Elevator Worker Injured In 40-Foot Fall From Scaffold

High School Coach Just Misses Drop

Thomas Hernandez, 36, of Hereford was reported in "satisfactory" condition Wednesday morning at Northwest Texas Hospital in Amarillo, where he was admitted Monday after tumbling 40 feet to the ground on a tilted scaffold while working on a new elevator at Community Grain Inc. in the Easter Community, about 12 miles south of Hereford.

Hernandez's legs were broken when the 40-foot scaffold tipped over while he and a fellow employee, Joe Silverii of Hereford, were installing framework rods to the construction at about 10 a.m. Monday.

Silverii, an assistant football coach at Hereford High School, narrowly escaped riding the scaffold to the ground by grabbing a three-quarter inch rod when he felt the support tilting. Silverii clung to the rod until other workers shoved another scaffold under him.

Hernandez and Silverii were working for the J. D. Greeson Co., building contractors. They were taken to Deaf Smith County Hospital by Gilliland ambulance.

The injured man was transferred to the Amarillo hospital and Silverii was released after observation in the hospital's emergency room.

At the Amarillo hospital, one of Hernandez's legs was placed in traction and the other was placed in cast. With the exception of the broken legs, he suffered no other injuries. (Continued on page 2)

County Prepares ROW Estimates

Cost estimates of additional right-of-way along U. S. Highway 60 should be completed by July 1, Deaf Smith County Commissioners announced during their regular meeting Monday.

For several weeks, the county has been contacting land owners along the highway from Hereford to the Randall County line. The route is slated for expansion from two to four divided lanes.

In other action, the commissioners ordered the purchase of two Remington Rand electric typewriters, at a cost of \$382.50 each. One is for the County Clerk's office and the other for the County Tax office. Delivery is estimated at 4-6 weeks.

Canvass of a recent precinct livestock law approved the measure by a 12-10 vote. After discussion, the county decided not to join with the Hereford Rural High School District in suits to collect delinquent taxes. Primary reason given was the relatively small number of delinquent taxpayers on the rolls.

Youth Job Office Opening On Friday

Youth Employment offices will open on the second floor of the City Hall Friday, June 12, at 8 a.m., to take applications for jobs.

Operating office hours will be 8 a.m. until 5 p.m., except the noon hour. The office will be operated by Jeannette Rayburn and Linda Renfro.

Young people seeking jobs must apply for them in person at the office, said Dudley Bayne, Hereford City Manager and chairman of the Youth Employment committee. Prospective employers can register their job vacancies by phoning the office at EM 4-3743.

Bayne stressed that this is the only number to be called in reference to youth employment business, as they are the only ones with youth employment information. Bayne anticipates a good turn-out of young people seeking jobs. "We interviewed a dozen girls for the receptionist job," Bayne revealed. "We anticipate a fair amount of job openings for the age group from 13 to 19," Bayne

Police Declare Dogs Need Shots

With rising temperatures in Deaf Smith County this week came a warning from Hereford police chief Henry Aycock to dog owners who have not had their dogs vaccinated against rabies.

During hot summer months, Aycock said, dogs often become rabid. He said there has been a poor showing of dog tag sales at City Hall.

Purpose of the tag sales, he explained, is to prove that dogs bearing registration have been vaccinated against rabies. From 20 to 30 young people are bitten by dogs every year in Hereford, and parents should warn their children to be cautious around dogs, especially strays, during summer months, he pointed out.

Aycock has ordered a stepped-up animal campaign during hot months. Dogs picked up without

Indians At Bay With Clubs, 25-3

The game all belonged to the Indians Tuesday night when they beat the White Sox 25-3 in Pony league play.

Two runs were made to open the game by Larry Hair, who hit a single and Neal Lueb who dropped in a double for the Sox.

The Indians went on the war path as quick as they could pick up a bat. Duncan hit a double, Willoughby and Jennings walked and Jim Haney clobbered a double to bring in four runs the first inning.

Richard Patton used a free pass to make a score for the White Sox in the second. That

It was all in fun of course, with Kangaroo courts for those who neglected to dress in keeping with Krazy Daze. And since it was all in fun, I hope all you jokers will laugh heartily when you hear from my lawyer on a personal damage suit. I don't think I will ever be able to grow hair on top of my head again.

Got a new city map for the Brand office this week, but we still can't keep up with the new additions. But, we like it that way.

CROP Plans On \$3000 For Year

H. M. Nichols

A \$3,000 goal for the coming year was set by the Deaf Smith County Christian Rural Overseas Program during a planning meeting at Hereford State Bank Monday evening.

First Methodist Church pastor H. L. Thurston of Hereford, chairman of the state board of directors of CROP, spoke to the group and said "two-thirds of the world is only a thread away from starvation."

Hereford churches will be asked to participate in CROP by explaining functions of the group during services June 28. The day will be designated "CROP Sunday."

At that time, county residents and farmers will be asked to pledge funds toward the organization. Crops and livestock donations will be urged.

Yanks Continue Hot Pace With Win Over Cards

A two-hit game pitched by Robert Strange and S. D. Baize, of the Yankees, defeated the Cardinals 5-1 in Little League play Tuesday night.

A sudden death type inning was the order for both teams in the first, but S. D. Baize came up in the second to hit a single. Charlie Moreno followed Baize and slugged a double to bring him in.

The only score for the Cards came up in the top of the third, when Jerry Fowikes used a single to score.

Jimmy Allison came on in the bottom of the third to walk. Another walk by Gene Duvall was followed by a couple of outs and a double by Slugger Baize to drive in the runs. A center field error allowed Moreno to get to second and Baize scored.

The third inning ended with the Yankees well ahead, 4-1.

Short work was made of the Cards in the fourth and the bat-

Beauty at Home

By Lynn Carter

Q. Is there a way, with the makeup, to camouflage a raised scar on the face?

A. Use base or stick makeup, two shades darker than your over-all tinted base normally used, on the raised area. Don't extend the color beyond the area of the scar. Pat powder on and brush off the excess. Blot with a damp towel, puff, or cotton. Now, apply over-all tinted base makeup, and proceed with your general makeup.

Q. What is a good exercise for slimmness and suppleness of the waistline?

A. Stand erect, feet comfortably apart, arms raised overhead. Keeping arms in this position, rotate your trunk, making circles as large as possible and feeling the pull on your waist muscles. Circle first in one direction, then the other.

Q. What is an after-shampoo rinse especially good for fine-textured hair?

A. For fine hair, a stale-beer rinse is very good. It tends to give the hair more body, and leaves no unpleasant odor. It should not be rinsed out of the hair — and be sure that the beer has been uncapped and allowed to stand for at least 24 hours before using.

Q. How is an oily type of complexion properly cleansed?

A. Use a complexion brush and a mild soap lather. An oily skin is a lazy skin, and needs stimulation. Unless well scrubbed, it has a tendency to produce blackheads.

Q. How can I remedy costume jewelry which tends to discolor, and watches and bracelets which stain my skin?

A. You can easily deal with this problem by coating the surfaces in question with some colorless fingernail polish.

Q. How can I prepare a good, general - purpose facial beauty mask?

A. Add three teaspoons of powdered milk to the white of an egg, and apply this to face and throat. Let dry, then remove with tepid water.

(Continued from page 1) day of 1906 he saw a red glow covering the northwestern horizon and reported to his mother that the sun was rising in the wrong place.

Gregory's mother promptly informed him that that wasn't the sun at all, but a prairie fire.

The fire, which burned three and a half million acres of land came to the Gregory fire guard, propelled by 60 mile an hour winds. The winds died when the fire came to the fire guard and the blaze crept around the Gregory ranch house.

The fire was extinguished by XIT cowboys who killed cattle and dragged out the side fires with the green hides.

On the wake of this fire came one of the bad blizzards in the history of the plains. Gregory remembers that the cattle drifted south against the fences and froze in such a pile that it was easy to walk over the carcasses and cross any fence.

Another memory Gregory recalled was the end for the great XIT range boss, John Armstrong. The XIT, which controlled the ten western counties of the panhandle, was having trouble with nesters on the New Mexico border. This land was in dispute between Texas and the New Mexico territory at the time and the XIT claimed that some nesters were taking XIT cattle.

Two of these nesters were John and Dobie Williams, who shipped their cattle from Bovina. John Williams sent his 18-year-old brother to Bovina, which at the time was the largest cattle shipping point in the nation, to see if the railroad had delivered some cars for a cattle shipment. The young Williams encountered Armstrong, who took his lariat and began horse - whipping Williams.

Williams went home and told his big brother what had happened and John Williams grabbed a rifle and rode to town. When Williams and Armstrong met, Armstrong took his rope and was going to give Williams a dose of the same medicine he had given the younger Williams. It seems that Williams had other ideas because he took his rifle and firing it like a pistol put one well placed bullet right into Armstrong's heart.

Mrs. Shelton remembers the Hereford Brand's first subscription drive. It came when the XIT began selling off its spread to farmers. A land developer arranged for excursion trains to bring settlers to the Kelso ranch house, which he had put into service as a hotel. About this time Hereford had developed a newspaper, the Brand, and it was attempting to build its subscriptions. Mrs. Shelton remembers that the Brand was offering a piano as a first prize and a diamond ring as a second prize.

Mrs. Shelton took advantage of a list of names compiled by her father and wrote each one of them that she would write a column in the Brand if they would subscribe. Mrs. Shelton won the ring. The Gregory family left Deaf Smith County in 1916 and established a ranch near Taos, N. M. Later Gregory joined the Santa Fe Railway and is now living in San Bernardino, Calif.

The Hereford Cemetery permanent fund has increased to about \$65,000, according to a report made at the annual meeting Monday. Due to a lack of attendance, officers for the past year will continue to serve until a special meeting is called for an election of officers.

The Temple Baptist Church, 700 Avenue K, will have a groundbreaking ceremony for a new sanctuary on Sunday, June 14, at the close of morning worship services. The new building program for the church is about two years ahead of the master expansion plan.

The Rev. Thurston explained the functions of CROP and commented on the importance of the program. H. M. Nichols of Panhandle, assistant CROP state director, also explained the organization's program.

It was explained that \$1 would distribute 300 pounds of food to people in foreign countries.

Plans of the group include the gathering of grain to be shipped overseas this year. At distitute areas in other countries, food will be distributed through church representatives.

The organization also plans to hold its annual trick or treat campaign on Halloween night this year. Last year, Hereford youth reported collecting \$1,246.34 at the end of the annual one-night drive after eyeing a \$1,000 goal.

F. H. A. Officers Plan For Party

The officers of both chapters of the Future Homemakers met Friday morning in the High School home economics department.

Plans were also made for a cherry picking. The cherries are to be used in making pies which the F. H. A. will sell at the Lions' Club Carnival. The yearbook was discussed. Powell will furnish carpenters as needed for \$3 per hour and materials for cost, plus 10 per cent. Trustees also accepted a bid of \$8,400 for sandblasting, sealing and repairing minor stonework from Structural Restoration Company of Dallas. It was decided that the new elementary school in Hereford would be called Northwest Elementary for the present. The decision came after a report on several names suggested by the public. Trustees said the name was not final and might be changed later.

More than two hours of the four-hour session Tuesday was devoted to an initial study of the proposed budget for 1959-60. Estimated budget, as submitted by the administration was about the same as for 1958-59. Trustees plan several additional meetings to study the budget during the next six weeks, unless they agree sooner.

AUSTIN HIGHLIGHTS

Legislature Session To End On June 16

By VERN SANFORD
AUSTIN — First called session of the 56th Legislature will end automatically on June 16. It would be hard to find anyone around the Capitol who would bet on the state's money problems being wrapped up by that date.

Senators began their work on the tax bills sent them by the House with an air of deliberate calm. They even waited 48 hours before beginning hearings to give everybody time to ready his presentation. (This is the "tag" rule whereby if one senator "tags" a bill, it cannot be heard except with 48 hours notice.)

Main issue was a bill to raise new revenue for 1960-61 spending needs. Gov. Price Daniel appeared personally before the Senate State Affairs Committee in behalf of H.B. 7. This is the House-passed bill to tax natural gas, interstate corporation franchises, utilities, liquor, cigarettes, autos, etc.

Governor Daniel stoutly defended the bill on all counts, but said he would not "feel hurt" if the Senate wanted to make some changes.

Industry spokesmen and chamber of commerce representatives told the committee the bill would drive business away from Texas. "Our customers," said one company man, "will not pay a premium for a 'made in Texas' label."

Others complained that H. B. 7 not only would tax the same groups that have been bit before, but would hit some from several directions at once.

Governor Daniel's reply to those arguments is that business should bear a portion of the tax burden to keep from dumping it all "on the family budget," as in a general sales tax.

Governor Daniel's abandoned property bill, killed during the regular session, made it back to the House floor, but only after a committee had attached crippling amendments.

As introduced, the bill would have allowed the state to take over property or bank accounts unclaimed for seven years. Committee changed the waiting period to 15 years. This cut the estimated first-year take from \$20,000,000 to \$3,000,000.

This is one of the bills recommended by the governor to pay off the \$65,000,000 deficit that accumulated during the 1958-59 biennium.

House Taxation Committee killed outright Rep. Jerry Sadler's proposal to levy a one per cent gross receipts tax on manufactured goods.

Governor Daniel vetoed nine of the some 500 bills passed during the regular session.

Among these was the "de novo" bill which would have provided for an entirely new trial when decisions of state agencies were appealed to the courts. Governor Daniel said it would have disrupted oil and gas conservation procedures of the Texas Railroad Commission.

Also turned down was a bill to create a Fort Bend County water district. Governor Daniel said it was in conflict with statewide water planning. Rep. Jimmy Day of Brookshire, sponsor, made a critical speech on the House floor, contending the governor had signed a bill just like that one two years ago.

Another vetoed bill would have provided for repayment to persons who have paid fines or served sentences for crimes of which they were not guilty. Governor said the intent was good, but with no limitations in the bill, the taxpayers had no protection.

Many observers believe that much of the current legislative trouble — the slow start, delays, bickering between

members and last-minute do or die legislation — would not happen if the office of Speaker of the House were an elective post. Certainly this would eliminate the factions that exist in the Lower House.

Evidence of the desirability of such a plan is found in the office of the Lieutenant Governor, who performs identical functions in the Senate. Both officers have apartments in the Capitol Building, but only the Lieutenant Governor is elected by the people.

Selection of the House Speaker is made by the House members themselves. This delays the start of nearly every session. Furthermore it provokes many bitter battles, divides the House, and creates deep wounds that never heal. Also, much time is wasted during sessions by various groups campaigning for the Speakership for the session that still is two years away.

The real loser in the battle is the public and they have no choice in the matter, as things stand now.

Demands for making the post an elective one would have to come from the people, as there is considerable feeling among public officials against the idea of elective offices.

A resolution to add to the lobby expense reporting law brought on House debate as to who's holler than who.

Reps. Zeke Zbraneck of Daisetta and Don Kennard of Fort Worth proposed requiring lobbyists to report cost of transporting legislators. It was a jibe at several senators who recently flew to Tennessee in a gas company plane.

made the suggestion, of Biblical origin, that the House "get the beam out of its eye before we try to get the mote out of a brother's eye."

House members considered a bill to require students in state-supported colleges to pay an activity fee of up to \$30 a semester. Fee would cover such things as health services, parking pri-

ileges, tickets to athletic and cultural events, book rentals, subscription to campus publications, etc.

Students now pay about \$12 less on a voluntary basis.

Rep. W. S. Heatly Jr. of Paducah, sponsor, said all the college presidents favored the bill. It would make an estimated \$2,000,000 available for higher education.

Opponents declared it moved in the direction of putting educational opportunity on the basis of ability to pay.

Who never romped or played.
He never smoked, he never drank,

HOW BOUT THAT

Drawn for The Brand By Ralph Tee

Sox Sock Tigers, 10-3, With Six Golden Hits

The Red Sox used six hits to win over the Tigers 10-3 in PONY League play Monday night.

In the top of the first the first three Red Sox batters were turned back.

As the Tigers came to bat, Jerry Bybee took a walk and Mike Kelly followed him on a tree pass. With the assistance of the Red Sox pitcher who walked three men after these, Bybee and Kelly both scored for the Tigers.

In the second inning the Sox's first for blood was slacked somewhat when Gary Smith hit a single and used a catcher's error to score.

Short work was made of the Tiger sluggers in the second inning as they were retired in order.

The Sox added more money to their account when Barry Gabbert walked. A second base error placed John Virra on base and John Hubbard used a single to score in the top of the third.

A scoreless inning was recorded for the Tigers in the bottom of the third.

A similar experience came to the Red Sox in the fourth inning and the Tigers likewise failed to score.

In the fifth inning Robert Strange hit a double for the Red Sox. He was assisted in scoring by Edd Thompson and Gabbert, both of whom died on base.

The Sox tried to start a track meet in the sixth inning when Gabbert, Thompson and Virra all tallied for the Red team. Again the Tigers retired in order.

Two more scores were brought in for the Tigers in the last inning with Thompson and Gabbert making the final tallies for the Sox.

Just to show that there was still a little life left in the old cat, Carl Stapp used a second.

Fired Eyes
Cup both hands for three or four minutes over the closed eyes, and it will rest them and also discourage crows' feet. The fingers should be kept tightly closed to avoid any light reaching the eyes, and place them together so that they meet in the middle of the forehead, with thumbs placed just back of the ears. Hold in this position for a while, then slowly stroke the forehead with the fingers from center outward toward the temples.
Cutting an Onion
If only a part of a large onion is to be used, cut it so that the remaining portion contains the root. This will keep the onion from drying out so soon and it may be saved for later use.
Sears from Burns
When burns or scalds are healing, it is a good plan to rub the new skin several times a day with good sweet oil, to prevent scars. Persist until the new skin is soft and flexible.
Cherry Relish
To make cherry relish use four cups seeded cherries, one cup raisins, three cups sugar, one-fourth teaspoon cinnamon, one-fourth teaspoon cloves, two tablespoons lemon juice. Mix these ingredients and boil twenty minutes. Stir frequently.
Heating the Oven
After lighting the gas burners of the oven, wait for about two minutes and then open the oven door for a second. This permits the moist air to escape and the oven consequently will heat far more quickly after the ventilation.
Practical Hint
Try using an ordinary clothespin for holding small basins on the stove to keep them from moving about when stirring the contents. This method also prevents many a burn.

Jack Homel of the Detroit Tigers has been the team's trainer for the last 13 years.

Canadian industries. It is also on the new St. Lawrence Seaway and now hosts ships from France, Germany, Italy and other European points.

The British flag, of course, flies everywhere. The man who drove us in from the airport said they are building a huge bridge to replace the present ferry. It is due to be completed in 1960 or '61. There are literally hundreds of excellent tourist courts on both sides. You see many Americans on vacation, and almost as many boats and trailers as around Hereford.

One thing that makes the whole trip worthwhile is the fact that you hardly ever see any "foreign" cars. They are all American, mostly Chevies, Fords and an occasional Plymouth. It was quite a relief after Detroit, which has its share of Volkswagens, English, French and Italian sports cars.

The weather is wonderful, so far; around 65 to 70 degrees during the day, and down to 45 degrees at night. Understand this is the general run of weather in Ontario.

MY LUGGAGE finally caught up with me. I got it Sunday morning at 11:15 a.m. and didn't even have to go through customs. The Trans-Canadian Airlines brought it on their limousine, since Capital didn't have a service call. I never realized before how wonderful a change of clothing can make one feel.

I think perhaps I get to go fishing one day. Everyone says this is a fisherman's paradise: home of the famous, fighting Walleye. There were 10 other passengers on the plane out of Detroit and all were going fishing. Six in a stag party, which had a charter plane waiting to transport them another 250 miles north into the wilds for seven days. Two couples were also on fishing junkets. All had been up here before and could hardly wait to be on their way. The women were just about as excited as the men. The ramp to the ferry was also jammed and packed with Americans cars, unquestionably touring Canada on their vacations.

Sault Ste. Marie really does roll up the side walks on Sunday. Everything is closed except the hotels, air line office and a few restaurants. I understand this is generally true in all of Southern Canada. Sunday is truly a day of rest. There just isn't anything else to do. Francis Hardwick won't like the mention, but even the movie houses are closed for the day. Everyone goes to church, it seems, then they disappear. Right now, I am so happy about getting my luggage, I feel like celebrating. I ate lunch at 1:30 p.m., and everyone else was having breakfast. I guess they sleep late on Sunday, go to church, then have breakfast. I couldn't figure it out.

The King and Queen will visit Sault Ste. Marie around the last of June. Understand that they spent almost a quarter of a million dollars getting public places cleaned up. They are also repainting the hotel lobby here at the Windsor in anticipation of the big event. This is one thing all Canadians seem to take quite seriously. I was a bit surprised, too, considering the remoteness of the country from England. Most of the houses, like the stores, appear to be extremely old. Many of them are two and three stories, and are made of red brick. In typical English fashion, they have added wooden porches, occasional ells and other improvements.

No Sunday papers, either. Not even from the States. The Canadian newspapers come out on Saturday — and seem to flat skip Sunday. I bought several. Some have magazine sections, but none have colored comics. The Sault Daily Star is a nice paper, but seems to de-emphasize news from the States. For instance, they have a full page of Toronto markets, but none of the American markets. Coverage on the Geneva conference definitely has an English slant. Most of the datelines come out of Toronto and other Canadian towns with two or three stories on the inside from the States. Sports are another thing. American sports dominate the entire page — and everyone around here is interested in baseball, especially the Detroit Tigers.

Another unusual thing is the tobacco shops. Cigarettes seem to come in flat boxes — and I have not seen a package of American cigarettes since I arrived. Many more men smoke pipes and cigars. The women occasionally smoke in cafes, but rarely as compared with the States. I haven't seen any super markets, but feel sure they must have them. There are two food stores on Queen Street, but they do not begin to compare with the type stores you find in Hereford. Strangely enough, the office supply stores — and there

can call those cat naps sleeping. Somehow, it reminds me of those scrapes Clint Formby is always getting into — and I can't help but wish he was, instead of me.

Anyway, they are hunting my bags and the man said: "Just be calm. Don't worry. We always find them sooner or later." One good thing about it, though, I sure didn't have much to clear through customs.

And to cap things off, I arrived at the hotel to find that they had no reservation for me, although I distinctly remember sending the card back some 10 days before. They also didn't seem to have a lot of business, so after ransacking the entire office they finally let me have a room.

One bath, a brief nap and three more calls to the airport later. The bath was wonderful and the bed felt fine, but it isn't any fun to put back on dirty clothes. I went out and bought one of those fangled razors like Yogi Berra uses, but I guess I must have dialed it in wrong. Anyway, I cut a couple of nicks out of my chin. If I ever get my luggage and my electric job, I think I will carry this one with the cameras — just to be sure.

The few Canadians I have seen seem pretty much like Americans, except there is a slight difference you can't put your finger on. For instance, this is the first time I ever ran across people who didn't like American money. They charge you anywhere from 3 cents to 5 cents extra on each \$1 purchase, due to the exchange value, and you can tell that they would much rather not mess with it. I understand that most people get their money changed at the bank and use Canadian money. Like I said, it is the first time I have ever been in a place where those "George Washingtons" were not heartily welcome, and it seems a bit odd.

Sault Ste. Marie, known to the natives as the "Soo", appears to be around 40,000 population. It has a TV station, but they have a lot of cable trouble and haven't yet finished a complete U. S. show since I have been here. They couldn't even give the news tonight. They shift over to local talent and do the best they can. However, if I wanted to watch TV, I would have stayed at home.

The Soo is an old town, mostly two and three story buildings in the business district, although the Windsor is 10 stories high. The thing that gets me is that the second and third stories are occupied mostly by doctors, dentists and solicitors, which is the manner in which they refer to lawyers. They have mostly the same American lines you find in Hereford, except in the clothing stores. They also display a lot of china and woolsens, which folks tell me are some little cheaper than in the States.

No drug stores as we know them. They are listed as pharmacies, although many of them seem to have added gift shops. I finally got the razor at Woolworths, Limited. Kessge also has a big store on the main stem as do many other US chain firms. I changed a \$20 bill when I bought the razor and got some Canadian money. I am like the Canadians, only in reverse; these Canadian bills remind me of play money like the kids buy in big bundles. However, they seem happy to get it in all of the restaurants and stores, so I guess I should not worry.

The food is unusually good and when they talk about tip-top service, this must be the place they had in mind. The waitresses actually worry about you, come around a dozen times to see if you need any thing and generally exude an atmosphere of wanting to do their job well. I would say they have our restaurants beat a country mile. Prices seem to run around 15 to 20 per cent higher, not counting the exchange premium you pay. Highly advertised American items like tooth paste, razors and shaving cream go at the printed prices — only in Canadian money, which is approximately 4% more.

Our tour doesn't start until tomorrow, but Sault Ste. Marie is home of the Algoma Steel mills, the famous "Soo Locks", Abitibi Power and Paper Company, and several other leading

Giants Trim Dodgers, 9-7, In Monday's LL Contest

In an eventful fifth inning the Giants eased ahead of the Dodgers to win the Monday night Little League game, 9-7.

The first and second innings were relatively uneventful for both teams with no hits being registered by either team. Alex Guerrero of the Giants died on second in the first inning. He got on base on an error by first base.

The first score of the game are six or eight — would compare best to our drug stores. They sell dolls, toys, gifts. I also notice two "Penny Arcades", but they were closed and I could not find out what they exactly do, except operate pin-ball machines.

Well, guess I had better track down this get-acquainted party. Meanwhile, I have altered my resolution. I am determined to have a good time — provided I can keep an eye on my luggage. From now, those two cases go where I go, come what will.

was made by Rick Miller who hit a second inning double for the Giants.

The score was tied at 1-1 in the fourth inning when Gilbert Sims slammed a double and scored on a catcher's error.

All tied up, the game broke loose for both teams in the fifth inning when the Giants scored eight runs and the Dodgers took five scores for themselves.

The inning began with Kenny Justice using a free trip to first base to get back to home plate. Mike Moore hit a single and Jerry Ross, who had just come into the game brought some pay dirt himself.

Tony Castillo landed on first by a fielder's choice and Robert Higgins walked. A single by Gary Royal and one by Miller and a fielder's choice which placed Terry Hulse on base accounted for the scores for the Giants in this inning.

Not to be entirely left out of this track meet, Lynn Warren started the scoring for the Dodgers by hitting a single. Field-

er's choices were responsible for scores made by Doug Watson and Dorman Duggan. A second base error was responsible for Bill Watt's getting into scoring position, and Gilbert Sims hit a single to score.

One score by Doug Watson in the sixth accounted for the final score of the game.

Pitching credits go to Guerrero, who was relieved by Watts to score a win for the Giants. Loerwald, who was relieved by Watson in the fifth was the losing pitcher for the Dodgers.

The minor Dodgers beat the Giants 16-7.

Hereford Becomes Melting Pot For Lunatics

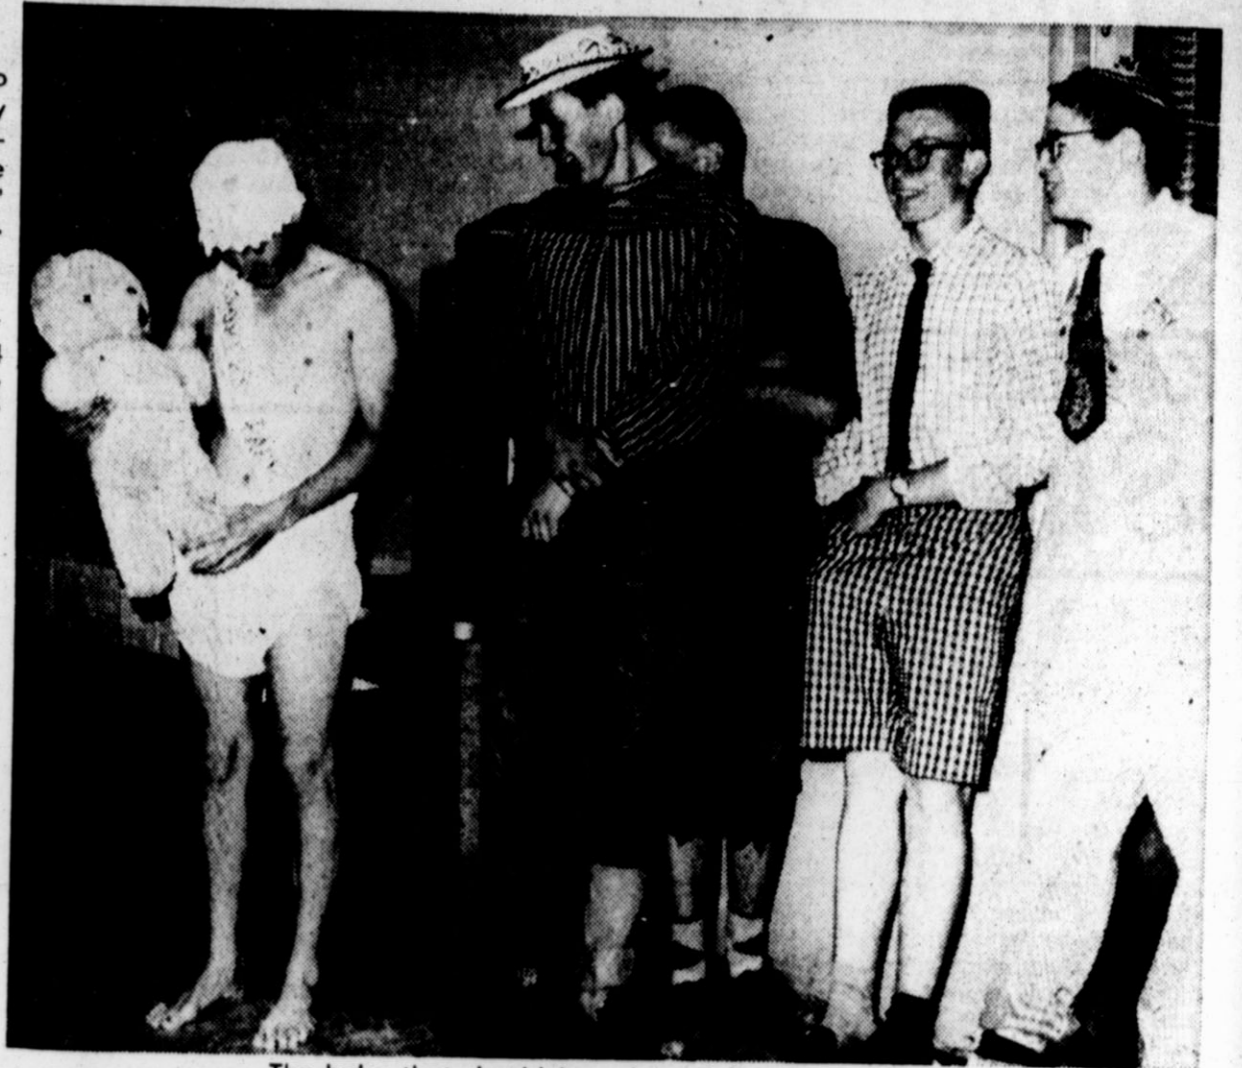

The International Ladies Aid with mascot.

Kangaroo Kourt awaited any offbeat karacter who didn't look crazy enough during the annual Krazy Daze promotion in Hereford Monday and Tuesday. Dreamed up by the Deaf Smith County Chamber of Commerce merchants committee last year, the now "experienced" merchants had loads of ideas to add to the circus of activity.

Rip-roarin', rampant and rambunctious merchants had a carnival of values waiting for shoppers Monday morning. Outlandishly costumed, they were in a dealin' mood. Their devil-may-care spirit was to the shoppers' advantage, and the shoppers knew it—they durned near bought the stores out!

And where else could you go to be greeted by a store clerk dressed in a nightshirt—with a necktie yet? One clerk felt he was making a monkey of himself by selling stock so cheap—so what was his costume? You guessed it! And so help you Hannah, if you didn't dress the part, Kangaroo Kourt doomed you to a hard-to-wash-off "brand."

Zany costumes was the order for the day Tuesday morning when participants marched in review to the strains of Hereford Lions' German Band. A tourist would have thought he was in Bellview—imagine diaper-clad "babies," Chinese mandarins and a circus ringmaster singing "Jingle Bells" on June 9 at the center of a busy traffic intersection.

The baby that should have been left at a doorstep.

Yep, twas truly two tremendous days in Hereford. The merchants sure hated to put their costumes in mothballs for another year, but they're looking forward to another fun fest next year. They have a whole year to think up more ideas for next year, when they can let their hair down and get into a delightful daze again.

OFF THE Shelf

By H. A. TUCK
It isn't often you find Kangaroos in The Kitchen, but when you do it is a wonderful non-fiction story.

This tale of a whole menagerie living unfettered with a family is one of the better non-fiction books from the County Library.

From a little girl who wasn't allowed to keep a kitten to a successful model and advertising account agent to a woman who can supply almost any animal on short notice is the record of Lorraine D'Essen.

But what else would you expect from a girl who insisted on a Great Dane puppy from hubby as a wedding present?

The story of Animal Talent Scouts, Inc., Kangaroos in The Kitchen tells of the start of this unusual business which now grosses six figures annually. The reader will meet such delightful characters as Dickie the Great Dane, Mingle the Siamese cat, Lucky the llama, Victoria the kangaroo, Abigail the alligator and Steverino, the famous Greyhound hound.

Of course, many other animals come and go, including macaws, monkeys, poodles, long-legged Russian wolfhounds, a visiting hoess, an occasional donkey and a miniature Hereford bull.

Bern and Lorraine D'Essen furnish animals for special appearances, tours, publicity stunts, television and Broadway plays.

One of their biggest successes has been in the hit musical, L'I Abner. For this production, they furnished a burro, four geese, a pig and a passle of hounds. Another play called for a pair of alligators, which they furnished without blinking an eye.

This book tells how the business got started and how it operates, including such valuable information as how to make a pig squeal on cue, how to get unfettered geese from one place to another, how to get a gorilla out of his cage and in again, how to raise a kangaroo or a wombat and how to make sure an animal won't provide hazards for barefoot dancers.

Kangaroos in The Kitchen provides a good insight into a business that is both exclusive and exciting.

Another book we enjoyed this week was The Marauders by Charlton Ogburn Jr. It is the non-fiction story of Merrill's Marauders in action during World War II.

Formed primarily from volunteers, an outfit known officially as the 5307th Composite Unit (Provisional), was given its nickname by a war correspondent.

Trained at miserable camps in India; it was an outfit without background, without supply support and usually without honor.

Ogburn, from his place in command of a signal platoon, tells of the terrible battles the unit fought against the terrain of mountainous Burma and the tough Japanese troops.

The 5307th was formed primarily to fight for three months, after which it was to be disbanded or reconstituted. Technically it fought three major offenses, but actually the unit was in constant contact with the enemy and fought skirmishes as often, or more often, than it ate.

Food, water, all sorts of supplies had to be carried on mules and horses, aided by some infrequent, and sometimes inaccurate, air drops.

Ignored by its superiors, the unit fought bravely and well, but eventually came to the point

SECRETS BACKFIRE
DENVER, Colo. (P) — Can a man keep a secret from his wife? Leonard H. Wilson says no. And what about a woman's chance of keeping a secret from her husband? Mrs. Wilson says there isn't a chance.

They ought to know. Wilson received a traffic ticket for a moving violation. He didn't want his wife to know. Three days later, Mrs. Wilson got a traffic ticket for a moving violation. She didn't want hubby to find out about it.

Came court day. Wilson told his wife there was a mistake in their water bill. He'd go down to City Hall and straighten it out. Mrs. Wilson countered that she was going downtown anyway. She'd handle the water bill. Now, you've guessed it. The Wilsons both went downtown. Same day, same time, same court, same fines (\$18 suspended).

Each pledged there would be no more secrets.

BRINGING THINGS UP-TO-DATE
SAN DIEGO, Calif. (P) — A sailor had Nell Bowen, tattoo artist, draw lines through names of eight girls tattooed on the calf of one leg, and add the word "cancelled". He explained he was getting married.

of open rebellion. Throughout the campaign, there were no promotions for officers or enlisted men and, incredibly, no decorations except for the routine Purple Hearts for battle wounds.

From his first-hand position, Ogburn has recreated the situation which brought about grace for officers and mutiny for enlisted men. Although it lacks the impact that it would have had immediately after the war, it is still a compelling study of a little-understood front during a global war. Its primary value might lie in its study of small unit operations for extended periods. Such tactics are forecast in the event of another war, when nuclear weapons would prevent the massing of large units in small areas.

Rotarians Hear Story Of 100 Years Of Oil

The story of a century in the oil and gas business was told the Hereford Rotary Club by Dale Young of Pioneer Natural Gas Company's Hereford office Monday noon in the Jim Hill Hotel.

Young described petroleum resources as a sleeping giant placed in the world at its creation. He went on to remark that that giant had only partially been awakened.

One of the early American manifestations of natural gas, according to Young, was found in the latter half of the 18th century in West Virginia, where there was a burning marsh. George Washington made this into a national park because of its oddity.

Young went on to relate how Drake drilled the first well near Titusville, Pa., and how the industry has progressed since then.

He went on to tell the story of the Amarillo, or Panhandle, Gas Field which was discovered as a result of water explorations by a professor from the University of Oklahoma.

According to Young, there is a 24-trillion cubic foot reserve of gas in the Amarillo field that is as yet untapped.

Buddy Taylor of Canyon was a visiting rotarian in the meeting. Other guests included Henry Sears, Nick Milburn, Lloyd Booth and Glenon Sanders.

The Rev. Herschel Thurston, pastor of the First Methodist Church, was admitted as a new member.

VISITOR HERE

Miss Cheri Baker is spending a week or ten days here with her grandparents, Mr. and Mrs. Mont Baker. She will visit them while her parents, Mr. and Mrs. Dennis Baker of Amarillo, are on a vacation trip to points in Oklahoma and Arkansas.

By MRS. HAROLD RUDD
BRAND CORRESPONDENT

Mr. and Mrs. Merlin Kaul celebrated their silver wedding anniversary in conjunction with the Pioneer Day Reunion held at the Westway Community House Sunday. The tables were heavily laden with food and everyone thoroughly enjoyed the day visiting with friends of long ago.

Special tribute was paid to the long-time residents of the community who were present at the reunion and still live in the community. They are Mr. and Mrs. Joe Landers, Mr. and Mrs. Paul Rudd, Kenneth Rudd, Harold Rudd, Homer Rudd, Mrs. Bess Werner and Mr. and Mrs. Merlin Kaul.

R. M. Gunn, Mrs. Guy Lawrence, Betty B. Rice, Mrs. Mary Brashear, and Mr. and Mrs. Moody Stephan, all of Hereford, received recognition as being former residents of the community. They lived in the community in the early 1930's.

Many stories were told about the days of long ago. Mrs. Werner told the group about the country as it was when she first came to the Hereford area in 1909. She told of seeing antelope running across the plains and how they killed them one winter for food.

She moved into the Westway Community in 1921. She was the oldest resident of the community present for the dinner. She was on the school board with Joe Landers and Moody Stephan at one time. When asked about serving on the board, she said, "Oh, I made everyone mad!" There used to be a favorite saying around Westway — it was, "Mrs. Werner is here, we

can start now."

Mrs. Harold Rudd presented a short resume of the news items which had been published in the Hereford Brand since 1937. Scrapbooks and photoalbums were on display for people to look through while they visited and recalled old times with each other.

Donna Heddins, six month old daughter of Mr. and Mrs. Don Heddins, was recognized as being the youngest resident present at the dinner. Donna represents the third generation of her family residing in the community at present. Her grandparents are Mr. and Mrs. J. C. Morrison. Mrs. Merlin Kaul told of arriving in Texas as a new bride. Mr. Kaul was unable to carry her across the threshold as was the tradition. Instead, they had to dig the sand away from the front door as this was during the dust bowl days.

She described her new one-room house as four walls, a roof and one door, but it made a good home. They had to carry water from their neighbor's well. These good neighbors were the Tom Weavers, parents of Jack Weaver of Walcott.

When Larry was born, they added another room. In 1940 they built two more rooms. In 1954 they remodeled and added another bedroom, utility porch and a basement.

Mr. Kaul remarked, with a smile that they had had a lot of ups and downs, mostly downs, during their life together.

Good neighbors and friends helped them see the way clear during the bad times. Mrs. Kaul said that if it had not been for the people of Westway, they would not have stayed in the

Panhandle.

Harold Rudd told about the "rattletrap schoolbus" which Mr. Kaul drove two years. The schoolbus was a 1924 Chevrolet, still running in 1938. He had his own system of discipline; a twist of an ear would settle a dispute.

He took the children through snowstorms, dust storms and rain without a serious mishap. Kenneth Rudd made the remark that everyone, especially the children, were glad when they got the new bus "with a heater on it."

Many amusing remarks were made during the visiting time. Mrs. Guy Lawrence told of the first time she saw Merlin Kaul. The most outstanding thing she remembered was his brown snap brim hat.

Mrs. Mary Brashear stated that in all the places she had lived, she had never found people as friendly and neighborly as they were in the Westway Community.

A mid-afternoon reception was held in honor of Mr. and Mrs. Kaul's silver wedding anniversary. They were married on June 12, 1934, in Sabetha, Kan., and came to Texas to make their permanent home. They have two sons, Larry, born on April 11, 1937, and Walter Lynn, born on March 4, 1939. Larry graduated from Oklahoma State University at Stillwater, Okla., in May, 1959.

A lovely arrangement of roses flanked by pink tapers in silver candleabra formed the centerpiece on the anniversary table, laid with a lace cloth over pink. Their wedding picture was placed on the table as part of the centerpiece. Appoint-

ments were in crystal and silver. Mrs. B. P. Sowell and Mrs. C. A. Sauley presided at the table. Mrs. Don Heddins and Mrs. Paul Rudd presided at the guest register.

Among the 76 people signing the guest register were Mr. and Mrs. Merlin Kaul, Larry and Walter. Mr. and Mrs. A. A. Head of Hereford, Mr. and Mrs. R. W. Mitchell, Betty B. Rice of Hereford, Mr. and Mrs. Moody Stephan and Linda of Hereford, Mr. and Mrs. H. E. Owens, Mrs. Guy Lawrence and Melba Gay of Hereford, Mrs. Mary Brashear of Hereford;

Mr. and Mrs. C. A. Sauley, Mrs. Jimmie O'Dell, Larry, Mona, and Mike of Amarillo, Mr. and Mrs. Joe Landers, Mr. and Mrs. J. C. Morrison and Judith, Mrs. Bess Werner, Mrs. A. Drager, Paul and David, Debra Batenhorst of Hereford, Mr. and Mrs. Harold Rudd, Lynn, Patsy, Cher-

yle and Kit, Mr. and Mrs. J. R. Coleman, Tex, Ted, and Joe of Amarillo;

Mr. and Mrs. Robert Boyd, of Hereford, Mr. and Mrs. P. B. Sowell, Mr. and Mrs. Jim Bookout, of Hereford, R. M. Gunn, Hereford, Joe Bob Waggoner, Mr. and Mrs. Kenneth Rudd, Teresa, Susan and Paul, Mr. and Mrs. Paul Rudd, Homer Rudd, June Vandevere and Colleen of Hereford;

HEAVY RAINS early in the week sent muddy water rushing over the banks of Tierra Blanca Creek Thursday. Hereford golf pro Bud Posey was out Friday after the water had receded somewhat to survey damage and determine repairs that would be needed. Crossings on three holes were completely under water, which caused golfers to wade occasionally. (Staff Photo)

Herrington 4-H Camp Reported A Success

By ARGEN DRAPER
Nancy Parsons reports that the 4-H Camp at Don Herrington was very good and everyone had a wonderful time. The sessions on record books, nature study, and safety were profitable studies for 4-H members.

She said that the delegates were so busy and interested that the weather gave them very little trouble. The delegates to Roundup should be on their way home today. Going to Roundup is one of the most pleasant experiences for 4-Hers and should be the goal of each 4-H member.

Congratulations to 70 4-H girls and their parents. This is the number of girls who brought baked goods to the County Bake Show on the 5th. When you think about the effort that parents, Adult Leaders, and 4-H leaders go to prepare 70 loaves of Quick Loaf Bread, 70 plates of cookies, 70 fruit pies, and 70 record books you can see that a whole lot of effort and energy is going into the 4-H club program.

We are proud of the support which the 4-H clubs receive in Deaf Smith County. Clubs could not be good without leadership as adults in this county can give.

Beth Gross, who lived here with her parents about 10 years ago, writes from Texas Wesleyan saying that she will graduate in January. She is majoring in home economics, and is planning to go on to Extension Work. Beth's mother was an outstanding member of the South Hereford Home Demonstration Club.

She was a demonstrator in home improvement and I remember well the attractive bedroom which she had as a result demonstration; while Beth's work was with foods and sewing. Beth exhibited baked products at our first bake show, when 4-Hers and women entered the contest. This first Bake Show was held in the display room of Cogdell Motor Company.

Mrs. J. K. Baker, EM 4-1617, has an 18 quart pressure cooker for sale. She says it is like new and she will sell it at a bargain. Mrs. Baker is like a lot of people who are freezing instead of canning.

The clubs who have had

the second program in family economics are very pleased with the introduction to our long time demonstration.

This cake recipe is a favorite of the family of Pete Carmichael. Wilma served this cake at club last week. I think you will enjoy it, and it is one of those cakes that gets better the longer it lasts; however, with a cake this good it doesn't last very long.

KENTUCKY PRUNE CAKE

- 1 1/2 cups sugar
- 1 cup cooking oil
- 3 eggs

Blend together and add sifted dry ingredients alternately with milk.

- 2 cups flour
- 1 teaspoon cinnamon
- 1 teaspoon nutmeg
- 1 teaspoon allspice
- 1 teaspoon soda
- pinch of salt
- 1 cup buttermilk

Add:
1 teaspoon vanilla
1 cup cooked and cut prunes
1 cup chopped nuts

Bake at 300 degrees in oblong pan, 9 x 13, greased and floured, until sides shrink and top springs back. (45 minutes or longer)

BUTTERMILK ICING

- 1 cup sugar
- 1/2 teaspoon soda
- 1/4 stick of butter or margarine
- 1/2 cup buttermilk
- 1 tablespoon white corn syrup

Combine and bring to boil, let cook slowly until thickened slightly about 5 min. after reaching boiling point. Pour while hot over cake allowing it to run down the sides. This forms the glaze on the top and gives wonderful moisture to the cake which will keep indefinitely.

WASTED WORK

NORMAN, Okla. (AP) — Park Supt. Jim Clary proudly told the park board how he wielded a heavy sledge hammer three days knocking a hole in a wall to make a gate. Then he was informed that the proposed gateway would have to be moved because children using it would be endangered by nearby traffic.

The greatest coral structure on earth is the Great Barrier Reef off Australia. It is 1,250 miles long.

Camp Fire Girls Present Program

Miss Roberta Campbell was hostess to the North Hereford Home Demonstration Club Friday in the community room of the First National Bank, with 12 members present at the meeting.

The recreation was conducted by Mrs. Wilma Bryan, committee reports were heard and Mrs. Otto Olson reported on Council meeting.

The program was presented by the Da-Kon-Ya Camp Fire Group, who sang club songs, gave readings, demonstrated their beads and explained their meanings, gave reports on tours and scrapbooks, told of their money-making projects, taking

flowers and favors to hospital patients and taking cookies to the boys at Boys' Ranch. They closed the program by singing "America."

Camp Fire members present were Kay Dirks, Sidney Jean Bayne, Joeline Hamilton, Retha Kelley, Phyllis Warrick, Sue Cole, Juliana Gomez, Mary Lynn Gibson, Linda Carter, Ila Jean Brinkman, Rebecca Maxwell, Nona Gail Gibson and the leaders, Mrs. W. D. Gibson and Mrs. Bell Williams.

Club members attending were Mesdames Frank Brinkman, Martin Wagner, C. L. Whitehead, R. A. Fullwood, Zella Kendrick, Marie Ward, Otto Olson, O.C. Williams, June Roberts, Wilma Bryan and the hostess.

The next meeting will be a

luncheon held June 18 at Dameron Park with the Friona Home Demonstration Club ladies as guests.

Higher Quality, More Uniform Grain Sorghum Seed Yields

C. G. Richardson, owner and operator of Richardson Seed Co., produces and sells high quality, high germination grain sorghum seed. In four years, Mr. Richardson's company has earned an enviable reputation for selling uniformly productive seed.

Mr. Richardson says: "We watch all of the things that will give us higher quality seed. For example, we have a clean farm, free of weeds. We use the latest and best cleaning and handling equipment."

"And," he continued, "we use Phillips 66 Ammonia as our source of nitrogen fertilizer. We've found that Phillips 66 Ammonia gives us sturdier, healthier plants, with more uni-

form and higher quality seeds."

Other successful Southwestern farmers have discovered that they make more profit per acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin... yields of sorghum grain or ensilage are increased... profits on wheat and small grains are increased through higher grain yields and improved forage... more marketable vegetables are harvested.

Phillips 66 Ammonia can be easily applied either by you or your distributor. See us today about Phillips 66 Agricultural Ammonia... it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

Wheat Revived; Hoppers Thrive
By MRS. S. N. THWEATT
The moisture that fell last week was a boon for the dry-land wheat. But now the grasshoppers are doing their best to eat it up. Some of the farmers are spraying in hopes of saving some of their crop. Visitors in the S. N. Thweatt home over the weekend were Miss Mattie Lou Hagan and Mike Hagan of Levelland.

Ted, Joe and Rex Coleman, grandsons of Mrs. Ruth Coleman, were guests in the Coleman home over the weekend while their parents, Mr. and Mrs. James Coleman, made a business trip to Colorado. Bruce Coleman and Ken Hering made a business trip to Crest Butte, Colo., last week. Frank Ford went to Lubbock Friday. His son, Johnnie, came home with him to spend the week on the Ford ranch. Frank's daughter, Susan, is spending the week in Austin but plans to spend some time on the ranch this summer.

Mr. and Mrs. N. A. Brown, Mr. and Mrs. Eldred Brown and Tommy, Mr. and Mrs. Floyd Brown, Earl and Roger, Mr. and Mrs. Ernest Brown and children, Barbara, David and Dinnie, attended the Brown reunion at Andrews on Sunday. There were 59 persons who attended. Mr. and Mrs. S. N. Thweatt, Miss Mattie Lou Hagan, and Mike Hagan spent the weekend at Monahans visiting Mrs. Thweatt's brother. Saturday they went fishing. They reported seeing crops hailed out and lakes filled with water between Littlefield and Levelland. Mr. and Mrs. James Coleman attended the 25th anniversary party for the Merlin Kauls at Westway on Sunday. Later they visited his mother and grandmother.

Mrs. D. E. Coldiron and sons, David and Ronald, of Amarillo visited Mrs. Ruth Coleman on her birthday Saturday.

Mrs. C. W. King of Rosedale, N. M., has returned home from a visit in Illinois.

Mrs. Katie and Mrs. Lou Hall were visitors in the home of Mrs. N. E. Tyler Monday. Also visiting the Tylers Monday were Mrs. Eldred Brown and

Here is my watch. If it is to be of value to me, it has to be a watch I can count on. When I look at its face, *I must know beyond doubt, that it can be trusted.* If I have to be forever checking it, it is of little use to me, and certainly it is not fulfilling the purpose for which it was created. Life too, is that way!

If a man is to be of value, he must be the kind of person that can be counted on. *His face must radiate dependability.* If those who live about you have to be forever checking on you... you are not fulfilling the purpose for which God created you. Now, Paul said, "those things, which ye have both learned, and received, and heard, and seen in me, do; and the God of peace shall be with you."

Help us to attend church worship every week and to draw near to Thee. May we gather in thoughts that stray and control feelings that may be troublesome. For sin give repentance, for sorrow give trust, for strife of passion and care grant rest. Through this timepiece illustration, may we be led to bring our lives to Thee, that we may *test and measure them by thine unerring law.*

Text: Acts 4:1-12.
Let Us Forget: "Those who are looking to Christ in part are really renouncing Christ altogether. The Scriptures are so plain on this point that there cannot be the smallest doubt respecting it. Salvation is of faith on the purpose that it may be by grace; and if it be by

our own works, in whole or in part, it ceases to be grace. Therefore all dependence whatsoever on our works must be wholly and forever renounced. If we do not accept salvation by grace through faith, Christ shall profit us nothing. A most cordial welcome to you.

How Can I?

Q. How can I prevent paint blisters?

A. When paint blisters it is directly caused by moisture, and it is quite useless to try removing the blemish by applying more paint. Moisture is entering the wall and the painted surface is being soaked from the back. The only way to prevent this condition is to locate the leaks and close them. Before repainting, be sure to remove all loose paint around a blister.

Q. How can I remedy molasses that has turned to sugar in the pitcher?

A. Set the pitcher in a bowl of hot water for a few minutes, and the molasses will soon be returned to its former consistency.

Q. How can I remove old varnish from metal?

A. By dipping the article in equal parts of ammonia and alcohol (95 per cent).

Q. How should dress shields be washed?

A. The best method to wash them is to wet in lukewarm suds, and then place them flat on the side of the bathroom, bowl and scrub well with the nail brush. Rinse in lukewarm water and dry in a shady airy place.

WEAPONS AGAINST MUGGERS

PHILADELPHIA (AP) — A long hatpin, a whistle, and a "good scream" are a gal's best friends when a mugger strikes says Alice Clifford, a lieutenant on the Philadelphia police force.

But if any of these means fail to drive off the attacker or bring help, then Lt. Clifford recommends the victim try to get a good look at her attacker's face and if he is masked, then a good look at his ears.

No two pairs of ears are alike, she says.

HE'S LOOKING TO FUTURE

TOLEDO, Ohio (AP) — Fifteen-year-old Kenneth Harrington of Garden City, Mich., convicted of auto theft, was offered a choice in U. S. district court of serving three years in the National Training School for Boys in Washington, D. C., or being turned over to juvenile authorities in Michigan. He picked the federal sentence. The reason: He thought the National Training School offered a better vocational training program than is available in Michigan.

No rest for this Chevy... round the clock the engine never stops!

At Washington's bustling National Airport, Allied Aviation Fueling counts on its radio-equipped Chevy to get crews and tank trucks to the right planes at just the right time. Aside from occasional time out for the usual service, its Thriftmaster 6-cylinder engine has been running 24 hours a day for the past 9 months!

Once you've got that kind of endurance working you don't worry much about lost job time. Breakdowns go out of style the day your Chevy goes into action.

The fact is, Chevrolet trucks are dead set on dropping the word "downtime" right out of the English language. And they just might, if precision engineering and top-quality materials have anything to say about it. Chevy trucks are put together to stay together—incorporating the most advanced chassis developments, the most efficient 6-cylinder and V8 engine designs. They're built to last, built to keep Chevrolet's hard-earned reputation for reliability flying high.

Going into the real heart of Chevrolet advantages is where your dealer comes in. He'll show you, in feature after feature, that you can't buy more truck dependability—in any weight class—at any price.

No job's too tough for a Chevrolet truck!

REP. WALTER ROGERS WRITES:

Many Groups Slice National Income Pie

To the people of the 18th District:

The gross national income of this country has been increasing measurably. In 1955 it was \$391.7 billion; in 1956 it jumped to \$414.7 billion; in 1957 it was \$433.9 billion; in 1958 it was \$437.7 billion, and it is estimated that it will reach \$467 billion in 1959. The increase is not really as great as it would appear because of the inflationary trends which have developed — meaning that it takes more dollars to buy the same amount of goods. In other words, the increase is not as great measured in constant 1947 dollars as in current dollars.

In any event the people wonder who gets this income, and that is what I propose to try to tell you in this newsletter. The information is compiled from statistics gathered together by the Department of Commerce on the subject and are considered most accurate.

It seems that the persons who have jobs and are receiving a wage or salary are now enjoying the greatest increase in their share of the national income. The records reflect that wage and salary earners are now getting approximately 71 per cent of the national income.

This figure includes the fringe benefits and the social insurance, such as social security and unemployment compensation benefits. This means that wage rates have increased at a more rapid pace, percentage wise, than has the national income. The present take of wage and salary earners, including social insurance and fringe benefits, is the result of wage rates

which have increased faster than the national income.

The measurable increase in interest rates has resulted in a substantial increase for those who loan money or who own interest-bearing mortgages and bonds. In fact, the share of this group has doubled since World War II.

In 1946 this group was getting 1.7 cents out of each dollar; in 1949 this had increased to 2.2 cents, and now it stands at 3.7 cents. This is a long way from the tremendous take that was being enjoyed by that group during the heyday of the late 20's, but this share seems to be on the upward trend.

Contrary to the general opinion of many, and contrary to some of the propaganda that has been passed around this country about the amount of money going into the hands of farmers, the records reflect that the farm group is receiving less than 50 per cent of what it was 13 years ago. The present take of the farm group is less than 4 cents of every national income dollar. This is not an all-time low, but it is getting pretty close. The all-time low occurred in 1957 when the farm group was getting 3.2 cents out of every national income dollar.

Another group which has been hit hard is the small business and professional group. This group is receiving less of the national income dollar today than it has any time since the great depression of the early 30's. They get 8.6 cents out of every one dollar of the national income. In 1946 this group was receiving 13 cents. Hence, they have been on a continual de-

cline since the end of World War II.

Some think that if the small business income was separated from the professional income, the facts would be more startling. It seems that professional income, when taken separately, has been slightly on the rise. This means that the small businessman has suffered a great deal more than is reflected by the figure, which lumps both the professional and small business income together.

The group receiving rents has stayed about the same — that is, about 3.4 cents out of each one dollar.

Another group which has been on the decline is the management group, which is concerned primarily with corporate profits before taxes. The reduction in that group has been from 17 cents in 1950 down to 10 cents this year. It was 12½ cents in 1946.

These marked changes indicate many things — a few of which are as follows: Many farmers are continuing to leave the farms and moving into the labor market. It must be remembered that the labor market has a minimum wage and maximum hour law. Hence a greater number of people moving into the labor market would not necessarily mean lower wages because of more people seeking work.

The statistics also reflect the impact on small business and professional groups, of the many requirements of government that have burdened business in the past several years. Many people have given up small business and are refusing to go into business because of the com-

Teens 'n Jeans

By NELDA BARNETT

Have you ever thought about being a nurse? There are several girls at the hospital who are working for experience and training in the nursing profession. This week I am going to tell you about some of the girls' reasons for taking this job.

Azalee Phillips is the most experienced of the teen-aged girls engaged in this work. She says that the main reason that she decided to become a nurse was probably because she has been exposed to it all her life since her mother is a nurse. Azalee enjoys people and likes to help them with their problems.

She said, "Just knowing that I'm helping someone else and seeing results, if they are good, is why I enjoy it so much."

When asked what she liked best, she had a hard time picking out a certain thing. Finally she said, "I think I like the relationship with the patients the most."

Azalee feels that this experience in the hospital is helping her to grow more mature. When people are sick, they are more likely to be themselves instead of trying to be someone that they aren't.

Most of the girls are working to discover whether or not they really want to be a nurse. Karen Albracht is working for that reason.

She likes it because everyone is friendly and helpful, and the hospital is so clean. "I like to see people go home after an illness," Karen has said.

Although she has never watched surgery, Karen thinks that this would be the most interesting thing to her. The job that seems to be the most fun to Karen is taking blood pressure. In case of an emergency, she likes to see how much can be done in a short time.

She admits that in such instances, the trained personnel really seem to know their jobs. Karen also enjoys the opportunity to see acquaintances who are sick.

Billie Barnett says the main reason she thinks she would like to be a nurse is because she could help people who are unable to help themselves. Going into "isolation" was a job

that seemed to capture Billie's attention. "It is fascinating the way everything is handled so carefully," she said.

To Billie, the hardest thing, so far, is to change a bed with an occupant. She really enjoys her job. She said, "When you walk into a room, you never know what to expect."

Patsy Loerwald is happy over her part of the work. "I really like it. So far, the main thing is to try to please the patients and make them comfortable. All the people that I work with are friendly and helpful," she said.

Some of the main jobs that Patsy has done were cleaning the rooms, answering summons, bathing patients and cleaning up the whole room after a patient has checked out. They also help to serve meals and feed those who are unable to feed themselves.

Danna Nafzger likes her work because everything is so white and clean. She would like to be a nurse because she likes to help people who need help.

The main reason that Matilda Padilla wants to be a nurse is because it gives her a great satisfaction to help people. When asked what she liked best about her job, Matilda said that it was the people. She thinks that her job is helping her.

She said, "It gives me experience as to what the job is like — the different things it takes to be a nurse, because normally when people are sick, they are more difficult and you have to know how to handle the different people in different situations."

If you happen to be interested in becoming a nurse, I hope that these girls' opinions of the

Reddoch Set To Speak At Meet

Lloyd Reddoch, presiding minister of the Hereford congregation of Jehovah's Witnesses, has been named one of the speakers on the program for the semi-annual circuit assembly to be held in Wichita Falls the weekend of June 12-14.

Reddoch will give a 30-minute discourse on Sunday morning. Approximately 600 ministers of Jehovah's Witnesses from 20 congregations will attend the three-day meeting.

Other features of the conference will include a baptism ceremony Saturday afternoon for newly-dedicated ministers. According to Reddoch this is a regular feature of each circuit assembly. "Water immersion, as in the case of Jesus, is a symbol of personal dedication to the service of God," he explained.

Highlight of the program takes place Sunday afternoon when Kenneth R. Savoy, district supervisor from Brooklyn headquarters of the world organization of Jehovah's Witnesses, speaks on "A Paradise Earth

Through God's Kingdom." All ministers will be encouraged to share in the door-to-door ministry during the assembly. "This apostolic method of spreading the Christian faith and the knowledge of God is basic with Jehovah's Witnesses," said Reddoch. Benefits of the program will carry into all communities in the circuit as delegates return and apply the Scriptural principles learned.
