### **County Commissioners**

## **Ambulance Service Payment Discussed**

tal Board members W.H. Hoffmann Jr. and Emmett Lasater met with Eastland County Commissioners Monday to work on payment procedures for ambulance service.

They asked that speedy payment be made to the Hospital after billings are made for ambulance expenses.

ning the ambulance service we did so with the understanding it would be no financial burden on the hospital. We can't afford to take money from our operating account to pay expenses."

The Commissioners explained that meeting date of the County Court make it difficult at times to give speedy approval to bills. The Board members were advised to send these bills directly to the County Auditor instead of first to the County Commissioner.

Judge Scott Bailey said that since the last meeting Eastland Hospital Administrator Marcia Carr had sent him an itemized rate schedule for the Ambulance Service based at this Hospital.

Rates are being revised (up) as of Sept. 1. Basic rates will be: Emergency, \$165, Non-Emergency Transportation, \$125. Mileage will be \$2 per mile, with no mileage in Pct. 1. There will be additional charges for oxygen, CPR, dressings, cardiac monitor, etc.

The Commissioners indicated it might be some time "until we can turn it around," but that they felt the countysubsidized Ambulance Service had generally worked very well in Pcts. 1 and 4.

County Commissioners Norman Christian and L.T. Owen were still considering how to use their funds in Pct. 2 and 3 when ambulance subsidies are made available to them after Oct. 1.

In other business, Commissioner Billy Bacon reported that 12 inmates were currently in the jail, with "Two TDC and one Blue Warrant." The Jail was clean, he said, "As it always is."

The Commissioners discussed joining with Central Texas Opportunities Etc. in sponsoring a rural transportation service. This plan had previously been endorsed by the Commissioners. Current

Richard Robinson, Comm. of Pct. 1 said he would go for that on several previously discussed conditions: that the van be purchased locally, and that all the county be served not just a portion phased in a bit at a time.

agreed that all rural roads must be numbered (or named) and each home be given an address before the system will work. This is expected to cost around \$30,000, with the hope that some of this may be re-

District Attorney Emory Walton told of some of the complications in new state criminal justice law. He encouraged the Commissioners to attend a training Seminar Sept. 7 in Gatesville - meeting supposed to explain some of these new provisions.

Walton said that a new law that will permit convicted felons to serve prison time in the county jail will be among the topics discussed in Gatesville.

## Financing Of Proposed **Prison Site Discussed**

Eastland County Commissioners Monday discussed financing arrangements for purchase of land for a prison - then decided to put the matter on the agenda for the next time.

Several of the Commissioners said they wanted to have Dr. Charles Barnes (Project Manager) tell the next Court meeting how much money had been raised by the group promoting the prison before a final decision was made on County financing.

County Judge Scott Bailey opened the discussion by telling the Commissioners that the location of a prison in Eastland County was "very much a possibility."

A task force from the state prison system is expected to fly into Eastland County later this week and review the site and look over documents, the Judge said.

The site under discussion is an 1100 acre tract of land near Carbon which has been offered for sale at \$650 an

Judge Bailey asked if the Commissioners had any preference as to how the County would raise this money if the site was chosen.

He said the amount could run \$650,000 (or more), and mentioned that the money could probably be borrowed and paid back at around \$100,000 per year.

Commissioners Billy Ba-

con and Norman Christian replied that they thought the County Economic group was going to try to get some of the. money donated.

"The promised they could get some of that," Christian said.

Judge Bailey remarked that if the prison system representatives decided on Eastland County there would be only a short while to raise the money to purchase the land.

The Commissioners agreed in early July to support the financing of land for a prison

## Gordon Spot

### By DeMarquis Gordon, County Agent-

Now is the time to begin spraying pecan trees to control the pecan weevil according to County Extension Agent, De Gordon. The weevils emerge from the ground in late August and early September if soil moisture is available. The emerge most commonly following a good rain (1 to 2 inches) or where irrigation water is applied. Therefore, they may be emerging in yards where trees have been watered but not in dryland orchards where the soil is very dry. The agent said, he has observed weevils in yard trees during the past

one of the most devastating pests of pecans in some areas where chemical control is neglected.

the soil underneath the trees. The adult weevil is 3/8 inch long and is dark to medium snout it punctures a hole all the way throughout the pecan shell and deposits eggs in the pecan kernel. Creamy white grubs with reddish brown heads hatch and feed inside nuts during late summer and fall, completely consuming the kernel and ultimately attaining a length of about 3/5 inch. Upon reaching matur-

ity, grubs chew a hole about 1/8 inch in diameter in the shell, emerge from the nut and drop to the ground in the fall or winter. The grub spends one or two years in the ground before emerging as an adult weevil.

Weevils must be controlled in the adult stage, says Gor-Adult weevils emerge from don. Preferably, control is obtained before the adult

nuts. Once the eggs have been laid the grower has lost his chance to control that portion of the population until 2 or 3 years later.

the nut cluster, but it is necessary to examine many clusters. Another method of detecting the weevils is to jar limbs with a padded pole or

weevil has laid eggs in the hook and catching the weevils that fall from the tree on a light colored ground cloth spread underneath the limb.

Sevin is still the most effective insecticide to control Weevils may be seen on the adult weevils. Repeated sprayings may be necessary if weevils continue to emerge from the ground. The agent said that it is important to read and follow the label on the insecticide.

## The Next Best Thing -

...to a clear conscience and a good night's sleep is the feeling of security in owning your own home with a clear title. Peculiar to the real estate field, values are based on land and the improvements thereon, if any. But values on these are based on the title. The title then comes the most important item to be considered when purchase of real property is contemplated. So be careful to buy good title based on an abstract of title or a policy of title insurance.

CISCO

The Cisco Hospital Board will hold a Public Hearing on a Tax Revenue Proposal at 1 p.m., Tuesday, Sept. 5 at the Hilton Community Center. The subject of recent surveys concerning the tax rate hike will also be discussed. Surveys were sent out asking Ciscoans how they felt about the tax rate hike, with a deadline for the Survey of August 14. There will probably be some discussion on the handling of this matter, as well as the possible amount of taxes to be generated by a proposed raise. Currently Graham Memorial Hospital in Cisco is reported to need more funding in order to provide serv-

The city tax rate will stay the same for Cisco citizens this year, according to a preliminary budget prepared by the City Council and City Manager Mike Moore. A bonus for city employees will be a 3 percent cost of living payroll increase. Council members have agreed to cost cutting measures on the budget. One cut that was decided on is reducing residential trash collection to once a week instead of the present two times per week. This will begin Oct. 1.

City Manager Mike Moore has reported that the Drug Dog Program for Cisco has been slightly delayed. He says it is taking a little bit longer than expected to train a dog, but a Labador Retriever should be ready by Sept. 21. The Cisco Police Department will use the dog.

Jim Yates is the new Pastor at I-20 Church of Christ in Cisco. Jim and his wife, Jeanie, have one daughter, Lisa. They moved to Cisco from Rogers, Texas, where Yates was Pastor at the Church of Christ for eight years. Jim Yates says he wants to be involved in the Cisco Community, for he believes into putting something back into the place where he lives. His wife, Jeanie, is a 5th and 6th grade teacher at Carbon, and daughter Lisa is a Freshman at Abilene Christian University. The public is

The Sabanno Cemetery,

south of Cisco, is in need of work. A Sabanno Cemetery Association Board member reports that several Eastland County residents have family members who are buried at the Cemetery. He suggested that they go out and look over the grounds. For it is reported that several tombstone have been overturned and are broken. Families who have used the Cemetery are responsible for the upkeep of the property. To send in money to help with the upkeep, send a check to the Sabanno Cemetery Association, c/o Citizens National Bank, Cross Plains, Tex. 76443.

### Safe Driving Tips from Rhonda

What do you suppose is the no. 1 killer of children these days? Automobile collisions! Although the seat belt law has been enacted for several years now, people continue to drive around with children climbing, hanging out windows, and standing in the front seat. Children can't be held accountable for not wearing seat belts, so their parents should be responsible enough to take the time and initiative to see that their children are safe in a vehicle.

Volume 1989-Thirty Five: Sunday, 27 August 1989 •••1982 Publication of the University of Texas Press, Texas GRAVEYARDS: A CULTURAL LEGACY by Terry B. Jordan.

Although the title may lead a prospective reader to believe that this volume contains records concerning Texas graveyards, this is not the case. Instead, be researching graveyard customs of the varied cultures which have endured throughout the years, the author leads the reader through the cemeteries of Texas, their

pasts and presents. The book is broken into six chapters in which Mr. Jordan delves into the many different ways Texas has laid their dead to rest. In the chapter on the Southern Folk Cemetery in Texas, the custom of "scraping" is explained and also the use of shells to decorate the graves

DORIS F. COZART 442-3764

of loved ones. The chapter on Traditional Southern Grave Markers walks the reader through many of the quiet burial grounds in search of both common and unique grave markers. Mr. Jordan explores the mystic of the Hispanic culture influence as well as the German attention to detail in the chapters on The Mexican Graveyard in Texas and The Texas German Graveyard.

Even though there are no hard and fast facts offered to the genealogiost which would lead to an ancestor, the book is a pleasant stroll through many quaint and forgotten customs which are evident to anyone who has spent a quiet Sunday afternoon wandering the paths of any of Texas' graveyards. ## **Registration Continues** At Cisco Junior College

Cisco Junior College's Director of Admissions, Olin O. Odom, III, reminds area residents that registration is under way and will continue through September 7 at the Cisco campus and all offcampus centers. Though there will be no problem in registering as late as September 7, Mr. Odom urges those who wish to take college credit courses to register now in order to begin attending classes. Classes began on August 25 and a minimum amount of missed time is beneficial to the student.

Mr. Odom said, "Cisco Junior College offers a wide range of opportunities for expanding knowledge. We're anticipating a large enroll-

## Fishing Outdoors

By Terry Wilson

A New Lake On The Land "Joe Pool"

If any of you folks went boating over the weekend and were lonely, you didn't go to the new Joe Pool reservoir. Eocated in the metroplex (Grand Prairie) this mid sized impoundment has drawn more attention than even the now famous Lake Fork.

Joe Pool was built as a flood control project for the Trinity River Authority of Texas and filled the bill during our floods this year. The lake prior to the august 18, 1989 opening date had risen to a teen foot above normal pool level due to the excessive water down stream.

During my visit this past weekend the lake was reported to still be two feet above normal pool and falling. For those of you who have visited the new Ballinger lake, think of this on the scale of Brownwood and then you have Joe Pool. Lots of Hooded small timber black Eack, mesquite, oak cedar etc. Water color ranged from off eolored (1 foot less visibility) to clear (6 feet or less).

Due to the expected pressure due to the large populas, Texas Parks and Wildlife Officials placed a three fish 18 inch minimum on the black

Fishing for the blacks during my visit was fair, with a number of small fish coming on cranks and Rat-L-Traps. But the (18 inch) keepers and near keepers (15-17 inches) were taken on spinners and jigs. Most of these fish were taken in 12 to 15 feet of water near the dam area.

- This impoundment can and I feel will live up to its poten-

tial once the new wears off and lake levels stabilize. Opening weekend attendance was reported to be over 2,000 persons. And this past weekend's running total since the opening was near 5,500 persons according to a Trinity River employee.

The lake is serviced by two pay parks, Lynn Creek and Loyd Park. There is also one park which has no charge. The entry fee for Lynn and Loyd are \$2.00 per person per day, over 65 \$1.00, \$2.00 perday pervehicles and \$2.00 per day per boat.

Facility Fees: Campsites with utilities \$8.00 per day; campsites primitive \$3.00 per day; Group Picnic shelter \$25.00 per day; Group Campground \$100.00 per day; and Group Pavillion \$35.00 per day. All fees paid by park guests are used only for repayment of debts and for park operation and maintenance cost. The Parks were constructed with federal funds which these fees will repay.

At present the large black bass that was reported to us since the opening was 8 pounds 11 ounces. Current catfish and crappie seem to be biting better than the bass, but I'm sure after the rush dies down with close management this impoundment will become a true trophy

For more information on Joe Pool lake and facilities you may call (817) 467-2104. Lake Leon really turned out some lunkers this past week-

end. With a 8 pound 11 ounce lunker and 7.46 lunker. Both these fish were taken by Eastland County Bass Club

The crappie are also doing quiet well at Leon. With some nice 1/2 to 11/4 slabs being taken on minnows in the mid lake area from 12 feet of water.

A quick tip. After loading your boat from a fun day on the lake walk around and check your trailer light. Often we unloaded so quick that the bulbs are still hot and can burn out when gotten wet. It could save you a possible ticket after you start home and only takes a few minutes. This reminder was brought to my attention by one of our fine D.P.S. Troopers who works so hard to help keep us all safe on our highways.

Till next week remember where your fishing roots began, with someone who loves you as you love them.

## Immunizations Required By School And Day Care

As the new school year approaches, the Texas Department of Health (TDH) stresses that parents should check their children's immunization records to see

that they are up-to-date. State law requires that children entering Texas schools or day care must show proof of immunizations for six communicable di-ases--polio, tetanus, measles, rubella (German measles), mumps, and diphtheria. Whooping cough (pertussis) vaccine is required for all children younger than five entering day care or public school although TDH recommends that children through age six also receive the vaccine.

According to Wes Hodgson, in the TDH Immunization Division, until the recent highly publicized outbreaks of measles and whooping cough, some parents appeared to believe
