Side Lights On Track Meet

Track meet time again! And a new crop of contestants sprouting forth!

Follett seemed well-prepared for track meet with special plate lunches n'everything. It even had a pair of tennis shoes decorating the middle of Main Street on Thursday.

Thursday evening, by the way, was a proud time for Darrouzett. Nina Mae Martin and O. C. Elfers fairly walked away with the honors by winning first places in extemporaneous speech. Silver Trophies Are Awarded Follett

Contests To Be Held At Booker Next Year, Says Baker

With a total of 3621/2 points, Darrouzett ranked second among the five high schools in the county for the all-round chamionship in the Lipscomb County Interscholastic League meet held from Thursday to Saturday of last week-end at Follett.

Follett, scoring approximately 527 points, won first place; Darrouzett, 3621/2 points, second place; Booker, 3593, third; Higgins, 3053 fourth; and Lipscomb, 190 points, fifth.

A large silver loving cup awarded annually for the all-around championship, was presented to the Follett school. This trophy will remain permanently in the posession of Follett since the school has won that particular cup for the past three years.

Smaller cups were also awarded Follett for the grade school championship and for the high school championship.

The rankings of the various schools in the ward school division has been director-general of the meet: Follett, 2471/2 points, first place; Darrouzett, 1871/2 points, second; Booker, 1621/2 third; Higgins, 1311/2, fourth; and Lipscomb, 110, fifth.

In the high school division the ranks have been announced as follows: Follett, 285, first place; Booker, 197, second; Darrouzett; 175, third; Higgins 165, fourth; and Lipscomb,

League Officials Deserve Praise

The Interscholastic League officials of this county should be commended highly for arranging to have critic judges for the literary contests this year.

This plan is much superior to the old method of selecting three judges to give their decisions in each contest. The critic judge if he is wisely selected, is an authority in his field. Fur thermore, he not only gives a decision but he tells why he decided as he did. He suggests improvements that can be made. In this way the losers know exactly why they lost and why the winners won. Under the old scheme the defeated constestant was often at loss to understand in what respects he had failed.

The critic judge is a teacher as well as a judge. He teaches not only the contestants and their coaches but the audience as well. Probably everyone who attended the evening sessions of the meet and heard the contests in extemporaneous speech, choral singing, debate, and declamation learned many points that he had not known before concerning speech and music events.

The League officials also deserve much recognition for their in life, but it is wasted on young peochoice of critic-judges. The judges proved themselves very ca- ple," George Bernard Shaw scintilpable and well qualified for their positions.

Darrouzett Wins Second By Hard Work

This year, for the first time in the history of the school, Darrouzett won second place in the all-round championship ranking in the Interscholastic League meet. In winning this position Darrouzett defeated two larger schools.

It is not an accident that Darrouzett won second place. Thruout the school year the faculty and students were determined to win at least seconds place. With this in mind, the Interscholastic League practice work was made an organized part of the many cares; cares that look silly school routine. Thirty minutes a day were set apart for League work only. Extra periods for athletic events were arranged after school hours. That Darrouzett won second place is not a streak of luck but the result of hard work.

This victory goes to show what can be done if people have a definite goal in mind and work hard toward it.

Self-Confidence And Success

Someone has said, "Confidence in your ability to do things is the first step toward success.

A great deal of truth is found in that simple statement. If you do not believe in yourself, who will?

Often people become discouraged and quit because they see others about them doing things much better than they themselves are able to do. Instead of giving up in despair, is it not much wiser to start working harder? Hard work and self-confidence form a combination that it is hard to defeat.

Doubt and fear waste much energy that might be used in work-time of life with zest. ing toward a goal. Often when circumstances seem most discouraging, we are nearing success. Accomplishing even small things results in the gain of self-assurance,

WHO SUFFERS IN LIPSCOM COUNTY?

We flatter ourselves that we live in an age of miracles, thinking that the wonderful developments of the past fifty years have given us a method of living never touched by peoples before. Follett the last of the week. We are probably correct, and yet, there are some phases of our national and community existence that is little better than it was a century ago.

Lipscomb County may not be as prosperous as we might wish, but there is no famine, no pestilence, no dire danger. However, there are families in our community, hit by the hard hand of circumstance, unable to make satisfactory adjustment in life. There are young boys and girls, who for various reasons, do not stand an equal chance in preparing for life. There are some families, we regret to state, that actually face want in the neces-

sities of existence. We realize that there will be many to read this and say, to themselves, that this statement of conditions is not true, that those who need assistance find help and those who suffer are comforted. Tey have never made a close investigation into actual conditions. Those who are in a position to know, who are more familiar with the facts than this writer or the reader, tell us that there are cases, just as mentioned above.

With all our wonderful industrial development and scientific ins visitors the last of the week. achievements we have far to go along the road to social perfection. Isn't it about time for us to think along this line, not that there is any quick formula towards relieving distress, but rather that we may be more willing to assist established agencies?

A secret is a flame Within a heart: Every day an inner urge: "Tell it! Tell it! Tell it!" Every night a dream If how they would look if They knew it; shared it. In other words, only they enjoy youth who remain young until they are old enough to appreciate it. The early years of life, generally called youth, are not the best time of life, as has been so often proclaimed. Try to look back upon your life between fifteen and twenty-one without the romantic hues that retrospect likes to spread over the past, and you will admit that you were racked with now, but were very real at the time. The headaches and heartaches caused by capricious cupid alone drove many a youth and maiden to tears and sleepless nights.

No, youth is not the best time of life, just as little as the blossom period is the best season of the tree. When the tree bears fruit, it is most glorious. Sophomore Class Notes

Since the track-meet we have been studying very hard. Perhaps this would not be true if Mr. Speer had not passed the Detension Bill. We have been working very hard since the bill went into effect on Tuesday of this week. Since we are working so hard to get out at four instead of five, it seems to us that the teachers are trying to pile up work on us.

Soul and Conscience

Following is a short article clipped from the Eastland Telegram, and the comment which State Press made in his column in the Dallas News. It is being published because of deep thought which it might cause.

Eastland Telegram: "A news story tells of a piece of lingerie stolen from a Corsicana store six years ago has been returned, with the note: "In this package you will find a piece of lingerie I picked up in your store six i years ago. My conscience would never allow me to wear it. Something always told me to return the article," State Press' Comment:

"Blessed is the man who invented conscience! Or maybe the inventor was a woman. In any event, it was a human being. Conscience is one human quality which our most industrious evolutionists have been unable to discover in those forms of life out of which they say mankind evolved. Conscience makes a big difference, The toenail of the genus homo may 5 resemble the claw of the anthropoid ape. The teeth of a great scientist may have obvious similarity to those of an orangutan.
