Three Vehicles In Collision As Two Are Injured

Two persons received minor injuries in a three-vehicle accident on Highway 60, three-tenths of a mile west of Hereford, Monday night.

Treated and released from the emergency room of Deaf Smith County Hospital were Arlin Dean Smith, 21, of Amarillo, driver of a 1951 model car; and Jack Gordon Brackner, 22, 242 W. Second in Hereford, driver of a 1956 pickup truck. Driver of a 1951 sedan involved in the accident was Patricia W. Manning, 22, 327 Ave. A.

The accident occurred at about 11:20 p. m. Investigating Highway Patrol officer Carol Parker of Hereford reported the pickup truck was in the process of pushing the car driven by Mrs. Manning when the sedan automobile rammed into the rear of the pickup.

Patrolman Parker estimated total damage to the pickup and the Smith car. The pickup is owned by Ronald Babione of Hereford. Damage to the other car was estimated at about \$20. All vehicles were headed west on the highway, and came to a stop on the pavement after impact.

Two Exchange Students Anticipate Year Here

By DAN MUDD BRAND STAFF REPORTER Relaxing to the recorded music of "E. Reis durs Schwyzer-

land" in Hereford Tuesday morning, two travel-weary exchange students anticipated their coming year at Hereford High School. Erik Okseter, 18, of Elverum, Norway, and Adelheid Ruffshouser, 17, of Pfungen, Kt. Zurich, Switzerland, arrived in Hereford Sunday night.

"What are we looking for ward to most? We're anxious to meet a lot of people," they agreed enthusiastically. Both arrived in New York Sunday morning on "The Seven Seas" ocean liner. By plane, they arrived at Amarillo Terminal Sunday night.

They were accompanied to the United States by about 950 other exchange students, who will study in American schools through American Field Service.

Greeting the students at the airport were Mr. and Mrs. Earl Plank, Okseter's American parents in Hereford, and Mr. and Mrs. Don Moore, Miss Ruffshouser's Hereford parents.

Although he was still a little tired from his trip, Erik couldn't pass up the opportunity

to visit area ranches on the second annual Hereford Cattle Tour Monday. "I was really impressed at seeing such fine herds of cattle," he commented. "And we're really impressed with the city of Hereford, too." (Continued on Page 3)

New secretary to Hereford chief of police is Mrs. Melba Satterwhite, who joined the department during the latter part of last week.

Mrs. Satterwhite replaces Virginia Cowan, who recently submitted her resignation to the post. Miss Cowan had been with Hereford Police Department for about four years.

Mrs. Satterwhite's husband, Leroy, works with the Soil Conservation Service in Hereford. They have three children, Suzanne, 7, Ken, 6, and Bruce, 5. They have been residents of Hereford about three years. She is originally of Bryan, Tex.

Second Annual Cattle Tour Attracts Over 500 Visitors

By SUE MUECK BRAND STAFF REPORTER You can see more good Herefords in one day at Hereford than in any other place in the cattle world! This became a proven statement Monday as more than 500 persons gathered

in Hereford for the second annual Hereford Cattle Tour. After a country style breakfast, a caravan of approximately 130 cars began the tour to eight ranches showing registered Hereford herds. The breakfast was held at 7

a. m. at the Jim Hill Hotel after which more than 360 persons began the tour.

The first ranch visited was that of Howard Gault and Son located southwest of Hereford. The cows, heifer calves and bulls were shown in pens ad-

acent to the road. The Gault herd contains about 150 cows intensely bred with Diamond

County Keeps Door Open For Valuation Discussion

Deaf Smith County Commissioners left the door ajar Monday to further discussions on a three-way plan of property valuation study.

The Commission agreed after a long discussion with a three-man committee to meet with the City of Hereford and the Hereford Rural High School District to hear another proposal on the tax evaluation study.

Meeting with the Commission were Tom Robinson, president of the school board; and Troy Moore and Dr. R. R. Willis, city commissioners.

Last week the County Commission did not meet with the other two local taxing units to hear a proposal after announcing they were unable to agree

on the need for such a property study. In other action, the Commissioners set their annual budget hearing, appointed a Veterans County Service Officer and voted to retain Blue Cross - Blue Shield hospitalization for county employees.

The budget hearing for the public will be held at 11 a. m. on Monday, Sept. 12. Cecil Wilkins was named Veterans County Service Officer, dependent upon his qualifying by a special school and examination. His appointment will be effective Sept. 1 and will continue until the end of the fiscal year, Dec. 31. His salary will be \$125 per month. He also was allocated \$100 for school

expenses. Appointments to the post made at the beginning of the fiscal year will be for two-year terms.

Charles Bell of Hereford and Ben Emerson of Lubbock presented a proposal for hospitalization coverage on behalf of Southwestern Life Insurance. Their basic coverage included a \$12 room allowance, \$1000 in life insurance coverage, other basic medical and hospitalization coverage at a cost of \$4.75 for each employee. With 63 employees, the cost to the county would have been \$199.55 per month. Employees with dependents would have been able to pay the balance. (Continued on page 3)

Around Town

We feel that Russia's boastful exhibit of two dogs in space suits after an alleged trip into outer space is a little like the man who killed a bear with a pen knife and had the knife to prove it. The films that were shown Tuesday evening also had some lapses that a person perhaps could have viewed with suspicion. We also noted that the British Animal Humane Society decried the trip and urged Mr. K to experiment with humans instead. We can think of nothing finer than for Khrushchev to volunteer for the trip himself.

Members of the Hereford Rural High School District board of trustees will honor new schools superintendent Paul Stevens and his family with a reception on Sunday, Aug. 28, from 3 - 5 p. m. The public is invited to attend the reception, which will be held in the high school cafeteria.

The Catholic Youth Club will sponsor a dance on Aug. 27 at the St. Anthony's Church Hall. Everyone is invited to attend. (Continued on page 2)

The shelves will be installed by General Office Supply Company of Amarillo. Installation will take about a day, the contractor estimated.

The library is located on the ground level of the recently renovated County Courthouse.

Club Hears About Exchange Program

Mrs. Margaret Ann Durham and Robert Thompson talked to Hereford Optimist Club Tuesday concerning the exchange student program carried on by the American Field Service.

Dick Plank brought Erik Okseter, the exchange student from Norway, who is staying with the Earl Planks, to the meeting and introduced him to the group.

Mrs. Durham explained that the American Field Service program started in 1914 as a scholarship program for teenagers.

The purpose of the program is to increase the understanding of friendship around the world. It gives the students a chance to live with the American families and better learn how the people here live. The program enables the students to learn to know and understand the true

person, she said.

The students eligible for the program must be seniors in high school between the ages of 16 - 18. Ted Moore was the first person from Hereford to go on the program. He went to France, she said.

Mrs. Durham explained who the other students were who had come to Hereford, and Thompson showed the club members pictures of the students.

"The more we get acquainted with others, and the more they get acquainted with us, the harder it will be to take up arms against one another," Thompson said in closing.

BAKING POTATOES?

Wrap thinly sliced potatoes in heavy foil along with salt, pepper, a little cream and grated cheddar cheese. Bake in a moderate oven until the potatoes are tender.

WHIP IT UP

Small wire whips are inexpensive and indispensable in making many sauces; use it also when you are whipping up an envelope of instant potato granules. Interestingly enough, a whip will make the potatoes whiter than will a spoon because with it a goodly amount of air is incorporated.

In pastures, Cocanougher had two - year - old replacement heifers, yearling heifers, three - year - old cows, and Cavalier cows.

The Happy Hereford Ranch, the third ranch visited, owned by Walter Graham, has been in the cattle business for 35 years and has a herd of 800 top blood cows. Graham showed his herd sires in herds with cows and offspring scattered through miles of grama grassland.

Graham's bulls shown included Silver Return, Prince Domino Return, JB Real Silver, and Silver Prince 123 which was the most talked about bull at the 1959 Bridwell sale and was purchased by Graham for \$20,100.

The tour stopped at Graham's house for a coffee break about 10:30. Coffee, cold drinks, and refreshments were served to the tourists.

After a short rest, the caravan continued to the Jack Frost Eskimo Ranch. Frost showed three herd sires, and a number of cows and calves. The calves of Anxiety Esquire 12th were the top sellers in the Windsor Dispersion Sale at Booneville, Mo.

The fourth ranch visited was that of Jack Renfro. Renfro showed four herd sires named Silver Prince 34th, Silver Vagabond, Vagabond Prince and Golden Real. He also showed a bull named Shadow Return which is owned jointly by Jack Renfro and Wilfred Scott of Nebraska. He also had yearling heifers, junior bull calves, cows with spring calves, and cows to calve in the fall.

The next stop was lunch held at Hereford High School Cafeteria. More than 500 persons were served at the cafeteria, and a count at noon showed approximately 165 cars. ho and a number from Texas. Old Mexico was also represented on the tour.

During dinner, the Rev. Gilbert Davis, pastor of the First Christian Church of Hereford, gave the invocation, and Woodrow Wilson, mayor of Hereford, welcomed the guests. Bill Dameron introduced the guests.

Guests included Sandy Newsum, with the American Hereford Association; Charles Niblett, president of the Texas Hereford Association; Henry Elder, Managing - Editor of Texas Hereford Magazine; Bill Sykes, president of the New Mexico Hereford Breeders Association; Bunny Bronger, president of the Panhandle Hereford Breeders Association; Harry Winston, president of the National Anxiety Hereford Breeders; Dr. O.D. Butler, head of the department of animal husbandry at Texas A & M; Dr. Gerald Thomas, dean of the school of agriculture at Texas Tech; Dr. Ralph Durham, head of the animal husbandry department at Texas Tech; Charles Smallwood, dean of the school of agriculture at West Texas State College; and M. W. England, head of the animal husbandry department at Panhandle A & M.

Tottinham, Gulf Coast; Bill Cook, Rolling Plains; Fithugh and Grotu, Alamo Hereford Club; Ralph Ellis and Bert Reyes, South Texas; Kelly Smith, Hill Country; Scott Casey, West Texas Association; Bud Thurber, Texas - Oklahoma Association.

The featured speaker for the day was Jay Taylor of Amarillo. He cited the three present trends in the cattle business. First, more slaughtering of cattle is being done now, and secondly the cattlemen are still building up their herds. In the third place prices are on a steady decline, he said.

The black cloud hanging over the cattle business is the import situation. Imports are taking the markets away from the beef producers in this country. Eight per cent of the total consumption last year was foreign beef. This will decrease prices, he explained.

In 1959 there was 27½ billion pounds of meat more than in 1958, but there was four per cent fewer dollars in 1959 than in 1958, Taylor said.

In closing, Taylor said, "We have the best product in the world, all we have to do is sell it."

After dinner the tour visited the ranch of H. D. Robbins and Sons, whose herd was established in 1936 and is predominately straight bred Anxiety 4th bloodlines.

Robbins and Sons had three herd sires named Bruce Domino 12, CR Jr Lampighter 75 and Don Domino 70. He showed part of his herd in pasture and part in pens.

The sixth ranch visited was the C Bar Ranch of Colby Conkright and Sons whose herd was started in 1934 with some heifers that came from cattle bred by W. T. Womble of Hereford. The present herd is of Anxiety Fourth, Read Prince Domino, Superior, Advance Domino and Supreme Domino bred cows.

In pasture, Conkright had purebred dehorned cows and bull calves, registered cows and bull calves, and in the corral, he had purebred dehorned cows with replacement heifer calves. He showed three herd sires.

The tour ended at the Dameron Hereford Ranch which was started in 1915. Dameron has won the Senior Calf Carload Show at Denver in 1959 and 1960. He showed six herd sires and their heifers in four pastures, and the senior bull calves at the barn.

To end the day's activities, a watermelon feast was held at the Dameron Hereford Ranch. The watermelons were furnished by Jack Renfro. About 6 p. m. the tour ended.

"This was the best tour with the most people of any other I have ever been on," commented

Scouts Tell Rotarians Of Adventures At Jamboree

Four of the ten Hereford boys who attended the Fifth National Boy Scout Jamboree in Colorado last month provided the program for the Hereford Rotary Club Monday at noon.

Orpha Click, district chairman and one of two leaders from Hereford who attended the week-long jamboree, introduced the boys and gave a summary of his impressions.

Jim Grubbs of Explorer Post 52, told of the many activities which were crammed into the jamboree program. Official opening included the first gathering of 56,000 Scouts and their leaders at the campsite near Colorado Springs. Flags from each of the states and some 30 other nations were raised in a stirring ceremony.

Jim Amoss of TV "Gunsmoke" fame, narrated the growth of America pageant. Scout bands and "Indian dancers" also were featured.

Popular with all the boys, Jim said, were the rifle, archery and angling ranges while the Navy's precision flying team, The Blue Angels, provided low-level thrills.

Some of the world's best cowboys performed at two rodeo performances while the National Rifle Association presented model space rocket launchings.

The jamboree closed, he said, with a huge arena show featuring the largest fireworks display ever held in the United States.

One of the highlights for the boys was meeting Herb Shriner, who narrated an hour-long TV resume of the jamboree.

Randy Carver of Troop 51 described the continual trading that went on between the Scouts. Prized were the area and regional patches. Most of the trading took place within tents set aside for that purpose. Skins and feathers also brought a premium, Randy said he took bottles of Hereford water and

Quick pickles are made from fruits and vegetables which have not been through a brining process. Some of the recipes call for an overnight soaking in salt water, often called an overnight brining. The ingredients are sometimes soaked in brine water to give them a crisp texture. Sour and sweet cucumber and mixed pickles made the quick way will not produce the high quality product which the cured product gives. Fruit pickles and certain relishes are rarely made from brined products; hence, they belong to the quick pickle process.

TEC's 'Cross-Matching' Can Catch The Cheaters

By VERN SANFORD

AUSTIN — Over 50,000 persons are drawing approximately one million dollars a week in unemployment compensation in Texas.

Investigations have disclosed fraudulent claims. Charges already have been filed in several Texas cities, and investigation is underway statewide.

"In view of the recent frauds disclosed by investigations in unemployment compensation claims," says Maurice Acers, Commissioner, "it is imperative that an already broad system of fraud detection and prevention be expanded and accelerated."

There are a number of ways TEC can catch the cheaters. And TEC is out after them now. One method is by "cross-matching." This involves checking a person's unemployment claims against his earnings.

Sometimes this isn't necessary. Some people who are drawing unemployment compensation will betray themselves by their nervousness when they report to the local TEC office.

In one instance a truck driver applied for unemployment compensation, then got another job. When he made his weekly trip to report to the employment office, he drove up in the truck of the company employing him and double-parked in front of the TEC office.

A TEC employee asked the man why he was driving this company's truck. "Because I'm working for the company," the driver said.

This man soon found himself in court. There are some, says a veteran TEC employee, who take the attitude: "I've earned it. Now I want to collect it." In other words, after they have worked long enough and earned enough to qualify for unemployment compensation, they feel they're entitled to quit work and collect it.

That is not the way the program is set up under the law. Here, briefly, are some of the requirements:

1. You must have built up a certain amount of work credits during the 15 months preceding application, with an employer who hires four or more persons.
2. You must have lost your job through no fault of your own.
3. You must make application with TEC for another job.
4. You must be able and available to accept another suitable job.
5. You must visit your local TEC office once a week to report your availability for work, or if you have done any work, report your earnings.

For example, a woman unable to work because of pregnancy would not be eligible for unemployment compensation, even though employed by a concern participating in the program.

Conflicting opinions sometimes develop over what is another "suitable" job and who is "available" for work.

A typist who has been making \$200 a month may consider a salary of \$185 unsuitable. But if that is the going rate for that work in that area, TEC may decide it's suitable enough and deny unemployment compensation.

Others drawing unemployment benefits may be "available" in body only. When directed by TEC to apply for a certain job, they'll do it, but will appear so dull and uninterested that prospective employers won't hire them.

Most important to TEC is throwing a barricade in the paths of those people who just plain want to get some of the money just because it's there.

TEC also tries to alert employers to their role in halting fraud. When a former employee applies for benefits, a copy of (Continued on page 2)

REP. WALTER ROGERS WRITES:

Car Trip To Washington

To the people of the 18th District:

Walter, Jr. and I had a most pleasant several days at home before coming back to Washington for the belated session of Congress. He is a sophomore in college and had to get back to the Capital City to get his military obligations taken care of, as well as to get himself ready for the fall semester.

We drove in his car, which is one of those low type automobiles that has a removable top. Frankly, I thought I was going to be in a torture chamber for several days, but it didn't turn out that way. The ride was most comfortable, and he is a good driver. If you ever get a chance to take a trip in one of those cars, don't miss it.

Since Congress was scheduled to meet on Monday, the 15th, I wanted to be in Washington as near that time as possible. I attended the Greenbelt Bowl Parade and football game at Childress on Saturday the 12th and enjoyed it immensely.

As a matter of fact, I got to kick off the football (the first time I had the pleasure of doing this for a number of years.) I found out I wasn't in practice, because the ball went sideways.

This was no doubt due to the sharp-toed shoes, rather than my inability as a kicker. I had to leave the game before it was over in order to meet my son in Shamrock, from which point we headed toward Washington which, incidentally, is about 1,600 miles. We made it by Tuesday, but did not stop for any extracurricular activities on the way.

After arriving in the Capital City we discovered that we probably wouldn't have had to come anyway, as there was not a majority of Members present during all last week, the result being that we adjourned from day to day. This situation was undoubtedly due to the sharply divided opinion among the Members as to whether or not the

Congress should have reconvened.

Many felt that an extended, belated session would simply afford an opportunity to pass unneeded legislation. Hence, every effort is being made by these Members to block anything not scheduled under the absolutely necessary list. I hope that we can adjourn at a very early date. The committees do not have time to properly consider important measures and would be best unwise to try to pass any new legislation under such circumstances.

On the trip back to Washington we made some most interesting observations. The motel situation in our section of the country is much better than it is in the East and Middle West. Good motel accommodations are more numerous in our Southwestern area and the service is much better than in the Midwest and East.

The bottleneck of the entire trip is at St. Louis, Missouri. If you are planning a motor trip east of St. Louis, be sure to try to arrive there in the middle of the day or late at night. Otherwise, you will get into traffic jams which will cause you to lose between two and three hours in covering 25 or 30 miles. Highway 66 is listed as having a bypass around St. Louis.

This bypass is routed through a number of municipalities where the traffic is bumper to bumper. I fail to see how it could be much worse if you continued on regular 66.

We came through the town of Cuba, Missouri. The good citizens of that town have erected a large sign which reads: "CUBA - NO CASTRO". This reminded me of how the rise of Hitler caused the name of a hotel at Raton, N. M., to be changed from "The Swastika" to "The Yucca."

We saw another sign in Zanesville, Ohio which read "VOTE

FOR JAMES AGIN FOR SHERIFF." We wondered what James' last name might be until we saw another sign and realized that it was Agin. I would point out that we knew how to spell "again" but thought perhaps the candidate didn't.

THEODORE ROOSEVELT MEMORIAL.
There is quite a fuss about a "celestial sphere" proposed as a memorial to Theodore Roosevelt. It will cost approximately \$900,000. Roosevelt's daughter, Alice Roosevelt Longworth, has indicated that she was horrified and called the expenditure of that amount of money "utter folly." She feels that Roosevelt Island in its raw state would be a much better memorial, with which I thoroughly agree.

It will be remembered by some that an artistic monstrosity called the Old GAO Building was dedicated during the latter part of the 19th century. The story is that the building was built so that the entire inside would be a vast open space, with office arrangements along the walls. This was done so that there would be a fitting place in Washington to hold international balls and parties. The story is that when the manager escorted the President of the United States into this vast open space, he said: "Mr. President, this is the only fireproof building in Washington," to which the President allegedly replied, "What a shame."

The same remarks might be applicable to the "celestial sphere."

The second place team trophy went to Opal Norton, Idie Geann, and Margaret Woodall. Third place was taken by Lois Dodson, Clarice McCaslin and Mozelle Neill.

his application is sent to the employer. If the employe quit or was fired for incompetence, it is the employer's duty to inform TEC at once.

TEC warns that if you're not willing to work at a suitable job, you cannot collect unemployment insurance. Furthermore, you cannot work, earn a salary and collect unemployment insurance at the same time.

Invariably some people try to get around TEC rules. Such persons cause trouble for their employers, who have to pay more taxes; trouble for TEC, which now is on the lookout for the chiselers; and trouble for themselves, because they are laying themselves wide open for suits for fraudulent claims.

Taken individually, the collection by some person of from \$7 to \$28 a week, to which he is not entitled, may seem like peanuts. But any unchecked fraud, viewed in the light of the whole massive unemployment compensation program in Texas, could multiply itself into a million-dollar headache.

Last year \$51,376,756 was paid out in Texas in unemployment benefits. This was more than was taken in unemployment taxes from employers. Fortunately for TEC, the program has, over a period of years, built up a substantial trust fund — \$255,534,551 to be exact — against bad periods.

But this fund, designed as a cushion against depression-type breadlines, can serve its purpose only if it is not abused. It is meant as insurance, TEC officials explain, not as a dole, and not to pay for vacations for those who are tired of work-

ing.

SHORT SNORTS — Texas Department of Public Safety celebrated its 25th birthday this month. Col. Homer Garrison Jr. has been director for 22 years. The highway patrol has grown from 140 to 773 men, but is still far short of the 2,500 estimated need. . . . Personal incomes of Texans rose five per cent last year, bringing the annual per capita income for the state up to \$1,908. . . . Some 700 persons from 100 Texas counties will attend the Governor's conference on Aging, in Austin, on Sept. 7 - 8. Delegates will draft re-

commendations for the White House Conference on Aging.

TELEPHONE TALK

by Al Leach, Manager

HOW MANY CALLS A DAY IN HEREFORD

"What is the average number of calls made in a day in Hereford? This is a question I often hear, so I decided to look up the answer.

Every day an average of 33,000 calls are made here. That's about 9 calls per phone.

And every day people find new ways to get more value from the phone. Only recently I heard of a fisherman who says he uses his phone as an "alarm clock."

"I like to fish but I have a hard time getting up real early in the morning," he says. "So I have one of the guys, phone me when he gets up. That way I can't turn off the 'alarm' and go back to sleep. I haven't been late or missed a trip since my friends started waking me up by phone."

Here's another case I heard of that shows the value of the telephone, day in and day out. One mother, after keeping a record of her calls for a week, figured that her two phones saved her family about three hours a day. "That's the time we would have spent just driving for errands and personal visits," she says.

As these stories show, the more you use your phone, the more value you get from it. So why not use it... for all it's worth!

FREE PROGRAMS FOR YOUR GROUP

Since some Hereford civic, church and social groups already are planning fall programs, this seems like a good time to remind you of our standing offer to provide entertaining and informative telephone programs for your organization.

A booklet describing the variety of programs available—films, talks, lecture-demonstrations, telephone tours—is yours for the asking. Just call the telephone business office, EM 4-1000.

HOW TO CALL LONG DISTANCE AND SAVE 1/3

It's so easy to save yourself a lot of money. How? By placing your Long Distance calls station-to-station (to a distant number rather than to a particular person).

Here's the way to do it:

1. Give the operator the name of the city you want to call.
2. Next, tell her the number you are calling.
3. When the operator asks, give her the number you are calling from.

Why not try it tonight? Remember, rates are lower after 6 p.m. and all day Sunday.

FISH ADVICE
CHICAGO (AP) — Fish share the human dislike of being crowded together in hot weather.

"What a fish needs in hot weather is plenty of room," says Walter H. Chute, director of Chicago's Shedd Aquarium.

When the water gets warm, there is less oxygen in it, and if your tank is too crowded the fish will die.

Chute says, "To keep them cool, keep plenty of space between them."

God's Soil

...and it's time to conserve it...time to save it! It is evident, when we witness the increased destruction of timber lands, national cover crops and wide-spread erosion, *America needs a national Save-The-Soil-Week.* It is urgent that we treat Mother Earth with greater respect and appreciation. We must give back to her as much as we take away. There's no better time than during National Save-The-Soil-Week, to come to a full realization that "The earth is the Lord's and the fullness thereof." We are stewards, appointed by God, to look after the earth He gave us. It is time to renew your faith in God and the Good Earth.
