. However, analysts said it may be September before the decline shows up in supermarkets.

Even with the decline, the department's Crop Reporting Board said the July prices were 19 percent higher than they were a year earlier. In June, the prices had hit their highest point in nearly five years.

So far this year, consumer prices have risen at a rate of 11.2 percent, if averaged over an entire year.

The Agriculture Department has said food prices should rise 10 percent this year but that most of the increase has already occurred.

A favorable inflation report is timely for the Carter administration, which has been trying to persuade labor and business to hold down wage and price increases.

Organized labor had accused Barry Bosworth, director of the president's Council on Wage and Price Stability, of unfairly blaming unions for inflation. At the AFL-CIO convention this week, the administration agreed to have a group of its officials speak out on wage increases, rather than Bosworth alone.

## Newspapers

Delivery trucks returned to their garages and truck loading bays were sealed with city police stationed as guards.

The strike is the latest in a rash of labor disputes which in the last 16 years have killed a half dozen New York City dailies. The longest and costliest resulted from a strike by Typographers Union No. 6 which started Dec. 8, 1962, and lasted 114 days.

"One of the most expensive costs has been in our pressroom," W.H. James,

publisher and president of the News, said as the Thursday issue of his paper sat silently on the idle presses.

Martin Fischbein, speaking for Post publisher Rupert Murdoch, said, "What we are seeking to do is not revolutionary." He said the attrition program the papers want to institute "has been done successfully in more than 160 cities across the nation." The program would include job guarantees for most full-time pressmen and wage increases over a three-year period.

The union views the attrition program

as a threat to the livelihood of part-time employees who work when needed for peak periods and fill in for regular pressmen absent from work. The part-time workers have votes in the union.

The Times and News - but not the Post - had offered an initial \$23 increase to the pressmen's weekly base pay of \$350.18 on the day shift and \$361.41 nights.

All three papers offered \$23 more weekly for the second year and \$22 more in the final years.

## European Farms

nations as France, Ireland and Denmark and thus more willing to take some heat from farmers. They are interested mostly in controlling how much money the policy costs.

Common Market officials say they will probably re-examine the policy this fall, an important step with Spain.

Portugal and Greece, all big farm producers, joining the Common Market in the next few years.

Already, the Common Market is taking some steps to cut stockpiles. Dairy herds are being transformed into beef herds, milk powder is feeding pigs and poultry, schools get bargain milk for lunches and consumers get cut-rat "Christmas butter" at year's end. Supports may be cut several months a year to discourage production.

But because of heavy farm lobby

pressure, stockpiles and high food prices may always be part of European agriculture. Mauroy, who himself belongs to a farm union's governing council, says that even with all the advantages Common Market farmers receive, "we have to keep working harder and harder just to stay in the same place."

Then, Henri Mauroy heads up a hill to meet his cows being herded back from pasture, connects his electric milking machine and starts producing still more milk in Europe.

## Cora Reclassified As Tropical Storm

MIAMI (AP) - Cora, still speeding westward across the open Atlantic, was reclassified from a hurricane to a tropical storm today with highest sustained winds estimated at 65 mph, the National Hurricane Center said.

Forecasters said the storm was about 700 miles southeast of San Juan, Puerto Rico, moving westerly at 20 to 25 mph. The storm was estimated early today at latitude 12.8 north and longitude 56.2

west. Gales extended as far as 100 miles from the storm's eye.

Cora was expected to pass near the Barbados Islands and through the Grenadines chain later today, hurricane forecaster John Hope said.

He said no appreciable change in strength was expected during the day.

Cora became the first Atlantic hurricane of the 1978 season on Tuesday and had reached winds of up to 80 mph.

## Tech Prof Talks On Solar Energy

Solar energy was the topic when Dr. John D. Reichert appeared as guest speaker for the Hereford Lions Club luncheon meeting Wednesday at the Community Center.

Dr. Reichert, an associate professor at Texas Tech, is the project director of the Crosbyton Solar Power Project. The research program on solar thermal electric power has been underway two years and was recently funded for two years.

In simple terms, Dr. Reichert explained that mirrors and glass in a spherical dish are used to focus the sun's rays, heating water in tubes and the resulting steam is used to power an electric generator. The project is currently developing a 65-foot dish for experimental purposes.

Dr. Reichert said research has shown that a 200-foot dish will be the most economical size.

## The Lighter Side

BOISE, Idaho (AP) - "C.L. 'Butch' Otter's campaign gimmick greenbacks look so much like Uncle Sam's real dollars that the Secret Service has told him to stop the presses.

Otter, one of six men seeking the Republican nomination, printed and distributed 120,000 bills with his picture on one side and a pitch for lower taxes on the other.

Secret Service Agent Mack Richardson said Tuesday that Otter was ordered to stop distributing the "bucks" and turn in the plates used to print

them. He said Otter reproduced the U.S. Treasury seal, plate quadrant numbers and check letters.

Technically, he said, Otter is subject to prosecution. However, Richardson said he would consider it a "technical violation" if Otter agreed to withdraw the bills.

North Idaho service station operator Robert Jarvis said that more than 30 of the Otter greenbacks were mistaken for the real thing at his automated gas pumps. Jarvis says he'll send Otter a bill for his losses.

## Tech Prof Talks On Solar Energy

with the power produced depending on the number of dishes. The project director showed a number of slides which outlined research graphs, as well as showing the project site in Crosbyton and some of the hardware being used.

"There are no unique factors at Crosbyton which resulted in the site being selected," said Dr. Reichert. He added that it was a typical West Texas town and officials there had expressed an interest in the program when it was first being studied.

Herschel Black served as program chairman for the Lions. He introduced Clint Formby, a Texas Tech regent from Hereford, who introduced the guest speaker.

A number of visitors and guests were recognized at the club meeting, and Paul Buck was introduced as a new member.

## LEBANON, Tenn. (AP) - A bumper crop of marijuana plants plucked from the ground near four local car washes has prompted police to start keeping a keen eye on the dumping of cigarette butts from car ash trays.

Officer Joe Eatherly and Detective Terry Ashe acted on a tip and found about 30 plants - one 9 feet tall. The illegal weed was growing in soil littered with cigarette butts.

"We believe they were growing where people had dumped ashtrays from the cars," Ashe said Tuesday. "I don't think they were planted."

No arrests have been made and authorities attributed the plants' healthy growth to a regular supply of seeds from the ashtrays.

"We'll continue to watch the car washes and try to keep the marijuana pulled up because now that the news is out people will be after it," Detective Gene Murray said.

JACKSONVILLE BEACH, Fla. (AP) - A surfer warned several times to move away from the Jacksonville Beach fishing pier found the reason why the hard way.

Police said the surfer, 23-year-old Charles Harkins, became entangled in the fishing line of C.A. Thompson. Thompson helped extract the fishhook from Harkins' leg and then arrested him for violating an ordinance forbidding surfing within 300 feet of the pier.

Thompson is a policeman who was fishing on his day off.

## Accident

on the right side, was thrown back onto the road and headed towards the left side of the road. The car then went off a 10-foot embankment and landed in a dry-lake bottom, according to reports.

The child, Christopher White, was treated for a bump on the head at Deaf Smith General Hospital and released. Mrs. White was observed overnight at the hospital and released today after reportedly suffering minor injuries, including a blow to the head.

# Close-Knit Family Ties Meaningful to Mrs. Ray

By DIANNE BANNER  
Brand Staff Writer

Born and raised in Hereford by her parents, Mr. and Mrs. Walter Hodges Jr., Iris Ray fits the atmosphere for which Hereford is well known -- friendliness.

The mother of three, Mrs. Perry Ray "believes in the future" and said "People can't go on worrying about their problems they have today, there's got to be a better tomorrow. So many young people worry about things they can't do a darn thing about, they need to realize this and pass it on."

A firm believer in family unity, Mrs. Ray said "parents who raise a close-knit family and build activities around their children to let them know they are loved generally don't have as many problems with their children as those who don't make time for their children."

"Perry and I have always taken our children with us. How are they going to learn about life if they're not exposed to it?"

But, the religious woman doesn't take all the credit for having a happy family.

"We have to give the Lord credit for our children's actions. He's been good to us," she said.

The Rays are members of Wesley United Methodist Church.

Mrs. Ray is employed by L&M Enterprises and says she used to "love to cook" when she had the time but now she likes "all these quick and easy dishes."

Her 20-year-old daughter, Jana spends her extra time in the kitchen and has lightened the meal-time load for her optimistic mother.

"All of my children help Perry and I with house work.

They are good kids," she said. Her 19-year-old son, Joe, is like his father, who is active and enjoys the outdoors.

During the summertime, the family camps in Colorado, where Ray was raised.

The youngest of the three, Randy, 12 is an animal lover, keeping three snakes and a gold fish tank in his bedroom.

The small clan has an interest in raising fish and has a 100 gallon aquarium in addition to a 55 gallon tank of tropical fish and a 55 gallon fish home for catfish and a crawfish.

Along with fish, Mrs. Ray has numerous other hobbies such as horticultural care, crewel embroidery, crocheting, reading, bicycling and sewing.

"I think that everybody needs to have a hobby!" she said. "I can come home from a hard day's work and start sewing and feel wonderful with the world."

Her husband is self-employed by Park Avenue Barber Shop and trims poodles at The Pet Stop.

Cooking favorites of Mrs. Ray's are:

**QUICK AND EASY SPAGHETTI AND MEAT SAUCE**

- 1 lb. hamburger meat
- 2 cans tomato sauce
- 1 bay leaf
- Garlic salt to taste
- Make meat balls about 1 to 1 1/2 inch and put in pan with tomato sauce, bay leaf and garlic salt. Cook slowly about 40 min. Pour over cooked spaghetti and serve with hot bread.

**PINEAPPLE CHESS PIE**

- 1 C. sugar
- 2 egg yolks
- 3/4 Tbls. flour
- 1 small can crushed pineapple
- 2 egg whites
- Cream together oleo and sugar. Add egg yolks and mix well. Add flour, then the

crushed pineapple fold in well beaten egg whites.

Bake in uncooked shell at 400 degrees for 10 min. Reduce heat to 300 degrees and bake for 30 minutes or till nicely brown.

## Miss Castro Sponsoring Dance Here

DIANA CASTRO

Miss Diana Castro, one of the candidates for the queen of Fiesta la Patrias, will be sponsoring a dance Friday night in Knights of Columbus Hall. Scheduled from 9 p.m. - 1 a.m., the dance will feature the music of a live band, "Montana," a group from Mexico City.

Advance tickets are available from Miss Castro at a price of \$4 per single and \$7 per couple.

Proceeds of the dance, as well as all queen campaign projects, go directly to San Jose Catholic Church.

**TOGETHERNESS**  
PROVIDENCE, R.I. (AP) — When Frances Syner and her sister-in-law, Jean Keough, each became pregnant they began a mutual routine.  
"Our very first prenatal visit we went together, and every one all the way through," Mrs. Syner said of their visits to Dr. Vito Coppa.  
Recently, at a local hospital, Mrs. Keough gave birth by

Caesarian section to Elizabeth Anne, 7 pounds, 2 ounces. Some 10 hours later at the same hospital, Mrs. Syner gave birth to Catherine, 7 pounds, 9 ounces.

Jackson is the largest city in and the capital of Mississippi.

Jefferson City is the capital of Missouri.

## Mrs. Matthews Cited by TOPS

Dixie Matthews was awarded most of the attention by her fellow members of TOPS Chapter #1011 during the regular meeting Monday evening at the Community Center.

She was chosen by her peers as "Miss Inspiration" and, because she lost the most weight during the month of July, earned the title of "Loser of the Month." Mrs. Matthews shed 37 pounds to reach her weight goal. She now has achieved the status of KIW (KOPS In Waiting). KOPS stands for Keeping Off Pounds Sensibly.

TOPS Chapter #1011 meets at 6 p.m. each Monday at the Community Center. All interested individuals are welcome to attend.

## Ashleys Visit Local Couple

Lieutenant Colonel and Mrs. Adrian A. Ashley and daughters Dana and Julie are visiting Mrs. Ashley's parents, Mr. and Mrs. E.W. Young.

The Ashleys are enroute from Tehran, Iran where they have been living for the past two years. They will be living in the Washington, D.C. area.

While in Hereford, they also visited with Mrs. Ashley's sister and brother-in-law, Mr. and Mrs. C.E. Leasure, her brother and sister-in-law, Mr. and Mrs. Virgil Young of Amarillo, and other relatives in the area.

# Bananas, Eggs, Grocery, Bargains

COLLEGE STATION - Best buys at Texas grocery markets this week include eggs, bananas, some fresh vegetables, store "features" and dry milk products.

Also, fryer chicken features offer low-cost meat choices, according to Gwendolyn Cly-

att, a consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

This week's price-quality trends are the following:

**FRESH FRUIT** - Along with bananas, watermelons have

reasonable prices. Peaches have moderate prices. Lower prices appear on Thompson seedless grapes and nectarines.

**FRESH VEGETABLES** - Most economical choices are carrots, cabbage, corn, cucumbers, squash and dry yellow onions. Onions from the Texas High Plains have excellent quality.

Lettuce supplies are reported back to normal levels.

**GROCERY MARKET AISLES** - Features include peanut butter, catsup, tuna, pasta products, dry milk products--and jelly making and canning supplies.

**BEEF** - Although specials are few and far between, there are some on chuck cuts, sirloin steak, ground beef and liver.

In general, for the most value from a "meat dollar," buy chuck cuts, liver and sirloin tip roasts. Ground beef and T-bone steaks are also suggested.

**PORK** - Good values are available on some smoked and canned hams.

Features include hams, bacon and frankfurters for smoked items.

Fresh pork specials focus on Boston butts, and chops, rib-end and loin-end roasts and liver.

**DAIRY** - Thirty buys appear on a variety of milk and mild and sharp cheeses.

**CONSUMER WATCH-WORDS:** Eggs offer high-quality protein at less than 45 cents per pound--when a dozen of large eggs costs 68 cents.

Abraham Lincoln was mustered out of the Illinois militia in 1832.

Artist James McNeill Whistler was born in 1834.

**G. E. D. TESTS**

Will be given next at Hereford School Administration Building August 21 and 22, 8:30 A.M. both days. It takes a day and a half to take the five tests.

## Homemakers Install Officers

The Hereford chapter of Young Homemakers of Texas met Tuesday night at K-Bob's Steak House to install officers for the 1978-79 club year.

After supper, the installation ceremony was conducted by Janis Kelly, who utilized the theme "Touch of the Master's Hand" as she charged each new officer to "use her hands as instruments for carrying out the goals of the Young Homemakers."

Placed in office were the following: Linda Goss, president; Cara Dearing, first vice president; Brenda Campbell, second vice; Deana Beames, third vice; Gail Blain, fourth vice; Shirley Carlson, fifth vice. Mrs. Carlson served as president of the local chapter year.

Advisor of the chapter is Mrs. M.T. Burlsmith. Little Sister for the coming year will be Miss Janie Rodriguez.

The installation program concluded with music written and performed at the piano by Mrs. Dearing.

In other business, projects for the coming year have discussed with emphasis placed on the YHT's membership drive next month. Also, members were reminded that the next regular meeting is scheduled Sept. 5 at the Church of the Nazarene.

## Ann Landers Money Gift Is Practical

**DEAR ANN:** I sincerely hope you'll print my letter because I respect your opinion and I really need it. I just received a birthday gift from my parents which was, predictably, money. This is what they give us (my brothers and me) for EVERY occasion - weddings, birthdays, even Christmas.

To me, a gift of money means, "We don't really know what you want, and we don't care enough to find out." They obviously feel obligated to give us something, but it doesn't mean anything when they hand over cash...at least not to me.

Am I being ungracious? -- N.B.

**DEAR ANN LANDERS:** My neighbor has a heart of gold but she also has an abrupt, abrasive manner that makes her seem uncouth. She never asks -- it's always a command -- "Get me this." "Hand me that." I can tolerate her lack of grace but I don't think I need to take it from her 15-year-old son.

Last night he showed up at the front door and said, "Mom wants you to give her a cup of

sugar."

I replied, "I'd be happy to, but don't you think it would be nice if you said please?" The boy looked at me like I was crazy.

My husband heard the exchange and later told me it was not my place to try to teach the neighbor kid manners. Right or wrong? -- Just Me

**DEAR JUST:** I'm not at all sure you CAN teach the kid anything. Children imitate the day-to-day language they hear at home. But I see nothing wrong with letting the lad know that there is a better way to ask for things.

**DEAR N.B.:** Probably. But the larger problem is lack of communication. First: How close are you to the giver? I can think of no closer relationship than parents. So -- why haven't you told them how you feel?

For many, money is the most practical gift of all. It eliminates the possibility of wrong sizes, wrong colors, or just plain something you don't want, need or like. Some people would rather have a gift of money because they can then buy something they want (or need) but cannot afford.

True, a gift selected with care and thought is a warm compliment, but some people put practicality ahead of sentiment. Resolve this problem by discussing it with your parents. Tell them how you feel. If after the talk they agree to do it your way and you wind up receiving white elephants, you have no right to complain.

**DEAR ANN LANDERS:** No lectures on morality, please. I'm not asking you whether or not I should continue to sleep with this man. I have already decided that he is better than nothing. Now to the problem:

The guy's toenails are like razor blades. I get up some mornings and feel like I've been stabbed. I have mentioned this to him a few times, but he does nothing about it. I need help.

Clawed-A-Plenty

**DEAR CLAWED:** Buy King

## At Wits End

BY ERMA BOMBECK

"Well," I said to my husband as he crawled into bed, "I hope you're satisfied. Your son is gone."

"You act like it was my idea," he said.

"Don't tell me you didn't encourage him to leave."

"All I said was he is old enough to develop some kind of independence."

"If anything happens to him, let it be on your conscience."

"What kind of crack is that? You went along with it."

"Only because I didn't want to remember us screaming and shouting at one another. If he just had someone with him..."

"Stop worrying. If everything weren't going well, we'd hear."

"The dog misses him already," I said. "He's in the utility room whining."

"Oh for crying out loud."

"I went by his room tonight. It was so...so picked up. I never knew he had a double bed before."

"Go to sleep and stop torturing yourself."

"Did you hear something?" I asked bolting upright.

"What did it sound like?" he asked.

"I don't know."

"What you mean you 'don't know.' Everything has to sound like something for pete's sake."

"If I hear it again, I'll tell you."

"If you don't know what it is, then how will you know when you hear it again?"

"Are you trying to pick a fight with me, because if your conscience is bothering you, take it out on someone else. Admit it! You're worried, aren't you?"

"No."

"You're worried that you sent your son out into a world crawling with murderers, pervers, sex fiends and robbers who would tap you on the head with a tire iron for 35 cents."

"Will you go to sleep?"

"Did you leave the front door open?"

"No."

"I'm going down and open it. Just in case he should come home in the middle of the night. You know how he never carries his keys."

"That tears it," said my husband throwing back the covers and sticking his head out of the bedroom window. "Hey Buddy!" he yelled in the darkness. "Everything okay out there?"

A sleepy head poked through the tent flap. "Aw c'mon Dad, you promised you'd let me camp all by myself."

Keeping in shape for the upcoming school tennis program Wednesday was Ruben Vargas, 17, [left] returning a volley from his partner-opponent Roy Rodriguez, 16, shown on the opposite page

returning a backhand. Both Hereford players were not the only ones out hitting a few balls, as the cool weather tempted many others out to play.

## Grambling State Placed On One-Year Probation

MISSION, Kan. (AP) - Grambling State University has been placed on a one-year probation for violating Collegiate Athletic Association regulations in its football and basketball programs.

The probation, which was announced by the NCAA's Committee on Infractions,

prohibits the Grambling football and basketball teams from participating in any post-season competition or appearing on any NCAA-controlled television program during the upcoming academic year.

In a summary of the violations, the NCAA said that Grambling Athletic Director Eddie Robinson, who is also the head football coach, loaned small amounts of cash to student-athletes for personal expenses from 1959 until the 1976-77 academic year. Robinson has been athletic director and football coach at Grambling since 1941.

The NCAA also says that the cash reserve was not administered by the university, but was established and administered by Robinson, and its only purpose

was to loan money to athletes. The NCAA panel also said Fred Hobby, assistant athletic director and head basketball coach at the school for 20 years,

### Western Names Coach

Joe Cushing was named as women's basketball coach by Western Texas College in Snyder Wednesday.

Cushing coached women's basketball and track at Forsan last season after coaching at Bellville for four years.

Under Cushing's guidance, Forsan won district titles in both sports while Bellville claimed the state track championship in 1976.

used department and university booster club money to pay a student-athlete's bill at a clothing store in 1971 and another athlete's personal transportation costs in 1975. During the 1975-76 school year, the athletic department business manager loaned a student-athlete department funds so the athlete could pay a personal electric bill, the NCAA said.

From 1972 until 1975, the NCAA said, nine different checks were issued to athletic boosters to pay expenses incurred in recruiting prospective student-athletes. Four of those checks were charged to an athletic department account and five others were charged to a university booster club account. End advance for release 7 a.m.

## Says Billy Martin...

# Resignation Move Caused By Jackson

NEW YORK (AP) - Billy Martin is still annoyed with Reggie Jackson, but all of a sudden, less than two weeks after their latest kiss-and-make-up session, the New York Yankees appear annoyed with Billy Martin.

And just when it seemed that all was going to be peaceful and serene until Martin reassumes the managerial reins in 1980, the turmoil and controversy that has turned Yankee Stadium into a second Bronx Zoo resurfaced all over again.

The latest furor ignited Wednesday when Martin, with the knowledge of club President Al Rosen, summoned a handful of hand-picked writers to a question-and-answer luncheon session.

And over the spaghetti, ravioli and steak pizzaiola, Martin said that anger over Jackson's actions upon his return from a five-day suspension prompted him to resign as manager of the Yankees and to utter his ill-advised "liar" comments about Jackson and owner George Steinbrenner. "I'll have to ask my parents if I was born a liar," Jackson said wearily Wednesday night. "But

other than that moment I've been saying all year - I have no comment and I have nothing bad to say about anybody."

However, the controversial slugger was summoned to Steinbrenner's office less than an hour before Wednesday night's game with Milwaukee.

"He did the talking and I listened," Jackson said. "I respect George Steinbrenner and that's all I'm gonna say. I know what I said and what I feel but what he told me he told me in confidence."

Reached at his New York hotel early today, Steinbrenner said his talk with Jackson was "strictly for encouragement because he was in a 2-for-23 slump and the team needs and depends on him."

All Steinbrenner would say about Martin's luncheon remarks was that they "didn't accomplish a darn thing."

Asked if the Jackson situation was the reason he resigned, Martin replied:

"Basically, that's true - that and a slip of the tongue, saying something I didn't want to say and didn't think would be printed. I didn't mean it about George and I probably said it in

jest, but I did mean it about the other guy."

Martin also scuttled reports that he is suffering from a problem with his liver.

"My health is good enough now that I could manage

tomorrow if I wanted to."

Until he replaces Bob Lemon as manager of the Yankees in 1980, Martin will serve as a consultant to Rosen, evaluating players in both the major and minor league.

## The Hereford Brand SPORTS

## Dodgers Post 3-Zip Win

LOS ANGELES (AP) - Dusty Baker slugged a solo home run, double and single and Johnny Oates drove in two runs with a bases-loaded single to back the five-hit pitching of Doug Rau Wednesday night as the Los Angeles Dodgers posted a 3-0

victory over the San Diego Padres.

Baker hit his ninth homer in the second inning off loser Eric Rasmussen, 10-9. Oates followed a single by Ron Cey, double by Baker and an intentional walk to Rick Monday with his two-run single in the fourth inning.

Rau, 11-7, did not allow the Padres a hit after the third inning after he pitched out of his only jam of the night. The Los Angeles left-hander struck out seven and walked only two in gaining his second shutout of the year.

Rau has won four of his last six decisions against San Diego.

The complete game was the fifth straight by Los Angeles hurlers. The victory moved the third place Dodgers to within a game of first-place San Francisco in the National League West and within half a game of second-place Cincinnati.

## NFL Unhappy About NY's Lottery

NEW YORK (AP) - A new lottery based on points scored in professional football games will be operated by New York State during this fall's National Football League season, and the NFL is none too happy about it.

The lottery, unveiled Wednesday by John Quinn, director of the state lottery, will be a form of numbers game in which winning is determined by the points scored each week by the

state's three teams - the New York Giants and Jets and the Buffalo Bills - plus the two teams that meet in the Monday night game.

The lottery tickets, going on sale beginning Aug. 22, will cost \$1 each. There are three prize categories: \$20, \$200 and \$10,000. A winner of a \$10,000 top prize also gets a free football weekend: air fare, hotel, meals and two tickets to a major

college football bowl game. The football lottery will run for 16 weeks, the length of the NFL season. Each ticket has five spots to be rubbed off, revealing a number beneath. Since the numbers are hidden, tickets can be bought before or after the games have been played. The object is to have the hidden numbers match the last digit of the points scored by each team.

## Regulars To Start...

# Pokes Scheduled Against Denver

THOUSAND OAKS, Calif. (AP) - The Dallas Cowboys will go with their starting lineup most of the way in their battle Saturday in Denver in a rematch of Super Bowl XII. Coach Tom Landry said.

"Some of the regulars will probably play as much as three quarters. I think the national television and the 'Orange Crush crowd make this a little different from most pre-season games," Landry said.

Landry said he probably will go with quarterback Roger Staubach the first half and

alternate among Danny White, Glenn Carano and possibly rookie Ken Smith the last half.

Although he said veterans will play much of the game in the effort to beat Denver, Landry added that the new players will see action.

With 71 players in camp, plus holdout kicker Efrén Herrera also on the roster, Landry must cut the roster by 12 players next Tuesday to meet NFL 60-player limits.

"This makes Saturday's game extremely important for a lot of our guys, especially the

rookies and young players who are battling for back-up jobs," Landry said.

"Even though I'm going to give the starters a lot of work, we'll need to look at those younger players as much as possible during the Denver game."

Skip Butler, the No. 2 all-time scorer for the Houston Oilers in the six seasons he spent there, was in the Cowboys camp Wednesday for a tryout as a kicker.

## Rain Postpones Golf

The Hereford Junior Golf tournament's conclusion was postponed here Wednesday.

Golf pro Mike Horton said the rain halted the final day of the annual event. He said the final day of play would be today, providing more of the wet stuff doesn't fall.

Horton said about 30 youngsters participated in the tournament this year.

The men's all-city Golf Tournament is this weekend and Horton said registration has been slow so far.

Entry fee is \$20 for the Saturday and Sunday play.

# Minnesota Fats Legend Strong

While guests sipped coffee and juice and watched specialists entertain with trick shots, Ursitti was hit with the inevitable question:

"Will Minnesota Fats compete?"

"No," replied the promoter, nettled that people continue to be snowed by legend. "Fats doesn't play in tournaments. He is a hustler, a trick shot artist."

"He's a great man, but he couldn't stand up to these guys."

He pointed at Allen Hopkins of Cranford, N.J., the current world champion; slim Peter Margo of Staten Island, ranked No. 2, and Steve Mizerak, the

Metuchen, N.J., school teacher who is the only man to win the U.S. Open four years running.

"Fats' real name, you know, is Rudolph Walter Wanderone. He grew up in this area and was known as 'New York Fats.' Hollywood gave him the tag 'Minnesota Fats.' It was more euphonious. Hollywood made him famous with the movies 'The Player' and 'The Hustler.' He now lives in Dowell, Ill."

Ursitti said Fats, who once weighed over 300 pounds, was the ultimate pool hall hustler. "He's played for as high as \$250,000 stakes," Ursitti said. "He carries fifty \$1,000 bills in his pocket at all times. But most

people say Ralph Greenleaf and Willie Mosconi were the greatest.

"Bruce Christopher is supposed to have had a run of 5,688 balls. Guinness put it in the record book but is pulling it out. The most I've heard of is around 500 or 600."

## SA Downs El Paso 1-0

By The Associated Press  
Mort Nipp came within two outs of pitching a no-hitter Tuesday night in San Antonio's 1-0 Texas League baseball victory over El Paso.

In other action, Midland trounced Amarillo 13-4. Arkansas edged Tulsa, 6-5, and Shreveport's game at Jackson was postponed because of rain.

Nipp gave up only one hit, a fluke one-out single in the bottom of the ninth, by Terry Staty. Staty's hit bounced off Nipp's leg and glanced in the direction of third base. A throw to first was too late and Nipp missed his chance for a no-hitter. His record is now 4-2. Steve Eddy, who surrendered only three hits, took the loss for the Diablos. He is now 5-9.

San Antonio's lone run came in the fourth when Charlie Meyers singled home Ron Roenicke, who had reached on an error.

Eric Grandy drove in five runs as Midland coasted to a 13-4 victory over the Amarillo Gold

Sox. Amarillo's Don Ilersten had a two-run homer. Jeff Albert, now 8-9, was the winning Cubs pitcher. Gary Pickert's record dropped to 5-12 with the loss.

Dave Bialas' two-run homer aided the Arkansas Travelers in their come-from-behind 6-5 victory over the Tulsa Drillers.

## Leagues To Form Soon

An organizational meeting will be held here Tuesday, Aug. 15, to begin forming winter bowling leagues.

The meeting will be held at the Hereford State Bank at 7:30 p.m.

A spokesman for the group said the league will begin August 30 and include the Hustling and Major leagues.

He said the Summer League will end play August 23.

"One man's fault is another man's lesson." H. G. Bohn

# Astros Edge Giants 6-5

SAN FRANCISCO (AP) - "The way the game began was funny, real weird," said Houston relief pitcher Ken Forsch.

Funny to the Astros, maybe, battling to get out of last place in the National League West.

They got off to a 4-0 lead in the first inning Wednesday as the San Francisco Giants committed a balk and two errors, including one by pitcher Jim Barr, got another run on a four-base error in the seventh and posted a 6-5 victory over the division leaders.

"These games do happen," said Giants Manager Joe Altobelli, whose team won the night before with the help of brilliant fielding. "We've just got to forget it and think about what's coming up."

With a loss they'd love to forget behind them and their lead down to a half-game over the Cincinnati Reds, the Giants moved to Los Angeles for tonight's opener of a four-game series with the third-place Dodgers, also within striking distance of first place.

"Speaking as a pitcher, I think Cincinnati is the best of the three teams because they have such great hitting," said Forsch, who saved Wednesday's victory for Mark Lemoncello, 8-10, by retiring the dangerous Jack Clark on a

popup, leaving a runner at third base.

Clark belted his 18th home run of the season, cutting the Houston lead to 4-2 in the first, but he also made the game's most costly error. He dropped Terry Puhl's fly ball to right field in the seventh, and Puhl scored as Clark chased the ball.

"The sun was no different than it always is, but I guess it was a factor," said Clark, whose disappointments also included popping out with the bases loaded in the fifth.

A major league fielding record was tied Wednesday - obviously not by the Giants.

Lemongello tied the mark for putouts by a pitcher, five, and said later, "All I know is that I was running back and forth to first base a lot."

He ran to first to take six throws from first baseman Bob Watson, but his foot missed the base on one of the plays.

Enos Cabell, who went 3-for-3 before leaving the game with an upset stomach, was Houston's hitting star. Terry Whitfield belted a two-run homer in the eighth to cut the Astros' lead to 6-4, and the Giants scored once in the ninth before Forsch stopped them.

"It seems like all the games we've won have gone that way," said Astros Manager Bill Virdon.

# Al Unser Just Happy To Win at Indy 500

**HARRIGAN**  
AP Sports Writer  
LOS ANGELES (AP) - A world driving championship on the grand prix circuit, or one more Indianapolis 500 victory - which would you rather have, Al Unser?

"The Indy 500," Unser replied without any hesitation when the question was posed Tuesday during an appearance to promote the California 500 race Sept. 3 at Ontario Speedway near Los Angeles.

"It would take a good five years to learn all you need to know about the tracks in Formula One racing. I just don't want to go across the pond and try that. There's enough races here in the U.S.," said the 39-year-old who won his third Indy 500 this year.

Following Mario Andretti's highly-successful shift to Formula One racing the past few years, "just wouldn't be my bag," Unser said.

Andretti is the 1978 leader in the Formula One driving standings, concentrating on those events while returning to U.S. races only when time permits.

"Mario likes all that traveling. It's not that I can't drive on the road courses. It's that I can't put forth the total effort to run an entire circuit."

Unser also said that if the Grand Prix Circuit "had a \$1 million event like Indianapolis, then that would be their one big shot" - bigger than their driving championship.

Unser won the 1977 Labor Day weekend race at Ontario and he also captured the first two legs of the 1978 USAC "triple crown" of 500 milers when he won the Indianapolis and Pocono events.

"I've won all three in a row, just not in the same year," Unser said.

"I've crashed in every corner at Indy," Unser said of his 13 years in the premier USAC race, but he was not involved in any of the huge, first-lap smashups which led to moves to improve safety in the sport.

An older brother, Jerry, was killed in an Indianapolis crash in 1959.

"About that time, 1959 and 1960, they started jumping on safety real heavy," Unser said. "Now the cars are safer, tires are safer, clothes and helmets are safer."

"And the drivers are realizing you don't win a race in the first lap. There was no particular reason for those big crashes at Indianapolis, it was just bad days. You have bad days at work. It was bad days at the racetrack."

Unser's father and uncle were race drivers, his older brother Bobby is a past Indy 500 winner and now a third generation of Unser's is entering the field at the family's home base in New Mexico.

Bobby Unser has a 22-year-old son who has become a race driver. And Al Unser Jr. "has been racing spring cars. He's just 16 years old but he won the

first feature last Friday night at Albuquerque," the proud father said.

"He started in go-cars when he was 7 years old. I'm teaching him what racing is about. I'm all for it 100 percent if that is what he wants to do," Unser said.

"It's a hard life. But it's very rewarding if you're good at it. If they took away all the money in racing, I'd still do what I do."

## Player Wants More Popularity

INDIANAPOLIS (AP) - Nineteen-year-old John McEnroe says he is playing in the 68th U.S. Open Clay Courts tennis championships with a new attitude designed to make him more popular with fans who have booed his antics around the world.

"I regret a lot of things I've done," said the 1978 national collegiate champion who joined the pro ranks this summer. "Before, I always thought I should question a linesman's call when I felt it was wrong. But now I realize they (the fans) don't want that."

McEnroe, a semifinalist at Wimbledon as an amateur in 1977, made the comments Wednesday after advancing to the third round in the men's portion of the \$210,000 tournament.

McEnroe, of Douglaston, N.Y., seeded sixth, defeated Victor Amaya 5-7, 6-2, 6-3 on a day all seeded players in the men's tournament advanced.

Top-seeded Jimmy Connors, No. 2 Guillermo Vilas of Argentina, No. 3 Manuel Orantes of Spain and No. 4 Corrado Barazzutti of Italy, each scored straight set victories along with No. 7 Jose Higueras of Spain, No. 10 Jamie Fillol of Chile and No. 16 Phil Dent of Australia. No. 11 Adriano Panatta of Italy and No. 12 seed Balazs Taroczy of Hungary both advanced in three sets.

In the women's bracket, seven of the eight quarter-final spots were filled by sixth-seeded Jeanne Evert, eighth-seeded Jeanne DuVall, Argentina's Viviana Gonzalez, Kate Latham, 17-year-old Caroline Stoll, Val Ziegenfuss and Dana Gilbert. Gilbert, who was listed 138th in recent rankings by the Women's Tennis Association, upset second-seeded Virginia Ruzici, the 1978 French Open champion from Romania, 6-3, 6-4.

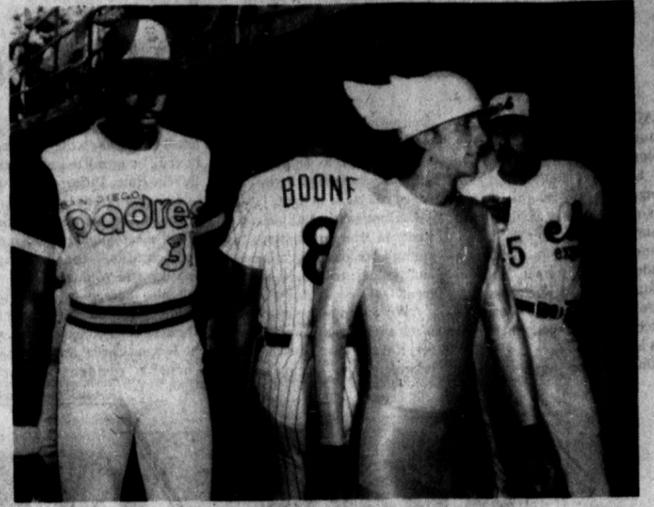

"I'm going to do the best I can to change the fans' attitude

toward me," said McEnroe. "I told myself that last week after the crowd really got against me in South Orange N.J."

An observer remarked that McEnroe's actions had earned him a comparison with Romania's Ilie Nastase, who is currently under suspension by the Association of Tennis Professionals for his actions. "I've always admired Nas-

tase, but not for his behavior. I want to be known for my tennis ability, not for my behavior."

"I'm an emotional individual. It's not going to be easy fighting them, but I realize temperamental outbursts are distracting from my game. It doesn't make sense for me to do that," he said.

THE ANNUAL ALL-STAR Game is seldom much of a fashion show; dress typically ranges all the way from Yankee pinstripes to Red Sox white socks. But this year turned out to be different as sportily attired "Mercury" appeared in the National League dugout. Despite the potential of Mercury-style wings for speeding around the bases, Dave Winfield of the San Diego Padres (left), Bob Boone of the Philadelphia Phillies (center) and Steve Rogers of the Montreal Expos seemed unready to adopt the new look. Mercury attended the mid-summer classic to present free flowers to spectators - including former President Ford - courtesy of Florists Transworld Delivery (FTD).

### Sports Shorts

**TIGER SYSTEM**  
DETROIT (AP) - The Detroit Tigers are on the way back in the American League, and they have done it with a squad of youngsters, most of whom have graduated from their farm system.

"With the enormous sums baseball has been throwing at free agents and veterans," Manager Ralph Houk explained, "I think the only sensible way to go today is with your farm system."

"For one thing, you eliminate a lot of internal problems, like jealousy. For another, when you give a kid a chance to play, you know he will hustle."

The capital of Nevada is Carson City, and Las Vegas is its largest city.

Concord is the capital of New Hampshire.

Lincoln is the capital of Nebraska. The largest city in Nebraska is Omaha.

### Sports Shorts

UNDATED - Pete Rose's exciting if abortive pursuit of Joe DiMaggio's 56-game hitting streak has revived a once popular parlor pastime - record searching. Other sports "too" have their "seemingly" insurmountable Mt. Everest.

NEW YORK - The New York Yankees appear to be annoyed with Billy Martin again - less than two weeks after their latest kiss-and-make-up session.

SUTTON, Mass. - John Mahaffey, still on Cloud Nine after shooting from virtual oblivion to pro golf stardom, makes his debut as the new PGA champion in the opening round of the \$225,000 Pleasant Valley Classic.

UNDATED - Major league baseball, riding the crest of a successful season, is making a pitch for more exposure and more dollars from the television networks.

### Ailing Decision Due by Detroit

DETROIT (AP) - The scheduled return of Mark "The Bird" Fidrych has been canceled and the Detroit Tigers were still trying to decide today whether to sideline the ailing hurler for the remainder of the season.

"No decision has been made and won't be made until ... this morning," Tiger General Manager Jim Campbell said Monday night. A news conference was scheduled for 10 a.m. today.

Campbell said he could neither confirm nor deny reports that Fidrych will not pitch again this year.

Fidrych had been scheduled to pitch Wednesday night against the Texas Rangers.

On Saturday, Fidrych pitched only one inning for the Tigers' farm team in Lakeland, Fla.

Lakeland Manager Jim Leyland pulled him from the contest after Fidrych threw just eight pitches and complained that his shoulder was stiff.

Fidrych was 2-0 this season before his shoulder problem of a year ago - officially diagnosed as tendonitis - flared up again. He has been pitching his arm back in shape in Florida.

Fidrych returned to Detroit on Sunday and was examined Monday by Dr. Edwin Guise at Henry Ford Hospital. The Tigers team physician, Dr. Clarence Livingood, sat in on the examination, but declined to comment on his finding.

But The Bird said he does not know whether he is out for the season.

**BODY BALANCE**  
ROCKVILLE, Md. (AP) - At 72, Frank "Buddy" Goeltz is ranked first in both singles and doubles in the 70-year-and-over ratings by the U.S. Tennis Association.

Goeltz, a longtime teacher, tells pupils that the best way to control a shot is to get in position to let the ball hit the racket, producing the force by leaning forward as you make contact.

"I control my contact with my body balance," he explained. "It's not important to follow through."

**DOUBLE TROUBLE**  
ROCKVILLE, Md. (AP) - Talk about double or nothing - Tom Brubeck of Silver Spring, Md., had that in a shot he made at the Redgate Country Club.

**ROOKIE ALL STARS**  
NEW YORK (AP) - The National Basketball Association coaches believed that the All-Rookie team which they selected for the 1977-78 season was one of the strongest ever in that category.

The team was made up of Walter Davis of Phoenix, Marques Johnson of Milwaukee, Bernard King of the New Jersey Nets, Jack Sikma of Seattle

# GIC To Investigate State Insurance Department

AUSTIN, Texas (AP) - The House General Investigating Committee will hold three days of hearings next week on allegations of favoritism and mismanagement at the State Insurance Department.

Included will be charges made by two former Houston insurance agents who claim they were the fall guys in a scheme hatched by a company that since has left Texas.

One of the agents whose

licenses were revoked in 1975, Daniel Hurlbut, said he wanted the committee to subpoena two witnesses, adding, "New evidence has come to light."

Hurlbut and A.C. Hovater went to the committee this spring after losing their licenses and failing to win reinstatement.

"We want to develop the full facts of the complaint you and Mr. Hovater have made.... If the information is detrimental to

you, we are going to be just as harsh on you as on the insurance board," committee chairman DeWitt Hale, D-Corpus Christi, told Hurlbut Wednesday.

The committee posted notice it will meet Monday at 2 p.m. and continue the hearings Tuesday and Wednesday.

It also agreed to meet this month in Corpus Christi to hear witnesses with complaints about the Corpus Christi State School, where a resident recently

drowned in a shower.

"With that, we would probably end public hearings on MHMR the Texas Department of Mental Health and Mental Retardation and we would probably get around to writing a report," Hale said.

He said committee investigators, armed with subpoenas for documents, had looked into complaints at the Richmond State School and planned to delve into files of the Mexia

State School.

Both institutions have been targets of accusations of inmate abuse.

David Spencer, committee counsel, said he had obtained files of both Travis County grand jury and attorney general's investigations of facets of the insurance department.

"We are doing a follow-up to see what problems there might be that could be remedied by

legislation," Spencer said.

Hale said the grand jury, which indicted former insurance commission Joe Hawkins on perjury charges last summer, felt it had "gone as far as it could go from the standpoint of unearthing criminal violations."

"They did feel there were administrative deficiencies in the insurance department that would warrant this committee probing further, Hale said.

Hawkins pleaded no contest

to a misdemeanor charge rather than the felony indictment in a plea-bargaining arrangement.

According to State Insurance Board files, Hurlbut and Hovater sold group health insurance policies in the name of Nation-Wide Health Insurance Trust to some 260 groups including the Pasadena Independent School District.

Former board lawyer Hector DeLeon said in a memo that evidence showed Nation-Wide

"was an unexpected document," meaning it didn't exist.

Hurlbut and Hovater, in hearings before the board and in a blitz of letter and memos, contended they were the fall guys for GULF Atlantic Life Insurance Co. They claimed Nation-Wide was established by Gulf.

Further up the line, they said, was Nationwide Corp., parent of Gulf Atlantic.

# Father To Be Charged In Son's Death

DES MOINES, Iowa (AP) - Doctors say 2-year-old Matthew Schrier has been dead for a month. If a judge agrees, and allows removal of life support equipment, murder charges may be filed against his father. Richard Schrier, 24, is accused of first-degree sexual assault in an alleged attack on his son. Last week, Schrier escaped from the state Mental Health Institute in Clarinda

where he was sent for psychiatric testing following arraignment. He surrendered to authorities Tuesday. "He is brain dead," Dr. John Bakody testified about the child in Polk County Juvenile Court. "Already four doctors have indicated the patient is dead." The boy's grandparents, Richard C. and Shirley Schrier, want the judge to prohibit doctors at Iowa Methodist

Hospital from removing the support system. They are asking for custody while challenging the constitutionality of Iowa's new law on the legal definition of death. The Schriers have already won a partial victory. Judge Richard Strickler issued an injunction July 24 preventing Matthew from being removed from the system until legal tangles surrounding his custody

and the law are resolved. A hearing on whether to remove the support system continued today. Linda Schrier, 31, believes her son is dead. She contends her in-laws want the boy kept on the support system so murder charges cannot be filed against Schrier. "In the case of Matthew Schrier, the use of the respirator system is not life supporting,"

said neuro-surgeon Bakody. "An artificial support system, when the patient is dead, is not life supporting. "There's a distinction between the Karen Ann Quinlan case and this case," said Bakody, referring to the New Jersey woman whose parents won the right to turn off her respirator. She is still alive in a nursing home. "Karen Ann Quinlan was never brain dead,

but was in an irreversible coma. They are not the same thing." Strickler appointed Bakody as an impartial expert to collaborate or dispute the boy's doctors, who testified Matthew's brain has been dead since July 5. In an interview with the Des Moines Tribune, Mrs. Schrier said her husband was sent to a mental hospital at Fulton, Mo., a year ago because of another sex-related incident. She said

neighbors had complained that Schrier had forced her sons by a previous marriage, then 10 and 6, to have sex with neighboring girls aged 7 and 8. Schrier was released May 23 and the family returned to Des Moines. Mrs. Schrier said she filed for divorce on June 27, the day before Matthew was taken to the hospital in a coma. "We stayed in the hospital

three days and three nights. After 72 hours the doctors said Matthew would never come out of it. I believed them," she said.

How-to-get-insomnia-dept: Have the boss tell you that, yes, sir, you can use his name for a reference any time.

They don't call 'em window washers any more - now the human flyboys are known as smog disposal engineers.

# Bouncing Lettuce Market Leaves Growers Wondering

WASHINGTON (AP) - Prices for lettuce this year have bounced around like a ping-pong ball gone wild, but it remains to be seen how much growers will benefit now that moderate prices and stability are expected into the fall.

The even greater gyrations than normal for the 1970s were mainly caused by weather damage to the California crops. So, if a farmer couldn't plant or harvest, high prices wouldn't help.

In addition, an Agriculture Department study of lettuce prices from 1967 through 1977 found that the retail price in Chicago and New York rose an average of 2.29 cents a head each year.

The return to growers rose an

average of only 0.063 cents a year, but in their best year - 1973 - they got about 20 percent of what the consumer paid. The average share was not quite 16 percent.

The average increase disguises sharp ups and downs for both farmers and consumers in any given year, an experience others along the food pipeline didn't share, says economist Stephen Raleigh in the current Vegetable Situation.

Wholesaler and retailer costs and profits accounted for an average of 1.29 cents a year more, higher rail freight costs took about 0.42 cent and harvesting and packing costs 0.03 cent. Returns to wholesalers and retailers dropped only twice.

Elsewhere in that departmental magazine, market watchers reported that harvesting rains in one California area and planting-time rains in another caused major gaps in supply lines in April, May and early June.

"The result was the most unusual behavior of prices ever," they said. The price for a 24-head carton loaded in California was a record \$18 on May 1, \$3.25 in late May, \$13 on June 1, \$6 on June 8, \$2.75 on June 29 and \$4.75 on July 19.

"The more rigid buying practices" of firms not in the market five or 10 years ago just made it worse, they said. Those

customers included fast-food firms with salad bars.

Growing conditions for the summer crop in California have been ideal and moderate prices and a steady, but slightly, smaller supply are expected for the rest of the season, they said.

Raleigh said that, since 1975, lettuce has become the most valuable fresh-vegetable crop in the nation after potatoes.

With consumption of other commercially grown vegetables declining, it "is easily the most popular...today," he said.

Production was up 31 percent in 1977 over 1967, the retail price nationally was up 73 percent and Americans were

eating 24.5 pounds each, a 14.5 percent increase.

Raleigh found that, for growers, returns rose an average of 9 cents a carton a year until last year when their average price dropped 77 cents to \$1.07. That brought the decade average down to an increase of 1.5 cents a carton a year.

The retail price, however, dropped only 19 cents a carton, from 52.3 cents a head in 1976 to 51.4 cents in 1977. It's been as high as \$1.39 a head this year in New York.

The low point of farmers' prices was 89 cents in 1968; the high, \$2.14 in 1973.

## WIFE Presenting Speaker On Trilateral Commission

J.C. Lewis of Guymon, Oklahoma, the author of a thought-provoking tape on the controversial "Trilateral Commission" will be the featured speaker at a public forum to be conducted here Tuesday night by the Hereford chapter of Women Involved in Farm Economics (WIFE).

Speculation over the goals and methods of the TC has sparked growing concern among the agriculture community and the commission will be the topic of WIFE's presentations here.

In his taped comments, Lewis has charged that the Trilateral Commission is seeking to implement corporate control of government functions, and that a cheap food policy in regard to agriculture is another of its

aims.

Corporate ownership of farms is another area in which Lewis has expressed concern over the commission.

The local forum will be held at the Bull Barn Tuesday at 8 p.m., and is open to all interested persons.

Susan Hicks, president of the local WIFE chapter explained that WIFE members here hope to present area residents with an opportunity to "get better acquainted with just what the Trilateral Commission and its goals are."

Residents will be presented with an opportunity to question the speaker on his presentation and views on the TC.

Lewis holds a Master of Arts Degree in international affairs from George Washington University in Washington, D.C.

He served with the U.S. Air Force from 1951-71 and was a combat pilot in Korea and Vietnam. He served on the faculty of Air Command and Staff College, Air University, Maxwell Air Force Base, Montgomery, Ala.

His military decorations include the Distinguished Flying Cross with three clusters, Air Medal with 12 clusters, the Vietnamese Medal of Honor and the Vietnamese Cross of Gallantry.

He currently farms near Guymon, Okla. with his wife and two sons.

Jess L. Robinson, vocational agriculture teacher, Hereford, is presented the Distinguished Service Award and a 30 year lapel pin by U.D. Adams of Austin, President of the Vocational Agriculture Teachers Association of Texas. The award was presented August 1, in Fort Worth at the annual awards program for his outstanding service to Vocational Agriculture Education in Texas.

## Winter Pasture Preparations Should be Given Thought

**COLLEGE STATION** - It's hard to imagine cold weather now, but it's not too early to begin planning winter grazing pastures for cattle. In fact, the hot days of late August and early September are the best times for early planting of the winter pasture.

Don J. Dorsett, area forage specialist with the Texas Agricultural Extension Service, says early planting means land preparation, a fertilizer program and planting seed should be arranged well ahead of the planting date.

"Two or three weeks delay in preparation and planting may make the difference between winter pasture and spring pasture," says Dorsett, who is headquartered in Bryan.

Dorsett says the cereal grains, including oats, wheat, rye and barley, can be planted early. These small grains will be the prime source of fall and winter pasture. Shallow-planted overseedings, such as Gulf ryegrass and clovers, should be postponed until late September since they may not survive a mid-September hot period.

The forage specialist says fertility is one of the few factors in pasture management that can be controlled.

"Considering the expense of a fertilizer program, a soil test to inform you of the status of the soil fertility is a good investment and management tool," Dorsett advises.

Nitrogen, a prime element in plant growth, should be included in every program because little is stored in most soils.

"Most research shows a direct relation between amount of nitrogen applied and increasing production from winter pastures," Dorsett says. e suggests applying from 50 to 100 pounds of actual nitrogen (150 to 300 pounds of ammonium nitrate) per acre on a prepared seedbed at planting time. The same amount applied in late February will boost spring production.

The specialist warns farmers to be prepared for insect invasion once the winter pasture is growing.

"The fall army worm has harvested many winter pastures for individuals not on their toes," he says. He adds that the worm can be caught at an early stage and controlled through careful observation of the pastures and application of 1 pint of methyl parathion when worms are found.

In 1933, King Edward V of England and his brother, both murdered in 1438, were re-buried.

A mob stormed the Bastille in Paris in 1789, starting the French Revolution.

**Beef Cattle Need Phosphorous All Year**

COLLEGE STATION -- Many Texas beef cattle herds may be deficient in an important mineral -- phosphorous -- and their performance may suffer for this reason.

Dr. Steve Hammack and Dr. George Alston, specialists with the Texas Agricultural Extension Service, say many cow-calf operators realize that dietary phosphorous is one of the important factors in reproductive efficiency.

"It is fairly well recognized that the phosphorous content is inadequate for good animal reproduction on most pastures

and ranges in the Southwest except for periods of lush growth," Alston says. He is an area agronomist with the Extension Service.

A considerable number of herds breed during the spring when phosphorous may be adequate. So it is tempting to believe that phosphorous supplementation is unnecessary on a spring breeding program.

What producers don't always realize, however, is that the mineral is important in many other functions including growth, appetite, feed efficiency and

milk production.

"Borderline deficiencies may reduce performance of cows, calves and stocker cattle without producing effects which can be seen," says Hammack, an area beef cattle specialist.

For this reason, the specialists have found that most good operators provide a mineral supplement at all times. There is little unnecessary consumption, they emphasize, if salt and other minerals are offered separately since cattle will generally eat little mineral when forage is lush.

The Extension specialists suggest cattlemen use a mineral with about 8 to 15 percent phosphorous and no more than this amount of calcium. The phosphorous content of the mineral is the important factor. Cheap, high-calcium minerals are not beneficial, and these generally have a high cost per pound of phosphorous.

**Flour Less Popular As Incomes Increase**

WASHINGTON (AP) - When shoppers' incomes rise, they appear to turn away from flour and most cereal products but toward bakery products other than bread, two Agriculture Department economists cautiously report.

At the same time, Mack N. Leath and L.D. Schnake say, when the family's average age increases, cereal products and flour are bought more and spending on bakery products, especially sweets, drops.

Their analysis of the latest Bureau of Labor Statistics' consumer-spending survey is in the current issue of the department's Wheat Situation magazine. They stress that their statistical conclusions are tentative, because that survey didn't include product prices or quantities consumed.

"As expected, family size was the factor having the greatest effect on average family expenditures for cereals and cereal products," with spending going up about 22 cents a week for each larger size household in the same income category, they said.

One more in the family meant an extra 68 to 71 cents spent on

bakery products, they added.

Spending on bread is about the same at all income levels, the survey found.

A drastic cut in spending on flour and prepared flour mixes with higher family income was the clearest finding, the authors said.

**NEWMAN NAMED**

NEW YORK (AP) — Al Newman has been named vice president — worldwide advertising, publicity and promotion for the Motion Picture Division of Metro-Goldwyn-Mayer.

Newman was formerly director of advertising, publicity and promotion for the company's film and television divisions.

**Seminar Slated For Alfalfa Producers**

A series of alfalfa growers seminars will be held in mid-August for farmers in the Panhandle and North Central Texas areas and Western Oklahoma.

Co-sponsored by North American Plant Breeders of Mission, Kansas, and George Warner Seed Company of Hereford, the seminars will include audio-visual presentations as well as field trips to study local conditions and problems.

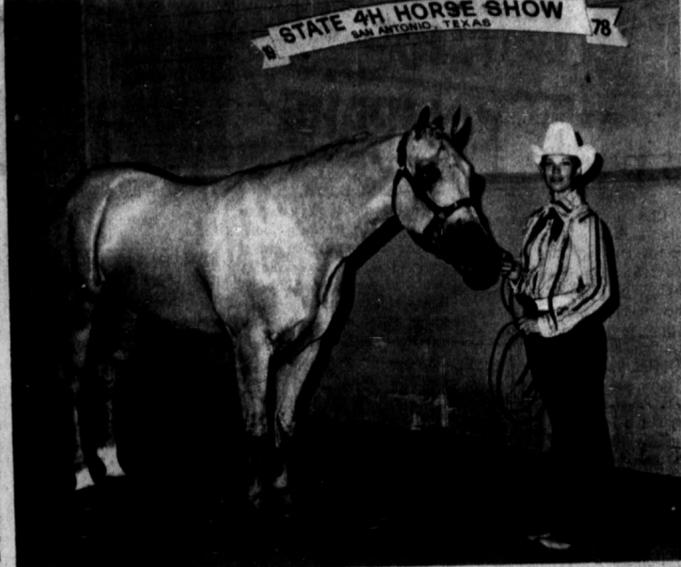

Warren Thompson, manager of North American Plant Breeders' Forage Marketing Program, will discuss all phases of alfalfa management and cultural practices. Thompson is a former Extension Agronomist with the University of Kentucky, where he worked on forages for many years.

Ted Ryan, director of forages

and turf for NAPB, will discuss alfalfa varieties and their characteristics and uses for particular needs. Ryan has been associated with the forage seed business for approximately 20 years.

The seminars are scheduled for Dalhart, August 15, K-Bob's Restaurant; Muleshoe, August 15, XIT Steakhouse; Hereford, August 16, K-Bob's Restaurant; Vernon, August 17, Wilbarger Auditorium; Sherman, August 18, Underwood's Cafeteria. The meetings will begin at 10:00 a.m., and all interested area farmers are invited to attend.

North American Plant Breeders is one of the nation's largest producers of forage and legume seed. George Warner Seed Company is the NAPB distributor for this area.

**Winning Gelding**

Kellie Stallings, a 15 year old 4-H'er from Hereford, took her gelding "Skipsters Scooter" to second place honors in its class during the recent 4-H Horse show in San Antonio in some tough competition during the annual state show.

**Hill Sends Spokesman To Grain Conference**

AUSTIN — Attorney General John Hill said today Texas is one of 12 states participating in an agricultural grain marketing conference called by the Kansas legislature to investigate the possibility of forming an interstate compact of grain producing states.

Hill sent a representative to the initial meeting last month. A second meeting will be held in Topeka in October.

"Texas was one of 12 states represented at this conference to explore the problems in grain marketing practices," Hill said.

"My representative, who was the only Texan at the meeting, reported to me that the conference is exploring the possibility of joining the grain-producing states together in an interstate compact to give the states additional powers to

solve grain marketing problems.

"The participants in the meeting expressed concern that their chances of relief from Congress do not appear good, and that individual states are powerless to address these marketing problems which extend across a number of states.

"The early discussions centered on transportation problems, such as railroad freight car shortages, and inspection regulations, which have sometimes proved inadequate to maintain a high reputation for American grain in the world market.

"There also is strong resentment against the speculation in the futures market, and a feeling that farmers should be able to create a mechanism to allow them to set an asking price for their crops in order to combat the effects of futures speculation.

"I will continue to take part in these very important discussions on behalf of the grain farmers of Texas."

**REA Makes First Loan For Broad Band**

WASHINGTON (AP) - The Agriculture Department has approved its first loan for "broadband" rural telephone facilities that will allow transmission of cable television, as well as computer linkups for sophisticated farms.

The \$1.37-million loan from the Rural Electrification Administration to the Footville, Wis., Telephone Co. was announced Tuesday. The system will allow different services to be transmitted over one wire.

The department said that, in addition to private lines, about 670 of the company's 800 subscribers will receive eight channels of commercial TV. That portion of the project is being financed through local sources, however.

**Portugal to Get Food for Peace**

WASHINGTON (AP) - About \$40 million worth of U.S. wheat, flour, corn, sorghum and rice will be going to Portugal in the next three months under a new Food for Peace credit agreement.

The Agriculture Department says that about 200,000 metric tons will be wheat and flour, about 103,000 tons will be corn and sorghum and 10,000 tons will be rice.

**Bibliography On Droughts Is Completed**

LUBBOCK -- What happened during the droughts of the 30's and the 50's?

Texas Tech University's International Center for Arid and Semi-Arid Land Studies (ICASALS) has compiled an exhaustive bibliography on every aspect of the two droughts to answer the question. A 108-page volume, the bibliography lists more than 700 publications dating back to the 1930's on the social, economic, political and agricultural impacts of the two droughts.

The bibliography was prepared by Alison Davidow, a graduate student in the political science department at Texas Tech, and edited by Dr. Frank L. Baird, a faculty member in the same department.

"The bibliography will be of use to Texas Tech and other researchers who are interested in an in-depth analysis of the

two droughts, their impacts, and the corrective and preparatory measures taken to combat them," Baird said.

**OIL GLUT**

NEW YORK (AP) — A current global oil glut will continue for at least two more years, says Priceline, a newsletter. The newsletter notes that despite warnings that oil supplies are getting low there are at present 4-5 billion barrels a day of spare crude oil capacity.

The Matterhorn was first climbed in 1865.

Billy The Kid was shot and killed in Fort Sumner, N.M. in 1881.

**PUBLIC NOTICES**  
"BECAUSE THE PEOPLE MUST KNOW"  
  
NOTICE TO CONTRACTORS Sealed bids addressed to the City of Hereford, Texas, will be received at the City Hall until 2:00 PM, August 21, 1978, and then publicly opened and read for furnishing all plant, labor, material and equipment, and performing all work required for repairing and replacing curb and valleys. Bids shall be submitted in sealed envelopes upon the blank form of the proposal attached hereto and marked in the upper left hand corner. All proposals shall be accompanied by a cashier's check or certified check upon a national or state bank in the amount of five (5%) percent of the total maximum bid price payable without recourse to the City or a bid bond in the same amount from a reliable surety company, as a guarantee that bidder will enter into a contract and execute performance bond within ten days after notice of award of contract to him. The bid security must be enclosed in the same envelope with the bids. Bids without check or bid bond will not be considered. The successful bidder must furnish performance and payment bonds upon the terms

which are attached hereto in the amount of 100% of the contract price from an approved surety company holding a permit from the State of Texas to act as surety or other surety or sureties acceptable to the Owner. (If bid is less than \$25,000, no performance or payment bond is required.) The right is reserved to reject any and all bids and to waive any informality in bids received. Plans, specifications and bidding documents may be secured from the office of the City Manager or at the office of Bill R. McMorries & Associates, Inc., 6300 Canyon Dr., Amarillo, Texas 79109, on deposit of Twenty-five (\$25.00) Dollars per set which sum so deposited will be refunded, provided: (1) All documents are returned in good condition to Bill R. McMorries & Associates, Inc. not later than 48 hours prior to the time for receiving bids; or (2) The Contractor submits a bid and all documents are returned in good condition to Bill R. McMorries & Associates, Inc. not later than five days after the time that bids are received. CITY OF HEREFORD, TEXAS By: W.B. Dowell, Mayor Th-24-2c

**WOMEN'S DRINKING PROBLEM CITED**

BOSTON (AP) — "For every 100 alcoholic men in the United States, there are 140 women with a drinking problem," family physicians and psychiatrists attending a medical symposium here were told.

Characteristics of the woman alcoholic are the "green tongue syndrome" produced by breath sweeteners, a sloppy appearance, or complaints of a variety of bodily aches and pains, Dr. Carroll L. Whitten, said. The patient may appear nervous, perhaps hiding an underlying depression.

Dr. Whitten, clinical professor of family practice at the University of Louisville School of Medicine, said that most women dependent on alcohol are in a mid-life crisis, and feel depressed, lonely and sexually unsatisfied.

The symposium on emotional crises in mid-life was sponsored by the psychiatry department of Massachusetts General Hospital, the Massachusetts Academy of Family Physicians, and Geigy Pharmaceuticals.

Dr. Whitten said that most women dependent on alcohol are in a mid-life crisis, and feel depressed, lonely and sexually unsatisfied.

**Suspect Held in Cop Slaying**

TEMPLE, Tex. (AP) - A man wanted in the slaying of a Harker Heights police officer was in the Bell County Jail

Wednesday following his arrest at a Houston bus station. Thomas Andrew Barefoot, named Monday in an arrest warrant charging capital murder, was apprehended as he got off a bus early today. Houston police and Texas Rangers acted after receiving a tip by a Temple Ranger.

Barefoot, 37, of New Iberia, La., was armed with a .25 caliber pistol when arrested.

Harker Heights police officer Carl Levin was shot once in the head with a .35 caliber weapon after he had stopped a man to question him about a fire early Monday.

Bell County authorities issued the warrant for Barefoot, who used the alias Darren Collier, after receiving information from another area law enforcement agency.

**Today In History**

By The Associated Press Today is Thursday, Aug. 10, the 222nd day of 1978. There are 143 days left in the year. Today's highlight in history: On this date in 1945, the Japanese offered to surrender in World War II if Emperor Hirohito would be permitted to keep his throne.

On this date: In 1821, Missouri became the 24th state. In 1845, the U.S. Naval Academy was established at Annapolis, Md. In 1914, France declared war on Austria-Hungary at the start of World War I.

In 1921, Franklin Roosevelt was stricken with polio at his summer home at Campobello Island in Canada. In 1967, the people of Gibraltar voted to retain their link with Britain rather than return to Spanish sovereignty.

In 1974, President Gerald Ford, in his first full day in office, asked the members of former President Richard Nixon's Cabinet to stay on. Ten years ago: Presidential nominee Richard Nixon got a fill-in on the Vietnam peace talks in Paris from President Lyndon Johnson and U.S. negotiator Cyrus Vance.

Five years ago: Israeli air Force jets intercepted an Arab airliner inside Lebanon and forced it to land in Israel but then conceded that the wrong plane had been seized and allowed it to fly on to Iraq.

One year ago: Britain's Queen Elizabeth II was on a visit to Northern Ireland under tight security. Today's birthdays: Singer Eddie Fisher is 50 years old. Former movie star Norma Shearer is 74. Singer Jimmy Dean is 50.

Thought for today: Beware the fury of a patient man - John Dryden, English poet, 1631-1700.

WIN UP TO **\$3,000**  
IN CASH PRIZES!

**STOP INFLATION**  
SAFeway PLEDGES CONTINUED SUPPORT OF OUR NATION'S FIGHT AGAINST INFLATION. WE HELP OUR CUSTOMERS STRETCH THEIR FOOD DOLLARS IN THESE WAYS:

- We are constantly looking for good buys (seasonal products in plentiful supply, special manufacturer promotions, etc.) that we can pass along to customers in the form of weekly price specials.
- We are exploring every opportunity to reduce expenses without cutting customer service.
- We are using our limited advertising budget in two ways:
  - To tell customers about our merchandise selections so they can make informed choices.
  - Through special promotions to attract more shoppers to the store to see what we have to offer—to build more business to help pay our fixed costs and thus aid us in holding down price increases.

...Between us, we can be INFLATION FIGHTERS
