

## Personally Speaking

By E. M.

Getting out this paper is no picnic. If we print jokes people say we are silly; if we don't, they say we are too serious. If we clip things from other publications we are too lazy to write them ourselves; if we don't, we are stuck on our own stuff. If we stick close to the job all day, we ought to be out hunting up news. If we do get out and try to hustle, we ought to be on the job in the office. If we don't print contributions, we don't appreciate true genius; and if we do print them, the publication is filled with junk. If we make a change in the other's write-up, we are too critical. If we don't, we are asleep. Now like as not, some guy will say we swiped this from some other publication—**WE DID!!**

Speaking of newspaper business reminds me of day as councillor at Camp McFadden, Ponca City camp for Camp Fire Girls. One day one of my charges asked me what I intended to do for a vocation. I replied that I planned to become a newspaper woman. Drawing her small self up to her full height, she looked me over from head to toe then demanded: "Do you mean to tell me that you are going to sit on a corner and sell newspapers?"

I had thought the matter of colored stationary settled long ago—but evidently not so.

The decision of conservative women who looked askance at tinted stationary and refused to have anything to do with anything except white, pale grey or light cream colors in writing materials seem far from final. At least we find a woman's writer advocating the use of pastel shades to harmonize with the mood of the writer. Pure white should be used when there is call for unusual dignity and formality, says the writer. To typify joyousness and gaiety, a shade of rose or coral is recommended. Pink expresses sentiments of love, fondness or devotion. Violet, like pink, is rather sentimental, but, it expresses thoughtfulness and wistfulness.

Tones of blue are best suited to notes between friends who are trusted and true, the writer declares. Grey note paper is suitable for social and business letters when white is not preferred for grey gives the impression of seriousness yet it looks "interesting." Cream tints express cordiality and good will. All of which sounds very well, but somehow the receipt of an orange or pink letter written in purple ink always produces a feeling of revulsion that drives me toward the white, grey and cream stationary departments. Anyway, think how embarrassing it might be to write a note on pink paper to a boy friend and get one back on sky blue!

## Four Day Notice to Move

## Baker Announces Program for Interscholastic League Meet

The official program of the Lipscomb County Interscholastic League meet has been released from the office of J. O. Baker, Higgins superintendent who is director general.

The meet is to be held at Follett on March 21 and April 1 and 2, according to the program. In order to arrange time for all the events without conflict, three whole days will be given to contests this year, Mr. Baker announced.

Events scheduled for Thursday are picture and music memory contests, tennis, groundball, debate, extemporaneous speaking, and choral singing. On Friday essay writing, spelling, tennis groundball, track preliminaries and semi-finals, and debate finals are to be held.

Contests to be held on Saturday are arithmetic, volleyball, final track and field events, and declamation.

General admission fees of 10, 15 and 25 cents will be charged to everyone except contestants who attend night sessions. Proceeds will be used to pay judges and other expenses of the meet.

All medals and cups will be awarded after the declamation contests on Saturday night, according to Mr. Baker.

Contestants who remain overnight in Follett will be furnished bed and breakfast.

A complete program giving events and time schedules will appear in the issue of the Darrouzett News on March 24.

Visitors at the home of Mr. and Mrs. J. B. Pugh on Sunday evening were Mr. and Mrs. Martin McCarter, Mr. and Mrs. Issac Stephenson, Jay Pugh, Mrs. Delilah Stephenson, Miss Frances Stephenson, and Bob Taft, of Laverne, Oklahoma.

## Road Committee Appointed By Commissioners

### Men Designated To Arrange With Land Owners

Dave Kemp of Booker, Roscoe Bradford of Darrouzett and Charles Larkey of Follett have been designated members of a committee to meet with landowners along the right-of-way for the new state highway No. 117.

The men who are to arrange settlements for property needed in the highway construction. Selection of the committee was made on Saturday at the meeting of the land-owners at the Darrouzett High School auditorium. The men were appointed by county commissioners at the suggestion of land-owners present at the meeting.

Several road improvement projects are being started this week in and around Darrouzett.

Several men are working on graders on the six miles of road south of town to the U. S. highway. H. F. Ludlum and I. M. Roper are in charge of this work.

A crooked bridge on the south road is to be rebuilt and culverts are to be built wherever they are needed. Plans to gravel streets in town in the immediate future are also being made by the local Chamber of Commerce.

Roads north of town will also be improved.

Road markers leading to Darrouzett are being put along all highways near the town by business firms.

## Former Students Receive Letters At Perryton Hi

Dessie Fisher and Lois Roper were among the six underclassmen receiving basketball letters at the Perryton High School assembly on March 8.

Until last September the two girls had attended school at Darrouzett where they played on the basketball team and represented the school in other activities.

Four senior girls were awarded basketball sweaters. Letter awards were made by E. E. Marshall, athletic coach, while Supt. W. B. Irvin awarded the sweaters.

The Rangerette team has had an unusually successful season, according to Superintendent Irvin. The girls won 22 games out of 23 and altogether made approximately four points to their opponents one.

## Grangers to Convene At Perryton Saturday

A meeting of all Grange members in Ochiltree county has been called for Saturday, March 19, the meeting to be held in Perryton, the place to be decided upon later, for the organization of an Ochiltree County Pomona Grange.

The meeting will open at 9:45 o'clock and will be an all day affair with a big basket dinner served at noon.

Homer H. Holden, lecturer of the Oklahoma State Grange and a deputy of the National Grange will preside over the meeting and assist in perfecting the organization. A large number of visitors outside of the county, including leading officials of Beaver County Pomona Grange as well as officers of the Oklahoma State Grange are expected to be present at the organization.—Ochiltree County Herald.

## Nicholson Funeral Is Held At Sunset

Funeral services for J. H. Nicholson, farmer who lived one mile north-east of Sunset, were to be held at the Sunset school on Wednesday afternoon.

Death came on Tuesday at his home. He had suffered with cancer for a number of years. Although he had consulted specialists several times, his condition was pronounced incurable last summer.

Surviving relatives are the widow, and three sons and five daughters, the youngest being only nine months old.

**Just What Is Education?**

Just what is this thing called Education?

Often we hear it confused with "book-learning" or with scholarship. In the true sense of the word, however, education includes much more than book-learning or scholarship. It consists of knowing a great deal about earning a living and of building the fundamental elements of high character.

Character which is formed in school more than anywhere else is especially important because it is the basis of a good democratic citizen. Strength of character is shown in being honest, good-mannered, a lover of fair play, and a friend of justice.

Education is also very valuable in the extent in which it teaches us to know where to look for the information we might need at any time. Furthermore, although the memorization of facts is scoffed at in modern schools, the mastery of fundamental facts and the ability to apply them is also very essential if we are to be truly educated.

**Free Clinics Are Beneficial**

Free clinics for crippled children are being sponsored at various places in Oklahoma by the Oklahoma Society for Crippled Children in connection with local authorities.

The children are examined free of charge by specialists. Parents are then advised as to what may be done toward their child's relief, and the society cooperates with them in carrying out the recommendations.

Through this educational program of the state and federal governments, many physically handicapped persons are being made self-supporting and an asset rather than a liability to their community.

**This Matter Of Exchanging Plays**

It is regrettable that more people in the community did not attend the play given here last Thursday evening by the Junior class from Booker high school.

The play itself was an excellent one—well presented by the students. More important is the fact that exchange of plays between schools is valuable in promoting understanding and a feeling of good fellowship.

Those who did attend the play should be commended for the way they showed their appreciation of the entire program. The logical conclusion seems to be summed up in these words of Edgar A. Guest—"You seldom hate a fellow when you know him very well."

**The Farm Special Is Coming!**

The people of Darrouzett have been invited to visit the Santa Fe Farm and Home Special train when it stops at Booker for four hours on Wednesday, March 23.

Six carloads of exhibits featuring dairying, poultry raising, better livestock, soil improvement, better farms and crops, home improvement, and 4-H club work will be on display.

Such an exhibit should prove of great interest to all progressive people in an agricultural section such as the Darrouzett community. A more valuable educational project in the field of agriculture could not be made available to the community.

Let us all take advantage of our opportunity to learn the newest developments in the variety of fields in the agricultural line and visit the special train when it comes thru Lipscomb county on March 23.

**THE SURE MOMENT**  
by Witter Bynner

This is the sure moment of spring.  
It comes only once a year.  
The green tips of the tulips know it  
And the iris are already intrepid and wise with it,  
And I have arisen from sleep and rubbed my eyes  
And have met this thing in the garden,  
And I know that winter is over  
And that there is nothing left but an answer,—  
And even if it is a wrong answer  
It is an answer,  
And answer on tiptoe  
From my own heart in the spring.  
—From the Household Magazine.

**CHURCH NEWS**

A. BLAIR GRUBB, Pastor

There is no question but what we are busy whether we are accomplishing any thing or not. Regardless of how busy we are, we can find time to do most anything when we want to bad enough. In spite of the fact that many people relegate God's word to the scrap heap, it is still true that where our treasure is there will be our interests.

Judging from appearance and action very few have anything but earthly treasures. Most people who have made money their God and have permitted it to become the center of their affections have or shall soon realize that it is a very unreliable thing on which to rely. As with money, so with any thing else that is earthly, it is unreliable and not dependable enough to base all life upon it. The reason is at hand, for moth and rust or a thief can, will, and does steal it from you. Then what have you left? Nothing!

It seems utter folly for a being destined to live forever to find nothing larger than things earthly or that shall perish with the using to be the basis of their support. Anyone to do that must necessarily close his eyes to the experiences of the past or else have never opened them. The testimonies unnumberable of men on their death beds show the folly of earthly things and the blessing and surety of heavenly things. Not willing to learn from others we want to learn from experience but too often very dearly. Sometimes eternally too late to change.

If life is eternal, and it is, why do the majority of people trifle about earthly things so much when life is short? Since we are very busy would it not be far better to find time for those things which do not perish with the using. Lay up treasures where moth and rust and thieves cannot destroy.

**A Weekly SERMONETTE**

YOU

By Arthur B. Rhinow

You are more to me than all your wealth, for what you are is more than

what you have. You can impress me with material possessions for a while, but after the demonstration is over and I sit alone with you, they will seem but a cloudy setting for a star. The little gain that you have made in faith in God and life is more interesting than the new figure added to your assets, no matter how imposing. So do not let your wealth hide you.

You are more than the clothes you wear and the jewelry that adorns your throat and hands. You owe it to yourself to dress so that people will be attracted to you rather than to your clothes. "She is a swell dresser," is a coarse compliment.

A great Sculptor designed your form. It is fair beyond the praise of man; as fair as it is wonderful. But you are more than all the charms of living flesh. If you were crippled by disease of accident, your spirit could remain unbroken and unbowed, aye, chastened and more beautiful, and you would still be you.

No part of your body is more expressive of yourself than your face. Every face is beautiful. Even the tracings of time are interesting. Why then hide your face behind a mask of artificial beauty? Why not give your face a chance to tell me of your soul?

One day, when you forgot yourself, I saw you as you really are. Within your eyes were mysteries eternal and ineffable, and you were more attractive far than all your wealth can buy and art can add. I saw you as a child of God.

Darrouzett Interscholastic League has a new plan of gaining some energy and ambition lost during the bad weather. We are getting some of this surplus grit flying around and are going to apply it where it is needed during the track meet.

One of the senior boys bit one of the junior boys on the head. The junior said he was going to sue the senior for damages, because he killed two of his thorough-bred, cling-type, lice.

Mr. Mullings has been giving his car some exercise, the Monkey drill in particular. It has been making rapid progress. He said on his way to Lubbock last Friday he wasn't watching it very close and it climbed half way up a telephone pole, and outside of a smashed radiator and a bent fender it hurt nothing.

## Third and Fourth Grade Activities

By Mrs. Lela Hennigh

Lloyd Mosley, Manuel Kirshman, and Lowell Hennigh are health inspectors this week.

The students of the room and teacher wish to thank Mrs. A. B. Grubb for the house plant slips which she sent to the room last week.

Daisy Painter was elected president of the room and Everett Painter, assistant. These students will serve for two weeks.

Dorothy Stranske is dinner pal monitor this week.

Last week Teresa Frass told the primary and third and fourth grade students a geography story about Holland and her people. This was enjoyed by everyone and helped to broaden the ideas of this interesting country.

The work on salt maps which are being made by the fourth grade in busy period is progressing nicely.

Beulah McGee was given the duty of keeping the reading table and library neat all this week.

A race is being run between third and fourth grades in free hand drawings. Only the very best ones are put on display and the race is to see which grade can get up the most drawings. So far the third grade has held high honors.

The assembly program was to be prepared by the third and fourth grade students this week, but most of the time will be used for track meet practice to accommodate those entering in literary events.

Eula Lee Gilbreath and Ernest Gilson will represent the Higgins High school in Senior declamation contests at the Interscholastic League Meet.

## Fifth and Sixth Grade Notes

By MRS. RUTH WRIGHT

Our Good English Club met on Thursday afternoon at 2:20. The following new officers were elected to serve the next six weeks: George Kammerer, president; Gerald Ludlum, secretary; Ida Littau, librarian; Mavis Altmiller, reading table monitor; Ruth Stranske, monitor.

Rachel Littau and Lionel Settles were absent part of last week.

A contest was started last week to see which row can keep the cleanest floor and desks. The fifth grade row has one star more than the other rows.

Our room went on a hike Friday afternoon. We went to the west railroad bridge, built a camp fire and played games until about 4:30. We ate our lunch and returned to town about 5:00.

Dutch windmill posters and Dutch flower girls are being made during art class.

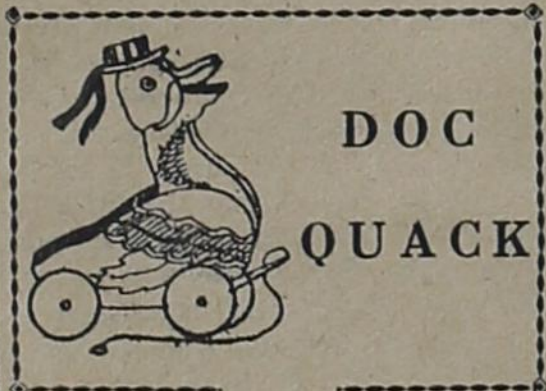

Holland has been studied in fifth grade geography class. Wednesday each person made an oral talk on Holland. Teresa Frass' talk was judged to be the best given by the sixth grade. On Thursday Teresa gave her talk in Mrs. Hennigh's room. We all enjoyed the study of this country very much; and after making the different kinds of posters of Holland, we feel that we understand their customs very well.

A campaign against bad English is started. This campaign is to last one week. Wilma Lash was elected Lieutenant and Erma Hennigh captain. The campaign is managed by the sixth grade, but the fifth grade are allowed to take part. Each person wears or owns a badge with the slogan, "We Trample Bad English," on it. Our campaign song, written by Wilma Lash and Gertrude Stranske is as follows:

(Tune to "Yankee Doodle")  
 1. Our class always speaks good English.  
 We speak it fine and dandy,  
 And not what comes most handy.

Chorus:  
 We speak good English  
 During rain or sunshine,  
 We speak good English  
 Almost all the time.

2. We are good English speakers,  
 We do not use slang words.  
 We are very good folks,  
 We are careful of our verbs.

Dear Dr. Quack,  
 I'm a young modern thing, and of course, this should be the least of my worries—but it isn't. When people go around making cracks about the answer to a maiden's prayer what do they mean?

Joanne.

Dear J.,  
 Really Joanne, there are several answers to a maiden's prayer. Anyhow, it usually depends on the maiden. But the standard answer is: AH-MEN.

Doc.

Darling Doc,  
 I have a hard old problem, and I think it would be so sweet of you to help me out of the difficulty. I always read your column, and you give such excellent advice, that I know you will help me. The problem is: I'm in love with some one who is love with another girl; but this other girl is in love with a boy who is in love with me. Now, what would you do?

Gene.

I don't know what, but anyhow, I'd lower the tax on horse feathers.

## Primary Room Notes

By MRS. J. E. SPEER

The primary room had charge of assembly Thursday, March 10. The beginners dramatized the story, "Singing for the King." The first grade sang "The Chigger Song."

G. A. Jenkins gave the declamation which he will give in the county track meet. Nina Martin, extemporaneous speaker, talked on "Recent Developments in Germany."

"The Stone in the Road" was acted by the second grade.

The basketball teams exhibited their new sweaters to the assembly group, after which the players and coaches gave short speeches.

Betty Jane Frass was elected president of the primary room on Monday. She is to serve for a six-weeks period. This is the second time Betty Jane has been chosen president of the room. Patty Powell was chosen assistant president.

The border made of Dutch boys, girls, and windmills is completed and has been placed around the top on the black board.

The beginning class read a stoidy about a circus on Monday. "Lions" was one of the new words in the lesson. A picture of two lions taken from the Saturday Evening Post was given to the class because each one recognized the new word.

The primary room loaned their small book case to Mrs. Grubb to use in a play she is presenting on Friday evening.

The primary students gave the assembly program Thursday. The beginning class and the second grade dramatized stories from their readers, while the first grade sang a song for the audience.

Alfred Altmiller visited the primary room Friday afternoon.

Assembly visitors on Thursday were Mrs. C. H. Powell, Mrs. Stella Powell, Mrs. George Hennigh, Mrs. Ed McVicker, G. A. Jenkins, Miss Velma Fisher, Wanda Lash and Alfred Lee Altmiller.

Well, the examinations are over, and as usual there are some people who think they should have had higher grades. Unless I am badly mistaken almost all of the Algebra II Class would have liked higher grades.

Many vows were made last week, (why not? vows don't cost anything) to do better the next six weeks but, oh well, that is always done after exams. This week at least we will all work hard.—L. D.

## EDITORIAL

The Importance of Attitude  
 Marguerite Hennigh

The definition of attitude is "the bearing assumed by a person". This statement takes into consideration the way students take an assignment in class or how an assignment is carried out or how athletes act on the athletic fields toward their coaches.

Some pupils always groan or "gripe" when the teachers assign the lesson, and some students never say a word about it. The teacher intends for the lesson to be ready by class time, and he will not change it by the pupil's remarks. The pupils who never say a word about the assignment, always make the best grades.

Athletics are the same way. In playing basket ball, there are new plays to learn and when the coach tells the players about them they often make remarks to his back. If they are asked to practice after school, some will say "oh, I do not want to." The athletes who play without "gripping" or making remarks and take things with a good attitude will be the best players.

If a person goes ahead and does what he is supposed to, he will be the best student or athlete. Those that spend more time "gripping" or making abject remarks than working never get anywhere. I think everyone should make the best of things even though he may not like it.

The following is a list of those who were not bawled out on Friday.

## Hard Times Plan For Farms Suit Good Times, Too

The emergency farm measure of 1930 and 1931 can be made the basis of a sound farm program in 1932, says D. P. Trent, director of extension at the Oklahoma A. & M. College.

Trent outlines a ten-point program for Oklahoma farmers in 1932 in line with the slogan, "The first business of farming is to make the living."

**Food and Feed First**  
 What cash crop to plant will vary according to conditions in the different counties, but under a live-at-home program this is the last question to be answered anyway, Trent says. The first problem is to be assured of enough food for the family and feed for livestock.

To that end he lists as the first steps in a program of farm living:

1. Every family should grow a garden of not less than one acre, re-planting during the season, and finishing the year with a good fall garden.

**Cow, Sow and Hen**  
 2. Every family should have at least one good milk cow. Two, bred to freshen at different seasons and so supply milk throughout the year, would be better.

3. Every farm should have at least one good brood sow to raise a little of pigs and provide meat for the family.

4. No farm family can adequately provide for its food needs without a

flock of at least 50 good hens.

5. Every farm family should can and store liberal quantities of fruits, vegetables, meats, pickles, and relishes, jellies and jams, and other good things to eat.

**Good Things To Eat**

6. From the standpoint of health, fruit to eat regularly throughout the year is needed. Small fruits can be brought into bearing in a comparative short time.

7. By all means, provide at least one good, fat calf to be canned for winter supply.

8. Add to the above some honey or sorghum, corn-bread from home-grown corn and some biscuits and hot cakes from home-grown wheat, and you have a living which is good enough for a king and certainly not too good for any farm family in Oklahoma.

**Planning Helps**

9. Budget the farm feed production. Instead of guessing, it is a good plan to determine how much grain, hay and pasture you will need to meet the needs of our livestock and then plan your acreage accordingly.

With the foregoing steps prepared for, the question of the cash crop on be considered. Trent points out that there are already surpluses of both cotton and wheat, and that no Oklahoma farmer can afford to gamble on cotton or wheat alone for his cash income. By producing some livestock and livestock products, and some surplus vegetables and truck crops above the family needs, the chances are increased of having something to provide cash at different times during the year.

## On Texas Farms

By W. H. Darrow  
 Extension Service Editor

Agriculture regional supermacy usually rests with those sections securing high acre yields, whether due to a gift of nature or to the managerial skill of man.

Man often helps Nature outdo herself. This is true with the growing of grain sorghams. Pure line seed, developed with infinite pains at the hands of Texas Agriculture Experiment Station workers and spread through thousands of demonstration by county agents, has proven over and over again its power to reproduce itself far beyond ordinary seed.

Typical is the increased yield of 500 pounds of grain per acre secured by 93 Foard county farmers from 4500 pounds of pure line milo maize seed secured through the effort of the county agent.

Typical also is the average of 30 bushels of corn per acre harvested from 1500 acres of land farmed by 45 Gonzales county farmers. Production on nearby farms ran only about 20 bushels to the acre. "Early plowing" says the county agent, "fertilizer of the commercial, barnyard or legume cover crop variety, and good seed explained the high yields." At any rate these farmers made \$1.79 more per acre net than their neighbors did on corn.

## Texas Farmers To Get Millions In Loans

From \$7,000,000 to \$15,000,000 will be loaned Texas farmers through the regional agricultural loan office of the \$2,000,000,000 Reconstruction Finance Corporation during the next sixty days, it is predicted by Owen W. Sherrill, regional manager for Texas, New Mexico and Arizona, with headquarters in Dallas.

These millions, it is explained by Mr. Sherrill, will be gradually spent within local trade territory for crop production purposes and will be widely circulated, proving a genuine stimulant to all lines of business.

All applications for loans must be made through the County loan committees in which the land is located, or through their sub-committees. County committees have the privilege of designating sub-committees in trade centers throughout counties to serve farmers in distant points.

Mr. and Mrs. Maurice Fausett of Canadian were in town on Thursday.

Miss Louise Draper spent Saturday night with Miss Doris Montgomery.

Mrs. Emma Lash and H. D. Lash were in Follett on Tuesday afternoon.

## Regulations Relative to Loans for Crop Production During the Year of 1932

This circular defines the procedure relative to granting loans for crop production during the year 1932 out of the appropriation authorized under the Act of Congress approved January 22, 1932, entitled, "An Act to provide emergency financing facilities for financial institutions, to aid financing agriculture, commerce, and industry, and for other purposes" (Public No. 2, 72nd Congress.)

Section 2 of this Act provides in part as follows:

"That \$50,000,000 of the amount so subscribed, and the expansion of same through the notes, debentures, bonds, or other obligations as set out in section 9 shall be allocated and made available to the Secretary of Agriculture, which sum, or so much thereof as may be necessary, shall be expended by the Secretary of Agriculture for the purpose of making loans or advances to farmers in the several States of the United States in cases where he finds that an emergency exists as a result of which farmers are unable to obtain loans for crop production during the year of 1932: Provided further, That the Secretary of Agriculture shall give preference in making such loans to farmers who suffered from crop failures in 1931. Such advances or loans shall be made upon such terms and conditions and subject to such regulations as the Secretary of Agriculture shall prescribe. A first lien on all crops growing or to be planted and grown, shall, in the discretion of the Secretary of Agriculture, be deemed sufficient for such loan or advance. All such loans or advances shall be made through such agencies as the Secretary of Agriculture may designate, and in such amounts as such agencies, with the approval of the Secretary of Agriculture, may determine. Any person who shall knowingly make any material false representation for the purpose of obtaining an advance or loan, or in assisting in obtaining such advance or loan under this section shall upon conviction thereof, be punished by a fine of not exceeding \$1,000 or by imprisonment not exceeding six months, or both."

Loans for crop production will be made in the several States of the United States where the Secretary of Agriculture has determined that an emergency exists as a result of which farmers are unable to obtain loans for crop production during the year of 1932 from any other sources. These loans may be made to such individuals in such States as are found by the Secretary of Agriculture to have acreage fit for seeding and who are without means to purchase the supplies necessary for crop production during the year 1932.

No loans for crop production in 1932 will be made to any applicant in excess of \$400.00. The total amount of loans to the tenants of any one land owner in a single county shall not exceed \$1,600.00. Loans for crop production in counties where fertilizer is commonly used will be made at rates per acre based on the approximate cost of supplies required, but in no case in excess of \$3.00 per acre, except for truck crops, including potatoes and sweet potatoes, for which loans will be made in amounts not in excess of \$12.00 per acre. Loans for the purchase of fertilizer will be made only in those counties where its use is deemed necessary by the representatives of the Department of Agriculture. Loans in such counties will be based on the approximate cost of all the supplies necessary for crop production, including fertilizer, but in no case in excess of a total amount of \$6.00 per acre, except for tobacco, on which the maximum rate is \$10.00 per acre, and truck crops, including potatoes and sweet potatoes, on which the maximum rate is \$20.00 per acre. Not to exceed \$10.00 of loans for crop production made at any of the foregoing rates on the acreage of crops included in the mortgage or crop lien given to the Secretary of Agriculture as hereinafter provided may be used for repairs and miscellaneous expense of crop production other than seed, fertilizer, feed, for work stock, and fuel and oil for tractors used in crop production. In addition to the foregoing, loans will be made in amounts not to exceed \$2.00 per acre for the purchase of materials for spraying and dusting to protect cotton and tobacco from insects and plant diseases; \$4.00 per acre for fertilizer and spraying and dusting materials for bearing fruit tree and vineyards. The right is reserved to make loans at rates lower than the foregoing maximum allowances. Applicants must agree to use seed and methods approved by the Department of Agriculture through its local representatives. Applicants must also agree to plant a garden for home use and a sufficient acreage of feed crops to supply feed for their livestock.

No loans will be made to any applicant who did not operate a farm until in 1931. No loans will be made for summer fallowing. Loans will not be made for total acreage of crops in excess of the average of the acreage planted by the borrower in 1930 and 1931. Loans will not be made for the purchase of machinery, or livestock, or for the feeding of livestock other than work stock used in crop production, or for the payment of taxes, debts, or interest on debts.

No loans will be made to any individual or to the tenants or share croppers of any landlord to finance or assist in financing the planting of an acreage of cotton or tobacco in excess of 65 per cent of the acreage of such crops planted by such individuals or by the tenants or share croppers or such landlord in the spring of 1931, and unless such individual or landlord agrees that he will not have any interest whatsoever in any such crops in excess of 65 per cent of the acreage of such crops to which he had in 1931: Provided, That the foregoing shall not apply to the farmer, tenant or share cropper who, in 1931, planted not more than ten acres of cotton or three acres of tobacco.

Application for loans for crop production purposes during the year of 1932 shall be made on the official form of application prescribed and furnished by the Secretary of Agriculture and shall describe the particular acreage to be sown or on which the fertilizer is to be applied. Such application shall be investigated by the Secretary of Agriculture through such agencies as he may determine, but the approval or disapproval of the application shall be by his authorized representative. Approval may be for a less amount than that applied for.

The amount approved for loan pursuant to these regulations will be paid by a temporary disbursing agent to the applicant, upon receipt and approval by the designated representative of the Secretary of Agriculture of the following documents:

- (a) Application on the form previously specified in this circular signed by the applicant and verified by the designated representatives of the Secretary of Agriculture in the county in which the applicant is located.
- (b) Promissory note, fully executed by the applicant, for the amount of the loan, payable to the Secretary of Agriculture, on or before November 30, 1932, with interest at the rate of 5 1/2 per cent per annum, in the form prescribed and furnished by the Secretary of Agriculture.
- (c) Crop mortgage must be executed upon the crop growing or to be grown on the land described in the application for 1932, in favor of the Secretary of Agriculture, in such manner as to entitle it to filing, and securing payment of the above mentioned note, and containing a provision authorizing the Secretary of Agriculture, through a representative designated by him, in the event the applicant fails to protect and at the proper time to harvest the crop mortgaged, to enter upon the premises and harvest the same, and sell the crop to satisfy the lien of said mortgage and expenses incurred thereunder from the proceeds of the crop. Crop mortgages, pledges, or liens shall be executed on forms supplied by the Secretary of Agriculture and shall be filed in the proper office under the State laws applicable. These instruments shall be prepared and signed in duplicate, the original being fully executed and both copies transmitted with the application.

If the applicant for a loan is a tenant, or is farming land under contract for deed or so-called crop contract, or has given a prior mortgage on his 1932 crop, he must secure the waivers of the actual owners of the land, his landlord, or all prior mortgage holders in the space provided on the mortgage form for the purpose. If the applicant is the owner of the land and farms it with tenants or share croppers, waivers of the tenants or share croppers must be secured in the space provided on the mortgage form for the purpose. If the applicant leases the land from another and in turn operates it with tenants or share croppers, waivers of both the actual owner of the leased land (unless the rental of said land has been paid) and of said tenants or share croppers must be secured in the space provided on the mortgage form. In all cases where waivers are required the person waiving must certify that at the time of signing such waiver he is in actual possession and owner of any rent note, mortgage, lands sales contract, or other paper and must enter into an agreement on this form that he will not assign, transfer, hypothecate, or sell such without first having secured the written consent of the duly authorized representative of the United States; and further, that in the event advances are made in compliance with pertinent regulations of the Secretary of Agriculture, for the purpose of harvesting and marketing the said crops,

it is agreed that the said money so advanced may be repaid from the proceeds derived from the sale thereof prior to the satisfaction of any lien, claim or interest of the signor.

(D) By a voucher form supplied by the Department of Agriculture and signed by the applicant.

The right is reserved to make payment of the loan in installments, the amount of each installment to be determined by the Secretary of Agriculture. Initial payment will be made at the time the loan is approved and subsequent installments will follow at stated intervals only after expenditure of the initial payment is shown to have been properly made by a report on a card furnished by the Secretary of Agriculture. Interest on the entire loan from the dates of the several installments to the maturity date of the note will be deducted from the final installment.

Applications for loans under these regulations must be mailed in time to be received by the designated representative of the Secretary of Agriculture at the Farmer's Seed Loan Office, not later than April 30, 1932.

The right is reserved to make further supplemental or amendatory regulations relative to loans for crop production purposes during the year 1932 or to withdraw these regulations at any time.

ARTHUR M. HYDE,  
Secretary of Agriculture.
