Gene Moore, worshipful master of the Rising Star lodge, expressed appreciation for all who came and helped make the centennial celebration a success.

The Masons Lodge here is part of a worldwide organization that donates millions of dollars each day toward charitable causes. Well known

across Texas and nationwide are the crippled children's hospital and burn institute in Texas supported by the Shriners, a part of the same organization.

Also in Texas is the Masonic home and school which takes in children of both Masons and nonMasons.

In addition to the funding of charitable causes, grand master Fred E. Allen of Mount Pleasant exhorted his fellow Masons to support programs that help eliminate illiteracy. He also encouraged the Masons to engender family participation in the group's activities.

## City Council Removes the Mayor From Office

After hearing four complaints against Mayor Henry Burk at the Rising Star City Council meeting Tuesday, Councilmen Charles Barnes, Billy Harmon, James Cook, and Randy Goldston unanimously found him guilty of three it was reported.

Electing to remove Burk from office, the Councilmen discussed but took no action on calling an election to fill the office of mayor.

Differences between the council and mayor have received widespread publicity following a physical confrontation at City Hall between Burk and Barnes. Both men filed charges but a Grand Jury refused to indict either. Burk also filed a civil suit against Barnes, which included a temporary restraining order to keep Barnes away from City Hall. The suit is set to be heard by a district judge Friday at 1:30 in Eastland.

The City Council's action

in removing the Mayor may keep the settling of the controversy mostly in Rising Star.

Burk was found guilty of not conducting municipal court since 1985, using city employees and equipment for work on private property and ignoring directives from the City Council, it was reported. But only one member considered Burk guilty of neglecting the City's fire department.

During an earlier council meeting, a cabin belonging to Councilman Barnes burned. Arson is suspected and the state fire marshal has visited the site.

A sizeable crowd attended this last council meeting, but Mayor Burk was not present and no one claimed to represent him.

Gene Moore was hired as an administrator for the City last week along with a new city secretary. Burk had previously acted as the city's administrator.

## USDA Announces Peanut Agri-Economics Course Is Being Offered at CJC

WASHINGTON - The U.S. Department of Agriculture announced December 6 that peanut growers will be asked to vote Dec. 10-13 in a mail referendum to decide whether poundage quotas and price support will continue for the peanut crops for the next five years.

The Food, Agriculture, Conservation and Trade Act of 1990 requires USDA to conduct the referendum no later than Dec. 15.

If two-thirds or more of the

producers voting favor poundage quotas, no referendum will be held for the second, third, fourth and fifth years of the period and quotas and price support will remain in effect for the 1991 through 1995 crops of peanuts. If more than one-third of the producers vote against quotas, poundage quotas and price support will not be in effect for the 1991 crop peanuts. However, another referendum would be conducted next year to determine if quotas will be in effect for the 1992 through 1995 crops.

Producers are eligible to vote if they were engaged in the production of quota peanuts in 1990. Producers are ineligible to vote if their only interest in peanut production in 1990 was on a farm on which the land harvested for nuts was one acre or less, there was no poundage quota, or the production was for consumption exclusively as boiled peanuts.

In a 1986 referendum, 97.4 percent of the 21,456 peanut growers who voted, cast ballots in favor of poundage quotas for the 1986 through 1990 crops of peanuts.

## Tax Rebate

Eastland County's five cities' net payment this period is \$41,176.54; the 1989 payment at this time of \$39,887.84, an increase of 3.23%. The 1990 payments to date for the cities is \$630,305.82, compared to the 1989 payments of \$595,249.47, an increase of 5.89%.

## Kid's Holiday Fun Means Crafts

For children eagerly awaiting Christmas, the days often go by much too slowly. One solution is to involve youngsters in holiday preparations such as making home-made ornaments.

Children can easily make stuffed felt ornaments without using a needle and thread. Materials you'll need are: felt in bright colors, scissors, construction paper, Elmer's Glue-All®, and trimmings. Draw simple patterns of stars, diamonds, animals, teddy bears, the outline of trees, or even Santa.

Older children can use the patterns to cut their own felt pieces, and parents can help the young ones. Cut two of each pattern.

Next take one piece from each pair of felt shapes and glue a small wad of cotton in its center. Glue a loop of yarn or ribbon at one edge for hanging later.

Now the creativity begins. On the second piece of felt, children can arrange sequins, faux jewels or beads, colored pipe cleaners, scraps of felt, macaroni...the possibilities are endless. Once the decorations are arranged, glue each piece to the felt. For heavier objects (such as large beads), try a glue with a quick tack and strong hold, such as Elmer's Tacky® Glue. Glue both pieces of felt together (try clamping the edges with clothes pins) and let ornaments dry overnight.

## Fishing Outdoors

By Terry L. Wilson

### FISHING OUTDOORS

#### The 4th Season

Fishing is no longer a spring/summer sport. The times have changed. Ice and cold water fishing have long been with us. But, sport fishing today is undergoing a remarkable evolution. New specialized equipment, warmer clothing and new fishing techniques have brought about attitude changes associated with cold water or ice fishing from the part, bigger fish, more social/family orientation, mobility, more fun, and yes, even more comfort!

All of these elements, have contributed to the tremendous increase in participation and popularity of "4th Season Fishing." Conversely tradition and misapplied fishing tackle have been inhibiting factors suppressing growth. In particular, fishing tackle designed for warm weather conditions and introduced unnecessary frustration.

Monofilament lines become stiff and brittle. Summer use rods are not specifi-

cally designed for ice fishing, but rather are "improvised" from old or broken summer tackle. Heavy weight tackle is being used at a time when fish respond best to lightweight presentations.

Until now, no major tackle company has made an effort to apply tackle technology to "4th Season" fishing.

For 1990, Berkley introduced a full family of products specifically designed for "4th Season." Trilene cold weather line, new 100% graphite "Northern Lites" ice fishing rod series, new Berkley Power Baits, new Neoprene Fishing Gloves and new Berkley Tip-up Line.

A full family of innovative new products specifically designed for cold weather angling.

Berkley is a technological leader in fishing tackle. The addition of this new contingent of "4th Season" tackle reinforces Berkley's commitment to help grow interest and participation in sportfishing.

The rationale for making

this investment in the future of fishing was brought into focus by Berkley's V.P. of marketing, Paul C. Johnson. Our market research indicates that sportfishing in the 1990's will change at a more rapid pace. In particular dramatic changes are destined to take place in the "4th Season" cold weather segment of the market. Berkley's introduction of technologically tuned tackle for this market segment will be a catalyst for this growth.

And 1990 has been just that for the fine folks at Berkley. The overall acceptance of the "4th Season" product line's has been excellent. Berkley's "Power Baits" have taken the fishing public by "bass leaps" and bounds and prompted a huge expansion, the least of which are PowerCraw worms, and Power Tube jigs. Perhaps two of the most popular lures available today.

I would like to say thanks to Berkley for the above information. Why not pick up some of these fine products for "Stocking Stuffers" for your outdoor person.

Dr. Gary Matlock, director of fisheries for Texas Parks and Wildlife Department, has been appointed to the newly created position of coordina-

tor for the Gulf of Mexico.

With the holidays just around the corner, I would like to urge everyone who now has a living Christmas tree to consider planting them in your favorite lake.

Many dock owners replenish their brush piles at this time. And most of the local bass and crappie anglers have at one time or another sunk a bunch for better fishing.

I guess you might consider this a type of recycling, the long way around. But its sure a lot more fun.

Terry L. Wilson

Happy Holidays

## Hance Opposed To Fifty Cent Tax On Gasoline

Recent news articles have suggested that the Department of Energy is considering a 50-cent tax on gasoline as part of a national energy plan that will be announced early next year. "A 50-cent tax on gasoline would be detrimental to both Texas motorists and producers," said Kent Hance, Chairman of the Railroad Commission of Texas. The national energy strategy that will be submitted by the Department of Energy to President Bush will contain a number of options. Both the Bush Administration and the Department of Energy are currently reviewing all proposals and have not endorsed any specific options to be included in a national energy plan.

"After expressing my concern over the possibility of such a tax to Admiral Watkins, Secretary of Energy, I'm convinced that this proposal

will not be included in any national energy policy offered by President Bush," Hance continued. "The tax proposal was just one of the many suggestions that were offered in nation-wide hearings held by DOE over the past year."

Hance added, "Instead of using the worn out idea of raising taxes to solve every problem, I believe that a national energy policy must focus on increasing domestic energy production. We must realize that our national interest is best served by the production of domestic energy, rather than a continued growing dependence on foreign supplies. Our national defense will continue to be in jeopardy until this problem is solved. The need to assure our nation's future domestic energy supply is made very obvious by the current Middle East crisis."

## Texas Gas Production Down In September

Railroad Commission Chairman Kent Hance announced that Texas oil and gas wells produced 437,147,143 Mcf (thousand cubic feet) of gas in September, compared to the August gas production total of 448,113,163 Mcf. September production was down 0.02 percent compared to September 1989 production of 438,178,600 Mcf.

The state's top producing counties, rank ordered by preliminary production, were: Pecos, 25,877,302 Mcf;

Zapata, 20,961,306 Mcf; Webb, 20,087,052 Mcf; Panola 17,051,252 Mcf; Hidalgo, 15,429,483 Mcf; Crane, 11,808,708 Mcf; Hemphill, 9,200,222 Mcf; Yoakum, 8,995,185 Mcf; Crockett, 8,800,137 Mcf; and Ector, 8,489,934 Mcf.

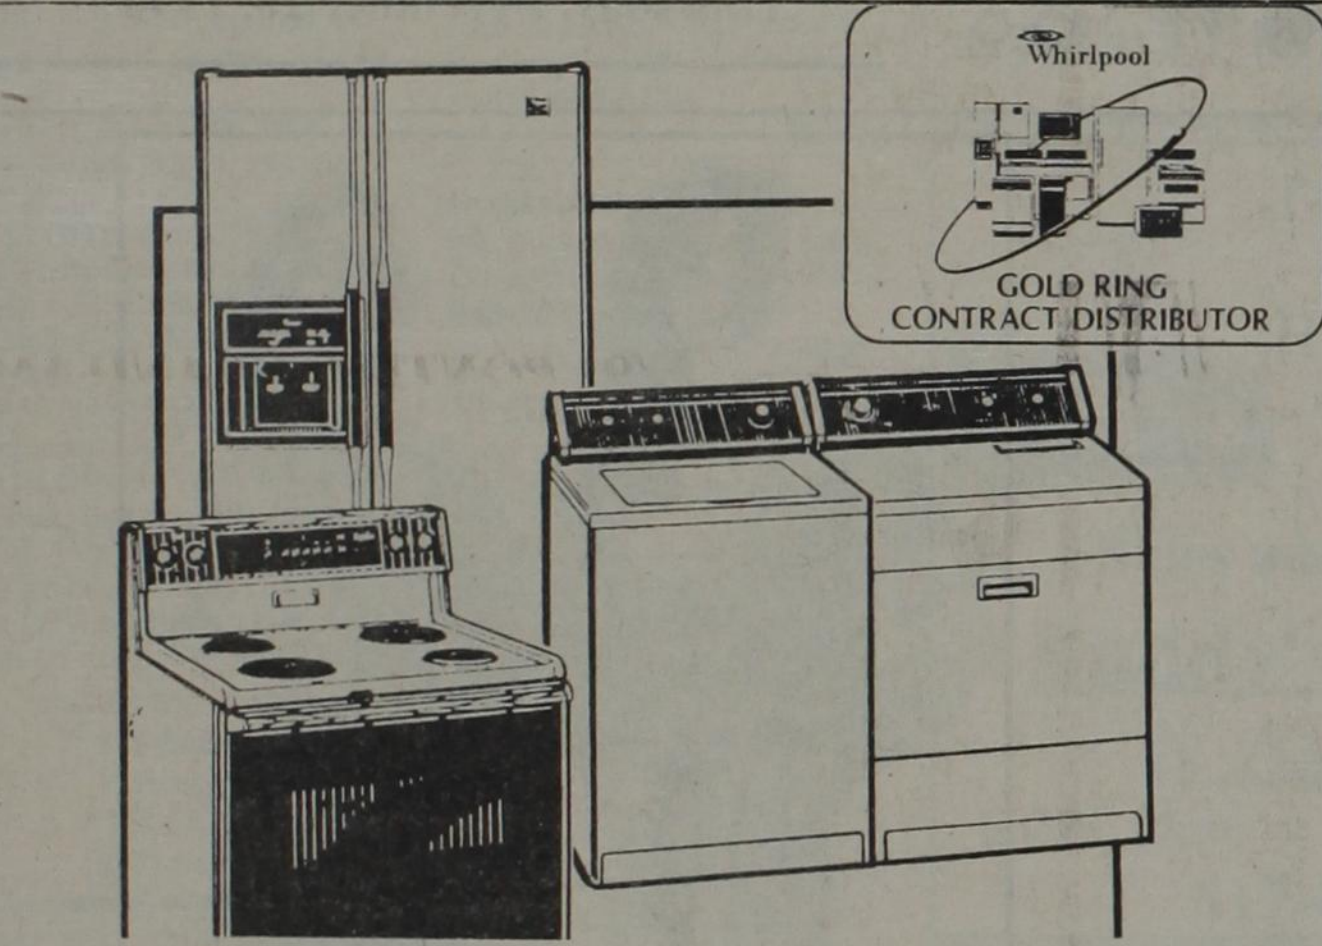

Texas gas production in September came from 181,444 oil wells and 46,876 gas wells.

Gas production in Eastland County for September totaled 962,246 Mcf.

## It's All 'Fun And Games' As Sea World Parades Te Pasadena

Animated sea characters will splash down the streets of Pasadena as Sea World joins in the "Fun and Games" of the 102nd Tournament of Roses Parade Jan. 1.

For this year's entry, "Skiing is Believing," Shamu

the killer whale pulls a pyramid of unusual water skiers along the parade route. With a bird's-eye view from atop the pyramid is a river otter balancing on two penguins, a walrus and a sea lion. This 85-foot float is the longest entry in this year's parade.

In keeping with the theme of this year's Rose Parade and joining in on the "Fun and Games" of this hilarious Sea World skiing adventure are an octopus and a crusty pelican. The octopus has the dubious job of holding the ragtag crew together with a few spare tentacles while the pelican struggles with the lead end of the tow rope as he's perched on the tip of Shamu's tail.

Sea World's entry is classified by the Tournament of Roses as an "extraordinary float" due to its length. Because of size limitation for float competition, Sea World voluntarily disqualified its entry from judging.

"We're excited about participating in one of the most festive and anticipated events of the year, the Tournament of Roses Parade," said Sea World's Bill Thomas, senior vice president of marketing.

"Our float, Skiing is Believing, depicts nine Sea World animals and the best way to show-off this group of animated characters is to do it bigger and better than ever."

Sea World entered the Rose Parade for the first time in 1989. That year the park's float, "Jump For Joy," was awarded the Tournament Special Trophy.

The float's black and white killer whale, decorated with a mixture of black onion seeds,

lavender and white chrysanthemums and carnations, is representative of Sea World's own real-life killer whales, Shamu, Namu and Baby Shamu. Sea World first displayed these majestic marine mammals in 1965. Twenty-five years of research has revealed a great deal of these animals. Among the most fascinating of Sea World's research projects is an ongoing killer whale breeding program. Five killer whale calves have been born at Sea World parks in California, Florida and Texas.

The construction and design of "Skiing is Believing" is truly a challenge to the team of craftsmen from Festival

## Safety Belts Will Improve Odds During Accidents

A safety belt won't keep you from having a wreck — but it will improve your odds if you do.

"Buckling up can make the difference between being a survivor and being a statistic. Members of the Texas Safety

Artists of Azusa, Ca. Nearly 40 people and more than 5,000 man-hours will be required to construct this year's Sea World's entry. The park's float consists of a variety of flowers ranging from Pin-cushion Proteas imported from Africa to Dutch Iris and thousands of white roses.

The 1991 Tournament of Roses Parade will be televised on ABC, CBS, NBC and Fox networks as well as independent stations in the United States and around the world.

Belt Survivors' Club can attest to that," said George R. Gustafson, president of Texas Safety Association and a spokesperson for the Texas Coalition for Safety Belts.

Two hundred fifty Texans joined the survivors' club in 1990. Each survived a potentially life-threatening crash through the use of safety seats. Eight survivors had the extra protection of air bags, too.

"But a safety belt still gives the best all-around protection for adults, even if there is an air bag," Gustafson said. "We encourage all Texans to buckle up and survive this holiday season."

For more information on the Safety Belt Survivors' Club, contact the Texas Department of Health at 800/252-8255.

## Senior Center News

We are having a birthday party for Mrs. Ida Seeber Saturday.

Wanda and Ronney Burns from Abilene spent Thanksgiving with Betty Raybon. Robert Evans and family from Houston and H.D. Martin from Eastland were also there.

Powell and Christian Armstrong visited Oral and Amy Davis last week.

We had our Christmas Party at 4 p.m. last Tuesday evening at the center. There was a nice crowd and some of the greatest food anyone could ask for. We exchanged gifts from the tree by numbers.

Thursday, December 20, we will have our Christmas

and birthday luncheon. We will honor those who have December birthdays.

We wish to thank Anna Lovell and Bonnie Polk for playing Christmas carols for us at the center. Everyone enjoyed them.

After lunch last Thursday several ladies got things ready for Saturday's rummage sale.

A big thanks goes to those who have donated door prizes for our drawing each Thursday.

We wish to thank the nursing center for the lovely Christmas pot plant. We really appreciate it.

Have a good week!

The community received about half an inch of rain by Monday morning.

Novilia Barton visited with Joe and Nell Fleming on Thursday. JoVeda and Bill Watson of Byrds Store spent the day with them Sunday. Jolene and several of her friends, who had spent the night with her Friday, came over and visited with Joe and Nell Saturday morning. They were celebrating Jolene's 10th birthday.

Frankie and Oliver went to Stephenville on business and then played golf at the Legend Golf Course, spending the day Monday. Sunday they visited Frankie's father and her sister in Ranger.

program.

He made the breaks interesting with "magic" tricks but "went by the book" in the instruction, which included slide pictures.

Another course may be offered in Cross Plains in a few weeks. We assume the newspaper will carry the announcement in plenty of time to prepare for it.

Men get osteoporosis, too, say researchers at Oregon Health Sciences University. Doctor's advice is the same for women: more calcium and vitamin D, more weight-bearing exercise, less smoking and alcohol.

Before shoveling snow, people with heart disease should acclimate their bodies with a 10-minute walk or other strenuous activity, say doctors at Northwestern Memorial Hospital in Chicago.

Experimental procedure, reported in the Journal of the American Medical Association, uses a laser to reshape the cornea to improve visual acuity. "Cold" laser, which does not burn or boil tissue, is also being tested to remove corneal scars.

Effective help for bed-wetters: new once-a-night nasal spray. Antidiuretic hormone signals the body to send less water to the bladder.

The journal Geriatrics reports application to the skin of a lotion containing aspirin provided some patients with some relief from the pain that follows an attack of shingles.

The Ladycats basketball team achieved its very first win at home last Thursday night against the Novice Ladyhornets. The Novice girls' team had beaten the Ladycats in two previous games, therefore this was a hard-earned and joyous victory for the Cats!

At the end of the 1st quarter the Ladycats were four points down, but the Rising Star defense was unbeatable. Throughout the remainder of the game the Ladycats gradually pulled ahead.

Scorers for the home team were Wendy Green, 14; Stephanie Sizemore, 7; Gherda Williams, 7; Christi Bush, 3; and Betty Jones, Jo Linney and Emily Stuteville each with 2 points. These point makers made the resulting score 37-24.

The eighth grade girls came out on top with a whopping lead of 35 to 9! Way to go, team!

The game was the seventh and eighth grade boys' game, lost by one point to the Mountaineers - 24 to 23. Good try, guys! Get 'em next time!

The next game will be after Christmas holidays, on Monday, January 7, at 6 p.m. at May. Have happy holidays and we'll see ya at the game! Merry Christmas and Happy New Year!

Q. I try to take good care of my son's teeth, but I'm worried that he eats too much candy. Do you have any suggestions?  
A. Actually, research has shown that chocolate candy may even slow down the development of decay-causing plaque. It appears that the cocoa in chocolate can inhibit the enzyme which breaks down sucrose (a type of sugar that contributes to plaque and decay). Also, cocoa butter is easily cleared from the mouth, and leaves little residue behind. Of course, your son needs to eat a well-balanced diet. And he still needs to develop good dental hygiene through regular brushing, flossing and visits to the dentist. But the "candy menace" may not be as great as you think!

This column is presented in the interest of better dental health. If you have any dental questions you would like answered, please contact the office of Dr. Cone C. Rice 963 East Main Str. Eastland, Texas Phone: 817-629-3843

## Santa-Face Cookies For The Kids In All Of Us

So many of the cookies we so love this time of year are based on butter cookies...probably because they keep so well and taste so good. These whimsical Santa-Face cookies from the American Dairy Association test kitchens are short, tender, light and delicate and will keep for up to two weeks stored at room temperature in an airtight container.

The butter cookie experts at ADA recommend using quarter pound sticks or pound pieces of butter, never whipped butter, when making these or any other butters cookies. Use butter that is firm but not too hard. Cut cold butter into small pieces and it will quickly whip to the creamy state. If you're over zealous in the beating or if the butter is too soft, you'll need to add extra flour and that renders the cookies less tender.

To firm up dough that is to be rolled out so it won't stick to the rolling pin or surface, chill it in the refrigerator for one to two hours. Or, chill it in the freezer for 20 to 40 minutes.

Work with a third of the dough at a time, wrapping what if left in plastic wrap and returning it to the refrigerator so it stays firm. Roll the dough on a lightly floured surface such as a pastry cloth or countertop. Using a floured rolling pin, work from the center to the edges. Cut the dough into shapes, using cookie cutters dusted with flour to prevent sticking. Or cut out shapes with a sharp knife using a cardboard pattern. Reroll scraps left from the cutouts to cut more cookies. Though this can toughen dough, rerolling on a surface

dusted with a mixture of equal parts flour and powdered sugar will toughen it less than rerolling on flour alone.

With so many things to do during the holidays, few of us have the inclination for tedious decorations, but the jovial Santa's countenance is deceptively easy with currants for his eyes and a cinnamon candy for his nose. Color his cap and mouth using red food coloring diluted with water to desired shade and a small paint brush. His wispy beard is equally simple. Before baking, place a small amount of the dough in the cavity of a garlic press. Squeeze the handles together, forcing the dough through the holes. Use a knife to break off the strands and apply to Santa's face.

### Santa Face Cookies

Yield: 24  
 1 cup (2 sticks) butter  
 1/2 cup granulated sugar  
 1/2 cup firmly packed brown sugar  
 2 tablespoons milk  
 1 teaspoon vanilla extract  
 2 1/2 cups all-purpose flour  
 Currants  
 Red cinnamon candies

Food Colorings  
 Miniature marshmallows  
 Decorator's frosting  
 Cream butter until fluffy. Gradually beat in sugars until light and fluffy. Mix in milk and vanilla. Mix in flour. Chill dough 1 to 2 hours for ease in handling. Preheat oven to 375 F. Work with about one-third of dough at a time, leaving remainder in refrigerator. Roll on lightly floured surface to 1/4-inch thickness. Cut into Santa Faces using floured cookie cutter. Place on unbuttered cookie sheets. Make face using currants for eyes, a cinnamon candy for nose. Paint cap and mouth using red food coloring diluted with water to desired shade. Paint eyebrows using brown food coloring or cocoa powder and water mixture. To make curly beard, press small pieces of dough through a garlic press. Place on cookie to form a beard. Bake 10 to 12 minutes, or until cookies are just golden. Cool pan 1 minute. Remove from pan and cool completely on wire racks. Place 3 or 4 miniature marshmallows at end of the hat for tassel; secure with small amount of decorator's frosting. Store at room temperature in airtight metal container up to two weeks.

**Make Holiday Entertaining Healthful And Fun**

In every family, it is important to maintain holiday traditions for the next generation...and those to follow. Many fond memories are created during caroling parties, family decorating sessions and cookie baking. Every family has its own unique traditions...and as children grow and begin their own families, some old traditions take hold and new ones begin.

**Update your recipes**  
As families get busier, some traditional customs need to be modified to fit into their schedules. And, some traditional holiday foods might need to be updated to reduce their calorie and fat content. People are getting fit and trying to stay that way. They are watching their weight, blood pressure and cholesterol levels, too.

Creating warm memories for the family during the holidays doesn't have to be difficult or time consuming. A simplified holiday treat will take the stress away from the baker...and the family will still love the tradition it represents.

**Start a new tradition**  
Sometimes creating a tradition can be as easy as updating an old favorite. The home economists at Oster have updated three holiday favorites that your family will love. Why not try all three soon?

*Here's a nonalcoholic replacement for champagne punch. Sparking and delightful, it is sure to please.*  
**SPARKLING**

**HOLIDAY PUNCH**  
2/3 cup unsweetened grapefruit juice  
2 Tablespoons lemon juice  
1/2 cup sugar  
1/4 cup drained maraschino cherries  
2 cups ice cubes  
1 can (12 ounces) chilled ginger ale

Put grapefruit juice, lemon juice and sugar into blender container. Process at low speed until sugar is dissolved. Add maraschino cherries and process at high speed, remove feeder cap and add ice, processing until slushy. Slowly pour in ginger ale and pulse once at low speed to combine. Serve immediately.

Yield: 4 cups.  
*If your family loves egg nog, but the cholesterol level scares them away, they'll love this low cholesterol, lower calorie version.*

**LOW CHOLESTEROL EGG NOG**  
1 carton (8 ounces) frozen egg substitute, thawed  
1/4 cup water  
1 cup instant nonfat dry milk powder

5 tablespoons sugar (or 6 packets sugar substitute)  
1/2 teaspoon vanilla  
Dash nutmeg  
12 ice cubes  
Put egg substitute, water, instant nonfat dry milk powder, sugar, vanilla, nutmeg and 6 ice cubes into Osterizer blender container.

Cover and process at a high speed until smooth. With

motor running, remove feeder cap and gradually add remaining ice cubes.

Continue processing until smooth.

Four into cups, sprinkling with additional nutmeg.

Yield: 4 servings  
*If making gingerbread cookies takes too much time, why not make delicious gingerbread bars? They're quick and easy...and the house will smell so good!*

Apple Cream Cheese frosting (below).

Yield: 24 bars  
**APPLE CREAM CHEESE FROSTING**  
4 ounces cream cheese, softened

2 cups powdered sugar  
2 tablespoons butter or margarine, softened  
2 tablespoons apple juice concentrate, thawed

Assemble mixer. In small mixer bowl, combine all ingredients to a low speed until smooth. Increase speed to medium and mix until a spreading consistency is reached.

Yield: 1 1/3 cups.
