WHERE THREE GOOD **TEXAS COUNTIES** GET TOGETHER

Thursday, February 7, 1974

Number 6

We have been hoping that something good would come out of this hodge - podge of time change and I believe it has - I have heard several people commenting recently on the beauty of the sunrises and I'm afraid that up to this point, that is one of nature's feats that we (certainly this writer) have been missing because our time schedules (pre - D.S.T) didn't require that we arise in time to see old Sol make his debut - 'tis beautiful!

According to the official weather service records, January ended as the third consecutive dry month for Eastland County. The .12 measurement on Jan. 24 was hardly enough to make even a small dent in this drouth. But we have hopes. Mr. Groundhog saw his shadow on Feb. 2 so we are due six more weeks of winter - and that could mean moisture - we hope!

Duty makes us do things well, but love makes us do things beautifully. . . Adversity introduces a man to himself. .Correcting faults is like tying a necktie; we can do it easier on ourselves then on others. . . Men fight the clock - women battle the calendar. .. The most unsatisfied hunger in the world is the human hunger for appreciation. . . Praise loudly and blame softly. . . We're better off financially if we'll just act our wage. . . We all see the past better than it was; the present worse than it is; the future happier than it is likely to be. Thank goodness!

Junior College Beauty School To Hold Open House Thursday

The new and modern BEAUTY SCHOOL at Cisco Junior College will hold open house on Thursday evening, Feb. 7, according to officials of the college. The format will be a come - and - go affair between 7:00 and 9:00 p.m.

The Beauty School, which began classes Nov. 1, is housed in the Cisco college's newest building, the Technical -Vocational Building Number 2, recently completed. The Beauty School, officially named the Cosmetology Department, has a specious and well - furnished portion of the new facility. The modern cosmetology equipment includes, among other things, 13 styling stations, 12 hair dryers, 12 hydraulic chairs, 5 shampoo bowls with reclining chairs, 4

manicuring stations, locker space for 24 students, and 2 long mannequin tables. The school also is elaborately furnished with several mirrors at each teaching station.

Cosmetology instructors Roger Carlile and Ruth Hardy and student instructor Alta Dixon will all be present to greet visitors, and Beauty School students will also serve as hostesses. Refreshments will be served by the students, and door prizes will be given away. The prizes will consist of various free beauty services such as hair styles, manicures and permanent waves.

Officials of the Vocational -Technical Division of CJC stated that the open house at the Beauty School would have a two - fold purpose: first of all, to give the people of Cisco and the surrounding area which the CJC vocational programs serve an opportunity to come and see the new modern cosmetology school on the college campus, and secondly, to serve as an impetus to gain more students for the school. Instructors Carlile and Hardy have urged that anyone even remotely interested in taking one or more courses in cosmetology come to the open house and investigate the CJC program and facilities.

The instructors also stated that interested prospective students who can't attend the open house Thursday evening can contact them at any time for more information. They may be reached at the Vocational - Technical Building Number 2 weekdays, or may be telephoned at area 817, 442 - 2567, extension 51. Information about the Beauty School and other CJC vocational programs is also available through the Vocational - Technical Director's Office, they concluded.

"We hope everyone will come out, see our new modern Beauty School facilities,, and have some refreshments with us." the teachers said. "We're tremendously proud of our fine school, and we want to share this elation with others," they concluded.

In Acts of Apostles, chapter two, momentous events are chronicled in some detail by Luke, also the author of the third Gospel. Following the instructions of Jesus (Luke 24:44 - 49; Acts 1:4, 8) the apostles await, in Jerusalem, the special power and direction promised them (John 14:26; 15:26; 16:13; Acts 1:8). This arrives, according to the opening lines of chapter two, and through the power of the Holy Spirit, Peter, one of the twelve apostles, proceeds to explain the events to the Jewish audience and to lay before these Pentecost pilgrims an overwhelming array of proofs for the concluding statement of h his sermon: "...God hath made him both Lord and Christ, this Jesus whom ye crucified." (Acts 2:26) Moved by the agonizing recognition of the awful thing they had done, the convicted listeners cry out for a solution. God's answer is for them to change their minds and lives (repent) and to be baptized (immersed), with the assurance that their sins will be forgiven and they will receive the "gift of the Holy Spirit" (Acts 2:38). About three thousand from the assembled crowd "received his word" and

Luke continues by relating some of the actions and characteristics of this group of new disciples. "They continued steadfastly in the apostles' teaching and fellowship, in the breaking of bread and the prayers." (Acts 2:42). To meet the emergency caused by the presence of so many new converts from outside Jerusalem, all joined in to provide for the day - to - day needs of each one, even to the selling of "goods and possessions" (Acts 2:44 - 450. One thing is especially emphasized a number of times in the last paragraph of chapter two: the 'togetherness' of these first Christians (the name 'Christian' was to be applied a few years later at Antioch -Acts 11:26). See Acts 2:44, 46 and 47.

"were baptized" (Acts 2:41).

The events of Pentecost set the pace for the community of believers in the succeeding history of the New Testament. For the first time, in Acts 2:47, there is a distinctive grouping of disciples around the common conviction that Jesus was indeed the Christ, the Son of God: having been crucified for the sins of the world but raised from the dead and exalted to the right hand of God. This I am the most miserable man grouping of believers is to be

Isaiah said years ago, "Why do ye spend money for that which is not bread? And labor for that which satisfieth not? Hearken diligently unto me, and eat that which is good, and let your soul delight in fatness. Incline your ear, and come unto me, hear and your soul shall live. . . Seek the Lord while he may be found, call ye upon him while he is near."

The Psalmist adds these words to our thought, "Then they cried unto the Lord in their trouble, and he delivered them out of their distress. For he satisfieth the longing soul, and filleth the hungry soul with

POLITICS HAS BEEN DEFINED AS THE ART of government. Politicians are the practitioners of politics, usually elected public officials, but not necessarily so.

WHEN

POLITICIAN BECOME A STATESMAN? THERE MAY NOT be an exact two - plus two-equals-four answer. But there are some essential qualities if the politician is to be recognized as a statesman: On the way to becoming a statesman, there must be no doubt about his belief in our form of Government; that he is proud of our Country, despite its many weaknesses;

WHEN HE LOOKS OUT OVER THE HORIZON AND IS OPTIMISTIC ABOUT the great opportunities for everyone, knowing that there ismuch to be done, and that history remembers the builders rather than the wreckers; that he has confidence in the ability, integrity, and ingenuity of the American people to do what is right and solve any problem when they have the facts;

WHEN HE HAS FAITH IN THE SUPREME WORTH OF THE INDIVIDUAL and his right to the opportunity to earn a, living; when all are treated equally with no thought that the Government owes anyone a living except to help the young, the unfortunate, the aged, and the handicapped;

WHEN HE RECOGNIZES HIS LIMITATION AS AN INDIVIDUAL AND, like Lincoln, relies on Divine Guidance and the advice of wise men; has faith that right will prevail if he looks intelligently towards that end;

WHEN HE RESPECTS THE OPINIONS OF OTHERS: WILL NOT PREJUDGE but study all proposals; work and vote his conscience and not compromise principle for expediency; shows tolerance and understanding for new ideas and judges them on merit

rather than have his opinons shaped by purely political considerations;

ON ELECTRIC COOKING

Today's modern electric range offers you a host of special features which assure uniform cooking results each time. You'll find that cooking electrically is clean, cool and economical.

1 For best results, use flat bottom utensils with tight fitting covers. Utensils of medium or heavy weight aluminum conduct heat faster, transfer heat evenly and respond quickly to temperature changes.

2 Match the utensil to the size of the unit. Use 8 inch units for large utensils. Use 6 inch units for small to average sized pans.

3 Use high setting for a quick start for any surface cooking, or to boil water quickly. When cooking temperature is reached, switch to a lower setting.

4. Do not pre-heat the oven for roasting or broiling, but do pre-heat the oven to the temperature given in the recipe for baking.

5. Select correct, measured heat. The accurate heat selector switch or oven thermostat enables you to select, exactly, the same correct temperature each time you use it.

6. For good heat distribution around the pans, when baking, they should not touch the sides of the oven or each other. Allow one inch clearance. Check for doneness at minimum baking time on recipe, don't keep opening oven door to peek.

Hi!!

How is everything with you? This week has been rather exciiting.! Six of the Wrangler Belles from Cisco Junior College came to our F.H.A. meeting. We also had our ears checked to see if we could actually hear our teachers; our hearing is not the cause of poor

In math we are studying positive and negative numbers. We finally got our aprons made this week in Homemaking; we didn't know sewing could be that hard. We are just finishing plant study in Biology. We hope to get to study things that breathe now. This week in English we are studying common and proper nouns. All for now!

TOWARD

NEW HORIZONS This has really been an exciting week! We FHA'ers were very happy to be presented with a program from the Wrangler Belles and their coordinator Mrs. Pat Owens in our meeting on Wednesday. We learned about a typical practice session of the Belles. Mrs. Owens filled everyone in on the requirements for becoming a shown many of their routines Macy's Thanksgiving Day Parade. I'm sure everyone enjoyed the program very much. Back to classes - the Freshmen have begun to sew. and the Sophomores are still working on patterns; although, a few are sewing. Consumer Education has begun to cook.

all the news for now.

They seem to be doing very

well. (right J.C.?) Well, that's

Basketball is over for 1973 -'74. We played Putnam at 6:30 Monday night. Our two previous games were against Gorman and Carbon, Against Gorman we lost with a score of 47 - 59. Marissa scored 33 points, Pam scored 12 and Jerrilynn scored two to bring our score to 47. We had good guarding with Dorothy Bishop, Marilyn Bibb. Against Carbon,

IN THE CORRAL

Gwenda Butler, Pam Hunt, and we won 56 - 48; Marissa made another 33 points and Pam was second highest with 14. Jerrilynn was able to score four before Marilyn C. came in for Pam who fouled out about two minutes before the game was over. Marilyn b B., Dorothy, and Gwenda relieved by Kasey did a great job of guarding.

WILDCAT COUNTRY

Hello again to all you Wildcat fans. It seems as if things are going to start slowing down again to a normal speed. That is right; basketball is nearlyo over. The only games left are for the B team, and they will be played at home in a tournament. The tournament is this weekend; of course, everybody needs to come and see the games. I was talking about a slowdown a minute ago. It will come after that tournament when track starts. Some of the Wildcats that will not be taking track will be in the off - season program trying to get in shape and stay in shape for football next year. I do not know for sure that I can really call this a slowdown or not but maybe it will be. Do not forget the B team tournament this weekend. Ya'll come.

SENIOR WHO'S WHO

on April 2, 1956, in Temple, Texas, Mr. and Mrs. H.R. Diddle were the proud parents of a brown - haired, green eyed boy, Calvin Diddle. He is now one of the eighteen seniors of R.S.H.S.

Calvin loves fried chicken and his favorite color is blue. When it comes to TV he really enjoys watching "M.A.S.H." and at the movies his favorite is "Escape"

Calvin enjoys electronics. reading, and photography. That explains why he is one of the faithful photographers of the annual staff. He plays football and basketball; his most unforgettable memory of high school is beating Meridian

Calvin believes you should member of the group. We were "be yourself" and his future plans are to get a degree in including the one performed for engineering. Good luck.

SENIOR WHO'S WHO

Donald Gary Dennard, son of Mr. and Mrs. Billy H. Dennard, came into this world on August 3, 1956, in Waco, Texas. He has light brown hair, green eyes; and, believe it or not, his favorite food is peanut butter.

Hi Gang. the assignments for Gary enjoys photography, this week are read chapter 18, golf, and "thinking about do Vocabulary page 370 and nothing". He is an active

member of the annual staff, Who's Who in bookkeeping, and How goes it out in newspaper elected as F.H.A. Beau. Sports land? Hope your week has been wise, Gary participates in Sunday Afternoon football. In the band hall we are still Gary says his favorite pastime is "tearing up the car that I music. It is really amazing the happen to own". (really now, endless mistakes one can make Dennard?)

Gary's favorite TV show is "Shaft"; his favorite actors are Richard Benjamin and Claudia Jennings. At the movies he prefers "Slaughter House Five". Grand Funk stands out in A Gary's selection of groups and that explains why "American Band" is his favorite song.

Gary's philosophy of life is "Live for yourself, not for others". He plans to attend college after graduation. We wish you all the luck, Dennard!

ON SPRING Humans have never

outgrown their instinctive desire for the precarious arrival of spring. It is possible, but not probable, that we might outgrow it; examine the soothing effect spring has on man. The radiance of life seems to appear from things seemingly dead. We are amazed and perplexed. Hours may be spent observing and admiring the patriarchal life. Plants and animals are in harmony. Squirrels play in trees so gigantic merely capturing our attention. Birds and ungalates proclaim that they too are part of the sublime picture, the totalness of spring. The atmosphere is fully invigorating and inspiring. Spring is an unmatchable harmony among all of nature. Invariably, though, the temporary ceasing will draw man back into the hub - bub of life. Although man has no control over the lunar arrival of Ralston - Reporter. spring, it is comforting to know that by control of our subconsciousness we may impersonate in our minds the qualities of spring.
