PUBLISHED EVERY THURSDAY

MR. AND MRS. F. D. HICKS, PUBLISHER
F. D. HICKS, EDITOR; MRS. F. D. HICKS, ASSOCIATE EDITOR

The publisher is not responsible for copy omissions, typographical errors, or any unintentional errors that may occur further than to correct it in the next issue. All advertising orders are accepted on this basis only.

Cards of Thanks, Resolutions of Respect, Obituaries, and any kind of church or lodge entertainments where an admission fee is charged will be charged for at our regular line rates.

Subscription rates — \$2.00 in radius of 50 miles. Over fifty miles \$3.00 year in advance.

HELP WHEN NEEDED.

At the request of the President, the Western railroads reduced their rates by 50 per cent on livestock feed moving from their territory to the Southwest drought area.

The cost to the railroads is upwards of \$800,000 a month — and this loss is being taken voluntarily at a time when railroad earnings in general are running at levels which many authorities regard as being much too low.

Some have questioned whether the owners of one business should be called upon to make so heavy a sacrifice on behalf of the owners of another. But, aside from that, this is a splendid example of one industry's willingness to help in an emergency, as a matter of enlightened self-interest, if nothing else.

Then here is the proposition of farmers and ranchers, who are said to be in the "well-to-do class", that are receiving drought assistance to take care of their base cattle stock. These charges have been made and published in the newspapers. They may or may not be true. The tax payers are the ones that pay for this drought assistance.

There is a move on foot by newspapers to get the names of every man that has applied and received aid that their names be published so the tax payers may know what is going on.

No man is unwilling to aid those who are in distress—whether it be in drought times, fires, floods and what not. An investigation is now underway to try and find out if those who are receiving aid are entitled to it or if they are taking advantage of a situation to get cheap feed at the expense of the people. Time will tell.

"SOIL IS SACRED."

Our American forebearers were people of the land. They lived close to the soil. They understood the miracles of nature and her inexorable laws. They held a deep religious faith that supported them in adversity to an extent beyond the comprehension of many living in the carbon-monoxide fumes of cities.

Those who drive through the countryside nowadays profaning the beauties of nature by tossing beer bottles and papers along the roadside and who think of necessities solely in terms of the nearest store counter or show window, would do well to spend a few minutes contemplating the words of Rev. Louis Deuster of Muenster, Texas: "In modern life, we too need a reasonable abundance of the good things of the earth in order to carry out a proper religious program for families and communities. That is why it is not saying too much to declare that 'soil is sacred.' The things we reap from the soil become our means of developing our churches, our schools, our community resources. Without these, our children could not be properly brought into the world, reared, and educated. Christianity would fail of a great part of its mission if material resources 'in due abundance' were lacking.

"We therefore please God when we take good care of the soil and its resources entrusted to us ..."

LOST: \$150,000,000.

How much does government-in-business cost you as a taxpayer? The following statement by Professor O. Glenn Saxon of Yale helps provide an answer:

"With federal projects now producing one-eighth of our total (electric) generating capacity, the probable tax revenues lost to the federal government last year exceeded \$90,000,000, and the loss to state and local governments approximated \$60,000,000."

SOIL NOTES

More than twenty farmers and ranchers in the Brown-Mills Soil Conservation District got in line recently to receive their biggest fish catch of the year. They were a part of the many cooperators of the local Soil Conservation District who have received game fish fingerlings from the Fish and Wildlife Service of the Department of the Interior.

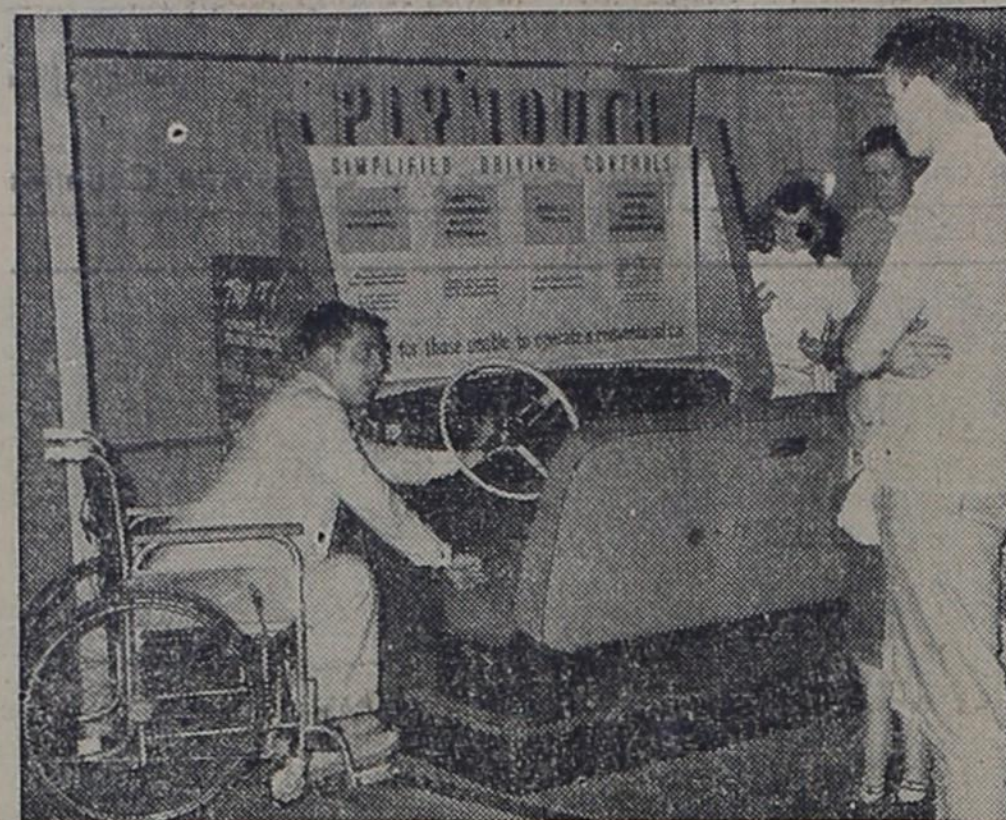

The fish are to be used to stock or restock properly fertilized and managed ponds and tanks in this District. These bass, catfish, and blue-gill will weigh from one-half to one pound in such a pond in 12 months.

Both commercial and organic fertilizers may be used successfully in farm pond treatment. They both tend to increase the amount and quality of small water

plants upon which fish thrive. However, in some ponds the water is so clear that undesirable plants invade and actually take over the pond. They are the plants that need bright sunlight for growth, and clear water offers an excellent habitat. Some of the more common undesirable pond plants are those referred to as pond mosses.

Commercial fertilizers can be used most effectively in their control. The fertilizer does this by clouding the water—thus reducing the amount of sunlight reaching these plants. Some pond owners prefer to start the fertilizing program in early spring and complete before July 1. Others prefer light applications at four to six-week intervals throughout the year. However, heavy applications should be avoided during the months of July and August. Through this

DRIVING MADE EASY FOR HANDICAPPED.

Meet a star sales engineer with Chrysler Corporation's "New Worlds in Motion" styling and engineering show. He is R. F. Fournier of Omaha, Nebraska, who was struck down by polio in 1952. A year later he took a daily four-hour turn as a demonstrator explaining to large audiences how Plymouth's simplified driving controls for handicapped people actually operate. The Plymouth device is available at all Chrysler, Dodge, De Soto and Plymouth dealerships. It is easily installed and enables handicapped persons to drive safely with manual controls. Fournier joined the show when it played Omaha recently. The temporary job marked a big step forward in his rehabilitation, while the driving kit he demonstrated holds hope for many.

MRS. GEO. CAMPBELL COUNTY H. D. AGENT HEMPHILL COUNTY

Mrs. Geo. Campbell, who was Home Economics teacher here for two years, is now county H. D. agent for Hemphill county.

Mrs. Campbell is now located at Canadian where she has her office. Mrs. Campbell writes proper management plan, it is not unusual for one acre of water to yield 900 pounds of fish a year. That means a lot of good fishing and a lot of good eating.

Receiving the fish were: Walter J. Cadenhead, Silas Byrd, Mrs. E. J. Boenicke, Vernon Carr, Jr., Ira Conway, Rex Mahan, Murl Sewalt, L. D. Wells, Larry Power, S. Y. Rutledge, Raymond Caruth, James H. Cox, Perry Day, Joe Granad, L. E. Horner, Herman Jones, H. M. Stone, Homer T. Melton, L. D. Sanderson, John W. Frazier, Louis Tongate, W. I. Matthews, Hollis Rodgers, and W. R. Reynolds.

These farmers and ranchers realize that fish and wildlife management is an important phase of soil conservation—"The use of each acre of agricultural land in accordance with its needs and protection and improvement." The facilities and services of your local Soil Conservation District are available to you at all times. If you need assistance with any soil or water conservation problem, don't hesitate to request its aid. You will find Brown-Mills Soil Conservation District offices assisted by the Soil Conservation Service at the following locations: Brownwood—third floor of the Courthouse, Rising Star—north side of town on the highway, and Goldthwaite—second floor of the Courthouse.

A 4-H Club Conservation Field Day will be held on Friday, August 28, at Lake Cisco, announced County Agent J. M. Cooper and his assistant Bob Williams. The field day will begin at 10:00 and will end with a swim in the pool at 3:15 p. m.

Mr. E. E. McAllister, with the Soil Conservation Service in Eastland, and other Soil Conservation officials will appear on the program and will be in charge of the soil conservation demonstrations and grass identification. There will be a grass identification contest and appropriate prizes will be awarded to the high scorers.

Officials of the State Game Department will appear on the program and discuss fish and wildlife conservation.

All 4-H boys and their dads are invited to come and bring a picnic lunch, says the agents. It is felt that such a field day will be of benefit to the boys and their dads, especially during the current drought.

Mr. and Mrs. M. B. Shook were Hico visitors last week where he visited in the home of a brother.

Mrs. Bill Roberts of Snyder was here over the week end visiting friends and relatives.

that she is well pleased with her new position.

Mr. and Mrs. Walter Smith have their daughter, Mrs. Paul Maxwell of Kermit for a two weeks visit.

A. A. Smith of Big Spring visited relatives here last week.

TEXAS FARM PRODUCTION AS AFFECTED BY WATER PROBLEM By LYNDON B. JOHNSON U. S. Senator

(Editor's Note: This is one of a series of articles based on a Bureau of Reclamation survey of the Texas water problem, made at the request of Senator Johnson.)

The Texas farm economy is vitally affected by the fact that our State now uses only 15 per cent of its potential water supply. The remaining 85 per cent runs off into the Gulf of Mexico and is lost to the State.

At present, some 3,700,000 acres of land are cultivated under irrigation in Texas. Production from this irrigated acreage accounts for 40 per cent of the gross Texas farm income from harvested land.

Ground Water Depletion. Two-thirds of the irrigated acreage is based upon ground water resources. These resources are being gradually depleted by irrigation water demands. Production from this land therefore cannot logically be considered a permanent part of the future agricultural economy of Texas.

The picture this presents is clear and unpleasant.

Texas faces an eventual substantial reduction in farm income unless ground water irrigation can be replaced with irrigation using surface waters. Present rates of Texas farm income can be maintained only if new irrigation, based on reliable surface water supplies, is brought about.

Can Be Done. The appraisal of the Texas water problem by the Bureau of Reclamation declares this can be accomplished. But, the report cautions, this replacement of ground water irrigation by surface water irrigation represents one of the primary water supply problems in Texas.

If the surface water supplies of Texas were fully utilized, we could bring another million acres of land under irrigation. At the same time, we could meet the vast water requirements of our expanding industry and the water needs of our growing municipalities.

Must Feed More People. The Nation needs the food and fibers produced on the land already under irrigation in Texas. With a continuing expansion of our economy, the Nation also will need the food and fibers that could be produced on the additional million acres of land susceptible to irrigation if full use were made of our State's potential water supplies. Where we feed four persons today, we must feed five by the

year 1975. Where we used 462,000,000 acres of farmland in 1950, we will require the production from 577,000,000 acres in 1975. The potential added production from Texas will be badly needed.

National Problem.

So the water problem in Texas, particularly as it affects our agricultural production, is not simply a State problem. It is a national problem as well.

It is a problem that must be solved by Federal-State cooperation.

The Bureau of Reclamation appraisal is firm in concluding that only a relatively small proportion of Texas' water requirements can be permanently supplied from ground water at a reasonable and predictable cost. It follows that most of the State's water supplies eventually must come from surface sources — from that 85 per cent of our potential water supply now allowed to drain off into the Gulf.

Texas and the Nation cannot afford to allow such a loss to continue.

Letters to Editor

Dear Editor,

You have probably received my check for the Record by now. I enjoy the home town paper very much but my name is Brown instead of Jones. It was so funny to us when we read your card addressed to M. T. Jones for we have been called Jones so many times. The name doesn't make much difference but we do want to get the paper.

Sincerely,
Mrs. M. T. Brown
Box 637
McCamey, Texas
Editor's Note — Sorry Mrs. Brown we got the name wrong—Jones is a good name and easy to spell. Try and attend the Fall Fair in October.

WORMS ARE TO WORK ON TEXAS CROPS

COLLEGE STATION, August 27, 1953.—Worms of many different kinds are literally doing their best to devour crops and pastures in many sections of the state. The fall army worms are still a threat and with favorable weather additional generations may be expected to appear.

In the peanut producing counties of the state, the corn earworm or cotton bollworm is the predominant insect now feeding on the peanut plants. The fall army worm is also causing some damage in the peanut fields. Neal Randolph, extension entomologist, recommends the use of either a dust or spray of DDT at the rate of one to one and a half pounds an acre or from two to three pounds of toxaphene an acre. A combination of DDT and toxaphene (2-1 mix) also gives control, he says.

He cautions against permitting dairy cattle to graze on pastures subject to drift from sprays and dusts where DDT or toxaphene was used and recommends the use of methoxychlor (DMDT) under such conditions. Apply it, he says, at the same rate as given for DDT.

DDT and combined DDT and toxaphene should not be applied to peanuts with 14 days of harvest. Toxaphene and methoxychlor (DMDT) sprays and dusts may be used safely to within 7 days of harvest.

Randolph advises producers to

Expectant Dads Must Notify Draft Board of Children

AUSTIN, August 19. — Any young married man registered with a draft board had better be on the alert about reporting children in his family or expected birth of a child.

On August 25th and thereafter, fathers are not deferrable because of their children. Draft boards have this new regulation following an executive order of President Eisenhower.

Those who now have children, and those who are expecting birth of a child, are deferrable; likewise, those who become fathers or expectant fathers before midnight, August 24th.

But these men who are fathers and expectant fathers before August 25th must act at once to advise their draft boards in writing. If they fail to perform this important duty required by draft regulation, they will be liable for the draft simply because they failed to advise their board of the facts.

In the case of expectant fathers, certificate from a licensed physician must be secured stating that the child has been conceived, probable date of delivery, and evidence upon which positive diagnosis of pregnancy is based.

Brigadier General Paul L. Wakefield, state draft director, urges all married men who come under the provisions of this new regulation to act at once if they wish to retain their deferred status.

Mrs. Singletary and Ruby returned home Sunday from a two weeks visit with her children in Holliday. They were accompanied home by her daughter, Mrs. J. R. Wheeler and son, Kenneth.

make close inspections of fields and pastures at two or three days intervals in order to detect the worms while still small. Young worms are more easily controlled and early action will prevent damage to the growing plants. Local county agents, says the entomologist, can give assistance in combatting the worm invasion.

Farm Bureau Meeting At Eastland Aug. 31

Mrs. Bill Tucker, Reporter

The Eastland County Farm Bureau annual meeting and barbecue will be held at the City Park in Eastland, Monday, 7:30 P. M., August 31, 1953.

A guest speaker is promised and a program of recreation will also be featured. Mrs. Claude Stubblefield of Carbon is recreation chairman.

Plans have been made for a possible 1,000 to enjoy the barbecue and good fellowship together.

LOCAL ITEMS

Mrs. Larance Goodman and her two boys, Ben and Dan of Kingsville spent Sunday night with her parents, Mr. and Mrs. A. N. Sneary en route to Carlsbad, leaving Rising Star Monday afternoon accompanied by her sister, Mrs. Mark Clark of Rising Star.

When your child is ready for college — will you be financially prepared? Let me show you an inexpensive way to meet that obligation.

POLIO PRECAUTIONS

Gamma Globulin—obtained from human blood—gives protection for a few weeks. However, it is in VERY SHORT SUPPLY.

A vaccine is not ready for 1953. But there is hope for the future.

Meanwhile—when polio is around—follow these PRECAUTIONS.

DON'T mix with new groups

DON'T get overtired

DON'T get chilled

BUT DO keep clean

RECOMMENDED BY
THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

True talent teaches three important things: First, the real necessity, second, the most useful and third, that which is ornamental.

Mr. and Mrs. Tom Baker spent Friday of last week in Mineral Wells on business and visiting with friends and old neighbors.

If You Live Here, There or Elsewhere —

... and own real estate in this county, we have a complete record of your title from the State deed down to the present time whether it be a vacant lot, the big house in town or a dude ranch in the hills. Exactly how much land do I own? Any surplus or minerals? Mortgaged? Any adverse claimants? Is my record title chain broken? All these questions and many more are answered when we build your abstract in our modern plant.

BAILEY PROMISES STORY ON WARD FOOTBALL TEAM
J. Weldon Bailey, head football coach of the ward school football team has promised the Record a story of his team to appear in the school paper to be published next week. Names of boy to play on the team will be included together with schedule and the like. The ward school team players will be eligible for the Wildcat team next year. Let's back them too.

LOCAL ITEMS

Mr. and Mrs. Roy Acker of Cross Plains were visitors in Rising Star the first of the week. They both have many friends here who are always glad to welcome them back home. Acker said that a few years ago he made a deal to work for three days with a grocery firm and when the time was counted he had been connected with the organization for nine years. Mrs. Acker is a teacher in the school system there.

Mr. and Mrs. W. J. Herrington were visiting his sister and family, Mr. and Mrs. Max Orr in Ranger Sunday. Tuesday they motored to Haskell County where they own a large farm.

Mr. and Mrs. F. D. Hicks motored to Sealy last Friday and came back Sunday. Their granddaughter, Kay Ann Brune returned to Sealy with them after a two weeks visit with her grandparents. She is the daughter of Mr. and Mrs. Dee E. Brune.

Ola Frances McBride Buried Wednesday at May; Ill 12 Days

Mrs. Ola Frances McBride, route 1, May, died in a Brownwood hospital Tuesday at 1:45 a. m. after an illness of 12 days. Mrs. McBride had spent her life in the May community and had many friends who will miss her cheerful smile and kind disposition. Funeral services were held Wednesday afternoon at the Calvary Baptist church in May at 2 o'clock. Rev. Reeves was the officiating minister. Interment was in the Rising Star cemetery. Higginbothams made necessary arrangements.

Born in Eastland county April 17, 1908, the deceased was 45 years, 4 months and 8 days old at the time of death. Mrs. McBride was a member of the Baptist church.

Surviving relatives are her husband, Frank McBride, five children, Harold, Martha, Jerry, and Helen McBride, all of May and Mrs. Bennie Williams of Little Rock, Ark.

Brothers are Houston Howell, El Paso; Clifton Howell, California; Alton Howell, Denver, Colo.

Sisters are Mrs. Mary King, Pyote, and Mrs. Lee Ella Cannon.

September 15 Date Set to Have Cars Inspected New Law

AUSTIN, July 29. (Spl.)—The new period, during which Texas motorists will be required to have their auto inspected under the new modified Motor Vehicle Inspection law which was enacted by the recent 53rd Legislature, has been unofficially set for September 15, 1953, through April 15, 1954, it was announced today by Col. Homer Garrison, Jr., Director of the Texas Department of Public Safety.

Garrison said that the State Public Safety Commission has advised him that they will confirm the designation of the new period on August 26, the effective date of the new act. The old law which aroused much controversial argument during the last session of the Legislature will expire at midnight August 25 and no inspections will be made under its provisions after that date.

Garrison explained that this means that no inspections of any sort will be made between that time and the beginning of the new period on September 15th. The modified law calls for inspection only of brakes, lighting equipment, horns, rear view mirrors and windshield wipers. "In view of the fact that the inspection stations throughout the state are already set up and equipped to perform this work," Garrison said, "we feel that the full seven months of the new period will afford motorists ample time to have their vehicles inspected."

DUBLIN RODEO QUEEN—Pretty Arlyne Moore of Dublin, Texas has been selected Queen of the Pre-Madison Square Garden Rodeo to be held at Dublin on Sept. 2-3-4-5. Miss Moore not only looks well in rodeo parades, but is also an excellent rider.

He urged, however, that car owners not wait too long lest they get caught in a last minute rush to meet the inspection deadline.

Mrs. J. J. Montgomery, Mrs. F. B. Joyce, Mrs. Florence Graves and Mrs. C. H. Joyce spent the week end visiting relatives in Fort Worth. Mrs. Graves brought her grandson, Jackie Clay home with her for a few days visit and Mrs. Gerald McLeod and son, Rickie came home with Mrs. F. B. Joyce for the week.

Mrs. Hazel Butler visited the O. L. McCullough family in Brownwood Sunday afternoon. Mrs. Ray Butler and baby daughter, Amy of Alice, and Mrs. B. W. Lawson, Lubbock, visited in the home of Mrs. Hazel Butler. Mrs. Ray Butler is a daughter-in-law of Mrs. Butler.

John Hancock reported Tuesday that his son, Joe, in the Kermit hospital is improving nicely. Mrs. Beyrl Heath has recently had the following visitors: Mr. and Mrs. John Vale, Houston; Mrs. Groce Doyle, Pharr; Mrs. Bessie Solley, Brownwood; the Bunyan Price family of Denver City; Mrs. Newell Farmer, Midland; Mrs. Lela Parker, Breckenridge; Mr. and Mrs. H. O. Kelly, Blanket and Mrs. Agatha Jones, Weslaco.

Soil Districts Need 40,000 Pounds of Hairy Vetch Seed

Local Soil Conservation District Supervisors, in a meeting held August 21 stated that the districts would buy hairy vetch seed for resale in the Rising Star area.

B. B. Hickman, member of the board of supervisors, Upper Leon SCD, in expressing concern over a vetch seed shortage in the area said that the Upper Leon SCD would buy 25,000 lbs of seeds if available and resold to farmers in the Rising Star area.

G. G. Goss, chairman of the board of supervisors, Brown-Mills SCD shared Hickman's concern and said that his district would buy 15,000 lbs. of seed for resale in the May area.

"I anticipate a big demand for seed vetch this fall if moisture is favorable but as things look now the seed will be scarce. Not many farmers in the area have seed and since other areas in the state will be planting vetch, I doubt whether there will be enough seed to meet our needs," Goss said.

It is recalled that Hickman was instrumental in organizing the Rising Star Hairy Vetch and Abruzzi Rye Association and at one time planted as much as 500 acres of vetch on his farms in the Blake area.

Mrs. Willie Underwood, who has been quite sick for a few days, is better at this writing.

Weather, such as prevails now over the state, tests the management skills of the home gardener. Proper cultivation, irrigation and mulching are garden practices which will pay off during dry, hot weather. Insect control, too, is a must.

Fair Dates Are October 1, 2 and 3 Plans Complete

Bill Button and T. T. Terry announced the first of the week that Stinnett's Carnival has signed a contract to bring their show to Rising Star for the fall fair, dates October 1, 2 and 3. The carnival has a number of rides, ferris wheel and other amusements that will add much to the three day fair.

Button also announced that 40 local concessions would be operated by our own people and this will bring some added revenue to help defray expenses.

The parade will be staged, time of day to be announced later. Some say in the afternoon while others think 10 in the morning. A meeting will be held at the Record office on Thursday afternoon at 1:30. All committee chairmen are urged to come to this meeting.

Plans are shaping up beautifully said chairman Jenkins and everyone is cooperating fine.

Quarterback club will have Ducking Stool at the fair according to the committee sponsoring concessions. Robert Butler, Jay Koonce, W. W. Harris and Glen Henry are on this committee. It was reported that \$7.50 would be the fee for concessions.

Rodeo on Thursday and Saturday Nights.

Horace Witt, vice president of the roping club announced there would be a rodeo on Thursday night, match roping on Friday afternoon and another rodeo Saturday night.

There will be no show on Friday night as the Wildcats play Cross Plains in conference football here October 2 at 8 in the evening.
