

Man Quizzed For Shooting At Duchess

Suspect Charged As Scotland Yard In- vestigates Affair

LONDON, June 6 (AP)—Police held Ledwidge Vincent Lawlor, a 45-year-old steel worker, for further investigation today for firing a shotgun near the automobile of the Duchess of Kent.

Had Gun Permit

Lawlor was said by police to have sought to excuse his action by producing a gun permit. He was given a quick hearing before a magistrate and bound over for a week.

His story gave no hint as to whether he deliberately aimed his weapon at the car of the duchess, near her fashionable town house last night.

Lawlor, who gave his address in a lower middle-class London residential section, was formally charged in broad legal language with illegal possession of a loaded firearm "with intent to endanger life or property."

In formal language, the charge read "that he did on June 5 at Belgrave Square residence of the duchess have in his possession a firearm and ammunition with intent by means thereof to endanger life or cause serious injury to property contrary to the firearms act of 1937."

The shooting in Belgrave Square and the almost simultaneous breaking of a window pane at the home of the princess royal, Countess of Harewood, sister of King George VI, were the subjects of a Scotland Yard investigation to determine if they were linked with a terrorist campaign.

Deepest mystery surrounded the shooting and the motive behind it. The only authorized statement of Scotland Yard said:

The duchess, sister-in-law of King George VI, went on to the theatre despite the shooting. With her was Lady Portarlington. They saw "Wuthering Heights." The duchess, the former Princess Marina of Greece, is 32 years old and known for her beauty and chic.

Her automobile was untouched by the shotgun blast.

The duchess was not aware of exactly what happened until her return from the movie last night. The Duke of Kent, youngest brother of the king, had left the house a short time before his wife to keep a speaking engagement and he also was advised upon his return to Belgrave Square.

The Earl of Harewood, husband of the princess royal, himself called Scotland Yard about the window in his Green street home. There was a tiny hole in the pane, and glass around the hole was splintered.

The police found no immediate connection between the two incidents. They had under consideration, however, the possibility that sympathizers with the outlawed Irish Republican army, king-baiting advocate of Irish independence, were responsible.

NEW YORK, June 6 (AP)—Offerings of \$18,000,000 in West Texas Utilities Co. first mortgage series A 3-4 per cent bonds at 101 3/4 was made today by a banking group headed by Harris, Hall & Co., Inc., proceeds of which will be used to retire first mortgage 5 per cent bonds maturing in 1967.

Wallace After Nomination?

WASHINGTON, June 6 (AP)—Reports spread on Capitol Hill today that Secretary Wallace of the agriculture department is about to become an avowed candidate for the democratic presidential nomination.

Congressional friends of the agriculture department chief, who said they had talked to him about the 1940 race, expressed belief, however, that he would not permit entry of his name unless it was certain President Roosevelt would not seek a third term.

Other members of congress said Wallace might seek pledged delegates who would swing to a third term movement for the president.

Talk of the secretary's candidacy echoed a recent visit to his native state of Iowa and other midwestern points by Paul H. Appleby, Wallace's assistant.

Appleby was reported to have sounded out democratic leaders about Wallace-for-president delegations.

The 50-year-old secretary came to the cabinet in 1933 as a republican who had supported Mr. Roosevelt for the presidency. At the time Wallace was editor of a farm magazine in Des Moines. His father, the late Henry C. Wallace, had been President Harding's secretary of agriculture.

Former Gov. Nelson G. Krashinsky of Iowa, after a recent White House visit, told reporters that Iowans were "great admirers of Henry Wallace." He declared the state would "insure he satisfied" with any candidate except the president or someone in harmony with his views.

TEARFUL PARTING ABOARD SHIP

This girl and boy had a fleeting reunion in Havana with this tearful ending. He is one of 907 Jewish refugees aboard the German liner St. Louis, which was steaming aimlessly off the Florida coast after the group had been denied entry to Cuba at Havana. The girl already was in Havana when the St. Louis docked.

Refugees Being Returned Home

Barred From Cuba When No Deal Made For Haven On Isle Of Pines

NEW YORK, June 6 (AP)—The Hamburg-American liner St. Louis with more than 900 Jewish refugees from Germany aboard was reported by officials of the line today to be en route back to Hamburg.

The vessel was ordered out of Havana harbor after Cuban officials denied the passengers admission. Later she cruised aimlessly in Caribbean water and it subsequently was reported the refugees would be landed at the Isle of Pines off the Cuban coast.

E. H. Dedrick, passenger traffic manager of the ship line, said, however, the St. Louis had been on its way back to Germany since Sunday.

"We had a radio from Capt. William Schroeder, of the St. Louis yesterday, telling us he had turned around and was on his way back to Hamburg," Dedrick said, "and this morning we have a cable from the main office in Hamburg confirming that statement."

Dedrick said the St. Louis, a motor ship, had refueled and re-provisioned at Havana, and there was no danger of a food shortage on the return voyage. Asked what would become of the refugees once the ship reached Hamburg, Dedrick said:

"They will be put ashore. They are not our problem."

Bernard H. Sandler, an attorney representing groups interested in the refugees, said Dedrick had assured him if he would put up a \$50,000 bond the ship could be brought back. He said \$40,000 had been pledged.

"If nobody will take these refugees," Sandler said, "we will appeal to President Roosevelt to send an emergency message to congress to suspend the immigration law until the status of these unfortunates can be determined. I believe congress will give them temporary asylum here when it is made plain they are returning to certain death in Germany."

BARRED FROM CUBA

HAVANA, June 6 (AP)—President Federico Laredo Bru today announced 907 Jewish refugees from Germany aboard the liner St. Louis would be barred from Cuba.

Washington Dressing Up For Royalty

Secy. Hull To Meet King And Queen At Niagara Falls

WASHINGTON, June 6 (AP)—The steel gray lamp posts along historic Pennsylvania avenue were sprouting red, white and blue British and American flags today, first visible evidence of the two-day pageant of good will honoring the king and queen of England.

Shields To Go Up

From Union station, where the royal couple will arrive Thursday morning, to the White House, where they will stay overnight, banners and bunting were being hung.

Decorations will be completed tomorrow when shields bearing the United States coat of arms and others inscribed "GRE"—George Rex Elizabeth—are put in place beneath the flags.

Secretary of State Hull and Sir Ronald Lindsay, the British ambassador, will leave tonight to greet the royal visitors at Niagara Falls when they cross into this country from Canada tomorrow night.

Meanwhile, the vanguard of the bands of sightseers began to arrive in the capital. Some officials predicted these would swell to half a million the throng flanking the two-mile route of Thursday's parade.

Window space on the upper floors of store buildings ranges up to \$30.

But the president, the king and the members of their parties, occupying a dozen or more automobiles, will have the best view of the 6,000 soldiers and sailors, the flags, and the crowds. The troops will line the streets and face the procession. Seven army, navy and marine bands will play.

The 500,000 persons jamming the sidewalks and craning out of windows will see a sight never before witnessed during the 163 years of American independence—the spectacle of an American president and a ruler of the British empire riding together in the capital.

LEAVING CANADA

SOUTH PARRY, Ont., June 6 (AP)—Within 36 hours King George VI and Queen Elizabeth will leave Canada, and cross the international boundary at Niagara Falls to be welcomed to the United States by Secretary of State Cordell Hull for their four-day visit in Washington, New York and Hyde Park.

Last night the royal train pulled up on a siding at South Parry near Georgian Bay while their majesties slept their last night in the sparsely settled districts of Ontario before moving on through Toronto to the numerous towns and cities of the Niagara peninsula this afternoon and tomorrow.

ELECTRA MAN DIES

ELECTRA, June 9 (AP)—W. L. Cason, 83, a leader in Wichita county religious work the past 25 years, died here early today. Survivors include a niece, Mrs. Hardy Griesom of Abilene.

WINSLOW, Ariz., June 6 (AP)—Helen Tanner of Ames, Ia., flew her small airplane to the Winslow airport early today after a forced landing in the isolated region near the Arizona-New Mexico border caused apprehension for her safety.

Mrs. Tanner landed her ship last night when she ran out of gasoline a few miles from the Deep Lake, Ariz., emergency field, 75 miles southeast of here. The plane was slightly damaged.

She had walked along a road 10 miles until picked up and taken to St. Johns by a truck driver. She spent the night at a St. Johns hotel and returned with gasoline to the plane this morning.

Right-Of-Way Task Started

Howard county commissioners court Tuesday had tackled its problem of securing right-of-way for rerouted highway No. 9 south.

First deed for roadway was filed by County Judge Charles Sullivan following an agreement reached with Mrs. Kate Williamson on property at the southern edge of town. Others were due to follow rapidly.

The city, too, was preparing to complete its end of the bargain to secure needed roadway within the city limits. Returning from a weekend conference with highway officials in Austin, City Manager E. J. Spence said he believed that the city could secure its portion of the Gregg street right-of-way by the time the county will need it to get the section of highway included in the July lettings by the state highway commission.

Rangers, Troops On Duty To Quell Texarkana Rioting

Strike Dispute Brings Battling Oyer The City

TEXARKANA, June 6 (AP)—Early-morning fighting kept police hopping today as Texas rangers supplemented national guardsmen in patrolling the strike-besieged plant of the Two-State Fruit Packing Manufacturing company.

The battling broke out in various parts of the city, with participants using stones, bricks and other weapons. G. H. Brown, about 25, was treated at the Texarkana hospital for a fractured skull suffered in a brick fight.

Police Chief Jack Rannels said he broke up a battle in which "10 to 15 people" on each side were using stones.

The rangers dispersed small groups after a barrage of stones struck the plant.

In an effort to calm the situation at the company, troops were moved out to snare posts two blocks away from the plant, patrolling with fixed bayonets.

Lieut.-Col. Gaston S. Howard of Austin, assistant adjutant general, flew here this morning to assume active command of the guardsmen.

"Our troops," the colonel said, "are acting as sort of deputy policemen. Since there is no martial law, if something serious should happen, it might have serious consequences."

\$10,000 FOR AN IDEA TO BOOST THE CONSUMPTION OF COTTON

AUSTIN, June 6 (AP)—The legislature put \$10,000 on the barrel head today and invited anybody in Texas to take it.

There are a few conditions, however. The sum goes to the first Texan discovering a new use for cotton through which consumption increases by 200,000 bales annually.

The appropriation was authorized when the senate adopted house amendments to a bill by Farmer-Senator George Moffett of Chillicothe which now goes to the governor's desk.

The president of Texas A. & M. College, Texas Technological College and the University of Texas will determine which applicant qualifies for the reward.

Moffett said his measure aimed at encouraging a streak in human nature which "will work harder for a prize than for a substantial lifetime job."

He added Texas was the first state to enact such legislation and the National Cotton Council had informed him it would suggest that other states and the federal government follow the example.

Irish Patriot Held Prisoner

DETROIT, June 6 (AP)—Sean Russell, admitted "head man" of the outlawed Irish Republican army who is a federal prisoner here, today described as "a co-incidence" his arrival in Detroit on the eve of a scheduled visit of the king and queen of England to nearby Windsor, Ont.

Thomas F. Chawke, attorney retained by friends of Russell, declared it was "apparent that he was arrested, as he arrived by train from Chicago yesterday, on a warrant charging him with entering the United States by means of false and misleading statements."

Russell, whose reputed chief-of-staff post with the Irish Republican army gave rise to reports Scotland Yard wanted him back from America because of the recent bombings in England, was placed under arrest as he was about to enter a taxi-car. He has been on a lecture tour of the United States.

When the arrest became known, an Irish-American group here quickly went to Russell's aid and engaged counsel for him.

In London, the British foreign office said the United States government had been asked to keep an eye on Russell, but declared no request had been made yet for his extradition to Britain.

Farm Measure In A Race With Time

WASHINGTON, June 6 (AP)—Congressional action on the record-breaking \$128,000,000 farm bill may develop into a race against time.

Funds are provided in the bill to operate the agriculture department and some other agencies for the fiscal year beginning July 1. A joint senate-house committee started work on the controversial measure yesterday.

Senate advocates of larger government outlays for the farmer declared the time element would work to their advantage. They said privately that the nearer to the deadline the bill is enacted, the less chance there would be of a presidential veto.

Receipts Levy Put On House Calendar

Some Members Say Another Proposal Is All In Vain

AUSTIN, June 6 (AP)—After sharp debate, the house of representatives today placed on the calendar from where it could be called any time a bill levying a 2 per cent gross receipts tax to finance old age pensions.

Subject to Call

Tabled subject to call by a vote of 70 to 57, the bill was estimated to yield \$17,000,000 annually for social security purposes.

Rep. Pat Dwyer of San Antonio, author of a "luxury" tax bill for which the proposal under consideration had been substituted, pleaded with colleagues to send the bill to the senate "and, for heaven's sake, do something for the old people."

Rep. S. J. Isaacks of El Paso, leading opponent of a proposed constitutional amendment levying a 2 per cent sales tax, argued just as earnestly in an attempt to kill the proposal, asserting it was "beneath the dignity of this house to plead further with the senate and Gov. W. Lee O'Daniel to pass a statutory tax measure."

Already in session longer than any in history, the legislature still is faced with the problem of how to finance expanded old age pensions.

A senate committee has killed two house bills, one a gross receipts tax and the other an omnibus tax levy, while the house repeatedly has refused to approve a constitutional amendment permitting the people to vote on a 2 per cent sales tax.

"If you're sincere about wanting to give more pensions to the old folks," Dwyer asserted, "then vote for this bill. It is a gross receipts tax but would exempt food, drugs and clothing up to \$10. You owe it to the people, you've promised bigger pensions and done nothing."

Rep. Alfred Petch of Fredericksburg, a proponent of the constitutional amendment levy, said he thought the house was "wasting time" considering the Dwyer proposal.

His motion to table the bill lost by 52 yeas to 87 noes.

"I want to register my opposition to pleading further with the senate to pass a tax bill," Isaacks said. "We have performed our duty in sending the senate two bills both of which a committee turned down."

"They have said to us, in effect, gentlemen, we don't want to finance social security!"

Dunham Heads Elks Club Temporarily

Grover C. Dunham was chosen as acting exalted ruler of the local Elks club at a meeting held Tuesday night in the Crawford hotel ballroom. He consented to serve temporarily to fill the place left vacant by the resignation of Oscar Glickman, and it was announced an election will be held soon to determine a permanent ruler.

The meeting was presided over by Floyd H. Brown of Oklahoma City, special deputy of the grand exalted ruler, B.P.O.E. who has been here for several days assisting in organizational activities.

Club members Tuesday evening discussed plans looking toward the opening of suitable club rooms.

FOUR BLIND DATES

By Edwin Ruff

Chapter One GAME IN HEARTS

It was hot, hot enough to melt the brittle off an aluminum pig. Manhattan, with its network of streets and towering buildings, might have been likened to a waffle-iron. Such of the citizenry as were abroad moved without enthusiasm, the male representation fanning boiled-lobster faces with straw hats. Even the motor cars seemed affected. They rolled slowly through clouds of steamy glass that danced off their radiators and their horns made ho-hum sounds. June in New York! Heat-wave time in Gotham.

On the terrace of a building high above Fifth Avenue sat four young gentlemen in white linen suits. A table separated these gentlemen one from the other and upon the table were two decks of cards, and four tall, frosty, lemon-colored glasses. For this terrace was part of the drinking arrangements provided for the membership of the exclusive Penguin Club and the young gentlemen were all Penguins in more or less good standing.

Under an awning in a corner of the terrace was a small bar whose presiding deity was one Gus, a citizen in a white coat. All afternoon Gus had been watching the most desultory of desultory bridge games with languid eyes, but leaving his post behind the bar only

to refill the tall glasses with more of the lemon-colored liquid as need arose. As creator of the Collins Bros., John and Tom, Gus bowed to none. And during heat waves, in fact whenever anything at all was waving around the Penguin Club, Gus was unquestionably the most popular man in the establishment.

At the bridge table Tacks Adams was dealing. Tacks had keen gray eyes that appeared to look out upon this world and find it vastly amusing. Separated from the eyes by a wide, smooth forehead was a wave of wavy black hair. Below the eyes was a straight nose, a good size in mouth and a knife jaw which proclaimed that, given op-

LOCAL TEAM TO MOORE SUNDAY

Johnny Daylong will take his West Side baseball representatives to Moore Sunday to meet that community's independent aggregation at a 2:30 o'clock fray.

Last weekend the Moore team defeated George Billabo's Mean Tigers, 11-6, in a game played at Moore.

Capps Homers In 3rd With Two Aboard

Bats Of Walton And Morey Figure In 1-4-3 Victory

Working out of many a tight spot, Art "Killer" Gigli gained his fourth pitching triumph of the year as the Big Spring Barons smothered the Clovis Pioneers, 14-3, here Monday evening before a Ladies Night crowd of 2,000.

Staked to a two-run lead in the first inning and propelled along by some lusty hitting on the part of Tex Walton, Billy Capps and Herb Morey, Gigli took his time in perfecting his setup. Working steadily with Manager Tony Rego as his target, the Frisco dandy scattered seven hits over the route and should have escaped with a shut-out. His inability to find the plate in the eighth frame cost him that chance.

Walton's booming bat, reawakening after a long silence, had plenty to do with the decision. After singling to set up a run in the initial frame, the middle gardener returned in the fourth after a third inning walk to triple with the hasekko populated. Two innings later he accounted for another single.

Three Run Homer

Capps had but one blow during the evening but that was a long home run over the left field wall, a third inning clout that found two runners up front.

Morey joined in on the chorus with three nice blows. Two of the licks were good for three runs. The Baron's new infield setup which found Bobby Decker at short and Morey at second gave Gigli excellent support. Morey figured in two double killings.

Outside of Hack Harrison and Dick Adkins, the invaders' offensive weapons proved nothing to gloat over. Harrison fell into two safe licks while Adkins had three singles in as many official trips.

The Pioneers' starting pitcher, Al Griffin, stuck it out bravely until the seventh frame with a two run, three hit outbreak brought about his abatement. Lefty Hucksby took over but he proved little better, giving up three runs the following round.

Trouble Ahead

Standing now with an even .500 percentage in games won and lost and fourth place at their immediate objective, the Barons turn tonight to face the co-holders of that league spot, the Amarillo Gold Sox, in an 8:30 game.

Edson Bahr was slated for mound duty while Lefty Janick was kept the starting bill call for Wednesday's game. The Barons are home through Thursday. Friday they disappear for a nine day road trip.

HUNGARIAN YOUTH NEW DONALD BUDGE? Tommy Bridges Earns AL Plaudits

COCHET CLAIMS NEW STAR IN 19-YEAR OLD

BUDAPEST (Correspondence of the Associated Press)—A lad who made his first racket from a ball of twine and an old wooden box is carrying the tennis hopes of Hungary to Wimbledon this summer.

He's a rank newcomer—this 19-year-old Joseph Asboth—and too much about him is expected of him when he faces the world's great stars on English turf. But next year well, you can take the word of the old tennis mucketeer, Henri Cochet, that "Josie-boy" will crash his way into the international first ten.

Cochet, who used to battle for the Davis cup under the tricolor of France, has been clucking like a hen with one chick ever since he discovered Asboth a few months ago. "Josie-boy" was just a government clerk at \$5 a week, but last year he had won the Budapest singles title and there was a fiery zip to his service, machine precision in his volleys.

Cochet took him under his wing. He gave him a chance on Hungary's 1939 Davis cup team. And Asboth made good.

In the first round against Rumania's Asboth, vanquished two singles foes. Then came the second round against Yugoslavia—and Asboth threw Budapest into ecstasy by trouncing the internationally-rated Franjo Lunec in four sets. Next day he lost to Dimitri Mitic, also in four sets, but home-town folks accepted the reversal philosophically. They said, "Wait until our slender boy grows older and stronger."

Hungarians proudly draw a comparison between Don Budge, the son of an Oakland, Calif., laundry truck driver, and Asboth, whose father is a railroad crossing guard at Sombathely in the provinces.

Sports Roundup

NEW YORK, June 6 (AP)—Scoop: Alabama is bigger and better this year and really has got their stuff.... Old Nap Lajoie, wanted for the baseball sentimental celebration, finally located at Mentor, Ohio, through a newspaper want ad.... The Sports Parade

By HANK HART

Hard working little Al Berndt, Baron catcher, was paid a fitting tribute on the 22nd anniversary of his birthday prior to the Clovis-Big Spring game Monday evening when he was given a handsome wrist watch, Club President Bob Cooke and H. P. Steck, acting for the fans, making the presentation in front of the stands.

Probably the most popular player on the squad, the Yakima, Wash., product earned the admiration of the fans in Big Spring and elsewhere last year when he appeared in all but ten of the 130 games the Big Springers played.

This year, thanks to Manager Tony Rego, Al has gained regular rest and his work is showing to better advantage. Money for the gift was raised among the fans.

Other chance to earn a place in the Big Spring gardens.

Tex Walton, local center fielder, played semi-pro ball in Scranton last year where he clocked the ball at a 400 clip, hit .300, believe it or not, in triples alone.

Tex' three-bagger last night gave him the WT-NM league lead.

The big blonde's late successes with the mace can be attributed to a new stance at the plate.

Lefty Janick, whose mother calls him Louis, has given up but one earned run in 28 innings. His control is improving with experience.

A record of appearing in no less than 18 of the first 40 games is that of Clarence Trantham, hurrier, who claims to be no relief pitcher, would rather work every third day as a starter.

Brooklynite: Vitriolic tongued Early Sanders, local barber, is recognized as the No. 1 chorus master of the local stands.

BLANKS PAGE SETTERS IN 4-HIT SHOW

By BILL WHITE

If Detroit's Tommy Bridges has any political leanings, this certainly is an opportune time for him to announce for office.

That four-hit 3-0 pitching masterpiece he turned in yesterday against the Yankees—the first time they have been shut out since the Browns did it June 18, 1938—has made him baseball's man of the moment. The votes he'd get from other members of the harassed American League pitching corps would give him a pretty fair head start on any other candidate.

The downfall of the Yankees (actually their eighth loss in 41 games) adds some fire to what Manager Del Baker of the Tigers has said publicly—that he'd like to see the last ditch and concede 'em nothing.

While Messrs' Greenberg, Higgins, Fox and Rogell were reviving hopes of making a race out of the American League, the siege guns of the National League, the Cincinnati Reds, boomed ominously again.

Giants Shellacked
As Bucky Walters was limiting the New York Giants to seven hits his mates were fashioning 16 hits into an impressive 8-2 victory. It was their 18th in their last 22 starts.

The Yankee defeat gave the second place Red Sox a chance to move up a game in the percentage column, but the Sox didn't grasp it, largely because they couldn't solve the offerings of Cleveland's Johnny Allen. Johnny scored a 7-5 victory by keeping most of 13 hits on the scratchy side.

The third place White Sox took a cue from the three-hit pitching of Jack Knott and whacked out a 12-1 victory over the Athletics.

Washington and the St. Louis Browns were idle.

There were some other noteworthy happenings. The seventh-inning exhibition put on by Brooklyn's Vito Tamulis was good enough to take the Flatbushers to a 6-2 win over the Pirates from Pittsburgh.

The St. Louis Cardinals dropped a 10-4 decision when Max West and Rookie Eddie Miller helped themselves to three homers (West got two) to pace the Boston Bees.

Larry French, Charlie Root and Gene Lillard of the Chicago Cubs were punched around for 13 hits by the Phillies, enough for an 8-7 Philadelphia victory. Elroy Dean pitched the eighth and didn't allow a hit.

Dallas Loses Again, 4 To 1

By the Associated Press

San Antonio's Missions woke up in the seventh inning last night to end a pitchers' battle and defeat the Fort Worth Cats 5-1.

By winning the Missions went into a tie for fourth place in Texas League standings with Texas, ran up a winning string to nine and snapped the Fort Worth team's string of victories at seven.

Ed Cole of the Missions and Stan Corbett of the Cats tied up in a mound battle for the first six innings.

Dallas, going down before Beaumont 4-1 in the opener of a series, slipped into a tie with Shreveport for first place as rain kept the Sports and Tulsa and Houston and Oklahoma City idle.

Manager Al Vincent led his Exporters to victory with four singles in four trips.

"India and the International Missionary Council, Madras, India," was topic discussed by Mrs. R. A. Jordan Monday when First Christian Council met at the church with Mrs. C. A. Murdock in charge.

Mrs. Murdock as outgoing president was presented with a gift. Mrs. H. K. Baxter and Mrs. Marion Willcox served refreshments.

Attending were Mrs. J. R. Creath, Mrs. H. E. Clay, Thelma Cullers of Bryson, Mrs. J. R. Manning, Mrs. W. N. Taylor, Mrs. W. E. Schmitz, and Mrs. J. T. Allen.

WARNING AGAINST INDIFFERENCE TO SOCIAL PROBLEMS

AUSTIN, June 6 (AP)—A graduating class of nearly 1,400—largest in the history of the University of Texas—received degrees last night and heard a warning to abandon apathy toward current social problems lest democracy in America topple.

The admonition was issued by Dr. Homer Rainey, new president of the university, who declared most American youths were indifferent.

Dr. Rainey, who spoke after J. W. Calhoun, his predecessor in the university presidential chair, had presented degrees, said a "new education could flood the world in an age of plenty."

Economists, social scientists, politicians and the people must get in step with science to achieve this "age of plenty," Dr. Rainey declared, adding a new outlook on education must come first.

Advocating a closer study and participation in politics, Dr. Rainey said "this citizenship demands more of intelligence and character from each of you than any other form of government in the world."

Helping Little Men Since the federal government appears to be determined to stay in the business of overseeing what is called the Mead bill...

Results of the Federal Housing Administration have shown that such loans are fairly safe and if the bankers use ordinary care their losses, if any, should not be great enough to cause trouble.

Under this plan the operators of the plants which would employ labor now idle, which has been in most instances on the rolls of the PWA or WPA, and thereby relieve the government of having to find work for these men.

The bill is worthy at least of careful study by the Congress.

George Tucker Man About Manhattan

NEW YORK—Like the cigar store Indian, the one-arm restaurant has largely disappeared from the streets of New York.

Manhattan has suddenly come alive with second-hand phonograph shops. They deal in five-cent discs, largely cast-offs from recording studios and slightly-used records from the slot-machine electrical players found in restaurants, bars, and pool halls.

Most of the shops are temporary looking. Little shoe-string affairs that can fold as easily as Omar's tents, but they currently are doing heavy trade.

Half-Minute Interview: Puulani Moesman, hula dancer; "When the missionaries first went to Hawaii the Hawaiians owned the land and the missionaries owned the prayer books. Now the Hawaiians have the prayer books and the missionaries have the land."

There is a colony of Indians, composed of various tribes, living in the vicinity of Bond street in Brooklyn. They are skilled bridge ruckers and are usually in evidence when one of the rivers is to be spanned.

tain circumstances. Mr. Tacks Adams would stand no fooling. An overlay of tan did something extra special for these rather pleasant natural arrangements. Looking at Tacks you would have said that here was a tall, rangy young man on the sunny slopes of thirty, a young man who'd gone in plentifully for athletics at—well, Groton and Harvard. You'd have been all straight except the Groton and Harvard. Tacks was Andover and Yale.

"Bored Stiff" "Well, let's quit anyway!" Van Harkness dropped his cards. "I'm fed up with this game. How about paying 'em, Tacks?" "No," Tacks said. "Besides, if we don't play bridge what will we do?"

"Don't want to play," Bill Steele spread his hands. "Don't want to quit. It's an impasse." "No bid," said Jumbo Cutler suddenly. "Let him get stuck with his couple hearts!" "Ha!" said Tacks. "Another station tunes in. Okay, Bill, give a lead!"

"Two hearts," said Tacks Adams, finding his mitt full of high class red ones. "Bye me," said Van sleepily. "It's hot!" Tacks glared at him. "Did you or did you not," he inquired, icily polite, "ever hear of a demand bid?"

"Eh?" grunted Mr. Harkness. "Oh, nothing!" said Tacks. "Skip it. These guys'll go home with our shirts, that's all." "Anybody who wants my shirt today," said Van, winking up, "can have it."

"The fourth member of the most desultory of desultory bridge games spoke. Mr. Jumbo Cutler was short in stature, rotund and moonfaced. Like Tacks Mr. Cutler was a son of Old Eli. He wiped the moonface now with a huge monogrammed handkerchief and brought forth a platitude. "Gee, it is hot," he remarked. "Copyright that one," suggested Tacks. "I doubt if anyone else in New York has thought to say that today."

Preston Grover Washington Daybook

WASHINGTON—The government has ordered the export of enlightenment and civilization. That is the gist of an order by the Federal Communications Commission to the 14 radio stations in this country currently engaged in broadcasting programs to our neighbor countries, more particularly those to the south.

Stations broadcasting internationally, says the commission, must "render only an international broadcast service which will reflect the culture of this country and will promote international goodwill, understanding and cooperation."

That puts culture, which the dictionary calls "enlightenment and civilization," on an official plane.

The commission's announcement came out just as the submarine Squalus was occupying the headlines, so it didn't have a chance for a real news play. Culture collapses before calamity, to coin a calamitous alliteration.

In its official pronouncement the commission steered clear of defining what could be included in the "culture of this country." A young gentleman at the commission's public information section said the commission had deliberately avoided a definition. He thought neither the commission nor anybody else could define American culture. After all, the commission is not required to say what IS culture. It must decide only what is NOT culture. And if a station broadcasts too much of that it will lose its license.

We think we could name a number of programs which would startle foreign nations if they thought it truly represented American culture. And that is one of the responsibilities the commission takes upon itself. Anything which is broadcast from now on into the international air is bound to be accepted as official American culture.

When we suggested this at the commission we were hastily reminded that the commission doesn't even pretend to look at the programs before they are broadcast; only afterward. But how is a South American or New Zealand listener to draw that distinction when he hears coming over the air the delightful epic about the "three itty fishes in a itty bitty pool" who "fwam and they fwam wight oveh the dam."

"LOVE THY NEIGHBOR" The order doesn't apply to programs broadcast for home consumption. That may sound like frightful discrimination against the domestic radio consumer but he must take it with a Spartan smile. The best is none too good for our foreign relations just now.

Commission employees conceded they were a little bit perplexed why the commission had issued the order.

"The stations broadcasting international programs have held to a very high level of American culture," we were told.

Not once since the 14 stations began to reach to the outer void has one of them been called on the carpet. Moreover, the commission employee assured us that the high quality of American programs had just about crowded German and Italian broadcasts out of the South American air.

"Italy's programs were straight propaganda. South America was disgusted," he said.

We were told that summaries of American news certainly are cultural, if that helps any.

Robbin Coons Hollywood Sights And Sounds

HOLLYWOOD—Most ironic casting of the week: Sigrid Gurie in "Forgotten Women." It's been more than a year since Sigrid's last picture, it was "Algiers," in which she was cast as the "name" girl opposite Charles Boyer. The picture came out — and Gurie was caught in the backwash of Hedy Lamarr's discovery by the fans, joke-smiths, and producers.

She has made two pictures—this Brooklyn-born Norwegian girl who the fooled Sam Goldwyn with her story of success on the Norwegian stage, and subsequently surprised Hollywood by having an unsuspected husband to turn up. Both in "The Adventures of Marco Polo" and "Algiers" she wore black wigs, played "exotic" types. This time out she plays herself—a chestnut blonde, and she likes it.

Sigrid herself places no stock in the idea that Lamarr's rise obscured her chances. "I've had many good words from producers," she says. "I've spent the months fixing up my house—there is so much work to do. I'm being married to Dr. Lawrence Suangard" some time after my divorce is final in July. No, not the next day—I wouldn't like that."

The real reason Gurie hadn't made pictures was her salary demand—even the producers who gave her "good words" thought she was asking too much. Too much, probably, for a girl who hadn't grabbed the limelight from Lamarr.

Will Rogers Honored As Statue Unveiled In The National Capitol

WASHINGTON, June 6 (AP) — The great and small of the capital paid eloquent tribute today to Will Rogers—a man who endeared himself to the world by being himself.

Midway between the marble likenesses of George Washington and Alexander Hamilton in the capitol's famed rotunda, friends of the cowboy-humorist unveiled a striking bronze statue executed by Jo Davidson.

The statue shows Rogers in one of his characteristic poses—hands in his pockets and his eyes squinting. His tie is hanging from his collar, and his double-breasted coat is fastened on the lowest button.

The ceremony came 22 years after Oklahoma's first nominee to Statuary Hall — Sequoyah — was presented to the federal government. Sequoyah was a Cherokee Indian, and Rogers was one-fourth Cherokee—the only thing in his life of which he seriously boasted.

Oklahoma thus becomes the first state to have statues in the capitol of two men whose blood was that of the original Americans.

Mrs. Rogers, widow of the humorist, and other members of his family came here for the unveiling.

Gov. Leon C. Phillips of Oklahoma made the presentation speech, with Senator Barkley (D-committee, accepting it for the government.

Mrs. Sally McSpadden, Rogers' sister, unveiled the statue.

Christian Scientists In Annual Meeting At Boston Church

BOSTON, Mass., June 6--Thousands of Christian Scientists, meeting in this city Monday, challenged a troubled world to change its path...

GEORGE SHAW COOK Incoming President of the First Church of Christ, Scientist, in Boston, Massachusetts.

dy was the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts. Through an entire afternoon's round of addresses and reports from the field, the power of the Christ, Truth, to lift individuals above the ills of human sense was acknowledged and this same spiritual power was recommended for the healing of the nations and the establishment of a permanent world peace.

Looking beneath the surface ripples of troubled international relationships apparent in the world today, The Christian Science board of directors saw the deep-running currents of spiritual progress "keeping alive the vital realization of spiritual truth which Christian Scientists must always nurture, whether their work be along the specific line of healing or in the important channels connected with home, church, business, and government."

Nautical Notes Land Him A Job

CAMBRIDGE, Mass., June 6 (AP)—Notes couched in cryptical language and sent out in bottles was a job with a Philadelphia advertising agency for John A. West, Jr., of Chicago, who was graduated today from Massachusetts Institute of Technology.

Without prospect of a job several weeks ago, West adopted the course of a shipwrecked sailor and tossed "overboard" into the U. S. mails 51 identical notes to advertising agencies throughout the country. They read:

"On an island in Cambridge, Mass., a college graduate-to-be in June. Will work like hell for passage into port. Gold stored here with me (training in arts, sciences, business -- including marketing and advertising. Past experience in newspaper office, summer theater, steel mill. Best references). You're going ahead and I'm going your way. Have you room in the hold for a man who can prove he's worth his salt?"

And the replies, also phrased in the lingo of the sea, came rolling in. "Altering course to pick you up," said one. "Glad to have you aboard for a talk," said another. From all the offers, West made his choice slight unseen.

MORTGAGE LOANS OVER \$100,000

First Federal Savings and Loan association of Big Spring passed the \$100,000 mark in first mortgage loans during May, regular monthly financial report of the organization showed Tuesday.

The loan figure stood at \$102,446 with \$4,200 in loans having been closed during May. Cash on hand was cut to \$3,617. This led the association to reopen its invitation for private capital after several months of holding off to avoid accumulation of needless surplus. Assets totaled \$107,374, a new high for the institution. Investment accounts amounted to \$101,446, including \$63,446 local shares and \$38,000 held by the government. Undivided profits rose to \$1,719 and current income less expense to \$2,700.

RESCUE WORKERS ON SQUALUS LAUDED

WASHINGTON, June 6 (AP)—Heroism of navy rescue workers and efficiency of new life-saving equipment are credited by Rear Admiral Cyrus W. Cole in saving 33 men from the sunken submarine Squalus.

Three men were mentioned prominently by Admiral Cole, commander of the Portsmouth navy yard, in a report last night to Admiral William D. Leahy, chief of naval operations. They were Martin C. Sibitzky of Pedricktown, N. J., William Badders of Annapolis, Md., and John Mihalowski of New London, Conn. Sibitzky was the first diver to descend to the Squalus. He attached the line which enabled the rescue chamber to be hauled up and down on four trips. Badders and Mihalowski went down to the submarine, after the known survivors were taken off, to determine if any of the missing were alive. Their feat was described as particularly hazardous. Cole said the rescue chamber, used for the first time other than in practice, justified fully the expectations of naval experts.

Says 'Hunger March' Planned In Moscow

WASHINGTON, June 6 (AP)—Charles H. White, negro, who said he was a former member of the communist party, told the house committee investigating the WPA today the 1932-33 "national hunger march" on Washington was planned in Moscow. The witness, identifying himself as a writer employed on a WPA project in New York, told the committee Herbert Benjamin, secretary-treasurer of the Workers Alliance of WPA employees, worked on the plans for the march through aimed at the formation of an "in-White said he belonged to the communist party from 1930 to 1936 and spent 13 months in Moscow studying at the college of professional communists. He testified he helped organize the hunger march when he returned from Russia. The witness said the communist program for American negroes was

MANY APPLICANTS SEEKING WORK Lads who are out of college for the summer months and who are in need of employment in order to continue for another year are creating a mild work problem, E. V. Spence, city manager, said Tuesday.

There are at least 12 of these boys which cannot now be absorbed by the city, he said. The manager appealed to business and industrial concerns who are able to hire one of these boys to contact him.

VISITOR HERE F. E. Burkhalter, head of the department of journalism at Baylor university in Waco, visited here briefly Monday evening. He was en route to the west coast to spend the summer.

Frame Gardening Practice Makes Wide Gains In West Texas Area

West Texas, according to Ruth Thompson, district home demonstration agent, is making great strides in producing its share of food at home.

Reviewing this phase of the work, Miss Thompson pointed out that in extension service district No. 6, which includes the territory in 16 counties from San Angelo to El Paso and from Seminole and Roby to Fort Stockton and Menard, now has a total of 961 frame gardens.

And the idea is growing. In Mitchell county a Mr. Bates made one frame garden following a demonstration, then planned immediately to plant four more. Near San Angelo H. P. Hulsey, a truck farmer, put in a half acre frame garden—one of the largest ever seen by Miss Thompson. He found that frame garden vegetables were much tastier, and that production increased as much as 300 per cent over ordinary garden patches. His future frame gardens, he said would be long and narrow, according to extension service recommendations, to facilitate cultivation.

Home Produced Meat Increased emphasis is being given to consumption of more home produced beef, sheep, goats, chickens and turkeys. In Tom Green where meat cookery is included as a demonstration, beef clubs are being reestablished with members rotating in slaughtering beef. Even the choice cuts are rotated. Naturally, farm wives have found the meat of superior quality.

Popularity of lamb is growing, thanks to demonstrations showing various ways to prepare lamb dishes.

Over the district 68 poultry demonstrations alone show that 21,600 baby chicks are being raised this year by club girls and women. Turkey production also is gaining. To encourage this phase of work, poultry schools have been conducted at Big Spring and at El Paso by George P. McCarthy, poultry specialist.

More milk is being produced and consumed at home as well as other dairy products. Attendance at dairy shows have indicated a quickening of interest in dairying.

As a result, Miss Thompson sees a return to the basic truth of a statement by the late Dr. Seaman A. Knapp, founder of the extension service: "The farmer should raise the food for the family and for the farm stock so that his principal cash crops shall be all profit."

End of the Season, ALL CHANGE!

We've had our first taste of summer. Winter drapes are down. We've gone over our summer wardrobe. Now we wish we could afford to give the home a face-lifting for the hot months. Let's see...

It wouldn't cost very much to get gay slip covers for the rooms we live in most. They add a summery touch. A cool grass rug or two would give winter carpets a rest. That would make a lot of difference for a little money. Venetian blinds would help to cut the piercing rays of summer sun. They don't interfere with ventilation. A very few dollars there would make a world of difference. Many timely things are being featured — right now at low prices.

Find them quickly in the advertisements that appear daily in this paper—your guide to prudent buying. Advertisements tell the news of the world you shop in — just as the news columns tell of the world you live in.

MARKETS
Wall Street

NEW YORK, June 6 (AP)—Stocks pushed up fractions to three points in today's market but ran out of breath at the last and retraced a sizable portion of the advance.

The forward swing came after a hesitant opening in which trends were slightly jumbled.

The forenoon rally was attributed partly to the appreciable drying up of selling in the past week. Speculative contingents, brokers said, took the position that offerings falling almost to zero, the odds probably were in favor of at least a temporary comeback. Bids were then stepped up and stocks, it was discovered, were far from plentiful.

Dropping sentiment also was the appearance of a few moderately cheering business signs. In addition financial temperament brightened on word a tax revision bill was likely to be presented to the house next week and passed without much opposition.

REFUSE AGAIN TO FIX QUITTING DATE

AUSTIN, June 6 (AP)—The house of representatives today again refused to consider setting a date for adjourning of the longest session in history.

By a vote 79 to 58 it killed a resolution to adjourn sine die on June 16.

Yesterday it rejected suggestions to quit June 10 and June 14 by votes of 75 to 62.

The senate once adopted a resolution to close up and go home but the house refused to agree.

The matter of financing expanded old age pensions remains unsettled.

STUDENT FLIER IS RESCUED AT SEA

CHATHAM, Mass., June 6 (AP)—Apparently lost 250 miles at sea, Chestnut Eshelman, student flier of Carlisle, Pa., was rescued today after bringing his two-place, high-wing monoplane down on the Georges fishing banks within sight of at least three Boston fishing trawlers.

Fishermen aboard the trawler Villanova hauled him to safety just before the plane sank in water 40 fathoms deep.

Eshelman left Camden, N. J., airport last night with only sufficient gasoline for 175 miles of flying. His plane was sighted at 4 a. m. (CST) by the trawler Storm. Shortly thereafter the pilot dropped a message asking the direction of the nearest land.

The rescue was reported by the trawler Triton, which said her crew was dragging for the ship.

UNDERGOES SURGERY

Mrs. B. D. Lee of Sterling City underwent a tonsillectomy at the Malone & Hogan Clinic-Hospital Tuesday morning.

EACH TO HIS OWN CHORES. Red Sox and Yankee players busy themselves about home plate. Sox Catcher Berg (22) awaits a throw, the umpire and a photographer concentrate, Selkirk (3) scores, following Keller (right); and Dahlgren (12) goes to bat.

SEATING PROBLEM now vexes the Rev. Frank R. Wilson, rector of St. James Episcopal church at Hyde Park, N. Y., where King George and Queen Elizabeth will attend service, with the Roosevelts. The church seats 200, and admission tickets to the June 11 service are much in demand. Here, the Rev. Mr. Wilson shows a reporter the pew, front and left, where honored guests will sit.

GERMAN SEAMEN FACE DEPORTATION

LOS ANGELES, June 6 (AP)—Two German seamen faced deportation today to their native land, where they say death or life imprisonment awaits them.

"Generous though one might feel toward the oppressed," U. S. District Judge Leon Yankwich commented, "I cannot declare a right which congress has denied."

The men, Hans Kurth and Gunther Haberman, deserted a steamer Sept. 3, 1938. Arrested eight days later, they told immigration inspectors they signed on in Germany to escape political persecution.

Their attorney, A. L. Wirin, counsel for the American Civil Liberties Union, said efforts to find a country which would admit them had proved unsuccessful. Under the deportation order, they may leave this country for any other land not contiguous to the United States or adjacent islands.

YOUTHS SLAIN, BODIES STUFFED IN CULVERT

NOGALES, Ariz., June 6 (AP)—Antonio Gonzalez, Jr., 20, and his cousin, Eugene Adams, 19, were found shot to death today, their bodies stuffed into a highway culvert, three miles northeast of here.

The killings were reported to Sheriff J. J. Lowe by Hector Gonzalez, 18, who had been wounded in the head. He was a brother of one of the dead youths.

Sheriff Lowe telegraphed officers in other Arizona cities to search for Homer Adams, 23, former WPA worker and brother of the other slain young man. Adams, the sheriff said, was driving an automobile and probably was accompanied by a 17-year-old girl.

Just Be Natural In Meeting Royalty, Say These Women

WASHINGTON, June 6 (AP)—Three official wives, whose opinions count for more just now than all the advice in the etiquette books, agreed today Americans should be their natural selves in meeting the British king and queen.

"I don't think they expect us to curtsy," said Mrs. John Garner, wife of the vice president. "I think they expect us to follow our American customs."

When she meets the royal couple, she said, she will say "whatever the moment prompts."

"We're Americans, and I think we should be our natural selves," observed Mrs. Cordell Hull, wife of the secretary of state, who has entertained and been feted by many royal personages, president and prime ministers.

"I think it's too silly," laughed Mrs. William E. Borah, wife of the senator, speaking of curtsies and stiff bows. "This is America and Americans don't do that."

REPORT SUBMITTED ON CONCHO PROJECT

WASHINGTON, June 6 (AP)—The secretary of war sent to congress today a report on a study by army engineers of a flood control project on the North Concho river in West Texas.

Details of the report were not made public immediately.

Representative South (D-Tex) said he was confident the report was favorable and that it included recommendation of a dam on the river about six miles upstream from San Angelo.

Leahy Nominated To Puerto Rico Post

WASHINGTON, June 6 (AP)—President Roosevelt nominated Admiral William D. Leahy today to be governor of Puerto Rico—a post given added importance by the government's recent decision to establish a new department of defense in the Caribbean area.

Mr. Roosevelt also nominated J. Noble of Connecticut, a republican business man and former chairman of the Civil Aeronautics Authority, to the new post of undersecretary of commerce. Commerce Department officials have said Noble would be Secretary Hopkins' right-hand man in efforts to promote business improvement.

Admiral Leahy, retired chief of naval operations, was nominated to succeed Blanton Winship as governor of Puerto Rico. The White House announced that Mr. Roosevelt had accepted Governor Winship's resignation yesterday.

APPEALS JUDGE TO HEAR OIL CASE

SHERMAN, June 6 (AP)—Judge Rufus Foster of the New Orleans federal circuit court of appeals will hear a case against 25 men and a pipeline company, charged with making false oil tender reports.

The announcement was made today after Judge Randolph Bryant had disqualified himself because of friendship with the father of David C. McCaleb, one of the defendants.

Arguments on a defense demurrer will be submitted on brief in 10 days.

SUFFERS BURNS

SAN ANTONIO, June 6 (AP)—Gregorio Garcia, 27, was near death at a hospital here today, having sustained severe burns when his clothing became ignited while fighting a blaze at his home.

AAA Compliance Check To Start

Despite a deficiency of moisture, which has prevented planting in parts of the county, compliance crews will take to the field Thursday morning to begin the task of checking those areas where crops are up.

M. Weaver, in charge of the county A.A.A. office, said that five teams would be placed in the field Thursday and that the number would be brought to 10 by Monday.

Since new AAA regulations require that farmers be in compliance by the time first blooms appear on cotton, it is necessary to start the check work long before the planting is complete over the county.

Excess acreage to cotton must be plowed under while it is yet young this season and state office experts are to make periodical surveys to see that this practice is being followed.

Oldsters In No Rush To Register Here

Only a mild response was noted here today by oldsters to register at the district old age assistance commission office for application under the new and liberalized Texas pension statute.

However, in other areas in the 21-county district, notably at Lubbock, a regular rush occurred. At one time Monday, the waiting line at Lubbock was estimated at around 150, according to word received by George White, district supervisor.

Persons of 65 years of age or older and who are not now on the assistance rolls are required to register if they intend to apply for aid. Applications will be made in the order of registration when new regulations are received.

basket factory had been dispersed by Ollie Logan, president of the striking basketmakers union.

Logan entered the gate about 7:30 a. m. (CST) for a conference with Mayor William V. Brown. "I sent for Mr. Logan and asked him to disperse the crowd," Mayor Brown said. "I told him there was a lawful way to settle this matter—a labor relations board—and for him to pursue that method."

Logan then called the crowd about him and said:

"x x x regardless of whether you think this (stationing of guardsmen) is right, they represent the law. Whether you are connected with the strike or not, I am going to ask you to break away from here and let them have peace."

The guardsmen, including four officers and 44 enlisted men, comprise Company 1, 144th Infantry, from Clarksville, under command of Capt. C. R. Dinwiddie. Texas rangers on duty are Capt. H. B. Purvis, R. G. Goss and Stewart Stanley.

The armed aid was sent at the request of the Texarkana, Tex., city council.

Several non-strikers were stoned and beaten as they left the plant at lunch yesterday, but none was seriously hurt. One non-striker fired a gun.

At 5 p. m. as automobiles loaded with non-strikers rolled toward the gates a barrage of stones from a waiting crowd stopped them. The windshield of one car was smashed and the driver struck on the head. Sporadic shots were reported from inside the plant, but apparently no one was hit.

a tax bill. He advocated the constitutional amendment and denounced the omnibus bill we sent the senate, even before it reached him.

"When you go home, you can tell the people you did all you could to help the old folks. Had the senate performed its duty (in passing a tax bill) this house, I'm sure, would have concurred," Rep. Roy Baker of Sherman interrupted Isaacks to say:

"The people of Texas won't be interested in alibis, Mr. Isaacks. They're going to say 'you didn't get the job done.'"

The El Paso member declared he was "ready to adjourn and go home" and that if the senate wished to help the old folks, it could "reconsider the bills we've sent them and we need not vote out another."

Hospital Notes

Big Spring Hospital
Miss Florence McAllister, 430 Dallas street, underwent major surgery at the hospital Tuesday morning.

Anne Marie, 3-year-old daughter of Mr. and Mrs. Y. C. Gray of Garden City, underwent a tonsillectomy at the hospital Tuesday morning.

Miss Wanda Thompson, 16, daughter of Mrs. G. L. Thompson of Stanton, underwent a tonsillectomy Tuesday morning.

FORMER MARINE IS FOUND GUILTY

LOS ANGELES, June 6 (AP)—A former marine sergeant, 41-year-old Alex Barnay, faced death today—convicted of strangling a woman over the last drink in a whisky bottle.

In a confession introduced by police, Barnay described killing Mrs. Lela Simmons, 40, by knotting an undershirt around her neck.

VOTE EXTENSION OF MONETARY POWERS

WASHINGTON, June 6 (AP)—A two-year extension of the administration's emergency authority to devalue the dollar further, to maintain the \$2,000,000,000 stabilization fund and to buy domestically-mined silver at prices above the world market was approved today by the senate banking committee.

The powers are scheduled to expire June 30. The house already has approved continuance until June 30, 1941, and prompt senate action is expected.

The devaluation authority would enable the president to reduce the gold content of the dollar another 9 per cent. The dollar already has been cut to 59 per cent of its former gold weight.

since a noon deadline had passed without acceptance of the Cuban offer of a temporary haven on the Isle of Pines.

Officials of the Hamburg-American line in New York said the liner, already once ordered out of Havana harbor, had headed back toward Hamburg.

The Cuban government had asked Lawrence Berenson, New York counsel for Jewish relief organizations attempting to aid the refugees, to deposit \$500 bond for each refugee in addition to guaranteeing their maintenance on the island of the southern coast of Cuba.

The president's announcement followed a fruitless conference between Berenson and representatives of the president.

The cases of Roy Smith versus M. J. Grogan, doing business as Grogan and Co., garnishes, of George Bates, defendant, and of the First National Bank in Big Spring versus A. B. Quinn and J. B. Hodges were dismissed on motion of the court.

Case of Hestand-Kimball Wholesale Co. versus Davidson Grocery and Market for note collection and foreclosure was settled, the First National bank was given a judgment by default over H. J. Flowers in a suit on note, and the defendant was given leave to amend in the case of Taylor Emerson versus E. D. L. Moser, suit for receiver-ship.

No Representative Located To Make San Diego Trip

Everyone in Big Spring is very busy, local members of American Highway association members are discovering.

Tuesday the search for a representative to join in the westbound motorcade to San Diego, Calif., had not yielded fruit, despite the possibility of having a portion of the expenses for the trip paid.

It began to look as if the city, counting tourist traffic as one of its principal sources of income, would be unrepresented in the motorcade and the annual association convention, for the westbound caravan is due to pass here at 9:35 a. m. Thursday.

Besides the trip to San Diego, the Broadway of America association is sponsoring a trip to the San Francisco fair and points of interest in southern California. Anyone interested in making the trip with the motorcade should contact the chamber of commerce immediately.

Sales To Argentina Decline Sharply

WASHINGTON, June 6 (AP)—The commerce department reported today that United States merchandise sales to Argentina had fallen off by more than half so far this year, compared with the corresponding period of 1938.

At the beginning of this year Argentina lightened up currency restrictions in an effort to make purchases from the United States and sales to the United States more nearly than in the past.

Meanwhile, Brazil, which recently negotiated large credits with the export-import bank here, increased its purchases from \$5,428,000 in April, 1938, to \$6,007,000 in the same four months this year, and raised its purchases for the first four months of the year from \$21,052,000 last year to \$22,767,000.

Germany, which the department previously reported had sold an unusual amount of goods in this country in April in an effort to beat the deadline of April 26, when the United States put an extra 25 per cent tariff on German goods, simultaneously curtailed purchases in this country.

SEES REACTION IF FD NOT REELECTED

ALBUQUERQUE, N. M., June 6 (AP)—Secretary of the Interior Harold Ickes declared today persons opposing President Roosevelt for a third term "will not only elect a republican next year, but will return the country to reaction."

"No reactionary democratic candidate as he elected next year," Ickes said before entraining for the east.

The secretary was the principal speaker last night at the University of New Mexico's commencement and 50th anniversary exercises, at which he dedicated five WPA buildings.

Laborers, farmers and others with whom he has talked over-whelmingly favored the return of Roosevelt to the White House for a third term, Ickes said.
