NEEDY DISABLED MAY NOW RECEIVE STATE AID

Until recently Texas made no provision for taking care of needy physically disabled persons, other than the needy blind. But now, following a bill passed by the Legislature in Session of the Fifty-fifth Legislature (H. B. 78) other disabled persons may obtain public welfare assistance.

Persons who are eligible for assistance under this act must first be found to be physically and mentally competent and qualified by a medical examination that he meets the standards of disability generally speaking, he must be disabled through some physical or mental impairment, loss, or a combination of the two.

Persons who meet the above requirements are considered to be physically and mentally disabled. The same holds true if a person is physically and mentally disabled and requires constant supervision or care by others, or if he is a likely subject for vocational rehabilitation.

Persons who can thus support themselves permanently are not eligible for Public Welfare assistance under the following circumstances:

- 1. If 18 years of age or older and less than 65 years of age.
 - 2. If a citizen of the United States with residence in Texas for five (5) years or more within the last nine (9) years preceding the date of his application for assistance, and has resided in the State of Texas continuously for one (1) year immediately preceding the application.
 - 3. If such applicant is not at the time of receiving assistance an inmate in a public institution (except as a patient in a medical institution) or is not a patient in an institution for tuberculosis or mental disease, or has been diagnosed as having tuberculosis or psychosis and is a not been diagnosed as having tuberculosis in a medical institution as a result thereof.
 - 4. If he is not receiving Old Age Assistance, Aid to the Blind, or Aid to Dependent Children.
 - 5. If he has not disposed of property, either personal or real, for the purpose of qualifying or increasing need for assistance.
- The State Department of Public Welfare determines whether or not a person is in need by the application of reasonable rules and regulations. The purpose of the act is to provide reasonable financial aid compatible with health and decency to those with-

out resources of their own for such purpose. The amount so determined cannot exceed the amount of Federal aid for that purpose.

HOME MAKERS Views and News

Sandra Kirkland Home Dem. Agent Nancy Weathers Asst. Home Dem. Agent

Good nutrition is so important during these weeks when so much sickness is in our communities. The meals you homemakers serve should be packed with proteins, minerals, and vitamins. Much of these foodstuffs is found in dairy products such as cheese, butter, and milk. Since time is an important element to many of you homemakers, most of the suggested recipes given for dairy food products are simple to prepare.

Whole meal sandwiches are quickies for lunch. Try this triple decker open-face. Toast one side of bread. Spread untoasted side with butter. Add a spoonful of baked beans, cover with a slice of cheddar cheese and top with a thin-sliced onion. Place the sandwich under the broiler until the cheese melts.

Vegetable dishes with Dairy Products—Start with butter—just butter, salt and pepper can do wonders for any vegetable. In combination with other seasonings, as savort, basil, or caraway, butter really comes into its own.

CHEESE IN CANDY—Add nutrition to your sweets this way:
1 3-oz. pkg. cream cheese
2 C sifted confectioners' sugar
2 1 oz. squares unsweetened chocolates, melted
¼ t. vanilla
Dash of salt
½ C. chopped pecans
Cream the cheese, blend sugar into it slowly, add chocolate, and

mix well. Add vanilla, salt, and pecans and mix. Press into a greased shallow pan. Place in refrigerator until firm, then cut into squares.

NUTRITION AND SNACKS DO MIX—Make sandwiches of your favorite date-nut bread and cream cheese.

FOR PARTY-TIME make a tangy egg nog. Beat 1 egg, blend in 2 C milk (whole or made from milk solids), 1 C orange juice, and 1 C ginger ale. Serves 4.

TURKEY HEADS NOVEMBER PLENTIFUL FOODS LIST. Other foods include pork, lamb, chickens, cranberries, fall fruits, grape products, Irish potatoes, pinto beans, peas, peanut butter, almonds, and filberts.

Auto, Truck Owners Urged to Get New Inspection Tabs

With only one-tenth of the motor vehicles in Texas for the year 1958, automobile and truck owners were urged today to obtain their new inspection stickers before the holiday season.

Col. Homer Garrison, Jr., Director of the Texas Department of Public Safety, called upon motorists to obtain their 1958 inspection stickers as soon as possible in order to alleviate the last minute rush on the 4,200 inspection stations in Texas.

Garrison said only about 450,000 of the four million registered vehicles in the state have been inspected and approved.

"While this number exceeds that for the same period last year," he said, "the present rate of inspection will not prevent inspection stations from being rushed again during the last few weeks of the inspection period ending April 15, 1958. Vehicle owners who complete their inspections before the holiday period will avoid the inconvenience of waiting at the inspection stations."

The state police director also said that early inspections will be of benefit to motorists who plan trips during the Thanksgiving to New Year's period by eliminating mechanical defects.

Douglas Eakin is making many improvements on the home which he purchased from Mrs. J. I. Foster and plans to move into it soon.

WILDCAT TALES—

(Continued from Page 3.)

The band will concentrate on more serious music and begin practicing for the marching contest that will be held at Winters, December 7. There are several other trips that the band would like to make this year.

The band did their share of pepping things up at the bonfire Thursday night. Friday night the band presented a "Latin American Saga", an imaginary trip to Latin America, which included a visit to a Spanish mission, a bullfight, and a lively "Mexican Hat Dance". Then, under a Spanish moon, we were put in a romantic mood by the lovely song, "Carmela". The show complete, the band then marched off the field playing the "Fight Song".

Several of the band members attended the All-District Band held at Cisco, November 16. Rising Star was well represented.

A parting note: Miss Tate has been defending women drivers all week. Wonder why?

Ladies Bible Class Studies Book of Ruth

The book of Ruth and the book of I Samuel were studied on Thursday afternoon, November 7. The book of Ruth gives a very important narrative of the time of the Judges of Israel. It is named for the heroine of the story. Ruth, the young Moabitish widow, demonstrated her fortitude, her love, and her faith in her decision to leave her homeland and accompany Naomi, her mother-in-law, on her return to Canaan. Chapter 1:16, 17 records her memorable words, which tell Naomi of the decision. "In the new land Ruth's fine qualities came to the notice of Boaz, a kinsman, of Bethlehem. Ruth became the wife of Boaz. Through it all we see the providence of God. Ruth became the great grandmother of David. Thus the Messianic Family began with Ruth, the alien maid. I and II Samuel are so named appreciated by Mrs. Montgomery. She extends thanks to all. She is Mrs. Warren Baileys' grandmother.

for the Hebrew prophet Samuel, the last of the judges of Israel. I Samuel sketches the life of both Samuel and Eli, the judges who preceded Samuel. In the study we see Samuel training in the service of God from early childhood, following Eli as judge, and finally leading the scattered children of Israel out of the degradation into which they had fallen, and molding them into a strong nation. The book is the record of the organization of the kingdom, which God permitted because of the insistence of the people. It gives the account of the rise, glory and fall of the first king, Saul. Chapters 1-12 reveal the leadership of Samuel as judge and prophet; 13-18, the administration of Saul; 16-31, the early life of David, beginning with his anointing, continuing with his loyal service under King Saul, and at last his being ruthlessly pursued by Saul. Throughout the history of David's early life of honor we see, indeed, "A man after God's own heart."

The Jackets' Finest

Kenneth Gray, above, has proved to be 235 pounds of dynamite in the Howard Payne College line. The 3-year letterman plays right tackle for the Yellow Jackets and is gunning for All-Lone Star Conference and American honors.

bles a big stalk cutter. Big blades on a 28,000-pound drum do the cutting.

"Bulldozing and chopping combined costs \$8 an acre. Either operation performed by itself is \$5 an acre, not including the cost of the seed.

"Lee says finding a grass "that will stay" on the deep, coarse-textured soils is presenting quite a problem.

"We've tried blue panic, but the stands start weakening pretty fast on our poorest soils and it may not stay there over a period of years," Lee says.

"The panic still serves a good purpose, however, regardless of how long it last, he adds.

"Goats graze the panic, Lee says, and allow the native grasses to strengthen.

"Lee says weeping lovegrass has been the best so far for the coarse-textured soils.

"We know it'll grow and do well, but we're still looking for a more palatable grass that will grow like it will," he says.

"Operators are still trying many new grasses in an effort to find the best one for the sandy brushland sites, Lee says.

"Some operators plan to turn the land back to cultivation after they get the brush down, he says.

"We're not sure that this is the thing to do, though," he says.

"After the time and intensive use that it'll take to get the land ready for cultivation, the organic matter will about be gone."

"On the other hand, some sites may not be adapted to rangeland plants, he says. Such places, he says, are areas where it is 36 to 48 inches to clay.

"We don't find any native grasses on such sites, and it may be that these places just aren't good for rangeland," Lee says. "I'll be learning a lot about this whole operation."

"Guyle Greynolds, three miles south of Rising Star, has planted 100 acres of his place in grasses in recent years. He's seeded more than that, but hasn't received a stand on all of it.

"Greynolds likes Blackwell switchgrass better than any of his other grasses. He also has King Ranch bluestem, sorghum alnum, Wilman lovegrass, blue panic and a bluestem mixture.

"Blackwell switchgrass may not be quite as high a producer as blue panic, but it is more palatable, Greynolds says.

"The board of supervisors of the Upper Leon Soil Conservation District is planning to contract all of Greynolds' Blackwell switchgrass this year for planting by district cooperators.

"Greynolds last year got 91 per cent pure live seed test of his Blackwell switchgrass. The supervisors this year hope to get enough seed from Greynolds to plant 200 acres of the grass."

HP Tackle R Good for Little All-America B

BROWNWOOD. (Sports) ball mentors at Howard Payne College make no bones about their best lineman. It's Kenneth Gray "the finest man he has ever coached," says Coach Curtis Davenport. "These coaches, each well-versed in the grid sport, don't think finer tackle can be found in Texas college, large or small, and, though the Jackets have had far from their best season in the win column, this Llano, Texas ace has played havoc with opponents' rushing averages this year. Kenneth isn't a one-man show, but it is impossible to overlook his terrific performances and leadership qualities. The speed, 235-pound tackle, with his weight evenly distributed over a 33" frame, is a senior co-captain for the Yellow Jackets.

Game films reveal some fantastic feats by the alert lineman. A three-year letterman for Howard Payne, Gray has accumulated 22 completely unassisted tackles in seven games. He has been the key tackler on 28 other occasions, but has had help bringing the runner down. Twenty-two times he has been the second man on the tackle, and a dozen other times was the third man to the scene. Though separately these figures seem irrelevant, a total of the tackles comes to almost 100 times the soft-spoken athlete has been a key factor in tackling.

Solid Choice. Gray, who plans to try pro ball after graduation next spring, is a solid choice for All-Lone Star Conference, as well as Little All-American honors.

His football career began 11 years ago at Cherokee, an obscure rural school near Llano. He lettered in both football and basketball as a freshman and sophomore, but a move to Llano just before his junior year in high school ruled him ineligible for high school sports that year. He came back during his senior year in high school to win championships in football and basketball at Llano High School. A full-back in high school, he was twice named to all-district teams. He was also selected to the all-district basketball team during his final year.

Kenneth enrolled at Howard Payne in the fall of 1953, where he lettered on the Yellow Jackets' Texas Conference championship football team his first year. During his sophomore campaign he was named to the mythical All-Texas Conference team.

A family man now, Gray is the father of two children—Sherry, 4; and Boyd, 1. He was married to the former Shirley Barber in May, 1952. Kenneth is the son of Mr. and Mrs. Lewis Gray of Cherokee. He is majoring in history and education.

Here's what the American Bankers Magazine, a publication which represents a traditionally conservative profession, has to say:

WILDCATS CLOSE SEASON—Continued from page 1.

tally scored by **Claud Beeler**, Buff second scoring quarter six minutes deep in the third quarter on a sneak.

The Cats had difficulty with penalties after **Pat Agnew** had returned the opening second half kickoff to the Rising Star 26. The backfield in motion assessment was overcome with **Elliott's 15-yard run** but a second 15-yard penalty put the Wildcats back to their ten. Even so **Scott** picked up 5 yards and eight yards, but not enough to offset the deficit, and **Callaway** punted well to the Cross Plains 44. The Buffs scored from that point.

Another fumble nullified a Wildcat drive that advanced the ball to the Cross Plains 30. With the aid of a 15-yard penalty, the Cats held the Cross Plains first stringers and forced a punt, **Rising Star** taking over on their 42. A lateral and pass attempt failed, **Callaway** punted to Cross Plains on the CP 20 and **Rising Star** recovered a fumble on the CP 32. Again the Cross Plains defense was too tight for the **Rising Star** running game and the ball went over. **Mack Elliott** intercepted a Buff pass to end another Cross Plains threat on the Rising Star 20. The Wildcats were still scrapping, putting up a good defense.

Elliott made 15 yards, **Scott** 5, **Elliott** 3 and then **Scott** made a first down on his 49-yard line. **Pat Agnew** attempting to pass,

could find no receiver open and lost 12 yards to a swarm of Buff forwards.

Hutchins returned **Callaway's** punt across the goal for a score that was nullified by a personal foul about the Rising Star 30-yard line. The Cats held and a field goal attempt by the Buffs was short.

In the statistics department, the Cats made 9 first downs to 17 for the Buffs, and made 124 yards on the ground to 285 for the Buffs. Cross Plains completed

three of 11 pass attempts for 88 yards and **Rising Star** one of 6 attempts for 14.

The **WMU** of the First Baptist Church observed its Mission Study day in the church with an all day meeting and covered lunch. Twenty-three women attended the meeting. The **Lottie Moon** Christmas offering will be given soon. **Mrs. F. J. Maynard** is program chairman and a good spirit of cooperation and interest prevailed.
