Run-Off Elections Are April 10

Mary Bailey, County Chairman of the Democratic Party, said recently that a canvass of the votes for the office of District Attorney found no errors in the totals. The results stand as reported, with Leslie Vance declared the nominee.

There will apparently be two run-offs in Eastland County races on the Democratic Party Ballot April 10, according to information from election officials

One will be the 91st District Clerk's race, with Kathy Trout Hallum and Bill Miears on the ballot. The other will be the race for County Commissioner of Precinct 4 (Cisco) between incumbent Billy Bacon and Reggie Pittman. Run-offs

on offices include Ann W. the courts.

The Republican ticket will have no run-offs for county offices, according to Jim Keffer, County Chairman.

Republican Party run-offs include RickPerry and Richard McIver for Commissioner of Agriculture and those for Commissioner of the General Land Office.

Voters are reminded that they must vote on the same party's ballot that they voted in the March 13 Primary

Those who did not vote in the primary may choose which party they wish to

Polling places will be at the same locations as the

March 13 primaries. Absentee voting for the April 10 elections will be April 2-9. Early voting may be done in the County Clerk office, first floor of the courthouse, from 8:30 a.m. to 5 p.m.

Health Care Matters, Jail Discussed By Commissioners

Eastland County Commissioners Monday approved a proposal for County Tax Collector Nancy Trout to begin collecting taxes for Eastland Memorial Hospital District this fall.

The proposal was submitted by Marsha Carr, Administrator of the Eastland Hospital, who explained to the Commissioners that the Hospital Board had discussed this matter with Mr. Trout.

Nancy Trout told the Commissioners that she had agreed to collect this tax. In Eastland Hospital District (generally the boundary lines of Pct. 1) the tax will be added to the County and Road and Bridge taxes. In other health-related

matters, the Commissioners approved a request for \$30,000 toward the purchase of a new ambulance for Ranger. George Falls and Stan Parker of Ranger brought this proposal to the Commissioners, and also submitted an ambulance service contract for consideration. The new ambulance will be purchased in the city's name, with Ranger General Hospital operating the service. If the Hospital should ever close, the City will continue with the service, with the County continuing to pay half of the cost of the insurance.

The \$30,000 will come from funds already budgeted

Conventions at Courthouse Saturday

County Conventions for the Republican and Democratic parties will be held Saturday, March 31 in the Commissioners Courtroom. The Republicans will meet at 10 a.m. and the Democrats at 2 p.m.

All Precinct Delegates are urged to be present at these important meetings.

by the County to assist with ambulance service in all four Precincts.

There was discussion on the present status of the Southeast County Hospital District, how dissolved. At a recent meeting former Board President Hershell Cordell reported to the Commissioners that the District had complied with all requirements for disollution, and now reverted to the County. He requested that \$68,000 in funds not resolved with the I. R. S. be placed in escrow until the matter was settled.

Nancy Trout reported that one person had tried to pay delinquent taxes in from the dissolved district her office, but she had no delinquent roll or other paper work from the District.

Judge Bailey said that he County could do little "Until we get the papers and records" of the Hospital District. Several Commissioners said "We can't collect anything now," and indicated they needed legal advice before agreeing on the \$68,000. The Commissioners did

approve a Resolution submitted by Day by Day Care Centers that outside Revenue Bonds may enter Eastland County. Andrew Kinser, representing Day by Day Centers, reported that this group is acquiring the Gorman Hospital, currently operated by Dublin Recovery Centers. Kinser said that Day by Day will operate a Substance Abuse Recovery and Educational Resource Program at the Hospital. This facility was once operated by the South Eastland County Hospital District.

When the Commissioners turned to the subject of the jail, Sheriff Dee Hogan told the Court that the jail was currently overcrowded. Eastland County is now paying \$120 per day for three

prisoners housed in Comanche County.

"Taxpayers money is going out the door," the Sheriff said. "We need to address the is-

"Who do we need to address it with?" Asked L.T. Owen, Comm. of Pct. 3.

"Start by talking with the District Attorney," Hogan replied. He said that the County Jail is overcrowded because District Attorney Walton has not scheduled the time to hear plea bargains from at least five inmates. "I want to be sure the Court is aware of it," he added.

The Sheriff continued his report by saying that 21 inmates were in the jail, with three scheduled to be transported to the Texas Department of Corrections Tuesday. On the return trip law enforcement officers would pick up the prisoners in Comanche and return them to Eastland.

After Hogan left District Attorney Emory Walton talked to the Commissioners. "I don't know why he says some want to plead when they don't," Walton said. "He brings two people into the Courtroom to plead, and they don't."

Walton added that arresting officers generally handled their cases, and Hogan was overstepping his authority interfering with these inmates. Furthermore, the Sheriff did not allow easy access to prisoners, making the District Attorney and other officers wait in the Sheriff's office to talk with inmates.

The County Commissioners had hoped to continue this discussion with Hogan and the District Attorney present at the same time. But Walton was due in Court that afternoon. So a meeting to iron out proceedures had to be post-

Tax Deferral Available for Elderly Homeowners

Section 33.06 of the State Property Tax Code requires the following information concerning the Deferral of Certain Property Taxes to be publicized.

Property taxes on the residence homestead property of those persons sixty-five (65) years of age or older may be deferred or abated if they satisfy the requirements of the State Property Tax Code.

The property owner must occupy the residence homestead on which the tax is being levied on or on which a suit has been filed for collection of delinquent taxes.

To obtain a deferral, the individual mist file with the Chief Appraiser for the Appraisal District in which the property is located an affidavit; stating that they are sixtyfive (65) years of age or older and that they do own and reside in the house that the tax is being levied on.

If a suit has already been filed by a tax unit, the individual must file with the court in which the suit was filed the same type of affidavit.

By filing the affidavit with the proper authority, the payment of taxes or forced collections through suit is postponed until the person filing the affidavit no longer owns and occupies the property as a residence homestead.

Although the tax is deferred; it is not cancelled, A tax lien remains on the property and penalties and interest continue to accrue during the period that the collection of taxes s deferred. For information concern-

M.D. Anderson Patient Open House March 31 In Eastland

The ANDERSON NET-WORK is an organization of current and former patients of the U. T. M. D. Anderson Cancer Center in Houston who "have been there" and who want to help by reaching out to other M.D. Anderson cancer patients, those who may be considering going to M.D. Anderson for diagnosis, treatment or second opinion or friends/family members of cancer patients. The mission and motto of the ANDERSON NETWORK is to be a PATIENT TO A PATIENT AND A FRIEND TO A FRIEND. They do this by providing support and understanding, answering questions and walking down that path with a cancer patient as they journey into the very real challenges of cancer diagnosis, treatment and the maze of a large institution.

On Saturday, March 31, 1990, at 2:00 p.m. members of the ANDERSON NET-WORK will be hosting an Open House at the 1st Baptist Church, 405 So. Scaman, Eastland, All M.D. Anderson current and former patients, family members and friends are invited for a time of infor mation, understanding and light refreshments. While sharing in support of each

other, there will also be discussion of the possibility of forming a patient support group in the area, how the Network can assist with any special needs of the community and a real highlight will be information of the day long Anderson Network Patient Conference planned for the North Central Texas area on June 2, 1990.

This Patient Conference will be a time when patients and family members/friends can become informed on cancer site information, participate in sessions on coping skills, learn of ways to deal with insurability/employability concerns relevant to the cancer patient and share in a day of social interaction and refreshment with those who truly understand the cancer experience. M.D. Anderson staff/physicians will be the presenters. Plans are well under way for this very special event.

The ANDERSON NET-WORK provides many services for cancer patients and is solely composed of volunteers who are current or former Anderson patients. If you are an Anderson patient and return periodically to the Cancer Center in Houston, they invite you to share a cup

The Great Texas

To Help The Homeless A growing number of women and children living in supervised shelters for the homeless are benefitting

from nutrition services offered by the Texas Department of Health (TDH). The department's Special Supplemental Food Program for Women Infants and Children (WIC) safeguards- through sound nutrition-- against health problems among low income mothers, their babies and children.

WIC services include providing nutritious foods, health assessments and nutrition counseling to eligipregnant breastfeeding women, new mothers, and their babies and children less than five vears old.

To be eligible, applicants must undergo health screenings at WIC clinics to establish their nutritional needs. They also must meet state and federal guidelines for low income.

In addition, health officials have adapted WIC services and rules to meet the unique needs of homeless participants.

According to Debra Stabeno, Chief of TDH's Bureau of WIC Nutrition, "Our challenge in serving the homeless is greater than it is with other participants. "We must provide

homeless participants with foods that are not easily perishable. These people don't have refrigerators, freezers or other kitchen conveniences, so we try to supply a more durable food

package," she explained. The supervised shelters where homeless WIC participants stay must follow specific guidelines set by the U.S. Department of Agriculture.

Among those conditions

- WIC foods must benefit the authorized participant, not a facility for the homeless or other institution. The facility may not gain financial or in-kind benefits from any person's participation in WIC

- WIC foods may not be included in communal feedings. - Shelter personnel may

not make collective or bulk transactions for participants living in their facilities,

Fishing Outdoors By Terry L. Wilson

Weekend Catching Was Fair

For those of you who laughed at the boats traveling to their favorite fishing holes this past weekend all I can say is you missed some fine catching. The average size fish caught at area lakes were small, but the numbers were good. At the Brownwood Bass Club Invitational 11 pounds for 3 fish won, with the big bass going 7 pounds 8 ounces. Fewer anglers weighed in fish than there were awards, but every angler I visited with reported catching an average of 10 fish per person. 102 contestants attended this event with around 30 weighing in one or more fish over 14 inches.

I hear our good friend Chuck Loferty from Abilene won the open Jackpot held at Lake Leon with over 10 pounds of fish. The remainder of the results were not available at this time. This event drew 5 anglers for a cold day on the lake.

The fish at Lake Brownwood were taken from 1 to 2 feet of water. This may sound a little strange but the water cooled so quickly that the ground in shallow water with rocks remained 3 or 4 degrees warmer than deeper water say around 3-5 feet.

If the weather doesn't break in a few days this will definatly set the spawning fish back a few weeks.

Anglers looking for some excellent crappie fishing should look at Lake Brownwood. The many brushpiles in the main lake area hold some 1 to 2 pound crappie in excellent numbers. The colder weather will insure some great flea-flie action for the anglers brave enough to venture out.

All current and perspective

members of the Eastland County Bass Club should make plans now to attend the

April 5, 1990 meeting. Once again the meeting will be held at the Eastland National Bank Bld. and will kick off around 7:30. The date for the Annual Awards Banquet has been changed by the ECBC board of directors. A new date I understand will be set up at this meeting. For more information on these matters or about how you can become a member of this organization, contact Tom Maynard at 629-3550. Till next time out lets all make safe boating a part of our equipment.

Alpha Kappa Chapter Inducts Local Students

Seven Tarleton State University students from Eastland County were among the 52 inducted this spring into the Texas Alpha Kappa Chapter of Alpha Chi, the national honorary scholastic society.

New members include Beth Pearson Albaum, Rebecca J. Bullock and Kendra Brown, all of Eastland, Ginny Lynn Taylor, Norma Jean Stroebel and Trey Douglas of Cisco and Barbara Baker of Ranger.

Membership in Alpha Chi is limited to approximately the upper 10 percent, academically, of the junior and senior class and to be eligible a student must have at least a 3.62 grade point average.

The objectives of Alpha Chi are to promote and to recognize superior scholarship and those elements of character that make for effective service. The society, founded in 1922, has more than 218 chapters in 44 states and represents the highest academic honor on any member campus. The Texas Alpha Kappa Chapter at Tarleton was established in the fall of 1968.

Chapter sponsors Dr. Robert C. Fain, Dr. Jim Kirby, Dr. Ruby Barker, and Mrs. Veleda Boyd conducted the induction ceremonies which were held on the TSU campus. Alpha Chi officers for the 1989-90 school year are president Laurie Harveson, vice president Mark Morvant, secretary Brian Barker and treasurer Tracy Totten.

Beth is an Art major and the daughter of Mr. and Mrs.

L.R. Pearson Jr. of Eastland. Rebecca is majoring in Ecology, Government and History and she is a Presidential Honors Scholar at TSU. She is the daughter of Earl and Carol Bullock. Kendra is an Elementary Education major and she is the daughter of Jack and Leanna Lindsey.

Ginny is the daughter of Jim and Geneva Webb of Cisco and she is majoring in Elementary Education at Tarleton. Norma is also an Elementary Education major and she is the daughter of Lee Roy and Velda Witzsche. Trey is an Accounting and Finance major and he is the son of Jerry and Sondra Douglas.

Dear Editor,

Please tell my side of the

Dear Citizens of Eastland County:

Many of you have heard Paul Harvey's "Rest of the Story." I would like to tell the rest of my story in response to the article in the Abilene Reporter News the Saturday before Election Day, which effectively sabotaged my campaign for the office of District Attorney.

The article reported that I had once received a reprimand from the Bar Association, and it was written in such a way as to plant seeds of doubt about my integrity, in the minds of many people.

Since the article was printed too near election time for me to respond, I'd like to do it now, and tell the facts in the "the rest of my story."

About ten years ago, I was acting as attorney for a courtappointed guardianship (where one brother was acting as guardian for his ill and incapacitated brother). At the time, the sick brother had a full partnership with a third party, in a business venture.

The guardian brother decided that he could not continue the partnership obligations of his ill brother, and that it would be to the best interests of everyone involved that the partnership be dissolved. The assets of the partnership were to be equally divided between the sick brother and his partner. The facts indicated it to be the equitable thing to do. The guardian brother and

the third party (the partner) agreed to what they considered to be a fair division of the assets. They put their agreement in writing and my office typed up the agreement. On about October 24 of that year they both signed the writ-

ten agreement in front of me. At that time I began to prepare instruments in connection with their proposed division of the partnership, to be submitted for court approval of a final division of the partnership.

When such a guardianship is being administered, the Court MUST FORMALLY AP-PROVE all business transactions in connection with the

mentioned partnership division was one of those business transactions which MUST be approved by the court before it can become fi-

The court had not yet had a chance to give approval of the partnership dissolution, before the ward (the sick brother) died on or about November 1st of that year.

On the death of the ward, the guardian had no more legal authority in connection with the estate. Another relative had been designated as "Executor" in the deceased brother's

They asked me to affix a notary acknowledgment of their signatures on the letter. Since I had originally seen them sign the letter, I could see no legal harm in this, to anyone, by adding this acknowledgment to a fect. Since it had not yet been ruled on by the court, it had no binding effect on anyone. It was only to be used to submit to the executor, to apprise him of their previous agreement. At the time, they considered any further delay in dissolving the partnership would decrease the value to everyone. The value had already de-

Unfortunately, through a twist of fate and circumstances, about a year later, a ties, and advised them to distorted, interpretation of the events and facts was taken to the Grievance Committee. In spite of the bitter ending, I enjoyed the months of my campaign. I was gratified at the positive responses, and felt that I was making new document that had no legal ef- friends. My family felt the same way, when they were helping me. I am sorry the seeds of doubt were planted. I wish I could have seen you all personally to tell you the truth of the real story.

Thank you to all who ignored the "rumors" and voted for me anyway. I did not betray your confidence and will not.

Gordon Spot

By DeMarquis Gordon, County Agent-

This is the time of year that is considered the beginning of the frost-free days in Eastland County. Actually, it is the beginning of the average frost-free period. This means that 50% of the time there are no more frosts after this date.

Lack of frost signals the

beginning of a safe period in which to grow the delights of the vegetable garden such as beans, corn, cucumbers, eggplant, Southern peas, pepper, squash, tomatoes, and watermelons. All these vegetables are very sensitive to frost conditions and must not be planted until all danger of frost

is past, unless some sort of protection is provided. The average length of these

frost-free periods is relatively stable in most areas of Texas. The problem arises in determining when these periods will begin and when they will end. Meteorological information collected over many years indicates the 'average first frost-free date' and 'average last frost-free date.' The term 'average' is the misleading culprit. Average means that which has occurred most of-

tunately, extremes are also averaged in. For instance, March 22, is the beginning of the average frost-free period in the spring here, and mid-

ten or normal. As most Tex-

ans know, 'normal' weather

is the usual rather than the

expected occurrence. Unfor-

November is when we 'nor-

mally' expect the first frost of

the fall. Yet we can all re-

member that last April 11, we

had a killing frost of 27 de-

grees and on September 24,

we had our first frost of the

fall and a hard freeze on

November 3rd, I'm sure many

of you remember years when

the first frost-free day oc-

curred in early Februrary and

the first frost of the fall was in

December. You can now

begin to appreciate the farm-

the weather, we take a tre-

mendous risk. Yet successful

gardening depends on out

guessing the weather. For

instance, if we wait until well

pat the average first frost-free

date to insure success with

such tender crops as toma-

toes and beans, we may expe-

rience a complete failure. The

failure will be caused by the

later bloom date due to later

planting. Tomato bloom dur-

ing hot temperatures will

cause lack of proper fruit set

The answer to this dilemma

is to plant frost-susceptible

crops according to the aver-

age first frost date, but be

fully aware that you may have

to protect them if a cool pe-

riod occurs. Home gardeners

can do this by covering plants

with cans, blankets, a cage

garbage bag system, or boxes

Crops such as Southern

peas (black-eyed peas), sweet

potatoes, and okra should not

be planted until well after the

first frost-free date. These

crops are extremely suscep-

tible to cold air temperatures

and do not grow properly in

on frosty nights.

Lady Cat Activities by Shannon Stuteville

A dismal, dreary, cold, blustery -not to mention rainy- day in Gorman was the setting for last Saturday's track meet.

Becky Walker and Wendy Green braved these conditions to bring home hardware from the Panther Relays. Wendy won the 100m and 200m dashes, gaining two gold medals to add to her collection, and placed 4th in the shot put. Becky won two silvers of her own in the 1600m and 3200m runs. These two determined and outstanding individuals racked up 40 points between them. Way to go, Ladies!

This weekend the Wildcat Booster Club will host the annual Wildcat Relays, with field events beginning at 8:30

Stephanie Sizemore and Shannon Stuteville competed in the San Saba tennis tournament this past weekend, but ran into some tough competition in their first two matches and were unable to advance to the final rounds.

Stephanie will travel to the Brownwood Invitational this weekend to compete. Good luck, Stephanie!

Cats on the Run by Roanen Barron

A tremendous cold front hit Texas Friday night and it worsened Saturday. A determined Wildcat track team braved the cold, biting wind to participate in the Gorman track meet. The weather must have suited the 'Cats because they finally broke the 12-point barrier. They earned 16 points, so things

are looking up. Derrick White continued to do well. He placed 5th again in the discus and put the shot 46 ft. 1 in. to capture 2nd. Toby Long added the other 6 points by finishing 3rd in the 300m intermediate hurdles with a time of 45.92. Congratulations, dudes.

This Saturday the Wildcats will display their track skills at home. The meet will begin pretty early in the morning, but maybe the weather will be better. The 'Cats could really use your support, and the Booster Club could use some workers. Feel free to volunteer today to help out the hometown crowd. Call Cindy Elliott at 643-7907 to pledge your help. Jr. High track meet is Friday night and the varsity's is all day Saturday.

Jr. High Sports

by Becky Walker

Overcoming the dreary weather and blood-chilling temperatures Friday evening, the Jr. High track teams soared far above their highest-ever point total and perhaps even surprised themselves with what they were able to accomplish at Gorman.

The Jr. Wildcat Ladies landed places in both their 400m and 800m relays, a 3rd and a 2nd, respectively. Individuals also starring were Brandi Harris with a 2nd in her 200m specialty and, 3rd in long jump and 4th in triple jump and Olivia West who spun the discus across an amazing span to claim a 1st place of her own. With these efforts, the girls placed an overall 3rd in their division.

The Jr. Wildcat boys are all showing improvements in their events and some are getting within inches of finishing in the top 6. Jarod Horton accumulated a total of 22 points, taking another 1st in the shot put, coming in a solid 2nd in the 200m dash and finishing 4th in the discus.

The next track meet will be held here the afternoon of Friday, March 30. Let's all come out and support these individual champions and top-rated teams.

4-H Beekeeping Essay Contest

The 4-H Beekeeping Essay Contest sponsored by the American Beekeeping Federation is here again offering a great educational chance at cash prizes and a good learning experience. All 4-H members are urged to take part in this essay contest. The topic of this year's essay will be The Relationship Between Honey Bees and Man Through the Ages. Man and honey bees have enjoyed an unusual relationship through the ages. The earliest records of this relationship have been found in cave drawings. Aside

from the obvious role of providing honey for man to eat and pollination for his crops, the honey bee has played other parts in history, including involvement in wars. Develop an essay on this relationship, covering as many different facets of it as you can. This contest is open to all active 4-H members but if anyone is interested in this contest and is from the ages 9-19 they should contact the Extension Office to join 4-H. Also for more information including the rules for the contest contact the Extension Office.

Farmers Home To Elect New County Committee Members

The Farmers Home Administration (FmHA) will begin accepting nominations April 5 for election of county committee members under new rules that make it easier for farmers to qualify as candidates and to vote, Jack Phillips, County Supervisor said today.

FmHA county committees perform a variety of duties for the U.S. Department of Agriculture's credit agency, including deciding whether an applicant is eligible for a farm loan.

'One important change broadens the definition of a farmer to anyone who has an interest in a farm in the county as owner, tenant or sharecropper,' Phillips said. 'The new definition also includes the spouse of an eligible farmer. An old requirement that more than half of the candidate's income must come from the farm operation has been dropped.'

'The nominating period has

been extended to 45 days from the previous 25 days, thus allowing more opportunity for people to run for the committce,' Phillips said. 'At least three eligible farmer voters, including the nominee, must sign the petition.'

Two of the three committce members are elected by farmers in the county, and one is appointed by FmHA. One of the elected seats is to be filled for a three-year term at this year's election, which is scheduled for June 29.

'Another important change this year is that one member of the committee can be an active FmHA farm borrower, or be eligible for an FmHA farm loan,' Phillips said. 'Previously, this was not allowed."

'Anyone interested in running for the committee can obtain a petition and other information from the FmHA county office at 1309 East Main Street in Eastland,' Phillips said.

called the meeting to order. The prayer was voiced by Jean Bryan. Polly Price led the pledge to the flag. Members answered roll call with something they could do for our town and 'Environmental Defense."

Program coordinators were Irene Mayfield, Ruth Green, and Willie Lee Gray. They did a lot of research for this program and it made all of us aware of the importance of environmental

defenses. Others on the program were Kimberly Childers, Cross Plains Science teacher, and three of her students. Glenda Evans talked on water supply, Laura Rankin talked on Ozone and Tiffeny Cosper talked on the Greenhouse Effect. Many interesting things were

brought out in their talks. Brenda Williams from Buttons & Bows made an interesting talk on things you can make of other people's trash. She had a display table of articles she had
