Man About Manhattan

NEW YORK-The mania for money which inspires so many weird deeds is really a phobia that might easily have turned in the direction of watchfobs or milk bottle tops, A doctor at Bellevue hospital tells me this is true. In his opinion people who make a habit of shop-lifting, especially when they already have plenty, are sick people and need the kindly ministrations of a physician more than a term of atonement in jail.

You see evidences of this almost every day. Only recently a "nun" was picked up for vagrancy. She wasn't a nun. She was the mother of two successful business men and she was masquerading in a nun's raiment and begging alms on the street. One of her sons is a lawyer in Brooklyn, Another is a doctor in a city upstate. She has plenty of money. She is wellprovided for. Yet for some reason, which no doubt can be answered more accurately by a doctor than by a policeman, she would slip away and put on a nun's cloth and go about the streets of the city, asking gifts of money in the name of the church. The judge gave her a severe reprimand and then suspended sentence. Few will cavil with decision.

### **Rainbow Natural Bridge**

Unsurpassed for size and beauty, Utah's Rainbow Natural Bridge reflects a magnificent grandeur that makes it second to none anywhere in the world. Its majestic arch, 310 feet high and 278 feet wide, is huge enough to span the dome of the U.S. Capitol. At its midpoint it is 33 feet in width and 42 feet thick. Composed of a vari-colored, fine-grained limestone, it presents the aspect of a glorious rainbow in the soft-hued light of the early morn-ing or late evening sun, from which phenomenon it ing or late evening sun, from which phenomenon it derives its name. No Indian ever passed beneath it without offering a prayer for his safe return. Tunneles by wind and water throughout the can-turies, it stands today as a colosed monument to the uncanny skill of nature, that greatest architect.

(More travel notes from a Herald correspondent.) By MARY ALICE WOODARD

We met my mother in San Fran cisco and took in Treasure Island together, going over on the ferry rather than across the Bay bridge, ecause we wanted a ride on one of San Francisco's famous ferries, But for a tip to those who plan to make the trip yet, we found it much more convenient to leave our car in town and use the ferries since the cost is only ten cents a person, and there is no long walk to the main

grounds after landing.

the Marning Raris' to Go The liver should pour out two pounds of liquid bile into your bowel aduly. If this bile is not flowing freely, your food doem't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, souk and the world looks punk. A more howel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Fills to get these two pounds of bile flowing freely and make you feel "up and up." Harmhess, gentid, yet amas-ing in making bile flow freely.
