Brown-Mills Soil Conservation District In Meeting at Brownwood Last Tuesday

(Brownwood Bulletin)

Supervisors and custodians of the Brown-Mills Soil Conservation District met Tuesday night of last week at the Chicken Hut in Brownwood for dinner and a discussion of problems pertinent to the group's activities.

W. R. (Bill) Chambers, state representative of this district, met with the group and spoke briefly.

During the business session, reorganization of the board of supervisors was completed in accordance with previous rulings of the organization. George Goss, Rising Star, who has served as chairman for some time was succeeded by W. M. Hancock, Zephyr. Goss will now serve as vice-chairman. Anson Oden, Chapel Hill, will serve as secretary. Other supervisors of the district are David Watters, Goldthwaite, and Hobart Priddy, Priddy.

Supervisors asked the custodians of various pieces of farm equipment made available for use by farmers in the district to discuss various matters concerning the use of such equipment.

Many of the grain drills available under the plan are equipped with fertilizer attachments. Rental fee on the drills has been 25 cents per acre for just the use of the drill and the fertilizer equipment. Following discussions by the custodians, the supervisors voted to make a single charge for the drills setting a fee of 35 cents per acre for the entire unit, regardless of whether the fertilizer equipment is actually used.

The fertilizer equipment is permanently attached to the drills, and even though it is not actually used for dispensing fertilizer along with the sowing of grain, it is usually left operating and is subject to wear, members of the group said. Rental on the equipment is required to be sufficient to maintain the equipment and purchase replacement units.

The group felt also that the lower rate with regard to the fertilizer unit would encourage more farmers using the drills to use

fertilizer and thus further practice soil building.

The supervisors voted to purchase one new drill for use in the district.

In his brief message, Rep. Chambers complimented the supervisors and custodians for the work they are doing. He compared their problems of operating the Soil Conservation Dis. to the business of law making. He told them that by multiplying the combinations and complications of their activities by a million they might get some idea as to the magnitude of lawmaking for 7½ million people in the state.

Chambers said that we have now reached the point in this country that there is no more virgin soil to take over. "We have now reached the saturation point," he said, "and will have to turn back to rebuilding our old soil."

The state representative called for closer cooperation among farmers and other citizens of the nations.

Representative Is Sent to Jail for Contempt Charges

SNYDER, Oct. 27.—(Spl.)—C. F. (Frank) Sentell, state legislator and Snyder attorney, was released from jail here at approximately 9 p.m. Tuesday by writ of habeas corpus issued by the State Supreme Court.

The 66-year-old lawmaker thus served less than one-half of the three-day jail sentence assessed against him Monday by 132nd District Judge Sterling Williams for contempt of court.

Blake Man Is Found Dead in Bed on Sunday

Alvin Chick, 65, who lived alone on a farm in the Blake community, was found dead in bed Sunday morning by Clay Williams, a neighbor, who was passing his home and noting that his cow had not been milked, stopped to investigate and going into his bedroom found him dead in bed. Mr. Williams at once notified others, including the Higginbotham funeral home here. Mr. Pinkard, the funeral director, called a local physician and together they went to view the body. The physician decided that the man had died of a heart attack at some time during Saturday night or the early hours of Sunday morning.

Mr. Chick, who was never married, had made his home in the community about 25 years and had been engaged in farming and cattle raising. He rented his farm out several years back and had been devoting most of his time to stock raising.

He was a veteran of World War I and a member of the American Legion.

He is survived by three brothers: B. T. Chick, Rising Star, Edward and Tom P. Chick, both in California. Four sisters survive: Mrs. Lena Strong, Westmoreland, Cal., Mrs. John Sunday, Turlock, Cal., Mrs. Harvey Overton, Long Beach, Calif. and Mrs. J. A. Stearn, Wichita Falls.

Funeral services were held at the Blake Baptist Church Monday afternoon by the Rev. D. R. Phillely, pastor of the First Baptist Church, of Rising Star, and interment made in the cemetery at Blake.

Pallbearers were Horace Jones, Othel Arnold, S. L. Williams, Otto Leatherwood, George Densman and Guy Grady.

Wylie, Rising Star Play to Scoreless Tie Last Friday

WYLIE, Oct. 24.—Two big muddy goose eggs were the result of the District 7-A tilt here Friday night between Wylie's Bulldogs and the Wildcats from Rising Star.

The two teams, which share the cellar in conference games, played before a small crowd in a misting rain.

Wylie came closest to scoring. In the first quarter, Elton Ray Long and Perry Dale Elliott moved the ball inside Rising Star's 15-yard line. That was the nearest either team got to scoring.

The Wildcats never got inside Wylie's 35-yard line at any time in the game. Wylie tallied 13 first downs to Rising Star's 8. Each team completed one pass, Wylie for 10 yards and Rising Star for 15. Wylie tried 10 passes and the Wildcats attempted five.

Comanche to Be Scene of Murder Trial Of Sheriff Billingsley of Big Lake; Charged with Careless Driving on 67

COMANCHE, Oct. 26.—Trial of Reagan County Sheriff A. W. Billingsley of Big Lake on a charge of murder without malice in connection with a traffic accident last November is scheduled Wednesday in 52nd District Court here.

The case will be heard by Judge R. B. Cross.

Billingsley, 65, is charged in connection with the death of Barney R. Pinson, 59, Proctor farmer, in a car-truck collision Nov. 14, 1952, 12 miles northeast of Comanche on U. S. Highway 67.

County Attorney Wynn Ferrell said an indictment returned here Oct. 14 alleges that Billingsley was driving while intoxicated when his automobile collided with Pinson's truck. Mrs. Pinson, Billingsley and a passenger in Billingsley's car, B. B. Kelly of Big Lake, were injured in the accident.

Billingsley is free on \$2,500 bond.

The original complaint, which charged Billingsley with negligent homicide, was filed in county court here by State Highway Patrolman Bill Robertson.

Trial of Billingsley on the negligent homicide charge has been postponed a number of times because of illness of the defendant.

Real Cattlemen Do Not Favor Price Support Says Ezra

WASHINGTON, Oct. 27. (Spl.) Secretary of Agriculture Benson capped a two-day demonstration of cattle growers clamoring for price props by asserting today the nation's livestock industry is "overwhelmingly opposed" to rigid supports.

Benson told newsmen he based the statement on a stack of letters and telegrams expressing opposition to price supports, which were urged by a "cattlemen's caravan" sponsored by the National Farmers Union.

The union's general counsel is Charles F. Brannan, who was secretary of agriculture under President Truman.

L. V. HUGHES SAYS PECAN CROP BEST IN YEARS

Mr. L. V. Hughes, who a few miles west of Rising Star says he has best pecan crop since 1950. In today's issue of the Record he is looking for folks to help gather the crop. Mr. Hughes pays one fourth of the cost for harvesting. The nuts are the paper shell and bring a ready market.

According to information at the Record office, pecans are the best in several years in this area.

Rains Cut Down Peanut Weighing To Half Million

Heavy rains last week end cut down peanut weighing in the Rising Star area to 640,500 pounds with the crop just a little less than one third gathered said Jim Bucy, well known scales man who has been at the business for many years.

According to Bucy, in 1949 he weighed \$1 million dollars worth of peanuts in one month — that was a fine month he said. The nuts went to Brownwood and Abilene and many were stored in Rising Star.

The peanut crop this year is about one third gathered. Many of the late nuts are still in the field and some of the early crop is still to be harvested.

The grades seem to be getting better said Bucy and with an even break the peanut farmers have many more nuts to bring in before the season ends.

No turkeys were reported this week. The grand total for three weeks is 2,107,065 pounds.

May Boys and Girls Win at 4-H Work in State Competition

BROWNWOOD, October 24.—The state 4-H organization headquarters at College Station announced today that two Brown County girls have won first places in competition with 4-H club members from throughout Texas.

It had been previously announced that four boys from this county won first places in the state competition. This means that Brown County produced six first-place winners in state 4-H club work. Boys winning first in the state were Murray Milner Jr., Bobby Nichols, Randall Grooms and Nathan Allen.

County Agent Joe Rothe said he did not remember any other county which has produced this many state winners in any one year, which means that Brown County may have established a state record for top 4-H club work.

Girls who won in the state meet were Marva Chambers, daughter of Mr. and Mrs. H. M. Chambers of Rt. 1, Owens, and Martha Ann Branum, daughter of Mr. and Mrs. C. B. Brannum, Rt. 4, Brownwood.

Marva is the state winner in the 4-H home improvement awards program. Floyd Lynch, state 4-H club leader for the Texas Agricultural Extension Service, said she will receive an all-expense educational trip from the donor, Sears-Roebuck Foundation of Chicago, to the 32nd National 4-H Club Congress at Chicago, Nov. 29-Dec. 3.

Martha is winner in the Texas 4-H beautification of home grounds awards program and will receive a 17-jewel wrist watch from the donor, Mrs. Charles R. Walgreen of Chicago. Her record will be entered in all-expense trips to the National national competition for eight 4-H Club Congress.

Both girls are students of May High School.

HONORABLE EXCEPTION.

One reason for the incredible cost of government is that too many of us want economy for the other fellow only — and never in matters that affect us.

But there are honorable exceptions, and they deserve recognition. A short time ago the Forest Service merged its Hailey, Idaho, headquarters with that of Twin Falls in order to save \$15,000 a year. It might have been expected that Hailey people would howl in protest. But that wasn't the case. The Hailey Times said: "Naturally we don't like to lose our Forest Service headquarters . . . but the fantastic cost of government can't be lowered without some sacrifices. Perhaps a saving of \$15,000 annually looks less than a pinhead; but five such mergers made recently adds up to \$75,000 annually . . . Multiply such savings over and over again through the hundreds of branches of federal government and you begin to see some hope for a cut in taxes."

We need more — a whole lot more — of that spirit.

VETERANS ARE TAXPAYERS TOO.

How far the government should go in providing free medical treatment for veterans whose disabilities are not connected with their military service is a difficult and delicate problem.

It is unanimously agreed that every possible aid should be given the veteran whose injury or illness is service-connected. That is a basic duty and responsibility of government, and it is a privilege for us to pay taxes to make it possible. But as matters stand now, the government hospitals are largely occupied with caring for those whose troubles have no military origin.

It can be argued that this is owed to all who served their country in war. Yet there is no way to equitably repay those who made sacrifices in widely varying degree while in uniform. A parallel can be drawn of the man who saves another from drowning. How can such a debt be canceled?

In the pure practical sphere, the veterans are taxpayers too. There are now more than 20,000,000 men and women who served in the military forces and the number swiftly increases. If all of them are to be entitled to free medical service, the bill will be staggering — and the veterans, no less than others, will have to pay it.

Finally, the danger in a medical program such as this is that it would become so huge and powerful as to be the dominant factor in the whole medical system of the nation. And then the way to socialized or politically-bossed medicine would be wide open.

These are far-reaching matters, that must not be forgotten in the debate over the veteran problem.

CATTLE MARKET STEADIES.

Charles Lucey, a Scripps-Howard staff writer, recently sent out a dispatch on the changing cattle situation. During a recent period, he wrote, "They've poured the biggest flood of cattle in years into the Chicago stockyards . . . and yet a market that had been run ragged only a couple of months ago took it without buckling."

"Farmers who took a terrible beating in mid-summer's heat and drought, and feeders of fat cattle who got squeezed between high corn prices and low cattle prices are perked up and beginning to show confidence again . . ."

"Predicting markets ahead is always risky business, but most people around the stockyards say they think prices should hold fairly firm."

Beef prices in general have improved moderately from the lows reached this summer. But they are still much below the highs of a year ago, and the consumer gets substantially more for his money when he goes to the butcher shop. Moreover, it is definitely in the long-term interest of the consumer no less than the producer that the value of beef return to and stay at a reasonable level, which will compensate for today's cost of raising the animals and return some kind of a profit. This is a meat-eating country, and a steady increase in the meat supply is essential if we are to maintain our living standards in this regard. And it's obvious that instead of increased supply we'd soon have a sharp decrease if it became apparent that the meat business, with all its work and risks and investment, was a losing enterprise.

So the recent news from the meat front is on the good side. May it continue that way.

Frank Gray, who is attending Mr. and Mrs. Fred Tunnel Texas Tech, was here for a week were over from Cross Plains end visit with his parents, Mr. Sunday for a visit with friends and Mrs. Raymond Gray. and relatives here.

O. E. S. PROGRAM IN COOPERATION WITH MASTER AND WARDEN'S ASS'N.

By Elizabeth Robertson, Narrator

Since this is the autumn season and drawing near the end of the year we thought you might enjoy reminiscing. So let's go back to Jan., the time when we

all make our resolutions. Of course all of you made some and kept them. We would like to give to you a citizen's creed written by Herbert M. Harrison many years ago. This creed is just as appropriate as the day it was written. This creed fits in with New Year's resolutions, but whether it be Jan. 1, or Dec. 1, or Oct. 20, we will be better citizens one and all, if we will adopt this as our personal creed.

Given by Mrs. Marie Stambaugh
Of course with the New Year we have the winter season bringing with it our Texas blue norths often accompanied by frost, sleet and snow which transforms our sleeping trees and other plants into a serenely beautiful wonderland. This will be revealed in song by **Eastern Star Chorus.**
Our Pianist is Miss Glendene Philley.

Next comes spring. The world awakes and bursts forth with flowers and beauty. Dreamy but invigorating beauty. The love songs of the birds fill the air and romance seems to stir the whole earth. It is now that the young man's fancy turns to love. Wedding bells begin to ring—bells such as those described in the "Bells of St. Mary"

as sung by Mrs. J. R. Bucy and Mrs. Olice B. Jones.

As we remarked before the young man's fancy turns to love but the young boy's mind runs along channels that are entirely different.

He is very eager to get to his favorite outdoor spot but first must get school closed properly. This often calls for a musical selection such as shall hear now as Charles Steel sings "Old Man River."

The winter and spring season have come and gone and now the great outdoors with its swimming pools, picnics, golf, baseball and vacation time beckons to all. Summer is also the time when singing conventions reach their peak and on those occasions we hear such song as "I Want to Go Where Jesus Goes." — Mr. Everett Parker, Mr. and Mrs. F. J. Maynard, Jess Perry.

In the days gone by when we had old fashioned camp meetings we were spiritually uplifted with the songs of abounding grace. Even though we don't have camp meetings any more summer is still the time for re-visiting our Christian life and many of us drift back in memory to the quiet little church where we found peace with our maker.

"Church in Wildwood"—Quartet as above.

Summer gone—autumn has arrived and with it school, football, parades, cheering boys and girls and pep rallies take the day.

High School Girls.

As we move through the autumn days we have our season of Thanksgiving, a time of praise and thanks for all good things which includes family get together complete with turkey and pumpkin pie. This is a prologue to our greatest holiday season, Christmas, when many of our wishes and dreams come true, "I'm Dreaming of a White Christmas"—Easter Star Chorus.

Well, we have in our memories touched the high spots of some year gone by. It might have been 1953 or 49 or some other year. Whatever the year, we hope you have had some happy as well as some serious moments. Where else in the world could we spend years such as these? Are we lucky to have been born Americans? In conclusion will you stand and join in the singing with "God Bless America."

A light luncheon was served to 100 Masons and their wives at the close of the meeting.

Mr. and Mrs. Claud Harris spent the week end with their son, Jesse Joe and family in Fort Worth and attended the Ringling Bros. Circus.

WOMEN ENTER ALL FIELDS OF WORK AND MAKE GOOD

Down thru the ages men have grudgingly admitted women no part of their activities. But the modern miss or Mrs. rush in despite the ominous growlings of the misters and make good.

Mrs. Lester (Oleta) Griffith has taken over the market department in E. F. Agnew and Sons, grocery store, replacing George Campbell.

Mr. Campbell resigned as he has accepted a place at Canadian where Mrs. Campbell is county H. D. agent.

Mrs. Griffith takes the name, Butch, with a grin and perches her white butcher's cap at a "sassy" angle. She also places a huge bouquet of flowers on the center top of the meat case.

But she backs up all these ideas with a capability that can't be disputed. Of course the heavy lifting is done by the misters but Mrs. Griffith carries on from there.

Mrs. Griffith, Oleta to all her hosts of friends, is well known far and wide. She was with the Elite Cafe for four years and three months, where her friendly smile and pleasing personality gained many friends.

These friends who laugh with her, not at her, and call her "Butch" are in reality admiring her spunk and wishing her success.

THE HENRY CARTERS HAVE CALIF. VISITORS

Mr. and Mrs. Henry Carter are really strutting their pride this week. A young grandson, Ronald Carter of Ukiah, Calif. has come back to stay with them and go to school here. He didn't like Calif. His father, Lynn Carter, accompanied him back to his grandparents' home. His mother and sister, Barbara Nell, remained at home.

To get your money's worth in a suit or coat, buy a garment that will keep its looks and provide warmth and wearability for more than one season.

There is still time to plant a winter cover crop. If moisture conditions become favorable, plant immediately. Inoculate the seed of legumes and use plenty of fertilizer if in an area of the state where fertilizers can be used profitably.

DO YOU THINK?

PLEASANT HILL H. D. CLUB

Mrs. Cecil Bostick, Reporter

The Pleasant Hill Home Demonstration Club met Oct. 22nd in the home of Mrs. A. C. Pierce with our County home demonstration agent present.

Roll call was answered by "How I Clean and Care for Paint Brushes."

Council report was given by the president.

Our club is happy to secure the permission of Mr. Albert Reed to use one of his buildings for a club house. Work will begin at once to get the building in condition for use.

After the business session the program was turned over to our agent, Mrs. Crow for a very helpful and interesting study of "A Background for the Living Room," stressing three main points, location, natural light and size.

Refreshments of Ritz cracker sandwiches, devil's food cake and grape punch was served by the hostess, Mrs. Pierce, to Mmes. Bernard Campbell, Roy Tucker, Marshal Berry, Lionel Hale, Carl Stroebel, Otus Morton, Cecil Bostick, Weldon Baker, Ola Boles, Herman Schaefer, Roson, the guest, Mrs. Crow and three children.

The next meeting will be in the home of Mrs. Weldon Baker.

NORTH STAR H. D. CLUB

Mrs. J. C. Hudson, Reporter

North Star H. D. Club met on the afternoon of Oct. 23 with 14 members and two visitors present.

Mrs. York Eberhart reported on her attendance at Council, which occurred in Eastland, on the 14th inst.

Mrs. Neil Hamm, of the Union Center community, was voted into the club.

Mrs. Mildred Crow, County Agent, gave a very informative demonstration, entitled "A Background for the Living Room," which began with the announcement "that redecoration is about 50% of personal taste."

Three other main factors were discussed, i. e. (1) Where is the living room located? (2) How much natural light is there in the room? (3) How large is the room?

North and east exposures require warm colors, while south and west exposures call for cool colors.

Used in the demonstration was a box, similar to a doll's house, which was wired for electricity, and divided into two rooms, one room papered in light wallpaper, the other in a black background wallpaper, to illustrate that, according to the light metre, the light papered room was 7% lighter, than the dark papered room, when a 100-watt light was turned on.

Other helpful hints mentioned were: (1) Large designs in a small room make a room appear smaller. (2) The modern trend is to paint the woodwork some shade which appears in the wallpaper or finish. (3) Gloss finishes make imperfections show up. (4) Use the non-yellowing type of white enamel.

For linoleum—Use floor enamel for refinishing. 1st coat half turpentine, half enamel. Second coat pure enamel. (A thorough soap and water scrubbing to remove all dirt and grease is "a nut" before refinishing, using turpentine to remove wax.)

Penetrating floor seal for wood floors is good.

There are two types of waxes—use the water base type for linoleum, the petroleum type base on wood floors.

Following Mrs. Crow's demonstration the club was surprised by a visit from a Halloween spook, which was very amusingly impersonated by Mrs. Rufus Pierce.

The hostesses for the afternoon, Mmes. Merrell and Pierce, served delicious refreshments consisting of orange punch and wacky cake, to the following members: Mmes. J. T. Alford, Lee Burkhead, Dennis Clark, York Eberhart, and daughter Hope, Bruce Eberhart, Claud Harris, Beyrl Heath, J. C. Hudson, Henry Gregg, Ada Williams, M. M. Sheffield, Henry Scott, and two visitors, Mmes. Mildred Crow and Neil Hamm.

FEDERATION DAY-VISITORS DAY AT MAY STUDY CLUB

The Women's Study Club of May met Wed. afternoon in the high school auditorium with Mrs. A. T. Michaels and Mrs. Marion Wiggins hostesses.

The Federation Day program stressed parliamentary procedure. A skit "On the Parliamentary Beam" emphasizing common mistakes at many club meetings was given by Mmes. J. B. Shannon, B. H. Bettis, Earl McMurry, B. U. Ross, H. V. Glenn, A. M. Bowden, Roy Armstrong and Miss Elizabeth Robertson. Immediately following this skit boys from the May Chapter of Future Farmers of America demonstrated correct parliamentary procedure. This group, under the direction of Roy Armstrong, teacher of Vocational Agriculture in May high school included Benny Cook, Danny Chambers, Skippy Moore, Donald Westerman, Carl McCary, A. J. Dickerson, Billy Medders and Dwain Wilkerson.

During the business session presided over by Mrs. M. Wiggins, Mrs. B. U. Ross was appointed delegate to the State Convention to be in Austin in November. Announcements were made of the nine radio programs to be given by Mrs. J. B. Shannon, chairman of Public Education for Sixth District. These programs will be heard from KBWD, Brownwood at 10 a. m. the Saturday nearest the 20th of each month and from KRBC, Abilene at 1:15 p. m. the following Monday.

The hostesses served refreshments to those named above, following members: Mmes. O. C. Allen, Elvie Shults, Kathryn Ryle, Arthur McMurry, Miss Mollie Armstrong and guests, Mmes. John Shults, Bert Buzbee, Percy Wiggins, Ben Cook and Jess Collins.

AMITY H. D. CLUB REPORT

Mrs. Guy Taylor, Reporter

Regardless of how many or how few club members are present at a meeting, we always have an enjoyable and profitable one and such was the Oct. 20th meeting with Mrs. John Vermillion, hostess. Due to fall work in the rural areas a number of members including club officer, were absent, but five members and the following visitors, Mmes. Dan Hopper, Ethel Parker, and Mary Lois White carried out the program. The new vice-president Mrs. Oscar White was in charge. "Near the Cross" was sung and motto, pledge and prayer given.

Mrs. Fox called the roll, read the minutes and gave the treasurers report. Mrs. Taylor gave council report. She and Mrs. Fox attended this month's council meeting, substituting for the president and council delegate, who were unable to attend.

Recreational features were discussed for the program and also plans for the remainder of the year.

Club gift drawing came next. Mrs. Fox, the donor and Mrs. Vermillion, the winner of two large knit dish cloths. After the meeting was adjourned the hostess, Mrs. Vermillion, assisted by her small daughter, Charlene and Mrs. Buck Collins served plates of refreshments which were very attractive and delicious. Home made mince-meat pie topped with an appetizing combination of roasted nuts and small cereals. Halloween napkins were used and the floral arrangements throughout the house were very effective for the fall season, wild flowers, red berries and autumn leaves.

Next meeting Nov. 3 with Mrs. Hallie Hill in a "member meeting" in a parliamentary procedure program conducted by Mrs. Baggett. Let all members study the rules and be present to discuss this important subject.

May Tigers Roar Past Blanket in Game Friday Nite

MAY, Oct. 24.—May and Blanket, a couple of 14-B Tigers went together here Friday night and when all the scratching and clawing was over, the team with the shortest name was on the longest end of a 19-7 score.

The victory was May's second in conference play and it kept the Tigers on even terms with Melvin, who also sports two wins and no defeats.

May scored its first touchdown in the opening period when Bo Allen took a pitchout from Quarterback Buddy Nieman and raced 22 yards to climax a 40-yard drive. Nieman booted the extra point, and for a few seconds the hometowners had themselves a 7-0 cushion.

Blanket, enraged over such goings-on, took the kickoff and ran it back to the May 12. A brilliant piece of running by J. Hill, who later swept four more yards to paydirt to make it 7-7 after Fullback Crawford added the extra point.

May forged ahead in the second quarter, 13-7, and put the final touchdown in the bag two minutes deep in the fourth period.

Dean Key took a Blanket punt and chased it back 85 yards for one, and then rambled 37 more on a pitchout from Nieman.

The Tigers of May were on the Blanket six when the game ended. May led in first downs, 10-4.

Buell Harms, Jackie Brown, Charles Mullis and O. D. Snodgrass were outstanding linemen for May. Kenneth Eoff and Jimmy Mitchell shared honors in the backfield along with Nieman, Allen and Key.

May Tigers have an open date on Friday, October 30. The Tigers play hosts to Richland Springs on next week, Nov. 6.

Glen McCarthy to Drill for Oil in South America

Ten million shares of Glenn McCarthy, Inc. common stock were placed on sale to the public this week, it was announced by the underwriters, B. V. Christie & Company of Houston, following clearance by the Securities and Exchange Commission and the Texas Secretary of State.

The stock is being offered at \$2.00 per share. Proceeds of the \$20,000,000 offering will be used to finance the future oil operations of Glenn McCarthy through a company that will be personally directed by him.

Bolivia First. While the corporation will carry on a general oil business, including the exploration and search for oil and gas, as well as the acquisition, development, and operation of oil, gas and other mineral properties, both in the United States and abroad, the firm's most immediate interest is its exclusive oil concession from the Republic of Bolivia.

A history-making, 35 year lease with the Government of Bolivia gives Glenn McCarthy, Inc. the right to explore and develop oil properties on 970,000 acres of wildcat land in South-eastern province of Gran Chocoma.

The granting of this lease marks the willingness of the Bolivian government to accept foreign capital and technical assistance in developing that country's substantial petroleum wealth. It will promote a more balanced and diversified economy for Bolivia and, at the same time, may help the Western Hemisphere become more self sufficient in petroleum and, hence, increase hemispheric security.

A NICE STRANGER

"I'm a nice stranger. I never complain. I never create a scene. When I go to church I never object if the usher leads me down the long aisle to the front seat, while the members of the church crowd the back seats and fix their stares on my embarrassed match. No . . . I just take a seat as a gentleman. I'm a nice visitor.

"I never growl aloud when I have to push by and walk over the feet of selfish members who hog the aisle seats and couldn't move out of their favorite places if it meant the salvation of a soul! Oh, no . . . I just sit meekly. I'm the ideal church stranger!

"When I go to church occasionally I am seated in a sort of public nursery surrounded by crying babies and prowling children who walk on my clothes, sit on my hat, and make so much noise and create so much commotion that I can neither see nor hear the minister. I was once a child myself. I'm a nice church stranger.

"I never reprimand young people who sit behind me chewing gum, talking, whispering and making love. Oh, no. I'm too polite for that.

"At the close of the service as I walk toward the door I never create a scene if nobody speaks to me nor shakes my hand. No, they gather in little cliques and I don't bother them. I'm a nice church visitor.

"And I'll tell you what else

Lots More to Building Good Pasture Than Just Putting Seed in the Ground

COLLEGE STATION, October 20.—There is a lot more to growing a good small grain pasture for fall and winter grazing than putting seed into the ground. M. K. Thornton, extension agricultural chemist, says plenty of the right kind of fertilizer and early planting will materially increase a pasture's value.

Oats, rye, barley and wheat contain scarce feed nutrients not found in many other winter rations, says Thornton. These grains contain over 20 percent protein at their peak grazing stage. Rye grass and rescue also supply efficient winter grazing in areas where adapted.

Early seeded small grains offer the best possibilities for succulent fall grazing. The use of fertilizers improve the chances, says Thornton. On East Texas' sandy soils where legumes have not been turned under, small grains should be fertilized with 300 pounds of 5-10-5 or 4-12-4 per acre at planting time. To keep the pasture in top production, Thornton adds, top dress late in the fall with 20 to 40 pounds of nitrogen to the acre and a like application next spring. Sixty-five to 135 pounds of ammonium nitrate, 130 to 250 pounds of sodium nitrate or 100 to 200 pounds of ammonium sulphate will supply the nitrogen.

An application of 30 to 40 pounds of nitrogen per acre before or at the time of seeding in the Blacklands of North and Central Texas and the heavier soils of the West Cross Timbers areas will increase the pasture's value. On sandy and sandy loam soils of the same area, Thornton suggests 200 pounds of 5-10-5 at seeding time and a top dressing of 20 to 40 pounds of nitrogen per acre next spring.

I am; I'M the stranger who NEVER came back. I can tell when they have no interest in the spiritual welfare of their visitors." —Contributed.

Soil tests accurately determine the fertilizer needs of a particular block of land. The testing of soil is a wise practice regardless of the season, but, says Thornton, it's extremely beneficial as the season of fall and winter pastures approaches. County agricultural agents have additional information on the methods of obtaining a soil test.

Weekly Sunday School Lesson

FOR NOVEMBER 1, 1953

By D. R. PHILLEY, Pastor
First Baptist Church, Rising Star

"WHAT IS A CHRISTIAN HOME?"

Read Gen. 1:27, 28; Deut. 6:4-9; Prov. 22:6; Matt. 19:3-9; Luke 10:38-42; Eph. 5:21-6:4; 2 Tim. 3:14-17 and Ps. 68:6.

Printed Lesson — Deut. 6:4-9; Eph. 5:21-6:4. Deut. 6:4 Hear, O Israel: The Lord our God is one Lord:

D. R. PHILLEY

5 And thou shalt love the Lord thy God with all thine heart, and with all thy soul, and with all thy might.

6 And these words, which I command thee this day, shall be in thine heart.

7 And thou shalt teach them diligently unto thy children, and shalt talk of them when thou sittest in thine house, and when thou risest up, and when thou liest down, and when thou goest by the post, and when thou comest to the gates.

Eph. 5:21 Submitting yourselves one to another in the fear of the Lord.

22 Wives, submit yourselves unto your own husbands, as unto the Lord.

23 For the husband is the head of the church, even as Christ is the head of the church; he is the saviour of the body.

24 Therefore as the church is subject unto Christ, so let the church be subject to you as to Christ, who is the head of the church, which is his body, which he himself saves with his word.

25 Husbands, love your wives, even as Christ loved the church and himself, that he might cleanse it with the washing of water by the word.

26 That he might present it to himself a glorious church, not having spot, or wrinkle, or any such thing; but that it should be holy and without blemish.

27 That he might present it to himself a glorious church, not having spot, or wrinkle, or any such thing; but that it should be holy and without blemish.

28 So ought men to love their wives as their own bodies. He that loveth his wife loveth himself.

29 For no man ever yet hated his own flesh; but nourisheth and cherisheth it, even as the Lord the church.

30 For we are members of his body, of his flesh, and of his bones.

31 For this cause shall a man leave his father and mother, and shall be joined unto his wife, and they two shall be one flesh.

32 This is a great mystery; but I speak concerning Christ and the church.

33 Nevertheless let every one of you as the church do, which she herself saves with her word.

6:1 Children, obey your parents in the Lord; for this is right.

2 Honour thy father and mother; which is the first commandment with promise;

3 That it may be well with thee, and thou mayest live long on earth.

4 And, ye fathers, provoke not your children to wrath; but bring them up in the nurture and admonition of the Lord.

8. In a Christian home the Word of God will be found not only on the desk or in a wall motto, but in the hearts of the people (vs. 6).

9. In a Christian home children will learn to know the Word of God from their parents (vss. 7-9).

10. In a Christian home the Word of God will be in control of the lives of those who live there (vss. 7-9).

11. In a Christian home there will be submission of one to the other by both husband and wife (Eph. 5:21).

12. In a Christian home the husband will be devoted to his wife (vss. 22-25).

13. In a Christian home the husband will pattern the love for his wife after the example of Christ's love for the church (vss. 25-28).

14. In a Christian home the husband will prefer his wife even above his own parents (vss. 28-33).

15. In a Christian home we should be able to get a little foretaste of heaven (vss. 21-33).

16. In a Christian home, parents will properly train their children, and children will willingly obey their parents (Eph. 6:1-4).

Dear friend, as you read these lines, please remember, "As goes the HOME, so goes the NATION". May God grant that we who know Christ in the forgiveness of Sin, try to make our Homes Christian homes. We can if we will, let Christ be the head of our HOME. Will you dedicate yours to Him today?

For a further study of this great lesson on the Christian Home, we invite you to attend Sunday School at First Baptist Church 9:45 A. M.

A "downeaster" is a New Englander, especially one from Maine.

17. What is to be the attitude of the wife toward the husband, and why? 18. What is to be the attitude of the husband toward the wife? 19. How did Christ love the church? 20. Why did Christ give Himself for the church? How ought men to love their wives? 21. How close is the unity between Christ and the church? 22. Concerning what mystery did Paul speak? 23. What is to be the particular relation of husband and wife and of wife and husband? 24. What is to be the attitude of the children toward their parents? 25. What special promise is given? 26. What is to be the attitude of fathers toward their children? 27. How are children to be reared?

This question, "What is a Christian Home?" is exceedingly pertinent today; and that for many reasons. They are telling us that the home, and particularly the Christian as it once was, is rapidly passing away. People no longer have homes; they have places where they eat and sleep, but their main interests are in different places. And

the ideal of what a Christian home should be has changed for the worse.

The answer to the question, "What is a Christian Home?" is found in the Word of God; just as an answer to all the deepest and most vital questions that face us, is found there. In it we are told of the beginning of the family life and the reason for it; in it we have also recorded many examples of what a Christian home should be; and in it also we have laws, precepts and principles laid down to guide us.

As we think of the Scripture lesson for today, and the question, "What is a Christian Home?" I would like to leave with you something to think about.

1. In a Christian home the parents will recognize the Lord as God and love Him with all their heart. (Deut. 6:4-5)

2. In a Christian home the Word of God will be found not only on the desk or in a wall motto, but in the hearts of the people (vs. 6).

3. In a Christian home children will learn to know the Word of God from their parents (vss. 7-9).

4. In a Christian home the Word of God will be in control of the lives of those who live there (vss. 7-9).

5. In a Christian home there will be submission of one to the other by both husband and wife (Eph. 5:21).

Hybrid Corn Program Complete

COLLEGE STATION—Texas developed corn hybrids, last year, despite unfavorable growing conditions in most sections of the state came through with good yields. The highest per acre corn yield reported in Texas for 1952 was made by Oscar Johnson of Freestone County. His yield was 137.5 bushels of corn an acre and Texas Hybrids 28 and 30 were used.

Texas, young and old, by participating in the 1953 Texas Hybrid Corn Production Program will get their shot at being named the "Texas Champion Grower of the year."

The association program, says E. A. Miller, extension agronomist, is demonstrating the productive ability of Texas Hybrid corns and how profits from corn growing can be increased through the use of good planting seed, legumes, fertilizers and cultural methods.

The state for contest purposes, has been divided into four areas and awards will be made by the sponsor to the five top growers in each with a special award—a plaque—going to the state winner.

All participants must enroll with their local county agricultural agent. A minimum of one acre must be planted to one of the following Texas corn hybrids: 18, 24, 26, 28, 30, 9W, 11W, or 15W, says Miller. Each participant, after harvest, must furnish the local county agent with a report which will give information needed for determining the winners. These reports are to be forwarded by the county agents to W. B. Coke, associate extension agronomist, by October 15. The area winners and state champion will be determined on the basis of the re-

ports submitted from the counties and the association will then make the presentation of the various awards.

Dairymen are advised to get ready for winter. An adequate supply of roughage, is not available on the farm, should be purchased and stored. Two tons of hay or one ton of hay and three of silage should be stored for each cow in the herd. Good hay racks and feed troughs will save feed. Plans for farm homes, other farm buildings and much farm equipment are available at the offices of local county extension agents.
