## New Tests for Our County

### Spuds in Two Wells; Another Rigging Up Settles No. Two 500 Barrels Per Day

Development continues in the wildcats were spudded in the week, another is rigging up several big companies are increasing for drilling core. Furthermore the fine show-the Texon-Marland W. R. No. 2 has caused oil men to take notice. This well is being drilled from an oil sand at 1293 feet and is rated at 500 barrels or better per day. The progress in swabbing tests which are being made. This well is six miles west of the Clay and indicates an enormous field. The showing is a big rush because all territory around the well has been secured for some time.

### No. 2 Making 500 Barrels

Texon-Marland W. R. Settles ranch, on the W. R. Settles ranch, is now the best so far secured in Howard county. This well is producing for more than 500 barrels per day as indicated by test records. The oil sand encountered at 1255 and the well drilled thru, so the well is much better than is now. Anyway this well has been guessing and some are in class it as a freak well.

## VIRGIL SANDERS ACCIDENTALLY SHOT BY YOUNGER BROTHER

Virgil Sanders, 15, was accidentally shot by his younger brother, Clifton, 10, about eleven o'clock Sunday morning. Clifton and several other boys were playing with a .22 rifle. Virgil attempted to take the gun from the smaller children and in the scuffle was shot, the bullet lodging in his right chest. He is reported to be getting along nicely and was able to leave the hospital Wednesday morning. The two boys are the sons of J. E. Sanders.

## PLUM TREE IN BLOOM

Mr. and Mrs. J. F. Crenshaw have a plum tree at their home in the east part of Big Spring which is getting the season's mixed or is overly industrious, and plans to make two crops a season. This plum tree is now literally covered with blooms, notwithstanding the fact it bore a fine crop of plums early last summer. The tree, covered with white blooms, is a beautiful sight and is a source of wonder to all who see it. California please take notice.

## COLLINS DRUG STORE TO OPEN IN SHORT TIME

The Collins Bros. Drug Store is to be the name of the new drug store to be opened in the new Collins building on East Second street, upon the completion of the building. Alfred and Dick Collins will be owners and proprietors of same, and Alfred will be in charge of the drug store while Dick is attending college.

Handsome new fixtures have been ordered for the drug store and they have arrived in this city and are ready to be installed when the work on the building is completed. The drug store will occupy the corner space in the new building and will be a neat and attractive store.

## Public Schools Opened Monday

### An Increase in Enrollment in All City Schools—New Pupils Continue to Enroll—Classes Start

The city schools of Big Spring opened Monday morning and an increase over last year's attendance was noted but the total enrollment in the schools has not been announced, since new pupils have continued to enroll every day since Monday morning. It is thought that enrollment in high school ranks about the same as last year, which was 315 pupils. Total enrollment in all the schools the past year was 1300 and it is thought that many new ones will swell this number the present year to almost 1500.

Students reported to their respective schools Monday morning for classification and enrollment. Very few had to report that they had not been immunized against typhoid fever and those who had not been inoculated complied with this measure Monday and the students were permitted to enter school without waste of time. Books were issued on Tuesday and regular class work started Wednesday morning. A strong corps of teachers with efficient and experienced principals will be found at every school and will cooperate with Mr. Bittle, superintendent of city schools, to make ours one of the best school systems in the state. The prospects for a good year's work are evident.

Informal exercises on the opening day were held at several of the schools where teachers and students became acquainted. The High School had an assembly in the auditorium and many school patrons and former students were present at the morning's program. The devotional was led by Rev. G. C. Summers, pastor of the East Third Street Baptist Church after which the assembly was favored with a violin solo by Miss Evelyn Jackson, violin teacher, accompanied by Mrs. Omar Pitman, at the piano. The address of the morning was made by Superintendent Bittle, after which the new teachers were introduced by T. F. Huggins, principal. Following the assembly registration was in order.

E. J. Headlee of Denton was a business visitor here Wednesday.

## John Quinn Wins Post of Honor

### Big Spring Boy Named Regimental Commander of Midshipmen at Annapolis Naval Academy for Year

The highest honor that can be given a midshipman, in fact, the highest honor that can be bestowed upon any young man in the U. S. Government service, is to be named regimental commander, and this honor has been bestowed upon John Quinn, son of Mrs. Mabel Quinn of this city by the officials of the U. S. Navy and Rear-Admiral Louis M. Nulton, superintendent of the Annapolis Naval Academy. John is the only Texan on the staff and has won the initial honor of the entire school.

John, who has been in the city since September first visiting his mother, plans to leave Saturday for Annapolis where he goes to make ready to command the Midshipmen for the coming year, and to fill the duties of this most important office that he has been honored to fill.

Since John's entrance into Annapolis Naval Academy three years ago he has always stood at the head of his class and has held the office of class president ever since he entered Annapolis. His excellent record has been unsurpassed by any boy in the school and that he has climbed the ladder of success is evidenced by the distinctive honors he has won since entering training.

John's honors are characteristic of him. Always when a boy in school, he was never satisfied with anything but the best. He put forth his best efforts in his school work always leading his class in scholastic standing and his was an enviable record throughout his entire school career.

John is a Big Spring boy, born and reared in Howard County. The early part of his life was spent on the Quinn ranch, fifteen miles southwest of Big Spring. John did not attend the public schools until after he was thirteen years of age, his mother giving him instructions at their ranch home, which was distant from a country school. His strong intellect and wonderful powers of concentration were developed through his thorough schooling, and these have been great factors in determining his success. After graduating from the Big Spring High School John attended Wentworth Military Academy, Leland Stanford University, two years and then entered Annapolis, from which he will receive his commission the coming year.

John's many friends in this city rejoice with him upon receipt of this high honor and congratulate him for this and the many other distinctive honors he has won. Big Spring citizenship is proud of John's record and will note with interest each successive step as he mounts still higher in his chosen field.

Following is a clipping from the Baltimore Sun, giving an account of John's appointment as commander of the Midshipmen at Annapolis Naval Academy the coming year:

Annapolis, Sept. 3.—Rear-Admiral Louis McC. Nulton, superintendent of the Naval Academy, today announced that Midshipman John Quinn of Texas, had been named regimental commander of midshipmen for this year. That is the highest honor that can be given a midshipman.

Midshipman Commander Quinn has been president of his class ever since he entered the Naval Academy three years ago. Last spring he was elected captain of the rifle squad. He is the best marksman at the school.

His staff, as announced by Admiral Nulton will be W. E. Howard, Wisconsin, regimental commander; T. A. Smith, Alabama, regimental adjutant; H. E. Sears, Pennsylvania, regimental signal officer; D. W. Todd, Jr., at large, regimental commissary; E. E. Lull, Illinois, national color-bearer, and E. E. Pickling, South Carolina, regimental color-bearer.

The battalion commanders named are: First, Ralph K. James, Illinois; G. E. Glas, Illinois, subcommander; second, W. F. Ingham, New York; R. G. Ballance, Illinois,

## Football Boys Now In Training

### Only Eight Letter Men on Team This Year—About Twenty-five New Members to Try for Team

The Big Spring Steers have started fall training under the leadership of their new coach George Harris, recently of State University and in the two weeks they have shown some real stuff according to Captain "Plush" Yarborough. Coach Harris arrived in Big Spring about two weeks ago and has been working with the boys every day since his arrival. He is well pleased with his prospects for the year and sees a good season for the Steers in spite of the fact that the most of his material is "green."

Only eight letter men are left in the Steer line up for this year, namely Captain Yarborough, C. E. Johnson, Theo Ferguson, Frank Jones, Vernon Manuel, 'Red' Coots, Fred Fields, Edward Settles, with Frank Griffith and Malcolm Patterson, two other experienced players. About twenty five others have reported for fall training and some "real huskies" that promise to make stellar players are in the group. Many of the stars were lost this year through graduation, but their places will be filled with good men and the Steers that remain in the line-up will stay in the game and help keep up the Steers' good record.

C. E. Johnson, a four year man, is the outstanding player on the team and the work that he has done in practice shows him up to be better than any other one player. Malcolm Patterson as center, is also making a good showing. This in his first year on the team. "Red" Coots, a second year man, will be another favorite of the Steers this season. Red plays end and he's a good one, according to his coach and team mates.

Theo Ferguson and Frank Jones, both letter men, are valuable players in the back field and they have been doing good in the work outs. Vernon Manuel, Fred Fields and Edward Settles, three other letter men, have their places of importance in the line up and they are there with good will to fight to a finish. Under the leadership of Captain Yarborough, a splendid athlete, a clean sport and a fair-minded fellow, the Steers are sure to find many a victory during the football season.

The first game of the season has been matched for Friday afternoon, Sept. 23 to be played in Big Spring. Several neighboring towns are negotiating with officials for this date and hence it has not been definitely decided with whom the game will be played, but the initial game of the season will be played in Big Spring on this date.

The coach and members of the Steer line up are expecting the backing of Big Spring business men and townspeople and urge your cooperation and interest. Show that you are with them by coming out to the games and helping them win by boosting the team. Your help is needed and will be appreciated.

Miss Essie Talbot has been on the sick list the past week.

subcommander; third, C. R. Watts, Ohio; P. F. Wakeman, New York, subcommander.

Fourth, G. H. Moffett, appointed at large; Thomas Andrew Ahron, Baltimore, subcommander. The following were selected to command the companies of the regiment: First, James B. Schuber, Panama; Second, E. A. Hannegan, Washington, D. C.; Third, John Zabitsky, Rhode Island; Fourth, E. J. Martin, Kentucky; Fifth, A. J. Walden, California; Sixth, C. M. Blackford, West Virginia; Seventh, C. H. Kendall, Wisconsin, and Eighth, David L. McDonald, Georgia. Hannegan is captain of the football team and also of the baseball team. Schuber is one of the star football players.

The commander of the company that makes the best showing in drill work selects the color girl for the June week exercises. The girl selected presents the colors to the winning company at the regimental full dress parade and then is kissed by the winning company commander before the entire regiment.

## DALLAS STEERS HERE SUNDAY; FORT WORTH CATS COMING, 23

Big Spring fans are going to see two Texas league team players in action in Big Spring. A team composed of Dallas players will play the Big Spring T. & P. team at the ball park in this city next Sunday, Sept. 18. The game will be called at 3:30 o'clock. It was necessary to post a guarantee of \$200 in order to get the Dallas team to play this game in Big Spring, so the fans must be a little generous in order that the management of the local team will not "get stuck." The Dallas team is being brought here for the benefit of the baseball fans. If you appreciate it, show your appreciation by purchasing admission tickets to the game. These are now on sale at the Chocolate Shoppe and the Palace of Sweets.

A team composed of members of the Fort Worth Cats and ex-Cats will be in Big Spring for a game Friday, Sept. 23.

## AT WORK ON DOUGLASS HOTEL

The site where the new 100-room Douglass Hotel is to be erected is the busiest spot in town these days. The large force of men razed the walls of the old Cole Hotel and are now clearing up the debris and making excavations for the foundation of the new building. Concrete foundations capable of supporting a five story building will be poured just as soon as the excavating work is completed. The work of erecting the brick walls should be started within a week, according to the program.

D. E. Colp, secretary of the Glacier to Gulf Motorway, J. L. Keyser, president of the Texas Highway Association, and Mr. Berry of the San Antonio Express, were here Wednesday to represent San Antonio at the good roads meeting.

## Highway Meeting Here Wednesday

### Delegates From Amarillo to San Antonio Here to Discuss Plans to Hard Surface Highway No. 9

About sixty delegates and visitors from points along State Highway No. 9 were here Wednesday to discuss ways and means of building a hard surfaced highway from Amarillo to San Antonio in order to make this highway a real asset to the section thru which it passes.

County judges and members of commissioners courts of the various counties were in the majority and in most every instance they had optimistic reports to make on this project. Most every delegate reporting closed his remarks with the assertion that their county would not be a stumbling block to the completion of this great highway. This was the third meeting held in recent months, and in the opinion of one good roads booster—more real accomplishment was apparent than has been made during the past five years. The counties along the line are awakening to the worth of good highways and are going to have them.

County Judge H. R. Debenport was asked to open the meeting in the basement of the Methodist Church and made a brief talk in which he tendered the delegates a warm welcome to Big Spring. He explained the object of the present meeting and made a strong plea for good roads. He asked that Judge Matthews of San Antonio who was president of Highway 9 Association to take charge of the meeting.

Judge Matthews stated what progress had been made in creating sentiment for hardsurfacing Highway No. 9 at meetings at Edey and Tahoka and suggested that delegates from each county be given an opportunity to tell just what was being done to promote the proposition. Starting at Potter County the roll was called and following reports were made.

Potter County officials in a letter to Judge Debenport stated they would be unable to attend this meeting but were in favor of the good road movement proposed.

Randall County reported that a \$280,000 bond issue had been voted to hardsurface the highway thru

## C.-C. Directors Discuss Affairs

### Many Important Propositions Come Up for Consideration and Action Noted in Regard to Same

The regular semi-monthly meeting of the directors of the Chamber of Commerce was held Monday night for the consideration of such business as was brought before this body.

H. L. Pricke stated that in conversation with an official of the Texas & Pacific Railway Co. he was informed that the company could arrange to secure the funds to go ahead and erect a viaduct across the railway tracks on Gregg street in the citizens of Big Spring thought this an opportune time to build this viaduct. A motion prevailed that the president appoint two from the Chamber of Commerce to work in cooperation with the City, County and Railway Company in getting up the necessary plans and estimate of cost of the needed viaduct.

President Weaver made a report on the prospects of our city securing an oil refinery. He stated that a representative of the Reesce-Adams Refinery interests of Wichita Falls was here to look into the proposition and seemed to be favorably impressed with Big Spring as a location for a refinery. Just now while the oil situation is so uncertain the chances for doing anything is not good. Dr. Briscoe of the firm of Merrick and Briscoe, independent oil operators, is rendering the C. of C. splendid assistance in working to secure a refinery for Big Spring.

Fred J. Keating chairman of the agricultural committee, made a report with reference to preparing agricultural exhibits for fairs this fall. He stated that after looking over the crops it was going to be very difficult to secure a creditable exhibit especially the fact that corn feed especially was not up to standard and the late feed would not be ready until too late for the fairs—at Abilene especially. He said we could get up an exhibit for a county fair but it would be impossible to give the date of holding this fair until the next issue of the Herald. A motion prevailed that the proposition of sending exhibits to the Abilene or Dallas Fairs be left up to the discretion of the agricultural committee.

Joye Fisher chairman of the good roads committee made a report on the oil field road. He stated that \$2089.65 had been spent in building and maintaining the road to the Settles, Clay and Chalk oil fields. Up to date \$1805 had been collected and one month's pledges are yet to be collected.

Robert Piner made a report for the airport committee. He stated that the committee was unable to secure the proposed site west of Big Spring but they were considering propositions on two other tracts which would be just as acceptable.

President Weaver announced that good roads delegates from Amarillo to San Antonio would be the guests of Big Spring on Wednesday to consider a plan to pave Highway No. 9. He stated that the Chamber of Commerce would cooperate with the Wednesday Luncheon club in entertaining the visitors at the noon hour. Plates for 100 will be prepared by the ladies of the Methodist Circle for the noon luncheon.

It was voted to accept the offer of the Progressive Farmer by which that publication would be sent to 200 farmers in Howard County as complimentary from the Chamber of Commerce. The majority of the cost of these 200 subscriptions to be met by articles submitted by the C. of C.

O. Dabberly was present to make a plea for the support of the Big Spring band. He urged the adoption of a small tax in order to properly maintain a band in Big Spring. A motion prevailed that the president appoint a committee of three to consider a tax plan for maintenance of band and to supplement fund for Cemetery Association. J. B. Pickle, R. L. Pricke and Joe Fisher were named on this committee.

It was shown that a few of the directors seemed to be unable to attend the directors' meetings requ-

## Oil News From Other WT Fields

### Winkler Field Has Great Gushers

The Winkler County oil field was boosted into the great oil field class this past week with the addition of two large gushers, the Southern Crude Purchasing Co. test in section 4, and the Mertzon well to the west of the discovery, both over 5000 barrels and at distant points from the proven territory.

The Southern Crude well in section four, which is two miles south east of the discovery, made 5400 barrels of oil in the first twenty-four hour test, and is expected to increase over this production. This well is even larger than the big Gulf gusher which came in as the second producer in the field for 4500 barrels.

The Mertzon well which is over a mile west of the discovery is now making 200 barrels an hour with 500 pounds back pressure, holding it down.

With these two mammoth producers, the field is now considered one of the greatest in the country, and possible of producing as much as any field. As yet it has only been touched, with no extensive development made due to the extremely low price of crude, which is now around sixty cents a barrel.

In Reeves County the Earl W. Brooks well, Eddings No. 1, is now 1174 feet, waiting on ten inch casing to run into the hole.

The Exploration well near Sand Lake is spudding, and will soon start drilling regular tower for a deep test of this close to town area.

The Humble well, the Flores-Kinkston, is now making new hole, after being bothered with crevices, and are now around 335 feet in a red heaving sand.

The World Well is drilling ahead having run their casing to the bottom the first of the week and finding that the oil was from behind the old pipe. They are in salt.

The King-Wood well in Loving County, after reaching contract depth received orders to go ahead and last reported at 4516 feet. As long as the hole remains in good shape, this hole will be drilled as deep as possible.—Pecos Enterprise.

### New Upton Well Flows Steadily

Humble's No. 6 Ricker & Dodson, in section 5, M. S., Denton survey, in Upton County, gauged 1,085 barrels of pipe line oil in twenty-four hours sending at 7 o'clock Thursday morning, according to reports received here. The well early Wednesday was reported making 65 barrels hourly. It topped the pay Tuesday at 2313 feet and drilled to 2316.—San Angelo Standard.

### New Producer in Upton

Gulf No. 5 Lane, twenty-first producer in the southeastern extension of the McCamey pool in Upton County, was flowing 20 barrels of oil hourly Thursday from 1963 feet, five feet in the pay.—San Angelo Standard.

### Locations Total 16 Last Week

Sixteen locations for oil tests in seven West Texas counties announced last week brought the total for three weeks to forty-eight and furnished further evidence of sustained activity, despite the recent slash in crude prices.—San Angelo Standard.

### Texas' Deepest Well Heads Oil

Prospects of commercial production from the third oil bearing horizon in Reagan County have been enhanced by a 200-barrel flow Thursday by Texon Oil and Land Company's No. 1B University, Texas' deepest well.

The flow developed after the well had been shut in for two weeks at a depth of 6578 feet. Preparations now are underway to straighten the 5 3/16 inch casing to the bottom, after which the test may be carried deeper. Should produc-

tion then fail to materialize, the hole will be plugged back and shot. The oil was struck at 6270 feet. It tests 38.4 gravity.—San Angelo Standard.

### Another Deep Test for Irion County

F. E. Webb, Tulsa, has contracted to drill a test for oil on a block of 8000 acres lying five miles south and east of Mertzon along the Mertzon-Eldorado road. It is learned here this week.

The contract has been let for a depth of 2500 feet and is to be spudded within thirty days. Mr. Webb is now in Tulsa busily engaged in getting material on the ground.—Mertzon Star.

### Big Gasser in New Mexico

Still gassing heavily, Texas Company's No. 1 Rhodes in Lea County, New Mexico, continued to attract much attention among oil men here Saturday. Reports on the depth of the well and estimates on the volume of gas ranged from 8,000,000 cubic feet of gas at 3105 feet to 25,000,000 cubic feet at 3126 feet. The gas is dry. The test was drilling ahead.—San Angelo Standard.

### Reagan County Oil News

One of the outstanding features of the local oil situation for the week was a deal whereby the Williams family dispose of their entire holdings, comprising 244 acres, to the Cushing Oil & Refining Co., of Oklahoma. The consideration is reported as being \$250,000 in cash and \$250,000 in oil. Mr. Williams will keep his tools working on the property. Three others participated in the deal as follows: Wm. Little 3-32 interest; Hub Tailoring Co., San Angelo, 1-32 interest, and Mr. Oberholtzer, San Angelo, 2-32. The deal was closed Friday and the new company's superintendent has taken charge.

After a temporary shut-down the Shaffer No. 2 has started operations again. This test has had one good showing which, according to those familiar with conditions in that field would have made a nice little producer, but the operators decided to see what is below the oil bearing formation already encountered. It is believed by many that when this test reaches the Powell field horizon more oil will be found.

Four miles west of Shaffer No. 2, in the Geo. Anderson-McGinley, section 2, block 50, University, a fine showing of oil and considerable gas was found at 2200 feet.

Four miles north of Shaffer the Henshaw Oil Co., section 14, block 48, University, Reagan County, ten miles southeast of Big Lake, are ready to start drilling; waiting on water well to be finished.

Considerable activity shown in and around this area and north of Henshaw up to the old T. P. well and south to the Powell field.

In the Williams field, Kirby Link will drill in Thursday; Williams No. 2 the next three or four days. Gulf is fishing and the Humble is down to 2500 feet. Suttlemeyer-Jones et al, spudding. This is 1000 feet southwest of the Williams producer.

Several wells will be started soon, south and west. Dr. J. D. Young will start two-1 1-2 miles south of the Williams.—Big Lake Wildcat.

### Drilling in Lynn County

Nevels No. 1, situated near the west line of the county just north of Loulynn, was spudded in Tuesday morning, according to F. M. Gill of the Mauldin Drilling Co. This well is being drilled by the Elpo Oil Company.

The drillers at the Kingsland well

have been underreaming, preparatory to lowering the casing and going on down with their standard rig. Mr. Krause says that this well is down now about 2100 feet instead of 2300 feet as indicated by previous reports.

J. A. Hart of the Hart Oil Co. is here again with a crew of workmen and states that this company is preparing to resume operations at an early date, on Edwards No. 1, four miles west of Tahoka.—Lynn County News (Tahoka).

**FEATURE WRESTLING MATCH  
AT MILLER'S SKATING RINK**

The wrestling fans and fannettes of Big Spring have a real treat in store for them tonight as Matchmaker Faust is sending the local promoter, Clyde Miller, one of the greatest attractions in the mat game on the big double main event scheduled for tonight (Thursday) Sept. 15. In contracting for Miss Virginia Mercereau the lady champion wrestler of the world, and who offers any man alive \$1000 to pin her shoulders to the mat in ten minutes time, Faust has brought into this section a woman that is capable of holding her own with the best of the wrestlers in any class. Miss Mercereau has won world wide fame in the wrestling game, and she and her opponent Miss Dot Apollo, the pride of the Sunny South, put on an exhibition of catch as catch can wrestling that make many of the so-called champions ashamed of themselves. They are both trained athletes and know every angle of the wrestling game. They are both quick as the quickest of the light weights and give and take headlocks and body slams the same as a man, and it will be worth hundreds of dollars to the ladies of Big Spring and vicinity to see these two physical culture marvels in action. These two ladies have spent considerable time in training themselves in the manly art of self defense and they are a credit to the athletic sports.

The other attraction on the same card will find Gus Anderson, the terrible Swede, swapping wrestling holds, slams and bangs with the local favorite, Silvio Checco. Gus has been billed to appear on the local card twice before and the first time Matchmaker Faust was unable to meet the demands of this high priced wrestler and he was forced to use Joe Kopecky as a substitute, and Gus was billed to appear here a few weeks ago but the match was called off account of rain. Gus is as clever as they make them and will give the local mat artist one of the stiffest mat battles that he has ever had. Anderson is a very clever worker and features the flying headlocks together with other holds too numerous to mention.

Silvio Checco, the local wrestler, needs no introduction to the local followers of the mat game sports. He is a wonderful little wrestler and one that is capable of meeting the best there is in the welter weight and has proven to the fans that he is made up of the championship stuff and is in line for a chance of meeting the welter weight champion, Matty Matsuda. The fans are assured one of the best cards that has ever been staged in

**TO PURIFY WATER IN CISTERN**

the Southwest and this attraction should draw heavy on the ladies.  
Calculate the amount of water in the cistern from its cubical contents. Get some chlorinated lime in cans. Wrap the lime in a gunny sack, tie the sack with a rope (use fifteen pounds of lime for every million gallons of water). Lower the sack into the water and drag it around until the lime has washed into the water. After three hours most of the taste will be gone. If the taste is objected to, dissolve sodium thiosulphate in the water in the same way. Use four pounds to a million gallons. Lederer says this will kill the taste of the lime completely. When there is much typhoid and dysentery extra precautions must be taken against flies. Cleanliness sufficient to prevent flies will also prevent rats and mice.—Ex.

**ADVENT OF SAFETY RAZOR  
CAUSING CRIMES OF YOUTH**

Battle Creek, Mich. — The safety razor in doing away with the old razor strop has caused the downfall of America's youth. Methodist ministers of Michigan, in conference here, were told today by the Rev. W. E. J. Gratz of Chicago. "In the old days," he said, "a razor strop made family discipline quick and easy, but the new method of shaving has done away with the strop. The safety razor is to blame for all this flapping and shieking."

**YOUR WEIGHT**

Beware of the tables of normal weight, says Dr. Leonard Williams of New York. Those tables will tell you that a man of a certain height weighs normally 147 pounds at twenty five, and at fifty, 162 pounds. It is a dangerous falsehood. A man should always weigh less at fifty than at twenty five. If he does not, he will die sooner than he might die.

One pound or two pounds added to the weight on a horse's back will make him lose a race. Imagine the handicap on an old heart, old lungs and old kidneys, by adding 20 or 25 pounds of fat at fifty. Dr. Williams says find out what your so-called "normal weight is, then reduce twenty pounds below it." Weight is fat, displacing muscle, which connects on the heart as well as the abdomen.

Men old in years and great intellectual power, Von Moltke, Voltaire, were almost living skeletons, all at least twenty to thirty percent below what might be called "normal weight." Every one of us could live well and longer on half of what he eats now.—Ex.

stood ready at any and all times to render every assistance to secure a connected system of highways for Texas.

Mr. Berry, special representative of the San Antonio Express, expressed pleasure at being present at the meeting and stated the San Antonio Express was going to do everything possible to help West Texas build a great highway. He said they expected to learn more of West Texas in the future.

C. C. Wild, of San Angelo, secretary of the Board of City Development, suggested that each county be allowed to work out its own plan for hardsurfacing Highway No. 9 rather than to attempt a concerted movement. He stated that the county judges and commissioners were in a better position to know the situation. He also suggested that the two associations recently formed hold meetings when deem it necessary.

M. H. Morrison of Big Spring who has been a worker for Highway No. 9 ever since the organization was held in 1913 to build the Puget Sound to Gulf Highway. He pointed out that a hard fight was made to get a Federal designation for his highway. He also pointed out that State Aid to build the road had been offered to every county along the line, and furthermore the State and Federal highway departments have ever been ready to grant aid for the construction of a first class Highway along the route of No. 9. He stated we had had ample time to build this highway, and in his opinion we should petition the State and Federal highway departments to take the designation away from us and give it to a section which would appreciate such a highway if we did not get busy at once and build a real highway.

A motion prevailed that President Matthews appoint a committee of seven to collect data which might be of assistance in carrying on an educational campaign for good roads in the various counties along the route.

An inquiry from W. A. Reagan of Brady brought the following information from D. E. Colp: That any county along Highway No. 9 could get the following aid, fifty per cent from the federal government, sixteen and two-thirds percent from the State, leaving the county to pay one third of the cost. This securing two dollars for one in building roads is not going to be available forever was stressed by Judge Mayfield of Hale County.

In a general round table discussion near the close of the meeting many expressions were made as to the progress that was being

made on the road program, and a spirit of optimism over the outlook for completing No. 9 was in evidence.

C. T. Watson thanked the delegates for their attendance at this meeting and urged every delegate and visitor to return home determined to work on this project until success was certain.

**MAYTAG SALES RECORD BROKEN IN THIS CITY**

Nuel Lyon, district sales manager of the Maytag Company with headquarters in Big Spring, states that the sales force in this city made the finest record in West Texas in their sales during the first week in September. A total of 41 washing machines were sold during this week, and for the second week 33 machines were sold.

The Maytag Company of Newton, Iowa, has been manufacturing these machines the past seventy-two years and theirs is a record of perfect service and satisfaction. A life time guarantee goes with each machine. A service man is always ready at the Maytag Shop, at Nall & Lamar grocery store, to answer your call in case some minor adjustment is necessary. These are the only machines which can be operated with either gas or electricity.

Mr. Lyon is most favorably impressed with the Big Spring section, sees a wonderful future for it. He is indeed pleased to find that our people really appreciate the wonderful opportunity his company is offering them to secure the best washing machine that can be manufactured.

While gone from Big Spring the Owen family visited in Austin, San Antonio, Kerrville, Waxahatchie, and other points.

**ONE CASE WHERE ECONOMY IS LIKELY TO BE COSTLY**

Some of these days some of the men who voted to postpone plans for the erection of a viaduct across the railroad tracks at Gregg street, are going to regret their action. Any observing person can see that it is only a question of time until a terrible accident is going to take place at this busy crossing. Human life is worth more than the measly dollars involved in the building of the viaduct. The railroad company, if as they claim, are too poor to go to this added expense, might sell that piece of land in the heart of Big Spring for enough to meet their payment on this needed life saver, or the business men in favor of postponing the building of the viaduct might lend the railroad company the money. If some well to do person, or his family, is killed or injured at this dangerous crossing the railroad company is quite likely to be called upon to pay more in damages than the viaduct will cost. It seems that the T. & P. officials are willing to bet they will be lucky and no accidents will occur. We only hope this proves to be the case.

Just recently a damage suit for \$76,000 has been filed against the Texas & Pacific railway at Sweetwater as the result of a crossing accident. Among other claims listed is that the railroad company had strings of cars close to, and partially in, the street so the view of the other tracks was obscured. This is a daily occurrence at Gregg street. The city government of Sweetwater seems to value the lives of her citizens more than does the city government of Big Spring since the railroad company has been made to install an underpass in that city and provide flagmen at another railroad crossing. So if accidents take place with these added precautions how many more chances are there here where everyone, even children, are expected to look out for their own hide when navigating the crossing where ten tracks cross one of the most used streets in our city.

**"HOW TO SEE THE STATE FAIR OF TEXAS"**

One of the most useful pieces of "literature" ever put out by the State Fair of Texas has come to this office in the form of a folder entitled "How to See the State Fair." It is about the size of an ordinary railway folder and opens out to a sheet 18x24 inches. It contains a fine pictorial map of the fair grounds in three colors, itself a handsome and convenient feature, showing every entrance and exit, all the streets and roadways, all the buildings in their proper places, the new 3-4 mile race track, the new midway and in fact every salient point in the immense fair plant.

But the best of all is a description of a tour through the various buildings so written as to call the attention of the visitor to every point of interest that is to be seen. A perusal of this guide will convince any person that, no matter how often he has visited the Fair, there must have been hundreds of interesting things which, somehow, he overlooked or missed.

There will be no excuse for missing anything this year, for the guide tells where everything is to be found. And it reveals that the directors of the 1927 Fair have kept their promise. There seems to be listed and described so many new things that it looks like an entirely new fair. If that is so, then the prediction of a million attendance between Oct. 8 and 23 will not be far wrong.

It is announced that anyone may have a copy of this guide by addressing Roy Rupard, Secretary State Fair of Texas, Dallas.

**TO HOLDERS OF SECOND LIBERTY LOAN 4 1/2 PER CENT BONDS EXCHANGE OFFERING OF NEW TREASURY NOTES**

Second Liberty Loan bonds have been called for payment on November 15th next, and no interest will be paid after that date.

Notice is given of a new offering of United States Treasury notes, in exchange for Second Liberty Loan Converted 4 1/2 per cent bonds. The new notes will be dated September 15, 1927, and will bear interest from that date at the rate of 3 1/2 per cent. The notes will mature in five years but may be called for redemption after three years.

Interest on Second Liberty Loan Converted 4 1/2 per cent bonds surrendered and accepted in exchange will be paid to November 15, 1927. The price of the new issue of notes, is 100 1/2. Holders surrendering Second Liberty Loan Converted 4 1/2 per cent bonds in exchange will receive, at the time of delivery of the new notes, interest on such Second Liberty Loan Converted 4 1/2 per cent bonds from May 15, 1927, to November 15, 1927, less the premium on the new notes issued. Holders of Second Liberty Loan Converted 4 1/2 per cent bonds who desire to take advantage of this opportunity to obtain Treasury notes of the new issue, should arrange with their bank for such exchange at the earliest possible date, as this offer will remain open only for a limited period after September 15th.

Further information may be obtained from banks or trust companies, or from any Federal Reserve Bank.

A. W. MELLON, Secretary of the Treasury, Washington, D. C., September 8, 1927.

**THE FOOL HATH SAID**

"The fool hath said in his heart, There is no God." A little more than a year ago, a Houston attorney called together all the men of Houston and adjacent territory who disclaimed a belief in God. An organization of infidels and atheists was perfected and funds were raised by which to combat the teachings of the Bible and to put the old Book out of circulation. That attorney was Mr. Whitesides. The meeting was held in his office. Where is Mr. Whitesides now? In the Harris County jail, charged with murder in connection with the death of his wife, who leaped to her death from a three story building when chased by her infidel husband, while he was drunk. Mr. Whitesides is very repentant and since he has had time to reflect has decided the old Book is true and agrees that if he had followed its teaching, taught him at his mother's knee, he would not now be facing a charge of murder. One Sacco and Vanzetti, Italians, too, wandered away from the teachings of the old Book became atheists, were charged with and convicted of murder and were electrocuted in the Charlestown, Mass., prison Monday just after midnight. There are athletes, of course, who escape the charge of murder, many, probably, who are law-abiding citizens, but we have never known one who had a high conception of morality and we doubt that there is one. The man who has no love nor fear of God is but little above the brute creation and has no more regard for society or virtue than the animal. And that is why "The fool hath said in his heart, There is no God."—Richland Springs Eye Witness.

**\$8,597,401 FOR MAINTENANCE**

Designated state highways in Texas will receive \$8,597,401 for maintenance during the year starting Sept. 1, following the adoption of a budget by the Highway Commission. Expenditures will be confined to the upkeep of highways and in some instances to resurfacing with gravel and asphalt topping. Howard County is in district 8, which has headquarters at Abilene. This district has been given \$383,193; the smallest apportionment for any of the seventeen districts.

**12 STORY HOTEL FOR LAREDO**

One of the largest and most modern hotels on the Texas border is now being erected at Laredo. The twelve story structure will adjoin the seven story hotel completed in 1926 and give the hostelry 400 rooms. The building is being constructed by M. Little, owner of the Hamilton Hotel and L. L. Stephenson of San Antonio, who acquired interest in the project. Mr. Stephenson is a former resident of Big Spring. He owned and operated the electric light plant in Big Spring some fifteen years ago.

When a famous eating place was opened in Texas a drummer was incensed by his bill. Next day he wired back, "I think you charged me too much for that dinner." Next day came another message from him from another place, "After thinking the matter over I still think you charged me too much for that dinner." A week later, from a far-distant point, this message flashed in, "I have given the subject careful thought and I still think you charged me too much for that dinner." All messages were sent collect.—Farm and Ranch.

**Delightful Bread Pudding**  
 No one will ever object to eating chocolate bread pudding. It just touches the spot when one's sweet tooth is aching. And, better yet, from the cook's point of view, it uses up stale bread.  
 Soak one pint of milk, add one cup of stale bread crumbs which have been rubbed through a sieve, and set aside to cool slightly. Beat one egg slightly, add one-third cup of sugar, one-eighth teaspoon of salt and add to scalded milk.  
 Melt over hot water one square (one ounce) of cooking chocolate, stir to a smooth paste with three tablespoonfuls of boiling water and add to mixture.  
 Pour into a buttered pudding dish set dish in a pan of hot water and bake in a moderate oven. It will take about one hour. Serve with either cream or a hard sauce.

**Apple Pan Dowdy**  
 Inexpensive and quickly made, these are two of the virtues of old-fashioned apple pan dowdy. Cut in eighths and put into aluminum saucepan. Add three tablespoonfuls water, one quarter cup of sugar, one teaspoonful grated nutmeg, or one-half teaspoonful cinnamon if preferred.  
 Cover and cook about five min- utes. Mix thoroughly 1/2 cup bread flour, three teaspoonfuls baking powder and one-half teaspoonful salt. Cut in with knife two tea- spoonfuls butter, then add one-half cup of milk, stirring with knife.  
 Handle as little as possible and spread the dough over the apples. Cover closely, place on an asbestos mat over the flame and cook until done without lifting cover, for about one-half hour. Invert pudding upon serving dish and serve with sugar and cream or the following sauce:  
 Foamy Sauce: Beat very stiff the white of one egg and then beat in 1/4 cup of powdered sugar; transfer egg beater to yolk of one egg and beat until thick and light-colored; then beat in 1/4 cup of powdered sugar. Cut out and fold mixture together, beat in two tablespoonfuls hot cream or top milk and flavor with vanilla.

All of these desserts are simple and easily made according to Miss Allen's tested recipes.

 How much pleasanter cooking is, when there are no black pots and pans to scour afterward! Every woman who cooks with a Perfection Oil Stove is spared that horrid nuisance.

There is never a speck of soot. For in the long chimneys, every drop of oil is completely burned before the heat reaches the cooking. Perfection flames stay at the height you set them, so you need never fear they will "creep up" and make the kitchen sooty.

Soot, as you know, is half-burned kerosene—just wasted heat. With Perfections you have real fuel economy, as all the oil is changed into cooking heat. They burn only kerosene, the safe household fuel.

With Perfection you will have wonderful cooking results, and your utensils will stay shiny as new. See the newest Perfections at any dealer's—1 to 5 burner sizes. Priced from \$7.25 to \$130.

J. C. Douglass brought to the Herald office this week the box which had been placed in the corner stone of the Hotel Cole, when it was erected in 1909 and a number of interesting objects were contained therein.

Here's a few of the items. About ten coins, nickels, dimes, pennies, quarters, etc. One U. S. penny was dated 1819 and an old English coin dated 1736. A small doll, toy shovel, knife, two marbles, some faded photos and other objects were contained therein. A funeral notice for Dr. W. C. Barnett; a photo and a newspaper article concerning W. R. Cole were other articles.

Another interesting item was a bank statement of the West Texas National Bank of April 9, 1903, which gave the following figures. Capital \$50,000; undivided profits \$310.06; deposits \$50,028.24; total resources \$100,338.30—quite a far cry from the fine showing this bank can make today.

Two newspapers were in the box: a copy of the Enterprise published in Big Spring, Jan. 23, 1903 by W. V. Ervin, and a 24-page special edition of the Big Spring Herald, dated March 27, 1908.

A letter giving an account of the first meeting of the directors of the West Texas National Bank was also in the box.

### MONROE JOHNSON AND MISS CLARA JONES MARRY

Characterized by simplicity and loveliness was the wedding ceremony early Monday morning at eight o'clock at the St. Mary's Episcopal Church, which united in marriage Monroe Johnson and Miss Clara Jones. The bridal couple stood before a beautifully adorned altar, pink rose buds and fern being effectively used in the decoration, and the ceremony was read by the Reverend Frank H. Stedman, rector, in the presence of the families of the contracting parties. Following the ceremony they left for a brief automobile trip to Mineral Wells, Fort Worth and Dallas, and upon their return the latter part of the week, they will be at home to their many friends in this city. The bride, the beautiful and accomplished daughter of Mr. and Mrs. B. O. Jones, was never lovelier than on her wedding morn, dressed in a handsome tan and brown ensemble of crepe and velvet. Her accessories were in harmonizing shades. Mrs. Johnson is a member of the younger social set in Big Spring, a popular young lady, with a charming personality and lovable disposition and admired by all who know her. After graduating from the Big Spring High school she attended St. Mary's College in Dallas from which she graduated last May. The groom, the son of Mr. and Mrs. Pete Johnson, is a promising young business man, now employed as pharmacist at the C. & P. drug store. After his graduation Monroe attended the school of pharmacy at Dallas and is now a registered pharmacist. Monroe is a happy-go-lucky young man, likeable and good natured and he won many friends in the business and social circles of the city. Sincerest good wishes for the happy couple are extended by their many friends in this city. CLARENCE NESBIT AND MISS MODENA FABER MARRY At a simple though lovely ceremony at the home of the bride's parents Mr. and Mrs. L. Faber of Sweetwater the wedding vows which united in marriage Clarence Nesbit of this city and Miss Modena Faber of Sweetwater were read by Reverend Haley, pastor of the Sweetwater Baptist Church, at four o'clock Sunday afternoon. Only relatives and friends of the two families were present. The happy couple returned to Big Spring Sunday evening and it is here that they will make their future home. The bride is the daughter of Mr. and Mrs. L. Faber of Sweetwater, and is well known in this city where she had employment at the Texas Electric Service Company for several months but had been transferred to the office at Sweetwater where she was working at the time of her marriage. She made many friends during her residence here, who will welcome her back to Big Spring. Because of her many likeable traits and sweet manners she has always been popular in her circle of friends. The groom is a young man of excellent character and is held in high esteem by all who know him. At present he is employed at the Chocolate Shoppe, where he has won many business friends because of his courteous and accommodating way. Friends in this city extend congratulations and best wishes to the happy couple. Miss Ada Lingo arrived Sunday morning from Dallas for a week's visit in this city with her grandmother, Mrs. A. M. Evans, other relatives and friends. Miss Lingo has been attending summer school at Southern Methodist University the past term. She will leave Sunday night for Denton where she will attend the College of Industrial

### MISS ANNIE MAE FREEMAN ENTERTAINS AT BRIDGE

Miss Anna Mae Freeman was hostess to a group of friends at her home on Johnson street last Saturday afternoon, entertaining in compliment to Miss Donna Carter who will leave soon for Denton, where she will enter the College of Industrial Arts. A pretty setting was provided for the party and cut flowers gave floral charm to the entertaining rooms. By attractive tables the guests were directed to places at the tables and found diversion in the series of interesting games of bridge. At the termination of the play high score honor was won by Miss Emily Broughton of Tyler who was favored with a dainty wool corsage. Mrs. Herbert Stanley made low score and she was consoled with an attractive incense burner. Miss Carter received guest prize. Dainty luncheon covers were spread at the tea hour and an unusually delicious plate luncheon consisting of pressed chicken, saltines, sandwiches, olives, iced tea, cracker cake and whipped cream was served to the twenty four guests. Dainty plate favors of mint cups in rainbow colors filled with candies were given as party favors. Those enjoying this pleasing affair with the hostess and honoree were: Misses Mamie Hair, Imogene Price, Virginia Whitney, Elizabeth Northington, Lillian Shick, Alice Graham Bishop, Julia Bess Nowell, Winona Taylor, Lucille True, Miriam Kennedy, Frances McNew, Miss Seerest, Ruthe Miller, Nell Brown, Margaret and Mary Happel, Emily Broughton, of Tyler, Dorothy and Louise Jordan, and Mrs. Herbert Stanley, Mrs. Hutanus, Mrs. Lib Coffee and Mrs. Geo. Carter. YELLOW AND WHITE COLOR THEME EXPRESSED AT PARTY A pretty color theme of yellow and white was carried out in the party details on Tuesday afternoon when Misses Margaret and Mary Happel and Dorothy and Louise Jordan entertained seven tables of players at bridge at the Happel home on Johnson street. Colorful pennants and gladiolus arranged with ferns and other sprays of greenery adorned the hospitable rooms used for entertaining. Four games of bridge were enjoyed during the afternoon hours and at the termination of play when scores were compared high score honor was won by Miss Virginia Whitney who was favored with a beautifully hand painted salt and pepper set. Miss Elizabeth Northington made second high score and she received a dinner gong. The yellow and white color theme was expressed in the refreshment plate passed at the tea hour with daffodils as plate favors. The two-course luncheon served consisted of: mock chicken salad, sandwiches, saltines, olives, iced tea, and mince meat pie a la mode. The guest list included: Misses Anna Mae Freeman, Donna Carter, Nell Brown, Alice Graham Bishop, Julia Bess Nowell, Lucille and Valilia True, Mamie Hair, Virginia Whitney, Elizabeth Northington, Lillian Shick, Imogene Price, Mabel Eddy, Abbey Nell Rhoton, Dona Bell Allen, Jeanette Pickle, Ada Lingo, Frances McNew, Winona Taylor, Billie Faucett, Allen Banker, Frances Melton, Helen Wolcott, Juanita Ralph, Alice Dawes, Mrs. Lee Rogers and Mrs. Bob Currie. 1922 BRIDGE CLUB GUESTS OF MRS. WM. BATTLE The members of the 1922 Bridge club were delightfully entertained on Tuesday afternoon by Mrs. Wm. Battle who was hostess to two tables of players. High score honor was won by Mrs. Eddie Price among the club members, and Mrs. John Seymour of San Antonio won visitors high score. A tempting two course luncheon was served at the refreshment hour. Besides the club members those present were: Mrs. Chas. K. Bivings, Mrs. Roger Gallemore, Mrs. Hilo Hatch, and Mrs. John Seymour of San Antonio. Miss Virginia Wells of Dallas has arrived in this city to make her home here with her mother, Mrs. W. A. Earnest.

### MRS. ROBERT CURRIE HOSTESS TO NEW BRIDGE CLUB

One of the very delightful parties of the week was given at the attractive apartment of Mr. and Mrs. Robert Currie on Main street Wednesday afternoon when Mrs. Currie entertained the members of a new bridge club recently organized. Three tables of players were guests of the afternoon and following the card games a business meeting was held at which time organization of the club was discussed. The name and plans of the club were not completed at this meeting. In the series of interesting bridge games high score honor was won by Mrs. Lee Rogers and Mrs. Wm. Battle made visitors high score. Dainty luncheon covers of Japanese design were passed at the tea hour and a tempting plate luncheon consisting of pea salad, potato chips, stuffed olives, butter thins and frosted mint punch was served. The club members present were: Mrs. Hilo Hatch, Mrs. Omar Pitman, Mrs. Wofford Hardy, Mrs. Owney Queen, Mrs. Roger Gallemore, Mrs. Lee Rogers, Mrs. E. W. Lomax, Mrs. Robert Currie and Jena Jordan. Visitors were: Mrs. Wm. Connor, Mrs. Wm. Battle and Mrs. M. H. Bennett. MRS. HARVEY WILLIAMSON IS HONORED AT BRIDGE Mrs. Eb Hatch and Mrs. Marion Edwards most delightfully entertained four tables of players at bridge last Friday evening complimenting Mrs. Harvey Williamson of Laredo who was visiting relatives and friends in the city and left Sunday morning for her home. Around daintily appointed tables the guests found places and became interested in a series of card games. High score honor in the play was won by Miss Nell Hatch, and Dr. Wofford Hardy made consolation "honors." At refreshment time delicious ice cream and dainty marshmallow squares were served to the guests. The guest list to this in-honor affair included: Dr. and Mrs. Wofford Hardy, Mr. and Mrs. Hilo Hatch, Mr. and Mrs. Eddie Price, Mr. and Mrs. Eck Lovelace, Mr. and Mrs. Harvey Williamson, Mr. and Mrs. Marian Edwards, Mr. and Mrs. Eb Hatch, Miss Nell Hatch and W. G. Hayden. CLYDE BLIVINS AND MISS ZELMA SHOCKLEY MARRIED Friends of the contracting parties will read with interest the marriage of Miss Zelma Shockley and Clyde Blivins, which was solemnized at Midland, Texas. The happy couple are at home to their friends in Big Spring. The bride is the attractive daughter of Mr. and Mrs. John Shockley. She was a member of the graduating class of the Big Spring High School in May, and was a popular young lady while attending school in Big Spring. She has won many friends because of her amiable disposition, who wish her every success and happiness. The groom is an estimable young man and at present is employed as electrician with the Texas Electric Service Company. Congratulations and best wishes are extended by their many friends in this city. EXTORTION SOCIAL HELD AT FIRST CHRISTIAN CHURCH A jolly good time was in order at the Extortion Social given by the members of the Pathfinders class of the First Christian Church in the church basement last Friday evening. Various kinds of amusement afforded entertainment for the guests throughout the evening principal among these being a kangaroo court where guests were fined for different things. Dainty refreshments were served at the close of the evening. All attending report a delightful time. This entertainment was given as benefit for the parsonage fund, and a nice sum of money was taken in. BUYS BOOKS IN Y. M. C. A. LIBRARY THIS WEEK J. R. Creath has bought the books in the Y. M. C. A. library. Mr. Creath has selected the books that are really worth while and has placed them on sale. Those interested might look over this selection.

"Better mend one fault in yourself than a hundred in your neighbor."—Elbert Hubbard.

If the women who watched the bargain sales trying to save a little know how cheerfully their husbands lost at golf this world might not be such a happy one.—Ex.

The Golden Rule is the first lesson parents should teach their children. If this is instilled into our hearts and minds of our people we will need less law in our land.

Scientists say there are at least a half million worlds besides this one. Perhaps, but so far as we know, this one is the only world producing fried chicken.—Ex.

Elbert Hubbard describes a Failure as the man who can "tell" others what to do and how to do it, but never does it himself. A man who has blundered, but is not able to cash in the experience.

The urgent call for cotton pickers is not being heard from any point in Texas. Seems like every section is going to be able to handle the situation this year.

A number of business enterprises are marking time until more business spaces are available so they can locate in Big Spring. When buildings now under construction are completed these firms will open for business in our city.

Now that Herrin, Ill., has subsided, Viscount Saskatchewan takes her place in the sun, with the announcement that a goose in that vicinity has hatched two goslings from a single egg.—J.E.

Awkward Dancer: "The Charleston becomes rather monotonous, don't you think?"  
His unlucky partner: "Well, why don't you try jumping on my other foot for awhile?"—The Outlook.

You can notice quite a difference in the spirit of our people the past two weeks. The advance in the price of cotton is going to spell prosperity for a great number of our people. If the price of crude oil would advance old Howard County would be "sitting pretty."

There is at least \$125,000 worth of building scheduled for the coming months in Big Spring. The old town is not booming, but building on a safe foundation and it would not be surprising should it double in population within the next two or three years.

A few street lights along First Street are needed and it would not break the city to install same. These lights were planned when the paving program was mapped out and we fail to understand why this is the only street to be overlooked by the city officials.

Most oil territory in Texas has oil at just one certain depth. Oil is found in Howard and adjoining counties at three or four different depths ranging from 1200 to 3800 feet. Do you wonder that oil companies are eager to secure acreage in our county.

Many men in our county who are in the section of scant rainfall are going to be available to help harvest the cotton crop in the favored sections. This will eliminate the necessity of shipping in and worrying with the unsatisfactory help that the cotton growers have to contend with each fall.

**WHAT PRICE GLORY**

**R & R LYRIC SOON!**

West Texas farming land is to be in demand this fall. The boll weevil is going to drive quite a few good farmers to our section of the State. West Texas is a real cotton country, and year for year, can hold her own with sections where land is sold for four and five times the price of West Texas land.

Big Spring has an opportunity to make a marvelous growth during the next two or three years. If everyone of us will lend a hand to push our home town to the front our steady growth is assured. It's up to you to do your part. We lose if you are going to play the part of a quitter.

The excellent showing of the Texon-Mariand Settles No. 2 on the W. R. Settles ranch about fourteen miles southeast of Big Spring has the oil men guessing. Swabbing operations indicate this well is good for 800 barrels or more oil per day. This is the largest production yet secured in our county from any one well.

They say it is impossible to dodge death and taxes. That's right as far as the little fellow is concerned, but the rich are usually able to dodge the greater part of their tax. If the corporations, wealthy citizens and money lenders paid in proportion to the little home owner taxes could be reduced all down the line.

Pullman porters have petitioned the Interstate Commerce Commission to force the Pullman Company to pay them a living wage and eliminate the paying of tips on Pullman cars. The porters claim the Pullman Co. pay but a meagre wage and expect the porters to extract enough in tips from passengers to get by.

Once there was a radio enthusiast who asked some friends in to hear the evening program. He earnestly hoped that the music and speeches and stock reports and forecast and bed time stories and such wouldn't be spoiled by static. And there was no static. All evening he got station after station clearly and without trouble. This is another fairy story.—Ex.

A special venire of one hundred men had been summoned for jury service Monday when the case of the State of Texas vs. P. E. Little, charged with murder was set for trial. Because of the absence of the State's important witnesses due to illness the district attorney made a motion for continuance which was granted by the court. District Judge Smith announced that a special session of district court would convene to hear this case in Big Spring on the fourth Monday in January, 1928, being the 23rd day of said month.

**"BEAU GESTE" AT LYRIC THEATER MONDAY AND TUESDAY**

The screen version of one of the most popular romantic action novels in recent years, "Beau Geste," will be shown at the R. and R. Lyric theater next Monday and Tuesday, September 19 and 20.

This thrilling story of romance, mystery and adventure in the French Foreign Legion with the theme of the devotion of three brothers powerfully depicted, has been transferred to the screen by Paramount on a scale never surpassed by any previous production.

For the filming of this novel, Director Herbert Brenon led an army of 2000 men into the Great American Desert for three months during which the exterior scenes were made. The camp was built in a sand basin 30 miles from any habitation and the entire company worked straight through, without a day's rest from 5:30 each morning till sunset.

Brenon took his company to Burlingame, California—a 900 mile trip—for a few cranks of the camera.

No obstacle was permitted to stand in the way of making it as fine as possible. The director was given the selection of any player in motion pictures. Months were spent in preparation and more months to filming. Hundreds of the West's finest riders were brought together as were 1500 of the world's fastest horses and 50 camels.

The smallest part in the picture was filled with the same care that was given to casting the featured roles.

Ronald Colman plays the title part, that of the eldest of three brothers who each leave home without telling the others, to enlist in the French Foreign Legion under assumed names in order to shield each other from the blame for the theft of a famous sapphire. Nell Hamilton and Ralph Forbes enact the other brothers.

The brave defense by 40 legionnaires of a lonely fort in the Sahara when it is attacked by countless hordes of mounted desert warriors, Touaregs, brings the story to its climax. It also causes Noah Beery, as the brutal adjutant, "the cruellest beast and bravest soldier" in the Legion, to reach the pinnacle of his notable screen career.

Other prominent players in "Beau Geste" include Alice Joyce, Mary Brian, William Powell, Norman Trevor and Victor McLaglan.

**ROYAL NEIGHBORS HOLD INITIATION FOR NEW MEMBERS**

Three candidates were initiated into the order of R. N. A. at the last regular meeting which was held last Thursday afternoon. Those being initiated were Mrs. J. B. Tidwell, Mrs. Willard Smith and Mrs. Carl Merrick.

A refreshment plate holding sandwiches, potato chips and iced tea was served to about twenty-five members during the social hour.

The next regular meeting of the Royal Neighbors will be held the fourth Thursday in the month, September 22, and at this time an initiation will also be held.

A cordial invitation is extended all members to attend the meeting. Visiting members are also invited to attend.

Mr. and Mrs. Merrick of Eastland are the guests of D. Robinson.

The most forward looking person we know is that gink at Holland, Mich., who recently deposited a dollar in a bank with the stipulation that it should remain on deposit and draw interest for 500 years. At the expiration of that period it will have grown to \$2,500,000 and is to be divided among his descendants, if any.

Let us be your Druggists..... Cunningham & Philips.

Mrs. C. W. Davis and daughters, Misses Nelle, Anita and Charline returned Sunday from a several days visit with relatives and friends at Tulla and Amarillo.

Lamesa is going to follow the example set by Snyder in making a fight to secure ice at a price less than 80 cents per hundred pounds. It is said that ice can be purchased at Roscoe for 55 cents per hundred pounds.

## MEMORIAL SERVICES FOR MRS. J. W. HIGGS JR.

The Homemakers Class of the First Baptist Church held a memorial service in honor of their deceased teacher, Mrs. J. W. Higgs Jr. They met in the basement of the church Tuesday afternoon at three o'clock. After a brief business session the class was invited by the hostesses into the church parlor, which was beautifully decorated. The teacher's picture was artistically placed in a prominent position. Mrs. Bill Satterwhite played softly "Sweet Hour of Prayer with Variations," as the class entered. Mrs. T. R. Gathright conducted the devotional, reading from the thirty-first chapter of Proverbs. Mrs. B. Reagan then led in prayer. Mrs. Ira Martin and Mrs. Henry Davidson sang very sweetly "List to His Voice." A talk on "What Our Teacher Meant to the Class," was made by Mrs. Sidney Wood. "Some of Our Teacher's Ambitions for the Class," was given by Mrs. D. H. Heard. The song "Shadows," sang by Mrs. T. R. Gathright, was very impressive. This brought the program to a close.

The hostesses, Mrs. Sidney Wood and Mrs. Ira Martin, served refreshments to the following: Mrs. Clowdis (mother of Mrs. J. W. Higgs Jr.), Mrs. J. W. Higgs Sr., Mrs. B. Reagan, Mrs. R. C. Hatch, Mrs. Henry Davidson, Mrs. Bill Satterwhite, Mrs. T. R. Gathright, Mrs. W. B. Connor Jr., Mrs. Carl Merrick, Mrs. George Gentry, Mrs. W. D. Cornelson, Mrs. O. B. Hull, Mrs. Euta Plum, Mrs. Roy Pearce, Mrs. D. H. Heard, and Mrs. Bill Everett.]

## CRANE CITY COUNTY SEAT

With Crane City named the county seat by virtue of ninety-four votes out of 142 cast, Crane County became regularly organized Saturday and elected a full roster of officers. Jack Allen becomes County Attorney; B. C. Welt, County Treasurer; Fred Allen, County Judge; Edna Heagy, County and District Clerk; B. O. Coleman, Constable; G. M. Clark, Justice of the Peace, and M. Demrom, County Assessor. The Sheriff's, Assessor's and County Clerk's posts were the most sought.

El Centro had a number of supporters for the county seat.

## KEEPING A TOWN SNAPPY

No business man in any town should allow a newspaper published in his town to go without his name and business being mentioned somewhere in its columns. This applies to all kinds of business—general stores, dry goods, groceries,

furniture dealers, manufacturing establishments, automobile dealers, mechanics, professional men, druggists, and in fact all classes of business men. This does not mean that you should have a whole or half or even a quarter page ad in each issue of the paper, but your name and business should be mentioned, if you do not use more than a two line space. A stranger picking up a newspaper should be able to tell what business is represented in the town by looking at the business mention in the paper. This is the best possible town advertiser. The man who does not advertise his business does an injustice to himself and the town. The man who

insists on sharing the business that comes to town but refuses to advertise his own is not a valuable addition to any town. The life and the snap of a town depends upon the wideawake liberal advertising men. It's the truth. — American Banker's Magazine.

A mystery story of the French Foreign Legion in the deserts of Africa that tightens your skin with excitement. It tells of three handsome young Englishmen who disappear from home after a famous sapphire known as the "Blue Water" and belonging to their aunt, has been stolen.

All this leads to a remote fort in the Sahara and the ever-feared attack of an Arab host. In the morning the fort remains uncaptured, every man at his post—dead, the commanding officer with a French bayonet through his heart, and an amazing confession concerning the "Blue Water" clutched in the hand of a dead soldier.

A thrilling mystery story. A wild adventure story. A delightful romance. Never before have you encountered more intense action. Such a story promises great things. Such a cast guarantees them!

## Polly Drake Made a Mistake

By CLARISSA MACKIE

(Copyright.)

LANEBORO was said to have a population of twenty-five hundred people, and of this twenty-five hundred, five belonged to James Drake's family. Their two sons were abroad, Ronald studying music in Paris—Benjamin at Oxford.

At home was the only daughter, Polly, nineteen, just recovering from a sprained ankle.

Polly, looking distractingly pretty in a filmy pink frock, suddenly heard a step on the veranda, and looking up discovered the handsomest young man she had ever seen, bowing very formally.

One quick glance at the dust upon his brown shoes, the bundle of black-covered books under one arm, placed him for Polly Drake. He was a book agent, perhaps.

"Yes?" drawled Polly a little snobbishly.

"Ah," he hesitated, and he had the nicest voice, too, "I must apologize for this intrusion, but—"

"Yes?" interrupted Polly. "Is it a book subscription?"

For an instant he stared at her in an amazed way, then he laughed gently, and said: "I am afraid not, Miss Drake."

"Magazines—perhaps?" murmured Polly.

"Not even magazines," he said regretfully, and then, all at once, Polly knew all about him, for his pictured face was staring back at her from the page of the newspaper she had picked up!

It was "Little King," the notorious robber, who stood before her! The young man, who had achieved a cheap notoriety through his daring robberies—a society daylight burglar! And here was James Drake's only daughter, with a beautiful pearl necklace around her throat and wearing a diamond ring—Polly gasped, even as she so rapidly placed him. She did not ask him to sit down, but she rose to her slim height, leaning on her crutch. She did not want a disturbance that would wake her mother.

"Ah, you have had an accident?" sympathized the young man politely. Polly nodded, mute with hidden fear.

"Of course you know who I am," he went on. "Mr. Drake suggested that I might come up here and wait until his return." He offered her his card, but Polly waved it away.

"I recognized you," she said curtly. "Recognized me?" he repeated. "Yes—your picture is in the paper."

"What paper?" he asked brusquely. For answer she handed him the newspaper she had been looking at. "I do not see my picture here, Miss Drake."

"The picture on the right column," she said steadily, and all the time she was watching his dark face.

"So you believe that I am 'Little King,' the thief?" he asked, and when Polly sat down in her chair, he, too, sat down in a chair opposite.

"It is hard to believe it," said Polly Drake seriously, looking her loveliest as a sudden color flooded her cheeks, "but you look just like the picture." Gravely he leaned over and extended the paper. "Please read the description, Miss Drake," he said coolly, and Polly read it aloud, in a faltering voice.

"About five feet four inches—stout—red hair—mole on chin—brown eyes—oh—I am so sorry, I don't know what I was thinking about—"

He had leaned down and, picking up the card she had dropped, presented it with wistful blue eyes.

"Neale Rutherford!" Polly was on her feet now, holding out both hands, her face radiant. "How can you ever forgive me?"

"Easily," laughed Rutherford. "You see, I stopped in the bank and saw your father, and he said to come up here and get acquainted with you. He asked me to bring this package of books or something, and said it was to go onto his desk in the library."

Now, Polly was busy ringing for cooling drinks, and hoping that he would stay the night there, and he hastily told her that Mr. Drake was bringing up his bag in the car. Then, after refreshments, they slowly walked down to the garden and sat down near the pool and he told Polly about the loss of his father, and the failure of his father's business that followed.

"So your father has offered me a vacant position in his bank here, and I am beginning at the bottom," said Neale. "My mother is coming a little later, and I will establish a home for us here. Your father is a wonderful man, Miss Polly."

Polly nodded thoughtfully, and it was just then that Mr. Drake came home and told Polly Neale was to be their guest for a week or two until he found a house in which to make a home for his mother and sister.

That night Mr. Drake smiled at his wife.

"Alice," he said, "Neale Rutherford's boy is here—and I very much fear that he and Polly have fallen in love with each other!"

Mrs. Drake smiled. "That would make me very happy, James, for you know his people are of the very best—and as for money, James, how much did you have when I fell in love with you?"

"Fifteen dollars, I believe," he said, kneeling beside her, and together they listened to their Polly singing an old love song to Neale.

## DENUNCIATION OF UNITED STATES HAS NOT CEASED

Denunciation of organized government, such as enjoyed under the Constitution of the United States, has not ceased and newspapers are continuing to give prominence to the ideas of radical agitators, said R. E. L. Saner, 33d, of Dallas, Texas, former president of the American Bar Association, in an interview in the New York Times.

"To thoughtful citizens it is cause for increasing concern that such latitude is given proponents of radical doctrines to carry on extensive campaigns against almost every phase of our government," he continued.

"We are constrained to the belief that the sentimental acceptances of many false theories now presented, academically discussed under other and more alluring names, has caused many citizens to lose sight of the inevitable consequences; now, if those questions were presented stripped of their camouflage and expressed in all their sordid reality, they would be worthy of no defense.

"These disruptions rely, evidently, upon their own distorted interpretations to abuse the very liberty give them under the Constitution. Such abuse by those enjoying these privileges is a shame and a disgrace to them.

"Proper laws, no doubt, could be enacted to curb these abuses and to control these malcontents, but we realize that instead of the passage of more laws providing new regulations, the greater power in this country to meet such unfortunate conditions is an intelligent citizenship, having a clear understanding not only of the 'rights' but who also appreciate the 'obligations' of citizenship."

## ECCENTRIC DANCERS ARE WITH SOUTHERN MELODY BOYS

Kenneth Harlan, and his sister, Miss Elizabeth Harlan of Houston, eccentric dancers are attracting much interest with their exhibitions that have been given at Miller's Skating rink north of Big Spring. Mr. and Miss Harlan are enroute to Hollywood, where they go to begin a long engagement with Fanchaw and Martin circuit and they will remain in this city a few weeks before going west.

Mr. Harlan won the world's fastest eccentric dancing record last year in Los Angeles at Mary Gardner's dancing palace, making 163 counts a minute, carrying 102 steps. He has been studying in New York with Jack Blue, famous eccentric dancer.

Miss Harlan is a very accomplished dancer also and the two put on some clever work. This dancing pair is with Percy Storm and his Southern Melody boys and they give exhibitions wherever the orchestra plays.

**ONE-VARIETY COMMUNITIES FOR COTTON PROFITS**

Better profits in cotton growing could be attained, the department of Agriculture believes, by a wider adoption of the "one-variety community" plan. C. B. Doyle, an agronomist of the department, explains that cotton tends to "run out" under the usual conditions of culture. Various strains cross in the fields, and when the different varieties of cotton are taken to a common gin the seed for the next crop is mixed and distributed to all planters in the community.

The "one-variety" plan calls for agreement by all the growers on the use of one standard purebred strain so that all seed from the gin will produce cotton of similar characteristics, particularly as to length of staple. Under present conditions there is small incentive for the individual to grow the longer cotton which should command a higher price to make up for lower yield. His cotton is mixed with neighbors and the buyer can not afford to pay more. If the spinner could rely on the supply from one or several communities where all growers produced uniform grades of cotton his buyer could afford to pay the premium for the graded product, and the grower would be assured of a reliable supply of purebred seed from the community gin.

**WHEN?**

When this country is no longer an exporter of fiber and take when the floods come and take their toll, when the drouths, storms and hail add their mite to lessen production, when the insects become so destructive that it becomes a struggle with the farmers to produce enough food and fiber to feed and clothe themselves, when the people of this country want the things the farmer produces, regardless of price, and find them not; when the people of this country realize as never before what part the farmers have played in the destiny of this country, when the press tells the farmer in what part of the country their products are mostly needed and where they will bring the highest price, when the press tells the world there is no surplus, instead of publishing the exchanges' propaganda that there is; when the press tells the farmers how and where to sell for a profit, instead of telling them how to produce more and sell for less, then, and not until then, will the farmers come into their own.—T. **H. H. HARDIN Lumber**

**NOT AS CRAZY AS HE LOOKS**

Senator Smith Brookheart of Iowa, is something more than a protester. Regarded by Eastern republicans as a black sheep in their fold, his prestige has been consistently cried down just as other reformers have always been cried down by standpatters. It has ever been a pose of the industrial and financial intelligencia to claim all wisdom in those fields, and to either denounce or sneer at Westerners who dared complain. But the old cry of "calamity-howler," or "radical," has lost some of its magic, and the so-called radicals of the West are making themselves felt as the calamity howlers of forty years ago did.

Senator Brookheart is out with a proposal that the intermediate credit bank be "enlarged into a cooperative reserve bank with the powers of the Federal Reserve Bank, including the right to issue notes, to transact the deposit business of farmers and laborers, and with permission for the labor and country banks to become members of it instead of the Federal Reserve."

Here is something constructive coming out of the West, as nearly every political reform in a century has come. The Federal Reserve system has been of inestimable value to the country as a whole, but its structure and its policies have not favored the exigencies of the farming business. With recent legislation which perpetuates it and makes possible even greater centralization of capital, and therefore of financial dictation, the Federal Reserve system needs a counterbalancing financial system.

Senator Brookheart's proposal is worthy of consideration. It will naturally be opposed by the Eastern interests, and by many others of a conservative turn of mind. But its possibilities are too great in fostering the common good for the idea to be thrown aside without an active effort to materialize it in workable form.—Farm and Ranch.

**COTTON IN 1927 AND 1926**

One of the chief indoor sports at this time is figuring the value of a bale of the 1927 cotton crop as compared to the 1926 crop. One of our bankers stated one bale this year might have more value than an entire crop last year from the standpoint of the fellow who realized nothing from his cotton after paying rental, picking, ginning, etc. He stated that he knew many farmers who made a big crop but the expenses of harvesting eliminated any returns to the grower. One poor fellow called on him to straighten out his problem. He had made eight bales of cotton and when everything was paid he had about one dollar and seventy-five cents on the red side of the ledger. He cited numerous instances to show that the more cotton a farmer raised last year the less he had to show for his year's work.

He added that when you consider all these points there is no telling just how much more a bale of cotton is worth than it was last year. This would be a wonderfully prosperous fall if everyone was out of debt, said he, but it going to take quite a bit of this year's profits to finish getting the cotton growers out of the 1926 hole.

### BURGLARIES IN CITY

The homes of I. J. Robb, L. S. McDowell and George White were visited by burglars last Saturday night and money, jewelry and clothing stolen.

It is quite certain the burglar had been tipped off as to just where some of the money and jewelry could be found.

### ARRESTED ON SERIOUS CHARGE

John Strickland was arrested at Coahoma Wednesday night charged with attempting to take the life of a young man by the name of Crocker. Crocker claims Strickland invited him to get in his automobile to take a ride, and later attempted to shoot him. Crocker has a bullet wound in his hand and along his scalp. Charges of illegal possession of liquor will probably be filed against Strickland and Crocker as a quantity of liquor was found in automobiles said to belong to them when the officers made a second trip to Coahoma to investigate the shooting.

Friends in this city sympathize with Mr. and Mrs. C. V. Warren in the loss of their infant daughter, Rheadene who died Sunday afternoon, Sept. 11, at 5:59 o'clock. Funeral services were held Monday morning and the remains were laid to rest in Mt. Olive cemetery.

The infant of Mr. and Mrs. M. S. Wright was claimed by death Thursday, Sept. 15, and was laid to rest in Mt. Olive cemetery Friday morning. Friends sympathize with the bereaved parents at the loss of their precious babe.

### NOTICE

No children under school age will be allowed to enter school after this week unless they have previously attended school. Do not ask for exceptions to this rule.

P. B. Bittle, Supt.

W. J. Gordon was a business visitor in Fort Worth this week. Mr. and Mrs. Gordon plan to move to Fort Worth the latter part of this week to make their future home.

### DEMPSEY-TUNNEY FIGHT WILL BE RECEIVED AT THE QUEEN

The returns of the Dempsey-Tunney fight will be received at the R. and R. Queen theater on the evening of the fight, Thursday, Sept. 22, beginning at 8:30 o'clock. J. Y. Robb, manager of the R. and R. Theaters will receive this fight, blow by blow by direct wire from Soldier's Field in Chicago, and same will be flashed on the screen at the Queen theater. It will be only a matter of seconds between the time each blow is struck in Chicago and the time Big Spring fans will hear about it.

Many are interested in the fight and are anxious to know if Dempsey is coming back; and if he is again to be world champion.

The main event will start about 8:30 o'clock (our time) and some of the preliminaries will probably be received. Those interested are urged to come early.

The admission price will be 50c, and fans will be offered the same thing that "ringsiders" in Chicago are getting.

### W. H. ROBINSON HAS FIELD OF FINE MAIZE

W. H. Robinson of the Salem community northeast of Big Spring brought to the Herald office last Friday several heads of maize that he gathered from a field of twelve acres at his home place. You would have to go a far way to find feed any better than the specimens brought in by Mr. Robinson for they were certainly prize winners. Mr. Robinson stated that he had a fine stand of feed this year and the twelve acres were unusually fine. Before he planted this spring he broke his land real good and furrowed the field three different times and plowed out the weeds once, hence he attributes the good feed to the proper preparation and treatment of the soil. If Mr. Robinson decides to enter some of his feed in the county fair we feel certain that he will win a blue ribbon.

Mr. Robinson has some fine cotton too, and he expects to make a big yield.

The State Highway department is doing away with the concrete dips along the highways in our county, substituting culverts therefore. The short dips are an abomination and all users of the highways will be pleased to note their passing.

Such a housewife cannot content herself with any but 1927 methods in her home. For her only the quickest and most convenient methods will do.

And it is for such housewives that the "1900" Whirlpool washer is designed. It will wash the average family's laundry in one hour a week. It needs no attention, practically no lubrication and no adjustments.

Merely put in your clothes and touch a button. The "1900" Whirlpool can be emptied or loaded while washing, and it will wash a tubful or a handkerchief with equal ease.

Built just like a modern, fine automobile, it is convenient, simple and sturdy beyond any demand that will ever be made of it. Timken and Babbit bearings, case hardened working parts and an 18-ounce tempered copper tub assure its lasting ability.

# QUESTION BOX

ON HEALTH subjects Edited by  
STATE DEPARTMENT of  
HEALTH  
J C Anderson, M.D. State H O

THIS column will be given to discussion of matters pertaining to public health. Any questions regarding public health administration, prevention of diseases, child care, sanitation, etc., will be answered in succeeding issues of this paper. Questions in regard to cure of diseases will not be answered, as the scope of this Department includes only disease prevention. Address Question Box, State Department of Health, Austin.

## QUESTIONS

1. Is the house fly a carrier of the germ causing typhoid fever?
2. Is the fly the only means by which typhoid fever is transmitted?
3. Does the house fly spread other diseases than typhoid?
4. Do many flies survive the winter months?
5. How many eggs does a fly lay?
6. How long does a fly live?
7. How old is a fly before it begins to lay?
8. Do flies travel a great distance?
9. How do flies transmit disease germs?
10. How many cases of typhoid have been reported in Texas this year (A. L. M., Colorado)?

## ANSWERS

1. The house fly is often a carrier of typhoid fever germs, and is a potential health menace. If he has access to filth containing disease producing germs, he becomes a disease "carrier."
2. No. Typhoid fever may also be transmitted by water, milk and uncooked food which has typhoid germs in it. These germs always come from the excreta of the body of one suffering from typhoid.
3. The house fly may also be the means of transmitting cholera infantum, dysentery, diarrhea, enteritis, tuberculosis, and other diseases.
4. Only a few flies survive the winter months, and if these were exterminated at their first appearance in the spring, fly control would be a more simple problem.
5. From 120 to 150 at a time, and one fly may live to lay as many as six times.
6. A fly usually lives from two to three months in summer, and for a much longer time in winter.
7. About two weeks old.
8. The number of flies in a community is an excellent index to the sanitary conditions of that community, as flies do not travel any great distance. When many flies are found around your home, most likely their breeding place is near by. A barn yard is an ideal breeding place for flies, and also accumulated filth of any kind.
9. Flies eat filth and walk over it, getting germs upon their feet and bill; they then fly into the house if not screened out, where they walk over the food, the children's hands and face, leaving specks as they go. These specks are particles of filth, and may contain many germs. Are you willing to take a chance on eating this filth and possibly contracting typhoid fever or some other disease?
10. There were 355 cases of typhoid fever reported to the State Department of Health by county and city health officers for the period, Jan. 1 to Aug. 31, 1927. This, however, does not represent the actual number of cases occurring within the state, as a large number of physicians do not report to the county and city health officers.

## VALUE OF TERRACES

Terracing returns a greater amount for the labor and money expended than any other farm operation. Based upon estimates compiled, from the statements of many farmers over the State, it has been found that the average cost of terracing is between two and two dollars and fifty cents per acre. From the same source it is found that the average annual increase revenue per acre amounts to more than three dollars, while in many instances, it amounts to as much as ten dollars per acre. Few, if any, farm operations will bring so great annual returns.

It is estimated that Texas has some 15,000,000 acres of farm land that needs terracing. Using the low estimate furnished by the farmers, this land properly terraced would bring \$45,000,000 increased wealth annually to the farmers of

the State, this in turn would increase trade a like amount.

In addition to the land that actually needs terracing to prevent erosion, terraces have been found to be the greatest known factor in the conservation of soil water in the sections of the State where moisture is the limiting factor in production. Reports from the Western sections show conclusively that terracing, and running contour lines, have increased the yield very materially on land that is practically level. On all land where water runs off, except the drainage districts, terraces will be a benefit to the land. On all land where the water flow is rapid a necessity.

sufficient to wash the land terrace. It has been found that there is twenty times as much plant food leached from the soil on rolling land than is used by crops. As the slope of land increases, the velocity of the water increases. When the velocity of water is doubled, it increases its soil erosion capacity thirty-two times. Terraces will prevent the rolling land from washing into gullies, will prevent the top soil from washing away. They will prevent the washing away of vegetable matter and fertilizer. They will prevent the leaching out of plant food. They will prevent the hillside sand from covering the bottom land, and filling ditches and streams. Terraces will insure crop stand. They will insure a greater

absorption of rainfall in the Western sections of the State.

Whether they are used for the prevention of soil washing, the washing away of organic matter, leaching out of plant food or for the retention of rainfall on the land, terraces are the foundation upon which may be built a more profitable system of agriculture.—Flechers' Farming.

## STUDENT WHO MAPPED OIL STRUCTURE NOW WELL PAID

San Angelo. — Oil royalties of Rupert P. Ricker and Floyd C. Dodson, San Angelo oil men, increased further Wednesday when Humble's No. 6 on land they own in fee in Upton County flowed sixty-five barrels hourly after making 1000 barrels Tuesday. It topped the pay at 2313 feet and drilled in three feet.

The well is in section 5, M. S. Denton survey, a quarter mile southwest of Humble No. 5 Ricker & Dodson, which came in June 8 for fifty barrels hourly, extending big production one mile south of the independent pool. The new well further shortens the gap between the independent and main Burleson pools.

Ricker & Dodson three years ago bought in fee, section 5, M. S. Denton survey, and section 6, E. C. Grooms survey, for \$5 an acre, Dodson having mapped a structure while a student in the University of Texas.—Dallas News.

## FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by

## NEED SERVICE

Fifteen El Paso business firms have written letters to H. W. Stanley, director of the Chamber of Commerce trade extension bureau, setting forth complaints on slow press service over the Texas and Pacific railroad.

The letters are being used by Stanley in an effort to induce the T. & P. to put an express car on its Sunshine Special.

The express car on the morning train, El Paso dealers complain, runs thru the trade territory in the heat of the day, so that perishables suffer in quality, and reaches many towns so late in the afternoon that another day is lost before goods reach consumers.

These 15 complaining business firms are only a few of those that would be benefitted by speedier express deliveries. If their business could be increased, the Texas & Pacific would gain in volume, in proportion, on the western end of its lines.—El Paso Post.

## Onoto and Wyda of the Jungle

By AD SCHUSTER

(Copyright.)

IN ALL of the tribe of Central American Indians, Onoto, the man, and Wyda, the maid, were the only ones who were white. Because of their color they were held in esteem. The old chief was scarcely more important.

The tribe was preparing for the wedding ceremonial which would unite these two, who, so far as they knew, were set apart from all men and women in the world by their color, when, through the jungles and dressed in strange garb, came a whole company of white men. The surprise of the savages at seeing these visitors was no greater than that of Leonard Detwiler, leader of the "explorers," when he saw Onoto and Wyda.

"They are white Indians!" he exclaimed in triumph. "We have proved that the stories of the old conquistadors are true."

The wedding was put off while the tribe entertained Detwiler and his party and, all the while, the white men bargained with the chief. If he would let Onoto and Wyda go with them to a land where all the men were white there would be many presents.

"But you must bring them back," the chief insisted; "you must swear on all of the holy things of your tribe."

Detwiler made a solemn oath, delivered his presents, and the party left, taking with it a wandering man and maid. The journey through the jungle, so difficult for the white men, was easy for the two, but when the villages and cities appeared, Onoto and Wyda were frightened. In their fear and amazement they clung to each other for support and behind their round eyes and solemn faces there was nothing to indicate their thoughts.

Onoto and Wyda knew that for some reason they were objects of curiosity. Men pointed at them little boxes which clicked and they were made the center of crowds who stared.

But Detwiler hurried his charges to the ship, another thing which was so far beyond any dream the two had ever had that it held their senses in a sort of paralysis. They went through the canal and saw long trains which looked like great snakes spouting smoke. Nothing now could be too great or wonderful; they were prepared.

Of the excitement occasioned by their arrival in New York and of the meaning of their visit to a university where they were regarded intently by a group of elders, they understood nothing. The street cars, subways, great crowds and tall buildings overwhelmed their minds. At first they longed to go back to the tribe, but as they grew more accustomed to the strange sights their fears quieted and they began to enjoy their experiences. Onoto told Wyda that he never wished to go back and the girl said, with a blush, "Only long enough for the wedding."

They spent several months in the land of the white man, learned a few words of English, and then were told it was time to go. Wyda signed and Onoto shrugged his shoulders.

"There is no help," he said; "we have promised. And when we get back they will never let us go away again."

"I wish," replied the girl, "we had never seen all of this. We will long, all our lives, to return."

So, with presents for the chief and themselves, they went back to the tribe. Detwiler had told them that if they cared to make the journey to New York again he would see that they were cared for, but he did not know that his words only added to their grief. The pride of the tribe in its white members would be too great to let them go.

There was a wedding and a meeting of the tribe on the evening of their return. The fire burned and the group sat close while Onoto related his adventures. The young Indian told of the great ships, which moved without sails and sent smoke to the sky. He told of the trains, the cities, the buildings which reached to the clouds, and deep silence greeted his words.

"In the land of the white man," said Onoto, "great snakes carrying hundreds of men and women, more than in ten tribes, run underground and overhead. More people than you have seen in your dreams pass through the streets every minute. The streets are filled with cars in which men ride and those cars run by themselves. And," he waved toward the sky, "there are white men who fly in the heavens like great birds."

"It is enough," the old chief interrupted. "The white man has given to Onoto and Wyda the evil tongue. In those few moons they have forgotten what they learned in the jungles. Never in my life have I heard such talk!"

There was a murmur of assent and anger from the circle, and the chief rose up. He spoke cruelly and with a firm conviction.

"Go," he said, "back to your flying men and great temples. Go back where you learned to lie!"

## THE WORLD'S GREATEST MOTION PICTURE TO BE HERE

"What Price Glory," the world's greatest motion picture which will be shown at the R. and R. Lyric theater Wednesday, Thursday and Friday, Sept. 28, 29, and 30, has been acclaimed an achievement of the age by the big figures in the industry and by the motion picture goers all over the country. Following is a comment concerning this masterpiece taken from the Screen Press:

"What Price Glory" continues to roll up records. In its third week at the Roxy theater it continued to dumbfound by the unprecedented amount of business it is bringing to the greatest of theaters. In its run it has played to over half a million people. William Fox has scored one triumph in the production of this great picture; another in this record breaking presentation at the Roxy and a third in his masterly distribution plans which permit exhibitors to play this picture at the zenith of its popularity and publicity.

Following is another comment on "What Price Glory," taken from the Motion Picture Times:

"What Price Glory" has made a new record, having established the world's motion picture box office record \$144,267.30 for its first week's run at the Roxy theater. "What Price Glory," the William Fox production did a remarkable second week's business, the gross being \$137,893.79 and the attendance 166,805, making a total for the fortnight of \$282,160 and 342,031 in attendance.

## MATTY MATSUDA FAILS IN HANDICAP MATCH

Matty Matsuda is about the best welter weight wrestler that ever graced a mat, but he bit off more than he could chew when he attempted to throw Mike Karavas and Silvio Checco within a ninety minute period. Matty made a game fight but it was just too big a contract.

This handicap match took place at the Miller skating rink, just north of Big Spring and was enjoyed by a large crowd. This was one time the crowd agreed they received their money's worth and then some.

In addition to the wonderful wrestling match there were some of the best preliminaries ever enjoyed and other features.

Percy Storm and his Southern Melody Boys rendered delightful music between the various preliminaries and Harlan and Harlan, the fastest dancers in the world gave some wonderful exhibition dances.

Boxing matches between two young white boys, and wrestling and boxing matches between Mexican youths afforded plenty of amusement before the main event of the evening was staged.

In the first leg of the time handicap, Matty was matched against Karavas and managed to down him in 50 minutes and 40 seconds. This left him 39 minutes and 10 seconds to down Checco if he was to win the match, but Checco would not be downed and Matty lost.

Anyway the crowd was with Matty and he certainly made many more friends by the great struggle, he put up in order to win the match.

This was one of the largest and best pleased crowds that has been at the Miller rink in a long time.

**GARDEN CITY SCHOOL NOTES**

The institute at Lubbock was well attended. Between twelve and thirteen hundred teachers enrolled. We had some of the best educators in the United States as lecturers who greatly inspired us for greater service the coming year.

School opened Monday, September 12. Organization is now fairly well completed and the pupils are adjusting themselves to the work. We have two new teachers on the faculty and several new pupils enrolled throughout the grades.

The Parent-Teacher Association was enthusiastically reorganized with Mrs. Jim Ratliff as president; Mrs. S. Martin as first vice president, and Mrs. Henry Neal as secretary-treasurer. The association plans to accomplish many things during the coming year.

The following standing committees have been appointed: Program, with Mrs. Hill Long as chairman; Membership, with Mrs. Virgie Roberts as chairman. Social, with Mrs. Jno. Lee Parker as chairman. Plans are being made for one public program each month.

The mothers of the primary department of the Garden City schools met Tuesday afternoon at 2 o'clock and organized a Mothers Club. Realizing the need for closer contact between the mother and the teacher, the mothers decided that the best way to establish this relation would be to organize themselves into a Child Welfare Club which is to be known as the Mothers Club. The following officers were elected: Mrs. C. W. Garrison, president; Mrs. Lee Cox, vice president; Mrs. Eva Cunningham, secretary. The meeting adjourned to meet Friday, Sept. 23 with Mrs. Bryans and Mrs. Cook as hostesses.

The Garden City High School students organized a Literary Society with Helen Martin as president; Katherine Hanson, vice president; Willie Edith Hanson, secretary-treasurer, and Elva D. Lemmons, reporter.

A standing program committee was appointed by the president to arrange the program for the entire year.

The Literary Society is looking forward to a very interesting work this year.

Speaking of Buffets and Sideboards, I have them at your price. J. R. Creath.

**PRESBYTERIAN AUX. NOTES**

The Ladies Auxiliary of the Presbyterian Church will have their regular circle meeting on Monday afternoon, Sept. 19 at 3 o'clock. The following ladies will be hostesses: King Daughters, Mrs. T. S. Currie; What so Evers, Mrs. James T. T. Brooks; Dorcas, Mrs. Leslie Dahme.

**RAILROAD MEET WEDNESDAY**

After the adjournment of the good roads meeting in Big Spring Wednesday a meeting to consider the building of a railroad from the Gulf to the Plains and Panhandle was called by Carl Rountree of Lamesa, president of the association formed to promote the building of such a line.

President Rountree stated that the secretary, A. B. Davis of Lubbock, had been instructed to communicate with representatives from every point along the line and secure data as to amount of tonnage that would be available for the new road, growth and development made the past few years and other information so that he could have something definite to base their claims on. He stated these reports had not been completed so the present meeting was merely for the purpose of talking things over.

C. C. Wild, of San Angelo, stated that Corpus Christi and San Antonio had at last been awakened to the need of a rail line to West Texas and that we could depend on their working heart and soul to have this project put over. He added that the men behind the proposed line were men of means and they certainly meant business. He stated that a charter had been secured for a line from San Angelo to San Antonio and the officers were now carrying out the preliminary work.

C. T. Watson stated he was convinced that Corpus Christi was waking up for in answer to his first communication that city seemed satisfied with its present rail outlet but he has since received a communication in which they would be more than pleased to cooperate in securing a line to West Texas, the Plains and Panhandle.

Mr. Rountree added that the folks on the Plains, and especially in his county needed better rail facilities and were going to have them. He pointed out that if the gap between Lamesa and Sterling City could be bridged they could line right up with the San Angelo to San Antonio line and have a direct line to the Gulf.

Since West Texas is to lose its common point freight rate in December it is necessary that they seek lower freight rates, and a direct line to Corpus Christi will solve this problem.

Mr. Rountree stated that as soon as something of interest was learned in connection with the proposed road he expected to call a meeting of the representatives and keep hammering away on the proposition.

R. L. Powell and R. A. Marshall of Coahoma have been attending district court as jurors this week.

Delegates to Good Roads Meeting Guests of Wednesday Luncheon Club — 100 Enjoy Fine Feed

One hundred folks attended this week's meeting of the Wednesday Luncheon Club, fifty or more delegates to a meeting of Texas Highway No. 3 Association, being guests on this occasion. The ladies of the Methodist Church prepared and served the fine luncheon which was thoroughly enjoyed by everyone.

J. B. Pickle, president of the Luncheon Club, tendered the visitors a cordial welcome on behalf of the citizenship of Big Spring and the members of the club. He turned the program over to C. T. Watson, secretary of the Chamber of Commerce.

Mr. Watson explained that since the visitors were likely to do much talking or hear much talking during the meeting of the Highway Association during the afternoon he had eliminated welcoming and other addresses from the program and substituted numbers which he knew would be far more appreciated.

The first of these delightful numbers was a vocal solo by Miss Hancock, with Miss Alice Dawes as accompanist. The number so delighted and enthused Mr. Watson that he insisted that the entire company join in singing "Let Me Call You Sweetheart," and a lot of the old boys really surprised themselves and Watson, too, for he didn't think they could sing like that.

A reading by Miss Bettie was the next number and it was indeed enjoyed.

Mr. Watson thought another song would be just the thing but he gave "Sweet Adeline" such an unearthly pitch that the gang never did hit it off in the execution of poor Adeline.

As the hour for calling the meeting of the Highway Association was at hand the Luncheon Club was declared adjourned and an invitation was extended the members to remain for the highway meeting.

It was announced that the next meeting of the Luncheon Club was to be an "agricultural" meeting and every member was urged to bring a farmer friend. B. Reagan, C. W. Cunningham and Dr. Baxley were named as the committee in charge of the program.

**Y. M. C. A. CLOSED**

Acting on instructions from the regional director of the Y. M. C. A., the local directors of the association closed the "Y" here last Saturday night.

It is quite probable that the directors will take the matter up with the national officials to ascertain whether or not the citizenship of Big Spring or those who contributed toward the construction of the building have any rights to be protected. It is stated that the railroad officials are the ones requesting the Y officials to close the local Y. It seems there is a clause in the ninety-nine year lease wherein it is stated the building reverts to the railroad company when it is no longer used as a railroad Y. M. C. A. Just what use the railroad company intends to put the building to is not known. The citizens who contributed several thousand dollars towards the construction of the building will not feel very kindly toward the company if they do confiscate this structure due to a technicality in the lease. If we can no longer have a railroad Y. M. C. A. there is no reason why we cannot have a city Y. M. C. A. if the building is available for such organization.
